- c. **Pursuant to the provisions of the Act, a Member entitled to attend and vote at the AGM is entitled to appoint a proxy to attend and vote instead of himself and the proxy need not be a Member of the Company. Since this AGM is being held pursuant to the Circulars through VC / OAVM, the requirement of physical attendance of Members has been dispensed with. Accordingly, the facility for appointment of proxies by the Members will not be available for the AGM and hence the Proxy Form, Attendance Slip and Route Map are not annexed to this Notice.**
- d. Participation of Members through VC / OAVM shall be reckoned for the purpose of quorum for the AGM as per Section 103 of the Act.
- e. The information required to be provided as per Section 102 of the Act, Secretarial Standard - 2 on General Meetings issued by The Institute of Company Secretaries of India and Listing

Regulations are furnished in the explanatory statement which is annexed hereto.

- f. All the relevant documents referred to in this AGM Notice and Explanatory Statement, Register of Directors' and Key Managerial Personnel and their shareholding maintained under Section 170 and Register of Contracts or Arrangements in which Directors are interested, maintained under Section 189 of the Companies Act, 2013 and other documents shall be available electronically for inspection by the members at the AGM. Members seeking to inspect such documents can send an e-mail to cs@parasdefence.com from their registered e-mail address mentioning their name, DP ID and Client ID.
- g. The register of members and share transfer books of the Company will remain closed from Friday, August 15, 2025 to Thursday, August 21, 2025 (both days inclusive) for the purpose of determining eligibility of the members for the purpose of e-voting and AGM.
- h. In line with the Ministry of Corporate Affairs (MCA) Circular No.14/2020 dated 8th April, 2020, Circular No. 17/2020 dated 13th April, 2020 and Circular No. 20/2020 dated 5th May, 2020 read with Securities and Exchange Board of India (SEBI) Circular No. SEBI/HO/CFD/CMD1/CIR/P/2020/79 dated 12th May, 2020 Circular No. 17/2020 dated April 13, 2020, Notice of the AGM along with the Annual Report 2024-25 is being sent only through electronic mode to those Members whose e-mail addresses are registered with the Company's Registrar and Share Transfer Agent/Depositories. Members may note that the Notice and Annual Report 2024-25 will also be available on the Company's website www.parasdefence.com, websites of the Stock Exchanges i.e., BSE Limited and National Stock Exchange of India Limited at www.bseindia.com and www.nseindia.com respectively and on the website of MUFG Intime India Private Limited www.in.mpms.mufg.com
- i. In case any Member is desirous of obtaining physical copy of the Annual Report for the FY 2024-25 and Notice of the AGM of the Company, he/she may send a request to the Company by writing at cs@parasdefence.com mentioning their DP ID and Client ID.
- j. Corporate Members are entitled to appoint authorized representatives to attend the AGM through VC / OAVM and vote on their behalf. Institutional / Corporate members (i.e. other than individuals, HUF, NRI, etc.) are required to send a scanned copy (PDF/JPG Format) of its Board or governing body Resolution/Authorization along with an ID proof of the representative, authorizing their representative to attend the AGM through VC / OAVM on their behalf and to vote through remote e-voting. The said Resolution/Authorization shall be sent to the Scrutinizer by email through their registered email address to dinesh.deora@yahoo.com with a copy marked to <https://instameet.in.mpms.mufg.com>.
- k. **Record Date and Dividend:** Members may note that the Board, at its meeting held on April 30, 2025, has recommended a final dividend of ₹ 0.50/- per equity share of ₹ 5/- for the financial year ended March 31, 2025. The record date for the purpose of final dividend is Friday, August 08, 2025. The final

dividend once approved by the members in the ensuing AGM, will be paid within 30 days after approval of the members in the ensuing Annual General Meeting (AGM). As per SEBI requirements, effective from 1st April, 2024, Companies are allowed to make dividend payments only in electronic mode. To ensure timely credit of dividend, members are requested to update their KYC with their depositories/depository participants (DPs) before the cut-off date. Members are hereby informed that bank particulars registered with their respective DPs, with whom they maintain their demat accounts, will be used by the Company for the payment of dividend. Members are requested to intimate any change in their address and / or bank mandate to their DPs only, as the Company or its RTA cannot act on any request received directly on the same.

As per Indian Income Tax Act, 1961 dividend paid and distributed by a Company is taxable in the hands of members. Therefore, the Company is required to deduct taxes at source (TDS) at the rates applicable on the amount distributed to the members at prescribed rates. For information on prescribed rates, members are requested to refer to the Finance Act, 2020 and subsequent amendments thereof. The members are requested to update their PAN details, tax residential status with their depository participants. No tax shall be deducted on the dividend payable to a resident individual member if the total dividend to be received during financial year 2025-26 does not exceed ₹ 10,000/-. The withholding tax rate (TDS rate) would vary depending on the residential status of the member and the documents submitted by them and accepted by the Company.

A resident individual member with PAN who is not liable to pay income tax can submit a yearly declaration in Form 15G/15H. To avail the benefit of non-deduction of tax, members may send duly signed forms to Company's RTA at <https://web.in.mpms.mufig.com/formsreg/submission-of-form-15g-15h.html> by Tuesday, August 5, 2025 (upto 6.00 p.m. IST). Members are requested to note that in case their PAN is not registered, the tax will be deducted at a higher rate of 20%.

Non-resident members can avail beneficial rates under tax treaty between India and their country of residence subject to providing necessary documents i.e. No Permanent Establishment and Beneficial Ownership Declaration, Tax Residency Certificate, Form 10F, any other document which may be required to avail the tax treaty benefits by updating details at <https://web.in.mpms.mufig.com/formsreg/submission-of-form-15g-15h.html>. The said declarations need to be submitted by Tuesday, August 5, 2025 (upto 6.00 p.m. IST). The Company is not obligated to apply the beneficial Tax Treaty rates at the time of tax deduction/ withholding on dividend amounts. Application of beneficial Tax Treaty Rate shall depend upon the completeness of the documents submitted by the Non-Resident shareholder and review to the satisfaction of the Company/RTA.

A separate email communication is being sent informing the members regarding the relevant procedure to be adopted by the Members to avail the applicable tax rate as per the Income Tax Act, 1961.

India’s defence sector is making remarkable strides towards self-reliance while positioning itself to play a pivotal role in fortifying global supply chains. With a clear focus on indigenisation, innovation and global leadership, India is securing its borders, reducing its dependency on imports and strengthening the potential of defence exports. At the same time, India’s progress in space exploration marks a series of significant milestones. With renewed confidence, the nation continues to push the limits of possibility, inspiring future generations to dream big and aim higher.

Amidst these evolving dynamics, Paras stands at the forefront, defending the skies by seamlessly blending manufacturing excellence with robust innovation. We are committed to staying ahead of the competition by continuously working on future technologies that promise to reshape the defence and space sectors.

Our achievements are a testament to our capabilities—we are the only Company in the Asia-Pacific to develop and manufacture submarine periscopes, the only private Indian Company to develop and manufacture hyperspectral cameras for defence and space applications and the sole Indian Company to offer turnkey electromagnetic pulse (EMP) protection solutions. We are also the creators of the first-of-its-kind Border Defence System to safeguard our frontline soldiers from enemy fire and the only Indian Company to manufacture cameras for drones and UAVs.

As we venture into the realms of quantum communications and quantum sensing, backed by our results-driven team and visionary leadership, we believe that the future holds immense possibilities for us. We remain steadfast in our commitment to defending our skies, sharpening our competitive edge and collectively progressing towards a more secure tomorrow.

Strategically Securing a Better Tomorrow

Chairman's message

We recognise significant potential in expanding global partnerships and exports, particularly in areas where our niche engineering strengths align with evolving international defence requirements. With a solid foundation, a robust order pipeline and continued investments, we strive to deliver sustainable value for all.

Dear Shareholders,

Every nation's security begins at its borders, but true defence extends beyond them. With a clear focus on indigenisation, innovation and global leadership, India is not only securing its borders but also positioning itself as a key player in the international defence ecosystem. On the other hand, India's increasing technological confidence, global collaborations and its readiness to contribute meaningfully to the global space community are unlocking a new chapter—one where India not only aims to explore but to lead.

Reflecting on the past year, I am pleased to share that Paras Defence and Space Technologies has stood tall amidst these changes, growing in tandem with the nation and driving progress. Our expertise is built on a strong foundation of innovation, resilience and responsibility. We are consistently strengthening our core competencies to deliver world-class & proven performance while remain dedicated to pioneering advanced solutions for defence and space applications.

Bolder, Better, Built to lead

The increase in the defence budget reflects the nation's commitment to strengthening its military foundation. With a strong focus on innovation, new-generation technologies and the development of defence corridors, the Indian defence sector is steadily evolving into a self-reliant ecosystem. Simultaneously, India is charting a bold course in space exploration, with an array of visionary missions and projects approved to enhance its position in global space exploration.

Paras is poised to capitalise on these opportunities by leveraging its robust research and development capabilities and manufacturing prudence. Our diversified portfolio includes submarine periscopes, high power laser systems, hyperspectral cameras, electromagnetic protection solutions and border defence systems; while we aim to develop and offer cutting edge technologies in the domain of RF & Microwave from our subsidiary, Paras Anti-Drone Technologies Private Limited. As the markets continue to evolve, we are also foraying into quantum communications and sensing.

Catering to the Needs of Bharat

Technology has become central to the global defence and space landscape. At Paras, our strong emphasis on technology development distinguishes us as a prominent IDDM Company. We have deepened our focus on strengthening indigenous capabilities to further contribute to the 'Make in India' initiative and promoting Atmanirbharata.

Our efforts are geared towards delivering end-to-end solutions in critical segments such as electro-optics, defence electronics and EMP protection. Further, we are making significant strides in emerging domains like drone and anti-drone technologies and space optics. By harnessing the power of talent, technology and trust, we are driving excellence to ensure national security to emerge as a trusted partner in global value chains.

Indigenously developing solutions to enhance SECURITY

At Paras, We combine advanced engineering and high-impact technology with innovation and manufacturing excellence to deliver solutions that support the development of a self-reliant India. Our portfolio includes ultra-precision optics for satellites and missiles, advanced optronic systems for surveillance and targeting and robust defence engineering solutions that include electronics, mechanical systems and electromagnetic protection. By contributing towards national security, enabling space exploration and driving the

growth of critical infrastructure both in India and on the global stage, we strive to maintain our position as the one-stop for everything critical.

Through our core verticals-- Optics and Optronic Systems, and Defence Engineering-- we are offering fully integrated, indigenously developed solutions for a diverse array of applications. We are among the few companies in India that specialise in the high-end manufacturing for defence and space applications, and we are actively involved in some of the key aerospace and defence projects commissioned by the Indian government.

Our Unique Model of Value Creation

We follow a unique business model built on complete in-house capabilities, technological foresight and strategic agility. By designing, engineering, and manufacturing critical technologies under one roof, we maintain complete control over innovation, intellectual property and quality. Our approach is analytical, future-ready and customer-centric—continuously monitoring market trends and tailoring solutions to fortify our presence in the dynamic landscape.

Prepared for the Next

Today, India is steadily advancing on the path of self-reliance, and we are growing

in harmony with the progress. We remain optimistic about exploring new frontiers in defence and space technologies, focusing on supporting critical national programmes through innovation-driven solutions.

We also recognise significant potential in expanding global partnerships and exports, particularly in areas where our niche engineering strengths align with evolving international defence requirements. With a solid foundation, a robust order pipeline and continued investments, we strive to deliver sustainable value for all.

Lastly, I would like to take this opportunity to thank all our stakeholders for your support and trust. Your encouragement has been instrumental to our progress and growth. As we move forward, I look forward to achieving new milestones together.

Yours sincerely,

Sharad Virji Shah
Chairman

Managing Director's Message

Dear Shareholders,

The financial year 2024-25 was marked by remarkable progress, strategic breakthroughs and steadfast execution of our long-term vision. We had strengthened our core capabilities across defence and space technologies as well as achieved several key milestones that cemented our position in the industry. Our commitment to the nation is demonstrated through dedicated efforts to facilitate the indigenous development of critical defence systems, pioneering advancements in electro-optics and laser technologies and meaningful contributions to empower the nation. In the era characterised by escalating geopolitical conflicts, we stand ready to provide solutions for a nation on course to become the third largest global economy by 2030.

Defending the sovereignty of the nation

The defence budget has seen a steady rise, reflecting the nation's commitment to strengthening its military foundations. The rapid advancement has led to record-breaking production, a surge in exports, targeted investments and landmark defence contracts-- shaping a future where strength

and self-reliance go hand in hand. Further, government initiatives such as Make in India and the Defence Acquisition Procedure have created a conducive environment for domestic companies to thrive.

With an established footprint in areas such as submarine periscopes, high power laser systems, hyperspectral imaging, electromagnetic protection and drone-based camera systems, we are now actively foraying into air defence, anti-drone, space and quantum technologies. Backed by strong leadership and a dedicated team, we remain focused on delivering value and developing solutions that make a real difference.

Defending Our Growth Story

Measuring Progress

We recorded a total revenue of ₹364.66 crore, driven by robust order execution, expansion in key product lines and growing demand across defence and space domains. Further, operational efficiency and disciplined cost management resulted in an EBITDA of ₹97.20 crore, reflecting healthy margins. In addition to this, our Profit After Tax (PAT) stood at ₹61.49 crore, underlining strong bottom-line performance amidst a dynamic business environment.

Achieving Milestones with Agility

We take immense pride in being the only Company in the Asia-Pacific region to indigenously develop and manufacture submarine periscopes and the first private Indian company to design and produce hyperspectral cameras for defence and space applications. Our successful delivery of complete electromagnetic protection systems and the development of India's first Border Defence System further underscore our growing contribution to national security. In addition, we are the only Indian company manufacturing electro-optic cameras for drones and UAVs.

We have also entered future-focused areas such as Laser based air defence system, anti-drone systems, quantum communication and quantum sensing. Throughout the

The rapid advancement has led to record-breaking production, a surge in exports, targeted investments and landmark defence contracts-- shaping a future where strength and self-reliance go hand in hand.

year, we maintained a strong focus on indigenisation and exports, aligning closely with India's vision of becoming a global hub for defence manufacturing.

Defending Our Planet

Our commitment to sustainability is integral to our mission of creating and maximising value for all. As we advance with an innovation-led approach, our dedication to shaping a responsible and climate-resilient tomorrow remains unswerving. We have embraced cleaner and more efficient manufacturing practices by reducing energy consumption, minimising waste and optimising resource usage across our facilities. Our R&D efforts also focus on designing lighter, smarter and more eco-friendly defence solutions that meet future needs.

Defending Our Future

We are shaping the next phase of defence and space innovation through advanced technologies and scalable capabilities. Our blueprint for the future includes diversifying the product portfolio, enhancing manufacturing infrastructure and deepening participation in global defence and space supply chains.

Innovation will continue to be the guiding light in our journey. By developing next-generation systems across high-impact areas,

supported by advanced design, testing and qualification facilities, we are optimistic of the endless possibilities that the future holds for us. Through increased investment in in-house capabilities and strategic partnerships, the Company aims to follow the create-ideate-innovate philosophy.

I would like to express my sincere gratitude to all our stakeholders for their continued trust and support. Your confidence in Paras Defence and Space Technologies has been central to our progress. As we look forward, we aim to build a stronger, future-ready organisation.

Yours Sincerely,

Munjal Sharad Shah
Managing Director

Our blueprint for the future includes diversifying the product portfolio, enhancing manufacturing infrastructure and deepening participation in global defence and space supply chains. We have also entered future-focused areas such as Laser based air defence system, anti-drone systems, quantum communication and quantum sensing.

Serving the Nation

For over four decades, we have been at the forefront of delivering advanced engineering solutions that power India's defence and space sectors. Our distinctive strength lies in our distinguished Indigenously Designed Developed and Manufactured (IDMM) capabilities, enabling us to build a diversified portfolio, 100% made in India.

We seamlessly blend precision engineering with an acute understanding of evolving requirements to offer fully integrated solutions across Defence and Space Optics, Defence Electronics, Defence Heavy Engineering and EMP Protection. Each of our products reflects our dedication to innovation and uncompromising quality as well as our indomitable zeal to serve the nation.

We aim to be the trusted companion for our stakeholders, wholeheartedly dedicated to achieving sustainable business growth together.

India's No. 1 High-End Optical Systems Company

Paras aims to become India's No. 1 High-End Optical Systems Company catering to the Domestic as well as World Market, through in-house R&D & global partnerships.

India's No. 1 Laser Based Air Defence Company

Paras is in the process to offer turnkey Laser based Air Defence Solution and provide mitigation options against hostile drones and ariel targets. Coupled with other systems, we want to aim at providing all-round Air Defence Solutions.

India's No. 1 Anti-Drone Company

We strive to become India's No. 1 company developing and producing cutting-edge Anti-Drone Technologies including Radars, Software Defined Radios, Phased Arrays & Advanced Antennas etc.

India's No. 1 ElectroMagnetics Company

Paras aspires to offer turnkey solutions for ElectroMagnetic Protection covering EM Pulse, Anechoic Chambers & Antenna Test Ranges amongst others, not just for Domestic but for World Market.

VISION

Our mission is to excel in customer satisfaction by delivering innovative and cutting-edge technological solutions, setting a benchmark for excellence in the industry.

Building Aatmanirbhar Bharat

Defence Sector

The Indian defence sector has witnessed a remarkable transformation over the years, evolving from an industry limited in scale to a self-reliant ecosystem. This growth has been steered by sustained policy reforms and strategic initiatives, all meticulously crafted to reduce dependence on imports. Consequently, the defence sector is striding towards robust domestic capabilities, embracing an innovative spirit and integrating private industry in strengthening national defence.

Boosting Domestic Production

India's pursuit of self-reliance in defence manufacturing has significantly reduced its dependence on foreign suppliers. Through measures such as the Defence Acquisition Procedure (DAP) 2020, the Defence Production and Export Promotion Policy (DPEPP) and schemes such as iDEX and Make-II, the Government is nurturing home-grown solutions for national security.

65% of defence equipment is now manufactured domestically, marking a dramatic shift from the previous 65–70% import dependency.

India's Defence Budget Growth

(₹ Lakh Crore)

Growth Drivers

Import substitution through Positive Indigenisation Lists

Policy support for startups and MSMEs via iDEX

Streamlined procurement, testing and certification norms

R&D support through DRDO and Make-I/II mechanisms, with at least 25% of DRDO R&D projects earmarked for industry participation to further boost domestic technology development

Promoting Defence Exports

The nation's ambition to transform from a defence importer to a global manufacturing powerhouse is gaining traction. Indian defence products are experiencing a surge in international markets due to simplified export regulations and robust government support, building credibility and fostering stronger strategic alliances.

Our Strategy

We align our efforts with the vision of Atmanirbhar Bharat. At Paras Defence, our focus lies in crafting advanced optoelectronic systems, border surveillance technologies, high-power laser systems, EMP protection solutions, Defence Electronics & Anti-Drone Technologies and becoming a significant contributor to the Air Defence Technologies of the country, thereby bolstering India's modern warfare preparedness. Our expertise is underpinned by world-class manufacturing facilities and resolute dedication to innovation and technology development. While comprehensive design-to-delivery capabilities support indigenisation, global collaborations simultaneously enhance scalability.

Space Sector

India's transition from being a follower in space exploration to becoming a global enabler has served as an inspiration for developing countries worldwide. Backed by visionary leadership, indigenous capabilities and successful missions such as Chandrayaan, the transformation of the Indian space ecosystem is driven by bold ambitions, technological innovation and increasing global collaboration.

Strengthening Indigenous Capabilities

The Indian government is actively promoting domestic design and development of advanced space technologies. With the approval of the Indian Space Policy 2023, private sector participation is being encouraged in satellite manufacturing, launch vehicles and ground infrastructure. This pivotal shift is aiding ISRO's role from a service provider to an enabler of national space ambitions.²

To further invigorate the space start-up ecosystem, the government has approved the establishment of a **Rs.1000 crore** Venture Capital Fund dedicated to space sector. This fund, under aegis of IN-SPACe, is earmarked for deployment over the next five years.

Commercialisation and Global Reach

India's is actively working to increase its share in the global space economy with a particular focus on commercialising space activities. At the forefront of this ambition are NewSpace India Ltd. (NSIL) and IN-SPACE, diligently driving commercial engagements and empowering non-government players to build satellites, operate launch services and offer downstream applications. These concerted efforts are meticulously paving the path for India to emerge as a global space hub.

Our Strategy

We are the only Indian private company with the comprehensive, all-round capability to design, system engineer, manufacture, integrate, and qualify optical systems for space programmes. We continue to build

advanced optical components & payloads and hyperspectral imaging systems and subsystems for ISRO, private companies and export markets. Our collaborations, in-house R&D and indigenous manufacturing, place us at the heart of India's next-generation space missions.

Growth Drivers

Indian Space Policy 2023:

Lays the foundation for private and public sector collaboration

Proven Track Record of Missions:

India's reputation for executing successful space missions with faster timelines and reduced costs is a major growth driver, enhancing trust in Indian capabilities globally

Technology Development:

Focus on reusability, interplanetary missions and AI-based remote sensing

Start-Up Ecosystem:

Over 190+ space-tech startups supported by IN-SPACE and ISRO

Global Demand:

Rising interest in India's cost-effective, reliable launch and satellite capabilities

Empowering India, Redefining Excellence

At Paras Defence, we stand on a legacy built upon innovation, excellence and expertise. Our extensive range of products and solutions positions us as one-stop destination for diverse customer base. By consistently strengthening our role in contributing to India’s defence capabilities, we have seamlessly delivered turnkey solutions that have set us apart in the industry.

Business Vertical Overview

Our operations are structured across two core verticals, Optics and Optronic Systems and Defence Engineering. Both of the segment reflect our dedication to deliver value across high-impact applications in defence, aerospace and space applications. These verticals are powered by our R&D infrastructure, vertically integrated production capabilities and a proven track record of working with India’s premier institutions and global partners. We are consistently pushing the limits of possibilities to meet current demands as well as anticipate future needs.

Optics and Optronic Systems

We take pride in being the sole Indian private company equipped with the comprehensive capability to design and manufacture high-end Optical Systems such as Submarine optronic periscopes, EO/IR Systems for various platforms such as Armoured Vehicles, Border Surveillance, Naval Vessels, Avioncs, Drones/UAVs etc., large-format space optics and hyperspectral imaging systems for Space Applications.

Defence Engineering

This vertical houses our core engineering competencies across Electronics, Mechanical Systems and EMP Protection Solutions. From High Performance Defence Electronic Systems to Critical Mechanical Systems to Exclusive Turnkey Electromagnetic Pulse Protection Solutions, our offerings meet the highest technical and regulatory standards for defence and critical infrastructure.

Defence and Space Optics

This vertical is involved in producing ultra-high precision optics tailored for thermal imaging, night vision, missile guidance and space imaging systems. We are India’s leading company into optics for various Indian defence and space programmes, backed by in-house design & development expertise coupled with advanced optical manufacturing infrastructure.

Our portfolio in this segment

IR Lenses

These optical components serve as the cornerstone for thermal imaging cameras and night vision equipment used by border security officers and the armed forces across various electro-optic and infrared systems.

Optical Domes

Seamlessly integrated into missiles, these advanced optical components are crucial for ensuring precise target acquisition in demanding operational environments.

Gyro Blocks

Our precisely-crafted gyroscope components enhance the positional accuracy of devices. They are crucial to improving the accuracy of inertial navigation systems, with key applications in avionics and space travel.

Diffraction Gratings

These advanced optical components are integral to hyperspectral cameras, playing a vital role in an array of space-based applications, including Earth observation.

Large Size Space Mirrors

Specialised for use in space telescopes, these mirrors with diameters ranging from 0.5 to 1.2 metres are designed for high-precision imaging tasks, particularly within Earth observation satellite systems.

Multi-Fold Lenses

These compact and precision-focused lenses are designed for multi-axis optical systems, supporting advanced sighting and targeting solutions.

Zerodur Mirrors

These low-expansion glass ceramic mirrors are ideal for systems where optical stability is required across extreme thermal environments.

Optical Reflectors

These custom-designed optical elements deliver high-reflectivity and sharp beam control, making them well-suited for integration into missile and payload assemblies.

Metal Mirrors

Built from aluminium or other comparable metals, these mirrors offer high surface reflectivity, making them ideal for large-scale, long-range imaging devices such as telescopes.

Ultra Precision Manufacturing

Our infrastructure includes CNC-based diamond turning, polishing and testing systems that support micron-level accuracy and repeatability across our range of optical products.

Lens Assembly

We provide end-to-end lens assembly services, including alignment, bonding and housing, to deliver fully integrated opto-mechanical units suited for defence and space platforms.

Optronic Systems

Our Optronic Systems division delivers advanced sensor-based solutions that combine optics, electronics and precision engineering to support target detection, tracking and surveillance. Designed for reliable performance across various terrains and platforms, including submarines, UAVs and ground vehicles, these systems adapt to different operating environment. We offer complete in-house design, development and integration capabilities for these multi-sensor electro-optic systems.

Our portfolio in this segment

Optical Submarine Periscope

An indigenously developed optronic periscope system featuring both day and night vision capabilities. It offers superior situational awareness and accurate target tracking for underwater platforms.

HyperSpectral Imaging System

These systems provide high-resolution spectral data across multiple wavelengths, enabling detailed analysis and imaging for defence, space and environmental applications.

Border Surveillance System

Multi-sensor surveillance platforms designed for long-range detection, monitoring and tracking of potential threats across land and coastal borders.

EO/IR Systems

We have strategically formed a joint venture with Controp Precision Technologies Ltd., Israel's world-leading exclusive provider of EO/IR (Electro-Optical/Infrared) systems. This partnership aims to manufacture world-class EO/IR systems in India under the Make in India initiative, catering to various platforms including drones. Combining Controp's cutting-edge technology and our local manufacturing capabilities, the JV is well-positioned to deliver advanced surveillance and reconnaissance solutions critical for India's defence and space sectors.

Defence Electronics

Our Defence Electronics vertical is dedicated to the development and production of high performance ruggedised electronic systems engineered to perform reliably even in the most demanding operating conditions. These systems are integral to command, control, surveillance, communication and weapon platforms. Developed in accordance with stringent military standards, our solutions blend precision engineering with reliable and high performance.

Our portfolio in this segment

MIL Grade Control Systems

Designed for strategic operations, these systems manage and regulate platform functions with exceptional precision and operational safety.

MIL Grade Multi-Function Consoles

Compact, integrated consoles that serve as central control stations in armoured vehicles, naval systems and tactical platforms.

MIL Qualified Rugged Displays

Ruggedised display systems with high durability, clarity and performance under extreme conditions including shock, temperature and vibration.

MIL Grade Computers/Servers

Processing and data storage systems tailored for military environments, offering secure, high-speed computing in critical missions.

Rugged VME/VPX Systems

Modular embedded computing platforms that allow seamless integration of multiple mission-critical subsystems within compact defence setups.

Software Development

Custom software solutions for system control, sensor fusion and embedded applications tailored to defence specifications.

Sensing Electronics

Electronic modules designed to process and relay data from various sensors used in surveillance, targeting and detection.

Data/Video/Image Processing

High-speed processing systems capable of interpreting real-time sensor feeds and converting them into actionable visuals.

Acoustic and Magnetic Sensing Products

Advanced detection systems used for underwater and ground-based surveillance, monitoring variations in acoustic and magnetic fields.

Avionic Suites

Integrated electronic systems for aircraft including flight displays, controls and mission management modules.

Remotely Controlled Weaponised Station (RCWS)

A stabilised, remote-operated platform that integrates weapon systems with electro-optical sights and control interfaces. Designed for deployment on combat vehicles and naval vessels, it enhances operational effectiveness while minimising risk to personnel.

EMP Solutions

Our EMP Solutions include advanced shielding systems designed to protect critical infrastructure and defence electronics from electromagnetic pulse (EMP) threats. As the only Indian company offering complete turnkey solutions, we provide end-to-end services encompassing design, manufacturing, installation and validation. These solutions meet global military standards and are deployed across mission-critical installations.

Our portfolio in this segment

EMP Shielded Rooms and Control Centers

Fully enclosed shielded environments that ensure uninterrupted operation of sensitive electronic systems during high-energy EMP events.

EMP Shielded Racks and Cabinets

Purpose-built enclosures that protect servers, communication equipment, and control hardware from electromagnetic interference and pulse surges.

Anechoic/Semi Anechoic Chambers

Specialised test environments with controlled electromagnetic absorption, used for EMI/EMP testing and equipment qualification.

EMP Protection Filters/Arrestors

High-performance filters and arrestors designed to prevent EMP surges from entering power and signal lines, ensuring system stability.

Shielded/Screen Doors

Engineered access doors with high shielding effectiveness that maintain EMP integrity while allowing controlled physical entry.

EMP Hardened Products

Custom-manufactured components and enclosures designed with inherent EMP resistance for high-risk operational environments.

Air Vents/Wave-guides/Panels

Shielded passive components such as waveguide panels and air vents that allow airflow and cable access without compromising EMP protection.

Turnkey EMP Projects

End-to-end implementation services including site assessment, system design, product integration, testing and compliance certification.

Heavy Engineering

Our Heavy Engineering vertical is dedicated to delivering precision-engineered mechanical systems and large structural assemblies that support mission-critical defence and space applications. Backed by strong in-house capabilities across special metal processing, fabrication and machining, we support complex system requirements, ranging from radar support to mobility platforms and aerospace-grade components. Our state-of-the-art infrastructure enables the delivery of high-quality, high-strength solutions tailored for diverse operating environments.

Our portfolio in this segment

Flow Formed Tubes

High-strength, lightweight tubes manufactured using flow forming technology, ideal for aerospace structures and propulsion systems.

Active Array Radar Cooling Assemblies

Custom-designed thermal management systems used in active electronically scanned array (AESA) radar platforms to ensure optimal performance.

Titanium Manufacturing

Processing and machining of titanium components used in defence and aerospace systems for their superior strength-to-weight and corrosion-resistant properties.

Special Metal Manufacturing

Fabrication and treatment of exotic alloys and materials required for high-performance defence structures and precision assemblies.

Heavy Structures

Large fabricated mechanical structures and platforms used across defence projects requiring high-load endurance and dimensional accuracy.

Special Purpose Machines

Custom-built machinery designed for defence production and testing processes, tailored to customer specifications and mission needs.

MIL Grade Racks and Cabinets

Rugged enclosures that house sensitive military electronics, designed to meet shock, vibration, and thermal compliance standards.

Rugged Tri-Pods and Quadri-Pods

Stable, high-load mounts used for sensors, weapon systems, and surveillance equipment in field operations.

Unifying Our Strengths

Our specialised subsidiaries play a pivotal role in unifying strengths and driving collective progress. These subsidiaries extend our capabilities across high-impact areas including anti-drones, quantum technologies and thermal solutions. In addition to enhancing our competitive edge, these entities ensure operational prowess and efficient supply chain management. Each entity makes a significant contribution to our growth journey, accelerating innovation and expanding market reach.

Paras Anti-Drone Technologies Pvt. Ltd.

Shaping the Future of Defence

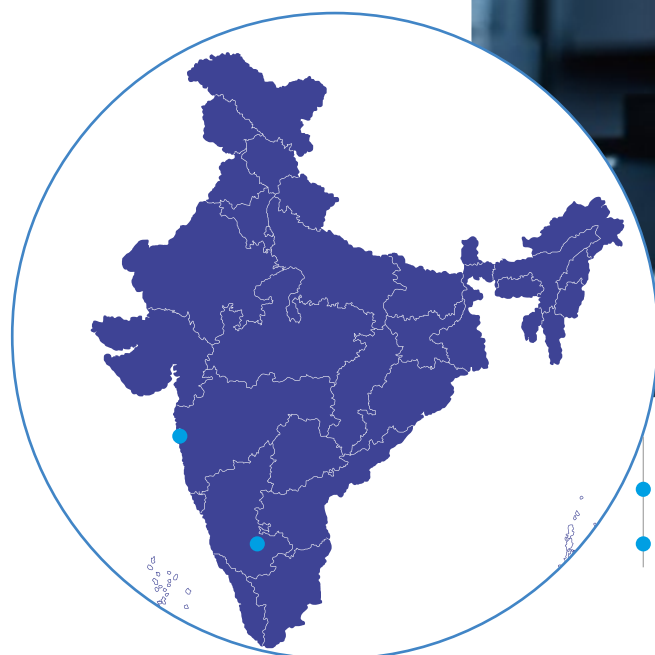

Research and development remains at the core of our identity as a technology-first defence Company. Our in-house R&D units, recognised for their advanced technical capabilities, support end-to-end product development across high-impact domains.

In FY25, our efforts were directed towards developing and upgrading next-generation systems including hyperspectral imaging payloads, rugged control electronics, periscopes and EO/IR platforms. These initiatives were supported by our facilities equipped for design, testing, and MIL-STD qualification of advanced sub-systems and assemblies.

100+

R&D Team members

We expanded our product development scope through collaborations with our subsidiaries in drone technology, anti-drone systems and radar-linked electronics. Our growing R&D pipeline is aligned with India's self-reliance objectives, focusing on the design and development of fully indigenously solutions.

Our Hall of Fame

Our success on the Innovations for Defence Excellence (iDEX) platform stands as a testament to our R&D leadership and our ability to co-develop mission-critical systems for strategic applications. We are proud to have been selected as winners of four iDEX challenges, each aligned with future-forward technologies across defence and space. These projects uphold our indigenous design and manufacturing capabilities and unlock new opportunities to serve both domestic and global markets.

Synthetic Aperture Radar (SAR) for IAF

Awarded under the Indian Air Force's iDEX challenge, this project involves the development of a space-based SAR system for all-weather surveillance. With a total addressable market of \$26.53 billion, this platform will be instrumental in enabling enhanced reconnaissance, monitoring and disaster response capabilities from space. Our radar system is being designed to deliver advanced imaging performance with high resolution and wide coverage.

Smart Anti-Jamming System – Compact Variant

Selected by the Indian Army, this iDEX award focuses on building a compact anti-jamming system capable of countering interference in GNSS-based systems. As modern warfare becomes increasingly reliant on precision navigation and timing, our solution will provide critical protection for tactical operations from electronic threats. The project addresses a global TAM of \$4.29 billion, and our design emphasises portability, high endurance and platform versatility.

Smart Anti-Jamming System – High-Performance Variant

We secured a second contract by the Indian Army for a high-performance version of the Smart Anti-Jamming System, targeted for high-threat and high-precision applications. This version will incorporate enhanced signal processing and ruggedisation to meet mission-critical defence needs. While targeting similar market potential, this variant is geared for more complex operational environments.

Mobile Ground Station for Satellite Communication

This project, awarded by the Defence Space Agency (DSA), involves the development of a mobile ground station for secure and high-throughput satellite communications. It will serve as a key enabler in defence space infrastructure and mobility-focused C4ISR applications. With a TAM of over \$60.7 billion, the solution will provide robust connectivity for space assets across dynamic terrains and combat zones, reflecting the growing convergence between space and defence technologies.

- k. **Record Date and Dividend:** Members may note that the Board, at its meeting held on April 30, 2025, has recommended a final dividend of ₹ 0.50/- per equity share of ₹ 5/- for the financial year ended March 31, 2025. The record date for the purpose of final dividend is Friday, August 08, 2025. The final

dividend once approved by the members in the ensuing AGM, will be paid within 30 days after approval of the members in the ensuing Annual General Meeting (AGM). As per SEBI requirements, effective from 1st April, 2024, Companies are allowed to make dividend payments only in electronic mode. To ensure timely credit of dividend, members are requested to update their KYC with their depositories/depository participants (DPs) before the cut-off date. Members are hereby informed that bank particulars registered with their respective DPs, with whom they maintain their demat accounts, will be used by the Company for the payment of dividend. Members are requested to intimate any change in their address and / or bank mandate to their DPs only, as the Company or its RTA cannot act on any request received directly on the same.

As per Indian Income Tax Act, 1961 dividend paid and distributed by a Company is taxable in the hands of members. Therefore, the Company is required to deduct taxes at source (TDS) at the rates applicable on the amount distributed to the members at prescribed rates. For information on prescribed rates, members are requested to refer to the Finance Act, 2020 and subsequent amendments thereof. The members are requested to update their PAN details, tax residential status with their depository participants. No tax shall be deducted on the dividend payable to a resident individual member if the total dividend to be received during financial year 2025-26 does not exceed ₹ 10,000/-. The withholding tax rate (TDS rate) would vary depending on the residential status of the member and the documents submitted by them and accepted by the Company.

A resident individual member with PAN who is not liable to pay income tax can submit a yearly declaration in Form 15G/15H. To avail the benefit of non-deduction of tax, members may send duly signed forms to Company's RTA at <https://web.in.mpms.muvg.com/formsreg/submission-of-form-15g-15h.html> by Tuesday, August 5, 2025 (upto 6.00 p.m. IST). Members are requested to note that in case their PAN is not registered, the tax will be deducted at a higher rate of 20%.

Non-resident members can avail beneficial rates under tax treaty between India and their country of residence subject to providing necessary documents i.e. No Permanent Establishment and Beneficial Ownership Declaration, Tax Residency Certificate, Form 10F, any other document which may be required to avail the tax treaty benefits by updating details at <https://web.in.mpms.muvg.com/formsreg/submission-of-form-15g-15h.html>. The said declarations need to be submitted by Tuesday, August 5, 2025 (upto 6.00 p.m. IST). The Company is not obligated to apply the beneficial Tax Treaty rates at the time of tax deduction/ withholding on dividend amounts. Application of beneficial Tax Treaty Rate shall depend upon the completeness of the documents submitted by the Non-Resident shareholder and review to the satisfaction of the Company/RTA.

A separate email communication is being sent informing the members regarding the relevant procedure to be adopted by the Members to avail the applicable tax rate as per the Income Tax Act, 1961.

Management Discussion and Analysis

Economic Environment

Global Economic Overview¹

The world economy advanced by 3.3% during CY 2024 amid prevailing geopolitical tensions, deceleration in China and policy uncertainty in leading economies. Growth in Europe trailed owing to elevated energy prices driven by persistent conflict in Eastern Europe and the Middle East and ageing populations, particularly in Germany and Italy. Conversely, the US economy grew by 2.8%, which helped stabilise world output. Emerging economies in Asia supported overall growth fuelled by robust manufacturing and technological innovation.

Inflation moderated globally to 5.7%, from 6.6% in 2023, driven by advanced economies. However, other regions experienced lingering price pressures, prompting central banks to implement cautious monetary easing. Increased bond yields in developed economies were indicative of concerns among investors about inflation, geopolitical uncertainty and changing monetary policies.

As global growth continues to be increasingly driven by emerging markets, especially in electronics and digital infrastructure, strategic investment and policy changes will be necessary to drive long-term growth.

Outlook

The global economic outlook remains moderate, with projected stable growth at 2.8% in 2025. Disinflationary trends, driven by a cooling labour market and declining oil prices, are expected to continue. This decline is expected to create a conducive environment for central banks to transition toward more expansionary monetary policies. Inflation is forecasted to ease to 4.3% by the end of CY 2025, signalling a steady global economic recovery, particularly in emerging markets.

Geopolitical tensions and structural issues in key emerging markets like China notwithstanding, the overall outlook reflects the potential for growth, supported by government initiatives and fiscal consolidation efforts. The implementation of tariff policies by the US has caused global trade volumes estimates to be forecasted downwards creating an environment of protectionism.

Meanwhile, Europe continues to face the risk of stagnation. Positively, the continued strength in fundamental sectors and post-pandemic consumption growth may support long-term recovery. The manufacturing industry of developing economies stands to benefit from the competitive advantage of supply chain shifts and bilateral trade deals. The evolving global trade landscape, along with strategic fiscal policies and ongoing structural reforms are

expected to drive innovation in the medium-term. With enhanced productivity, resilient supply chains, sustained economic growth is expected in the emerging markets and developing economies.

Indian Economic Overview²

India's economy demonstrated remarkable resilience in FY 2024-25, with its GDP recording a growth of 6.5%. Despite global economic turbulence and geopolitical tensions, India's economic performance remained strong, supported by a robust export sector. Although the manufacturing industry experienced a slowdown, manufacturing exports, particularly in high-value industries such as electronics strengthened India's position in global value chains. However, geopolitical uncertainties and supply chain disruptions, particularly in the Red Sea region, have impacted export growth. The electronics industry, particularly semiconductor and electronic components has displayed strong growth. This growth conveys the increasingly crucial role of India in these critical global sectors.

Although inflation remained above the Reserve Bank of India's (RBI) target range of 4-6% for several months, fiscal management remained prudent, with a fiscal deficit of 4.4%-4.5% of GDP. This provided sufficient fiscal headroom for increased government spending. The RBI's monetary policies, including ₹1.5 trillion liquidity injection and interest rate cuts are expected to ease liquidity conditions, support private capital expenditure and stimulate consumption, laying the groundwork for sustainable growth.

Further, the economy witnessed a 26% year-on-year increase in Foreign Direct Investment (FDI) inflows in H1 FY 2024-25, signalling growing investor confidence. The country's position as the third-largest recipient of greenfield investments demonstrates its potential as a hub for technological advancements, particularly in the electronics and manufacturing sectors.

Outlook

India's economic outlook remains optimistic, driven by strong domestic fundamentals and a robust growth trajectory. The country is projected to maintain its position as one of the world's fastest-growing economies, with real GDP growth forecasted at 6.5% for FY 2025-26. This growth is likely to be driven by reduced inflation and enhanced private investment. Infrastructure spending has witnessed notable growth, increasing by 38.8% between FY 2019-20 and FY 2023-24, with further capital expenditure expected in the latter half of FY 2024-25. This is expected to stimulate demand and attract private sector investment.

India is also set to gain from higher Foreign Direct Investment (FDI), particularly due to cost-effective expansion avenues sought by multinational companies. Government efforts such as the Production-Linked Incentive (PLI) scheme will remain crucial in establishing India's rising prominence in global electronics manufacturing and export markets. The strategic strength of the country, including currency devaluation that has made exports competitively priced and its evolution as a competitive manufacturing hub, will continue to support the sector's growth.

While risks such as geopolitical uncertainties and volatile crude oil prices exist, India's economic resilience, backed by strong public and private investments positions the nation for sustained economic expansion.

Industry Overview

Global Defence Industry⁴

The global defence industry is being shaped by a new era of advanced warfare driven by AI-powered planning, autonomous drones and cyber warfare. Escalating geopolitical turbulence and heightened military spending by nations worldwide is favouring the shift of the industry towards emerging players.

In 2024, the world military expenditure reached an unprecedented high of \$2,718 billion. The top five military spenders included the

US, China, Russia, Germany and India. These nations together accounted for 60% of the global total, with a combined spending of \$1,635 billion. Military expenditure formed 2.5 per cent of the global GDP in 2024.

All NATO members heightened their military expenditure in 2024. Military spending by the USA witnessed an elevation of 5.7% and reached \$997 billion, which was 66% of the total NATO spending and 37% of the global military spending in 2024. Israel's military expenditure surged by 65% to \$46.5 billion in 2024, primarily driven by the prolonged conflict in the Middle-East.

Indian Defence Industry

India maintains the world's second-largest active armed forces and is the world's fourth-largest spender on military resources. In recent years, the nation has consistently allocated an estimated 2% of its GDP for defence expenditure. In FY 2024-25, a substantial budget of ₹ 6.22 lakh crore was allocated to the defence sector.⁵

The sector has witnessed a swift transformation and has significantly reduced its dependence on imports. From being 65%-70% import dependent to achieving 65% domestic manufacturing, the industry has considerably enhanced India's self-reliance in defence.⁶ Central to this transformation is the growth of India's private defence manufacturing industry, contributing 21% to total defence production.⁷ In FY 2024-25, the Ministry of Defence signed a record 193 contracts, with the total contract value exceeding ₹2,09,050 crore, nearly double of the previous highest figure. Of these, 177 contracts have been awarded to the domestic industry, amounting to ₹1,68,922 crore, which is 81% of the total contract value.⁸ This significant focus on indigenous manufacturing aligns with the nation's vision of self-reliance in defence production, boosting local industries and employment generation across the sector.

Defence exports reached an unprecedented ₹ 23,622 crore in FY 2024-25, registering a surge of ₹2,539 crore or 12.04% over FY 2023-24.⁹ These exports encompassed ₹15,233 crore from the private sector and ₹8,389 crore from DPSUs, an increase of ₹15,209 crore and ₹5,874 crore respectively from FY 2023-24.¹⁰ With policy-driven boost, defence exports are expected to grow at ~19% during next 5 years (i.e. from FY24 to FY29).¹¹ The government aims to increase defence exports to ₹50,000 crore by FY 2029, reflecting India's growing importance in the global defence value chain.¹²

Moving forward, India's defence budget has been set to ₹6.81 lakh crore in FY 2025-26. This is expected to further reinforce the nation's defence capabilities. The outlay for annual defence production is projected to increase from ₹1.75 lakh crore in FY 2024-25 to ₹3 lakh crore in 2029, projecting a CAGR of 20% and further establishing the nation as a global defence manufacturing hub.¹³ In addition, the nation is projected to spend ₹11 lakh crore on fleet modernisation in the next 5-7 years.¹⁴

Govt Initiatives

Innovations for Defence Excellence (iDEX)

By engaging MSMEs, startups, individual innovators, R&D institutes and academia, iDEX has provided grants of up to ₹1.5 crore for the development of innovative technologies. To further enhance self-reliance in defence technology, ₹449.62 crore has been allocated to iDEX, including its sub-scheme Acing Development of Innovative Technologies with iDEX (ADITI), for 2025-26. Building on its success, iDEX Prime was introduced, enhancing this support to Rs 10 crore.¹⁵

Make in India

Through the 'Make in India' initiative and policy reforms, the government has actively promoted domestic production and reduced reliance on foreign procurement. This shift has been a meaningful step towards India's broader vision of achieving Atmanirbharta (self-reliance) in defence. This has positioned the nation as an emerging hub for the production of advanced military technologies and equipment.

Liberalised FDI Policy

Foreign Direct Investment (FDI) in the defence sector was liberalised in September 2020 to attract foreign investment. The liberalisation has allowed up to 74% FDI through the automatic route and above 74% through the government route. Since April 2000, the total FDI in defence industries stands at ₹5,516.16 crore.

Ease of Doing Business (EoDB)

- The government has introduced several measures to enhance the ease of doing business in the defence manufacturing sector.
- The validity of export authorisation for parts and components has been extended from two years to the completion of the order or component, whichever is later.
- In 2019, the Defence Product List was streamlined to reduce the number of items requiring a manufacturing licence.
- Parts and components of defence items were de-licensed in September 2019 to encourage investment.
- The validity of defence licences under the Industries (Development and Regulation) Act, 1951, has been extended from 3 years to 15 years, with a further extension option of up to 18 years.
- The introduction of an end-to-end digital export authorisation system has improved efficiency, with more than 1,500 authorisations issued in the last financial year.

MAKE Procedure

As of March 24, 2025, a total of 145 projects have been undertaken under the MAKE initiative, with the participation of 171 industries, notably driving indigenous defence production.

The initiative includes 40 MAKE-I projects (Government Funded), 101 MAKE-II projects (Industry Funded) and 4 MAKE-III projects (Manufacturing through ToT). These projects are playing a vital role in strengthening self-reliance in defence manufacturing.

Domestic Procurement Allocation: MoD has earmarked 75% of modernisation budget amounting to ₹1,11,544 crore for procurement through domestic industries during the current fiscal.¹⁶

Acing Development of Innovative Technologies (ADITI) Scheme

The newly launched ADITI scheme provides assistance of up to ₹25 crore to help scale breakthrough innovations. With the broader aim of strengthening the start-ups and MSMEs, the Ministry of Defence has approved purchases worth more than ₹2,400 crore from start-ups/MSMEs and projects worth more than ₹1,500 crore have been approved for development of new technology.¹⁷

Global Space Sector

Across emerging economies, the space sector is witnessing a notable surge. Small satellite networks are gaining prominence as the world moves to a space-based economy. The number of launches has increased significantly from a handful a decade ago to a few every week. The global space economy is projected to sustain its momentum and is expected to reach a valuation of \$1.8 trillion by 2035.¹⁸

Key Drivers¹⁹

Declining Launch Costs

Over the course of the past two decades, global space launch costs have witnessed a ten-fold decline, allowing for an increasing number of launches.

Increasing Space Applications and Investment

An increase in space-related activities including space tourism has fuelled rising investments from the private sector.

Competitive Zeal

Awareness and excitement over the latest space developments is evident all over the world. Governments and business leaders are increasingly realising the potential of space-related technologies for the future.

Commercial Innovation

Shrinking size of satellites, paired with heightened commercial innovation is resulting in a surge of new space applications. For

example, objects may now be identified at a resolution of 15 centimetres from space-based earth observation. Additionally, the cost per pixel has sustained its decline, enhancing the commercial viability of such operations.

Indian Space Sector

India's space sector has demonstrated notable technological accomplishments over the years. The cost-effectiveness, reliability and efficiency of the Indian Space Agency, Indian Space Research Organisation (ISRO) has come to the fore in numerous recent missions. The organisation has successfully launched satellites for communication, navigation and earth observation and was the first in Asia and fourth in the world to have successfully accomplished an interplanetary Mars Orbiter Mission (Mangalyaan).

In 2021, the Indian space industry contributed 2% to the global share. This is expected to rise to 8% by 2030 and further to 15% by the year 2047.²⁰ India's space industry is projected grow to \$44 billion by 2033.²¹

Government Initiatives

Indian Space Policy

The Indian Government has launched various initiatives and policy schemes, such as Indian Space Policy 2023, to augment the capabilities in technology development. These schemes are expected to benefit allied sectors and promote the inclusive socio-economic development of the nation.

Seed Funding Scheme

The Seed Funding Scheme aims to increase the participation of private companies, start-ups and industrial corporations to supplement and enhance the expanding infrastructure in the space sector. In the journey to become a global leader, the space sector of India is set to offer a plenitude of opportunities.

FDI

Currently, India allows 100% FDI in the space sector thereby unleashing new horizons of innovation and growth in the sector.²² India's space budget has tripled from ₹5,615 crores in 2013-14 to ₹13,416 crores in the recent budget, marking a staggering 138.93% increase.²³

Indian National Space Promotion and Authorisation Centre (IN-SPACe)

To facilitate participation from the private sector, the Department of Space (DoS) established the National Space Innovation and Applications (NSIL) and Indian National Space Promotion and Authorisation Centre (IN-SPACe). The Indian government is also providing unstinted support and encouragement through initiatives such as the recently approved \$120 million venture capital fund

dedicated to the space sector.²⁴ India's scientific advancements in AI, quantum technology and bioengineering are further cementing the nation's position as a champion in space and other futuristic technologies.

Upcoming Projects

Upcoming projects such as Aditya L-1, India's first space-based mission to study the sun, highlights the country's commitment to space exploration. The trials for the Gaganyaan Mission, India's first human spaceflight mission, are set to commence along with the ROBO Mission by the end of 2025. Four astronauts have been identified for the mission, with one already invited by the US to visit the International Space Station. By 2035, India aims to establish the Bharat Antariksh Station, reinforcing the nation's journey to its goal of sending its first astronaut to the Moon by 2040.

Company Overview

Paras Defence and Space Technologies, founded in 1979, is a publicly traded Indian Company listed on the BSE and the National Stock Exchange. Headquartered near Mumbai, with manufacturing facilities in Navi Mumbai and Ambarnath, Paras specialises in

high-precision products and turnkey systems for the defence and space sectors.

The Company's operations are organised into two main verticals:

- Optics and Optronics Systems
- Defence Engineering (Defence Electronics, Electromagnetic Pulse (EMP) Protection Solutions and Heavy Engineering)

Over the course of more than four decades, Paras has developed technologies for rockets and missiles, space research, naval platforms, armoured vehicles, electronic warfare, surveillance and electromagnetic shielding. Through its subsidiaries, the Company also works on drones, Radio Frequency (RF) and microwave systems, anti-drone solutions, EO/IR systems for avionics and quantum technologies.

Paras' state-of-the-art facilities support end-to-end delivery, from concept and design through manufacturing to integration and commissioning of both small and large systems. A strong emphasis on research and development highlights its role as an Indigenous Design, Development and Manufacturing (IDDM) partner for India's defence industry.

Opportunities

Opportunities

- The defence and space sector of India is currently undergoing significant transformation, facilitated by far-sighted government initiatives such as Aatmanirbhar Bharat (Self-Reliant India) and Make in India. The initiatives seek to encourage domestic production, research and private-sector participation and aim to create a suitable business culture for companies such as Paras Defence and Space Technologies.
- Production-Linked Incentive (PLI) scheme, with electronics and advanced manufacturing being the core, also promotes defence electronics, optics, electromagnetic pulse (EMP) protection and heavy engineering specialists. Growing international demand for cutting-edge defence technologies amid escalating geopolitical tensions, supports India's rising defence exports and positions the Company to capitalise on overseas collaborations and export markets.
- Initiatives like the Indian National Space Promotion and Authorization Centre (IN-SPACe) invite the private sector to join ventures in space. This enables Paras to be part of satellite systems, quantum communications and other new sectors.

Cash flows

Cash and cash equivalents on the balance sheet include cash at banks, cash on hand and short-term deposits with an original maturity of three months or less, which carry minimal risk of value change. In the statement of cash flows, cash and cash equivalents are represented by cash and short-term deposits, minus any outstanding bank overdrafts, as these are considered a fundamental aspect of our cash management.

Research and Development

Paras Defence and Space Technologies has a strategic vision for its R&D to lead innovation. The Company runs exclusive R&D facilities in Nerul (Navi Mumbai) and Bengaluru, with specialised engineering teams for technologies related to Optics, Optical Systems, Defence Electronic Systems, Mechanical Systems, Electromagnetics, RF & Microwave etc. The Nerul campus of Paras Defence and Space Technologies has official recognition as a R&D Unit from India's Department of Scientific and Industrial Research (DSIR), reflecting its commitment towards upholding stringent industry standards.

Paras develops tailored solutions like Optronic Systems for various platforms, Border Surveillance and Defence Systems and electromagnetic shielding amongst others with focus on indigenous design and development. More than 90% of its parts are locally designed and produced, aligning with India's self-reliance objectives under initiatives like Aatmanirbhar Bharat. Further, synergistic associations with international technology companies enhance its R&D strengths and enable manufacturing cutting edge technologies in India. The Company's R&D strategy ensures process refinement, cost-effectiveness and development of a strong pipeline of products which are essential to counter the evolving defence demands.

Consistent R&D spending on advanced equipment and employee upskilling augment the Company's capability to supply high-margin, technology-driven systems. These initiatives provide early-mover benefits in specialised areas such as anti-drone systems and quantum technologies, while maintaining the ability to adapt to changing customer priorities.

Risk Management

The Company's integrated risk management system is based on a Board-approved plan. The plan provides the processes, which are utilised to identify, analyse and manage risks. The plan further guides procedures to operate, record and monitor risks effectively. The aim of the risk management plan is to undertake a holistic approach so that all important risks are identified, understood and managed suitably. This framework allows the implementation of relevant methodologies and tools for risk identification, assessment, management and reporting.

The Audit Committee and the Board are periodically apprised of potential risks and corrective actions required. The Company manages internal and external risks with sound judgement and appropriate measures.

Human Resource

The Company has a well-defined framework of HR policies aimed at upholding an equal, transparent and equitable workplace culture. It creates a secure, safe and supportive work environment. The HR policies strive to join organisational and employee goals, thereby empowering employees. The Company provides routine skill development training and courses to enhance the competencies of employees. The Company believes that employee friendly management practices, work environment, career developmental opportunities and overall benefits are essential to upholding good employee relations and retention.

The Company invests in acquisition, growth and retention of talent through a range of initiatives, such as learning and development, compensation and benefits, employee engagement and performance management. Employees are recognised and rewarded depending

on their yearly performance. Also, the Company granted 78,450 stock options to employees in FY 24-25, in order to attract, retain and motivate the employees thereby giving them an opportunity to participate in the growth of the Company and create long-term wealth in their own hands.

Internal Control Systems

The Company has a strong system of internal controls commensurate with the nature, size and complexity of its business. Detailed policies, guidelines and procedures have been put in place for every business process. The internal control system is designed to provide reasonable assurance for the reliability of financial and other records for effective financial reporting and asset accountability. It also provides for strict compliance with all applicable statutory and regulatory compliance.

There is a robust monitoring mechanism in place to monitor progress on customer agreement terms, pinpointing issues and taking appropriate corrective and preventive measures to achieve assured service levels. A team monitors costs relating to different projects from time to time, giving feedback for course correction if required. The audit committee reviews internal financial controls and systems of risk management with the help of internal auditors. Any deviations from normal practices are reported to the Board and timely remedial actions are taken.

Information Technology

The Company comprehends the significance of technology in business expansion and achievement of its goals to expand customer experience, improve security and ensure convenience of operations.

The Company recognises the crucial significance of data security. It is equipped with a robust IT infrastructure and enterprise resource planning systems implemented at its manufacturing units. The IT infrastructure includes third-party solutions and applications managed internally. The Company employs strong IT disaster management systems such as data backup and retrieval mechanisms to ensure adequate data protection.

CONSERVATION OF ENERGY, TECHNOLOGY ABSORPTION AND FOREIGN EXCHANGE EARNINGS AND OUTGO

(Information pursuant to the Section 134(3)(m) of the Companies Act, 2013 read with the Companies (Accounts) Rules, 2014 and forming a part)

Sr. No.	Particulars	Remarks
1.	Conservation of energy	
A.	The steps taken or impact on Conservation of Energy	Your Company takes many initiatives to reduce the electricity consumption by using energy efficient products, thus resulting in lower electricity consumption and increasing the productivity.
i.	Process Optimization and automation	
ii.	Optimization of Electrical Equipment	
iii.	Lighting	
iv.	Other key initiative for energy conservation	
B.	The steps taken by the Company for utilizing alternate source of energy	Discussion with experts and training programs have been ongoing for innovative ideas of production and knowledge updating. The concerned staff members are also encouraged to attend various seminars and workshops for their improvement in various aspects of functioning of the factory.
C.	The capital investment on energy conservation equipment	There has been an overall improvement in product quality and labour productivity, resulting in economy of cost, and improved operational efficiencies. Your Company has focused on productivity so that unit consumption per unit is reduced. EV charging station was inaugurated within the premises to promote sustainable transportation and also contribute to reduction in carbon footprint. The EV charging station on an average is used for approx. 7 hours daily.
2.	Technology Absorption	
A.	The efforts made by the Company towards technology absorption	The Company has no activity relating to technology absorption.
B.	The benefits derived like product improvement, cost reduction, product development or import substitution	
C.	In case of imported technology (imported during the last three years reckoned from the beginning of the Financial Year)	The Company has not imported technology during the year under review.
D.	The expenditure incurred on Research and Development

Secretarial Audit Report

[Pursuant to Section 204(1) of the Companies Act, 2013 and Rule 9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

For the Financial Year Ended March 31, 2025

To,
The Members,

PARAS DEFENCE AND SPACE TECHNOLOGIES LIMITED

D-112, TTC INDUSTRIAL AREA,
MIDC, NERUL NAVI MUMBAI
MH 400706 IN

Dear Members,

We have conducted the Secretarial Audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **PARAS DEFENCE AND SPACE TECHNOLOGIES LIMITED** (hereinafter called “the Company”). Secretarial Audit was conducted in a manner that provided us a reasonable basis for evaluating the corporate conducts / statutory compliances and expressing our opinion thereon.

Based on our verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, we hereby report that in our opinion, the Company has, during the audit period covering the financial year ended March 31, 2025, complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

We have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on March 31, 2025 according to the provisions of:

1. The Companies Act, 2013 (the Act) and the rules made thereunder;
2. The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made there under;
3. The Depositories Act, 1996 and the Regulations and bye-laws framed there under;
4. The provisions of Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial borrowings;
5. The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'):-
 - a. The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;
 - b. The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;
 - c. The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018;
 - d. The Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015;
 - e. The Securities Exchange Board of India (Share Based Employee Benefits and Sweat Equity) Regulations, 2021.
6. Provisions of the following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI') were not applicable to the Company under the financial year under report:
 - a. The Securities and Exchange Board of India (Issue and Listing of Non-Convertible Securities) Regulations, 2021
 - b. The Securities and Exchange Board of India (Buyback of Securities) Regulations, 2018;
 - c. The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993, regarding the Companies Act and dealing with client; and
 - d. The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2021.

We report that we have relied on the representation made by the Company and its Officers for systems and mechanism formed by the Company for compliances under other applicable Acts, Laws and Regulations to the Company. For Income tax laws and compliance with applicable accounting standards we have relied on the Audit report issued by the Statutory Auditors. The following are the major head / group of Acts, Laws and Regulations as applicable to the Company:

- a. Arms Act, 1959;
- b. Factories Act, 1948;
- c. Labour laws and other incidental laws related to labour and employees appointed by the Company including those on contractual basis as relating to wages, gratuity, prevention of sexual harassment, dispute resolution, welfare, provident fund, insurance, compensation etc.;

- d. Industries (Development & Regulation) Act, 1951;
- e. Acts relating to consumer protection;
- f. Acts and Rules prescribed under prevention and control of pollution;
- g. Acts and Rules relating to environmental protection and energy conservation;
- h. Acts and Rules relating to hazardous substances and chemicals;
- i. Acts and Rules relating to electricity, fire, petroleum, motor vehicles, explosives, boilers etc.;
- j. Acts relating to protection of IPR;
- k. Acts and Rules relating to the industry to which this Company belongs;
- l. Other local laws as applicable to various plants and offices.

We have also examined compliance with the applicable clauses of the following:

- (i) Secretarial Standards issued by The Institute of Company Secretaries of India.
- (ii) The Listing Agreement entered into by the Company with BSE Limited (BSE) and National Stock Exchange of India Limited (NSE);

During the period under review the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards etc. mentioned above except for the following:

1. It was observed that the intimations regarding investor meetings scheduled on June 4, 2024 and June 13, 2024, were submitted to the stock exchanges on June 3, 2024 and June 12, 2024, respectively—resulting in a deviation from the requirement of providing a minimum of two working days' prior notice under the SEBI (LODR) Regulations. In this regard we were informed by the management that in both cases, the confirmations for the meetings were received on short notice—June 1, 2024 (Saturday) for the June 4 meeting, and a day prior in the case of the June 13 meeting. The Secretarial and Compliance Department submitted the intimation to the stock exchanges promptly upon receipt of the confirmation. The delay was attributable to external scheduling constraints and was beyond the control of the Secretarial Department.
2. It was observed that, following the completion of the Qualified Institutional Placement (QIP) which resulted in an issuance exceeding 2% of the paid-up capital, the revised shareholding pattern reflecting the post-issue changes was not separately uploaded to the stock exchanges within the stipulated 10-day period, as required under Regulation 31(1)(c) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. We were informed that the updated shareholding pattern, capturing both pre- and post-QIP positions, was submitted on October 8, 2024 (one day after completion of QIP), along with the mandatory documentation while

seeking listing approval from the stock exchanges. As on date, no observations or queries have been raised by the exchanges regarding this submission.

We further report that the Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.

Adequate notice is given to all Directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent at least seven days in advance, and for meeting convened under shorter notice, if any, were in compliance with section 173(3) of the Companies Act, 2013 and system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

Majority decision is carried through while the dissenting members' views are captured and recorded as part of the minutes.

We further report that there are adequate systems and processes in the Company commensurate with the size and operations of the company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

We further report that during the audit period, following specific events took place:

1. Disinvestments:

a. Paras Green UAV Private Limited:

The Board of Directors of the Company, at its meeting held on February 8, 2025, approved the disinvestment of its entire 100% equity stake in its wholly owned subsidiary, Paras Green UAV Private Limited (formerly known as Paras Green Optics Private Limited), comprising 10,000 equity shares of ₹10/- each, aggregating to ₹1 lakh, in favour of M/s. 26. Overview of the entity's material responsible business conduct issues. Please indicate material responsible business conduct and sustainability issues pertaining to environmental and social matters that present a risk or an opportunity to your business, rationale for identifying the same, approach to adapt or mitigate the risk along-with its financial implications, as per the following format.

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
1	Climate Change	Risk	Climate change poses risks to Paras Defence, impacting operations, supply chains, and financial stability. Furthermore, escalating operational costs and evolving geopolitical conditions may compel the company to invest heavily in innovation and adaptive strategies	We evaluated the climate change risk exposure of all our operational sites and developed a plan to mitigate the potential impacts. The Company ensures that energy-efficient equipment is installed across its manufacturing units. The maintenance team is in charge of overseeing this and considerations such as energy ratings are taken into account during the procurement process.	Negative
2	Corporate Governance	Opportunity	We have a highly experienced management team, with our promoters having over three decades of expertise in the design, development and manufacturing of a wide range of engineering products for the defence and space sectors. This extensive experience has allowed us to establish strong, long-term relationships with customers and suppliers. The company has also assembled a skilled management and execution team, including many former employees from BEL and DRDO, further strengthening its industry capabilities.	-	Positive
3	Employee Satisfaction and Wellness	Opportunity	Focusing on employee satisfaction and wellness offers significant opportunities, including enhanced productivity, innovation and operational resilience. Prioritizing employee well-being also aids in attracting and retaining top talent, reduces turnover, and strengthens the company's reputation as a responsible employer. Additionally, wellness initiatives can lower healthcare costs, reduce absenteeism, and improve stress management, all contributing to better financial performance and sustainable growth.	-	Positive
4	Environment footprint – Waste and Emissions	Opportunity and Risk	Proactively managing environmental impact can lead to enhanced regulatory compliance, cost savings and improved reputation, positioning the company as a sustainability leader. This focus can also drive innovation, opening new market opportunities and future-proofing the business. However, failure to effectively manage these metrics could result in regulatory penalties, increased operational costs, reputational damage, and potential competitive disadvantages, making it crucial for us to balance these factors.	The company has a proven waste management practice in place that makes sure that proper waste removal as per the waste category defined by the MPCB and State Pollution Control Board(s) is carried out.	Positive and Negative

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
5	Product Design, Quality and Innovation	Opportunity	By prioritizing continuous improvement and keeping up with the latest technological advancements, businesses can develop innovative products that cater to changing customer demands. Adopting user-centric design, integrating sustainability practices and nurturing a culture of creativity and collaboration can result in a competitive edge, customer allegiance and market expansion.	-	Positive
6	Customer Satisfaction and Retention	Opportunity	Customers who are satisfied with our products and services tend to demonstrate loyalty and actively promote Paras's offerings within their networks. This positive customer behavior can drive increased sales and help build a strong brand reputation. At the same time the Company caters to a diverse global clientele. Any undesirable customer experience could lead to customer attrition or reputational damage.	-	Positive
7.	Make in India/ Defence Indigenization Push	Opportunity	Initiatives like 'Make in India', 'Atmanirbhar Bharat' and rising defence budgets are accelerating demand for indigenous defence manufacturing, where companies like Paras Defence import critical raw materials but add substantial value through domestic design, assembly, and system integration to deliver finished defence products.	-	Positive

Leadership Indicators

1. Provide the processes for consultation between stakeholders and the Board on economic, environmental, and social topics or if consultation is delegated, how is feedback from such consultations provided to the Board.

The Company maintains regular and structured engagement with key stakeholders, including investors, customers, employees, channel partners, and analysts, to align its strategic direction with stakeholder expectations. These interactions conducted through meetings, emails, calls, AGMs, and grievance redressal platforms, help gather valuable feedback on business performance and customer experience. Senior management and relevant Board Committees review this input to guide decision-making. Dedicated committees such as the CSR and the Stakeholders' Relationship Committee oversee the implementation of social responsibility initiatives and compliance with statutory requirements, reinforcing the Company's commitment to transparency, accountability, and long-term stakeholder value.

2. Whether stakeholder consultation is used to support the identification and management of environmental, and social topics (Yes / No). If so, provide details of instances as to how the inputs received from stakeholders on these topics were incorporated into policies and activities of the entity.

Engagement with communities primarily involves discussions where their views and opinions on CSR programs are carefully considered. The formulation of Company policies related to Corporate Social Responsibility has been the outcome of ongoing interactions with the stakeholders. The discussions with employees, HR, and team leads have also enabled the Company to implement activities like employee well-being programs, while also promoting environmental initiatives such as water, electricity and fuel conservation.

3. Provide details of instances of engagement with, and actions taken to, address the concerns of vulnerable/ marginalized stakeholder groups.

The Company actively involves its vulnerable/ marginalized stakeholder groups, particularly communities through the CSR initiatives and improving livelihoods for the target beneficiaries. It also prioritizes keeping stakeholders informed about new technologies, safety measures and industry developments aimed at mitigating risks. Proactive engagement yields valuable insights that inform material issues, shape business strategy and operations, and mitigate reputational risks. Committing to fostering positive relationships, the Company engages extensively with all stakeholders, including vulnerable and marginalized groups, on various issues. This is mainly done through:

- Volunteering activities to address local needs of the beneficiaries.
- CSR initiatives with regard to animal welfare, conserving water resources, and promoting health and education.
- By contributing towards environmental sustainability.

Total Scope 3 emission intensity (optional) – the relevant metric may be selected by the entity		-	-

Remarks: The process of computation will be initiated and the particulars will be made available in due time.

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency. - No

3. With respect to the ecologically sensitive areas reported at Question 11 of Essential Indicators above, provide details of significant direct & indirect impact of the entity on biodiversity in such areas along-with prevention and remediation activities.

Not applicable, as the Company does not have any operations/offices in/around ecologically sensitive areas.

4. If the entity has undertaken any specific initiatives or used innovative technology or solutions to improve resource efficiency, or reduce impact due to emissions / effluent discharge / waste generated, please provide details of the same as well as outcome of such initiatives, as per the following format:

Sr. No	Initiative undertaken	Details of the initiative (Web-link, if any, may be provided along-with summary)	Outcome of the initiative
1	Deployment of energy-efficient equipment across all manufacturing units and office	The Company ensures that energy-efficient equipment is installed across its manufacturing units. The maintenance team is in charge of overseeing this and considerations such as energy ratings are taken into account during the procurement process.	Overall energy consumption has reduced.
2	EV Charging Point	EV charging station was inaugurated within the premises to promote sustainable transportation and also contribute to reduction in carbon footprint.	The EV charging station on an average is used for approx. 7 hours daily.

5. Does the entity have a business continuity and disaster management plan?

The Company has implemented a comprehensive Business Continuity and Disaster Management Plan aimed at strengthening organizational resilience and minimizing the impact of disasters, crisis and disruptive events. Independent Auditor's Report

TO THE MEMBERS OF PARAS DEFENCE AND SPACE TECHNOLOGIES LIMITED

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying Standalone Financial Statements of **PARAS DEFENCE AND SPACE TECHNOLOGIES LIMITED** ("the Company"), which comprise the Standalone Balance Sheet as at March 31, 2025, the Statement of Standalone Profit and Loss (including Other Comprehensive Income), the Statement of Standalone Changes in Equity and the Statement of Standalone Cash Flows for the year then ended, and notes to the Standalone Financial Statements, including a summary of material accounting policies and other explanatory information (hereinafter referred to as "the Standalone Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Financial Statements give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2025 and its profit including Other Comprehensive Income, Changes in Equity and its Cash Flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the Standalone Financial Statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of

the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the Standalone Financial Statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the Standalone Financial Statements.

Key Audit Matters (KAM)

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Standalone Financial Statements for the year ended March 31, 2025. These matters were addressed in the context of our audit of the Standalone Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For the matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matter described below to be the key audit matter to be communicated in our report. We have fulfilled the responsibilities described in the Auditors' responsibilities for the audit of the Standalone Financial Statements section of our report, including in relation to that matter. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the Standalone Financial Statements. The results of our audit procedures, including the procedures performed to address the matter below, provide the basis for our audit opinion on the accompanying Standalone Financial Statements.

Key Audit Matter	How our audit addressed the key audit matter
<p>1) Revenue:</p> <p>During the year, the Company's revenue from operation has been increased by 43.63%. Revenue is recognized when control of the underlying products have been transferred along with satisfaction of performance obligation. The terms of sales arrangements, including the timing of transfer of control and delivery specifications, create complexity and judgment in determining sales revenues.</p> <p>Significant Risk exists that revenue is recognized without substantial transfer of control and is not in accordance with IND AS115 'Revenue from contracts with customers', resulting into recognition of revenue in incorrect period.</p> <p>Refer Note No. 1.3 (I) and 27 to the Standalone Financial Statements.</p>	<p>We assessed the Company's processes and controls for recognizing revenue as part of our audit. Our audit procedures included the following:</p> <ul style="list-style-type: none"> Assessing the systems related to invoicing and measurement as well as other relevant systems supporting the accounting of revenue. Performed sample tests of individual sales transaction and traced to sales invoices, sales orders, shipping documents and other related documents. In respect of the samples selected, tested that the revenue has been recognized as per the sales orders. Verifying the completeness of disclosure in the Standalone Financial Statements as per Ind AS 115.

<p>2) Inventories</p> <p>As of March 31, 2025, inventories appear in the Standalone Financial Statements for an amount of ₹ 14,546.25 Lakhs constitutes 17.51% of the total assets of the Company. Inventories are valued at the lower of cost and net realizable value</p> <p>The Company may recognize an inventory allowance if inventory items are damaged, if the selling price has declined, or if the estimated costs to completion or to be incurred to make the sale have increased.</p> <p>We considered this matter as key audit matter due to the:</p> <ul style="list-style-type: none"> Significance of the inventories balance. Complexities involve in determining quality of inventories and quantities on hand due to the number, weight, diversity of inventory, storage, Valuation procedure including of obsolete inventories. <p>Refer note no. 1.3 (F) and 9 to the Standalone Financial Statements.</p>	<p>Our audit procedure included, among others:</p> <ul style="list-style-type: none"> Reviewing the Company's process and procedure for physical verification of the Inventories, identification of non-moving and obsolete items and accounting for the same. Obtaining the physical inventory count reports of the Management as per verification plan and discussing with the Management about the Control checks performed by them Assessing the methods used to value inventories and ensuring the consistency of accounting methods. Testing, by sampling, the effectiveness of the controls set up by Management to prevent or detect possible errors in valuation of inventories. Analyzing the company's assessment of net realizable value and calculations for stock obsolescence. Verifying the completeness of disclosure in the Standalone Financial Statements as per Ind AS 2. Obtaining representation letter from the management as per SA 580 (revised) – Written representations.

Information Other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the Management discussion & analysis and Director's report included in the annual report but does not include the Standalone Financial Statements and our auditor's report thereon. The above information is expected to be made available to us after the date of this auditor's report.

Our opinion on the Standalone Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Standalone Financial Statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the Standalone Financial Statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the above other information, if we conclude that there is material misstatement therein, we are required to communicate the matter to those charged with governance.

Management responsibilities for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these Standalone Financial Statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and the Statement of changes in equity of the Company in accordance with the Ind AS and the other accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Standalone Financial Statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditors' Responsibility for the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the Standalone Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Company to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Standalone Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Standalone Financial Statements, including the disclosures, and whether the Standalone Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Standalone Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Standalone Financial Statements may be influenced.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Financial Statements of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "**Annexure A**" a statement on the matters specified in paragraphs 3 and 4 of the Order.

Annexure “B” to the Independent Auditor’s Report

(Referred to in paragraph 2 (f) under ‘Report on Other Legal and Regulatory Requirements’ of our report of even date to the members of PARAS DEFENCE AND SPACE TECHNOLOGIES LIMITED on the Standalone Financial Statements for the year ended March 31, 2025)

Report on the Internal Financial Controls with reference to Standalone Financial Statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls with reference to Standalone Financial Statements of PARAS DEFENCE AND SPACE TECHNOLOGIES LIMITED (‘the Company’) as of March 31, 2025 in conjunction with our audit of the Standalone Financial Statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the Internal Control with reference to the Standalone Financial Statements based on the internal control criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over financial reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls with reference to these Standalone Financial Statements based on our audit. We conducted our audit in accordance with the Guidance Note issued by the ICAI and the Standards of Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate

internal financial controls with reference to Standalone Financial Statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to Standalone Financial Statements and their operating effectiveness. Our audit of internal financial controls with reference to Standalone Financial Statements included obtaining an understanding of internal financial controls with reference to Standalone Financial Statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls with reference to Standalone Financial Statements.

Meaning of Internal Financial Control with reference to Standalone Financial Statements

A Company’s internal financial control with reference to Standalone Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Standalone Financial Statements for external purposes in accordance with generally accepted accounting principles. A Company’s internal financial control with reference to Standalone Financial Statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Standalone Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or

timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the Standalone Financial Statements.

Inherent Limitations of Internal Financial Controls with reference to Standalone Financial Statements

Because of the inherent limitations of internal financial controls with reference to Standalone Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to Standalone Financial Statements to future periods are subject to the risk that the internal financial control with reference to Standalone Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls with reference

to Standalone Financial Statements and such internal financial controls with reference to Standalone Financial Statements were operating effectively as at March 31, 2025, based on the criteria for internal financial control established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls issued by the ICAI.

(All amounts in Rupees Lakhs, unless otherwise stated)

1.1 Corporate Information

Paras Defence and Space Technologies Limited (the 'Company') is a public limited Company domiciled and incorporated in India under the Indian Companies Act, 1956. The registered office of the Company is situated at D-112, TTC industrial area, Nerul, Navi Mumbai- 400706. The company is involved in design, development, manufacturing, testing & commissioning of products, systems and solutions for Defence & Space Applications. The shares of the company are publicly traded on the BSE Limited (BSE) and National Stock Exchange of India Limited (NSE) in India.

The Standalone Financial Statements of the Company for the year ended March 31, 2025 were approved and adopted by board of directors in their meeting held on April 30, 2025.

1.2 Basis of preparation

The Standalone Financial Statements of the Company have been prepared in accordance with Indian Accounting Standards ('Ind AS') notified under Section 133 of the Companies Act, 2013, read together with the Companies (Indian Accounting Standards) Rules, as amended from time to time.

The Standalone Financial Statements have been prepared and presented on going concern basis and historical cost basis, except for the following assets and liabilities, which have been measured as indicated below:

- Certain Financial assets and liabilities at fair value (refer accounting policy regarding financial instruments).
- Employee's Defined Benefit Plans measured per actuarial valuation.
- Employee stock option plan measured at fair value.

These Standalone Financial Statements are presented in Indian Rupees, which is the company's functional and presentation currency and all values are rounded to the nearest lakhs, except when otherwise indicated.

1.3 Material Accounting policies

(A) Property, Plant and Equipment :

Property, plant and equipment are carried at its cost, net of recoverable taxes, trade discounts and rebate less accumulated depreciation and impairment losses, if any. Cost includes purchase price, borrowing cost, non refundable taxes or levies and directly attributable cost of bringing the asset to its working condition for its intended use. Expenditure related to plans, designs and drawings of buildings or plant and machinery is capitalized under relevant heads of property, plant and equipment if the recognition criteria are met. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when

it is probable that future economic benefits associated with the item will flow to the entity and the cost can be measured reliably. In case of Property, Plant and Equipment, the Company has availed the fair value as deemed cost on the date of transition i.e. April 01, 2016.

Property, Plant and Equipment not ready for the intended use on the date of Balance Sheet are disclosed as "Capital Work-in-Progress" and expenses incurred relating to it, net of income earned during the development stage, are disclosed as pre-operative expenses under "Capital Work-in-Progress".

Property, Plant and Equipment are eliminated from Standalone Financial Statements, either on disposal or when retired from active use. Gains / losses arising in the case of retirement/disposal of Property, Plant and Equipment are recognised in the statement of profit and loss in the year of occurrence.

Capital work in progress and Capital advances:

Cost of assets not ready for intended use, as on the Balance Sheet date, is shown as capital work in progress. Advances given towards acquisition of property, plant and equipment outstanding at each Balance Sheet date are disclosed as Other Non-Current Assets.

Depreciation:

Depreciation on property, plant and equipment is provided on straight line method for the year for which the assets have been used as under:

- (a) Depreciation on assets is provided over the useful life of assets as prescribed under schedule II of Companies Act, 2013 except Mobile phones where 3 years have been taken
- (b) Leasehold land is amortised over the period of lease.

The asset's residual values, useful lives and method of depreciation are reviewed at each financial year end and are adjusted prospectively, if appropriate.

(B) Intangible Assets and Amortisation:

Intangible Assets are stated at cost, net of accumulated amortization and impairment losses, if any. Intangible assets are amortised on a straight line basis over their estimated useful lives. The amortisation period and the amortisation method are reviewed at least at each financial year end. If the expected useful life of the asset is significantly different from previous estimates, the amortisation period is changed accordingly. Gain or losses arising from the retirement or disposal of an intangible asset are determined as the difference between the net disposal proceeds and the carrying amount of the asset and recognized as income or expense in the Statement of Profit and Loss. In case of Intangible Assets, the Company has availed the fair value as deemed cost on the date of transition i.e. April 01, 2016. The period of amortisation is as under :

Notes to the Standalone Financial Statements

for the year ended March 31, 2025

(All amounts in Rupees Lakhs, unless otherwise stated)

Asset	Period of amortisation
Computer Software	6 Years
Technical Know how	6 Years

(C) Investment Property:

Investment property is held for long term rental income and/or for capital appreciation. Investment properties are measured initially at cost, including transaction costs and net of recoverable taxes, trade discounts and rebates. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and impairment losses, if any.

Depreciation on investment properties is provided using straight line method over the estimated useful lives as specified in Schedule II to the Companies Act, 2013. Residual values, useful lives and method of depreciation of investment properties are reviewed at each financial year end and are adjusted prospectively, if appropriate. The effects of any revision are included in the statement of profit and loss when the changes arises.

Though the Company measures investment properties using cost based measurement, the fair value of investment property is disclosed in the notes.

Investment properties are derecognised either when they have been disposed off or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in statement of profit and loss in the period of de-recognition.

(D) Impairment of Non-Financial Assets - Property, Plant and Equipment & Intangible Assets:

The Company assesses at each reporting date as to whether there is any indication that any property, plant and equipment and intangible assets or group of assets, called cash generating units (CGU) may be impaired. If any such indication exists the recoverable amount of an asset or CGU is estimated to determine the extent of impairment, if any. When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the CGU to which the asset belongs. An impairment loss is recognised in the Statement of Profit and Loss to the extent, asset's carrying amount exceeds its recoverable amount. The impairment loss recognised in prior accounting period is reversed if there has been a change in the estimate of recoverable amount. The recoverable amount is higher of an asset's fair value less cost of disposal and value in use. Value in use is based on the estimated future cash flows, discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and risk specific to the assets.

(E) Taxes on Income:

Tax expense represents the sum of current tax (including income tax for earlier years) and deferred tax. Tax is recognised in the statement of profit and loss, except to the extent that it relates to items recognised directly in equity or other comprehensive income, in such cases the tax is also recognised directly in equity or in other comprehensive income. Any subsequent change in direct tax on items initially recognised in equity or other comprehensive income is also recognised in equity or other comprehensive income.

Current tax provision is computed for Income calculated after considering allowances and exemptions under the provisions of the applicable Income Tax Laws. Current tax assets and current tax liabilities are off set, and presented as net.

Deferred tax is recognised on differences between the carrying amounts of assets and liabilities in the Balance sheet and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences, and deferred tax assets are generally recognised for all deductible temporary differences, carry forward tax losses and allowances to the extent that it is probable that future taxable profits will be available against which those deductible temporary differences, carry forward tax losses and allowances can be utilised. Deferred tax assets and liabilities are measured at the applicable tax rates. The carrying amount of deferred tax assets is reviewed at each Balance Sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available against which the temporary differences can be utilised.

(F) Inventories:

Inventories are measured at lower of cost and net realisable value (NRV) after providing for obsolescence, if any. NRV is the estimate selling price in the ordinary course of business, less estimated costs of completion and estimate cost necessary to make the sale. Cost of Inventories comprises of cost of purchase, cost of conversion and other costs incurred in bringing them to their respective present location and condition. Cost of raw materials, stores & spares, packing materials are determined on weighted average basis. The Cost of Work in Progress and Finished Goods is determined on absorption costing methods.

(G) Financial Instruments:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial Assets -Initial recognition and measurement

All financial assets are initially recognized at fair value. Transaction costs that are directly attributable to the acquisition of financial assets, which are not at fair value through profit or loss, are adjusted to the fair value on

Notes to the Standalone Financial Statements

for the year ended March 31, 2025

(All amounts in Rupees Lakhs, unless otherwise stated)

initial recognition. Financial assets are classified, at initial recognition, as financial assets measured at fair value or as financial assets measured at amortised cost. Purchase and sale of financial assets are recognized using trade date accounting. However, trade receivables that do not contain a significant financing component are measured at transaction price.

Financial assets - Subsequent measurement

For the purpose of subsequent measurement financial assets are classified in two broad categories:-

- Financial assets at fair value
- Financial assets at amortised cost

Where assets are measured at fair value, gains and losses are either recognised entirely in the statement of profit and loss (i.e. fair value through profit and loss), or recognised in other comprehensive income (i.e. fair value through other comprehensive income).

A financial asset that meets the following two conditions is measured at amortised cost (net of any write down for impairment) unless the asset is designated at fair value through profit or loss under the fair value option.

- Business model test: The objective of the Company's business model is to hold the financial asset to collect the contractual cash flow.
- Cash flow characteristics test: The contractual terms of the financial asset give rise on specified dates to cash flow that are solely payments of principal and interest on the principal amount outstanding.

A financial asset that meets the following two conditions is measured at fair value through other comprehensive income unless the asset is designated at fair value through profit or loss under the fair value option.

- Business model test: The financial asset is held within a business model whose objective is achieved by both collecting contractual cash flow and selling financial assets.
- Cash flow characteristics test: The contractual terms of the financial asset give rise on specified dates to cash flow that are solely payments of principal and interest on the principal amount outstanding.

All other financial asset is measured at fair value through profit or loss.

Financial assets - Derecognition

A financial assets (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily

derecognised (i.e. removed from the Company's statement of financial position) when:

- The rights to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flow from the asset.

Impairment of Financial Assets

In accordance with Ind AS 109, the Company uses 'Expected Credit Loss' (ECL) model, for evaluating impairment of financial assets other than those measured at fair value through profit and loss (FVTPL).

Expected credit losses are measured through a loss allowance at an amount equal to:

- The 12-months expected credit losses (expected credit losses that result from those default events on the financial instrument that are possible within 12 months after the reporting date); or
- Full lifetime expected credit losses (expected credit losses that result from all possible default events over the life of the financial instrument)

For trade receivables Company applies 'simplified approach' which requires expected lifetime losses to be recognised from initial recognition of the receivables. The Company uses historical default rates to determine impairment loss on the portfolio of trade receivables. At every reporting date these historical default rates are reviewed and changes in the forward looking estimates are analysed.

For other assets, the Company uses 12 month ECL to provide for impairment loss where there is no significant increase in credit risk. If there is significant increase in credit risk full lifetime ECL is used.

Financial Liabilities - Initial recognition and measurement:

The financial Liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

Financial Liabilities - Subsequent measurement:

Financial Liabilities are subsequently carried at amortised cost using the effective interest method. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

Financial Liabilities - Financial guarantee contracts:

Financial guarantee contracts issued by the Company are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified

Notes to the Standalone Financial Statements

for the year ended March 31, 2025

(All amounts in Rupees Lakhs, unless otherwise stated)

debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined and the amount recognised less cumulative amortisation.

Financial liability - Derecognition:

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another, from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

(H) Fair Value:

The Company measures financial instruments at fair value at each Balance sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- in the principal market for the asset or liability, or
- in the absence of a principal market, in the most advantageous market for the asset or liability

All assets and liabilities for which fair value is measured or disclosed in the Standalone Financial Statements are categorized within the fair value hierarchy that categorizes into three levels, described as follows, the inputs to valuation techniques used to measure value. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 inputs) and the lowest priority to unobservable inputs (Level 3 inputs).

Level 1 — quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly

Level 3 — inputs that are unobservable for the asset or liability

For assets and liabilities that are recognized in the Standalone Financial Statements at fair value on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization at the end of each reporting period and discloses the same.

(I) Investment in Subsidiaries and Associates:

The Company has elected to recognize its investments in subsidiaries and associate at cost in accordance with the option available in Ind AS 27, 'Separate Standalone Financial Statements'.

(J) Revenue Recognition and Other Income:

Sales of goods and services:

The Company derives revenues primarily from sale of products comprising of Defence & Space Applications

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration entitled in exchange for those goods or services. Generally, control is transferred upon shipment of goods to the customer or when the goods is made available to the customer, provided transfer of title to the customer occurs and the Company has not retained any significant risks of ownership or future obligations with respect to the goods shipped.

Revenue is measured at the amount of consideration which the company expects to be entitled to in exchange for transferring distinct goods or services to a customer as specified in the contract, excluding amounts collected on behalf of third parties (for example taxes and duties collected on behalf of the government). Consideration is generally due upon satisfaction of performance obligations and a receivable is recognized when it becomes unconditional.

The Company does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, it does not adjust any of the transaction prices for the time value of money.

Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, performance bonuses, price concessions and incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers.

Revenue from rendering of services is recognised over time by measuring the progress towards complete satisfaction of performance obligations at the reporting period.

Contract Balances - Trade Receivables

A receivable represents the Company's right to an amount of consideration that is unconditional.

Contract liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company

Notes to the Standalone Financial Statements

for the year ended March 31, 2025

(All amounts in Rupees Lakhs, unless otherwise stated)

transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company performs under the contract.

Other Income:

Incentives on exports and other Government incentives related to operations are recognised in the statement of profit and loss after due consideration of certainty of utilization/receipt of such incentives.

Interest Income:

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a timely basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

Dividend Income:

Dividend Income is recognised when the right to receive the payment is established.

Rental income:

Rental income arising from operating leases is accounted for on a straight-line basis over the lease terms and is included as other income in the statement of profit or loss.

(K) Foreign currency transactions and translation:

Transactions in foreign currencies are recorded at the exchange rate prevailing on the date of transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency closing rates of exchange at the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognised in Statement of Profit and Loss except to the extent of exchange differences which are regarded as an adjustment to interest costs on foreign currency borrowings that are directly attributable to the acquisition or construction of qualifying assets, are capitalized as cost of assets.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the transaction. Non-monetary items carried at fair value that are denominated in foreign currencies are translated at the exchange rates prevailing at the date when the fair value was determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

Foreign exchange differences regarded as an adjustment to borrowing costs are presented in the statement of profit and loss, within finance costs. All other finance gains / losses are presented in the statement of profit and loss on a net basis.

In case of an asset, expense or income where a monetary advance is paid/received, the date of transaction is the date on which the advance was initially recognized. If there were multiple payments or receipts in advance, multiple dates of transactions are determined for each payment or receipt of advance consideration.

(L) Employee Benefits:

Short term employee benefits are recognized as an expense in the statement of profit and loss of the year in which the related services are rendered. Contribution to Provident Fund, a defined contribution plan, is made in accordance with the statute, and is recognised as an expense in the year in which employees have rendered services.

The cost of providing gratuity, a defined benefit plans, is determined based on Projected Unit Credit Method, on the basis of actuarial valuations carried out by third party actuaries at each Balance Sheet date. Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are charged or credited to other comprehensive income in the period in which they arise. Other costs are accounted in statement of profit and loss.

Remeasurements of defined benefit plan in respect of post employment and other long term benefits are charged to the other comprehensive income in the year in which they occur. Remeasurements are not reclassified to statement of profit and loss in subsequent periods.

(M) Share based payments

The cost of equity-settled transactions with employees is measured at fair value at the date at which they are granted. The fair value of share options are determined with the assistance of an external valuer and the fair value at the grant date is expensed on a proportionate basis over the vesting period based on the Company's estimate of shares that will eventually vest. The estimate of the number of options likely to vest is reviewed at each balance sheet date up to the vesting date at which point the estimate is adjusted to reflect the current expectations.

(N) Provisions, Contingent Liabilities and Contingent Assets:

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event. It is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are discounted using equivalent period government securities

Notes to the Standalone Financial Statements

for the year ended March 31, 2025

(All amounts in Rupees Lakhs, unless otherwise stated)

interest rate. Unwinding of the discount is recognised in the statement of profit and loss as a finance cost. Provisions are reviewed at each Balance Sheet date and are adjusted to reflect the current best estimate.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made. Information on contingent liability is disclosed in the Notes to the Standalone Financial Statements. Contingent assets are not recognised in financial statement. However, when the realisation of income is virtually certain, then the related asset is no longer a contingent asset, but it is recognised as an asset.

(O) Offsetting financial instruments:

Financial assets and liabilities are offset and the net amount is reported in the Balance Sheet where there is a legally enforceable rights to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable rights must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or counterparty.

1.4 Key accounting estimates and judgements

The preparation of the Company's Standalone Financial Statements requires the management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

a) Depreciation/amortisation and useful lives of property plant and equipment/intangible assets:

"Property, plant and equipment/intangible assets are depreciated/amortised over the estimated useful lives of the assets, after taking into account their estimated residual value. Management reviews the estimated useful lives and residual values of the assets annually in order to determine the amount of depreciation/ amortisation to be recorded during any reporting period. The useful lives s as specified in Schedule II to the Companies Act, 2013 and residual values

are based on the Company's historical experience with similar assets and take into account anticipated technological changes, whichever is more appropriate. The depreciation/ amortisation for future periods is revised if there are significant changes from previous estimates.

b) Provisions:

Provisions and liabilities are recognized in the period when it becomes probable that there will be a future outflow of funds resulting from past operations or events and the amount of cash outflow can be reliably estimated. The timing of recognition and quantification of the liability require the application of judgement to existing facts and circumstances, which can be subject to change. Since the cash outflows can take place many years in the future, the carrying amounts of provisions and liabilities are reviewed regularly and revised to take account of changing facts and circumstances.

c) Defined benefit obligation:

The cost of post-employment benefits is determined using actuarial valuations. The actuarial valuation involves making assumptions about discount rates, future salary increases, expected rate of return on assets and mortality rates. Due to the long term nature of these plans, such estimates are subject to significant uncertainty.

d) Income Tax:

Company reviews at each balance sheet date the carrying amount of deferred tax assets. The factors used in estimates may differ from actual outcome which could lead to an adjustment to the amounts reported in the Standalone Financial Statements. Deferred tax assets are recognised only to the extent that it is probable that taxable profit will be available against which the unused tax losses or tax credits can be utilised. This involves an assessment of when those assets are likely to reverse, and a judgement as to whether or not there will be sufficient taxable profits available to offset the assets. This requires assumptions regarding future profitability, which is inherently uncertain. To the extent assumptions regarding future profitability change, there can be an increase or decrease in the amounts recognised in respect of deferred tax assets and consequential impact in the statement of profit and loss.

e) Recoverability of trade receivables:

Judgements are required in assessing the recoverability of overdue trade receivables and determining whether a provision against those receivables is required. Factors considered include the credit rating of the counterparty, the amount and timing of anticipated future payments and any possible actions that can be taken to mitigate the risk of non-payment.

Notes to the Standalone Financial Statements

for the year ended March 31, 2025

(All amounts in Rupees Lakhs, unless otherwise stated)

f) Impairment of Non-Financial Assets:

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or Cash Generating Units (CGU) fair value less costs of disposal and its value in use. It is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent to those from other assets or groups of assets. Where the carrying amount of an

asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less cost of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples or other available fair value indicators.

30.2 Sensitivity Analysis

Particulars	Effect on Gratuity Obligation Increase / (Decrease)	
	As at March 31, 2025	As at March 31, 2024
Discount Rate + 100 basis points	(18.38)	(19.12)
Discount Rate - 100 basis points	20.32	21.30
Salary Escalation Rate + 100 basis points	16.59	17.71
Salary Escalation Rate - 100 basis points	(15.50)	(16.22)
Withdrawal Rate+100 basis points	(2.26)	(1.63)
Withdrawal Rate-100 basis points	2.45	1.79

The above sensitivity analysis is based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. In presenting the above sensitivity analysis, the present value of defined benefit obligation has been calculated using the Projected Unit Credit method at the end of reporting period, which is the same as that applied in calculating the defined obligation liability recognized in the balance sheet.

30.3 Expected payments towards contributions to Gratuity in future years :

Year Ended	Expected Payment
March 31, 2026	104.45
March 31, 2027	55.52
March 31, 2028	63.03
March 31, 2029	44.11
March 31, 2030	42.86
March 31, 2031 to March 31, 2035	164.09
March 31, 2036 and above	171.14

30.4 Risk exposures

These plans typically expose the company to actuarial risks as Salary Risk, Discount Rate, Employee Turnover rate/Withdrawal rate and Mortality / Disability.

Salary Risk

Salary escalation & attrition rate are considered as advised by the company; they appear to be in line with the industry practice considering promotion and demand & supply of the employees.

Discount rate

In case the yield on the government bonds drops in the future period then it may result in increase in the liability.

Employee Turnover rate/Withdrawal rate

If the actual withdrawal rate in the future turns out to be more or less than expected then it may result in increase in the liability.

Mortality / Disability

Maturity Analysis of Benefit Payments is undiscounted cash flows considering future salary, attrition & death in respective year for members as mentioned above.

Details of Asset-Liability Matching Strategy:-

Gratuity benefits liabilities of the company are Funded. There are no minimum funding requirements for a Gratuity benefits plan in India and there is no compulsion on the part of the Company to fully or partially pre-fund the liabilities under the Plan. The trustees of the plan have outsourced the investment management of the fund to insurance companies which are regulated by IRDA. Due to the restrictions in the type of investments that can be held by the fund, it may not be possible to explicitly follow an asset-liability matching strategy to manage risk actively in a conventional fund.

30.5 The average duration of the defined benefit plan obligation at the end of the reporting period is 5.00 years (March 31, 2024 : 9.00 years).

Note : 38 Fair Values (Contd..)

38.2 Fair Valuation techniques used to determine Fair Value

The Company maintains procedures to value its financial assets or financial liabilities using the best and most relevant data available. The Fair Values of the financial assets and liabilities are included at the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The following methods and assumptions were used to estimate the Fair Values:

- Fair Value of Cash and Cash Equivalents, Other Bank Balances, Trade Receivable, Trade Payables, Current Loans, Current Borrowings, and Other Current Financial Assets and Liabilities are approximate at their carrying amounts largely due to the short-term maturities of these instruments.
- The fair values of non-current borrowings and Margin money are approximate at their carrying amount due to interest bearing features of these instruments.
- The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

38.3 Fair Value Hierarchy

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation techniques:-

- Level 1 :-** Quoted prices / published Net Assets Value (unadjusted) in active markets for identical assets or liabilities. It includes fair value of financial instruments traded in active markets and are based on quoted market prices at the Balance Sheet date and financial instruments like mutual funds for which Net Assets Value is published by mutual fund operators at the Balance Sheet date.
- Level 2 :-** Inputs other than quoted prices included within level 1, that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices). It includes fair value of the financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined by using valuation techniques. These valuation techniques maximise the use of observable market data where it is available and rely as little as possible on the Company specific estimates. If all significant inputs required to fair value an instrument are observable then instrument is included in level 2.
- Level 3 :-** Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs). If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

The following table provides hierarchy of the fair value measurement of Company's asset and liabilities, grouped into Level 1 (Quoted prices in active markets), Level 2 (Significant observable inputs) and Level 3 (Significant unobservable inputs) as described below:

Note: 39 Financial Risk Management - Objective And Policies

The Company is exposed to market risk, credit risk, liquidity risk and competition and price risk. Risk management is carried out by the company under policies approved by the Board of Directors. This Risk management plan defines how risks associated with the Company will be identified, analysed and managed. It outlines how risk management activities will be performed, recorded and monitored by the Company. The basic objective of risk management plan is to implement an integrated risk management approach to ensure all significant areas of risks are identified, understood and effectively managed to promote a shared vision of risk management and encourage discussion on risks at all levels of the organization to provide a clear understanding of risk / benefit trade-offs, to deploy appropriate risk management methodologies and tools for use in identifying, assessing, managing and reporting on risks and to determine the appropriate balance between cost and control of risk and deploy appropriate resources to manage/optimize key risks. Activities are developed to provide feedback to management and other interested parties (e.g. Audit committee, Board etc.). The results of these activities ensure that risk management plan is effective in the long term.

39.1 Market Risk and Sensitivity:

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprise two types of risk: foreign currency rate risk and interest rate risk. Financial instruments affected by market risk include loans, borrowings, deposits and investments.

The sensitivity analysis relate to the position as at March 31, 2025 and March 31, 2024

Note: 39 Financial Risk Management - Objective And Policies (Contd..)

(a) Foreign Currency Exchange Risk and Sensitivity

Foreign exchange risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign currency exchange rates. The Company's exposure to the risk of changes in foreign currency exchange rates relates primarily to the Company's operating activities and its Investment. The Company transacts business primarily in USD and Euro. The Company has foreign currency trade payables and receivables and is therefore, exposed to foreign currency exchange risk. The Company regularly reviews and evaluates exchange rate exposure arising from foreign currency transactions.

The following table demonstrates the sensitivity in the USD, GBP and Euro to the Indian Rupee with all other variables held constant. The impact on the Company's profit before tax (PBT) due to changes in the fair values of monetary assets and liabilities is given below:

Unhedged Foreign currency exposure As at March 31, 2025	Currency	Amount in FC	Amount in INR
Investment	USD	12,21,667	1,045.52
Trade Receivable	USD	18,19,344	1,557.02
Trade Receivable	EURO	97,560	90.07
Trade Payable	USD	28,17,431	2,411.20
Trade Payable	EURO	2,652	2.45
Trade Payable	GBP	40,779	45.16
Trade Payable	AED	6,65,142	154.99

Unhedged Foreign currency exposure As at March 31, 2024	Currency	Amount in FC	Amount in INR
Investment	USD	11,91,059	993.03
Trade Receivable	USD	17,97,700	1,498.81
Trade Receivable	EURO	1,13,605	102.49
Trade Receivable	GBP	47,400	49.91
Trade Payable	USD	49,65,417	4,139.86
Trade Payable	EURO	66,626	60.11
Trade Payable	GBP	27,951	29.43

Foreign Currency Sensitivity

2% increase or decrease in foreign exchange rates will have the following impact on Profit Before Tax (PBT):-

Particulars	2024-25		2023-24	
	2% increase- Profit/(Loss)	2% decrease- Profit/(Loss)	2% increase- Profit/(Loss)	2% decrease- Profit/(Loss)
USD	3.83	(3.83)	(32.96)	32.96
EURO	1.75	(1.75)	0.85	(0.85)
GBP	(0.90)	0.90	0.41	(0.41)
AED	(3.10)	3.10	-	-
Increase/(Decrease) in Profit Before Tax	1.58	(1.58)	(31.70)	31.70

(b) Interest Rate Risk and Sensitivity :-

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. During the previous year, the Company was having non current borrowings in the form of term loans and current borrowings in the form of working capital. There is a fixed rate of interest in case of vehicle loans and hence, there is no interest rate risk associated with these borrowings. The Company is exposed to interest rate risk associated with working capital facility due to floating rate of interest.

Note: 39 Financial Risk Management - Objective And Policies (Contd..)

The exposure of the Company's borrowings to interest rate changes at the end of the reporting year are as follows:

Particulars	As at March 31, 2025	As at March 31, 2024
Term Loan From bank	-	32.52
Working Capital Facility	-	3,356.28
Closing Balances	-	3,388.80

The table below illustrates the impact of a 2% increase / decrease in interest rates on interest on financial liabilities assuming that the changes occur at the reporting date and has been calculated based on risk exposure outstanding as of date. The year end balances are not necessarily representative of the average debt outstanding during the year.

Particulars	2024-25		2023-24	
	2% increase- Profit/(Loss)	2% decrease- Profit/(Loss)	2% increase- Profit/(Loss)	2% decrease- Profit/(Loss)
Working Capital Facility	-	-	(67.13)	67.13
(Decrease) / Increase in Profit Before Tax	-	-	(67.13)	67.13

The assumed movement in basis points for interest rate sensitivity analysis is based on the currently observable market environment.

39.2 Credit Risk

Credit risk is the risk that a counter party will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities including deposits with banks and other financial instruments.

a) Trade Receivables:-

The Company measures the expected credit loss of trade receivables, which are subject to credit risk based on historical trend, industry practices and the business environment in which the entity operates and adjusted for forward looking information. Loss rates are based on actual credit loss experience and past trends.

The Company has used practical expedient by computing the expected credit loss allowance for trade receivables based on provision matrix. The provision matrix taken into account historical credit loss experience and adjusted for forward looking information. The expected credit loss allowance is based on ageing of the days the receivables are due.

The following table summarizes the Gross carrying amount of the trade receivables and provision made.

Particulars	As at March 31, 2025		As at March 31, 2024	
	Gross Carrying Amount	Loss Allowance	Gross Carrying Amount	Loss Allowance

b) Financial Instruments and Cash Deposits:-

The Company considers factors such as track record, size of the institution, market reputation and service standards to select the banks with which balances are maintained. Credit risk from balances with bank is managed by the Company's finance department. Investment of surplus funds are also managed by finance department. The Company does not maintain significant cash in hand. Excess balance of cash other than those required for its day to day operations is deposited into the bank.

For other financial instruments, the finance department assesses and manage credit risk based on internal assessment. Internal assessment is performed for each class of financial instrument with different characteristics.

39.3 Liquidity Risk :

Liquidity risk is the risk that the Company may not be able to meet its present and future cash and collateral obligations without incurring unacceptable losses. The Company's objective is to at all times, maintain optimum levels of liquidity to meet its cash and collateral requirements. The Company relies on short term borrowings and operating cash flows in the form of working capital to meet its need for fund. The Company does not breach any covenants wherever applicable on any of its borrowing facilities. The Company has access to a sufficient variety of sources of funding as per requirements.

The below table summaries the maturity profile of the Company's financial liability :

Independent Auditor's Report

TO THE MEMBERS OF
PARAS DEFENCE AND SPACE TECHNOLOGIES LIMITED

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying Consolidated Financial Statements of **PARAS DEFENCE AND SPACE TECHNOLOGIES LIMITED** (hereinafter referred to as "the Holding Company") and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group") and its associates, which comprise the Consolidated Balance sheet as at March 31, 2025, and the Statement of Consolidated Profit and Loss (including Other Comprehensive Income), the Statement of Consolidated Changes in Equity and the Statement of Consolidated Cash Flows for the year then ended, and notes to the Consolidated Financial Statements, including a summary of material accounting policies and other explanatory information (hereinafter referred to as "the Consolidated Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of report of other auditors on separate financial statements and on the other financial information of a subsidiaries and associates, the aforesaid Consolidated Financial Statements give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the Consolidated State of Affairs of the Group and of its associates as at March 31, 2025 and their Consolidated Profit including Other Comprehensive Income, the Consolidated Statement of Changes in Equity and their Consolidated Cash Flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the Consolidated Financial Statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards

are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group and its associates in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the Consolidated Financial Statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us and other auditors in terms of their reports referred to in "Other Matter" paragraph below is sufficient and appropriate to provide a basis for our opinion on the Consolidated Financial Statements.

Key Audit Matters (KAM)

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Consolidated Financial Statements for the year ended March 31, 2025. These matters were addressed in the context of our audit of the Consolidated Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matter described below to be the key audit matter to be communicated in our report. We have fulfilled the responsibilities described in the Auditors' responsibilities for the audit of the Consolidated Financial Statements section of our report, including in relation to that matter. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the Consolidated Financial Statements. The results of our audit procedures, including the procedures performed to address the matter below, provide the basis for our audit opinion on the accompanying Consolidated Financial Statements.

Key Audit Matter	How our audit addressed the key audit matter
1) Revenue: <p>During the year, the Holding Company's revenue from operation has been increased by 43.63%. Revenue is recognized when control of the underlying products have been transferred along with satisfaction of performance obligation. The terms of sales arrangements, including the timing of transfer of control and delivery specifications, create complexity and judgment in determining sales revenues.</p> <p>Significant Risk exists that revenue is recognized without substantial transfer of control and is not in accordance with IND AS115 'Revenue from contracts with customers', resulting into recognition of revenue in incorrect period.</p> <p>Refer Note No. 1.4 (I) and 28 to the Consolidated Financial Statements.</p>	<p>We assessed the Holding Company's processes and controls for recognizing revenue as part of our audit. Our audit procedures included the following:</p> <ul style="list-style-type: none"> Assessing the systems related to invoicing and measurement as well as other relevant systems supporting the accounting of revenue. Performed sample tests of individual sales transaction and traced to sales invoices, sales orders shipping documents and other related documents. In respect of the samples selected, tested that the revenue has been recognized as per the sales orders; Verifying the completeness of disclosure in the Consolidated Financial Statements as per Ind AS 115.

Key Audit Matter	How our audit addressed the key audit matter
<p>2) Inventories</p> <p>As of March 31, 2025, inventories appear in the Holding Company's Standalone Financial Statements for an amount of ₹ 14,546.25 Lakhs constitutes 17.51% of the total assets of the Holding Company's Financial Statements. Inventories are valued at the lower of cost and net realizable value</p> <p>The Holding Company may recognize an inventory allowance if inventory items are damaged, if the selling price has declined, or if the estimated costs to completion or to be incurred to make the sale have increased.</p> <p>We considered this matter as key audit matter due to the:</p> <ul style="list-style-type: none"> Significance of the inventories balance. Complexities involve in determining quality of inventories and quantities on hand due to the number, weight, diversity of inventory, storage, Valuation procedure including of obsolete inventories. <p>Refer note no. 1.4 (F) and 10 to the Consolidated Financial Statements.</p>	<p>Our audit procedure included, among others:</p> <ul style="list-style-type: none"> Reviewing the Holding Company's process and procedure for physical verification of the Inventories, identification of non-moving and obsolete items and accounting for the same. Obtaining the physical inventory count reports of the Management of Holding company as per verification plan and discussing with the Management about the Control checks performed by them Assessing the methods used to value inventories and ensuring the consistency of accounting methods. Testing, by sampling, the effectiveness of the controls set up by Management to prevent or detect possible errors in valuation of inventories. Analyzing the Holding company's assessment of net realizable value and calculations for stock obsolescence. Verifying the completeness of disclosure in the Consolidated Financial Statements as per Ind AS 2. Obtaining representation letter from the management as per SA 580 (revised) – Written representations.

Other Information

The Holding Company's Board of Directors is responsible for the other information. The other information comprises the management discussion & analysis and director's report included in the annual report but does not include the Consolidated Financial Statements and our auditor's report thereon. The above information is expected to be made available to us after the date of this auditor's report.

Our opinion on the Consolidated Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Consolidated Financial Statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the Consolidated Financial Statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. Other information so far as it relates to the subsidiary companies and associates not audited by us, is traced from their respective financial statements audited by the other auditors.

When we read the above other information, if we conclude that there is material misstatement therein, we are required to communicate the matter to those charged with governance.

Management responsibilities for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the preparation and presentation of these Consolidated Financial Statements in terms of the requirements of the Act that give a true and fair view of the Consolidated Financial Position, Consolidated Financial Performance including Other Comprehensive Income,

Consolidated Cash Flows and the Consolidated Statement of Changes in Equity of the Group and its associates in accordance with the accounting principles generally accepted in India, including Indian Accounting Standards ('Ind AS') prescribed under Section 133 of the Act read with relevant rules issued thereunder.

The respective Board of Directors of the companies included in the Group and of its associates are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and its associates and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Consolidated Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the Consolidated Financial Statements by the Directors of the Holding Company, as aforesaid.

In preparing the Consolidated Financial Statements, the respective Board of Directors of the companies included in the Group and of its associates are responsible for assessing the ability of the Group and of its associates and to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate their respective entities or to cease operations, or has no realistic alternative but to do so.

Those respective Board of Directors of the companies included in the Group and of its associates is responsible for overseeing the financial reporting process of the Group and of its associates.

Auditors' Responsibility for the audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the Consolidated Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the Holding Company has adequate internal financial controls in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and of its associates to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and of its associates to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Consolidated Financial Statements, including the disclosures, and whether the Consolidated Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and its associates of which we are the

independent auditors and whose financial information we have audited, to express an opinion on the Consolidated Financial Statements. We are responsible for the direction, supervision and performance of the audit of the Consolidated Financial Statements of such entities included in the Consolidated Financial Statements of which we are the independent auditors. For the other entity included in the Consolidated Financial Statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the Consolidated Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Consolidated Financial Statements may be influenced.

We communicate with those charged with governance of the Holding Company and such other entities included in the Consolidated Financial Statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Consolidated Financial Statements of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

Annexure “B” to the Independent Auditor’s Report

(Referred to in paragraph 1 (f) under ‘Report on Other Legal and Regulatory Requirements’ of our report of even date on Consolidated Financial Statements of PARAS DEFENCE AND SPACE TECHNOLOGIES LIMITED for the year ended March 31, 2025)

Report on the Internal Financial Controls With reference to Consolidated Financial Statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls with reference to Consolidated Financial Statements of **PARAS DEFENCE AND SPACE TECHNOLOGIES LIMITED** (hereinafter referred to as “the Holding Company”) and its subsidiaries, which are companies incorporated in India, as of March 31, 2025 in conjunction with our audit of the Consolidated Financial Statements of the Holding Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company and its subsidiary companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls with reference to Consolidated Financial Statements based on the internal control criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (‘the Guidance Note’) issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor’s Responsibility

Our responsibility is to express an opinion on the internal financial controls with reference to Consolidated Financial Statements of the Holding Company and its subsidiaries, which are companies incorporated in India, based on our audit. We conducted our audit in accordance with the Guidance Note issued by the ICAI and the Standards of Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to these Consolidated Financial Statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to these Consolidated Financial Statements and their operating effectiveness. Our audit of internal financial controls with reference to these Consolidated Financial Statements included obtaining an understanding of internal financial controls with reference to these Consolidated Financial Statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on internal financial controls with reference to these Consolidated Financial Statements.

Meaning of Internal Financial Controls with reference to Consolidated Financial Statements

A Company’s internal financial control with reference to Consolidated Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control with reference to Consolidated Financial Statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of Management and Directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the Financial Statements.

Inherent Limitations of Internal Financial Controls with reference to Consolidated Financial Statements

Because of the inherent limitations of internal financial controls with reference to Consolidated Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation

of the internal financial controls with reference to Consolidated Financial Statements to future periods are subject to the risk that the internal financial control with reference to Consolidated Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Holding Company and its subsidiaries, which are companies incorporated in India, have, maintained in all material respects, adequate internal financial controls system with reference to these Consolidated Financial Statements and such internal financial controls with reference to these Consolidated Financial Statements were operating effectively as at March 31,

2025, based on the internal control with reference to Consolidated Financial Statements criteria established by the respective Companies considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

Notes to the Consolidated Financial Statements

for the year ended March 31, 2025

(All amounts in Rupees Lakhs, unless otherwise stated)

1.1 Corporate Information

The consolidated financial statements comprise of Paras Defence & Space Technologies Limited ("the Company" or "Holding Company"), its subsidiaries and associates, as detailed in Note No. 43, for the year ended March 31, 2025. The Company is a public limited Company domiciled and incorporated in India under the Indian Companies Act, 1956. The registered office of the Company is situated at D-112, TTC industrial area, Nerul, Navi Mumbai- 400706. The Group is involved in design, development, manufacturing, testing & commissioning of products, systems and solutions for Defence & Space Applications. The shares of the Holding company are publicly traded on the BSE Limited (BSE) and National Stock Exchange of India Limited (NSE) in India.

The financial statements of the Group for the year ended March 31, 2025 were approved and adopted by board of directors in their meeting held on April 30, 2025.

1.2 Basis of preparation

The consolidated financial statements of the Group have been prepared in accordance with Indian Accounting Standards ('Ind AS') notified under Section 133 of the Companies Act, 2013, read together with the Companies (Indian Accounting Standards) Rules, as amended from time to time.

The Consolidated financial statements have been prepared and presented on going concern basis and historical cost basis, except for the following assets and liabilities, which have been measured as indicated below:

- Certain Financial assets and liabilities at fair value (refer accounting policy regarding financial instruments).
- Employee's Defined Benefit Plans measured as per actuarial valuation report.
- Employee stock option plan measured at fair value.

These financial statements are presented in Indian Rupees, which is the group's functional and presentation currency and all values are rounded off to the nearest lakhs with two decimals, except when otherwise indicated.

1.3 Principles of Consolidation

The consolidated financial statements have been prepared on the following principles of consolidation:

- i) The financial statements of the Holding Company and its subsidiaries/ entity where control exists are combined on a line-by-line basis by adding together like items of assets, liabilities, equity, incomes, expenses and cash flows, after fully eliminating intra-group balances and intragroup transactions and any unrealized income and expenses arising from intra Group transactions.

- ii) Offset (eliminate) the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary. The difference between the cost of investment in the subsidiaries and the Parent's share of net assets at the time of acquisition of control in the subsidiaries is recognised in the consolidated financial statements as goodwill. However, resultant gain (bargain purchase) is recognized in Other Comprehensive Income on the acquisition date and accumulated to capital reserve in equity.
- iii) The intra group balances and transactions, and any unrealised income and expenses arising from intra group transactions, are eliminated in preparing the consolidated financial statements.
- iv) In case of foreign subsidiary, revenue items are consolidated at the average rate prevailing during the year. All assets and liabilities are converted at rates prevailing at the end of the year. Any exchange difference arising on consolidation is recognised in the Foreign Currency Translation Reserve (FCTR).
- v) The Consolidated Financial statements have been prepared using uniform accounting policies for like transactions and other events in similar circumstances. If an entity of the group uses accounting policies other than those adopted in the Consolidated Financial Statements for like transactions and events in similar circumstances, appropriate adjustments are made to that Group member's Financial Statements in preparing the Consolidated Financial Statements to ensure conformity with the Group's accounting policies.
- vi) For the acquisitions of additional interests in subsidiaries, where there is no change in the control, the Group recognises a reduction to the non-controlling interest of the respective subsidiary with the difference between this figure and the cash paid, inclusive of transaction fees, being recognised in equity. In addition, upon dilution of controlling interests, the difference between the cash received from sale or listing of the subsidiary shares and the increase to non-controlling interest is also recognised in equity. If the Group loses control over a subsidiary, it derecognises the related assets (including goodwill), liabilities, non-controlling interest and other components of equity, while any resultant gain or loss is recognised in Consolidated Statement of Profit and Loss. Any investment retained is recognised at fair value. The results of subsidiaries acquired or disposed off during the year are included in the Consolidated Statement of Profit and Loss from the effective date of acquisition or up to the effective date of disposal, as appropriate.
- vii) Profit or loss and each component of OCI are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance.

Notes to the Consolidated Financial Statements

for the year ended March 31, 2025

(All amounts in Rupees Lakhs, unless otherwise stated)

viii) Investment in Associates has been accounted under the Equity Method as per Ind AS 28 – Investments in Associates and Joint Ventures. The investment in associates is initially recognised at cost. Subsequently, under the equity method, post-acquisition attributable profit/losses and other comprehensive income are adjusted in the carrying value of investment to the extent of the Group's investment in the associates. Goodwill relating to the associate is included in the carrying amount of the investment and is not tested for impairment individually.

1.4 Material Accounting policies

(A) Property, Plant and Equipment :

Property, plant and equipment are carried at its cost, net of recoverable taxes, trade discounts and rebate less accumulated depreciation and impairment losses, if any. Cost includes purchase price, borrowing cost, non refundable taxes or levies and directly attributable cost of bringing the asset to its working condition for its intended use. Expenditure related to plans, designs and drawings of buildings or plant and machinery is capitalized under relevant heads of property, plant and equipment if the recognition criteria are met. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the entity and the cost can be measured reliably. In case of Property, Plant and Equipment, the Group has availed the fair value as deemed cost on the date of Ind AS transition i.e. April 01, 2016.

Property, Plant and Equipment not ready for the intended use on the date of Balance Sheet are disclosed as "Capital Work-in-Progress" and expenses incurred relating to it, net of income earned during the development stage, are disclosed as pre-operative expenses under "Capital Work-in-Progress".

Property, Plant and Equipment are eliminated from financial statements, either on disposal or when retired from active use. Gains / losses arising in the case of retirement/disposal of Property, Plant and Equipment are recognised in the Consolidated Statement of Profit and Loss in the year of occurrence.

Capital work in progress and Capital advances:

Cost of assets not ready for intended use, as on the Balance Sheet date, is shown as capital work in progress. Advances given towards acquisition of property, plant and equipment outstanding at each Balance Sheet date are disclosed as Other Non-Current Assets.

Depreciation:

Depreciation on property, plant and equipment is provided on straight line method for the year for which the assets have been used as under:

- (a) Depreciation on assets is provided over the useful life of assets as prescribed under schedule II of Companies

Act, 2013 except Mobile phones where 3 years have been taken.

- (b) Leasehold land is amortised over the period of lease.

The asset's residual values, useful lives and method of depreciation are reviewed at each financial year end and are adjusted prospectively, if appropriate.

Depreciation on the Property, Plant and Equipment is provided using straight line method over the useful life of the assets as specified in Schedule II to the Companies Act, 2013 except for following assets where the useful life is different as per technical evaluation than those prescribed in Schedule II are mentioned below-

Particulars	Useful Life
Drone Charging Station	2 Years
Drone	3 Years

(B) Intangible Assets and Amortisation:

Intangible Assets are stated at cost, net of accumulated amortization and impairment losses, if any. Intangible assets are amortised on a straight line basis over their estimated useful lives. The amortisation period and the amortisation method are reviewed at least at each financial year end. If the expected useful life of the asset is significantly different from previous estimates, the amortisation period is changed accordingly. Gain or losses arising from the retirement or disposal of an intangible asset are determined as the difference between the net disposal proceeds and the carrying amount of the asset and recognized as income or expense in the Consolidated Statement of Profit and Loss. In case of Intangible Assets, the Group has availed the fair value as deemed cost on the date of transition i.e. April 01, 2016. The period of amortisation is as under :

Asset	Period of amortisation
Computer Software	6 Years
Technical Know-how	6 Years

(C) Investment Property:

Investment property is held for long term rental income and/or for capital appreciation. Investment properties are measured initially at cost, including transaction costs and net of recoverable taxes, trade discounts and rebates. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and impairment losses, if any.

Depreciation on investment properties is provided using straight line method over the estimated useful lives as specified in Schedule II to the Companies Act, 2013. Residual values, useful lives and method of depreciation of investment properties are reviewed at each financial year end and are

Notes to the Consolidated Financial Statements

(All amounts in Rupees Lakhs, unless otherwise stated)

adjusted prospectively, if appropriate. The effects of any revision are included in the statement of profit and loss when the changes arises.

Though the Company measures investment properties using cost based measurement, the fair value of investment property is disclosed in the notes.

Investment properties are derecognised either when they have been disposed off or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in statement of profit and loss in the period of de-recognition.

(D) Impairment of Non-Financial Assets - Property, Plant and Equipment & Intangible Assets:

The Group assesses at each reporting date as to whether there is any indication that any property, plant and equipment and intangible assets or group of assets, called cash generating units (CGU) may be impaired. If any such indication exists the recoverable amount of an asset or CGU is estimated to determine the extent of impairment, if any. When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the CGU to which the asset belongs. An impairment loss is recognised in the Consolidated Statement of Profit and Loss to the extent, asset's carrying amount exceeds its recoverable amount. The impairment loss recognised in prior accounting period is reversed if there has been a change in the estimate of recoverable amount. The recoverable amount is higher of an asset's fair value less cost of disposal and value in use. Value in use is based on the estimated future cash flows, discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and risk specific to the assets.

(E) Taxes on Income:

Tax expense represents the sum of current tax (including income tax for earlier years) and deferred tax. Tax is recognised in the Consolidated Statement of Profit and Loss, except to the extent that it relates to items recognised directly in equity or other comprehensive income, in such cases the tax is also recognised directly in equity or in other comprehensive income. Any subsequent change in direct tax on items initially recognised in equity or other comprehensive income is also recognised in equity or other comprehensive income.

Current tax provision is computed for Income calculated after considering allowances and exemptions under the provisions of the applicable Income Tax Laws. Current tax assets and current tax liabilities are off set, and presented as net.

Deferred tax is recognised on differences between the carrying amounts of assets and liabilities in the Balance sheet and the corresponding tax bases used in the computation of taxable

profit. Deferred tax liabilities are generally recognised for all taxable temporary differences, and deferred tax assets are generally recognised for all deductible temporary differences, carry forward tax losses and allowances to the extent that it is probable that future taxable profits will be available against which those deductible temporary differences, carry forward tax losses and allowances can be utilised. Deferred tax assets and liabilities are measured at the applicable tax rates. The carrying amount of deferred tax assets is reviewed at each Balance Sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available against which the temporary differences can be utilised.

(F) Inventories:

Inventories are measured at lower of cost and net realisable value (NRV) after providing for obsolescence, if any. NRV is the estimate selling price in the ordinary course of business, less estimated costs of completion and estimate cost necessary to make the sale. Cost of Inventories comprises of cost of purchase, cost of conversion and other costs incurred in bringing them to their respective present location and condition. Cost of raw materials, stores & spares, packing materials are determined on weighted average basis. The Cost of Work in Progress and Finished Goods is determined on absorption costing methods.

(G) Financial Instruments:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial Assets -Initial recognition and measurement

All financial assets are initially recognized at fair value. Transaction costs that are directly attributable to the acquisition of financial assets, which are not at fair value through profit or loss, are adjusted to the fair value on initial recognition. Financial assets are classified, at initial recognition, as financial assets measured at fair value or as financial assets measured at amortised cost. Purchase and sale of financial assets are recognized using trade date accounting. However, trade receivables that do not contain a significant financing component are measured at transaction price.

Financial assets - Subsequent measurement

For the purpose of subsequent measurement financial assets are classified in two broad categories:-

- Financial assets at fair value
- Financial assets at amortised cost

Where assets are measured at fair value, gains and losses are either recognised entirely in the Consolidated Statement of Profit and Loss (i.e. fair value through profit and loss), or recognised in other comprehensive income (i.e. fair value through other comprehensive income).

Notes to the Consolidated Financial Statements

for the year ended March 31, 2025

(All amounts in Rupees Lakhs, unless otherwise stated)

A financial asset that meets the following two conditions is measured at amortised cost (net of any write down for impairment) unless the asset is designated at fair value through profit or loss under the fair value option.

- a) Business model test: The objective of the Group's business model is to hold the financial asset to collect the contractual cash flow.
- b) Cash flow characteristics test: The contractual terms of the financial asset give rise on specified dates to cash flow that are solely payments of principal and interest on the principal amount outstanding.

A financial asset that meets the following two conditions is measured at fair value through other comprehensive income unless the asset is designated at fair value through profit or loss under the fair value option.

- a) Business model test: The financial asset is held within a business model whose objective is achieved by both collecting contractual cash flow and selling financial assets.
- b) Cash flow characteristics test: The contractual terms of the financial asset give rise on specified dates to cash flow that are solely payments of principal and interest on the principal amount outstanding.

All other financial asset is measured at fair value through profit or loss.

Financial assets - Derecognition

A financial assets (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Group's statement of financial position) when:

- a) The rights to receive cash flows from the asset have expired, or
- b) The Group has transferred its rights to receive cash flow from the asset.

Impairment of Financial Assets

In accordance with Ind AS 109, the Group uses 'Expected Credit Loss' (ECL) model, for evaluating impairment of financial assets other than those measured at fair value through profit and loss (FVTPL).

Expected credit losses are measured through a loss allowance at an amount equal to:

- a) The 12-months expected credit losses (expected credit losses that result from those default events on the financial instrument that are possible within 12 months after the reporting date); or

- b) Full lifetime expected credit losses (expected credit losses that result from all possible default events over the life of the financial instrument)

For trade receivables Group applies 'simplified approach' which requires expected lifetime losses to be recognised from initial recognition of the receivables. The Group uses historical default rates to determine impairment loss on the portfolio of trade receivables. At every reporting date these historical default rates are reviewed and changes in the forward looking estimates are analysed.

For other assets, the Group uses 12 month ECL to provide for impairment loss where there is no significant increase in credit risk. If there is significant increase in credit risk full lifetime ECL is used.

Financial Liabilities - Initial recognition and measurement:

The financial Liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

Financial Liabilities - Subsequent measurement:

Financial Liabilities are subsequently carried at amortised cost using the effective interest method. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

Financial Liabilities - Financial guarantee contracts:

Financial guarantee contracts issued by the Group are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined and the amount recognised less cumulative amortisation.

Financial liability - Derecognition:

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another, from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Consolidated Statement of Profit and Loss.

(H) Investment in Associates:

The Group has elected to recognize its investment in associate at cost in accordance with the option available in Ind AS 27, 'Separate Financial Statements'.

(I) Revenue Recognition and Other Income:

Sales of goods and services:

The Group derives revenues primarily from sale of products comprising of Defence & Space Applications

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration entitled in exchange for those goods or services. Generally, control is transferred upon shipment of goods to the customer or when the goods are made available to the customer, provided transfer of title to the customer occurs and the Group has not retained any significant risks of ownership or future obligations with respect to the goods shipped.

Revenue is measured at the amount of consideration which the Group expects to be entitled to in exchange for transferring distinct goods or services to a customer as specified in the contract, excluding amounts collected on behalf of third parties (for example taxes and duties collected on behalf of the government). Consideration is generally due upon satisfaction of performance obligations and a receivable is recognized when it becomes unconditional.

The Group does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, it does not adjust any of the transaction prices for the time value of money.

Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, performance bonuses, price concessions and incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers.

Revenue from rendering of services is recognised over time by measuring the progress towards complete satisfaction of performance obligations at the reporting period.

Contract Balances - Trade Receivables

A receivable represents the Group's right to an amount of consideration that is unconditional.

Contract liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Group transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Group performs under the contract.

Other Income:

Incentives on exports and other Government incentives related to operations are recognised in the Consolidated Statement of Profit and Loss after due consideration of certainty of utilization/receipt of such incentives.

Interest Income:

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably. Interest income is accrued on a timely basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

Dividend Income:

Dividend Income is recognised when the right to receive the payment is established.

Rental income:

Rental income arising from operating leases is accounted for on a straight-line basis over the lease terms and is included as other income in the statement of profit or loss.

(J) Foreign currency transactions and translation:

Transactions in foreign currencies are recorded at the exchange rate prevailing on the date of transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency closing rates of exchange at the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognised in Consolidated Statement of Profit and Loss except to the extent of exchange differences which are regarded as an adjustment to interest costs on foreign currency borrowings that are directly attributable to the acquisition or construction of qualifying assets, are capitalized as cost of assets.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the transaction. Non-monetary items carried at fair value that are denominated in foreign currencies are translated at the exchange rates prevailing at the date when the fair value was determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

Foreign exchange differences regarded as an adjustment to borrowing costs are presented in the Consolidated Statement of Profit and Loss, within finance costs. All other finance gains / losses are presented in the Consolidated Statement of Profit and Loss on a net basis.

In case of an asset, expense or income where a monetary advance is paid/received, the date of transaction is the date on which the advance was initially recognized. If there were multiple payments or receipts in advance, multiple dates of transactions are determined for each payment or receipt of advance consideration.

(All amounts in Rupees Lakhs, unless otherwise stated)

(K) Employee Benefits:

Short term employee benefits are recognized as an expense in the Consolidated Statement of Profit and Loss of the year in which the related services are rendered. Contribution to Provident Fund, a defined contribution plan, is made in accordance with the statute, and is recognised as an expense in the year in which employees have rendered services.

The cost of providing gratuity, a defined benefit plans, is determined based on Projected Unit Credit Method, on the basis of actuarial valuations carried out by third party actuaries at each Balance Sheet date. Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are charged or credited to other comprehensive income in the period in which they arise. Other costs are accounted in Consolidated Statement of Profit and Loss.

Remeasurements of defined benefit plan in respect of post employment and other long term benefits are charged to the other comprehensive income in the year in which they occur. Remeasurements are not reclassified to Consolidated Statement of Profit and Loss in subsequent periods.

(L) Share based payments

The cost of equity-settled transactions with employees is measured at fair value at the date at which they are granted. The fair value of share options are determined with the assistance of an external valuer and the fair value at the grant date is expensed on a proportionate basis over the vesting period based on the Company's estimate of shares that will eventually vest. The estimate of the number of options likely to vest is reviewed at each balance sheet date up to the vesting date at which point the estimate is adjusted to reflect the current expectations.

(M) Provisions, Contingent Liabilities and Contingent Assets:

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event. It is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are discounted using equivalent period government securities interest rate. Unwinding of the discount is recognised in the Consolidated Statement of Profit and Loss as a finance cost. Provisions are reviewed at each Balance Sheet date and are adjusted to reflect the current best estimate.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group or a present obligation that arises from

past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made. Information on contingent liability is disclosed in the Notes to the Financial Statements. Contingent assets are not recognised in financial statement. However, when the realisation of income is virtually certain, then the related asset is no longer a contingent asset, but it is recognised as an asset.

(N) Offsetting financial instruments:

Financial assets and liabilities are offset and the net amount is reported in the Balance Sheet where there is a legally enforceable rights to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable rights must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Group or counterparty.

1.5 Key accounting estimates and judgements

The preparation of the Group's financial statements requires the management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

a) Depreciation/amortisation and useful lives of property, plant and equipment/intangible assets:

Property, plant and equipment/intangible assets are depreciated/amortised over the estimated useful lives of the assets, after taking into account their estimated residual value. Management reviews the estimated useful lives and residual values of the assets annually in order to determine the amount of depreciation/ amortisation to be recorded during any reporting period. The useful lives and residual values are based on the Group's historical experience with similar assets and take into account anticipated technological changes. The depreciation/ amortisation for future periods is revised if there are significant changes from previous estimates.

b) Provisions:

Provisions and liabilities are recognized in the period when it becomes probable that there will be a future outflow of funds resulting from past operations or events and the amount of cash outflow can be reliably estimated. The timing of recognition and quantification of the liability require the application of judgement to existing facts and circumstances,

Notes to the Consolidated Financial Statements

for the year ended March 31, 2025

(All amounts in Rupees Lakhs, unless otherwise stated)

which can be subject to change. Since the cash outflows can take place many years in the future, the carrying amounts of provisions and liabilities are reviewed regularly and revised to take account of changing facts and circumstances.

c) Defined benefit obligation:

The cost of post-employment benefits is determined using actuarial valuations. The actuarial valuation involves making assumptions about discount rates, future salary increases, expected rate of return on assets and mortality rates. Due to the long term nature of these plans, such estimates are subject to significant uncertainty.

d) Income Tax:

Respective Companies reviews at each balance sheet date the carrying amount of deferred tax assets. The factors used in estimates may differ from actual outcome which could lead to an adjustment to the amounts reported in the financial statements. Deferred tax assets are recognised only to the extent that it is probable that taxable profit will be available against which the unused tax losses or tax credits can be utilised. This involves an assessment of when those assets are likely to reverse, and a judgement as to whether or not there will be sufficient taxable profits available to offset the assets. This requires assumptions regarding future profitability, which is inherently uncertain. To the extent assumptions regarding future profitability change, there can be an increase or decrease in the amounts recognised in respect of deferred tax assets and consequential impact in the statement of profit and loss.

e) Recoverability of trade receivables:

Judgements are required in assessing the recoverability of overdue trade receivables and determining whether a provision against those receivables is required. Factors considered include the credit rating of the counterparty, the amount and timing of anticipated future payments and any possible actions that can be taken to mitigate the risk of non-payment.

f) Impairment of Non-Financial Assets:

The Group assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's Fair Value or Cash Generating Units (CGU) fair value less costs of disposal and its value in use. It is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent to those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less cost of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples or other available fair value indicators.

31.2 Sensitivity Analysis

Particulars	As at March 31, 2025	As at March 31, 2024
	Effect on Gratuity Increase / (Decrease)	
Discount Rate + 100 basis points	(18.88)	(19.33)
Discount Rate - 100 basis points	20.86	21.52
Salary Escalation Rate + 100 basis points	17.13	17.94
Salary Escalation Rate - 100 basis points	(15.98)	(16.42)
Withdrawal Rate + 100 basis points	(2.54)	(1.74)
Withdrawal Rate - 100 basis points	2.75	1.90

The above sensitivity analysis is based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. In presenting the above sensitivity analysis, the present value of defined benefit obligation has been calculated using the Projected Unit Credit method at the end of reporting period, which is the same as that applied in calculating the defined obligation liability recognized in the balance sheet.

31.3 Expected payments towards contributions to Gratuity in future years :

Year Ended	Expected Payment
March 31, 2026	104.46
March 31, 2027	55.53
March 31, 2028	63.04
March 31, 2029	44.63
March 31, 2030	43.81
March 31, 2031 to March 31, 2035	174.42
March 31, 2036 and above	171.14

31.4 Risk exposures

These plans typically expose the company to actuarial risks as, Salary Risk, Discount Rate, Employee Turnover rate/Withdrawal rate, Mortality / Disability.

Salary Risk

Salary escalation & attrition rate are considered as advised by the Holding Company; they appear to be in line with the industry practice considering promotion and demand & supply of the employees.

Discount rate

In case the yield on the government bonds drops in the future period then it may result in increase in the liability.

Notes to the Consolidated Financial Statements

for the year ended March 31, 2025

(All amounts in Rupees Lakhs, unless otherwise stated)

Note: 31 Employee Benefits Expense (Contd..)

Employee Turnover rate/Withdrawal rate

If the actual withdrawal rate in the future turns out to be more or less than expected then it may result in increase in the liability.

Mortality / Disability

Maturity Analysis of Benefit Payments is undiscounted cash flows considering future salary, attrition & death in respective year for members as mentioned above.

Details of Asset-Liability Matching Strategy:-

Gratuity benefits liabilities of the Holding Company are Funded. There are no minimum funding requirements for a Gratuity benefits plan in India and there is no compulsion on the part of the Holding Company to fully or partially pre-fund the liabilities under the Plan. The trustees of the plan have outsourced the investment management of the fund to insurance companies which are regulated by IRDA. Due to the restrictions in the type of investments that can be held by the fund, it may not be possible to explicitly follow an asset-liability matching strategy to manage risk actively in a conventional fund.

31.5 The average duration of the defined benefit plan obligation at the end of the reporting period is 5-12 years (March 31, 2024 : 9.00 years).

39.2 Fair Valuation techniques used to determine Fair Value

The Group maintains procedures to value its financial assets or financial liabilities using the best and most relevant data available. The Fair Values of the financial assets and liabilities are included at the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The following methods and assumptions were used to estimate the Fair Values:

- Fair Value of Cash and Cash Equivalents, Other Bank Balances, Trade Receivable, Trade Payables, Current Loans, Current Borrowings, and other Current Financial Assets and Liabilities are approximate at their carrying amounts largely due to the short-term maturities of these instruments.
- The fair values of Non-Current Borrowings and Margin money are approximate at their carrying amount due to interest bearing features of these instruments.
- The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

39.3 Fair Value Hierarchy

The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation techniques:-

- Level 1 :-** Quoted prices / published Net Assets Value (unadjusted) in active markets for identical assets or liabilities. It includes fair value of financial instruments traded in active markets and are based on quoted market prices at the Balance Sheet date and financial instruments like mutual funds for which Net Assets Value is published by mutual fund operators at the Balance Sheet date.
- Level 2 :-** Inputs, other than quoted prices included within level 1, that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices). It includes fair value of the financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined by using valuation techniques. These valuation techniques maximise the use of observable market data where it is available and rely as little as possible on the Group specific estimates. If all significant inputs required to fair value an instrument are observable then instrument is included in level 2.
- Level 3 :-** Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs). If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

Note: 40 FINANCIAL RISK MANAGEMENT - OBJECTIVE AND POLICIES

The Group is exposed to market risk, credit risk, liquidity risk and competition and price risk. Risk management is carried out by the Group under policies approved by the Respective Board of Directors. This Risk management plan defines how risks associated with the Group will be identified, analysed, and managed. It outlines how risk management activities will be performed, recorded, and monitored by respective Company in the Group. The basic objective of risk management plan is to implement an integrated risk management approach to ensure all significant areas of risks are identified, understood and effectively managed, to promote a shared vision of risk management and encourage discussion on risks at all levels of the organization to provide a clear understanding of risk / benefit trade-offs, to deploy appropriate risk management methodologies and tools for use in identifying, assessing, managing and reporting on risks, and to determine the appropriate balance between cost and control of risk and deploy appropriate resources to manage/optimize key risks. Activities are developed to provide feedback to management and other interested parties (e.g. Audit committee, Board etc.). The results of these activities ensure that risk management plan is effective in the long term.

40.1 Market Risk and Sensitivity:

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprise two types of risk: foreign currency rate risk and interest rate risk. Financial instruments affected by market risk include loans and borrowings, deposits and investments.

The sensitivity analysis relate to the position as at March 31, 2025 and March 31, 2024

(a) Foreign Currency Exchange Risk and Sensitivity

Foreign exchange risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign currency exchange rates. The Group's exposure to the risk of changes in foreign currency exchange rates relates primarily to the Group's operating activities and its Investment. The Group transacts business primarily in USD and Euro. The Group has foreign currency trade payables and receivables and is therefore, exposed to foreign currency exchange risk. The Group regularly reviews and evaluates exchange rate exposure arising from foreign currency transactions.

The following table demonstrates the sensitivity in the USD, GBP, SGD, AED and Euro to the Indian Rupee with all other variables held constant. The impact on the Group's profit before tax (PBT) due to changes in the fair values of monetary assets and liabilities is given below:

Unhedged Foreign currency exposure As at March 31, 2025	Currency	Amount in FC	Amount in INR
Investment	USD	12,21,667	1,045.52
Trade Receivable	USD	18,19,344	1,557.02

Foreign Currency Sensitivity

2% increase or decrease in foreign exchange rates will have the following impact on Profit Before Tax (PBT):-

Particulars	2024-25		2023-24	
	2% increase Profit/(Loss)	2% decrease Profit/(Loss)	2% increase Profit/(Loss)	2% decrease Profit/(Loss)
USD	3.38	(3.38)	(52.03)	52.03
EURO	4.60	(4.60)	0.37	(0.37)
GBP	(0.90)	0.90	0.46	(0.46)
SGD	-	-	(0.12)	0.12
AED	(3.10)	3.10	-	-
Increase / (Decrease) in Profit Before Tax	3.98	(3.98)	(51.32)	51.32

(b) Interest Rate Risk and Sensitivity :-

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group is having non current borrowings in the form of term loan and current borrowings in the form of working capital/ loan from director and inter corporate deposits. There is a fixed rate of interest in case of vehicle loan and inter corporate deposits and hence, there is no interest rate risk associated with these borrowings. The loan from director is interest free. The Group is exposed to interest rate risk associated with term loan and working capital facility due to floating rate of interest. .

The exposure of the Group's borrowings to interest rate changes at the end of the reporting year are as follows:

Particulars	As at March 31, 2025	As at March 31, 2024
Term Loan From Banks and Financial Institutions	100.00	139.26
Working Capital Facility	319.63	5,659.18
Closing Balances	419.63	5,798.44

The table below illustrates the impact of a 2% increase / decrease in interest rates on interest on financial liabilities assuming that the changes occur at the reporting date and has been calculated based on risk exposure outstanding as of date. The year end balances are not necessarily representative of the average debt outstanding during the year.

Particulars	2024-25		2023-24	
	2% increase	2% decrease	2% increase	2% decrease
Term Loan From Banks and Financial Institutions	2.00	(2.00)	2.79	(2.79)
Working Capital Facility	6.39	(6.39)	113.18	(113.18)
Decrease / (Increase) in Profit Before Tax	8.39	(8.39)	115.97	(115.97)

The assumed movement in basis points for interest rate sensitivity analysis is based on the currently observable market environment.

40.2 Credit Risk

Credit risk is the risk that a counter party will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Group is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and other financial instruments.

a) Trade Receivables:-

The Group measures the expected credit loss of trade receivables, which are subject to credit risk, based on historical trend, industry practices and the business environment in which the entity operates and adjusted for forward looking information. Loss rates are based on actual credit loss experience and past trends.

Notes to the Consolidated Financial Statements

(All amounts in Rupees Lakhs, unless otherwise stated)

Note: 40 FINANCIAL RISK MANAGEMENT - OBJECTIVE AND POLICIES (Contd..)

The Group has used practical expedient by computing the expected credit loss allowance for trade receivables based on provision matrix. The provision matrix taken into account historical credit loss experience and adjusted for forward looking information. The expected credit loss allowance is based on ageing of the days the receivables are due.

The following table summarizes the Gross carrying amount of the trade receivables and provision made.

Particulars	As at March 31, 2025		As at March 31, 2024	
	Gross Carrying Amount	Loss Allowance	Gross Carrying Amount	Loss Allowance
Trade Receivables	31,571.44	2,005.36	21,387.08	1,541.62

The following table summarizes the changes in the Provisions made for the receivables:

Particulars	As at March 31, 2025	As at March 31, 2024
Opening Balances	1,541.62	965.06
Provided during the year	463.74	576.56
Reversed during the year	-	-
Closing Balances	2,005.36	1,541.62

b) Financial Instruments and Cash Deposits:-

The Group considers factors such as track record, size of the institution, market reputation and service standards to select the banks with which balances are maintained. Credit risk from balances with bank is managed by the Group's finance department. Investment of surplus funds are also managed by finance department. The Group does not maintain significant cash in hand. Excess balance of cash other than those required for its day to day operations is deposited into the bank.

For other financial instruments, the finance department assesses and manage credit risk based on internal assessment. Internal assessment is performed for each class of financial instrument with different characteristics.

40.3 Liquidity Risk :

Liquidity risk is the risk that the Group may not be able to meet its present and future cash and collateral obligations without incurring unacceptable losses. The Group's objective is to, at all times, maintain optimum levels of liquidity to meet its cash and collateral requirements. The Group relies on short term borrowings and operating cash flows in the form of working capital facility to meet its need for fund. The Group does not breach any covenants wherever applicable on any of its borrowing facilities. The Group has access to a sufficient variety of sources of funding as per requirements.

The below table summaries the maturity profile of the Group's financial liability :

40.4 Competition and Price Risk

The Group faces competition from local and foreign competitors. Nevertheless, it believes that it has competitive advantage in terms of high quality products and by continuously upgrading its expertise and range of products to meet the needs of its customers.

Note: 41 Capital Risk Management

For the purpose of Group's capital management, capital includes issued capital, all other equity reserves and net debts. The primary objective of the Group's capital management is to maximise shareholders value. The Group manages its capital structure and makes adjustments in the light of changes in economic environment and the requirements of the financial covenants.

The Group monitors capital using gearing ratio, which is net debt divided by total capital (equity plus net debt). Net debt are non-current and current debts as reduced by cash and cash equivalents. Equity comprises all components including other comprehensive income.
