Dear Sirs,

Sub.: Investors Presentation for Audited Financial Results – Q4 & FY2025
Ref.: Regulation 30 of the SEBI (Listing Obligations & Disclosure Requirements) Regulations, 2015

Pursuant to Regulation 30 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, we are enclosing herewith Investors Presentation of Audited Financial Results – Q4 & FY2025.

The said Earnings Presentation is also available at www.epigral.com in the Investor Relations section.

This is for information and records.

Thanking you,

Yours faithfully,

For Epigral Limited
(formerly known as 'Meghmani Finechem Limited')

Gaurang Trivedi
Company Secretary & Compliance Officer

Investor Presentation – Q4 and FY2025

Disclaimer

This presentation and the accompanying slides (the “Presentation”), which have been prepared by Epigral Limited (the “Company”) solely for the information purposes and do not constitute any offer, recommendation or invitation to purchase or subscribe for any securities and shall not form the basis or be relied on in connection with any contract or binding commitment whatsoever. No offering of securities of the Company will be made except by means of a statutory offering document containing detailed information about the Company

Certain statements in this presentation concerning our future growth prospects are forward looking statements which involve a number of risks and uncertainties that could cause actual results to differ materially from those in such forward-looking statements. The Risk and uncertainties relating to the statements include, but are not limited to, risks and uncertainties regarding fiscal policy, competition, inflationary pressures and general economic conditions affecting demand / supply and price conditions in domestic and international markets. The company does not undertake to update any forward -looking statement that may be made from time to time by or on behalf of the company.

This Presentation has been prepared by the Company based on information and data which the Company considers reliable. This Presentation may not be all inclusive and may not contain all of the information that you may consider material. Any liability in respect of the contents of, or any omission from, this Presentation is expressly excluded. The Company does not make any promise to update/provide such presentation along with results to be declared in the coming years.

A vertical bar on the left side of the slide, transitioning from orange at the top to red in the middle, and then to purple at the bottom.

Q4 and FY2025 Result update

Q4FY25 - Key Highlights

Q4FY25 Operational Highlights:

- YoY sales volume remained constant, but sales volume of Derivatives & Specialty business grew
- In Q4FY24, realization for Caustic Soda and Epichlorohydrin improved. For other products realizations remained flat, however realization of Hydrogen Peroxide dropped
- Captive consumption of Chlorine increased to 76%

Q4FY25 Financial Highlights:

- YoY Revenue grew by 20% to ₹ 631 Crore, on account volume growth from Derivative products
- Revenue contribution from Derivatives & Specialty business increased to 52% in Q4FY25 vs 48% in Q4FY24
- EBITDA grew by 12% to ₹ 173 Crore vs ₹ 155 Crore in Q4FY24 and EBITDA margin stood at 28%
- PAT rose by 13% to ₹ 87 Crore. PAT margin stood at 14%
- ROCE grew to 25% as on 31st March 2025 vs 18% as on 31st March 2024 due to improvement in earnings
- Net Debt/EBITDA significantly reduced to 0.7x as on 31st March 2025 vs 2.0x as on 31st March 2024 on account of improvement in EBITDA and reduction in Net Debt

FY2025 - Key Highlights

FY2025 Operational Highlights:

- Sales volume grew 11% and highest ever volume, growth majorly comes from Derivatives & Specialty business
- Capacity utilization stood at 81% in FY2025 vs 78% in FY2024
- Realizations dropped for all the products in FY2025 vs FY2024, except for Caustic Soda and Epichlorohydrin
- Captive Chlorine consumption stood at 72%

FY2025 Financial Highlights:

- Highest ever revenue of ₹ 2,565 Crore, growth of 33% on account of volume growth from Derivative products
- Revenue contribution from Derivatives & Specialty business increased to 54% in FY2025 vs 45% in FY2024
- EBITDA grew by 48% to ₹ 711 Crore vs ₹ 481 Crore in FY2024
- EBITDA margin stood at 28% in FY2025 vs 25% in FY2024 on account of better product mix let by contribution from new projects
- PAT jumped by 82% to ₹ 357 Crore. PAT margin grew to 14% vs 10% in FY2024

FY2025 - Key Highlights

FY2025 Strategic Highlights:

- Epigral board proposed final dividend of ₹ 3.5 per share, 35% on face value of ₹ 10. Total dividend for FY2025 aggregates to ₹ 6.0 per share, 60% on face value of ₹ 10.
- Epigral credit rating upgraded to Crisil AA from Crisil AA-
- Epigral spent ₹ 195 Crore on capex in FY2025
- Epigral's board has approved doubling its CPVC Resin and Epichlorohydrin (ECH) Capacity
 - CPVC Resin capacity will reach to 1,50,000 TPA, by adding additional 75,000 TPA
 - Epichlorohydrin capacity will reach to 1,00,000 TPA, by adding additional 50,000 TPA
- Epigral successfully raised ₹ 333 Crore through QIP. The funds has been utilized to support the growth plans of the company
- Epigral commissioned following capacities in FY2025
 - CPVC Resin capacity of 45,000 TPA. Total capacity stood at 75,000 TPA
 - CPVC Compound facility
 - Chlorotoluenes Value Chain facility

CMD Message

“We ended FY2025 with the highest ever revenue of Rs. 2,565 Cr a growth of 33% compared to previous year. This growth is on account of volume growth of 11%, majorly from high value products. Derivatives & Specialty business volume grew by around 24% in FY2025 and its contribution to revenue touched to 54% compared to 45% in FY24.

Considering the growth opportunity, we further announced expanding our CPVC and Epichlorohydrin capacity which are expected to commission in 1st half of FY2027 and will contribute FY2027 onwards. Our integrated complex will further strengthen, once these projects reach optimum utilization.

On account of robust performance, the company’s balance sheet got further strengthened in FY25. The ROCE for FY2025 was at 25% as against 18% in FY2024. Net Debt/EBITDA was at 0.7x (2.0x in FY2024) as on 31st March 2025. The credit rating was upgraded to Crisil AA from Crisil AA-.

We are geared up and strengthened our position, to grow further, by focusing on import substitute products, further diversifying and increasing Derivatives & Specialty business and with prudence allocation of capital, rewarding our stakeholders.”

- Mr. Maulik Patel, Chairman and Managing Director

Capex Plan – Enhancing CPVC and Epichlorohydrin capacity

CPVC

Project Details

- Additional capacity – 75,000 TPA
- Total capacity after expansion – 1,50,000 TPA (World's largest plant by capacity)
- Expected commissioning – H1FY27

Rationale

- Demand in India is expected to grow at ~ 12% - 13% CAGR
- Increasing Chlorine consumption in house, further strengthening integrated complex
- For CPVC, Epigral has established itself, for setting up plant, operating plant efficiently and having good market presence

Epichlorohydrin (ECH)

Project Details

- Additional capacity – 50,000 TPA
- Total capacity after expansion – 1,00,000 TPA (India's largest plant by capacity)
- Expected commissioning – H1FY27

Rationale

- Demand in India is expected to grow at high double digit %
- Increasing captive consumption of Chlorine, Hydrogen and Caustic Soda, further strengthening integrated complex
- For ECH, Epigral has established itself, for setting up plant, operating plant efficiently and having good market presence both in India and globally

Capex Amount: ~ ₹ 780 Crore

Chlor-Alkali

Caustic Soda (NaOH)

❖ Expected demand CAGR: ~ 8%

Alumina

Textile

Chemicals

- We are 4th largest producer in India
- Caustic Soda is basic raw material and caters to many industries. Major industries are alumina, textile, chemical, etc.
- Domestic demand for Caustic Soda is expected to increase to 5.0 million ton by FY2027
- Co-products are key raw material for our value added downstream products (CMS, H₂O₂, ECH and CPVC)

Caustic Potash (KOH)

❖ Expected Demand CAGR: ~ 8%

Agrochemicals

API

- We are 3rd largest producer in India
- Caustic Potash is majorly consumed in soap & detergent, agrochemical and pharmaceutical industry
- The India's capacity stands at 83 KTPA
- Co-products are key raw material for our value added downstream products (CMS, H₂O₂, ECH and CPVC)

Derivative Products

Chloromethanes (CMS)

❖ Expected demand CAGR: ~ 12%

Solvent in Pharma

PTFE Pipes

Refrigerant Gas

- We are 5th largest producer in India
- CMS plant produces 3 products, MDC, Chloroform and CTC. It is majorly drive by MDC
- The India's capacity stands at 677 KPTA
- CMS is used majorly in pharmaceutical, refrigerant, Tetrafluoroethylene (TFE), etc.

Hydrogen Peroxide (H₂O₂)

❖ Expected demand CAGR: ~ 10%

Paper & pulp

Textile

Chemicals

- We are 3rd largest producer in India
- H₂O₂ demand will continue to grow driven by diverse industrial uses – paper & pulp, textiles, effluent treatment, chemicals, etc.
- The India's capacity stands at 429 KTPA

Derivatives & Specialty Chemicals

CPVC

❖ Expected demand CAGR: ~ 13%

Pipes and Fixtures

- Largest producer in India
- Key raw material for heat resistant pipes
- Growing demand of CPVC in India for Pipe and Fittings in residential and commercial properties
- Cater to both CPVC Resin and CPVC compound customer
- India is net importer of CPVC

Epichlorohydrin (ECH)

❖ Expected demand CAGR: ~ 15%

Wind mill

Automobile

Adhesives

- 1st company in India to produce sustainable bio based ECH
- Domestic alternative for 100% imported product
- Consuming Chlorine, Hydrogen and Caustic Soda – Strengthening integrated complex
- Catering to epoxy resin, pharmaceutical, water treatment chemicals and various other industries

Derivatives & Specialty Chemicals

Chlorotoluenes Value Chain

❖ Expected demand CAGR: Double digit %

Agrochemicals

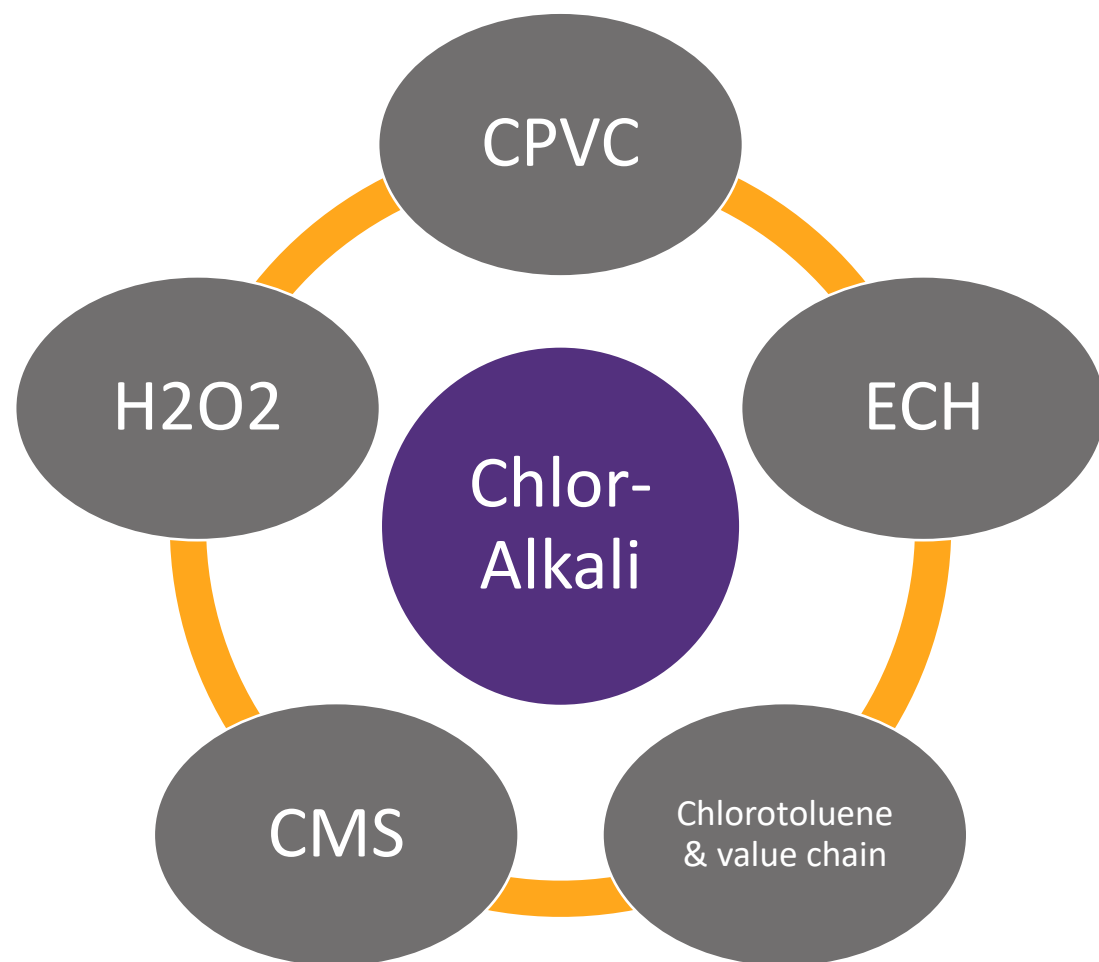

API

- 1st company in India to commission this value chain
- Will serve Intermediates for manufacturing pharmaceutical and agrochemical active ingredients
- In 1st phase, ~ 10 to 12 set of products will be manufactured through following reactions – Chlorination, Photo Chlorination, Hydrolysis and Cyanation
- Chlorine will be consumed as raw material – strengthening integrated complex

Diversified and integrated portfolio

Fully Integrated Product Portfolio

High Value Products

Import Substitution – Make in India

Diversified End User Industries

Sole Manufacturer of ECH in India

Diversifying Portfolio; De-Risking Business Model

Fully Integrated Complex

Competitive Strength

Well Invested Infrastructure

- State of the art manufacturing facility
- Strategic location with close connectivity to ports and raw material availability.
- Secured land for future growth of 5 to 7 years

Well established brand

- Epigral is a known brand in Indian chemical market
- Serving domestic customers for last 14 Yrs
- Pan India reach through a wide network of distributors

Focused on Efficiency

- Low cost operations as fully backward and forward integration
- Fully automated complex
- Continuous addition of value added products

Diversified Application Base

- Catering to more than 15 industries
- Revenue split is evened out among customer base
- End user market growing rapidly

Underpinned by a Technically Qualified Leadership Team

Catering to high growth industries

Increased market potential & higher growth exposure

The addressable market for Epigral is growing ~10-13% in the next 5 years

Key Customers

Capacities

Manufacturing Plant Capacity (KTPA)

*Expected Commissioning, * Commissioning date*

Transitioning towards Derivatives & Specialty Chemicals

■ Derivatives & Specialty ■ Chlor-Alkali

■ Derivatives & Specialty ■ Chlor-Alkali

Revenue from the derivatives and specialty segment to be ~ 70% by FY28E

Research & Development Centre

- A step towards **strengthening presence in Specialty chemicals**
- **Location Changodar, Ahmedabad**
- R&D center will be used for creating further molecules for Chlorotoluene and other new molecules, which will be intermediates for pharmaceutical and agrochemical active ingredients
- **Our reaction expertise**
 - Electrolysis
 - Hydrogenation
 - Ring Chlorination
 - Hydrolysis
 - Cyanation
 - Chlorination
 - Hydro Chlorination
 - Photo Chlorination
 - Diazotization
 - Oxidation

Focused on ESG

ENVIRONMENT

- Focused on using **best technology** to manage critical resources, to moderate the consumption of energy and natural resources and drive operations efficiently
- Focus is to manufacture more from less, basis for environment responsibility
- **Entered in JV to set up 18.34 MW Wind-Solar Hybrid Power Plant for internal consumption**
- Intend is to minimize effluents discharge while moderating water consumption
- **First company to produce sustainable bio-based Epichlorohydrin**
- **Safety protocols imbibing in the culture** of the company and timely management review safety systems with quantified leading and lagging indicators

SOCIAL RESPONSIBILITY

- **Employees** – Investment in culture of excellence, timely training, scope for growth, talent investment, extensive safety provisions and supporting financially and mentally in difficult times
- **Community** – Engaged community around manufacturing plant. Supporting them in difficult times. Deeply rooted CSR in the area of education, health & family welfare, sustainable livelihood, infrastructure and other social activities
- **Customers and vendors** – Strong and long relation with customers and vendors. Over a period built on ecosystem of vendors and primary customers

GOVERNANCE

- Qualified and experienced board driving strategic decisions, ethics and values
- Focus on managing the business in transparent manner with all stakeholders
- All the strategic decisions are taken considering interest of minority shareholders
- Reputed statutory auditor - SRBC & Co LLP
- Timely disclosure of material announcements

Experienced and qualified board

Mr. Maulik Patel

Chairman & Managing Director

He has 16 years of experience in the chemical industry. He has played a key role in growth of Epigral. He actively looks after operations, projects expansion, identifying new products, building a team, etc. He has done MSc in chemical engineering and MBA.

Mr. Kaushal Soparkar

Executive Director

He has 15 years of experience in the chemical industry. He actively looks after finance, IT and Human Resource. He has done MS in Engineering Management.

Mr. Ankit Patel

Non-Executive, Non-Independent Director

He has 14 years of experience in the chemical industry. He is Chairman & Managing Director at Meghmani Organics Limited. He has done MS in Engineering Management and MBA.

Mr. Karana Patel

Non-Executive, Non-Independent Director

He has 14 years of experience in the chemical industry. He is Executive Director at Meghmani Organics Limited and looks after the Agrochemicals division. He has done diploma and B.E. in chemicals.

Mr. Darshan Patel

Non-Executive, Non-Independent Director

He has 13 years of experience in the chemical industry. He is Executive Director at Meghmani Organics Ltd and looks after the pigment division. He has done MS in Engineering Management and MBA.

Mr. Manu Patel

Non-Executive, Independent Director

He is a Chartered Accountant. He was associated with Zydus Group for 35 years and was heading Finance & Taxation. He has expertise in the field of Forex, Treasury and Credit Management.

Mr. Sanjay Asher

Non-Executive, Independent Director

He is a senior partner with M/s Crawford Bayley & Co and practicing advocate since 1991. He specializes in the field of M&A, JVs, Private Equity and Capital Markets. He is a CA and LLB graduate.

Mr. Kanu Patel

Non-Executive, Independent Director

He is CMD at Voltamp Transformers Ltd and has been associated with the company for more than 41 years. He has expertise in finance, marketing, commercial matters and strategic planning. He is a member of ICAI and ICSI.

Mr. Raju Swamy

Non-Executive, Independent Director

He is into management consulting in family business for over 35 years. He has expertise in marketing, projects and HR. He has done MBA from IIM Calcutta,

Mrs. Priyanka Chopra

Non-Executive, Independent Director

She is CEO at IIMA Ventures. She has expertise in investing, advising and engaging with early stage companies. She holds MBA from The Wharton School and M.S. in Electrical Engineering from the Georgia Institute of Technology.

- **Board comprises of accomplished and knowledgeable directors, contributing diverse expertise and perspective to our collective decision making**
- **50% of the board comprises of Independent Directors**
- **Our 5 board committees are chaired by an Independent Director**

Growth Strategy

Forward & Backward Integration:

- Scale up capacities in existing products
- New value added products in existing value chains
- Improved market position

Opportunities in high growth sectors:

- Explore opportunities in various sectors
- Increase presence & improve market share
- Entering into products which are fully imported

New Value Chains:

- Expand chemistry expertise to enter new value chains (specialty chemicals)
- Addition of new reaction capabilities

Achieving economies of scale:

- Optimising existing complex
- Achieving efficiency operations to become a low cost producer

EPIGRAL

Enhance to Exceed

Epigral Limited (Epigral), formerly known as Meghmani Finechem Ltd, incorporated in 2007, is a leading integrated manufacturer of chemicals in India. Epigral's Dahej facility is a backward and forward integrated and automated complex with a well-planned infrastructure. In India, Epigral is the first to set up an Epichlorohydrin plant and largest capacity plant of CPVC. Epigral is also a leading manufacturer of Caustic Soda, Caustic Potash, Chloromethanes, Hydrogen Peroxide, Chlorine and Hydrogen.

Epigral is strengthening its position in the specialty chemical segment by enhancing its capacity in CPVC and ECH, venturing into the Chlorotoluenes value chain and dedicated R&D centre. The company is focused on sustainable value creation for all its stakeholders and has been awarded with the Responsible Care certificate.

Through integral collaborations and exceptional solutions, Epigral strives to enhance value and exceed expectations, leaving an indelible mark on stakeholders and the industry.
