# Past as Our Pillar, Future as Our Focus

The learning and knowledge ecosystems around us are transforming, shaped by policy shifts, digital acceleration, and evolving learner expectations. Against this backdrop, resilience must be matched by reinvention, and legacy must be reimagined for relevance.

For over six decades, we have not just been a brand in education and stationery, we have been a cherished part of everyday learning, a trusted companion in school bags, on bookshelves, and in the formative memories of generations. Our journey began with a simple conviction: that knowledge should be accessible, engaging, and enduring. That belief became our bedrock, shaping us into one of India's most trusted educational partners.

Today, as the learning ecosystem evolves, so do we. Our content publishing vertical is poised for a thoughtful transformation. With curriculum reforms on the horizon and cost environments stabilising, we are building greater agility, deeper insights, and a stronger commitment to shaping the future of learning.

The year 2024-25 tested our resilience, especially, in the domestic stationery market, where pricing pressure and competition from unorganised players created temporary headwinds. But true to our legacy, we responded not by stepping back, but by stepping forward, with reinvention.

While the local landscape paused, our export stationery segment gained momentum, powered by new product launches, expanded market reach, and a rising global appetite for quality and creativity. We bridged the timeless and the timely, launching forward-looking offerings and embracing technology as a means to stay relevant.

At Navneet Education Limited, trust anchors us - but progress propels us. We do not merely preserve our legacy, we build on it. With innovation as our compass and impact as our goal, we are ready to turn the next page with clarity, imagination, and conviction.

Our Approach to Reporting

## **About Our**

## Integrated Report

Our 2024-25 Integrated Report encapsulates both our financial and non-financial performance for the year, offering a comprehensive update to our stakeholders on our governance practices, material issues, risks, opportunities, strategy, and future outlook. Through this report, we present Navneet's vision for driving digital transformation, aligned with our core purpose, strategic priorities, and business model. It provides a transparent account of how we generate value for our stakeholders in the short, medium, and long term, encompassing our financial outcomes, environmental initiatives, societal contributions, and key achievements.

#### Scope of Reporting

#### **Reporting Period**

This report is published annually, covering the period from 1<sup>st</sup> April, 2024 to 31<sup>st</sup> March, 2025.

## Reporting Boundary

The Report provides a comprehensive overview of our operational and business development initiatives. It explores our business divisions in India and abroad, highlighting activities that drive value creation across the short, medium, and long term. Additionally, it includes details about our subsidiaries: Navneet Futuretech Limited, Navneet (HK) Limited, Navneet Learning LLP, Navneet Tech Ventures Private Limited, and Indiannica Learning Private Limited.

#### Financial and Non-Financial Reporting

This report extends beyond financial metrics to encompass Navneet's non-financial performance, opportunities, risks, and outcomes linked to our key stakeholders, who play a vital role in shaping our capacity to create value.

#### Targeted Readers

This report is primarily designed to meet the information needs of long-term investors. It also seeks to present insights relevant to how we create value for other key stakeholders, including employees, customers, regulators, and society.

#### Materiality

This report highlights information that is critical to our business, offering a concise summary of the Company's performance, future prospects and commitment to delivering sustainable value to all stakeholders. It reflects the legitimate interests of our stakeholders, ensuring that all relevant material information is included.

#### **Our Capitals**

Our capacity to create long-term value is intrinsically linked to the various forms of capital at our disposal (inputs), how we utilise them through value-enhancing activities, the impact we have on these capitals, and the value we generate (outputs and outcomes).

**Products and Services** 

# Serving Varied Needs,

# Supporting Every Learner

At NEL, our diverse product suite is designed to inspire and empower learners, educators, and professionals alike. From a wide range of educational content to innovative digital solutions and premium stationery, our offerings cater to a wide range of needs, ensuring excellence at every touchpoint. With a steadfast commitment to quality and innovation, we continue to redefine learning experiences and drive meaningful impact across both domestic and international markets.

#### Content Publishing

NEL's content publishing segment forms the foundation of our legacy, offering high-quality educational content tailored to diverse curriculum. Our publications, developed by expert authors and editors are known for their accuracy, relevance and alignment with evolving educational standards. We offer a wide range of supplementary learning resources from guides and digests to practice books, designed to support students in consolidating their understanding and improving outcomes.

Building on our legacy of delivering exceptional educational content, we are committed to offering a dynamic and diverse range of cutting-edge EdTech solutions. Our mission is to empower students with the skills, confidence, and knowledge they need to thrive in the future. By embracing a holistic approach to learning, we aim to nurture both academic proficiency and a learner-centric mindset, equipping students to succeed across disciplines and in an ever-evolving world.

We have successfully established a strong presence in both traditional paper-based and modern non-paper stationery markets, catering to customers domestically and globally.

#### **Domestic**

Our popular stationery brands, YOUVA and HQ, have gained widespread recognition for their diverse range of high-quality products designed to meet varying customer needs. Over the past year, the demand for branded, quality stationery across India has remained robust, reinforcing our leadership in this segment.

#### **Exports**

With exports reaching over 40 countries, we are proud to be India's largest stationery exporter to prominent retail chains such as Walmart in the US. Benefitting from the China+1 strategy and our proactive efforts to expand our non-paper product portfolio, we remain optimistic about the growth potential of this segment. Our strong presence in key global markets, including the US, Europe, Australia, the Middle East, and parts of Africa, reflects our commitment to delivering innovative and reliable stationery solutions worldwide.

**Content Publishing Vertical** 

# Transforming Education,

# Elevating Content Publishing Excellence

For generations, our textbooks and supplementary materials have been at the heart of countless educational journeys, empowering students and educators with reliable resources. As a pioneer in content publishing, we remain committed to continually raising the bar, delivering content that not only meets but exceeds evolving academic standards.

Our content publishing portfolio features a diverse array of resources, including textbooks, workbooks, guides and question banks, meticulously tailored to align with state, CBSE, and ICSE syllabuses. These offerings are thoughtfully designed to equip learners with high-quality study materials, fostering academic excellence and helping them realise their full potential. At Navneet, our mission is to deliver exceptional learning tools that enrich every stage of the educational journey.

#### **Segment Highlights**

In 2024-25, our content publishing segment registered modest growth of 3%, largely due to limited curriculum revisions and increase in sell of second-hand books. Anticipating a demand upswing with the new curriculum in 2025-26, we focussed on strengthening our CBSE portfolio and embedding digital components across all titles. These strategic investments, while temporarily impacting margins, are critical to deepening our reach in an increasingly digital education ecosystem. We also launched an AI-powered solution to support over 1,000 schools, aimed at enhancing teacher productivity and elevating classroom delivery.

# Navneet Al Is Shaping the Future of Learning

FROM TRUSTED CONTENT TO INTELLIGENT CLASSROOMS

In a time when most AI tools in education are designed as generic student-facing chatbots, Navneet has taken a strategic and purposeful leap forward by building a platform that puts the power of AI directly in the hands of educators.

Navneet AI is India's first Custom Education Model, purpose-built to empower teachers with intelligent, curriculum-aligned tools. It reimagines how AI can be used in education — not as a one-size-fits-all chatbot, but as a deeply integrated, classroom-ready solution that addresses the real, everyday challenges faced by schools and teachers.

#### Built for Teachers, Not Prompts

Unlike conventional generative Al tools that rely on prompt engineering and complex file inputs, NavneetAl eliminates the barriers to adoption:

- No prompts or uploads required
- No reliance on external data sources
- No risk of hallucinated or inaccurate outputs
- No fragmented subscriptions or privacy risks

Teachers simply enter a topic, and NavneetAl generates accurate, curriculum-aligned teaching material in just a few clicks.

#### Powered by a Multi-Agentic Al Architecture

At its core, NavneetAI is built on a multi-agentic architecture, where multiple specialized AI agents work together to generate outputs that are reliable, relevant, and classroom-ready. These include:

- Curriculum Alignment Agent
- Content Structuring Agent
- Visual Design Agent
- Assessment Creation Agent
- Quality Verification Agent, among others

This powerful system is fine-tuned using over 100,000+ proprietary digital resources, developed by academic experts at Navneet — ensuring deep alignment with CBSE, NCERT, and state board standards.

### From Content to Classroom Execution

NavneetAl is more than content generation. It is a full-stack platform designed to augment the entire teaching journey:

#### Magic Tools: Intelligent, Instant Teaching Aids

Teachers can generate:

- PPTs
- Quizzes
- MCQs & Descriptive Homework
- Flashcards
- PDF Summaries
- And more

All by simply entering a topic.

#### Magic Board: Al Augmented Content Delivery

#### Teachers can:

- Search or browse curriculum-aligned Navneet content (viz. video, textbook, images)
- Pull content directly onto the Magic Board
- Use NavneetAI tools to summarize, quiz, extract key concepts, and personalize content in real time

#### Magic 3D: **Immersive** Concept Visualization

Navneet AI includes a growing library of 20+ interactive 3D models, covering:

- Human Anatomy
- Plant Anatomy
- The Solar System
- Atomic Structures, and more

Teachers can rotate, zoom, and dissect these models, making abstract concepts tangible and engaging.

#### Magic Games: Learning Through Play

Teachers can instantly access or create interactive games aligned to their subject matter, using pre-designed templates that bring engagement into every classroom.

#### Magic Simulations: Practical Learning, **Digitally Delivered**

With 50+ science and math simulations, teachers can demonstrate experiments step-by-step — bringing a practical, visual layer to theoretical learning.

#### Magic Bot: An Always-On Al **Teaching Assistant**

Navneet Al also features an intelligent Magic Bot — a teacher's Al co-pilot. It answers questions, generates activities, identifies real-world applications or innovations - all from white-listed trusted sources or Navneet's content.

#### **Putting Control** Where It Belongs: With Teachers

Navneet AI does not replace educators. It amplifies their role. Every piece of content generated by NavneetAI can be reviewed, refined, or rejected by the teacher. This ensures professional agency, accountability, and trust stay at the center of every classroom.

#### Designed to Scale, **Built to Last**

With Navneet AI, Navneet combines the strength of its 65-year legacy in academic content with cutting-edge AI to deliver a platform that's custom-built for India's diverse educational ecosystem. It is safe, scalable, and future-ready, built to meet the needs of classrooms, not just algorithms.

Navneet AI is also strategically aligned with the goals of the NEP and the NCF, offering personalized, skill-based, and experiential learning in line with India's vision for 21st-century education.

For stakeholders and investors, Navneet AI represents a bold and timely investment in the future of Indian education. One that preserves the values of trust, teacher leadership, and academic rigor while unlocking the transformative potential of intelligent technology.

Encouraged by strong customer response, we have initiated the development of new categories such as canvas and wooden stationery, which are expected to reach commercial maturity over the next 2-3 years. To support this momentum and meet rising demand, we have committed targeted investments towards capacity expansion. As part of this plan, a new manufacturing facility, outlined in our earlier capex commitments, is expected to become operational in 2025-26.

#### Domestic Stationery Segment Highlights

In 2024-25, our domestic stationery business witnessed a 13% revenue decline, largely attributable to a 9% reduction in product realisations due to softer paper prices, along with a 4% drop in volumes. The volume contraction was largely attributable to intensified competition from the unorganised sector. However, with paper prices stabilising in the later part of the year and market sentiment beginning to recover, order flows showed signs of improvement. In response, we took proactive measures to strengthen our distribution network and accelerate

product innovation. These efforts focus on reinforcing our position in the domestic market and building a strong foundation for a return to sustainable growth in the years ahead.

## **Exports Stationery Segment Highlights**

In 2024-25, our export stationery segment recorded a growth of 12% growth, driven by strategic entry into new international markets and the continued expansion of our diversified product portfolio. 66

The decisions we took this year, some bold, some patient, reflect our long-term orientation. We are not chasing trends. We are building a future that stays true to our heritage while staying attuned to the needs of tomorrow's learner.

#### Dear Shareholders,

Every organisation has defining years, those that test its character, reaffirm its purpose, and help reset its course. For Navneet, the year gone by was one such moment. It may not have been marked by sharp growth or dramatic change, but by something far more foundational: resilience.

We operated in a landscape filled with uncertainty. On one hand, our content publishing business was constrained by delayed curriculum reforms and increase in sell of second-hand books. On the other, volatile raw material prices and a highly competitive domestic market posed headwinds for our domestic stationery business. And yet, through it all, we remained steady, anchored by the strength we have built over 60 years and guided by a clear understanding of who we are and where we are headed.

#### Macroeconomic Landscape

The year 2024 marked a period of relative global economic stability, with worldwide GDP expanding at a modest pace of 3.3%. However, as we advance through 2025, the international economic landscape is undergoing a fundamental recalibration. Policy responses across key economies are shifting, shaped by rising geopolitical tensions and mounting macroeconomic pressures.

A key development in early 2025 was the United States' decision to introduce a new round of tariff measures, prompting responses from several major trading partners. From 2<sup>nd</sup> April, 2025, tariff rates were revised upward, leading to heightened attention on the potential impact to global trade flows. A 90-day pause on further tariff action was later announced to allow diplomatic dialogue and a broader economic assessment. While the full implications for global supply chains and investor sentiment are yet to play out, the environment remains fluid, and businesses across sectors are approaching the situation with caution. Amid this unsettled global environment, India stands out as a

These changes will open opportunities not only in core publishing, but also in CBSE-aligned supplementary content and teacher support solutions.

beacon of resilience and momentum. The Indian economy grew by 6.5% in 2024-25, retaining its position as the fastest-growing major economy in the world. This strong performance was anchored in structural reforms, rapid digitalisation, and sustained public and private investment in infrastructure. Domestic consumption remained robust, while a revival in private capital expenditure helped broaden and deepen the growth trajectory. By mid-2025, the RBI had adopted an accommodative monetary policy stance, cumulatively reducing the repo rate by 50 basis points to 5.5%. These calibrated moves are designed to stimulate lending and investment, while maintaining vigilance on inflation. In doing so, India is not only navigating

global volatility with confidence, but also reinforcing its growing economic stature on the world stage.

#### **Adapting to Policy Shifts**

The year 2024-25 saw us navigate a complex and evolving educational landscape, both domestically and globally. On the home front, the long-awaited implementation of the National Education Policy (NEP) has begun in earnest, particularly through curriculum changes in states like Maharashtra and Gujarat. While these reforms currently affect lower grades with limited revenue impact, they mark the beginning of a multiyear transformation that will reshape content demand and gradually reduce reliance on second-hand textbooks. We are structurally well-positioned to benefit as this phased rollout gathers momentum.

We also view the broader vision of the NEP, including enhanced teacher training, improved classroom pedagogy, and a clear shift towards holistic, learner-centric education, as core enablers of our long-term strategy. While the implementation remains gradual, our Al-powered teacher support tools and future-ready content offerings are strongly aligned with the NEP's goals and philosophy.

At the same time, we are witnessing a steady shift in school board preferences towards CBSE and other nationally consistent curricula, which is already influencing the nature of our engagements with schools, educators, and parents. These changes will open opportunities not only in core publishing but also in CBSE-aligned supplementary content and teacher support solutions.

Globally, the operating environment remains uncertain. In the US, new waves of tariff measures and the potential imposition of anti-dumping duties on stationery imports from Asia, have created a sense of caution among exporters. While the final contours of such policy action are still evolving, Indian manufacturers like us remain relatively better positioned than peers in other regions, owing to compliant operational practices and efficient cost structures. That said, we are closely monitoring developments and proactively adjusting our product strategy to reduce dependence on generic, price-sensitive categories. Our pivot towards high-margin, differentiated stationery offerings, such as folders, metal accessories. and creative materials, has been informed by these evolving dynamics. Together, reform-led growth in Indian education and a rebalancing of global trade patterns, are shaping both the challenges and opportunities ahead.

## Financial Performance and Key Developments

In a year of transition, our financial performance was steady, if not spectacular. Our Revenue from Operations grew modestly by 2.36% year-on-year to ₹ 1,733 Crores, up from ₹ 1,693 Crores in 2023-24, reflecting steady demand across our core segments. Operating profitability improved during the year. Our EBITDA rose to ₹ 345 Crores, up from ₹ 313 Crores in 2023-24, with EBITDA margins expanding from 18.49% to 19.91%. This margin improvement was achieved through disciplined

cost control, better product mix, and operating leverage, particularly in the exports stationery category.

On a reported basis, Profit After
Tax (PAT) surged to ₹ 801 Crores,
compared to ₹ 188 Crores in 2023-24.
However, this sharp increase was due
to exceptional, one-time gains arising
from a fair value adjustment and
dilution impact on a specific asset.
Excluding these exceptional items, our
normalised PAT stood at ₹ 197 Crores
as against ₹ 207 Crores recorded in
the previous year. Correspondingly, the
normalised PAT margin reduced from
12.23% to 11.37%.

This pricing pressure was particularly visible in our content publishing segment, which posted modest growth for the year. The absence of syllabus revisions limit volume expansion, while pricing flexibility remained constrained. However, this performance does not reflect the full extent of the strategic groundwork laid during the year. We made significant inroads into the CBSE space, particularly in supplementary books and strengthened our direct

engagement with schools, initiatives that will drive stronger momentum as the curriculum evolves under the NEP framework.

Our stationery business, on the other hand, delivered good performance, especially in exports, which grew by 12%. We have consciously moved away from commoditised, paper-based products and doubled down on differentiated, higher-value offerings such as plastic folders, metal accessories, and canvas products. These segments are now scaling efficiently and contributing meaningfully to both topline growth and margin stability.

Domestically, we made a successful foray into new category of non-paper stationery products: our first step towards building a broader non-paper stationery portfolio.

We are backing this strategy for bothdomestic and export stationery and will continue to invest ₹ 100 Crores annually over the next three years to expand both capacity and product breadth.

#### **Sharpening Our Strategic Lens**

The past year was also one of deep introspection and sharper strategic focus. We made a conscious decision to exit one of the non-core investments, partially monetising our holding in K12 Techno.

One of the most exciting milestones this year has been the launch of Navneet AI, our intelligent teaching assistant. Currently offered to schools as a value-added service, the tool is already supporting over

The strategic integration of Navneet FutureTech with our main business during the year further strengthened our go-to-market alignment.

1,000 CBSE and SSC schools by simplifying lesson planning, project assignments, and assessment preparation. What distinguishes Navneet AI is that it is not an external add-on: it is seamlessly integrated into the daily workflow of educators. This represents our vision of digital enablement: not as a standalone business vertical, but as a bridge that strengthens and enhances our core offerings. Over time, we plan to extend Navneet AI's capabilities to students, opening up new channels of engagement and monetisation.

The strategic integration of Navneet FutureTech with our main business during the year further strengthened our go-to-market alignment. Our digital and physical sales teams now operate as one, ensuring cross-leverage of relationships and unified messaging. This synergy is already yielding tangible benefits in terms of adoption, brand reinforcement, and team productivity.

#### **ESG Approach**

As we look to the future, we remain deeply committed to conducting our business in a way that respects people, the planet, and the communities we serve. We have made steady improvements in resource efficiency, particularly in energy use and waste reduction across our manufacturing units.

This year, we achieved a carbon offset of 51%, converted factory operations from, wind and solar power plant, and became a zero-landfill waste company across all factory locations. We have obtained Brand Owner's EPR license and Importer's ERP license from Central Pollution Control Board in 2024-25.

At the same time, we are working to enhance the long-term sustainability of our value chain by aligning raw material sourcing with more transparent, ethical, and environmentally responsible practices.

On the social front, our focus continues to be on expanding equitable access to quality education. Through targeted teacher development programmes, inclusive learning initiatives, and scholarship support, we are working to bridge gaps in opportunity and impact. Within the Company, we are investing in people, through structured upskilling frameworks, diversity and inclusion programmes, and robust governance mechanisms that reinforce transparency and accountability. For us, sustainability is not an adjunct function but an integral lens through which we operate. It informs our decisions, defines our responsibilities, and shapes how we contribute to a more resilient and inclusive world.

#### The Road Ahead

As we look to 2025-26 and beyond, we step into a new chapter defined by sharper strategic focus, disciplined risk-taking, and deeper conviction in our long-term vision. We expect the pace of curriculum change to pick up soon thereby unlocking meaningful opportunities across both core content publishing and supplementary content segments. Our digital tools will continue to evolve, ensuring our relevance and effectiveness in an increasingly blended learning ecosystem.

In stationery, we plan to intensify our international push, expanding both exports and non-paper categories, with a focussed ambition to build a global footprint through complementary B2B and emerging D2C channels. On the domestic front, we are committed to strengthening our presence in non-paper category and enhancing the breadth and depth of our distribution network. Crucially, we will pursue inorganic growth but only in adjacent areas that directly reinforce our core strengths and strategic intent.

The decisions we took this year, some bold, some patient, reflect our long-term orientation. We are not chasing trends. We are building a future that stays true to our heritage while staying attuned to the needs of tomorrow's learner. Our journey ahead will be shaped by this commitment, to focus, to adapt, and to lead with purpose.

Regards,

Kamlesh S. Vikamsey
Chairman

# Emerging Trends as Our Opportunity,

# Strategy as Our Edge

# Education Sector

India's education sector is witnessing a major transformation, grounded in a renewed emphasis on foundational literacy and curriculum-aligned content. With the NEP 2020 acting as a catalyst, there's growing demand for structured, pedagogy, areas where traditional publishing continues to play a pivotal role. At the same time, the focus on STEM learning and skills-based education is reshaping content priorities, prompting the need for more application-driven, criticalthinking-oriented material. These shifts are encouraging blended learning models that integrate textbooks with experiential, interactive, and visual formats.

#### **Trends that We Foresee**

### Leveraging NEP 2020 for Content Innovation

The phased rollout of the NEP 2020 is reshaping the Indian education landscape by introducing changes in curriculum design, pedagogy, and assessment.

#### Meeting the Demand for Regional Language Content

The NEP's emphasis on mother-tongue instruction till Grade 5 is reviving demand for high-quality regional content.

#### **Government Initiatives**

Policies such as 'Skill India', 'Digital India', and various schemes by NITI Aayog, like the Atal Innovation Mission and SEQI, are creating a favourable environment for education reforms. These initiatives emphasise quality education, innovation, and skills development, driving demand for modern learning solutions.

(Source: https://researchforecast.com/indias-booming-education-market-a-313-billion-opportunity-for-the-future/)

#### **Our Strategic Approach**

- Offering customised educational solutions that cater to the diverse learning needs of students across India.
- Utilising cutting-edge technology to deliver efficient school management systems and digital tutoring programmes in collaboration with schools and tutoring institutions.
- Crafting a carefully designed curriculum, including flagship offerings like the Rise Series and teacher's manuals, rooted in cognitive development theories.
- Implementing inclusive education initiatives that ensure equitable access to quality education for all students, supporting the NEP's focus on inclusivity.

#### **EdTech Sector**

The Indian EdTech sector is undergoing rapid transformation, driven by technological advancements and the increasing demand for flexible, high-quality learning solutions. With the government's focus on digital education and the adoption of policies like the NEP 2020, EdTech companies are well-positioned to meet the evolving needs of learners. The market is expected to witness continued innovation through AI-enabled personalised learning, as well as the growing adoption of SaaS-based platforms that support scalable, outcome-oriented education models.

#### **Trends that We Foresee**

#### Al and Personalisation

With the integration of AI and machine learning, EdTech platforms are increasingly offering personalised learning experiences. These technologies allow for content delivery and adaptive learning paths to individual student needs, fostering more effective and engaging education.

#### **Hybrid Learning Models**

The shift towards hybrid learning, combining online and offline elements is gaining traction. EdTech platforms are focussing on hybrid delivery models to provide flexibility and cater to diverse learning preferences.

#### **Growth of SaaS Solutions**

Learning Management Systems (LMS) and Software-as-a-Service (SaaS) products are becoming integral in the education ecosystem. These tools are being adopted by educational institutions for tracking student progress, managing classrooms and enhancing administrative efficiency.

### EdTech Mergers & Acquisitions

To streamline operations and enhance growth, several smaller EdTech startups are merging with or being acquired by larger players. This consolidation trend is expected to continue as companies seek economies of scale and access to more resources.

#### **Our Strategic Approach**

- We have invested in the growth of our digital education offerings, enhancing and complementing our legacy content publishing business to meet the evolving needs of modern learners.
- Our expanded digital platforms provide a comprehensive array of educational tools and resources, designed to support both students and educators in today's dynamic digital learning environment.
- We have proactively aligned our strategies with government-driven initiatives to foster online education, ensuring our products are fully compliant with emerging policies and regulatory frameworks.

### Stationery Sector

The Indian stationery market is experiencing steady growth, with the educational sector being the primary consumer. Key drivers include the expanding literacy rate and increasing focus on education, especially at the primary and secondary levels, supported by targeted government initiatives. The market is projected to expand at a CAGR of 8.2% between 2023 and 2029, fuelled by rising disposable incomes, rapid urbanisation, and a revival in demand for traditional stationery products, especially paper-based items.

#### **Trends that We Foresee**

### Growth in Educational Demand

With a continued focus on improving education at all levels, there is a rise in the demand for stationery in educational institutions. Government initiatives aiming for 100% literacy are propelling this demand, especially for paperbased products.

# Shift towards Premium and Personalised Products

Consumers are increasingly drawn to aesthetically designed, high-quality stationery that reflects personal style.

#### Our Strategic Approach

- We have successfully expanded our export portfolio by launching innovative stationery products designed specifically for the US market and other international regions.
- Additionally, we are currently evaluating several non-paper stationery products, driven by significant demand from both existing clients and new customers looking for a broader range of options.

Our intellectual capital is built on a strong foundation of domain expertise, pedagogical insight, and technological adaptability. We combine our deep understanding of curriculum development, content design, and learner behaviour with evolving digital capabilities to create impactful educational solutions. Our teams continuously innovate, whether through new product formats, blended learning models, or differentiated content tailored to diverse boards and languages. Strategic investments in EdTech are a natural extension of our legacy in education, aimed at reimagining learning for today's students and tomorrow's classrooms.

### **Investing in the Future of Learning**

We have committed to long-term investments in digital products that enhance and complement our traditional textbook offerings. Today, every new book we launch is paired with a relevant digital component, reflecting our integrated approach to learning. This transition ensures we remain relevant and competitive even in traditionally print-heavy segments. Our focus is on building a future-ready portfolio that addresses evolving learner preferences and institutional needs, positioning us for sustained growth in a blended learning environment.

### **Strengthening Our Core through Digital Integration**

At NEL, we are continuously building on our strong foundation in educational content while expanding our digital presence. With the growing relevance of digital solutions in the publishing world, we are realigning our offerings to meet the evolving expectations of learners and educators alike.

### **Empowering Educators with AI**

One of our most exciting recent initiatives is the rollout of a free, Al-powered tool, named Navneet Al, designed specifically for teachers, now in use across approximately 1,000 CBSE and SSC schools. This solution helps educators generate customised question papers, worksheets, and lesson aids in minutes, significantly reducing time spent on repetitive administrative tasks. By simplifying content planning and classroom preparation, the tool empowers teachers to focus more on teaching and student engagement.

### Diversified Brand Portfolio to Stay Top-of-Mind

- Ink kitchen has been introduced to reduce the ink wastage. The ink of desired shade has been obtained by mixing the ink in a fixed ratio and in specific quantity. This has resulted in reduction in raw material consumption and waste generation.
- Earlier, plastic films were used for lamination of the stationery products. Now UV rays are used for lamination of the products. This has replaced the use of plastic thin film with UV rays.

NATURAL

We prioritise environmental stewardship by integrating sustainable practices into every aspect of our operations. Sustainability forms the backbone of our growth strategy, driving our efforts to reduce the ecological footprint of our activities. Through innovative initiatives and environmentally friendly products, we actively contribute to the health of our planet while optimising operational performance. Our commitment to a greener future underscores our dedication to creating a positive and lasting impact.

### **Water Stewardship and Conservation**

In 2024-25, we significantly strengthened our water conservation efforts. We installed rainwater harvesting wells, with flow meters to be added soon to enable databacked conservation during the monsoon. A piezometer well was also developed to monitor groundwater levels and ensure sustainable withdrawal. At our Dantali plant in Gujarat, treated water from STP and ETP is being reused, reducing dependence on freshwater sources.

### **Waste Management and Zero Liquid Discharge**

All our factory sites have achieved zero liquid discharge (ZLD) status, supported by fully operational sewage treatment plants (STP) and effluent treatment plants (ETP). We also ensured Zero Landfill Waste Generation, with all sites eliminating landfill contributions through circular waste practices. In line with national compliance requirements, we secured Extended Producer Responsibility (EPR) licenses for both importer and brand owner categories. Full compliance with EPR regulations will begin in 2025-26, reinforcing our accountability across the product lifecycle.

### **Energy Transition and Emission Reductions**

A key environmental milestone this year was our shift from LPG to PNG (Piped Natural Gas) in manufacturing operations. Piped gas has reduce the fire potential up-to great extent as compared to the fire potential related to storage of LPG cylinders in large number in the factory premises. We also conducted a comprehensive carbon footprint assessment covering Scope 1, 2, and 3 emissions. As a result, we achieved an overall 51% carbon offset, broken down as 19% in Scope 1 and 60% in Scope 2, a critical step in our decarbonisation journey. Windmills and the solar power plant have played a significant role in achieving the reduction in GHG emission.

### **Biodiversity and Green Spaces**

While large-scale afforestation is managed under CSR, environmental efforts under EHS included the creation of a Miyawaki forest at one of our factory sites. This dense, fast-growing green zone consists of over 1,200 native plants, supporting biodiversity and enhancing site-level greening. Although its impact on carbon sequestration is limited, it is an important step towards fostering local ecological restoration.

### **Environmental Monitoring and ESG Literacy**

We conduct regular air, water, and waste monitoring across all operational sites to maintain compliance and identify improvement areas. To strengthen ESG integration, mandatory training has been implemented at all levels from shop-floor employees to senior leadership. A centralised ESG learning repository is being developed, focussing on Environment, Health & Safety (EHS) and sustainable practices.

### **Environmental Priorities** for 2025–26

Looking forward, our focus will be on strategic actions to enhance sustainability performance and align with global best practices. These include:

- Pursuing the EcoVadis certification process to obtain both badge and sustainability rating
- Commitment to Science Based Targets (SBTi) for declaring the Science Based Targets.

HUMAN

We believe that investing in our human capital is fundamental to driving sustainable growth. By nurturing talent, enabling continuous development, and promoting a culture of collaboration and innovation, we continue to build a workforce that champions excellence and upholds our commitment to transforming education for future generations.

### **Learning and Development at Scale**

In a joint initiative between HR and EHS teams, we are developing a comprehensive learning repository to scale up employee training across functions and locations. The repository will serve as a central hub for HR, ESG, and EHS-related learning modules, designed to strengthen both professional and compliance-oriented capabilities across the organisation.

### **Enhancing Employee Welfare**

We are actively revisiting and upgrading our employee welfare policies, particularly around workmen compensation and group personal accident (GPA) insurance, to ensure broader and more meaningful coverage. Factory employees are now covered by Group Medical Insurance Policy.

### **Fostering Engagement and Recognition**

Employee engagement remains a vibrant and locally driven part of our culture. Regional HR teams organise a wide range of activities, from birthday celebrations to team outings and festive gatherings, to nurture team spirit and belonging.

Our factory units have also introduced innovative rewards and recognition schemes. For instance, on World Environment Day, a 'Plastic Police' initiative was launched to promote eco-conscious behaviour, where employees avoiding single-use plastic were recognised with creative awards. Similarly, National Safety Week was celebrated with high participation through safety skits, quizzes, awareness campaigns, and competitions, culminating in award ceremonies for active contributors and winners.

### **Health and Safety as Core Priorities**

We have institutionalised the observance of National Safety Day as a week-long programme that brings attention to workplace safety through interactive and educational activities. Across locations, employees engage in plays, poster-making, safety drills, and training sessions, creating awareness and strengthening our safety-first culture.

### **Driving Diversity and Inclusion**

Diversity continues to be an area of focus, particularly gender inclusion at the shop floor and managerial levels. The proportion of women employees at our factory locations has grown steadily to about 5-7%. We are also consciously working towards promoting women into managerial positions, a step towards a more balanced leadership pipeline.

### Strengthening ESG Culture through Awareness and Policy Reinforcement

We created a dedicated ESG awareness training video to build a deeper understanding across the Company. At the same time, we reviewed and reinforced key internal policies, including those related to EHS, ESG, and Prevention of Sexual Harassment (POSH). These efforts were aimed at driving greater internal alignment and making our commitments more visible and accessible to all stakeholders.

### **Promoting Equal Opportunities**

At Navneet Education, we are proud to be an equal opportunity employer, committed to building a diverse, inclusive, and merit-based workplace. Our recruitment process is structured to be unbiased and skill-focused, ensuring that selections are based purely on merit, without discrimination on gender, background, or ability. All employees, regardless of role or tenure, have access to continuous learning through in-house training programs, e-learning platforms, and functional skill development workshops. Career progressions are strictly performance-driven, with many team leaders and managers having risen through internal growth pathways. We actively encourage gender diversity—women now hold key roles across departments including manufacturing, sales, and design. Additionally, we've taken deliberate steps to integrate specially abled individuals into our workforce by customising roles to match their strengths and providing necessary infrastructure support. Through inclusive policies and equitable practices, Navneet ensures that every employee can thrive, contribute, and lead with confidence.

SOCIAL & RELATIONSHIP

At NEL, relationships are drivers of our success. Through meaningful collaborations and enduring trust, we forge robust connections with stakeholders across communities, industries, and geographies. Our commitment to creating shared value strengthens these bonds, enabling us to drive positive change and foster mutual growth.

### **Advancing Educational Access**

In 2024-25, we supported 653 children from underprivileged backgrounds by covering their school fees, helping them stay on the path of learning. We also provided school bags, books, and stationery to 2,840 students to encourage their continued engagement in education. By building the capacity of 64 Anganwadi Workers and over 55 Helpers, we helped over 1,600 young children become school-ready. We also made it a priority to involve parents, recognising their vital role in early learning.

### **Upholding Animal Welfare**

In line with our commitment to animal welfare, we supported the care of 2,800 animals across shelters in Gujarat. Our efforts included providing essential resources such as safe shelter, nutritious food, medical treatment, and vaccinations, ensuring the health and well-being of every animal under care.

### **Promoting Health and Well-being**

We believe good health is the foundation of a better life, and this year, we continued our efforts to expand access to essential healthcare for underserved communities. Through our support for rural medical camps, we reached thousands, enabling 5,092 kidney and dialysis treatments, 500 cataract surgeries, and 391 dental procedures. We also organised cancer screening camps, screening 333 women for cervical cancer and 500 for breast cancer, with follow-up investigations recommended where needed.

We provided nutritious meals to 152 special needs children and extended medical aid to 113 patients to support their treatment. To strengthen healthcare infrastructure, we helped upgrade medical centres in Gujarat and Maharashtra, impacting over 99,000 patients. We also supported the installation of solar panels in a Gujarat hospital, helping 1.5 Lakh patients access quality care at lower costs. Through these initiatives, we remain committed to building healthier, more resilient communities.

### **Building Stronger Communities**

We believe in empowering communities to drive inclusive and sustainable growth. This year, we trained 275 women as para-medical workers and 52 in traditional midwifery, improving grassroots healthcare for nearly 2 Lakhs people.

Over 29,000 farmer families received seeds and saplings to support seasonal farming, while 4,360 fruit plants and women-led nurseries benefited 500 women. We also piloted a drip irrigation system to promote water-efficient agriculture.

To support individuals with special needs, we provided resources for income through handmade products. Additionally, we maintained residential facilities for 500 underprivileged students, offering a safe, nurturing environment for their education and well-being.

### **Nurturing the Next Generation of Cricketers**

Driven by the belief that every talented player deserves the chance to realise their full potential, the Company invested in high-quality resources, expert coaching, and dedicated mentorship. This year, 350 young boys and girls benefited from structured training and development programmes, showcasing their growing skills, discipline, and teamwork across 166 tournaments.

### **Addressing Supplier Grievances**

Navneet Education Limited has a Supplier Grievance Mechanism, which covers the Workplace harassment, sexual harassment, and discrimination. Supplier Code of Conduct has been prepared and communicated to the critical suppliers. All of them have signed the accepted the Supplier Code of Conduct. In Year 2024 and in Year 2025 till date, no supplier complaints have been registered.

To register the complaints and grievance, e-mail ID has been created for the suppliers. Designated persons have been made responsible to resolve such complaints and harassment issues.

Governance

### Integrity as Our Anchor,

### Governance as Our Guide

At NEL, corporate governance is the foundation of our business integrity and transparency. We adhere to the highest ethical standards, ensuring accountability and trust among stakeholders. Robust policies and practices guide our operations, aligning them with long-term value creation. By fostering a culture of responsibility, we remain committed to sustainable growth and stakeholder confidence.

# Management Discussion and Analysis

# Indian Economy

India continues to maintain its trajectory as the world's fastestgrowing major economy, reinforcing its rising stature on the global stage. As per the IMF's April 2025 World Economic Outlook, the Indian economy is projected to grow at 6.5% in 2024-25, a notable performance against the backdrop of a subdued global environment. This performance is driven by a robust blend of structural reforms, accelerating digitalisation, and sustained infrastructure investments. Resilient domestic consumption and renewed momentum in private sector capital expenditure have further supported broad-based expansion. The Indian economy has continued to exhibit resilience, driven by proactive governmental measures and country's intrinsic strengths as it aspires to become a developed nation by 2047.

# **Industry Overview**

The education sector remains a foundational pillar for individual empowerment and societal advancement, playing a critical role in driving economic growth, fostering social equity, and enriching cultural identity. With the rapid pace of technological change and the emergence of new learning methodologies, the sector is undergoing a significant transformation. As efforts continue towards achieving inclusive and equitable education for all, strategic investment in quality infrastructure, teacher development, and curriculum modernisation will be essential to unlocking learner potential and supporting sustainable development objectives.

India's education system has grown remarkably over the years, becoming one of the largest and most vibrant in the world. The school education sector continues to flourish, supported by India's growing population, higher household incomes, and rising literacy levels. While the journey has not been without challenges, such as overcrowded classrooms, inadequate infrastructure, and traditional pedagogical approaches, positive shifts are now underway. Cities are growing, new schools and colleges are being built, and both government and private players are stepping up with significant investments and progressive reforms.

Today, classrooms are becoming more dynamic, teachers are better trained and resourced, and students are being equipped not only to succeed in examinations but also to adapt and excel in a rapidly evolving, interconnected world. India's education landscape is entering a transformative phase, one that offers greater inclusion, innovation, and opportunity for learners across all segments of society.

Moreover, the digital education market in India has witnessed strong and sustained growth in recent years, driven by a number of transformative trends. The widespread adoption of digital devices and improved access to high-speed internet have enabled more seamless and inclusive online learning experiences. The increasing acceptance of online learning as a flexible and viable alternative to traditional classroom methods, combined with a rising demand for personalised and adaptive learning solutions has fuelled market momentum. Technological advances, particularly in Artificial Intelligence and machine learning, are now enabling highly individualised and data-driven learning pathways.

# Content Publishing Sector

languages has enabled publishers

Driven by rapid socio-economic development and continuous technological innovation, the publishing industry remains a cornerstone of knowledge dissemination, educational progress, and personal enrichment. India holds the distinction of being the thirdlargest producer of English-language publications globally, reflecting its strong presence on the global stage. The digital revolution has brought sweeping changes to the industry's structure and dynamics. The text book segment has adapted more readily to digital platforms, demonstrating the sector's resilience and ability to evolve with changing consumer preferences.

The surge in digital publication consumption is closely linked to the growth of e-learning platforms, which have broadened readership and strengthened the market's online footprint. Moreover, rising demand for books in regional

to reach a wider and more diverse audience across India. Government initiatives promoting literacy and education have further boosted the demand for published content. India's publishing market faces a range of challenges that impact its growth and sustainability. The fragmented structure of the market complicates efforts by publishers to adapt to rapidly evolving digital consumption habits. Further, synchronising content with NCERT mandate across multiple states adds further complexity and risk of inventory obsolescence. In addition, low levels of digital literacy in rural areas hinder the widespread adoption of e-publishing, highlighting the ongoing need for improved infrastructure. Despite these obstacles, the industry's growth remains remarkably resilient, supported by continued innovation and adaptive strategies.

EdTech, or education technology, involves using digital tools and platforms such as AI, VR, AR, and gamification to enhance teaching, learning, and educational management. Despite challenges such as reduced funding in the post-pandemic period and heightened scrutiny around corporate governance, the sector has demonstrated consistent growth over the past decade. This resilience is underpinned by rising educational aspirations, the expansion of digital infrastructure, and a cultural shift towards online and blended learning formats. By 2029, the edtech sector is expected to contribute 0.4% to India's GDP, up from 0.1% in 2020, driven by growing adoption of hybrid learning models, regional language content, and skill-based education.

The Indian EdTech market is expanding at a rapid pace, driven by greater digital adoption, widespread smartphone usage, and increasing demand for personalised and flexible learning solutions. Government initiatives such as Digital India and the National Education Policy (NEP) 2020 are accelerating the integration of technology into the education ecosystem.

## **Evolution of Edtech**

India's EdTech sector is rapidly evolving, driven by open-source platforms, immersive technologies, and AI-powered personalisation.

Open learning tools like YouTube and SWAYAM make education more accessible and flexible.

## K12 Segment

India's K12 education market reached USD 91.97 billion in 2024 and is projected to grow at a CAGR of 12.05%, reaching USD 256.03 billion by 2033. Serving over 261 million students across approximately 1.5 million schools, the segment reflects both scale and diversity. Notably, nearly 46% of students are enrolled in private institutions,

underlining the expanding role of non-government education providers.

The increasing integration of digital learning, supported by government initiatives such as PM e-VIDYA, DIKSHA, SWAYAM, and ePathshala, has significantly strengthened the K12 e-learning ecosystem. This digital transition has also contributed to a notable increase in EdTech startups across the country. By offering interactive and innovative learning experiences, K12 EdTech platforms are not only making education more accessible and engaging but are also driving measurable improvements in student learning outcomes.

# **Stationery Sector**

The Global Stationery and Supplies Market size is estimated at USD 151.35 billion in 2025, and is expected to reach USD 186.19 billion by 2030, growing at a CAGR of 4.23% during the forecast period (2025-2030). The Asia-Pacific region has witnessed substantial economic growth over the years, leading to higher levels of disposable income. The education sector in many countries across the region, including India, China, and others, is expanding rapidly. There is a strong emphasis on education. This increased student enrollment drives the demand for stationery and supplies such as notebooks, pens, pencils, erasers, rulers, and other related items. Simultaneously, the corporate sector across Asia-Pacific has experienced significant expansion, with new business establishments and corporate growth fuelling demand for office stationery. This includes items such as paper, folders, staplers, sticky notes, markers, and other essential supplies. The proliferation of online shopping platforms and e-commerce has facilitated customer access to a broad selection of stationery and supplies.

Government-led initiatives have contributed to a steady increase in the number of universities and colleges across both urban and rural areas, directly influencing market expansion. Moreover, the rapid rise in the number of start-ups is also propelling demand, as is the growth in employment across these sectors. The stationery and supplies market has been significantly impacted by the expansion of e-commerce. Many consumers now prefer to purchase stationery products online due to the convenience, competitive pricing, and extensive product variety offered by digital platforms. Online sales channels have gained substantial traction, enabling seamless interaction between retailers and consumers and further boosting market growth.

#### Outlook

According to the IMARC Group, the India school stationery supplies market is projected to grow from USD 2,504.0 million in 2024 to USD 3,982.0 million by 2033, at a CAGR of 5.03% during the forecast period of 2025 to 2033. This growth is driven by several factors, including increasing brand consciousness among consumers, the introduction of innovative and personalised stationery products, the expanding influence of social media platforms and OTT services and growing demand for sustainable and eco-friendly alternatives.

# Company Overview

Driven by the belief that education is a fundamental human right, Navneet Education Limited ('NEL', 'We', or 'the Company') is committed to making high-quality educational content accessible and affordable. Our dedication to this vision has empowered us to consistently deliver top-tier educational products at competitive prices. Building on our strong foundation in the educational books segment, we have also expanded into the education technology (EdTech) space, investing in cutting-edge technological solutions to enhance and enrich the learning experience.

NEL envisions delivering

physical and digital learning formats. This vision supports the expansion of both our traditional publication portfolio and our digital product offerings.

Alongside our core focus on publishing and EdTech, NEL has also established itself as a leading global supplier of scholastic and office stationery products, reinforcing our strong presence in both domestic and international markets. As part of our strategic initiatives, we maintain a minority stake in K12 Techno Services Private Limited.

# comprehensive 'phygital' education solutions that seamlessly integrate

# Business Strategy

The rollout of the NEP is expected to serve as a significant driver of growth for our business, introducing transformative reforms across the primary, secondary, and higher education sectors, including technical education. The resulting curriculum revisions are anticipated to increase demand for updated learning resources, encouraging students to replace outdated or second-hand materials with new, curriculum-aligned supplementary content. This shift directly supports the growth of NEL's publishing segment, where strategic priorities are well aligned with these developments. Additionally, the evolving educational landscape presents a timely opportunity within the EdTech space, enabling the company to innovate and deliver advanced, customised solutions tailored to the changing needs of educators and institutions.

## Conversion of Schools

The growing shift of schools, particularly English-medium private schools, from state boards to the CBSE curriculum presents a notable growth opportunity for Navneet Education Limited's content publishing business. With over 28,000 CBSE-affiliated schools across India and a steadily increasing adoption rate, this transition is being driven by the uniform curriculum framework under NEP 2020, a growing preference for English-medium education, and a focus on skill-based learning. Up to Grade 8, private schools continue to favour high-quality textbooks from private publishers, resulting in a significant increase in demand for supplementary educational content.

## Stationery Domestic

As the Indian stationery market consolidates and organised players expand their share, NEL is well positioned to capitalise on these emerging opportunities. The company is focused on expanding its geographic footprint across India for its paper and non-paper -based stationery products to drive both volume and value growth. In line with evolving consumer needs, NEL has successfully launched a range of paper and non-paper stationery offerings in the domestic market.

## Stationery Exports

NEL's export strategy, driven by both vertical and lateral expansion and continuous product innovation in paper and non-paper categories, has significantly strengthened its global market presence. Renowned for product quality and reliable delivery, the company holds a distinct competitive advantage in the Indian stationery sector, establishing itself as a preferred partner internationally. With over three decades of experience, NEL continues to be the largest exporter in the Indian stationery category, with the United States accounting for a major share of its business. The company maintains an extensive global footprint, consistently expanding its export portfolio with new stationery products for the US as well as other key international markets. This resilient export business continues to be a critical growth engine for NEL, supported by the introduction of new product lines and expansion into additional geographies.

# Operational and Financial Overview

# Content Publishing Segment

The content publishing business experiences seasonal fluctuations, with peak sales aligning with the start of the academic year. Historically, periodic curriculum revisions mandated by state and national education boards have driven demand for updated textbooks. However, 2024-25 saw a subdued performance, with marginal growth of 3%, largely due to the absence of syllabus changes for the seventh consecutive year in both Maharashtra and Gujarat, combined with the growing second-hand book market impacting counter sales.

Despite this temporary slowdown, Navneet remains optimistic about growth over the coming years, driven by the upcoming curriculum revision cycle beginning in 2025-26. The Company continues to maintain a pan-India presence in the CBSE segment, drawing on over six decades of experience in delivering high-quality educational content. A key strategic focus is the expansion of CBSE offerings, where Navneet is enhancing its content portfolio and investing in digital integration across its products.

Digital enablement has become an intrinsic component of all new publications, with interactive features now considered part of the cost of production. These costs, currently absorbed by the Company, have impacted EBITDA margins compared to five years ago. As the digital user base continues to grow, Navneet intends to gradually pass on these costs.

In response to competitive pressures in the CBSE market, Navneet is focusing on long-term value

creation. The Company has launched a free Al-driven solution for teachers, which has already been rolled out to more than 1,000 schools across SSC and CBSE boards. This initiative is expected to strengthen teacher engagement, improve retention, and embed Navneet more deeply within the school ecosystem.

#### Navneet Al

Navneet AI is a recent digital initiative launched by NEL as part of our ongoing commitment to innovation and digital transformation. Developed as an advanced classroom tool, Navneet AI is specifically designed to support and empower the teacher community by leveraging the company's vast content repository. The initiative aims to enrich teaching experiences in schools and enhance content delivery in classrooms.

The response to Navneet AI has been overwhelmingly positive, with expectations that its adoption will become widespread among educators. While the platform does not yet contribute to direct revenue and involves initial implementation costs, it is viewed as a strategic, long-term investment. Navneet anticipates that the use of this tool will indirectly boost demand for its physical books and digital content. This approach is seen as a more effective way to drive content usage than simply expanding sales teams.

## Stationery Segment: Domestic and Exports

NEL, with a legacy of over six decades, continues to lead in both paper-based and evolving non-paper stationery categories. In 2024-25, the domestic stationery segment saw a 13% decline in revenue, driven by a 9% drop in realisation due to lower paper prices and a 4% decline in volumes, attributed to intensifying competition from the unorganised sector. With paper prices now stabilising, trade sentiment is showing signs of recovery. The company is currently focused on strengthening its distribution network and scaling up its nonpaper stationery portfolio, which contributed 5% to domestic revenue in 2024-25. These newly designed products, launched over recent months, have received encouraging initial feedback from trade partners. Volume growth of 5-6% is projected for 2025-26, supported by new product introductions and improved market traction.

The export stationery segment grew 12% in 2024-25, aided by entry into new international markets, although this was slightly below the targeted 15%. While realisations for paper-based products declined by 8-9%, overall demand remained strong and order flow was not materially impacted. With the majority of exports destined for the US, the company is closely monitoring tariff-related uncertainties. Despite these external challenges, Navneet

remains a preferred vendor for key global clients and is confident of gaining market share as sourcing continues to shift from China to India.

Plastic file folders now account for about 13% of total exports. Encouraged by strong customer response, we have initiated the development of new categories such as canvas and wooden stationery, which are expected to reach commercial maturity over the next 2-3 years. To support this momentum and meet rising demand, we have committed targeted investments towards capacity expansion. As part of this plan, a new manufacturing facility, outlined in our earlier capex commitments, is expected to become operational in 2025-26.

Overall, NEL's stationery portfolio spans over 1,250 SKUs in India and 1,500 SKUs internationally. EBITDA margins are expected to stabilise at 12-13%, with exports delivering higher margins than domestic. The company will continue to invest about ₹ 100 Crores annually in capacity expansion over the next three years, with ₹ 50 Crores already deployed and expected to be operational by 2025-26. With stable input costs and growing demand, NEL is well-positioned for volumeled growth in 2025-26 across both domestic and export markets.

# Indiannica Learning Private Limited

Indiannica Learning Private Limited, a wholly owned subsidiary of NEL, continues to strengthen our presence in the CBSE curriculum publishing segment. Known for its focus on exploratory learning and integrated digital content, Indiannica offers curriculum-based programmes and technology solutions for schools and individual learners.

NEL remains committed to this strategically important venture. The CBSE market presents significant opportunities, especially as SSC schools increasingly shift to the CBSE board. Indiannica has approached nearly 10,000 schools during the year, focusing on deepening engagement through increased title penetration per school and value-added offerings. Together with sister brands like Grafalco and the RISE series, Indiannica plays a vital role in our goal of delivering high-quality, digitally enriched content to India's evolving education landscape.

# School Management through K12 Techno Services Private Limited (K12 Techno)

NEL has been associated with K12 Techno Services Private Limited, a prominent player in school management, offering comprehensive K12 education. Navneet divested a portion of its holding and now retains a 14.3% stake, which is treated as a financial asset. Operating under the Orchid International

brand, K12 Techno delivers quality elementary education through its growing network of schools. It has emerged as a key player in school management services, with a strong focus on direct education. Embracing technological innovation, K12 Techno continues to expand its footprint while earning recognition

within the EdTech landscape. K12 Techno network comprised 116 educational institutions (including schools and colleges) 20 locations in 9 States, serving nearly 86,704 students demonstrating the scale and effectiveness of its K12 education model.

# Risks and Concerns

Our risk management approach focuses on proactively identifying and addressing challenges that could impact the business. Seasonal variations and the increase in paper prices may put pressure on profit margins. Additionally, rising freight costs especially in export markets pose difficulties, as customers consider their total landed costs and might look for alternative suppliers if expenses increase.

# Risk Mitigation Strategies

Risk	Mitigation Strategy
Enterprise Risk	NEL has adopted a comprehensive Enterprise Risk Management (ERM) framework, which serves as a structured approach to identifying, assessing, and addressing potential risks, disruptions, and losses that could impact the Company's structure and strategic objectives. Through the effective implementation of ERM, we proactively evaluate potential threats and apply targeted mitigation strategies to safeguard our operations and ensure business continuity.
Process Risk	The internal audit team plays a pivotal role in enhancing process and risk management by rigorously evaluating and strengthening commercial and investment controls across all critical operational areas, ensuring efficiency, compliance, and robust governance.

#### Risk

Compliance Risk / Integrity Risk The Company ensures strict compliance with all applicable laws and regulations through a robust verification and reporting framework. This structure spans across all levels from business line executives to the Audit Committee and the Board of Directors. An experienced internal audit team conducts comprehensive annual audits, evaluating critical aspects of corporate operations. These audits are further reviewed by internal auditors, the Audit Committee, and the Board to ensure transparency and governance. The Audit Committee regularly evaluates audit findings and recommends actionable measures to strengthen the Company's internal control systems.

Digital Risk

The Company has implemented a strong cloud application security solution to proactively identify and address potential vulnerabilities. In addition, we carry out continuous, round-the-clock security assessments to safeguard our digital infrastructure and ensure the integrity and confidentiality of our data assets.

**Funding Risk** 

The Company has strategically relied on internal funding to support its various initiatives, thereby avoiding external financial risks commonly faced by peers in the sector. This prudent approach reflects our commitment to financial discipline and sustainable growth. By funding our ventures through internal resources with careful planning and diligence, we continue to drive expansion while ensuring consistent and favourable returns.

Raw Material Price Volatility Risk NEL actively monitors raw material markets and maintains strong supplier relationships to negotiate better terms. Additionally, it leverages operational efficiencies and pricing strategies to absorb short-term cost fluctuations without severely impacting margins.

Content Digitisation and Market Shift Risk Although physical content remains strong, Navneet is investing in digital innovations such as Navneet AI and digital content distribution to adapt to evolving market demands and complement its physical product offerings. This hybrid approach mitigates the risk of declining print revenues.

# Corporate Social Responsibility (CSR)

In line with our strong commitment to social responsibility, we have actively engaged in a wide range of CSR initiatives during 2024-25, with a significant contribution of ₹ 4.70 Crores. Our efforts are focused on key areas such as education, healthcare, animal welfare, community development, and sports promotion. We ensure effective implementation and impact by closely monitoring resource utilisation at the grassroots level, thereby reaching the intended beneficiaries. Additionally, as part of our commitment to environmental sustainability, we continue to prioritise the use of eco-friendly materials in the production of our core offerings.

# Internal Control System and Its Adequacy

The Company continues to focus on enhancing operational efficiencies, optimising costs, refining pricing strategies, and strengthening its distribution and supply chain networks through the use of technology. The Company maintains an adequate internal control framework, designed to

ensure the reliability of financial reporting, compliance with applicable laws and regulations, and the safeguarding of assets. These controls are periodically reviewed and strengthened to align with evolving business needs and regulatory requirements.

# Cautionary Statement

This Report may contain forward-looking statements that reflect the Company's current expectations, beliefs, or projections regarding future performance, developments, or opportunities. These statements involve inherent risks and uncertainties both identified and unidentified that could cause actual results to differ materially from those expressed or implied.

External factors such as macroeconomic changes and unforeseen events, including global disruptions like the Covid-19 pandemic, may pose unpredictable and evolving challenges to the Company and the ecosystem in which it operates. The assumptions underlying forward-looking statements are based on available internal and external data at the time of reporting and are subject to

change with evolving circumstances. Accordingly, any projections or forward-looking statements are valid only as of the date they are made. The Company does not undertake any obligation to revise or publicly update such statements in light of new information, future developments, or otherwise, unless required by applicable laws or regulations.

Other Income	25	14	24	13
Total Revenue	1,758	1,707	1,810	1,765
Expenses	1,494	1,470	1,552	1,542
Profit Before Share of Associates, Exceptional Items & Tax	264	237	258	223
Share of Profit/(Loss) of Associates	-	-	(1)	(1)
Exceptional Items(net)*	604	(19)	683	68
Profit Before Tax	868	219	940	291
Tax Expenses	67	30	136	39
Profit After Tax	801	189	804	252
Other Comprehensive Income/(Expense) (net of tax)	(1)	(1)	(2)	(50)
Total Comprehensive Income for the year	800	188	802	202

<sup>\*</sup> During FY 2024-25, exceptional items include ₹ 150 Crores towards realised gain on stake sale in K12 (5.32%) and ₹ 454 Crores towards fair value gain on remaining stake in K12 as the same is being considered as financial asset.

- a) Standalone performance: The Company achieved revenue from operations of ₹ 1,733 Crores (previous year ₹ 1,693 Crores). The EBITDA was ₹ 345 Crores as against ₹ 313 Crores in the previous Financial Year. After providing ₹ 64 Crores towards depreciation, ₹ 70 Crores for Income Tax, ₹ 3 Crores deferred tax charge, the Company achieved Net Profit before OCI and after exceptional items of ₹ 801 Crores for the Financial Year ended 31st March, 2025 as against ₹ 189 Crores achieved in the previous Financial Year.
- b) Consolidated performance: The consolidated revenue from operations for the Financial Year under review was ₹ 1,786 Crores as against ₹ 1,751 Crores in the previous Financial Year. During the year under review, EBITDA was ₹ 343 Crores as against ₹ 309 Crores for FY 2023-24. After providing ₹ 66 Crores towards depreciation, ₹ 86 Crores for Income Tax, ₹ 51 Crores deferred tax charge, the Company achieved Net Profit before OCI and after exceptional items of ₹ 804 Crores for the Financial Year ended 31st March, 2025 as against ₹ 252 Crores achieved in the previous Financial Year.

#### (2) DIVISION PERFORMANCE:

#### **Content Publishing Division:**

The revenue of content publishing division increased by 3% to ₹714 Crores during the year under review as against ₹ 693 Crores achieved in the previous Financial Year. The revenue of content publishing division increased marginally by 3% largely due to the absence of syllabus changes for the seventh consecutive year in both Maharashtra and Gujarat, combined with the growing second-hand book market impacting counter sales.

#### **Stationery Division:**

During the year under review, the revenue of domestic stationery business was ₹ 352 Crores as against ₹ 406 Crores for the previous Financial Year, decrease by 13% driven by a 9% drop in realisation due to lower paper prices and a 4% decline in volumes, attributed to intensifying competition from the unorganised sector.

The revenue of export stationery business was ₹ 662 Crores during the year under review as against of ₹ 590 Crores achieved in the previous Financial Year 2023-24, registering a growth of 12%.

#### (3) DIVIDEND:

Your Directors had declared and paid interim dividend of ₹ 1.50 (75%) per share on the face value of ₹ 2/- each for the Financial Year 2024-25. Your directors further recommended a final dividend of ₹1.50 (75%) per share on the face value of ₹ 2/- each for the Financial Year 2024-25. The said dividend will be subject to approval by the shareholders at the ensuing Annual General Meeting of the Company.

In view of the changes made under the Income Tax Act,1961, by the Finance Act, 2020, dividend paid or distributed by the Company shall be taxable in the hands of the shareholders. The Company shall, accordingly make the payment of the dividend after deduction of tax at source, if applicable. The Dividend Distribution Policy of the Company as per Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 is marked as Annexure 'A'. The same is available on website of the Company and can be accessed at <a href="https://navneet.com/pdfs/Corporate\_Governance\_Policies/Dividend-Distribution-Policy.pdf">https://navneet.com/pdfs/Corporate\_Governance\_Policies/Dividend-Distribution-Policy.pdf</a>

#### (4) TRANSFER TO GENERAL RESERVES:

The Board of Directors has decided to retain the entire amount of profit for the Financial Year 2024-25 in the Statement of Profit and Loss as at 31st March, 2025.

#### (5) BUY BACK OF SHARES:

The Company bought back 50,00,000 fully paid up equity shares at a price not exceeding ₹ 200/- per share from the shareholders of the Company by tender route through the stock exchange mechanism. The paid up share capital accordingly stood reduced to ₹ 44.24 Crores divided into 22,12,13,181 equity shares of ₹ 2/- each.

#### (6) DIRECTORS' RESPONSIBILITY STATEMENT:

## ANNEXURE 'C' SECRETARIAL AUDIT REPORT

### Form No. MR - 3 SECRETARIAL AUDIT REPORT FOR THE FINANCIAL YEAR ENDED ON MARCH 31, 2025

(Pursuant to Section 204 (1) of the Companies Act, 2013 and Rule No.9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014)

To, The Members, Navneet Education Limited (CIN: L22200MH1984PLC034055) Navneet Bhavan, Bhavani Shankar Road,

Dadar(W), Mumbai 400028

I have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **Navneet Education Limited** (hereinafter called "the Company"). Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

Based on my verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, I hereby report that in my opinion, the Company has, during the audit period covering the Financial Year ended on 31st March, 2025 ('Audit Period') complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

I have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on March 31, 2025 according to the provisions of:

- (i) The Companies Act, 2013 (the Act) and the Rules made thereunder:
- (ii) The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made there under;
- (iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder;
- (iv) Foreign Exchange Management Act, 1999 and the rules and regulations made there under to the extent of Foreign Direct Investment, Overseas Direct Investment, External Commercial Borrowings;
- (v) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'):-
  - (a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;
  - (b) The Securities Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;
  - (c) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 which were not applicable to the Company during Audit Period;

- (d) The Securities and Exchange Board of India (Share Based Employee Benefits and Sweat Equity) Regulations, 2021 which were not applicable to the Company during Audit Period;
- (e) The Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015;
- Securities and Exchange Board of India (Issue and Listing of Non-Convertible Securities) Regulations, 2021 which were not applicable to the Company during Audit Period;
- (g) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client;
- (h) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009 which were not applicable to the Company during Audit Period; and
- The Securities and Exchange Board of India (Buyback of Securities) Regulations, 2018.

I have also examined compliance with the applicable clauses of the following:

- Secretarial Standards issued by The Institute of Company Secretaries of India;
- Listing Agreements entered into by the Company with BSE Limited and National Stock Exchange of India Limited;

During the Audit Period under review and as per the representations and clarifications made, the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards etc. mentioned above.

I further report that based on review of compliance system prevailing in the Company and on the basis of the Compliance Certificate(s) issued by the Senior Management officials and taken on record by the Board of Directors at their meetings, I am of the opinion that the Company has adequate systems and processes in place commensurate with its size and nature of operations to monitor and ensure compliance with the following laws applicable specifically to the Company:

- (a) Press and Registration of Books Act, 1867;
- (b) Copyright Act, 1957 read with Copyrights Rules, 2013;
- (c) The Trade Marks Act, 1999 read with Trade Marks Rules, 2012;
- (d) The Information Technology Act, 2000;
- (e) Legal Metrology Act, 2009;
- (f) Delivery of Books and Newspapers (Public Libraries) Act, 1954;
- (g) Air (Prevention and Control of Pollution) Act, 1981;

- (h) Water (Prevention and Control of Pollution) Act 1974;
- The Noise (Regulation and Control) Rules, 2000;
- Environment Protection Act, 1986 and other environmental laws; and
- (k) Hazardous Wastes (Management, Handling And Transboundary Movement) Rules, 2016.

I further report that the Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.

Adequate notice was given to schedule the Board Meetings, agenda and detailed notes on agenda were sent at least seven days in advance, and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

All decisions at the Board Meetings and Committee Meetings were taken unanimously as recorded in the minutes of the meetings of the Board of Directors or Committees of the Board, as the case may be.

I further report that there are adequate systems and processes in the Company commensurate with the size and operations of the Company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines. I further report that during the Audit Period under review, Scheme of amalgamation of Genext Students Private Limited (step down subsidiary) with the Company and the demerger of Edtech business of Navneet Futuretech Limited (wholly owned subsidiary) into the Company was initiated, which was approved by the Mumbai Bench of the National Company Law Tribunal vide its order dated 6<sup>th</sup> May, 2024 with the appointed date of the merger being 1<sup>st</sup> April, 2023. There were no other specific events / actions, in my view, having a major bearing on the Company's affairs in pursuance of the above referred laws, rules, regulations, guidelines, standards, etc.

This report is to be read with Annexure which forms an integral part of this report.

### CORPORATE GOVERNANCE REPORT

A Report on compliance with the Corporate Governance provisions as prescribed under the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended from time to time ('SEBI Listing Regulations') for the financial year 2024-25 is given herein below.

### 1) COMPANY'S PHILOSOPHY ON CORPORATE GOVERNANCE

At Navneet Education Limited (NEL), we uphold a tradition of outstanding governance, established by our visionary founders which is seamlessly integrated into our daily operations. With a rich legacy in the country, our Corporate Governance framework is deeply rooted in our core values of Integrity, Respect, Responsibility, and Pioneering.

The Company has adopted Governance Guidelines to cover aspects related to composition and role of the Board, Chairman and Directors, Board diversity, Director's term, retirement age and committees of the Board. It also covers aspects relating to nomination, appointment, induction of Directors, Director's remuneration, subsidiary oversight and Board effectiveness review.

Your Company remains committed to maintaining and continually enhancing the highest standards of corporate governance, with the ultimate goal of creating sustainable value for shareholders while fostering trust, fairness, and integrity across all businesses of the organisation.

In compliance with Corporate Governance requirements as per the SEBI Listing Regulations, your Company has formulated and implemented a Code of Conduct for all Board members and senior management personnel of your Company ("Code of Conduct"), who have affirmed the compliance thereto. The Code of Conduct is available on the website of your Company at <a href="https://www.navneet.com">www.navneet.com</a>

### 2) BOARD OF DIRECTORS

### (a) Composition and Board Diversity

The Company is in compliance with the requirements stipulated under Regulation 17 to 27 read with Schedule V and clauses(b) to (i) and (t) of sub-regulation (2) of Regulation 46 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 (Listing Regulations), as amended from time to time and as applicable, with regard to Corporate Governance including relaxations granted by the Ministry of Corporate Affairs (MCA) and Securities and Exchange Board of India (SEBI) from time to time.

The Company is a professionally managed Company functioning under the overall supervision of the Board of Directors ('the Board'). The Board has ultimate responsibility for the management, general affairs, direction, performance and long-term success of business as a whole. The Board consists of well qualified and persons with considerable professional expertise and experience. All the Directors take active part at the Board and Committee Meetings by providing valuable inputs,

guidance and advise on various aspect of business and policy decisions of the Company.

The primary role of the Board is to protect the interest and enhance value for all the stakeholders. The Board conducts overall strategic supervision and control by setting the goals and targets, policies, governance standards, reporting mechanism and accountability and decision-making process to be followed. However, it is to be recognised that Corporate Governance is not just a destination but a consistent journey to consolidate and enhance sustainable value creation to the Company by adhering to the core values.

"The Board of the Company consists of eleven Directors as on 31st March, 2025, maintaining the same composition as the previous year. During the financial year 2024-25, the second term of five consecutive years of Independent Directors namely Shri. Tushar K Jani, Dr. Vijay Joshi and Smt. Usha Laxman got over and accordingly they ceased to be the Directors of the Company. Shri. Hemal Patel, Smt. Drushti Desai and Smt. Nirma Bhandari were appointed as Independent Directors of the Company for a term of five (5) consecutive years with effect from 22nd May, 2024.

Despite these changes, the total number of directors on the Board remained constant at eleven, both at the start and end of the financial year.

Since the Company has a Non-Executive Chairman, at least one third of the Board should comprise of Independent Directors i.e. the Board should have at least four Independent Directors. As on the date of this Corporate Governance Report, the Board has four Independent Directors and therefore comply with the requirements of the SEBI Listing Regulations. The Non-Executive Directors including Independent Directors on the Board are well qualified, experienced and competent persons. They take active part in the Board and Committee Meetings by providing valuable guidance and expert advice to the Board and the Management on various aspects of business, policy direction, governance, compliance etc. and play critical role on strategic issues, which enhances the transparency and add value in the decision making process of the Board. The Company has also devised a policy on the board diversity.

Section 149(1) of the Companies Act, 2013, requires certain companies to have at least one woman Independent Director. The Company has two Non-Executive, Independent woman Directors as part of its Board. Brief particulars of Directors who are being appointed/ re-appointed at the ensuing Annual General Meeting ('AGM'), nature of expertise in specific functional area and other statutorily required details is provided in the Notice convening AGM.

The Board, inter-alia, provides leadership, strategic guidance, objective and independent view / judgment to the Company's management. The Board meets at regular intervals for planning, assessing and evaluating all important business decisions.

### (b) Category of Directors, Number of Board meetings held and attendance at Board Meeting and last AGM by Directors

During the financial year 2024-25, five (5) board meetings were held on 22<sup>nd</sup> May,2024, 1st August,2024, 12<sup>th</sup> August,2024, 07<sup>th</sup> November, 2024 and 05<sup>th</sup> February, 2025. ANNEXURE II

# BUSINESS RESPONSIBILITY & SUSTAINABILITY REPORT

(Business Responsibility and Sustainability Reporting (BRSR) is the practice of companies disclosing information about their environmental, social, and governance (ESG) performance. It goes beyond financial reporting to provide stakeholders with a comprehensive view of a company's non-financial impacts and contributions to sustainable development. BRSR covers topics such as environmental impact, social responsibility, and governance practices, aiming to promote transparency and accountability.)

### 26. Overview of the entity's material responsible business conduct issues

Please indicate material responsible business conduct and sustainability issues pertaining to environmental and social matters that present a risk or an opportunity to your business, rationale for identifying the same, approach to adapt or mitigate the risk alongwith its financial implications, as per the following format:

Орј	portunity	ı	Risk Neg	ative	Positive +
Sr. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
Transition to Clean Energy & GHG Emissions			By embracing renewable energy, Navneet not only reduces its carbon footprint but also reinforces its commitment to sustainability and environmental responsibility. This transition aligns with the growing environmental awareness among customers, strengthening Navneet's position as a socially responsible and environmentally conscious organisation. At the same time, the Company's continued reliance on conventional electricity grids, along with emissions generated from the physical distribution and delivery of books and stationery, remains a significant source of carbon emissions. A lack of alignment with global climate change goals could pose risks to the business, especially as several B2B export clients may increasingly expect Navneet to adopt carbon-neutral practices.	NA	<b>+</b>
2	Waste Management		During the production process, Navneet generates different categories of hazardous and non- hazardous waste. Improper handling of non-regulated waste can lead to regulatory fines, as well as societal and environmental harm. Inadequate management of waste materials may cause contamination, legal liabilities, and reputational damage, which can undermine the Company's long-term sustainability and profitability, while also affecting its competitiveness in the market.	Navneet engages authorised vendors for the proper handling of hazardous waste, including e-waste, ensuring compliance with regulations and responsible waste management practices by the Company.	

3	(z)		Navneet can benefit from embracing		
	3 Circular Economy		a circular economy, as it helps reduce waste, conserve resources, and lower production costs. By reusing materials and minimising waste, Navneet can enhance sustainability, strengthen its environmental reputation, and attract eco-conscious customers. Ultimately, this approach can drive increased profitability and improve the Company's market competitiveness.	NA	<b>(+)</b>
4	Water and Wastewater Management		Water is a critical input in the manufacturing process for Navneet. Inefficient management of water and wastewater, especially the use of untreated water, can cause environmental violations, raise operational costs, and harm reputation. Regulatory fines, resource wastage, and pollution may result in decreased profitability, legal liabilities, and reputational damage, ultimately affecting the Company's long-term market competitiveness.	Implementation of wastewater treatment plants to efficiently process water and mitigate environmental repercussions.  Integration of rainwater harvesting and storage systems in the Company's primary manufacturing facilities.	
5	Climate Change	The onset of climate change presents potential challenges for Navneet. With emerging physical risks, there is a heightened possibility of business disruptions. Additionally, transitional risks could lead to increased energy costs, supply chain interruptions, and stricter emissions regulations, resulting in higher operational expenses and reduced profitability for the Company.		Investing in solar power with a capacity of 724 kWp and wind power plants with a capacity of 4,8 MW, offsetting close to 60% of our Scope 2 emissions.  Developing a green zone within the manufacturing locations.  Currently, trees are absorbing 460 tonnes of CO <sub>2</sub> per year, offsetting close to 16% of our Scope 1 emissions.  Energy optimisation measures include periodic energy audits.

6	Navneet recognises that prioritising diversity and inclusion can significantly enhance creativity, problem-solving capabilities, and employee morale across the organisation. By broadening the pool of potential candidates, the Company's inclusive policies help foster a positive workplace culture that attracts top talent and supports long-term success in an increasingly diverse and global market. 8	and efficiency, ultimately affecting the Company's overall performance.  The nature of Navneet's operations introduces a variety of potential hazards. Factory employees and workers are exposed to the risk of physical injuries, particularly those related to the handling of hazardous materials. Office-based teams within the Company may encounter ergonomic challenges and mental health concerns. Additionally, Navneet's on-field sales teams travel long distances by road, which may lead to potential accidents.		The Company has implemented several control measures to ensure workplace safety, including Hazard Identification and Risk Assessment (HIRA), Toolbox Talks, use of Personal Protective Equipment (PPEs), Permit-to-Work systems, regular testing and monitoring, workplace inspections, EHS trainings, and ride Safe training, among others.	$\bigcirc$

9	J J J Human rights		Human rights violations can result in serious consequences for Navneet, including legal penalties, reputational damage, and consumer boycotts. Exploitative labour practices or unsafe working conditions can lower employee morale, lead to lawsuits, and weaken trust, negatively impacting profitability and market competitiveness. Insufficient training and awareness of human rights among employees increase these risks, highlighting the importance of thorough education and strict compliance measures.	Conduct trainings on human rights periodically. Carry out due diligence and third-party audits, including several export customer audits.	
10	Sustainable Product, Innovation and Quality		In a competitive landscape like that of Navneet, innovation gives it a distinct edge. By introducing new, improved, and sustainable products, Navneet stays ahead and captures greater market share. Innovative companies are seen as dynamic and forward-thinking. Navneet's B2C products, with a focus on sustainability, can attract eco-conscious customers, creating a competitive advantage in both domestic and export markets.	hat of Navneet, innovation gives t a distinct edge. 12	Responsible Marketing and Selling Practices		Responsible marketing and selling practices are crucial for Navneet, especially in the stationery and publication business where dealings involve educational books, government agencies, and large export customers. False claims by the marketing team about product quality or features could lead to financial losses and harm the Company's reputation. In the publication sector, aggressive sales tactics, particularly when targeting schools and influencing student purchases may create challenges and risk damaging relationships with educational institutions.	NA	$\oplus$
13	Affordability & Inclusivity		Promoting affordability and inclusivity in stationery and publication products is a key focus for Navneet, especially in a country like India where many underprivileged students face challenges accessing quality education. By making educational materials more accessible and affordable, the Company empowers a broader segment of society to obtain essential learning resources, helping to level the playing field and support marginalised communities. Furthermore, by expanding reach and affordability, the Company can generate a meaningful community impact, uplifting entire communities and fostering positive social change.	NA	+

14	Community Development		By consistently investing in CSR projects focussed on education, healthcare, and rural community development, Navneet makes a tangible difference in people's lives. Through these efforts, the Company enhances access to quality education and healthcare services, empowering individuals to lead healthier and more productive lives. Additionally, the Company's initiatives are aimed at rural community upliftment, fostering economic development, creating employment opportunities, and improving infrastructure in underserved areas.	NA	+		
15	Sustainable Sourcing		Failing to adhere to sustainable sourcing practices, particularly in paper procurement, can have serious consequences for Navneet and the Company's broader impact. Ignoring sustainable sourcing may cause environmental harm, including deforestation and habitat loss, which worsen climate change and biodiversity decline. Furthermore, procuring paper from unsustainable suppliers can damage the Company's reputation, as customers and stakeholders increasingly value environmentally responsible practices. Additionally, failing to uphold ethical standards in the supply chain such as preventing human rights violations, child labour, and bribery can tarnish Navneet's image and expose it to legal risks.	Adoption of a supplier Code of Conduct.  Declaration of acceptance of the Code of Conduct before onboarding.  Periodic supplier site assessments.  Document validation, including importance certifications such as FSC, and ISO, among others.			
16	Corporate Governance		Poor governance can affect Navneet's management, lead to ethical breaches, and cause financial scandals. It undermines investor confidence, invites legal challenges, and harms the Company's reputation. Consequently, this can result in reduced access to capital, lower profitability, and diminished competitiveness within the industry.	Diverse Board of Directors. Robust internal control systems to prevent fraud and ensure compliance. Dedicated ESG Committee and defined ESG Charter.

17	Data Protection and Privacy		Inadequate data protection and privacy measures could expose Navneet to data breaches, regulatory penalties, and reputational harm. Such breaches compromise sensitive information, damage customer trust, and lead to legal consequences, which can further disrupt the Company's operations, erode consumer confidence, and impact long-term market competitiveness.	Implementation of a data protection policy that is shared with stakeholders.	$\bigcirc$
18	Compliance and Business Ethics		Embracing ethical behaviour and strict compliance with laws and regulations fosters trust and credibility among Navneet's stakeholders. By consistently adhering to ethical standards and legal requirements, the Company mitigates risks of reputational damage and legal liabilities, ensuring a strong market position. Conversely, failing to meet the expectations of export customers can significantly impact the business, potentially jeopardising future opportunities and harming the Company's reputation in the international market.	Ensure compliance monitoring. Conduct periodic internal audits covering various businesses and functions.	$\ominus$
19	Anti-corruption & Bribery		Implementing robust anti-corruption and anti-bribery measures within Navneet helps safeguard its integrity and reputation. With the need to manage numerous Pan-India employees, vendors, business partners, global operations, and interactions with government agencies, there exists a potential risk of unethical practices in the sector. The Company remains vulnerable to legal penalties and reputational damage associated with corrupt activities.	Implementation of a strong ESG Policy, upholding ethical standards and providing clear guidelines. Grievance redressal mechanisms ensure prompt resolution of complaints, fostering transparency and accountability.	$\bigcirc$

1. Does the entity have processes in place to avoid/manage conflict of interests involving members of the Board? (Yes/No)

#### If yes, provide details of the same.

Each year, Navneet requires its directors to submit a formal declaration confirming their compliance with the Code of Conduct applicable to the Board of Directors and Senior Management. In addition, regular internal audits are conducted to monitor and ensure adherence to these governance standards.

Principle 2

Businesses should provide goods and services in a manner that is sustainable and safe.

(This principle highlights the importance of sustainable and safe production practices. Companies should strive to minimise the environmental impact of their activities and ensure that their products and services are safe for consumers and the environment.)

  - a) Plastics (including packaging)

Extended Producer Responsibility (EPR) for plastic is applicable to Navneet. The Company has obtained both the Importer's EPR license and the Brand Owner's EPR license. The Company maintains accurate records of pre-consumer and post-consumer plastic, based on the purchase of packaging materials used for sales and distribution of finished products.

Returns are filed annually. The CPCB has set targets for the procurement of virgin plastic and recycled plastic, and the Company shall endeavour to meet these targets in a timely manner.

(b) E-waste

NA

(c) Hazardous waste

(d) Other waste

The Company's core product portfolio primarily comprises paper-based items, including notebooks and books. Within Navneet's publishing division, books rendered obsolete, primarily due to curriculum updates are systematically recalled. These recalled books are then responsibly disposed of by selling them to authorised scrap dealers, who support the recycling process by supplying the wastepaper to paper mills.

Note: Navneet does not sell any products under the category of electronic goods or hazardous goods.

4. a Whether Extended Producer Responsibility (EPR) is applicable to the entity's activities (Yes/No)
Yes

b If yes, whether the waste collection plan is in line with the Extended Producer Responsibility (EPR) plan submitted to Pollution Control Boards?

The Importer's EPR and Brand Owner's EPR have recently been obtained from the CPCB. The Company will adhere to the terms and conditions as required.

# 3. Accessibility of workplaces

Are the premises/offices of the entity accessible to differently abled employees and workers, as per the requirements of the Rights of Persons with Disabilities Act, 2016?

No

### If not, whether any steps are being taken by the entity in this regard.

Navneet values inclusivity and has implemented several initiatives to ensure accessibility for differently abled individuals:

- O Sensitisation of Security and Back-Office Staff: Training programmes have been conducted to raise awareness among security and back-office staff on assisting differently abled individuals within Company premises.
- Provision of Wheelchairs: Wheelchairs have been made available at all Company locations to support differently abled employees and visitors.
- O Installation of Signboards: Clear signboards indicating accessible routes and facilities have been installed throughout the premises.
- O Standardised Use of Lift Facilities: Lift usage protocols have been standardised to ensure smooth and barrier-free access for differently abled employees and workers at office locations.
- 4. Does the entity have an equal opportunity policy as per the Rights of Persons with Disabilities Act, 2016?

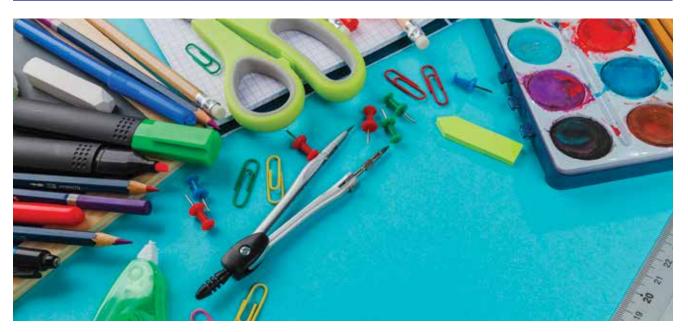

If so, provide a web-link to the policy.

Permanent Workers Other than Permanent Workers

Permanent Employees Other than Permanent Employees

### If yes, then give details of the mechanism in brief

Navneet has established a robust Employee Grievance Mechanism accessible at both factory and office levels through the Company's web portal.

To identify and address employee concerns, the Company regularly conducts an Employee Survey. The feedback gathered helps identify key grievance areas, which are then thoroughly analysed to develop targeted improvement plans.

The Company follows an open-door policy, encouraging employees and workers to freely communicate their grievances to the HR Department at any time.

Additionally, a designated complaint and suggestion box is available and reviewed by HR weekly. All complaints and suggestions are recorded, and appropriate actions are taken to resolve them. If issues remain unresolved, they are escalated to the Department Head or Head of HR.

Employees are assured that raising grievances will not lead to any retaliation or adverse consequences.

### 10. Health and safety management system

 Whether an occupational health and safety management system has been implemented by the entity? (Yes/No)

Yes

### If Yes, the Coverage such systems?

Navneet has successfully implemented the Occupational Health and Safety (OHS) Management System throughout all its plants and offices. The Head Office and two major sites have attained ISO 45001 certification, underscoring the Company's commitment to maintaining high safety standards and providing a safe working environment in line with global best practices.

b. What are the processes used to identify work-related hazards and assess risks on a routine and non-routine basis by the entity?

Navneet is fully committed to ensuring and continuously enhancing workplace safety for all its employees. Each site is supported by a dedicated Environment, Health, and Safety (EHS) Manager who leads efforts to maintain a safe and incident-free work environment.

Preventive measures such as site-specific EHS training, Hazard Identification and Risk Assessment (HIRA), Toolbox Talks, and the Permit-to-Work System are systematically implemented across all locations. The Company places strong emphasis on accurate and timely incident reporting, backed by structured

processes for incident investigation, root cause analysis, and corrective action implementation.

All manufacturing sites have active Safety Committees, including worker representatives as per the Maharashtra Factory Rules, Gujarat Factory Rules, and Goa, Diu & Daman Factory Rules. These committees meet quarterly to address and resolve workplace health and safety issues.

A thorough Personal Protective Equipment (PPE) assessment has been conducted to identify task-specific hazards, and PPE is distributed accordingly, with plant supervisors and line managers ensuring its proper usage.

Engineering controls such as guards on rotating and moving machinery, limit switches, relay switches, and sensors are installed to prevent employee exposure to hazardous equipment.

The identification and correction of unsafe acts and conditions are integral to Navneet's EHS culture and

practiced daily. Monthly 'EHS Samvad' meetings are held to review safety performance and develop actionable improvement plans.

EHS training is fully integrated into the Company's training curriculum, with both internal and external sessions provided to employees at all levels. Furthermore, EHS considerations are embedded in every business decision, underscoring Navneet's commitment to maintaining a safe and responsible work environment.

# 11. Details of safety related incidents, in the following format:

<sup>\*</sup>Including in the contract workforce

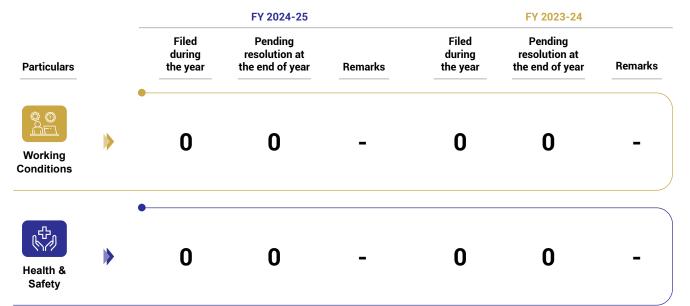

### 12. Describe the measures taken by the entity to ensure a safe and healthy workplace.

Navneet is dedicated to fostering a safe, healthy, and supportive work environment for all its employees. A series of proactive measures has been implemented to ensure a secure workplace and to promote the physical and mental well-being of employees. The key health and safety initiatives include:

- 1. Periodic Training Programmes: Regular training sessions are conducted on machinery handling, hazardous materials, AIDS awareness, first aid, and firefighting to enhance employee safety awareness.
- 2. Risk-Free Machinery Installation: Machines are equipped with guards, sensors, and other safety features to reduce the risk of workplace accidents and ensure operational safety.
- 3. Quarterly Health & Safety Meetings: Employee health and safety are reviewed quarterly, focusing on PPE usage, incidents, nearmisses, and improvement areas.
- 4. Awareness through Display: Health and safety information, including findings from mock drills and awareness topics, is prominently displayed on notice boards to keep employees informed.
- 5. Health & Safety Committee: A dedicated committee with mandatory worker representation oversees all health and safety matters, with meeting minutes reviewed during biannual audits.
- 6. First-Aid Preparedness: First-aid boxes are maintained across all areas with regular checks. Trained first-aiders and firefighters are present across all shifts and locations.
- 7. Mock Drills & Emergency Response: Scheduled mock drills are conducted for scenarios like fire, falls or snake bites, ensuring employees are well-prepared for emergencies.
- Fire Safety Management: Fire equipment is maintained through third-party AMCs, with internal oversight by the Health & Safety Committee, site supervisors, and service managers.
- 9. Testing and monitoring of the workplace, drinking water, and ambient air quality, among others,., have been carried out at regular frequency.

- Medical checkups of the workers and staff have been carried out once a year as per the Local Factory Rules. Health campaigns are launched based on the prevailing epidemic in the local region, if any.
- Employees and workers are served with good-quality and hygienic food on a daily basis.
- 13. Number of Complaints on the following made by employees and workers:

### 14. Assessment for the year.

 Provide details of any corrective action taken or underway to address safety-related incidents (if any) and on significant risks/concerns arising from assessments of health & safety practices and working conditions.

Navneet has implemented several key initiatives to strengthen workplace safety and reduce risks related to machinery and operations. New machines are fitted with guards and sensors to prevent access to rotating and moving parts, ensuring employee safety. Additionally, mandatory Environment, Health, and Safety (EHS) training is provided to all new employees, including contract workers and apprentices, to familiarise them with safety protocols. Strict supervision is maintained across all sites to uphold safety

standards, and the consistent use of appropriate Personal Protective Equipment (PPE) is enforced.

The Company has also acquired advanced safety devices such as multi-gas detectors, electric panel locks and tags, and precautionary items like fire blankets to further protect its workforce. Regular mock drills are conducted to prepare employees for emergency situations, ensuring the organisation is well-equipped to respond effectively. A behaviour-based training programme has been introduced, alongside delegating EHS responsibilities to line management, empowering them to actively monitor and enforce safety practices. Workplace inspections, daily hazard observations, and corrective actions are integral to Navneet's proactive safety culture. To motivate and

recognise safety-conscious behaviour, the Company has established an Employee Rewards and Recognition programme that acknowledges outstanding contributions to workplace safety.

5. Provide details of any corrective actions taken or underway to address significant risks/concerns arising from assessments of health and safety practices and working conditions of value chain partners.

In response to recognising significant social impacts within the supply chain, Navneet has implemented a robust Supplier Code of Conduct to uphold its sustainability standards. The Company has categorised its supply chain partners to enhance prioritisation and operational efficiency. Beginning in the upcoming fiscal year, Navneet plans to conduct on-site assessments to directly evaluate and address key social concerns, including health and safety practices and overall working conditions.

# Principle 4

Businesses should respect the interests of and be responsive to all its stakeholders.

(This principle highlights the importance of stakeholder engagement. Companies should consider the interests and perspectives of all stakeholders, including shareholders, employees, customers, suppliers, and the communities in which they operate. They should also be responsive to stakeholder concerns and feedback.)

### **Essential Indicators**

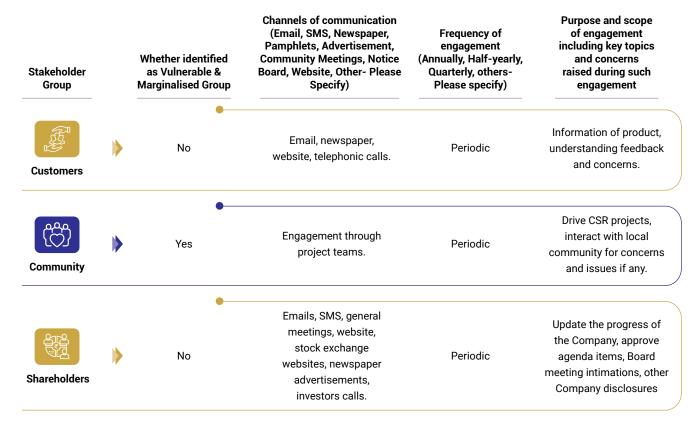

# 1. Describe the processes for identifying key stakeholder groups of the entity.

The identification of key stakeholders is a collaborative effort led by Senior Management in coordination with the Board and relevant departments. Stakeholders are selected based on their potential to impact or influence the Company, including both internal and external parties integral to our operations. Navneet acknowledges the critical role stakeholder support plays in the successful execution of its strategic objectives. Committed to valuing stakeholder input and feedback, the Company actively fosters strong and sustained relationships through continuous engagement and transparent communication. This approach ensures Navneet remains responsive to the evolving needs and expectations of all its stakeholders.

### 2. List stakeholder groups identified as key for your entity and the frequency of engagement with each stakeholder group.

### **Leadership Indicators**

1. Provide the processes for consultation between stakeholders and the Board on economic, environmental, and social topics or if consultation is delegated, how is feedback from such consultations provided to the Board.

Navneet has completed stakeholder engagement and materiality assessment processes, which are essential for identifying the critical impacts linked to its operations. To gain a comprehensive understanding of these impacts, the Company engaged stakeholders through surveys. After the surveys were conducted, the results were thoroughly analysed and incorporated into the validation of material topics, allowing Navneet to better align its strategies and actions with the needs and concerns of its stakeholders.

2. Whether stakeholder consultation is used to support the identification and management of environmental, and social topics (Yes/No).

If so, provide details of instances as to how the inputs received from stakeholders on these topics were incorporated into policies and activities of the entity.

Navneet received responses from both internal and external stakeholders and finalised the material topic by analysing the critical inputs gathered from the surveys.

Provide details of instances of engagement with, and actions taken to, address the concerns of vulnerable/marginalised stakeholder groups.

No concerns have been received from any vulnerable or marginalised stakeholder groups.

# Principle 5

# Businesses should respect and promote human rights.

(This principle focuses on the importance of human rights. Companies should respect and promote human rights, including the rights to freedom of expression, association, and privacy. They should also prevent and address human rights violations in their operations and value chains.)

5. Has the entity implemented a mechanism for Zero Liquid Discharge?

If yes, provide details of its coverage and implementation.

Yes, at all manufacturing sites, Navneet has implemented a Zero Liquid Discharge system as mandated by the State Pollution Control Board. This commitment ensures that water treated by the Company's Sewage Treatment Plants and Effluent Treatment Plants is reused for gardening, reflecting Navneet's dedication to environmental stewardship.

6. Please provide details of air emissions (other than GHG emissions) by the entity, in the following format:

As part of Navneet's persistent commitment to environmental sustainability, the Company has effectively offset approximately 5.770.21 metric tonnes of  $CO_2$  equivalent ( $TCO_2$ e) through strategic investments in wind and solar energy, along with biodiversity initiatives. As a result, Navneet's net emissions have been reduced to 5.536.15 metric tonnes (MT) of  $CO_2$ . Currently, Navneet's overall carbon offset rate is 51%. Specifically, the Company's Scope 1 emissions have been reduced by 19%, primarily through plantation efforts. The Company's solar power plant generated 2.521.41 GJ of energy, which was directly consumed in operations at the Company's factory locations. Additionally, the Company's wind power plant generated 23.762.99 GJ of energy, which was sold to the grid, leading to a 60% reduction in Navneet's Scope 2 emissions. These initiatives underscore the Company's dedication to advancing sustainable practices and reducing its carbon footprint.

### 8. Does the entity have any project related to reducing Green House Gas emission? (Yes/No)

### If yes, then provide details.

Navneet has undertaken several proactive steps to reduce its greenhouse gas emissions, including the following initiatives:

# **Renewable Energy Generation**

The Company has installed 724 KW of solar panels across two of its manufacturing facilities and established a wind power capacity of 4.8 MW, replacing conventional electricity consumption with renewable solar and wind energy. By utilising these renewable resources , the Company significantly reduces its dependence on fossil fuels, thereby reducing greenhouse gas emissions.

### **Solar Heaters for Canteen Operations**

Navneet incorporates sustainable energy in daily operations by using solar heaters for water heating and cooking in its canteens, further demonstrating its commitment to renewable energy.

# Carbon Emission Reduction

Navneet's efforts to lower its carbon footprint have been recognised by its primary customer in their Gigaton project, awarding the Company the title of 'Giga-guru'.

By integrating renewable energy and reducing greenhouse gas emissions, Navneet contributes meaningfully to global climate change mitigation efforts. The Company remains committed to exploring and adopting additional sustainable practices to further minimise its environmental impact.

 Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.

At Navneet, the safety of employees and the environment in handling solvent-based inks and PVC-based adhesives is a top priority. This commitment is reflected in the following measures:

- Waste Management Procedures: A detailed procedure identifies all types of waste generated in the factories. It outlines in-house storage, collection, and disposal methods via scrap dealers and government-authorised agencies.
- Effluent and Sewage Treatment: Each factory site is equipped with Effluent Treatment Plants (ETP) and Sewage Treatment Plants (STP). All locations operate under Zero Liquid Discharge (ZLD) policies, with treated wastewater reused for gardening and irrigation.
- Emission Control: Diesel Generator (DG) sets at factory locations have stack heights as permitted by local Pollution Control Boards. Quarterly stack monitoring ensures parameters like Particulate Matter, SOx, and NOx remain within permissible limits.
- Regular Testing and Monitoring: Environmental parameters, including ambient air quality, drinking water, stack emissions, food safety, and treated water are routinely monitored to maintain a clean, hygienic workplace and avoid adverse impacts on surrounding communities.
- Accidental Spill Prevention: Spill kits are provided in high-risk areas, and hazardous waste generated during spill control is disposed of in compliance with local Pollution Control Board guidelines.
- Reusable Water-Based Ink Carboys: To reduce plastic waste, water-based ink carboys are lined with polybags

- for reuse by manufacturers, significantly lowering plastic consumption.
- 7. Waste Minimization Initiatives:
- Wiro Product Packaging Return Programme: Customers are encouraged to return packaging materials such as boxes, rings, and cores for reuse, helping to reduce waste and conserve resources.
- PET Strap Reuse: PET straps used for palletizing export and internal materials are reused to support a circular economy, reduce waste, and save costs.
- 10. Optimising Resource Use:
- Improved Adhesive Carboy Design: Adhesive carboys have been redesigned with wider mouths and liners to maximise adhesive use and minimise waste. Switching from 50 kg to 5 kg carboys reduces waste by approximately 1 kg per carboy.
- Reusable Antiskid Grip Sheets: Instead of single-use stretch wrap film, reusable antiskid grip sheets are used for moving finished goods and work-in-progress items, reducing plastic waste and promoting sustainable packaging.
- Higher-Micron Plastics: The Company is transitioning from lower-micron plastics like BOPP, PP bags, and shrink film to higher-micron alternatives to lower environmental risks linked to plastic use.

Navneet also demonstrates its commitment to responsible waste management beyond its facilities by registering under the Extended Producer Responsibility (EPR) programme for imported plastics and implementing a comprehensive Plastic Waste Management plan.

These initiatives collectively showcase Navneet's ongoing dedication to minimising its environmental footprint through responsible waste management and proactive reduction of hazardous chemicals in its products and processes.

11. If the entity has operations/offices in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.) where environmental approvals / clearances are required, please specify details in the following format:

Scope 3 emissions include emissions from the following categories:

- Category 1 Purchase Goods and Services
- Category 2 Capital Goods and Services
- Category 3 Fuel- and Energy-related Activities
- Category 4 Upstream Transport and Distribution
- Category 5 Waste Generated in Operations
- Category 6 Business Travel
- Category 9 Downstream Transportation and Distribution
  - 3. With respect to the ecologically sensitive areas reported at Question 11 of Essential Indicators above, provide details of significant direct & indirect impact of the entity on biodiversity in such areas along-with prevention and remediation activities.

    Not applicable, as Navneet does not operate in ecologically sensitive areas.

4. If the entity has undertaken any specific initiatives or used innovative technology or solutions to improve resource efficiency, or reduce impact due to emissions/effluent discharge/waste generated, please provide details of the same as well as outcome of such initiatives, as per the following format:

Initiative undertaken	Details of the initiative (Web-link, if any, may be provided along-with summary)	Outcome of the initiative	Corrective action taken, if any
Carbon Offset and Emissions Reduction Initiative	This initiative emphasises environmental sustainability by making strategic investments in wind and solar energy projects, along with biodiversity efforts such as plantation activities. These measures have been undertaken to offset carbon emissions and lower Navneet's overall carbon footprint.	<ul> <li>Offset approximately 5,770.21 metric tonnes of CO<sub>2</sub> equivalent (TCO<sub>2</sub>e).</li> <li>Achieved a 51% carbon offset rate.</li> <li>Scope 1 emissions reduced by 19% through plantation efforts.</li> <li>Scope 2 emissions reduced by 60% due to investments in renewable energy.</li> </ul>	NA
Waste and Resource Management Initiative	The Company place a strong emphasis on safety and environmental sustainability in the handling of solvent-based inks and PVC adhesives. Comprehensive measures have been implemented, including robust waste management procedures, effluent and sewage treatment systems, spill prevention protocols, and regular testing and monitoring of key environmental parameters.  The Company promotes circular economy principles through initiatives such as PET strap reuse and the redesign of adhesive carboys to reduce waste. Navneet has also introduced reusable packaging programmes and focuses on optimising resource usage. Efforts to minimise plastic consumption include the use of water-based ink carboys and reusable materials like antiskid grip sheets. Furthermore, the Company complies with the Extended Producer Responsibility (EPR) programme for effective plastic waste management.	<ul> <li>Established comprehensive waste management procedures.</li> <li>Environmental parameters such as air quality and water are regularly tested.</li> <li>Reduced plastic waste through water-based ink carboy reuse and PET strap recycling.</li> <li>Optimised adhesive carboy design eliminates 1 kg of waste per unit.</li> <li>Implemented the EPR programme for responsible plastic management, ensuring compliance with sustainability standards.</li> </ul>	NA
Zero Liquid Discharge (ZLD) Mechanism	At all of Navneet's manufacturing sites, it has implemented a Zero Liquid Discharge (ZLD) mechanism, as mandated by the State Pollution Control Board. This system ensures that water treated by the Company's Sewage Treatment Plants (STPs) and Effluent Treatment Plants (ETPs) is fully reused, specifically for gardening purposes, promoting sustainable water management and minimising environmental impact.	<ul> <li>Achieved Zero Liquid Discharge at all manufacturing sites, ensuring no untreated wastewater is released into the environment.</li> <li>Treated water is successfully reused for gardening, supporting sustainability efforts.</li> <li>Compliance with State Pollution Control Board mandates and environmental stewardship objectives.</li> </ul>	NA

5. Does the entity have a business continuity and disaster management plan? (Yes/No)

### Give details in 100 words/web link.

Navneet's Business Continuity Plan (BCP) is designed to ensure the uninterrupted continuation of critical operations during a disaster, minimising disruption to stakeholders and preventing financial or operational losses. The plan addresses a range of potential risks, including natural disasters, legal emergencies, major fires, and factory shutdowns. It also takes into account operational, technological, workforce, safety, environmental, security, and reputational risks. In case of factory unavailability, the Company has identified alternative workplaces, including a nearby factory and local vendors for outsourcing. Following any disaster, review meetings will focus on damage control, rapid recovery, and adherence to legal requirements, thereby safeguarding business resilience and maintaining stakeholder confidence.

6. Disclose any significant adverse impact to the environment, arising from the value chain of the entity. What mitigation or adaptation measures have been taken by the entity in this regard.

In response to identifying significant adverse environmental impacts within its value chain, Navneet has proactively implemented a robust Supplier Code of Conduct this year to uphold sustainability standards. Critical vendors have completed both supplier self-assessments and self-declarations.

Navneet has strategically categorised its supply chain partners to optimise and strengthen its initiatives.

Beginning in the next fiscal year, Navneet will conduct onsite assessments of its supply chain to directly evaluate and address specific environmental concerns. These measures aim to enhance transparency, enforce strict environmental criteria, and promote continuous improvement in its mitigation and adaptation strategies throughout the value chain.

Percentage of value chain partners (by value of business done with such partners) that were assessed for environmental impacts.
 7.80%

Principle 7

Businesses, when engaging in influencing public and regulatory policy, should do so in a manner that is responsible and transparent.

(This principle highlights the importance of responsible advocacy. Companies should engage in policy advocacy in a responsible and transparent manner, and avoid engaging in activities that could undermine the public interest or the democratic process.)

Principle 8

Businesses should promote inclusive growth and equitable development.

(This principle emphasises the importance of promoting inclusive and equitable economic development. Companies should create economic opportunities for all, including disadvantaged and marginalised groups. They should also contribute to the development of local communities and support social and economic empowerment.)

# **Essential Indicators**

1. Details of Social Impact Assessments (SIA) of projects undertaken by the entity based on applicable laws, in the current financial year.

3. Describe the mechanisms to receive and redress grievances of the community.

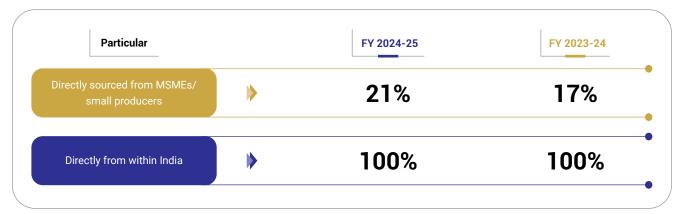

Navneet is committed to fostering transparent and responsive community engagement through a strong grievance redressal mechanism.

A dedicated email channel at grievance@navneet.com has been established to receive written complaints, ensuring direct and documented communication. Additionally, a suggestion and feedback box is placed outside the Company's factory premises to encourage walk-in submissions.

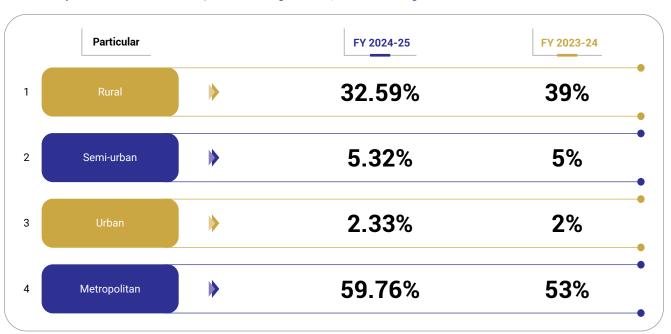

The Company's CSR team regularly gathers feedback on its initiatives, enabling the Company to address community concerns promptly and effectively, while continuously improving the impact of its efforts.

4. Percentage of input material (inputs to total inputs by value) sourced from suppliers:

5. Job creation in smaller towns – Disclose wages paid to persons employed (including employees or workers employed on a permanent or non-permanent/on contract basis) in the following locations, as % of total wage cost

Principle 9

Businesses should engage with and provide value to their consumers in a responsible manner.

(This principle highlights the importance of responsible consumer engagement. Companies should provide safe, high-quality products and services, and ensure that they are marketed and sold ethically and responsibly. They should also be transparent about their products and services, and provide consumers with the information they need to make informed choices.)

**Essential Indicators** 

1. Describe the mechanisms in place to receive and respond to consumer complaints and feedback.

Navneet has established a comprehensive customer complaint handling process to ensure the timely and effective resolution of customer grievances. Complaints are categorised into major and minor types, with major complaints, including significant issues such as product recalls or delivery failures, while minor complaints pertain to issues like printing defects or service-related concerns.

Customers can register complaints through product-specific email addresses, SBU-specific mail IDs, or social media platforms, including e-commerce sites. Upon receipt, complaints are routed to the relevant department by the Sales and Marketing team for resolution. These complaints may relate to delivery, product quality, pricing, technical glitches, and content-related issues.

Each SBU is responsible for maintaining a complaint that tracks the status of each issue as 'Open', 'In Progress', or 'Closed'. Based on the nature of the complaint, it is forwarded to the appropriate team: product-related issues go to the Quality & Compliance Team, service-related concerns to the Customer Support Team, and IT security issues to the IT Security Team. Complaints are marked as closed once a resolution is provided; however, if customer feedback reflects dissatisfaction, the complaint is reopened. If a customer's request cannot be fulfilled, the complaint is closed after internal discussions, with the rationale documented. Repetitive complaints from the same customer are closed with departmental approval, while recurring issues from multiple customers prompt an internal investigation and the implementation of corrective measures. Designated personnel handle specific types of complaints, and defined timelines are followed to ensure prompt resolution. Once resolved, feedback is shared with the customer, ensuring transparency and reinforcing continuous improvement in service quality.

# INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF NAVNEET EDUCATION LIMITED

### Report on the Audit of Standalone Financial Statement

#### **OPINION**

We have audited the Standalone Financial Statement of **Navneet Education Limited** ("the Company"), which comprise the Balance Sheet as at 31<sup>st</sup> March 2025, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and Statement of Cash Flows for the year then ended, and notes to the Standalone Financial Statement, including a summary of material accounting policies and other explanatory information (hereinafter referred to as "the Standalone Financial Statement").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Financial Statement give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March 2025, its profit including other comprehensive income, changes in equity and its cash flows for the year ended on that date.

#### **BASIS FOR OPINION**

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Standalone Financial Statement' section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the Standalone Financial Statement under the provisions of the Act and the Rules thereunder, and we have fulfilled our ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the Standalone Financial Statement.

## **KEY AUDIT MATTERS**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Standalone Financial Statement of the current period. These matters were addressed in the context of our audit of the Standalone Financial Statement as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matter described below to be the key audit matter.

Recoverability of investments made in wholly owned subsidiaries (Indiannica Learning Private Limited and Navneet Futuretech Limited) (refer note 8.3 and 18 to the Standalone Financial Statement)

Indiannica Learning Private Limited is a CBSE content publisher and exclusive licensee of Encyclopaedia Britannica curricular solutions in India and Navneet Futuretech Limited is involved in the business of hardware sale related to e- learning software and has also made strategic investment in field of online education and sporting event management for schools. Indiannica Learning Private Limited and Navneet Futuretech Limited has incurred losses during the year. Further both the companies have accumulated losses hence

judgement is required in regard to recoverability of investments into these subsidiaries as at 31st March 2025. Accordingly, we determined this to be a key audit matter.

Our procedures on the management's assessment of these matters included discussion on impairment test carried out by management including the business outlook, basis of estimates, valuation technique (fair value report obtained from registered valuers) appropriateness & reasonableness of assumptions, and various other parameters with the management. We did not identify any significant exceptions to the management's assessment in the carrying value of investment in subsidiaries of Rs. 25,057 lakhs (net of impairment provision of Rs. 5,466 lakhs).

# INFORMATION OTHER THAN THE STANDALONE FINANCIAL STATEMENT & AUDITOR'S REPORT THEREON

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility and Sustainability Report, Corporate Governance and Shareholder's Information, but does not include the Standalone Financial Statement and our auditor's report thereon.

Our opinion on the Standalone Financial Statement does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Standalone Financial Statement, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements, or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the above said reports, if we conclude that there is material misstatement therein, we are required to communicate the matter to those charged with governance and take necessary actions, as applicable under the relevant laws and regulations.

# RESPONSIBILITIES OF MANAGEMENT AND BOARD OF DIRECTORS FOR THE STANDALONE FINANCIAL STATEMENTS

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Standalone Financial Statement that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Financial Statement that give a true and fair view

and are free from material misstatement, whether due to fraud or error

In preparing the Standalone Financial Statement, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

# AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE STANDALONE FINANCIAL STATEMENT

Our objectives are to obtain reasonable assurance about whether the Standalone Financial Statement as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Financial Statement.

As a part of an audit in accordance with SAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Standalone Financial Statement, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with respect to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Standalone Financial Statement or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

 Evaluate the overall presentation, structure, and content of the Standalone Financial Statement, including the disclosures, and whether the Standalone Financial Statement represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Standalone Financial Statement that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Financial Statement of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

## REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

- As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the Annexure I, a statement on the matters specified in paragraphs 3 and 4 of the Order.
- 2. As required by Section 143(3) of the Act, we report that:
  - We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
  - In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
  - c. The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the books of account.
  - In our opinion, the aforesaid Standalone Financial Statement comply with the Indian Accounting Standards specified under Section 133 of the Act.
  - e. On the basis of the written representations received from the directors as on 31st March 2025 taken on record by the Board of Directors, none of the directors is disqualified as

- on  $31^{\rm st}$  March 2025 from being appointed as a director in terms of Section 164 (2) of the Act.
- f. With respect to the adequacy of the internal financial controls with respect to financial statements of the Company and the operating effectiveness of such controls, refer to our separate report in Annexure II; Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls with respect to financial statements.
- g. With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the remuneration paid / provided by the Company to its directors for the year ended 31st March 2025 is in accordance with the provisions of section 197 read with Schedule V of the Act; and
- h. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
  - The Company has disclosed the impact of pending litigations on its financial position in its Standalone Financial Statement – Refer notes 45(a), 9.1 and 17.3 to the Standalone Financial Statement.
  - The Company did not have any long-term contracts, including derivative contracts for which there were any material foreseeable losses.
  - There has been no delay in transferring the amounts required to be transferred to the Investor Education and Protection Fund by the Company.
  - iv. The management has represented that,
    - no funds have been advanced or loaned or invested by the Company to or in any other person(s) or entities, including foreign entities ("Intermediaries"), with the understanding that the intermediary shall whether directly or indirectly lend or invest in other persons or entities identified in any manner by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
    - no funds have been received by the Company from any person(s) or entities including

foreign entities ("Funding Parties"), with the understanding that such Company shall whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security, or the like on behalf of the Ultimate Beneficiaries.

Based on such audit procedures performed as considered reasonable and appropriate in the circumstances, nothing has come to our notice that causes us to believe that the representations under sub-clause (iv) contain any material misstatement.

- The final dividend proposed by the board of directors in the previous year was declared and paid by the Company during the year in accordance with section 123 of the Companies Act 2013. The Board of Directors of the Company has proposed a final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The amount of dividend proposed is in accordance with section 123 of the Act, as applicable.
- vi. Based on our examination, which included test checks, the Company has used an accounting software for maintaining its books of account for the financial year ended 31st March, 2025 which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of the audit trail feature being tampered with. Additionally, the audit trail has been preserved by the company as per the statutory requirements for record retention.

# ANNEXURE I TO INDEPENDENT AUDITOR'S REPORT

FOR THE YEAR ENDED 31st MARCH, 2025

[Referred to in paragraph 1 under the heading "Report on other legal and regulatory requirements" of our report of even date]

- (i) (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment and relevant right to use assets.
  - (B) The Company has maintained proper records showing full particulars of intangible assets.
  - (b) The Company has formulated a phased program for the physical verification of fixed assets, designed to cover all the items at least once over a period of three years. In our opinion, this frequency of physical verification is reasonable having regards to the size of the Company and the nature of its assets. In accordance with the said phased program, the Company has conducted physical verification of fixed assets at certain locations during the year. Based on the information and explanations provided to us, no material discrepancies were identified during these verifications.
  - (c) According to the information and explanations given to us and on the basis of our examination of the title deeds / purchase agreements we report that, the title deeds of immovable properties (other than properties where the Company is the lessee and the lease agreements are duly executed in the favor of lessee) included in the Property, Plant and Equipment and Right of use assets are held in the name of the Company (including erstwhile name) as at balance sheet date.
  - (d) The Company has not revalued any of its Property, Plant or Equipment (including Right of Use assets) and intangible assets during the year. Therefore, requirement of clause (i)(d) of paragraph 3 of the Order is not applicable to the Company.
  - (e) According to the information and explanation given to us as of 31st March 2025, no proceedings have been initiated during the year or are pending against the Company as at 31st March 2025 for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (as amended in 2016) and rules made thereunder.
- (ii) (a) Physical verification of inventory (other than lying with third parties) has been conducted at reasonable intervals by the management and in our opinion, the coverage and procedure of such verification by the management is reasonable & appropriate; no discrepancies were noticed on verification between the physical stocks and the book records that were 10% or more in the aggregate for each class of inventory. In respect of inventories lying with the third parties, confirmations have been obtained by the Company and material in transit have been verified with reference to subsequent receipts.
  - (b) The Company has been sanctioned working capital limits in excess of Rs. 5 crores in aggregate from bank on the basis of security, which includes current assets of the Company. There are no borrowings from financial institutions. Based on our examination of the records of the company, the quarterly returns or statements filed by the company with said bank are in agreement with the books of accounts maintained by the Company.
- (iii) According to the information and explanation given to us, the Company has made investments in subsidiary companies, Limited Liability Partnerships and mutual funds and has granted unsecured loans to companies, firms, limited liability partnerships and other parties.
  - (a) The Company has granted unsecured loans and stood guarantee for loan taken by the parties as given below (excluding ECL provision):

(INR in Lakhs)

Particulars	Guarantee	Loan
Aggregate amount during the year - Subsidiary Companies	-	1,434
Balance outstanding as at balance sheet date - Subsidiary Company (loan including accrued interest)	4,000*	818
Aggregate amount granted/ provided during the year – Other than subsidiary company, joint ventures and associates	-	5,050
Balance outstanding as at balance sheet date - Other than Subsidiary Companies (loan including accrued interest)	-	2,146**

<sup>\*</sup> For cash credit facilities which are renewed every year

Based on the information and explanation given to us, apart from the above, the Company has not provided any guarantee or security or granted any loans or advances in the nature of loans.

- (b) In our opinion, the investments made, guarantees provided and the terms and conditions of the loans granted are not prima facie, prejudicial to the Company's interest. The Company has not given any security with respect to loans taken by subsidiary companies and other parties.
- (c) In respect of loans and advance in the nature of loans other than demand loans, the schedule of repayment of principal and payment of interest has been stipulated. In respect of these loans the repayment of principal and interest is regular. For other loans, the terms of arrangement stipulate that the principal and interest are repayable on demand. As per the information made available to us, the principal and interest has been repaid as and when demanded except in respect of certain parties where there have been delays / defaults in repayment of principal and interest payments. In absence of repayment schedule as regards

<sup>\*\*</sup>refer note 9.1 with respect to loan given to one party.

- principal and interest, the question of our comment on regularity of receipt of principal amount and interest does not arise except as regards reporting in respect of cases where demand for principal / interest is made by the Company.
- (d) There are no overdue amounts for more than ninety days in respect of the loans granted (where demands were made) except with respect to certain demand loans which are tabulated as under (also refer comment in sub-clause 'c' above):

(INR in Lakhs)

No. of cases	Principal amount overdue	Interest overdue accrued in the books of account	Total overdue as per books of accounts	Remarks, if any
5	1,454	390	1,844	Reasonable steps have been taken by the management for recovery of principal and interest

- (e) No loan granted by the Company which has fallen due during the year has been renewed or extended or fresh loans granted to settle the overdue of existing loans given to them.
- (f) As mentioned in paragraph 3(c) above, part of the total loans granted are repayable on demand and there is no stipulated period of repayment. Details of the said loan are as under:

(INR in Lakhs)

Particulars	All parties	Promoters	Related parties

<sup>\*</sup>The above amounts are net of amount paid under protest / adjusted by department amounting to Rs. 149 lakhs.

- (viii) According to the information and explanations given by the management and based on the procedures carried out during the course of our audit, we have not come across any transactions not recorded in the books of account, which have been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act. 1961.
- (ix) Based on our audit procedures and as per the information and explanations given to us by the management, we are of the opinion that:
  - (a) The Company has not defaulted in the repayment of loans or other borrowings or in the payment of interest thereon to any lender.
  - (b) We report that the Company has not been declared a wilful defaulter by any bank or financial institution or any other lender.
  - (c) The Company has not obtained any term loans during the year and there were no outstanding term loans at the beginning of the year. Therefore, the clause (ix)(c) of paragraph 3 of the Order is not applicable.
  - (d) According to the information and explanations given to us, the audit procedures performed by us and on an overall examination of the financial statements of the Company, we report that no funds raised on short-term basis have been utilised for long term purposes by the Company.
  - (e) On an overall examination of the financial statements of the Company, the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries and associate companies. The Company does not have any joint ventures. Hence further reporting under clause (ix)(e) of paragraph 3 of the Order is not applicable.
  - (f) The company has not raised funds during the year on the pledge of securities held in its subsidiaries and associate companies. The Company does not have any joint ventures. Hence further reporting under clause (ix)(f) of paragraph 3 of the Order is not applicable.
- (x) (a) In our opinion and according to the information and explanations given to us, the company did not raise any money by way of initial public offer or further public offer (including debt instruments). Therefore, clause (x)

- (a) of paragraph 3 of the Order is not applicable to the company.
- (b) According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully, partially, or optionally convertible) during the year. Therefore, the question of our comment on compliance with the provisions of Section 42 and section 62 of the Act and utilisation of the amount raised for the purposes for which it was raised does not arise.
- (xi) (a) Based upon the audit procedures performed for the purpose of reporting the true and fair view of the financial statements and according to the information and explanations given by the management, we report that no fraud by the Company or no fraud on the Company has been noticed or reported during the year.
  - (b) No report under section 143 (12) of the Act has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and up to the date of this report.
  - (c) As represented to us by the management, there are no whistleblower complaints received by the Company during the year.
- (xii) The Company is not a Nidhi company. Therefore, the clause (xii) of paragraph 3 of the Order is not applicable to the Company.
- (xiii) According to the information and explanations given to us and based on our examination of the records of the Company, all transactions with the related parties are in compliance with sections 177 and 188 of the Act where applicable and the details of such transactions have been disclosed in the financial statements as required by the applicable Indian accounting standards.
- (xiv) (a) In our opinion and based on our examination, the Company has an internal audit system commensurate with the size and nature of its business.
  - (b) We have considered the internal audit reports of the Company issued till date, for the period under audit.
- (xv) In our opinion and according to the information and explanations given to us, the Company has not entered into any

<sup>\*\*</sup> Subsequent to the year end, the order has been reversed by the appellate authorities.

- non-cash transaction with directors or persons connected with directors. Therefore, clause (xv) of paragraph 3 of the Order is not applicable.
- (xvi) (a) In our opinion and according to the information and explanation given to us, the Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Hence, reporting under clause (xvi) (a), (b) and (c) of paragraph 3 of the Order is not applicable.
- (b) According to the information and explanation given to us, there is no core investment company within the Group (as defined in the Core Investment Companies (Reserve Bank) Directions, 2016) and accordingly reporting under clause (xvi) (d) of paragraph 3 of the Order is not applicable.
- (xvii) The Company has not incurred any cash losses during the financial year ended 31st March 2025 and the immediately preceding financial year. Therefore, the clause (xvii) of paragraph 3 of the Order is not applicable to the Company for the year.
- (xviii) There has been no resignation of the statutory auditors during the year. Therefore, the clause (xviii) of paragraph 3 of the Order is not applicable.
- (xix) According to the information and explanations given to us and on the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the

- evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date will get discharged by the Company as and when they fall due.
- (xx) During the year there is no unspent amount towards Corporate Social Responsibility (CSR). Accordingly, reporting under clause (xx)(a) and (b) of paragraph 3 of the Order is not applicable for the year. Refer note 55 to the Standalone Financial Statement.

# ANNEXURE II TO INDEPENDENT AUDITOR'S REPORT

FOR THE YEAR ENDED 31st MARCH, 2025

[Referred to in paragraph 2 (f) under the heading "Report on other legal and regulatory requirements" of our report of even date]

# REPORT ON THE INTERNAL FINANCIAL CONTROLS UNDER SECTION 143(3)(i) OF THE COMPANIES ACT, 2013 ("THE ACT")

#### Opinion

We have audited the internal financial controls with respect to financial statements of **Navneet Education Limited** ("the Company"), as of 31st March 2025, in conjunction with our audit of the Standalone Financial Statement of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, an adequate internal financial controls with respect to financial statements and such internal financial controls with respect to financial statements were operating effectively as at 31st March, 2025, based on the internal control with respect to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls with respect to financial statements issued by the Institute of Chartered Accountants of India ("ICAI").

### Responsibilities of Management and Those Charged with Governance for Internal Financial Controls with respect to financial statements

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control with respect to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit issued by ICAI. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

#### **Auditor's Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls with respect to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls with respect to financial statements (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with respect to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with respect to financial statements and their operating effectiveness. Our audit of internal financial controls with respect to financial statements included obtaining an understanding of internal financial controls

with respect to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Standalone Financial Statement, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with respect to financial statements.

# Meaning of Internal Financial Controls with respect to financial statements

A company's internal financial control with respect to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the Standalone Financial Statement for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with respect to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of the Standalone Financial Statement in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the Standalone Financial Statement.

# Inherent Limitations of Internal Financial Controls with respect to financial statements

Because of the inherent limitations of internal financial controls with respect to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with respect to financial statements to future periods are subject to the risk that the internal financial control with respect to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

# STANDALONE SIGNIFICANT ACCOUNTING POLICIES

FOR THE YEAR ENDED 31st MARCH, 2025

# 1. COMPANY OVERVIEW, NATURE OF ENTITY'S OPERATIONS AND ITS PRINCIPAL ACTIVITIES

Navneet Education Limited ('the Company') is a public limited Company incorporated and domiciled in India and has its registered office at Navneet Bhavan, Near Shardasharam Society, Bhavani Shankar Road, Dadar, Mumbai - 400028, Maharashtra, India. The Company is listed on Bombay Stock Exchange and National Stock Exchange.

The Company is a leading manufacturer of Maharashtra and Gujarat State Board Publication books and Stationery Products. The Publishing segment consists of supplementary books such as workbooks, guides, and question banks which are based on the latest prescribed syllabus by state education boards under the brand name of 'Vikas' and 'Gala'. The stationery business consists of paper based and non-paper-based stationery under the brand names 'Navneet' and 'Youva'. The Company is also in the business of developing digital content and technology platforms for schools, teachers and students in India. It adopts new technologies and modifies them to meet the needs of teachers and students.

The financial statements of the Company for the year ended 31st March, 2025 were approved and adopted by the board of directors of the Company in their meeting dated 19th May, 2025.

# 2. MATERIAL ACCOUNTING POLICIES AND KEY ACCOUNTING ESTIMATES AND JUDGEMENTS

#### 2.1 Basis of preparation

### a) Statement of Compliance

The financial statements (on standalone basis) of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 ('the Act') read with the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendment rules issued thereafter.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

### b) Functional and presentation currency

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The financial statements are prepared in ₹, which is the functional and presentation currency.

#### c) Basis of measurement

The financial statements have been prepared on the historical cost convention basis, except for the following material items which are measured at fair value as required by relevant Ind AS:

- i) Certain financial assets and financial liabilities (including derivative instruments) [Refer accounting policy regarding financial instruments in note no. 2.2(i)]
- ii) Defined benefit plans

## 2.2 Material Accounting policies

#### a) Presentation and disclosure of financial statements

All assets and liabilities have been classified as current and non-current as per the Company's normal operating cycle and other criteria set out in the division II of Schedule III of the Companies Act, 2013, for a Company whose financial statements are made in compliance with the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendment rules issued thereafter. Based on the nature of business and their realisation in cash and cash equivalents, 12 months have been considered by the Company for the purpose of current / non-current classification of assets and liabilities.

Deferred tax assets and liabilities are classified as noncurrent assets and liabilities as the case may be.

#### b) Property, plant and equipment & Depreciation

- i) All Property, Plant and Equipment are stated at cost of acquisition less accumulated depreciation and accumulated impairment losses, if any. Cost of property, plant and equipment includes nonrefundable taxes and duties, borrowing cost directly attributable to the qualifying asset and any directly attributable costs of bringing the asset to its working condition and location and present value of the expected cost for the dismantling/ decommissioning of the asset.
- ii) Capital work-in-progress comprises of costs incurred on property, plant and equipment not yet ready for their intended use at the Balance Sheet date. Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date are classified as capital advances under other non-current assets.
- iii) Property, plant and equipment are eliminated from financial statements, either on disposal or when retired from active use. Losses arising in the case of retirement of property, plant and equipment and gains or losses arising from disposal of property, plant and equipment are recognised in the statement of profit and loss in the year of occurrence.
- iv) Subsequent expenditures relating to property, plant and equipment are capitalised only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably. Repair and maintenance costs are recognised in the Statement of Profit and Loss when incurred.
- When parts of an item of property, plant and equipment have different useful lives, they are accounted for as a separate item (major components) of property, plant and equipment.

- The carrying amount of an item of property, plant and equipment shall be derecognised: (a) on disposal; or (b) when no future economic benefits are expected from its use or disposal
- vii) Depreciation on property, plant and equipment
- a) Depreciation on property, plant and equipment (other than freehold land and capital work in progress) is provided on WDV over the useful lives of the relevant assets net of residual value whose lives are in consonance with the lives mentioned in Schedule II of the Companies Act, 2013, except the case where individual assets whose cost does not exceed ten thousand rupees has been provided fully in the year of capitalisation.
- b) In the case of assets purchased, sold or discarded during the year, depreciation on such assets is calculated on a pro-rata basis from the date of such addition or as the case may be, upto the date on which such asset has been sold or discarded.
- c) The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each balance sheet date to reflect the expected pattern of consumption of the future benefits embodied in the properties, plant and equipment and in case of any changes, effect of the same is given prospectively.
- d) Depreciation of an asset ceases at the earlier of the date that the asset is classified as held for sale (or included in a disposal group that is classified as held for sale) in accordance with Ind AS 105 and the date that the asset is derecognised.

# Investment properties & Depreciation on investment properties

- Property (Land or a Building or part of a building or both and related equipment & furniture) that are held for long term rental yields or for capital appreciation or both, rather than for:
  - Use in the production or supply of goods or services or for administrative purposes; or
  - Sale in the ordinary course of business are recognised as investment property in books of account.
- ii) Investment properties are measured initially at cost, including transaction costs. The cost of investment properties includes non-refundable taxes and duties, borrowing costs directly attributable to the qualifying asset and any directly attributable costs of bringing the asset to its working condition and location and present value of any obligatory decommissioning cost for its intended use.

Subsequent expenditure is capitalised to the asset's carrying amount only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably. All other repair and maintenance costs are recognised in the Statement of Profit and Loss when incurred.

#### iii) Depreciation on investment properties

- a) Depreciation on investment properties is provided on WDV over the useful life of the relevant assets net of residual value whose life is in consonance with the life mentioned in Schedule II of the Companies Act, 2013.
- In the case of investment property purchased, sold or discarded during the year, depreciation on such investment property is calculated on a pro-rata basis from the date of such addition or as the case may be, upto the date on which such investment property has been sold or discarded.
- c) The residual values, useful lives and methods of depreciation of investment properties are reviewed at each balance sheet date to reflect the expected pattern of consumption of the future benefits embodied in the investment properties and in case of any changes, effect of the same is given prospectively.

#### d) Intangible assets & Amortisation

i. Acquired intangible assets:

Intangible assets are recognised when the Company controls the asset, it is probable that future economic benefits attributed to the asset will flow to the Company and the cost of the asset can be reliably measured. At initial recognition, intangible assets are recognised at cost. Intangible assets are carried at cost less accumulated amortisation and accumulated impairment loss; if any.

Amortisation of intangible assets is provided on straight line basis over the estimated useful life as tabulated below:

Block	Useful life
Trademark and copyright	3 to 10 years*
Software	2.5 to 3 years

- \* License is capitalised at the amounts paid to acquire the respective license for use and is amortised over the period of license.
- i. Internally generated intangible assets:

Content and Technology platform development expenditure incurred where it is reasonably certain that the outcome of development will be commercially exploited to yield economic benefits to the Group, is considered as an intangible asset. Content and Technology platform development cost majorly includes salaries related to contents and technology platform capitalised during the year.

For capitalised intangible assets, estimated useful life is considered 3 years. The intangible assets are amortised over 3 years on Straight Line Method basis

 Intangible assets under development comprise of cost incurred on intangible assets under development that are not ready for their intended use as at the balance sheet date.

- iv. Subsequent expenditures related to an item of intangible assets are added to its carrying amount when it is probable that future economic benefits deriving from the cost incurred will flow to the enterprise and the cost of the item can be measured reliably.
- v. The useful lives and methods of amortisation of intangible assets are reviewed at each balance sheet date to reflect the expected pattern of consumption of the future benefits embodied in the intangible assets and in case of any changes, effect of the same is given prospectively.

### e) Impairment of non-financial assets

Assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e., the higher of the fair value less cost to sell and the value-inuse) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the CGU to which the asset belongs. If such assets are considered to be impaired, the impairment to be recognised in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the assets. An impairment loss is reversed in the statement of profit and loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortisation or depreciation) had no impairment loss been recognised for the asset in prior years.

## f) Non-Current assets held for sale

The Company classifies non-current assets as held for sale if their carrying amounts will be recovered principally through sale rather than through continuing use and the sale is highly probable. Management must be committed to the sale, which should be expected within one year from the date of classification. The criteria for held for sale classification is regarded as met only when the asset is available for immediate sale in its present condition, subject to terms that are usual and customary for sales of such assets, its sale is highly probable; and it will genuinely be sold, not abandoned. The Company treats sale of the asset to be highly probable when:

- The appropriate level of management is committed to a plan to sell the asset,
- An active programme to locate a buyer and complete the plan has been initiated,
- The asset is being actively marketed for sale at a price that is reasonable in relation to its current fair value,

- The sale is expected to qualify for recognition as a completed sale within one year from the date of classification, and
- Actions required to complete the plan indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn.

Non-current assets held for sale are measured at the lower of their carrying amount and the fair value less costs to sell. Assets and liabilities classified as held for sale are presented separately in the balance sheet. Property, plant and equipment and intangible assets once classified as held for sale are not depreciated or amortised. Gains and losses on the disposal of such assets held for sale are determined by comparing proceeds with carrying amounts and are recognised in the statement of profit and loss.

The Deposits associated with assets held for sale are presented separately from other liabilities in the balance sheet.

#### g) Inventories

Inventories are valued at the lower of cost and net realisable value.

Costs incurred in bringing each product to its present location and condition are accounted for as follows:

- i) Raw materials, packing materials, consumables, stores and spares are valued at lower of cost and net realisable value. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost.
  - The Cost comprises of costs of purchase, duties and taxes (other than those subsequently recoverable) and other costs after deducting discounts and rebates which are incurred in bringing them to their present location and condition. Cost is determined on weighted average basis. Cost also includes the reclassification from OCI of any gains or losses on qualifying cash flow hedges relating to purchases of raw material but excludes borrowing costs.
- ii) Work-in-progress / Finished goods are valued at lower of cost and net realisable value. The cost includes direct materials valued on weighted average basis, conversion costs (i.e. costs directly related to the units of production), appropriate proportion of manufacturing overheads based on normal operating capacity and other costs incurred in bringing them to their present location and condition. Net realisable value is the estimated selling price in the ordinary course of business less estimated costs of completion and estimated costs necessary to make the sale.
- ii) Stocks in trade (Traded goods) are valued at lower of cost and net realisable value. Cost includes direct materials valued on weighted average basis, and other costs incurred in bringing them to their present location and condition.

- iv) Scraps are valued at estimated net realisable value.
- Cost of inventories is arrived at after providing for cost of obsolescence wherever considered necessary.

## h) Borrowing Cost

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised as part of the cost of the respective asset till such time the asset is ready for its intended use or sale. A qualifying asset is an asset which necessarily takes a substantial period of time to get ready for its intended use or sale. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest expenses calculated as per effective interest method, exchange difference arising from foreign currency borrowings to the extent they are treated as an adjustment to the borrowing cost.

#### i) Operating Segments

The operating segments have been identified based on the conditions specified in paragraph 5 to Ind AS 108, i.e. an operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, whose operating results are regularly reviewed by the Group's Chief Operating Decision Maker ("CODM") to make decisions for which discrete financial information is available.

Operating Segments are reported in a manner consistent with internal reporting provided to the CODM. The Managing Director is the CODM of the Company. The Company prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the financial statements of the Company as a whole.

## j) Financial instruments

### **Initial Recognition**

All financial instruments are recognised initially at fair value. Transaction costs that are attributable to the acquisition of the financial assets (other than financial assets recorded at fair value through profit or loss) are included in the fair value of the financial assets. Purchase or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trade) are recognised on trade date. However, loans and borrowings and payables are recognised net of directly attributable transaction costs and trade receivables are measured at their transaction price unless it contains a significant financing component or pricing adjustments embedded in the contract.

## Classification of financial assets

Financial assets are classified as 'equity instrument' if it is a non-derivative and meets the definition of 'equity' for the issuer. All other non-derivative financial assets are 'debt instrument'.

#### Subsequent Measurement

The classification of financial instruments depends on the objective of the business model for which it is held. Management determines the classification of its financial instruments at initial recognition.

#### Non-derivative financial assets:

# Financial assets at amortised cost and the effective interest method

Debt instruments shall be measured at amortised cost if both of the following conditions are met:

- the asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and selling assets;
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

Debt instruments meeting these criteria are measured initially at fair value plus transaction costs.

They are subsequently measured at amortised cost using the effective interest method less any impairment, with interest recognised on an effective yield basis in investment income.

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest over the relevant period. The effective interest rate is the rate that exactly discounts the estimated future cash receipts (including all fees on points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

The Company may irrevocably elect at initial recognition to classify a debt instrument that meets the amortised cost criteria above as at Fair Value Through Profit & Loss (FVTPL) if that designation eliminates or significantly reduces an accounting mismatch had the financial asset been measured at amortised cost.

#### **Investment in Subsidiaries**

Investments in subsidiaries are carried at cost less accumulated impairment losses, if any. Where an indication of impairment exists, the carrying amount of the investment is assessed. Where the carrying amount of an investment is greater than its estimated recoverable amount, it is written down immediately to its recoverable amount and the difference is transferred to the Statement of Profit and Loss. On disposal of investment, the difference between the net disposal proceeds and the carrying amount is charged or credited to the Statement of Profit and Loss.

# **Equity instruments**

At initial recognition, an irrevocable election is made (on an instrument-by-instrument basis) to designate investments in equity instruments other than held for trading purpose at FVTOCI.

A financial asset is held for trading if:

 it has been acquired principally for the purpose of selling it in the near term; or

- on initial recognition it is part of a portfolio of identified financial instruments that the Group manages together and has evidence of a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument or a financial guarantee.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognised in the OCI. There is no recycling of the amounts from OCI to the statement of profit and loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity. Equity investments designated as FVTOCI are not subject to impairment assessment.

Equity instruments included within the FVTPL category are measured at fair value with all fair value changes recognised in the statement of profit and loss.

# Financial assets at fair value through profit or loss (FVTPL)

Financial assets that do not meet the criteria of classifying as amortised cost or fair value through other comprehensive income described above, or that meet the criteria, but the entity has chosen to designate as at FVTPL at initial recognition, are measured at FVTPL.

Investments in equity instruments are classified as at FVTPL, unless the Company designates an investment that is not held for trading at FVTOCI at initial recognition.

Financial assets classified at FVTPL are initially measured at fair value excluding transaction costs.

Financial assets at FVTPL are subsequently measured at fair value, with any gains or losses arising on remeasurement recognised in the statement of profit and loss.

Dividend income on investments in equity instruments at FVTPL is recognised in the statement of profit and loss in investment income when the Company's right to receive the dividends is established, it is probable that the economic benefits associated with the dividend will flow to the entity; and the amount of the dividend can be measured reliably.

# Impairment of financial assets

On initial recognition of the financial assets, a loss allowance for expected credit loss is recognised for debt instruments at amortised cost and FVTOCI. For debt instruments that are measured at FVTOCI, the loss allowance is recognised in other comprehensive income in the statement of profit and loss and does not reduce the carrying amount of the financial asset in the balance sheet

Expected credit loss of a financial instrument is measured in a way that reflects:

- an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- ii) the time value of money; and

iii) reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

At each reporting date, the Company assesses whether the credit risk on a financial instrument has increased significantly since initial recognition.

When making the assessment, the Company compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and consider reasonable and supportable information, that is available without undue cost or effort, that is indicative of significant increases in credit risk since initial recognition.

If, at the reporting date, the credit risk on a financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12-month expected credit losses. If the credit risk on that financial instrument has increased significantly since initial recognition, the Company measures the loss allowance for a financial instrument at an amount equal to the lifetime expected credit losses.

The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date is recognised as an impairment gain or loss in the statement of profit and loss.

### **Derecognition of financial assets**

The Company derecognises a financial asset on trade date only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset other than in its entirety (e.g. when the Company retains an option to repurchase part of a transferred asset), the Company allocates the previous carrying amount of the financial asset between the part it continues to recognise under continuing involvement, and the part it no longer recognises on the basis of the relative fair values of those parts on the date of the transfer. The difference between the carrying amounts allocated to the part that is no longer recognised and the sum of the consideration received for the part no longer recognised and any cumulative gain or loss allocated to it that had been recognised in other comprehensive income is recognised in the statement of profit and loss. Cumulative gain or loss that had been recognised in other comprehensive income is allocated between the part that continues to be recognised and

the part that is no longer recognised on the basis of the relative fair values of those parts.

# Financial liabilities and equity instruments issued by the Company

#### Classification as debt or equity

Financial liabilities and equity instruments issued by the Company are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument

## **Equity instruments**

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

#### Financial liabilities

Financial liabilities are classified as either 'financial liabilities at FVTPL' or 'other financial liabilities'.

#### Financial liabilities at FVTPL

Financial liabilities are classified as at FVTPL when the financial liability is either held for trading or it is designated as at FVTPL.

A financial liability is classified as held for trading if:

- i) it has been acquired or incurred principally for the purpose of repurchasing it in the near term; or
- ii) on initial recognition it is part of a portfolio of identified financial instruments that the Company manages together and for which there is evidence of a recent actual pattern of short-term profit taking; or
- iii) It is a derivative that is not designated and effective as a hedging instrument.

A financial liability other than a financial liability held for trading may also be designated as at FVTPL upon initial recognition if:

- such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise; or
- ii) the financial liability forms part of a Company of financial assets or financial liabilities or both, which is managed and its performance is evaluated on a fair value basis, in accordance with the Company's documented risk management or investment strategy, and information about the Companying is provided internally on that basis; or
- iii) It forms part of a contract containing one or more embedded derivatives, and Ind-AS 109 'Financial Instruments' permits the entire combined contract to be designated as at FVTPL.

Financial liabilities at FVTPL are stated at fair value, with any gains or losses arising on remeasurement recognised in the statement of profit and loss, except for the amount of change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability which is recognised in other comprehensive income.

The net gain or loss recognised in the statement of profit and loss incorporates any interest paid on the financial liability.

#### Other financial liabilities

Other financial liabilities, including borrowings, are initially measured at fair value, net of transaction costs.

Other financial liabilities are subsequently measured at amortised cost using the effective interest method, with interest expense recognised on an effective yield basis.

The effective interest method is a method of calculating the amortised cost of financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

### Financial guarantee contracts

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due in accordance with the terms of a debt instrument.

Financial guarantee contracts issued by the Company are initially measured at their fair values and, if not designated as at FVTPL, are subsequently measured at the higher of:

- the amount of loss allowance determined in accordance with impairment requirements of Ind AS 109; and
- the amount initially recognised less, when appropriate, the cumulative amount of income recognised in accordance with the principles of Ind AS 115.

#### Reclassification of financial assets and liabilities

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no re-classification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a re-classification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Company's senior management determines change in the business model as a result of external or internal changes which are significant to the Company's operations. Such changes are evident to external parties. A change in the business model occurs when the Company either begins or ceases to perform an activity that is significant to its operations. If the Company re-classifies financial assets, it applies the re-classification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Company does not re-state any previously recognised gains, losses (including impairment gains or losses) or interest.

# Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the balance sheet when there is

a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

### Derivatives and hedge accounting

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured at their fair value. The method of recognising the resulting gain or loss depends on whether the derivative is designated as a hedging instrument, and if so, the nature of the item being hedged.

The Company designates certain derivatives as either:

- hedges of the fair value of recognised assets or liabilities or a firm commitment (fair value hedge);
- hedges of a particular risk associated with a recognised asset or liability or a highly probable forecast transaction (cash flow hedge); or
- iii) Hedges of a net investment in a foreign operation (net investment hedge).

The Company documents at the inception of the transaction the relationship between hedging instruments and hedged items, as well as its risk management objectives and strategy for undertaking various hedging transactions. The Company also documents the nature of the risk being hedged and how the Company will assess whether the hedging relationship meets the hedge effectiveness requirements (including its analysis of the sources of hedge ineffectiveness and how it determines the hedge ratio).

The full fair value of a hedging derivative is classified as a non-current financial asset or financial liability when the residual maturity of the derivative is more than 12 months and as a current financial asset or financial liability when the residual maturity of the derivative is less than 12 months.

### Fair value hedge

Changes in the fair value of derivatives that are designated and qualify as fair value hedges are recorded in the statement of profit and loss, together with any changes in the fair value of the hedged item that are attributable to the hedged risk.

Hedge accounting is discontinued when the Company revokes the hedging relationship, when the hedging instrument expires or is sold, terminated, or exercised, or when it no longer qualifies for hedge accounting. The fair value adjustment to the carrying amount of the hedged item arising from the hedged risk is amortised to the statement of profit and loss from that date.

## Cash flow hedges

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognised in other comprehensive income and accumulated under the heading cash flow hedging reserve. The gain or loss relating to the ineffective portion

is recognised immediately in the statement of profit and loss and is included in the 'other gains and losses' line item.

Amounts previously recognised in other comprehensive income and accumulated in equity are reclassified to the statement of profit and loss in the periods when the hedged item affects the statement of profit and loss, in the same line as the recognised hedged item. However, when the hedged forecast transaction results in the recognition of a non-financial asset or a non-financial liability, the gains and losses previously recognised in other comprehensive income and accumulated in equity are transferred from equity and included in the initial measurement of the cost of the non-financial asset or non-financial liability.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or when it no longer qualifies for hedge accounting. Any gain or loss recognised in other comprehensive income and accumulated in equity at that time remains in equity and is recognised when the forecast transaction is ultimately recognised in the statement of profit and loss. When a forecast transaction is no longer expected to occur, the gain or loss accumulated in equity is recognised immediately in the statement of profit and loss.

#### Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal market or the most advantageous market must be accessible to the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their best economic interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy based on the lowest level input that is significant to the fair value measurement as a whole. The fair value hierarchy is described as below:

 Level 1 – unadjusted quoted price in active markets for identical assets and liabilities.

- Level 2 Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly
- Level 3 unobservable inputs for the asset or liability

For assets and liabilities that are recognised in the financial statements at fair value on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of fair value hierarchy.

### k) Revenue recognition

The Company earns revenue primarily from the sale of knowledge-based information in educational and general books, paper stationery and non-paper stationery. The Company also provides job-work services.

Revenue is recognised upon the transfer of control of promised products and services to customers, when there are no longer any unfulfilled obligations, in an amount that reflects the consideration which the Company expects to receive in exchange for those products and services. The performance obligations in our contracts are generally fulfilled at the time of dispatch, delivery or upon formal customer acceptance depending on customer terms.

### • Sale of products

Revenue is recognised at a point in time upon the transfer of control of promised products to customers, which coincides with dispatch or delivery of goods as per the relevant terms of the contract, in an amount that reflects the consideration we expect to receive in exchange for those products. Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of goods sold is net of variable consideration on account of various discounts and schemes offered by the Company as part of the contract.

Accumulated experience and judgement are used to estimate and provide for turnover discounts, expected cash discounts, other eligible discounts, expected returns and incentives.

Payment for the sale is made as per the credit terms in the agreements with the customers. The credit period is generally short term, thus there is no significant financing component.

## Sale of services

Revenue from services rendered is recognised at a point in time based on agreements / arrangements with the customers. Service income is recorded net of GST. Revenue for fixed price contracts (including right to use contents) are recognised over the contract period on straight line basis unless there is a more appropriate allocation.

Revenue from sale of educational contents in digital form is recognised as under:

- o In case the sale is in the nature of right to use, the revenue is recognised at the point of time when the license for the content is activated and there are no further performance obligations.
- o In case the sale is in the nature of right to access, the revenue is recognised over the license period on straight line basis unless there is more appropriate allocation.
- o Contract assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Unearned and deferred revenue ("contract liability") is recognised when there is a billing in excess of revenues

### Income from power generation

Income from power generation is recognised on the basis of electrical units generated & transferred to transmission company (in excess of captive consumption) and is recognised at prescribed rate as per agreement for sale of electricity by the Company. Income from power generation is grouped under 'Other operating revenue'.

### Right to return assets:

A right of return gives the Company a contractual right to recover the goods from a customer (right to return asset) if the customer exercises its option to return the goods and obtain a refund. The asset is measured at the carrying amount of the inventory, less any expected costs to recover the goods, including any potential decreases in the value of the returned goods. The Company has presented its right to return assets under other current assets.

# Refund liability

A refund liability is the obligation to refund part or all of the consideration received (or receivable) from the customer. The Company has therefore recognised refund liabilities in respect of the customer's right to return. The liability is measured at the amount the Company ultimately expects it will have to return to the customer. The Company updates its estimate of refund liabilities (and the corresponding change in the transaction price) at the end of each reporting period. The Company has presented its refund liabilities under other provisions.

# Other income

 Interest income in respect of all the debt instruments, financial guarantees and deposits which are measured at amortised cost or at fair value through profit and loss or at fair value through other comprehensive

income, is recorded using effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of a financial liability.

 Dividend income on investment is accounted for in the year in which the right to receive the payment is established.

## I) Government grants

Government grants are recognised when there is reasonable assurance that the Company will comply with the conditions attaching to them and that the grants will be received.

Incentives on exports related to operations as provided by government are recognised in books after due consideration of certainty of utilisation / receipt of such incentive.

#### m) Trade receivables

Trade receivables are amounts due from customers for goods sold or services performed in the ordinary course of business. If the receivable is expected to be collected within a period of 12 months or less from the reporting date (or in the normal operating cycle of the business, if longer), they are classified as current assets, otherwise as non-current assets.

Trade receivables are measured at their transaction price unless they contain a significant financing component or pricing adjustments embedded in the contract.

Loss allowance for expected lifetime credit loss is recognised on initial recognition.

#### n) Foreign currency transactions

Transactions denominated in foreign currencies are recorded at the exchange rates prevailing on the date of the transaction. As at the Balance Sheet date, foreign currency monetary assets and liabilities are translated at closing exchange rate. The gains or losses resulting from such translations are included in net profit in the Statement of Profit and Loss.

Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at fair value are translated at the exchange rate prevalent at the date when the fair value was determined. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of the transaction

Transaction gains or losses realised upon settlement of foreign currency transactions are included in determining net profit for the period in which the transaction is settled. Revenue, expense and cash flow items denominated in foreign currencies are translated into the relevant functional currencies using the exchange rate in effect on the date of the transaction.

As per Appendix B to Ind AS 21, when an entity has received or paid advance contribution in a foreign currency, transaction rate as on the date of receipt of advance is considered for recognition of related asset, expenses or income.

#### o) Employee benefits

## i) Short term employee benefits

Liabilities for wages and salaries, including nonmonetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

### ii) Post-employment benefits

### a) Defined Contribution Plan

The defined contribution plan is a postemployment benefit plan under which the Company contributes fixed contribution to a government administered fund and will have no legal or constructive obligation to pay further contribution. The Company's defined contribution plan comprises of Provident Fund and Labour Welfare Fund. The Company's contribution to defined contribution plans is recognised in the statement of profit and loss in the period in which the employee renders the related services.

#### b) Defined benefit plan

The Company has defined benefit plans comprising of gratuity. Company's obligation towards gratuity liability is funded and is managed by Life Insurance Corporation of India (LIC) except in case of demerged undertaking taken over by the Company from subsidiary 'Navneet Futuretech Limited. The present value of the defined benefit obligations is determined based on actuarial valuation using the projected unit credit method. The rate used to discount defined benefit obligation is determined by reference to market yields at the Balance Sheet date on Indian Government Bonds for the estimated term of obligations.

Re-measurements comprising of (a) actuarial gains and losses, (b) the effect of the asset ceiling (excluding amounts included in net interest on the net defined benefit liability) and (c) the return on plan assets (excluding amounts included in net interest on the net defined benefit liability) are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through other comprehensive income in the period in which they occur.

Re-measurements are not reclassified to statement of profit and loss in subsequent periods.

The return on plan assets is the Company's expectation of an average long-term rate of return on the investment of the fund over the entire life of the related obligation. Plan assets are measured at fair value as at the Balance Sheet date.

The interest cost on defined benefit obligation and return on plan assets is recognised under finance cost.

Gains or losses on the curtailment or settlement of defined benefit plan are recognised when the curtailment or settlement occurs.

## iii) Compensated absences

The Company has benefits in the form of compensated absences. The present value of such compensated absences is determined based on actuarial valuation using the projected unit credit method. The rate used to discount defined benefit obligation is determined by reference to market yields at the Balance Sheet date on Indian Government Bonds for the estimated term of obligations.

Actuarial gains or losses arising on account of experience adjustment and the effect of changes in actuarial assumptions are recognised immediately in the statement of profit and loss as income or expense.

Gains or losses on the curtailment or settlement are recognised when the curtailment or settlement occurs.

## p) Leases

The Company had adopted Ind AS 116 'Leases' effective from 1st April, 2019, as notified by the Ministry of Corporate Affairs in the Companies (Indian Accounting Standard) Amendment Rules, 2019.

#### As a Lessee

- The Company's lease asset classes primarily consist of leases for office premises, warehouses, vehicles and computers.
- At inception of a contract, the Company assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.
- At commencement or on modification of a contract that contains a lease component, the Company allocates the consideration in the contract to each lease and non-lease component on the basis of their relative stand-alone prices.
- o The Company recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprise of the initial amount of the lease liability

adjusted for any lease payments made at or before the commencement date net of lease incentive received, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located.

- o The right-of-use assets are subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use asset is depreciated using the straightline method from the commencement date over the shorter of lease term of right-of-use asset.
- o The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. The lease liability is measured at amortised cost using the effective interest method.
- o The Company has elected not to recognise rightof-use assets and lease liabilities for leases of lowvalue assets and short-term leases. The Company recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.
- The Company determines the lease term as the noncancellable period of a lease, together with both periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option. In assessing whether the Company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Company revises the lease term if there is a change in the noncancellable period of a lease.
- Right-of-use assets and lease liability balances are adjusted on partial / full termination of lease and corresponding gain / loss on such partial / full termination is charged to other income / other expenses in the Statement of Profit and Loss.

### As a Lessor.

Lease income from operating leases where the Company is a lessor is recognised (net of GST) in income on a straight-line basis over the lease term. The respective leased assets are included in the balance sheet based on their nature.

#### g) Taxes on income

Tax expenses for the year comprises of current tax, deferred tax charge or credit and adjustments of taxes for earlier years. In respect of amounts adjusted outside profit or loss (i.e., in other comprehensive income or equity), the

corresponding tax effect, if any, is also adjusted outside profit or loss.

The current Income Tax expense charge is calculated on the basis of the tax laws enacted at the end of the reporting period. Management establishes proper provisions on the basis of amounts expected to be paid to the tax authorities.

Deferred Income Tax is provided in full, using the Balance Sheet Method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is determined using the tax rates that have been enacted at the end of the reporting period.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in the statement of Profit and Loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in Other Comprehensive Income or directly in Equity, respectively.

The Company previously accounted for deferred tax on leases and decommissioning liabilities by applying the 'integrally linked' approach, resulting in a similar outcome as under the amendments, except that the deferred tax asset or liability was recognised on a net basis. Following the amendments, the Company has recognised a separate deferred tax asset in relation to its lease liabilities and a deferred tax liability in relation to its right-to-use assets as at 1st April, 2022 and thereafter.

However, there was no impact on the balance sheet because the balances qualify for offset under paragraph 74 of Ind AS 12. There was also no impact on the opening retained earnings as at 1<sup>st</sup> April, 2022 as a result of the change.

The Company applied Deferred Tax related to Assets and Liabilities arising from single transaction (Amendments to Ind AS 12) from 1<sup>st</sup> April, 2023.

Uncertain Tax position

Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation and considers whether it is probable that a taxation authority will accept an uncertain tax treatment. The Company measures its tax balances either based on the most likely amount or the expected value, depending on which method provides a better prediction of the resolution of the uncertainty.

# r) Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other shortterm, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

#### s) Cash flow statement

Cash Flows are reported using the indirect method, whereby net profit before tax is adjusted for the effects of transactions of non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and items of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

# t) Provisions, contingent liabilities and contingent assets

Contingent Liabilities are disclosed in respect of possible obligations that arise from past events, but their existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or where any present obligation cannot be measured in terms of future outflow of resources or where a reliable estimate of the obligation cannot be made.

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Provisions are measured at the present value of the management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as an interest expense. Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

A contingent asset is disclosed, where an inflow of economic benefits is probable. An entity shall not recognise a contingent asset unless the recovery is virtually certain.

### u) Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss (after tax) for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. The weighted average numbers of shares also includes fixed number of equity shares that are issuable on conversion of compulsorily convertible instruments and it is included from the date consideration is receivable (generally the date of their issue) of such instruments.

The Weighted average number of equity shares outstanding during the year is adjusted for events such as issue of shares, bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares), without a corresponding change in resources.

Diluted earnings per share is calculated by dividing the net profit or loss (after tax) for the year attributable to equity shareholders and the weighted average number of equity shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

### v) Dividend distribution

Final equity dividends on shares are recorded as a liability on the date of approval by the shareholders and interim equity dividends are recorded as a liability on the date of declaration by the Company's Board of Directors.

# w) Business combination under common control

Business combinations involving entities or businesses under common control are accounted for using the pooling of interest method. Under pooling of interest method, the assets and liabilities of the combining entities or businesses are reflected at their carrying amounts after making adjustments necessary to harmonise the accounting policies. The financial information in the financial statements in respect of prior periods is restated as if the business combination had occurred from the beginning of the preceding period in the financial statements, irrespective of the actual date of the combination. The identity of the reserves is preserved in the same form in which they appeared in the financial statements of the transferor in case of merger. The difference, between the book value of the assets over the liabilities of the demerged division and the transferor company (merged Company), after adjusting impact of capital reduction of Equity of demerged company in retained earnings and elimination of inter-company adjustments, if any, shall be recorded in accordance with Appendix C of Ind AS 103 (Business combinations of entities under common control) notified under Section 133 of the Act read with relevant rules issued thereunder and applicable accounting standards prescribed under the Act.

The scheme of arrangement between the Company and its wholly owned subsidiary, Navneet Futuretech Limited ('NFL') and its step down subsidiary, Genext Students Private Limited ('GSPL'), have been accounted under the 'pooling of interests' method in accordance with Appendix C of Ind AS 103 'Business Combinations' and impact has been considered from the beginning of the preceding year i.e. 1st April, 2022 as detailed in Note 60 to these standalone financial statements.

# 2.3 Use of significant accounting estimates, judgements and assumptions

The preparation of the financial statements requires management to make estimates, judgements and assumptions that affect the reported balances of revenues, expenses, assets and liabilities, disclosure of contingent liabilities as on the date

of financial statements. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

# Estimated useful lives and scrap value (Property, plant & equipment, Investment properties and Intangible assets)

The Company has conducted internal assessment of residual value and method of depreciation / amortisation of property, plant & equipment, investment properties and intangible assets and estimated that the useful life is in consonance with Schedule II of the Companies Act, 2013. Property, plant & equipment, investment properties and intangible assets represent a significant proportion of the asset base of the Company. Further the Company has estimated that the scrap value of property, plant & equipment would be able to cover the decommissioning costs of property, plant & equipment.

Therefore, the estimates and assumptions made to determine useful life, residual value, method of depreciation / amortisation and decommissioning costs are critical to the Company's financial position and performance.

# b) Impairment of investment in subsidiaries

The Company conducts impairment reviews of investments in subsidiaries whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable or tests for impairment annually. Determining whether the investments in subsidiaries are impaired requires an estimate of the value in use of investments. In considering the value in use, the management has anticipated future cash flows and other factors of the underlying businesses / operations of the subsidiaries and a suitable discount rate in order to calculate the present value. Any subsequent changes to the cash flows due to changes in the above-mentioned factors could impact the carrying value of investments.

# Determining the lease term of contracts with renewal as a Lessee

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgement. The Company uses significant judgement in assessing the lease term (including anticipated renewals).

The Company determines the lease term as the noncancellable period of a lease, together with both periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option. In assessing whether the Company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease. Any subsequent change in certainty of exercising option to extend lease term could impact the carrying value of right of use asset and lease liability significantly.

#### d) Fair Value Measurement of Financial Instruments

When the fair value of financial assets and financial liabilities recorded in the Balance Sheet cannot be measured based on quoted prices in active markets, their fair values are measured using valuation techniques (obtaining fair valuation report from registered valuer). The inputs to these models are taken from observable market where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include consideration of input such as projections, liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

# e) Impairment testing for Licenses under intangible assets, internally generated intangible assets

Impairment testing is an area involving management judgement, requiring assessment as to whether the carrying value of assets can be supported by the net present value of future cash flows derived from such assets using cash flow projections which have been discounted at an appropriate rate. In calculating the net present value of the future cash flows, certain assumptions are required to be made in respect of highly uncertain matters including management's expectations of future growth, discount rates etc.

# f) Impairment of financial assets (including trade receivable)

Allowance for doubtful receivables and advances (including advances to subsidiaries) represent the estimate of losses that could arise due to the inability of the customer / counter party to make payments when due. These estimates are based on the ageing, category, specific credit circumstances and the historical experience of the Company as forward-looking estimates at the end of each reporting period.

# g) Estimation of provisions and contingencies

Provisions are liabilities of uncertain amount or timing recognised where a legal or constructive obligation exists at the balance sheet date, as a result of a past event, where the amount of the obligation can be reliably estimated and where the outflow of economic benefit is probable. Contingent liabilities are possible obligations that may arise from past events whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events which are not fully within the control of the Company. The Company exercises judgement and estimates in recognising the provisions and assessing the exposure to contingent liabilities relating to pending litigations. Judgement is necessary in assessing the likelihood of the success of the pending claim and to quantify the possible range of financial settlement. Due to this inherent uncertainty in the evaluation process, actual losses may be different from the originally estimated provision.

# 2.4 New standard issued / modified but not effective as at reporting date

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended 31st March, 2025, MCA has notified Ind AS – 117 Insurance Contracts and amendments to Ind AS 116 – Leases, relating to sale and leaseback transactions, applicable to the Company w.e.f. 1st April, 2024. The Company has reviewed the new pronouncements and based on its evaluation has determined that it does not have any significant impact in its financial statements.

FOR THE YEAR ENDED 31st MARCH, 2025

- 8.2 Financial guarantees are issued in favour of the banks against loan taken by subsidiary. The amount of guarantee is ₹ 4,000 Lakhs (Previous Year ₹ 4,000 Lakhs). Fair value of such guarantee amount is included to investment disclosed above amounting to ₹ 295 Lakhs (Previous year: ₹ 255 Lakhs) related to Indiannica Learning Private Limited. (Refer footnote (ii) of note 59).
- 8.3 Impairment test for investments and loan to Navneet Futuretech Limited & Indiannica Learning Private Limited:

The Company has made long-term investments into these subsidiaries. These companies have incurred continuous losses in earlier years and some marginal profit in previous year in Navneet Futuretech Limited. Considering the same, detail impairment test has been carried out by the Management. Disclosure in regards to impairment tests carried in regards to these subsidiaries are as under:

- a) Impairment test for investment into 'Indiannica Learning Private Limited'
  - During the year, the management conducted an impairment assessment in consultation with the subsidiary company, considering various parameters including the business outlook, basis of estimates, valuation technique (based on a fair valuation report obtained from a registered valuer), appropriateness and reasonableness of key assumptions, and actual performance versus budgeted figures. Based on the outcome of this assessment, the Company has neither recognised nor reversed any impairment loss during the year (Previous year: NIL)
- b) Impairment test for investment in 'Navneet Futuretech Limited'
  - Valuation of equity share investment into this subsidiary Company has been carried out by the management (also fair value report obtained from registered valuer). The Company based on the said valuation report and future business prospects has provided for an impairment loss of ₹ Nil. (Previous year ₹ 4,875 Lakhs)
  - Further, in the previous year based on the Valuation of equity share investment into this subsidiary Company, the Company has provided for an impairment loss of ₹ 4,875 Lakhs, which is primarily on account of demerger and fair value changes in investments made by the said wholly owned subsidiary.
  - This impairment provision / write back is shown in the statement of profit and loss under 'Exceptional items'.
- c) Key assumptions used for value in use calculations:
  - The valuation of the subsidiaries has been carried out by registered valuers. Based on the business model of the subsidiary, different valuation methods which in their opinion are most ideal has been used by them.
  - In current year as well as in previous year with respect to Indiannica Learning Private Limited the valuation is done based on DCF model and with respect to Navneet Futuretech Limited valuation is done based on revenue multiple after considering the fair value of the investment made by the subsidiary.
  - i) Discount rate (wherever relevant)
    - Discount rates represent the current market assessment of the risks specific to each CGU, taking into consideration the time value of money and individual risks of the underlying assets that have not been incorporated in the cash flow estimates. The discount rate calculation of each CGU is derived from its Weighted Average Cost of Capital (WACC). The WACC takes into account both debt and equity. The cost of equity is derived from the expected return on investment by the Company's investors. The cost of debt is based on the interest-bearing borrowings of the Company. Adjustments to the discount rate are made to factor in the specific amount and timing of the future tax flows in order to reflect a pre-tax discount rate.

Particulars	31 <sup>st</sup> March, 2025	31 <sup>st</sup> March, 2024
Range of pre-tax discount rate considered (depending on working capital position and cost of capital to the subsidiaries) wherever applicable	17.66%	14.10%

ii) Growth rate estimate

Growth rate is based on the estimates of growth in business expected by the Management of the Company after taking into account external / industry growth, customer feedback etc.

- iii) Revenue multiple
  - The revenue multiple is based on market comparable given in valuation report by registered valuer.
  - Management of the Company has performed sensitivity analysis on the above key assumptions to determine value in use.
- 8.4 Refer note 67 for information on principal place of business and the Company's ownership interest in the above Subsidiaries and Associate Companies.
- 8.5 The Company holds 93% of voting rights and equivalent share in profit / loss with respect to the investment made in 'Navneet Learning LLP' (subsidiary entity) in accordance with LLP agreement and the underlying value of the assets against this investment is significantly higher as compared to investments made.

FOR THE YEAR ENDED 31st MARCH, 2025

- During the current year, LLP has divested part of its holding in its associate 'K12 Techno Services Private Limited' ('K12'). Pursuant to the transaction K12 ceased to be an associate of Navneet Learning LLP. Also refer note 44.
- 8.6 During the previous year, the Company by the way of rights issue has invested in its wholly owned subsidiary 'Indiannica Learning Private Limited' ('ILPL') amounting to ₹ 2,000 Lakhs (i.e. 2,00,00,000 equity shares of ₹ 10 each, fully paid up).
- 8.7 During the previous year, the Company has purchased 2,17,553 Compulsory Convertible Debentures ('CCD') of its wholly owned subsidiary 'Navneet Futuretech Limited' ('NFL') of ₹ 10 each from the erstwhile debenture holder amounting to ₹ 22 Lakhs
- 8.8 During the previous year, the Company by the way of right issue has invested in 'Navneet Futuretech Limited' amounting to ₹ 1,600 Lakhs (i.e. 1,60,00,000 equity shares of ₹ 10 each, fully paid up).
- 8.9 During the earlier years, the Company had invested 490 Lakhs Optionally Convertible Preference Shares ('OCPS') of ₹ 10 each aggregating to ₹ 4,900 Lakhs in its subsidiary company 'Indiannica Learning Private Limited' at face value. The OCPSs carries 0% coupon rate. The Subsidiary Company has an option to convert OCPS into same number of Equity shares of the Company of ₹ 10 each (being face value of the shares) at any time after allotment date but before end of 20 years. In case OCPS are not converted by the Subsidiary Company, they shall be redeemed at par in full not later than 20 years from the date of allotment.
- 8.10 As per Ind AS 109 'Financial Instruments', at initial recognition, the Company had chosen to designate investment in Career Point Limited as 'Fair Value through Profit and Loss'. Career Point Limited shares are listed on National Stock Exchange and Bombay Stock Exchange.
- 8.11 In the earlier years, as per pledge arrangement entered into with the party against amount recoverable of ₹ 113 Lakhs (Previous year ₹ 127 Lakhs) (disclosed under 'Other Non Current Assets' as advance from suppliers in note 13), pledge is invoked by the Company and accordingly shares of 'Shrenik Limited' reflecting in demat account but not reflecting in investment schedule. Further, mark to market gain on such shares is also not accounted as the Company does not have contractual right to recover amount in excess to recoverable amount. Considering the time period for which the matter is pending and slow recovery process from sale of securities, as a matter of abundant caution provision of ₹ 127 Lakhs has been made during the earlier year. Subsequently, in the current year, the Company managed to sell securities amounting to ₹ 14 Lakhs, resulting in the reversal of the previously made provision to that extent.

- 15.1 Trade receivables are subject to first charge to secure bank loan.
- 15.2 Trade receivables are generally due between 30 to 180 days. The Company's term includes charging of interest for delayed payment beyond agreed credit days. However, the Company charges interest after considering the historical trend, business prospects, reason for delay, market conditions etc.
- 15.3 Credit risk is managed at the operational segment level (i.e. publication and stationery). The credit limit and credit period are fixed for each customer after evaluating the financial position, past performance, business opportunities, credit references etc. The credit limit and the credit period are reviewed regularly at periodical intervals.
- 15.4 As per Memorandum of Understanding with one of the party, a sum of ₹ 286 Lakhs (Previous year: ₹ 286 Lakhs) is secured by pledge of immovable property.
- 15.5 The Company follows simplified approach & the trade receivables do not contain significant financing component and accordingly the Company does not separately track changes in credit risk of trade receivables as the impairment amount represents "lifetime" expected credit loss. Accordingly, the disclosure as required by Schedule III, Division II as regards (a) Trade Receivables which have significant increase in credit risk & (b) Trade Receivables which are credit impaired is not required. In addition to the pool assessment, the Company carried out individual assessment in respect of certain parties where the possibility of default in collection of trade receivable was high.

- a) ₹ 3,023 Lakhs towards profit on sale of property.
- b) ₹ 4,875 Lakhs towards diminution in value of investment of wholly owned subsidiary i.e. NFL, which is primarily on account of demerger and fair value changes in investments made by the said wholly owned subsidiary. (Refer note 8.3)

#### **45. CONTINGENT LIABILITIES:**

- (a) Tax matters:
  - A) For disputed Income tax matters ₹ 661 Lakhs (Previous year ₹ 661 Lakhs) against which amount provided in books is ₹ 548 Lakhs (Previous year ₹ 548 Lakhs) and amount paid under protest is ₹ 484 Lakhs (Previous year ₹ 484 Lakhs).
    - Income tax demands mainly include the appeals filed by the Company before various departmental appellate authorities / High Courts against the disallowances made by income tax authorities of certain deductions / expenses claimed. Pending final decisions, the Company has deposited amounts under protest with Income Tax Authorities.
    - B) Contingent liabilities taken over at the time of arrangement (Refer note 61)
      - Assessing Officers of the Income tax department had made certain disallowances for AY 2012-13 to AY 2014-15 and reduced the losses claimed by the Company by ₹ 358 Lakhs. The Company has filed appeals before CIT (Appeals) / ITAT against these orders.
      - > The ITAT has given substantial reliefs of ₹ 94 Lakhs as against disallowance of ₹ 120 Lakhs for AY 2012-13 and of ₹ 35 Lakhs as against disallowance of ₹ 51 Lakhs for AY 2014-15. Management is hopeful of getting relief in AY 2013-14 also as nature of disallowance is similar.
      - > Further, department has levied penalty of ₹ 8 Lakhs and ₹ 16 Lakhs u/s 271(1)(c) of the Income Tax Act, 1961 for assessment year 2012-13 and 2014-15 respectively. The Company has filed appeals before CIT (Appeals) against both the penalty orders. The Company has made payment under protest of ₹ 2 Lakhs against penalty order for AY 2012-13 and penalty of AY 2014-15 has been adjusted by CPC against refund of AY 2020-21 without consent of company and hence the Company has appealed against the same.
      - > Further Assessing Officer has made disallowances of ₹ 298 Lakhs for AY 2021-22 and raised a demand of ₹ 57 Lakhs without adjusting current year losses. The Company has filed appeals before CIT (Appeals) against these orders.
      - > Considering nature of disallowance and certain favourable judicial decisions with respect to levy of penalty, the management of the Company is hopeful of getting favourable orders at the higher forum.
  - ii) For disputed sales tax matters ₹ 62 Lakhs (Previous Year ₹ 2,258 Lakhs) against which amount paid under protest is ₹ 16 Lakhs (Previous Year: ₹ 95 Lakhs). (Refer note below)
    - Sales Tax demands are mainly on account of dispute in rate of certain products, non submission of statutory declarations etc. Pending final decisions, the Company has deposited amounts under protest with Sales Tax Department.
  - iii) For disputed GST matters ₹ 109 Lakhs (Previous Year ₹ 740 Lakhs) against which amount paid under protest is ₹ 69 Lakhs, (Previous year: ₹ 302 Lakhs) (Refer note 13). Company is in appeal before departmental appellate authority against the assessment orders for the period from 01.07.2017 to 31.03.2022 where State GST Department of Maharashtra conducted Investigation during the earlier years.

Note: Future cash outflows in respect of matters considered disputed are determinable only on receipt of judgements / decisions pending at various forums / authorities. The management does not expect these claims to succeed.

- (b) Against bond (mainly GST benefit):
  - Duty free imports for which export obligation is pending as at year end amounting to ₹ 1 Lakh (Previous Year ₹ 48 Lakhs). In the event Company does not meet the respective obligation, GST would have to be paid for which input credit would be available.
- (c) Other matters:
  - Kotak Mahindra Bank and ICICI bank have given bank guarantees to two of the customers of the Company amounting to ₹ 12 Lakhs (Previous year: 12 Lakhs) and ₹ 3 Lakhs (Previous year: 3 Lakhs) respectively, against which the Company has provided a bank deposit of the same amount which is kept under lien by the Bank. Further, the Company had availed bank overdraft facility from ICICI Bank Limited against which the Company had provided a bank deposit of ₹ Nil (Previous year: 2 Lakhs) which is kept under lien by the Bank.

FOR THE YEAR ENDED 31st MARCH, 2025

Defined benefit plan and long term employment benefits: (b)

These plans typically expose the Company to actuarial risks such as: Investment, Interest rate, longevity and salary increase risk:

- Investment / Interest risk: The Company is exposed to Investment / Interest risk if the return on the invested fund falls below the discount rate used to arrive at present value of the benefit. Since the scheme is unfunded in case of compensated absence, the Company is not exposed to Investment / Interest risk.
- Longevity Risk: The Company is not exposed to risk of the employees living longer as the benefit under the scheme ceases on the employee separating from the employer for any reason.
- Risk of Salary Increase: The Company is exposed to higher liability if the future salaries rise more than assumption of salary III. escalation.
- Defined benefit plan and long term employment benefits: Gratuity (Defined benefit plan):

In respect of Gratuity, the Company makes annual contribution to the employee group gratuity scheme of the Life Insurance Corporation of India, funded defined benefits plan for qualified employees. However, gratuity for employees of the demerged undertaking (taken over by the Company from subsidiary 'Navneet Futuretech Limited) is unfunded. The scheme provided for lump sum payments to vested employees at retirement, death while in employment or on termination of employment of an amount equivalent to 15 days salary for each completed year of service or part thereof in excess of six months. Vesting occurs upon completion of five years of service.

The Company has provided for gratuity based on the actuarial valuation done as per Project Unit Credit Method. The following table sets out for the status of gratuity plan:

#### Sensitivity analysis:

Sensitivity analysis are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be co-related. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the Balance Sheet.

## **62.** FAIR VALUE OF FINANCIAL ASSETS AND LIABILITIES

The management assessed that the fair values of financial asset and financial liabilities approximate their carrying amounts.

The following methods and assumptions were used to estimate the fair values:

- (a) Fair values of cash and cash equivalents, trade receivables, interest accrued on deposits with bank, bank deposits, trade payables and other financial liabilities, approximate their carrying amounts largely due to the short-term maturities of these instruments.
- (b) The management has considered fair value of security deposits, loan from bank, loan from related party, equal to their carrying value as fair values based on the current market interest rates and other risk factors approximate to carrying value.

### Fair value hierarchy

The following table presents the financial assets and financial liabilities by level with the fair value measurement hierarchy:

## **63. FINANCIAL RISK MANAGEMENT**

## a) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprise three types of risk: foreign currency risk, interest rate risk and other price risk. Financial instruments affected by market risk primarily include trade receivables, trade payables and cash and cash equivalents.

The sensitivity analysis in the following sections relate to the position for the periods presented. The sensitivity analysis has been prepared on the basis that the amount of net debt and the proportion of financial instruments in foreign currencies are all constant. The analysis exclude the impact of movements in market variables on the carrying values of gratuity obligation and provisions.

The sensitivity of the relevant profit and loss item is the effect of the assumed changes in respective market risks based on the financial assets and financial liabilities held at the periods presented.

#### b) Interest rate risk

The following tables demonstrate the sensitivity to a reasonably possible change in interest rate, with all other variables held constant. The impact on the Company's profit before tax is due to changes in the fair value of monetary assets and liabilities.

(₹ in Lakhs)

Year ended as on	Change in Int. Rate	Effect on profit before tax
31st March, 2025	Increase by 50 basis points (50 bps)	43
	Decrease by 50 basis points (50 bps)	(43)
31st March, 2024	Increase by 50 basis points (50 bps)	111
	Decrease by 50 basis points (50 bps)	(111)

## c) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to trade payables and trade receivables.

The following table analyses the foreign currency risk from monetary assets and liabilities as at balance sheet date:

### d) Price risk

The Company is not exposed to any significant price risk.

#### e) Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities, primarily for trade receivables and deposits with banks and other financial assets.

## Trade receivables

Customer credit risk is managed based on the Company's established policy, procedures and control relating to customer credit risk management. The Company evaluates the concentration of risk with respect to trade receivables as low. Out of total trade receivables balance as at 31st March, 2025, ₹ 5,256 Lakhs (Previous year ₹ 4,132 Lakhs) is due from a single customer being the Company's largest customer. There are no other customers who represent more than 10% of the balance of trade receivables. Outstanding customer receivables are regularly monitored by the management.

An impairment analysis is performed at each reporting date on an individual basis for major customers.

The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets. The Company generally does not hold collateral as security except in one case refer note 15.4.

## INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF NAVNEET EDUCATION LIMITED

## **Report on the Audit of Consolidated Financial Statements**

#### **OPINION**

We have audited the accompanying Consolidated Financial statements of **Navneet Education Limited** ("the Company"), its subsidiaries (the Company, its subsidiaries together referred to as "the Group") and its associates, which comprise the Consolidated Balance Sheet as at 31st March 2025, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows for the year ended on that date, and a summary of the material accounting policies and other explanatory information (hereinafter referred to as "the Consolidated Financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Consolidated Financial statements gives the information required by the Companies Act, 2013 (the "Act") in the manner so required and gives a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group and its associates as at 31st March 2025, the consolidated profit (including other comprehensive income), consolidated changes in equity and its consolidated cash flows for the year ended on that date.

#### **BASIS FOR OPINION**

We have conducted our audit of the Consolidated Financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by The Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the Consolidated Financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### **KEY AUDIT MATTERS**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Consolidated Financial statements of the current period. These matters were addressed in the context of our audit of the Consolidated Financial statements, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matter described below to be the key audit matter to be communicated in our report.

In respect of the Consolidated Financial statements (refer note 6.2, 6.3 & 63), the key audit matter was the carrying value of goodwill due to accumulated losses in the subsidiary. The said subsidiary is involved in business of CBSE content publishing with exclusive licensee of Encyclopaedia Britannica curricular solutions with

positive business outlook. The accumulated losses are mainly on account of infrastructure for future growth, Our procedures on the management's assessment of these matters included the impairment test included discussion on impairment test carried out by the management including the discussion relating to the basis of estimates, valuation technique, appropriateness & reasonableness of assumptions, review of the accuracy of the management's earlier estimates and understanding of the reasons for variances and various other parameters with the management. Considering the above and the future business outlook (fair value report obtained from registered valuer) and the underlying strength in the Company's products and contents, we did not identify any significant exceptions to the management's assessment as regards impairment in the carrying value of goodwill on acquisition aggregating to Rs. 2,098 Lakhs (net of impairment of Goodwill Rs. Nil), this is appropriate and no additional provision for impairment is necessary.

## INFORMATION OTHER THAN THE CONSOLIDATED FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility and Sustainability Report, Corporate Governance and Shareholder's Information, but does not include the Consolidated Financial statements and our auditor's report thereon.

Our opinion on the Consolidated Financial statements does not cover other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Consolidated Financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Consolidated Financial statements, or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

When we read the above said reports, if we conclude that there is material misstatement therein, we are required to communicate the matter to those charged with governance and take necessary actions, as applicable under the relevant laws and regulations.

## RESPONSIBILITIES OF MANAGEMENT AND BOARD OF DIRECTORS FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The Company's Board of Director is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these Consolidated Financial statements that gives true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated statement of changes in equity and consolidated cash flows of the Group including its associates in accordance with the accounting principles generally accepted in India, including the Ind AS specified under Section 133 of the Act. The respective Board of Directors of the companies included in the Group and of its associates are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgements and estimates

that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Consolidated Financial statements that gives true and fair view and are free from material misstatement, whether due to fraud or error which has been used for the purpose of preparation of the Consolidated Financial statements by the Directors of the Company, as aforesaid.

In preparing the Consolidated Financial statements, the respective Board of Directors of the companies included in the Group and of its associates are responsible for assessing the ability of the Group and of its associates to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and of its associates are responsible for overseeing the financial reporting process of the Group and of its associates.

## AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the Consolidated Financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated Financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated Financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company and its subsidiary companies which are companies incorporated in India and its associates, has adequate internal financial controls with respect to financial statements and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the

audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its associates to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated Financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associates to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Consolidated Financial statements, including the disclosures, and whether the Consolidated Financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and its associate to express an opinion on the Consolidated Financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the Consolidated Financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of the misstatements in the Consolidated Financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance of the Company and such other entities included in the Consolidated Financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them, all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Consolidated Financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### **OTHER MATTER**

a) We did not audit the financial statements in respect of one subsidiary entity and one foreign subsidiary, whose financial statements reflect Group's share of total assets of Rs. 66,556 Lakhs as at 31st March 2025, Group's share of total income including exceptional income of Rs. 77,605 Lakhs, Group's share of total net profit (including other comprehensive income) of Rs. 64,912 Lakhs for the year ended 31st March 2025 and Group's share of cash inflows (net) of Rs. 24 Lakhs for the year ended 31st March 2025, as considered in the Statement, which has been audited by their independent auditors.

This audited financial statements have been furnished to us by the management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of subsidiary entity and foreign subsidiary, our report in terms of sub-sections (3) and (11) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiary entity and foreign subsidiary is based solely on the information provided by the management.

b) The Consolidated Financial Statements also includes the unaudited financial statement of two associate companies (one associate namely K12 Techno Services Private Limited is consolidated upto 4<sup>th</sup> May 2024, also refer note 47 of consolidated financial statement) whose financial statements reflect Group's share of total net loss after tax (including other comprehensive income) of Rs. 51 Lakhs for the year ended 31<sup>st</sup> March 2025, as considered in the Statement.

These unaudited financial statements have been furnished to us by the Management and our opinion on the Statement, in so far as it relates to the amounts and disclosures included in respect of associate companies is based solely on such unaudited financial statements

In our opinion and according to the information and explanations given to us by the Board of Directors, above financial statements are not material to the Group.

Our opinion on the Consolidated Financial statements and our report on Other Legal and Regulatory Requirements below is not modified in respect of the above matters.

## REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

- As required by Section 143 (3) of the Act, based on our audit, we report to the extent applicable that: (In our view Section 143(3) of the Act is not applicable to one subsidiary which is incorporated outside India).
  - We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid Consolidated Financial statements;
  - b) In our opinion, proper books of accounts as required by law relating to the preparation of the aforesaid Consolidated Financial statements have been kept so far as it appears from our examination of those books and the reports of the auditor:
  - The Consolidated Financial statements dealt with by this report are in agreement with the relevant books of accounts maintained for the purpose of preparation of the Consolidated Financial statements;

- d) In our opinion, the aforesaid Consolidated Financial statements comply with the Indian Accounting Standards prescribed under Section 133 of the Act.
- e) On the basis of the written representations received from the Directors of the Company as on 31st March 2025 taken on record by the Board of Directors of the Company and the report of the statutory auditors of its subsidiary company covered under the Act, none of the directors of the Group companies incorporated in India covered under the Act are disqualified as on 31st March 2025 from being appointed as a director in terms of Section 164 (2) of the Act:

With respect to the associate companies, written representations received from the directors of the said associate companies as on 31st March 2025 and taken on record by the board of directors of the said associate, we report that none of the directors of the associate are disqualified as on 31st March 2025 from being appointed as a director in terms of section 164(2) of the Act.

- f) With respect to reporting on adequacy of internal financial controls with respect to financial statements of the Group covered under the Act and the operating effectiveness of such controls to the extent applicable, refer to our separate report given in Annexure I to this report, which is based on the auditor's reports of the Company and its subsidiary companies incorporated in India. With respect to associate companies whose financial statements have not been audited till the date of signing of this report, refer to our comments in the other matters paragraph in Annexure I.
- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company and its subsidiaries to its directors during the year is in accordance with the provisions of section 197 of the Act. In respect to associate company, Section 197 is not applicable; and
- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us and based on the report of statutory auditor of the subsidiary companies and information furnished to us by the management in respect to associates:
  - The Group has disclosed the impact of pending litigations on its consolidated financial position in its Consolidated Financial statements – Refer Note 11.1, 18.4 and 48(a) to the Consolidated Financial statements;
  - The Group did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;
  - There has been no delay in transferring the amounts required to be transferred to the Investor Education and Protection Fund by the Company.

- iv. The management has represented that:
  - no funds have been advanced or loaned or invested by the Company to or in any other person(s) or entities, including foreign entities ("Intermediaries"), with the understanding that the intermediary shall whether directly or indirectly lend or invest in other persons or entities identified in any manner by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
  - no funds have been received by the Company from any person(s) or entities including foreign entities ("Funding Parties"), with the understanding that such Company shall whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

Based on such audit procedures performed as considered reasonable and appropriate in the circumstances, nothing has come to our notice that causes us to believe that the representations under sub-clause (iv) contain any material misstatement.

- v. The final dividend proposed by the board of directors of the Holding Company in the previous year was declared and paid by the Company during the year is in accordance with section 123 of the Companies Act 2013. The Board of Directors of the Holding Company have proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The amount of dividend proposed is in accordance with section 123 of the Act, as applicable. The subsidiary companies and associates incorporated in India have neither declared nor paid any dividend during the year.
- Based on our examination, which included test checks, the Holding Company and its 3 subsidiaries

incorporated in India has used accounting software's for maintaining its books of accounts for the financial year ended 31st March, 2025 which has a feature of recording audit trail (edit log) facility and the same has been operated throughout the year for all relevant transactions recorded in the software's. Further, during the course of our audit we did not come across any instance of the audit trail feature being tampered with. Additionally, the audit trail has been preserved by the company as per the statutory requirements for record retention. The said rule is not applicable to one subsidiary entity and the subsidiary incorporated outside India. Further in case of the associate 'Carveniche Technologies Private Limited', the accounts are unaudited till the date of signing of consolidated audit report and further in case of K12 Techno Services Private Limited the accounts are consolidated upto 4th May 2024 based on unaudited accounts (Also refer note 47 of consolidated financial statement). Therefore, we are unable to comment on the reporting requirement under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 in respect of these associate companies.

With respect to the matters specified in paragraphs 3(xxi) and 4 of the Companies (Auditor's Report) Order, 2020 (the "Order"/ "CARO") issued by the Central Government in terms of Section 143(11) of the Act, to be included in the Auditor's report, according to the information and explanations given to us, and based on the CARO reports issued by us for the Holding company and its subsidiaries and based on our consideration of CARO reports issued by the auditors of the subsidiaries included in the consolidated financial statements of the Company, to which the reporting under CARO is applicable, we report that there are no qualifications or adverse remarks in these CARO reports except for the matters tabulated below. Further in case of one associate 'Carveniche Technologies Private Limited', the accounts are unaudited till the date of signing of consolidated audit report and further in case of K12 Techno Services Private Limited the accounts are consolidated upto 4th May 2024 based on unaudited accounts (Also refer note 47 of consolidated financial statement).

## ANNEXURE I TO INDEPENDENT AUDITOR'S REPORT

FOR THE YEAR ENDED 31st MARCH, 2025

[Referred to in paragraph (f) under "Report on other legal and regulatory requirements" section of our report to the Members of Navneet Education Limited of even date]

## REPORT ON THE INTERNAL FINANCIAL CONTROLS UNDER SECTION 143(3)(i) OF THE COMPANIES ACT, 2013 ("THE ACT")

#### Opinion

In conjunction with our audit of the Consolidated Financial statements of **Navneet Education Limited** ("the Company") and its subsidiaries (the Company and its subsidiary companies together referred to as "the Group") and its associate companies as of and for the year ended 31st March 2025, we have audited the internal financial controls with respect to financial statements of the Company, its subsidiaries and its associate companies which are companies incorporated in India, as on that date.

In our opinion, the Company and its subsidiary companies have, in all material respects, an adequate internal financial controls with respect to financial statements and such internal financial controls with respect to financial statements were operating effectively as at 31st March, 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

## Responsibilities of Management and Board of Directors for Internal Financial Controls with respect to financial statements

The respective Board of Directors of the Company, its Subsidiaries and its associate companies, which are companies incorporated in India, are responsible for laying down and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls with respect to financial statements, issued by the Institute of Chartered Accountants of India ("the ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

### **Auditor's Responsibility**

Our responsibility is to express an opinion on the internal financial controls with respect to financial statements of the Company, its subsidiary companies and its associate companies, which are companies incorporated in India, based on our audit. We conducted our audit in accordance with the Guidance Note issued by the ICAI and the Standards on Auditing prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with respect to financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with respect to financial statements and their operating effectiveness. Our audit of internal financial controls with respect to financial statements included obtaining an understanding of internal financial controls with respect to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Consolidated Financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, and the audit evidence obtained by the other auditors in terms of their reports referred to in the 'Other Matter' paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial control with respect to financial statements of the Company, its subsidiaries and its associate companies as aforesaid.

## Meaning of Internal Financial Controls with respect to financial statements

A company's internal financial control with respect to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Consolidated Financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with respect to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Consolidated Financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the Consolidated Financial statements.

## Inherent Limitations of Internal Financial Controls with respect to financial statements

Because of the inherent limitations of internal financial controls with respect to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with respect to financial statements to future periods are subject to the risk that the internal financial control with respect to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### Other Matter

- a) The Company has one subsidiary incorporated outside India and one subsidiary entity not covered under the Act and reporting on the adequacy and operating effectiveness of internal financial controls with respect to financial statements is not applicable to such subsidiary company and subsidiary entity.
- The consolidated financial statements also include unaudited financial statements of two of associate companies for which Group's share of net loss (including other comprehensive income) is Rs. 51 Lakhs. Because financial statements are unaudited, report on Internal Financial Controls with respect to financial statements for the year is not provided to us. In the absence of the audited accounts & audit reports, we cannot comment on the adequacy and operating effectiveness of the internal financial controls with respect to these associate companies. Further, the audit reports of the respective

associate companies for the financial year ending March 2024, did not contain any adverse remark or comment on adequacy and operating effectiveness of the Internal Financial Controls with respect to financial statements.

Our opinion is not modified in respect of these matters.

## CONSOLIDATED SIGNIFICANT ACCOUNTING POLICIES

FOR THE YEAR ENDED 31st MARCH, 2025

## 1. GROUP OVERVIEW, NATURE OF ENTITY'S OPERATIONS AND ITS PRINCIPAL ACTIVITIES

Navneet Education Limited ('the Holding Company') is a public limited company, together with its subsidiaries and associates (collectively referred to as 'the Group'). The operations of the Group are primarily manufacturing and trading of education books, reference books, technical & professional books in paper form and e-learning form and also paper and non-paper-based stationery products.

The Holding Company is incorporated and domiciled in India and has its registered office at Navneet Bhavan, Near Shardasharam Society, Bhavani Shankar Road, Dadar, Mumbai - 400028, Maharashtra, India. The Holding Company is listed on Bombay Stock Exchange and National Stock Exchange.

The consolidated financial statements of the Group for the year ended 31st March, 2025 were approved and adopted by the board of directors of the Holding Company at their meeting dated 19th May, 2025.

## 2. MATERIAL ACCOUNTING POLICIES AND KEY ACCOUNTING ESTIMATES AND JUDGEMENTS

## 2.1 Basis of preparation

## a) Statement of Compliance

The consolidated financial statements of the Group have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under Section 133 of Companies Act, 2013 ('the Act') read with the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendment rules issued thereafter.

The Group has consistently applied the accounting policies used in the preparation of its consolidated financial statements except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

### b) Functional and presentation currency

Items included in the consolidated financial statements of the Group are measured using the currency of the primary economic environment in which the Group operates (the functional currency). The consolidated financial statements are prepared in INR, which is the functional and presentation currency.

## c) Basis of measurement

The financial statements have been prepared on historical cost convention basis, except for the following material items which are measured at fair value as required by relevant Ind AS:

- i) Certain financial assets and financial liabilities (including derivative instruments) [Refer accounting policy regarding financial instruments in note no. 2.3(j)]
- ii) Defined benefit plans.

#### 2.2 Basis of Consolidation

## a) Principles of consolidation

- i) The consolidated financial statements relate to the financial statements of the holding Company, its subsidiaries and associates as at 31<sup>st</sup> March, 2025. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:
  - a) Power over the investee (i.e., existing rights that give it the current ability to direct the relevant activities of the investee)
  - b) Exposure, or rights, to variable returns from its involvement with the investee, and
  - The ability to use its power over the investee to affect its returns.
- ii) The Group can have power over the investee even if it owns less than the majority voting rights, i.e. rights arising from other contractual arrangements. The Group re-assesses whether or not it controls an investee, if facts and circumstances indicate that there are changes to one or more of the three elements of control.
- iii) Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.
- iv) Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that group member's financial statements in preparing the consolidated financial statements to ensure conformity with the Group's accounting policies.
- v) The financial statements of all entities used for the purpose of consolidation are drawn up to the same reporting date as that of the holding Company, i.e., year ended on 31<sup>st</sup> March, 2025. When the end of the reporting period of the holding Company is different from that of a subsidiary, the subsidiary prepares, for consolidation purposes, additional financial information as of the same date as the financial statements of the holding Company to enable the holding Company to consolidate the financial information of the subsidiary, unless it is impracticable to do so.

## b) Consolidation procedure:

- ) Consolidation procedure for subsidiaries
  - a) The financial statements of the Group have been combined on line-by-line basis by adding book values of like items of assets, liabilities, equity, income, expenses and cash flows of the holding Company with those of its subsidiaries. For this purpose, the income and expenses of the subsidiaries are based on the amounts of the assets and liabilities recognised in the consolidated financial statements at the acquisition date.
  - b) Non-controlling interests, presented as part of equity, represent the portion of a subsidiary's statement of profit and loss and net assets that is not held by the Group. Statement of profit and loss balance (including other comprehensive income (OCI)is attributed to the equity holders of the Holding Company and to the non-controlling interest basis the respective ownership interests and such balance is attributed even if this results in controlling interests having a deficit balance.

## c) Foreign subsidiary

The functional and reporting currency of foreign subsidiary is different from the reporting currency of the Holding Company. All assets and liabilities (excluding share capital and opening reserves and surplus) of foreign subsidiary are translated into INR using the exchange rate prevailing at the reporting date. The income and expenses of foreign subsidiary is translated into Indian Rupee at the exchange rates at the dates of the transactions or an average rate if the average rate approximates the actual rate at the date of the transaction. Exchange differences are recognised in OCI and accumulated in equity (as exchange differences on translating the financial statements of a foreign subsidiary). except to the extent that the exchange differences are allocated to non-controlling interest (NCI).

When a foreign subsidiary is disposed of in its entirety or partially such that control, significant influence or join control is lost, the cumulative amount of exchange differences related to that foreign subsidiary recognised in OCI is reclassified to the Statement of Profit and Loss as part of the gain or loss on disposal. If the Group disposes of part of its interest in a subsidiary but retains control, then the relevant proportion of the cumulative amount of foreign exchange differences is reallocated to NCI. When the Group disposes of only a part of its interest in an associate or a Joint Venture while retaining significant influence or joint control, the relevant proportion of the cumulative amount of foreign exchange differences is reclassified to the Statement of Profit and Loss.

## ii) Consolidation procedure for the associates

- Investment in entities in which there exists significant influence but not a controlling interest are accounted for under the equity method i.e., the investment is initially recorded at cost, identifying any goodwill arising at the time of acquisition, as the case may be, which will be inherent in investment. The carrying amount of the investment is adjusted thereafter for the post acquisition changes in the share of net assets of the investee, adjusted where necessary to ensure consistency with the accounting policies of the Group. Gain or loss in respect of changes in other equity resulting in dilution of stake in the associates is recognised in the Statement of Profit and Loss.
- b) The consolidated statement of profit and loss (including the other comprehensive income) includes the Group's share of the results of the operations of the investee.
- c) The Group discontinues the use of equity method from the date when investee ceases to be an associate.
- d) Goodwill relating to the associates are included in the carrying amount of the investment and is not tested for impairment individually.

## iii) Eliminations

- a) Offset (eliminate) the carrying amount of the holding Company's investment in each subsidiary and the holding Company's portion of equity of each subsidiary.
- b) Eliminate in full intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the group (profits or losses resulting from intra-group transactions that are recognised in assets, such as inventory and fixed assets, are eliminated in full). Intra-group losses may indicate an impairment that requires recognition in the consolidated financial statements. Ind AS 12 'Income Taxes' applies to temporary differences that arise from the elimination of profits and losses resulting from intra-group transactions.

## c) Business combination:

i) The excess of cost to the holding Company of its investment in subsidiaries and associate over the holding Company's portion of equity, at the date on which investment in subsidiaries and associate is made, is recognised as Goodwill in the Consolidated Financial Statements. When the cost to the holding Company is less than the holding Company's portion of equity, the difference is recognised in the financial statements as Capital Reserve.

- ii) After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.
- iii) Cash generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised in profit or loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.
- iv) Business combinations involving entities or businesses under common control have been accounted for using the pooling of interest method. The assets and liabilities of the combining entities are reflected at their carrying amounts. No adjustments have been made to reflect fair values, or to recognise any new assets or liabilities except changes made to harmonise the accounting policies.

## 2.3 Material Accounting policies

## a) Presentation and disclosure of consolidated financial

All assets and liabilities have been classified as current and non-current as per Group's normal operating cycle and other criteria set out in the division II of Schedule III of the Companies Act, 2013, for a Group whose consolidated financial statements are made in compliance with the Companies (India Accounting Standards) Rules, 2015 and relevant amendment rules issued thereafter. Based on the nature of business and their realisation in cash and cash equivalents, 12 months has been considered by the Group for the purpose of current / non-current classification of assets and liabilities.

Deferred tax assets and liabilities are classified as noncurrent assets and liabilities as the case may be.

## b) Property, plant and equipment & Depreciation

i) All Property, Plant and Equipment are stated at cost of acquisition less accumulated depreciation and accumulated impairment losses, if any. Cost of property, plant and equipment includes nonrefundable taxes and duties, borrowing cost directly attributable to the qualifying asset and any directly attributable costs of bringing the asset to its working condition and location and present value of the expected cost for the dismantling/ decommissioning of the asset.

- ii) Capital work-in-progress comprises of cost incurred on property, plant and equipment not yet ready for their intended use on the Balance Sheet date. Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under other non-current assets.
- iii) Property, plant and equipment are eliminated from financial statements, either on disposal or when retired from active use. Losses arising in the case of retirement of property, plant and equipment and gains or losses arising from disposal of property, plant and equipment are recognised in the statement of profit and loss in the year of occurrence.
- iv) Subsequent expenditures relating to property, plant and equipment are capitalised only when it is probable that future economic benefits associated with these will flow to the Group and the cost of the item can be measured reliably. Repairs and maintenance costs are recognised in the Statement of Profit and Loss when incurred.
- When parts of an item of property, plant and equipment have different useful lives, they are accounted for as a separate item (major components) of property, plant and equipment.
- vi) The carrying amount of an item of property, plant and equipment shall be derecognised:
  - a) on disposal; or
  - b) when no future economic benefits are expected from its use or disposal.
- vii) Depreciation on property, plant and equipment

Depreciation on property, plant and equipment (other than freehold land and capital work in progress) is provided on WDV over the useful lives of the relevant assets, net of residual value, whose lives are in consonance with the lives mentioned in Schedule II of the Companies Act, 2013, except the following cases:

- a) In case of one subsidiary 'Indiannica Learning Private Limited', where depreciation is calculated on straight line basis as per useful lives prescribed under Schedule II of the Companies Act, 2013 and estimated useful life of 3 years for servers and networks being lower than the useful life of 6 years as prescribed under Part C of Schedule II of the Companies Act, 2013. Also, leasehold improvements are depreciated over the period of lease term or 10 years, whichever is less.
- Individual assets whose cost does not exceed ten thousand rupees has been provided fully in the year of capitalisation.
- c) In case of assets purchased, sold or discarded during the year, depreciation on such assets is calculated on pro-rata basis from the date of such addition or as the case may be, upto the date on which such asset has been sold or discarded.

- d) The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each balance sheet date to reflect the expected pattern of consumption of the future benefits embodied in the properties, plant and equipment and in case of any changes, effect of the same is given prospectively.
- Depreciation of an asset ceases at the earlier of the date that the asset is classified as held for sale (or included in a disposal group that is classified as held for sale) in accordance with Ind AS 105 and the date that the asset is derecognised.

## c) Intangible assets & Amortisation

i) Acquired intangible assets:

Intangible assets are recognised when the Group controls the asset, it is probable that future economic benefits attributed to the asset will flow to the Group and the cost of the asset can be reliably measured. At initial recognition, intangible assets are recognised at cost. Intangible assets are carried at cost of development and / or consideration paid for acquisition less accumulated amortisation and accumulated impairment loss; if any.

Amortisation of intangible assets is provided on straight line basis over the estimated useful life as tabulated below:

Block	Range of useful life			
Trademark and copyright	3 to 10 years*			
Software	2.5 to 3 years			

\*License is capitalised at the amounts paid to acquire the respective license for use and is amortised over the period of license.

ii) Internally generated intangible assets:

Content and Technology platform development expenditure incurred where it is reasonably certain that outcome of development will be commercially exploited to yield economic benefits to the Group, is considered as an intangible asset. Content and Technology platform development cost includes majorly salaries related to contents and technology platform capitalised during the year.

For newly capitalised intangible assets, estimated useful life is considered 3 years. The intangible assets are amortised over 3 years on Straight Line Method basis.

- iii) Intangible assets under development comprises of cost incurred on intangible assets under development that are not ready for their intended use as at the balance sheet date.
- iv) Subsequent expenditures related to an item of intangible assets are added to its carrying amount when it is probable that future economic benefits deriving from the cost incurred will flow to the enterprise and the cost of the item can be measured reliably.

v) The useful lives and methods of amortisation of intangible assets are reviewed at each balance sheet date to reflect the expected pattern of consumption of the future benefits embodied in the intangible assets and in case of any changes, effect of the same is given prospectively.

### d) Impairment of non-financial assets

Assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e., the higher of the fair value less cost to sell and the value-inuse) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases. the recoverable amount is determined for the CGU to which the asset belongs. If such assets are considered to be impaired, the impairment to be recognised in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the statement of profit and loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortisation or depreciation) had no impairment loss been recognised for the asset in prior years.

### e) Non-Current assets held for sale

The Group classifies non-current assets as held for sale if their carrying amounts will be recovered principally through sale rather than through continuing use and the sale is highly probable. Management must be committed to the sale, which should be expected within one year from the date of classification. The criteria for held for sale classification is regarded as met only when the asset is available for immediate sale in its present condition, subject to terms that are usual and customary for sales of such assets, its sale is highly probable; and it will genuinely be sold, not abandoned. The Group treats sale of the asset to be highly probable when:

- The appropriate level of management is committed to a plan to sell the asset,
- An active programme to locate a buyer and complete the plan has been initiated,
- The asset is being actively marketed for sale at a price that is reasonable in relation to its current fair value,
- The sale is expected to qualify for recognition as a completed sale within one year from the date of classification, and
- Actions required to complete the plan indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn.

Non-current assets held for sale are measured at the lower of their carrying amount and the fair value less costs to sell. Assets and liabilities classified as held for sale are presented separately in the balance sheet. Property, plant and equipment and intangible assets once classified as held for sale are not depreciated or amortised. Gains and losses on disposals of such assets held for sale are determined by comparing proceeds with carrying amounts and are recognised in the statement of profit and loss.

The Deposits associated with assets held for sale are presented separately from other liabilities in the balance sheet

### f) Inventories

Inventories are valued at the lower of cost and net realisable value.

Costs incurred in bringing each product to its present location and condition are accounted for as follows:

- Raw Materials (including pen drive, CD), Packing Materials, Stores & Spares are valued at lower of cost and net realisable value. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost.
  - The Cost comprises of costs of purchase, duties and taxes (other than those subsequently recoverable), conversion cost and other costs after deducting discounts and rebates which are incurred in bringing the inventories to their present location and condition. Cost is determined on the weighted average basis (first-in first-out basis in case of one subsidiary 'Indiannica Learning Private Limited'). Cost also includes the reclassification from OCI of any gains or losses on qualifying cash flow hedges relating to purchases of raw material but excludes borrowing costs.
- ii) Finished Goods and Work in Progress are valued at lower of cost and net realisable value. Cost includes direct materials valued on weighted average basis (first-in first-out basis in case of one subsidiary 'Indiannica Learning Private Limited'), conversion cost (i.e., costs directly related to the units of production), an appropriate proportion of manufacturing overheads based on normal operating capacity and other costs incurred in bringing them to their present location and condition. Net realisable value is the estimated selling price in the ordinary course of business less estimated costs of completion and estimated costs necessary to make the sale.
- iii) Stocks in trade (Traded goods) are valued at lower of cost and net realisable value. Cost includes direct materials valued on weighted average basis (first-in first-out basis in case of one subsidiary 'Indiannica Learning Private Limited'), and other costs incurred in bringing them to their present location and condition.

- iv) Scraps are valued at estimated net realisable value.
- Cost of inventories is arrived at after providing for cost of obsolescence wherever considered necessary.

Net realisable value (NRV) test is performed on these costs by comparing estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

#### a) Borrowing Cost

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised as part of the cost of the respective asset till such a time as the asset is ready for its intended use or sale. A qualifying asset is an asset which necessarily takes a substantial period of time to get ready for its intended use or sale. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest expenses calculated as per effective interest method, exchange differences arising from foreign currency borrowings to the extent they are treated as an adjustment to the borrowing cost.

#### h) Operating Segments

The operating segments have been identified based on the conditions specified in paragraph 5 to Ind AS 108, i.e. an operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, whose operating results are regularly reviewed by the Group's Chief Operating Decision Maker ("CODM") to make decisions for which discrete financial information is available.

Operating Segments are reported in a manner consistent with internal reporting provided to the CODM. The Managing Director is the CODM of the group. The group prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the financial statements of the Group as a whole.

## i) Financial instruments

### Initial recognition

All financial instruments are recognised initially at fair value. Transaction costs that are attributable to the acquisition of the financial asset (other than financial assets recorded at fair value through profit or loss) are included in the fair value of the financial assets. Purchase or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trade) are recognised on trade date. However, loans and borrowings and payables are recognised net of directly attributable transaction costs and trade receivables are measured at their transaction price unless they contain a significant financing component or pricing adjustments embedded in the contract.

## Classification of financial assets

Financial assets are classified as 'equity instrument' if they are non-derivative and meets the definition of 'equity'

for the issuer. All other non-derivative financial assets are 'debt instrument'

### Subsequent measurement

The classification of financial instruments depends on the objective of the business model for which it is held. Management determines the classification of its financial instruments at initial recognition.

#### Non-derivative financial assets:

## Financial assets at amortised cost and the effective interest method

Debt instruments shall be measured at amortised cost if both of the following conditions are met:

- The asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and selling assets;
- ii. the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

Debt instruments meeting these criteria are measured initially at fair value plus transaction costs.

They are subsequently measured at amortised cost using the effective interest method less any impairment, with interest recognised on an effective yield basis in investment income.

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest over the relevant period. The effective interest rate is the rate that exactly discounts the estimated future cash receipts (including all fees on points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

The Group may irrevocably elect at initial recognition to classify a debt instrument that meets the amortised cost criteria above as at Fair Value Through Profit & Loss (FVTPL) if that designation eliminates or significantly reduces an accounting mismatch had the financial asset been measured at amortised cost.

### **Equity instruments**

At initial recognition, an irrevocable election is made (on an instrument-by-instrument basis) to designate investments in equity instruments other than held for trading purpose at FVTOCI.

A financial asset is held for trading if:

- it has been acquired principally for the purpose of selling it in the near term; or
- on initial recognition it is part of a portfolio of identified financial instruments that the Group manages together and has evidence of a recent actual pattern of short-term profit-taking; or

 it is a derivative that is not designated and effective as a hedging instrument or a financial guarantee.

If the Group decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognised in the OCI. There is no recycling of the amounts from OCI to the statement of profit and loss, even on sale of investment. However, the Group may transfer the cumulative gain or loss within equity. Equity investments designated as FVTOCI are not subject to impairment assessment.

Equity instruments included within the FVTPL category are measured at fair value with all fair value changes recognised in the statement of profit and loss.

## Financial assets at fair value through profit or loss (FVTPL)

Financial assets that do not meet the criteria of classifying as amortised cost or fair value through other comprehensive income described above, or that meets the criteria, but the entity has chosen to designate as at FVTPL at initial recognition, are measured at FVTPL.

Investments in equity instruments are classified as at FVTPL, unless the Group designates an investment that is not held for trading at FVTOCI at initial recognition.

Financial assets classified at FVTPL are initially measured at fair value excluding transaction costs.

Financial assets at FVTPL are subsequently measured at fair value, with any gains or losses arising on remeasurement recognised in the statement of profit and loss

Dividend income on investments in equity instruments at FVTPL is recognised in the statement of profit and loss in investment income when the Group's right to receive the dividends is established, it is probable that the economic benefits associated with the dividend will flow to the entity; and the amount of the dividend can be measured reliably.

## **Equity investments**

All equity investments within the scope of Ind AS 109 are measured at fair value. For all other equity instruments, the Group may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Group makes such an election on an instrument-by-instrument basis. The classification is made upon initial recognition and is irrevocable.

If the Group decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognised in the OCI. There is no recycling of the amounts from OCI to the statement of profit and loss, even on sale of investment. However, the Group may transfer the cumulative gain or loss within equity. Equity investments designated as FVTOCI are not subject to impairment assessment.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognised in the statement of profit and loss.

### Impairment of financial assets

On initial recognition of the financial assets, a loss allowance for expected credit loss is recognised for debt instruments at amortised cost and FVTOCI. For debt instruments that are measured at FVTOCI, the loss allowance is recognised in other comprehensive income in the statement of profit and loss and does not reduce the carrying amount of the financial asset in the balance sheet.

Expected credit loss of a financial instrument is measured in a way that reflects:

- an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes:
- ii) the time value of money; and
- iii) reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

At each reporting date, the Group assesses whether the credit risk on a financial instrument has increased significantly since initial recognition.

When making the assessment, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and consider reasonable and supportable information, that is available without undue cost or effort, that is indicative of significant increases in credit risk since initial recognition.

If, at the reporting date, the credit risk on a financial instrument has not increased significantly since initial recognition, the Group measures the loss allowance for that financial instrument at an amount equal to 12-month expected credit losses. If the credit risk on that financial instrument has increased significantly since initial recognition, the Group measures the loss allowance for a financial instrument at an amount equal to the lifetime expected credit losses.

The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date is recognised as an impairment gain or loss in the statement of profit and loss.

### **Derecognition of financial assets**

The Group derecognises a financial asset on trade date only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralized borrowing for the proceeds received.

On derecognition of a financial asset other than in its entirety (e.g., when the Group retains an option to repurchase part of a transferred asset), the Group allocates the previous carrying amount of the financial asset between the part it continues to recognise under continuing involvement, and the part it no longer recognises on the basis of the relative fair values of those parts on the date of the transfer. The difference between the carrying amounts allocated to the part that is no longer recognised and the sum of the consideration received for the part no longer recognised and any cumulative gain or loss allocated to it that had been recognised in other comprehensive income is recognised in the statement of profit and loss. Cumulative gain or loss that had been recognised in other comprehensive income is allocated between the part that continues to be recognised and the part that is no longer recognised on the basis of the relative fair values of those parts.

## Financial liabilities and equity instruments issued by the Group

### Classification as debt or equity

Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangement.

### **Equity instruments**

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Group are recognised at the proceeds received, net of direct issue costs.

## **Financial liabilities**

Financial liabilities are classified as either 'financial liabilities at FVTPL' or 'other financial liabilities'.

## Financial liabilities at FVTPL

Financial liabilities are classified as at FVTPL when the financial liability is either held for trading or it is designated as at FVTPL.

A financial liability is classified as held for trading if:

- i) it has been acquired or incurred principally for the purpose of repurchasing it in the near term; or
- on initial recognition it is part of a portfolio of identified financial instruments that the Group manages together and for which there is evidence of a recent actual pattern of short-term profit taking; or
- It is a derivative that is not designated and effective as a hedging instrument.

A financial liability other than a financial liability held for trading may also be designated as at FVTPL upon initial recognition if:

- such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise; or
- ii) the financial liability forms part of a Company of financial assets or financial liabilities or both, which is managed, and its performance is evaluated on

- a fair value basis, in accordance with the Group's documented risk management or investment strategy and information about the Group is provided internally on that basis; or
- iii) It forms part of a contract containing one or more embedded derivatives, and Ind-AS 109 Financial Instruments permits the entire combined contract to be designated as at FVTPL.

Financial liabilities at FVTPL are stated at fair value, with any gains or losses arising on remeasurement recognised in the statement of profit and loss, except for the amount of change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability which is recognised in other comprehensive income.

The net gain or loss recognised in the statement of profit and loss incorporates any interest paid on financial liability.

#### Other financial liabilities

Other financial liabilities, including borrowings, are initially measured at fair value, net of transaction costs.

Other financial liabilities are subsequently measured at amortised cost using the effective interest method, with interest expense recognised on an effective yield basis.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

#### Financial guarantee contracts

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due in accordance with the terms of a debt instrument.

Financial guarantee contracts issued by the Holding Company are initially measured at their fair values and, if not designated as at FVTPL, are subsequently measured at the higher of:

- the amount of loss allowance determined in accordance with impairment requirements of Ind AS 109; and
- ii) the amount initially recognised less, when appropriate, the cumulative amount of income recognised in accordance with the principles of Ind AS 115.

#### Reclassification of financial assets and liabilities

The Group determines classification of financial assets and liabilities on initial recognition. After initial recognition, no re-classification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a re-classification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Group 's senior management determines change in the business model

as a result of external or internal changes which are significant to the Company's operations. Such changes are evident to external parties. A change in the business model occurs when the Group either begins or ceases to perform an activity that is significant to its operations. If the Group re-classifies financial assets, it applies the re-classification prospectively from the re-classification date which is the first day of the immediately next reporting period following the change in business model. The Group does not re-state any previously recognised gains, losses (including impairment gains or losses) or interest.

#### Offsetting financial instruments

Financial assets and liabilities are offset, and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Group or the counterparty.

#### Derivatives and hedge accounting

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured at their fair value. The method of recognising the resulting gain or loss depends on whether the derivative is designated as a hedging instrument, and if so, the nature of the item being hedged.

The Group designates certain derivatives as either:

- hedges of the fair value of recognised assets or liabilities or a firm commitment (fair value hedge);
- hedges of a particular risk associated with a recognised asset or liability or a highly probable forecast transaction (cash flow hedge); or
- Hedges of a net investment in a foreign operation (net investment hedge).

The Group documents at the inception of the transaction the relationship between hedging instruments and hedged items, as well as its risk management objectives and strategy for undertaking various hedging transactions. The Group also documents the nature of the risk being hedged and how the Group will assess whether the hedging relationship meets the hedge effectiveness requirements (including its analysis of the sources of hedge ineffectiveness and how it determines the hedge ratio).

The full fair value of a hedging derivative is classified as a non-current financial asset or financial liability when the residual maturity of the derivative is more than 12 months and as a current financial asset or financial liability when the residual maturity of the derivative is less than 12 months.

### Fair value hedge

Changes in the fair value of derivatives that are designated and qualify as fair value hedges are recorded in the statement of profit and loss, together with any changes

in the fair value of the hedged item that are attributable to the hedged risk.

Hedge accounting is discontinued when the Group revokes the hedging relationship, when the hedging instrument expires or is sold, terminated, or exercised, or when it no longer qualifies for hedge accounting. The fair value adjustment to the carrying amount of the hedged item arising from the hedged risk is amortised to the statement of profit and loss from that date.

#### Cash flow hedges

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognised in other comprehensive income and accumulated under the heading cash flow hedging reserve. The gain or loss relating to the ineffective portion is recognised immediately in the statement of profit and loss and is included in the 'other gains and losses' line item.

Amounts previously recognised in other comprehensive income and accumulated in equity are reclassified to the statement of profit and loss in the periods when the hedged item affects the statement of profit and loss, in the same line as the recognised hedged item. However, when the hedged forecast transaction results in the recognition of a non-financial asset or a non-financial liability, the gains and losses previously recognised in other comprehensive income and accumulated in equity are transferred from equity and included in the initial measurement of the cost of the non-financial asset or non-financial liability.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or when it no longer qualifies for hedge accounting. Any gain or loss recognised in other comprehensive income and accumulated in equity at that time remains in equity and is recognised when the forecast transaction is ultimately recognised in the statement of profit and loss. When a forecast transaction is no longer expected to occur, the gain or loss accumulated in equity is recognised immediately in the statement of profit and loss.

#### Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal market or the most advantageous market must be accessible to the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate

economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy based on the lowest level input that is significant to the fair value measurement as a whole. The fair value hierarchy is described as below:

- Level 1 unadjusted quoted price in active markets for identical assets and liabilities.
- Level 2 Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly
- Level 3 unobservable inputs for the asset or liability

For assets and liabilities that are recognised in the financial statements at fair value on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation at the end of each reporting period.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of fair value hierarchy.

#### j) Revenue recognition

The Group earns revenue primarily from the sale of knowledgebased information in educational and general books, paper stationery and non-paper stationery.

Revenue is recognised upon transfer of control of promised products and services to customers, when there are no longer any unfulfilled obligations, in an amount that reflects the consideration which the Group expects to receive in exchange for those products and services. The Performance obligations in our contracts are fulfilled at the time of dispatch, delivery or upon formal customer acceptance depending on customer terms.

#### Sale of products

Revenue is recognised at a point in time upon transfer of control of promised products to customers, which coincides with dispatch or delivery of goods as per the relevant terms of the contract, in an amount that reflects the consideration we expect to receive in exchange for those products. Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of goods sold is net of variable consideration on account of various discounts and schemes offered by the Company as part of the contract.

Accumulated experience and judgement are used to estimate and provide for turnover discounts, expected cash discounts, other eligible discounts, expected returns and incentives.

Payment for the sale is made as per the credit terms in the agreements with the customers. The credit period is generally short term, thus there is no significant financing component.

#### Sale of services

Revenue from services rendered is recognised at a point in time based on agreements / arrangements with the customers. Service income is recorded net of GST. Revenue for fixed price contracts (including right to use contents) are recognised over the contract period on straight line basis unless there is a more appropriate allocation.

Revenue from sale of educational contents in digital form is recognised as under:

- o In case the sale is in the nature of right to use, the revenue is recognised at the point of time when the license for the content is activated and there are no further performance obligations.
- o In case the sale is in the nature of right to access, the revenue is recognised over the license period on straight line basis unless there is more appropriate allocation.
- o Contract assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.
- Unearned and deferred revenue ("contract liability") is recognised when there is a billing in excess of revenues.

#### Income from power generation

Income from power generation is recognised on the basis of electrical units generated & transferred to transmission company (in excess of captive consumption) and is recognised at prescribed rate as per agreement for sale of electricity by the Group. Income from power generation is grouped under 'Other operating revenue'.

 Revenue from subscription of digital content / Royalty for right-to-use license are accounted over the subscription period/agreement period in accordance with the terms of the arrangement.

#### Right to return assets

A right of return gives the Company a contractual right to recover the goods from a customer (right to return asset) if the customer exercises its option to return the goods and obtain a refund. The asset is measured at the carrying amount of the inventory, less any expected costs to recover the goods, including any potential decreases in the value of the returned goods. The Group has presented its right to return assets under other current assets.

#### Refund liability

A refund liability is the obligation to refund part or all of the consideration received (or receivable) from the customer. The Company has therefore recognised refund liabilities in respect of customer's right to return. The liability is measured at the amount the Company ultimately expects it will have to return to the customer. The Company updates its estimate of refund liabilities (and the corresponding change in the transaction price) at the end of each reporting period. The Company has presented its refund liabilities under other provisions.

#### Other Income

- o Interest income in respect of all the Debt Instruments, financial guarantees and deposits which are measured at amortised cost or at fair value through profit and loss or at fair value through other comprehensive income, is recorded using effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of a financial liability.
- Dividend income on investment is accounted for in the year in which the right to receive the payment is established.
- Contracts with customer and significant judgement in applying the standard
  - o The Group's contracts with customers mainly include promises to transfer products and services to a customer. The Group assesses the products / services promised in the contract and identifies distinct performance obligations in the contract, if any.
  - o Judgement is required to determine the transaction price for the contract. The transaction price could be either a fixed amount of consideration or variable consideration with elements such as volume discounts and incentives. The estimated amount of variable consideration is adjusted in the transaction price only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur and is reassessed at the end of each reporting period.

#### k) Government grants

Government grants are recognised when there is reasonable assurance that the Group will comply with the conditions attaching to them and that the grants will be received.

Incentives on exports related to operations as provided by government are recognised in books after due consideration of certainty of utilisation / receipt of such incentive.

#### Trade receivable

Trade receivables are amounts due from customers for goods sold or services performed in the ordinary course of business. If the receivable is expected to be collected within a period of 12 months or less from the reporting date (or in the normal

operating cycle of the business, if longer), they are classified as current assets, otherwise as non-current assets.

Trade receivables are measured at their transaction price unless they contain a significant financing component or pricing adjustments embedded in the contract.

Loss allowance for expected life time credit loss is recognised on initial recognition.

#### m) Foreign currency transactions

Foreign Currency transactions are translated into the functional currency of the respective group entity, using the exchange rates prevailing at the dates of the transactions (spot exchange rates). As at the Balance Sheet date, foreign currency monetary assets and liabilities are translated at closing exchange rate. The gains or losses resulting from such translations are included in net profit in the Statement of Profit and Loss.

Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at fair value are translated at the exchange rate prevalent at the date when the fair value was determined. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of the transaction.

Transaction gains or losses realised upon settlement of foreign currency transactions are included in determining net profit for the period in which the transaction is settled. Revenue, expense and cash flow items denominated in foreign currencies are translated into the relevant functional currencies using the exchange rate in effect on the date of the transaction.

As per Appendix B to Ind AS 21, when an entity has received or paid advance contribution in a foreign currency, transaction rate as on the date of receipt of advance is considered for recognition of related asset, expenses or income.

#### n) Employee benefits

#### Short term employee benefits

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

### ii) Post-employment benefits

#### a) Defined Contribution Plan

The defined contribution plan is a post-employment benefit plan under which the Group contributes fixed contribution to a government administered fund and will have no legal or constructive obligation to pay further contribution. The Group's defined contribution plan comprises of Provident Fund and Labour Welfare Fund and Government Pension Fund in respect of certain employees at a pre-determined rate. The Group's contribution to defined contribution plans are recognised in the statement of profit and loss in the period in which the employee renders the related services.

#### b) Defined benefit plan

The Group has defined benefit plans comprising of Gratuity. Group's obligation towards gratuity liability, wherever applicable, is funded and is managed by Life Insurance Corporation of India (LIC), except in case of one subsidiary 'Navneet Futuretech Limited'. The present value of the defined benefit obligations is determined based on actuarial valuation using the projected unit credit method. The rate used to discount defined benefit obligation is determined by reference to market yields at the Balance Sheet date on Indian Government Bonds for the estimated term of obligations.

Re-measurements comprising of (a) actuarial gains and losses, (b) the effect of the asset ceiling (excluding amounts included in net interest on the net defined benefit liability) and (c) the return on plan assets (excluding amounts included in net interest on the net defined benefit liability) are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through other comprehensive income in the period in which they occur. Re-measurements are not reclassified to statement if profit and loss in subsequent periods.

The return on plan assets is the Group's expectation of average long-term rate of return on the investment of the fund over the entire life of the related obligation. Plan assets are measured at fair value as at the Balance Sheet date.

The interest cost on defined benefit obligation and expected return on plan assets is recognised under finance cost.

Gains or losses on the curtailment or settlement of defined benefit plan are recognised when the curtailment or settlement occurs.

### iii) Compensated absences

The Group has benefits in the form of compensated absences. The present value of such compensated absences is determined based on actuarial valuation using the projected unit credit method. The rate used to discount defined benefit obligation is determined by reference to market yields at the Balance Sheet date on Indian Government Bonds for the estimated term of obligations.

Actuarial gains or losses arising on account of experience adjustment and the effect of changes in actuarial assumptions are recognised immediately in the statement of profit and loss as income or expense.

Gains or losses on the curtailment or settlement are recognised when the curtailment or settlement occurs.

#### o) Leases

The Group has adopted Ind AS 116 'Leases' effective from 1st April, 2019, as notified by the Ministry of Corporate Affairs in the Companies (Indian Accounting Standard) Amendment Rules. 2019.

#### As a Lessee:

- The Group's lease asset classes primarily consist of leases for office premises, warehouses, vehicles and computers.
- At inception of a contract, the Group assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.
- At commencement or on modification of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease and non-lease component on the basis of their relative stand-alone prices.
- o The Group recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprise of the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date net of lease incentive received, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located.
- o The right-of-use assets are subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use asset is depreciated using the straight-line method from the commencement date over the shorter of lease term of right-of-use asset.
- The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Group's incremental borrowing rate. The lease liability is measured at amortised cost using the effective interest method.
- o The Group has elected not to recognise right-of-use assets and lease liabilities for leases of low-value assets and short-term leases. The Group recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.
- The Group determines the lease term as the noncancellable period of a lease, together with both periods covered by an option to extend the lease if the Group is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Group is reasonably certain not to exercise that option. In assessing whether the Group is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Group to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Group revises the lease term if there is a change in the non-cancellable period of a lease.
- o Right-of-use assets and lease liability balances are adjusted on partial / full termination of lease and

corresponding gain / loss on such partial / full termination is charged to other income / other expenses in the Statement of Profit and Loss.

#### As a Lessor.

Lease income from operating leases where the Group is a lessor is recognised (net of GST) in income on a straight-line basis over the lease term. The respective leased assets are included in the balance sheet based on their nature.

#### p) Share based payments

Employee Stock Option Plan:

The fair value of options granted under the Company's employee stock option scheme (excess of the fair value over the exercise price of the option at the date of grant) is recognised as an employee benefit expense with a corresponding increase in equity. The total amount to be expensed is determined by reference to the fair value of the options granted.

Employee Stock Appreciation Rights Scheme:

Liability for the Company's Employee Stock Appreciation Rights (STAR) granted pursuant to the Company's Employee Stock Appreciation Rights Plan, 2011, shall be measured, initially and at the end of each reporting period until settled, at the fair value of the STARs, by applying an option pricing model, be and is recognised as employee benefit expense over the relevant service period.

#### q) Taxes on income

Tax expenses for the year comprises of current tax, deferred tax charge or credit and adjustments of taxes for earlier years. In respect of amounts adjusted outside profit or loss (i.e. in other comprehensive income or equity), the corresponding tax effect, if any, is also adjusted outside profit or loss.

#### i) Current tax:

The current income tax expense charge is calculated on the basis of the tax laws enacted at the end of the reporting period to each entity of the Group. Management of each entity establishes proper provisions on the basis of amounts expected to be paid to the tax authorities.

The Group offsets current tax assets and current tax liabilities where it has a legally enforceable right to set off the recognised amounts and where it intends either to settle on a net basis, or to realise the assets and settle the liability simultaneously.

Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

#### ii) Deferred Income Tax:

Deferred income tax is provided in full, using the Balance Sheet Method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. Deferred income tax is determined using the tax rates that have been enacted at the end of the reporting period.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax liabilities are recognised for all taxable temporary differences, and deferred tax assets are recognised for all deductible temporary differences, carry forward tax losses and allowances to the extent that it is probable that future taxable profits will be available against which those deductible temporary differences, carry forward tax losses and allowances can be utilised.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities. Current tax assets and tax liabilities are offset where the Group has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in the statement of Profit and Loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in Other Comprehensive Income or directly in Equity, respectively.

The Company previously accounted for deferred tax on leases and decommissioning liabilities by applying the 'integrally linked' approach, resulting in a similar outcome as under the amendments, except that the deferred tax asset or liability was recognised on a net basis. Following the amendments, the Company has recognised a separate deferred tax asset in relation to its lease liabilities and a deferred tax liability in relation to its right-to-use assets as at 1st April, 2022 and thereafter.

However, there was no impact on the balance sheet because the balances qualify for offset under paragraph 74 of Ind AS 12. There was also no impact on the opening retained earnings as at 1<sup>st</sup> April, 2022 as a result of the change.

The Company applied Deferred Tax related to Assets and Liabilities arising from single transaction (Amendments to Ind AS 12) from 1st April, 2023.

#### iii) Uncertain Tax position:

Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation and considers whether it is probable that a taxation authority will accept an uncertain tax treatment. The group measures its tax balances either based on the most likely amount or the expected value, depending on which method provides a better prediction of the resolution of the uncertainty.

#### r) Cash and cash equivalents

Cash and cash equivalents include cash in hand, bank balances, deposits with banks (other than on lien) and all short term and highly liquid investments that are readily convertible into known amounts of cash and are subject to an insignificant risk of changes in value.

For the purpose of cash flow statement, cash and cash equivalent as calculated above also includes outstanding bank overdrafts and cash credit as they are considered an integral part of the Group's cash management.

#### s) Cash flow statement

Cash Flows are reported using the indirect method, whereby net profit before tax is adjusted for the effects of transactions of non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Group are segregated.

### t) Provisions and contingent liabilities and contingent assets

Contingent Liabilities are disclosed in respect of possible obligations that arise from past events but their existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group or where any present obligation cannot be measured in terms of future outflow of resources or where a reliable estimate of the obligation cannot be made.

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense. Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

A contingent asset is disclosed, where an inflow of economic benefits is probable. An entity shall not recognise a contingent asset unless the recovery is virtually certain.

#### u) Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss (after tax) for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. The weighted average numbers of shares also includes fixed number of equity shares that are issuable on conversion of compulsorily convertible instruments and it is included from the date consideration is receivable (generally the date of their issue) of such instruments.

The Weighted average number of equity shares outstanding during the year is adjusted for events such as issue of shares, bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares), without a corresponding change in resources.

Diluted earnings per share is calculated by dividing the net profit or loss (after tax) for the year attributable to equity shareholders and the weighted average number of equity shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

#### v) Dividend distribution

Final equity dividends on shares are recorded as a liability on the date of approval by the shareholders and interim equity dividends are recorded as a liability on the date of declaration by the Group's Board of Directors.

## 2.4 Use of significant accounting estimates, judgements and assumptions

The preparation of the consolidated financial statements requires management to make estimates, judgements and assumptions that affect the reported balances of assets and liabilities, disclosure of contingent liabilities as on the date of consolidated financial statements and reported amounts of income and expenses during the period. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Group based its assumptions and estimates on parameters available when the consolidated financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

### Estimated useful lives and scrap value (Property, plant & equipment, Investment properties and Intangible assets)

The Group has conducted internal assessment of residual value and method of depreciation / amortisation of property, plant & equipment, investment properties and intangible assets and estimated that the useful life is in consonance with Schedule II of the Companies Act, 2013. Property, plant & equipment, investment properties and intangible assets represent a significant proportion of the asset base of the Group. Further the Group has estimated that scrap value of property, plant & equipment would be able to cover the decommissioning costs of property, plant & equipment.

Therefore, the estimates and assumptions made to determine useful life, residual value, method of depreciation / amortisation and decommissioning costs are critical to the Group's financial position and performance.

#### b) Fair Value Measurement of Financial Instruments

When the fair value of financial assets and financial liabilities recorded in the Balance Sheet cannot be measured based on quoted prices in active markets, their fair values are measured using valuation techniques (obtaining fair valuation report from registered valuer). The inputs to these models are taken from an observable market where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include consideration of input such as projections, liquidity risk, credit risk and volatility.

Changes in assumptions about these factors could affect the reported fair value of financial instruments.

#### Impairment testing for Licenses under intangible assets, internally generated intangible assets and Goodwill on consolidation

Impairment testing is an area involving management judgement, requiring assessment as to whether the carrying value of assets can be supported by the net present value of future cash flows derived from such assets using cash flow projections which have been discounted at an appropriate rate. In calculating the net present value of the future cash flows, certain assumptions are required to be made in respect of highly uncertain matters including management's expectations of future growth, discount rates etc. The Group has prepared projections for the next 5 years which have been used for the said calculations.

## d) Determining the lease term of contracts with renewal as a Lessee

The Group evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgement. The Group uses significant judgement in assessing the lease term (including anticipated renewals).

The Group determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Group is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Group is reasonably certain not to exercise that option. In assessing whether the Group is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Group to exercise the option to extend the lease, or not to exercise the option to terminate the lease. Any subsequent change in certainty of exercising option to extend lease term could impact the carrying value of right of use asset and lease liability significantly.

### e) Allowances for doubtful receivables and credit losses

Allowance for doubtful receivables represent the estimate of losses that could arise due to inability of the customer to make payments when due. These estimates are based on the customer ageing, customer category, specific credit circumstances and the historical experience of the Group as forward-looking estimates at the end of each reporting period.

### f) Estimation of provisions and contingencies

Provisions are liabilities of uncertain amount or timing recognised where a legal or constructive obligation exists at the balance sheet date, as a result of a past event, where the amount of the obligation can be reliably estimated and where the outflow of economic benefit is probable. Contingent liabilities are possible obligations that may arise from past event whose existence will be confirmed only by the occurrence or non-occurrence of one or more

uncertain future events which are not fully within the control of the Group. The Group exercises judgement and estimates in recognising the provisions and assessing the exposure to contingent liabilities relating to pending litigations. Judgement is necessary in assessing the likelihood of the success of the pending claim and to quantify the possible range of financial settlement. Due to this inherent uncertainty in the evaluation process, actual losses may be different from originally estimated provision.

## 2.5 New standard issued / modified but not effective as at reporting date

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended 31st March, 2025, MCA has notified Ind AS – 117 Insurance Contracts and amendments to Ind AS 116 – Leases, relating to sale and leaseback transactions, applicable to the Company w.e.f. 1st April, 2024. The Company has reviewed the new pronouncements and based on its evaluation has determined that it does not have any significant impact in its financial statements.

The deferred tax asset on the fair value loss has not been accounted considering lack of reasonable certainity as regards utilisation of the said deferred tax asset.
- Fair valuation for investment into 'Elation Edtech Private Limited'
  - During the year, the impairment test carried out by the management including the business outlook, basis of estimates, appropriateness & reasonableness of assumptions, actual performance as against budget and various other parameters with the management of the said company, and based on which, the Company has recognised fair value loss of ₹ 106 Lakhs (Previous year ₹ 419 Lakhs). This loss is routed through the Other Comprehensive Income based on the accounting policy adopted by the Company. The deferred tax asset on the fair value loss has not been accounted considering lack of reasonable certainity as regards utilisation of the said deferred tax asset.

FOR THE YEAR ENDED 31st MARCH, 2025

9.5 In the earlier years, as per pledge arrangement entered into with the party against amount recoverable of ₹ 113 Lakhs (Previous year ₹127 Lakhs) (disclosed under 'Other Non Current Assets' as advance from suppliers in note), pledge is invoked by the Company and accordingly shares of 'Shrenik Limited' reflecting in demat account but not reflecting in investment schedule. Further, mark to market gain on such shares is also not accounted as the Company does not have contractual right to recover amount in excess to recoverable amount. Considering the time period for which the matter is pending and slow recovery process from sale of securities, as a matter of abundant caution provision of ₹ 127 Lakhs has been made during the earlier year. Subsequently, in the current year, the Company managed to sell securities amounting to ₹ 14 Lakhs, resulting in the reversal of the previously made provision to that extent.

Total	34,754	36,733

- 16.1 Trade receivables of holding company are subject to first charge to secure bank loan
- 16.2 Trade receivables are generally due between 30 to 180 days. The Holding Company's term includes charging of interest for delayed payment beyond agreed credit days. However, the Company charges interest after considering the historical trend, business prospects, reason for delay, market conditions etc.
- 16.3 Credit risk is managed at the operational segment level. The credit limit and credit period are fixed for each customer after evaluating the financial position, past performance, business opportunities, credit references etc. The credit limit and the credit period are reviewed regularly at periodical intervals.
- 16.4 As per Memorandum of Understanding with one of the party, a sum of ₹ 286 Lakhs (Previous year: ₹ 286 Lakhs) is secured by pledge of immovable property.

FOR THE YEAR ENDED 31st MARCH, 2025

16.5 The Group follows simplified approach & the trade receivables do not contain significant financing component and accordingly the Company does not separately track changes in credit risk of trade receivables as the impairment amount represents "lifetime" expected credit loss. Accordingly, the disclosure as required by Schedule III, Division II as regards (a) Trade Receivables which have significant increase in credit risk & (b) Trade Receivables which are credit impaired is not required. However, in addition to collective pool assessment, the Company carried out individual assessment in respect of certain parties where the possibility of default in collection of trade receivable was high.

FOR THE YEAR ENDED 31st MARCH, 2025

#### 56. FAIR VALUE OF FINANCIAL ASSETS AND LIABILITIES

The management assessed that the fair values of financial asset and financial liabilities approximate their carrying amounts.

The following methods and assumptions were used to estimate the fair values:

- (a) Fair values of cash and cash equivalents, trade receivables, interest accrued on deposits with bank, bank deposits, trade payables and other financial liabilities, which are carried at amortised cost, approximate their carrying amounts largely due to the short-term maturities of these instruments.
- (b) The management has considered fair value of security deposits, loan from bank, loan from related party, equal to their carrying value as fair values based on the current market interest rates and other risk factors approximate to carrying value.

#### Fair value hierarchy

The following table presents the financial assets and financial liabilities by level with the fair value measurement hierarchy:

For Elation Edtech Private Limited fair valuation is done based on management estimates.	the price would result in a higher/lower fair value

#### The effect of unobservable inputs on fair value measurement

Although the Company believes that its estimates of fair value are appropriate, the use of different methodologies or assumptions could lead to different measurements of fair value.

The most significant input impacting the fair value of such financial instruments are prices or values provided by external valuer. An upward or downward 5% change in price would result in an impact of ₹ 3,621 Lakhs (P.Y.: ₹ 344 Lakhs).

#### Financial /Bank guarantee:

- (i) In one of the subsidiaries 'Indiannica Learning Private Limited', the Subsidiary Company had given bank guarantee to Sales Tax department ₹ 2 Lakhs (Previous year: ₹ 2 Lakhs).
- (ii) In Holding Company, Bank Guarantee is given to electricity department (DNH Power Distribution Corporation Limited, Uttar Gujarat Vij Company Ltd and Dakshin Gujarat Vij Company Ltd) for electricity deposit of ₹116 Lakhs (Previous Year ₹ 91 Lakhs), Insurance agency (Avalon Risk Management Insurance Agency LLC) of ₹ 171 Lakhs (Previous Year ₹131 Lakhs) given to custom department for imports to be made and to supplier (Century Pulp And Paper) for securing supplies of materials of ₹ 60 Lakhs (Previous Year ₹ 60 Lakhs) For Government Tender (Tribal Development) of ₹ 41 Lakhs (Previous Year ₹NIL) given to Government tender department. For Gas supply (Sabarmati Gas Limited) ₹14 Lakhs (Previous Year ₹ NIL). The Company does not anticipate any liability on these guarantees.

FOR THE YEAR ENDED 31st MARCH, 2025

(iii) Kotak Mahindra Bank and ICICI Bank have given bank guarantee to two of the customers of the Company amounting to ₹ 15 Lakhs (Previous year: ₹ 14 Lakhs) and ₹ 4 Lakhs (Previous year: ₹ 3 Lakhs) respectively, against which the Company has provided a bank deposit of the same amount which is kept under lien by the Bank. Further, the Company had availed bank overdraft facility from ICICI Bank Limited against which the Company had provided bank deposit of ₹ Nil (Previous year: ₹ 2 Lakhs) which was kept under lien by the Bank (Refer note 18.4).

The Company does not anticipate any liability on these guarantees.

#### **57. FINANCIAL RISK MANAGEMENT**

The Group is exposed to market risk, credit risk and liquidity risk. The management reviews and agrees policies for managing each of these risks which are summarised below:

#### Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprise three types of risk: foreign currency risk, interest rate risk and other price risk. Financial instruments affected by market risk primarily include trade receivables, trade payables, cash and cash equivalents.

The sensitivity analysis in the following sections relate to the position for the periods presented. The sensitivity analysis has been prepared on the basis that the amount of net debt and the proportion of financial instruments in foreign currencies are all constant. The analysis exclude the impact of movements in market variables on the carrying values of gratuity obligation and provisions.

The sensitivity of the relevant profit and loss item is the effect of the assumed changes in respective market risks based on the financial assets and financial liabilities held at the periods presented.

#### Interest rate risk

The following tables demonstrate the sensitivity to a reasonably possible change in interest rate, with all other variables held constant. The impact on the Group's profit before tax is due to changes in the fair value of monetary assets and liabilities.

(₹ in Lakhs)

Year ended as on	Change in Int. Rate	Effect on profit before tax [increase / (decrease)]
31st March, 2025	Increase by 50 basis points (50 bps)	62
	Decrease by 50 basis points (50 bps)	(62)
31st March, 2024	Increase by 50 basis points (50 bps)	123
	Decrease by 50 basis points (50 bps)	(123)

#### Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Group's exposure to the risk of changes in foreign exchange rates relates primarily to trade payables and trade receivables.

The following table analyses the foreign currency risk from monetary assets and liabilities as at balance sheet date:

(₹ in Lakhs)

Particulars / Foreign currency	2024	-25	2023	-24

Note: - Open purchase / sales orders are not considered for above purpose. Further foreign currency trade receivables are partially hedged by forward contracts, hence unhedged amount is considered above. Advances receivable / payable are not exposed to risk, hence not considered above.

FOR THE YEAR ENDED 31st MARCH, 2025

#### Foreign currency sensitivity

The following tables demonstrate the sensitivity to a reasonably possible change in USD, with all other variables held constant. The impact on the Group's profit before tax is due to changes in the fair value of monetary assets and liabilities.

(₹ in Lakhs)

Year ended as on	Change in USD rate	Effect on profit before tax
31st March, 2025	Increase by 500 basis points (500 bps)	1
	Decrease by 500 basis points (500 bps)	(1)
31st March, 2024	Increase by 500 basis points (500 bps)	420
	Decrease by 500 basis points (500 bps)	(420)

Previous year figures are in bracket

Note:- Hedged foreign currency trade receivables are not considered for the purpose of sensitivity because they are partially hedged by forward contracts.

#### Price risk

The Group is not exposed to any significant price risk.

#### Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Group is exposed to credit risk from its operating activities, primarily for trade receivables and deposits with banks and other financial assets.

#### Trade receivables

Customer credit risk is managed based on the Group's established policy, procedures and control relating to customer credit risk management. The Group evaluates the concentration of risk with respect to trade receivables as low. Out of the total trade receivables balance as at 31st March, 2025, ₹ 5,256 Lakhs (Previous Year: ₹ 4,132 Lakhs) is due from a single customer being the Holding company's largest customer. There are no other customers who represent more than 10% of the balance of trade receivables. Outstanding customer receivables are regularly monitored by the management.

The Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix and past historical experience. The provision matrix takes into account historical credit loss experience and adjusted for forward-looking information.

An impairment analysis is performed at each reporting date on an individual basis for major customers.

The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets. The Group does not hold collateral as security except as mentioned in note 16.4.

The ageing of trade receivable and credit loss allowance is as under:

#### Deposits with banks and other financial assets

Credit risk from balances with banks and financial institutions is managed by the Group's treasury department in accordance with the Group's policy.

#### Liquidity risk

Liquidity risk is the risk that the Group may not be able to meet its present and future cash and collateral obligations without incurring unacceptable losses. The Group's objective is to, at all times maintain optimum level of liquidity to meet its cash and collateral requirements. The Group closely monitors its liquidity position and deploys a robust cash management system. The management has arranged for diversified funding sources and adopted a policy of managing assets with liquidity in mind and monitoring future cash flows and liquidity on a regular basis.

#### **60. EMPLOYEE BENEFITS**

(a) The Group has recognised the following amounts towards defined contribution plans as an expense and included in the Statement of Profit and Loss.

(₹ in Lakhs)

Particulars	2024-25	2023-24
Provident Fund	1,217	1,099
Employee State Insurance Corporation	29	70
Government Pension Fund	-	6
Labour Welfare Fund	3	2
Total	1,249	1,177

(b) Defined benefit plan and long term employment benefits:

These plans typically expose the Group to actuarial risks such as: Investment, Interest rate, longevity and salary increase risk:

- I. Investment / Interest risk: The Group is exposed to Investment / Interest risk if the return on the invested fund falls below the discount rate used to arrive at present value of the benefit. Since the scheme is unfunded in case of compensated absence and in case of gratuity (in one subsidiary Company), the Company is not exposed to Investment / Interest risk.
- II. Longevity Risk: The Group is not exposed to risk of the employees living longer as the benefit under the scheme ceases on the employee separating from the employer for any reason.
- III. Risk of Salary Increase: The Group is exposed to higher liability if the future salaries rise more than assumption of salary escalation.
- (i) Defined benefit plan and long term employment benefits: Gratuity (Defined benefit plan):

The Holding Company and subsidiaries, where gratuity liability is funded, makes annual contribution to the employee group gratuity scheme of the Life Insurance Corporation of India's funded defined benefits plan for qualified employees. The scheme provided for lump sum payments to vested employees at retirement, death while in employment or on termination of employment of an amount equivalent to 15 days salary for each completed year of service or part thereof in excess of six months. Vesting occurs upon completion of five years of service in accordance with Payment of Gratuity Act, 1972.

The group has provided for gratuity based on the actuarial valuation done as per Project Unit Credit Method except for one subsidiary 'Navneet Furturetech Limited where actuarial valuation has not been done for gratuity due to short number of employees and hence provision is made based on arithmetical calculations. The following table sets out for the status of gratuity plan:

#### Sensitivity analysis:

Sensitivity analysis are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be co-related. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the Balance Sheet.

#### 62. OPERATING SEGMENT

The Group's operations relates to publication of knowledge based information in educational and general books form as well as electronic media and manufacturing of paper and other stationery items. It caters to the educational need of Indian as well as Global market. With effect from year ended 31st March, 2024, the management of the group has reassessed its business model and accordingly Edtech business which was previously shown as a separate segment has now been merged into publishing content segment. The change is consistent with the strategic growth agenda which is aimed to ensure seamless blend of traditional print and progressive digital platforms. As a result of this change the revised operating segments are as under:

- Publishing Content
- · Stationery Products
- · Others (windmill, other strategic investments, etc.) comprises of revenue from generation of power by windmill, trading items etc.

The accounting principles and policies used in the preparation of the Standalone Financial Statements, as set out in the note on material accounting policies, are also consistently applied to record assets, liabilities, revenue and expenditure, in individual segments.

#### 64. DISCLOSURES AS REQUIRED BY IND AS 103 FOR GOODWILL:

a) Movement of Goodwill:

Particulars	For the year ended 31 <sup>st</sup> March, 2025	For the year ended 31 <sup>st</sup> March, 2024
Balance at the beginning of the Year	2,394	2,394
Add: Goodwill on acquisition of a subsidiary	-	-
Less: Impairment of Goodwill (refer point (c & d) below)	-	-
Balance at end of the year	2,394	2,394

FOR THE YEAR ENDED 31st MARCH, 2025

- b) Goodwill was created in financial year 2016-17 and 2021-22 on acquisition of subsidiaries 'Indiannica Learning Private Limited' and 'Genext Students Private Limited' respectively.
- c) Impairment test for goodwill on acquisition of a subsidiary (Indiannica Learning Private Limited) generated in earlier years:

The Group tests goodwill for impairment annually. During the year ended 31st March, 2025 and 31st March, 2024, the management of the holding company has tested carrying amount of Goodwill for impairment and according to such impairment test, there is no provision for impairment in current and previous year.

Impairment testing was carried on by the management based on the future projections as approved by the management of subsidiary (fair value report obtained from registered valuer). Key assumptions used in projections are:

- · Earnings before interest and taxes (EBIT) margins,
- Growth rate,
- Discount rates etc.

**EBIT margins:** The margins have been estimated based on past experience after considering various factors like market share, new publications etc.

**Growth rate:** The growth rates used are in line with long-term average growth rates of the respective industry and are consistent with the internal / external sources of information. These assumptions based on past experience, market estimates and management judgements.

**Discount rates:** Discount rates reflects the current market assessment of the risks specific to a Cash Generating Unit (CGU) and estimated based on weighted average cost of capital for respective CGU / group CGU.

The net present value of the future earnings based on the projections is significantly higher than the carrying value of goodwill, hence sensitivity in projections data will not affect impairment test result materially.

Management of the holding company has also performed sensitivity analysis on the above key assumptions to determine value in use.

- d) Impairment test for goodwill on acquisition of a subsidiary (Genext Students Private Limited) generated in earlier years:
  - The goodwill is mainly on account of future benefits due to the technology platform, content, data base which is being used by the publication business for creating digital content / books with digital content and to ensure seamless blend of traditional print and progressive digital platforms. Considering the overall profitability of the publication business, no provision for impairment is considered necessary.
