MESSAGE FROM THE CHAIRMAN

Dear Shareholders,

As GNFC marks its Golden Jubilee, we celebrate far more than fifty years of industrial excellence. We commemorate the remarkable journey of an institution that has consistently contributed to India's agricultural and industrial progress through resilience, innovation, and an unwavering commitment to nation-building. From its beginnings in 1976 as a fertilizer enterprise to its evolution into a diversified organisation spanning fertilizers, chemicals, and information technology, GNFC's growth reflects its enduring focus on operational excellence, responsible governance, and long-term value creation.

FY 2025-26 has unfolded against an evolving global landscape shaped by geopolitical uncertainty, shifting trade dynamics, and economic headwinds. Yet India's resilience, anchored in its sustained focus on growth, infrastructure, and reform, continues to inspire confidence in the nation's future. It is against this backdrop that I am pleased to share that GNFC has once again demonstrated resilience, agility, and operational excellence during FY 2025-26, strengthening its position while staying firmly committed to sustainable and inclusive growth.

As India advances towards the vision of Atmanirbhar Bharat and Viksit Bharat 2047, GNFC remains committed to strengthening domestic capabilities, embracing technological advancement, and creating long-term value through sound governance, innovation, operational excellence, and sustainability.

Our journey has always been closely aligned with the nation's aspirations, and guided by the spirit of "Atmanirbhar Bharat Ki Ore", we remain confident in our ability to contribute meaningfully to this next phase of the country's growth.

“ GNFC-Atmanirbhar Bharat Ki Ore ”

None of this would have been possible without the dedication of our employees, the trust of our shareholders, customers and business partners, and the continued support of the Government of Gujarat. Every milestone achieved over the past fifty years reflects their collective contribution.

As custodians of this remarkable institution, our responsibility extends beyond preserving its legacy—we must continue to strengthen it for future generations. Guided by our enduring values and unwavering commitment to excellence, I am confident that GNFC will continue to play a significant role in Gujarat's development, India's progress, and our shared vision of a stronger, more self-reliant, and sustainable nation.

Warm Regards
M. K. Das, IAS

MESSAGE FROM THE MANAGING DIRECTOR

Dear Shareholders,

As GNFC celebrates its Golden Jubilee, it is my privilege to present the Annual Report of Gujarat Narmada Valley Fertilizers & Chemicals Limited for the financial year 2025–26. This milestone reflects fifty years of sustained growth, operational excellence, and an enduring commitment to serving India's agricultural and industrial sectors. While we take pride in this achievement, our focus remains firmly on strengthening the foundations for the future.

FY 2025-26 tested the Company's operational discipline, with volatility in energy and commodity markets, supply chain disruptions, and a fast-changing trade environment shaping the year's course. GNFC's response was to stay focused on what is within our control – disciplined execution, operational excellence, and customer commitment – enabling the Company to deliver another year of resilient performance while reinforcing its position across its businesses.

Operational excellence continued to be at the core of our performance. Our manufacturing facilities maintained a strong focus on safety, reliability, efficiency, and cost optimisation through continuous process improvements, enhanced asset utilisation, and prudent operational planning. Our ability to respond swiftly to changing market conditions, while supporting national priorities through the production of critical products, reflects the strength, agility, and resilience of our operations.

The Chemicals Business continued to benefit from its diversified product portfolio and sustained demand across key industrial sectors. At the same time, our Fertilizers Business remained committed to ensuring the timely availability of quality fertilizers, supporting India's farming community while contributing to Government initiatives aimed at enhancing agricultural productivity and balanced nutrient application.

During the year, Gujarat Narmada Valley Fertilizers & Chemicals Limited reported Revenue from Operations of ₹7,773 Crores, Earnings Before Interest, Tax, Depreciation and Amortisation (excluding Other Income) of ₹879 Crores, Profit Before Tax of ₹1,065 Crores, and Profit After Tax of ₹797 Crores. Earnings Per Share stood at ₹54.22, reflecting our continued focus on operational efficiency, financial discipline, and sustainable value creation.

In recognition of this strong performance and in line with the Company's long-term growth strategy, our Board of Directors has recommended a dividend of ₹21 per equity share (@210%) for the financial year 2025–26.

Alongside delivering strong operational performance, we continued to invest in the future through capacity enhancement, modernisation, digital enablement, and infrastructure development. These initiatives are strengthening operational reliability, improving energy efficiency, expanding product capabilities, and building a more agile and sustainable organisation equipped to meet evolving customer and market requirements.

The success of these efforts is a reflection of the dedication, expertise, and unwavering commitment of our employees. I also extend my sincere appreciation to our shareholders, customers, business partners, Government authorities, and all other stakeholders for their continued trust and support. Their confidence continues to inspire us to pursue higher standards of performance and responsible growth.

As we enter the next phase of GNFC's journey, our priorities remain clear—to strengthen operational excellence, accelerate innovation, enhance competitiveness, and create sustainable long-term value for all stakeholders.

Warm Regards
Rajkumar Beniwal, IAS

Chemicals

GNFC's Chemicals Business advances India's goals of self-reliance and import substitution through a diversified portfolio serving critical industries. The Company is India's sole manufacturer of TDI, Acetic acid, Formic Acid, Methyl Formate and Technical-grade Urea, and is also a key producer of Nitric Acid and Ammonium Nitrate.

Fertilizer & Farmer Support

GNFC's commitment to agriculture extends beyond the supply of fertilizers. Through quality fertilizers, soil-testing services, tissue-culture plants and neem-based crop-protection solutions, the Company supports farmers throughout the crop cycle. Its fertilizers, previously marketed under the Narmada brand, are now marketed under the Bharat brand as part of the Government's "One Nation, One Fertilizer" initiative. Through these efforts, GNFC contributes to farmer prosperity, sustainable agriculture and national food security.

Technology Footprint: (n)Code Solutions

(n)Code Solutions drives digital transformation across Government, Public Sector, regulatory and corporate organisations. Its technology portfolio spans digital governance, enterprise applications, ICT infrastructure, cloud and hosting, GIS, smart cities, PKI, digital signatures, surveillance, system integration and project management. Backed by strong delivery capabilities and globally recognised certifications, (n)Code delivers secure, reliable and future-ready digital solutions.

EMPOWERING LIVES. BUILDING RESILIENT COMMUNITIES.

Focused social investment that expands opportunity, strengthens local capabilities and supports inclusive rural progress.

GNFC's CSR approach is rooted in sustained engagement and a clear understanding of local priorities. Through institutional partnerships, community participation and structured implementation, the Company supports initiatives that broaden access to education and livelihoods, strengthen individual capabilities and create enduring value for communities.

Education that Expands Opportunity

Education is a key focus of GNFC's CSR efforts. Through Narmada Vidyalaya, Narmada Motlabai Public School and the Narmada Education & Scientific Research Society (NEST), GNFC supports learning from school through higher education. Smart classrooms, science laboratories, digital tools and improved infrastructure are helping rural students access quality education and turn their aspirations into opportunities.

Women at the Centre of Progress

GNFC supports Self-Help Groups and women-led micro-enterprises across food processing and other local businesses. Initiatives under the Namo Drone Didi Scheme further expand access to emerging agri-technologies, skills and livelihood opportunities.

Skills for a Changing Economy

Through the Narmada Industrial Training Institute (NITI), young people receive industry-aligned technical, digital and practical training that enhances employability and opens pathways to sustainable livelihoods.

STRENGTHENING ESSENTIAL SERVICES. CREATING LASTING SOCIAL VALUE.

Healthcare, infrastructure and disciplined execution that enable enduring community progress.

Bringing Care Closer to Communities

GNFC's community-health programmes focus on improving access to essential services, particularly in underserved areas. Mobile medical units bring care closer to villages and promote preventive health. Support for hospitals, healthcare infrastructure and nutrition programmes complements this outreach, while sanitation initiatives and smart anganwadis contribute to healthier environments for women and children.

Infrastructure for Everyday Progress

Reliable infrastructure is fundamental to thriving communities. GNFC's rural-development initiatives support roads, drainage, drinking-water facilities, panchayat infrastructure and other shared assets. In villages such as Rahiyad, these interventions form part of an integrated approach connecting essential infrastructure with mobility, sanitation, public services and community participation.

Accountability that Sustains Impact

Needs-based planning, regular monitoring and independent impact assessments strengthen the governance of GNFC's CSR programmes. This disciplined approach helps keep initiatives relevant to community priorities, accountable in delivery and focused on outcomes that can endure.

Purposeful action. | Accountable delivery. | Shared progress.

RENEWABLE ENERGY FOOTPRINT

At GNFC, sustainability is integral to how we operate and grow. Our commitment is reflected in captive renewable energy assets across solar and wind, strategically integrated with our manufacturing operations for efficient and responsible energy use.

50 Viksit Villages

GNFC's landmark '50 Viksit Villages, Vision 2047' initiative aims to transform 50 villages into self-reliant, future-ready communities.

Management Discussion & Analysis

1. Global & Indian Economic Scenario:

During FY 2025–26, the global economy witnessed steady but cautious growth amid persistent geopolitical uncertainties, evolving trade dynamics, and fluctuations in commodity and energy prices. Inflationary pressures moderated across several major economies, leading to gradual monetary policy adjustments, though growth remained uneven due to weaker industrial demand and global market volatility. The year also saw continued emphasis on supply chain diversification, energy transition, and sustainability-driven investments across industries.

India remained one of the fastest-growing major economies during FY 2025–26, supported by strong domestic demand, sustained infrastructure spending, stable macroeconomic fundamentals, and policy-driven industrial growth. The manufacturing, services, and agricultural sectors contributed positively to economic momentum, while government initiatives promoting self-reliance, clean energy, and infrastructure development further strengthened the growth outlook. However, challenges relating to input cost volatility and global economic uncertainties continued to require careful monitoring.

2. Industry Structure and Development:

2.1. Fertilizer Industry

Climatic Conditions

Rainfall received from the southwest monsoon season (Jun-Sep) during 2025 was 108% of its Long Period Average (LPA). Thus, the seasonal rainfall received was above normal as per the IMD forecast. The IMD reported that the 2025 Southwest Monsoon season yielded a total of 937.2 mm of rainfall for the country as a whole. This "above normal" rainfall ranks as the 5th highest since 2001 and the 38th highest since 1901.

The month-wise distribution of rainfall during the SW Monsoon 2025 was as follows:

Rainfall	June 2025	July 2025	August 2025	September 2025	SW Monsoon 2025
Actual	180	294	268	194	937
Normal	165	281	255	168	869
% departure	9%	5%	5%	15%	8%

Source: IMD: rainfall figures in mm.

The same figures for SW monsoon 2024 are given in the table below:

Rainfall	June 2024	July 2024	August 2024	September 2024	SW Monsoon 2024
Actual	147	307	295	186	935
Normal	165	281	255	168	869
% departure	-11%	9%	16%	11%	8%

Source: IMD, rainfall figures in mm.

Seasonal rainfall over Northwest India, Central India, South Peninsula, and Northeast India were 127%, 115%, 110% and 80% of the respective LPA. Rainfall over Northwest India was 747.9 mm which is highest since 2001 and 6th highest since 1901, However, Rainfall over East & Northeast India was 1089.9 mm which is 2nd lowest since 1901.

The Southwest Monsoon seasonal (Jun-Sep) rainfall over the monsoon core zone, which consists of most of the rain-fed agriculture regions in the country, received 122% of LPA.

Acreages

Kharif (Apr to Sep) – Against Kharif normal acreage (average of previous 5 years) of 1097 Lakh hectare, the country had achieved 1121 Lakh hectare registering 2% growth over normal.

Progress - Kharif area coverage - As on 26.09.2025 - Lakh Hectare						
Crop	Normal Acreage Kharif	Actual		Variance over PY		Coverage (%) against Normal of Season
		2025-26	2024-25	Acreage	%	
Paddy	403	442	436	6	1	110%
Pulses	130	120	119	1	1	92%
Coarse Cereals	181	195	183	12	7	108%

Cotton	130	110	113	(3)	(3)	85%
Total	1097	1121	1114	7	0.7	102%

The acreage under coarse cereals had been increased by 7 per cent and this is mainly due to rising demand for the same from the people as they are rich in nutrients (Commonly called as “Nutri- Cereals”). Though the oilseeds cropping was decreased than PY, but it is at par with the normal acreage covered.

Coverage of Kharif Acreage in GNFC's Area as on 26.09.2025 (Lakh, ha)

MSPs are increased by 2% to 10% over previous year. Going by the past three years' data, the impact of the Minimum Support Price was almost nil on 12 of the 17 crops covered under MSP Scheme.

Government Policies - Fertilizers

No major changes in NBS/ Fertilizer Policy have been announced during the year.

MDA (Market Development Assistance) of Rs 1,500 per MT on sales of Fermented Organic Manure (FOM, by-product of CBG Units under GOBARdhan Scheme) is going to conclude this year and its impact is currently under evaluation by NITI Aayog. (PIB, 10th March 2026)

Government has approved 'Namo Drone Didi' as Central Sector Scheme with an outlay of Rs. 1261 Crores for the period from 2023-24 to 2025-26 for providing drones to the selected Women Self Help Groups (SHGs) for providing rental services to farmers for agriculture purpose (application of fertilizers and pesticides) (PIB, 24th March 2026).

Nutrient Based Subsidy rates-Kharif 2025 (01.04.25 to 30.09.25) and Rabi 2025-26 (01.10.25 to 31.03.26):

2.2. Chemical Industry

Over the past decade, India’s chemical industry structurally outperformed both global rivals and regional peers. While it navigates a shifting world order that complicates value creation and capital expenditure, its fundamental advantages and growth potential remain compelling. Performance is diverging across industry segments, with specialty and niche chemicals showing greater resilience than commoditized products. This inflection point presents an opportunity for companies to decisively reassess capital allocation and long-term positioning.

The Indian chemical market, currently estimated at approximately \$ 155-165 billion, is expected to grow at a steady pace and reach \$ 230-255 billion by 2030, implying a CAGR of 8-9%. This trajectory is likely to outpace overall GDP growth, reflecting both increase in domestic consumption and India’s share in global chemical production.

Despite current challenges, the Indian chemical industry is positioned to sustain growth momentum over the next five years.

Indian chemical market 2024, \$ billion

This robust growth in the Indian chemical industry is expected to be supported by a combination of stable demand from traditional GDP-linked sectors such as consumer goods, packaging, textiles, automotive, and construction, alongside emerging opportunities in high-growth areas like electric vehicles, renewable energy, and semiconductors. In addition, India-based chemical companies could further accelerate growth by addressing India’s \$20 billion to \$30 billion supply-demand gap and by increasing exports. This could require them to align their capital and resources with the drivers of demand.

3. Overview of Company:

Gujarat Narmada Valley Fertilizers and Chemicals Limited (‘the Company’ or ‘GNFC’) operates businesses mainly in the Industrial Chemicals, Fertilizers apart from small presence of IT services.

In the chemical segment, it has a product portfolio of various bulk chemicals which are used in industries for manufacturing various specialty chemicals as well as end products.

The journey so far is reproduced below:

Product	Operational Year	Rated Capacity MTPA	Production MTPA
Ammonia	1982	4,45,500	6,59,169
Total Urea	1982	6,36,900	8,33,679

Concentrated Nitric Acid-I	1991	33,000	32,534
Weak Nitric Acid-I	1991	2,47,500	3,02,462
Ammonium Nitro Phosphate	1991	1,42,500	1,72,995
Calcium Ammonium Nitrate	1991	1,42,500	0
Aniline	1995	35,000	33,663
Toluene Di-Isocyanate-I	1998	14,000	18,167
Acetic acid	1995	1,00,000	1,54,840
Syn. Gas Generation unit	1998	2,01,960 KNm3	0
Concentrated Nitric Acid-II	1999	33,000	31,706
Methanol Synthesis Unit	2006	30,600	0
Concentrated nitric acid-III	2011	50,000	38,651
Weak nitric acid - II	2011	1,00,000	1,30,248
Co-generation Power & Steam Unit (MWh)	2012	2,84,515	2,00,684
Ethyl Acetate Plant	2012	50,000	66,491
Ammonia Syngas Generation Plant	2013	3,69,600	3,60,182
Toluene Di-Isocyanate - II	2014	50,000	38,677
Concentrated Nitric Acid-IV	2023	50,000	44,776

As it is evident from the above that gradual debottlenecking / revamping has resulted in achieving higher than rated capacities.

4. Opportunities and Strengths:

- In chemical segment, to cater to demand growth, profitable opportunities are being explored in different chemicals. Major benefits envisaged from change of world's view about China post pandemic.
- Company has entered into Long/Mid Term / Annual Contracts / Agreements for supplies of most of the critical Raw Materials like Coal, Oil, Rock Phosphate, Packaging Materials etc. which are essential for continuous production. Company is continuously trying for broad basing supplier base.
- In respect of fertilizers and chemicals, both, trading is another opportunity which is being explored.
- For IT business, areas like software, e-Governance to support ever evolving client requirements are likely focus area apart from looking at evolving technologies for foray.

5. Segment-wise performance for FY 2025-26:

(₹ Crores)

Segment	Revenue	Revenue %	Result	Result %
Fertilizers	2,764	36%	(186)	(24%)
Chemicals	4,899	63%	913	118%
Others	110	1%	46	6%
Total	7,773	100%	773	100%

Fertilizer Segment revenue has been decreased by ₹ 136 Crores from ₹ 2,900 Crores to ₹ 2,764 Crores mainly due to claimable subsidy of Urea in view of lower variable cost and lower volume in both the fertilizer products partially offset by higher realization of complex fertilizer. Fertilizer Segment Results decreased from loss of ₹ (180) Crores to loss of ₹ (186) Crores, decreased by 3% at ₹ 6 Crores mainly due to higher fixed cost, higher energy norms in Urea and lower volume partially offset by higher realization of complex fertilizer and lower input cost of complex fertilizer.

Chemical Segment revenue marginally lower by ₹ 1 Crores from ₹ 4,900 Crores to ₹ 4,899 Crores due to lower volume in all the chemical products except TDI, Formic Acid, AN Melt & CNA partially offset by higher realization in all the chemical products except Aniline, TDI, Acetic Acid & Ethyl Acetate. Chemical Segment Results increased from ₹ 665 Crores to ₹ 913 Crores higher by 37% at ₹ 248 Crores mainly due to decrease in input cost, higher realization, penalty income received due to delay in operation of CCPP plant during FY 25-26 and lower fixed cost partially offset by lower volume.

The other segment revenue increased by ₹ 18 Crores from ₹ 92 Crores to ₹ 110 Crores mainly due to increase in revenue of IT services provided by (n)Code Solutions. The other segment results increased from ₹ 23 Crores to ₹ 46 Crores higher by 100% at ₹ 23 Crores mainly due to higher profitability of IT services.

6. Outlook:

6.1. Fertilizers Business:

- » The fertilizer industry continues to remain structurally resilient, supported by rising food demand, limited arable land, and increasing crop intensity. While global demand growth is moderate, India stands out with steady consumption growth driven by policy support and agricultural dependence.
- » The ongoing Middle East conflict has adversely impacted the fertilizer sector by disrupting key global supply chains, particularly through the Strait of Hormuz, a critical transit route. This has led to a rise in international prices specially urea along with constraints in LNG availability, which may affect domestic urea production.
- » Given India's significant dependence on imports—approximately 50% for DAP and nearly 100% for potash, along with gas-linked urea production—these developments pose risks to timely availability and cost of fertilizers, especially during the Kharif season.
- » Despite these challenges, (like in the past) GOI expected to continue strong support through higher subsidies, price controls, and import measures, which should help maintain overall supply and prevent any major disruption in agricultural output. Government of India has allocated ~ ₹ 1.71 lakh crore for fertilizer subsidy in FY 2026–27 in which ~ ₹ 1.16 lakh cr is towards Urea and ~ ₹ 0.54 lakh Cr is towards NBS (P&K fertilizers)
- » The India Meteorological Department (IMD)/Skymet have forecasted below normal South West (SW, four-month active season) monsoon for the current year 2026 due to El Nino conditions during the monsoon season. As per the prediction, below normal rainfall is ranging between 92-94% (with a model error of +/- 5%) of long period average (LPA- 50-year average) of 868 mm (~87cm, ~35 inches) for the four-month season from June to Sep.

- » Due to upward revision in NBS rates for Kharif-26, expecting better realization for ANP product. As always, there will be a preference to DAP due to low MRP with higher nutrients and the grade is well accepted by the Indian farmers.
- » Under PM-PRANAM program, we are promoting FOM (Fermented Organic Manure) under MDA scheme. Apart from this, company is supporting initiatives taken by DOF/fertilizer ministry/Agri. dept like Namo Drone Didi scheme, PMKSK, PM-Kisan Sangosthi, PM-PRANAM, DBT (PoS) etc.

6.2. Chemicals Business:

The chemicals industry's revenues grew at a CAGR of about 10.5 percent between fiscal years 2018 and 2024, compared to India's GDP growth of around 9 percent during the same period. With industry revenue outpacing GDP growth, India's chemicals industry has contributed to the country's economic expansion. Despite dropping industry margins and the impact of macroeconomic pressures, revenue growth remains encouraging. The industry seems positioned as a relatively resilient, high-growth market garnering domestic as well the global demand.

Risk and concerns:

- a. Most products are import substitutes and hence fierce competition from dominant foreign suppliers is a major threat.
- b. Key raw materials and feedstock are purchased at import parity price and its availability from limited supplier base and at time almost single pre-dominant source operates as possible threat to profitable operations.
- c. NBS support from time to time may not match with actual input costs hence may affect profitable operations.
- d. Energy norms for fertilizers being prescribed without capital subsidy support increases further strain on resources is a source of major risk.

7. Internal control system, their adequacy and Risk Management:

The Company has an independent Internal Audit function with a well-established risk management framework. The scope and authority of the Internal Audit function are derived from the Internal Audit Charter approved by the Audit Committee.

The Company has engaged a reputable external firm to support the Internal Audit function for carrying out the Internal Audit reviews.

The Audit Committee meets every quarter to review and discuss the various Internal Audit reports and follow up action plans of past significant audit issues and compliance with the audit plan.

The Internal Financial Control framework of the company is subjected to review every year independently.

The Company has well-defined Enterprise Risk Management (ERM) framework in place which evolved over the years.

Risk Management:

Risks are identified proactively periodically considering inputs from external as well as internal factors along with risk mitigation plans. The company has well defined Governance Structure viz., from Board to Committee to Risk Management function.

Company has developed the digital risk management platform where through the mechanism of action taken reports, the identified mitigation plans are monitored for their execution / current status against their set target dates.

Risk Management Committee meeting takes place twice during the year wherein the framework as well as various risks are reviewed thoroughly. In addition to this, Risk Management Report covering various risks is put-up before the Board of Directors Meetings periodically for their review.

8. Operational & Financial performance

8.1. Operational Performance (Production):

The Company has achieved remarkable production performance during the year 2024-25. Day to day plant operations were closely reviewed and plant operations were optimized accordingly, to maximize profit. During the year, strategic optimization of various plant operations had to be done keeping in line with prices of raw materials so as to achieve cost reduction in all aspects.

New Records Established:

During financial year 2025–26, a total of 30 new records were established, of which 20 were in Production and 10 in Filling/Dispatch/Sales. The highest-ever daily production was achieved for Total Urea and Formic Acid. The highest-ever monthly production was achieved for Ammonia, Total Urea, Technical Grade Urea, Methyl Formate, Formic Acid, Neo Neem Soap, and Hand Wash. The highest-ever yearly production was achieved for Formic Acid, Neo Neem Soap, and Hand Wash.

Production/ Operational Performance: 2025-26

Ammonia plant scheduled annual shutdown taken from 01/04/2025 to 19/04/2025. During this period, the leaky Ammonia product cooler (E-706) was replaced, and catalyst screening of R-401/402/403 was carried out. Synthesis gas Compressor(C-701) tripped on 17/09/2025 due to low seal oil level and remained under shutdown from 25/09/2025 to 04/10/2025 for seal replacement and inspection. The C-701 BCL barrel underwent replacement of both seal and rotor, while in the 2BCL barrel, seals were replaced. The plant achieved an annual production of 659,169 MT against a budget of 658,630 MT. Record monthly production was achieved consecutively in December (62,991 MT) and January (63,014 MT). Two gasifier operation commenced on 06/11/2025 and has continued thereafter due to the West Asia war crisis.

Ammonia Synthesis Gas Generation Plant (ASGP) was under shut down from 01/04/2025 to 20/04/2025 for annual maintenance. It was again stopped from 25/09/2025 to 04/10/2025 due to maintenance in the Ammonia plant. ASGP achieved an annual production of 360,182 MTs against the budgeted 369,470 MTs. Plant load is restricted as per NG availability in view of West Asia war crisis. NG preheater scheme was implemented in April 2025 for energy savings. Installation of H₂ compressor for further energy optimization is currently in progress.

Urea Plant: FY 2025–26 posed significant operational challenges for the Urea plant, primarily due to repeated boiler tripping, leading to multiple shutdowns and load reductions. Despite this, the plant demonstrated strong resilience and achieved seven new performance records. The plant operated above 2,500 MT/day for 279 days and achieved its lowest-ever HPSH equivalent specific steam and power consumption. A high-efficiency condensate pump and a high-capacity MP carbamate pump were commissioned. Safety was enhanced by converting the HP ammonia pump discharge isolation valve to motor-operated valve. The new reactor foundation has been completed, and installation of a VFD for torque converter replacement in the HP ammonia pump is under progress.

Methanol-I, SGGU, and MSU plants remained shut throughout the year due to unfavorable economics.

Methanol-II plant operated from April to November 2024, after which it remained shut due to economic constraints. Methanol requirements for downstream plants were met through market procurement. Excess wet methanol from the Formic Acid (FA) plant was processed in the Methanol Distillation Unit (MDU). PSA continued operation using oil-based gases post Methanol-II shutdown.

Formic Acid plant achieved record-breaking daily, monthly, and annual production, along with the highest annual sales. Separate storage and handling of purchased methanol and reprocessed methanol ensured improved product quality and operational flexibility, leading to periodic operation of the MDU.

Acetic Acid plant maintained stable operations and achieved a record continuous run of 273 days, surpassing the previous best of 237 days.

Ethyl Acetate plant reactor was replaced in December 2025 due to thickness reduction. The plant exceeded its benchmark by achieving 92 days of continuous operation at ≥ 195 MT production.

CATSOL unit fulfilled an annual catalyst supply order of 322 MT, with 529.6 MT orders already secured for FY 2026–27.

IP Filling Station achieved multiple dispatch milestones, including record daily and monthly CNA sales, total CNA dispatch (captive and external), methyl formate dispatch, and record sales of Acetic Acid in carboys and Formic Acid.

In the WNA-I plant, shutdown activities included high-pressure jetting of equipment 10E013 and cleaning of storage tank 11T012, resulting in recovery of valuable precious metals. Modification scheme for sustainable production of

WNA-I plant, Phase-I improved process efficiency by reducing NOx inlet temperature and stabilizing absorption tower operation. Cooling tower upgrades and partial completion of Phase-II further enhanced reliability. VAM units were also commissioned during the year.

WNA-II plant successfully managed an online bypass of NOx exchanger leakage, with permanent rectification completed during the scheduled shutdown for catalyst replacement job.

ANP plant operated in line with WNA availability and production priorities. Safety improvements included implementation of a control valve scheme in the ANMFS fire water system. Mother liquor tank shell plate replacement carried out during shutdown.

Utility plants ensured uninterrupted supply of essential services. Replacement of ion exchange resins improved DM plant efficiency. Firefighting systems were strengthened through ongoing commissioning of diesel-driven pumps and validation of interconnections between plant areas.

Aniline plant operated for 337 on-stream days, with load adjustments based on market demand. The Energy Conservation Turbine generated 6.92 million kWh of power.

TDI plant operated for 327 days, aligned with market demand. Increased tanker dispatch reduced drum handling. Effluent streams were managed through internal reuse and external treatment. Structural strengthening of the Chlorine Scrubber has been initiated to enhance safety.

TDI-II Dahej plant operated for 276 days at 77% capacity utilization. Production was affected by equipment issues, maintenance activities, and natural gas supply constraints.

The GNFC Bharuch and Dahej complexes continue to hold ISO 9001:2015, ISO 14001:2015, ISO 45001:2018, and ISO 50001:2018 certifications from M/s. Bureau of Veritas India Ltd, valid until 17th August 2028. The first surveillance audit for these standards was successfully completed in March 2026.

8.2. Sales Performance:

Y-O-Y Sales performance of own manufactured products Qty in LMT

Fertilizers Sales performance

Comparison of Sales of own products from last year

During the FY 2025-26, our Company has achieved total sales of 6.19 Lakh Metric Tonnes of Urea which was 0.23 Lakh MT lower than previous year (i.e. 6.42 Lakh Metric Tonnes). The lower sales in Urea was due to less production during March 2026 due to geo-political reason/limited supply of feed stock. Sales of Nitro phosphate (20-20-0) stood at 1.73 Lakh Metric Tonnes, which was similar with previous year (i.e., 1.73 Lakh Metric Tonnes).

During the FY 2025-26, company continued to serve farming community thru "Narmada Khedut Sahay Kendras (NKSs)"- COCO model retail outlets by providing required agri-inputs both bulk fertilizers & value added non-bulk products along with advisory services.

During the year, Trading Activities were also continued in Muriate of Potash (MoP), Di-Ammonium Phosphate (DAP), Ammonium Sulphate (AS), Single Super Phosphate (SSP), Fermented Organic Manure (FOM), City Compost etc.

Chemicals sales performance

GNFC's products have better resonance due to their application and use in different end use sectors. Hence, several industrial products of GNFC outperformed against the previous year viz. Toluene Di-Isocyanate (TDI), Formic Acid and Concentrated Nitric Acid (CNA). Milestone was created by achieving highest ever annual sales for Formic Acid in FY 2025-26. TGU, TDI & AN Melt made 22%, 22% & 17% share of the industrial products turnover respectively in the FY 2025-26.

8.3. Materials Management

Feed stock availability

Since inception of GNFC, IOCL has been meeting our entire requirement of petroleum feed-stock (HSFO/LSHS-P/FOHV). The pricing terms under the supply contract are finalized every year. The current price arrangement applicable for the period May-2025 to Apr-2027 is under management approval and accordingly the agreement between GNFC and IOCL for supply of FOHV, LSHS-P and HSFO shall be extended till 30-4-2031.

Long Term Contracts

Company has entered into Long Term / Annual Contracts / Agreements for supplies of most of the critical Raw Materials like Coal, HSFO/LSHS-P/FOHV, Natural gas, Rock Phosphate, Benzene, Toluene etc. and Packaging Materials, which are essential for continuous production.

Vendor Registration / Vendor Management

To have resourceful, competitive and cost-effective vendors in approved list, continuous efforts are being made to enlarge vendor base for supply of goods. In 2025-26, total 259 new applications were processed for vendor registration and 26 new vendors added in the vendor list. This will help in increasing competition and improvement in delivery of goods.

Disposal of Used Equipment / Scrap

With the sustained team efforts, the disposal of used equipment / scraps and surplus items worth Rs. 1,267.54 Lakh was achieved during 2025-26.

(Amount in Rs. Lakh)

On raw material front;

» FOHV/HSFO/LSHS-P

The prices vary depending on International crude indices. Yearly negotiation on price reduction is carried out in order to have better pricing for next procurement cycle. The Crude prices are difficult to forecast especially due to current geo-political disturbances.

» **Coal**

GNFC has been getting Indian Coal under the ambit of Fuel Supply Agreement (FSA) with M/s South Eastern Coalfields Limited (SECL) a subsidiary of Coal India Limited (CIL). FSA between GNFC and SECL is renewed w.e.f. 01-05-2023 and valid up to 30-04-2028. Annual Contracted Quantity (ACQ) is 2,20,000 MT.

Indian Coal is being utilized for the production of Urea Fertilizer. For the requirement of Coal towards balance plants, Imported Coal is being procured through competitive bidding followed by Reverse Auction / negotiation.

» **Benzene and Toluene**

Benzene and Toluene are being procured on Import Price Parity basis. During the FY 2025-26, the annual average purchase rate of Benzene reduced from Rs. 88,151/- to Rs. 65,822/- (25.33%) and the annual average purchase rate of Toluene decreased from Rs. 83,363/- to Rs. 72,875/- (12.58%) PMT as compared to FY 2024-25, on Net of Credit basis.

Currently, the commodity prices are highly volatile. It is anticipated that, the prices will remain volatile during 2026-27 till global business stability established. As a result, it is expected that aromatic market will remain unpredictable during FY 2026-27. Exchange rate for INR / USD is also one of the concern/s.

Considering above points of view, an annualized average prices of both Benzene and Toluene are expected to remain volatile during FY 2026-27.

» **Rock Phosphate**

Phosphoric Acid prices:

During FY-2024-25 Phosphoric Acid prices were in the range of USD 948 – 1050 PMT. During FY 2025-26 it is increased in the range of USD 1153 – 1290 PMT. Phosphoric Acid prices for Apr-June-2026 is declared as USD 1,360 PMT.

Prices of Jordan origin Rock Phosphate 73/75 BPL grade is having increasing trend since April-2025. Due to geo-political disturbances in Middle East, a sharp escalation in prices is anticipated. The new prices will be applicable from June 2026 onwards.

Since November 2023, geopolitical disturbances in the Red Sea region have significantly impacted global shipping routes and freight economics. The situation further deteriorated from March 2026 due to escalating tensions involving the US, Israel, and Iran, leading to the Red Sea being categorized as a High-Risk Area. Consequently, there has been a substantial increase in marine insurance premiums and ocean freight rates, adversely affecting overall landed cost of Rock Phosphate.

» **Natural Gas:**

Our total natural gas requirement for Urea production is tied up till December 2027. Any short fall in natural gas for Urea production is mitigated by submitting our deficit gas requirement to EPMC (pooling for Urea gas) or by floating spot tenders. Presently, due to Geo-political tension, the Gas supply of Urea Manufacturing units are being managed by pool operator, GAIL.

Total gas requirement for industrial products is being met by floating monthly spot tenders and/or through contract finalization on competitive bidding for Short or Medium term basis.

Projection of future price trend of natural gas remains higher, however, it is very difficult to forecast natural gas prices considering high volatility, supply-demand, Logistics challenges and geo-political disturbances.

9. Comparative Financial Performance Highlights:

Charts A and B illustrate GNFC’s financial performance

1. Chart A: EBITDA and EBITDA %

2. Chart B: Revenue from Operations (RFO) and PAT

7. In line with the MCA Circular No. 17/2020 dated April 13, 2020, the Notice calling the AGM has been uploaded on the website of the Company at www.gnfc.in. The Notice can also be accessed from the websites of the Stock Exchanges i.e. BSE Limited and National Stock Exchange of India Limited at www.bseindia.com and www.nseindia.com respectively. The AGM Notice is also disseminated on the website of KFinTech.
8. The Register of Members and Share Transfer Books of the Company will remain closed from Thursday, September 10, 2026 to Wednesday, September 16, 2026 (both days inclusive).

A. ELECTRONIC DISPATCH OF ANNUAL REPORT AND PROCESS FOR REGISTRATION OF EMAIL ID FOR OBTAINING COPY OF ANNUAL REPORT

- (i) In compliance with the above mentioned Circulars, the Annual Report for the financial year 2025-26, the Notice of the 50th AGM, and instructions for e-voting are being sent through electronic mode to those Members whose email addresses are registered with the Company / RTA / Depositories.
- (ii) Those members who are holding shares in physical form and have not updated their email ids with the Company, are requested to update the same by submitting a duly filled and signed Form ISR-1 along with the copy of the signed request letter mentioning the name and address of the Member, self-attested copy of the Income-Tax PAN card and self-attested copy of any document (eg.: Driving License, Election Identity Card, Passport) in support of the address of the Member to the Company's RTA at the below mentioned address or by email to einward.ris@kfintech.com :

KFin Technologies Limited,
Selenium Tower B, Plot 31 & 32,
Financial District, Nanakramguda, Serilingampally Mandal,
Hyderabad-500032

Members holding shares in dematerialized mode are requested to register / update their email addresses with the relevant DPs. In case of any queries / difficulties in registering the e-mail address, Members may also write to investor@gnfc.in.

- (iii) Additionally, in accordance with Regulation 36 (1) (b) of the Listing Regulations, the Company is also sending a letter to Members whose e-mail ids are not registered with Company/RTA/DP providing the weblink of the company's website from where the Annual Report for financial year 2025-26 can be accessed.

B. PROCESS FOR OBTAINING PHYSICAL COPY OF ANNUAL REPORT

- (i) As per Listing Regulations, physical copy of the Annual Report is required to be sent only to those Members who specifically request for the same. Accordingly, Members who wish to obtain a physical copy of the Annual Report for the financial year 2025-26, may write to the Company at investor@gnfc.in requesting for the same by providing their holding details.
- (ii) The Notice of the 50th AGM along with Annual Report for the financial year 2025-26, is available on the website of the Company at <https://www.gnfc.in/statistics-annual-report/> and on the website of Stock Exchanges i.e. BSE Limited and National Stock Exchange of India Limited.

C. INSTRUCTIONS TO SHAREHOLDERS FOR PARTICIPATING IN THE AGM THROUGH VC/OAVM AND FOR E-VOTING

- (i) Pursuant to the provisions of Section 108 of the Act read with Rule 20 of the Companies (Management and Administration) Rules, 2014, as amended from time to time, Secretarial Standard-2 on General Meetings issued by ICSI, Regulation 44 of the SEBI Listing Regulations, as amended from time to time and SEBI Circular no. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated December 9, 2020 in relation to "e-Voting Facility Provided by Listed Entities", the Company is providing facility of remote e-Voting to its Members in respect of the business to be transacted as mentioned in the Notice of the AGM. For this purpose, the Company has appointed KFin Technologies Limited ("Kfintech") for facilitating voting through electronic means. The facility for casting votes by a Member using remote e-Voting system as well as e-Voting during the AGM will be provided by Kfintech. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

- (ii) The Notice of the 50th AGM and the Annual Report for the financial year 2025-26 (including therein the Audited Financial Statements for year 2025-26), are being sent only by email to those Members whose email addresses are registered with the Company / Depositories /RTA. Therefore, those Members who have not yet registered their email addresses are requested to get their email addresses registered with their DP or RTA / Company for electronic and Physical Folios respectively, in the manner stated below. Process for registration of email address for obtaining Annual Report (if not received by the Member) and/or obtaining user ID/password for e-voting and process for updation of bank account mandate for receipt of dividend are stated as hereunder:

E. DIVIDEND RELATED INFORMATION:

- (i) The Members, whose names appear in the Register of Members / list of Beneficial Owners as on Wednesday, September 09, 2026, i.e. record date will be paid the Final Dividend for the financial year ended March 31, 2026, as recommended by the Board, if approved at the AGM, on or after Friday, September 18, 2026.
- (ii) Members holding shares in demat form are hereby informed that bank particulars registered with their respective DPs, with whom they maintain their demat accounts, will be used by the Company for the payment of dividend. The Company or its Registrar cannot act on any request received directly from the Members holding shares in demat form for any change of bank particulars. Such changes are to be intimated only to the DPs of the Members. Members holding shares in demat form are requested to intimate any change in their address and/or bank mandate immediately to their Dps.
- (iii) Shareholders may note that the dividend paid or distributed by a Company shall be taxable in the hands of the Shareholders. The Company shall therefore be required to deduct Tax at Source (TDS) at the time of making the final dividend. In order to enable us to determine the appropriate TDS rate as applicable, Members are requested to submit the documents in accordance with the provisions of the Income Tax Act, 2025 ("the Act").
 - a. For Resident Shareholders:** Tax at source shall be deducted under Section 393 (1) of the IT Act at 10% on the amount of dividend declared and paid by the Company during financial year 2026-27, subject to PAN details registered/updated by the Member. If PAN is not registered/updated in the demat account/folio as on the record date, TDS would be deducted @ 20%.

In case of individual shareholders, who are mandatorily required to have their PAN-Aadhaar linked and have not done so, their PAN would be considered as inoperative. Such inoperative PANs would be considered as invalid and a higher TDS rate as per Section 397 of the Income Tax Act would be applied.

No tax at source is required to be deducted, if during the financial year, the aggregate dividend paid or likely to be paid to an individual member does **not exceed ₹ 10,000** (Rupees Ten Thousand Only).

Further, in cases where the shareholder provides Form 121 (applicable to all individuals including an Individual above the age of 60 years) along with a copy of PAN card, provided that the eligibility conditions are being met, no TDS shall be deducted

- b. For Non-Resident Shareholders:** As per the provisions of Section 393(2) of the Act, the withholding tax shall be at the rate of 20% (plus applicable surcharge and cess) on the amount of dividend payable to non-resident Members. As per Section 159 of the Act, the non-resident Shareholder has the option to be governed by the provisions of the DTAA between India and the country of tax residence of the Shareholder, if they are more beneficial to them. For this purpose, i.e. to avail DTAA benefit, the non-resident Shareholders are required to submit the following:
 - a) Self-attested copy of the PAN card allotted by the Indian Income Tax authorities;
 - b) No Permanent Establishment Declaration;
 - c) Beneficial Ownership Declaration;
 - d) Tax Residency Certificate;
 - e) Copy of electronically filed Form 41 (erstwhile Form 10F)
 - f) Any other document which may be required.
- (iv) The Company shall not be obligated to apply the beneficial DTAA rates at the time of tax deduction / withholding on dividend amounts. Application of beneficial DTAA Rate shall depend upon the completeness and satisfactory review by the Company of the documents submitted by the Non-Resident Member.
- (v) Kindly note that the aforementioned documents were required to be submitted at <https://ris.kfintech.com/clientservices/investors/taxforms.aspx> by August 15, 2026, to enable the Company to determine and deduct TDS/withholding tax at the applicable rate. Any documents or requests received after the aforesaid date may not be considered for determining the applicable TDS/withholding tax rate. In case TDS is deducted at a higher rate due to non-receipt of the requisite details/documents, the shareholder may claim refund by filing the return of income, if eligible.
- (vi) We shall arrange to e-mail the soft copy of TDS certificate to you at your registered e-mail ID in accordance with the provisions of Act 2025 after filing of the quarterly TDS Returns of the Company, post payment of the said Dividend.
- (vii) In accordance with the provisions of Section 124 and other applicable provisions, if any, of the Companies Act, 2013 and relevant Rules made there under, the Company has transferred the dividend amount, remaining unclaimed for a period of seven years from the respective date of transfer to 'Unpaid Dividend Account' for the Financial Years 1999-2000 to 2017-18 to Investor Education & Protection Fund (IEPF), set up by the Central Government.
- (viii) Shareholders may claim their unclaimed dividend for the years prior to and including the financial year 2017-18 and the corresponding shares, from the IEPF Authority by applying in the prescribed Form No.IEPF-5.
- (ix) The unclaimed dividend for the below mentioned years and the corresponding shares will be transferred by the Company to IEPF in accordance with the schedule given below. In this regard, we have informed, vide our Notice published in newspaper dated August 01, 2026, to all those shareholders who have not claimed their unpaid dividend for a consecutive period of seven years from financial year 2018-19, advising them to contact KFintech at einward.ris@kfintech.com and claim their dividend amount before

due date of transfer to IEPF Authority. The due date(s) of transfer of shares and dividend to IEPF Authority is given below:

F. OTHERS:

1. SEBI Mandate on KYC Compliance:

SEBI vide its Circular No. SEBI/HO/MIRSD/MIRSD_RTAMB/P/ CIR/2021/655 dated November 3, 2021 as amended, has mandated that with effect from April 1, 2024, dividend to security holders (holding securities in physical form), shall be paid only through electronic mode. Such payment shall be made only after furnishing the PAN, choice of nomination, contact details including mobile number, bank account details and specimen signature. Members may refer to FAQs issued by SEBI in this regard available on their website at https://www.sebi.gov.in/sebi_data/faqfiles/jan-2026/1767611333081.pdf (FAQ Nos. 47 & 48).

Further SEBI vide its Circular No. SEBI/HO/MIRSD/POD-1/P/CIR/2024/81 dated June 10, 2024, has informed that security holders holding securities in physical form shall be eligible for receipt of any payment including dividend, interest and redemption payment as well as to lodge grievance or avail any service request from the RTA even if "Choice of Nomination" is not submitted by these security holders.

The forms for updation of PAN, KYC, Bank details and Nomination viz., Forms ISR-1, ISR-2, ISR-3, SH-13 and the said SEBI Circular are available on our website at <https://www.gnfc.in/investor-service-requests-forms/>. Members who hold shares in dematerialised form and wish to update their PAN, KYC, Bank details and Nomination, are requested to contact their respective DPs. Attention of the Members holding shares of the Company in physical form is invited to go through and submit the said Forms duly filled and signed by sending a physical copy to M/s. KFin Technologies Limited at Selenium Building, Tower-B, Plot No. 31 & 32, Financial District, Nanakramguda, Serilingampally, Hyderabad, Rangareddy, Telangana, India – 500032.

2. SEBI mandate on issuance of securities only in demat mode:

Regulation 40 of Listing Regulations, as amended, mandates that transfer, transmission and transposition of securities of listed companies held in physical form shall be effected only in demat mode. Further, SEBI vide its Circular dated January 25, 2022, has clarified that listed companies, with immediate effect, shall issue securities only in demat mode while processing service requests viz. Issue of duplicate securities certificate; claim from Unclaimed Suspense Account; Renewal/Exchange of securities certificate; Endorsement; Sub-division/Splitting of securities certificate; Consolidation of securities certificates/folios; Transmission and Transposition. Accordingly, Shareholders are requested to make service requests by submitting a duly filled and signed Form ISR-4, the format of which is available on the Company's website under the web link at <https://www.gnfc.in/investor-service-requests-forms/> it may be noted that any service request can be processed only after the folio is KYC compliant.

In view of this and to eliminate all risks associated with physical shares and for ease of portfolio management, Members holding shares in physical form are advised to convert their holdings in demat form.

3. Nomination facility:

As per the provisions of Section 72 of the Act, the facility for making nomination is available to the Members in respect of the shares held by them.

Members who have not yet registered their nomination are requested to register the same by submitting Form No. SH-13, if a Member desires to change in nomination, the Member may submit the same Form SH-14, the said forms can be downloaded from the Company's website at <https://www.gnfc.in/investor-service-requests-forms/>

4. Special window for re-lodgement of physical share transfer and dematerialisation requests:

Pursuant to SEBI Circular No. SEBI/HO/MIRSD/MIRSD-PoD/P/CIR/2025/97 dated July 02, 2025, a special window was opened for re-lodgment of transfer deeds of physical securities. Further, with a view to facilitate investors, SEBI, vide its Circular No. HO/38/13/11(2)2026-MIRSD-POD/I/3750/2026 dated January 30, 2026, has decided to open another special window for a period of one year, from February 05, 2026 to February 04, 2027, for transfer and dematerialisation of physical securities which were sold or purchased prior to April 01, 2019, where transfer requests could not be processed earlier due to deficiencies, rejection, or pendency. Accordingly, such shareholders may refer to this Circular available on the website of the Company at <https://www.gnfc.in/special-window-for-transfer-dematerialisation-of-physical-securities/> and re-lodge their requests within the said special window. After following the due process, securities shall be issued only in demat mode.

5. Simplification of procedure for issuance of Duplicate Share Certificates:

The SEBI Circular dated December 24, 2025 has simplified the framework for issuance of duplicate share certificates and related procedures. The documentation requirements have been standardized as below:

- (i) Value Up to ₹10,000: Undertaking on plain paper (no notarisation required).
- (ii) Value Above ₹10,000 and up to ₹10 lakh: Single Affidavit-cum-Indemnity Bond.
- (iii) Value Above ₹10 lakh: Affidavit-cum-Indemnity Bond along with FIR/Police Complaint and Newspaper Advertisement.

With effect from April 02, 2026, SEBI has dispensed with the requirement of issuance of a Letter of Confirmation by the Company or the RTA while processing service request. Accordingly, securities will be credited directly to the Member's demat account upon submission of valid demat account details along with the latest Client Master List, not older than 2 months, attested by their DP.

6. As part of our ongoing efforts to enhance the investor experience and leverage emerging technologies, our Registrar and Transfer Agent, KFin Technologies Limited, has already developed and implemented several digital applications for the benefit and convenience of our investors. ANNEXURE TO THE NOTICE

AS REQUIRED BY SECTION 102 OF THE COMPANIES ACT, 2013 AND PURSUANT TO REGULATION 36 (3) OF THE SEBI (LISTING OBLIGATIONS AND DISCLOSURE REQUIREMENTS) REGULATION, 2015 AND SECRETARIAL STANDARD-2 ON GENERAL MEETINGS, THE FOLLOWING EXPLANATORY STATEMENT SET OUT ALL MATERIAL FACTS RELATING TO BUSINESS MENTIONED UNDER ITEM NO. 4, 5 & 6 OF THE ACCOMPANYING NOTICE

Item No. 4:**Appointment of M/s B S R and Co, Chartered Accountants (Firm Registration No. 128510W) as the Statutory Auditors of the Company**

The Members of the Company at their 45th AGM held on September 23, 2021 had appointed M/s. Suresh Surana & Associates LLP, Mumbai (Firm Registration No. 121750W/W-100010), as the Statutory Auditors of the Company to hold office for a term of 5 (five) consecutive years from the conclusion of said AGM till the conclusion of the 50th AGM. They will complete their consecutive period of five years as Statutory Auditors of the Company on conclusion of this AGM.

The Board of Directors of the Company (the Board), at its meeting held on May 18, 2026, considering the experience and expertise and based on the recommendation of the Audit Committee, has proposed to the Members of the Company, an appointment of M/s B S R and Co, Chartered Accountants (Firm Registration No. 128510W), as Statutory Auditors of the Company in place of M/s. Suresh Surana & Associates LLP, Mumbai. The proposed appointment is for a term of 05 (five) consecutive years from the conclusion of 50th AGM till the conclusion of the 55th AGM on payment of such remuneration as may be mutually agreed upon between the Board of Directors and the Statutory Auditors, from time to time.

Pursuant to Section 139 of the Companies Act, 2013 (the Act) and the Rules framed thereunder, the Company has received written consent from M/s B S R and Co, and an eligibility certificate that they satisfy the criteria provided under Section 141 of the Act and that the appointment, if made, shall be in accordance with the applicable provisions of the Act and Rules framed thereunder. As required under the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, M/s B S R and Co, has confirmed that they hold a valid certificate issued by the Peer Review Board of ICAI.

None of the Directors or other Key Managerial Personnel and their relatives, are concerned or interested (financially or otherwise) in this Resolution. The Board recommends the Ordinary Resolution set out at Item No. 4 for the approval of Members.

Item No. 5:**Appointment of Prof. (Dr.) Mamata Biswal (DIN: 07156141), as an Independent Director of the Company**

In terms of the provisions of Section 161(1) of the Companies Act, 2013 ("the Act"), read with Article 144 of the Articles of Association of the Company, and upon recommendation of the Nomination and Remuneration Committee ("NRC"), the Board of Directors of the Company appointed Prof. (Dr.) Mamata Biswal (DIN: 07156141) as an Additional Director (Independent Director, Non-Executive) with effect from August 20, 2026, to hold office up to the date of the next General Meeting, pursuant to the provisions of Section 161 of the Act.

The NRC, after evaluating the balance of skills, knowledge, and experience of the existing Board, reviewed the profile of Prof. (Dr.) Mamata Biswal (DIN: 07156141) and found her suitable for appointment as an Additional Director (Independent Director, Non-Executive).

Pursuant to Section 149(6) of the Act and Regulation 16(1)(b) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations"), Prof. (Dr.) Mamata Biswal (DIN: 07156141) has submitted

a declaration confirming that she meets the criteria of Independence. Further, as per the requirements of Section 164(2) of the Act, she has submitted an intimation confirming that she is not disqualified from being appointed as a Director.

The Company has also received:

1. Consent in writing from Prof. (Dr.) Mamata Biswal (DIN: 07156141) to act as a Director in Form DIR-2 in accordance with Section 152(5) of the Act read with Rule 8 of the Companies (Appointment and Qualification of Directors) Rules, 2014;
2. Notice in writing from a Member under Section 160(1) of the Act, proposing her candidature for appointment as an Independent Director; and
3. Declaration confirming that she is not debarred from holding the office of Director by virtue of any order of the Securities and Exchange Board of India (SEBI) or any other such authority.

Prof. (Dr.) Mamata Biswal (DIN: 07156141) brings 25 years of rich teaching experience to her role as a Professor of Law and ICSSR Senior Research Fellow at Gujarat National Law University, Gujarat. Holding a Ph.D. in Law, she has a B.Sc. (Honours) and an LLM in Commercial Law (Corporate and Business Law). She has cleared the NET (UGC) and has been recognised as an ICSSR Senior Research Fellow.

In terms of Regulation 17(1C) of the Listing Regulations, the appointment of a Director is required to be approved by the Members in the next General Meeting or within a period of three months from the date of appointment, whichever is earlier.

The Board is of the opinion that Prof. (Dr.) Mamata Biswal (DIN: 07156141) fulfills the conditions specified under Sections 149, 152, 160, and other applicable provisions of the Act, read with the Companies (Appointment and Qualification of Directors) Rules, 2014, and Listing Regulations for appointment as an Independent Director. She is independent of the management and is not related to any Director or Key Managerial Personnel of the Company in terms of Section 2(77) of the Act.

DIVIDEND

Keeping in view the Company's performance for the FY 2025-26, long term growth strategy and to ensure that the Shareholders get sustained return on their investments, your Directors have recommended a Dividend of ₹ 21 per Equity Share (@ 210%) on 14,69,40,683 Equity Shares of ₹ 10/- each fully paid up, subject to approval of Shareholders at the Annual General Meeting. The Dividend payout works out to be ₹ 308.58 Crores. This amounts to 39% of the Net Profit of the Company for the FY 2025-26.

PERFORMANCE OVERVIEW AND STATE OF THE COMPANY'S AFFAIRS

1. Operational Performance:

The Company has achieved remarkable production performance during the FY 2025-26. Day to day plant operations were closely reviewed and optimized to maximize profit.

During the year, several Plants achieved over 100% capacity utilization level. Ammonia (6,59,169 MTs i.e. 147.96%), Urea (8,33,679 MTs i.e. 130.90%), M.F (43,941 MTs i.e. 192.72%), Formic Acid (33,773 MTs i.e. 171.26%), Acetic Acid (1,54,840 MTs i.e. 154.84%), ANP (1,72,995 MTs i.e. 121.40%), WNA-I (3,02,462 MTs i.e. 122.21%), WNA-II (1,30,248 MTs i.e. 130.25%), TDI-I, Bharuch (18,167 MTs i.e. 129.76%), EA (66,491 MTs i.e. 132.98%) were among the plants that excelled in capacity utilization.

During the year, strategic optimization of various plant operations and product mix was undertaken keeping in line with price of raw materials so as to achieve cost reduction in all aspects.

TDI-II, Dahej plant operated for 276 days at 77% capacity utilization. Production was affected by equipment issues, maintenance activities, and natural gas supply constraints.

2. Financial Performance:

During FY 2025-26, Revenue from operation is not comparable due to annual turnaround at Bharuch Complex in current FY and at Dahej Complex in Previous FY 2024-25. PBT improved by 35% for the full year mainly due to reduction in input cost. The change in other comprehensive income is attributable to change in the fair market value of both quoted and unquoted investments as well as actuarial assumptions of employee benefit obligations. The revision in both energy and fixed cost is being pursued with the Government at industry level.

The Board of Directors at its meeting held on May 18, 2026 has recommended dividend of ₹ 21/- per Equity Share (i.e. 210%).

SALES

1. Industrial Products:

The Indian chemical market, currently estimated at approximately \$ 155-165 billion, is expected to grow at a steady pace and reach \$ 230-255 billion by 2030, implying a CAGR of 8-9%. This trajectory is likely to outpace overall GDP growth, reflecting both increase in domestic consumption and India's share in global chemical production.

GNFC's products have better resonance due to their application and use in different end use sectors. Hence, several industrial products of GNFC outperformed against the previous year viz. Toluene Di-Isocyanate (TDI), Formic Acid and Concentrated Nitric Acid (CNA). Milestone was created by achieving highest ever annual sales for Formic Acid in FY 2025-26. TGU, TDI & AN Melt made 22%, 22% & 17% share of the industrial products turnover respectively in the FY 2025-26.

2. Fertilizers Business:

During the FY 2025-26, our Company has achieved total sales of 6.19 Lakh Metric Tonnes of Urea which was 0.23 Lakh MT lower than previous year (i.e. 6.42 Lakh Metric Tonnes). The lower sales in Urea was due to less production during March 2026 due to geo-political reason/limited supply of feed stock. Sales of Nitro phosphate (20-20-0) stood at 1.73 Lakh Metric Tonnes, which was similar with previous year (i.e., 1.73 Lakh Metric Tonnes). During the FY 2025-26, company continued to serve farming community through "Narmada Khedut Sahay Kendras (NKSs)"- COCO model retail outlets by providing required agri-inputs both bulk fertilizers & value added non-bulk products along with advisory services.

During the year, Trading Activities were also continued in Muriate of Potash (MoP), Di-Ammonium Phosphate (DAP), Ammonium Sulphate (AS), Single Super Phosphate (SSP), Fermented Organic Manure (FOM), City Compost etc.

3. (n)Code Solutions – IT Division:

During FY 2025-26, (n)Code Solutions – IT Division continued to deliver a broad spectrum of IT services, including Digital Signature Certificates (DSC), PKI solutions, e-Procurement, e-Governance Solutions and system integration solutions.

The Division recorded a total income of ₹ 95 Crores, reflecting a growth of approximately 19% over ₹ 80 Crores in the previous year. This growth was primarily driven by new project wins in the e-Governance vertical and continued growth in (n)procure services. Profit before Tax (PBT) stood at ₹ 35 Crores, representing an increase of approximately 106% from ₹ 17 Crores in the previous year, attributable to higher revenues while fixed costs remained largely stable.

Key achievements during the year include:

- » (n)Procure services, extended to all Government of Gujarat departments, recorded its ever-highest revenue of ₹ 42 Crores.
- » New project wins in the e-Governance vertical - particularly in the education sector for various GoG departments, covering recruitment processes and allied services - contributed the ever-highest revenue of ₹ 13 Crores.
- » Successful onboarding of MSME Commissioner, Statue of Unity - SOU as a new client.

Going forward, the Division remains focused on expanding its pan-India presence and deepening its footprint in the government and enterprise segments across its product and services portfolio, while continuing to drive digital transformation through advanced and scalable software solutions.

FERTILIZERS INDUSTRY – GOVERNMENT POLICY

Government Policies in respect of fertilizers have remained same during the FY 2025-26. Reasonability of MRPs in fertilizer governed through Nutrient Based Subsidy Policy is continued.

The DoF's initiatives viz. PM-PRANAM-Programme for Restoration, Awareness Generation, Nourishment, and Amelioration of Mother-Earth (for soil health improvement, promoting organic manures and reducing chemical fertilizers) and NAMO DRONE DIDI (bringing technological advancements/improvements in agriculture through women empowerment) have gained momentum during FY 2025-26. Besides, initiatives like ONOF- One Nation One Fertilizer, PMKSK-Pradhan Mantri Kisan Samridhhi Kendra are being strengthened.

Nutrient Based Subsidy (NBS) was announced on six monthly basis during FY 2025-26. For GNFC's Nitro phosphate the NBS Subsidy was ₹17,324 per Metric Tonne in first half and ₹18,196 per Metric Tonne during second half of the year.

26. Overview of the entity's material responsible business conduct issues					
Please indicate material responsible business conduct and sustainability issues pertaining to environmental and social matters that present a risk or an opportunity to your business, rationale for identifying the same, approach to adapt or mitigate the risk along-with its financial implications, as per the following format					
Sr. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
1	Reducing Carbon footprint by using renewable energy	Opportunity	GNFC is progressively enhancing the proportion of renewable energy in its overall energy mix while systematically reducing dependence on conventional fossil-based sources, thereby contributing meaningfully to the reduction of its carbon footprint. This strategic shift not only improves operational efficiency through cost optimisation but also strengthens the Company's positioning as a responsible and sustainability -driven organisation.	-	Positive. The shift towards renewable energy sources enables the Company to optimise energy expenditure over the long term while simultaneously reinforcing investor trust and confidence in its sustainability-driven growth strategy.
2	Climate Change	Risk	The Company is exposed to environmental risks arising from climate change, including challenges such as water scarcity and the increasing frequency of extreme weather events. These factors have the potential to disrupt operations and may adversely affect long-term business continuity and stability.	GNFC is steadily advancing the integration of renewable energy within its operations. Nearly 42% of the plant area has been developed as a green belt, including a dedicated Oxygen Park. Additionally, the Company has been identified as a Designated Consumer (DC) under the Perform, Achieve and Trade (PAT) Scheme, under which multiple energy efficiency and conservation	Negative. . The implications of climate change may result in interruptions to operations and necessitate additional investments in mitigation and resilience -building infrastructure , thereby increasing overall costs.

				initiatives are being implemented. A range of strategic measures has also been adopted to minimise potential operational disruptions.	
3	Water Consumption	Risk	As a producer of fertilizers and chemical products, the Company's operations are inherently water-intensive and depend significantly on the availability of freshwater resources, exposing it to risks such as water scarcity arising from climatic variations, including extreme weather events, as well as reliance on local water sources, which may pose challenges to operational continuity and adversely impact its ability to maintain stable production levels over the long term.	The Company has undertaken initiatives to enhance water sustainability, including the installation of 55 groundwater recharge wells within its green belt to support aquifer replenishment during the monsoon season, along with the development of a concrete reservoir for water storage. It has also established targets aimed at reducing overall water consumption in the forthcoming year.	Negative. Increasing water scarcity may lead to higher operational costs due to greater reliance on alternative water sources.
4	Waste management	Risk	Waste generation exposes the Company to regulatory compliance risks and may contribute to increased operating costs. As a chemical and fertilizer manufacturer, its operations generate hazardous waste that may pose environmental concerns if not managed effectively.	GNFC ensures responsible handling of hazardous waste through systematic collection and storage at designated facilities. Waste management practices are aligned with the requirements of the Consolidated (CC&A) Consent & Authorization issued by the Gujarat Pollution Control Board (GPCB) and comply with the Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016, as amended.	Negative. Failure to comply or inefficiencies in waste management practices may result in regulatory penalties & elevated disposal-related costs.

5	Occupational Health & Safety	Risk	The Company's operations involve inherent occupational health and safety risks, which may expose employees and workers to various workplace hazards.	The Company has established a comprehensive Occupational Health and Safety Management System aimed at preventing workplace incidents and ensuring a safe working environment. This system is continuously strengthened to mitigate and, where possible, eliminate operational risks. For additional details, refer to Principle 3.	Negative. Workplace incidents or lapses in safety measures may result in compensation liabilities and increased insurance-related costs.
6	Protection of employment & labour rights	Risk	The Company is exposed to reputational and regulatory risks arising from any reported instances of non-compliance with ethical labour standards, which may also attract penalties from regulatory authorities.	GNFC has instituted a structured framework of policies and processes focused on employee welfare and fair labour practices. A formal grievance redressal system is in place to facilitate prompt and equitable resolution of concerns, complemented by initiatives such as a digital suggestion platform to encourage employee participation in continuous improvement. Additionally, an established industrial relations mechanism enables workers to channel concerns through recognised union forums. The Company maintains strict adherence to all applicable labour laws and statutory requirements.	Negative. Breaches of labour regulations may lead to statutory sanctions and could adversely affect the Company's reputation and stakeholder confidence.

7	Human rights	Risk	Incidents involving human rights violations may expose the Company to statutory penalties and could adversely affect its reputation.	GNFC has instituted strong governance frameworks and control mechanisms aimed at preventing violations. It has adopted comprehensive corporate policies, including the Whistle-blower Policy, POSH Policy, and Business Responsibility Policy, which guide the implementation of rigorous oversight and vigilance measures to safeguard human rights.	Negative. Any breach of human rights standards may result in regulatory action and could negatively impact the Company's brand and stakeholder perception.
8	Compliance management	Risk	Non-adherence to statutory requirements may expose the Company to financial penalties and could also result in reputational risks.	GNFC has established a structured compliance framework to monitor and ensure adherence to applicable regulatory obligations.	Negative. Any non-compliance may lead to penalties, additional legal expenditures, and potential reputational harm.
9	Business ethics	Risk	Unethical business conduct may adversely impact the Company's reputation and stakeholder perception.	GNFC has instituted key governance frameworks, including the Whistle Blower Policy, POSH Policy, and a formal Code of Conduct, to promote ethical practices across its operations.	Negative. Breaches of ethical standards may result in regulatory action, disruption of business relationships, and a decline in stakeholder trust.
10	Talent attraction, Training and development	Opportunity	To maintain competitiveness and support sustained growth and operational efficiency, GNFC focuses on attracting high-quality talent, continuously enhancing employee capabilities, and fostering strong workforce engagement.	-	Positive. Investment in talent development improves workforce productivity and helps optimise costs associated with employee attrition.
11	Customer Retention	Opportunity	Sustained customer retention enables GNFC to optimise costs related to acquiring new customers, while also strengthening long-term relationships and enhancing brand advocacy.	-	Positive Higher customer retention contributes to consistent revenue streams and lowers customer acquisition costs.

Governance, leadership and oversight		
7	Statement by director responsible for the business responsibility report, highlighting ESG related challenges, targets and achievements (listed entity has flexibility regarding the placement of this disclosure)	<p>GNFC remains committed to conducting its business in a responsible, sustainable, and ethical manner by integrating Environmental, Social, and Governance (ESG) principles into its operations and long-term strategy. As a leading fertilizer and chemicals company, we recognize the growing challenges associated with climate change, resource management, process safety, and evolving stakeholder expectations. Accordingly, we continue to strengthen our approach towards sustainable growth, operational excellence, and long-term resilience.</p> <p>During FY 2025–26, the Company further advanced its sustainability agenda through initiatives focused on renewable energy adoption, energy efficiency enhancement, waste recovery, water conservation, and biodiversity preservation. GNFC continued to strengthen its green belt development programmes, groundwater recharge initiatives, and circular economy practices, including wastewater recycling, reuse of process materials, and responsible waste management.</p>

		<p>Health and safety remained a key priority across all operations. The Company strengthened its Occupational Health and Safety Management System in line with ISO 45001:2018 through regular training programmes, emergency preparedness drills, HAZOP studies, safety audits, and workplace safety initiatives. GNFC also continued to foster a strong safety culture through active employee participation, awareness campaigns, and continuous improvement initiatives across its operational locations.</p> <p>The Company remained committed to upholding high standards of corporate governance, employee welfare, human rights, and stakeholder engagement while ensuring compliance with all applicable regulatory requirements. Through various Corporate Social Responsibility (CSR) initiatives focused on healthcare, education, livelihood enhancement, rural development, and community well-being, GNFC continued to contribute towards inclusive and sustainable socio-economic growth.</p> <p>The Company also demonstrated its commitment towards national priorities and responsible corporate citizenship during the period under review. In the wake of geopolitical disruptions affecting global supply chains, GNFC proactively enhanced production of critical industrial inputs, including Technical Grade Urea (TGU) required for Diesel Exhaust Fluid (DEF) used in BS-VI compliant vehicles and Ammonium Nitrate for the mining sector, thereby supporting uninterrupted operations of key industries and contributing towards national supply security. The Company also implemented process optimization and waste heat recovery initiatives to enhance production efficiencies and improve resource utilization. These efforts reflect GNFC's continued commitment to placing the broader interests of the nation, industry, and society at the forefront while ensuring sustainable and responsible business operations.</p> <p>As we move forward, GNFC will continue to focus on enhancing operational efficiency, strengthening climate resilience, conserving natural resources, and embedding ESG considerations more deeply across its business operations and value chain. This Business Responsibility and Sustainability Report reflects our unwavering commitment to responsible business conduct, transparency, accountability, and sustainable value creation for all stakeholders.</p>

3. Describe the processes in place to safely reclaim your products for reusing, recycling and disposing at the end of life, for:		
(a)	Plastics (including packaging)	GNFC adheres to the Extended Producer Responsibility (EPR) framework prescribed by the Central Pollution Control Board (CPCB) and is registered as both a Brand Owner and an Importer under the Plastic Waste Management Rules, 2016, as amended. The company procures EPR certificate (for both rigid and flexible plastic waste) from registered plastic waste processor for the quantity equivalent to the EPR target given by the CPCB on online EPR portal.
(b)	E-waste	E-waste generated by GNFC is responsibly disposed of through CPCB/SPCB-registered recyclers and dismantlers, in compliance with E-Waste Management Rules-2022 as amended.

(c)	Hazardous waste	<p>1. Landfillable hazardous waste generated by GNFC is responsibly disposed of through GPCB-authorized Common Treatment, Storage, and Disposal Facilities (TSDFs).</p> <p>2. Incinerable hazardous waste generated by GNFC is responsibly disposed of through GPCB-authorized common incineration facilities or through captive incineration units.</p> <p>3. Recyclable hazardous waste generated by GNFC is responsibly disposed of through CPCB/SPCB- registered recyclers for safe and compliant processing.</p> <p>4. Co-processable hazardous waste generated by GNFC is sent to SPCB authorized cement industries, where it is utilized as an alternative fuel, supporting waste-to-energy initiatives.</p>
(d)	other waste.	Other wastes like (insulation waste, FRP waste, Canteen waste etc.) generated by GNFC is disposed of as per the prevailing environment rules.

4	<p>Whether Extended Producer Responsibility (EPR) is applicable to the entity's activities (Yes / No). If yes, whether the waste collection plan is in line with the Extended Producer Responsibility (EPR) plan submitted to Pollution Control Boards? If not, provide steps taken to address the same.</p>	<p>Yes, Extended Producer Responsibility (EPR) is applicable under the Plastic Waste Management Rules, 2016, as amended. GNFC fulfils its EPR obligations by procuring certificates from authorised plastic waste processors, in line with applicable regulatory provisions.</p>

12. Describe the measures taken by the entity to ensure a safe and healthy workplace.

Health and safety are treated as a critical management priority, supported by a strong culture of continual improvement. The site level HSE team provides guidance and support to ensure that health and safety standards are effectively integrated into operational planning, business decisions, and day-to-day activities. GNFC has implemented an Integrated Management System aligned with ISO 45001:2018 and ISO 14001:2015. Site personnel are trained to identify and control operational risks, while regular training sessions, awareness programmes, and inspections are conducted to reinforce safety practices.

To strengthen governance, GNFC has established two safety sub committees, namely the Apex Safety Committee and plant wise Sub Safety Committees, to review and monitor health and safety performance. Periodic internal and external safety audits are conducted, with compliance status regularly tracked. Safety considerations are embedded from the plant design stage, supported by built in safety features and advanced instrumentation systems such as DCS and PLC for process control. Operations are managed by trained and experienced personnel, with systems such as Permit to Work and near miss reporting and investigation firmly in place.

GNFC places strong emphasis on building awareness among employees and stakeholders. Initiatives such as annual health and safety quizzes, reward programmes, and safety skits are organised to promote engagement. Safety awareness is also extended to nearby schools through training sessions. During the National Safety Week 2025 to 2026, several initiatives were undertaken, including:

- 1,739 employees participated in an online safety quiz
- 124 employees, including 12 female employees, and 60 contract workers participated in a breathing apparatus rescue competition
- 170 employees took part in a group safety quiz competition
- 23 employees participated in an elocution competition on safety topics
- 42 employees participated in a skit competition on safety themes
- Safety training and quiz competitions with spot rewards were organised for contract workers
- Training on safe transportation of hazardous chemicals was provided to auto tanker drivers

The Fire & Safety Department also observed National Fire Service Day on 14 April through various awareness programmes. GNFC maintains a well-equipped fire fighting system supported by a trained fire crew and extends emergency response support to the Bharuch Municipality and nearby industrial areas when required.

As part of community outreach, first aid and emergency preparedness training programmes were conducted across multiple schools in Bharuch and Dahej, including Vadadla Primary School, Rahadpor Primary School, Nandelav Primary School, Queens of Angel School in Vadadala, Bholav Primary School, Rahiyad Primary School, and Suva Primary School. Additionally, a first aid firefighting training and safety exhibition was organised for school children during the science fair at NCSC, GNFC Township on 22 December 2025.

During the year, GNFC also responded to twenty-eight external fire and emergency calls from nearby industries and communities, demonstrating its preparedness and commitment to safety beyond its operations.

They are paid sitting fees @ INR 20,000 per meeting attended by them. Workers are engaged through third party contractor.</p> <p>*Employees continued for the entire reporting period have only been considered.</p>				
b. Gross wages paid to females as % of total wages paid by the entity, in the following format:				
	FY 2025-26 (Current Financial Year)		FY 2024-25 (Previous Financial Year)	
Gross wages paid to females as % of total wages	2.70%		2.53%	

4. Do you have a focal point (Individual/ Committee) responsible for addressing human rights impacts or issues caused or contributed to by the business? (Yes/No)

Yes, GNFC has designated an HR Single Point of Contact (SPOC) to oversee and address matters relating to human rights across its operations.

5. Describe the internal mechanisms in place to redress grievances related to human rights issues.

GNFC has established a formal grievance redressal framework, wherein a designated HR Single Point of Contact (SPOC) functions as the Grievance Redressal Officer. Grievances may be raised through multiple channels, including email, verbal communication, or written submissions addressed to HR or the Managing Director. The HR SPOC evaluates the concerns and coordinates with the relevant departments for investigation and appropriate resolution.

An Industrial Relations Committee, comprising 15 members representing both Management and the Staff Union, is responsible for addressing employee-related grievances. For non-permanent workers, concerns are routed through respective contractors, who escalate them to the HR Department for necessary action and resolution.

6. Number of Complaints on the following made by employees and workers:

	FY 2025-26 (Current Financial Year)			FY 2024-25 (Previous Financial Year)		
	Filed during the year	Pending resolution at the end of year	Remarks	Filed during the year	Pending resolution at the end of year	Remarks

Child Labour	0	0	-	0	0	-
Forced Labour/ Involuntary Labour	0	0	-	0	0	-
Wages	0	0	-	0	0	-
Other Human rights related issues	0	0	-	0	0	-

7. Complaints filed under the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013, in the following format:		
	FY 25-26 (Current Financial Year)	FY 24-25 (Previous Financial Year)
Total Complaints reported under Sexual Harassment on of Women at Workplace (Prevention, Prohibition & Redressal) Act, 2013 (POSH)	0	0
Complaints on POSH as a % of female employees / workers	0	0
Complaints on POSH upheld	0	0

8. Mechanisms to prevent adverse consequences to the complainant in discrimination and harassment cases
GNFC has established a “Vigil Mechanism-cum-Whistle Blower Policy” to provide Directors and employees with a formal channel to report concerns relating to unethical practices, suspected fraud, or misconduct. The policy incorporates adequate safeguards to protect individuals from any form of retaliation or victimisation. It is available in the public domain on the Company’s website and can be accessed at: www.gnfc.in/wp-content/uploads/2021/04/Vigill-Mechanism-Cum-Whistle%20Blower-Policy_21102014.pdf

9. Do human rights requirements form part of your business agreements and contracts? (Yes/No)
Yes. GNFC has specific clauses included in the business Agreements and Contracts

10. Assessments for the year:	
	% of your plants and offices that were assessed (by entity or statutory authorities or third parties)
Child labour	100%
Forced/involuntary labour	100%
Sexual harassment	100%
Discrimination at workplace	100%
Wages	100%
Others – please specify	-

11. Provide details of any corrective actions taken or underway to address significant risks / concerns arising from the assessments at Question 10 above.
Nil. There were no incident related to human rights across the operations of GNFC in the reporting period.

Leadership Indicators

1	Details of a business process being modified / introduced as a result of addressing human rights grievances/complaints.	NA
2	Details of the scope and coverage of any Human rights due-diligence conducted.	NA
3	Is the premise/office of the entity accessible to differently abled visitors, as per the requirements of the Rights of Persons with Disabilities Act, 2016?	Yes
4	Details on assessment of value chain partners:	
	% of value chain partners (by value of business done with such partners) that were assessed	
	Sexual Harassment	NA
	Discrimination at workplace	NA
	Child Labour	NA
	Forced Labour/Involuntary Labour	NA
	Wages	NA
	Others – please specify	NA
5	Provide details of any corrective actions taken or underway to address significant risks / concerns arising from the assessments at Question 4 above.	NA

PRINCIPLE 6: Businesses should respect and make efforts to protect and restore the environment

Essential Indicators

1. Details of total energy consumption (in Joules or multiples) and energy intensity, in the following format:		
Parameter	FY 2025-26 (Current Financial Year) (Giga Joules)	FY 2024-25 (Previous Financial Year) (Giga Joules)
From renewable sources		
Total electricity consumption (A)	1,59,606.57	1,54,095.03
Total fuel consumption (B)	0	0
Energy consumption through other sources (C)	0	0
Total energy consumed from renewable sources (A+B+C)	1,59,606.57	1,54,095.03
From non-renewable sources		
Total electricity consumption (D)	7,37,780.14	5,77,417.26
Total fuel consumption (E)	2,00,45,544.10	2,23,91,559.64
Energy consumption through other sources (F)	NIL	NIL
Total energy consumed from non-renewable sources (D+E+F)	2,07,83,324.23	2,29,68,976.90
Total energy consumed (A+B+C+D+E+F)	20,942,930.80	2,31,23,071.93
Energy intensity per rupee of turnover (Total energy consumed/ revenue from operations in millions)	269.43	292.99
Energy intensity per rupee of turnover adjusted for Purchasing Power Parity (PPP) (Total energy consumed / Revenue from operations adjusted for PPP in millions)	5480.24	6053.25*
Energy intensity in terms of physical output	7.20	7.50
Energy intensity (optional)	-	-
Note: * Revenue from operations adjusted for PPP has been revised based on the industry standard.		
Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency		No

2. Does the entity have any sites / facilities identified as designated consumers (DCs) under the Performance, Achieve and Trade (PAT) Scheme of the Government of India? (Y/N) If yes, disclose whether targets set under the PAT scheme have been achieved. In case targets have not been achieved, provide the remedial action taken, if any.
<p>Yes, GNFC has two production facilities designated as Designated Consumers (DCs) under the Government of India's Perform, Achieve and Trade (PAT) Scheme:</p> <ul style="list-style-type: none"> • Urea plant: DC reg. no.: FTZ0006GJ (Sector: Fertilizer Sector). • ANP plant: DC reg. no.: FTZ0032GJ (Sector: Fertilizer Sector, Sub Sector: Complex Fertilizer). <p>During PAT Cycle-I (FY 2012-13 to 2014-15), the Urea plant was the only notified DC. The Company was assigned a Specific Energy Consumption (SEC) target of 0.49 MTOE/MT for FY 2014-15. GNFC surpassed this target by achieving an SEC of 0.436 MTOE/MT. As a result of this overachievement, the Company was awarded 33,557 Energy Saving Certificates (ESCCerts), which were subsequently banked with the Registry.</p> <p>In PAT Cycle-II (FY 2016-17 to 2018-19), both the Urea and ANP plants were notified as DCs under the Fertilizer sector. The SEC targets assigned were as follows:</p> <ul style="list-style-type: none"> • Urea: 0.3907 MTOE/MT • ANP: 0.2817 MTOE/MT • While these targets were not fully achieved, GNFC complied with the regulatory requirements by procuring the necessary ESCerts as directed by the Bureau of Energy Efficiency (BEE). For the Urea plant, the requirement of 8,668 ESCerts was addressed through the utilisation of surplus ESCerts available with the Company (24,889 ESCerts). For the ANP plant, the obligated purchase of 10,464 ESCerts was completed during the trading session on 14th February 2023.

During the PAT-II trading period (14th February 2023 to 31st October 2023), GNFC also sold 8,918 ESCerts from the surplus available for the Urea plant. Subsequently, PAT-III trading sessions commenced on 19th March 2024 and were suspended after 2nd July 2024, during which 628 ESCerts of the Urea plant weretraded. GNFC continues to hold a balance of 15,343 ESCerts with perpetual validity.

For the subsequent PAT cycles, fertilizer sector units, including Urea and Complex Fertilizer plants, have been exempted from target setting by BEE up to FY 2025–26, based on sectoral recommendations. Accordingly, no fresh energy saving targets or ESCerts have been prescribed for this period. GNFC continues to track regulatory developments, including the proposed transition from the PAT mechanism to the Carbon Credit Trading Scheme (CCTS), for which baseline audit activities for the Urea plant have already been completed and the final report is awaited.

3. Provide details of the following disclosures related to water, in the following format:

Note: * Revenue from operations adjusted for PPP has been revised based on the industry standard.			

8. Does the entity have any project related to reducing Green House Gas emission? If Yes, then provide details.

Yes, Gujarat Narmada Valley Fertilizers & Chemicals Limited (GNFC) has undertaken multiple initiatives to reduce greenhouse gas (GHG) emissions through renewable energy adoption, energy efficiency enhancement, and process optimisation measures. The Company has invested in renewable energy infrastructure, including installation of solar power systems at corporate facilities and a large-scale solar plant, along with utilisation of wind power across multiple operational locations to support cleaner energy consumption.

GNFC has also implemented several energy conservation initiatives, including replacement of conventional lighting with energy efficient LED fixtures across plant and township areas, resulting in reduced electricity consumption. Further, process and equipment optimisation measures such as pump impeller trimming, utilisation of high-pressure natural gas in process feed systems, waste heat recovery, and optimisation of utility systems including air compressors and vacuum pumps have contributed towards improved operational efficiency and reduced fuel and energy consumption.

Through continuous technology upgradation, renewable energy integration, and operational efficiency improvements, GNFC remains focused on reducing its carbon footprint and strengthening its commitment towards environmental sustainability and climate action.

9. Provide details related to waste management by the entity, in the following format:

10. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes

Hazardous waste generated at GNFC is systematically collected and stored at designated facilities earmarked for such materials. Its handling and disposal are undertaken in accordance with the Consolidated Consent & Authorization (CC&A) issued by the Gujarat Pollution Control Board (GPCB) and in compliance with the Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016, as amended.

11. If the entity has operations/offices in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.) where environmental approvals / clearances are required, please specify details in the following format:

S. No	Location of operations/offices	Type of operations	Whether the conditions of environmental approval / clearance are being complied with? (Y/N) If no, the reasons thereof and corrective action taken, if any
GNFC's operational facilities at Bharuch and Dahej are situated within designated industrial zones, with the Dahej site located in a notified Petroleum, Chemicals and Petrochemicals Investment Region (PCPIR). None of the Company's sites or offices are located within or in proximity to environmentally sensitive areas such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forest regions, or coastal regulation zones.			

12. Details of environmental impact assessments of projects undertaken by the entity based on applicable laws, in the current financial year:					
Name and brief details of project	EIA Notification No.	Date	Whether conducted by independent external agency (Yes / No)	Results communicated in public domain (Yes / No)	Relevant Web link
NIL					
13	S. No	Specify the law / regulation / guidelines which was not complied with	Provide details of the noncompliance	Any fines / penalties / action taken by regulatory agencies such as pollution control boards or by courts	Corrective action taken, if any
	GNFC maintains full compliance with the provisions of the Water (Prevention and Control of Pollution) Act, the Air (Prevention and Control of Pollution) Act, and the Environment (Protection) Act, along with the applicable rules and regulations. No fines or penalties were levied by regulatory authorities during the reporting period.				

Leadership Indicators

1	Water withdrawal, consumption and discharge in areas of water stress (in kilolitres):		
	For each facility / plant located in areas of water stress, provide the following information:

3	With respect to the ecologically sensitive areas reported at Question 11 of Essential Indicators above, provide details of significant direct & indirect impact of the entity on biodiversity in such areas along-with prevention and remediation activities.		GNFC's operations are not situated within or in proximity to ecologically sensitive areas such as national parks, wildlife sanctuaries, or coastal regulation zones. Accordingly, the Company does not have any significant direct or indirect impact on biodiversity in such regions, and no specific mitigation or restoration measures are necessitated. The Company continues to ensure adherence to applicable environmental regulations and remains committed to conducting its operations in a sustainable and responsible manner.	
4	If the entity has undertaken any specific initiatives or used innovative technology or solutions to improve resource efficiency, or reduce impact due to emissions / effluent discharge / waste generated, please provide details of the same as well as outcome of such initiatives, as per the following format:			
	S. No	Initiative undertaken	Details of the initiative (Web-link, if any, may be provided along-with summary)	Outcome of the initiative
	1	Amine wastewater treatment at GNFC-Dahej Unit in place of incineration at GNFC, Bharuch	-	Reduction in emission & fuel consumption in TDI incinerators
	2	Recycling of yellow wastewater	-	Reduction in emission, fuel consumption in TDI incinerators and reduction in hazardouswastegeneration

	3	Re-use of spent caustic at both Bharuch and Dahej unit	-	Reduction in emission, fuel consumption in TDI incinerators and reduction in hazardous waste generation
	4	Recycling of treated ANP discontinuous effluent	-	Resource recovery
	5	TDI Tar co-processing at cement industries	-	Equivalent quantity of coal consumption is reduced at cement industries
	6	Recycling of NETP chemical & biological sludge at mix fertilizer units	-	Resource recovery
5. Does the entity have a business continuity and disaster management plan? Give details in 100 words/ web link.				
<p>The Company has a comprehensive Emergency Preparedness Plan in place to effectively respond to unforeseen disruptions. Periodic Disaster Recovery (DR) drills are conducted to assess and enhance the readiness of systems and personnel. Business Continuity Plans (BCP) have been developed to ensure a structured and swift recovery from disruptions in production activities, particularly across manufacturing units.</p> <ul style="list-style-type: none"> • The key objectives of the BCP for Manufacturing Plants include: • Identifying potential threats that could disrupt business operations; • Establishing pre-emptive arrangements and procedures for effective emergency response; • Ensuring continuity of critical business functions during disruptions; • Minimizing employee injuries or loss of life and reducing operational losses; • Safeguarding essential facilities, equipment, vital records, and critical assets; • Defining roles and responsibilities of crisis response teams for coordinated action; • Facilitating timely and effective decision-making for operational restoration; • Identifying alternative actions to mitigate the impact of crises and reduce response time; • Assessing the impact of disruptive events in terms of cost, time, business continuity, and workforce implications; • Ensuring rapid recovery and resumption of full-scale manufacturing operations. 				
6	Disclose any significant adverse impact to the environment, arising from the value chain of the entity. What mitigation or adaptation measures have been taken by the entity in this regard			No significant impact
7	Percentage of value chain partners (by value of business done with such partners) that were assessed for environmental impacts.			-
8	How many Green Credits have been generated or procured:			
	a. By the listed entity	As per the Green Credit Rules, 2023, participation in the Green Credit Programme is voluntary in nature. GNFC has not participated in the programme as of the reporting period.		
	b. By the top ten (in terms of value of purchases and sales, respectively) value chain partners	NIL		

PRINCIPLE 7: Businesses, when engaging in influencing public and regulatory policy, should do so in a manner that is responsible and transparent

Essential Indicators

1	a. Number of affiliations with trade and industry chambers/ associations.		10
	b. List the top 10 trade and industry chambers/ associations (determined based on the total members of such body) the entity is a member of/ affiliated to.		
	S. No	Name of the trade and industry chambers/ associations	Reach of trade and industry chambers/ associations (State / National)

1	Advocacy for reasonable statutory and regulatory enactments that affect the company.	Usually through industry-related trade associations to which the company belongs.	-	As needed	-
2	Use of drone in agriculture	Through Industry bodies	-	As needed	-
3	Safe use of Agrochemicals by Farmers	Through Industry bodies	-	As needed	-

PRINCIPLE 8: Businesses should promote inclusive growth and equitable development

Essential Indicators

1. Details of Social Impact Assessments (SIA) of projects undertaken by the entity based on applicable laws, in the current financial year.					
Name and brief details of project	SIA Notification No.	Date of notification	Whether conducted by independent external agency (Yes / No)	Results communicated in public domain (Yes / No)	Relevant Web link
Not applicable because no requirement for Social Impact assessment during the FY 2025-26.					

2. Provide information on project(s) for which ongoing Rehabilitation and Resettlement (R&R) is being undertaken by your entity, in the following format:						
S. No	Name of Project for which R&R is ongoing	State	District	No. of Project Affected Families (PAFs)	% of PAFs covered by R&R	Amounts paid to PAFs in the FY (In INR)
Not applicable since CSR Projects are not in aspirational districts identified by Government Authority.						

3. Describe the mechanisms to receive and redress grievances of the community.
<p>GNFC has established a structured grievance redressal framework, with a designated HR Single Point of Contact (SPOC) acting as the Grievance Redressal Officer. Employees may raise concerns through multiple channels, including email, verbal communication, or written submissions addressed to the HR Department or the Managing Director. The HR SPOC reviews the grievances and coordinates with the concerned departments for investigation, resolution, and feedback.</p> <p>In addition, an Industrial Relations Committee has been constituted to address employee grievances. The Committee comprises fifteen members representing both Management and the Staff Union, ensuring a balanced and collaborative approach to grievance resolution.</p>

4. Percentage of input material (inputs to total inputs by value) sourced from suppliers:		
Parameter	FY 2025-26 (Current Financial Year)	FY 2024-25 (Previous Financial Year)
Directly sourced from MSMEs/ small producers	4.46%	4.89%
Directly sourced within India	86.31%	70.14%

5. Job creation in smaller towns – Disclose wages paid to persons employed (including employees or workers employed on a permanent or non-permanent / on contract basis) in the following locations, as % of total wage cost		
Location	FY 2025-26 (Current Financial Year)	FY 2024-25 (Previous Financial Year)
Rural	12.50	12.32
Semi-urban	82.20	81.83

PRINCIPLE 9: Businesses should engage with and provide value to their consumers in a responsible manner

Essential Indicators

1. Describe the mechanisms in place to receive and respond to consumer complaints and feedback.

GNFC has established a comprehensive framework for addressing consumer complaints. An online feedback form is available on the Company's website at <https://www.gnfc.in/contact-us/>

Customers may also raise product-related concerns through multiple channels, including email to the respective Head of Department (HOD) or customer care, telephonic communication via the customer care number printed on fertilizer bags, and in-person visits to Narmada Khedut Sahay Kendra (NKS) retail outlets. Details of NKS locations are available at <https://www.gnfc.in/narmada-khedut-sahay-kendra/> and GNFC office locations at <https://www.gnfc.in/divisions/gnfc-area-offices/>

Farmers may also approach regional offices, area offices, or retail outlets, where complaint registers are maintained for systematic recording and resolution of grievances. In addition, feedback forms are shared with major consumers and dealers to gather insights and facilitate continuous improvement of the grievance redressal mechanism.

2. Turnover of products and/ services as a percentage of turnover from all products/service that carry information about:

	As a percentage to total turnover
Environmental and social parameters relevant to the product	100%
Safe and responsible usage	100%
Recycling and/or safe disposal	100%

3. Number of consumer complaints in respect of the following:

	Number	Reasons for recall
Voluntary recalls	NIL	NA
Forced recalls	NIL	NA

5. Does the entity have a framework/ policy on cyber security and risks related to data privacy? (Yes/No) If available, provide a web-link of the policy.

Yes, GNFC's cybersecurity framework is guided by its "Information Security Policy," which is implemented to ensure compliance with applicable regulations, address key risk exposures, and meet evolving customer expectations. The policy is available in the public domain on the Company's website at the following link:
<https://www.ncodesolutions.com/company-policy.php>

6. Provide details of any corrective actions taken or underway on issues relating to advertising, and delivery of essential services; cyber security and data privacy of customers; re-occurrence of instances of product recalls; penalty / action taken by regulatory authorities on safety of products / services

NA

7. Provide the following information relating to data breaches:

a. Number of instances of data breaches	NIL
b. Percentage of data breaches involving personally identifiable information of customers	NA
c. Impact, if any, of the data breaches	NA

Leadership Indicators

1	Channels / Platforms where information on products and services of the entity can be accessed (provide web link, if available).	Information on GNFC's products and services is available on the Company's official websites: www.gnfc.in & www.gnfcneoneem.in The customers can reach out to the Company through - www.gnfc.in/contact-us
2	Steps taken to inform and educate consumers about safe and responsible usage of products and/or services.	GNFC undertakes various initiatives to inform and educate consumers on the safe and responsible use of its products. This includes direct engagement with farmers through fieldlevel interactions and on-site demonstrations to promote correct usage practices. The Company also disseminates product information and safety guidelines through e-bulletins, participation in agricultural fairs, and exhibitions. In addition, Safety Data Sheets (SDS) are provided to customers to ensure safe handling, storage, and usage of products.
3	Mechanisms in place to inform consumers of any risk of disruption/discontinuation of essential services	In case of disruption or discontinuation of essential services, GNFC informs customers through periodic engagement forums and meetings, ensuring timely communication.
4	Does the entity display product information on the product over and above what is mandated as per local laws? (Yes/No/Not Applicable) If yes, provide details in brief. Did your entity carry out any survey with regard to consumer satisfaction relating to the major products / services of the entity, significant locations of operation of the entity or the entity as a whole? (Yes/No)	All GNFC products are approved in compliance with the provisions of the Fertilizer Control Order and requisite product information is clearly displayed on the packaging in accordance with regulatory requirements. In addition, customer satisfaction surveys are conducted annually in alignment with ISO standards to evaluate and improve service quality.

ANNEXURE – C**ENERGY CONSERVATION, TECHNOLOGY ABSORPTION AND FOREIGN EXCHANGE EARNINGS
AND OUTGO FOR FINANCIAL YEAR 2025-2026**

[Pursuant to Section 134(3)(m) of The Companies Act, 2013 read with Rule 8(3) of The Companies (Accounts) Rules, 2014]

(A) CONSERVATION OF ENERGY**(i) Steps taken or impact on Conservation of Energy:**

Company framed its energy policy in February, 2005 in accordance with Energy Conservation Act (EC Act 2001) & the same is in force.

The Company complies the regulation formed by Bureau of Energy Efficiency (BEE), Min. of Power under Perform Achieve Trade (PAT) mechanism.

The Company has acquired ISO-50001 (Energy Management System) certification for Bharuch unit in May 2021 and for Dahej unit in December 2019.

Details of various Energy Saving Measures / Schemes implemented during the year 2025-26 are as given below:

a) Township Admin Office:

- » In the specific areas of the Township, total 458 nos. of old conventional light fixtures were replaced with energy efficient LED fixtures. The total investment cost for the same is ₹ 2.56 Lakh. By this measure, estimated power saving of 7,982 kWh was achieved in the last FY 2025-26.
- » In the gymnasium at S&R club, 14 nos. of old split AC units (2 TR capacity each) were replaced by a common energy efficient VRF/VRV-based HVAC system (24 HP/20 TR capacity). Total investment cost for VRF/VRV based HVAC system is ₹ 10.97 Lakh. By this measure, estimated power saving of 27,095 kWh was achieved in the last FY 2025-26.

b) Electrical System, Bharuch:

- » In various plant areas, total 1281 nos. old conventional light fittings were replaced with energy efficient LED fixtures. Total investment cost was ₹ 45.8 Lakh. By this measure, total 2,12,589 kWh of energy saving is achieved in the last FY 2025-26.
- » By improving Power Factor, GNFC received power factor rebate of ₹ 162 Lakh in the last FY 2025-26.

c) Electrical System, Dahej:

- » By improving Power Factor, GNFC received power factor rebate of ₹ 103 Lakh in the last FY 2025-26.

d) ASGP Plant:

- » Process condensate heat which being lost in cooling water is partially recovered by preheating NG. By this measure, NG saving of 75 sm³/hr and HP steam saving of 73 kg/hr is estimated. Estimated cost of the scheme is ₹ 67 Lakh.
- » Reduction in Radiation Losses by providing Thermal Insulation to uninsulated/damaged portions in the Reformer for reduction in Heat losses. By this measure, around 1.1 lakh sm³ per year NG saving is anticipated.

- » Primary Reformer WHR coils were cleaned by dry ice blasting during annual shutdown. This measure will reduce consumption of NG. Total cost for the job is around ₹ 4.5 Lakh.
- e) **Urea plant:**
 - » Installation of condensate pump with optimized head and capacity. Estimated power saving is 25.4 kW. Total cost of the scheme is ₹ 40.8 Lakh.
- f) **Boilers:**
 - » Reduction in Radiation Losses by providing Thermal Insulation to uninsulated/damaged portions in the Boilers for reduction in Heat losses. By this measure, around 26.6 Tons per year Coal saving is anticipated.

Energy Saving Measures under implementation or planned for implementation:

- a) **Electrical System, Bharuch:**
 - » Total power saving of 2,93,664 kWh has been planned by replacing old conventional light fittings with energy efficient LED fittings (total 1538 nos.). The estimated cost would be ₹ 46.8 Lakh.
- b) **ASGP:**
 - » Replacing Syn gas by H₂ rich feed gas of PSA in Reformer Feed. The scheme is under execution stage. Yearly estimated energy saving will be around 6673.7 Gcal.
- c) **Urea Plant:**
 - » Conversion of Main Ammonia feed pump (P-1A/B/C) Torque Converter to Variable Frequency Drive (VFD). Estimated power saving is 150 kW. Estimated cost of the Scheme is ₹ 1037 Lakh.
 - » Installation of high efficiency Hydrolyzer Feed Pump by replacing existing old pump-motor set. This scheme is having power saving potential of 30 KW.
- d) **CNA-III Plant:**
 - » Replacement of existing Cooling Water pumps by new energy efficient lower head pumps. This scheme is having power saving potential up to 5,87,395 KWH per year.
- e) **Ammonia Plant:**
 - » Replacement of existing Naptha pump by new energy efficient lower head pump. This scheme is having power saving potential up to 2,03,291 KWH per year.
 - » Replacement of existing Cooling Water pump for air pre-cooling tower by new energy efficient lower head pump. This scheme is having power saving potential up to 1,37,157 KWH per annum. Estimated cost of the scheme is ₹ 24.8 Lakh.
- f) **TDI-II Wet section, Dahej:**
 - » Preheating of Dehydration Column Feed against waste heat in MTD plant. Estimated saving in steam is 0.385 MT/hr. The scheme is under implementation. Estimated cost of the scheme is ₹ 159 Lakh.
 - » Installation of new pump with lower head in MTD Hydrogenator Loop Water. Estimated saving in power is around 320 MWH per year. The scheme is under implementation. Estimated cost of the scheme is ₹ 76.10 Lakh.

g) TDI-II Dry Section, Dahej:

- » Application of once through ODCB in vacuum pumps. By this measure, overall reliability of plant will improve and estimated steam saving of 0.955 MT/hr will be achieved. The scheme is under implementation. Estimated cost of the scheme is ₹ 365 Lakh.

h) Overall Steam Trap Survey is conducted by third party in all the plant at Bharuch unit for finding out non-performing traps and reducing the steam consumption by replacing them. By this measure, significant amount of HP Steam saving is anticipated.

(ii) The steps taken by the Company for utilizing alternate sources of energy:

- » Solar Photo Voltaic power generation systems have been installed at Corporate Building, School building and Guest house building having total capacity of 300 kW. 10 MW solar plant is installed at village Charanka which was commissioned on 17/11/2020. In addition to this, 4 MW Solar Project is installed at village Charanka and commissioned on 05/06/2024, its power is being utilized at TDI-II Dahej unit.
- » In all around 1,05,97,396 KWH of power was generated from solar plants during the last year.
- » Total installed capacity of Wind Power Turbo Generators (installed at Lathedi and Shikarpur sites in Kutch) is 21 MW. During the last year, around 2,40,01,127 KWH of power was generated from Wind Mills.
- » In 2025-26, Solar RE is also purchased through PPA with third party. Total 1,61,88,895 KWH RE power is purchased through this agreement.

(iii) Capital investment on Energy Conservation Equipment / Measures:

- » The company has made total capital investment of around ₹ 171.6 Lakh on energy conservation measures in FY 2025-26.

(B) Technology Absorption:

(i) Efforts in brief, made towards technology absorption:

- » Implementation of various reliably, safety and energy saving schemes carried out in plants for safe and reliable operations, improving machine / equipment performance and energy saving.
- » We interact with know how supplier/consultant for solving plant problems, and reliability to sustain productivity and improving plant performance.

(ii) The benefits derived like product improvement, cost reduction, product development or import substitution:

- » Import substitution: Potassium Methoxide is catalyst used in the Formic Acid plant for the synthesis of Methyl Formate, which is an intermediate in the production of Formic Acid. Catalyst was being sourced through imports. Since Jan-2025, the entire requirement of Potassium Methoxide is being met through indigenous source. With this transition, a cost saving of around ₹ 2.4 crores per year has been achieved.

(iii) In case of imported technology (Imported during the last three years reckoned from the beginning of the financial year):

NIL

RESEARCH & DEVELOPMENT:

1) Specific R&D Assignments and Benefits:

Research was carried out in areas of Development of Catalysts for In-house captive use, Value added products from by-products, etc.

- (i) During the year, R&D team focused on Indigenous resource development by validating Indian column packing materials used in Distillation Column of Formic Acid plant as high quality alternatives to imported counterparts. Through comprehensive testing at our R&D facility, we have established performance equivalency. This initiative has led to effective technology absorption, strengthening our domestic sourcing capabilities and supporting our commitment to **"Make in India"** and import substitution goals.
- (ii) Successfully developed and validated a high-efficiency biocide targeting sulfur bacteria. The project progressed from laboratory formulation to a successful 200 kg plant trial.

2) Benefits derived as a result of R&D:

- (i) Commercialization of R&D product on large scale.
- (ii) Strategic Import Substitution:

Potassium Methoxide Catalyst: Successfully transitioned to an Indian manufactured catalyst with plant data confirming performance purity with imported benchmarks.

This Initiatives significantly reduce supply chain risks and optimize operational costs while supporting the **"Make in India"** Initiative

- (iii) Recycling, Green Chemistry and Environment improvement benefits.

3) Future Plans of Action:

- (i) To scale up Process catalysts for captive use.
- (ii) To take up Value added products development from Fly ash.
- (iii) To provide technical services to Customers and Process Plants.

4) Expenditure on Research and Development:

DIVIDEND DISTRIBUTION POLICY

INTRODUCTION

As per Regulation 43A of Securities & Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 (as amended), prescribed listed companies based on market capitalization, to formulate a 'Dividend Distribution Policy', which shall be disclosed on the website of the listed entity and a web-link to be provided in the Annual Report.

OBJECTIVE AND SCOPE

The intent of the policy is to broadly specify the internal and external factors, including financial parameters that shall be considered while recommending the dividend and the circumstances under which the shareholders of the Company may or may not expect dividend, etc.

DEFINITIONS

In the Policy, unless the context otherwise requires:

"Act" shall mean the Companies Act, 2013 and the Rules framed thereunder, including any modifications, amendments, clarifications, circulars or re-enactment thereof.

"Applicable Laws" shall mean the Companies Act, 2013 and the rules made thereunder, the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015; as amended from time to time and such other act, rules or regulations which provides for the distribution of Dividend.

"Board" or "Board of Directors" means the collective body of the Directors of the Company.

"Company" means Gujarat Narmada Valley Fertilizers & Chemicals Limited.

"Dividend" means dividend on equity shares of the Company and includes interim dividend.

"Listing Regulations" means Securities and Exchange Board of India (Listing Obligation and Disclosure Requirements) Regulations, 2015 as amended from time to time or any reenactment thereof.

"Policy" means this Dividend Distribution Policy of the Company.

All the words and expression used in this Policy, unless defined in the Policy, shall have the same meaning respectively assigned to them under the Applicable Laws.

EFFECTIVE DATE AND APPLICABILITY

This Policy shall be effective from the date of its adoption by the Board.

The Policy shall not be applicable in the following circumstances:

- » Determination and declaring dividend on preference shares, if any;
- » Distribution of dividend in kind, i.e. by issue of fully or partly paid bonus shares or other securities, subject to applicable laws;
- » Any distribution of cash as an alternative to payment of dividend by way of buyback of equity shares.

STATUTORY REQUIREMENTS

The Board of Directors shall recommend the dividend as per the Policy, in compliance with the provisions of the Companies Act, 2013, Rules made thereunder and other applicable laws, if any.

Further, the Board of Directors of the Company will consider the recommendation of dividend for any financial year after taking into account the Profits of the Company and after transfer of such percentage of its profits for that financial year as it may consider appropriate to the reserves of the Company.

The Board of Directors may declare interim dividend, subject to the provisions of the Companies Act, 2013 and the Rules made thereunder, during any financial year, out of the surplus in the profit and loss account and out of profits of the financial year, in which such interim dividend is sought to be declared.

FINANCIAL PARAMETERS / INTERNAL AND EXTERNAL FACTORS FOR DECLARATION OF DIVIDEND

The decision of dividend payout or retention of profits by the Board shall, inter-alia, depend, including but not limited to the following financial parameters / internal and external factors:

Financial Parameters:

- i) Quantum of anticipated capital expenditure;
- ii) Magnitude of realized profits;
- iii) Operating cash flow and liquidity;
- iv) Investment opportunities;
- v) Capacity to service interest / principal (borrowings);
- vi) Cost of borrowings vis-à-vis cost of capital;
- vii) Sales volume;
- viii) Anticipated expenses;
- ix) Financial ratios (e.g. EPS-post dividend), etc.

Internal & External Factors:

- i) Cash flow position of the Company;
- ii) Stability of earnings;
- iii) Cost of borrowings;
- iv) Number of shareholders;
- v) Future growth plans / strategies / capital expenditure, etc;
- vi) Past dividend trends;
- vii) Over-all economic / regulatory environment including tax laws;
- viii) Macro-economic conditions / Industry outlook and stage of business cycle for underlined business;
- ix) Dividend payout ratios of companies in same industries;
- x) Government Guidelines;
- xi) As may be directed by the Promoter(s) of the Company from time to time;
- xii) Any other contingency plans.

CIRCUMSTANCES UNDER WHICH THE SHAREHOLDERS MAY OR MAY NOT EXPECT DIVIDEND

The shareholders of the Company may not expect dividend under the following circumstances:

- i) Inadequacy of profits or losses – If during any financial year, the Board determines that the profits of the Company are inadequate or the Company has incurred losses, the Board may decide not to declare dividends for that financial year;

- ii) Any other circumstances / factors which the Board may consider appropriate in the best interest of the Company and the shareholders.

MANNER OF UTILIZATION OF RETAINED EARNINGS

The Board may retain its earnings in order to make better use of available funds and increase the value of stakeholders in the long run. The decision of utilization of retained earnings of the Company shall be mainly based on the following factors:

- » Strategic and long term plans;
- » Diversification & expansion opportunities;
- » Revamp of ageing plants and for achieving better energy efficiency;
- » Non-fund based need of the Company, its Subsidiary and Joint Ventures which may require to have healthy consolidated balance sheet;
- » Any other criteria which the Board may consider appropriate.

PARAMETERS TO BE ADOPTED WITH REGARD TO VARIOUS CLASSES OF SHARES

The Company has presently issued only one class of shares i.e. Equity Shares with equal voting rights. The Policy shall be suitably revisited at the time of issue of any new class of shares, subject to the provisions of the Companies Act, 2013 and other applicable laws prevailing from time to time.

AMENDMENT IN POLICY

The Board of the Company shall have the authority to amend or modify this Policy to align with any amendments made to the Act and rules made thereunder or Listing Regulations or applicable Accounting Standards or such other circulars, SOP, guidelines or regulations issued by SEBI or any other statutory authority.

In the event of any subsequent amendment / modification in the Listing Regulations, Act and/or applicable laws then this Policy shall stand modified to the extent applicable.

In the event of inconsistency of this Policy with any statutory provisions, then the relevant provisions of such applicable law shall prevail upon the provisions of this Policy.

CAUTIONARY STATEMENT

The Policy reflects the intent of the Company to reward its shareholders by sharing a portion of its profits after retaining sufficient funds for growth of the company. The Company shall pursue this Policy to pay dividend, subject to the circumstances and factors enlisted here-in-above, which shall be consistent with the performance of the Company over the years.

The Directors so appointed are drawn from diverse backgrounds and possess special skills with regard to the industries / fields from where they come.

BOARD PROCEDURE

The Company Secretary tracks and monitors the Board and its Committees proceedings to ensure that decisions are

properly recorded in the minutes and follow up actions on the decisions are tracked and properly implemented. The terms of reference/charters are amended and updated from time to time in order to keep the functions and role of the Board and its Committees at par with the evolving statutes. Meeting effectiveness is ensured through a detailed agenda, circulation of materials in advance and as per statutory timelines, detailed presentations at the Meetings and systematic tracking of action taken reports at every Meeting. Additionally, based on the agenda, Meetings are attended by Members of the senior leadership as invitees, which bring in the requisite accountability and also provide developmental inputs.

The Board plays a critical role in the strategy development of the Company. To enable the Board to discharge its responsibilities effectively and take informed decisions, the Managing Director apprises the Board on the overall performance of the Company every quarter. Amongst other things, the Board also reviews the compliance reports of the laws applicable to the Company, internal financial controls and financial reporting systems, adoption of quarterly/half-yearly/annual results, and minutes of the Meetings of the Committees of the Board. In addition to the information required under Regulation 17(7) read with Part A of Schedule II to the SEBI Listing Regulations, which is required to be placed before the Board, the Directors are also kept informed of significant developments and major events.

This holistic framework ensures that the Board remains proactive, transparent, and effective in steering the Company toward its long term objectives. It reinforces the Board's ability to anticipate challenges, uphold accountability, and provide strategic direction that safeguards stakeholder interests.

INDEPENDENT DIRECTORS

Independent Directors play a pivotal role in reinforcing corporate governance by providing oversight on internal controls, financial reporting, and risk management. Their independent judgment and strategic counsel enhance transparency and accountability, thereby contributing to the Company's long-term value creation and sustainability. By bringing an objective perspective to Board deliberations, they help balance economic, individual, and social interests, ensuring that business decisions are aligned with ethical standards and stakeholder expectations.

As on date, the Company has five (5) Non-Executive Independent Directors, constituting half of the total Board strength. Their appointments are in accordance with the provisions of the Companies Act, 2013, and the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

The Nomination and Remuneration Committee (NRC) plays a key role in identifying suitable candidates for appointment as Independent Directors. This is done through a well-defined process that considers criteria such as integrity, expertise, experience, and board diversity in terms of skills and backgrounds. Based on its assessment, the NRC recommends the candidates to the Board for approval.

CONFIRMATION OF INDEPENDENCE

The Company has received a declaration from the Independent Directors confirming that they meet the criteria of independence as prescribed under Section 149(6) of the Act read with Regulation 16(1)(b) of the SEBI Listing Regulations. In terms of Regulation 25(8) of the SEBI Listing Regulations, the Independent Directors have confirmed that they are not aware of any circumstances or situations which exist or may be reasonably anticipated that could impair or impact their ability to discharge their duties.

In the opinion of the Board, the Independent Directors fulfil the conditions of independence specified in the Act and the SEBI Listing Regulations and are independent of the Management.

Further, the Independent Directors have in terms of Section 150 of the Act read with Rule 6 of the Companies (Appointment & Qualification of Directors) Rules, 2014, as amended, confirmed that they have enrolled themselves in the Independent Directors' Databank maintained with the Indian Institute of Corporate Affairs ('IICA').

MEETING OF INDEPENDENT DIRECTORS

During the year under review, one (1) Meeting of the Independent Directors of the Company was held on March 03, 2026, as required under Schedule IV to the Act ('Code for Independent Directors') and Regulation 25(3) of the SEBI Listing Regulations. CUSTODIAL FEES TO DEPOSITORIES

The Company has already paid Custodial Fees to National Securities Depository Limited (NSDL), and Central Depository Services (India) Limited (CDSL), for the FY 2026-27.

INVESTORS' SERVICES

The Company has appointed "M/s. KFin Technologies Limited", Hyderabad (SEBI Registration No. INR000000221) as its Registrar and Share Transfer Agent (RTA) for both the forms of Registry viz. Physical as well as Electronic Connectivity.

SHARE TRANSFER SYSTEM

All communications regarding share certificates, change of address, dividends, etc. should be addressed to the RTA.

According to the amended SEBI Listing Regulations, no shares can be transferred unless they are held in dematerialised mode. Members holding shares in physical form are therefore requested to convert their holdings into dematerialized mode to avoid loss of shares and fraudulent transactions and avail better investor servicing. Accordingly, only valid transmission or transposition cases may be processed by the RTA of the Company, subject to compliance with the guidelines prescribed by SEBI.

KFin Technologies Limited is the common Share Transfer Agent for both physical and dematerialised mode. Transfer of shares in electronic form were processed and approved by NSDL and CDSL through their Depository Participant without the involvement of the Company.

The SEBI vide its Notification No. SEBI/LAD-NRO/GN/2018/24 dated June 08, 2018 and No. SEBI/LAD-NRO/GN/2018/49 dated November 30, 2018, has mandated that effective from April 01, 2019, transfer of securities would be carried out only in dematerialised form. Further, with effect from January 24, 2022, the SEBI has made it mandatory for listed companies to issue securities in Demat mode only while processing any investor service requests viz. issue of duplicate share certificates, exchange/sub-division/ splitting/consolidation of securities, transmission/transposition of securities.

Pursuant to SEBI Circular No. HO/38/13/(3)2026 MIRSD POD/I/3763/2026 dated January 30, 2026, the requirement for issuance of a Letter of Confirmation (LOC) in lieu of physical share certificates has been dispensed effective April 02, 2026. Further, SEBI has now mandated to effect direct credit of securities into the dematerialisation account of the investor/ claimant within 30 days of receipt of such request after removing objections. Any LOC issued prior to April 02, 2026, may be submitted by the investors to Depository Participant for dematerialisation within the specified timeline i.e. 120 days from the date of issuance of such LOC.

SPECIAL WINDOW FOR RE-LODGE MENT OF TRANSFER REQUESTS OF PHYSICAL SHARES:

SEBI Circular No. SEBI/HO/MIRSD/MIRSD-PoD/P/CIR/2025/97 dated July 02, 2025, SEBI had opened a special window for re-lodgement of transfer deeds of physical securities.

Further, with a view to facilitate investors, SEBI, vide Circular No. HO/38/13/11(2)2026-MIRSD-POD/I/3750/2026 dated January 30, 2026, has decided to open another special window, for a period of one year, from February 05, 2026 to February 04, 2027, for transfer and dematerialization of physical securities which were sold or purchased prior to April 01, 2019. Securities will be credited only in demat form and will be subject to a one-year lock-in, during which they cannot be transferred, pledged, or encumbered.

The detailed process and Circular is available on the website of the Company at <https://www.gnfc.in/special-window-for-transfer-dematerialisation-of-physical-securities/> and Eligible shareholders may submit their request to the

Company at investor@gnfc.in or Registrar and Share Transfer Agent (KFin Technologies Limited) at einward.ris@kfintech.com.

Shareholders are advised to complete the requisite formalities within the prescribed window period.

SIMPLIFIED NORMS FOR PROCESSING INVESTOR SERVICE REQUEST

SEBI, vide its Master Circular No. SEBI/HO/MIRSD/POD-1/P/CIR/2024/37 dated May 7, 2024, Circular No. SEBI/HO/MIRSD/POD-1/P/CIR/2024/81 dated June 10, 2024 and Master Circular No. HO/38/13/(4)2026-MIRSD-POD/1/4298/2026 dated February 6, 2026, as amended, mandated that the holders of physical securities whose folio(s) are not updated with the KYC details (any of the details viz., PAN; Choice of Nomination; Contact Details; Mobile Number and Bank Account Details and signature, if any) shall be eligible to

- » lodge grievance or avail any investor service only after furnishing complete documents / details required for KYC
- » for any payment including dividend, interest or redemption in respect of such folios, only through electronic mode with effect from April 01, 2024 only after furnishing the above mentioned KYC details.

The concerned Members are therefore urged to furnish PAN, KYC and Nomination/ Opt out of Nomination forms duly filled and signed by sending a physical copy to the M/s. KFin Technologies Limited at Selenium Tower B, Plot 31-32, Gachibowli Financial District, Nanakramguda, Hyderabad-500 032.

SECRETARIAL AUDIT

In accordance with the Regulation 24A of the SEBI Listing Regulations, 2015, M/s J J Gandhi & Co. (Firm Registration No. S1996GJ0118900), Practising Company Secretaries, were appointed as Secretarial Auditors of the Company by the Members at their 49th Annual General Meeting held on September 09, 2025 for the term of five (5) consecutive years commencing from financial year 2025-26 till financial year 2029-30. The Secretarial Audit Report confirms that the Company has complied with all applicable provisions of the Act, Secretarial Standards, Depositories Act, 1996, SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, SEBI (Prohibition of Insider Trading) Regulations, 2015, each as amended and all other regulations and guidelines of SEBI as applicable to the Company. The Secretarial Audit Report forms part of the Board's Report.

RECONCILIATION OF SHARE CAPITAL AUDIT

Mrs. Savita Jyoti, from Savita Jyoti Associates, qualified Practicing Company Secretary carried out Share Capital Audit to reconcile the total admitted equity share capital with the National Securities Depository Limited ("NSDL") and the Central Depository Services (India) Limited ("CDSL") and the total issued and listed equity share capital. The audit report confirms that the total issued / paid-up capital is in agreement with the total number of shares in physical mode and the total number of dematerialized shares held with NSDL and CDSL. Such Quarterly Reports are submitted to BSE and NSE within thirty (30) days from the end of each quarter and also placed before the Board Meetings for noting.

PROCESS FOR CLAIMING DIVIDENDS/SHARES FROM IEPF

The Members, whose dividends and/or shares are transferred to IEPF, can claim the same from the IEPF Authority after complying with the prescribed procedures.

The procedure in detail is given below:

INITIATIVES FOR THE BENEFIT OF SHAREHOLDERS

SHAREHOLDERS OUTREACH THROUGH "SHAREHOLDER SUVIDHA CAMPS"

The Company has undertaken investor outreach initiative by organizing “Shareholder Suvidha Camps” primarily organised at key locations across Gujarat. These camps are designed to provide assistance to shareholders particularly senior citizens and small investors in completing KYC formalities, dematerialization of shares and understanding evolving regulatory requirements in a simplified and accessible manner. The initiative reflects the Company's commitment to inclusive investor servicing and ease of compliance.

MULTI-CHANNEL INVESTOR AWARENESS AND ENGAGEMENT

To strengthen investor communication and participation, the Company has adopted a comprehensive multi-channel engagement approach. This includes personalized communication to shareholders in English and regional languages, along with regular updates through email and Letters. The Company also actively supported investor awareness campaigns such as “Saksham Niveshak”, encouraging shareholders to claim unpaid dividends.

STAKEHOLDER AWARENESS AND FEEDBACK ENHANCEMENT INITIATIVES

Building on its investor-centric approach, the Company has also introduced a “Shareholder Satisfaction Survey” to systematically capture feedback on communication effectiveness, service quality and grievance redressal. Insights from this initiative are being leveraged to further strengthen stakeholder engagement and service delivery.

The Company as well as the Regulators such as SEBI, have been making continuous efforts to ensure physical shareholders convert their physical holdings to dematerialised form. As a result of the same, there has been significant reduction in number of shareholders holding shares in physical form in the last 3 years.

OUTCOME OF INITIATIVES - REDUCTION IN PHYSICAL SHAREHOLDERS

NON-RESIDENT SHAREHOLDERS

The non-resident Shareholders are requested to notify the following to the Company/ Company’s RTA - Kfin Tech in respect of shares held in physical mode and to their Depository Participants (DPs) in respect of shares held in dematerialized mode:

- » Indian address for sending all communications, if not provided so far;
- » Change in their residential status on return to India for permanent settlement;
- » Particulars of Bank Account maintained with a Bank in India, if not furnished earlier;
- » RBI permission reference number with date to facilitate the credit of the dividend in their bank account.

FOREIGN EXCHANGE RISK AND HEDGING ACTIVITIES

During FY 2025-26, the Company managed the foreign exchange risks and hedged to the extent considered necessary. The Company enters into forward contracts for hedging (including natural hedging) foreign exchange exposures against imports and exports.

PLANT LOCATIONS

The Company's Bharuch manufacturing complex is located at Narmadanagar. The TDI - II plant is located at Dahej.

IT activities are carried out at the Registered Office, GNFC Infotower, Ahmedabad and GIFT City, Gandhinagar.

INDEPENDENT AUDITORS' REPORT

To,
The Members of
Gujarat Narmada Valley Fertilizers & Chemicals Limited

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of **Gujarat Narmada Valley Fertilizers & Chemicals Limited** (the "Company"), which comprise the Balance Sheet as at 31 March 2026, the Statement of Profit and Loss, including Other Comprehensive Income, the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended, and notes to the standalone financial statements, including a summary of material accounting policies and other explanatory information (hereinafter referred to as "the standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013, as amended (the "Act") in the manner so required and give a true and fair view in conformity with Indian Accounting Standard prescribed under Section 133 of the Act, read with the Companies (Indian Accounting Standard) Rules 2015 as amended ("Ind AS") and the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2026, the profit and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs), as specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the standalone financial statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Emphasis of Matter

We draw attention to note 43(B) to the standalone financial statements regarding a matter relating to demand of ₹ 21,370 crores (including interest and penalty computed till November 30, 2021) on the Company by Department of Telecommunications (DoT) towards Very Small Aperture Terminal ('VSAT') and Internet Service Provider ('ISP') Licenses fee relating to earlier years. Based on the legal assessment in consultation with Senior Advocates of the said demand, the Company is of the view that no provision is required to be made at this point of time in respect of the above matter.

Our opinion is not modified in respect of the above matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements for the financial year ended 31 March 2026. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report.

Key audit matters	How our audit addressed the key audit matter
Recognition and measurement of Urea Subsidy Income	
<p>The Urea Subsidy Income is recognized and measured by the Company in accordance with notification / circular/ policies issued by the Department of Fertilizers, Government of India.</p> <p>During the year ended March 31, 2026, the Company has recognized Urea Subsidy Income of ₹ 1,689.59 crores and has outstanding Urea subsidy receivables of ₹ 438.31 crores.</p> <p>The measurement of Urea Subsidy Income involves application of relevant regulatory pronouncements and notifications, understanding of applicable energy norms, and management estimates / judgements including in respect of escalation / de-escalation in the price of the inputs, etc. for the year. The recognised subsidy income may deviate on account of revision / changes in such interpretation, estimates and judgements, arising from notification by the Department of Fertilizers.</p> <p>Accordingly, recognition and measurement of subsidy income is determined to be a key audit matter for our audit of standalone financial statements.</p>	<p>Our audit procedures included the following:</p> <ul style="list-style-type: none"> » Assessed the Company's revenue recognition policy for Urea Subsidy Income. » Understood, evaluated and tested, on a sample basis, the design and operating effectiveness of key internal controls over recognition and measurement of Urea Subsidy Income. » Reviewed the relevant regulatory pronouncement in respect of Urea Subsidy Income and verified, on a sample basis, the claims filed by the Company along-with underlying accounting evidence in respect of such income. » Tested calculations for Urea Subsidy Income and reviewed estimates for escalation / de-escalation by comparing with actual production cost relevant for measurement of subsidy amount including final adjustment related to earlier years. » Reviewed follow-ups made by the Company with the Department of Fertilizers, Government of India and management assessment of recoverability of aged balances. » Tested the collections made during the year as well as subsequent period against such subsidy income recognized by the Company. » Assessed the appropriateness of disclosures in the Standalone financial statements in respect of Urea Subsidy Income.
Valuation of Inventories, including Stores and Spares	
<p>The Company has total inventory of ₹ 1,018.34 crores (net of provision for excess inventory of stores and spares aggregating to Rs. 43.74 crores) which comprises of raw materials ₹ 360.86 crores, work-in-progress ₹ 62.66 crores, finished goods ₹ 65.47 crores, traded goods ₹ 2.19 crores and stores and spares ₹ 527.16 crores (including coal inventory of ₹ 39.20 crores) as at March 31,2026.</p> <p>The Company has created the provision of ₹ 43.74 crores for excess inventory of stores and spares based on physical verification and on evaluation of its usability including for aged items.</p>	<p>Our audit procedures included the following:</p> <ul style="list-style-type: none"> » Reviewed the management policy for physical verification and the documents related to management's physical count procedure actually followed during the year. » Understood the management process for assessment of value in use/ net realisable value of various class of inventories and making provision for excess inventory. » Reviewed the management's judgement applied in estimating the value of excess inventory for stores

Key audit matters	How our audit addressed the key audit matter
<p>Accordingly, appropriateness of the estimates used to identify the valuation of inventories, including stores and spares is determined to be a key audit matter for our audit of standalone financial statements.</p>	<p>& spares, taking into consideration management assessment of the present and future condition of the inventory.</p> <ul style="list-style-type: none"> » Performed substantive audit procedures that includes review of working prepared by the management for valuation of inventories and observed that appropriate allocation of fixed cost and variable cost is done in respect of Finished Goods and Work-in-Progress which is in line with prevailing accounting standards. » Performed physical verification of inventories as at March 31, 2026 and our procedures did not identify any material exceptions.
Evaluation of uncertain tax demand positions and other legal litigations	
<p>The Company has material uncertain tax demand positions including matters under dispute which involves significant judgment to determine the possible outcome of these disputes and significant open legal proceedings under arbitration and courts for various matters with its contractors / vendors and in Government departments, continuing from earlier years which are part of Contingent Liability.</p> <p>Due to complexity involved in these litigation matters, management's judgement regarding recognition and measurement of provisions for these legal proceedings is inherently uncertain and might change over time as the outcomes of the legal cases are determined.</p>	<p>Our audit procedures included the following:</p> <ul style="list-style-type: none"> » Obtained details of completed tax assessments and demands as at 31 March 2026 from the management. » Inquired with the management, including in- house legal experts. » Reviewed the minutes of the meetings and those charged with governance, and correspondence between the Company and the external legal experts and other evidence to corroborate management assessment in respect of disputed tax matters. » Assessed the management's position through discussions with the in-house legal expert and external legal opinions obtained by the Company (where considered necessary) on both, the probability of success in the aforesaid cases, and the magnitude of any potential loss. » Discussed with the management on the development in the litigations during the year ended 31 March 2026 and required provision for contingencies have been made during the financial year 2025-26.

Information Other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Board's report (i.e. Directors' Report, Corporate Governance, Management Discussion and Analysis and Shareholder's information), but does not include the standalone financial statements and our

auditor's report thereon. The above referred information is expected to be made available to us after the date of this auditor's report.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the Other Information, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance as required under SA 720 (Revised) 'The Auditor's responsibilities Relating to Other Information'.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended including the Companies (Indian Accounting Standards) Amendment Rules, 2020. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, the management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- » Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- » Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are

appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to these standalone financial statements in place and the operating effectiveness of such controls.

- » Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- » Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- » Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements for the financial year ended March 31, 2026 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in the "Annexure 1" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

 - i. The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements – Refer Note 36(A) to the standalone financial statements;
 - ii. The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, on long-term contracts including derivative contracts – Refer Note 10 to the standalone financial statements;
 - iii. There has been no delay in transferring the amounts required to be transferred, to the Investor Education and Protection Fund by the Company.
 - iv. (a) The Management has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
 - (b) The management has represented, that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
 - (c) Based on the audit procedures that has been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above,

contain any material misstatement.

- v. (a) The final dividend proposed in the previous year, declared and paid by the Company during the year is in accordance with Section 123 of the Act, as applicable.
- (b) The Board of Directors of the Company have proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The amount of dividend proposed is in accordance with Section 123 of the Act, as applicable.
- vi. Based on our examination, which included test checks, the Company has used accounting software for maintaining its books of account for the financial year ended 31 March 2026 which has a feature of recording audit trail (edit log) facility and the same has been operated throughout the year for all relevant transactions recorded in the software. The audit trail was operated at application level throughout the year and the same has been enabled at the database level from 17 May 2025. The audit trail at the Oracle database level captures details of executed Data Manipulation Language (DML) and Data Definition Language (DDL) statements and it does not retain both old and new values in respect of data modifications. Further, where audit trail (edit log) facility was enabled and operated throughout the year for the accounting software, we did not come across any instance of the audit trail features being tempered with.

Furthermore, the audit trail has been preserved by the Company as per the statutory requirements for record retention.

ANNEXURE '1' TO THE INDEPENDENT AUDITORS' REPORT

(Referred to in paragraph 1 under the heading 'Report on Other Legal and Regulatory Requirements' of our report of even date)

- (i) In respect of the Company's Property, Plant and Equipment and Intangible Assets:
- (A) The Company has maintained proper records showing full particulars including quantitative details and situation of its Property, Plant and Equipment and relevant details of Right of Use Assets.
 - (B) The Company has maintained proper records showing full particulars of its Intangible assets.
 - (b) The Company has a regular program of physical verification of Property, Plant and Equipment in a phased manner so as to cover all the assets once every three years which, in our opinion, is reasonable having regard to size of the Company and nature of its assets. Pursuant to the program, a portion of the Property, Plant and Equipment have been physically verified by the management during the year. The discrepancies noticed on physical verification of Property, Plant and Equipment were not material and the same have been properly dealt with in the books of account.
 - (c) According to the information and explanations given to us by the management, the title deeds of immovable properties included in property, plant and equipment are held in the name of the Company. In respect of immovable properties of land that have been taken on lease and disclosed as Right of Use Asset (Note 39) in the standalone financial statements, the lease agreement for two parcels of the leasehold land is yet to be entered in the name of the Company, although the Company is the lessee as per the arrangement as mentioned below:

Description of property	Gross carrying value (₹ Crores)	Held in name of	Whether promoter, director or their relative or employee	Period held – indicate range, where appropriate	Reason for not being held in the name of the Company*
Land leasehold	43.05	GIDC, Bharuch	No	September 4, 2012	The lease deed for plots allotted are not executed in favour of Company because some of the portion of the lands are Gaucher and Government Land are falling in the plot allotted to the Company and lease will be executed after allotment of Gaucher and Government Land to GNFC. *Not in dispute

- (d) The Company has not revalued its Property, Plant and Equipment (including Right of Use Assets) and Intangible assets during the year.
 - (e) According to information and explanations given to us, no proceedings have been initiated or are pending against the Company as of March 31, 2026 for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (as amended in 2016) and rules made thereunder.
- (ii) In respect of the Inventories, according to the information and explanations given to us and on the basis of our examination of the records of the Company:
- (a) Physical verification of inventory (i.e stores and spares including capital stores) has been conducted by the management at reasonable intervals during the year and no material discrepancies were noticed on such physical verification. In our opinion, the frequency of verification is reasonable. The discrepancies noticed on physical verification of inventory as compared to book records have been properly dealt with in

the books of account.

- (b) The Company has been sanctioned working capital limits in excess of five crore rupees, in aggregate, from a bank on the basis of security of current assets. According to information and explanations given to us and the records examined by us, the quarterly returns, filed by the Company during the year with such bank are in agreement with books of account, except as under:

ANNEXURE '2' TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 2(g) under the heading 'Report on Other Legal and Regulatory Requirements' of our report of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (the "Act")

We have audited the internal financial controls over financial reporting of **Gujarat Narmada Valley Fertilizers & Chemicals Limited** (the "Company") as of March 31, 2026 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting with reference to these standalone financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, as specified under section 143(10) of the Companies Act, 2013, as amended, to the extent applicable to an audit of internal financial controls and issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting with reference to these standalone financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls over financial reporting with reference to these standalone financial statements and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting with reference to these standalone financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls over financial reporting with reference to these standalone financial statements.

Meaning of Internal Financial Controls Over Financial Reporting

A Company's internal financial controls over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial controls

over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting with Reference to these Standalone Financial Statements

Because of the inherent limitations of internal financial controls over financial reporting with reference to these standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting with reference to these standalone financial statements to future periods are subject to the risk that the internal financial control over financial reporting with reference to these standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls with reference to standalone financial statements and such internal financial controls with reference to standalone financial statements were operating effectively as at March 31, 2026, based on the internal financial control criteria with reference to standalone financial statements established by the Company considering the essential components of internal control stated in the Guidance Note.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

1 Corporate information

The financial statements comprise financial statements of Gujarat Narmada Valley Fertilizers & Chemicals Limited ('the Company') for the year ended March 31, 2026. The Company is a public company domiciled in India and incorporated under the provisions of the Companies Act applicable in India. Its shares are listed on two recognized stock exchanges in India (i.e. National Stock Exchange (NSE) and Bombay Stock Exchange (BSE)). The registered office of the Company is located at P.O: Narmadanagar-392 015, Dist.: Bharuch, Gujarat.

The Company is one of India's leading entities engaged in the manufacturing and selling of fertilizers, industrial chemical products and providing IT services.

The financial statements were approved for issue in accordance with a resolution of the Board of Directors on May 18, 2026.

2 Material accounting policies

2.1 Basis of preparation

These financial statements have been prepared in accordance with the Indian Accounting Standards (referred to as "Ind AS") notified under section 133 of the Companies Act, 2013 read with the Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time and presentation requirements of Division II of Schedule III to the Companies Act, 2013, (Ind AS compliant Schedule III).

The financial statements have been prepared on going concern basis using historical cost, except for the following assets and liabilities which have been measured at fair value amount:

- Derivative financial instruments,
- Defined benefit plans – plan assets measured at fair value; and
- Certain financial assets and liabilities measured at fair value (refer accounting policy regarding financial instruments).

Historical cost is the amount of cash or cash equivalents paid or the fair value of the consideration given to acquire assets at the time of their acquisition, or the amount of proceeds received in exchange for the obligation, or at the amount of cash or cash equivalents expected to be paid to satisfy the liability in the normal course of business.

Financial statements are presented in Indian Rupees (₹) which is the functional currency, and all values are rounded off to the nearest crores as per the requirement of Schedule III to the Companies Act, 2013, except where otherwise indicated.

2.2 Summary of material accounting policies

a) Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current / non-current classification. An asset is treated as current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle; or
- Held primarily for the purpose of trading; or
- Expected to be realized within twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

All other assets are classified as non-current.

A liability is current when it is:

- It is expected to be settled in normal operating cycle; or
- It is held primarily for the purpose of trading; or
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities respectively.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents.

The Company has identified twelve months as its operating cycle.

b) Foreign currency transactions

The Company's financial statements are presented in Indian Rupees (₹), which is also the functional currency of the Company.

Transactions in foreign currencies are initially recorded at the exchange rate prevailing at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated at the exchange rate prevailing on the balance sheet date and the resultant exchange gains or losses are recognised in the Statement of Profit and Loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the date of initial transactions.

c) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that the market participants would use when pricing the asset or liability, assuming that the market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

External valuers are involved for valuation of significant assets, such as investments properties, unquoted investments and loan to employees.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

This note summarises accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

- Disclosures for valuation methods, significant estimates and assumptions (refer Note 50)
- Quantitative disclosures of fair value measurement hierarchy (refer Note 50.2)
- Investment in unquoted equity shares (refer Note 8)
- Investment properties (refer Note 6)
- Financial instruments (including those carried at amortized cost) (refer Note 50.1)

d) Revenue from contracts with customers

Revenue from contracts with customers is recognised when the control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. The Company derives its revenues from sale of goods such as fertilizers, industrial chemicals, government subsidies on sale of fertilizers and information technology related hardware / software services. The Company is generally the principal in its revenue arrangements because it controls goods or services before transferring them to the customer, except for the agency services where revenue is recognised on net basis.

The disclosure of significant accounting judgements, estimates and assumptions relating to revenue from contract with customers are provided in Note 3.

Sale of goods

Revenue from sale of goods is recognised at the point in time when control of the goods is transferred to the customer, generally on delivery of the goods except in certain cases where goods are sold under bill and hold arrangement.

The Company considers whether there are other promises in the contract (supply of information technology goods) that are separate performance obligations to which a portion of the transaction price

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

needs to be allocated (e.g. installation, warranties etc.) based on materiality of such obligation. In determining the transaction price for the sale of goods, the Company considers the effect of variable consideration and consideration payable to the customer (if any).

Amount disclosed as revenue are net of trade discounts, rebates, incentives and goods & service tax (GST). The Company collects GST on behalf of the government and therefore, these are not economic benefits flowing to the Company. Hence, these are excluded from the revenue. The Company recognizes changes in the estimated amount of liability for discounts, rebates and incentives in the period in which the change occurs.

Installation, as applicable, is integral part of delivery of goods. The Company typically provides warranties for general repairs of defect that existed at the time of sale, as required by law. These assurance type warranties are accounted for under Ind AS 37 - Provisions, Contingent Liabilities and Contingent Assets unless it is fully realisable from the supplier.

Urea product subsidy

Urea Subsidy under (i) New Pricing Scheme (NPS) – Stage-III and Modified NPS-III and (ii) New Urea Policy (NUP) 2015 is recognised as per concession rates notified by the Government of India (GoI) at the point in time when the quantity is transferred/delivered to customers. Urea Subsidy is further adjusted for input price escalation/de-escalation as estimated by the Management based on the prescribed norms. The Company recognizes the subsidy based on quantity sold.

ANP product subsidy

ANP Subsidy under Nutrient Based Subsidy [NBS] w.e.f. 01.04.2010 and amendments thereto is recognized as per the concession rates notified by the Government of India [GoI] at the point in time when quantity is transferred / delivered to customers. ANP Subsidy is further adjusted for expected downward change, if any, in NBS rates based on functional forecast. In case the GoI has notified the rates after the completion of financial year but before audited / reviewed accounts are approved then impact of such rates is factored based on the quantity remaining unsold to end customer. The Company recognises the subsidy based on quantity of first point sales.

Urea and ANP freight subsidy

Freight subsidy recognised under Uniform Freight Policy for the quantity transferred / delivered to customers based on the notified rates approved by the GoI. In the case of ANP for primary freight (i.e. Direct dispatch from plant by road), subsidy income is recognized based on the lower of the normative notified rates approved by the GoI or the actual freight incurred.

Rendering of services (including contracted services)

Income from services rendered by the Information Technology division (including operation and maintenance) is recognized as and when the services are transferred to the customer at an amount that reflect the consideration to which the Company expects to be entitled in exchange for those services.

Interest income

For all financial instruments measured at amortized cost, interest income is recorded using the effective interest rate (EIR). The EIR is the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset. Interest income is included in other income in the statement of profit and loss.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

Dividends

Dividend income is recognized when the Company's right to receive the payment is established, which is generally when shareholders approve the dividend except for interim dividend which is recognised based on approval of the Board of Directors of investee company.

Insurance claims

Claims receivable on account of insurance are accounted for to the extent no significant uncertainty exist for the measurement and realisation of the amount.

Government grants

Government grants are recognized where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant relates to an expense item, it is recognized as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognized as income in equal amounts over the expected useful life of the related asset except to the extent adjustments are recognised on account of change in estimate as per para 37 of Ind AS 8 to the carrying amount of the related assets.

Export incentive

Export incentives under various schemes notified by government are accounted for in the year of exports based on the eligibility, reasonable accuracy and conditions precedent to claim are fulfilled.

e) Contract balances

Contract assets

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Company performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional.

Trade receivables (including subsidy receivables)

A receivable represents the Company's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policies of financial assets in section O "Financial instruments – initial recognition and subsequent measurement."

Contract liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company performs under the contract.

f) Taxes

Tax expense comprises of current income tax and deferred tax.

Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. Current income tax is measured at the amount expected to be paid to

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

the tax authorities in accordance with the Income-Tax Act, 1961 enacted in India. The tax rates and tax laws used to compute the amount are those that are enacted or substantially enacted, at the reporting date.

Current income tax relating to items recognized outside the statement of profit and loss is recognized in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Current tax assets and current tax liabilities are offset where the entity has a legally enforceable right to offset the recognized amounts and where it intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Deferred tax

Deferred tax is provided using the liability approach on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognized for all taxable temporary differences, except

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.
- In respect of taxable temporary differences associated with investments in associates, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognized for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.
- In respect of deductible temporary differences associated with investments in associates, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient future taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are re-assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognized outside the statement of profit or loss is recognized outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

Deferred tax assets and liabilities are offset if and only if there is a legally enforceable right to offset corresponding current tax assets against current tax liabilities and when the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority on the Company.

g) Property, plant and equipment (PPE)**Measurement at recognition**

An item of property, plant and equipment that qualifies as an asset is measured on initial recognition at cost. Following initial recognition, items of property, plant and equipment are carried at its cost less accumulated depreciation and accumulated impairment losses, if any.

The cost of an item of property, plant and equipment comprises of its purchase price including import duties and other non-refundable purchase taxes or levies, directly attributable cost of bringing the asset to its working condition for its intended use and the initial estimate of decommissioning, restoration and similar liabilities, if any. Any trade discounts and rebates are deducted in arriving at the purchase price.

Subsequent expenditure related to an item of PPE is capitalised only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably. Such cost includes the cost of replacing part of the plant and equipment if the recognition criteria are met. When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in the Statement of Profit and Loss as incurred.

Items of stores and spares that meet the definition of property, plant and equipment are capitalized at cost and depreciated over their useful life.

The Company had adjusted exchange differences arising on translation difference/settlement of long term foreign currency monetary items outstanding in the Indian GAAP financial statements for the period ending immediately before the beginning of the first Ind AS financial statements i.e. March 31, 2016 and pertaining to the acquisition of a depreciable asset to the cost of asset and depreciates the same over the remaining life of the asset.

Capital Work in progress

Cost of assets not ready for intended use, as on the balance sheet date, is shown as capital work in progress. Advances given towards acquisition of fixed assets outstanding at each balance sheet date are disclosed as Other Non-Current Assets.

Depreciation

Depreciation on each part of an item of property, plant and equipment is provided using the Straight Line Method based on the useful life of the asset as prescribed under Part C of Schedule II of the Companies Act, 2013 or based on technical assessment by the Company taking into account the nature of the asset, the usage of the asset, expected physical wear and tear, the operating conditions of the asset, anticipated technological changes, past history of replacements, manufacturers warranties and maintenance support, etc.

The useful lives for certain categories of property, plant and equipments are different from those prescribed under Part C of Schedule II of the Companies Act, 2013 based on management estimates. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be use. Category wise details are as under:

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

Sr No	Category	Useful life in years
1	Plant and equipment (including capital spares)	Ranging from 2 to 40 years
2	Furniture and Fixtures	Ranging from 2 to 20 years
3	Office equipments	Ranging from 2 to 13 years
4	Roads, culverts and compound wall	Ranging from 3 to 30 years
5	Water supply and drainage system	Ranging from 5 to 15 years
6	Building	Ranging from 3 to 60 years
7	Railway sidings	15 years
8	Vehicles	Ranging from 4 to 10 years

The identified components of Property, Plant and Equipments are depreciated over their useful lives and the remaining components are depreciated over the life of principal assets.

Freehold land is not depreciated.

The useful lives, residual values of each part of an item of property, plant and equipment and the depreciation methods are reviewed at the end of each financial year. If any of these expectations differ from previous estimates, such change is accounted for as a change in an accounting estimate and adjusted prospectively, if appropriate.

De-recognition

The carrying amount of an item of property, plant and equipment is derecognized on disposal or when no future economic benefits are expected from its use or disposal. The gain or loss arising from the De-recognition of an item of property, plant and equipment is measured as the difference between the net disposal proceeds and the carrying amount of the item and is recognized in the Statement of Profit and Loss when the item is derecognized.

h) Investment Properties

Investment properties are measured initially at original cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any. The cost includes the cost of replacing parts and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of the investment property are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. All other repair and maintenance costs are recognized in profit or loss as incurred.

The Company depreciates building component of investment property over 60 years from the date of original purchase.

Though the Company measures investment property using cost based measurement, the fair value of investment property is disclosed in the notes. Fair values are determined based on an annual evaluation performed by an accredited external independent valuer applying a valuation model recommended by the International Valuation Standards Committee.

Investment properties are derecognised either when they have been disposed off or do not meet the criteria of investment property i.e. when investment property is permanently withdrawn from use and no

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in profit or loss in the period of derecognition.

i) Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses. Cost incurred on internally generated intangible assets are not capitalized and the related expenditure is reflected in profit or loss in the period in which the expenditure is incurred.

Intangible assets with infinite lives are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a infinite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortization period or method, as appropriate, and are treated as changes in accounting estimates. The amortization expense on intangible assets with finite lives is recognized in the statement of profit and loss.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit or loss when the asset is derecognized.

A summary of the policies applied to the Company’s intangible assets is as follows:

Sr No	Intangible Assets	Method of Amortization	Estimated Useful life
1	Computer software	on straight line basis	Three years or validity period whichever is lower
2	Licenses		Over its useful life of 20 years

j) Leases

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

Company as a lessee

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

(i) Right-of-use Assets

The Company recognises right-of-use assets at the commencement date of the lease (i.e. the date the underlying asset is available for use). Right-of-use assets are measured at cost less any accumulated depreciation and impairment losses, and adjusted for any re-measurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred and lease payments made before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term or the estimated useful lives of the assets, as follows:

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

Sr No	Category	Life
1	Lease hold land	8 to 99 years
2	Building (includes Godown / warehouses & office premises)	3 to 5 years
3	Vehicle	3 years

If ownership of the leased asset transfers to the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

The right-of-use assets are also subject to impairment. Refer to the accounting policies in section (I) Impairment of non-financial assets.

(ii) Lease liabilities

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is re-measured if there is a modification, a change in the lease term, a change in the lease payments (e.g. changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

(iii) Short-term leases and leases of low-value assets

The Company applies the short-term lease recognition exemption to its short-term leases of building, machinery and equipment (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

Company as a lessor

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognized on a straight-line basis over the lease term. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognized over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026**k) Inventories**

Inventories of Raw materials, Work-in-progress, Finished goods and Stock-in-trade are valued at the lower of cost and net realisable value. However, Raw materials and work-in-progress held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost.

Raw materials: Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on Moving Weighted Average Cost basis.

Finished goods and work in progress: Cost includes cost of direct materials and labour and a proportion of manufacturing overheads based on the normal operating capacity, but excluding borrowing costs. Cost is determined on Moving Weighted Average Cost basis.

Traded goods: Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on Moving Weighted Average Cost basis.

All other inventories of stores and consumables (including coal) are valued at Moving Weighted Average Cost basis after providing for obsolescence and other losses considering the ageing of inventory and usability, where considered necessary on an item-by-item basis. Stores and Spares includes equipment spare parts, catalyst and others which are held as inventory by the Company.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

l) Impairment of non-financial assets

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

Impairment losses including impairment on inventories, are recognized in the statement of profit and loss.

For assets excluding goodwill, an assessment is made at each reporting date to determine whether there is an indication that previously recognized impairment losses no longer exist or have decreased. If such indication exists, the Company estimates the asset's or CGU's recoverable amount. A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the statement of profit and loss as an exceptional item.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

Under Ind AS 116 para 33 right-of-use assets are subject to the impairment requirements of Ind AS 36 - Impairment of assets.

m) Provisions and contingencies

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

Provisions and contingent liabilities are reviewed at each Balance Sheet date.

n) Retirement and other employee benefits

Retirement benefit in the form of Provident Fund is a defined benefit contribution scheme. The Company has no obligation other than the contribution payable to the Provident Fund. The Company recognizes contribution payable to the Provident fund scheme as an expenditure, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability.

The employee's gratuity fund scheme and post-retirement medical benefit schemes are Company's defined benefit plans. The contributions under the plans are made to separately administered funds. The cost of providing benefits under such defined benefit plans is determined based on the actuarial valuation using the Projected Unit Credit Method as at the date of the Balance sheet. In case of funded plans, the fair value of plan asset is reduced from the gross obligation under the defined benefit plans, to recognize the obligation on the net basis.

Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognized immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Re-measurements are not reclassified to profit or loss in subsequent periods.

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Company recognizes the following changes in the net defined benefit obligation as an expense in the statement of profit and loss:

- Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- Net interest expense or income

Accumulated leave, which is expected to be utilised within the next twelve months, is treated as short term employee benefits. The Company measures the expected cost of such absence as the additional amount that is expected to pay as a result of the unused entitlement that has accumulated at the reporting date. The Company treats accumulated leave expected to be carried forward beyond twelve

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

months as long term compensated absences which are provided for based on actuarial valuation as at the end of the period. The actuarial valuation is done as per Projected Unit Credit Method and all gains / losses due to actuarial valuation are immediately recognised in profit or loss in the period in which they arise.

o) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets**Initial recognition and measurement**

All financial assets are recognized initially at fair value plus, in case of financial asset not recorded at fair value through profit and loss, transaction cost that are attributable to the acquisition of the financial assets.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Company's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Company has applied the practical expedient are measured at the transaction price determined under Ind AS 115. Refer to the accounting policies in section (e) for Revenue from contracts with customers.

The Company's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets or both. Financial assets classified and measured at amortised cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows while financial assets classified and measured at fair value through OCI are held within a business model with the objective of both holding to collect contractual cash flows and selling.

In order for a financial asset to be classified and measured at amortised cost or fair value through OCI, it needs to give rise to cash flows that are solely payment of principal and interest (SPPI) on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level. Financial assets with cash flows that are not SPPI are classified and measured at fair value through profit or loss, irrespective of the business model.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date. i.e. the date that the Company commits to purchase or sell the asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in three categories:

- (i) Financial assets measured at amortized cost (debt instrument)
- (ii) Financial assets designated at fair value through OCI with no recycling of cumulative gains and losses upon derecognition (equity instruments)
- (iii) Financial assets measured at fair value through profit or loss (FVTPL)

(i) Financial assets measured at amortized cost (debt instrument)

A 'financial asset' is measured at amortized cost if both the following conditions are met:

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

- (a) the financial asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows, and
- (b) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

This category generally applies to cash and bank balances, trade receivables, investments in unquoted equity shares of subsidiary entity and associate entity, investment in G-sec, loans & advances and other financial assets of the Company (Refer note 50 for further details).

This category is most relevant to the Company. After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in interest income in the profit or loss.

(ii) Financial assets designated at fair value through OCI (equity instruments)

All equity investments in scope of Ind-AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment / de-recognition of investment on restructuring by investee. However, the Company may transfer the cumulative gain or loss into retained earnings within equity. Equity instruments designated at fair value through OCI are not subject to impairment assessment.

(iii) Financial assets at fair value through profit or loss (FVTPL)

Financial assets at fair value through profit or loss include financial assets held for trading, debt securities and financial assets designated upon initial recognition at fair value through profit or loss. Financial assets at fair value through profit or loss are carried in the balance sheet at fair value with net changes in fair value recognised in the statement of profit and loss.

FVTPL is a residual category for financial assets. Any financial asset, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

In addition, the Company may elect to designate a financial asset, which otherwise meets amortized cost or fair value through other comprehensive income criteria, as at fair value through profit or loss. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). The Company has designated Loans to employees, investments in Government Securities, Debentures and State Development Loans and other advances. (Refer note 50 for further details).

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Company's balance sheet) when :

- The rights to receive cash flows from the asset have expired, or

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognize the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

On Derecognition of a financial asset, (except as mentioned in (ii) above for financial assets measured at FVTOCI), the difference between the carrying amount and the consideration received is recognized in the Statement of Profit and Loss.

Impairment of financial assets

The Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure;

- Financial assets that are debt instruments, and are measured at amortized cost e.g. loans, debt securities, deposits and bank balances.
- Financial assets that are equity instruments and are measured at fair value through other comprehensive income (FVTOCI)
- Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 115.

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables or contract revenue receivables.

Under the simplified approach, the Company does not track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. Lifetime ECL are the expected credit losses resulting from all possible default over the expected life of a financial instrument.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12 month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. The Company uses the practical expedient in Ind AS 109 for measuring expected credit losses for trade receivables using a provision matrix based on ageing of receivables. This amount is reflected under the head "Other Expense / Other Income" in the P&L.

Financial liabilities**Initial recognition and measurement**

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss. Loans, borrowings and payables are subsequently measured at amortised cost whereas derivatives are measured at fair value through profit and loss.

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts and derivative financial instruments.

Subsequent measurement

For the purpose of subsequent measurement, financial liabilities are classified into two categories:

- (i) Financial liabilities measured at fair value through profit or loss
- (ii) Financial liabilities measured at amortised cost (loans and borrowings)

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109.

Gains or losses on liabilities held for trading are recognized in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains / losses attributable to changes in own credit risk are recognized in OCI. These gains / losses are not subsequently transferred to P&L. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognized in the statement of profit or loss.

Financial liabilities measured at amortised cost (loans and borrowings)

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit and loss.

This category generally applies to borrowings.

Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit and loss.

Reclassification of financial assets and liabilities

The Company determines classification of financial assets and liabilities on initial recognition. After

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Company's senior management determines change in the business model as a result of external or internal changes which are significant to the Company's operations. Such changes are evident to external parties. A change in the business model occurs when the Company either begins or ceases to perform an activity that is significant to its operations. If the Company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Company does not restate any previously recognized gains, losses (including impairment gains or losses) or interest.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

p) Derivative financial instruments**Initial recognition and subsequent measurement**

The Company uses derivative financial instruments, such as forward currency contracts to hedge its foreign currency risks. Such derivative financial instruments are initially recognized at fair value through profit or loss (FVTPL) on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Any gains or losses arising from changes in the fair value of derivative financial instrument or on settlement of such derivative financial instruments are recognized in statement of profit and loss and are classified as Foreign Exchange (Gain) / Loss except those relating to borrowings, which are separately classified under Finance Cost.

q) Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, that are readily convertible to a known amount of cash and subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consists of cash and short-term deposits, as defined above, net of outstanding bank overdrafts and cash credit facilities as they are considered an integral part of the Company's cash management.

r) Cash dividend to equity holders of the Company

The Company recognizes a liability to pay dividend to equity holders of the Company when the distribution is authorized and the distribution is no longer at the discretion of the Company. As per the corporate laws in India, a distribution is authorized when it is approved by the shareholders. A corresponding amount is recognized directly in equity.

s) Earnings per share

Basic earnings per share are calculated by dividing the profit for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period.

For the purpose of calculating diluted earnings per share, the profit for the period attributable to equity

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

t) Segment Accounting

The Chief Operational Decision Maker monitors the operating results of its business Segments separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on profit or loss and is measured consistently with profit or loss in the financial statements. The Operating segments have been identified on the basis of the nature of products/services.

The accounting policies adopted for segment reporting are in line with the accounting policies of the Company. Segment revenue, segment expenses, segment assets and segment liabilities have been identified to segments on the basis of their relationship to the operating activities of the segment. Inter segment revenue, if any, are recognised at sales price. Profit or loss on inter segment transfer are eliminated at the Company level. Revenue, expenses, assets and liabilities which relate to the Company as a whole and are not allocated to segments on a reasonable basis have been included under "unallocated revenue / expenses / assets / liabilities".

The identified reportable segments are Fertilizers, Chemicals and Others in terms of the requirements of Ind AS 108 "Operating Segments" as notified under section 133 of the Companies Act, 2013.

2.3 Recent accounting pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time.

Ind AS 21 – The Effects of Changes in Foreign Exchange Rates

In May 2025, MCA notified amendments to Ind AS 21 - The Effects of Changes in Foreign Exchange Rates, applicable w.e.f. April 1, 2025. The Company has reviewed the amendment and based on its evaluation has determined that it does not have any significant impact in its financial statements.

Ind AS 1 – Presentation of Financial Statements

In August 2025, MCA notified amendments to Ind AS 1, applicable w.e.f. April 1, 2025. The amendment relates to classification of liabilities as current or non-current and non-current liabilities with covenants. In the context of classifying a liability as current, it removes the requirement of existence of a right to defer settlement for at least 12 months after the reporting date and instead requires that the said right should exist on the reporting date and have substance. The amendment also introduces guidance on classification of liabilities with covenants. The Company has no impact of these amendments in its classification criteria of current and non-current liabilities.

Ind AS 7- Statement of Cash Flows and Ind AS 107 - Financial Instruments: Disclosures

In August 2025, MCA notified amendments to Ind AS 7 & Ind AS 107, applicable w.e.f. April 1, 2025. The amendment in Ind AS 7 requires to inform users of financial statements of the existence of supplier finance arrangements and explain the nature of the arrangements, the carrying amount of liabilities and the range of payment due dates. Ind AS 107 has been amended to add supplier finance arrangements as a factor that may cause concentration of liquidity risk. The Company has reviewed the amendment and based on its evaluation has determined that it does not have any impact in its financial statements.

Ind AS 12, Income Taxes

In August 2025, MCA notified amendments to Ind AS 12 with respect to International tax reform—Pillar Two model rules. It does not have any impact on financial statements.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026**3 Significant accounting judgement, estimates and assumptions**

The preparation of the Company's Financial Statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Judgements

In the process of applying the Companies accounting policies, management has made the following judgements which have the most significant effects on the amounts recognised in the financial statements.

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

Taxes

Deferred tax assets are recognized for unused tax credits to the extent that it is probable that taxable profit will be available against which the credits can be utilised. Significant management judgment is required to determine the amount of deferred tax assets that can be recognized, based upon the likely timing and the level of future taxable profits together with future tax planning strategies. Further details on taxes are disclosed in Note 26.

Defined benefit plans (gratuity benefits and other post-employment medical benefits)

The cost of the defined benefit gratuity plan and other post-employment medical benefits and the present value of these obligations are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, medical cost escalations and mortality rates etc. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds / securities in currencies consistent with the currencies of the post-employment benefit obligation.

The mortality rate is based on publicly available mortality tables for the specific countries. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates and Company's obligation under Long Term Wage Settlement which is evaluated in block of four years. Medical cost escalations are based on expected future medical expenditure.

Further details about gratuity and post-employment medical benefits obligations are given in Note 41.

Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the DCF model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgments include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments. Refer Note 50 for further disclosures.

The Company has invested in the equity instruments of various companies. The valuation exercise of unquoted equity instruments carried out by the Company with the help of an independent valuer, etc. has estimated fair value at each reporting period based on available historical annual reports and other information in the public domain.

Impairment of non-financial assets

Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a Discounted Cash Flow (DCF) model. The cash flows are derived from the budget for the future years and do not include restructuring activities that the Company is not yet committed to or significant future investments that will enhance the asset's performance being tested. The cash flow projections, beyond period covered by the most recent budget / forecast, the Company extrapolates cash flow projections taking base of budget working using a steady or declining growth rate for subsequent years unless an increasing trend can be justified. The recoverable amount is sensitive to the discount rate used for the DCF model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes.

Leases - Estimating the incremental borrowing rate

The Company cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate (IBR) to measure lease liabilities. The IBR is the rate of interest that the Company would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Company 'would have to pay', which requires estimation when no observable rates are available or when they need to be adjusted to reflect the terms and conditions of the lease. The Company estimates the IBR using observable inputs (such as market interest rates) when available and is required to make certain entity-specific estimates.

Evaluation of uncertain tax demand positions and other legal litigation

The Company has material uncertain tax demand positions including matters under dispute which involves significant judgement to determine the possible outcome of these disputes and significant open legal proceedings under arbitration and courts for various matters with its contractors / vendors and in Government departments, continuing from earlier years which are part of Contingent Liability. The Company has made estimates to recognize the provisions mainly for probable claims arising out of litigations / disputes pending with authorities under various statutes and with other parties. The probability and the timing of the outflow with regard to these matters depend on the outcome of the litigations/disputes. Hence, the Company is not able to reasonably ascertain the timing of the outflow.

@ The Company is carrying physical share certificate in respect of this investment.

M/s Ecophos GNFC India Private Limited (EGIPL) is the joint venture company formed by the Company and M/s Ecophos S.A - a Belgium based company for manufacturing of Di-Calcium Phosphate (DCP) at Dahej location. The Company holds 15% shareholding of EGIPL at issued value of ₹ 24.21 crores. During the FY 2019-20, M/s Ecophos S.A. (shareholder) holding 85% shareholding of EGIPL had applied for bankruptcy. Consequently all the nominee directors of EGIPL, Managing Director and Company Secretary of EGIPL resigned. Plant installation for manufacturing of DCP didn't commenced. Accordingly, the Company valued such investment as at March 31, 2026 and as at March 31, 2025 at the nominal consideration of ₹ 1.

\$ The Company had acquired various securities from GNFC-EPFT which includes investments in various long term secured/unsecured Non-Convertible Debentures (NCD) issued by IL&FS Group. Such investments have been recorded at the nominal fair values of ₹ 4.94 only (i.e. ₹ 1 for each security reduced by the amount received till date) as against total face value of ₹ 26.07 crores as on 31.03.2026.

Further, during the previous year, the Company has received ₹ 3.56 crores from Reliance Capital as full and final settlement towards investments in its two non-convertible debentures series. The Company had already made good the loss while transferring the PF corpus to the Employees' Provident Fund Organisation (EPFO) by considering the fair value of securities at ₹ 1 each. Total face value of investments was ₹ 6 crores.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

*** During the previous year, the Company had received 2,00,000 units of Roadstar Infra Investment Trust (RIIT) having a face value of ₹ 100 per unit, aggregating to ₹ 2 crores, under Round 2 and Round 3 of interim distribution from IL&FS. Although these units are listed on the stock exchange, there has been no active trading and fair price discovery remains pending. Consequently, the Company has recognised the investment at a nominal fair value of ₹ 0.22 as on 31.03.2026.

**** As per the stock exchange filing of Gujarat Gas Limited (GGL) on 17.04.2026, Hon'ble MCA, vide its order dated 08.04.2026, has sanctioned the Composite Scheme of Arrangement wherein the Gujarat State Petroleum Corporation Limited (GSPC), Gujarat State Petronet Limited (GSPL) will be amalgamated with the GGL.

All the Companies involved in the Composite Scheme of Arrangement have filed certified copy of the aforesaid Order, along with a copy of the Composite Scheme of Arrangement, in e-Form INC-28 with the Registrar of Companies, Ahmedabad on 01.05.2026 and the Scheme has become effective.

Further, GGL has fixed 12.05.2026 as the Record Date for determining the shareholders of GSPC and GSPL who shall be issued and allotted the shares of GGL under the Scheme.

Considering the above facts, the Company, has considered this event as an adjusting event under Ind AS 10. Accordingly, the Company has de-recognised the investments in GSPC and GSPL as on 31.03.2026 and recognised the shares to be received from GGL, as per the approved share exchange ratio, at market price of GGL as on last trading day of financial year. The impacts of ₹ 11.31 crores is recognised in other comprehensive income as per the option already selected by the company at the time of adoption of Ind AS.

- (a) The fair value of the quoted equity investments are derived from quoted market prices in active market.
- (b) Investments include investment in unquoted equity shares. Fair value of unquoted investment in equity instrument have been carried out by independent valuer using Net Assets Value model and comparable companies model following Market Approach and Asset Approach. The valuation requires management to make certain assumptions about the model inputs, including forecast cash flows, discount rate, credit risk, volatility, net assets and market multiples. The probabilities of various estimates within the range can be reasonably assessed and are used in management's estimates for fair value for these unquoted equity instruments.

Provident fund	26.33	27.02
Contribution to pension scheme	23.51	24.09
Total	49.84	51.11

B. Defined benefit plans:

The Company has following post employment benefits which are in the nature of defined benefit plans:

(a) Gratuity

(b) Post retirement medical benefit

The Company has a defined benefit gratuity plan. Every employee who has completed five years or more of service gets a gratuity as per payment of Gratuity Act, 1972. The Scheme is funded with Gratuity Trust, which in turn makes contribution to Life Insurance Corporation of India (LIC) in the form of qualifying insurance policy for future payment of gratuity to the employees.

Each year the management reviews the level of funding in the gratuity fund. Such review includes the asset - liability matching strategy. The management decides its contributions based on the results of this review. The management aims to keep annual contributions relatively stable at a level such that no plan deficit (based on valuation performed) will arise.

The plan for the Post retirement medical benefit is unfunded.

The following table summarises the components of net benefit expense recognised in statement of profit and loss and the funded status and amounts recognised in the balance sheet for the respective plans:

NOTE: 43 (A)

In earlier year, Hon'ble high Court of Gujarat sanctioned the Scheme of Arrangement and Demerger for transfer of VSAT and ISP Gateway Business of the Company to ING Satcom Ltd., an unlisted Company against cash consideration of ₹ 6 crores vide its Common Oral Order dated 15th June, 2012.

The "Appointed Date" of the Scheme is 1st April, 2010.

Pursuant to the Order of the Hon'ble High Court of Gujarat sanctioning the Scheme of Demerger, the Company submitted two separate applications dated 31st January, 2013 to the Department of Telecommunications (DoT) for transfer of VSAT and ISP License in the name of the Transferee Company viz. ING Satcom Limited.

However, the License Transfer Applications remained pending with DoT and as per the legal opinion and assessment, though the Scheme of Demerger was sanctioned by the Hon'ble High Court, the Scheme of Demerger is subject to and conditional upon the approval of DoT for transfer of Licenses from the Company to ING Satcom Limited.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

Therefore, vide an Agreement-Cum-Indemnity Bond dated 12.04.2014 executed between the Company and ING Satcom Limited, the assets of demerged business (other than the licenses) were transferred to ING Satcom, subject to certain terms and conditions, inter alia, including the terms for settling the Transaction in the eventuality of non-transfer of Licenses.

Even though, both VSAT and ISP License have expired and the transfer of licenses to ING Satcom is now out of question, settlement of Demerger Transaction with ING Satcom, as per the terms and conditions of the Agreement-Cum- Indemnity Bond dated 12.04.2014, is still pending and therefore, no accounting treatment is given in the books of the Company since 2014-15 till the financial year ended 31.03.2026.

Necessary accounting treatment will be given in the books of accounts of the Company either on disposal of applications for transfer of Licences in the name of ING Satcom Limited by the competent authorities or on finalization of settlement of transaction with ING Satcom Limited. The amount received is classified under other current liabilities (refer Note 24).

NOTE: 43(B) - Demand Notice from Department of Telecommunication (DoT)

In the Financial Year (FY) 2014-15, the Company received a demand of ₹ 2,752 crores from the Department of Telecommunications (DoT), Ministry of Telecommunications, Government of India, towards License Fee, including interest and penalty, for the "Very Small Aperture Terminal (VSAT) License" and "Category A - Internet Service Provider (ISP) - IT License." This demand pertained to the period from FY 2009-10 to FY 2013-14. The Company challenged the demand before the Telecom Disputes Settlement and Appellate Tribunal (TDSAT), which subsequently stayed the demand and restrained DoT from taking any coercive recovery action against the Company.

Subsequently, in FY 2019-20, the Hon'ble Supreme Court of India, in the case of Union of India v. Association of Unified Telecom Service Providers of India, (2020) 3 SCC 525 ("AGR Judgment"), upheld DoT's interpretation of Adjusted Gross Revenue (AGR), affirmed that AGR includes revenue from both licensed as well as unlicensed activities.

Pursuant to the Supreme Court ruling, DoT issued revised demand notices dated December 23, 2019, March 05, 2020 and July 15, 2022, amounting to ₹ 15,020 crores, ₹ 16,359 crores and ₹ 21,370 crores, respectively. The demand period was retrospectively extended to encompass the period FY 2005-06 through FY 2019-20.

Aggrieved by these revised demands, the Company submitted representations to DoT on January 06, 2020, February 21, 2020, April 03, 2020 and March 04, 2022, requesting reconsideration and withdrawal of the demands. In its representations, the Company underscored that revenues from its Fertilizers & Chemicals business, which is entirely unrelated to VSAT and ISP-IT Licenses, should not be included in computation of AGR and License Fees.

Subsequent legal & regulatory developments, such as distinction between non-Telecom PSUs and Core Telecom Companies, duly recognized by both DoT and the Hon'ble Supreme Court; the TDSAT Judgment in the case of Union of India Vs M/s Netmagic Solutions Pvt. Ltd, Civil Appeal 9012/2022 ("Netmagic Judgment") and; the 2021 Telecom Reforms, have carved out several exceptions to the interpretation of the term "AGR" and computation of AGR and the License Fees.

These exceptions provide critical relief, particularly for the similar category of licensees and the non-telecom / non-licensed revenue streams.

Based on a detailed and meticulous legal assessment in consultation with eminent Senior Advocates, the Company firmly believes that it has strong grounds to contest the demands raised by DoT. Consequently, the Company has neither provided for this amount in its books of account nor recognized it under contingent liability.

- * The SOTP approach is normally used for valuing a firm by separately assessing the value of each business segment or subsidiary or associate companies or Investments and adding them up to get the total value of the firm. The valuation approach used to value each Business/Investment Companies are Cost Approach/Market Approach/Income Approach. The appropriate approach / method with appropriate adjustment is used considering size, nature and complexities of business/investment.

c) Financial Instrument measured at amortised cost

The carrying amount of financial assets and financial liabilities measured at amortised cost in the financial statements are a reasonable approximation of their fair values since the Company does not anticipate that the carrying amounts would be significantly different from the values that would eventually be received or settled.

50.3 : Financial Risk objective and policies:

The Company's principal financial liabilities, other than derivatives, comprise loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include loans, deposits, investments, trade and other receivables, and cash and cash equivalents that derive directly from its operations. The Company also holds FVTOCI & FVTPL investments and enters into derivative transactions.

In the ordinary course of business, the Company is mainly exposed to risks resulting from exchange rate fluctuation (currency risk), interest rate movements (interest rate risk) collectively referred as Market Risk, Credit Risk, Liquidity Risk and other price risks such as equity price risk and commodity price risk. The Company's senior

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

management oversees the management of these risks. It manages its exposure to these risks through derivative financial instruments by hedging transactions as required. It uses derivative instruments such as foreign currency forward contract to manage currency risks. These derivative instruments reduce the impact of both favourable and unfavourable fluctuations.

The Company's risk management activities are subject to the management, direction and control of the management of the Company under the guideline of the Board of Directors of the Company. The management ensures appropriate financial risk governance framework for the Company through appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives. It is the Company's policy that no trading in derivatives for speculative purposes may be undertaken.

The decision of whether and when to execute derivative financial instruments along with its tenure can vary from period to period depending on market conditions and the relative costs of the instruments. The tenure is linked to the timing of the underlying exposure, with the connection between the two being regularly monitored. The Company is exposed to losses in the event of non-performance by the counterparties to the derivative contracts. All derivative contracts are executed with counterparties that, in management's judgment, are creditworthy. The outstanding derivatives are reviewed periodically to ensure that there is no inappropriate concentration of outstanding to any particular counterparty.

Further, all currency and interest risk as identified above is measured on a daily basis by monitoring the mark to market (MTM) of open and hedged position. For year ends, the MTM for each derivative instrument outstanding is obtained from respective banks. All gain / loss arising from MTM for open derivative contracts and gain / loss on settlement / cancellation / roll over of derivative contracts is recorded in statement of profit and loss.

a) **Market risk**

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk and commodity price risk. Financial instruments affected by market risk include loans and borrowings, FVTOCI investments and derivative financial instruments. The sensitivity analysis in the following sections relate to the position as at March 31, 2026 and March 31, 2025.

The sensitivity analysis have been prepared on the basis that the amount of net debt, interest rates of the debt and derivatives are all constant as at March 31, 2026. The analysis exclude the impact of movements in market variables on the carrying values of gratuity and other post-retirement obligations and provisions.

The following assumptions have been made in calculating the sensitivity analysis:

- The sensitivity of the relevant profit or loss item is the effect of the assumed changes in respective market risks. This is based on the financial assets and financial liabilities held at March 31, 2026 and March 31, 2025.

(i) **Interest rate risk**

The Company is exposed to changes in market interest rates due to financing, investing and cash management activities. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's short-term debt obligations.

(ii) **Foreign currency risk**

Exchange rate movements, particularly the United States Dollar (USD) and Euro (EUR) against Indian Rupee (INR), have an impact on the Company's operating results. The Company manages its foreign currency risk by entering into various foreign exchange contracts to mitigate the risk arising out of foreign exchange rate movement on trade payables. Further, to hedge foreign currency future transactions in respect of which firm commitment are made or which are highly probable forecast transactions (for instance, foreign exchange denominated income) the Company has entered into foreign currency forward contracts as per the policy of the Company.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

The details of exposures hedged using forward contracts and the details of unhedged exposures are given as part of Note 49.

The Company is mainly exposed to changes in USD and EURO. The below table demonstrates the sensitivity to a 5% increase or decrease in the respective foreign currency rates against INR, with all other variables held constant. The sensitivity analysis is prepared on the net unhedged exposure of the Company as at the reporting date. 5% represents management's assessment of reasonably possible change in foreign exchange rate.

(iii) Commodity price risk

The Company's operating activities require the ongoing purchase of natural gas. Natural gas being an international commodity is subject to price fluctuation on account of the change in the crude oil prices, demand supply pattern of natural gas and exchange rate fluctuations. The Company is not affected by the price volatility of the natural gas to the extent consumed for Urea as under the Urea pricing formula the cost of natural gas is pass through if the consumption of natural gas is within the permissible norm for manufacturing of Urea.

The Company also deals in purchase of other feed stock materials (i.e. Rock phosphate, Toluene and Denatured Ethyl Alcohol) which are imported by the Company and used in the manufacturing of Ammonium Nitro Phosphate, Toluene Di-isocyanate and Ethyl Acetate. The import prices of these materials are governed by international demand and supply pattern. There is a price and material availability risk, which is managed by senior management team through sensitivity analysis, commodity price tracking.

(iv) Equity price risk

The Company's investment in listed and non-listed equity securities are susceptible to market price risk arising from uncertainties about future values of the investment securities. The Company manages the equity price risk through diversification and by placing limits on individual and total equity instruments. Reports on the equity portfolio are submitted to the Company's senior management on a regular basis. The Company's Board of Directors reviews and approves all equity investment decisions.

At the reporting date, the exposure to unlisted equity securities at fair value was ₹ 396.65 crores. Sensitivity analyses of these investments have been provided in Note 50.2(b).

At the reporting date, the exposure to listed equity securities at fair value was ₹ 465.21 crores. A decrease of 5% on the BSE market price could have an impact of approximately ₹ 23.26 crores on the OCI or equity attributable to the Group. An increase of 5% in the value of the listed securities would also impact OCI and equity. These changes would not have an effect on profit or loss.

b) Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables and other financial assets) and from its financing activities, including deposits with banks, foreign exchange transactions and other financial instruments.

Customer credit risk is managed by the Company's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on an extensive evaluation and individual credit limits are defined in accordance with this assessment.

An impairment analysis is performed at each reporting date on an individual basis for major clients. In addition, a large number of minor receivables are grouped into homogenous groups and assessed for impairment collectively. The calculation is based on exchange losses historical data.

Credit risk from balances with banks and non-banking finance companies is managed by the Company's treasury department in accordance with the Company's policy. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty. Counterparty credit limits are reviewed by the Company's Board of Directors on an annual basis, and may be updated throughout the year subject to approval of the Company's management. The limits are set to minimize the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

Trade receivables

The Company's receivables can be classified into two categories, one is from the customers/ dealers in the market and second one is from the central and state Government in the form of subsidy. As far as Government portion of receivables is concerned, credit risk is Nil except where there are uncertainties due to non-acknowledgement of claims. In respect of market receivables from the customers/ dealers, the Company extends credit to customers in normal course of business. The Company considers factors such as credit track record in the market and past dealings for extensions of credit to customers. The Company monitors the payment track record of the customers. Outstanding customer receivables are regularly monitored. The Company evaluates the concentration of risk with respect to trade receivables as for certain products it extends rolling credit to its customers, against the collateral.

Trade receivables, other than subsidy receivables are secured to the extent of interest free security deposits and bank guarantees received from the customers amounting to ₹ 21.29 crores and ₹ 21.63 crores as at 31st March, 2026 and 31st March, 2025, respectively. (Refer Note No. 11 for Trade Receivables outstanding).

The Company follows a 'simplified approach' (i.e. based on lifetime ECL) for recognition of impairment loss allowance on Trade receivables, other than those receivables from the Government of India. For the purpose of measuring lifetime ECL allowance for trade receivables, the company estimates irrecoverable amounts based on the ageing of the receivable balances and historical experience in respect of certain categories of the customers. Individual trade receivables are written off when management deems them not to be collectible

c) Liquidity Risk

Liquidity risk is the risk that the Company will encounter difficulty in raising funds to meet commitments associated with financial instruments that are settled by delivering cash or another financial asset. Liquidity risk may result from an inability to sell a financial asset quickly at close to its fair value.

The Company has an established liquidity risk management framework for managing its short term, medium term and long term funding and liquidity management requirements. The Company's exposure to liquidity risk arises primarily from mismatches of the maturities of financial assets and liabilities. The Company manages the liquidity risk by maintaining adequate funds in cash and bank balances. The Company also has adequate credit facilities agreed with banks to ensure that there is sufficient cash to meet all its normal operating commitments in a timely and cost-effective manner.

The table below analyses derivative and non-derivative financial liabilities of the Company into relevant maturity groupings based on the remaining period from the reporting date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows.

50.4 : Capital Management:

For the purposes of the Company's capital management, capital includes issued capital and all other equity. The primary objective of the Company's capital management is to maximize shareholder value. The Company manages its capital structure and makes adjustments in the light of changes in economic environment and the requirements of the financial covenants.

The Company monitors capital using gearing ratio, which is net debt (total debt less cash and bank balance) divided by total capital plus net debt.

(₹ Crores)

Particulars	March 31, 2026	March 31, 2025
Total Borrowings (refer note 19)	-	99.16
Less: Cash and bank balances (refer Note 14 and 15)	1,109.19	2,308.40
Net Debt (A)	(1,109.19)	(2,209.24)

Total Equity and Net Debt (C = A + B)	7,871.60	6,243.13
Gearing ratio	-	-

Since net debt is negative, same is considered as zero.

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings. There have been no breaches in the financial covenants of any interest-bearing loans and borrowing in the current period. No changes were made in the objectives, policies or processes for managing capital during the years ended March 31, 2026 and March 31, 2025.

50.5 : Audit Trail

The Company uses an accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

the accounting software. The audit trail was operated at application level throughout the year and the same has been enabled at the database level from May 17, 2025. The audit trail at the Oracle database level captures details of executed Data Manipulation Language (DML) and Data Definition Language (DDL) statements and it does not retain both old and new values in respect of data modifications. Further, there is no instance of audit trail feature being tampered with in respect of the accounting software where such feature is enabled. Furthermore, the audit trail has been preserved by the Company as per the statutory requirements for record retention.

- b) provide any guarantee, security or the like to or on behalf of the ultimate beneficiaries.

II :- The Company has not received any fund from any person(s) or entity(ies), including foreign entities (Funding Party) with the understanding (whether recorded in writing or otherwise) that the Company shall:

- a) directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party (Ultimate Beneficiaries) or
- b) provide any guarantee, security or the like on behalf of the ultimate beneficiaries.

Note 52 : Code on Social Security

On November 21, 2025, the Government of India notified the four Labour codes - The code on Wages, 2019, The Industrial Relations code, 2020, The code on Social Security, 2020 and The Occupational Safety, Health and Working Conditions Code, 2020 - consolidating 29 existing Labour Laws. The Company has assessed the impact of these changes on the basis of internal assessment with guidance provided by the Institute of Chartered Accountants of India. Accordingly, the Company has estimated and recognised past service cost towards incremental obligation in gratuity and leave encashment aggregating to ₹ 3.12 crores based on the best available information and review of the existing wage structure, which is included in Employee Benefits Expense for the year ended March 31, 2026. The Company continues to monitor the finalisation of Central / State Rules and any clarifications from the Government on other aspects of the New Labour Codes and would provide appropriate accounting effect in the relevant period on the basis of such developments as needed.

Note 53 :

Balances of certain trade receivables, advances given and trade payables are subject to confirmation/reconciliation, if any. The management does not expect any material difference affecting the financial statements on such reconciliation / adjustments.

Note 54 : Event occurred after the Balance Sheet Date:

The Company evaluates events and transactions that occur subsequent to the balance sheet date but prior to the approval of the financial statements to determine the necessity for recognition and/or reporting of any of these events and transactions in the financial statements. As of May 18, 2026, there were no material subsequent events to be recognized or reported that are not already previously disclosed.

Note 55 :

The previous year's figures have been regrouped / reclassified, wherever necessary, to conform to the figures of the current year presentation.

INDEPENDENT AUDITORS' REPORT

To,
The Members of
Gujarat Narmada Valley Fertilizers & Chemicals Limited

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of **Gujarat Narmada Valley Fertilizers & Chemicals Limited** (hereinafter referred to as "the Holding Company" or "the Company"), and its associate, comprising of the consolidated Balance Sheet as at March 31, 2026, the consolidated Statement of Profit and Loss (including other comprehensive income), the consolidated Statement of Changes in Equity and the consolidated Statement of Cash Flows for the year then ended, and notes to the consolidated financial statements, including a summary of material accounting policies and other explanatory information (hereinafter referred to as the "consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013, as amended (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standard prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standard) Rules 2015 as amended (Ind AS) and the accounting principles generally accepted in India, of the state of affairs of Company and its associate as at March 31, 2026, the consolidated profit and consolidated other comprehensive income, consolidated changes in equity and its consolidated cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing (SAs), as specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the consolidated financial statements' section of our report. We are independent of the Company and its associate in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Emphasis of Matter

We draw attention to note 43(B) to the consolidated financial statements regarding a matter relating to demand of ₹ 21,370 crores (including interest and penalty computed till November 30, 2021) on the Company by Department of Telecommunications (DoT) towards Very Small Aperture Terminal ('VSAT') and Internet Service Provider ('ISP') Licenses fee relating to earlier years. Based on the legal assessment in consultation with Senior Advocates of the said demand, the Company is of the view that no provision is required to be made at this point of time in respect of above matter.

Our opinion is not modified in respect of above matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements for the financial year ended March 31, 2026. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report.

Key audit matters	How our audit addressed the key audit matter
Recognition and measurement of Urea Subsidy Income	
<p>The Urea Subsidy Income is recognized and measured by the Company in accordance with notification/ circular/ policies issued by the Department of Fertilizers, Government of India.</p> <p>During the year ended March 31, 2026, the Company has recognized Urea Subsidy Income of ₹ 1,689.59 crores and has outstanding Urea subsidy receivables of ₹ 438.31 crores.</p> <p>The measurement of Urea Subsidy Income involves application of relevant regulatory pronouncements and notifications, understanding of applicable energy norms, and management estimates / judgements including in respect of escalation / de-escalation in the price of the inputs, etc. for the year. The recognised subsidy income may deviate on account of revision / changes in such interpretation, estimates and judgements, arising from notification by the Department of Fertilizers.</p> <p>Accordingly, recognition and measurement of subsidy income is determined to be a key audit matter for our audit of consolidated financial statements.</p>	<p>Our audit procedures included the following:</p> <ul style="list-style-type: none"> » Assessed the Company's revenue recognition policy for Urea Subsidy Income. » Understood, evaluated and tested, on a sample basis, the design and operating effectiveness of key internal controls over recognition and measurement of Urea Subsidy Income. » Reviewed the relevant regulatory pronouncement in respect of Urea Subsidy Income and verified, on a sample basis, the claims filed by the Company along-with underlying accounting evidence in respect of such income. » Tested calculations for Urea Subsidy Income and reviewed estimates for escalation / de-escalation by comparing with actual production cost relevant for measurement of subsidy amount including final adjustment related to earlier years. » Reviewed follow-ups made by the Company with the Department of Fertilizers, Government of India and management assessment of recoverability of aged balances. » Tested the collections made during the year as well as subsequent period against such subsidy income recognized by the Company. » Assessed the appropriateness of disclosures in the consolidated financial statements in respect of Urea Subsidy Income.
Valuation of Inventories, including Stores and Spares	
<p>The Company has total inventory of ₹ 1,018.34 crores (net of provision for excess inventory of stores and spares aggregating to Rs. 43.74 crores) which comprises of raw materials ₹ 360.86 crores, work-in progress ₹ 62.66 crores, finished goods ₹ 65.47 crores,</p>	<p>Our audit procedures included the following:</p> <ul style="list-style-type: none"> » Reviewed the management policy for physical verification and the documents related to management's physical count procedure actually followed during the year.

Key audit matters	How our audit addressed the key audit matter
<p>traded goods ₹ 2.19 crores and stores and spares ₹ 527.16 crores (including coal inventory of ₹ 39.20 crores) as at March 31, 2026.</p> <p>The Company has created the provision of ₹ 43.74 crores for excess inventory of stores and spares based on physical verification and on evaluation of its usability including for aged items.</p> <p>Accordingly, appropriateness of the estimates used to identify the valuation of inventories, including stores and spares is determined to be a key audit matter for our audit of consolidated financial statements.</p>	<ul style="list-style-type: none"> » Understood the management process for assessment of value in use/ net realisable value of various class of inventories and making provision for excess inventory. » Reviewed the management's judgement applied in estimating the value of excess inventory for stores & spares, taking into consideration management assessment of the present and future condition of the inventory. » Performed substantive audit procedures that included review of working prepared by the management for valuation of inventories and observed that appropriate allocation of fixed cost and variable cost is done in respect of Finished Goods and Work-in-Progress which is in lines with prevailing accounting standards. » Performed Physical verification of inventories as at March 31, 2026. Our procedures did not identify any material exceptions.
Evaluation of uncertain tax demand positions and other legal litigations	
<p>The Company has material uncertain tax demand positions including matters under dispute which involves significant judgment to determine the possible outcome of these disputes and significant open legal proceedings under arbitration and courts for various matters with its contractors / vendors and in Government departments, continuing from earlier years which are part of Contingent Liability.</p> <p>Due to complexity involved in these litigation matters, management's judgement regarding recognition and measurement of provisions for these legal proceedings is inherently uncertain and might change over time as the outcomes of the legal cases are determined.</p>	<p>Our audit procedures included the following:</p> <ul style="list-style-type: none"> » Obtained details of completed tax assessments and demands as at 31 March 2026 from the management. » Inquired with the management including in-house legal experts. » Reviewed the minutes of the meetings and those charged with governance, and correspondences between the Company and the external legal experts and other evidences to corroborate management assessment in respect of disputed tax matters. » Assessed the management's position through discussions with the in-house legal expert and external legal opinions obtained by the Company (where considered necessary) on both, the probability of success in the aforesaid cases, and the magnitude of any potential loss. » Discussed with the management on the development in the litigations during the year ended 31 March 2026 and required provision for contingencies have been made during the Financial Year 2025-26.

Information Other than the Consolidated Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Board's report, (i.e. Directors' report, Corporate governance, Management Discussion and Analysis and Shareholder's information), but does not include the consolidated financial statements and our auditor's report thereon. The above referred information is expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the Other Information, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance as required under SA 720 (Revised) 'The Auditor's responsibilities Relating to Other Information'.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including consolidated other comprehensive income, consolidated changes in equity and consolidated cash flows of the Company and its associate in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended including the Companies (Indian Accounting Standards) Amendment Rules, 2020.

The respective Board of Directors of the Company and of its associate are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and of its associate and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the Company and of its associate are responsible for assessing the ability of the Company and of its associate to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company and its associate or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the Company and of its associate are also responsible for overseeing the financial reporting process of the Company and of its associate.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our

opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- » Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- » Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to these consolidated financial statements in place and the operating effectiveness of such controls.
- » Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- » Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Company and of its associate to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company and its associate to cease to continue as a going concern.
- » Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- » Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities of the Company and its associate to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance of the Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements for the financial year ended March 31, 2026 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

The accompanying consolidated financial statements include the Company's share of net profit of ₹ 11.14 crores for the year ended March 31, 2026 in respect of an associate, whose financial information have not been audited and have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to amounts and disclosures included in respect of the associate, and our report in terms of sub-sections (3) of Section 143 of the Act in so far as it relates to the aforesaid associate, is based solely on the such unaudited financial information.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on such unaudited financial information certified by the management.

Report on Other Legal and Regulatory Requirements

- 1) As required by Section 143(3) of the Act, based on our audit we report, to the extent applicable, that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements;
 - (b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidation financial statements have been kept by the Company so far as it appears from our examination of those books except for the matters stated in the paragraph 1 (i) (vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014.
 - (c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows dealt with by this Report are in agreement with the books of account maintained for the purpose of preparation of the consolidated financial statements;
 - (d) In our opinion, the aforesaid consolidated financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, as amended;
 - (e) On the basis of the written representations received from the directors of the Company as on March 31, 2026 taken on record by the Board of Directors of the Company, none of the directors of the Company and its Associate Company incorporated in India, is disqualified as on March 31, 2026 from being appointed as a director in terms of Section 164 (2) of the Act;

- (g) With respect to the adequacy of the internal financial controls over financial reporting with reference to these consolidated financial statements of the Company and of its associate incorporated in India and the operating effectiveness of such controls, refer to our separate Report in "Annexure 1" to this report;
- (h) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of Section 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid / provided by the Company to its directors including sitting fees paid to directors, during the year is in accordance with the provisions of Section 197 read with Schedule V to the Act;

- (i) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of unaudited financial statements furnished to us by the management in respect of the associate, as noted in the 'Other matter' paragraph above:
 - i. The consolidated financial statements disclose the impact of pending litigations on its consolidated financial position of the Company in its consolidated financial statements - Refer Note 36 (A) to the consolidated financial statements;
 - ii. Provision has been made in the consolidated financial statements, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts – Refer Note 10 to the consolidated financial statements;
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.
- iv. (a) The respective managements of the Company and of its associate has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company and its associate to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company and its associate ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
- (b) The respective managements of Company and its associate has represented, that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company and its associate from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company and its associate shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
- (c) Based on the audit procedures that has been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
- v. (a) The final dividend proposed in the previous year, declared and paid by the Company and its associate during the year is in accordance with Section 123 of the Act, as applicable.

- (b) The Board of Directors of the Holding Company has proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The amount of dividend proposed is in accordance with Section 123 of the Act, as applicable.
- vi. Based on our examination, which included test checks, the Holding Company has used accounting software for maintaining its books of account for the financial year ended 31 March 2026 which has a feature of recording audit trail (edit log) facility and the same has been operated throughout the year for all relevant transactions recorded in the software. The audit trail was operated at application level throughout the year and the same has been enabled at the database level from 17 May 2025. The audit trail at the Oracle database level captures details of executed Data Manipulation Language (DML) and Data Definition Language (DDL) statements and it does not retain both old and new values in respect of data modifications. Further, where audit trail (edit log) facility was enabled and operated throughout the year for the accounting software, we did not come across any instance of the audit trail features being tempered with.

Furthermore, the audit trail has been preserved by the Company as per the statutory requirements for record retention.

In case of associate company incorporated in India, we are unable to comment on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 as the audited financial statements has not been issued by its auditor till the date of this report.

- 2) With respect to matters specified in paragraphs 3 (xxi) and 4 of the Companies (Auditors Report) Order, 2020, (the "Order" / "CARO"), in our opinion and according to the information and explanations given to us, the Holding Company has qualifications or adverse remarks given by the auditor in his report under the Companies (Auditor's Report) Order, 2020 (CARO):

Name of the Company	CIN	Clause number of the CARO report

ANNEXURE 1 TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 1(g) under the heading 'Report on Other Legal and Regulatory Requirements' of our report of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of the **Gujarat Narmada Valley Fertilizers & Chemicals Limited** (hereinafter referred to as "the Holding Company" or "the Company") as of and for the year ended 31 March 2026, we have audited the internal financial controls over financial reporting with reference to the financial statements of the Company and its associate which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The Management of the Company and its associate, which are incorporated in India are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company and its associate considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting with reference to these consolidated financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, specified under Section 143(10) of the Companies Act, 2013, as amended, to the extent applicable to an audit of internal financial controls, both, issued by Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting with reference to consolidated financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls over financial reporting with reference to these consolidated financial statements and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting with reference to these consolidated financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls over financial reporting with reference to these consolidated financial statements.

Meaning of Internal Financial Controls Over Financial Reporting with reference to these Consolidated Financial Statements

A company's internal financial control over financial reporting with reference to these consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting with reference to consolidated financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over financial reporting with reference to these Consolidated Financial Statements

Because of the inherent limitations of internal financial controls over financial reporting with reference to these consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting with reference to consolidated financial statements to future periods are subject to the risk that the internal financial controls over financial reporting with reference to these consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of unaudited financial information furnished to us by the management as mentioned in "Other Matter" paragraph below, the Holding Company has, in all material respects, maintained adequate internal financial controls with reference to the consolidated financial statements and such internal financial controls with reference to the consolidated financial statements were operating effectively as at March 31, 2026, based on the internal financial control criteria with reference to the consolidated financial statements established by the Holding Company considering the essential components of internal financial control stated in the Guidance Note.

Other Matters

In respect of an associate company incorporated in India, included in the consolidated financial statements, reporting under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting has not been given as the reporting under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls has not been issued by its auditor till the date of this report and the management has furnished the certified unaudited financial information.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

1 Corporate information

The financial statements comprise financial statements of Gujarat Narmada Valley Fertilizers & Chemicals Limited ('the Company') for the year ended March 31, 2026. The Company is a public company domiciled in India and incorporated under the provisions of the Companies Act applicable in India. Its shares are listed on two recognized stock exchanges in India (i.e. National Stock Exchange (NSE) and Bombay Stock Exchange (BSE)). The registered office of the Company is located at P.O: Narmadanagar-392 015, Dist.: Bharuch, Gujarat.

The Company is one of India's leading entities engaged in the manufacturing and selling of fertilizers, industrial chemical products and providing IT services.

The financial statements were approved for issue in accordance with a resolution of the Board of Directors on May 18, 2026.

2 Material accounting policies

2.1 Basis of preparation

These consolidated financial statements have been prepared in accordance with the Indian Accounting Standards (referred to as "Ind AS") notified under section 133 of the Companies Act, 2013 read with the Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time and presentation requirements of Division II of Schedule III to the Companies Act, 2013, (Ind AS compliant Schedule III).

The consolidated financial statements have been prepared on going concern basis using historical cost, except for the following assets and liabilities which have been measured at fair value amount:

- Derivative financial instruments,
- Defined benefit plans – plan assets measured at fair value; and
- Certain financial assets and liabilities measured at fair value (refer accounting policy regarding financial instruments).

Historical cost is the amount of cash or cash equivalents paid or the fair value of the consideration given to acquire assets at the time of their acquisition, or the amount of proceeds received in exchange for the obligation, or at the amount of cash or cash equivalents expected to be paid to satisfy the liability in the normal course of business.

Consolidated Financial statements are presented in Indian Rupees (₹) which is the functional currency, and all values are rounded off to the nearest crores as per the requirement of Schedule III to the Companies Act, 2013, except where otherwise indicated.

2.2 Basis of Consolidation

The consolidated financial statements comprise the financial statements of the Group and its subsidiary as at March 31, 2026.

Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that group member's financial statements in preparing the consolidated financial statements to ensure conformity with the group's accounting policies.

The financial statements of subsidiary used for the purpose of consolidation are drawn up to same reporting date as that of the parent Group, i.e., year ended on March 31, 2026.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

Consolidation procedure:

- (a) Combine like items of assets, liabilities, equity, income, expenses and cash flows of the parent with those of its subsidiary. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognised in the consolidated financial statements from the date of incorporation.
- (b) Offset (eliminate) the carrying amount of the parent's investment in a subsidiary.
- (c) Eliminate in full intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the group (profits or losses resulting from intragroup transactions that are recognised in assets, such as inventory and fixed assets, are eliminated in full). Intragroup losses may indicate an impairment that requires recognition in the consolidated financial statements. Ind AS 12 Income Taxes applies to temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions.

2.3 Summary of material accounting policies**a) Investment in associates**

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.

The considerations made in determining whether significant influence or joint control are similar to those necessary to determine control over the subsidiaries.

The Group's investments in its associate are accounted for using the equity method. Under the equity method, the investment in an associate is initially recognised at cost. The carrying amount of the investment is adjusted to recognise changes in the Group's share of net assets of the associate since the acquisition date. Goodwill relating to the associate is included in the carrying amount of the investment and is not tested for impairment individually.

The statement of profit and loss reflects the Group's share of the results of operations of the associate. In addition, when there has been a change recognised directly in the equity of the associate, the Group recognises its share of any changes, when applicable, in the statement of changes in equity. Unrealised gains and losses resulting from transactions between the Group and the associate are eliminated to the extent of the interest in the associate.

If an entity's share of losses of an associate equals or exceeds its interest in the associate (which includes any long term interest that, in substance, form part of the Group's net investment in the associate), the entity discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate. If the associate subsequently reports profits, the entity resumes recognising its share of those profits only after its share of the profits equals the share of losses not recognised.

The financial statements of the associate are prepared for the same reporting period as the Group. When necessary, adjustments are made to bring the accounting policies in line with those of the Group.

After application of the equity method, the Group determines whether it is necessary to recognise an impairment loss on its investment in its associate. At each reporting date, the Group determines whether there is objective evidence that the investment in the associate is impaired. If there is such evidence, the Group calculates the amount of impairment as the difference between the recoverable

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

amount of the associate and its carrying value, and then recognises the loss as 'Share of profit of an associate' in the statement of profit or loss.

Upon loss of significant influence over the associate, the Group measures and recognises any retained investment at its fair value. Any difference between the carrying amount of the associate upon loss of significant influence and the fair value of the retained investment and proceeds from disposal is recognised in profit or loss.

b) Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current / non-current classification. An asset is treated as current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle; or
- Held primarily for the purpose of trading; or
- Expected to be realized within twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when it is:

- It is expected to be settled in normal operating cycle; or
- It is held primarily for the purpose of trading; or
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities respectively.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

c) Foreign currency transactions

The Company's financial statements are presented in Indian Rupees (₹), which is also the functional currency of the Company.

Transactions in foreign currencies are initially recorded at the exchange rate prevailing at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated at the exchange rate prevailing on the balance sheet date and the resultant exchange gains or losses are recognised in the Statement of Profit and Loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the date of initial transactions.

d) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

- In the principal market for the asset or liability, or
- In the absence of a principal market, the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that the market participants would use when pricing the asset or liability, assuming that the market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

External valuers are involved for valuation of significant assets, such as investments properties, unquoted investments and loan to employees.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

This note summarises accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

- Disclosures for valuation methods, significant estimates and assumptions (refer Note 49)
- Quantitative disclosures of fair value measurement hierarchy (refer Note 49.2)
- Investment in unquoted equity shares (refer Note 8)
- Investment properties (refer Note 6)
- Financial instruments (including those carried at amortized cost) (refer Note 49.1)

e) Revenue from contracts with customers

Revenue from contracts with customers is recognised when the control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

to be entitled in exchange for those goods or services. The Company derives its revenues from sale of goods such as fertilizers, industrial chemicals, government subsidies on sale of fertilizers and information technology related hardware / software services. The Company is generally the principal in its revenue arrangements because it controls goods or services before transferring them to the customer, except for the agency services where revenue is recognised on net basis.

The disclosure of significant accounting judgements, estimates and assumptions relating to revenue from contract with customers are provided in Note 3.

Sale of goods

Revenue from sale of goods is recognised at the point in time when control of the goods is transferred to the customer, generally on delivery of the goods except in certain cases where goods are sold under bill and hold arrangement.

The Company considers whether there are other promises in the contract (supply of information technology goods) that are separate performance obligations to which a portion of the transaction price needs to be allocated (e.g. installation, warranties etc.) based on materiality of such obligation. In determining the transaction price for the sale of goods, the Company considers the effect of variable consideration and consideration payable to the customer (if any).

Amount disclosed as revenue are net of trade discounts, rebates, incentives and goods & service tax (GST). The Company collects GST on behalf of the government and therefore, these are not economic benefits flowing to the Company. Hence, these are excluded from the revenue. The Company recognizes changes in the estimated amount of liability for discounts, rebates and incentives in the period in which the change occurs.

Installation, as applicable, is integral part of delivery of goods. The Company typically provides warranties for general repairs of defect that existed at the time of sale, as required by law. These assurance type warranties are accounted for under Ind AS 37 - Provisions, Contingent Liabilities and Contingent Assets unless it is fully realisable from the supplier.

Urea product subsidy

Urea Subsidy under (i) New Pricing Scheme (NPS) – Stage-III and Modified NPS-III and (ii) New Urea Policy (NUP) 2015 is recognised as per concession rates notified by the Government of India (GoI) at the point in time when the quantity is transferred/delivered to customers. Urea Subsidy is further adjusted for input price escalation/de-escalation as estimated by the Management based on the prescribed norms. The Company recognizes the subsidy based on quantity sold.

ANP product subsidy

ANP Subsidy under Nutrient Based Subsidy [NBS] w.e.f. 01.04.2010 and amendments thereto is recognized as per the concession rates notified by the Government of India [GoI] at the point in time when quantity is transferred / delivered to customers. ANP Subsidy is further adjusted for expected downward change, if any, in NBS rates based on functional forecast. In case the GoI has notified the rates after the completion of financial year but before audited / reviewed accounts are approved then impact of such rates is factored based on the quantity remaining unsold to end customer. The Company recognises the subsidy based on quantity of first point sales.

Urea and ANP freight subsidy

Freight subsidy recognised under Uniform Freight Policy for the quantity transferred / delivered to customers based on the notified rates approved by the GoI. In the case of ANP for primary freight (i.e.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

Direct dispatch from plant by road), subsidy income is recognized based on the lower of the normative notified rates approved by the GoI or the actual freight incurred.

Rendering of services (including contracted services)

Income from services rendered by the Information Technology division (including operation and maintenance) is recognized as and when the services are transferred to the customer at an amount that reflect the consideration to which the Company expects to be entitled in exchange for those services.

Interest income

For all financial instruments measured at amortized cost, interest income is recorded using the effective interest rate (EIR). The EIR is the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset. Interest income is included in other income in the statement of profit and loss.

Dividends

Dividend income is recognized when the Company's right to receive the payment is established, which is generally when shareholders approve the dividend except for interim dividend which is recognised based on approval of the Board of Directors of investee company.

Insurance claims

Claims receivable on account of insurance are accounted for to the extent no significant uncertainty exist for the measurement and realisation of the amount.

Government grants

Government grants are recognized where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant relates to an expense item, it is recognized as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognized as income in equal amounts over the expected useful life of the related asset except to the extent adjustments are recognised on account of change in estimate as per para 37 of Ind AS 8 to the carrying amount of the related assets.

Export incentive

Export incentives under various schemes notified by government are accounted for in the year of exports based on the eligibility, reasonable accuracy and conditions precedent to claim are fulfilled.

f) Contract balances**Contract assets**

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Company performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional.

Trade receivables (including subsidy receivables)

A receivable represents the Company's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

policies of financial assets in section p "Financial instruments – initial recognition and subsequent measurement."

Contract liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company performs under the contract.

g) Taxes

Tax expense comprises of current income tax and deferred tax.

Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-Tax Act, 1961 enacted in India. The tax rates and tax laws used to compute the amount are those that are enacted or substantially enacted, at the reporting date.

Current income tax relating to items recognized outside the statement of profit and loss is recognized in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Current tax assets and current tax liabilities are offset where the entity has a legally enforceable right to offset the recognized amounts and where it intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Deferred tax

Deferred tax is provided using the liability approach on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognized for all taxable temporary differences, except

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.
- In respect of taxable temporary differences associated with investments in associates, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognized for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

- In respect of deductible temporary differences associated with investments in associates, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient future taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are re-assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognized outside the statement of profit or loss is recognized outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and liabilities are offset if and only if there is a legally enforceable right to offset corresponding current tax assets against current tax liabilities and when the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority on the Company.

h) Property, plant and equipment (PPE)**Measurement at recognition**

An item of property, plant and equipment that qualifies as an asset is measured on initial recognition at cost. Following initial recognition, items of property, plant and equipment are carried at its cost less accumulated depreciation and accumulated impairment losses, if any.

The cost of an item of property, plant and equipment comprises of its purchase price including import duties and other non-refundable purchase taxes or levies, directly attributable cost of bringing the asset to its working condition for its intended use and the initial estimate of decommissioning, restoration and similar liabilities, if any. Any trade discounts and rebates are deducted in arriving at the purchase price.

Subsequent expenditure related to an item of PPE is capitalised only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably. Such cost includes the cost of replacing part of the plant and equipment if the recognition criteria are met. When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in the Statement of Profit and Loss as incurred.

Items of stores and spares that meet the definition of property, plant and equipment are capitalized at cost and depreciated over their useful life.

The Company had adjusted exchange differences arising on translation difference/settlement of long term foreign currency monetary items outstanding in the Indian GAAP financial statements for the period ending immediately before the beginning of the first Ind AS financial statements i.e. March 31, 2016 and pertaining to the acquisition of a depreciable asset to the cost of asset and depreciates the same over the remaining life of the asset.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

Capital Work in progress

Cost of assets not ready for intended use, as on the balance sheet date, is shown as capital work in progress. Advances given towards acquisition of fixed assets outstanding at each balance sheet date are disclosed as Other Non-Current Assets.

Depreciation

Depreciation on each part of an item of property, plant and equipment is provided using the Straight Line Method based on the useful life of the asset as prescribed under Part C of Schedule II of the Companies Act, 2013 or based on technical assessment by the Company taking into account the nature of the asset, the usage of the asset, expected physical wear and tear, the operating conditions of the asset, anticipated technological changes, past history of replacements, manufacturers warranties and maintenance support, etc.

The useful lives for certain categories of property, plant and equipments are different from those prescribed under Part C of Schedule II of the Companies Act, 2013 based on management estimates. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be use. Category wise details are as under:

Sr No	Category	Useful life in years
1	Plant and equipment (including capital spares)	Ranging from 2 to 40 years
2	Furniture and Fixtures	Ranging from 2 to 20 years
3	Office equipments	Ranging from 2 to 13 years
4	Roads, culverts and compound wall	Ranging from 3 to 30 years
5	Water supply and drainage system	Ranging from 5 to 15 years
6	Building	Ranging from 3 to 60 years
7	Railway sidings	15 years
8	Vehicles	Ranging from 4 to 10 years

The identified components of Property, Plant and Equipments are depreciated over their useful lives and the remaining components are depreciated over the life of principal assets.

Freehold land is not depreciated.

The useful lives, residual values of each part of an item of property, plant and equipment and the depreciation methods are reviewed at the end of each financial year. If any of these expectations differ from previous estimates, such change is accounted for as a change in an accounting estimate and adjusted prospectively, if appropriate.

De-recognition

The carrying amount of an item of property, plant and equipment is derecognized on disposal or when no future economic benefits are expected from its use or disposal. The gain or loss arising from the De-recognition of an item of property, plant and equipment is measured as the difference between the net disposal proceeds and the carrying amount of the item and is recognized in the Statement of Profit and Loss when the item is derecognized.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026**i) Investment Properties**

Investment properties are measured initially at original cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any. The cost includes the cost of replacing parts and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of the investment property are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. All other repair and maintenance costs are recognized in profit or loss as incurred.

The Company depreciates building component of investment property over 60 years from the date of original purchase.

Though the Company measures investment property using cost based measurement, the fair value of investment property is disclosed in the notes. Fair values are determined based on an annual evaluation performed by an accredited external independent valuer applying a valuation model recommended by the International Valuation Standards Committee.

Investment properties are derecognised either when they have been disposed off or do not meet the criteria of investment property i.e. when investment property is permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in profit or loss in the period of derecognition.

j) Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses. Cost incurred on internally generated intangible assets are not capitalized and the related expenditure is reflected in profit or loss in the period in which the expenditure is incurred.

Intangible assets with infinite lives are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a infinite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortization period or method, as appropriate, and are treated as changes in accounting estimates. The amortization expense on intangible assets with finite lives is recognized in the statement of profit and loss.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit or loss when the asset is derecognized.

A summary of the policies applied to the Company's intangible assets is as follows:

Sr No	Intangible Assets	Method of Amortization	Estimated Useful life
1	Computer software	on straight line basis	Three years or validity period whichever is lower
2	Licenses		Over its useful life of 20 years

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

k) Leases

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

Company as a lessee

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

(i) Right-of-use Assets

The Company recognises right-of-use assets at the commencement date of the lease (i.e. the date the underlying asset is available for use). Right-of-use assets are measured at cost less any accumulated depreciation and impairment losses, and adjusted for any re-measurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred and lease payments made before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term or the estimated useful lives of the assets, as follows:

Sr No	Category	Life
1	Lease hold land	8 to 99 years
2	Building (includes Godown / warehouses & office premises)	3 to 5 years
3	Vehicle	3 years

If ownership of the leased asset transfers to the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

The right-of-use assets are also subject to impairment. Refer to the accounting policies in section (m) Impairment of non-financial assets.

(ii) Lease liabilities

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is re-measured if there is a modification, a change in the lease term, a change in the lease payments (e.g. changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

(iii) Short-term leases and leases of low-value assets

The Company applies the short-term lease recognition exemption to its short-term leases of building, machinery and equipment (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

Company as a lessor

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognized on a straight-line basis over the lease term. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognized over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

l) Inventories

Inventories of Raw materials, Work-in-progress, Finished goods and Stock-in-trade are valued at the lower of cost and net realisable value. However, Raw materials and work-in-progress held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost.

Raw materials: Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on Moving Weighted Average Cost basis.

Finished goods and work in progress: Cost includes cost of direct materials and labour and a proportion of manufacturing overheads based on the normal operating capacity, but excluding borrowing costs. Cost is determined on Moving Weighted Average Cost basis.

Traded goods: Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on Moving Weighted Average Cost basis.

All other inventories of stores and consumables (including coal) are valued at Moving Weighted Average Cost basis after providing for obsolescence and other losses considering the ageing of inventory and usability, where considered necessary on an item-by-item basis. Stores and Spares includes equipment spare parts, catalyst and others which are held as inventory by the Company.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

m) Impairment of non-financial assets

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. The

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

Impairment losses including impairment on inventories, are recognized in the statement of profit and loss.

For assets excluding goodwill, an assessment is made at each reporting date to determine whether there is an indication that previously recognized impairment losses no longer exist or have decreased. If such indication exists, the Company estimates the asset's or CGU's recoverable amount. A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the statement of profit and loss as an exceptional item.

Under Ind AS 116 para 33 right-of-use assets are subject to the impairment requirements of Ind AS 36 - Impairment of assets.

n) Provisions and contingencies

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

Provisions and contingent liabilities are reviewed at each Balance Sheet date.

o) Retirement and other employee benefits

Retirement benefit in the form of Provident Fund is a defined benefit contribution scheme. The Company has no obligation other than the contribution payable to the Provident Fund. The Company recognizes contribution payable to the Provident fund scheme as an expenditure, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability.

The employee's gratuity fund scheme and post-retirement medical benefit schemes are Company's

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

defined benefit plans. The contributions under the plans are made to separately administered funds. The cost of providing benefits under such defined benefit plans is determined based on the actuarial valuation using the Projected Unit Credit Method as at the date of the Balance sheet. In case of funded plans, the fair value of plan asset is reduced from the gross obligation under the defined benefit plans, to recognize the obligation on the net basis.

Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognized immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Re-measurements are not reclassified to profit or loss in subsequent periods.

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Company recognizes the following changes in the net defined benefit obligation as an expense in the statement of profit and loss:

- Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- Net interest expense or income

Accumulated leave, which is expected to be utilised within the next twelve months, is treated as short term employee benefits. The Company measures the expected cost of such absence as the additional amount that is expected to pay as a result of the unused entitlement that has accumulated at the reporting date. The Company treats accumulated leave expected to be carried forward beyond twelve months as long term compensated absences which are provided for based on actuarial valuation as at the end of the period. The actuarial valuation is done as per Projected Unit Credit Method and all gains / losses due to actuarial valuation are immediately recognised in profit or loss in the period in which they arise.

p) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets**Initial recognition and measurement**

All financial assets are recognized initially at fair value plus, in case of financial asset not recorded at fair value through profit and loss, transaction cost that are attributable to the acquisition of the financial assets.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Company's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Company has applied the practical expedient are measured at the transaction price determined under Ind AS 115. Refer to the accounting policies in section (e) for Revenue from contracts with customers.

The Company's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets or both. Financial assets classified and measured at amortised cost are held within a business model with the objective to hold financial

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

assets in order to collect contractual cash flows while financial assets classified and measured at fair value through OCI are held within a business model with the objective of both holding to collect contractual cash flows and selling.

In order for a financial asset to be classified and measured at amortised cost or fair value through OCI, it needs to give rise to cash flows that are solely payment of principal and interest (SPPI) on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level. Financial assets with cash flows that are not SPPI are classified and measured at fair value through profit or loss, irrespective of the business model.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date. i.e. the date that the Company commits to purchase or sell the asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in three categories:

- (i) Financial assets measured at amortized cost (debt instrument)
- (ii) Financial assets designated at fair value through OCI with no recycling of cumulative gains and losses upon derecognition (equity instruments)
- (iii) Financial assets measured at fair value through profit or loss (FVTPL)
- (i) Financial assets measured at amortized cost (debt instrument)**

A 'financial asset' is measured at amortized cost if both the following conditions are met:

- (a) the financial asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows, and
- (b) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

This category generally applies to cash and bank balances, trade receivables, investments in unquoted equity shares of subsidiary entity and associate entity, investment in G-sec, loans & advances and other financial assets of the Company (Refer note 49 for further details).

This category is most relevant to the Company. After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in interest income in the profit or loss.

(ii) Financial assets designated at fair value through OCI (equity instruments)

All equity investments in scope of Ind-AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment / de- recognition of investment on restructuring by investee. However, the Company may transfer the cumulative gain or loss into retained earnings

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

within equity. Equity instruments designated at fair value through OCI are not subject to impairment assessment.

(iii) Financial assets at fair value through profit or loss (FVTPL)

Financial assets at fair value through profit or loss include financial assets held for trading, debt securities and financial assets designated upon initial recognition at fair value through profit or loss. Financial assets at fair value through profit or loss are carried in the balance sheet at fair value with net changes in fair value recognised in the statement of profit and loss.

FVTPL is a residual category for financial assets. Any financial asset, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

In addition, the Company may elect to designate a financial asset, which otherwise meets amortized cost or fair value through other comprehensive income criteria, as at fair value through profit or loss. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). The Company has designated Loans to employees, investments in Government Securities, Debentures and State Development Loans and other advances. (Refer note 49 for further details).

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Company's balance sheet) when :

- The rights to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognize the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

On Derecognition of a financial asset, (except as mentioned in (ii) above for financial assets measured at FVTOCI), the difference between the carrying amount and the consideration received is recognized in the Statement of Profit and Loss.

Impairment of financial assets

The Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure;

- a) Financial assets that are debt instruments, and are measured at amortized cost e.g. loans, debt securities, deposits and bank balances.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

- b) Financial assets that are equity instruments and are measured at fair value through other comprehensive income (FVTOCI)
- c) Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 115.

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables or contract revenue receivables.

Under the simplified approach, the Company does not track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. Lifetime ECL are the expected credit losses resulting from all possible default over the expected life of a financial instrument.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12 month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. The Company uses the practical expedient in Ind AS 109 for measuring expected credit losses for trade receivables using a provision matrix based on ageing of receivables. This amount is reflected under the head "Other Expense / Other Income" in the P&L.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss. Loans, borrowings and payables are subsequently measured at amortised cost whereas derivatives are measured at fair value through profit and loss.

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts and derivative financial instruments.

Subsequent measurement

For the purpose of subsequent measurement, financial liabilities are classified into two categories:

- (i) Financial liabilities measured at fair value through profit or loss
- (ii) Financial liabilities measured at amortised cost (loans and borrowings)

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109.

Gains or losses on liabilities held for trading are recognized in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains / losses attributable to changes in own credit risk are recognized in OCI. These gains / losses are not subsequently transferred to P&L. However, the Company may

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognized in the statement of profit or loss.

Financial liabilities measured at amortised cost (loans and borrowings)

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit and loss.

This category generally applies to borrowings.

Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit and loss.

Reclassification of financial assets and liabilities

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Company's senior management determines change in the business model as a result of external or internal changes which are significant to the Company's operations. Such changes are evident to external parties. A change in the business model occurs when the Company either begins or ceases to perform an activity that is significant to its operations. If the Company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Company does not restate any previously recognized gains, losses (including impairment gains or losses) or interest.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

q) Derivative financial instruments**Initial recognition and subsequent measurement**

The Company uses derivative financial instruments, such as forward currency contracts to hedge its foreign currency risks. Such derivative financial instruments are initially recognized at fair value through profit or loss (FVTPL) on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

Any gains or losses arising from changes in the fair value of derivative financial instrument or on settlement of such derivative financial instruments are recognized in statement of profit and loss and are classified as Foreign Exchange (Gain) / Loss except those relating to borrowings, which are separately classified under Finance Cost.

r) **Cash and cash equivalents**

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, that are readily convertible to a known amount of cash and subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consists of cash and short-term deposits, as defined above, net of outstanding bank overdrafts and cash credit facilities as they are considered an integral part of the Company's cash management.

s) **Cash dividend to equity holders of the Company**

The Company recognizes a liability to pay dividend to equity holders of the Company when the distribution is authorized and the distribution is no longer at the discretion of the Company. As per the corporate laws in India, a distribution is authorized when it is approved by the shareholders. A corresponding amount is recognized directly in equity.

t) **Earnings per share**

Basic earnings per share are calculated by dividing the profit for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period.

For the purpose of calculating diluted earnings per share, the profit for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

u) **Segment Accounting**

The Chief Operational Decision Maker monitors the operating results of its business Segments separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on profit or loss and is measured consistently with profit or loss in the financial statements. The Operating segments have been identified on the basis of the nature of products/services.

The accounting policies adopted for segment reporting are in line with the accounting policies of the Company. Segment revenue, segment expenses, segment assets and segment liabilities have been identified to segments on the basis of their relationship to the operating activities of the segment. Inter segment revenue, if any, are recognised at sales price. Profit or loss on inter segment transfer are eliminated at the Company level. Revenue, expenses, assets and liabilities which relate to the Company as a whole and are not allocated to segments on a reasonable basis have been included under "unallocated revenue / expenses / assets / liabilities".

The identified reportable segments are Fertilizers, Chemicals and Others in terms of the requirements of Ind AS 108 "Operating Segments" as notified under section 133 of the Companies Act, 2013.

2.4 **Recent accounting pronouncements**

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026**Ind AS 21 – The Effects of Changes in Foreign Exchange Rates**

In May 2025, MCA notified amendments to Ind AS 21 - The Effects of Changes in Foreign Exchange Rates, applicable w.e.f. April 1, 2025. The Company has reviewed the amendment and based on its evaluation has determined that it does not have any significant impact in its financial statements.

Ind AS 1 – Presentation of Financial Statements

In August 2025, MCA notified amendments to Ind AS 1, applicable w.e.f. April 1, 2025. The amendment relates to classification of liabilities as current or non-current and non-current liabilities with covenants. In the context of classifying a liability as current, it removes the requirement of existence of a right to defer settlement for at least 12 months after the reporting date and instead requires that the said right should exist on the reporting date and have substance. The amendment also introduces guidance on classification of liabilities with covenants. The Company has no impact of these amendments in its classification criteria of current and non-current liabilities.

Ind AS 7- Statement of Cash Flows and Ind AS 107 - Financial Instruments: Disclosures

In August 2025, MCA notified amendments to Ind AS 7 & Ind AS 107, applicable w.e.f. April 1, 2025. The amendment in Ind AS 7 requires to inform users of financial statements of the existence of supplier finance arrangements and explain the nature of the arrangements, the carrying amount of liabilities and the range of payment due dates. Ind AS 107 has been amended to add supplier finance arrangements as a factor that may cause concentration of liquidity risk. The Company has reviewed the amendment and based on its evaluation has determined that it does not have any impact in its financial statements.

Ind AS 12, Income Taxes

In August 2025, MCA notified amendments to Ind AS 12 with respect to International tax reform—Pillar Two model rules. It does not have any impact on financial statements.

3 Significant accounting judgement, estimates and assumptions

The preparation of the Company's Financial Statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Judgements

In the process of applying the Companies accounting policies, management has made the following judgements which have the most significant effects on the amounts recognised in the financial statements.

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

Taxes

Deferred tax assets are recognized for unused tax credits to the extent that it is probable that taxable profit

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

will be available against which the credits can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognized, based upon the likely timing and the level of future taxable profits together with future tax planning strategies. Further details on taxes are disclosed in Note 26.

Defined benefit plans (gratuity benefits and other post-employment medical benefits)

The cost of the defined benefit gratuity plan and other post-employment medical benefits and the present value of these obligations are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, medical cost escalations and mortality rates etc. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds / securities in currencies consistent with the currencies of the post-employment benefit obligation.

The mortality rate is based on publicly available mortality tables for the specific countries. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates and Company's obligation under Long Term Wage Settlement which is evaluated in block of four years. Medical cost escalations are based on expected future medical expenditure.

Further details about gratuity and post-employment medical benefits obligations are given in Note 41.

Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the DCF model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgments include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments. Refer Note 49 for further disclosures.

The Company has invested in the equity instruments of various companies. The valuation exercise of unquoted equity instruments carried out by the Company with the help of an independent valuer, etc. has estimated fair value at each reporting period based on available historical annual reports and other information in the public domain.

Impairment of non-financial assets

Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a Discounted Cash Flow (DCF) model. The cash flows are derived from the budget for the future years and do not include restructuring activities that the Company is not yet committed to or significant future investments that will enhance the asset's performance being tested. The cash flow projections, beyond period covered by the most recent budget / forecast, the Company extrapolates cash flow projections taking base of budget working using a steady or declining growth rate for subsequent years unless an increasing trend can be justified. The recoverable amount is sensitive to the discount rate used for the DCF model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026**Leases - Estimating the incremental borrowing rate**

The Company cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate (IBR) to measure lease liabilities. The IBR is the rate of interest that the Company would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Company 'would have to pay', which requires estimation when no observable rates are available or when they need to be adjusted to reflect the terms and conditions of the lease. The Company estimates the IBR using observable inputs (such as market interest rates) when available and is required to make certain entity-specific estimates.

Evaluation of uncertain tax demand positions and other legal litigation

The Company has material uncertain tax demand positions including matters under dispute which involves significant judgement to determine the possible outcome of these disputes and significant open legal proceedings under arbitration and courts for various matters with its contractors / vendors and in Government departments, continuing from earlier years which are part of Contingent Liability. The Company has made estimates to recognize the provisions mainly for probable claims arising out of litigations / disputes pending with authorities under various statutes and with other parties. The probability and the timing of the outflow with regard to these matters depend on the outcome of the litigations/disputes. Hence, the Company is not able to reasonably ascertain the timing of the outflow.

Carrying Value of Investments at the year end	135.66	124.52

During the current year, the Company has made investment of ₹ 35.71 crores by acquiring 7,34,369 equity shares of GACL, having face value of ₹ 10/- each at an average price of ₹ 486.29/- per equity share. The post issue, shareholding of the Company has changed from 2.40% to 3.40% of the total paid up share capital of GACL.

@ The Company is carrying physical share certificate in respect of this investment.

M/s Ecophos GNFC India Private Limited (EGIPL) is the joint venture company formed by the Company and M/s Ecophos S.A - a Belgium based company for manufacturing of Di-Calcium Phosphate (DCP) at Dahej location. The Company holds 15% shareholding of EGIPL at issued value of ₹ 24.21 crores. During the FY 2019-20, M/s Ecophos S.A. (shareholder) holding 85% shareholding of EGIPL had applied for bankruptcy. Consequently all the nominee directors of EGIPL, Managing Director and Company Secretary of EGIPL resigned. Plant installation for manufacturing of DCP didn't commenced. Accordingly, the Company valued such investment as at March 31, 2026 and as at March 31, 2025 at the nominal consideration of ₹ 1.

\$ The Company had acquired various securities from GNFC-EPFT which includes investments in various long term secured/unsecured Non-Convertible Debentures (NCD) issued by IL&FS Group. Such investments have been recorded at the nominal fair values of ₹ 4.94 only (i.e. ₹ 1 for each security reduced by the amount received till date) as against total face value of ₹ 26.07 crores as on 31.03.2026.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

Further, during the previous year, the Company has received ₹ 3.56 crores from Reliance Capital as full and final settlement towards investments in its two non-convertible debentures series. The Company had already made good the loss while transferring the PF corpus to the Employees' Provident Fund Organisation (EPFO) by considering the fair value of securities at ₹ 1 each. Total face value of investments was ₹ 6 crores.

*** During the previous year, the Company had received 2,00,000 units of Roadstar Infra Investment Trust (RIIT) having a face value of ₹ 100 per unit, aggregating to ₹ 2 crores, under Round 2 and Round 3 of interim distribution from IL&FS. Although these units are listed on the stock exchange, there has been no active trading and fair price discovery remains pending. Consequently, the Company has recognised the investment at a nominal fair value of ₹ 0.22 as on 31.03.2026.

**** As per the stock exchange filing of Gujarat Gas Limited (GGL) on 17.04.2026, Hon'ble MCA, vide its order dated 08.04.2026, has sanctioned the Composite Scheme of Arrangement wherein the Gujarat State Petroleum Corporation Limited (GSPC), Gujarat State Petronet Limited (GSPL) will be amalgamated with the GGL.

All the Companies involved in the Composite Scheme of Arrangement have filed certified copy of the aforesaid Order, along with a copy of the Composite Scheme of Arrangement, in e-Form INC-28 with the Registrar of Companies, Ahmedabad on 01.05.2026 and the Scheme has become effective.

Further, GGL has fixed 12.05.2026 as the Record Date for determining the shareholders of GSPC and GSPL who shall be issued and allotted the shares of GGL under the Scheme.

Considering the above facts, the Company, has considered this event as an adjusting event under Ind AS 10. Accordingly, the Company has de-recognised the investments in GSPC and GSPL as on 31.03.2026 and recognised the shares to be received from GGL, as per the approved share exchange ratio, at market price of GGL as on last trading day of financial year. The impacts of ₹ 11.31 crores is recognised in other comprehensive income as per the option already selected by the company at the time of adoption of Ind AS.

- (a) The fair value of the quoted equity investments are derived from quoted market prices in active market.
- (b) Investments include investment in unquoted equity shares. Fair value of unquoted investment in equity instrument have been carried out by independent valuer using Net Assets Value model and comparable companies model following Market Approach and Asset Approach. The valuation requires management to make certain assumptions about the model inputs, including forecast cash flows, discount rate, credit risk, volatility, net assets and market multiples. The probabilities of various estimates within the range can be reasonably assessed and are used in management's estimates for fair value for these unquoted equity instruments.

Provident fund	26.33	27.02
Contribution to pension scheme	23.51	24.09
Total	49.84	51.11

B. Defined benefit plans:

The Company has following post employment benefits which are in the nature of defined benefit plans:

(a) Gratuity

(b) Post retirement medical benefit

The Company has a defined benefit gratuity plan. Every employee who has completed five years or more of service gets a gratuity as per payment of Gratuity Act, 1972. The Scheme is funded with Gratuity Trust, which in turn makes contribution to Life Insurance Corporation of India (LIC) in the form of qualifying insurance policy for future payment of gratuity to the employees.

Each year the management reviews the level of funding in the gratuity fund. Such review includes the asset - liability matching strategy. The management decides its contributions based on the results of this review. The management aims to keep annual contributions relatively stable at a level such that no plan deficit (based on valuation performed) will arise.

The plan for the Post retirement medical benefit is unfunded.

The following table summarises the components of net benefit expense recognised in statement of profit and loss and the funded status and amounts recognised in the balance sheet for the respective plans:

NOTE: 43 (A)

In earlier year, Hon'ble high Court of Gujarat sanctioned the Scheme of Arrangement and Demerger for transfer of VSAT and ISP Gateway Business of the Company to ING Satcom Ltd., an unlisted Company against cash consideration of ₹ 6 crores vide its Common Oral Order dated 15th June, 2012.

The "Appointed Date" of the Scheme is 1st April, 2010.

Pursuant to the Order of the Hon'ble High Court of Gujarat sanctioning the Scheme of Demerger, the Company submitted two separate applications dated 31st January, 2013 to the Department of Telecommunications (DoT) for transfer of VSAT and ISP License in the name of the Transferee Company viz. ING Satcom Limited.

However, the License Transfer Applications remained pending with DoT and as per the legal opinion and assessment, though the Scheme of Demerger was sanctioned by the Hon'ble High Court, the Scheme of Demerger is subject to and conditional upon the approval of DoT for transfer of Licenses from the Company to ING Satcom Limited.

Therefore, vide an Agreement-Cum-Indemnity Bond dated 12.04.2014 executed between the Company and ING Satcom Limited, the assets of demerged business (other than the licenses) were transferred to ING Satcom, subject to certain terms and conditions, inter alia, including the terms for settling the Transaction in the eventuality of non-transfer of Licenses.

Even though, both VSAT and ISP License have expired and the transfer of licenses to ING Satcom is now out of question, settlement of Demerger Transaction with ING Satcom, as per the terms and conditions of the Agreement-Cum-Indemnity Bond dated 12.04.2014, is still pending and therefore, no accounting treatment is given in the books of the Company since 2014-15 till the financial year ended 31.03.2026.

Necessary accounting treatment will be given in the books of accounts of the Company either on disposal of applications for transfer of Licences in the name of ING Satcom Limited by the competent authorities or on finalization of settlement of transaction with ING Satcom Limited. The amount received is classified under other current liabilities (refer Note 24).

NOTE: 43(B) - Demand Notice from Department of Telecommunication (DoT)

In the Financial Year (FY) 2014-15, the Company received a demand of ₹ 2,752 crores from the Department of Telecommunications (DoT), Ministry of Telecommunications, Government of India, towards License Fee, including interest and penalty, for the "Very Small Aperture Terminal (VSAT) License" and "Category A - Internet Service Provider (ISP) - IT License." This demand pertained to the period from FY 2009-10 to FY 2013-14. The Company challenged the

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

demand before the Telecom Disputes Settlement and Appellate Tribunal (TDSAT), which subsequently stayed the demand and restrained DoT from taking any coercive recovery action against the Company.

Subsequently, in FY 2019-20, the Hon'ble Supreme Court of India, in the case of Union of India v. Association of Unified Telecom Service Providers of India, (2020) 3 SCC 525 ("AGR Judgment"), upheld DoT's interpretation of Adjusted Gross Revenue (AGR), affirmed that AGR includes revenue from both licensed as well as unlicensed activities.

Pursuant to the Supreme Court ruling, DoT issued revised demand notices dated December 23, 2019, March 05, 2020 and July 15, 2022, amounting to ₹ 15,020 crores, ₹ 16,359 crores and ₹ 21,370 crores, respectively. The demand period was retrospectively extended to encompass the period FY 2005-06 through FY 2019-20.

Aggrieved by these revised demands, the Company submitted representations to DoT on January 06, 2020, February 21, 2020, April 03, 2020 and March 04, 2022, requesting reconsideration and withdrawal of the demands. In its representations, the Company underscored that revenues from its Fertilizers & Chemicals business, which is entirely unrelated to VSAT and ISP-IT Licenses, should not be included in computation of AGR and License Fees.

Subsequent legal & regulatory developments, such as distinction between non-Telecom PSUs and Core Telecom Companies, duly recognized by both DoT and the Hon'ble Supreme Court; the TDSAT Judgment in the case of Union of India Vs M/s Netmagic Solutions Pvt. Ltd, Civil Appeal 9012/2022 ("Netmagic Judgment") and; the 2021 Telecom Reforms, have carved out several exceptions to the interpretation of the term "AGR" and computation of AGR and the License Fees.

These exceptions provide critical relief, particularly for the similar category of licensees and the non-telecom / non-licensed revenue streams.

Based on a detailed and meticulous legal assessment in consultation with eminent Senior Advocates, the Company firmly believes that it has strong grounds to contest the demands raised by DoT. Consequently, the Company has neither provided for this amount in its books of account nor recognized it under contingent liability.

* The SOTP approach is normally used for valuing a firm by separately assessing the value of each business segment or subsidiary or associate companies or Investments and adding them up to get the total value of the firm. The valuation approach used to value each Business/Investment Companies are Cost Approach/Market Approach/Income Approach. The appropriate approach / method with appropriate adjustment is used considering size, nature and complexities of business/investment.

c) Financial Instrument measured at amortised cost

The carrying amount of financial assets and financial liabilities measured at amortised cost in the financial statements are a reasonable approximation of their fair values since the Company does not anticipate that the carrying amounts would be significantly different from the values that would eventually be received or settled.

49.3 : Financial Risk objective and policies:

The Company's principal financial liabilities, other than derivatives, comprise loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include loans, deposits, investments, trade and other receivables, and cash and cash equivalents that derive directly from its operations. The Company also holds FVTOCI & FVTPL investments and enters into derivative transactions.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

In the ordinary course of business, the Company is mainly exposed to risks resulting from exchange rate fluctuation (currency risk), interest rate movements (interest rate risk) collectively referred as Market Risk, Credit Risk, Liquidity Risk and other price risks such as equity price risk and commodity price risk. The Company's senior management oversees the management of these risks. It manages its exposure to these risks through derivative financial instruments by hedging transactions as required. It uses derivative instruments such as foreign currency forward contract to manage currency risks. These derivative instruments reduce the impact of both favourable and unfavourable fluctuations.

The Company's risk management activities are subject to the management, direction and control of the management of the Company under the guideline of the Board of Directors of the Company. The management ensures appropriate financial risk governance framework for the Company through appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives. It is the Company's policy that no trading in derivatives for speculative purposes may be undertaken.

The decision of whether and when to execute derivative financial instruments along with its tenure can vary from period to period depending on market conditions and the relative costs of the instruments. The tenure is linked to the timing of the underlying exposure, with the connection between the two being regularly monitored. The Company is exposed to losses in the event of non-performance by the counterparties to the derivative contracts. All derivative contracts are executed with counterparties that, in management's judgment, are creditworthy. The outstanding derivatives are reviewed periodically to ensure that there is no inappropriate concentration of outstanding to any particular counterparty.

Further, all currency and interest risk as identified above is measured on a daily basis by monitoring the mark to market (MTM) of open and hedged position. For year ends, the MTM for each derivative instrument outstanding is obtained from respective banks. All gain / loss arising from MTM for open derivative contracts and gain / loss on settlement / cancellation / roll over of derivative contracts is recorded in statement of profit and loss.

a) **Market risk**

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk and commodity price risk. Financial instruments affected by market risk include loans and borrowings, FVTOCI investments and derivative financial instruments. The sensitivity analysis in the following sections relate to the position as at March 31, 2026 and March 31, 2025.

The sensitivity analysis have been prepared on the basis that the amount of net debt, interest rates of the debt and derivatives are all constant as at March 31, 2026. The analysis exclude the impact of movements in market variables on the carrying values of gratuity and other post-retirement obligations and provisions.

The following assumptions have been made in calculating the sensitivity analysis:

- The sensitivity of the relevant profit or loss item is the effect of the assumed changes in respective market risks. This is based on the financial assets and financial liabilities held at March 31, 2026 and March 31, 2025.

(i) **Interest rate risk**

The Company is exposed to changes in market interest rates due to financing, investing and cash management activities. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's short-term debt obligations.

(ii) **Foreign currency risk**

Exchange rate movements, particularly the United States Dollar (USD) and Euro (EUR) against Indian Rupee (INR), have an impact on the Company's operating results. The Company manages its foreign currency risk by entering into various foreign exchange contracts to mitigate the risk arising out of foreign exchange rate movement on trade payables. Further, to hedge foreign currency future

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

transactions in respect of which firm commitment are made or which are highly probable forecast transactions (for instance, foreign exchange denominated income) the Company has entered into foreign currency forward contracts as per the policy of the Company.

The details of exposures hedged using forward contracts and the details of unhedged exposures are given as part of Note 48.

The Company is mainly exposed to changes in USD and EURO. The below table demonstrates the sensitivity to a 5% increase or decrease in the respective foreign currency rates against INR, with all other variables held constant. The sensitivity analysis is prepared on the net unhedged exposure of the Company as at the reporting date. 5% represents management's assessment of reasonably possible change in foreign exchange rate.

(iii) Commodity price risk

The Company's operating activities require the ongoing purchase of natural gas. Natural gas being an international commodity is subject to price fluctuation on account of the change in the crude oil prices, demand supply pattern of natural gas and exchange rate fluctuations. The Company is not affected by the price volatility of the natural gas to the extent consumed for Urea as under the Urea pricing formula the cost of natural gas is pass through if the consumption of natural gas is within the permissible norm for manufacturing of Urea.

The Company also deals in purchase of other feed stock materials (i.e. Rock phosphate, Toluene and Denatured Ethyl Alcohol) which are imported by the Company and used in the manufacturing of Ammonium Nitro Phosphate, Toluene Di-isocyanate and Ethyl Acetate. The import prices of these materials are governed by international demand and supply pattern. There is a price and material availability risk, which is managed by senior management team through sensitivity analysis, commodity price tracking.

(iv) Equity price risk

The Company's investment in listed and non-listed equity securities are susceptible to market price risk arising from uncertainties about future values of the investment securities. The Company manages the equity price risk through diversification and by placing limits on individual and total equity instruments. Reports on the equity portfolio are submitted to the Company's senior management on a regular basis. The Company's Board of Directors reviews and approves all equity investment decisions.

At the reporting date, the exposure to unlisted equity securities at fair value was ₹ 396.65 crores. Sensitivity analyses of these investments have been provided in Note 49.2(b).

At the reporting date, the exposure to listed equity securities at fair value was ₹ 465.21 crores. A decrease of 5% on the BSE market price could have an impact of approximately ₹ 23.26 crores on the OCI or equity attributable to the Group. An increase of 5% in the value of the listed securities would also impact OCI and equity. These changes would not have an effect on profit or loss.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

b) Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables and other financial assets) and from its financing activities, including deposits with banks, foreign exchange transactions and other financial instruments.

Customer credit risk is managed by the Company's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on an extensive evaluation and individual credit limits are defined in accordance with this assessment.

An impairment analysis is performed at each reporting date on an individual basis for major clients. In addition, a large number of minor receivables are grouped into homogenous groups and assessed for impairment collectively. The calculation is based on exchange losses historical data.

Credit risk from balances with banks and non-banking finance companies is managed by the Company's treasury department in accordance with the Company's policy. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty. Counterparty credit limits are reviewed by the Company's Board of Directors on an annual basis, and may be updated throughout the year subject to approval of the Company's management. The limits are set to minimize the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

Trade receivables

The Company's receivables can be classified into two categories, one is from the customers/ dealers in the market and second one is from the central and state Government in the form of subsidy. As far as Government portion of receivables is concerned, credit risk is Nil except where there are uncertainties due to non-acknowledgement of claims. In respect of market receivables from the customers/ dealers, the Company extends credit to customers in normal course of business. The Company considers factors such as credit track record in the market and past dealings for extensions of credit to customers. The Company monitors the payment track record of the customers. Outstanding customer receivables are regularly monitored. The Company evaluates the concentration of risk with respect to trade receivables as for certain products it extends rolling credit to its customers, against the collateral.

Trade receivables, other than subsidy receivables are secured to the extent of interest free security deposits and bank guarantees received from the customers amounting to ₹ 21.29 crores and ₹ 21.63 crores as at 31st March, 2026 and 31st March, 2025, respectively. (Refer Note No. 11 for Trade Receivables outstanding).

The Company follows a 'simplified approach' (i.e. based on lifetime ECL) for recognition of impairment loss allowance on Trade receivables, other than those receivables from the Government of India. For the purpose of measuring lifetime ECL allowance for trade receivables, the company estimates irrecoverable amounts based on the ageing of the receivable balances and historical experience in respect of certain categories of the customers. Individual trade receivables are written off when management deems them not to be collectible.

c) Liquidity Risk

Liquidity risk is the risk that the Company will encounter difficulty in raising funds to meet commitments associated with financial instruments that are settled by delivering cash or another financial asset. Liquidity risk may result from an inability to sell a financial asset quickly at close to its fair value.

The Company has an established liquidity risk management framework for managing its short term, medium term and long term funding and liquidity management requirements. The Company's exposure to liquidity risk arises primarily from mismatches of the maturities of financial assets and liabilities. The Company manages the liquidity risk by maintaining adequate funds in cash and bank balances. The Company also has adequate credit facilities agreed with banks to ensure that there is sufficient cash to meet all its normal operating commitments in a timely and cost-effective manner.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

49.4 : Capital Management:

For the purposes of the Company's capital management, capital includes issued capital and all other equity. The primary objective of the Company's capital management is to maximize shareholder value. The Company manages its capital structure and makes adjustments in the light of changes in economic environment and the requirements of the financial covenants.

The Company monitors capital using gearing ratio, which is net debt (total debt less cash and bank balance) divided by total capital plus net debt.

(₹ Crores)

Particulars	March 31, 2026	March 31, 2025
Total Borrowings (refer note 19)	-	99.16
Less: Cash and bank balances (refer Note 14 and 15)	1,109.19	2,308.40
Net Debt (A)	(1,109.19)	(2,209.24)
Total Equity (B)	9,115.20	8,575.64
Total Equity and Net Debt (C = A + B)	8,006.01	6,366.40
Gearing ratio	-	-

Since net debt is negative, same is considered as zero.

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings. There have been no breaches in the financial covenants of any interest-bearing loans and borrowing in the current period. No changes were made in the objectives, policies or processes for managing capital during the years ended March 31, 2026 and March 31, 2025.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

50.5 : Audit Trail

The Company uses an accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the accounting software. The audit trail was operated at application level throughout the year and the same has been enabled at the database level from May 17, 2025. The audit trail at the Oracle database level captures details of executed Data Manipulation Language (DML) and Data Definition Language (DDL) statements and it does not retain both old and new values in respect of data modifications. Further, there is no instance of audit trail feature being tampered with in respect of the accounting software where such feature is enabled. Furthermore, the audit trail has been preserved by the Company as per the statutory requirements for record retention.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

- (vii) Based on the Ministry of Corporate Affairs (MCA) portal, charges aggregating to ₹ 0.46 crore are appearing as "Open" as of March 31, 2026 which were executed with Banks (the lender) in relation to securing repayment of loan facility related to year 1990. The Company is in process to obtain the No Objection Certificates from the Banks. Once the same is received, the Company will file the "Satisfaction of Charge" with the Registrar of Companies (ROC).
- (viii) Utilisation of borrowed funds and share premium:
- I :- The Company has not advanced or loaned or invested funds to any other person(s) or entity(ies), including foreign entities (Intermediaries) with the understanding that the Intermediary shall:
- directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company (Ultimate Beneficiaries) or
 - provide any guarantee, security or the like to or on behalf of the ultimate beneficiaries.
- II :- The Company has not received any fund from any person(s) or entity(ies), including foreign entities (Funding Party) with the understanding (whether recorded in writing or otherwise) that the Company shall:
- directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party (Ultimate Beneficiaries) or
 - provide any guarantee, security or the like on behalf of the ultimate beneficiaries.

Note 51 : Code on Social Security

On November 21, 2025, the Government of India notified the four Labour codes - The code on Wages, 2019, The Industrial Relations code, 2020, The code on Social Security, 2020 and The Occupational Safety, Health and Working Conditions Code, 2020 - consolidating 29 existing Labour Laws. The Company has assessed the impact of these changes on the basis of internal assessment with guidance provided by the Institute of Chartered Accountants of India. Accordingly, the Company has estimated and recognised past service cost towards incremental obligation in gratuity and leave encashment aggregating to ₹ 3.12 crores based on the best available information and review of the existing wage structure, which is included in Employee Benefits Expense for the year ended March 31, 2026. The Company continues to monitor the finalisation of Central / State Rules and any clarifications from the Government on other aspects of the New Labour Codes and would provide appropriate accounting effect in the relevant period on the basis of such developments as needed.

Note 52 :

Balances of certain trade receivables, advances given and trade payables are subject to confirmation/reconciliation, if any. The management does not expect any material difference affecting the financial statements on such reconciliation / adjustments.

Note 53 : Event occurred after the Balance Sheet Date:

The Company evaluates events and transactions that occur subsequent to the balance sheet date but prior to the approval of the financial statements to determine the necessity for recognition and/or reporting of any of these events and transactions in the financial statements. As of May 18, 2026, there were no material subsequent events to be recognized or reported that are not already previously disclosed.

Note 54 :

The previous year's figures have been regrouped / reclassified, wherever necessary, to conform to the figures of the current year presentation.
