Years of Excellence & Innovation

Annual Report

2024-2025

40 *Years of excellence
in healthcare*

As Jenburkt celebrates 40 years of unwavering commitment to excellence, we stand at a defining moment—reflecting on our remarkable journey while envisioning the transformative path ahead.

Rooted in the timeless Indian values of ethics, humility, and service to others, our Founders' Noble Vision of conscious capitalism has guided us far beyond pioneering new products to touching countless lives with healing and hope.

Over these four decades, we have cultivated a profound legacy of trust, scientific rigor, and unyielding dedication to quality.

Our state-of-the-art facilities, groundbreaking research, and commitment to superior product standards have **positioned us as pioneers in pain management and driving leadership in primary care.** Through consistent excellence and unwavering reliability, we have earned the hard-won trust of healthcare professionals who depend on our solutions to deliver the best possible care to their patients.

Yet what truly defines us is something deeper. When we say patients come first, we mean every grandmother's smile, every child's laughter, and every family's hope matters deeply to us. This emotional bond drives us to create solutions that restore what matters most: the precious gift of health and well-being.

As we look toward the future, we carry forward not just our achievements, but the sacred responsibility of continuing to transform lives—***one patient, one family, one community at a time.***

40 years ago, India was a different nation.

Our industries were still taking shape, our economy was closed, and technology was a distant dream.

Today, we stand as one of the fastest-growing economies - a global force to be reckoned with. India has changed in how it thinks, how it creates, and how it aspires. The new India is ambitious, unafraid, and relentless. We chart our own course, driven by our own ingenuity. And as India has evolved, so have we.

We've witnessed economic liberalization breaking barriers and unleashing unprecedented growth. Technology shifted from bulky computers to AI-powered automation. We weathered economic turbulence, policy changes, and global pandemics - not just surviving, but thriving.

Our industry saw stringent quality standards emerge, personalized medicine advance, and holistic wellness demand grow. At every stage, Jenburkt stayed ahead of the curve. Yet amidst all this change, two things remained constant - our philosophy and values.

We use authorized licenses of these software tools purely for operational purposes and do not have any formal partnership, endorsement, or commercial tie-up with the respective software companies. All usage is as an independent contractor and not as an official affiliate or representative.

The next chapter of Jenburkt is defined by even greater ambition - a future where technology, innovation, and compassionate healthcare converge to redefine possibilities. We continue to push boundaries, ensuring that our growth is sustainable, ethical, and deeply impactful. This milestone is a tribute to the collective effort of our dedicated employees, partners, and stakeholders who have propelled Jenburkt forward.

As we honour our past, we also set our sights on an even brighter future - one where we continue to heal, uplift, and transform lives with integrity and purpose.

**Here's to 40 years of excellence
and to the limitless possibilities ahead.**

Transforming lives, delivering hope

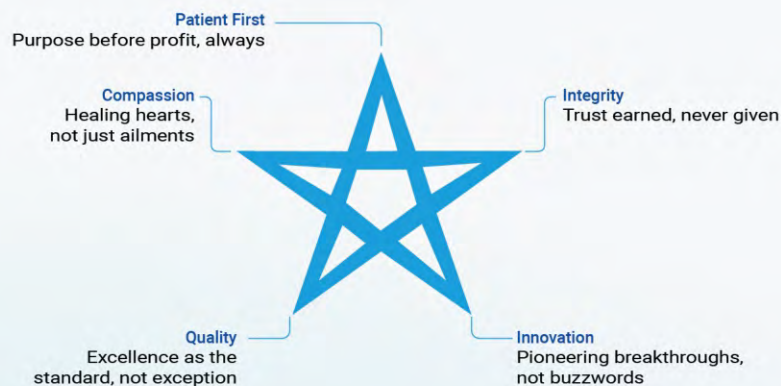

Many wonder what Jenburkt truly means. Behind our name lies something beautiful—a promise woven into every letter, a commitment that defines who we are and why we exist.

Drawing inspiration from the very essence of life itself—our genes—Jenburkt stands as a beacon of possibility. We're here to harness cutting-edge science not just to treat, but to truly transform lives. Every breakthrough we make, every solution we develop, and every life we touch reflects our unwavering commitment to human flourishing.

The Jenburkt Star

The five points of our Jenburkt star aren't just design - they're direction. Each point reflects a principle that shapes our choices, culture, and impact.

The enclosing frame represents our disciplined foundation - rigorous science, ethical practice, and the structural integrity that patients depend upon.

Mission

We wish to serve our patients and through them serve God, Humanity and Nation. Nothing gratifies us more than bringing a smile to our patients' face.

Vision

To instil trust in life sciences through delivering excellence by weaving together in-depth research, efficient use of resources and capital and unparalleled knowledge to build speciality, high-quality pharmaceutical formulations and healthcare products that can bring positive change to families around the world.

Pioneering tomorrow's healthcare today

At Jenburkt, innovation isn't just what we do - it's who we are. We have consistently pushed the boundaries of what's possible in life sciences, bringing breakthrough therapies from laboratory concepts to life - changing realities.

Our portfolio represents a powerful combination of world-first innovations and pioneering introductions to the Indian market. Whether we're the first globally to develop a fixed dose combination for better patient outcomes, or among the first to bring treatments to Indian patients, our commitment remains the same: delivering solutions that transform lives.

OUR PORTFOLIO

Driving Leadership in Primary Care

We are driving leadership in primary care by expanding access to innovative, plant-based therapies—building on our legacy as pioneers in pain management to meet India's growing demand for safe, effective relief.

The products referred above are prescription-only medicines and must not be used without consultation and prescription of a qualified medical professional or registered healthcare practitioner. OUR FLAGSHIP BRANDS

Nervijen®

Nervijen stands as the #1 brand in our portfolio, demonstrating our commitment to innovation and patient-centric solutions in its respective therapeutic category.

As the leader in our product portfolio, Nervijen embodies our purpose: to bring efficacious solutions to patients who need them the most.

Today, Nervijen ranks No. 6 in the Vitamin, Mineral and Nutrients Category in India (IQVIA, Feb 2025), a significant milestone in a highly competitive segment.

The products referred above are prescription-only medicines and must not be used without consultation and prescription of a qualified medical professional or registered healthcare practitioner. OUR FLAGSHIP BRANDS

Powergesic®

Launched in 1991, Powergesic emerged as a groundbreaking solution at a time when no muscle relaxant and analgesic combination was available in the Indian market.

Prescribed extensively by orthopedic specialists for its safety, efficacy, and consistent quality, Powergesic has earned the trust of the medical community and firmly cemented our position as pioneers in pain management.

Our innovation journey continued with the launch of Powergesic 2X Gel (2019), Powergesic Patch (2019) and Powergesic 4X Spray (2024).

The iconic "muscle man" mnemonic featured on its packaging has become a recognizable symbol of strength, reliability, and therapeutic excellence - a true hallmark of our legacy in pain relief.

Today, Powergesic is relied upon by over 18,000 prescribers, representing 15% of our portfolio and achieving a strong annual growth rate of 7%.

OUR FLAGSHIP BRANDS

Zix[®]

Recognizing the critical need for a safer NSAID with enhanced gastrointestinal safety, we introduced ZIX - a breakthrough solution in its therapeutic category

Trusted by orthopedics, general practitioners, ENT specialists and dentists across India, ZIX has swiftly become a preferred anti-inflammatory option nationwide.

Its strong clinical acceptance and growing demand now contribute an impressive 10% to our overall portfolio, reinforcing our commitment to addressing unmet medical needs with innovation and care.

OUR FLAGSHIP BRANDS

Favivent

Jenburkt was the second company in India to introduce oral antiviral Favipiravir. Launched at just ₹39 per tablet, Favivent was the most affordable Favipiravir in the market at the time, providing accessible treatment for patients with mild to moderate COVID-19 symptoms. This initiative received overwhelming positive coverage, both nationally and internationally, and reaffirmed our mission of putting people before profit when it mattered most.

“Our endeavor has always been to serve our patients – through them, we serve God, humanity and our nation. Given the current scenario of grave health concerns and economic challenges surrounding COVID-19 in India, if we as a pharmaceutical company cannot make a significant positive difference to the society, our company’s very existence is inconsequential. It is only Conscious Capitalism and Innovation which can sustain growth of any organisation in the long run.”

Our Four Pillars

INNOVATION

At Jenburkt, innovation isn't just a function—it's a mindset that drives everything we do. Our first-to-market formulations like Powergesic and Metmin-A were born from deep insights into doctors' needs and India's unique healthcare environment. Recognized by the Government of India (DSIR) since 2010, our in-house R&D Center reflects scientific excellence; we also collaborate with leading Centers of Excellence to translate innovation into real-world healthcare solutions.

ETHICS

For 40 years, honesty and accountability have guided every decision at Jenburkt. Our ethical compass shapes everything from pharma marketing to internal governance. Our transparent systems ensure full traceability, and we independently test all outsourced production. We're proud to be known as a responsible, ethical company in an industry where trust must be earned daily.

TECHNOLOGY

With technology in our DNA, we've evolved from early custom-built software to enterprise-grade platforms like SAP S/4HANA and advanced Laboratory Information Management Systems (LIMS). Today, tech drives everything we do—from e-detailing tabs with our medical representatives to field force automation and generative AI for creative output—keeping us agile, data-driven, and future-ready.

QUALITY

At Jenburkt, quality isn't just a standard—it's an expression of our "patient-first" philosophy. Trusted by leading prescribers and suppliers, we uphold uncompromising quality through rigorous SOPs, batch-level testing, and ethical sourcing—95% directly from manufacturers. Powered by systems like SAP and LIMS, our operations ensure precision, traceability, and full regulatory compliance—because every patient deserves nothing less.

परोपकाराय फलन्ति वृक्षाः परोपकाराय वहन्ति नद्यः।
परोपकाराय दुहन्ति गावः परोपकारार्थमिदं शरीरम्॥

- Subhāsita Ratna Bhāndāgāra

This timeless Sanskrit verse beautifully encapsulates the spirit of selfless service: "Trees bear fruits not for themselves but for others, rivers flow tirelessly to quench the thirst of all, and cows give milk to nourish countless lives. In the same way, the purpose of our existence is to serve, to contribute, and to uplift those around us."

Our Founders' held this philosophy close to their hearts.

Culture of Giving Back

Philanthropy has been deeply ingrained in the ethos of Jenburkt long before Corporate Social Responsibility became a regulatory requirement. From its inception, the founders of Jenburkt recognized the importance of giving back to society and initiated numerous charitable endeavors aimed at uplifting the communities in which they operated.

As we honour our past, we also set our sights on an even brighter future - one where we continue to heal, uplift, and transform lives with integrity and purpose.

Our Dividend Distribution

The substantial dividend payment reflects our commitment to delivering strong and consistent returns to our loyal shareholders.

An investment of Rs. 10 at the time of our public issue (1994–95) has yielded Rs. 149.55 only by way of dividend.

This dividend payout is in addition to the significant benefits offered through two buybacks (2017 and 2022), and the appreciation in company's share price which touched an all-time high of Rs. 1,375 on the BSE, during the year.

*All of us at Jenburkt renew our pledge to be the torch-bearers
of our Founders' vision—every single day.*

Whether it is nurturing communities with compassion, empowering society through equity, enriching nature with abundance, or conducting business with integrity and generosity—we remain steadfast in our commitment to the values they instilled. Our founders envisioned a business that would not only thrive, but one that would embody social responsibility in its truest form. We carry that vision forward—with pride, purpose, and unwavering resolve.

Their Legacy Lives On

This legacy lives on through our actions, leadership, and unwavering commitment to corporate responsibility. Our dedication to diversity and inclusivity is reflected in the composition of our board, which brings together a rich spectrum of backgrounds, qualifications, and industry expertise. This diversity goes beyond conventional measures to include strong gender representation, fostering innovative thinking and balanced, holistic decision-making.

3. Management Discussion & Analysis Report:

A. Overview of Indian pharmaceutical industry structure, development and important changes:

The Indian pharmaceutical industry stands at a pivotal point of strategic evolution today, moving beyond its traditional generics dominance to embrace innovation, complex therapies, and digital transformation. Amid global economic uncertainties, India has shown strong resilience, maintaining its role as a vital supplier of affordable medicines globally.

The domestic pharmaceutical market is projected to grow at a CAGR of 8-10%, aiming to reach USD 58 billion by 2025. Long-term national ambitions envision a potential USD 450 billion market by 2047, though this remains an aspirational goal contingent on sustained investment in innovation, infrastructure, and global integration.

India is home to a vast pharmaceutical ecosystem, comprising over 3,000 drug manufacturers and 10,000+ production units. This network has helped India become the largest global supplier of generic medicines, accounting for nearly 20% of global volume. India's cost competitiveness-estimated at 30-40% lower than Western manufacturers-is driven by scale, manufacturing expertise, and process efficiencies.

India hosts the highest number of USFDA-approved plants outside the U.S., reinforcing its reputation for quality and compliance. Government support through schemes like the Production-Linked Incentive (PLI) and the Revamped Pharmaceuticals Technology Upgradation Assistance Scheme (RPTUAS) is helping companies modernize operations and meet international standards.

In the past year, leading Indian pharma firms invested more than USD 2 billion in research and development, marking a clear pivot toward innovation. Key focus areas include oncology, neurology, rare diseases, and advanced pain management, aligned with India's shifting disease burden and aging population. The domestic biosimilars market is also growing rapidly, with a projected CAGR of 14%, driven by affordability and increasing demand for chronic disease treatments.

Digital transformation is accelerating across the pharma

value chain. Artificial Intelligence and Machine Learning are being applied to drug discovery, clinical trials, and pharmacovigilance. Platforms under the Ayushman Bharat Digital Mission (ABDM) are expanding access to care, especially in underserved regions. India's digital health market is growing at a CAGR of over 24%, supported by strong public and private investment.

The government continues to push for equitable access through Ayushman Bharat-PMJAY, now adopted by 35 states and union territories. As of April 2025, several states, have enhanced coverage limits, with top-up benefits increasing total coverage to ₹10 lakh per family. These efforts are crucial as India confronts rising cases of non-communicable diseases such as cardiovascular disorders, diabetes, obesity, arthritis, and chronic pain.

India's growing middle class and increasing health awareness are driving demand for branded generics, preventive wellness, and broader insurance penetration. Regulatory measures-like price caps by the NPPA on essential drugs and GST reductions on select oncology medications-are designed to improve affordability without stifling innovation. In August 2024, the government also banned 156 fixed-dose combination (FDC) drugs deemed irrational or unsafe, reinforcing a focus on evidence-based treatment.

India continues to benefit from the global "China+1" strategy, attracting contract manufacturing and research investments from companies seeking to de-risk supply chains. The country's credibility-backed by regulatory approvals from agencies like the USFDA and EMA-positions it as a dependable global partner for both low-cost generics and high-value complex formulations.

With a unique combination of cost efficiency, manufacturing scale, regulatory strength, and growing innovation capabilities, India is poised to expand its global pharmaceutical leadership. Sustained focus on R&D, digital healthcare, regulatory agility, and collaborative global partnerships will be essential in realizing this next phase of growth. India is not just keeping pace with the future of healthcare-it is helping define it.

India's pharmaceutical industry enters FY2025-26 with purpose, clarity, and global ambition. The next phase will be shaped by regulatory agility, digital convergence, biosimilar leadership, and an unwavering focus on evidence-based, ethical innovation.

As a Company with over 40 years of excellence, we remain committed to elevating global health through science, trust, and compassion.

B. Business performance, opportunities and outlook:

In the fiscal year 2024-2025, Jenburkt embarked on a transformative journey-a strategic organizational refresh that positioned the company at the forefront of healthcare innovation. Our approach was anchored in three fundamental pillars: Teamwork, Performance, and Agility.

The year marked a significant paradigm shift in our operational philosophy. We moved beyond traditional business models to create an adaptive, performance-driven ecosystem that prioritizes results, cross-functional collaboration, and rapid decision-making. This strategic realignment has already demonstrated promising outcomes, with notable improvements in project execution, resource allocation, and organizational responsiveness.

Our Pharmaceutical Division underwent a comprehensive digital transformation, revolutionizing our go-to-market strategy. We replaced conventional paper-based presentations with cutting-edge tablet-based e-detailing systems, enabling real-time market tracking and data-driven decision-making. The Company has successfully launched new products: viz. Powergesic 4X spray and Zixflam Forte, diversifying its therapeutic portfolio and addressing emerging market needs.

The introduction of a multi-channel doctor engagement platform, featuring interactive webinars, virtual Continuing Medical Education (CME) programs, and community health camps, expanded our reach and deepened our professional networks. We executed 200+ medical education programs, significantly expanding our prescriber base and strengthening key relationships. We also prioritized compliance and professional development through strategic interventions such as a cross-functional legal workshop with senior counsel. Our participation in major medical conferences, including the

69th Annual Conference of the Indian Orthopaedic Association, underscored our commitment to continuous learning and innovation.

As a part of our commitment to deepening engagement with healthcare professionals, we are proud to collaborate with leading Centers of Excellence to bring cutting-edge best practices to the forefront of patient care. National Institute of Mental Health & Neuroscience (NIMHANS), Bengaluru is spearheading interactive capacity-building efforts through its 'Neuropathy Lecture Series', delivered via telemedicine, to equip medical professionals - particularly primary care doctors - with vital knowledge and tools for early recognition and effective management of neuropathy. Supporting this important initiative, Jenburkt has issued an educational grant, empowering doctors across the country to access this vital program and elevate standards of care nationwide.

Another innovative international collaboration was our alliance with Iyengar Yoga, globally recognized as the gold standard in yoga instruction - that facilitated e-programs under the theme "From Illness to Wellness," demonstrating our commitment to holistic healthcare solutions. These unique education-based initiatives facilitate the sharing of best practices with our network of health-care professionals pan-India. Our collaborations with Centers of Excellence are key to creating a ripple effect of knowledge that extends far beyond traditional medical training developing well-trained sales teams who are ultimately serving the most important stakeholder: the patient.

The Wellness Division experienced significant market traction, with strategic expansions into key states including Gujarat, Maharashtra, and Karnataka—growing our footprint from 3 cities to 10 in general trade. Notable achievements include the launch of an innovative Ortho Pain Massage Oil for chronic pain and a lightweight 7-in-1 Multi-Action Balm for headache and body pain that are well-received. We also introduced affordable SKUs to expand our reach and make cutting-edge pain relief accessible to all.

Strengthening our collaboration with physiotherapists, we co-developed effective mobilization products tailored to their clinical needs. As the Official Pain Relief Partner, we supported over 80 events, including premier platforms like the IAP Women's Cell Conference, Physiomanthan, IAP National Conference, Adani Ahmedabad Marathon, Bengaluru Midnight Marathon, and the 45th National Masters Athletics Championships. Our innovative "Pain Relief on Wheels" transit branding initiative in Ahmedabad generated over 5 million organic

impressions, underscoring our creative and consumer-centric marketing approach. The division continues to leverage generative AI to develop engaging communication collateral for physiotherapists, consumers, and retailers. The Wellness Division extended their support to the Physiotherapy Center at NIMHANS, Bengaluru to launch a first-of-its-kind Continuing Physiotherapy Education (CPE) program through a structured series of clinical workshops and expert lectures aimed at advancing evidence-based physiotherapy practices.

We are currently in the process of implementing an Artwork Management software, which has digitized manual processes and significantly reduced approval timelines across our geographical operations.

As we look forward, Jenburkt remains committed to our core mission of delivering value to healthcare professionals, patients, and stakeholders while maintaining the highest standards of ethical business practices.

C. Risks, opportunities and threats

The Indian pharmaceutical industry is navigating a complex landscape characterized by both significant challenges and transformative opportunities. In the short term, regulatory compliance emerges as a critical focal point. The Central Drugs Standard Control Organisation (CDSCO) has intensified its oversight, implementing more rigorous approval processes and quality control measures. While these regulations pose immediate operational challenges, they simultaneously present an opportunity for companies to differentiate themselves through superior quality and compliance.

Price controls remain a significant short-term challenge. The government's imposition of price restrictions on essential medicines, particularly those in the National List of Essential Medicines (NLEM), constrains pricing flexibility and compresses profit margins. Companies must develop innovative strategies to maintain profitability while adhering to these regulatory constraints.

The industry's dependence on China for Active Pharmaceutical Ingredients (APIs) presents a critical vulnerability. Resource nationalism and potential export restrictions could disrupt production capabilities and escalate costs. This challenge creates an urgent opportunity for domestic API manufacturing and supply chain resilience.

Looking beyond the immediate horizon, the Indian pharmaceutical industry is poised for a transformative

journey. Digital health technologies and precision medicine are reshaping the fundamental approach to healthcare delivery. The shift towards personalized medicine challenges traditional mass production models, requiring substantial investments in new capabilities and innovative business approaches.

Technological innovation will be a primary driver of long-term success. Artificial Intelligence and Machine Learning are revolutionizing drug discovery, clinical trials, and patient engagement. The integration of advanced technologies presents an opportunity to move up the global value chain from generic manufacturing to novel drug development. Companies that successfully leverage AI, digital health platforms, and advanced research capabilities will likely emerge as industry leaders - we aim to optimize the use of this to drive innovation and efficiency.

Research and development will be critical to long-term competitiveness. The industry has already demonstrated commitment, with R&D expenditure crossing US\$2 billion in 2024. Future success will depend on continued investment in emerging therapeutic areas, including oncology, neurology, rare diseases, and advanced pain management solutions.

The path forward requires a delicate balance of navigating short-term challenges while investing in long-term strategic capabilities. Companies that can effectively manage regulatory compliance, embrace technological innovation, and maintain flexibility in global market dynamics will be best positioned to thrive. Success will be defined by the industry's ability to transform risks into strategic advantages, continuously innovate, and maintain its commitment to delivering high-quality, accessible healthcare solutions.

Stringent financial control ensures transparency, accuracy and various timely compliances. The Board is of the opinion that the Company's internal financial controls are adequate and effective.

6. Research & Development:

Our Research and Development efforts in 2024-2025 were marked by innovation, strategic focus, and a steadfast commitment to addressing critical healthcare needs. A key milestone during this period was the renewal of our R&D unit's recognition by the Ministry of Science & Technology, Department of Scientific and Industrial Research, Government of India, originally granted in January 2010, this continued certification stands as a testament to our consistent adherence to the highest standards of scientific excellence and operational rigor.

During the year, we achieved notable product development milestones, successfully launching two new products in the Pharmaceutical Division and two new products in the Wellness Division. These developments underscore our ability to respond to evolving healthcare needs and market demands. As pioneers in pain management, we remain focused on understanding patients' needs and building a pipeline of efficacious products. Our approach goes beyond mere product development; we are dedicated to driving leadership in primary care by continuously studying and addressing the complex healthcare challenges faced by patients.

7. Material development in Human Resources:

Our human resource approach is characterized by a culture that balances professional excellence with core Indian values of mutual respect, teamwork, and personal development. We continue to drive towards objective assessment and transparent performance management, implementing rigorous goal-setting processes and conducting regular performance reviews. This approach ensures that every team member has clear expectations, meaningful feedback, and opportunities for professional growth. As part of our talent development initiatives, we conduct a structured Leadership Development Program aimed at nurturing future leaders through targeted training, mentoring, and cross-functional exposure. Our cross-functional team QUEST continues to meet regularly and operate effectively; launched in 2007, its primary objective is to achieve and

maintain high quality by working unitedly, efficiently, and with strong support from all stakeholders to deliver the best products and services on time. A testament to our commitment to gender equality is the remarkable composition of our workforce, with 54% of our plant workforce being women-reflecting our dedication to creating opportunities and breaking traditional barriers.

8. International Business:

The past year has been a period of both challenges and resilience for our international business. As we expand our footprint beyond India, we continue to navigate complex regulatory landscapes, economic fluctuations, and operational hurdles while staying committed to sustainable growth. Regulatory approvals and product registrations remain a significant challenge in many of our key international markets. Lengthy approval processes and evolving compliance norms have resulted in delays, impacting the speed at which we can introduce new products. Despite these obstacles, our regulatory teams have been working diligently to streamline the process, ensuring that we meet the highest global standards while accelerating market entry.

The economic situation in Sri Lanka has had an impact on our export business in the region. Currency fluctuations, import restrictions, and lower consumer spending have led to a temporary slowdown in demand. However, we remain committed to this market and continue to engage with local partners to find solutions that ensure business continuity. Our strategic approach focuses on optimizing supply chain efficiencies, strengthening distributor relationships, and identifying opportunities for sustainable growth despite external uncertainties.

Our international expansion is driven by a long-term vision-one that prioritizes not just commercial success but also healthcare accessibility and patient well-being across regions. Looking ahead, we remain optimistic about our international business prospects. By leveraging our expertise in product development, regulatory compliance, and strategic partnerships, we are confident in our ability to overcome challenges and continue our journey towards becoming a globally recognized healthcare brand.

Corporate Governance

Corporate Governance Report

1. Brief Statement on Company's Philosophy on Corporate Governance:

At Jenburkt, corporate governance is not just a statutory requirement-it is the foundation of our business integrity and strategic sustainability. Our governance ethos is built on the pillars of transparency, accountability, and ethical conduct.

We believe that sound governance practices go hand-in-hand with long-term value creation. Transparency drives our communications and decision-making processes, ensuring stakeholders are kept informed with clarity and honesty. Ethical behavior is embedded in our culture-each decision is a reflection of our unwavering commitment to fairness, respect, and responsibility.

Accountability is enforced at every level of the organization through robust oversight mechanisms, encouraging a culture where leadership is answerable for its actions. By embedding governance into our operational DNA, we aim to foster resilience, stakeholder trust, and sustainable growth in an ever-evolving business landscape.

2. Board of Directors:

Board of Directors-Overview and Activities (FY 2024-25):

During the year under review, the Board underwent significant restructuring effective from 28th May 2024. Two new Independent and Non-Executive Directors were appointed, while three experienced Directors concluded their final terms on 29th May 2024. Following this transition, the Board is now comprised of six Directors: four Non-Executive and Independent Directors (including one woman Director) and two Executive Directors.

This composition aligns with the requirements of the Companies Act, 2013, and SEBI (LODR) Regulations, 2015. The Board embodies a well-balanced mix of strategic, governance, and financial expertise, coupled with gender and experiential diversity-factors that collectively enhance its effectiveness and strategic insight.

The Board meeting convenes quarterly, ensuring not more than 120 days elapse between any two consecutive meetings. Directors play an active role in shaping corporate strategy, providing oversight, and guiding the Company's long-term direction. Each Independent Director has provided a formal declaration confirming their independence, both in law and spirit, and affirming the absence of any relationships that could impair their judgment.

The Board's Committees have also been reconstituted in line with the Board's restructuring. Recommendations from all Committees are thoroughly deliberated and formally considered by the Board, reflecting a strong alignment with stakeholder interests and reinforcing robust corporate governance.

None of the Independent Directors have any pecuniary or other relationships with the Company or with fellow Board members. They have individually submitted declarations confirming their independence from the Company's management and affirming that their judgment remains unbiased in all business decisions.

Board members maintain a fiduciary relationship with the Company, consistently upholding the highest standards of ethics, transparency, and accountability. They remain actively involved in strategic supervision and in guiding the management.

During the financial year 2024-25, the Board met four times—on 28th May, 26th July, and 5th November 2024, and 28th January 2025. The required quorum was present at all meetings.

In accordance with applicable laws, notices for Board meetings and relevant documents are circulated to all Directors well in advance, enabling informed and efficient decision-making. Draft financial statements for each quarter and for the full financial year are initially reviewed by the Audit Committee. Upon thorough analysis, the Committee recommends these statements to the Board for consideration and approval.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Indian Accounting Standards (Ind AS) prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, and other accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our

conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit we report that:
 - a) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) in our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) the Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the books of account.
 - d) in our opinion, the aforesaid standalone financial statements comply with the Indian Accounting Standards prescribed under section 133 of the Act.
 - e) on the basis of the written representations received from the directors of the Company as on March 31, 2025 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2025 from being appointed as a director in terms of Section 164(2) of the Act.
 - f) with respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
 - g) with respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.
 - h) with respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements.
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company during the year ended 31st March 2025
 - iv. (a) The Management has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
(b) The Management has represented, that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
(c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
 - v. The final dividend proposed, declared and paid by the Company during the year is in accordance with Section 123 of the Act, as applicable.
 - vi. Based on our examination which included test checks, the company has used an accounting software for maintaining its books of account for the financial year ended 31st March, 2025 which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software systems. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with and the audit trail has been preserved by the company as per the statutory requirements for record retention.
2. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order.

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of JENBURKT PHARMACEUTICALS LIMITED ("the Company") as of March 31, 2025 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Annexure-B to the Independent Auditors' Report

(Referred to in paragraph 2 under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of JENBURKT PHARMACEUTICALS LIMITED of even date)

To the best of our information and according to the explanations provided to us by the Company and the books of accounts and the records examined by us in the normal course of our audit, we state that:

- i. In respect of the Company's property, plant and equipment, right to use assets and intangible assets:
 - (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment and relevant details of right to use assets.
(B) The Company has maintained proper records showing full particulars of intangible assets
 - (b) The Company has a program of verification to cover all the items of property, plant and equipment and right to use assets in a phased manner which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the program, certain property, plant and equipment, right to use assets and intangible assets were physically verified by the management during the year. According to the information and explanations given to us, no material discrepancies were noticed on such verification.
 - (c) According to the information and explanations given to us, the records examined by us and based on the examination of the conveyance deeds provided to us, we report that, the title deeds, comprising all the immovable properties of land and buildings other than self-constructed immovable property, which are freehold, are held in the name of the Company as at the balance sheet date. In respect of immovable properties of land and building that have been taken on lease and disclosed as fixed assets in the standalone financial statements, the lease agreements are in the name of the Company.
 - (d) The Company has not revalued any of its property, plant and equipment (including right to use assets) and intangible assets during the year.
 - (e) According to the information and explanations given to us, no proceedings have been initiated during the year or are pending against the Company as at March 31, 2025 for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (as amended in 2016) and rules made thereunder
- ii. In respect of inventory
 - (a) The physical verification of inventory excluding stocks with third parties, have been conducted at reasonable intervals by the management during the year. In respect of inventory lying with the third parties, these have substantially been confirmed by them. In our opinion, the frequency of verification is reasonable.
 - (b) The Company has been sanctioned working capital limits in excess of ₹. 5 crore, in aggregate, during the year, from banks or financial institutions on the basis of security of current assets. All Bank overdraft and bill discounting facilities of the company are secured against lien of Bank Fixed Deposits held by the company, no quarterly returns or statements are filed with the banks.
- iii. The Company has made investments in Companies and granted unsecured loans to other parties, during the year in respect of which:
 - (a) The Company has not provided any loans or advances in the nature of loans or stood guarantee, or provided security to any other entity during the year, and hence reporting under clause 3 (iii)(a) of the order is not applicable.
 - (b) In our opinion, the investments made and the terms and conditions of the grant of loan, during the year are, prima facie, not prejudicial to the Company's interest.
 - (c) The loans are granted by the Company only to its employees, as per the HR policy of the company, the schedule of repayment of principle has been stipulated, there is no interest charged on the employee loan. The repayment of the principle amount are regular as per stipulation.
 - (d) In respect of loans granted by the Company, there is no overdue amount remaining outstanding as at the balance sheet date.
 - (e) No loan granted by the Company which has fallen due during the year, has been renewed or extended or fresh loans granted to settle the overdue of existing loans given to the same parties
 - (f) The Company has not granted any loans or advances in the nature of loans either repayable on demand or without specifying any terms or period of repayment during the year
- iv. The Company has complied with the provision of Sections 186 in respect of grant of loans and making investments as applicable. The company has not provided any guarantees or security in respect of any loans to any party covered u/s 185 of the Act.
- v. The Company has not accepted any deposit or amounts which are deemed to be deposits. Therefore, reporting under Clause 3 (v) of the Order is not applicable to the Company.
- vi. Pursuant to the rules made by the Central Government of India, the Company is required to maintain cost records as specified under Section 148(1) of the Act in respect of its products. We have broadly reviewed the same, and are of the opinion that, prima facie, the prescribed accounts and records have been made and maintained. We have not, however, made a detailed examination of the records with a view to determine whether they are accurate or complete.
- vii. According to the information and explanations given to us, in respect of statutory dues:
 - a) The Company has generally been regular in depositing undisputed statutory dues, including Provident Fund, Employees' State Insurance, Income Tax, Sales Tax, Service Tax, Goods and Service Tax, Value Added Tax, Customs Duty, Excise Duty, Cess and other material statutory dues applicable to it with the appropriate authorities.
There are no undisputed amounts in respect of Income Tax, Provident Fund, Employees' State Insurance, Sales Tax, Service Tax, Value Added Tax, Goods and Service Tax, Customs Duty, Excise Duty, Cess and other material statutory dues in arrears as at March 31, 2025 for a period of more than six months from the date they became payable.
 - b) Details of dues of Income Tax which have not been deposited as at March 31, 2025 on account of dispute are given below:

Statute	Nature of Dues	Amount (₹ in lacs)	Period	Forum where dispute is pending
Income Tax	Tax Demand	4.64	F.Y. 2021-22	Commissioner of Income- Tax (Appeals)
- viii. There were no transactions relating to previously unrecorded income that have been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (43 of 1961).
- ix. With respect to loans and borrowings taken by the company
 - (a) According to the records of the Company examined by us and the information and explanation given to us, the company has not defaulted in repayment of loans or other borrowings or in the repayment of interest thereon to any lender
 - (b) The Company has not been declared willful defaulter by any bank or financial institution or government or any government authority

- (c) The Company has not taken any term loan during the year and there are no outstanding term loans at the beginning of the year and hence, reporting under clause 3(ix)(c) of the Order is not applicable
- (d) On examination of the financial statements of the Company, funds raised on short-term basis have, prima facie, not been used for long term purposes by the company.
- (e) The Company does not have any subsidiaries, associates or joint ventures hence reporting on clause 3(ix)(e) of the Order is not applicable
- (f) The Company does not have any subsidiaries, associates or joint ventures hence reporting on clause 3(ix)(f) of the Order is not applicable
- x. With respect to allotment of shares:
 - (a) The Company has not raised moneys by way of initial public offer or further public offer (including debt instruments) during the year.
 - (b) The Company has not made any preferential allotment or private placement of shares or convertible debentures (fully or partly or optionally) during the year.
- xi. To the best of our knowledge and according to the information and explanations given to us
 - (a) No fraud by the Company and no material fraud on the Company has been noticed or reported during the year.
 - (b) No report under sub-section (12) of section 143 of the Companies Act has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and upto the date of this report.
 - (c) There are no whistle blower complaints received by the Company during the year (and upto the date of this report).
- xii. The Company is not a Nidhi Company and hence reporting under clause 3 (xii) of the Order is not applicable to the Company.
- xiii. In our opinion and according to the information and explanations given to us, the Company is in compliance with Section 177 and 188 of the Companies Act, 2013 where applicable, for all transactions with the related parties and the details of related party transactions have been disclosed in the standalone financial statements as required by the applicable accounting standards.
- xiv. With respect to Internal Audit:
 - (a) In our opinion the Company has an adequate internal audit system commensurate with the size and the nature of its business.
 - (b) We have considered, the internal audit reports for the year under audit, issued to the Company during the year and till date, in determining the nature, timing and extent of our audit procedures.
- xv. In our opinion and according to the information and explanations given to us, during the year the Company has not entered into any non-cash transactions with its Directors or persons connected to its directors and hence provisions of section 192 of the Companies Act, 2013 are not applicable to the Company.
- xvi. Registration under section 45-IA of the Reserve Bank of India Act, 1934.
 - (a) Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Hence, reporting under clause 3(xvi)(a), (b) and (c) of the Order is not applicable.
 - (b) In our opinion, there is no core investment company within the Group (as defined in the Core Investment Companies (Reserve Bank) Directions, 2016) and accordingly reporting under clause 3(xvi)(d) of the Order is not applicable.
- xvii. The Company has not incurred any cash losses during the financial year covered by our audit and the immediately preceding financial year.
- xviii. There has been no resignation of the statutory auditors of the Company during the year.
- xix. On the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements and our knowledge of the Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.
- xx. CSR Spending
 - (a) There are no unspent amounts towards Corporate Social Responsibility (CSR) on other than ongoing projects requiring a transfer to a Fund specified in Schedule VII to the Companies Act in compliance with second proviso to sub-section (5) of Section 135 of the said Act. Accordingly, reporting under clause 3(xx)(a) of the Order is not applicable for the year.
 - (b) There are no ongoing CSR Projects during the year under audit, so the Company is not required to transfer any amount to a Special Account in compliance with the provision of sub-section (6) of section 135 of the said Act. Accordingly, reporting under clause 3(xx)(b) of the Order is not applicable for the year.

Notes to Accounts

Significant Accounting Policies

A. CORPORATE INFORMATION

Jenburtk Pharmaceuticals Limited ("the Company") is a listed entity incorporated in India and is listed on BSE Limited.

The registered office of the company is situated at Nirmala Apartments, 93, JayPrakash Road, Andheri (W), Mumbai – 400058.

The Company is in the business of manufacturing, producing, developing and marketing a wide range of branded Pharmaceuticals and health care products.

The Financial Statements are approved for issue by the Board of Directors of the Company on 20th May, 2025.

B. SIGNIFICANT ACCOUNTING POLICIES

B.1 Basis of Preparation and Presentation

The financial statements have been prepared on the historical cost basis except for following assets and liabilities which have been measured at fair value amount or amortised cost:

- (i) Certain financial assets and liabilities
- (ii) Defined benefit plans

The financial statements of the Company have been prepared to comply with the Indian Accounting standards ('Ind AS'), including the rules notified under the relevant provisions of the Companies Act, 2013 (the Act) and guidelines issued by Securities and Exchange Board of India (SEBI). The Ind AS are prescribed under section 133 of the Act, read with Rule 3 of the Companies (Indian Accounting Standards) Rule, 2015 and relevant amendment rules issued thereafter.

Company's financial statements are presented in Indian Rupees (₹), which is also its functional currency.

B.2 Summary of Significant Accounting Policies

(a) Operating Cycle

Based on the nature of products / activities of the Company and the normal time between acquisition of assets and their realisation in cash or cash equivalents, the Company has determined its operating cycle as twelve months for the purpose of classifications of its assets and liabilities as current and non-current.

(b) Property, plant and equipment

Property, plant and equipment are stated at cost of acquisition / construction, net of recoverable taxes, trade discount and rebates less accumulated depreciation and impairment losses, if any. Such cost includes purchase price, borrowing cost, any non-refundable taxes or levies and any cost directly attributable to bringing the assets to its working condition for its intended use and adjustments arising from exchange rate variations attributable to the assets.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the entity and the cost can be measured reliably.

Expenses incurred relating to project, net of income earned during the project development stage prior to its intended use, are considered as pre - operative expenses and disclosed under Capital Work-in-Progress.

Depreciation on Property, Plant and Equipment is provided using written down value method except in case of building and godown, which are depreciated using straight line method. Depreciation is provided based on useful life of the assets as prescribed in Schedule II to the Companies Act, 2013 except in respect of the following assets, where useful life is different than those prescribed in Schedule II;

Particular	Depreciation
Renovation Expenses on Leasehold Property in Mumbai	Over ten years on SLM

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Gains or losses arising from derecognition of a property, plant and equipment are measured as the difference between the net disposal proceeds

and the carrying amount of the asset and are recognised in the Statement of Profit and Loss when the asset is derecognised.

Fully depreciated property, plant and equipment are retained in the financial statements at estimated realisable value until they are no longer in use and disposed off.

c) Leases

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgment. The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate.

At the date of commencement of the lease, the Company recognizes a right-of-use (ROU) asset and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of 12 months or less (short-term leases) and low value leases. For these short-term and low-value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease

Certain lease arrangements include the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities are revised when it is reasonably certain that they will be exercised.

ROU assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset and the lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease

Leases are classified as finance leases whenever the terms of the lease, transfers substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

(d) Intangible assets

Intangible Assets that are acquired by the Company and that have finite useful lives are stated at cost of acquisition net of recoverable taxes, trade discount and rebates less accumulated amortisation / depletion and impairment loss, if any. Such cost includes purchase price, borrowing costs, and any cost directly attributable to bringing the asset to its working condition for the intended use and adjustments arising from exchange rate variations attributable to the intangible assets.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the entity and the cost can be measured reliably.

Intangible assets are de-recognised either on their disposal

or where no future economic benefits are expected from their use. Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the Statement of Profit and Loss when the asset is derecognised.

A summary of amortisation policies applied to the Company's intangible assets to the extent of depreciable amount is, as follows:

Particular	Depreciation
SAP Software	Over a period of 5 (five) years using WDV method.
Other Computer Software	Over a period of 3 (three) years using WDV method.
Trademarks	Over the period of 10 (ten) years using WDV method.

(e) Impairment of non-financial assets - property, plant and equipment and intangible assets

The Company assesses at each reporting date as to whether there is any indication that any property, plant and equipment and intangible assets or group of assets, called cash generating units (CGU) may be impaired. If any such indication exists the recoverable amount of an asset or CGU is estimated to determine the extent of impairment, if any. When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the CGU to which the asset belongs.

An impairment loss is recognised in the Statement of Profit and Loss to the extent, asset's carrying amount exceeds its recoverable amount. The recoverable amount is higher of an asset's fair value less cost of disposal and value in use. Value in use is based on the estimated future cash flows, discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and risk specific to the assets.

(f) Research and Development Expenditure

Revenue expenditure pertaining to research is charged to the Statement of Profit and Loss. Development costs of products are charged to the Statement of Profit and Loss. Research and Development expenditure incurred on capital assets are depreciated over its useful life as determined by the management by complying with the requirement of Schedule II of Companies Act, 2013.

(g) Inventories

Items of inventories consisting of raw-material, packing material, work in progress, finished goods and stock in trade are measured at lower of cost and net realisable value after providing for obsolescence, if any. All items of inventory are valued at weighted average cost.

Ageing of Intangible Assets under Development:

(₹ in lacs)

Intangible Asset under Development	Amount in CWIP as on 31 st March 2024				
Projects in progress	Less than 1 year	1-2 years	2-3 years	More than 3 years	Total
Retail Solution App	2.00	-	-	-	2.00
Total					2.00
Projects temporarily suspended					-

Cost of inventories comprises of cost of purchase, cost of conversion and other costs including manufacturing overheads (taken at standard cost derived from the actual cost as on 31st March 2024) net of recoverable taxes incurred in bringing them to their respective present location and condition.

The net realizable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and estimated costs necessary to make the sale

(h) Finance Cost

Borrowing costs include exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost. Borrowing costs that are directly attributable to the acquisition or construction of qualifying assets are capitalised as part of the cost of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use.

All other borrowing costs are charged to the Statement of Profit and Loss for the period for which they are incurred.

(i) Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

(j) Employee Benefits Expense

Short Term Employee Benefits

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognised as an expense during the period when the employees render the services.

**Post-Employment Benefits
Defined Contribution Plans**

A defined contribution plan is a post-employment benefit plan under which the Company pays specified contributions to a separate entity. The Company makes specified monthly contributions towards Provident Fund, Superannuation Fund and Pension Scheme. The Company's contribution is recognised as an expense in the Statement of Profit and Loss during the period in which the employee renders the related service.

**Defined Benefit Plans
Gratuity**

The Company pays gratuity to the employees whoever has completed five years of service with the Company at the time of resignation / superannuation. The gratuity is paid @15 days salary (Basic Salary) for every completed year of service as per the Payment of Gratuity Act 1972.

Liabilities with regard to Gratuity Plan are determined by actuarial valuation performed by an independent actuary at the

end of each Balance Sheet date using the projected unit credit method. The Company makes contributions of the ascertained liability to Jenburkt Pharmaceuticals Ltd Empl G G & LA Scheme ("the Trust"). Trustees administer contributions made and the contributions are invested in a scheme with Life Insurance Corporation of India as permitted by Indian Law.

The Company recognizes the net obligation of the defined benefit plan in its Balance Sheet as asset or liability. Gains and losses through re-measurements of the net defined benefit liability / (asset) are recognized in other comprehensive income and are not reclassified to profit and loss in subsequent periods.

The current service cost of the defined benefit plan, recognised in the profit or loss as employee benefits expense, reflects the increase in the defined benefit obligation resulting from employee service in the current year, benefit changes, curtailments and settlements. Past service costs are recognised in profit or loss in the period of a plan amendment. The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in profit or loss.

Leave Encashment

The Company also pays Leave Encashment to the Employees as follows:

Office Employees - 21 days leave salary (Basic Salary) for every completed year of service

Field Employees - 30 days leave salary (Basic Salary) for every completed year of service

The liability in respect of Leave Encashment Plan is determined by actuarial valuation performed by an independent actuary at the end of each Balance Sheet date using the projected unit credit method. The Company makes contributions as per the ascertained liability, and the contributions are invested in a scheme with Life Insurance Corporation of India.

The Company recognizes the net obligation of the defined benefit plan in its Balance Sheet as asset or liability. Gains and losses through re-measurements of the net defined benefit liability / (asset) are recognized in the profit and loss account.

(k) Tax Expenses

The tax expense for the period comprises current and deferred tax. Tax is recognised in Statement of Profit and Loss, except to the extent that it relates to items recognised in the other comprehensive income or in equity. In which case, the tax is also recognised in other comprehensive income or equity.

Current tax

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates and laws that are enacted or substantively enacted at the Balance sheet date.

Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax statement used in the computation of taxable profit.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The carrying amount of deferred tax liabilities and assets are reviewed at the end of each reporting period.

(l) Revenue Recognition

Revenue from sale of goods is recognised when the significant risks and rewards of ownership have been transferred to the buyer, recovery of the consideration is probable, the associated cost can be estimated reliably, there is continuing effective control or managerial involvement with the goods, and the amount of revenue can be measured reliably.

Revenue from sale of goods is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government.

Sale of goods are recorded net of trade discounts, rebates, and GST.

Interest income

Interest Income is recognised on a time proportion basis taking into account the amount outstanding and applicable interest rate.

Dividends

Revenue is recognised when the Company's right to receive the payment has been established.

Export Benefits

The Company recognises export benefits only when there is reasonable assurance that the conditions attached to them will be complied with, and the benefits will be received

(m) Foreign currencies transactions and translation

Transactions in foreign currencies are recorded at the exchange rate prevailing on the date of transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency closing rates of exchange at the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognised in Statement of Profit and Loss

(n) Financial Instruments

i) Financial Assets

A. Initial recognition and measurement

All financial assets and liabilities are initially recognized at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, which are not at fair value through profit or loss, are adjusted to the fair value on initial recognition. Purchase and sale of financial assets are recognised using trade date accounting.

B. Subsequent measurement

a) Financial assets carried at amortised cost (AC)

A financial asset is measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual

cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets are carried at amortized cost using the effective interest method. For trade and other receivables and loans and advances maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments. Also, receivables, loans and advances below transaction value of ₹ 30 lakhs are taken at carrying amount as the effect of amortization is immaterial.

b) Financial assets at fair value through other comprehensive income (FVTOCI)

A financial asset is measured at FVTOCI if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognised in the other comprehensive income (OCI). However, the Company recognises interest income, impairment losses & reversals and foreign exchange gain or loss in the profit or loss. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to profit or loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

c) Financial assets at fair value through profit or loss (FVTPL)

A financial asset which is not classified in any of the above categories are measured at FVTPL.

C. Equity Investments

All equity investments are measured at fair value, with value changes recognised in 'Other Comprehensive Income'.

All fair value changes on the instrument, including foreign exchange gain or loss and excluding dividends, are recognised in the OCI. On sale of investment the entire gain or loss that are recognised in OCI are not reclassified to profit and loss account but directly transferred to retained earnings from OCI in the Statement of Other Equity.

Impairment of financial assets

In accordance with Ind AS 109, the Company uses 'Expected Credit Loss' (ECL) model, for evaluating impairment of financial assets other than those measured at fair value through profit and loss (FVTPL).

Expected credit losses are measured through a loss allowance at an amount equal to:

The 12-months expected credit losses (expected credit losses that result from those default events on the financial instrument that are possible within 12-months after the reporting date); or

Full lifetime expected credit losses (expected credit losses that result from all possible default events over the life of the financial instrument)

For trade receivables Company applies 'simplified approach' which requires expected lifetime losses to be recognised from initial recognition of the receivables. The Company uses historical default rates to determine impairment loss on the portfolio of trade receivables. At every reporting date, these historical default rates are reviewed and changes in the forward-looking estimates are analysed.

For other assets, the Company uses 12-months ECL to provide for impairment loss where there is no significant increase in credit risk. If there is significant increase in credit risk full lifetime ECL is used.

ii) Financial liabilities

A. Initial recognition and measurement

All financial liabilities are recognized at fair value and in case of loans, net of directly attributable cost. Fees of recurring nature are directly recognised in the Statement of Profit and Loss as finance cost.

B. Subsequent measurement

Financial liabilities are carried at amortized cost using the effective interest method. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

Derecognition of financial instruments

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. A financial liability (or a part of a financial liability) is derecognized from the Company's Balance Sheet when the obligation specified in the contract is discharged or cancelled or expires.

(o) Share Capital

Equity instruments are contracts that evidence a residual interest in the net assets of a company after deducting all of its liabilities. Ordinary shares are classified as equity. Equity instruments are recorded at the proceeds received. Buybacks are recognised as a deduction from equity, net of any tax effect.

(p) Dividend Distribution

Final dividends on shares are recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the Board of Directors.

Companies are required to pay/distribute dividend after deducting applicable withholding income taxes. The remittance of dividends outside India is governed by Indian law on foreign exchange and is also subject to withholding tax at applicable rates.

The amount of per share dividend recognized as distribution to equity shareholders is in accordance with Companies Act 2013.

(q) BuyBack of Shares

The Company bought back 176078 equity shares from the open market route through the stock exchange mechanism, during the year 2022-23. As a result of this buyback, the paid-up equity shares of 4589378 equity shares of ₹ 10/- each was reduced to 4413300 equity shares of ₹ 10/- each. All the 176078 equity shares were extinguished on 24th March 2023.

(r) Segment Reporting

The company prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the financial statements of the company as a whole.

The company operates only in single type of product i.e. pharmaceutical formulations and therefore there is a single primary segment as required by IND AS 108. The secondary segmental reporting in the case of the company is on the basis of geographical location of customers as under:

(₹ in lacs)

Sales	2024-25	2023-24
Local	13,231.74	12,161.05
Exports	1,904.79	2,002.29

(s) Contingent Liabilities

A provision is recognized when the Company has a present obligation as a result of a past event; it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to its present value and are determined based on best estimate required to settle the obligation at the Balance Sheet date. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made. Contingent Liabilities are not recognized but are disclosed in notes.

1. NPPA had served a show cause notice to the Company alleging that a Company's product was violating a NPPA's standing order. However, after a Personal Hearing and detailed submission, NPPA passed a written order stating that the Company's product did not violate the standing order. Subsequently, NPPA reviewed its own order, without having any power to review, issued show cause notices and demand notice to the Company. The Company subsequently filed a writ petition against the demand of NPPA, at the Hon'ble High Court of Bombay. The matter was settled in favour of the company. The NPPA after over a year filed a Special Leave Petition (SLP) (demanding ₹ 16.45 crore) at the Hon'ble Supreme Court. DPCO, 1995, explicitly debars NPPA to review its own order, the very reason cited by Hon'ble High Court of Bombay, while quashing the show cause notices and demand notice in their judgment dated 8th August, 2013 and 26th September, 2013. The Company has been legally advised, that based on the facts and merits of the case, the demand raised by NPPA is not likely to crystallize.

The matter is pending at Supreme Court after being admitted for further hearing.

2. The Drug Inspector, Tirupati, took a company product from a local chemist and sent for test at a government laboratory in Vijayawada which declared the samples as Not of standard quality. Further, the said samples were sent to Central Drug Laboratory at Kolkata. Both these laboratories did not test the product in accordance to the Company's method of analysis, as mandated for the Proprietary medicine where no previous reference is available for testing. They conducted testing by different/random method of Analysis which was inappropriate and

hence the product failed at such analysis. Whereas same product of same batch tested thereafter at Company's laboratory at Sihor and recognised Laboratory in Mumbai which passed the analysis, as they were based on the Company's method of analysis for proprietary medicine. The Drug Inspector then filed a case at I-Additional District Sessions Court, Chittoor. The Company swiftly approached the Hon. High Court, of Andhra Pradesh, Amravati and succeeded in obtaining stay on 5th May, 2022 on all further proceedings initiated by lower court i.e. at I-Additional District Sessions Court, Chittoor. In continuation of stay granted by Hon. High Court of Andhra Pradesh, matter is pending at lower court for hearing. The financial liability of this matter cannot be ascertained at the current stage.

3. ESIC had on 1st March, 2018 issued show cause notice to the company towards contribution of ₹ 0.60 Lacs for a period from October 2012 to March 2013. Company represented to the ESIC that the amount assessed on various needs under the said notice are not payable. Considering the same, revised show cause notice was issued on 8th May 2018 towards contribution of ₹ 0.30 Lacs for the said period. To avoid coercive action, the company deposited a said amount of ₹ 0.30 Lacs under protest and approached the Hon. E.I. Court to challenge legality and validity of the said notice on various grounds. The Hon. E.I. Court declared that a claim is time barred and passed the judgment on 20th Sept. 2023 allowing our application and quashed and set aside the said notice dated 8th May 2018, amounting to ₹ 0.30 Lacs for the above-mentioned period. Being aggrieved by the said judgment and the order dated 20th Sept. 2023 of the Hon. E.I. Court, EISC have filed an appeal in the Hon. High Court and prayed to stay the implementation of the said order / judgment passed on 20th Sept. 2023 by the Hon. E.I. court. The matter is likely to be listed before Hon. High Court.
4. The Income Tax Department has raised a demand for ₹ 4.64 Lacs for the A.Y. 2022-23 vide order u/s. 143(3) of the Income Tax Act, 1961. The company has filed an appeal against the said order with the Commissioner of Income Tax – Appeals. As per the opinion of the tax consultant, the said appeal is most likely to be decided in favour of the company.

(t) Micro Small and Medium Enterprises (MSME):

Based on the information and the copy of MSME registration

certificate submitted by the vendors, the Company, has identified Micro, Small and Medium Enterprises. The Company has provided for interest as per section 16 of the MSMED Act on payments which were overdue to Micro & Small Enterprises, beyond the timelines as mandated in section 15 of the MSMED Act.

As required under Sec 22 of MSMED Act, 2006 under the Chapter on Delayed Payments to Micro, Small and Medium Enterprises and as per Ind AS Schedule III below are the details required: Please refer to "Table for MSME" appearing below.

(u) Cash and Cash Equivalents:

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

(v) Corporate Social Responsibility

As per Section 135 of the Companies Act, 2013, a company, meeting the applicability threshold, needs to spend at least 2% of its average net profit for the immediately preceding three financial years on corporate social responsibility (CSR) activities. The areas for CSR activities are eradication of hunger and malnutrition, promoting education, art and culture, healthcare, destitute care and rehabilitation, environment sustainability, disaster relief, COVID-19 relief and rural development projects. A CSR committee has been formed by the company as per the Act. The funds were spent during the year on these activities which are specified in Schedule VII of the Companies Act, 2013: Please refer to "Table for CSR" appearing in next page.

C. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

The preparation of the Company's financial statements requires management to make judgement, estimates and assumptions that affect the reported amount of revenue, expenses, assets and liabilities and the accompanying disclosures. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods

(i) Depreciation / amortisation and useful lives of property plant and equipment / Right to Use / intangible assets

Property, plant and equipment / intangible assets are depreciated / amortised over their estimated useful lives, after

taking into account estimated residual value. Management reviews the estimated useful lives and residual values of the assets annually in order to determine the amount of depreciation / amortisation to be recorded during any reporting period. The useful lives and residual values are based on the Company's historical experience with similar assets and take into account anticipated technological changes. The depreciation / amortisation for future periods is revised if there are significant changes from previous estimates.

(ii) Recoverability of trade receivable

Judgements are required in assessing the recoverability of overdue trade receivables and determining whether a provision against those receivables is required. Factors considered include the credit rating of the counterparty, the amount and timing of anticipated future payments and any possible actions that can be taken to mitigate the risk of non-payment.

(iii) Provisions

Provisions and liabilities are recognized in the period when it becomes probable that there will be a future outflow of funds resulting from past operations or events and the amount of cash outflow can be reliably estimated. The timing of recognition and quantification of the liability requires the application of judgement to existing facts and circumstances, which can be subject to change. The carrying amounts of provisions and liabilities are reviewed regularly and revised to take account of changing facts and circumstances.

(iv) Impairment of non-financial assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or Cash Generating Units (CGU's) fair value less costs of disposal and its value in use. It is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account, if no such transactions can be identified, an appropriate valuation model is used.

(v) Impairment of financial assets

The impairment provisions for financial assets are based on assumptions about risk of default and expected cash loss rates. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

Delta Effect of +1% Change in Rate of Employee Turnover	-1.68	0.48
Delta Effect of -1% Change in Rate of Employee Turnover	1.81	-0.60

The sensitivity analysis have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

The sensitivity analysis presented above may not be representative of the actual change in the Defined Benefit Obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

Furthermore, in presenting the above sensitivity analysis, the present value of the Defined Benefit Obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same method as applied in calculating the Defined Benefit Obligation as recognised in the balance sheet.

There was no change in the methods and assumptions used in preparing the sensitivity analysis from prior years.

Notes

- Gratuity is payable as per entity's scheme as detailed in the report.
- Actuarial gains/losses are recognized in the period of occurrence under Other Comprehensive Income (OCI). All above reported figures of OCI are gross of taxation.
- Salary escalation & attrition rate are considered as advised by the entity; they appear to be in line with the industry practice considering promotion and demand & supply of the employees.
- Maturity Analysis of Benefit Payments is undiscounted cashflows considering future salary, attrition & death in respective year for members as mentioned above.
- Average Expected Future Service represents Estimated Term of Post - Employment Benefit Obligation.
- Weighted Average Duration of the Defined Benefit Obligation is the weighted average of cash flow timing, where weights are derived from the present value of each cash flow to the total present value.
- Any benefit payment and contribution to plan assets is considered to occur end of the year to depict liability and fund movement in the disclosures.
- Value of asset provided by the entity is not audited by us and the same is considered as unaudited fair value of plan asset as on the reporting date.
- In absence of specific communication as regards contribution by the entity, Expected Contribution in the Next Year is considered as the sum of net liability/assets at the end of the current year and current service cost for next year, subject to maximum allowable contribution to the Plan Assets over the next year as per the Income Tax Rules.

Qualitative Disclosures

Para 139 (a) Characteristics of defined benefit plan

The entity has a defined benefit gratuity plan in India (funded). The entity's defined benefit gratuity plan is a final salary plan for employees, which requires contributions to be made to a separately administered fund. The fund is managed by a trust which is governed by the Board of Trustees. The Board of Trustees are responsible for the administration of the plan assets and for the definition of the investment strategy.

Para 139 (b) Risks associated with defined benefit plan

Gratuity is a defined benefit plan and entity is exposed to the Following Risks:

Interest rate risk: A fall in the discount rate which is linked to the G.Sec. Rate will increase the present value of the liability requiring higher provision. A fall in the discount rate generally increases the mark to market value of the assets depending on the duration of asset.

Salary Risk: The present value of the defined benefit plan liability is calculated by reference to the future salaries of members. As such, an increase in the salary of the members more than assumed level will increase the plan's liability.

Investment Risk: The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds. If the return on plan asset is below this rate, it will create a plan deficit. Currently, for the plan in India, it has a relatively balanced mix of investments in government securities, and other debt instruments.

Asset Liability Matching Risk: The plan faces the ALM risk as to the matching cash flow. Since the plan is invested in lines of Rule 101 of Income Tax Rules, 1962, this generally reduces ALM risk.

Mortality risk: Since the benefits under the plan is not payable for life time and payable till retirement age only, plan does not have any longevity risk.

Concentration Risk: Plan is having a concentration risk as all the assets are invested with the insurance company and a default will wipe out all the assets. Although probability of this is very low as insurance companies have to follow stringent regulatory guidelines which mitigate risk.

Para 139 (c) Characteristics of defined benefit plans

During the year, there were no plan amendments, curtailments and settlements.

Para 147 (a)

A separate trust fund is created to manage the Gratuity plan and the contributions towards the trust fund is done as guided by rule 103 of Income Tax Rules, 1962.

51. FINANCIAL RISK MANAGEMENT:

The Company's activities expose it to a variety of financial risks, including market risk, credit risk and liquidity risk. The Company's risk management assessment and policies and processes are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls, and to monitor such risks and compliance with the same. Risk assessment and management policies and processes are reviewed regularly to reflect changes in market conditions and the Company's activities.

Credit risk:

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers, loans and investments. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of counterparty to which the Company grants credit terms in the normal course of business.

Investments:

The Company limits its exposure to credit risk by generally investing in liquid securities such as bank fixed deposits, Mutual Funds, etc. The Company does not expect any losses from such investments and does not have any significant concentration of exposures to specific industry sectors or specific country risks.

Trade receivables:

The Company has used expected credit loss (ECL) model for assessing the impairment loss. For the purpose, the Company uses a provision matrix to compute the expected credit loss amount. The provision matrix takes into account external and internal risk factors and historical data of credit losses from various customers.

Liquidity risk:

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company manages its liquidity risk by ensuring, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risk to the Company's reputation. The Company has unutilised working capital loans from Bank, apart from that the Company maintains sufficient cash and other Bank Balances, hence it does not face any significant liquidity risk. Most of the surplus funds are kept in bank fixed deposits on long-term basis and the company's borrowings are in foreign currency under bill discounting at very low interest rate.

Market risk

Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from adverse changes in market rates and prices (such as interest rates, foreign currency exchange rates and commodity prices) or in the price of market risk-sensitive instruments as a result of such adverse changes in market rates and prices. Market risk is attributable to all market risk-sensitive financial instruments, all foreign currency receivables and payables and all short term and long-term debt. The Company is exposed to market risk primarily related to foreign exchange rate risk, interest rate risk and the market value of its investments. Thus, the Company's exposure to market risk is a function of investing and borrowing activities and revenue generating and operating activities in foreign currencies.

Foreign exchange risk

The Company's foreign exchange risk arises from its foreign operations, foreign currency revenues and expenses, (primarily in US Dollars, Euros,). As a result, if the value of the Indian rupee appreciates relative to these foreign currencies, the Company's revenues and expenses measured in Indian rupees may decrease or increase and vice-versa. The exchange rates between the Indian rupee and these foreign currencies have changed substantially in recent periods and may continue to fluctuate substantially in the future. Consequently, the Company uses non-derivative financial instruments such as foreign currency financial liabilities, to mitigate the risk of changes in foreign currency exchange rates in respect of its Debtors and other recognized assets and liabilities.

a) Significant foreign currency risk exposure relating to trade receivables, cash and cash equivalents, borrowings and payables (₹ in lacs)

Particulars	US \$ (converted in ₹)	Euro (converted in ₹)	Total as at 31 st March 2025 (in ₹)	US \$ (converted in ₹)	Euro (converted in ₹)	Total as at 31 st March 2024 (in ₹)

b) Sensitivity

For the years ended 31st March, 2025 & 31st March, 2024 every 5% strengthening in the exchange rate between the Indian rupee and the respective currencies for the above-mentioned financial assets/liabilities would increase the Company's loss and decrease the Company's equity by approximately ₹ 48.69 Lacs and ₹ 51.54 Lacs respectively. A 5% weakening of the Indian rupee and the respective currencies would lead to an equal but opposite effect.

In management's opinion, the sensitivity analysis is unrepresentative of the inherent foreign exchange risk because the exposure at the end of the reporting period does not reflect the exposure during the year.

Interest rate risk

The company rarely utilizes overdraft / cash credit facilities which are at floating rate of interest, hence it is not exposed to high-interest rate risk.

Commodity rate risk

Exposure to market risk with respect to commodity prices primarily arises from the Company's purchases and sales of active pharmaceutical ingredients, including the raw material components for such active pharmaceutical ingredients. These are commodity products, whose prices may fluctuate over short periods of time. Commodity price risk exposure is evaluated and managed through operating procedures.

Few of the products of the company come under National List of Essential Medicines (NLEM). The company follows the procedure laid down by the implementing authority i.e. National Pharmaceutical Pricing Authority (NPPA) with regards to NLEM products.

Going Concern:

The annual financial statements have been prepared on the basis of accounting policies applicable to a going concern. This basis presumes that funds will be available to finance future operations and that the realization of assets and settlement of liabilities, contingent obligations and commitments will occur in the ordinary course of business.
