Earnings Presentation

Q4FY26

MobiKwik

Official Payments Partner

UPI
UNIFIED PAYMENTS INTERFACE

**2nd Fastest
Growing App**

Executive Summary

FY26 Snapshot: Profitable Core EBITDA Reinvested in Growth

Excluding the new business burn, the core stands on its own

CORE

Consumer Payments

Profitable at scale. Growing without subsidies.

4.8X GMV

in last 2 years

39% GM

All-time high Margin
in Q4FY26

Largest Wallet in India

2nd fastest growing UPI App

6th largest BBPS Customer Unit

Our UPI scaled 170% YoY, 6X faster than the industry without UPI incentives.

CORE

Lending

Quality rebuilt. NBFC unlocks the next chapter.

~35%

Risk improved
vs peak-stress

59% GM

All-time high Margin
in Q4FY26

Responsible Lending focused on PAT

Our priorities are portfolio health,
collections quality, and margins

Non FLDG: 25% loans to Super-Prime and Prime
FLDG: 75% loans to Prime and Near-Prime

NEW BUSINESS

Merchant Payments

Large TAM. Early mover.

Superior

Margin profile

10X Revenue

by FY28

Consumer payments is a war on zero-MDR rails

Merchant Payments:

- offline acquiring via QR, Soundbox and EDC
- online acquiring via UPI, Cards, etc. (Zaakpay PA)

Both operate on MDR, device, settlement economics
with significantly less competition

Core Business generated EBITDA of **50 Cr**

Invested in Merchant **-55 Cr**

-5 Cr EBITDA in FY26 due to capital allocation for growth

- FY26 was an inflection year for us. We bounced back to the green, delivering a **74 Cr EBITDA swing**
- For next 2 years, we will focus on **scaling up the Core** and **building 4 New Growth Engines**
- **Stronger margins** generated by Core will **fund the buildout of New Moats**.

1

Offline Merchant Acquiring

Acquire merchants via QR, Soundbox and EDC. Build the data foundation for merchant lending

2

Online Merchant Acquiring

Scale Zaakpay enterprise GMV. MDR economics, no zero-MDR drag, lower competitive intensity

3

Unlock Lending with NBFC

Co-lending with broader bank partners. Own-book lending. Merchant credit as first new product

4

AI to Power Growth & Core Business

Sharper underwriting, better collections, faster onboarding: AI runs across every business line

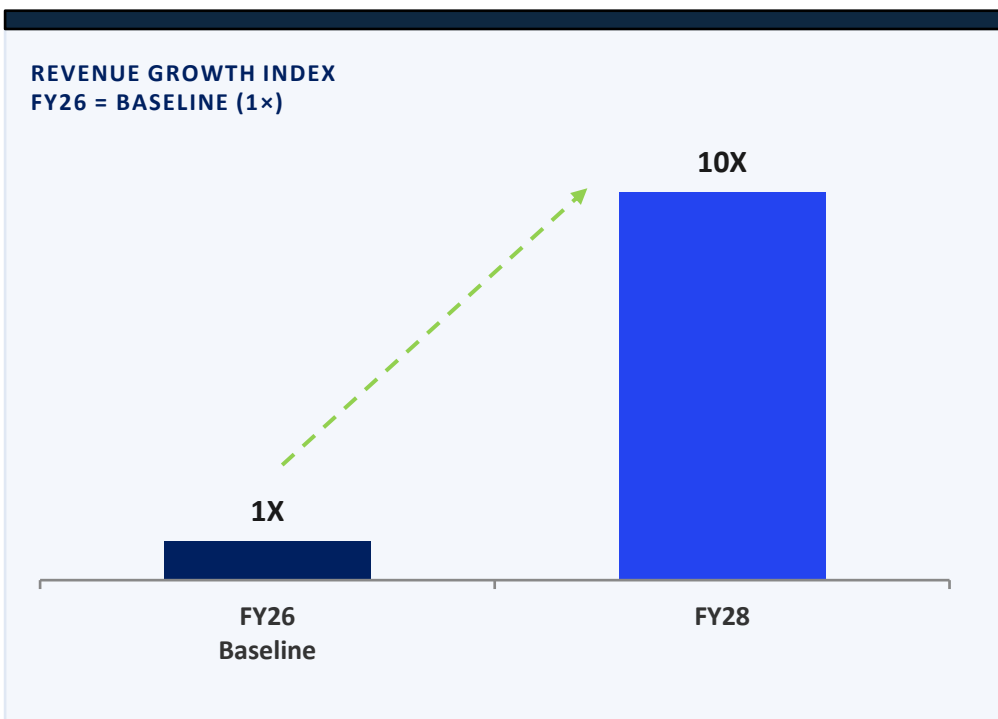

Margins from Core fund the Buildout. New moats compound the business
We expect to remain baseline profitable through the investment cycle

Offline Merchant Business: 10X Revenue Growth by FY28

Build merchant relationship → Monetize with MDR → Generate transaction data → Deploy merchant credit

USD 1,800-2,000 Bn Merchant Business GMV TAM by FY28 (Source: RedSeer)	60M + Small merchants in India	MDR-based No zero-MDR drag, every transaction generates revenue	Lower Competitive intensity vs consumer UPI
-------------------------------------------------------------------------------------	------------------------------------------	---------------------------------------------------------------------------	-------------------------------------------------------

KEY GROWTH LEVERS

EDC & Sound Box Scale-up

Device base expanding ~5x, each device deployed generates recurring subscription and MDR revenue, compounding as merchant engagement improves over time

Multi-Segment GMV Growth

Enterprise, O&G and General Trade scaling simultaneously
Three independent growth engines reduce concentration risk and compound overall GMV and revenue

Revenue Yield Deepening

Higher-value payment instruments and banking partnerships structurally improve revenue yield per unit of GMV
Operating leverage on a growing merchant base

Merchant Lending (MCA)

Merchants who transact daily convert to credit naturally
Lending-active merchants stay on the platform significantly longer, adding a growing new revenue stream

Path to Profitability

Profitable segments fund General Trade scale-up
Self-sustaining growth and EBITDA breakeven achieved by FY28

Break-Even expected by FY28 backed by a 5X scale-up of Devices

Online Merchant Business: 10X GMV Ambition by FY28

Acquire SMB E-Comm Merchant → Optimize MDR yield → Diversify revenue streams with value-added services

USD 792-880 Bn

Payment Gateway GMV TAM by FY28
(Source: RedSeer)

10X Ambition

FY27-28 GMV Scale

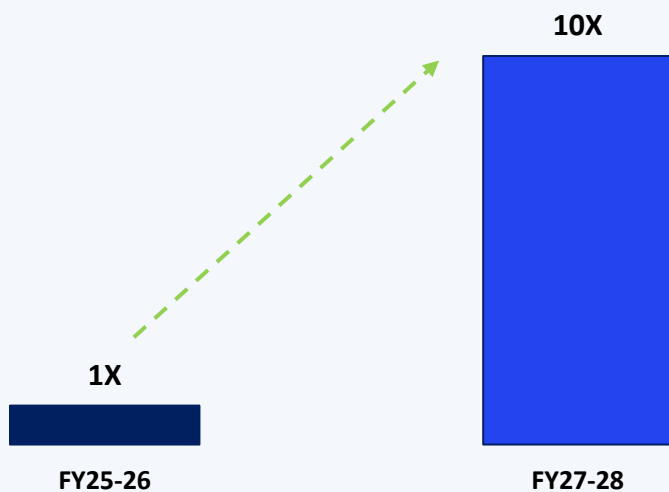

99.99% Uptime

By 2028 from current 99.97%

95%+ Success Rate

In FY26 - 27

GMV GROWTH INDEX
FY26 = BASELINE (1X)

KEY GROWTH LEVERS

Vertical-Focused Growth & Industry Dominance

Deep vertical specialization owning high-value ecosystems end-to-end.

Compliance-Aligned Custom Solutions

Category-specific checkout flows, sector-aligned integrations and real-time reconciliation that reduce friction and accelerate merchant onboarding.

Reliability & Service Excellence

Best-in-class uptime, instant settlement and dedicated merchant support cementing Zaakpay as the preferred PAPG partner for high-stakes verticals

Superior API & Self-Serve Platform

Developer-first APIs, self-serve onboarding dashboards and real-time reporting tools that cut integration time and boost merchant transaction volume

AI-Driven Merchant Intelligence

AI-powered fraud detection, dynamic routing optimization and personalized merchant analytics creating a compounding competitive moat for Zaakpay

Break-Even expected by FY28 on the back of Scale-up & Improved Monetization

Governance Delivers: RBI Approves NBFC Application

From distribution economics to ownership economics: the same proven infrastructure, structurally better returns

CURRENTLY: LSP MODEL

The foundation we've built in 7 years

● Underwriting & credit risk expertise

Scorecards tested on ₹18,000 Cr disbursals in last 3 years, the hardest problem in Indian consumer lending: Solved

● Collections tested through a stress cycle

FY25 stress → recovery → 6 consecutive quarters of improving vintage. We've seen the worst and rebuilt!

● Lender relationships in place

Existing bank and NBFC partners transition seamlessly from FLDG to Co-lending model

NBFC: WHAT IT UNLOCKS

We want to do Lending in the most regulated model

01 Broader co-lending universe

Regulated NBFC counterparty - broader bank universe can deploy larger capital with fewer constraints than FLDG model

02 Product velocity

As an LSP, product design is limited to what lenders approve
As an NBFC, we design the product on our timeline

03 Better NIM on own-book

LSP shares margin after bearing the credit intelligence cost. Own-book lending on proven vintages retains the full NIM

04 Merchant loans – new frontier

India has 60M+ merchants, avg ₹90K ticket, untouched by banks. Our offline merchant network generates the transaction data to underwrite them

● 2–3 months

LSP business moves to wholly owned subsidiary

● 3–6 months

Setup of NBFC as a separate wholly owned subsidiary

● 6–9 months

Launch NBFC Operations under Co-lending model

Governance Delivers: 3 New Licenses Secured in Last 12 Months

✦ NEW LICENSES - LAST 12 MONTHS

Licenses Approved	Regulator	Business	Date
● NBFC Application	RBI	Lending	27-Apr-26
● Stock Broking	SEBI	Wealth	01-Jul-25

CRO APPOINTED

Anis Pathan | Chief Risk Officer | Joined March 2026
FRM · CISA · SCR · MBA (NMIMS) · BE

- Former CRO at NSDL Payments Bank, CRO at Chaitanya Microfinance and Head - ERM at Oman Arab Bank

GOVERNANCE LEADER IN PLACE

Saurabh Taneja | Head, Governance | Joined August 2023
BALLB (Symbiosis Law School)

- Handling legal, secretarial, and regulatory compliance; 18+ years in legal and corporate governance at MakeMyTrip, Headout Inc, Ansal API, and Star TV

Strong regulatory compliance drives business expansion - New Licenses, New Revenue Streams
We ensure the right foundation is in place for consistent, long term business compounding

What's Already Working

WORKFORCE PRODUCTIVITY

AI is compounding output across functions

80%+ code AI-generated	20% faster time-to-hire	100% recon automated
----------------------------------	-----------------------------------	--------------------------------

▶ AI-based interviews and anomaly detection in FY27 pipeline

COLLECTIONS

KwikCollect is driving early recovery

55% early collections via AI	1 Unified platform: Voice + WhatsApp + SMS + Email	1 Mn+ conversations trained
----------------------------------------	-----------------------------------------------------------------	---------------------------------------

▶ 100% of early-stage collections fully AI-driven in FY 27 roadmap

CUSTOMER SUPPORT

AI First chat support is live

86% Self served by AI	+25% CSAT improvement	2 languages supported
---------------------------------	---------------------------------	---------------------------------

▶ AI-first call support + 20 languages planned for FY27

Where we are Going...

01

Own the Full Lending Lifecycle

Drive sales by enhancing productivity on funnel drops

02

Personalisation at Scale

More revenue per user, Cross-sell more to retain more

03

AI-First Customer Support

Turn support from a cost into a retention engine

04

Acquire Better, Spend Less

AI identifies cohorts to target. AI drives spend allocation

05

Competitive Advantage for Fraud

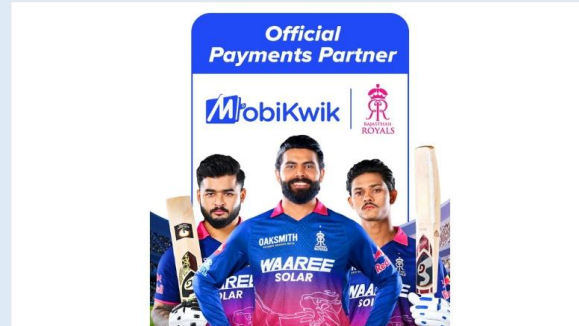

AI Agents to detect fraudulent behavior in real-time

National Brand Campaign with celebrity- Jaideep Ahlawat

- Rolled out a **national multi-media** campaign for Pocket UPI featuring Jaideep Ahlawat to drive mass awareness & adoption
- Positioned Pocket UPI as a **smarter, safer way to pay via UPI** with enhanced control, security and convenience

RR partnership: IPL 2026 Mass Pan-India engagement

- **First-ever partnership with Rajasthan Royals** Cricket Team for Mobikwik, to scale key categories including **UPI, Loans & bill payments**
- **Strategic focus on digitally native, younger audiences** aligned with Mobikwik's core UPI & financial services user base

Brand & Consumer Visibility Outlook (FY27–FY28)

Brand as a Force Multiplier for Business:

- **Continue strategic investments in Brand equity & consumer visibility** to build a resilient, trusted consumer franchise supporting long-term growth across **Payments, Credit & financial services**
- **Scale high-visibility partnerships, marquee cultural integrations and digital-first consumer engagement platforms** to drive relevance with India's next generation of digital-native users
- **Institutionalize AI-led marketing capabilities, precision targeting & automated content ecosystems** to improve operating leverage while enhancing acquisition quality and consumer lifetime value

Payments Business

2nd Fastest Growing UPI TPAP App in India ⁽¹⁾

Our UPI transactions grew faster than the Overall Industry (MobiKwik 170% YoY vs Industry 26%)

2.7X UPI Transactions YoY
77.65 Mn → 209.27 Mn

2.0X UPI GMV YoY
120 Bn → 244 Bn

Anchored on:
Platform Shifts, Differentiated Bets & Compliance Discipline

TARGETING 4X TRANSACTION GROWTH OVER NEXT 2 YEARS

Customer Initiated UPI Transactions (Mn)

KEY GROWTH LEVERS

Platform Infrastructure: New Bank PSP Go-Live

A step-change boost in UPI throughput and reliability
Foundational shift for unit economics at scale

Multi-Acquirer Routing: Transaction Experience

Smart multi-acquirer routing live
Improved transaction success rates, reduced user-facing failures

Funnel Fundamentals: UPI Account Setup & Conversion Performance

UPI funnel improvements across UX and core infrastructure to unlock high conversions

Industry-Best UPI Security: Customer Safety First

Industry-leading security controls on every UPI transaction, safeguarding customers and reinforcing trust on every payment

Compliance & Reliability as Product Moat

Compliance and uptime engineered into the core of the platform, giving banks, merchants and partners the confidence to scale with us

1) Based on NPCI data for top 20 TPAPs as per transaction count for Q4FY'26 Vs Q4FY'25

PPI on UPI Turns Wallet into a Daily Use Payment Product

Financial Services

Portfolio matures with tilt towards repeat and super prime cohorts

Super Prime

Key Asks –
Investment, lifestyle

- High Income and net worth
- Excellent credit history
- Monthly income >3lakh
- Loan amount >5 lakh
- High limit credit card usage

Prime

Key Asks –
Investment, lifestyle

- Moderate income: 1-3 lakh pm
- Good credit history
- Loan amount 1 to 5 lakh
- Active credit card usage

Near Prime

Key Asks –
Working capital, living expenses

- Younger demographic
- Lower income: up to 1 lakh pm
- Moderate credit history
- Loan amount up to 1 lakh
- Low credit card penetration

Portfolio share and business channel

Prime segment is catered by both distribution and FLDG offering

Key Metrics, YoY

- Super Prime mix improved from less than 10% to **32%**
- Credit Risk performance improved by **35%**
- Repeat loans went up from 20% to **63.5%**
- FS margins improved from 0.35% to **5.39%**

Key Focus Areas

- Distribution partnerships → premium customer acquisition
- FLDG policy refinement for risk control
- Improved risk-based pricing for product market fit
- Repeat business growth through personalized offers
- Collections infrastructure investment

Borrower Base: Young, Salaried & Credit-Ready

As a % of Digital Credit GMV

Age Group

Monthly Income Group

Geography

Occupation Type

Cohort (Bureau Score)

Customer Usage

- **Quality cohort, not mass market:** 95% borrowers under 40, 100% bureau score at 700+ - disciplined underwriting, low-risk book
- **Stickiness proven:** 63% repeat users - strong LTV expansion signal

- The company has consciously shifted focus from higher disbursals to improving margins by targeting high-profit generating customer cohorts
- ZIP EMI Up 59% YoY with 75% Disbursals in FLDG and 25% in Distribution model (we share risk with lender partners, and manage origination, servicing & collections)
- Expanding FLDG personal loan offering across newer product categories in FY27

Risk improvement is structural - driven by investment in underwriting, data, and collections infrastructure

Structural improvement
Every new cohort starts lower and brings in lower risk- structural, not cyclical improvement

Precision Credit Guardrails
Proprietary ML-driven scoring that consistently keeps portfolio delinquency under control

Superior Recovery Engine
AI-integrated collections stack that prioritizes early-stage intervention while reducing costs

Financial Services: Delivered 19X YoY Gross Profit

Revenue from Financial Services (INR Mn) & Gross Margin (%) ⁽¹⁾

Highest Quarterly Gross Margin- up to 59% in Q4 FY26

- Revenue growth Improved margins supported by 37% YoY and 18% QoQ growth in Revenue
- Lending Related Expenses down 41% YoY on back of improving credit quality
- Gross Profits up by 21% QoQ and 1,775% YoY

Unit Economics of Financial Services ⁽¹⁾

Particulars	Q4FY25	Q1FY26	Q2FY26	Q3FY26	Q4FY26
Revenue from Financial Services ⁽¹⁾	8.25 %	8.41 %	7.59 %	7.24 %	9.21 %
Lending Related Expense ⁽¹⁾	(7.90) %	(7.30) %	(4.42) %	(3.11) %	(3.82) %
Net Financial Services Margin ⁽¹⁾	0.35 %	1.12 %	3.17 %	4.14 %	5.39 %

Credit Quality improvements flowing through to margins

- Gross take rates reached a high of 9.21% in Q4 vs 7.24% in Q3 FY26
- Lending Related Expense decreased from 7.90% to 3.82% YoY, depicting improvement in credit quality
- Net Take rate increased as deferred revenue flowed in, maturing portfolio saw lesser losses than FLDG guarantees

Navigating through regulatory transition towards sustainable profitability

- RBI restrictions on BNPL and 5% FLDG cap created structural headwinds, front-loading expenses while back-ending revenues (Q3 FY25-Q1 FY26) -Normalization achieved in Q2 FY26

¹⁾ GMV for Financial Services is ZIP EMI GMV

Payments GMV Crossed INR 1.8 Tn+ : 4.8X Growth in 2 Years

Payments GMV (INR Bn)

Growth driven by 4.6x YoY surge in UPI transactions

- FY26 Payments GMV at ₹1,821 Bn - 57% YoY growth, 4.8x scale-up over FY24's ₹382 Bn in just two years.

Revenue from Payments (INR Mn) & Gross Margin (%)

Payments Revenue at ₹8,573 Mn - 2.7x in 2 Years

- Gross Margin expanding 1,410 bps to 33.4%.
- Gross Profit up 95% YoY to ₹2,867 Mn - outpacing revenue growth on structural cost discipline.
- Direct Costs down despite 4.8x GMV scale-up - proof of organic, subsidy-free engagement.

ZIP EMI GMV (Distribution) (Mn)

- Strong Recovery in H2 FY26 with GMV at ₹17,378 Mn v/s ₹15,002 Mn in H1 FY26
- FY26 GMV grew 31% YoY to ₹32,380 Mn - 100% ZIP EMI, full transition
- Volume moderation deliberate - quality rebuild over scale chase.

Revenue from Financial Services (Mn) and Gross Margin (%)

- Strong recovery in H2 FY26, despite a slow start in H1
 - H2 FY26 Revenue at ₹1,423 Mn v/s ₹1,196 Mn in H1 FY26
 - H2 FY26 Gross Profits at ₹824 Mn v/s ₹333 Mn in H1 FY26
- Lending Expense down 32% YoY to ₹1,462 Mn -vintage gains flowing to P&L.

Core Business Delivering Strong Net Margins for 3 years

Unit Economics of Payments Business (as a % of Payments GMV)

Particulars (in bps)	FY 24	FY 25	FY 26
Payments Revenue	83	66	47
Payments Gateway Costs	(53)	(48)	(29)
User Incentive costs	(14)	(5)	(2)
Net Payments Margin	16	13	16

Net Payments Margin recovered to 16 bps, despite take rates almost halving from 83 to 47 bps.

- Gateway Costs down 24 bps (53 → 29) - absorbing the entire revenue take-rate compression
- FY26 unit economics structurally above the guided 12–15 bps band - UPI transition fully digested

Unit Economics of Financial Services (as a % of Digital Credit GMV)

Particulars	FY 24	FY 25	FY 26
Revenue from Financial Services	6.14%	7.52%	8.09%
Lending Related Expenses	(3.33%)	(4.01%)	(4.51%)
Net Financial Services Margin	2.80%	3.51%	3.57%

- Take rate up to 8.09% -pricing power restored alongside credit quality
- Shift in product mix has led to increase in lending related expenses, which has seen significant improvement in H2 of FY26
- Net FS Margin at 3.57% - within the 3–4% guided band, up by 77 bps over two years, and expected to improve further once NBFC operations commence.

FY26: The Inflection Year - EBITDA Near Breakeven, PAT Loss Halved

Total Revenue (Mn) & CM (%)

EBITDA & PAT (INR Mn)

H2 FY26 Turned Profitable which absorbed the H1 drag

- Payments now 74% of mix (vs 36% in FY24), reflecting strategic pivot to high-quality recurring revenue.
- Contribution Margin expanded to 37.9% - highest in three years, up 758 bps YoY

- H2FY26 : ₹324 Mn EBITDA, ₹84 Mn PAT
- EBITDA Loss Down 93% YoY, - ₹794→₹52 Mn EBITDA,
- PAT Loss Down 49%, ₹1,215→₹621 Mn PAT; decisive full-year compression.

Focus on Cost Discipline – Expenses kept in check despite explosive GMV growth

Total Direct Expense

Fixed Cost

Finance and Depreciation Cost (Mn)

- Direct Expense down 14% YoY to ₹7,168 Mn -first absolute decline despite GMV scaling 4.8x over two years.
- Lending Expense compression is the swing factor - vintage cohort delivering credit cost savings.

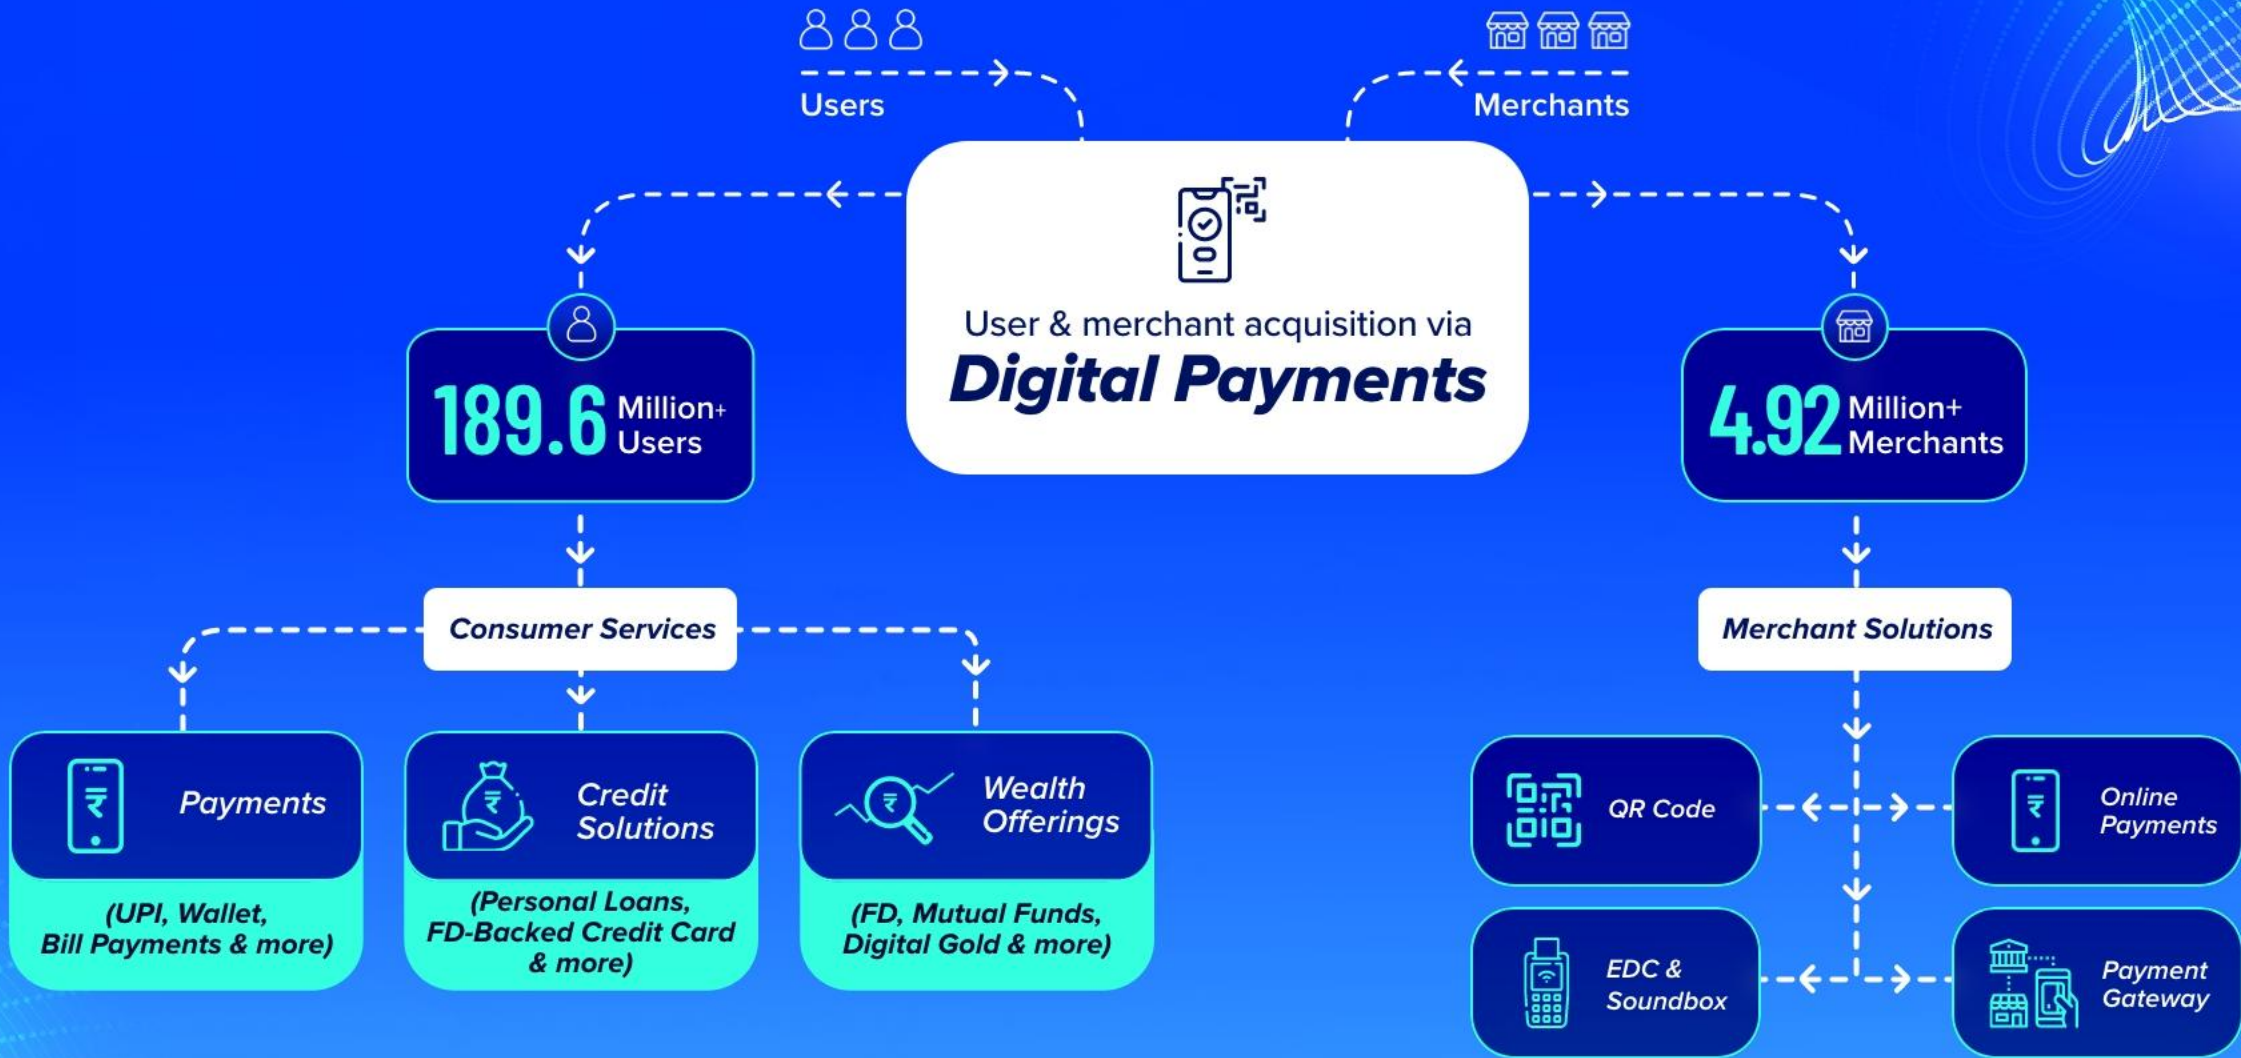

- Fixed Cost held flat YoY at ₹4,426 Mn - operating leverage now visible as GMV shows explosive growth with stable cost base
- Flat fixed costs in FY26 fund the next growth chapter , the marginal increase being attributed to new business.

- Total non-operating costs at ₹411 Mn in FY26 - up just 2.5% YoY despite balance sheet scaling.
- Depreciation up 7% reflecting tech and infra investment; finance cost flat

Corporate Overview

Our Business Model

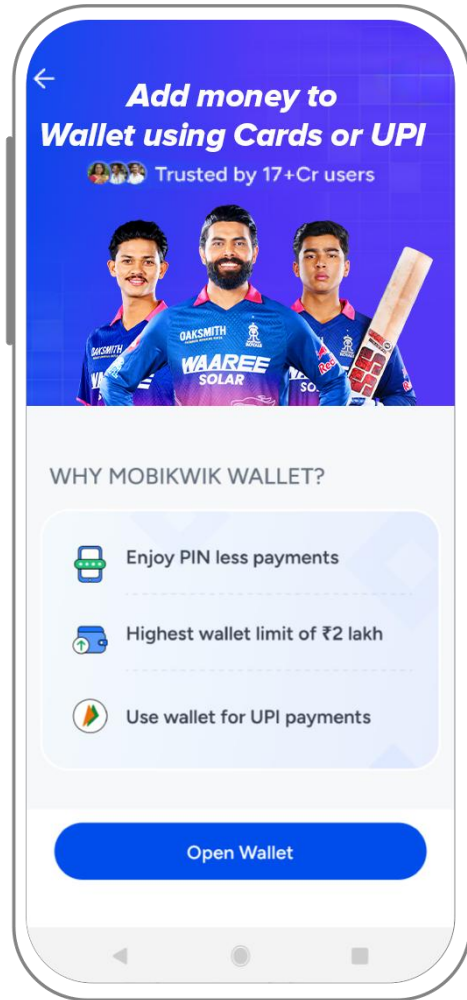

Payments: 2-Sided Payments Business: Consumers \Leftrightarrow Merchants

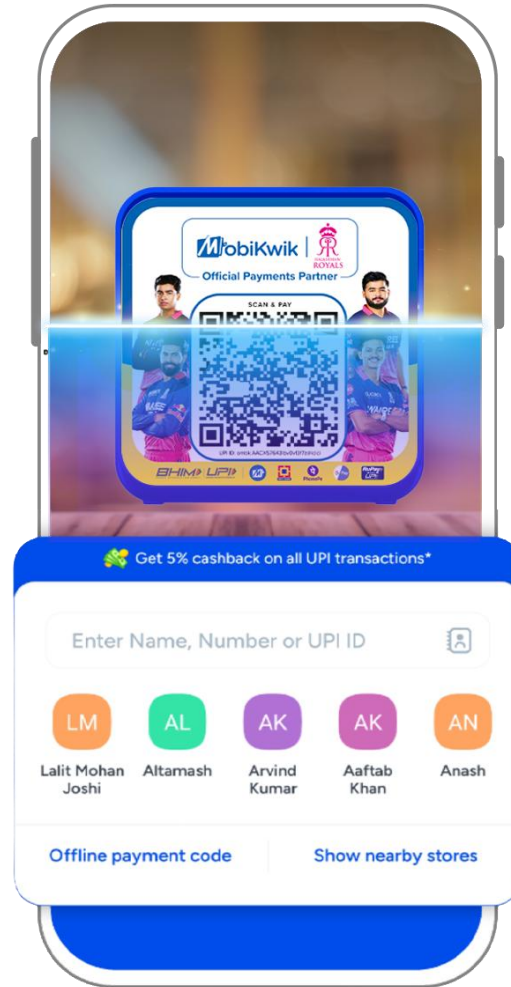

Consumer payments solutions for everyday expenses and bill payments

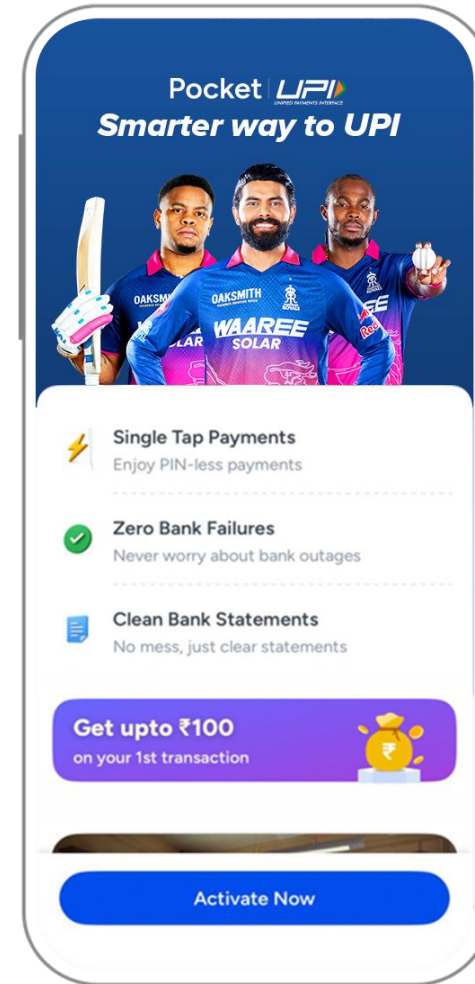

Wallet

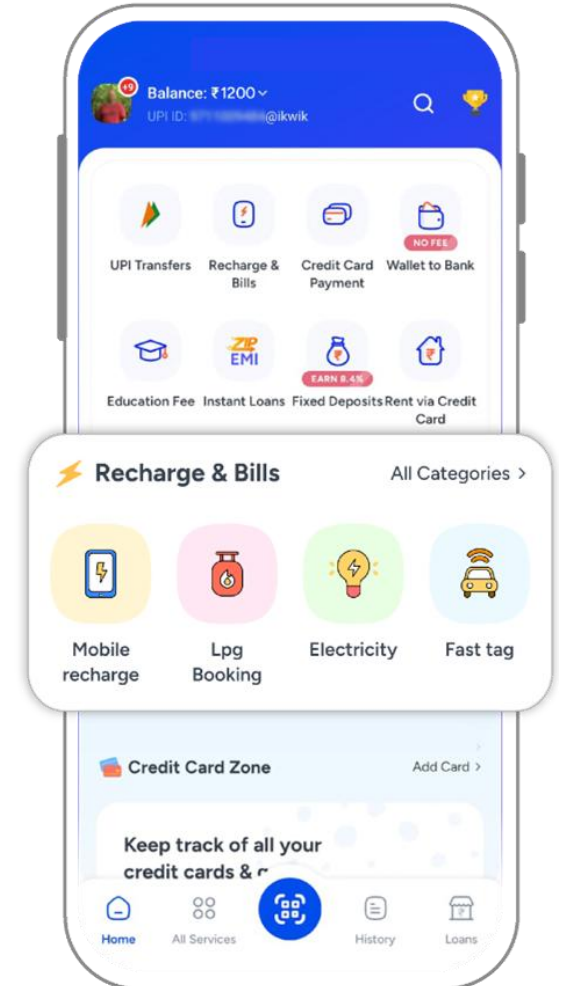

UPI

Pocket UPI

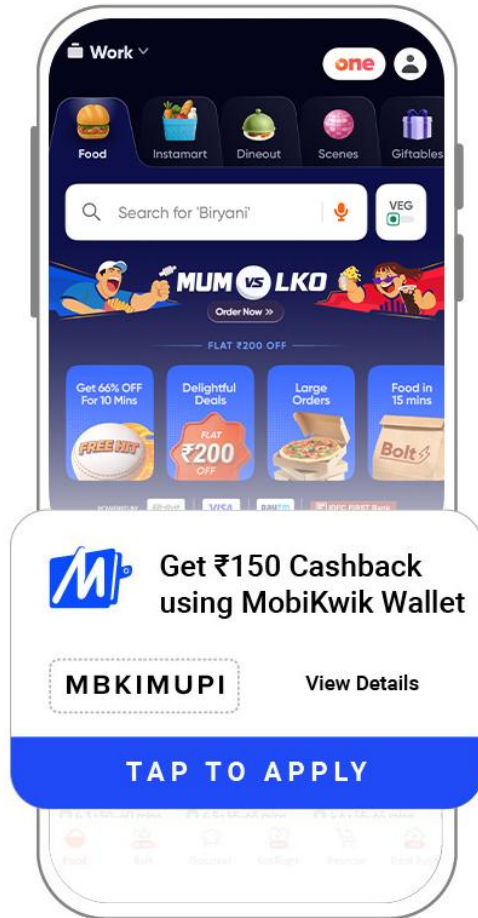

Bill Payments

Merchants accept payments via our Checkout, QR, Soundbox and EDC products

E-commerce

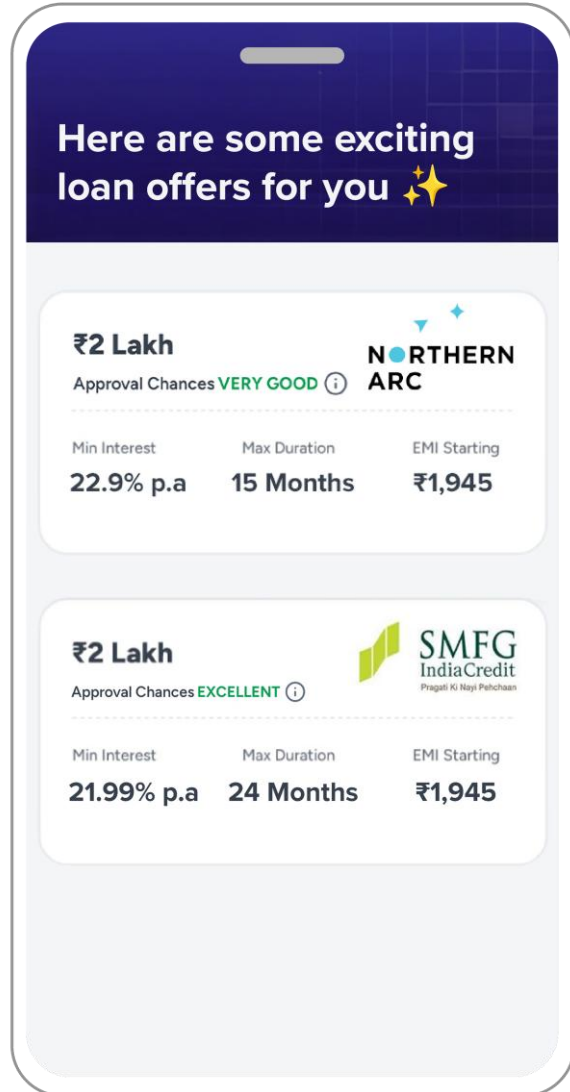

Modern Trade

Mom & Pop Stores

A diversified, risk-aligned credit platform serving users across the credit spectrum.

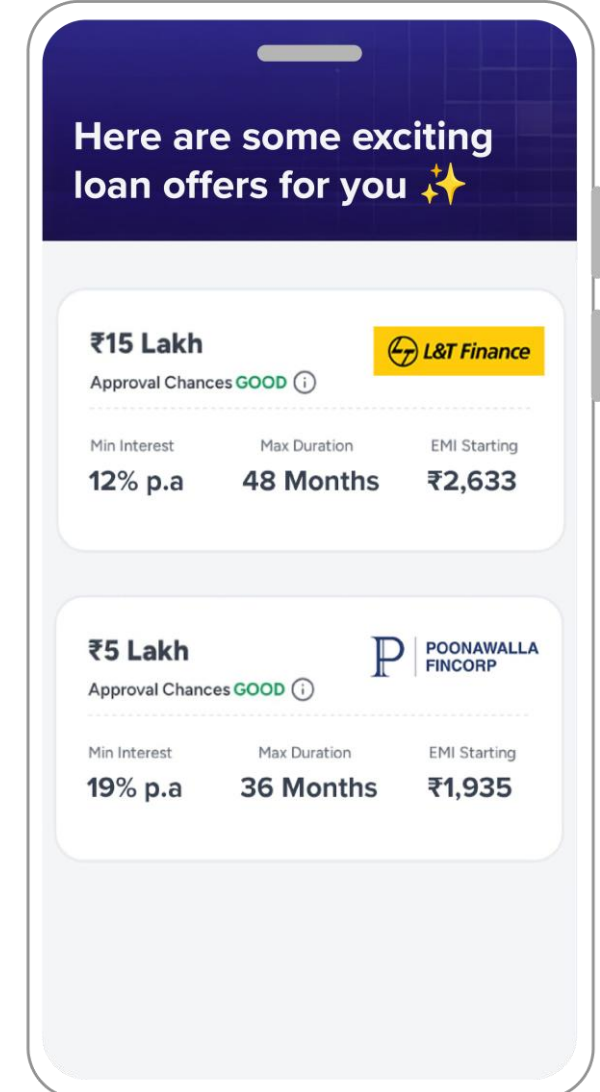

A. FLDG Model - High Control, Higher Yield

- Operates in **Moderate-ROI segments (22–36%)** with short-tenure, small-ticket loans
- **Co-created filtration parameters with underwriting done by lending partners** via in-house scorecards for eligibility and loan sizing
- **Moderate risk filtration** results in higher lender conversion but controlled overall approval (~3.5-4%).
- Opportunity to upsell and cross sell

B. Distribution/Marketplace Model - Scale-led, Partner-driven

- Focuses on **larger-ticket, longer-tenure loans** with moderate ROI (12–24%)
- **Credit decisions driven by lender policies**, limiting underwriting flexibility
- **Lower approval rates and tighter filtration (~1-1.5%)** due to higher lender-side drop-offs
