Escorts Kubota Limited Tractor Volume grew by 24.4% in April 2026

Faridabad, May 1st, 2026: Escorts Kubota Limited Agri Machinery Business in April 2026 sold 10,857 tractors registering a growth of 24.4% as against 8,729 tractors sold in April 2025.

Domestic tractor sales in April 2026 were at 10,398 tractors registering a growth of 27.6% as against 8,148 tractors in April 2025. The domestic tractor industry sustained healthy growth in April 2026, supported by favourable farm sentiment, adequate reservoir levels, improved rural liquidity following the GST cut, and steady underlying demand. However, given current geo-political situation and its impact on supply chain and increasing input costs may moderate farmer affordability and sentiment in the near term. Evolving weather conditions, particularly emerging El Niño signals, will remain a key monitorable for future demand trends.

Export tractor sales in April 2026 were at 459 tractors as against 581 tractors sold in April 2025.

Sales volume are as follows:

Escorts Kubota Limited Construction Equipment sold 396 machines in April 2026

Faridabad, May 1st, 2026: Escorts Kubota Limited Construction Equipment Business Division in April 2026 sold 396 machines as against 400 machines sold in April 2025.

In April 2026, the construction equipment industry witnessed largely flat volumes. While ongoing infrastructure execution and an established project pipeline continued to provide support, incremental growth remained muted across segments. Equipment utilisation stayed stable, aided by government capital expenditure. However, emerging geopolitical uncertainties may pose potential supply-chain disruptions, pressure on Government capex program and increase input cost pressures that can have temporary adverse impact on the demand. We will continue to monitor these factors closely till clarity emerges on external risks and demand signals regain consistency.

Sales figure are as follows:

Particulars	April		
	FY27	FY26	% Change
Total	396	400	-1.0%
