Dear Sir/Madam,

Sub: Intimation of Investor Presentation for Analysts/Institutional Investor Meeting to be held on February 18, 2026

This is in continuation to our letter dated February 12, 2026 wherein we had informed regarding meeting scheduled with Analysts/Institutional Investors, which is being organized by Dolat Capital, on Wednesday, February 18, 2026.

Pursuant to Regulation 30 read with Schedule III of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended, please find enclosed herewith the Investor Presentation which will be used for the said meeting.

This is for your information and records.

Thanking you.

Yours faithfully,
For Tracxn Technologies Limited

Megha Tibrewal
Company Secretary and Compliance Officer

Private Market Intelligence Platform

**Corporate Presentation
Feb 2026**

Tracxn Overview

Tracxn is a Data & Software platform for the Private Markets globally

We work with Venture Capital Firms, Private Equity Firms, Investment Banks - as well as M&A & Innovation teams of large Corporates

Global Platform, customers span 50+ countries

Disclaimer

By attending this presentation including the commentary by the Company management and the transcript of the same, together (“Presentation”) and/or accepting a copy of it, you agree to be bound by the foregoing limitations and conditions:

This Presentation is prepared by Tracxn Technologies Limited (“Company”) solely for information purposes and does not constitute an offer, solicitation, recommendation, or invitation to purchase or subscribe for any securities and shall not form the basis of or be relied on in connection with any contract or binding commitment whatsoever. This Presentation does not consider, nor does it provide any tax, legal, or investment advice or opinion regarding the specific investment objectives or financial situation of any person. This Presentation may not be copied, reproduced, summarised, disseminated, or redistributed to any other person in any manner whatsoever without the Company’s prior consent in each instance. This Presentation has not been and will not be reviewed or approved by any regulatory authority or by any stock exchange in India. No rights or obligations of whatsoever nature are created or shall be deemed to be created by the contents of this Presentation.

The Company, its affiliates, shareholders, directors, employees, or advisors do not make any representation or warranty, expressed or implied, and no undue reliance should be placed on the accuracy, fairness, or completeness of the information contained in this Presentation. The Company, nor any of its advisers or representatives accepts any liability whatsoever for any actual or consequential loss or damages howsoever arising from the provision or use of any information contained in this Presentation. The information contained in this Presentation should be considered in the context of the situations prevailing at the time when the Presentation was made and are to be read in conjunction with the company’s financial results, uploaded on the Stock Exchanges where the Company is listed. The Company expressly disclaims any obligation or undertaking to supplement, publicly amend or disseminate any updates or revisions to any information/statement contained in the Presentation to reflect any change in events, conditions, or circumstances including economic, regulatory, market, and other developments on which any such information is based.

This Presentation may contain, words or phrases that are forward-looking statements that involve risks and uncertainties and are based on certain beliefs, plans, and expectations of the Company. Although the Company believes that such forward-looking statements are based on reasonable assumptions, it can give no assurance that such expectations will be met. Actual future performance, outcomes, and results may differ materially from those expressed in forward-looking statements because of several risks, uncertainties including but not limited to our ability to implement our strategy successfully, the market acceptance of and demand for our offering, technological changes, volatility in global capital markets, pandemic and international and domestic events having a bearing on the Company’s business. You must not place undue reliance on these forward-looking statements, which are based on the current views of the Company’s management.

The operating metrics reported in this Presentation are calculated using internal Company data based on the operational activities. While these numbers are based on what the Company believes to be reasonable estimates for the applicable period of measurement, there are inherent challenges in measuring across some operational metrics. The methodologies used to measure these metrics require considerable judgment and are also susceptible to an algorithm or other technical errors. The Company systematically reviews its processes for calculating these metrics from time to time and may discover inaccuracies in the metrics or may make adjustments to improve their accuracy, which can result in adjustments to previously disclosed metrics. In addition, the Company metrics may differ from estimates published by third parties due to differences in methodology.

To facilitate understanding, some non-GAAP metrics are used and financial amounts are converted from ₹ Lakhs into ₹ Crores for this Presentation hence, there could be some totalling anomalies in the numbers.

Our speakers today

Neha Singh

Chairperson and Managing Director

- **IIT Bombay** (received Silver Medal from President of India Mrs. Pratibha Patil)
- MBA from **Stanford GSB**
- Consultant at **BCG**
- Investor at **Sequoia Capital** (investing in private markets)
- Awarded **Fortune 40under40**, Outstanding Women by Outlook Business

Abhishek Goyal

Executive Director

- **IIT Kanpur** (top 100 rankers in IIT JEE)
- Started career at tech firms **Yahoo** (part of AI team) and **Amazon**
- Investor at **Accel Partners**, part of the deal team which wrote the first cheque in Flipkart
- Awarded **Fortune 40under40**, Livemint's - 40 who matter in Indian Startup Ecosystem

Prashant Chandra

Chief Financial Officer

- BTech from **IIT Kanpur**
- MBA from **IIM Lucknow**
- Prior to joining Tracxn, Prashant was the CFO of a startup which was backed by **Accel Partners** and **Tiger Global**
- Has been with Tracxn since the beginning, for the last 10 years

Diverse Customer Base

Customer segments & departments that we work with

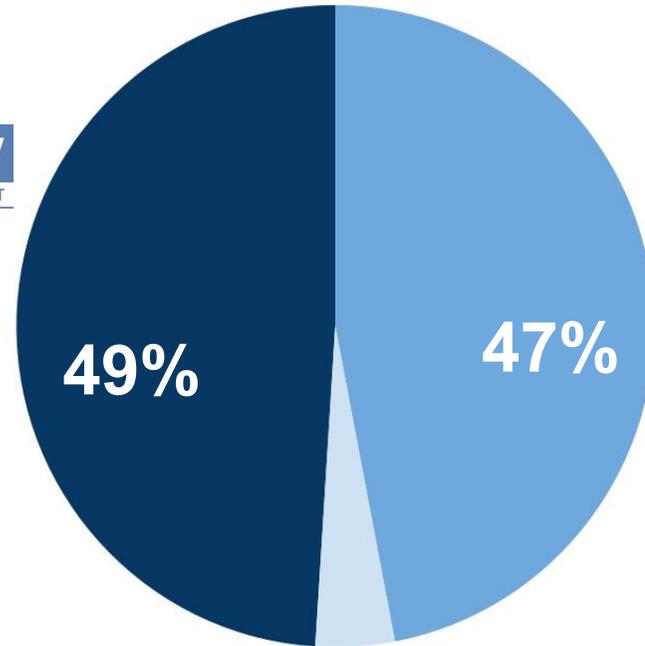

9M FY26: Split by Customer Type

Investment Industry

(includes VC funds, PE funds, Investment Banks, CVCs, Accelerators & Incubators, Family Offices, etc)

Corporates

(includes Corporate Innovation teams, Corporate Development / M&A teams, Strategy and Sales teams, Consulting firms, Startups, etc.)

Others

(includes Educational Institutes, Government Agencies, Industry Bodies)

Healthy spread across Investment Industry and Corporates

FY25: Revenue Growth

Continued growth in large accounts*

Revenue	FY 21	FY 22	FY 23	FY 24	FY 25
INR 20L+ accounts	13	26	33	40	46
INR 30L+ accounts	5	11	22	23	22
INR 40L+ accounts	3	6	12	16	19

Indicates continued headroom
for growth in ASP

Robust Technology Platform

Wide range of business and workflow tools –

Inbuilt CRM tool, custom dashboard builder, tools for sourcing, tracking companies, portfolio tracking, API support, browser extensions, ability to save searches and provide alerts and export tools

Enterprise grade support – for customer queries with personalized support over chat, email and instant messaging applications

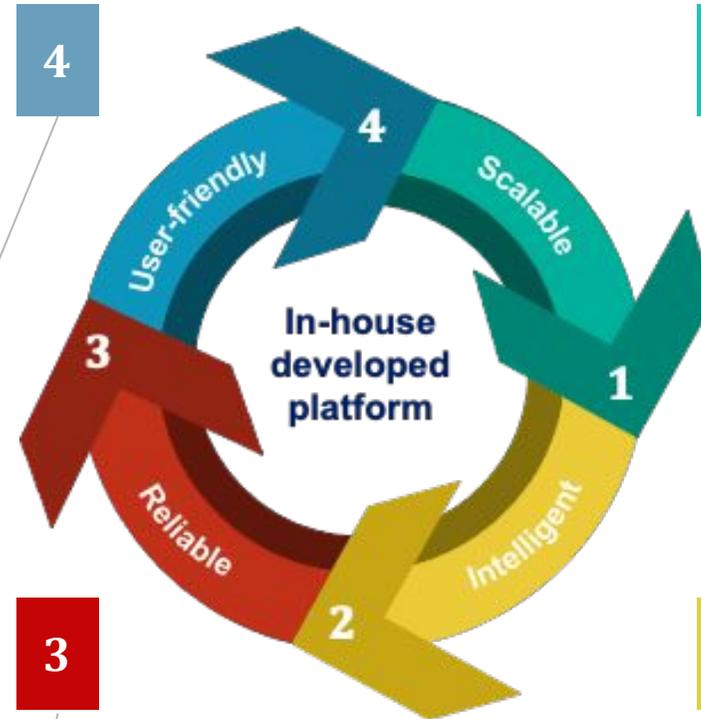

Hosted on cloud servers – ensures minimum downtime

Advanced security – in-built security features provided by the cloud infrastructure provider

Virtual private cloud – allows to establish a secure internal network & a safe gateway to enable communication of internal resources

Industry grade HTTPS – for encrypted communication over the internet

Periodic checks – tools to periodically check on potential security threats

Scalable backend framework – based on open source technologies

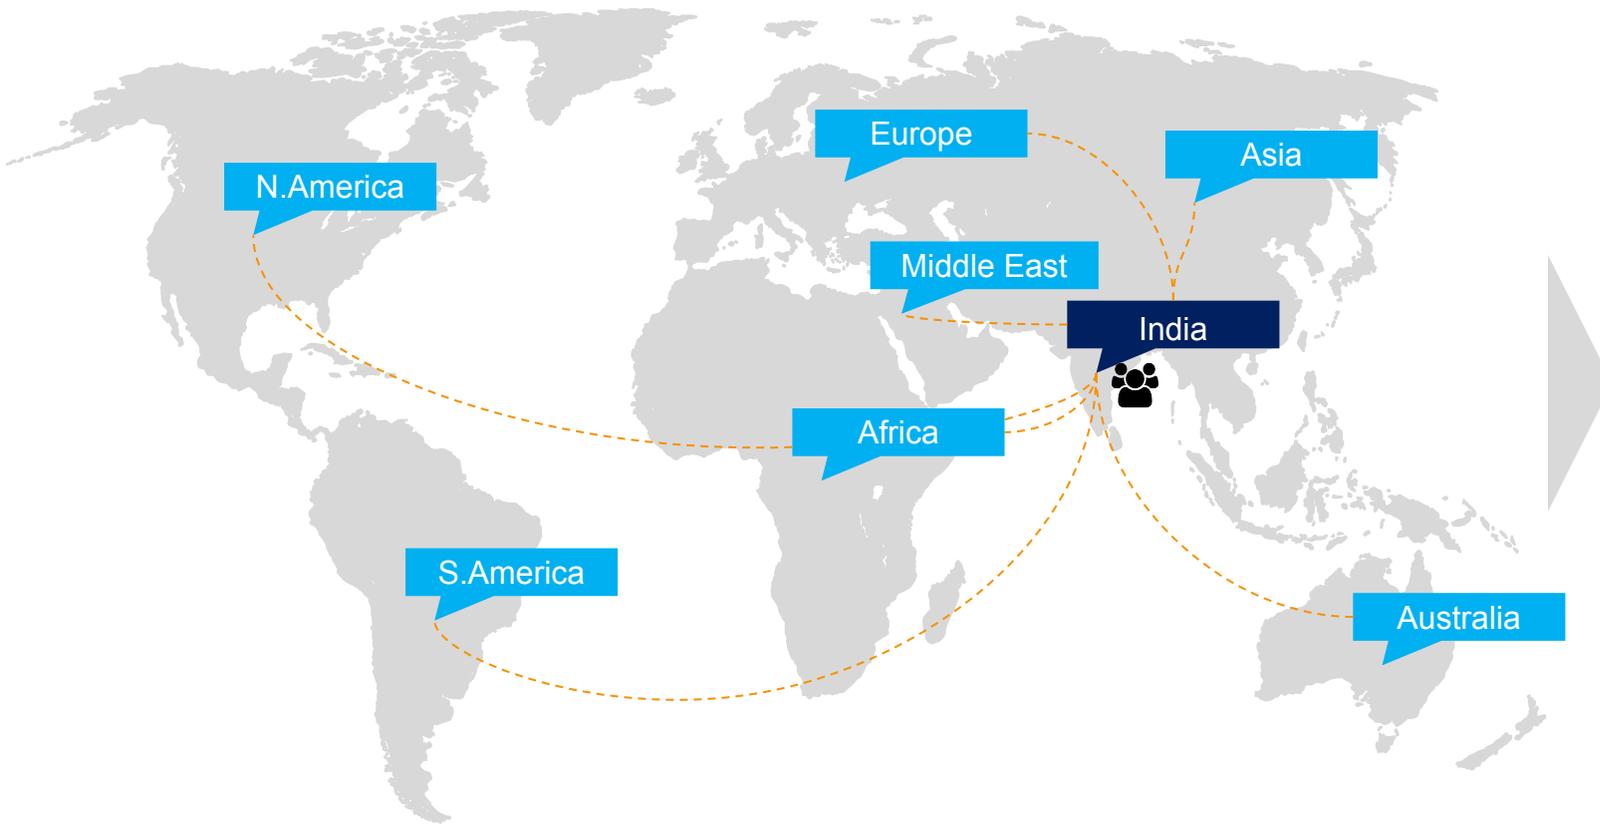

Automated – based on web crawling and data engine to track millions of web domains, track data points across digital footprint of entities and add several companies to database

Flexible platform – aids launching of new features

In-house data mining engine – automate discovery of new-age companies by tracking 836M+ domains across emerging technology sectors and sector classification of entities tracked

Multiple products introduced on platform since inception – soonicorn coverage, personalized dashboards, Tracxn Score, live chat, and others

Significant cost advantages from India-based operations

Significant cost advantage due to **make-in-India**. Especially:

- **Data-production & technology platform** is built from India
- **Global sales** happens from India (sales & support teams work across all time zones)
- Very efficient content-driven **customer acquisition flywheel**

These give us a significant and long-lasting cost advantage

FCF (Free Cash Flow)¹ (in INR Cr.)

Historical Annual

Cash & Cash Equivalents^{1,2} (in INR Cr.)

90.2 Cr.

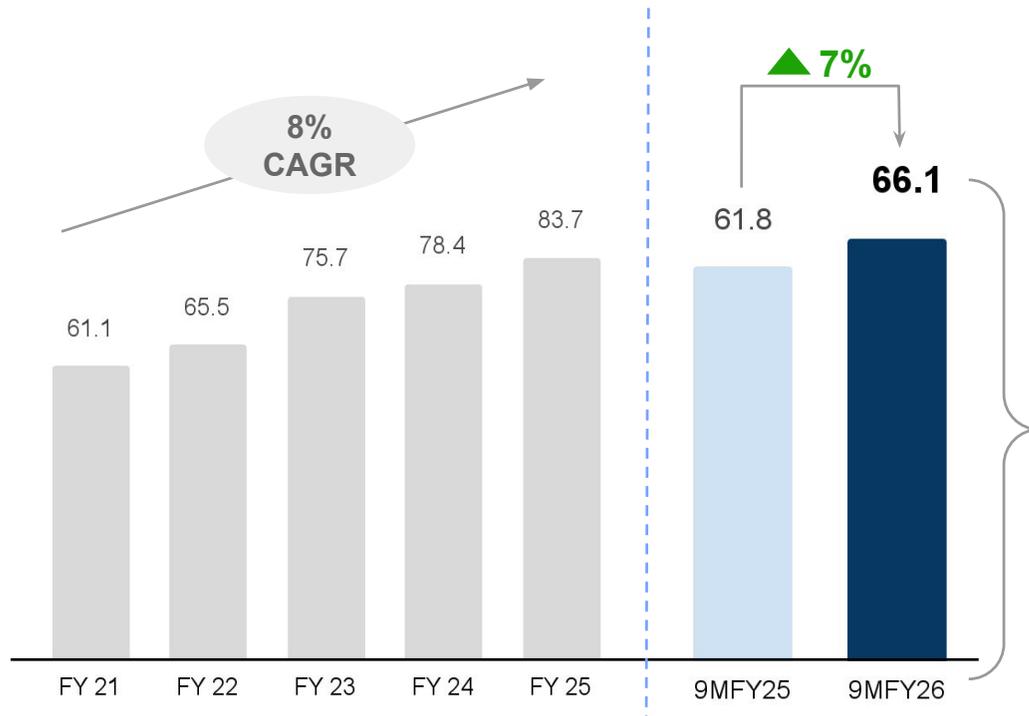

Note: (*) Free Cash Flow and Cash & Cash equiv. excludes tax amounts received from employees against ESOP exercise as on the respective end of period
(1) Cash & Cash equiv. = Cash & Cash equiv., Investments & FDs, Security Deposit towards listing in FY23 and FY24

9M FY26: Expense Breakup

Total Expense (in INR Cr.)

Historical Annual

Total Expense - Breakup (for 9MFY26)

(in INR Cr.)

	9MFY26	% of Total Expense
Employee Benefit Expenses	58.1 Cr.	87.9%
<i>Salaries, Wages & Bonus</i>	54.2 Cr.	82.1%
<i>Employee Stock Option Expense</i>	2.4 Cr.	3.6%
<i>Other Employee Benefit Expenses</i>	1.5 Cr.	2.2%
Depreciation Expense	0.1 Cr.	0.2%
Other Expenses	7.9 Cr.	12.0%
<i>Cloud Hosting Charges</i>	2 Cr.	3.0%
<i>Rent for Building</i>	1.7 Cr.	2.6%
<i>Remaining Other Expenses</i>	4.2 Cr.	6.3%
Total Expenses	66.1 Cr.	100%

- **Bulk** or 88% of total expense is **emp. cost** (89% in FY22, 88% in FY23, FY24 & FY25)
- **Cloud Hosting** charges are the 2nd **largest expense** after emp. benefit expenses
- **No large digital marketing spend** for customer acquisition (since we are a data company, we are able to use in-house content to generate organic traffic)

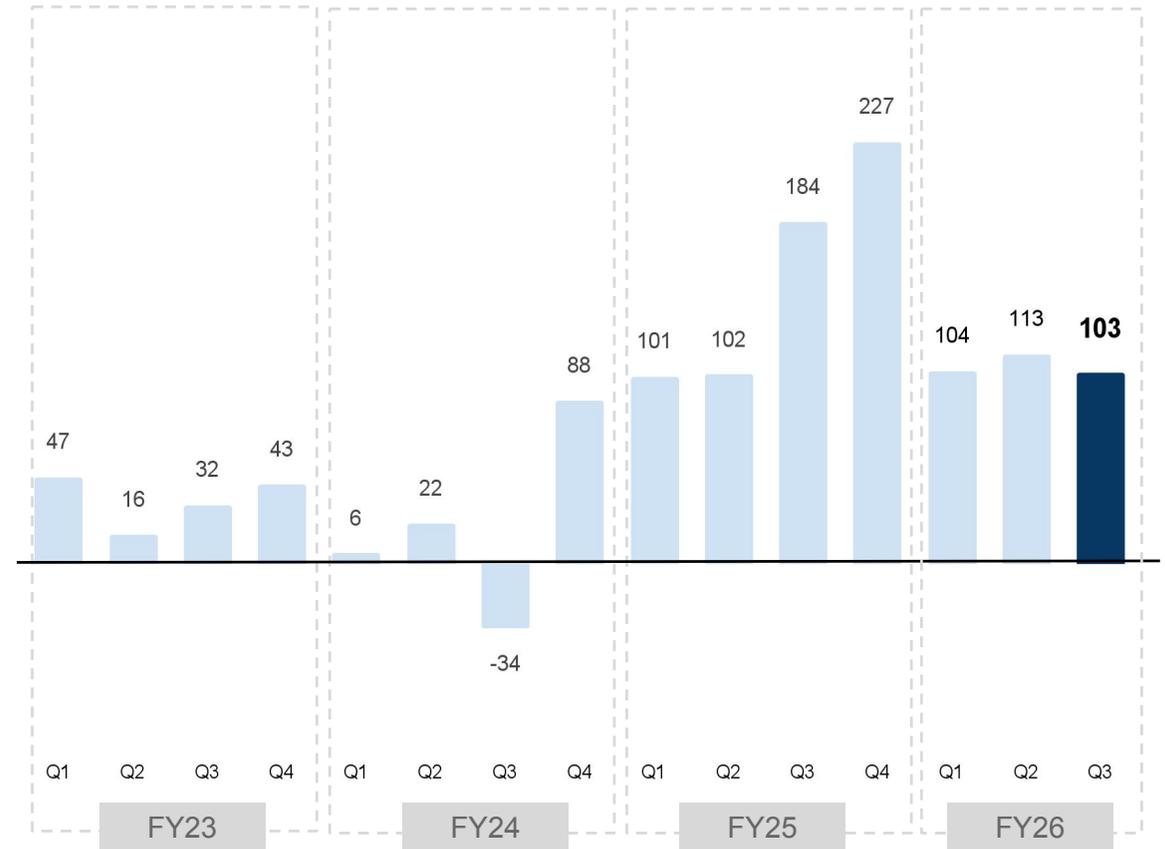

9M FY26: Growth Metrics (1/3)

Continued high overall volume growth

Customer Accounts (#)

Customer Accounts - Net Addition

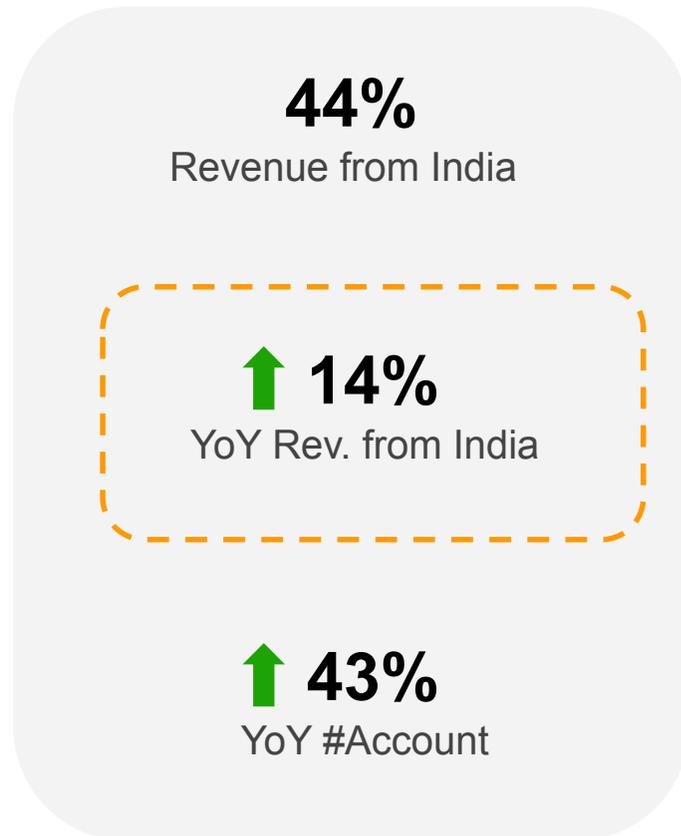

Volume growth continues to be high

Note: Customer Accounts are as on respective end of period.

9M FY26: Growth Metrics (2/3)

Accelerated India Growth due to vertical BU teams

India Geo - 9MFY26 Account & Revenue Growth

- India BU growth continues to be robust
- In 9MFY26, # India accounts grew by 43% YoY and revenue grew by 14% YoY
- Primarily due to the growth initiatives mainly - launch of **vertical BU teams**
- We are in process of **replicating this strategy internationally** and scaling the vertical teams to other key regions

9M FY26: Growth Metrics (3/3)

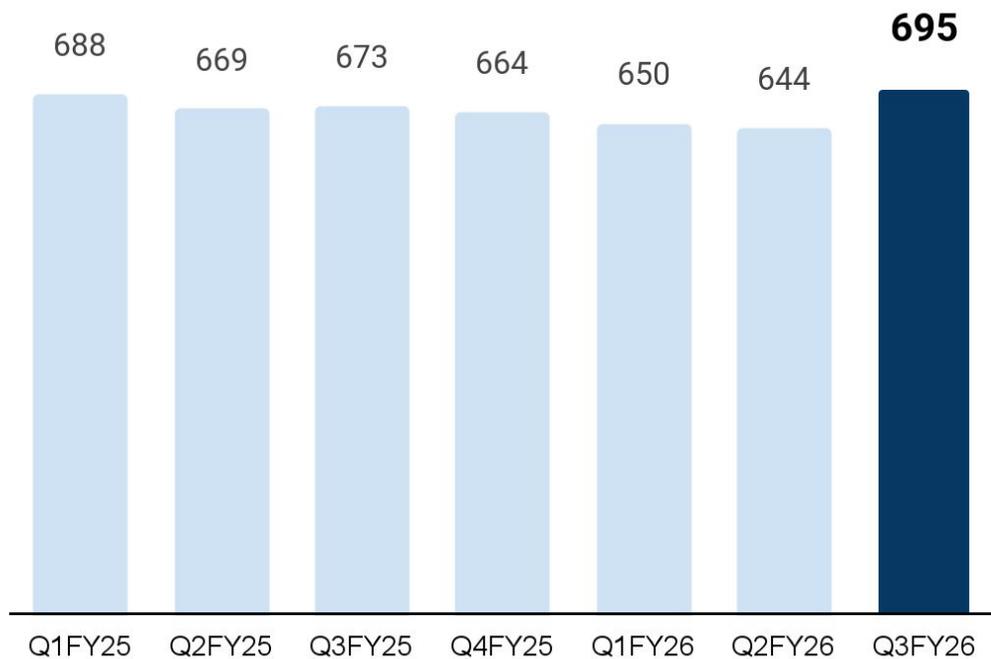

India & International segments

	Revenue Growth YoY	Account Growth YoY
India	14%	43%
International	-8%	17%
Overall	0.3%	32%

Impact in the international segments. As we augment datasets and extend the vertical sales teams in these geographies to more customer segments, we expect the overall growth rates to improve.

Q3 FY26: Investing in Growth Initiatives

Ending Headcount (#)

We are investing in **growth initiatives**, primarily across GTM - Sales, sales support & Marketing.

These investments led to a net increase in headcount and a temporary reduction in profitability.

We believe these investments will accelerate growth and lead to higher profitability within the next few Qs.

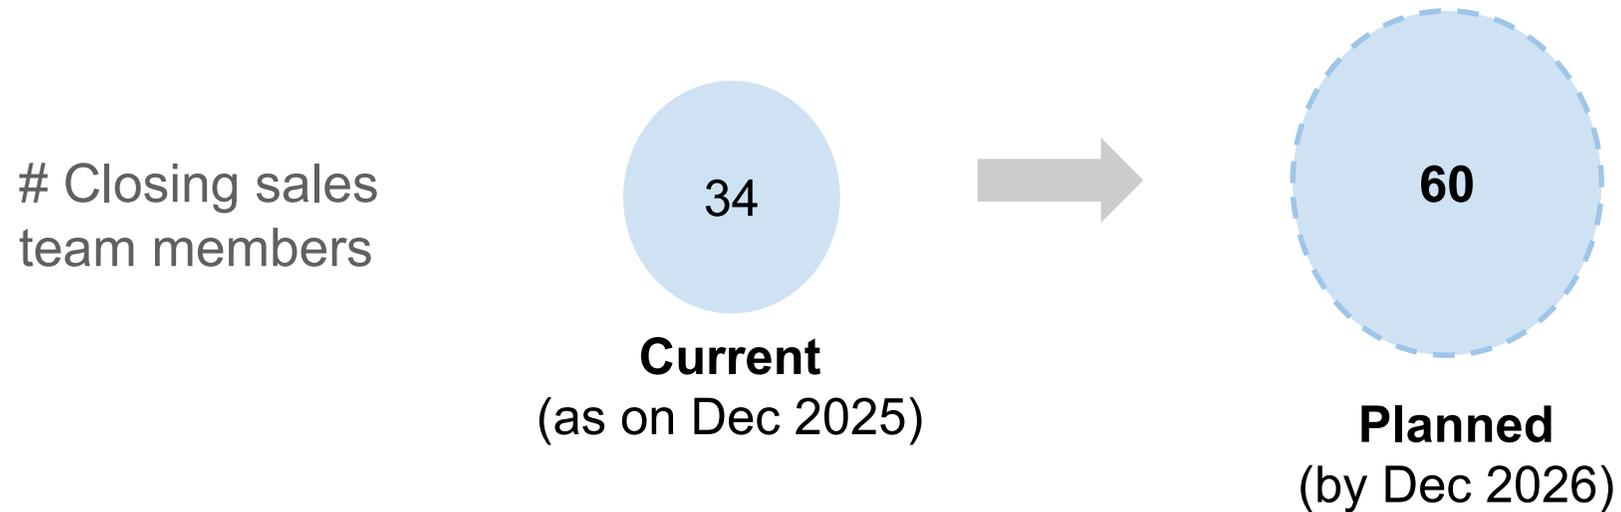

Select Recent Growth Initiatives

Additionally, we have been investing heavily across various growth initiatives spanning across sales, marketing and account expansion. Select initiatives where we are seeing good results and expect further acceleration are as follows:

- 1 Scaling the Sales Team
- 2 **India BU** - Significant data investments undertaken in FY26
- 3 **International BU** - Investing in Data Augmentation & Sales scale-up
- 4 Scaling with **Specialised Teams**
- 5 Expanding Leads Funnel by increasing **Organic Search Traffic** and **Tracxn Lite**
- 6 Increasing **Regulatory Data** coverage
- 7 Leveraging **AI in Data Production**
- 8 Marketing through **Press Mentions**

1 Select Recent Growth Initiatives

Scaling the Sales Teams

With our vertical sales playbook gaining traction, we are scaling our sales teams and plan to nearly double our closing sales team headcount this calendar year (including those based out of India but catering to the international geos)

We expect this to have a meaningful impact on the new customer acquisition.

2 Select Recent Growth Initiatives

India BU - Significant data investments undertaken in FY26

Revenue from India grew at 14% YoY in 9M FY26 (& over 40% YoY account growth).

Further in Q3FY26, significant investments made in expanding datasets and offering, including:

- **Private Company Financials** coverage: Grew by over 10X in 2025, making us **best-in-class** across all platforms in India
- **Comprehensive coverage of Private Limited companies:** Legal Entity DB now over **3.4M**, with details including board members, cross-directorships, risk indicators, loans and charges, filing delays, etc. Covers over **2.5M Directors**. Added over **54,000 Corporate Structure trees**.
- **Others:**
 - **Loans and charges data:** Increased from less than 50K in Dec 2024 to **2M** in Q3 FY26
 - **New data products:** Including 'Newly registered LEs feed' needed for sales teams. 'Legal Entity report' having detailed risk indicators & 20+ financial ratios.
 - **Augmented datasets:** For Sales Vertical, augmented pincode data, CXO data (in pipeline)

We expect this will **further accelerate** customer acquisition, **revenue growth** and significantly increase **our market share** within existing segments (like IB, PE). Also help us break into **newer customer segments** like debt market (NBFCs, other financial institutions) & procurement teams

3 Select Recent Growth Initiatives

International BU - Investing in Data Augmentation & Sales scale-up

- The number of accounts added grew by ~17% in Q3FY26 YoY
- Major push for expanding our **data coverage** in international geos:
 - **UK:** Added more than **4.2M private co. financials** (>50X increase). Cos. covered increased by **~4X**. Augmented **loans and charges** data in Q3FY26 to 2.6M
 - **US:** Companies covered increased by 35% YoY. Funding transactions increased by **4X** to over 1M
 - Planned new/augmented datasets: Headcount data, Revenue estimates, People & CXO data. More Growth trends.
- In Q3 FY26, we entered into a **key partnership** with **TMX Datalinx**, the information services division of TMX Group, which owns & operates Canada's largest stock exchange. This collaboration enables broader reach to financial institutions across N. America, and helping us accelerate rev. growth in the region.
- Investment Banking and VC vertical teams made live in UK and US regions to replicate India playbook
- **UK geo revenue growth increased from -3% in FY25 to 7% in 9M FY26.** By continuing above playbook, we expect to increase growth in other international geos, which should strengthen overall growth.

4 Specialised Teams (1/4)

Investment Banks

- Specialised team for selling to IBs through both inbound & outbound
- Continue to enrich data for this customer segment by **increasing coverage of relevant datasets** such as coverage of private company financials, key ratios, VC & PE databases; and by **launching more relevant data sets**.
- In Q3 FY26, our coverage of private company financials (one of the most critical datasets for this segment) became best-in-class in India. We expect this to further accelerate new customer acquisitions.
- Had launched additional features - eg. startups can mention if they are looking to hire an IB on our platform, which becomes a sales pipeline for the investment banks, etc.
- Seeing good success:
 - Continued logo penetration in India by ~1% MoM
 - **India #accounts** grew by over 50% & **revenue** by ~16% YoY
- We have started scaling this to other key geos internationally and are seeing good initial success there as well, **International #accounts** grew by **more than 60%** YoY
- We expect further acceleration in this segment as we expand our efforts to key geos

4 Specialised Teams (2/4)

Corporate Sales

- Specialized team focussed on users from corporate sales, typically looking to scout and analyze companies across sectors and geos for lead generation, market analysis, comps benchmarking, business development mandates, and more
- In addition to augmenting data for this segment - for eg., **pincodes** and **CXO profiles** - we are also adding new parameters such as **company tech stacks**, helping users identify companies by the technology they use for more targeted outreach. On the product side, we are adding CRM plugins for tighter workflow integration.
- We have started scaling this to other key geos internationally and are seeing good initial success. In Q3 FY26:
 - **# Accounts** grew by **over 80%** in this segment overall
 - **Revenue** grew by **~23% YoY**
 - **50% revenue** in this segment was from **international customers**
- We expect further acceleration in this segment as we augment both data and sales teams.

4 Specialised Teams (3/4)

Universities

- Specialized team with cumulative experience of over 20 years in selling to universities. More than a revenue segment, universities are a good marketing and discovery channel for us
- In Q3 FY26: Customer count* **increased by ~60%** in this segment and **revenue grew by 15% YoY**
- India #accounts grew by ~70% & revenue by over 50% YoY

Startups

- We continue to see high volume of inbound leads from startups. Their key use cases include Fundraising, Competitor analysis, Market research, Business development etc.
- Expanding the offerings and use cases for this segment as they scale
- ~50% revenue in this segment was from international customers in Q3FY26

Accelerators & Incubators

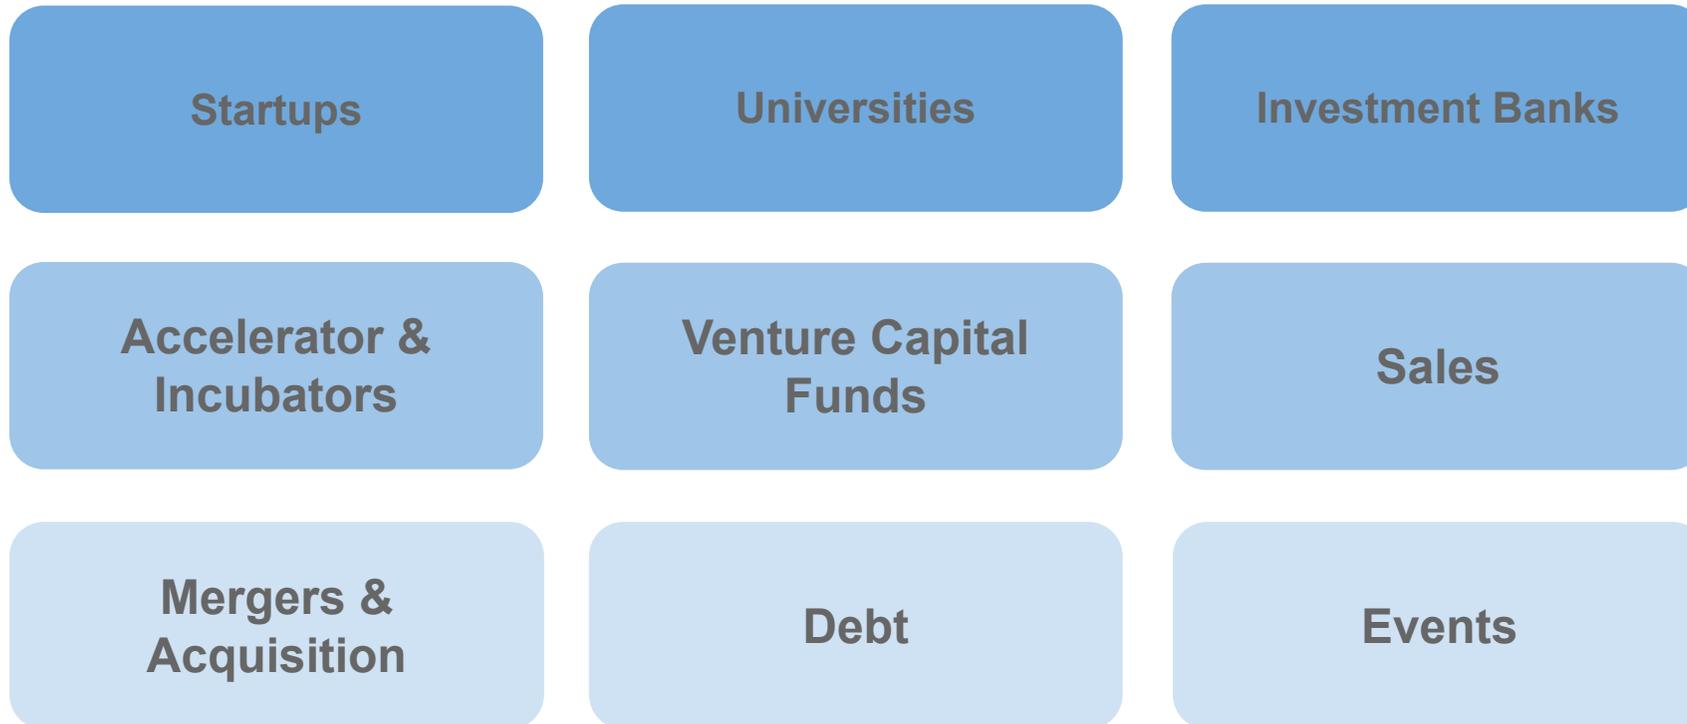

- Focusing on customers across private incubators, government incubators, university and corporate incubators globally
- One key use case is to facilitate fundraising of portfolio companies, supported through relevant features on the platform
- Bringing in Grants data to the platform to help incubator portfolio startups access government funding and support

4 Specialised Teams (4/4)

Seeing good results from the specialised teams

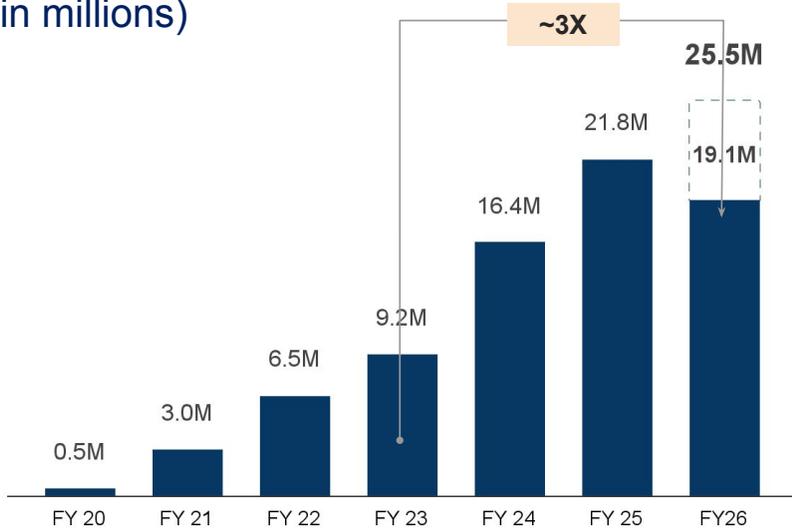

List of launched vertical sales units

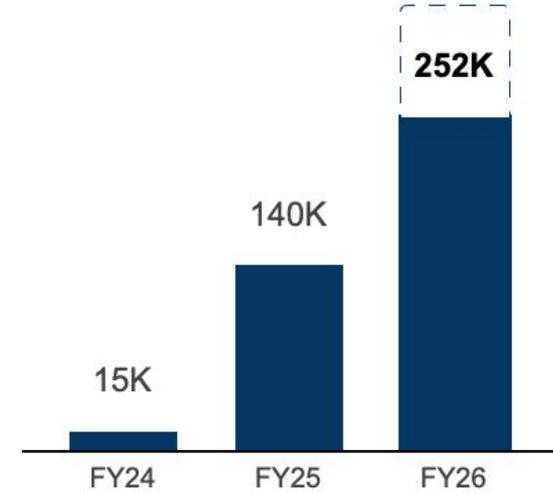

We expect further acceleration in pace of customer growth and market share increase through these additionally launched teams

5 Scaling Organic Search Traffic and Tracxn Lite

Organic Search Traffic*
(in millions)

#Tracxn Lite Signups¹

Scaling Organic Traffic & Inbound Leads Pipeline

- We have built a large organic inbound traffic funnel, & it continues to increase
- Had **over 21 Million** visits in FY25
- In 9MFY26, this was more than **19 million** visits (~3x increase in 3 years)

- Had launched **Tracxn Lite** 2 years ago for **PLG** (Product-Led Growth) to make the customers aware of the richness of the platform and drive product led growth
- Users get full platform access (with limitations such as restricted profile views, exports and certain platform modules)
- Very good **increase in overall sales acquisition pipeline**.
For instance - 9MFY25 v/s 9MFY26
 - #Organic sign-ups **continue to increase** (1.3X)
 - Avg. #users / day hitting the credit limit have increased
 - Increase in upgrade requests, demos, etc.

Note: (*) Source: Search Console & Internal Estimates

(1) Cumulative #, does not include ~2L old unpaid users migrated to Tracxn Lite

6 Increased Regulatory Data Coverage (1/4)

Increasing Coverage of Private Company Financials

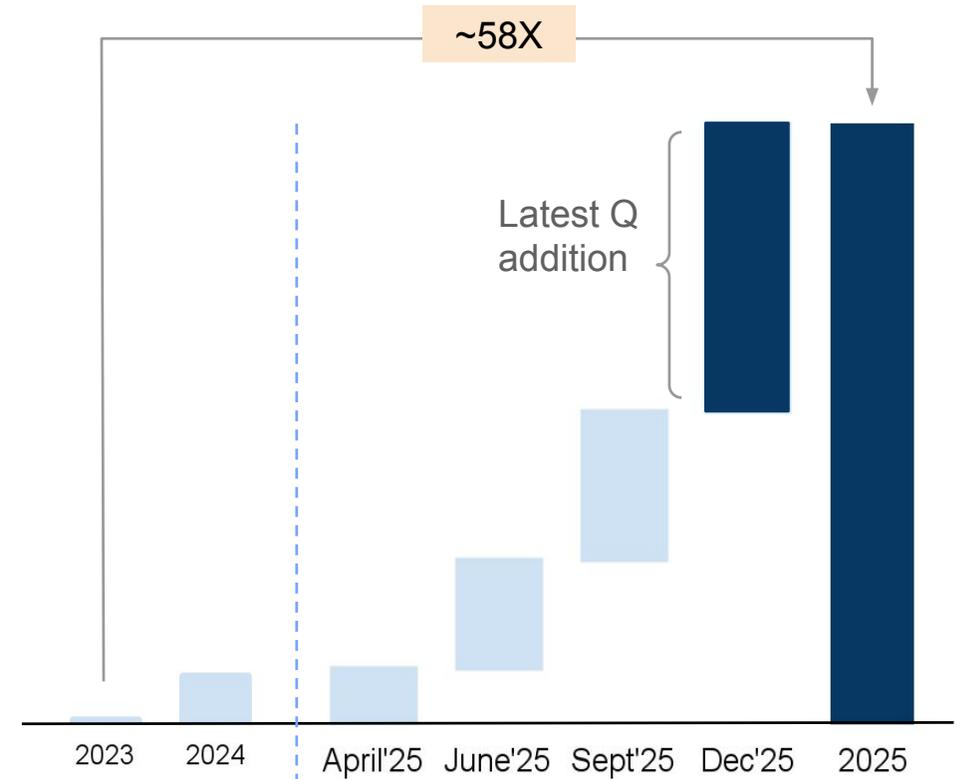

Currently cover private company financials across **20+** countries

Major countries by coverage

- Germany
- Japan
- India
- United Kingdom
- France
- Italy
- South Korea
- Australia
- Poland
- Belgium
- Ireland
- Sweden
- Thailand
- Singapore
- Austria
- Norway
- Malaysia
- Denmark
- Czech Republic
- Finland
- New Zealand
- Croatia
- Latvia
- Estonia
- Brazil*
- Luxembourg*
- Philippines*
- Greece*
- Russia*
- & more.

Financials Covered

2.3M+ companies with revenue data & **6.3M+** companies with detailed financials available on the platform[#]

Note: (*) New countries added in 2025, (#) As on 31st Dec 2025
YoY growth is excluding the changes on account of one-time refactoring of first year financials

6 Increased Regulatory Data Coverage (2/4)

Increasing Coverage of Private Company Captables

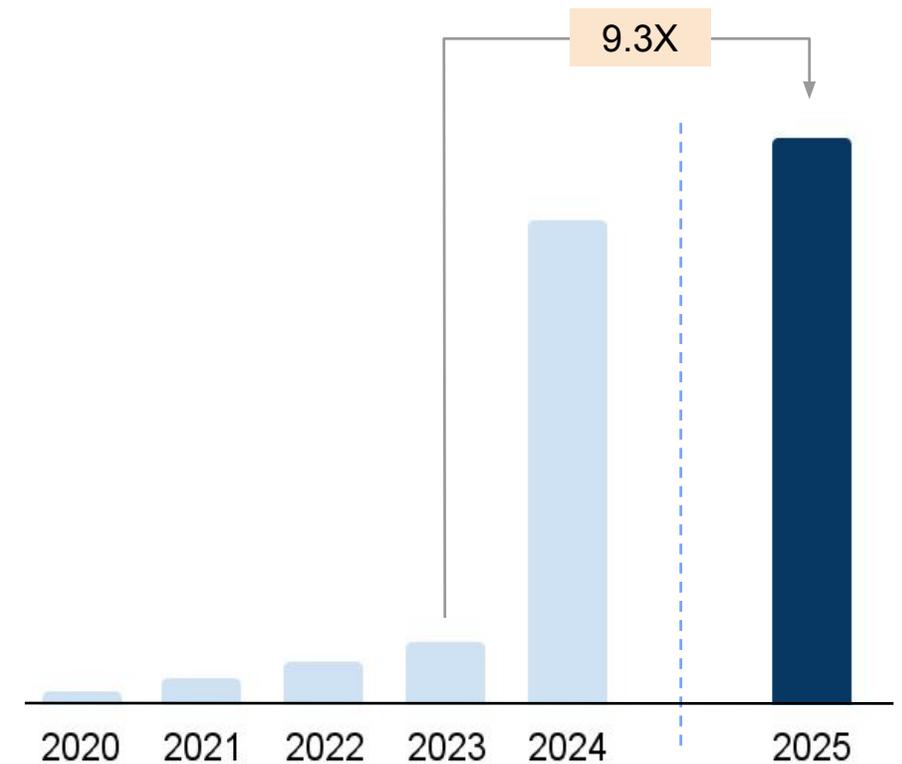

Currently cover private company captables across **15+** countries

Major countries by coverage

- United States
- Ireland
- New Zealand
- Germany
- Sweden
- Estonia
- India
- Singapore
- Finland*
- United Kingdom
- Israel
- Indonesia*
- France
- Malaysia
- Thailand*
- Canada
- Norway
- Latvia*
- South Korea
- Denmark
- Slovakia*
- Australia
- Czech Republic
- Malta*

Companies with Captables

366K+ companies with detailed shareholding available on the platform#

6 Increased Regulatory Data Coverage (3/4)

Launched Legal Entities Database

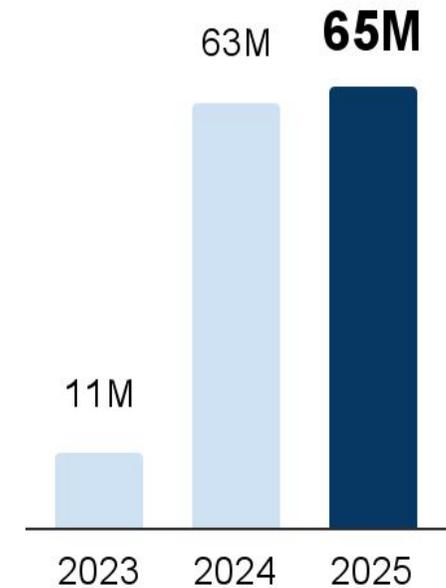

Currently covering ~65M legal entities across key geographies

Major countries by coverage

- United States
- Germany
- Japan
- India
- United Kingdom
- France
- Canada
- Brazil
- Australia
- Belgium
- Singapore
- Romania

Legal Entities
(in millions)

Increasing coverage and addition of new datasets - loans and charges, patent data, legal cases, trademarks, cross-directorships, etc.

6 Increased Regulatory Data Coverage (4/4)

Building deeper coverage of Regulatory Data on private companies & legal entities

Examples of a few regulatory datasets live as well as in pipeline

This helps us increase penetration in existing and new customer segments

7 AI in Data Production

We continue to harness GenAI in data production yielding significant and promising results. We have been able to multiply & augment our datasets while reducing manual intervention and even shrinking headcount, which is a strong testament to our use of automation and intelligence in data production.

Accelerated Throughput with Leaner Data Production Teams

- **2024:** Expanded coverage of key data points by 5X while **reducing** data production team size **by ~10%**.
- **2025:** Further multiplied data coverage by over 4X with an **additional ~20% optimization** of data production team's headcount

To expand further, we have been able to enhance the pace of additions with high accuracy:

- **Increased pace** of data processing in existing processes: Reduced manual overhead and increased throughput (eg., The monthly capacity for adding companies to the Tracxn platform has increased by approximately 15X)
- **Expanded coverage** across multiple datasets: Achieved through faster processing of unstructured documents (eg., accelerated extraction of financials and company information from regulatory filings across 20+ countries).
- **Faster launch of new datasets:** Able to launch new datasets at a much faster pace than before (eg., area-pincode mapping for sales teams launched in a fairly short time period).

We expect continued **optimization** in the data production units and **accelerated throughput** of the systems.

We are excited about the possibilities of GenAI and its potential to help us build data on private companies globally.

As on 31 Dec, 2025

Function	Number of Employees
Analysts and Data Operations	275
Product and Technology	114
Sales Marketing and Customer Success	246
Business Support	60
Total	695

Data Operations team across various data modules like financials, cap tables, transactions, company data, etc; Sector-focused Analyst team; and MyAnalyst Support team

Engineering and Product team

GTM engine – Includes Marketing, Sales and Customer success teams

Business Support team includes Recruitment, Finance, HR, Admin

Source of Data

Key sources of data:

- 1** **Publicly available data about companies (company websites)**
 Have build a *Google for Companies* at the backend, where we track & mine data of over 0.9Billion entities, adding more than 3,00,000 entities every day.
 - 2** **Proprietary Data**
 Sector-based coverage, taxonomy. Company business model & sector classification. User panel data.
 - 3** **Regulatory Filings (across countries)**
 Filings by companies across countries. eg. Registrar of Company Filings, Transaction filings, Labour filings, etc.
- Others:** news, social media, fund websites, press releases, etc.

Mining, Curation, Standardization and making it actionable using Technology & People

Technology: Data Mining, Parsing, Extraction using OCRs, Data intelligence & AI.

New-age tech stack: Using AWS, Google tech stack, Elastic search, MongoDB, etc.

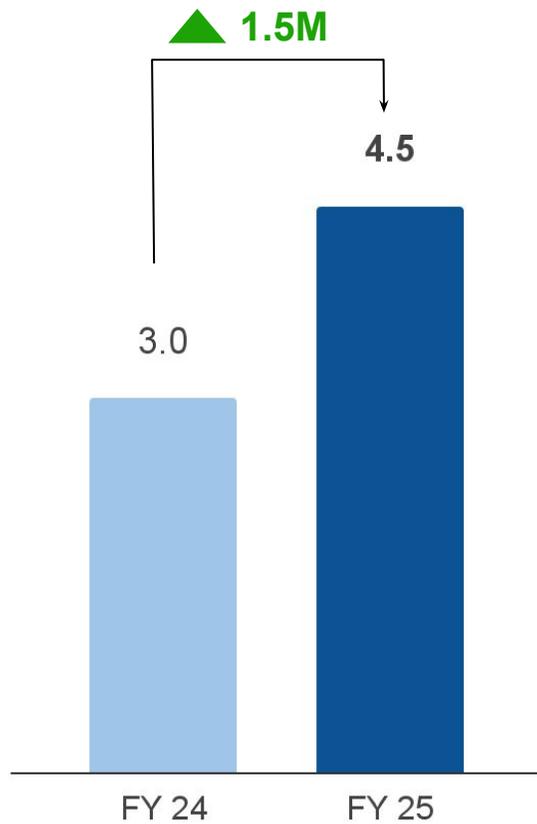

People: Sector-focused analyst team and data ops team

Illustrative data about Private Markets

Key Business Strengths (1/2)

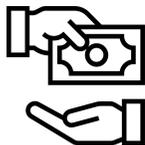

Large, Growing Market & Rich Customer segment

- Around 3,00,000 addressable organizations
- We currently work with small single digit % of this market & remains largely untapped.

High Operating Leverage & Margin Expansion

- Incremental cost to serve customers is very low
- Offering is productized & there is no custom servicing work required
- Between FY21 to FY25, the revenue grew at a CAGR of 18% while the total expense grew only at 8%

India Cost Advantage

- Significant cost advantage because we make-in-India while selling globally, 57% of revenue comes from international customers.

Profitable operations and increasing free cash flow

- Positive EBITDA of INR 0.8 Cr. and a positive PAT of INR 4.9 Cr. in FY25.
- FCF stood at INR 14.3 Cr. and cash & cash equivalents stood at INR 94.6 Cr. at the end of FY25, a 26% increase, YoY.

Scalable & Proprietary Technology Platform

- In-house platform built on leading technologies and architectures.
- Highly agile and scalable, and aggressively leverage the latest technology stacks, machine learning and generative AI capabilities

Key Business Strengths (2/2)

Low cost, content driven acquisition flywheel

- Content-based marketing helps us to acquire a high velocity of leads without having to spend on paid marketing.
- 22 million visits across all our public pages and over 3000 press mentions in prominent news media in FY25.

Debt-free, Asset Light. Negative Working Capital

- Asset-light business, fixed assets on balance sheet of INR 0.2 Crores
- Depreciation expense was INR 0.1Cr & capex of INR 0.1Cr. in FY25
- Capital efficient and able to scale with flexibility
- Debt-free since inception

Strong Team & Experienced Board of directors

- Strong and experienced top management team.
- Board consists of 4 independent directors bringing rich experience from the investment industry and the corporate development.

Strong Focus on Good Governance

- Right from the 3rd year of our operations, we have had our statutory audits conducted by one of the Big4 auditors and we never had any qualifications.
- We continue to work on adopting the best governance practices as much as we focus on growing the business

Key Strategies

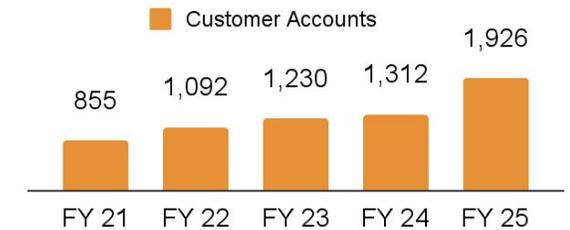

Key strategies (1/2)

Continue to grow account base

Ways to increase our account base

- Expanding sales, marketing & customer success team
- Referrals from existing customers
- Event partnerships for media and industry events
- Channel partnerships
- Additional sales and marketing representatives in geographies outside India
- Content-based marketing

Historical Growth

Expand share of revenues among existing customers

Tiered Pricing & Upsell features / Subscriptions

to the existing customers through differentiated offerings

Following a Three-pronged approach

Growing the number of users within an account

Generating additional data downloads

Adding more Customer Accounts or different teams within an Org

Continue to grow platform to offer additional services

Devoted substantial resources towards expanding the platform modules & data

Data Added (FY25)

1,530,000+ Entities

20,000+ Reports

7,91,000+ News items

2,00,000+ transactions[^]

Modules added

2019 – Portfolio Tracker & acquisition database

2021 – Live Deals

2022 – Investors Database

2024 – Legal Entities Database

100+ updates

to the platform (FY25)

[^]includes funding & acquisition transactions

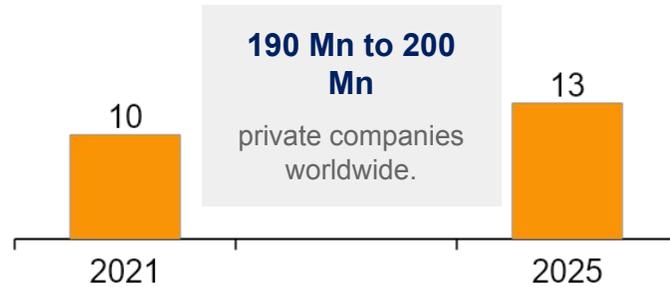

Tools/Features developed to integrate into the workflow

- Automated sourcing tools
- personalized widgets, investor management tools and multi-lingual support
- Generation of mark to market reports for fund performance

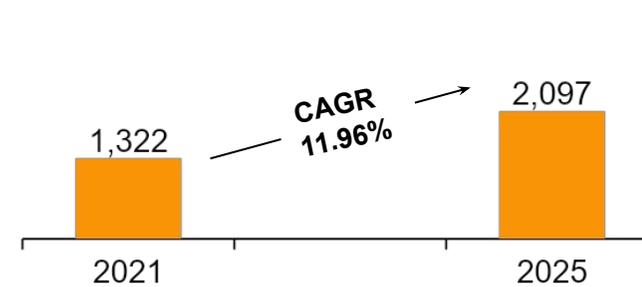

Key strategies (2/2)

Capitalize on industry opportunities to expand coverage of our customers

Private Market AUM[^] - (US\$ Tn)

Total Addressable Market[^] - (\$ Mn)

From **52% to 65%**
Combined market penetration of private market data providers in the next 5 years

Expand into adjacent customer segments

Additional use cases of the private market & emerging tech data

- Product discovery where customers can search and find vendors for various software, tools and other use cases.
- Limited partners use the platform for **Fund performance data**
- sales personnel rely on our platform for augmenting company information to **improve their sales outreach.**

Tracxn intends to offer such additional features & modules to further expand their total addressable market

Expand our operations through inorganic growth channels

- Tracxn intends to acquire businesses and technologies that complement its existing capabilities
- It may consider investment opportunities to be able to acquire new technologies, or generate cross selling opportunities, in order to grow its platform or to expand its presence internationally.

Acquisition strategy will aid in

- ↑ long-term growth
- ↑ competitive position
- ↑ increasing its market share
- ↑ acquiring technical expertise
- ↑ achieving greater scale
- ↑ increase in shareholder value
- ↑ Growth in earnings
