Managing Director's Message

Commenting on the Company's performance, Khushboo Chandrakant Doshi, Managing Director, Rajoo Engineers Ltd said:

During the Fourth quarter we have registered a Revenue of Rs. 71.43 cr. EBITDA and PAT were Rs. 6.49 crore and Rs.4.64 crore. There were two high value orders which were ready for dispatch at the end of third quarter but due to some practical difficulties at customer's end, they got dispatched during this quarter. This resulted in increased raw material cost impacting the margins.

I am pleased to inform you that, we have received high value order of Rs. 31 Crores from one of the leading manufacturers of farm machinery & equipment based out of Europe. This is one of the highest value order ever in the history of the Company. This prestigious order is for our cutting edge blown film line machine which is used to manufacture silo bags as per need and requirement of the Customer. We are continuously planning to expand in new range of products. As the world increasingly shifts towards renewable energy, we see tremendous growth opportunity in Solar Cell manufacturing. This is where Rajoo enters and captures the opportunity in the new era of solar cell manufacturing, through our new product called LAMINA –E. This is India's first mono & multi-layer EVA/POE sheet line for producing encapsulant sheets for solar cells.

At Rajoo, with our business strategy, we are expanding our global footprint, focusing on market penetration, and making continued investment in R&D to promote advancements in our product line and also enhancing our aftermarket services. One of the ways we are doing this is by embracing digitization and investing in new technologies that offer remote support and troubleshooting which deliver real-time insights into equipment performance. This improves our customer experience leading to strong trust and relationship with us.

I would like to thank each member of the Rajoo family, as well as our Clients, Creditors, Banks, Financial Institutions, and all other Stakeholders. Their faith in us and support extended makes it easier for us to strive and excel."
