MANAGEMENT COMMENTARY

MR. SANJAY B PATIL Founder, Chairman & Managing Director

Dear Shareholders,

Markolines continues to build on its 23 years legacy with a clear focus on operational excellence, disciplined execution, and consistent value creation. The Company's evolution from a specialized service provider to a leading Highway O&M player reflects our ability to scale capabilities, deliver predictable performance, and strengthen stakeholder confidence.

After migration to BSE Main Board in June 2025, another significant milestone was achieved with our successful listing on the NSE Main Board. This achievement enhances our corporate visibility, broadens our investor base, and positions us strongly for the next phase of strategic expansion.

India's infrastructure sector is entering a high-growth cycle, supported by sustained government capex, a strong project pipeline, and increased emphasis on long-term asset management. Governments Asset Monetization has emerged as a strategic tool attracting huge private Investments through various models like TOT and InvITs. These developments present sizeable opportunities for organized O&M and management driven players like us.

With the post-monsoon working season now commencing, execution activity across our projects is ramping up. We anticipate improved productivity, accelerated billing cycles. As committed earlier we are very confident of giving sizable growth in revenue and the net earnings of the company. in the upcoming quarters, supported by better utilization and enhanced operational efficiency.

While our core focus remains highway O&M, we are selectively exploring opportunities across adjacent infrastructure segments where our technical expertise, operational efficiency, and project management capabilities can create additional value. This strategic approach will enable us to broaden our addressable market and strengthen long-term revenue sustainability.

We remain committed to delivering predictable performance, enhancing operational efficiency, and maintaining prudent financial discipline. Our strong order book, established client relationships, and debt-light balance sheet provide a solid foundation for future growth.

We thank all our stakeholders — clients, investors, partners, and employees — for their continued trust and support as we further strengthen our position within India's evolving infrastructure landscape.

ABOUT THE MARKOLINES

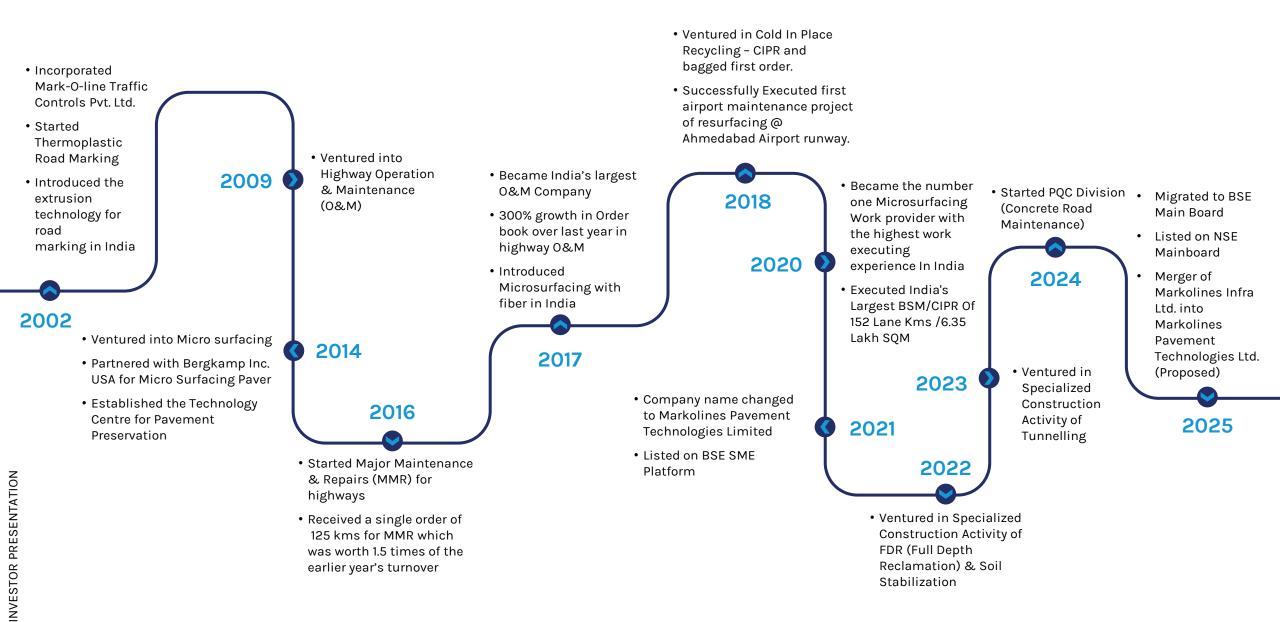

- 1 Founded in 2002 with single Service: Road Marking
- Transformed into India's
 Largest Maintenance
 Company in the highway
 sector
- 3 Only Company in India with a **Technology Centre** for pavement preservation
- India's 1st Highway 0&M
 company listed on
 Mainboard BSE & NSE
- 5 PAN India presence

OUR JOURNEY

OUR PROMOTERS

Mr. Sanjay B Patil

Founder, Chairman & Managing Director

A seasoned professional with over three decades of experience in the road infrastructure sector. Successfully led Markolines' transformation into a multi-service infrastructure provider. Known for hands-on leadership, timely execution and strong customer focus. Holds a Mechanical Engineering degree and serves as a member of ASSOCHAM's National Council on Roads and Highways.

Mr. Vijay R Oswal

Founder & Chief Financial Officer

A dynamic leader with over three decades of experience across infrastructure, finance, manufacturing and international business. His sharp business acumen and strategic planning have propelled Markolines' growth. A qualified Business Performance Coach, he is a Chemical Engineer with a management degree.

Mr. Praveen Panchal

Mr. Panchal, with 30 years of experience in the Financial Services sector, joins the management team to strengthen business development and finance. His expertise in process management, team leadership and operational planning will support the company's growth. He holds a Bachelor's degree in Commerce from Pune University.

Mr. S P Nagarkar

Director - Technical

A seasoned professional with over three decades of infrastructure experience, leading technology innovation and operational efficiency at Markolines. Experienced in construction and highway asset management, he holds a Bachelor of Science degree and a Post-Graduate Diploma in Business Administration.

Mr. Anil Nikam

Chief Executive Officer

Mr. Anil Nikam, is an infrastructure professional with 30+ years of experience in operations, business development and project management across roads, highways, and energy projects. He holds a Civil Engineering degree from Shivaji University, a Project Management diploma from NICMAR, and a Financial Management program from ICFAI.

BUSINESS VERTICALS

HIGHWAY MAINTENANCE

SPECIALIZED MAINTENANCE SERVICES

SPECIALIZED CONSTRUCTION SERVICES

CORE SERVICES(1)

HIGHWAY MAINTENANCE

PREVENTIVE MAINTENANCE

Proactive treatments to address early road deterioration, preserving asset value and extending road life.

Key Services:

- Micro Surfacing
- Crack Sealing
- Slurry Sealing
- Fog Sealing
- Surface Dressing
- o Chip Seal

MAJOR MAINTENANCE & REPAIRS (MMR)

Involves removing one or more layers of the existing road and replacing them with new one.

Key Services:

- o Pavement Milling
- Bituminous Overlay / Resurfacing
- Repair and Rehabilitation of Pavement
- Cold In Place Recycling (CIPR)
- Repair / Replacement of Road Furniture like MBCB, RPM, Blinkers, and Pavement Markings etc.

RIGID PAVEMENT MAINTENANCE

Specialized maintenance for high-load cement concrete pavements to enhance durability and riding quality.

Key Services:

- Panel Replacement for structural distresses
- Subgrade & Base Repairs (DLC/GSB)
- Crack Repairs using stitching, stapling, or panel replacement
- Ravelling & Roughness Treatment with specialty chemicals
- Joint Separation & Sealant Repair with micro concrete solutions

CORE SERVICES(2)

SPECIALIZED MAINTENANCE SERVICES

MICRO SURFACING

A fast, cost-effective surface treatment that extends road life using advanced microsurfacing and in-house tech backed by global partnerships.

Key Services:

- Microsurfacing with Suspended Fiber Technology (MS-SFT)
- Crack Sealing
- Fog Sealing
- Slurry Sealing
- o Microsurfacing + Rut Filling
- o Surface Dressing / Chip Seal
- Cape Seal (Chip Seal + Microsurfacing)

COLD-IN-PLACE RECYCLING

A specialized road rehabilitation process that reuses existing asphalt on-site with foamed bitumen/emulsion using in-house machinery for efficient and sustainable pavement restoration.

Key Services:

- In-place asphalt milling up to 200mm
- Mixing with foamed bitumen/emulsion
- Pavement relaying using recycler, grader, and rollers
- Deep asphalt defect correction (rutting, fatigue cracking, utility cuts)
- Minor profile corrections with minimal traffic disruption

CORE SERVICES(3)

SPECIALIZED CONSTRUCTION SERVICES

SOIL STABILISATION/ FDR

Process of enhancing soil strength and moisture resistance using cement, lime or chemical additives.

Applications:

- Essential for new greenfield highway projects
- Used in Full-Depth Reclamation (FDR) to strengthen base and sub-base layers in existing pavements

TUNNELING

Construction of artificial underground passages through hills, mountains, or beneath the ground and water for enhanced connectivity, reduced distance and improved logistics.

Industry Applications:

- o Roads
- o Railways
- o Pipelines

SWOT ANALYSIS

Established expertise in road infrastructure and highway maintenance.

- Strong portfolio of completed projects across national and state highways.
- Skilled workforce with domain-specific knowledge and on-ground experience.
- In-house capabilities for both routine and specialized maintenance
- Strong and long-standing relationships with clients as well as regulatory and government authorities.
- Proven track record of adhering to timelines and quality standards.
- · Ability to offer end-to-end solutions, including planning, execution and asset management.

WEAKNESS

- This industry demands highly skilled workforce which is currently impacted due to a high demand in workforce.
- Dependence on government contracts, making revenue vulnerable to policy and budget changes.
- · High capital expenditure and operational costs.
- Delays in client payments can significantly impact cash flow and overall profitability.

OPPORTUNITIES

- India has the second-largest road network in the world, which continues to expand rapidly.
- Increased government focus on infrastructure development, supported by rising budget allocations.
- Growing interest from the private sector and influx of overseas investments in infrastructure projects.
- Leadership advantage and limited number of market players offers a competitive edge.
- Potential for expansion into international and neighbouring developing markets with similar infrastructure demands.

THREATS

- Fluctuating prices of raw materials and fuel can adversely affect project cost structures.
- Natural disasters and extreme weather conditions can disrupt maintenance schedules and impact road safety.
- · Intensifying competition within the industry could affect the market share and profitability.

CORPORATE ACTIONS UPDATE

Migrated to the BSE
Mainboard with a noticeable
spurt in trading volumes,
reflecting growing investor
interest and improved market
participation.

LISTED ON NSE MAIN BOARD

Successfully listed on the NSE Main Board on 14th October 2025, enhancing the company's visibility, liquidity and investor accessibility.

MERGER STATUS UPDATE

The Company is in the process of resubmitting the merger application with BSE and NSE, after which the requisite regulatory and statutory approvals will be pursued as per the planned timelines.

BSE

H1 FY26 HIGHLIGHTS

Markolines Q2FY26 PAT soars 69.29% YoY to Rs. 4.08 crore on 39.95% revenue growth.

Earnings per share rose to ₹1.70 from ₹0.98, marking an impressive 73.47% year-on-year growth.

Successfully completed Mainboard listings on BSE and NSE, marking a significant milestone towards enhanced visibility, liquidity, and wider investor participation.

Markolines' unexecuted order book stands at ₹396+ crore as of September 2025.

The Company also has an additional order pipeline of over ₹600 crore.

In FY26, the Company secured new work orders totaling ₹200 crores, further strengthening its growth visibility with a strong order pipeline.

BUILDING ON OUR LEGACY

OUR COMPETITIVE ADVANTAGES

Excellent Regional & cultural understanding

Paving the path towards innovative future by introducing newest technologies in India

Strict adherence to SOPs & Ethical practices

Focus on Health, Safety, Security & **Environment (HSSE)**

Strong, Integral & Experienced **Executive Team**

Customer Centric & Proactive approach

Efficient Contingency & Risk Management

Establishing latest Technology (Introduced Micro Surfacing with Fiber in India)

100% Compliance of statutory requirements

KEY DRIVERS

MARKET LEADERSHIP

Markolines enjoys the clear leadership in the Highway Maintenance Segment. It is the only Company in India providing exclusive and complete array of services in Highway O&M.

TRACK RECORD

Markolines have a strong track record of Operation and Maintenance of Highway assets. Their growth in turnover over last few years is a proof that they are preferred vendor and contractor for their clients. Their clientele includes all the major players in the industry.

EXPERIENCED TEAM

The Founders/Directors are active in the business. They are the driving force, giving leadership and direction to the business. Markolines has a very stable Operation / Execution team. The Attrition in the team is very low. Most of the team members have been with Markolines since long time.

ROBUST BUSINESS MODEL

Markolines is a largest and only 0&M company offering one-stop solution for complete range of Highway Maintenance Services. Markolines has an experience of managing more than 20,000 lane kms of National Highway in India.

FIRST MOVER ADVANTAGE

A key growth driver for Markolines is its early adoption of emerging technologies, leading to a market-leading position in India for Microsurfacing and Cold In-Place Recycling in both quality and volume, along with ventures into soil stabilization.

CHANGING TRENDS-ENTRY OF INTERNATIONAL FUNDS

Changing Indian market

International Funds entering Indian highway O&M business. Markolines is a preferred vendor with all Multinational/Domestic Funds/InvITs.

STRONG ORDER BOOK

Markolines unexecuted order book of Rs. 396+ crore as on September 30, 2025, with an additional Rs. 600+ crore in pipeline at various stages of finalization. The strong renewal cycle of roads every 5–7 years, coupled with Markolines' market leadership, supports healthy order conversion visibility.

HUGE POTENTIAL DUE TO STRONG INFRASTRUCTURE GROWTH

Owing to the strongly growing road and highway network, there is huge scope for improving the quality of roads and thereby the need for Specialized Maintenance Services

FUTURE VISION

Increasing top line by strategically growing the average ticket size of projects.

Continuously catering to evolving client needs and enhancing our portfolio of services.

Expanding Service Offerings Driving Revenue Growth Extending our proven skills and capabilities to adjacent infrastructure sectors.

Leveraging Core Expertise

Prioritizing client satisfaction by delivering value-driven, reliable and innovative solutions.

Client-Centric Approach

Leadership in Infra

O&M

Aspiring to be the industry leader in Infrastructure Operations & Maintenance, setting benchmarks for efficiency and quality.
