Operational Updates

Loan Book

- AUM stood at ₹1,448 crore, up 21% YoY and down 1% sequentially, while the loan book reached ₹1,395 crore, up 21% YoY and 1% QoQ.
- AUM growth in recent quarters has been led by the Wholesale vertical, as SME disbursements were slower than expected on account of a tough operating environment.
- Cumulative disbursements in Q4 rose 43% YoY and 20% QoQ, driven by higher Wholesale disbursements, which in turn were supported by stronger Wholesale collections in recent quarters.
- Apart from on-book AUM, in the Wholesale vertical, we are actively pursuing joint-lending structures with select industry partners to sustain growth momentum. We closed a few such deals during the quarter and expect more activity through the current year. These initiatives should strengthen the Company's fee-based income in the coming year and beyond.

- SME Retail disbursements, which were encouraging in Q2, slowed in H2. We remain cautious here, as concerns around borrower profile, competitive intensity from the industry, and the broader operating environment challenges persist.
- The broader SME lending space continues to show signs of over-leveraged borrowers and stagnant income growth.
- We hold a cautiously optimistic view on SME Retail, while the Wholesale segment remains robust and is expected to keep growing.

Provisioning & Write-offs

- We recorded higher impairments in H2, partly due to lower NPA resolutions during the period. With over 2/3rd of our book being SARFAESI compliant, we expect faster resolutions in the coming quarters.
- Based on recent RBI directives, standard provisioning on project financing has been revised from Q3 onwards to an average of 0.98%, from 0.80% earlier.
- Consequently, gross NPA stood at 1.10% in Q4FY26 versus 0.46% in Q4FY25 and 1.00% in Q3FY26. Net NPA stood at 0.81% in Q4FY26 versus 0.34% in Q4FY25 and 0.75% in Q3FY26.

- The Board has approved a new ECL policy, adopted in this board meeting, aligned with the Company's current business composition.
- Going forward, we expect better recovery performance. We are also not seeing any major delinquencies in the SME Retail book disbursed over the past 12 months.

Net Interest Income & Profitability

- Net Interest Income stood at ₹45.4 crore in Q4FY26, up 21% YoY and 10% QoQ, driven by higher average AUM during the quarter.
- PAT stood at ₹19.4 crore in Q4FY26, up 2% YoY and a decline of 7% QoQ.

Lending Partners

- We onboarded a major PSU bank, Bank of Baroda, as a new lender in Q4. We also received repeat sanctions from existing lenders during the period, reflecting their confidence in CSL's asset quality and operational framework.
- Another milestone this quarter was the conclusion of the term sheet for our ₹30 crore NCD issue, which further diversifies our funding pool and improves access to debt capital markets.

- The Company's lender base now stands at 36, spanning leading public and private sector banks, SFBs, and NBFCs, ensuring a well-diversified funding profile.
- The liquidity position remains healthy, supported by cash equivalents and undrawn credit facilities

Branch Footprint

- We have added several spoke branches in recent quarters with on-ground teams, some of which will eventually convert into full-fledged branches, enabling efficient expansion through a hub-and-spoke model.
- At the same time, we are reshuffling and relocating branches where needed to maximise operational efficiency. Net new branch addition has been limited to that extent

Outlook

- The Wholesale segment remains robust and is expected to be a key growth driver in FY27. SME Retail, which recently fell short of growth expectations in FY26, is expected to return to normalcy in the coming year.
