FY26 revenue growth was structurally diversified, North America continued to anchor the business as the core growth engine, Europe emerged as a high-momentum market with near doubling performance and the CDMO platform opened an entirely new revenue vertical.

Segment	Definition
Integrated Gx	<p>Products where API is key; API forward integrated to value added PFIs and FDs (mid to high volume)</p> <p>Value proposition:</p> <p>Backward integration/ Strategic tie ups</p> <p>Supply chain security and cost competitiveness</p>
Complex Gx	<p>Products with high entry barriers due to various reasons:</p> <ul style="list-style-type: none"> • Complexity in formulation development and manufacturing • Complexity in API development • Complexity in IP/ BE strategy • Complexity in Compliance • Complexity in route of administration or drug-device combination
Others	<p>Products that are time based/ opportunity products with an inherent capability of falling into the integrated basket.</p>

Portfolio Architecture and Evolution

- ❖ Complex Gx share in FD moved to 43% from 31%
- ❖ CDMO business emerged as 4th revenue engine contributing ₹1,593 Mn in FY26
- ❖ Market Share % Rank #1 in 9/35 (25%) of US portfolio; Top-3 in 18/35 (50%) of US portfolio[^]

Gross Margin

EBITDA

Product Mix Upgrade to Complex Gx

Accelerating shift to Complex Gx with structurally higher margins and a clear path towards 50%+ of FD. ADHD, controlled substances and high barrier Gx with limited generic competition, creating a sustainable margin floor

Integrated Gx

API self-sufficiency for major FD products Paracetamol, Metformin and other key molecules ensure stable margin delivery and provides a cost advantage

Peptide CDMO Contribution

Peptide CDMO achieved positive EBITDA in Q4FY26 with revenue of ₹699Mn.

R&D Expenses

R&D at 5.3% of sales (₹2,853 Mn) fuels pipeline growth majorly towards Complex Gx. Which was ~3% of sales few years ago

Balance Sheet Strengthened

- Additional equity infusion of ₹6,656Mn in FY26 bringing down Net Debt to EBITDA at 0.34x.
- NWC-to-sales improved to 33% from 35% in FY22, with a focused and consistent improvement in DSO.

Growth CAPEX

- An investment of ₹5,547 Mn was made in FY26, totaling ₹23,107 Mn cumulatively from FY22 to FY26, covering the Genome Valley 10 Bn dosages facility, MUPS facility, and packing facility in the USA.
- Growth capital expenditures have been funded through cash flows from operations.

Investment for Future Growth and Risk Mitigation

- ROCE% subdued in last few years with investments in GLS and Senn Chemicals AG for future growth
- CZRO: Pilot Plant and technology with green chemicals for key APIs
- Acquisition of Senn Chemicals AG for an Enterprise Value of ~₹4,500Mn
- R&D at 5.3% of sales (₹2,853 Mn) fuels pipeline growth majorly towards Complex Gx. which was ~3% of sales few years ago

- Diversified across API, PFI, FD and CDMO
- FD at **74%** of revenue
- Formulations business compounded at **20%** CAGR over FY22 to FY26, reflecting a structurally strengthening growth engine

Portfolio Upgrade

- Shifted from volume driven to value driven Complex Gx-led business model
- Complex Gx now **43%** share in FD
- Oncology and Peptide CDMO emerging as next-gen growth engines

Global Diversification

- Strong regulated-market momentum led by North America and Europe
- ROW expansion and broadened market access

Margin Expansion

- Record **Gross** and **EBITDA** margins in FY26
- Gross Margin expanded by ~1507 bps, EBITDA margin expanded ~290 bps over FY22-FY26
- Complex Gx mix driving structural margin improvement

Capital Discipline

- CAPEX investment of ₹5,547 Mn was made in FY26, totaling ₹23,107 Mn cumulatively from FY22 to FY26, covering the Genome Valley 10 Bn tablet facility, MUPS facility, and packing facility in the USA
- Growth capital expenditures have been funded through cash flows from operations.

Four Decades of Strategic Evolution

Foundation

- Pioneered Paracetamol API in India; cost leadership became a durable moat
- Built Bonthapally hub – scalable platform anchoring decades of growth
- Scaled Jeedimetla API capacity for global regulated markets
- Cultivated global customer relationships anchoring predictable volumes
- Embedded a culture of disciplined execution and capital efficiency

Forward Integration

- Entered Finished Dosages – unlocking per-molecule margin expansion
- Established GPI in the US – direct access to the largest regulated market
- Gagillapur PFI facility deepened backward integration for end-to-end cost advantage
- In-house API, PFI and FD control mitigated supply risk and reduced external dependence
- Centralized quality and regulatory oversight improved compliance across regulated markets

Scale & Diversify

- Built world's largest single-site MUPS facility – a rare manufacturing moat
- Packing Facility in Virginia full US supply chain control, cutting lead times
- Revenue scale-up validated a compounding, multi-geography business model
- R&D investment accelerated transition to Complex Gx, MUPS and higher-value FD
- Enhanced FD capabilities with Additional Genome valley 10Bn Tablets capacity

Transformation

- Pivoted into high-barrier segments: Peptide CDMO and Complex Gx
- Complex Gx reached 43% of FD (from 31%) – decisive premium-margin shift
- Structurally de-risked through customer and portfolio diversification
- Deepened regulated-market filings funnel R&D and GLS scale
- Acquired Senn Chemicals – entered Peptide CDMO, adding a high-value growth vector

Complex Generics Scale-up

- ADHD portfolio driving US volume; Lisdexamfetamine & Amphetamine ER FDA approvals secured
- Complex Gx share rose from 31% to 43% of FD in just one year (+1200 bps YoY in FY26)
- Controlled substances, MUPS platform; 59 complex dossiers filed; 180-day exclusivity opportunities
- Total 148 dossier filings - 97 dossiers filed & approved; 51 Filings awaiting approvals
- Total Complex Gx dossier filings 59, 32 approved and 27 awaiting approval

Peptide CDMO Ramp

- Senn Chemicals acquired Apr 2025. Swiss-based CDMO with 60+ years in peptide synthesis
- Breakeven achieved in Q4FY26; Ascelis Peptides subsidiary driving R&D pipeline
- TFA-free peptide chemistries for cosmetics segment; GLP-1 / peptide therapeutics market expanding rapidly

Geographic Diversification

- Evolving from a North America-centric model to a multi-region value platform, anchored in regulated markets across North America, Europe and Select ROW
- Europe and regulated ex-North America markets emerging as the next growth engines, backed by expanding dossiers, complex launches and rising CDMO engagement
- Geographic expansion aligned with portfolio complexity, enabling scalable rollout of Complex Gx, Peptides and Specialty products with high entry barrier

Capacity Expansion

- Genome Valley GLS: 10Bn dosages now is USFDA approved, Rx Products shipments started
- GLS approval increases formulation capacity by 40%; enables multisite manufacturing
- Vizag dedicated oncology OSD, Virginia US facility (1.5Bn dosages)
- FY26 capex: ₹5,547 Mn; de-risking strategy across multiple facilities

Innovation Platforms

- R&D spend 5.3% of revenue up 20% YoY
- Focus areas: CNS/ADHD, oncology, peptides, high barrier, metabolic disorders
- IIT Hyderabad R&D center boosting peptide & particle synthesis development capabilities

Oncology Pipeline

- Day 1 / Day 181 launch opportunities for high-value oncology molecules
- Active development pipeline; targeting high-barrier generics
- Dedicated oncology OSD plant in Vizag with separate API block
- Strategic pivot to high-complexity, high-margin therapeutic segments for long-term growth

R&D Capability

FD Portfolio Transformation: Scaling to Complex Gx

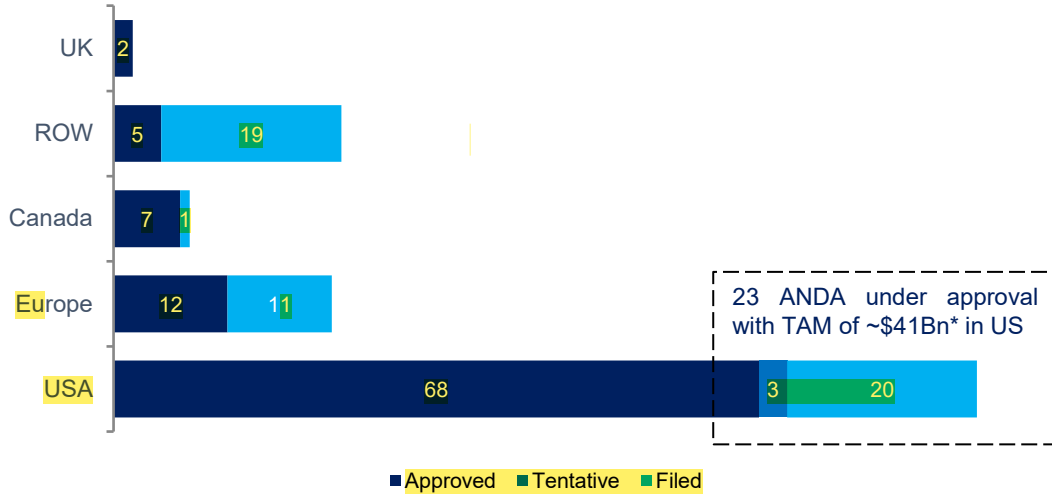

R&D Pipeline Momentum

The FD portfolio is progressing strategically up the complexity curve, indicating a purposeful move toward more valuable formulations. The growing pipeline of complex generics supports sustained revenue strength and improved margins over the long term.
