Towards North Star: Shaping Tomorrow's Possibilities

8 Decades of Lumax Group

The 8-Decades logo is more than a celebration; it is a symbol of Lumax Group's legacy, continuity, and limitless aspiration, capturing the essence of how our past, present, and future converge to drive us forward with purpose.

Shaped as the number 80, it marks our eight-decade journey. Flowing into the infinity symbol (∞), it reflects our enduring values and long-term vision: built to last, from 1945 to Eternity.

The three interwoven loops subtly represent three generations of the founding family, passing on Purpose, Passion, and Pride: each generation building on the last while laying the foundation for new possibilities.

This logo honors our past and inspires our future, commemorating our legacy.

At Lumax Auto Technologies Limited (LATL/the Company/Entity), progress is not pursued in haste, but with harmony led by vision, guided by precision, and shaped through enduring partnerships. As the mobility landscape evolves, the Company's course is anchored by its North Star: a long-term strategic framework that blends ambition with clarity.

The theme 'Towards North Star: Shaping Tomorrow's Possibilities' reflects this philosophy. It encapsulates a journey defined by four enduring goals: a minimum 20% increase in revenue; over 20% ROCE through disciplined capital allocation; a steady progression toward 20% EBITDA margins; and over 20% of revenue from clean and future mobility solutions - including EVs, CNG, electronification, and software-led systems.

These are not distant ideals, but active drivers of transformation. From the EV-focused order book and Greenfuel acquisition to the **SHIFT** innovation hub and the **BRIDGE** roadmap to become system integrators.

Like the celestial North Star that has guided generations, this framework offers LATL a constant reference point - enabling it to navigate complexity with composure, and to shape the future of mobility with quiet confidence and enduring sophistication.

Shaping Excellence Since Eight Decades

The Lumax Group has a long-standing presence in the Indian automotive sector, with its journey beginning in 1945 through the establishment of Globe Auto. In 1956, the Group entered the manufacturing space with lighting systems and has since expanded into a diverse portfolio of automotive components.

Over the last eight decades, the Lumax Group has transformed into a premier manufacturer of automotive systems and components, through the expertise of Lumax Auto Technologies Limited (LATL) and Lumax Industries Limited (LIL).

The Group operates 42 state-of-the-art manufacturing facilities across India, backed by six Engineering and Design Centers in India, Taiwan, and the Czech Republic. It maintains robust alliances with leading OEMs in India, while actively serving aftermarket needs and global export markets.

With 16 entities spanning 8 Indian states and a workforce exceeding 15,000, the Group remains committed to enhancing product quality, streamlining operations, and innovating for future mobility.

The Group's philosophy is deeply rooted in customer satisfaction, integrity, and a commitment to operational excellence, values that guide its delivery of high-quality products while contributing to the evolution of mobility.

About LATL

Leading Auto Component Manufacturer

With 30 advanced manufacturing facilities strategically located across India's major automotive hubs, LATL has built a robust pan-India distribution network. The Company serves esteemed OEMs, including industry leaders such as Mahindra & Mahindra, Maruti Suzuki, Tata Motors, Toyota, Bajaj Auto, Honda Motorcycles and Scooters, reflecting its enduring relationships and established reputation in the Indian automotive landscape. The Company has established partnerships with renowned international players, including Mannoh, Cornaglia, Ituran, Yokowo, JOPP, FAE, AlpsAlpine and IAC, demonstrating its commitment to collaborative innovation and the adoption of global best practices.

A significant milestone in FY 2024-25 was the acquisition of a majority stake in Greenfuel's renewable energy business. This strategic move aligns with LATL's long-term sustainability agenda and is expected to unlock operational and technological synergies, reinforcing the Company's vision of accelerating growth through cleaner, future-oriented mobility solutions.

Established in 1981, Lumax Auto Technologies Limited is a leading Tier-1 supplier of automotive systems and components to major Original Equipment Manufacturers (OEMs) across India. The Company's diversified portfolio includes solutions across Advanced Plastics, Mechatronics, Structures and Control Systems, Aftermarket Segments, Alternate Fuels and Lighting.

Engineering Possibilities and Powering Mobility

At LATL, innovation meets integration in a product portfolio designed to serve the diverse and evolving needs of the global automotive ecosystem. The Company's offerings span a wide spectrum of categories that enhance vehicle functionality, safety, comfort, and performance across multiple platforms: two-wheelers, passenger vehicles, commercial vehicles.

Strategic Expansion into Green & Alternate Fuels

LATL has strategically entered the Alternate Fuels segment through the successful acquisition of a 60% equity stake in Greenfuel Energy Solutions. This move aligns with the Company's long-term vision for clean mobility, focusing on CNG, LNG, and hydrogen solutions. Greenfuel's domain expertise complements LATL's strong OEM partnerships and distribution reach, significantly increasing the potential content per vehicle for four-wheelers, with an anticipated content value ranging from ₹7,000 to ₹8,000 in the near term.

This partnership allows LATL to:

1. Tap into the fast-evolving **alternative fuels market**
2. Offer integrated solutions aligned with local and global **clean energy goals**
3. Diversify its portfolio with **future-ready propulsion technologies**

Driving Together

'North Star: Shaping Tomorrow's Possibilities' is more than a theme; it is a philosophy that defines how the Company innovates, scales, and delivers value across our ecosystem.

Mr Deepak Jain
Director

Mr Anmol Jain
Managing Director

Mr D K Jain
Chairman

Dear Shareholders,

FY 2024-25 has been a defining year for LATL, guided by our core belief: North Star: Shaping Tomorrow's Possibilities. This theme captures the essence of our progress - forging purposeful partnerships, advancing innovation across product domains, and co-creating value with all stakeholders.

'North Star: Shaping Tomorrow's Possibilities' is more than a theme; it is a philosophy that defines how the Company innovates, scales, and delivers value across our ecosystem.

At a time of rapid transformation in the mobility ecosystem, LATL's enduring collaborations with global joint venture partners and OEMs, combined with strategic foresight, have been central to its growth journey.

The acquisition of Greenfuel Energy Solutions marks a pivotal move into clean mobility solutions such as CNG, LNG, and hydrogen. We also deepened our global engagement by establishing a liaison office in Japan, giving us direct access to key technology partners and customers in one of the world's most advanced automotive markets.

A Resilient India in a Volatile World

Amidst a global environment marked by monetary tightening, supply-side realignments, tariff wars, and geopolitical complexities, India stood out as a beacon of resilience and opportunity. Driven by strong domestic demand, increased infrastructure investment, and a proactive policy environment, the automotive sector, in particular, has shown adaptability and strength, even as global markets remain uneven. Against this backdrop, we leveraged our diversified product base, deep OEM relationships, and agile execution to deliver performance aligned with the industry's evolving priorities: from electrification and premiumization to connectivity and clean energy.

Evolution in Motion

We are witnessing a fundamental transformation in the auto industry - from conventional engineering to a software-defined, tech-enabled mobility paradigm. **Recognizing this shift, we reorganized our business into future-ready verticals - Advanced Plastics, Structures & Control Systems, Mechatronics, Aftermarket and Alternate Fuels. This strategic realignment enhances operational focus, accelerates innovation, and strengthens our alignment with the evolving priorities of OEMs.** At the same time, our EV-agnostic portfolio enables us to seamlessly serve internal combustion, hybrid, and electric vehicle platforms, broadening our addressable market while de-risking our business model. One clear example of this momentum is IAC India, which has consistently delivered strong growth and healthy margins, particularly through its innovations in interior solutions tailored to the needs of leading OEMs. **In line with this, on May 22, 2025, the Company acquired the remaining 25% in IAC India, making it a wholly owned subsidiary.**

Financial Performance

FY 2024-25 was a landmark year for LATL, marked by robust growth and sustained operational excellence. Our consolidated revenue for the year stood at **₹3,637 Crore**, representing a 29% increase over the previous year. This growth was driven by strong demand in the passenger vehicle segment, supported by a buoyant festive season, successful new model launches, and the seamless integration of the IAC business, as well as continued momentum in the two-wheeler category, particularly in premium models. Our diversified order book, with a significant share from new business and a rising contribution from electric vehicle components, further underpinned top-line expansion.

Profit After Tax (PAT) rose to ₹229 Crore, reflecting a 37% year-on-year growth. This improvement was enabled by higher operating leverage, disciplined cost management, and a favorable product mix, driven especially by our technology-led offerings and the operational synergies achieved from recent acquisitions of Greenfuel Energy Solutions.

Our balance sheet remains strong, with a healthy return on capital employed and a low debt-to-EBITDA ratio, a reflection of our prudent financial management and our ability to fund growth initiatives without compromising financial stability. In recognition of this robust performance and our commitment to rewarding shareholders, the Board has recommended a dividend of ₹5.50 per share for FY 2024-25.

This performance underscores our ability to harness industry tailwinds, strengthen customer partnerships, and execute our strategy of innovation-led growth, positioning us well for sustained value creation in the years to come.

Segmental Review

In FY 2024-25, we delivered strong growth across our core business segments, driven by a focused approach to innovation, customer alignment, and technology integration.

The **Advanced Plastics** segment reported a strong year-on-year revenue growth of 27%, increasing from ₹1,663 Crore to ₹2,045 Crore. This performance was fueled by deeper penetration in the premium vehicle category and a continued emphasis on product innovation. The order book stands at **₹750 Crore**, indicating sustained demand across OEMs.

The **Mechatronics** segment continued to grow, recording an **80% growth** during the year, with revenues rising from ₹64 Crore to ₹115 Crore. This momentum was supported by higher wallet share and effective cross-selling during new model launches. The current order book is at **₹210 Crore**, reaffirming momentum in this emerging vertical.

Our **Structure and Control Systems** vertical posted a stable **8% growth** in FY 2024-25, with revenues rising from ₹643 Crore to ₹693 Crore. With an order book of **₹190 Crore**, this business is well-positioned to tap into future opportunities as a trusted technology partner within the evolving mobility ecosystem.

Our entry into the Alternate Fuels segment with Greenfuel Energy Solutions, a recent addition to our portfolio, has gained rapid traction amid the national shift toward alternative fuel platforms. Despite launching only at the end of November, the segment delivered revenues of **₹110 Crore** in FY 2024-25. With an order book of **₹150 Crore**, it is strategically poised to become a key growth engine for us in the years ahead.

The **Aftermarket** segment showed signs of a strong comeback, registering a **5% growth** in FY 2024-25. This performance was supported by improved liquidity conditions and the successful rollout of new product lines, reinforcing our confidence in a steady recovery path.

Charting the Next Curve

At LATL, our journey continues to be anchored by a clear and ambitious strategic framework. The mid-term vision defines four critical goals that steers our growth and transformation:

- 20%+ revenue CAGR, driven by new product segments and strategic acquisitions.
- 20%+ Return on Capital Employed (ROCE), reflecting disciplined capital allocation.
- Around 20% EBITDA margin, through sustained operational excellence.
- 20%+ revenue contribution from clean and future mobility solutions, including EVs, CNG platforms, electronification, and software-defined systems.

As we approach FY 2025-26, we embark on the next chapter of this evolution with the launch of our six-year midterm strategy, covering FY 2025-26 to FY 2030-31.
BRIDGE - our road to the North star is our overarching theme, leading this transformation.

Bold
Roadmap
Integrating
Drivers
Growth
Engine of Transformation

BRIDGE will enable us to harness the full potential of our diversified business portfolio, accelerate innovation, and pave the way for LATL to evolve into a systems integrator, a trusted partner in delivering integrated, intelligent mobility solutions of tomorrow.

Strategic execution extended beyond acquisitions. The merger process with Lumax Ancillary Limited, our wholly owned subsidiary, is underway, aimed at driving operational integration and optimizing capacity across the network. The consolidation of Greenfuel has added a compelling new growth lever, offering high content-per-vehicle potential along with scalable, export-ready product lines.

As of March 31, 2025, our order book stood at ₹1,300 Crore, with execution planned in a phased manner and achieving full completion by FY 2027-28.

Fueling this wave of growth and transformation are our strategic enablers. We continue to invest in R&D capabilities, focusing on Advanced Driver Assistance Systems (ADAS), Human-Machine Interface (HMI), software integration, and telematics, key differentiators in the emerging software-defined vehicle ecosystem. Our goal is to move up the value chain, evolving from a component supplier to a comprehensive solution integrator.

At the same time, we remain committed to increasing content per vehicle, enhancing operational efficiency, and expanding our presence with new and existing OEM partners. Importantly, we are building long-term relevance through EV-agnostic innovation and platform-wide compatibility.

Fueling this wave of growth and transformation are our strategic enablers.

1. **Increasing content per vehicle** across all segments by expanding offerings aligned with OEM platforms.

2. **Accelerating new product development** in areas such as ADAS, electronics integration, HMI, and telematics through internal R&D, and global JV expertise.

3. **Building an EV-agnostic portfolio** that caters to future vehicle architectures across fuel types.

4. **Deepening customer engagement** by being a trusted single-source partner.

5. **Undertaking geographic expansion** through exports and partnerships, especially in ASEAN, Africa, and Japan.

Scaling New Possibilities

Looking ahead, we are prepared for an exciting new chapter. Our growth will be fueled by a strong order book, the scale-up of high-potential joint ventures, and our planned entry into emerging global markets. Start of Production (SOP) for new programs with marquee four-wheeler OEMs and key two-wheeler clients is expected to begin contributing meaningfully from FY 2025-26 onward.

We are preparing for the future by:

- Launching next-gen Mechatronics products.
- Scaling the Aftermarket vertical.
- Realizing the full potential of Greenfuel across domestic and international markets.
- Strengthening our JV ecosystem to access new technologies and customer segments.

JVs like Lumax Alps Alpine India (switches, sensors), Lumax Yokowo (LF and shark fin antenna), and Lumax FAE (oxygen sensors under OBD2 norms) are poised to be major contributors.

In closing, FY 2024-25 has been a landmark year driven by strategic foresight, strong partnerships, and execution. Our strategic choices have positioned us well not just for the next fiscal year, but for the decade ahead. As we move forward, we will continue to be guided by our commitment to shared progress, innovation-led growth, and value creation.

Let us continue to Drive Forward Together into a future defined by trust, technology, and transformation.

Strategic Partnerships

Engineering Intelligence into Every Drive

In the era of smart mobility, technology has emerged as a critical differentiator. Through strategic partnerships, Lumax is elevating the in-vehicle experience by integrating safety, connectivity, and comfort. From advanced interior systems to telematics and sensor-based technologies, these alliances are delivering the intelligence and functionality that define next-generation mobility.

IAC International Automotive India Private Limited

IAC India brings to the table deep expertise in vehicle interior systems and components. With seven manufacturing plants across India, the Company has emerged as a go-to partner for OEMs seeking high-quality, design-led interior solutions. The subsidiary venture's strength lies in its ability to translate global design sensibilities into cost-optimized, locally produced systems for the Indian market.

Focusing on What Matters

LATL initiated its first comprehensive materiality assessment in FY 2023-24 and continued refining it further in FY 2024-25, enabling the Company to strengthen its ESG strategy. This initiative is designed to identify the critical issues that influence business growth and significantly impact stakeholders.

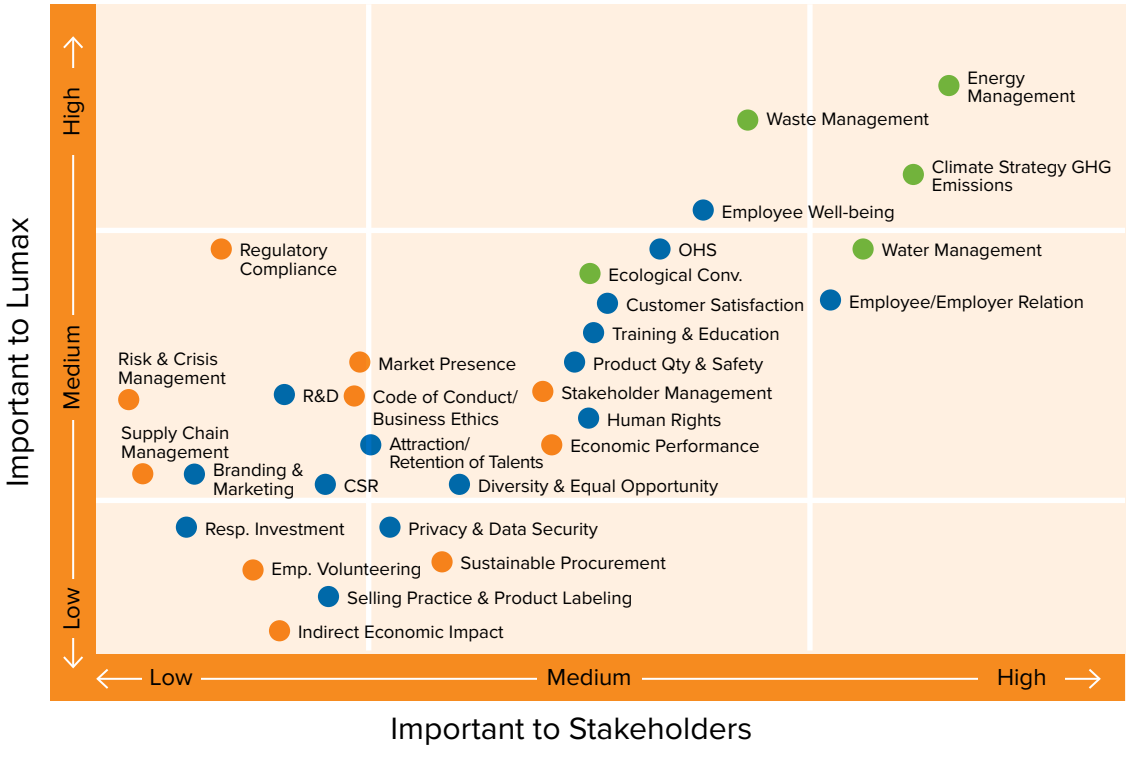

The Company followed a structured approach, considering both internal and external trends, to gather insights and assess potential risks to its value creation capabilities.

Externally, the Company tracked global and sectoral ESG trends using insights from sources such as the WEF Global Risk Report, ERM Sustainability Trends, MSCI, SASB, and S&P Global. These inputs helped align the strategy with emerging risks and opportunities.

Internally, material topics were identified through stakeholder consultations, online surveys, and a detailed desk review. All relevant topics were consolidated into a universe of issues, and prioritized based on relevance to the business and frequency of occurrence.

Financial Capital

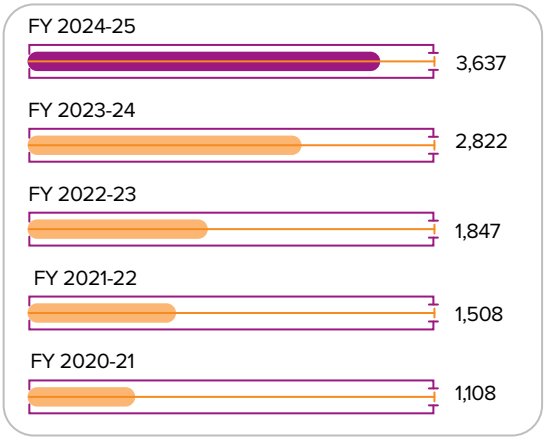

For LATL, performance is not merely a function of financial metrics. It is a reflection of strategic clarity, disciplined execution, and future-focused innovation. FY 2024-25 marked a pivotal year in LATL's journey, underscored by record revenue growth, stronger profitability, and enhanced shareholder value.

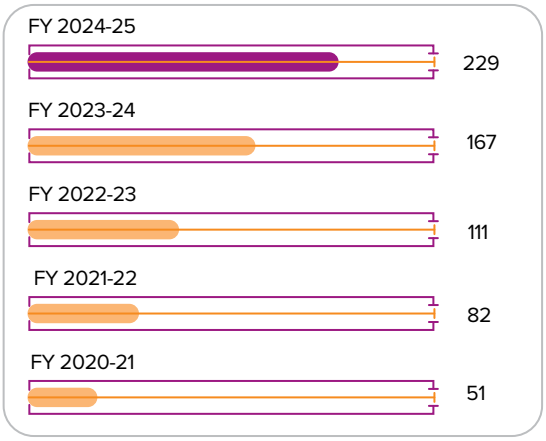

The Company continued to deliver robust, broad-based growth across product segments and business verticals, supported by strong OEM partnerships, a rising share of content per vehicle, and timely investments in forward-looking platforms. Strategic acquisitions and joint ventures further strengthened LATL's portfolio, while a healthy order book reinforced customer trust and ensured continued demand visibility.

Manufactured Capital

LATL's robust footprint spread strategically across the country, is backed by cutting-edge R&D capabilities, world-class engineering centers, and strong global partnerships. Together, these elements enable the Company to deliver high-performance, cost-effective, and sustainable solutions to OEMs and customers across multiple vehicle platforms.

By combining localization with technological excellence, LATL is strengthening its manufacturing ecosystem to meet rising demand, drive innovation at scale, and respond faster to emerging mobility megatrends.

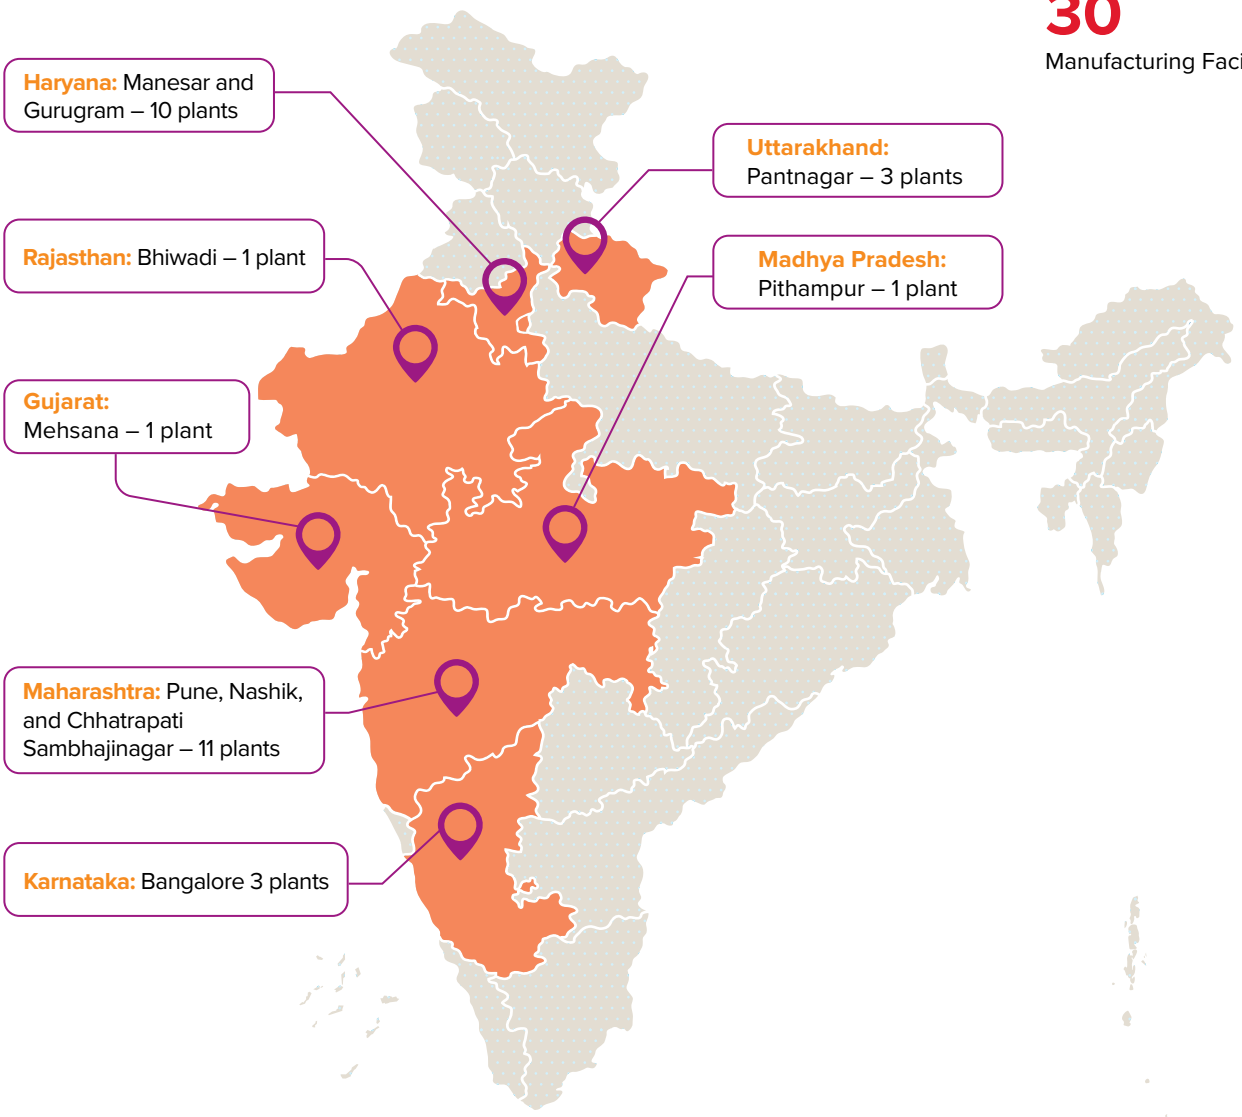

Driving the Future of Mobility with Strategic Infrastructure

State-of-the-Art Manufacturing Facilities

As of March 31, 2025, LATL operated 30 manufacturing facilities across seven Indian states, complemented by dedicated R&D centers and engineering hubs. These facilities are equipped with advanced technologies and adhere to stringent quality standards, underscoring LATL's commitment to excellence.

Manufacturing Facilities

In addition to manufacturing units, LATL has established R&D center in Manesar and engineering centers in Pune, supported by over 650 engineers dedicated to continuous product design and development. A satellite office in Japan further enhances its global outreach capabilities.

Strong Supply Chain and Localized Sourcing

LATL's strategic placement of manufacturing facilities near OEMs ensures a resilient and efficient supply chain. The Company's emphasis on localization, bolstered by joint ventures and global partnerships, reduces dependency on imports and enhances responsiveness to market demands. The acquisition of Greenfuel Energy Solutions has significantly extended LATL's capabilities in green and alternate fuel technologies, including CNG and hydrogen-based applications.

Intellectual Capital

In the fast-evolving world of mobility, it is not machines alone that drive transformation. It is the power of imagination, insight, and innovation. At LATL, intellectual capital is the engine that propels the Company into the future.

This capability is built on years of engineering excellence, a culture of continuous learning, a deep understanding of customer needs, and a commitment to investing in future-forward technologies. LATL's ability to imagine new possibilities, design smarter solutions, and bring them to market with agility forms the cornerstone of its long-term competitiveness.

Accelerating Ahead

A Strategic Shift Begins with a Role

The creation of the Chief Technology Officer (CTO) role during the year marked a pivotal moment for LATL. This development signals the Company's transition from incremental innovation to a deliberate, structured, and future-focused transformation. The CTO's mandate is to drive the future-proofing agenda by embedding cutting-edge technologies, accelerating product intelligence, and integrating software and electronics into LATL's portfolio. Every new initiative, from product design to partner collaborations, is now viewed, measured, and guided through this strategic lens.

Cultivating Lumax's Technological Edge

LATL emphasizes the enhancement of its R&D capabilities, with a significant focus on cutting-edge technologies. The Company has dedicated resources to this area which have led to tangible intellectual property, with 3 Patents granted, and 8 new patents filed.

To accelerate digital innovation, the Company has established Smart Hub for Innovation and Future Trends **(SHIFT)**. This dedicated platform helps explore emerging technologies such as software-defined vehicles and connected systems and identify and ride technology waves to expand LATL's total addressable market. Innovations developed here are shaping next-gen solutions across electric shifters, cockpit electronics, and telematics.

Strategic Collaborations as Innovation Multipliers

LATL's intellectual capital is amplified through global joint ventures that bring leading-edge technology, engineering expertise, and localized execution capabilities. These partnerships extend across future-critical domains:

1. **Lumax FAE:** Enabling compliance with OBD-II norms through advanced heated oxygen sensors.
2. **Lumax Alps Alpine:** Introducing HMI-centric products with high software content.
3. **Greenfuel:** The successful acquisition marks LATL's strategic entry into the alternate fuel segment.
4. **Lumax Ituran:** Delivering high-performance telematics solutions with 100% quality compliance.
5. **Lumax Yokowo:** Scaling up connectivity components with strong growth.

Such alliances not only deepen LATL's product portfolio but also serve as channels for knowledge transfer, capability building, and innovation scale-up.

Innovation in Action

Technology at Lumax is not confined to R&D labs.

The Company's digital backbone extends well beyond individual plants. It has integrated centralized data management systems across **30 manufacturing and engineering facilities**, giving leadership and plant teams a real-time view of key performance indicators (KPIs). These dashboards allow **proactive maintenance,** optimal **resource allocation**, and **data-driven decisions** minimizing downtime and maximizing asset utilization.

Where Innovation Meets Application

LATL's approach to innovation extends beyond in-house R&D. It is about bridging insight with execution and translating emerging trends into scalable, real-world solutions. A prime example is the acquisition of Greenfuel, a strategic move aligned with the evolving dynamics of India's mobility landscape. Acknowledging that the shift to electrification will be gradual, the Company is actively investing in intermediate powertrain solutions to maintain relevance across every stage of the transition.

In parallel, LATL is transforming its gear-shifting systems from traditional mechanical configurations to fully software-controlled solutions. With patents filed and prototypes in place, the Company is preparing for a future with shift-by-wire technology.

Responding to a Changing World

The future is unfolding rapidly and unpredictably. From electric and hydrogen vehicles to connected systems and ESG regulations, the signals are many. LATL's response is rooted in strategic flexibility and long-term foresight. Rather than betting on a single trend, the Company is systematically evaluating each product in its portfolio for adaptability to next-generation platforms. The Company is committed to increasing the share of business derived from non-internal combustion engine technologies, though the final form: EV, hybrid, or hydrogen - is still evolving.

Its approach is grounded in a simple yet powerful philosophy: understand emerging trends, anticipate their impact, and innovate responsibly.

ESG Strategy

Integrating ESG into our Operations

LATL views Environmental, Social, and Governance (ESG) principles not merely as a compliance requirement, but as a strategic lever to drive long-term stakeholder value. The Company's ESG strategy is rooted in a forward-looking and flexible approach that balances growth with responsibility. It focuses on delivering measurable outcomes that advance environmental sustainability, social inclusion, and business integrity.

By integrating ESG goals into its core operations, LATL is building a resilient, inclusive, and future-ready organization. A structured framework supports this journey, guiding efforts towards responsible growth, a skilled and empowered workforce, customer-centricity, and transparent governance. Cross-functional collaboration and a values-driven culture serve as the foundation for effective ESG implementation across the Company.

ESG Governance

LATL has established a structured ESG Management System to translate strategic intent into operational action.

ESG Team

- Sets the overall sustainability vision and long-term objectives.
- Develops actionable strategies, monitors implementation, and oversees disclosures.
- Dedicated ESG Working Groups support execution across focus areas, ensuring that targets are met and initiatives are aligned with stakeholder expectations.

Contribution to the UN SDGs

LATL's ESG approach is aligned with India's national priorities and the United Nations Sustainable Development Goals (UN SDGs), contributing meaningfully to global sustainability agendas through targeted initiatives under each ESG pillar.

Strategic Framework

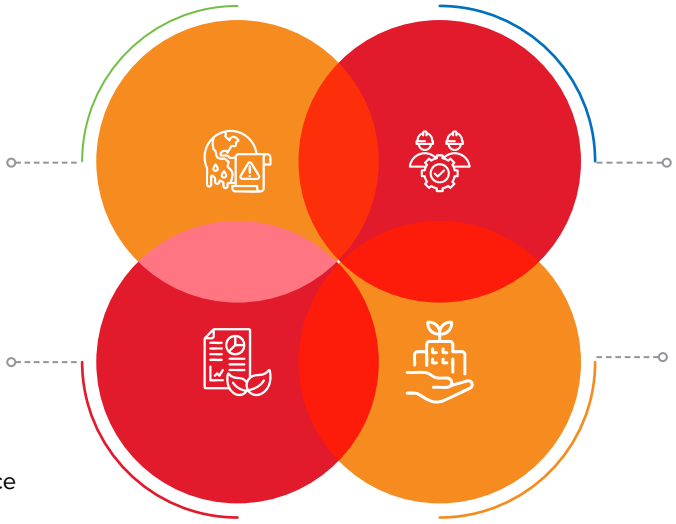

LATL's ESG strategy is built upon insights from its materiality assessment and is structured around four strategic pillars:

Environment Resilience

- Energy Management & Conservation
- Carbon Emission
- Waste Management
- Water Management

Workforce Synergy

- Occupational Health & Safety
- Employee Well-being
- Diversity, Equity & Inclusivity

Sustainable Business Practices

- Code of Conduct
- Regulatory Compliance
- Risk & Crisis Management
- Data Security
- Sustainable Procurement

Business Outreach

- Customer Satisfaction
- Research & Development
- Corporate Social Responsibility

Within these pillars, the Company has defined 15 key focus areas that steer its efforts. The ESG Governance System supports this strategy, ensuring diligent oversight, transparent progress tracking, and accountability at every stage of implementation.

ESG Strategic Pillars and Performance

This pillar focuses on minimizing the environmental impact of operations through resource efficiency, carbon footprint reduction, and sustainable asset utilization.

Environmental Resilience

3-Year Target

- Achieve RE100 by FY 2027–28
- Monitor, reduce, and report GHG emissions
- Waste Management as per 3R
- Achieve water neutrality

FY 2024–25 Progress

- 23.49 % of total energy sourced from renewable vs FY 2023–24 baseline 19.37% reduction in energy intensity vs FY 2023–24 baseline
- 0.98% reduction in carbon intensity vs FY 2023–24 baseline
- 7.69% reduction in waste intensity vs baseline
- 55.17% reduction in water intensity vs. baseline

LATL prioritizes building a safe, inclusive, and engaging work environment that enables employee growth and well-being.

Material Topic

- Occupational Health & Safety
- Employee Well-being
- Diversity, Equity & Inclusivity

Workforce Synergy

3-Year Target

- Zero fatalities across operations
- Strengthen Employee Feedback & Redressal System
- Increasing female workforce representation to 25%

FY 2024–25 Progress

- Zero fatalities reported
- Enhanced mechanisms for timely and effective resolution of complaints
- Women representation up 59% from FY 2023–24 baseline

This pillar focuses on driving innovation, customer satisfaction, and community engagement to create shared value.

Material Topic

- Customer Satisfaction
- Research & Development
- Corporate Social Responsibility

Business Outreach

3-Year Target

- Zero defects and improved satisfaction scores
- Increase focus on green patents
- Enhance community engagement

FY 2024–25 Progress

- 18.11% of R&D spend directed to environmentally and socially beneficial innovations
- Focused CSR initiatives targeted towards underserved and marginalized groups

LATL is committed to ethical, transparent, and responsible business conduct that reinforces stakeholder trust.

Material Topic

- Code of Conduct
- Regulatory Compliance
- Risk & Crisis Management
- Data Security
- Sustainable Procurement

Sustainable Business Practices

3-Year Target

- Zero instances of non-compliance
- 100% mitigation of identified risks
- Prevent any data breaches
- 100% adherence to procurement standards

FY 2024–25 Progress

- Achieved zero non-compliance
- Active implementation of mitigation measures
- No data breaches reported
- 9.58% of procurement aligned with sustainable practices

Natural Capital

Commitment to Environmental Stewardship

LATL understands that true progress is not measured by output alone - but by the impact that progress has on the planet. With the growing urgency of climate change and resource depletion, the Company views natural capital as a foundational pillar of long-term value creation. Whether it is the energy that powers manufacturing, the water that supports production, or the waste generated along the way, every environmental decision is guided by purpose, precision, and accountability.

Supported by strong management systems and a culture of continuous improvement, LATL continues to make measurable strides in reducing its ecological footprint and advancing its sustainability agenda.

Energy and Emissions

Amid rising environmental challenges, the Company continues to focus on operating low-carbon and sustainable manufacturing facilities. It recognizes its responsibility in contributing to a cleaner future through each stage of its operations.

Tracking Carbon Footprint

Addressing climate change requires timely and decisive action. In CY 2025, the Company measured its greenhouse gas (GHG) emissions in accordance with the WRI Greenhouse Gas Protocol to better understand its environmental impact. This assessment identified key areas for improvement and reinforced the Company's commitment to responsible and sustainable operations. Through prudent and efficient energy use, the Company aims to enhance its performance while supporting environmental well-being.

GHG Emissions (FY 2024–25)

1,797.42 tCO_2e
Scope 1 Emissions

31,406.87 tCO_2e
Scope 2 Emissions

33,204.29 tCO_2e
Total Emissions

7,157.45 tCO_2e
Emissions Avoided (Solar Power Plants)

In FY 2024–25, the Company recorded a 0.98% year-on-year reduction in emission intensity. Emission intensity declined from 0.0922 tCO_2e per ₹1,00,000 of revenue in FY 2023–24 to 0.0913 tCO_2e per ₹1,00,000 in FY 2024–25. This reduction reflects the impact of ongoing energy efficiency initiatives, process optimization, and greater reliance on renewable energy sources. It underscores the Company's commitment to reducing its carbon footprint and aligning with broader climate objectives.

Energy Conservation and Efficiency

Minimizing energy consumption and emissions is integral to environmental stewardship and supporting global climate goals. By improving energy efficiency and lowering GHG emissions, the Company not only reduces its environmental footprint but also contributes to long-term sustainability.

The Company remains committed to reducing energy consumption and enhancing operational efficiency through the implementation of sustainable and innovative practices. Several initiatives have been undertaken to achieve these objectives:

1. Optimizing Equipment and Process Operations
2. Upgrading to Efficient Systems and Technologies
3. Improving Air and Water Management
4. Enhancing Controls and Automation
5. Shifting Toward Renewable Energy

Renewable Energy Commitment: Rooftop Solar Plants

As part of its ongoing commitment to sustainability and reducing reliance on non-renewable energy sources, the Company continues to prioritize the integration of renewable energy solutions across its operations. These efforts aim to harness clean energy, reduce greenhouse gas emissions, and support the transition to a more sustainable business model.

A key initiative under this strategy has been the installation of rooftop solar systems on new warehouses. To date, rooftop solar plants have been successfully commissioned at eight facilities. These renewable energy systems have generated 9,845,186.96 kWh of clean energy in FY 2024–25, resulting in the avoidance of 7,157.45 tCO_2e of emissions.

Looking ahead, the Company is actively evaluating opportunities to expand its solar energy capacity by assessing the feasibility of further installations at additional sites and properties.

Water Consumption

With environmental concerns, responsible management of water resources has become a critical priority. In automotive component manufacturing, where precision and consistency are essential, water plays a vital role in ensuring product quality and process stability. As a responsible industry player, the Company remains committed to sustainable water management, aligning operational excellence with environmental stewardship.

Water Withdrawal and Consumption (FY 2024–25)

1,62,356.79 KL
Total Water Withdrawal

21,412.80 KL
Total Water Discharge

1,40,943.99 KL
Total Water Consumption

In FY 2024–25, the Company achieved a 55.17% reduction in water intensity compared to the baseline year. The water intensity decreased from 0.87 KL per ₹1,00,000 of revenue in FY 2023–24 to 0.39 KL per ₹1,00,000 in FY 2024–25. This significant improvement is the result of targeted water conservation initiatives implemented across manufacturing sites.

Water Conservation Initiatives

In line with its commitment to sustainable water use, the Company has adopted several measures to optimize water consumption and minimize waste. These initiatives reflect LATL's broader focus on environmental responsibility and resource efficiency:

1. **Upgraded Sewage Treatment Plant (STP) for Reuse**
2. **Water-Efficient Fixtures**
3. **Smart Cooling Tower and Storage Management**
4. **Reuse of RO Reject Water**
5. **Real-Time Monitoring and Leak Prevention**

Waste Generated

As part of its ongoing efforts to manage waste responsibly, the Company has introduced several organization-wide innovations that align with its commitment to environmental sustainability.

Waste Generation (FY 2024–25)

1,012.84 MT Plastic Waste	**1.53 MT** E-Waste	**00 MT** Bio-Medical Waste
00 MT Construction & Demolition Waste	**00 MT** Battery Waste	**00 MT** Radioactive Waste
523.24 MT Other Hazardous Waste	**2,943.05 MT** Other Non-Hazardous Waste	**4,480.66 MT** Total Waste

The Company remains firmly committed to achieving zero waste to landfill. This objective was successfully met during FY 2024–25, with no waste sent to landfill.

In FY 2024–25, the Company also recorded a 7.69% reduction in waste intensity. Waste intensity declined from 0.013 MT per ₹1,00,000 of revenue in FY 2023–24 to 0.012 MT per ₹1,00,000 in FY 2024–25. This improvement reflects continued efforts to enhance waste management practices and implement reduction initiatives across operational sites.

Waste Reduction and Management

Recognizing the vital role of waste management in operational efficiency and environmental sustainability, the Company has implemented a comprehensive set of initiatives aimed at minimizing waste generation and improving handling practices. Effective waste management contributes to a safer workplace, conserves resources, and reduces environmental impact. Key initiatives include:

1. Use of Recycled and Lower GSM Invoice Paper
2. Optimized Invoice Format
3. Digital Registers
4. Waste Segregation and Recycling
5. Vermi-Composting for Food Waste
6. Reduction and Reuse of Polybags
7. Standardized Packing Bins

People remain at the heart of everything the Company does. As the mobility sector undergoes transformative shifts, LATL recognizes that human capital is its most powerful differentiator. More than employees, LATL views its people as innovators, collaborators, and stewards of the Company's future.

In FY 2024-25, the Company strengthened its focus on building a diverse, inclusive, and future-ready workforce, embedded in a culture of continuous learning, well-being, and mutual respect. With structured talent development initiatives, progressive diversity policies, and an unwavering commitment to safety, LATL is building not just capabilities-but character.

Empowering People for Sustainable Growth

Health and Safety

The Company has embedded an Occupational Health and Safety Management System as a core component of its operations, aiming to provide a safe, healthy, and environmentally responsible workplace. The Company remains focused on improving health and safety performance, achieving an incident-free work environment, reducing waste to conserve natural resources, complying with all applicable legal requirements, and ensuring responsible disposal of waste and pollutants. Innovation is encouraged to proactively prevent pollution, injuries, and illnesses.

As of FY 2024–25, 85.19% of the Company's plants are ISO 45001 certified, reflecting a consistent commitment to high occupational health and safety standards across operational sites.

Key Initiatives for Employee Safety

Hazard Identification and Risk Assessment (HIRA)

HIRA is conducted regularly to systematically evaluate the work environment and operational tasks. This assessment identifies hazards that may pose risks to employees, visitors, or the environment. Each identified risk is assessed based on likelihood and severity, and appropriate control measures are implemented to mitigate them.

Health and Safety Inspections

Routine inspections and audits are performed to assess environmental, health, and safety (EHS) practices. These inspections help identify areas for improvement, ensure compliance with regulatory standards, and support the development of corrective action plans where necessary.

A comprehensive 188-point Safety Audit Checklist is used to assess daily operations.

For non-routine tasks - such as work at height or excavation-a Permit-to-Work (PTW) system and additional hazard identification methods are employed to ensure safety.

Employee participation is encouraged through hazard reporting during meetings and feedback sessions, reinforcing a collaborative safety culture.

Key Highlights – FY 2024–25

- Zero fatalities or Lost Time Injuries (LTIs) reported for both employees and workers.
- 98% of permanent and contract workers received safety training.
- Comprehensive safety audits, emergency response team (ERT) implementation, and ergonomic safety measures in place.
- Zero recordable work-related injuries reported during the year.

Employee Well-being

The Company continues to strengthen healthcare support systems to ensure the well-being of all employees. An in-house doctor is available for consultations, and Occupational Health Centers (OHCs) provide comprehensive services, including treatment for minor illnesses, emergency care, and pre-employment health screenings for contractual workers.

The Company also conducts regular hygiene audits across facilities and organizes wellness and awareness programs aimed at promoting healthy lifestyles. These initiatives foster a dependable healthcare environment, contributing to improved physical and mental well-being across the workforce.

Employee Training and Development

At LATL, employee development remains integral to business growth and long-term sustainability. The Company ensures 100% training coverage across both employees and workers, with a focus on health and safety, skill enhancement, quality, compliance, and behavioral competencies.

Key Highlights – FY 2024–25

- 100% training coverage for employees and workers on human rights policies and procedures.
- Inclusion of contractual and third-party personnel in relevant training modules.

1 Technical and Operational Training

- CAE & CFD Analysis
- Mold Flow & Product Manufacturing Feasibility

Employee Benefits

The Company offers a comprehensive employee benefits program designed to ensure financial security, enhance engagement, and promote overall well-being. These initiatives reflect the Company's commitment to creating a supportive and inclusive workplace culture.

Key Highlights – FY 2024–25

1. 100% health and accident insurance coverage for all employees and workers.
2. Maternity and paternity benefits provided to all eligible employees.
3. 0.14% of total revenue allocated to employee well-being initiatives, up from 0.09% in FY 2023–24.
4. 93.8% of employees and 74.8% of workers participated in formal performance appraisals.

Social and Relationship Capital

At LATL, sustained growth is rooted not only in internal capabilities but also in the strength of its external relationships. The Company's Social Commitment represents the depth and resilience of its engagements with suppliers, partners, and communities.

These collaborations are consciously nurtured to foster innovation, enable responsible operations, and deliver shared value. By investing in a future-ready supplier ecosystem and high-impact community development, LATL is creating a holistic ecosystem where every stakeholder progresses with purpose.

Cultivating Relationships for a Sustainable Tomorrow

Supplier Ecosystem

LATL's operational model relies extensively on its suppliers, who perform a significant portion of the Company's core manufacturing processes. These strategic partnerships support the Company's long-term growth ambitions, including its aspiration to double revenue by 2030.

Strategic Supplier Development for Future Technologies

LATL is proactively creating a pool of technologically capable suppliers aligned with the needs of the next 2 to 5 years. These suppliers are evaluated and on boarded based on their ability to deliver complete solutions tailored to both LATL and customer specifications.

Key Evaluation Criteria for New Technology Suppliers:

- **Financial Strength**
- **Quality Standards**
- **Costing Norms Aligned with LATL Benchmarks**
- **Technological Readiness and Innovation Capability**
- **Commitment to Sustainability, Safety, and Diversity**

Fostering Operational Excellence through Collaboration

LATL engages suppliers early in the product lifecycle, involving them from the design stage. This early engagement ensures that components are manufacturable at optimal cost, supporting both design-to-cost and redesign-to-cost methodologies aligned with customer expectations.

The Company has established seven supplier clusters across India, each serving as a hub for monthly training and competency enhancement. These sessions facilitate knowledge transfer, issue resolution, and training on LATL's digitized procurement platforms, covering demand generation, planning, and material flow.

LATL is also consolidating transport providers in select regions to streamline supply chain logistics and improve cost efficiency.

Key Supplier Engagement Metrics (FY 2024-25)

1

Green Supplier Contribution

80% of buying value long-term savings.

2

Active Supplier Clusters

7 (India-wide), with monthly engagements

3

CNG Transport Target

40-50% fleet conversion

4

Supplier Case Studies

Sustainability Integration Across the Supply Chain

LATL has embedded sustainability principles into supplier engagement frameworks. A substantial 80% of the Company's total procurement value is sourced from green suppliers: partners actively working on sustainability initiatives and publicly disclosing progress. LATL's dedicated internal team tracks these metrics to ensure transparency and continuous improvement.

For suppliers still at the nascent stage of their sustainability journey, LATL facilitates capability-building through knowledge sharing and roadmaps, particularly in the adoption of renewable energy solutions.

Sustainable Practices in Focus:

Returnable Packaging
Collaboration with nearby suppliers to reduce single-use materials by shifting to returnable packaging systems.

Milk Run Logistics
Optimizing logistics through a shared vehicle route that collects supplies from multiple vendors, minimizing trips and emissions.

CNG Vehicle Transition
Partnering with logistics providers to transition **40-50% of the total transport fleet** to CNG vehicles, reducing carbon footprint.

Customer Focus

Customer satisfaction is the ultimate measure of LATL's relationship capital. Every partnership, with suppliers or communities is structured to deliver products that align with evolving customer expectations in terms of cost, quality, and innovation.

Customer specifications serve as the starting point for supplier engagement. LATL's design-to-cost focus, supported by early supplier involvement and deep domain knowledge, ensures that deliverables are not only functional but cost-efficient, sustainable, and future-ready.

Additionally, the Company is committed to continuously enhancing product quality and performance by actively gathering and acting on customer feedback through multiple channels. These include the corporate website, customer meetings, satisfaction surveys, dedicated helplines, and technical support services.

To protect customer interests, the Company has also implemented robust policies and systems to safeguard customer data privacy, ensuring that all personal and sensitive information remains secure at all times.

Key Highlights

1. The Company maintains strong relationships with leading OEMs and Tier-1 suppliers across the automotive sector.
2. Product design and development are centered on durability, efficiency, and sustainability, in line with evolving customer expectations.
3. There is active collaboration with customers on ESG compliance and sustainable sourcing requirements.
4. Regular customer engagements and audits are conducted to ensure adherence to quality, safety, and sustainability standards.
5. During FY 2024–25, customer complaints decreased by 26.11%, reflecting LATL's ongoing focus on quality improvement, responsiveness, and operational excellence

Corporate Social Responsibility

At LATL, success is inextricably linked to the well-being of the communities where the Company operates. LATL believes that investing in people and the planet is fundamental to creating a lasting, positive impact that extends beyond business boundaries. Through its dedicated CSR arm, the Lumax Charitable Foundation, the Company commits to fostering social and economic development while prioritizing environmental sustainability. The Foundation focuses on transforming the lives of vulnerable groups, particularly children, youth, and the elderly by enhancing access to quality education, life skills, and healthcare services.

LATL's CSR initiatives are closely aligned with the United Nations' Sustainable Development Goals (UN SDGs), reinforcing a holistic and inclusive approach to building a brighter and sustainable future for all stakeholders. By integrating these global frameworks, LATL ensures its programs address critical social challenges while promoting equitable growth.

To maximize the reach and effectiveness of its CSR activities, LATL employs a structured and methodical approach that includes:

Conducting Detailed Needs Assessments to identify communities and areas where interventions can have the greatest positive impact. returnable packaging systems.

Engaging Stakeholders and Community Members through effective on-ground mobilization, fostering local ownership and active participation.

Partnering with Like-Minded Organizations, including NGOs, social enterprises, and government agencies, to leverage expertise, resources, and enhance program delivery**.**

Monitoring Projects Rigorously with daily and weekly oversight to ensure timely progress and address challenges proactively.

Performing Comprehensive Evaluations through both internal reviews and external assessments to gauge the success and social impact of each initiative.

LATL's CSR portfolio is strategically designed to create sustainable improvements in education and health, thereby enabling holistic community development. Some of the key highlights of these impactful projects include:

Initiatives

At Lumax Auto Technologies Limited (LATL), we believe that true success transcends business performance, it lies in the ability to uplift lives, nurture potential, and create sustainable impact in the communities we serve. Through our dedicated CSR arm, the Lumax Charitable Foundation, we are committed to building an equitable society where every individual, especially the vulnerable, has access to quality education, essential healthcare, and opportunities for a better life.

Guided by the United Nations Sustainable Development Goals (UN SDGs), our CSR initiatives prioritize Quality Education (SDG 4) and Good Health and Well-Being (SDG 3). These aren't just goals, they are the foundation for a brighter, more inclusive future.

Education & Youth Empowerment: Beyond Schooling, Towards a Life of Dignity

Access to education is not just about learning, it's about opening doors, expanding choices, and empowering individuals to build a meaningful life. Our education-centric programs are designed to support and nurture students at every critical stage of their development

- **Life Skills and Career Counseling:**

  Adolescents in rural and underserved areas often lack guidance on navigating life's challenges or choosing career paths. LATL's life skills and career counseling programs equip students with self-awareness, decision-making abilities, critical thinking, interpersonal skills and confidence etc., skills that are crucial for personal and professional success. The career counseling programs help in understanding various education options, the aptitude tests help align capacity and capability with interest to identify suitable career options. The orientation and counseling sessions help decide and prepare for clearing all doubts.

- **Usha Ki Kiran Scholarships:**

  This scholarship program reflects our belief that talent must never go unrecognized due to financial limitations. Offered to both need-based and merit-based students, it enables access to continued education and opens pathways to employability. It is not just funding; it's faith in their future.

- **STEAM Learning and Digital Literacy:**

  By integrating Science, Technology, Engineering, Arts, and Mathematics (STEAM) into early education, and improving access to digital tools as also teaching support, we are preparing students for a rapidly evolving world. These programs aim to nurture curiosity, creativity, and critical thinking, essential for thriving in today's competitive environment.

Each initiative is deeply personal. The girl child integration into schools, is about helping a girl from the underserved community, dream of becoming a software engineer. It's about a young boy learning to express his ideas confidently. It's about breaking cycles of poverty through the power of education and personality development.

Health & Wellness: Creating Healthier Communities through Access and Awareness

Good health is a basic right, not a privilege. At LATL, we view healthcare through a preventive and inclusive lens, focusing on early detection, access to treatment, and building community awareness:

- **Cancer Screening and Awareness Drives:**

  Early detection can be life-saving. We conduct regular cancer screening camps, especially for breast, cervical, and oral cancers, along with sensitization workshops that demystify the disease, encourage regular check-ups, and reduce stigma.

- **Eye Screening and Free Cataract Surgeries:**

  For many elderly individuals in low-income communities, impaired vision means loss of independence and employment opportunities. Our eye health programs provide screening and free cataract surgeries, restoring sight and dignity.

- **Juvenile Diabetes Interventions:**

  Chronic conditions like Type 1 diabetes in children require sustained support. Our interventions ensure timely diagnosis, access to insulin, nutritional guidance, and emotional care, enabling young lives to be lived fully and confidently.

Driving Change through Collaboration and Compassion

Every LATL initiative begins with listening to communities, to data, and to the lived experiences of those we serve. Our approach includes detailed need assessments, strong on-ground mobilization, and trusted partnerships with NGOs, social enterprises, and government agencies. Each project is monitored rigorously and evaluated for real-world impact.

Together, these efforts help foster resilient, educated, and healthier communities, ensuring that development is not just top-down, but community-led, sustainable, and inclusive.

At LATL, CSR is not just a responsibility, it is a commitment to human potential, a promise to stand with those who need it the most, and a belief that business can and must, be a force for good.

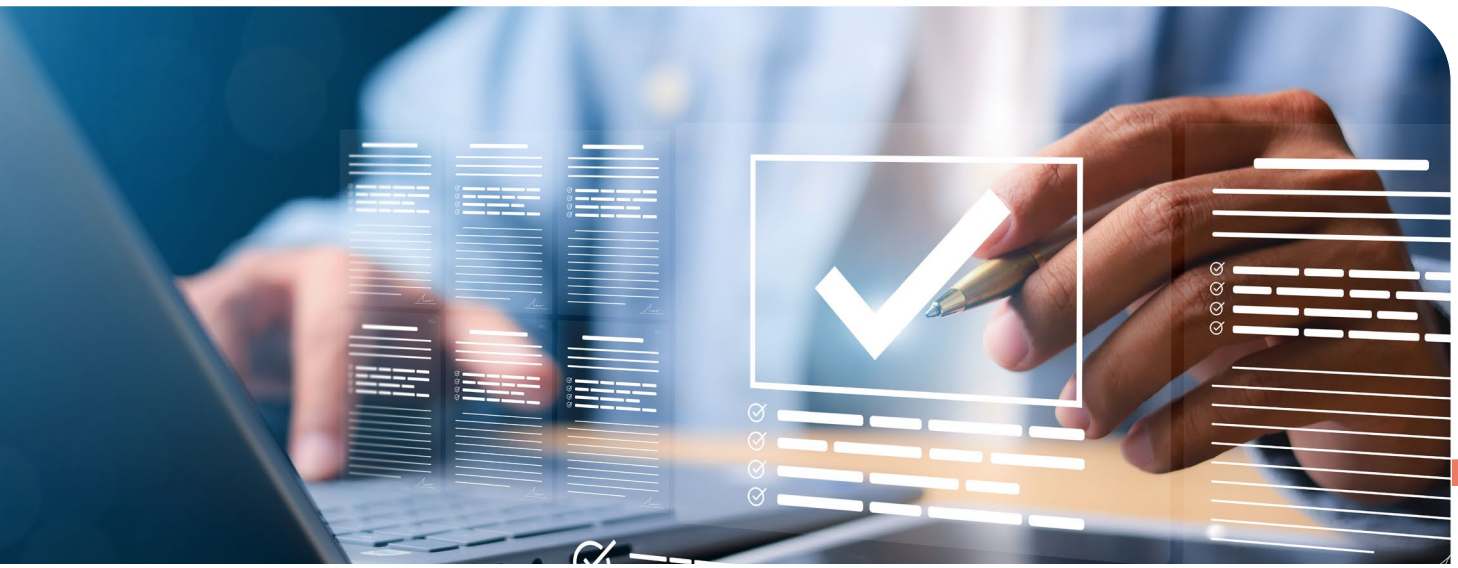

Upholding Corporate Governance Excellence

At LATL, corporate governance is a strategic enabler of long-term success. The Company upholds a robust governance framework that fosters transparency, ethical conduct, and responsible decision-making across all levels of the Company. LATL's governance philosophy is rooted in earning stakeholder trust, cultivating a culture of integrity, and ensuring that operations remain aligned with principles of accountability and fairness.

These strong governance practices enable the Company to effectively manage risk, remain compliant with dynamic regulatory requirements, and create enduring value for shareholders and stakeholders alike. By continuously strengthening its governance mechanisms, LATL remains well-positioned to inspire trust, attract responsible capital, and steer its growth journey on a sustainable path.

Governance at LATL ensures:

- Ethical conduct and responsible decision-making
- Ethical and sustainable procurement practices
- Risk management and compliance adherence
- Transparent disclosures and investor confidence
- Inclusive stakeholder engagement
- Strategic agility and long-term value creation
- Ensuring data security

Upholding the Highest Standards of Corporate Governance

LATL integrates strong governance into every aspect of its operations, enabling effective risk management, regulatory compliance, and long-term value creation. In FY 2024–25, the Company continued to reinforce its governance framework through the following key initiatives:

Ethical Conduct & Compliance

The Company reported zero instances of non-compliance with its Code of Conduct and regulatory requirements, reflecting a deep-rooted culture of ethics, accountability, and transparency.

Risk, Data & Crisis Management

LATL strengthened its risk management practices through proactive mitigation measures, robust internal controls, and well-defined contingency plans. No data breaches were reported during the year.

Sustainable Procurement & Policy Enhancements

The Company is compliant with the Sustainable Procurement Policy and has introduced new policies on sustainable procurement and risk management to embed responsible practices across the value chain.

Empowered Decision-Making & Technology Leadership

LATL revised its Decision Authority Matrix to enhance agility while maintaining oversight, and appointed a Chief Technology Officer to strengthen in-house digital capabilities and future-readiness.

Oversight, Assurance & Engagement

The Company continued ISO certifications (14001, 45001, 27001, and 50001), conducted independent audits, and engaged with stakeholders through structured channels. Regular training sessions on governance, ethics, and compliance were conducted for employees and vendors.

II. STATE OF COMPANY'S AFFAIRS

The past fiscal year presented mixed sentiments for the Indian automotive sector. While the passenger vehicle (PV) segment recorded only marginal growth in production compared to the previous year, the two-wheeler (2W) segment experienced robust growth.

Supported by significant new product introductions and strong confidence from Original Equipment Manufacturers (OEMs), the Company achieved growth that outpaced the overall industry on a consolidated basis.

It was a successful year for the Company, marked by an expanded product portfolio and new business wins from existing customers, contributing to a stronger top line.

In response to OEMs' growing focus on localization to mitigate supply chain risks, the Company has invested in upgrading its existing manufacturing facilities. These upgrades will support the successful localization of technologically advanced products, providing customers with high-quality solutions and enhanced supply chain resilience.

The Company is also strategically expanding its presence in the PV segment. It is actively aligning its operations to support this initiative by introducing future product lines through various joint ventures (JVs).

Driving Force to Achieve Excellence within Organization

Driving operational excellence across plants through a strong emphasis on Kaizen, Total Employee Involvement (TEI), Quality Circles, Total Productive Maintenance (TPM), and other continuous improvement initiatives.

Strengthening plant-level engagement through effective communication platforms such as town halls and business communication meetings.

Fostering an open and inclusive work culture, supported by robust Reward & Recognition (R&R) policies aimed at holistic human resource development.

Placing a strong focus on the implementation of Environmental, Social, and Governance (ESG) practices across the organization.

Future Approach

- A strategic focus on capitalizing emerging opportunities in the passenger vehicle segment is driving demand for high-value components.
- The Company is actively exploring future growth in the electric vehicle (EV) space by identifying and engaging with potential partners to leverage this evolving market.
- Efforts are underway to introduce new technologies aligned with the market's shift toward the premium segment, with a particular emphasis on Advanced Driver Assistance Systems (ADAS).

BOARD'S REPORT (Contd.)

- A strong emphasis is placed on becoming a self-reliant supplier by enhancing in-house R&D capabilities. This includes the establishment of a dedicated R&D center aimed at building software development capabilities, with a key focus on Software-Defined Vehicles (SDVs), to meet the evolving needs of OEMs.

To stay ahead in the competition, the Company is exploring best technologies in all its operations.

This year, your Company took following key initiatives to strengthen the digital foundation:

V. BUSINESS RESPONSIBILITY AND SUSTAINABILITY REPORT

A detailed Business Responsibility and Sustainability Report in terms of the provisions of Regulation 34 of the Listing Regulations forms a part of the Annual Report.

VI. CORPORATE SOCIAL RESPONSIBILITY (CSR) POLICY AND INITIATIVES

The Company is dedicated to continuing to give back to the society while expanding and conducting business in a socially responsible and sustainable manner. A judiciously thought-out CSR program improves and influences communities by generating social and environmental value. The Company's primary areas of interest have been Quality Education and Good Health

for underprivileged sections in society. The Company's focus areas are covered under Schedule VII and Sustainable Development Goals. During the year, the Company kept up its support for the current educational institutions by offering career counseling, integrating students into the learning centers and schools, providing books and other learning resources, and improving possibilities for a comprehensive education. The Company focuses on preventative healthcare as part of its health initiatives by regularly conducting health check-up camps for cataract surgeries and providing financial support to juvenile diabetic patients.

The Lumax Charitable Foundation ("Foundation"), the Company's CSR arm/trust, is principally responsible for carrying out the CSR projects. The Foundation focuses on providing healthcare and education to underprivileged girls and women.

In compliance with the Act's provisions, the Company established the CSR Committee of the Board and created and executed a CSR Policy. The Committee monitors and oversees the Company's numerous CSR projects and endeavours.

During the year under review, the Company's obligation to spend on CSR activities was ₹ 176.44 Lakhs [₹ 152.82 Lakhs (after set-off)] i.e. 2% of the average net profits during the three immediately preceding financial years against which the Company has actually spent ₹ 161 Lakhs including the administrative expenses.

KEY CSR ACTIVITIES

As part of its commitment to the India Sustainable Goals of 'Quality Education' and 'Good Health', the Company offers holistic education opportunities as well as preventive and curative health initiatives. The Lumax Charitable Foundation team and its implementation partners oversee these initiatives and programs.

EDUCATION

Aiming to deliver holistic and quality education, the interventions include, girl child enrollment in schools, learnings aids, beyond school learning support. Its goal is to provide and enable underprivileged students to enhance their learning experience through continual life-skills and soft-skills training, comprehensive career counseling, and field excursion trips. The programs assist in providing scholarships to students to continue with their education without any disruption due to financial constraints.

Continuous infrastructure support is provided to the government schools that include construction of toilets, classroom, wall painting and other infra work to ensure a conducive environment at school.

Preferably, the programs are held in the vicinity of the Company's plants.

HEALTH

Under health intervention, the Foundation has been organizing camps for screening and awareness on cancer prevention to the communities close to the facilities. Blood profiling is part of the cancer screening process, which also entails physical examinations by gynecologists, surgeons, and ENT specialists, as well as radiological examinations.

It has also organized camps for eye care, conducting eye examination and cataract procedures are performed.

CONSTITUTION OF CSR COMMITTEE

As on March 31, 2025, the CSR Committee comprised of Mr Deepak Jain as Chairman, Mr D.K. Jain and Ms Diviya Chanana as Members.

The constitution of ICC is as per the provisions of POSH and includes external Members from NGO or those individuals having relevant experience.

The detail on status of complaints filed, disposed off and pending with regard to POSH is incorporated in Corporate Governance Report forming part of the Report.

During the year under review, i.e. FY 2024-25, Seventeen (17) meetings and Forty Four (44) awareness sessions were held across all manufacturing and office locations. Further, as per the applicable provisions of POSH, the Company continues to submit Annual Report to the District Officer consisting of details as stipulated under the said Act.

J. ENVIRONMENT, HEALTH & SAFETY

The Company is deeply committed to protecting the well-being of its employees and prioritizes safety above all. It consistently focuses on aligning its policies, procedures, and systems with current laws and best practices. Over the past nine years, the Company has made substantial efforts to improve its safety management practices.

This has involved a progressive refinement of policies and procedures to ensure their

BOARD'S REPORT (Contd.)

effectiveness and relevance. The Company regularly updates the said policies to stay current with evolving standards and regulations. Additionally, it has enhanced its systems for conducting risk assessments, ensuring these assessments are thorough and conducted regularly. This includes evaluating workstations and other key components of a comprehensive safety management system.

Beyond internal initiatives, the Company works closely with safety officers and external agencies. This collaboration supports ongoing improvements in safety practices and fosters a culture of continuous learning and development. By engaging with both internal and external partners, the Company aims to create a safer work environment for all employees.

Key aims and objectives achieved in the year 2024-25 includes:

- Zero Cases of Major Incidences & Fire Cases.
- Corporate safety procedures & Emergency Procedures : - The Company closely reviewed its safety rules and emergency plans to ensure they were current and effective. Additionally, audits were conducted to assess the management of safety measures.
- Safety Competence, Awareness and Training :- Employees received training to understand safety procedures and be aware of potential risks. This ensured that everyone was equipped to stay safe while working.
- Safety Performance and Risk Management :- The Company established a system to manage safety and address potential risks. This approach helped prevent accidents and ensured the well-being of everyone.
- Team Approach to Safety Objectives :- Teams within the Company collaborated to reach key safety goals, which facilitated improvements in safety throughout the organization.
- Strong Safety Management System and Committees :-The Company upheld a strong safety management system, supported by safety committees that played a crucial role in discussing and advancing safety improvements swiftly and effectively.
- Embedding Safety in Meeting agendas for cultural change :- Safety was consistently prioritized in meeting agendas across all levels of the Company. This approach ensured that safety practices were regularly reinforced and contributed to fostering a culture of ongoing enhancement in safety standards.

Apart from the above, the Company has also performed below activities in FY 2024-25:

1. Employee Engagement Activities (Celebrated National Safety week, Personal Protective equipment demonstrations, Mock Drill, Unplanned – Evacuation Drill, Road Safety Week, World Environment Day, Safety Motivational Reward activities, Work place Safety awareness Training, Safety Quiz Program & World Environment Health Day)
2. KYT - Kiken Yochi Training (Identifying hazard and taking corrective measures with the help of actual users).
3. Hazard Identification and Risk Assessment of the Machine.
4. Hazards specific Safety training (Fire Fighting, Near Miss, First Aid, Electrical Safety, Chemical & Machine Safety).
5. Monthly Internal safety Committee Meeting.
6. Regional Safety Meeting at all regions.
7. Safety Gemba Audit and Monitoring.
8. Thermography study, Arc flash study & Fire Load Calculation
9. Ventilation Study
10. Earthing inspection and testing
11. Fire Risk Assessment Audit.
12. Comprehensive review/surveillance audit done as per ISO 14001:2015 (Environment Management System) and ISO 45001:2018 (Occupational Health & Safety Management system).

MANAGEMENT DISCUSSION AND ANALYSIS

ECONOMIC OVERVIEW

GLOBAL ECONOMY

The International Monetary Fund (IMF) revised its global economic growth projections, reflecting resilience amid emerging challenges. It now expects global GDP to slow to 2.8% in CY 2025, compared to an estimated 3.3% in CY 2024. Growth is projected to pick up slightly in CY 2026, reaching 3.0%. While these forecasts remain below the historical average of 3.7% (CY 2000-2019), they reflect relative stability amid persistent disruptions.

Several structural and policy-driven trends are shaping the global economy. One consequential development is the introduction of sweeping tariffs by the US under President Trump. These include a 10% tariff on almost all imports and punitive duties of at least 145% on Chinese goods. The US has also announced plans for reciprocal tariffs on key trading partners, including the EU, Japan, South Korea, and Taiwan, although their enforcement awaits the outcome of further trade negotiations.

The global economic environment continues to face challenges from rising policy uncertainty and persistent geopolitical tensions, weighing heavily on business sentiment and long-term investment plans. However, strong consumer spending and growing momentum in select emerging markets help offset this cautious scenario to some extent.

A more favorable trend is the projected decline in global inflation. Global headline inflation is projected to fall to 4.3% in CY 2025 and 3.6% in CY 2026. Advanced economies are expected to see notable upward revisions, while emerging and developing economies may experience slight downward adjustments in CY 2025.

Looking ahead, the impact of tariffs on global growth will hinge largely on the trajectory of trade negotiations. If current tariff regimes persist, export-driven sectors could remain under pressure, with higher costs for consumers and producers. On the other hand, successful trade negotiations could ease tensions, partially reverse adverse effects, and help restore confidence and stability across global markets.

Indian Economy

While major global economies experience slowing growth, India continues to advance with strong macroeconomic fundamentals. Government reforms aimed at boosting business efficiency and encouraging investments have further strengthened the nation's appeal to global investors.

India's economy continues to expand steadily, projecting real GDP growth at 6.5% for FY 2024-25, affirming its position as the world's fastest-growing major economy. Strong private and government consumption, coupled with positive net exports continue to propel growth, despite global headwinds.

Inflation dynamics have also seen shifts in recent months. Core inflation remained subdued across goods and services, while the fuel segment continued to experience deflation. This decline in fuel prices was driven by a combination of lower global crude oil prices, government-led tax reductions on petroleum products, and increased renewable energy adoption, which reduced demand for conventional fuels.

Complementing this positive macroeconomic backdrop, the Union Budget for FY 2025-26 aims to sustain economic progress through strategic initiatives. Key areas include promoting agricultural development, supporting the manufacturing sector under the 'Make in India' initiative, and implementing skill development programs to generate employment.

Outlook

India is set to remain the fastest-growing major economy in FY 2025-26 and FY 2026-27, strengthening its global standing. The country's services sector is anticipated to witness strong expansion, while manufacturing will gain momentum through government-led improvements in logistics infrastructure and tax reforms. Private consumption is expected to rise, fueled by a strong labor market, greater credit access, and lower inflation. Investment growth is also likely to remain stable, supported by rising private sector investments, healthier corporate balance sheets, and favorable financing conditions.

The Indian government has launched several strategic initiatives to drive long-term economic growth and global leadership. Programs like the PM GatiShakti National Master Plan seek to enhance infrastructure efficiency. At the same time, Startup India and the Production-Linked Incentive (PLI) Scheme are fostering innovation and industrial competitiveness.

Automotive Industry Overview

Global Automobile Market

The global automobile manufacturing scenario has undergone a profound transformation over the past few centuries, driven by technological advances and changes in economic and social trends. From the advent of mass production to the emergence of modern manufacturing methodologies such as Industry 4.0 and Lean manufacturing, the automotive sector has been crucial in shaping the broader manufacturing ecosystem.

Moreover, the industry has played a key role in advancing sustainable manufacturing, promoting energy-efficient processes, and leading the shift toward a circular economy. A major transformation in global manufacturing has been the increasing interdependence between the automotive industry and advanced sectors such as electronics, semiconductors, and artificial intelligence.

The global automotive industry is also deeply connected to broader sectors, including steel, textiles, leather, rubber, plastics, glass, electronics, and IT. As a result, the industry is one of the largest consumers of these industrial products. The automotive sector is currently undergoing a significant transformation. Transitioning from conventional automobiles to electric vehicles (EVs) equipped with advanced features such as Advanced Driver Assistance Systems (ADAS), the Internet of Things (IoT), and Autonomous Driving (AD).

94 Million Units

Total Global Production in CY 2023 (Cars + Commercial Vehicles)

Reflecting this dynamic transformation, the industry continues to scale in production. In CY 2023, global automobile production reached approximately 94 Million cars and commercial vehicles. China, the world's largest automobile producer, played a key role by manufacturing over 30 Million units, accounting for approximately 30% of global output.

The US followed with over 10 Million automobiles in 2023, securing its position as the second-largest contributor to global output. Japan ranked third with a production volume of nearly 9 Million units. India, emerging as a key player, produced almost 6 Million cars and commercial vehicles, ranking fourth globally. This underscores the country's growing manufacturing capabilities and strategic importance in the evolving automotive value chain.

1	China	30+ Million units
2	USA	10+ Million units
3	Japan	9 Million units

Indian Automobile Market

The Indian automotive industry stands at a pivotal juncture, ready to redefine its role in global manufacturing. As the world moves toward electric mobility, autonomous driving, and sustainable production, the sector offers India a unique opportunity to become a key player in the global value chain (GVC).

This opportunity is underpinned by India's sturdy economic outlook, with significant growth projected through CY 2030. In addition, a steady rise in per capita income and disposable income is expected to fuel consumer demand across sectors. The nation's low vehicle penetration, currently at just 33 cars per 1,000 people, highlights the untapped potential for expansion.

Further reinforcing this outlook is the Indian Automotive Mission Plan 2047, expected to be finalized by October 2025. The plan envisions India as a global hub for automotive manufacturing and research & development (R&D), aligning industrial policy with long-term mobility trends.

ANNEXURE – A (Contd.)

Largest	Producer of Two-Wheelers
Second Largest	Producer of Medium and Heavy Commercial Vehicles
Third Largest	Producer of Buses

Looking ahead, by CY 2032, India is expected to add production capacity for an additional 4 Million passenger vehicles, reflecting the sector's growth ambitions.

The Indian automotive market, encompassing both passenger and commercial vehicles, is projected to grow from 5.1 Million units in CY 2023 to 7.5 Million units by CY 2030. Notably, in CY 2024, just six Original Equipment Manufacturers (OEMs) held over 92% of the passenger vehicle market share, reflecting the market's concentration among a few dominant players.

Government initiatives such as the Faster Adoption and Manufacturing of Electric Vehicles (FAME) II scheme, the Electric Mobility Promotion Scheme (EMPS), the PM Electric Drive Revolution in Innovative Vehicle Enhancement (PM E-DRIVE) scheme, and the PLI scheme are playing a crucial role in accelerating the growth of EVs and EV battery manufacturing. The sector will also benefit from the personal income tax reforms announced in the Union Budget for FY 2025-26, which has been followed by two successive rate cuts by the Reserve Bank of India (RBI). These policies are supporting the localization of essential parts and components and strengthening India's automotive value chain, drawing on strategies like those adopted by China.

Given these developments, the vehicle parc (number of vehicles on the road) is anticipated to double in the current decade.

Total Vehicle Parc → **54.4** Million in CY 2020 to **108.6** Million by CY 2030.

(Source:https://www.forbes.com/sites/sarwantsingh/2025/02/11/future-of-indian-auto-industry-to-2030/)

This momentum is also evident in the steady rise in segment-wise automobile sales over recent years.

Indian Auto Component Industry

The Indian auto component industry has experienced consistent growth over the past decade, despite a brief setback during the pandemic in CY 2020. From CY 2014, the industry has expanded at a compound annual growth rate (CAGR) of 7-8%. By CY 2024, it was valued at USD 74 Billion, surpassing its previous peak of USD 69 Billion in CY 2023.

Indian Auto Component Market Size

(Source:https://www.acma.in/uploads/publication/64-annual-session/ACMA_Fostering_self_reliance_Report_v3_Print.pdf)

Building on this strong momentum, India's auto component industry continues to play an integral role in the growth of the country's manufacturing and export ecosystem.

India's auto component industry accounts for **3.5%** of the global market.

Auto Components contribute **25%** of India's total manufacturing GDP.

From CY 2019 to CY 2024, Auto Components brought in **USD 88 Billion** in Currency Inflows, with a **USD 300 Million** Trade Surplus in CY 2024.

The adoption of alternative powertrains marks a major shift in the industry. While internal combustion engine (ICE) vehicles continue to dominate, the rise of nine different alternative powertrain technologies is increasing the demand for specialized components. As EVs and hybrid technologies become more standardized, the need for advanced and high-performance auto components is expected to increase, opening new opportunities for the industry.

ANNEXURE – A (Contd.)

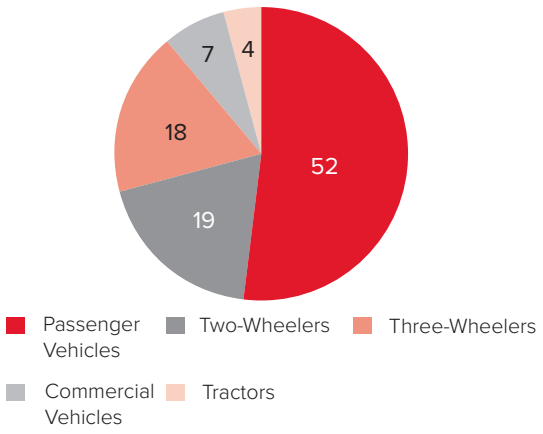

Another critical trend is the increasing premiumization in vehicles and the growing demand for software-enabled features and functionalities. Consumers, particularly in the two-wheeler (2W) and passenger vehicle (PV) segments, are increasingly seeking smart, connected, and safety-enhanced vehicles. Regulatory bodies are also pushing for advanced safety features, further accelerating this shift toward software-defined vehicles. Moreover, global supply chain disruptions have created an opportunity for India to position itself as a key player in the global auto component market.

Against this backdrop of evolving consumer preferences and shifting global dynamics, the Indian auto component industry is poised for exponential growth. Exports are expected to play a pivotal role in this expansion, with the market size projected to reach USD 200 Billion by CY 2030. This represents a substantial CAGR of 16% from CY 2024 to CY 2030. While domestic OEM and aftermarket sales are expected to register a 6% CAGR, exports are forecast to surge by 30% annually.

OPPORTUNITIES

Surge in Demand

The expanding middle class and rapid urbanization are fueling a surge in automobile demand. This, in turn, is propelling growth in the auto component sector. The growth of India's middle class is leading to higher vehicle ownership, driven by rising incomes, better education, and employment opportunities. These factors boost disposable income and encourage spending on personal transportation.

Emergence as a Global Sourcing Hub

India is being considered a potential global automotive supply chain alternative under the 'China+1' strategy. This strategy encourages companies to diversify manufacturing beyond China. Additionally, India's automotive industry is gaining importance in global supply chains due to strategic localization, economic growth, endurance, and targeted investments in infrastructure and technology.

Technological Advancements

India is enhancing its advanced manufacturing infrastructure through increased foreign direct investment and a focus on localizing advanced components to reduce import dependency. The country is also embracing advanced technologies like robotics, automation, and industry 4.0 to improve productivity and meet international quality standards, positioning itself as a competitive player.

THREATS

Government Regulations and Compliance

The auto component industry faces uncertainty and increased production costs due to constantly changing government policies and regulations, as manufacturers adapt to new emissions and safety standards.

Supply Chain Disruptions

The sector contends with geopolitical and economic disruptions, prompting the need to localize critical components to reduce import dependency, especially from China. Logistics challenges, such as container shortages and port congestion, are exacerbated by geopolitical tensions, complicating and raising transportation costs. As a result, the sector remains vulnerable to global supply chain disruptions and currency fluctuations due to significant reliance on imported advanced components.

Transition to EVs

The shift to EVs presents both challenges and opportunities for the auto component industry. While EV adoption is accelerating, it poses significant threats to traditional auto component manufacturers due to the fundamental change in vehicle architecture. The demand for ICE-related components (such as engines, transmissions, and fuel systems) is expected to decline, impacting businesses that rely heavily on these parts. Additionally, developing skills for EV production remains a challenge, as the existing workforce may not be adequately trained for battery technology,

power electronics, and electric drivetrains. Moreover, the growth of the EV segment is highly dependent on charging infrastructure, battery supply chains, and government incentives.

Company Overview

Lumax Auto Technologies Limited (also referred to as 'LATL' or 'The Company') stands as a leading auto component manufacturer, renowned for its strong Tier I relationships with all major OEMs in India. With 30 advanced manufacturing facilities spread across Haryana, Gujarat, Madhya Pradesh, Maharashtra, Uttarakhand, Rajasthan, and Karnataka, LATL ensures efficient supply chain integration and proximity to its customers.

The Company has established long-term partnerships with over 20 prominent clients in the automotive sector, offering innovative, technology-driven solutions. Its diversified product portfolio spans advanced plastics, mechatronics, structures & control systems, aftermarket, and the recently added alternate fuels segment, catering to the evolving needs of the industry.

LATL has strengthened its market position through global alliances with leading players like Cornaglia, Mannoh, Ituran, FAE, JOPP, Alps Alpine, Yokowo and IAC India. Its Lumax Cornaglia facility in Chakan, Pune, is India's exclusive manufacturer to offer 2D blow molding, 3D blow-molded ducts, injection molding, and rotational molding, all under one roof.

To strengthen its aftermarket foothold, LATL has partnered with Germany's Bluechem Group, a global leader in automotive care solutions, to introduce a diverse range of premium automotive care products to Indian consumers.

In FY 2024-25, the Company acquired majority stake in Greenfuel's CNG division for automotive OEMs. Greenfuel is a leading provider of alternate fuel systems for automotive OEMs in India. This acquisition is already contributing to LATL's top line and is expected to accelerate the Company's growth in the green and alternate fuel segments, aligning with industry trends toward sustainability and clean mobility.

As LATL progresses, its ambition remains centered on innovation, quality, and creating long-term value for stakeholders, shaping the future of the automotive component industry in India and beyond. The next phase of the Company's growth will be driven by IAC India, Greenfuel, and other emerging joint ventures, reinforcing its commitment to capturing new opportunities across the mobility ecosystem.

Subsequent to FY 2024-25, the remaining equity stake of 25% of IAC India was also acquired, consequent to which it become Wholly Owned Subsidiary of the Company.

With a focus on increasing content per vehicle, launching new product categories, and using global partnerships, LATL is well-positioned to seize emerging opportunities in the automotive sector. Furthermore, the Company's commitment to operational excellence, customer-centricity, and sustainability continues to drive its leadership in the industry.

Conservation of Energy, Technology Absorption and Foreign Exchange Earnings and Outgo

(Pursuant to Section 134(3)(m) of the Companies Act, 2013 and forming part of Directors' Report for the year ended March 31, 2025)

(A) CONSERVATION OF ENERGY

At Lumax Auto Technologies Limited, we remain firmly committed to sustainable growth and responsible energy management. As part of our broader environmental and social governance (ESG) objectives, we are actively implementing energy conservation practices designed to reduce waste, optimize resource usage, and enhance operational efficiency.

Our approach is built on three key pillars:

- **Source optimization,**
- **Technological advancement, and**
- **Reduction of consumption through energy-efficient projects.**

These initiatives include the use of energy-efficient appliances, reduction of avoidable energy consumption, and the promotion of renewable energy sources across our operations.

The benefits of these efforts are far-reaching. Not only do they lead to **lower operational costs and reduced greenhouse gas emissions,** but they also contribute to the **preservation of natural resources** and help us manage risks associated with energy price volatility and supply disruptions.

Reducing our dependence on finite, non-renewable resources aligns with our long-term vision of creating a resilient and future-ready organization. By investing in clean energy and sustainable practices, we are working toward a **more secure, reliable, and environmentally responsible energy portfolio.**

As energy management becomes increasingly central to corporate social responsibility, Lumax Auto Technologies is proud to demonstrate its commitment to environmental stewardship and sustainable value creation for all stakeholders.

Some of the key Steps taken and their impact on conservation of energy are as below:

We as a Lumax Auto Technologies Limited are also working on Energy conservation activities for our plants and controlling the usage of power consumption through our different initiative for these plants. Some areas are highlighted below where we have taken the Initiatives to reduce the energy consumption.

1. Optimization of Compressed Air usage in Plants

1. Controlling of Air leakage losses and implementation of air leakage register to monitor the air losses
2. Creation of SOP for identification of **Air Leakage Test and FAD Test** for compressor efficiency calculation
3. Reduction in **Generation pressure** of compressor by arresting air leakage points
4. Bifurcation of Compressed air line depending upon pressure requirement
5. Installation of Zero Drain Valve at receiver End

2. Optimizating the Performance of Pumping system

1. Replacement of higher capacity pump with energy efficient Pump
2. Use of **VFD to optimize the Pump Performance**
3. Replacement of **Chiller water Pump with Energy Efficient Water Pump**

3. Optimizing the Power Factor

1. Installation of Smart Panel (APFC) to maintain Power Factor

4. Power Saving from Technology Change

1. Conversion of Pneumatic Door with Electric Door in Molding machine
2. Use of Energy Efficient Blower in place of Old Conventional vacuum Blower
3. Interlocking of Machine Door
4. Replacement of Old conventional **mica band heaters with IR heater** in injection molding machine
5. Replacement of **conventional fan to BLDC fan**

ANNEXURE – G (Contd.)

5. Harnessing the Renewable Energy

5.1 Installation of Solar Roof top

a) The organization has installed solar roof top panels to harness Solar Energy in following locations :

Sl. No.	Plant	Capacity (kW)	Mode of Implementation
1	Pantnagar	596	Opex
2	Manesar	225	Opex
3	Pune*	2023	Opex
4	Bengaluru	746	Opex
	Total	**3,590**	

* including its subsidiary companies.

b) The Organization also focus on utilizing the Solar Park model to fulfill the excess demand

Sl. No.	Plant	Capacity (kWp)	Mode of Power
1	Bengaluru	3,500	Group Captive
	Total	**3,500**	

Total **approximately 3.59 MW** of solar roof top panels & use of **Solar Park Capacity of 3.50 MW** from External power producing company for harnessing the solar energy, wind energy and solar Farm to run our plant to satisfy the need of current requirement. Use of Green Power also help us to mitigate the effect of greenhouse emission to some extent.

5.2 Use of Green Power to Mitigate our Demand of Energy

The organization is in discussion with various power producers who are physically present in group captive mode for **more use of renewable energy to mitigate the excess demand of Energy** and we are working for our Pune, Haryana & Bengaluru Region to reduce the energy cost along with reduction of the carbon footprint.

a. Implementation of Online Energy Monitoring System – Way Forward

Metering and Sustenance of Energy data is primary requirement which can be tracked, and monitored easily via Online monitoring system as it captures the real time data to carry out pain area for energy usage. It helps us to do the Data analysis and prediction of Power consumption trend.

Further we are Planning to inter-link of Plant Energy Data with corporate Dashboard to have real time monitoring of Energy consumption Data.

B) TECHNOLOGY ABSORPTION

The Company is strongly focusing on developing new technologies locally, New JVs were formed to localize the upcoming product technologies in India which are driven through emission and regulations framework outlined by the India Government.

Growth Drivers:-

1) Prioritize the development of new technologies for existing joint ventures, with a strong emphasis on localization.
2) Introducing new, EV-agnostic product categories through strategic joint ventures, aiming to drive top-line growth.
3) Sustain single-source supplier status with key OEMs by leveraging JV partners' strengths to introduce cutting-edge technologies.
4) Strengthen in-house R&D capabilities to become self-reliant and meet the increasing demands of OEMs.

Key Focus Areas: Sensors & Switches, Telematics, Light Weighting Technologies, Connectivity, Shifting from standard product category to electronics focus with strategic intend to enhance localization to be self reliant suppliers

ANNEXURE – G (Contd.)

ACTIVITIES RELATING TO EXPORTS

Company is engaged with OEM's for providing components for the vehicle exports to global locations, products are being fully validated and approved by OEM's after meeting the required regulations.

At present Lumax is directly exporting Gear-shifter for Indonesian market other than OEMs directed vehicle exports, with rising global requirement of Make in India Products – Exports of Lumax Auto Technologies will be on increasing trend in coming years.

Further, Lumax Auto Technologies will be focusing on Component Exports for New Product Lines espically for the electronics and advance plastics.

FOREIGN EXCHANGE EARNINGS AND OUTGO

The Foreign Exchange earned in terms of actual inflows during the year is ₹ 931.19 Lakhs and the Foreign Exchange outgo during the year in terms of actual outflows is ₹ 2,922.21 Lakhs.

BUSINESS RESPONSIBILITY AND SUSTAINABILITY REPORT

Lumax Auto Technologies Limited (LATL) has adopted the Business Responsibility and Sustainability Report (BRSR) in line with the regulatory requirements prescribed by SEBI, reaffirming its alignment with responsible business conduct and sustainable development practices. Recognizing the growing relevance of Environmental, Social and Governance (ESG) issues, the Company views the BRSR not as a compliance obligation, but as a strategic enabler that enhances transparency, fosters stakeholder trust and strengthens long-term business resilience.

The disclosures in this report are made on a consolidated basis and are aligned with the National Guidelines on Responsible Business Conduct (NGRBC). LATL has adopted a structured three-year ESG Roadmap, setting measurable targets to deepen its sustainability practices across operations, value chain, and communities. Key goals include achieving 100% Renewable Energy usage by FY 2027-28, Water Neutrality, Zero Workplace Fatalities, Increase in Women's Workforce Representation to 25% and full compliance with the Sustainable Procurement Policy.

By embedding ESG principles into core decision-making, LATL seeks to build a future-ready, responsible and resilient organization that delivers value across all stakeholder groups.

Principle-wise Highlights from FY 2024–25

Principle 1

- 100% of NGRBC principles are covered under Board-approved policies
- No cases of bribery, corruption, or conflict of interest were reported during the year
- Ethics and governance training covered 100% of the Board, KMPs, and employees

Principle 2

- 18.11% of R&D investments directed toward sustainability-focused innovations
- 84.97% of capital expenditure aligned with environmental impact improvements
- EPR registration completed for all applicable plants

Principle 3

- 100% of permanent employees and workers covered under PF, ESI, gratuity, and insurance
- 100% of eligible women employees covered under maternity benefits
- 292 training programs conducted across safety, technical, ESG, and behavioral areas for employees and workers
- 0.14% of total revenue invested in employee wellbeing measures
- Zero workplace fatalities during the reporting year

Principle 4

- 10 stakeholder groups identified through structured internal processes and regularly engaged via tailored communication channels

Principle 5

- 100% employees and workers trained for human rights-related issues
- Full compliance with the POSH Act and Occupational Safety Regulations

Principle 6

- All manufacturing sites certified for ISO:14001:2015 (Environment Management System) and ISO 45001:2018 (Occupational Health and Safety Management Systems)
- Water neutrality roadmap in progress, with expanded rainwater harvesting infrastructure
- Waste management practices aligned with 3R principles and safe disposal of hazardous waste
- Strategic shift planned toward 100% renewable energy by FY 2027–28

Principle 7

- Active participation in automotive industry forums and Public Policy discussions

Principle 8

- 94.05% of total input materials are directly sourced from within India
- CSR projects focused on Healthcare and Education

Principle 9

- 0 data breaches reported
- 0 product recall on account of safety issues

The Entity engages with a wide range of stakeholders, including customers, suppliers, employees/workers, business partners, the Board of Directors, promoters, government bodies, industry associations, the community, society, and investors. It has established a comprehensive grievance redressal framework supported by various policies and procedures implemented across its operations. These include a well-defined Vigil Mechanism/Whistle Blower Policy, an Anti-Bribery Policy, and a Policy on the Prevention of Sexual Harassment of Women at the Workplace, which provide channels for raising concerns and reporting grievances.

Furthermore, an escalation matrix is in place to address grievances raised by productive suppliers. Grievances from other stakeholders are managed by the Entity's Legal and Secretarial Department, ensuring appropriate and timely resolution.

26 Overview of the entity's material responsible business conduct issues.

Please indicate material responsible business conduct and sustainability issues pertaining to environmental and social matters that present a risk or an opportunity to your business, rationale for identifying the same, approach to adapt or mitigate the risk along-with its financial implications, as per the following format

S. no.	Material issue identified	Indicate whether risk or opportunity (R/O	Rationale for identifying the risk/opportunity	
1.	 Waste Management	 	**Opportunities** 1. Improve operational performance and reduce expenditures 2. Open up new revenue opportunities while lowering the environmental impact **Risks** 1. Upfront capital requirements and process changes may temporarily reduce profitability and efficiency 2. Addressing technological limitations demands thoughtful planning and dedicated resources	
2.	 Water Management	 	**Opportunity:** 1. Demonstrating environmental responsibility and advancing corporate sustainability objectives **Risk:** 1. As freshwater availability declines, its importance to essential functions—like manufacturing and cooling—grows significantly. Any disruption from shortages or contamination could critically impact operations, highlighting the urgent need for robust water management practices	
3.	 Energy Management	 	**Opportunities:** 1. Minimize reliance on non-renewable energy sources 2. Strengthen operational resilience and lower the risk of downtime 3. Align with stakeholder expectations and promote environmental responsibility 4. Raise employee awareness and foster a culture of sustainability **Risks:** 1. Relying on emerging energy management technologies may lead to maintenance challenges, reliability concerns, and integration issues with current systems 2. Early-stage investments and changes in operations may temporarily reduce profitability	

Opportunity Risk

	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
	Adaptation/Mitigation Measures: 1. Planned Strategic Investments 2. Flexible Compliance Framework 3. Embracing Technological and Innovative Solutions 4. Ongoing Improvement and Responsiveness	**Positive Implications:** 1. Adopting effective waste management systems helps the organization optimize operations, cut expenses, and improve resource use. It promotes regulatory compliance and reinforces the organization's image as a sustainable and responsible business. This proactive approach encourages innovation and can unlock new income sources via recycling and recovery programs **Negative Implications:** 1. Modernizing infrastructure and deploying advanced waste management systems may demand substantial initial investment Additionally, handling diverse waste categories could necessitate expert skills and specialized knowledge for efficient management
	Adaptation/Mitigation Measures: 1. Carry out detailed assessments to uncover potential water-related threats and weaknesses in operations 2. Enhance water efficiency by upgrading to water-saving technologies and expanding wastewater treatment infrastructure 3. Ensure consistent upkeep and surveillance of water systems 4. Investigate alternative water sources like rainwater collection and greywater reuse to fulfill operational demands	**Positive Implications:** 1. Effective water management can generate substantial cost benefits by lowering water usage, reducing treatment expenses, and streamlining operations 2. It reduces financial exposure to water scarcity and minimizes risks of operational disruption from water-related challenges
	Adaptation/Mitigation Measures: 1. Conduct detailed evaluations to detect potential risks in the planning and initial stages 2. Use a step-by-step implementation strategy, starting with pilot projects before scaling up to full deployment	**Positive Implications:** 1. Efficient energy management can result in considerable long-term cost reductions by lowering energy usage 2. Demonstrating a strong commitment to sustainability and energy efficiency can enhance relationships with investors and customers, potentially increasing brand loyalty and improving financial outcomes 3. Decreasing dependence on non-renewable energy sources helps mitigate risks from energy price fluctuations and supply issues, contributing to more predictable operational expenses **Negative Implications:** 1. Initial capital requirements and setup costs for implementing energy management measures can be significant

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O	Rationale for identifying the risk/opportunity	
4.	 GHG Emissions	 	**Opportunity:** 1. Promote environmental responsibility while progressing toward broader corporate sustainability objectives **Risk:** 1. Tackling Scope 3 greenhouse gas (GHG) emissions across the value chain is complex and requires extensive coordination with external partners, posing considerable challenges	
5.	 Occupational Health and Safety	 	**Opportunity:** 1. Establish a safer and more efficient workplace, thereby strengthening organizational resilience 2. Proactively minimize risks and prevent safety incidents **Risk:** 1. Inadequate occupational health and safety (OHS) practices may result in workplace accidents, injuries, and health problems, significantly harming employee well-being and productivity. Such incidents not only impact individuals but can also disrupt business operations, halt production, and cause major delays	
6.	 Employee Wellbeing		**Opportunity:** 1. Enhances employee morale, satisfaction, and retention by fostering a secure and supportive work environment where employees feel valued and protected 2. Boosts employee engagement and motivation, contributing to a positive workplace culture that encourages productivity and long-term commitment	
7.	 Customer Satisfaction		**Opportunity:** 1. Repeat business and loyalty 2. Customer retention 3. Operational efficiency	

	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
	Adaptation/Mitigation Measures: 1. Foster open communication and strong collaboration with suppliers 2. Implement robust data systems to ensure accurate and comprehensive information collection from a wide range of suppliers 3. Conduct training and awareness programs to instill sustainable practices across the supply chain 4. Establish ongoing monitoring and evaluation processes to track compliance and drive continuous improvement	**Positive Implications:** 1. Measuring Scope 3 emissions can uncover opportunities for cost reduction and enhance supply chain efficiency 2. Working collaboratively with suppliers on sustainability initiatives can strengthen relationships, build trust, and potentially yield long-term financial gains **Negative Implications:** 1. Achieving accurate Scope 3 emissions reporting can be expensive, necessitating investment in reliable data collection and management systems 2. Actively involving suppliers in the emissions tracking process may demand extra resources, training, and capacity-building efforts
	Adaptation/Mitigation Measures: 1. Provide ongoing training for employees on safety procedures and protocols 2. Develop and maintain emergency response plans to effectively handle unexpected incidents 3. Establish and rigorously enforce comprehensive safety policies throughout the organization 4. Perform regular safety audits to identify and address potential hazards	**Positive Implications** 1. Reduced accident rates minimize downtime, lowering costs related to workplace injuries 2. Enhanced safety measures can decrease insurance premiums, resulting in direct financial savings 3. Improved employee morale and higher retention rates help reduce turnover expenses **Negative Implications** 1. Ineffective implementation of OHS practices may result in unforeseen financial losses, such as fines for non-compliance 2. Ongoing expenses are required for the maintenance and upkeep of safety equipment and facilities 3. Employee dissatisfaction can negatively impact productivity levels
	–	**Positive Implications** 1. Focusing on employee well-being leads to increased productivity and fosters a positive organizational culture. This approach not only attracts top talent but also boosts productivity and reduces turnover, thereby minimizing risks linked to absenteeism Although there may be upfront and ongoing costs, the long-term benefits include greater operational efficiency, lower healthcare expenses, and enhanced trust among stakeholders
	–	**Positive Implications:** 1. Ensuring customer satisfaction is crucial for us, bringing many benefits like increased repeat purchases, stronger customer loyalty, and more efficient marketing activities. On the other hand, failing to prioritize customer satisfaction can result in higher operational expenses due to managing complaints and product returns. Therefore, consistently achieving high customer satisfaction remains our foremost priority

S. no.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk/opportunity
8.	 DEI	 	**Opportunity:** 1. Fostering a culture of innovation and creativity that generates fresh insights and ideas, fueling product development 2. Enhanced customer engagement and stronger market differentiation **Risk:** 1. Ineffective DEI initiatives could unintentionally harm teamwork and collaboration
9.	 R&D		**Opportunity:** 1. Research and development, along with innovation, play a vital role in creating high-quality products and have the potential to drive innovative solutions, enhance efficiency, and minimize environmental impact
10.	 CSR		**Opportunity:** 1. Participating in Corporate Social Responsibility (CSR) activities can strengthen community relationships by showcasing our dedication to responsible and ethical corporate citizenship
11.	 Code of Conduct		**Opportunity:** 1. A well-defined Code of Conduct promotes strong corporate governance and ethical behavior, reduces risks, boosts operational efficiency, and reinforces relationships with stakeholders
12.	 Regulatory Compliance	 	**Opportunity:** 1. Adhering to regulatory requirements is essential to meet the industry's stringent safety, environmental, and quality standards. Ensuring compliance helps the organization avoid costly fines, penalties, and legal expenses linked to violations **Risk:** 1. Failure to comply with regulations can harm the organization's reputation, erode customer trust, and result in financial penalties. Such consequences may adversely affect revenue and jeopardize long-term sustainability

	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
	Adaptation/Mitigation Measures: 1. Provide mandatory training for all employees on DEI principles, unconscious bias, and fostering a respectful workplace 2. Establish and clearly communicate comprehensive DEI policies, guidelines, and procedures	**Positive Implications :** 1. Adopting DEI initiatives introduces diverse viewpoints, enhancing problem-solving and product innovation 2. A strong commitment to DEI attracts and retains a wider talent pool, thereby elevating overall workforce quality **Negative Implications:** 1. Implementing and sustaining DEI programs may demand considerable resources for training, policy creation, and ongoing oversight 2. If DEI efforts are poorly executed, they risk harming the Company's reputation by appearing insincere or ineffective
	-	**Positive Implications:** 1. Investing in Research and Development (R&D) is crucial for the organization, offering chances to innovate products, boost customer satisfaction, increase cost efficiency, and embrace emerging technologies. Such efforts help establish the organization as a forward-thinking and reliable partner for its customers
	–	**Positive Implications:** 1. Participating in social responsibility initiatives enhances the organization's connection with the community, encouraging collaboration and shared growth. These efforts positively impact the community, building goodwill and strengthening loyalty
	–	**Positive Implications:** 1. Implementing and following a strong Code of Conduct elevates the Company's reputation as an ethical and reliable organization, which helps boost customer loyalty and enhances brand image. Clear ethical guidelines also minimize legal risks and contribute to cultivating a positive workplace culture
	Mitigation Measures: 1. Conduct ongoing compliance monitoring and audits 2. Provide regular employee training and raise awareness 3. Maintain active engagement with regulatory authorities 4. Perform routine risk assessments	**Positive Implications:** 1. Proactive regulation management reduces the risk of fines, penalties, and legal complications, protecting the organization's financial stability 2. Demonstrating a strong commitment to regulatory compliance fosters trust among investors, customers, and regulators, strengthening key relationships 3. Compliance ensures lawful operations, laying a solid foundation for sustainable, long-term growth **Negative Implications:** 1. Failure to comply with regulations can result in fines, lawsuits, and financial penalties 2. Non-compliance may harm the organization's reputation and lead to potential revenue losses

S. no.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk/opportunity	
13.	 Risk & Crisis Management		**Opportunity:** 1. Strengthening resilience to withstand potential disruptions 2. Proactively planning and anticipating risks to mitigate threats while establishing the organization as dependable and well-prepared	
14.	 Data Security	 	**Opportunity:** 1. Implementing a robust data security system lowers the risk of cyberattacks, reduces downtime, and helps sustain productivity **Risk:** 1. Staying current with evolving security standards and continuously monitoring and updating protocols can be challenging and resource intensive	
15.	 Sustainable Procurement	 	**Opportunity:** 1. Demonstrating a strong commitment to corporate sustainability objectives **Risk:** 1. Requiring all suppliers to comply with sustainability standards may complicate supply chain management	
16.	 Stakeholder Management		**Opportunity:** 1. Establishing trust and fostering positive relationships with stakeholders 2. Involving stakeholders in decision-making and addressing their concerns to effectively mitigate risks	

	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
	-	**Positive Implications:** 1. Robust risk and crisis management strategies help reduce financial losses, improve organizational resilience, decrease insurance premiums, and boost investor confidence. Proactive actions such as risk assessments, crisis preparedness, staff training, and clear communication ensure the organization is ready to respond, protecting its reputation and maintaining uninterrupted operations
	Mitigation Measures: 1. Conduct regular security audits and maintain continuous monitoring to promptly identify and address vulnerabilities 2. Implement training programs to ensure employees understand security protocols and can recognize potential threats	**Positive Implications:** 1. Strong data security increases customer trust, fostering loyalty, and repeat business 2. A solid reputation for data security enhances the organization's brand credibility 3. Effective security measures contribute to improved operational efficiency and system reliability **Negative Implications:** 1. Implementing and sustaining robust data security demands ongoing investment in technology and can require significant resources
	Mitigation Measures: 1. Strengthen close partnerships with suppliers to align on sustainability goals and practices 2. Offer training and support to help suppliers meet the required standards 3. Perform regular supplier audits to verify compliance with sustainability criteria 4. Embed sustainability requirements into contracts and Service Level Agreements (SLAs), clearly outlining expectations and penalties for non-compliance	**Positive Implications:** 1. Sustainable procurement optimizes resource utilization and reduces waste, leading to greater operational efficiency 2. Embracing sustainable procurement can enhance competitive advantage and potentially drive higher profitability **Negative Implications:** 1. Implementing sustainable practices may increase supply chain complexity, requiring enhanced coordination and management 2. Successfully addressing these challenges demands strong supplier collaboration, effective cost management, and investment in technology
	–	**Positive Implications:** 1. Effective stakeholder management is key to sustaining customer satisfaction, attracting investors, and nurturing community relationships. By emphasizing clear communication, transparency, and responsiveness to stakeholder concerns, the organization can enhance financial performance, reduce risks, and seize growth opportunities in a competitive marketplace

SECTION B MANAGEMENT AND PROCESS DISCLOSURES

This section is aimed at helping businesses demonstrate the structures, policies and processes put in place towards adopting the NGRBC Principles and Core Elements.

2 Details of fines/penalties/punishment/award/compounding fees/settlement amount paid in proceedings (by the entity or by directors/KMPs) with regulators/law enforcement agencies/judicial institutions, in the financial year, in the following format.

(Note: the entity shall make disclosures on the basis of materiality as specified in Regulation 30 of SEBI (Listing Obligations and Disclosure obligations) Regulations, 2015 and as disclosed on the entity's website):

	Monetary				
	NGRBC Principle	Name of the regulatory/ enforcement agencies/ judicial institutions	Amount (In ₹)	Brief of the Case	Has an appeal been preferred? (Yes/No)
Penalty/Fine	Nil	Nil	0	Nil	No
Settlement	Nil	Nil	0	Nil	No
Compounding fee	Nil	Nil	0	Nil	No

	Non-Monetary			
	NGRBC Principle	Name of the regulatory/enforcement agencies/judicial institutions	Brief of the Case	Has an appeal been preferred? (Yes/No)
Imprisonment	Nil			
Punishment	Nil			

3 Of the instances disclosed in Question 2 above, details of the appeal/revision preferred in cases where monetary or non-monetary action has been appealed.

Case Details	Name of the regulatory/enforcement agencies/judicial institutions
There were no cases where monetary or non-monetary actions have been appealed.	

4 Does the entity have an anti-corruption or Anti-Bribery Policy? If yes, provide details in brief and if available, provide a web-link to the policy.

Yes, the Entity has an Anti-Corruption and Anti-Bribery Policy in place, which is accessible to all employees via the Company's intranet. The Entity is committed to maintaining the highest standards of business conduct and corporate governance and adopts a strict zero-tolerance approach towards bribery and corruption.

This Policy outlines comprehensive procedures designed to prevent any involvement in bribery, corruption, or facilitation payments. Compliance with the Policy is mandatory for all employees as well as business partners acting on behalf of the Entity, regardless of their location.

5 Number of Directors/KMPs/employees/workers against whom disciplinary action was taken by any law enforcement agency for the charges of bribery/corruption:

	d) Investments (Investments in related parties/Total Investments made)	40.33%	36.93%

Note: *The data for financial year 2023–24 has been restated to enhance accuracy and clarity in reporting, in accordance with the circular dated December 20, 2024, which outlines industry standards forums guidelines for BRSR Core.

LEADERSHIP INDICATORS

1 Awareness programs conducted for value chain partners on any of the Principles during the financial year:

Total number of awareness programs held	Topics/principles covered under the training	% age of value chain partners covered (by value of business done with such partners) under the awareness programs
3	8D and PPAP (Principle 9 and Principle 2) Human Error Prevention (Principle 3 and Principle 4) Supplier Process Change Management (Principle 9 and Principle 2)	12.82%

2 Does the entity have processes in place to avoid/manage conflict of interests involving members of the Board? (Yes/No) If Yes, provide details of the same

Yes, the Entity has established a Code of Conduct for the Board of Directors and Senior Management, which clearly defines their roles and responsibilities. The Code mandates that they act with integrity and in good faith, consistently working to advance the Entity's business objectives in the best interests of all stakeholders—including employees, shareholders, and the broader community. It emphasizes the importance of prioritizing the Entity's interests and avoiding any relationships, activities, or engagements that may give rise to actual or perceived conflict of interest. In cases where a potential conflict arises, full and transparent disclosure to the Board of Directors and the Audit Committee is required.

PRINCIPLE 2 **Businesses should provide goods and services in a manner that is sustainable and safe**

ESSENTIAL INDICATORS

1 Percentage of R&D and capital expenditure (capex) investments in specific technologies to improve the environmental and social impacts of product and processes to total R&D and capex investments made by the entity, respectively.

	Current Financial Year	Previous Financial Year	Details of improvements in environmental and social impacts
R&D	18.11%	10.14%*	Some of the specific areas that were identified by the Entity are: 1. Digital Work Instruction Implementation: Manual work instructions were replaced with digital on-screen instructions, removing the risk of damage or loss associated with paper documents. This change enhanced clarity and operational control, contributing to the ongoing automation of the assembly line. 2. Digital Graph Monitoring for Load & Stroke: A digital graph monitoring system was added to capture detailed data on load and stroke parameters. This improvement aimed at better product and process control through real-time data visualization. The system was developed via outsourced programing. 3. Trend Monitoring of Process Parameters: A process improvement initiative focused on implementing trend monitoring and recording of product and process parameters. This allowed easier and more effective monitoring of process capability. The software was developed through an outsourced partner. 4. Combi Tank Concept – (Fuel Tank + Urea Tank): The initiative introduced a combined plastic fuel and urea tank to optimize vehicle packaging, reduce components and weight, and enhance assembly efficiency. It addressed space constraints, cut costs, and simplified processes, demonstrating the value of integrated design in automotive systems. 5. Degassing/Expansion Tank & CAC/Intercooler Duct: The initiative improved control over thread formation and cap retention, enhanced leak resistance and durability, and replaced metal with plastic to reduce cost, failure modes, and process steps—earning positive customer feedback for its unique, efficient design.
Capex	84.97%	79.48%*	

Note: *The data for financial year 2023–24 has been restated to enhance accuracy and clarity in reporting, in accordance with the guidelines outlined in Point 5 annexure 17 of SEBI's circular dated November 11, 2024.

2 a. Does the entity have procedures in place for sustainable sourcing? (Yes/No)

Yes

b. If yes, what percentage of inputs were sourced sustainably?

9.58%

3 Describe the processes in place to safely reclaim your products for reusing, recycling and disposing at the end of life, for

(a) Plastics (including packaging)

(b) E-waste

(c) Hazardous waste

(d) Other waste

The Entity's products are supplied directly to Original Equipment Manufacturers (OEMs), which limits its ability to retrieve them at the end of their life cycle. Nonetheless, the Entity actively engages in the Extended Producer Responsibility (EPR) framework for the plastics used across its products, packaging, and distribution processes. Recognizing that plastics may follow diverse disposal pathways, direct reclamation poses significant challenges. Through its participation in the EPR system, the Entity ensures that such materials are appropriately recycled, reused, or recovered at the end-of-life stage, thereby supporting responsible waste management and environmental sustainability.

4 Whether Extended Producer Responsibility (EPR) is applicable to the entity's activities (Yes/No)

Yes

If yes, whether the waste collection plan is in line with the Extended Producer Responsibility (EPR) plan submitted to Pollution Control Boards? If not, provide steps taken to address the same

EPR registration of the Plants under Importer Category and Brand Owner Category have been obtained, wherever applicable, except the 4 Plants for which the registration under Brand Owner Category is in process.

LEADERSHIP INDICATORS

1 Has the entity conducted Life Cycle Perspective/Assessments (LCA) for any of its products (for manufacturing industry) or for its services (for service industry)? If yes, provide details in the following format?

NIC Code	Name of Product/ Service	% of total Turnover contributed	Boundary for which the Life Cycle Perspective/ Assessment was conducted	Whether conducted by independent external agency (Yes/No)	Results communicated in public domain (Yes/No) If yes, provide the web-link.
The Entity is currently assessing the feasibility of conducting life cycle assessment (LCA) for its products					

2 If there are any significant social or environmental concerns and/or risks arising from production or disposal of your products/services, as identified in the Life Cycle Perspective/Assessments (LCA) or through any other means, briefly describe the same along-with action taken to mitigate the same.

Name of Product/Service	Description of the risk/concern	Action Taken
During the current financial year, the Entity has not conducted LCA for its products.		

3 Percentage of recycled or reused input material to total material (by value) used in production (for manufacturing industry) or providing services (for service industry).

Indicate input material	Recycled or reused input material to total material	
	FY 2024-25 (Current Financial Year)	FY 2023-24 (Previous Financial Year)
For the production processes, re-used or recycled raw materials are not utilized.		

4 Of the products and packaging reclaimed at end of life of products, amount (in metric tonnes) reused, recycled, and safely disposed, as per the following format:

10 Health and safety management system:

a. Whether an occupational health and safety management system has been implemented by the entity? (Yes/No). If yes, the coverage of such system?

The Entity has implemented a robust Occupational Health and Safety Management System as an integral part of its operations, aimed at fostering a safe, healthy, and environmentally responsible workplace. It is certified under ISO 45001:2018 currently covering 85.19% of its plants.

Measures include PTW systems, monthly safety performance reviews, SAFE audits, accident investigations, regular medical check-ups, risk assessments, and monitoring of waste and carbon footprint. Specialized procedures are in place for equipment testing, contractor safety, fire equipment maintenance, and induction programs for new joiners.

Emergency response plans cover fire, explosions, accidents, hazardous spills, pollution control failures, food poisoning, and natural calamities. Regular training and drills are conducted to enhance preparedness. The Entity is committed to continuous improvement, legal compliance, waste reduction, and innovation to prevent pollution, injuries, and illnesses.

b. What are the processes used to identify work-related hazards and assess risks on a routine and non-routine basis by the entity?

The Entity employs a comprehensive approach to identifying work-related hazards and assessing risks for both routine and non-routine activities, in line with established Standard Operating Procedures (SOPs).

1. **Hazard Identification and Risk Assessment (HIRA):** HIRA is conducted and regularly reviewed to systematically evaluate the work environment and operational tasks. It identifies potential hazards that may affect employees, visitors, or the surrounding ecosystem. Each identified risk is assessed based on its likelihood and potential impact, and appropriate control measures are implemented to mitigate these risks.
2. **Health and Safety Inspections:** Regular inspections and audits are carried out to review the Entity's environmental, health, and safety (EHS) policies and practices. These audits help identify areas for improvement, ensure compliance with regulatory standards, and inform the development of corrective action plans.

For routine activities, the Entity utilizes a comprehensive 188-point Safety Audit Checklist covering various operational aspects. For non-routine activities, such as work at heights or excavation, a Permit-to-Work (PTW) system and additional hazard identification methods are employed to ensure safe execution.

Additionally, employees actively participate in hazard identification by reporting risks during meetings and submitting suggestions. This participatory approach strengthens the overall effectiveness of the Occupational Health and Safety Management System.

c. Whether you have processes for workers to report the work related hazards and to remove themselves from such risks. (Y/N)

Yes, the Entity has established procedures that enable workers to report work-related hazards and exercise the right to safely withdraw from situations where they perceive a risk to their health or safety.

d. Do the employees/worker of the entity have access to non-occupational medical and healthcare services? (Yes/No)

Yes, the Entity provides employees and workers with access to non-occupational medical and healthcare services.

11 Details of safety related incidents, in the following format:

12 Describe the measures taken by the entity to ensure a safe and healthy work place.

The Entity places the highest importance on the health and safety of its employees, acknowledging them as its most valuable asset. To uphold this commitment, it has established a robust Occupational Health and Safety (OHS) Management System, aligned with international standards and continuously enhanced through strategic initiatives and employee engagement.

Certifications and Standards

- **ISO 45001:2018 Certified:** 85.19% of the Entity's plants are certified under ISO 45001
- **ISO 14001:2015 Certified:** 85.19% of the Entity's plants have Environmental management systems in place to support sustainable and safe operations
- **14 Safety Policies:** Comprehensive policies cover various workplace hazards, reinforcing safe practices across all levels

Risk Prevention and Monitoring

- **Daily Safety Patrols:** Conducted by Plant Heads, Maintenance Heads, and Safety Officers to proactively identify and eliminate unsafe acts or conditions
- **Regular Safety Audits:** Internal safety reviews and bi-monthly corporate audits are conducted using structured checklists to ensure consistent compliance and improvement
- **PTW (Permit to Work) System:** Effectively implemented to regulate hazardous tasks, including contractor safety through a dedicated Contractor Communication Policy

Training and Emergency Preparedness

- **Safety Induction Programs:** Mandatory for all new joiners to familiarize them with workplace safety practices
- **Process-Specific Training:** Tailored to address process hazards, including regular emergency drills and defined operational procedures
- **Ergonomic Safety:** Introduced to support physical well-being and prevent strain-related injuries
- **Emergency Preparedness Plans:** In place for fire, explosion, hazardous leaks, natural calamities, food poisoning, and equipment failures

Health & Medical Support

- **Annual Health Check-ups:** Provided to employees across operational units
- **Medical Rooms:** Equipped with essential emergency care equipment and first-aid facilities
- **Non-occupational Healthcare Access:** Available to all employees and workers

Performance and Continuous Improvement

- **Safety Assurance System:** Used to monitor safety performance through measurable KPIs
- **Accident Investigations and Risk Assessments:** Routinely conducted to identify root causes and implement corrective actions
- **Carbon Footprint and Waste Management Monitoring:** Integrated to align with environmental and occupational safety goals

Safety Culture and Engagement

- **Visual Safety Communication:** Signage and floor visuals enhance awareness at shop-floor levels
- **Awareness Programs:** Events like Safety Week, Earth Day, and Environment Day promote engagement
- **Employee Participation:** Through feedback mechanisms, hazard reporting, and active involvement in safety committees

By implementing these comprehensive and certified systems, the Entity is committed to fostering a safe, healthy, and environmentally responsible workplace across all its operations.

6 Provide details of any corrective actions taken or underway to address significant risks/concerns arising from assessments of health and safety practices and working conditions of value chain partners.

No corrective actions are required as per the assessment. The Entity is committed to addressing the issues (if any) promptly to ensure the highest standards of safety and compliance.

PRINCIPLE 4 Businesses should respect the interests of and be responsive to all its stakeholders

ESSENTIAL INDICATORS

1 Describe the processes for identifying key stakeholder groups of the entity.

The Entity places high importance on building transparent and strong relationships with its stakeholders, particularly investors, by maintaining a clear understanding of their expectations and aligning business objectives accordingly. Delivering value to clients is a core component of the Entity's corporate philosophy, with a strong focus on client satisfaction. Employees are viewed as critical enablers of value creation, and the Entity is committed to offering them meaningful and fulfilling career growth opportunities. Suppliers are recognized as integral partners in delivering business outcomes, while community engagement remains central to the Entity's inclusive and sustainable development agenda.

Stakeholder groups are identified through structured internal management discussions, following the process outlined below:

- Engaging with the Legal and Secretarial Department, as well as senior management, to determine key stakeholder categories
- Identifying stakeholders based on their significant influence on the Entity or the extent to which they are impacted by the Entity's decisions and operations
- Key stakeholder groups include customers, suppliers, employees/workers, business partners, the Board of Directors, promoters, regulatory and government bodies, financial institutions (e.g., banks, NBFCs) industry associations (e.g., ACMA, SIAM) CSR partners, and investors

2 List stakeholder groups identified as key for your entity and the frequency of engagement with each stakeholder group.

LEADERSHIP INDICATORS

1 Provide the processes for consultation between stakeholders and the Board on economic, environmental, and social topics or if consultation is delegated, how is feedback from such consultations provided to the Board.

Stakeholder consultations within the Entity are managed by designated personnel, business leaders, and key process heads. Feedback and concerns raised by stakeholders are systematically escalated to the Board of Directors through appropriate Board Committees, such as the Audit Committee, Nomination and Remuneration Committee, CSR Committee, Risk Management Committee, and Share Transfer/ Stakeholders' Relationship Committee.

The Entity maintains regular and proactive communication with its key stakeholders through scheduled conference calls and other engagement channels. These interactions provide transparent updates on business plans and performance, fostering a sense of mutual growth and progress. This collaborative approach helps to strengthen long-term relationships and encourages continuous stakeholder involvement.

2 Whether stakeholder consultation is used to support the identification and management of environmental, and social topics (Yes/No). If so, provide details of instances as to how the inputs received from stakeholders on these topics were incorporated into policies and activities of the entity.

Yes, stakeholder consultations were undertaken to support the identification and management of key environmental and social topics. The process for engaging the Board on economic, environmental, and social matters includes the following steps:

- Developing a comprehensive list of potential stakeholders and relevant ESG-related issues specific to the Entity and the broader automobile industry, in collaboration with various departments.
- Conducting discussions with stakeholders and senior management to gather insights and feedback on these issues.
- Integrating the feedback received into the Entity's policies, strategies, and operational activities to ensure responsiveness to stakeholder concerns and alignment with sustainability priorities.

3 Provide details of instances of engagement with, and actions taken to, address the concerns of vulnerable/ marginalized stakeholder groups.

As part of its Life Skills Project, the Entity is committed to fostering foundational learning through the promotion of STEAM (Science, Technology, Engineering, Art and Mathematics) education among primary school students. This initiative provides young learners with experiential, hands-on exposure to key academic disciplines, aiming to strengthen their conceptual understanding and cultivate a spirit of curiosity-driven learning.

In addition, recognizing the growing health challenge posed by Type 1 diabetes among children in India—where an estimated 95,600 children under the age of 14 are affected and approximately 15,900 new cases are reported annually—the Entity has extended support to address this critical issue. Given the high cost of treatment and the lack of awareness, especially in underprivileged communities, the Entity provides access to essential treatment, care, and awareness programs for children living with juvenile diabetes. This initiative seeks to improve health outcomes and enhance the long-term quality of life for affected children.

To effectively address the concerns of vulnerable and marginalized stakeholder groups, the Entity initiates its CSR interventions by identifying target areas and conducting detailed assessments—through surveys, site visits, and evaluations—to determine the relevance and aspirations of the communities in relation to potential projects. A comprehensive Needs Assessment is then conducted to identify specific beneficiary groups that would derive the greatest impact from CSR programs.

Subsequently, the Entity collaborates closely with the local community to co-create and finalize CSR initiatives, ensuring they are aligned with the actual needs and aspirations identified. Tailored on-ground mobilization strategies are employed to engage stakeholders meaningfully and ensure active participation. This inclusive and participatory approach ensures that the Entity's CSR efforts are impactful, sustainable, and effectively empower the most vulnerable sections of society.

4 Do you have a focal point (Individual/Committee) responsible for addressing human rights impacts or issues caused or contributed to by the business? (Yes/No)

Yes, the Entity has a well-defined Human Rights Policy in place, enabling employees to report complaints or grievances directly to the Human Resources department or senior management. The Corporate HR Head is responsible for overseeing the management of human rights-related matters concerning the Entity's employees and workers. Department heads are also accountable for addressing human rights issues within their respective functions. Furthermore, the senior management actively reviews and updates the Human Rights Policy at the organizational level to ensure its continued relevance and effectiveness.

5 Describe the internal mechanisms in place to redress grievances related to human rights issues.

The Entity is deeply committed to upholding and promoting human rights through fair, ethical, and responsible business practices. Respect for human rights is a core value embedded in the Company's culture and operations.

To support this commitment, the Entity has established robust internal grievance redressal mechanisms, including:

- Prevention of Sexual Harassment (POSH) Policy
- Grievance Redressal Policy
- Vigil Mechanism/Whistle-Blower Policy
- A dedicated employee mobile application for grievance registration

Employees and workers can raise human rights concerns through multiple channels, including in-person submissions to location in-charges or the HR department, as well as via email. Upon receipt, each grievance is formally acknowledged and assigned a unique ID for tracking purposes.

The grievance resolution process involves an initial review, categorization, and assignment to the appropriate personnel for thorough investigation. Throughout the process, complainants are kept informed of the progress through regular updates. Once resolved, comprehensive reports are documented and communicated to the complainant, ensuring transparency and timely closure.

Although no human rights-related grievances have been reported to date, the Entity remains fully committed to addressing any future concerns promptly and effectively.

6 Number of complaints on the following made by employees and workers:

	FY 2024-25 (Current Financial Year)			FY 2023-24 (Previous Financial Year)		
	Filed during the year	Pending resolution at the end of year	Remarks	Filed during the year	Pending resolution at the end of year	Remarks

Child Labor	0	0	NA	0	0	NA
Forced Labor/Involuntary Labor	0	0	NA	0	0	NA
Wages	0	0	NA	0	0	NA
Other human rights related issues	0	0	NA	0	0	NA

7 Complaints filed under the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013, in the following format:

	FY 2024-25 (Current Financial Year)	FY 2023-24 (Previous Financial Year)
Total Complaints reported under Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013 (POSH)	1	Nil
Complaints on POSH as a % of female employees/workers	0.06%	Not Applicable
Complaints on POSH upheld	1	Not Applicable

8 Mechanisms to prevent adverse consequences to the complainant in discrimination and harassment cases.

The Entity is firmly committed to its core values, which strictly prohibit any form of retaliation. Employees who report suspected violations of laws or company policies are safeguarded against any adverse consequences. Retaliation against individuals who raise concerns in good faith or participate in investigations is expressly prohibited.

The Entity upholds the principles of confidentiality, sensitivity, non-retaliation, and impartiality across its Grievance Redressal, Whistleblower, and POSH Policies. All reports and related information are treated with strict confidentiality and are accessible only to authorized personnel.

Concerns are addressed promptly and with due sensitivity, through thorough and impartial investigations. The process ensures that all parties involved have an equal opportunity to present relevant facts and evidence, reinforcing the Entity's commitment to fairness and accountability.

9 Do human rights requirements form part of your business agreements and contracts? (Yes/No)

The Entity is committed to embedding fundamental human rights into all its business agreements and contracts, both in principle and in practice. A significant number of these agreements explicitly include provisions that safeguard human rights. Furthermore, the Entity follows a formal process to regularly review and update these agreements, ensuring continued compliance and reinforcing its commitment to the integration of human rights across its operations.

10 Assessments for the year:

% of your plants and offices that were assessed (by entity or statutory authorities or third parties)

11 Provide details of any corrective actions taken or underway to address significant risks/concerns arising from the assessments at Question 10 above.

In line with the Entity's corporate governance practices, any significant risks or concerns identified through assessments are promptly addressed by the appropriate Committees, comprising both internal and external stakeholders. During FY 2024-25, the assessments referenced in Question 10 did not reveal any material risks or concerns. However, the Entity remains fully committed to taking timely and effective corrective actions should any such issues arise in the future.

LEADERSHIP INDICATORS

1 Details of a business process being modified/ introduced as a result of addressing human rights grievances/complaints.

During the year, no significant grievances related to human rights were reported. As part of its standard operating procedures, the Entity consistently upholds and reinforces human rights principles across its business operations through the Code of Conduct and other relevant policies. Regular training sessions are conducted for employees and workers to promote awareness, and policies such as the Code of Conduct are periodically reviewed and updated to reflect emerging risks and incorporate feedback.

2 Details of the scope and coverage of any Human rights due-diligence conducted.

The Entity consistently undertakes initiatives throughout the year to embed human rights principles into its business culture at all organizational levels.

3 Is the premise/office of the entity accessible to differently abled visitors, as per the requirements of the Rights of Persons with Disabilities Act, 2016.

The premises and offices of the Entity are generally accessible to differently-abled visitors, with the exception of certain locations and manufacturing facilities, where accessibility may be limited due to safety requirements and the specific structural design of those areas.

4 Details on assessment of value chain partners:

	% of value chain partners (by value of business done with such partners) that were assessed
Child labor	5.27%
Forced/involuntary labor	5.27%
Sexual harassment	5.27%
Discrimination at workplace	5.27%
Wages	5.27%
Others – please specify	-

5 Provide details of any corrective actions taken or underway to address significant risks/concerns arising from the assessments at Question 4 above.

No corrective actions are required as per the assessment. The Entity is committed to addressing the issues (if any) promptly to ensure the highest standards of safety and compliance.

PRINCIPLE 6 Businesses should respect and make efforts to protect and restore the environment

ESSENTIAL INDICATORS

1 Details of total energy consumption (in Joules or multiples) and energy intensity, in the following format:

Total energy consumed (A+B+C+D+E+F)	**18,43,32,369.33**	**12,17,15,558.27**
Energy intensity per rupee of turnover (Total energy consumption (MJ)/turnover in Lakhs ₹)	506.87	628.65
Energy intensity per rupee of turnover adjusted for Purchasing Power Parity (PPP) (Total energy consumed (MJ)/Revenue from operations adjusted for PPP (Lakhs USD)	10,471.96	14,081.76*
Energy intensity in terms of physical output (MJ/Nos)	0.91	0.92
Energy intensity (optional) – the relevant metric may be selected by the entity		

Indicate if any independent assessment/evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency: No

Note: *The data for financial year 2023–24 has been restated to enhance accuracy and clarity in reporting, in accordance with the circular dated December 20, 2024, which outlines industry standards forums guidelines for BRSR Core.

2 Does the entity have any sites/facilities identified as designated consumers (DCs) under the Performance, Achieve and Trade (PAT) Scheme of the Government of India? (Y/N) If yes, disclose whether targets set under the PAT scheme have been achieved. In case targets have not been achieved, provide the remedial action taken, if any.

No, the Entity doesn't have any sites/facilities identified as designated consumers (DCs) under the Performance, Achieve and Trade (PAT) Scheme of the Government of India.

3 Provide details of the following disclosures related to water, in the following format:

Parameter	FY 2024-25 (Current Financial Year)	FY 2023-24 (Previous Financial Year)
Water withdrawal by source (in kiloliters)

Persistent organic pollutants (POP)	-	0	0
Volatile organic compounds (VOC)	-	0	0
Hazardous air pollutants (HAP)	-	0	0
Others – please specify	-	-	-

Indicate if any independent assessment/evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency: No

7 Provide details of greenhouse gas emissions (Scope 1 and Scope 2 emissions) & its intensity, in the following format:

Parameter	Unit	FY 2024-25 (Current Financial Year)	FY 2023-24 (Previous Financial Year)
Total Scope 1 emissions (Break-up of the GHG into CO_2, CH_4, N_2O, HFCs, PFCs, SF_6, NF_3, if available)	Metric tonnes of CO_2 equivalent	1,797.42	843.00
Total Scope 2 emissions (Break-up of the GHG into CO_2, CH_4, N_2O, HFCs, PFCs, SF_6, NF_3, if available)	Metric tonnes of CO_2 equivalent	31,406.87	17,004.32
Total Scope 1 and Scope 2 emission intensity per rupee of turnover adjusted (Metric tonnes of CO_2 equivalent/Lakhs ₹)	Metric tonnes of CO_2 equivalent/ Lakhs	0.09	0.09
Total Scope 1 and Scope 2 emission intensity per rupee of turnover adjusted for Purchasing Power Parity (PPP) (Total Scope 1 and Scope 2 GHG emissions (Metric tonnes of CO_2 equivalent)/Revenue from operations adjusted for PPP (Lakhs USD)	Metric tonnes of CO_2 equivalent/ Lakhs	1.88	2.06*

Total Scope 1 and Scope 2 emission intensity (optional) – the relevant metric may be selected by the entity	-	-	-

Indicate if any independent assessment/evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency: No

Note: *The data for financial year 2023–24 has been restated to enhance accuracy and clarity in reporting, in accordance with the circular dated December 20, 2024, which outlines industry standards forums guidelines for BRSR Core.

8 Does the entity have any project related to reducing Green House Gas emissions? If Yes, then provide details.

The Entity has undertaken several energy-saving initiatives to improve operational efficiency and reduce greenhouse gas emissions, including:

- Installed a cyclic timer to switch off the AC during breaks, reducing unnecessary energy use
- Stopped continuous motor operation after tank fill-up, preventing energy wastage
- Installed a VFD panel on the STP air blower to optimize speed and reduce energy consumption
- Reduced the cylinder size of the pneumatic door to minimize air usage and save energy
- Installed motion sensors in washrooms to automate lighting and eliminate energy wastage
- Added a float valve in the cooling tower to control water usage and reduce energy consumption
- Installed a single switch for all shop floor lights, reducing operational hours and optimizing energy use
- Optimized IR lamp usage on the assembly line using PID control to reduce operating hours and energy consumption
- Interlocked the main hydraulic motor in the molding machine with a timer to automatically stop during idle time
- Separated DB connections for offline stations to avoid unnecessary power usage and improve energy efficiency
- Replaced diesel forklifts with electric ones to reduce emissions and improve efficiency
- Added a pressure vessel at the assembly line and PC plant to improve compressor energy efficiency
- Installed an auto drain valve on the utility compressor to reduce air wastage and improve energy efficiency
- Replaced old AC units with new energy-efficient models to reduce energy consumption and maintenance costs

- Retrofitted servo motors in injection molding machines to reduce power usage through demand-based operation
- Replaced IE2 motors with IE4 motors in the cooling tower to reduce energy consumption
- Modified cooling tower pipeline design to operate with a single pump, reducing energy use
- Installed rooftop solar panels to shift towards renewable energy and reduce carbon emissions
- Procured renewable energy through a group captive solar power arrangement to reduce dependency on conventional power
- Replaced conventional street lights with LED lights to save electricity and reduce monthly power costs
- Identified and arrested air leakages in plants to reduce compressor load and energy consumption
- Arrested air leakages in plants to optimize compressor performance and reduce electricity usage

9 Provide details related to waste management by the entity, in the following format:

Parameter	FY 2024-25 (Current Financial Year)	FY 2023-24 (Previous Financial Year)

Indicate if any independent assessment/evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency: No

Note: *The data for financial year 2023–24 has been restated to enhance accuracy and clarity in reporting, in accordance with the circular dated December 20, 2024, which outlines industry standards forums guidelines for BRSR Core.

10 Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.

The Entity acknowledges the critical significance of effective waste management, recognizing its impact on the organization, surrounding communities, and the environment. Its waste management strategy focuses on minimizing waste generation, increasing recycling and recovery efforts, and reducing overall waste disposal. To ensure responsible waste handling across all facilities, the Entity has adopted practices, including source-segregated waste collection, reuse and recycling initiatives, and the safe disposal of hazardous waste through authorized agencies. Committed to the principles of Reduce, Reuse, and Recycle (3R), the Entity continuously strives to enhance its waste management processes in alignment with its broader environmental, social, and governance (ESG) objectives.

11 If the entity has operations/offices in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.) where environmental approvals/clearances are required, please specify details in the following format:

Location of operations/offices	The Entity has no operations in or around ecologically sensitive areas requiring environmental approvals or clearances.
Type of operations	
Whether the conditions of environmental approval/clearance are being complied with? (Y/N) If no, the reasons thereof and corrective action taken, if any	

12 Details of environmental impact assessments of projects undertaken by the entity based on applicable laws, in the current financial year:

Name and brief details of project	EIA Notification No.	Date	Whether conducted by independent external agency (Yes/No)	Results communicated in public domain (Yes/No)	Relevant Web link
The Entity did not undertake any EIA-required projects in the FY 2024-25.					

13 Is the entity compliant with the applicable environmental law/regulations/guidelines in India; such as the Water (Prevention and Control of Pollution) Act, Air (Prevention and Control of Pollution) Act, Environment Protection Act and rules thereunder (Y/N). If not, provide details of all such non-compliances, in the following format:

Yes

Specify the law/regulation/guidelines which was not complied with	Yes, the Entity is compliant with all applicable environmental laws, regulations, and guidelines in India, including the Water (Prevention and Control of Pollution) Act, Air (Prevention and Control of Pollution) Act, and the Environment Protection Act along with rules thereunder.
Provide details of the non- compliance	
Any fines/penalties/action taken by regulatory agencies such as pollution control boards or by courts	
Corrective action taken, if any	

LEADERSHIP INDICATORS

1 Water withdrawal, consumption and discharge in areas of water stress (in kiloliters):

For each facility/plant located in areas of water stress, provide the following information:

a. Name of the area: Gurugram, Bhiwadi, Bengaluru, Manesar

b. Nature of operations: Corporate office and automotive plastic parts manufacturing

c. Water withdrawal, consumption and discharge in the following format:

Parameter	FY 2024-25 (Current Financial Year)	FY 2023-24 (Previous Financial Year)
Water withdrawal by source (in kilo liters)

Indicate if any independent assessment/evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency: No

Note: *The data for financial years 2023–24 has been restated to enhance accuracy and clarity in reporting, in accordance with the guidelines outlined in Point 5 annexure 17 of SEBI's circular dated November 11, 2024.

2 Please provide details of total Scope 3 emissions & its intensity, in the following format:

Parameter	Unit	FY 2024-25 (Current Financial Year)	FY 2023-24 (Previous Financial Year)
Total Scope 3 emissions (Break-up of the GHG into CO_2, CH_4, N2O, HFCs, PFCs, SF_6, NF_3, if available)	Metric tonnes of CO_2 equivalent	Scope-3 emissions are not considered by the Entity presently. The Entity is in the process of laying down the roadmap in the near future.	
Total Scope 3 emissions per rupee of turnover			
Total Scope 3 emission intensity (optional) – the relevant metric may be selected by the entity			

Note: Indicate if any independent assessment/evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency: No

3 With respect to the ecologically sensitive areas reported at Question 11 of Essential Indicators above, provide details of significant direct & indirect impact of the entity on biodiversity in such areas along with prevention and remediation activities.

The Entity does not function in ecologically sensitive areas. As a result, there are no significant direct or indirect impacts on biodiversity to report.

4 If the entity has undertaken any specific initiatives or used innovative technology or solutions to improve resource efficiency, or reduce impact due to emissions/effluent discharge/waste generated, please provide details of the same as well as outcome of such initiatives, as per the following format:

Sr. No	Initiative undertaken	Details of the initiative (Web-link, if any, may be provided along-with summary)	Outcome of Initiative
1.	Energy Saving Initiatives	Replaced diesel forklifts with electric ones to reduce emissions and enhance efficiency	Reduction of greenhouse gas emissions and reduction of energy consumption
		Added a pressure vessel to improve energy efficiency of the utility compressor	
		Installed automatic drain valve in compressor air receiver	
		Replaced old ACs with energy-efficient units	
		Replaced induction motors with servo motors	
		Upgraded cooling tower motor from IE2 to IE4	
		Redesigned pipeline to avoid simultaneous use of two pumps	
		Installed solar panels for renewable power generation	
		Procured solar power under group captive model	
		Replaced conventional lights with LED fixtures	
		Identified and sealed air leakages in plant	
		Installed heater jackets on molding machines	
		Shifted to CNG-based plant transportation	
		Installed VFD on exhaust blower for glue booth	
		Installed timers for AC units in shopfloor and offices	
		Installed timers to reduce energy use during idle time	
		Installed solar power system for canteen and EV station	
		Optimized glue nozzle design in glue booth area	
2.	Water Saving Initiatives	Renovated STP with automatic start-stop mechanism	Recycle, reuse of wastewater for operational and gardening purpose
		Installed automatic taps in office washrooms	
		Deployed sensor taps to optimize plant-level usage	
		Installed aerators in wash basins to reduce flow	
		Added float switch to cooling tower to prevent overflow	
		Installed water level sensor at storage tanks	
		Installed water tank to reuse RO rejected water	
		Deadlock taps in unused areas	
		Real-time water monitoring system in paint shop	
		Reduced tap count in overfitted areas	
		STP restoration for water reuse	

Sr. No	Initiative undertaken	Details of the initiative (Web-link, if any, may be provided along-with summary)	Outcome of Initiative
3	Waste Reduction & Management	Shifted to recycled invoice paper and reduced GSM	Waste segregation, waste to landfill reduction and circularity through composting
		Reduced number of invoice pages	
		Replaced paper register with a digital format	
		Implemented waste segregation and recycling processes	
		Started vermicomposting for food waste	
		Reduced polyethylene by reusing polybags	
		Switched to standardized packing bins	

5 Does the entity have a business continuity and disaster management plan? Give details in 100 words/web link.

Yes, the Entity has a comprehensive Disaster Management and Emergency Response Plan in place, implemented plant-wise across all locations. The plan is designed to identify potential disasters, establish a dedicated Emergency Response Team (ERT), and outline detailed procedures to minimize personal injury and property damage in various emergency scenarios.

Key components include:

1. Identification of potential disasters specific to each Business Impact Area (BIA).
2. Formation and training of an Emergency Response Team to effectively manage emergency procedures.
3. Development and regular updating of a detailed Emergency/Disaster Response Plan, accessible to all employees via the Employee App.
4. Conducting biannual mock drills to ensure preparedness and effective response.
5. Routine audits to monitor the Emergency Response Plan, including verification of roles and responsibilities, adherence to safety practices, and assessment of resource availability and equipment condition.

The Emergency Response Plan covers a wide range of scenarios, including but not limited to:

- Fire and explosions
- Accidents
- Spillage and leakage of hazardous substances
- Failure of pollution control equipment and compressed air lines
- Food poisoning
- Natural calamities such as earthquakes and floods
- Sewage outflow emergencies
- Medical emergencies, including death
- Civil unrest
- Snake bites
- Gas leaks

Through these measures, the Entity demonstrates a robust commitment to disaster preparedness, employee safety, and business continuity.

6 Disclose any significant adverse impact to the environment, arising from the value chain of the entity. What mitigation or adaptation measures have been taken by the entity in this regard.

The Entity found no significant environmental impact from its suppliers. The Entity is committed to environmental stewardship throughout the value chain, requiring all suppliers to uphold high environmental standards and encouraging them to promote these principles within their own supply chains.

7 Percentage of value chain partners (by value of business done with such partners) that were assessed for environmental impacts.

5.27%

8 How many Green Credits have been generated or procured:

	FY 2024-25 (Current Financial Year)
By the listed entity	During the reporting period, the Company has not generated or procured any Green Credits. While the Company remains committed to advancing its environmental sustainability initiatives, it has not yet engaged in formal Green Credit mechanisms.

Name and brief details of project	SIA Notification No.	Date of notification	Whether conducted by independent external agency (Yes/No)	Results communicated in public domain (Yes/No)	Relevant Web link
Not Applicable					

2 Provide information on project(s) for which ongoing Rehabilitation and Resettlement (R&R) is being undertaken by your entity, in the following format:

S. No.	Name of Project for which R&R is ongoing	State	District	No. of Project Affected Families (PAFs)	% of PAFs covered by R&R	Amounts paid to PAFs in the FY (In ₹)
The Company did not undertake any projects requiring Rehabilitation and Resettlement (R&R) activities during the current financial year.						

3 Describe the mechanisms to receive and redress grievances of the community.

The Entity actively undertakes CSR initiatives to support communities around its plant locations and follows an Open Door Policy, allowing direct engagement with plant management. It also proactively reaches out to communities, including vulnerable groups, to address concerns. Employees can raise grievances during communication meetings or via email, while workers may submit written complaints to works committee members. Grievances are addressed through established mechanisms, including the Whistle-Blower and POSH Policies, overseen by internal committees.

4 Percentage of input material (inputs to total inputs by value) sourced from suppliers:

	FY 2024-25 (Current Financial Year)	FY 2023-24 (Previous Financial Year)
Directly sourced from MSMEs/ small producers	46.65%	35.40%*
Directly from within India	94.05%	99.51%*

Note: *The data for financial year 2023–24 has been restated to enhance accuracy and clarity in reporting, in accordance with the circular dated December 20, 2024, which outlines industry standards forums guidelines for BRSR Core.

5 Job creation in smaller towns – Disclose wages paid to persons employed (including employees or workers employed on a permanent or non-permanent/on contract basis) in the following locations, as % of total wage cost

Location	FY 2024-25 (Current Financial Year)	FY 2023-24 (Previous Financial Year)*
Rural	46.46%	44.16%*
Semi-urban	0.99%	0.93%*
Urban	52.55%	54.91%*
Metropolitan	0	0

(Place to be categorized as per RBI Classification System - rural/semi-urban/urban/metropolitan)

Note: *The data for financial year 2023–24 has been restated to enhance accuracy and clarity in reporting, in accordance with the circular dated December 20, 2024, which outlines industry standards forums guidelines for BRSR Core.

Apache HTTP Server version was upgraded to 2.4.63.

OpenSSL was upgraded to version 3.3.2.

Internet Key Exchange (IKE) aggressive mode with pre-shared key was resolved by modifying the configuration.

No issues were identified related to cybersecurity or customer data privacy.

7 Provide the following information relating to data breaches:

a. Number of instances of data breaches

0

b. Percentage of data breaches involving personally identifiable information of customers

0

c. Impact, if any, of the data breaches

There was no impact, as no data breaches occurred.

LEADERSHIP INDICATORS

1 Channels/platforms where information on products and services of the entity can be accessed (provide web link, if available).

https://www.lumaxworld.in/lumaxautotech/index.html

2 Steps taken to inform and educate consumers about safe and responsible usage of products and/or services.

As the Company supplies its products directly to automotive OEMs, who are responsible for assembling and selling the final products to end consumers, the Company's role in informing and educating end-users about the safe and responsible usage of its products is inherently limited. Therefore, this responsibility is considered not applicable to the Company. However, wherever applicable, IAC ensures that products supplied to the OEMs are appropriately engraved, labeled, printed, or barcoded with relevant symbols and product information to facilitate traceability and compliance with industry standards.

3 Mechanisms in place to inform consumers of any risk of disruption/discontinuation of essential services.

Not applicable, as the Company does not provide essential services.

4 Does the entity display product information on the product over and above what is mandated as per local laws? (Yes/No/Not Applicable)

If yes, provide details in brief.

Yes, as the Entity supplies to OEMs and displays the product information as per customers' requirements, wherever applicable.

Did your entity carry out any survey with regard to consumer satisfaction relating to the major products/ services of the entity, significant locations of operation of the entity or the entity as a whole? (Yes/ No)

Recognizing the importance of customer satisfaction, the Entity actively seeks feedback through various channels. This feedback, whether direct or indirect, helps identify any grievances, and appropriate corrective measures are designed and implemented accordingly. Additionally, the management team regularly reviews and monitors summaries of customer satisfaction trends to ensure continuous improvement.

OPINION

1. We have audited the accompanying standalone financial statements of Lumax Auto Technologies Limited ("the Company"), which comprise the Standalone Balance Sheet as at March 31, 2025, the Standalone Statement of Profit and Loss (including Other Comprehensive Income), the Standalone Statement of Changes in Equity and the Standalone Statement of Cash Flows for the year then ended, and notes to the Standalone financial statements, including material accounting policy information and other explanatory information.
2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2025, and total comprehensive income (comprising of profit and other comprehensive income), changes in equity and its cash flows for the year then ended.

BASIS FOR OPINION

3. We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the "Auditor's Responsibilities for the Audit of the Standalone Financial Statements" section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

4. Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter	How our audit addressed the key audit matter
Revenue recognition and liabilities related to price variation (Refer note 40(1) and 46 to the Standalone Financial Statements)	
Revenue is measured by the Company at the transaction price, i.e., amount of consideration received/ receivable in exchange for transferring promised goods or services to the customers. In determining the transaction price for the sale of products, the Company considers the effects of variable consideration including price adjustment to be passed on to the customers based on parameters like negotiation based on savings on material and other factors. The Company's business requires passing on these credits to the customers once negotiations are concluded with the customers. The estimated liabilities are determined based on negotiations/ other business considerations at the year end, and the consequential impact on revenue is disclosed in note 46 to the standalone financial statements. We considered this to be a key audit matter as significant management judgement is involved in estimation of the price adjustments.	Our audit procedures included the following: • Obtained an understanding and evaluated the design and tested the operating effectiveness of the Company's controls relating to price adjustments in revenue process. • Assessed the Company's accounting policy for revenue recognition including the policy for recording price adjustments in accordance with the requirement of Ind AS 115 'Revenue from Contracts with Customers'. • Evaluated management's methodology and assumptions used for computing the price adjustment based on the negotiations with the customers which is used in the estimation of price adjustments as per the agreements with the customers. • Assessed the reliability of underlying historical data, developments during the year and assumptions used for determination of price adjustments. • Tested the completeness, arithmetical accuracy and validity of the data used in computation of price adjustments as per customer contracts.

INDEPENDENT AUDITOR'S REPORT (Contd.)

Key audit matter	How our audit addressed the key audit matter
	• Performed substantive testing by selecting a sample of price adjustments recorded during the year as well as year end price adjustments, and verified the parameters used in the computation with the underlying supporting documents. • Verified the adequacy of disclosures made in the standalone financial statements.
Assessment of carrying value of investments in Subsidiaries (Refer note 7 and 45 to the Standalone Financial Statements) The accumulated losses at the year end in five subsidiaries of the Company has resulted in the net worth of those subsidiaries being lower than the respective carrying amount of the investment in the Company's books. This is an indication of potential impairment of carrying value of the investments. The carrying value of investment in such subsidiaries aggregates to 10,459.38 (including investment in Optionally Convertible Redeemable Debentures). The Company assesses the carrying value of the investments by taking into account future business plans which are based on various assumptions including revenue growth rate and discount rate. Based on the Company's assessment, no impairment loss provision was required in respect to the carrying value of its investments in subsidiaries as at March 31, 2025. We considered this as a key audit matter due to significant management judgement involved in assessing the appropriateness of the valuation model, estimation of future cash flows as well as assumptions like discount rate, terminal growth rate, etc. used in the valuation model.	Our audit procedures included the following: • Obtained an understanding and evaluated the design and tested the operating effectiveness of the Company's controls over valuation of investments. • Assessed the determination of cash generating unit (CGU) in line with the requirements of Ind AS 36 'Impairment of Assets' considering the nature of business operations of the subsidiaries. • Involved auditor's expert and evaluated the key assumptions underlying the cash flow projections including growth rate and discount rate used in the discounted cash flow model. • Performed sensitivity analysis on the projections by varying key assumptions, within reasonably foreseeable range. • Compared the carrying value of the net assets of the subsidiaries with the estimated cash flows determined by the management for each entity. • Evaluated the appropriateness of the Company's accounting policies in respect of impairment assessment of investments. • Assessed the historical accuracy of the management's forecasted business plans by comparing the forecasts used in the prior year with the actual performance in the current year. • Verified the adequacy of the disclosures made in the standalone financial statements

OTHER INFORMATION

5. The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report, but does not include the Standalone financial statements and our auditor's report thereon.

   Our opinion on the Standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

   In connection with our audit of the Standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE STANDALONE FINANCIAL STATEMENTS

6. The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

7. In preparing the Standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

8. Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE STANDALONE FINANCIAL STATEMENTS

9. Our objectives are to obtain reasonable assurance about whether the Standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone financial statements.

10. As part of an audit in accordance with SAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

    - Identify and assess the risks of material misstatement of the Standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
    - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls

INDEPENDENT AUDITOR'S REPORT (Contd.)

with reference to Standalone financial statements in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Standalone financial statements, including the disclosures, and whether the Standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

11. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

12. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

13. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

OTHER MATTER

14. The standalone financial statements of the Company for the year ended March 31, 2024, were audited by another firm of chartered accountants under the Act who, vide their report dated May 27, 2024, expressed an unmodified opinion on those Standalone financial statements.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

15. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in the Annexure B a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

16. As required by Section 143(3) of the Act, we report that:

(a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

(b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books, except for the matters stated in paragraph 16(h)(vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 (as amended).

(c) The Balance Sheet, the Statement of Profit and Loss (including other comprehensive income), the Statement of Changes in Equity and the Statement of Cash Flows dealt with by this Report are in agreement with the books of account.

(d) In our opinion, the aforesaid standalone financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act.

(e) On the basis of the written representations received from the directors as on March 31, 2025, taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2025, from being appointed as a director in terms of Section 164(2) of the Act.

INDEPENDENT AUDITOR'S REPORT (Contd.)

(f) With respect to the maintenance of accounts and other matters connected therewith, reference is made to our remarks in paragraph 16(b) above on reporting under Section 143(3)(b) and paragraph 16(h)(vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 (as amended).

(g) With respect to the adequacy of the internal financial controls with reference to Standalone financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A".

(h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:

i. The Company has disclosed the impact of pending litigations on its financial position in its Standalone financial statements – Refer Note 37(b) to the Standalone financial statements.

ii. The Company was not required to recognise a provision as at March 31, 2025 under the applicable law or Indian Accounting Standards, as it does not have any material foreseeable losses on long-term contract. The Company did not have any derivative contracts as at March 31, 2025.

iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company during the year.

iv. (a) The management has represented that, to the best of its knowledge and belief, other than as disclosed in Note 49(v) to the standalone financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(b) The management has represented that, to the best of its knowledge and belief, as disclosed in the Note 49(vi) to the standalone financial statements, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

(c) Based on such audit procedures that we considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) contain any material misstatement.

v. The final dividend paid by the Company during the year in respect of the same declared for the previous year is in accordance with section 123 of the Companies Act 2013 to the extent it applies to payment of dividend.

As stated in Note 18.2 to the standalone financial statements, the Board of Directors of the Company have proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The dividend declared is in accordance with section 123 of the Act to the extent it applies to declaration of dividend.

vi. Based on our examination, which included test checks, the Company has used accounting software for maintaining its books of account which has a feature of recording

INDEPENDENT AUDITOR'S REPORT (Contd.)

audit trail (edit log) facility and that has operated throughout the year for all relevant transactions recorded in the software, except that: (a) the audit log at the application level is not maintained in case of modification by certain users with specific access; and (b) no audit trail has been enabled at the database level. During the course of performing our procedures except the aforesaid instances, we did not notice any instance of audit trail feature being tampered with. Further, the audit trail, to the extent maintained in the prior year, has been preserved by the Company as per the statutory requirements for record retention.

17. The Company has paid/ provided for managerial remuneration in accordance with the requisite approvals mandated by the provisions of Section 197 read with Schedule V to the Act.

ANNEXURE A TO INDEPENDENT AUDITOR'S REPORT

Referred to in paragraph 16(g) of the Independent Auditor's Report of even date to the members of Lumax Auto Technologies Limited on the standalone financial statements as of and for the year ended March 31, 2025

REPORT ON THE INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO FINANCIAL STATEMENTS UNDER CLAUSE (I) OF SUB-SECTION 3 OF SECTION 143 OF THE ACT

1. We have audited the internal financial controls with reference to financial statements of Lumax Auto Technologies Limited ("the Company") as of March 31, 2025 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

2. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("the Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

AUDITOR'S RESPONSIBILITY

3. Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing specified under Section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to financial statements.

MEANING OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO FINANCIAL STATEMENTS

6. A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO FINANCIAL STATEMENTS

7. Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also,

ANNEXURE A TO INDEPENDENT AUDITOR'S REPORT

Referred to in paragraph 16(g) of the Independent Auditor's Report of even date to the members of Lumax Auto Technologies Limited on the standalone financial statements as of and for the year ended March 31, 2025 (Contd.)

projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

8. In our opinion, the Company has, in all material respects, adequate internal financial controls system with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by ICAI.

ANNEXURE B TO INDEPENDENT AUDITOR'S REPORT

Referred to in paragraph 15 of the Independent Auditors' Report of even date to the members of Lumax Auto Technologies Limited on the standalone financial statements as of and for the year ended March 31, 2025

In terms of the information and explanations sought by us and furnished by the Company, and the books of account and records examined by us during the course of our audit, and to the best of our knowledge and belief, we report that:

i. (a) (A) The Company is maintaining proper records showing full particulars, including quantitative details and situation, of Property, Plant and Equipment.

(B) The Company is maintaining proper records showing full particulars of Intangible Assets.

(b) The Property, Plant and Equipment are physically verified by the Management according to a phased programme designed to cover all the items over a period of 3 years which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the programme, a portion of the Property, Plant and Equipment has been physically verified by the Management during the year and no material discrepancies have been noticed on such verification.

(c) The title deeds of all the immovable properties (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee), as disclosed in Note 3(c) to the standalone financial statements, are held in the name of the Company, except for the following

Description of property	Gross carrying value (INR lakhs)	Held in the name of	Whether promoter, director or their relative or employee	Period held - indicate range, where appropriate	Reason for not being held in the name of the Company
Freehold land	274.04	Lumax DK Auto Industries Limited	No	W.e.f. November 07, 2007 to till date	Company has acquired this asset, through merger of entity. The Company is in the process of getting this property registered in its name.

(d) The Company has chosen cost model for its Property, Plant and Equipment (including Right of Use assets) and Intangible Assets. Consequently, the question of our commenting on whether the revaluation is based on the valuation by a Registered Valuer, or specifying the amount of change, if the change is 10% or more in the aggregate of the net carrying value of each class of Property, Plant and Equipment (including Right of Use assets) or Intangible Assets does not arise.

(e) No proceedings have been initiated on or are pending against the Company for holding benami property under the Prohibition of Benami Property Transactions Act, 1988 (as amended in 2016) (formerly the Benami Transactions (Prohibition) Act, 1988 (45 of 1988)) and Rules made thereunder, and therefore the question of our commenting on whether the Company has appropriately disclosed the details in the standalone financial statements does not arise.

ii. (a) The physical verification of inventory excluding stocks with third parties has been conducted at reasonable intervals by the Management during the year and, in our opinion, the coverage and procedure of such verification by Management is appropriate. In respect of inventory lying with third parties, these have substantially been confirmed by them. The discrepancies noticed on physical verification of inventory as compared to book records were not 10% or more in aggregate for each class of inventory noticed on physical verification of inventory by Management, and have been appropriately dealt with in the books of account.

(b) During the year, the Company has been sanctioned working capital limits in excess of Rs. 5 crores, in aggregate, from banks and financial institutions on the basis of security of current assets. The Company has filed quarterly returns or statements with such banks and financial institutions, which are not in agreement with the unaudited books of account as set out below:

ANNEXURE B TO INDEPENDENT AUDITOR'S REPORT

Referred to in paragraph 15 of the Independent Auditors' Report of even date to the members of Lumax Auto Technologies Limited on the standalone financial statements as of and for the year ended March 31, 2025 (Contd.)

(Rs. in lakhs)

Note 1 – Certain adjustments in the financial statements are not considered while reporting amount under quarterly statements to banks and financial institution.

Also, refer Note 19 to the standalone financial statements.

iii. (a) The Company has made investments in various companies, financial institution, alternate investment fund and mutual fund schemes, granted unsecured loans to a company and various employee, stood guarantee for various companies and has not provided security to any companies / firms / Limited Liability Partnerships/ other parties. The aggregate amount during the year, and balance outstanding at the balance sheet date with respect to such loans and guarantees to subsidiaries and to parties other than subsidiaries, joint ventures and associates are as per the table given below:

(Amount in Rs. lakhs)

	Guarantees	Loans
Aggregate amount granted/ provided during the year		
- Subsidiaries	16,950	500
- Others	-	150.32
Balance outstanding as at balance sheet date in respect of the above case		
- Subsidiaries	16,950	500
- Others	-	94.26

Also, refer Note 10 and 37(c) to the standalone financial statements.

(b) In respect of the aforesaid investments, guarantees and loans, the terms and conditions under which such loans were granted, investments were made and guarantees provided are not prejudicial to the Company's interest.

(c) In respect of the loans, the schedule of repayment of principal and payment of interest (as applicable) has been stipulated, and the parties are repaying the principal amounts, as stipulated, and are also regular in payment of interest as applicable.

(d) In respect of the loans, there is no amount which is overdue for more than ninety days.

(e) There were no loans which have fallen due during the year and were renewed/extended. Further, no fresh loans were granted to same parties to settle the existing overdue loans/advances in nature of loan.

(f) The loans granted during the year, including to promoters/related parties had stipulated the scheduled repayment of principal and payment of interest (as applicable) and the same were not repayable on demand.

ANNEXURE B TO INDEPENDENT AUDITOR'S REPORT

Referred to in paragraph 14 of the Independent Auditors' Report of even date to the members of Lumax Auto Technologies Limited on the standalone financial statements as of and for the year ended March 31, 2025 (Contd.)

iv. In our opinion, the Company has complied with the provisions of Sections 185 and 186 of the Companies Act, 2013 in respect of the loans and investments made, and guarantees and security provided by it.

v. The Company has not accepted any deposits or amounts which are deemed to be deposits referred in Sections 73, 74, 75 and 76 of the Act and the Rules framed there under.

vi. Pursuant to the rules made by the Central Government of India, the Company is required to maintain cost records as specified under Section 148(1) of the Act in respect of its products. We have broadly reviewed the same and are of the opinion that, prima facie, the prescribed accounts and records have been made and maintained. We have not, however, made a detailed examination of the records with a view to determine whether they are accurate or complete.

vii. (a) In our opinion, the Company is generally regular in depositing undisputed statutory dues in respect of employees' state insurance , income taxes, duty of customs and goods and service taxes, though there has been a slight delay in a few cases, and is regular in depositing undisputed statutory dues, including provident fund, cess and other statutory dues, as applicable, with the appropriate authorities. However, there are no arrears of statutory dues outstanding as at March 31, 2025, for a period of more than six months from the date they became payable.

(b) There are no statutory dues of income taxes, duty of customs, provident fund which have not been deposited on account of any dispute. The particulars of statutory dues referred to in sub-clause (a) as at March 31, 2025 which have not been deposited on account of a dispute, are as follows:

Name of the statute	Nature of dues	Amount (Rs.)	Period to which the amount relates	Forum where the dispute is pending
Maharashtra Goods and Services Tax Act, 2017	GST	352.20	2019-2020	Joint Commissioner of State Tax (Appeals)
Central Goods and Services Tax Act, 2017	GST	34.41	2018-2019	Deputy Commissioner (Appeals)
Employee State Insurance Act, 1948	ESI contribution	0.90	2016-2017	Gurugram District Court

viii. There are no transactions previously unrecorded in the books of account that have been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961.

ix. (a) The Company has not defaulted in repayment of loans or other borrowings or in the payment of interest to any lender during the year.

(b) On the basis of our audit procedures, we report that the Company has not been declared Wilful Defaulter by any bank or financial institution or government or any government authority.

(c) In our opinion, the term loans have been applied for the purposes for which they were obtained.

(d) According to the information and explanations given to us, and the procedures performed by us, and on an overall examination of the standalone financial statements of the Company, we report that no funds raised on short-term basis have been utilized for long-term purposes by the Company.

(e) On an overall examination of the standalone financial statements of the Company, we report that the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries. The Company did not have any joint ventures or associate companies during the year.

(f) According to the information and explanations given to us and procedures performed by us, we report that the Company has not raised loans during the year on the pledge of securities held in its subsidiaries.

x. (a) The Company has not raised any money by way of initial public offer or further public offer (including debt instruments) during the year. Accordingly, the reporting under clause 3(x)(a) of the Order is not applicable to the Company.

(b) The Company has not made any preferential allotment or private placement of shares or fully or partially or optionally convertible debentures during the year. Accordingly, the reporting under clause 3(x)(b) of the Order is not applicable to the Company.

ANNEXURE B TO INDEPENDENT AUDITOR'S REPORT

Referred to in paragraph 14 of the Independent Auditors' Report of even date to the members of Lumax Auto Technologies Limited on the standalone financial statements as of and for the year ended March 31, 2025 (Contd.)

xi. (a) During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India, we have neither come across any instance of material fraud by the Company or on the Company, noticed or reported during the year, nor have we been informed of any such case by the Management.

(b) During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India, a report under Section 143(12) of the Act, in Form ADT-4, as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 was not required to be filed with the Central Government. Accordingly, the reporting under clause 3(xi)(b) of the Order is not applicable to the Company.

(c) During the course of our examination of the books and records of the Company carried out in accordance with the generally accepted auditing practices in India, and as represented to us by the management, no whistle-blower complaints have been received during the year by the Company. Accordingly, the reporting under clause 3(xi)(c) of the Order is not applicable to the Company.

xii. As the Company is not a Nidhi Company and the Nidhi Rules, 2014 are not applicable to it, the reporting under clause 3(xii) of the Order is not applicable to the Company.

xiii. The Company has entered into transactions with related parties in compliance with the provisions of Sections 177 and 188 of the Act. The details of related party transactions have been disclosed in the standalone financial statements as required under Indian Accounting Standard 24 "Related Party Disclosures" specified under Section 133 of the Act.

xiv. (a) In our opinion, the Company has an internal audit system commensurate with the size and nature of its business.

(b) The reports of the Internal Auditor for the period under audit have been considered by us.

xv. In our opinion, the Company has not entered into any non-cash transactions with its directors or persons connected with him. Accordingly, the reporting on compliance with the provisions of Section 192 of the Act under clause 3(xv) of the Order is not applicable to the Company.

xvi. (a) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, the reporting under clause 3(xvi)(a) of the Order is not applicable to the Company.

(b) The Company has not conducted non-banking financial/housing finance activities during the year. Accordingly, the reporting under clause 3(xvi)(b) of the Order is not applicable to the Company.

(c) The Company is not a Core Investment Company (CIC) as defined in the regulations made by the Reserve Bank of India. Accordingly, the reporting under clause 3(xvi)(c) of the Order is not applicable to the Company.

(d) In our opinion, the Group (as defined in the Core Investment Companies (Reserve Bank) Directions, 2016) does not have any CICs, which are part of the Group. Accordingly, the reporting under clause 3(xvi)(d) of the Order is not applicable to the Company.

xvii. The Company has not incurred any cash losses in the financial year or in the immediately preceding financial year.

xviii. There has been no resignation of the statutory auditors during the year and accordingly the reporting under clause 3(xviii) of the Order is not applicable.

xix. On the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the standalone financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that the Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date will get discharged by the Company as and when they fall due.

xx. (a) In respect of other than ongoing projects, as at balance sheet date, the Company does not have any amount remaining unspent under Section 135(5) of the Act. Accordingly, reporting under

ANNEXURE B TO INDEPENDENT AUDITOR'S REPORT

Referred to in paragraph 14 of the Independent Auditors' Report of even date to the members of Lumax Auto Technologies Limited on the standalone financial statements as of and for the year ended March 31, 2025 (Contd.)

clause 3(xx)(a) of the Order is not applicable.

(b) The Company has not undertaken any ongoing projects in pursuance of its Corporate Social Responsibility Policy. Accordingly, reporting under clause 3(xx)(b) of the Order is not applicable to the Company.

xxi. The reporting under clause 3(xxi) of the Order is not applicable in respect of audit of Standalone Financial Statements. Accordingly, no comment in respect of the said clause has been included in this report.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

1. CORPORATE INFORMATION

Lumax Auto Technologies Limited ("the Company") is a public limited company domiciled in India and is incorporated under the provisions of the Companies Act applicable in India. Its share are listed on two recognized stock exchanges in India. The registered office of the Company is located at 2nd Floor, Harbans Bhawan-II, Commercial Complex, Nangal Raya, New Delhi-110046. The Company's principal business activity constitutes manufacturing of automotive components.

2A. MATERIAL ACCOUNTING POLICIES

2A.1. Basis of preparation

(i) Compliance with Ind AS

The standalone financial statements comply in all material aspects with the Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act.

(ii) Historical cost convention

The financial statements have been prepared on a historical cost basis except for the following:

- Certain financial assets and liabilities are measured at fair value
- Defined benefit obligations- plan assets measured at fair value.
- Assets held for sale – measured at fair value less cost to sell

2A.2. New and amended standards adopted by the Company

The Ministry of Corporate Affairs vide notification dated September 09, 2024 and September 28, 2024 notified the Companies (Indian Accounting Standards) Second Amendment Rules, 2024 and Companies (Indian Accounting Standards) Third Amendment Rules, 2024, respectively, which amended/ notified certain accounting standards (as mentioned below), and are effective for annual reporting periods beginning on or after April 01, 2024:

- Insurance contracts - Ind AS 117; and
- Lease Liability in Sale and Leaseback – Amendments to Ind AS 116

These amendments did not have any material impact on the amounts recognized in prior periods and are not expected to significantly affect the current or future periods.

2A.3. Summary of material accounting policies

(a) Business Combinations

The acquisition method of accounting is used to account for all business combinations, regardless of whether equity instruments or other assets are acquired. The consideration transferred for the acquisition of a subsidiary comprises the

- fair values of the assets transferred
- liabilities incurred to the former owners of the acquired business
- equity interests, if any issued by the Company
- fair value of any asset or liability resulting from a contingent consideration arrangement.

Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are, with limited exceptions, measured initially at their fair values at the acquisition date. The Company recognizes any non-controlling interest in the acquired entity on an acquisition-by-acquisition basis either at fair value or at the non-controlling interest's proportionate share of the acquired entity's net identifiable assets.

Acquisition-related costs are expensed as incurred.

The excess of the:

- consideration transferred
- amount of any non-controlling interest in the acquired entity
- acquisition-date fair value of any previous equity interest in the acquired entity

over the fair value of the net identifiable assets acquired is recorded as goodwill. If those amounts are less than the fair value of the net identifiable assets of the business acquired, the difference is recognized in other comprehensive income and accumulated in equity as capital reserve provided there is clear evidence of the underlying reasons for classifying the business combination as a bargain purchase. In other cases, the bargain purchase gain is recognized directly in equity as capital reserve.

Where settlement of any part of cash consideration is deferred, the amounts payable in the future are discounted to their present value as at the date of exchange. The discount rate used is the entity's incremental borrowing rate, being the rate at

which a similar borrowing could be obtained from an independent financier under comparable terms and conditions.

Contingent consideration is classified either as equity or a financial liability. Amounts classified as a financial liability are subsequently remeasured to fair value with changes in fair value recognized in profit or loss.

If the business combination is achieved in stages, the acquisition date carrying value of the acquirer's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date. Any gains or losses arising from such remeasurement are recognized in profit or loss or other comprehensive income, as appropriate.

(b) Property, plant and equipment (including CWIP)

Historical cost includes expenditure that is directly attributable to the acquisition of the items. Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repair and maintenance are charged to profit or loss during the reporting period in which they are incurred.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

The asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss within other income/ other expense, as appropriate.

Depreciation on property, plant and equipment

Depreciation is calculated using the straight-line method to allocate the cost of the assets, net of their residual values, over their estimated useful lives as follows:

Particulars	Useful lives estimated by the management (in years)
Factory Building	30
Other Building	30 to 60
Computers	3
Office equipment	5
Furniture and fixtures	10
Vehicles	5
Electrical installation	10
Plant and equipment	8-21
Plant and equipment (robots)	12
Moulds	9

The useful lives have been determined based on management evaluation which are higher than those specified by Schedule II to the Companies Act, 2013, in order to reflect the actual usage of the assets. The residual values are not more than 5% of the original cost of the asset.

Leasehold improvements are depreciated over the shorter of their useful life or the lease term, unless the entity expects to use the assets beyond the lease term.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at the end of each financial year and adjusted prospectively, if appropriate. In particular, the Company considers the impact of health, safety and environment legislation in its assessment of expected useful lives and estimated residual values.

(c) Intangible assets

Recognition and measurement

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization and impairment loss, if any. Internally generated intangible assets, excluding capitalized development costs, are not capitalized and expenditure is reflected in the statement of profit or loss in the year in which the expenditure is incurred.

The useful life of intangible assets are assessed as finite.

Amortization and useful lives

Intangible assets with finite lives are amortized over the useful economic life and assessed

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025 (Contd.)

for impairment whenever there is an indication that the intangible assets may be impaired. The amortization period and amortization method of the intangible asset with a useful finite life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the assets are considered to modify the amortization period or method, as appropriate, and are treated as changes in accounting estimates. The amortization expense on intangible assets with finite lives is recognized in the statement of profit or loss unless such expenditure forms part of carrying value of another assets.

An intangible asset is derecognized upon disposal (i.e., at the date the recipient obtains control) or when no future economic benefits are expected from its use or disposal. Any gain or loss arising upon de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

Amortization method and useful lives

The Company amortizes intangible assets with a finite life using the straight-line method over the following periods:

Intangible Assets	Estimated Useful Life (Years)
Computer Software	Over the estimated economic useful lives of 4 years
Technical Know-how	Over the period of Technical Assistance Agreement, i.e. 8 years

(d) Investment Properties

Investment properties are measured initially at its cost, including related transaction costs and where applicable borrowing costs. Subsequent expenditure is capitalized to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred. When part of an investment property is replaced, the carrying amount of the replaced part is derecognized.

Investment properties, principally land and buildings, are held for long-term rental yields and are not occupied by the Company.

Investment properties are depreciated using the straight-line method to allocate the cost of assets over their estimated useful lives. Investment properties generally have useful lives of 30 years. The useful lives have been determined based on technical evaluation performed by the management's expert.

(e) Leases

The Company leases solar power plants, land and buildings. Rental Contracts are typically made for fixed periods of two years to twelve years for buildings, ninety-nine years for leasehold land and fifteen years for solar power plants, but might have extension options as disclosed in Note 5 (vi) to the financial statements.

Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose any covenants other than the security interests in the leased assets that are held by the lessor. Leased assets might not be used as security for borrowing purposes.

The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for the leases in the Company, the lessee's incremental borrowing rate is used, being the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset if similar value to the right-of-use asset in a similar economic environment with similar terms, security and conditions.

To determine the incremental borrowing rate, the Company:

- Where possible, uses recent third-party financing received by the individual lessee as a starting point, adjusted to reflect changes in financing conditions since third party financing was received.
- Uses a build-up approach that starts with a risk-free interest rate adjusted for credit risk for leases held by the Company, which does not have recent third-party financing.
- Makes adjustments specific to the lease, for example, term, country, currency and security.

If a readily observable amortising loan rate is available to the individual lessee (through recent financing or market data) which has a similar payment profile to the lease, then the Company use that rate as a starting point to determine the incremental borrowing rate.

Right-of-use assets are generally depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. If the Company is reasonably certain to exercise a purchase option, the right-of-use asset is depreciated over the underlying asset's useful life.

Payments associated with short-term leases of equipment and all leases of low-value assets are recognized on a straight-line basis as an expense in profit or loss. Short-term leases are leases with a lease term of 12 months or less, without a purchase option.

As a lessee

Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of the following lease payments:

- fixed payments (including in-substance fixed payments), less any lease incentives receivable
- variable lease payments that are based on an index or a rate, initially measured using the index or rate as at the commencement date
- amounts expected to be payable by the Company under residual value guarantees
- the exercise price of a purchase option if the Company is reasonably certain to exercise that option,
- lease payments to be made under an extension option if the reasonably certain to exercise the option, and
- payments of penalties for terminating the lease, if the lease term reflects the Company exercising that option.

Lease payments to be made reasonably certain extension options are also included in the measurement of the liability.

Lease payments are allocated between principal and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Variable lease payments that depend on sales are recognized in profit or loss in the period in which the condition that triggers those payments occurs.

Right-of-use assets are measured at cost comprising the following:

- the amount of the initial measurement of lease liability
- any lease payments made at or before the commencement date less any lease incentives received
- any initial direct costs
- restoration costs.

As a lessor

Lease income from operating leases where the Company is a lessor is recognized in income on a straight-line basis over the lease term. Initial direct costs incurred in obtaining an operating lease are added to the carrying amount of the underlying asset and recognized as expense over the lease term on the same basis as lease income. The respective leased assets are included in the balance sheet based on their nature.

(f) Inventories

Raw materials and stores, work in progress, traded and finished goods

Assigning costs to inventories:

The costs of individual items of inventory are determined on a weighted average basis. Volume rebates or discounts are taken into account when estimating the cost of inventory if it is probable that they have been earned and will take effect.

Raw materials and stores, work in progress and finished goods are stated at the lower of cost and net realisable value. Cost of raw materials and stock-in-trade comprises cost of purchases. Cost of work-in-progress and finished goods comprises direct materials, direct labour and an appropriate proportion of variable and fixed overhead expenditure, the latter being allocated on the basis of normal operating capacity. Cost of inventories also include all other costs incurred in bringing the inventories to their present location and condition. Cost includes the transfer from equity of any gains or losses on qualifying cash flow hedges relating to purchases of raw material

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025 (Contd.)

but excludes borrowing costs. Costs of purchased inventory are determined after deducting rebates and discounts. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

(g) Investments, loans and other financial assets

(i) Classification

The Company classifies its financial assets in the following measurement categories:

- Those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss
- those to be measured at amortised cost

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in equity instruments that are not held for trading, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to present subsequent changes in fair value in other comprehensive income.

(ii) Recognition and derecognition

Regular way purchases and sales of financial assets are recognized on trade-date, being the date on which the Company commits to purchase or sell the financial asset. Financial assets are derecognized when the rights to receive cash flows from the financial assets have expired or have been transferred and the Company has transferred substantially all the risks and rewards of ownership.

(iii) Measurement

At initial recognition, the Company measures a financial asset (excluding trade receivables which do not contain a significant financing component) at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss. Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Debt instruments

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Company classifies its debt instruments:

- **Amortized cost:** Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortized cost. Interest income from these financial assets is included in Other Income using the effective interest rate method. Any gain or loss arising on derecognition is recognized directly in profit or loss and presented in other gains/(losses). Impairment losses are presented as separate line item in the statement of profit and loss.
- **Fair value through other comprehensive income (FVOCI):** Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at FVOCI. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest income and foreign exchange gains and losses which are recognized in profit and loss. When the financial asset is derecognized, the cumulative gain or loss previously recognized in OCI is reclassified from equity to profit or loss and recognized in other gains/(losses). Interest income from these financial assets is included in other income using the effective interest rate method.

Foreign exchange gains and losses are presented in other gains/(losses) and impairment expenses are presented as separate line item in statement of profit and loss.

- **Fair value through profit or loss:** Assets that do not meet the criteria for amortized cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt instrument that is subsequently measured at fair value through profit or loss is recognized in profit or loss and presented net within other gains/(losses) in the period in which it arises. Interest income from these financial assets is included in other income.

Equity Instruments

The Company subsequently measures all equity investments at fair value. Where the Company's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or loss following the derecognition of the investment. Dividends from such investments are recognized in profit or loss as other income when the Company's right to receive payments is established.

Changes in the fair value of financial assets at fair value through profit or loss are recognized in other gain/ (losses) in the statement of profit and loss. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

(iv) Impairment of financial assets

The Company assesses on a forward-looking basis the expected credit losses associated with its assets carried at amortized cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk. Note 44 details how the Company determines whether there has been a significant increase in credit risk.

(h) Revenue from operations

Revenue from contracts with customers is recognized when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. The Company has generally concluded that it is the principal in its revenue arrangements, because it typically controls the goods before transferring them to the customer.

(i) Sale of products

Revenue from sale of products is recognized at the point in time when control of the asset is transferred to the customer, generally on delivery of the product. The normal credit term is 30 to 120 days upon delivery.

The Company assesses on a forward-looking basis the expected credit losses associated with its assets carried at amortized cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk. Note 44 details how the Company determines whether there has been a significant increase in credit risk.

The Company operates several sales incentive programs wherein the customers are eligible for several benefits on achievement of underlying conditions as prescribed in the scheme program such as discounts. Revenue from contracts with customers is presented deducting cost of all these schemes.

(ii) Sale of service

Revenue from sale of service is recognized in accordance with the terms of contract when the services are rendered and the related costs are incurred.

Estimates of revenues, costs or extent of progress toward completion are revised if circumstances change. Any resulting increases or decreases in estimated revenues or costs are reflected in profit or loss in the period in which the circumstances that give rise to the revision become known by management.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025 (Contd.)

(iii) Financing components

The Company does not have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, the Company does not adjust any of the transaction prices for a significant financing component or the time value of money.

(i) Trade receivables

Trade receivables are amounts due from customers for goods sold or services performed in the ordinary course of business and reflect the Company's unconditional right to consideration (that is, payment is due only on the passage of time).

Trade receivables are recognized initially at the transaction price as they do not contain significant financing components. The Company holds the trade receivables with the objective of collecting the contractual cash flows and therefore measures them subsequently at amortized cost using the effective interest method, less loss allowance.

For trade receivables and contract assets, the Company applies the simplified approach required by Ind AS 109, which requires expected lifetime losses to be recognized from initial recognition of the receivables.

Contract Liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognized when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognized as revenue when the Company performs under the contract.

(j) Government Grants

Government grants are recognized where there is reasonable assurance that the grant will be received and all the attached conditions will be complied with. When the grant relates to an expense item, it is recognized as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognized as income in equal amounts over the expected useful life of the related asset.

When the Company receives grants of non-monetary assets, the asset and the grant are recorded at fair value amounts and released to standalone statement of profit and loss over the expected useful life in a pattern of consumption of the benefit of the underlying asset i.e. by equal annual instalments. When loans or similar assistance are provided by governments or related institutions, with an interest rate below the current applicable market rate, the effect of this favorable interest is regarded as government grant. The loan or assistance is initially recognized and measured at fair value and the government grant is measured as the difference between the initial carrying value of the loan and the proceeds received. The loan is subsequently measured as per the accounting policy applicable to financial liabilities.

(k) Income tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the Company operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation and considers whether it is probable that a taxation authority will accept an uncertain tax treatment. The Company measures its tax balances either based on the most likely amount or the expected value, depending on which method provides a better prediction of the resolution of the uncertainty.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the standalone financial statements. However, deferred tax liabilities are not recognized if they arise from the

initial recognition of goodwill. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss) and does not give rise to equal taxable and deductible temporary differences. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

A deferred tax asset shall be recognized for all deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilized, unless the deferred tax asset arises from the initial recognition of an asset or liability in a transaction that:

i. is not a business combination;

ii. at the time of the transaction, affects neither accounting profit nor taxable profit (tax loss); and

iii. at the time of the transaction, does not give rise to equal taxable and deductible temporary differences.

An entity shall recognize a deferred tax liability for all taxable temporary differences associated with investments in subsidiaries, branches and associates, and interests in joint arrangements, except to the extent that both of the following conditions are satisfied:

i. the parent, investor, joint venturer or joint operator is able to control the timing of the reversal of the temporary difference; and

ii. it is probable that the temporary difference will not reverse in the foreseeable future.

An entity shall recognize a deferred tax asset for all deductible temporary differences arising from investments in subsidiaries, branches and associates, and interests in joint arrangements, to the extent that, and only to the extent that, it is probable that:

i. the temporary difference will reverse in the foreseeable future; and

ii. taxable profit will be available against which the temporary difference can be utilized.

A deferred tax asset shall be recognized for the carry forward of unused tax losses and unused tax credits to the extent that it is probable that future taxable profit will be available against which the unused tax losses and unused tax credits can be utilized.

Deferred tax assets and liabilities are offset where there is a legally enforceable right to offset current tax assets and liabilities and where the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Current and deferred tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity, respectively.

(l) Investment in subsidiaries and joint venture

The investment in subsidiaries and joint venture are carried at cost as per Ind AS 27 'Separate Financial Statements'. The Company regardless of the nature of its involvement with an entity (the investee), determine whether it is a parent by assessing whether it controls the investee. The Company controls an investee when it is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Thus, the Company controls over the investee if and only if it has all the following:

(a) Power over the investee

(b) Exposure, or rights, to variable returns from its involvement with the investee; and

(c) the ability to use its power over the investee to affect the amount of the returns.

Investments are accounted in accordance with Ind AS 105 "Non-current Assets Held for Sale and Discontinued Operations" when they are classified as held for sale. On disposal of investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the standalone statement of profit and loss.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025 (Contd.)

2B. OTHER ACCOUNTING POLICIES

(a) Employee benefits

(i) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognized in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

(ii) Other long-term employee benefit obligations

The Company also has liabilities for earned leave that are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. These obligations are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the appropriate market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognized in profit or loss.

The obligations are presented as current liabilities in the balance sheet if the Company does not have an unconditional right, at the end of the reporting period, to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

(iii) Post-employment obligations

The Company operates the following post-employment schemes:

- defined benefit plans such as gratuity, pension, post-employment medical plans.
- defined contribution plans such as provident fund.

Gratuity obligations

The liability or asset recognized in the balance sheet in respect of gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets.

The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation denominated INR determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation. The estimated future payments which are denominated in a currency other than INR are discounted using market yields determined by reference to high-quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognized immediately in profit or loss as past service cost.

Defined contribution plans

The Company pays provident fund contributions to publicly administered provident funds as per local regulations. The Company has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognized as employee benefit expense when they are due. Prepaid contributions are recognized as an asset to the extent that a cash refund or a reduction in the future payments is available.

(b) Provisions and contingent liability

Provisions

Provisions for legal claims and service warranties are recognized when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognized for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognized even if the likelihood of an outflow with respect to any one item included in the same class of obligations might be small.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognized as interest expense.

Contingent liability

Contingent liability is:

a) a possible obligation arising from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity; or

b) a present obligation that arises from past events but is not recognized because:

- it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or
- the amount of the obligation cannot be measured with sufficient reliability.

Provisions and contingent liabilities are reviewed at each Balance Sheet date.

(c) Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

(d) Earnings per share (EPS)

Basic EPS is calculated by dividing:

- the profit attributable to owners of the Company
- by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year and excluding treasury shares (see note 35).

The Company does not have any dilutive potential equity shares.

(e) Dividend

Provision is made for the amount of any dividend declared, being appropriately authorized and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

(f) Other income

(i) Interest Income

Interest income from financial assets at FVTPL is disclosed as interest income within other income. Interest income on financial assets at amortized cost and financial assets at FVOCI is recognized in profit or loss as part of other income.

Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for financial assets that subsequently become credit impaired. For credit-impaired financial assets the effective interest rate is applied to the net carrying amount of the financial asset (after deduction of the loss allowance).

(ii) Dividend Income

Dividend is recognized when the Company's right to receive the payment is established, which is generally when shareholders approve the dividend.

(iii) Government Grant

Government grants are recognized where there is reasonable assurance that the Company will comply with the conditions attaching to them and the grants will be received.

Government grants are recognized in the statement of profit and loss on a systematic basis over the periods in which the Company recognizes

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025 (Contd.)

as expense the related cost for which the grants are intended to compensate.

(iv) Rental Income

Leases in which the Group does not transfer substantially all the risks and rewards incidental to ownership of an asset is classified as operating leases. Rental income arising is accounted for on a straight-line basis over the lease terms.

(v) Royalty Income

Income from royalty is recognized on an accrual basis in accordance with the substance of the relevant arrangements.

(g) Borrowings

Borrowings are initially recognized at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortized cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognized in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognized as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw-down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalized as a prepayment for liquidity services and amortized over the period of the facility to which it relates.

Borrowings are derecognized from the balance sheet when the obligation specified in the contract is extinguished, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognized in profit or loss as other gains/(losses).

Where the terms of a financial liability are renegotiated and the entity issues equity instruments to a creditor to extinguish all or part of the liability (debt for equity swap), a gain or loss is recognized in profit or loss, which is measured as the difference between the carrying amount of the financial liability and the fair value of the equity instruments issued.

Borrowings are classified as current liabilities unless, at the end of the reporting period, the Company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

(h) Borrowing costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

Other borrowing costs are expensed in the period in which they are incurred.

(i) Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of the financial year which are unpaid. The amounts are unsecured and are usually paid within 30 days of recognition. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognized initially at their fair value and subsequently measured at amortized cost using the effective interest method.

(j) Foreign currency translation

Functional and presentational currency

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The financial statements are presented in Indian rupee (₹), which is Lumax Auto Technologies Limited's functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year

end exchange rates are generally recognized in profit or loss.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss. For example, translation differences on non-monetary assets and liabilities such as equity instruments held at fair value through profit or loss are recognized in profit or loss as part of the fair value gain or loss, and translation differences on non-monetary assets such as equity investments classified as at FVOCI are recognized in other comprehensive income.

(k) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

(l) Segment Reporting

An operating segment is defined as a component of the entity that represents business activities from which it earns revenues and incurs expenses and for which discrete financial information is available. The operating segments are based on the Company's internal reporting structure and the manner in which operating results are reviewed by the Chief Operating Decision Maker (CODM).

The Board of Directors of the Company has been identified as the CODM by the Company. Refer Note 39 for Segment disclosure.

ii) Contractual obligations

There are no contractual obligations to purchase, construct or develop investment properties.

iii) Estimation of Fair Value

Fair value of investment properties is ascertained on the basis of market rates as determined by the independent registered valuer.

iv) Leasing arrangements

The investment properties are leased to fellow subsidiary and enterprises owned or significantly influenced by key managerial persons and/or their relatives under operating leases with rentals payable monthly. Lease income from operating leases where the Company is a lessor is recognised in income on a straight-line basis over the lease term.

Lease payments for some contracts include CPI increases, but there are no other variable lease payments that depend on an index or rate. Since the investment properties are leased to related parties only, the credit risk on the same is minimal. Although the Company is exposed to changes in the residual value at the end of the current leases, the Company typically renews the operating leases with related parties and therefore will not immediately realise any reduction in residual value at the end of these leases.

Minimum lease payments receivable on leases of investment properties are as follows:

	As at March 31, 2025	As at March 31, 2024
Within 1 year	454.66	72.20

18.1 Nature and purpose of reserves

a) Securities premium

Securities premium is used to record the premium on issue of shares. The reserve can be utilised only for limited purposes such as issuance of bonus shares in accordance with the provisions of the Companies Act, 2013.

b) FVTOCI Reserve

The Company has elected to recognise changes in the fair value of certain investments in equity securities in other comprehensive income. These changes are accumulated within the FVTOCI Reserve within equity. The Company transfers amounts from this reserve to retained earnings when the relevant equity securities are derecognised.

(All amounts are in ₹ Lakhs, unless otherwise stated)

c) General reserve

Under the erstwhile Companies Act 1956, general reserve was created through an annual transfer of net income at a specified percentage in accordance with applicable regulations. Consequent to introduction of Companies Act 2013, the requirement to mandatorily transfer a specified percentage of the net profit to general reserve has been withdrawn. However, the amount previously transferred to the general reserve can be utilised only in accordance with the specific requirements of Companies Act, 2013.

d) Retained Earnings

Retained earnings are the profits/(loss) that the Company has earned/incurred till date, less any transfers to general reserve, dividends or other distributions paid to shareholders. Retained earnings include re-measurement loss / (gain) on defined benefit plans, net of taxes that will not be reclassified to Statement of Profit and Loss.

e) Capital reserve

Capital reserve are the reserve created for gain on bargain purchase related to business combinations.

36. GRATUITY AND OTHER POST-EMPLOYMENT BENEFIT PLANS

A) Leave obligation

The liabilities for compensated absence namely earned and contingency leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in statement of profit and loss.

B) Defined contribution plans

During the year, the Company has recognised the following amounts in the statement of profit and loss :

	For the Year Ended March 31, 2025	For the Year Ended March 31, 2024
Employer's contribution to provident fund and other fund	452.45	416.25

C) Defined benefit plans

The gratuity plan is governed by the Payment of Gratuity Act, 1972. Under the Act, employee who has completed five years of service is entitled to specific benefit. The level of benefits provided depends on the member's length of service and salary at retirement age. The scheme is funded with an insurance company in the form of qualifying insurance policy.

a) The following table summarise the components of net benefit expense recognized in the statement of profit and loss

	For the Year Ended March 31, 2025	For the Year Ended March 31, 2024

Further, the operations of the Company is domiciled in India and there are no assets lying outside India. For revenue by location of customers refer note 26.5.

40. SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

I Judgements

In the process of applying the Company's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognized in the financial statements:

Revenue from operations

The Company applied the following judgments that significantly affect the determination of the amount and timing of revenue from operations:

Determining method to estimate variable consideration and assessing the constraint:- Certain contracts for the sale of products include a right of price revision on account of change of commodity prices/purchase price that give rise to variable consideration. In estimating the variable consideration, the Company is required to use either the expected value method or the most likely amount method based on which method better predicts the amount of consideration to which it will be entitled.

II Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

a) Property, plant and equipment

The useful lives and residual values of property, plant and equipment are determined by the management based on technical assessment by the management. The Company believes that the derived useful life best represents the period over which the Company expects to use these assets.

b) Taxes

Uncertainties exist with respect to the interpretation of complex tax regulations, changes in tax laws, and the amount and timing of future taxable income. Given the wide range of business relationships and the long term nature and complexity of existing contractual agreements, differences arising between the actual results and the assumptions made, or future changes to such assumptions, could necessitate future adjustments to tax income and expense already recorded. The Company establishes provisions, based on reasonable estimates. The amount of such provisions is based on various factors, such as experience of previous tax audits and differing interpretations of tax regulations by the taxable entity and the responsible tax authority.

Such differences of interpretation may arise on a wide variety of issues depending on the conditions prevailing in the respective domicile of the companies.

c) Gratuity benefit

The cost of defined benefit plans (i.e. Gratuity benefit) is determined using actuarial valuations. An actuarial valuation involves making various assumptions which may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and future pension increases. Due to the

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025 (Contd.)

(All amounts are in ₹ Lakhs, unless otherwise stated)

complexity of the valuation, the underlying assumptions and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. In determining the appropriate discount rate, management considers the interest rates of long term government bonds with extrapolated maturity corresponding to the expected duration of the defined benefit obligation. The mortality rate is based on publicly available mortality tables for the specific countries. Future salary increases and pension increases are based on expected future inflation rates for the respective countries. Further details about the assumptions used, including a sensitivity analysis, are given in Note 36.

d) Fair value measurement of financial instrument

When the fair value of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow (DCF) model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

e) Impairment of financial assets

The impairment provisions of financial assets are based on assumptions about risk of default and expected loss rates. the Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

f) Impairment of non-financial assets

Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use.

The fair value less costs of disposal calculation is based on available data from binding sales transactions, conducted at arm's length, for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a DCF model. The cash flows are derived from the budget for the next five years and do not include restructuring activities that the Company is not yet committed to or significant future investments that will enhance the asset's performance of the CGU being tested. The recoverable amount is sensitive to the discount rate used for the DCF model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes. These estimates are also relevant to other intangibles. During the year the Company has done the impairment assessment of non-financial assets and have concluded that there is no impairment in value of non-financial assets as appearing in the financial statements.

g) Revenue recognition - Estimating variable consideration for returns and volume rebates

The Company estimates variable considerations to be included in the transaction price for the sale of traded goods (in after-market) with volume rebates.

The Company's expected volume rebates are analysed on a per customer basis for contracts that are subject to a single volume threshold. Determining whether a customer will be likely entitled to rebate will depend on the customer's historical rebates entitlement and accumulated purchases to date. The Company applied a statistical model for estimating expected volume rebates for contracts with more than one volume threshold. The model uses the historical purchasing patterns and rebates entitlement of customers to determine the expected rebate percentages and the expected value of the variable consideration. Any significant changes in experience as compared to historical purchasing patterns and rebate entitlements of customers will impact the expected rebate percentages estimated by the Company.

41. CAPITAL MANAGEMENT

For the purpose of the Company's capital management, capital includes issued equity capital, all equity reserves attributable to the equity holders of the Company. The primary objective of the Company's capital management is to maximize the shareholders' value.

(All amounts are in ₹ Lakhs, unless otherwise stated)

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants, if any. To maintain or adjust the capital structure, the Company reviews the fund management at regular intervals and take necessary actions to maintain the requisite capital structure. The Company monitors capital using gearing ratio, which is net debt divided by total capital plus net debt. The Company includes within net debt, interest bearing loans and borrowings, less cash and cash equivalents. No changes were made in the objectives, policies or processes for managing capital during the years ended March 31, 2025 and March 31, 2024.

Total	**63,736.94**	**60,187.82**	**63,736.94**	**60,187.82**

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

Discount rate used in determining fair value

The interest rate used to discount estimated future cash flows, where applicable, are based on the incremental borrowing rate of borrower which in case of financial liabilities is average market cost of borrowings of the Company and in case of financial asset is the average market rate of similar credit rated instrument. The Company maintains policies and procedures to value financial assets or financial liabilities using the best and most relevant data available.

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

43. FAIR VALUE HIERARCHY

All financial instruments for which fair value is recognized or disclosed are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole.

Level 1: Quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2: Valuation techniques for which the lowest level input that has a significant effect on the fair value measurement are observable, either directly or indirectly.

Level 3: Valuation techniques for which the lowest level input which has a significant effect on the fair value measurement is not based on observable market data.

The following table provides the fair value measurement hierarchy of the Company's assets and liabilities.

44. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Company's principal financial liabilities comprise of trade and other payables, borrowings, lease liabilities, security deposits and payables for property, plant and equipment. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include trade and other receivables, cash, fixed deposits and security deposits that derive directly from its operations.

The Company is exposed to market risk, credit risk and liquidity risk. The Company's senior management oversees the management of these risks. The Company's senior management is supported by Finance department that advises on financial risks and the appropriate financial risk governance framework for the Company. The Finance department provides assurance to the Company's senior management that the Company's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives. It is the Company's policy that no trading in derivatives for speculative purposes may be undertaken. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below.

A. Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk. Financial instrument effected by market risk include loans and borrowings, deposits, FVTOCI instrument.

The sensitivity analyses in the following sections relate to the position as at March 31, 2025 and March 31, 2024.

The following assumptions have been made in calculating the sensitivity analysis:

The sensitivity of the relevant profit or loss item is the effect of the assumed changes in respective market risks. This is based on the financial assets and financial liabilities held at March 31, 2025 and March 31, 2024 including the effect of hedge accounting.

(i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's interest bearing financial liabilities includes borrowings with fixed interest rates. The Company's fixed rate borrowings are carried at amortized cost. They are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

(All amounts are in ₹ Lakhs, unless otherwise stated)

Interest rate risk exposure

The Company's variable rate borrowing is subject to interest rate fluctuations. Below is the overall exposure of the borrowing:

	As at March 31, 2025	As at March 31, 2024
Variable rate borrowing	37,723.56	36,116.58
Fixed rate borrowing	706.17	749.23
Total borrowings	**38,429.73**	**36,865.81**

Sensitivity

Profit or loss and equity is sensitive to higher/ (lower) interest expense from borrowings as a result of changes in interest rates.

	Decrease/ (increase) in profit or loss for the year ended March 31, 2025	Decrease/ (increase) in profit or loss for the year ended March 31, 2024
Interest sensitivity		
Increase by 1% (March 31, 2024: 1%)	377.24	361.17
Decrease by 1% (March 31, 2024: 1%)	(377.24)	(361.17)

(ii) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities (when revenue or expense is denominated in a foreign currency).

The Company transacts business in local currency as well as in foreign currency. The Company has foreign currency trade payables and receivables and is therefore, exposed to foreign exchange risk.

The Company exposure to foreign currency risk at the end of the reporting period expressed in ₹ Lakhs are as follows:

Currency	As at March 31, 2025			As at March 31, 2024		
	Assets	Liabilities	Net Exposure to Foreign currency	Assets	Liabilities	Net Exposure to Foreign currency
	Trade receivables	Trade payables		Trade receivables	Trade payables	
USD	304.21	(451.20)	(146.99)	49.25	(352.98)	(303.73)
GBP	3.58	-	3.58	-	-	-
JPY	-	(3.63)	(3.63)	376.94	(3.63)	373.31

Foreign currency sensitivity

The following tables demonstrate the sensitivity to a reasonably possible change in foreign exchange rates, with all other variables held constant. The impact on the Company's profit before tax is due to changes in the fair value of monetary assets and liabilities.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025 (Contd.)

(All amounts are in ₹ Lakhs, unless otherwise stated)

Exposure gain/(loss)	As at March 31, 2025		As at March 31, 2024

Trade Payable	(22.74)	22.74	(17.96)	17.96
Trade Receivable	15.38	(15.38)	21.06	(21.06)

iii) Equity price risk

The Company's listed and non-listed equity securities are susceptible to market price risk arising from uncertainties about future values of the investment securities. The Company manages the equity price risk through diversification and by placing limits on individual and total equity instruments. Reports on the equity portfolio are submitted to the Company's management on a regular basis. The Company's Board of Directors reviews and approves all equity investment decisions.

At the reporting date, the exposure to listed equity securities at fair value was ₹ 13,594.51 Lakhs (March 31, 2024: ₹ 12,624.92 Lakhs). A decrease of 10% on the NSE market index could have an impact of approximately ₹ 1,359.45 Lakhs (March 31, 2024: ₹ 1,262.49 Lakhs) on the OCI or equity attributable to the Company. An increase of 10% in the value of the listed securities would also impact OCI and equity.

B. Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its investing activities, including deposits with banks and other financial instruments.

Trade receivables

Customer credit risk is managed by the Company subject to the Company's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on an extensive credit rating. Outstanding customer receivables are regularly monitored.

An impairment analysis is performed at each reporting date on an individual basis for major clients. In addition, a large number of minor receivables are grouped into homogenous groups and assessed for impairment collectively. The maximum exposure to credit risk at the reporting date is the carrying value of financial assets (trade receivable). The Company evaluates the concentration of risk with respect to trade receivables as low, as its customers are located and being operated in India.

Further, the Company's customer base majorly includes Original Equipment Manufacturers (OEMs), Large Corporates and Tier-1 vendors of OEMs and dealers. Based on the past trend of recoverability of outstanding trade receivables, the Company has not incurred material losses on account of bad debts. The Company is earning revenue of ₹ 67,710.62 Lakhs (March 31, 2024: ₹ 56,757.19 Lakhs) in the domestic market from two customers. The following table provides information about the exposure to credit risk and expected credit loss as at March 31, 2025 and March 31, 2024 for trade receivables under the simplified approach.

(All amounts are in ₹ Lakhs, unless otherwise stated)

Closing loss allowance on trade receivables	**134.79**	**96.91**

C. Liquidity risk

Liquidity risk is the risk that the Company may not be able to meet its present and future cash and collateral obligations without incurring unacceptable losses. The Company's objective is to, at all times maintain optimum levels of liquidity to meet its cash and collateral requirements. The Company closely monitors its liquidity position and deploys a robust cash management system. It maintains adequate sources of financing including loans from banks at an optimized cost.

D. Commodity risk

The Company is affected by the price volatility of certain commodities. Its operating activities require the ongoing purchases of steel & plastic granules which are volatile products and are major component of end product. The prices in these purchase contracts are linked to the price of raw steel & plastic granules and demand supply matrix. However, at present, the Company do not hedge its raw material procurements, as the price of the final product of the Company also vary with the price of underlying commodity which mitigate the risk of price volatility.

45. As at March 31, 2025, investments in equity shares and optionally convertible debentures in the subsidiaries amounted to ₹ 15,157.30 Lakhs and 28,526.00 Lakhs respectively. Management periodically assesses whether there is an indication that such investments may be impaired. As at March 31, 2025, five subsidiaries of the Company has resulted in the net worth of those subsidiaries being lower than the respective carrying amount of the investment in the Company's books. This is an indication of potential impairment of carrying value of the investments. The carrying value of investment in such subsidiaries aggregates to 10,459.38 (including investment in Optionally Convertible Redeemable Debentures). For such investment, where impairment indicators exist, management compares its carrying amount with the recoverable amount. Recoverable amount is value in use of the investment computed based upon discounted projected profitability. As on the reporting date, the recoverable amount, determined by the management is more than the carrying amount and accordingly no adjustments to the carrying amount is required in the books of accounts. Key assumptions underlying the value in use calculation are those regarding expected revenues, a post-tax discount rate of 13.5% per annum. Sales growth projections considers managements' expectation of market development, current industry trends and post-tax discount rate based on the relevant risks. 3% growth rate has been used in terminal year. The management believes that any reasonably possible change in the key assumptions would not cause the carrying amount to exceed the recoverable amount of the cash generating unit.

46. Revenue from operations is measured by the Company at the transaction price i.e. amount of consideration received/ receivable in exchange of transferring goods or services to the customers. In determining the transaction price for the sale of goods, the Company considers the effect of price adjustments, to be claimed/ passed on to the customers, based on various cost parameters like raw material and other costs.

The Company is required to pass on the savings in variable cost from the billed sales price for which the final negotiations with the customer is ongoing and will be settled in near future. The total estimated liabilities outstanding as at March 31, 2025 is ₹ 177.41 Lakhs (March 31, 2024: ₹ 1,216.07 Lakhs), which management believes is sufficient to discharge liabilities.

(All amounts are in ₹ Lakhs, unless otherwise stated)

During the year, the audit trail feature has not been tempered with. Further, the audit trail, to the extent maintained in the prior year, has been preserved by the Company as per the statutory requirements for record retention.

52. EVENT AFTER THE REPORTING DATE

(a) The Board of Directors of the Company has proposed dividend subsequent to the Balance Sheet date, which is subject to shareholder's approval in forthcoming annual general meeting (Refer note 18.2).

(b) Subsequent to the year ended March 31, 2025, the Board of Directors of the Company in its meeting held on May 16, 2025 has approved acquisition of remaining 25% stake in IAC International Automotive India Private Limited (IAC India) (formerly known as Lumax Integrated Ventures Private Limited), material subsidiary company, at a purchase consideration of ₹ 22,095.75 Lakhs. The Company on May 22, 2025 has completed this transaction and accordingly, IAC India has become the wholly owned material subsidiary of the Company. There is no impact of this transaction on the standalone financial statements as at March 31, 2025.

These are the notes to the standalone financial statements referred to in our report of even date.

INDEPENDENT AUDITOR'S REPORT

To the Members of Lumax Auto Technologies Limited

REPORT ON THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

OPINION

1. We have audited the accompanying Consolidated Financial Statements of Lumax Auto Technologies Limited (hereinafter referred to as the "Holding Company") and its subsidiaries (Holding Company and its subsidiaries together referred to as "the Group") (refer Note 38(a) to the attached consolidated financial statements), which comprise the Consolidated Balance Sheet as at March 31, 2025, and the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows for the year then ended, and notes to the consolidated financial statements, including material accounting policy information and other explanatory information (hereinafter referred to as "the consolidated financial statements").

2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Consolidated Financial Statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group, as at March 31, 2025, and consolidated total comprehensive income (comprising of profit and other comprehensive income), consolidated changes in equity and its consolidated cash flows for the year then ended.

BASIS FOR OPINION

3. We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the "Auditor's Responsibilities for the Audit of the Consolidated Financial Statements" section of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in India in terms of the Code of Ethics issued by the Institute of Chartered Accountants of India and the relevant provisions of the Act, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

4. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. This matter was addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on this matter.

INDEPENDENT AUDITOR'S REPORT (Contd.)

Key audit matter	How our audit addressed the key audit matter
Revenue recognition and liabilities related to price variation (Refer note 43(I) and 49 to the Consolidated Financial Statements) Revenue is measured by the Group at the transaction price, i.e., amount of consideration received/ receivable in exchange for transferring promised goods or services to the customers. In determining the transaction price for the sale of products, the Group considers the effects of variable consideration including price adjustment to be passed on to the customers based on parameters like negotiation based on savings on material and other factors. The Group's business requires passing on these credits to the customers once negotiations are concluded with the customers. The estimated liabilities are determined based on negotiations/ other business considerations at the year end, and the consequential impact on revenue is disclosed in note 49 to the consolidated financial statements. We considered this to be a key audit matter as significant management judgement is involved in estimation of the price adjustments.	Our audit procedures included the following: • Obtained an understanding and evaluated the design and tested the operating effectiveness of the Group's controls relating to price adjustments in revenue process. • Assessed the Group's accounting policy for revenue recognition including the policy for recording price adjustments in accordance with the requirement of Ind AS 115 'Revenue from Contracts with Customers'. • Evaluated management's methodology and assumptions used for computing the price adjustment based on the negotiations with the customers which is used in the estimation of price adjustments as per the agreements with the customers. • Assessed the reliability of underlying historical data, developments during the year and assumptions used for determination of price adjustments. • Tested the completeness, arithmetical accuracy and validity of the data used in computation of price adjustments as per customer contracts. • Performed substantive testing by selecting a sample of price adjustments recorded during the year as well as year end price adjustments, and verified the parameters used in the computation with the underlying supporting documents. • Verified the adequacy of disclosures made in the consolidated financial statements.

OTHER INFORMATION

5. The Holding Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report but does not include the consolidated financial statements and our auditor's report thereon.

   Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

   In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed and the reports of the other auditors as furnished to us (Refer paragraph 15 and 16 below), we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

6. The Holding Company's Board of Directors is responsible for the preparation and presentation of these consolidated financial statements in term of the requirements of the Act that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows, and consolidated changes in equity of the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under Section 133 of the Act. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal

INDEPENDENT AUDITOR'S REPORT (Contd.)

financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

7. In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

8. The respective Board of Directors of the companies included in the Group are responsible for overseeing the financial reporting process of the Group.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

9. Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

10. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Holding Company has adequate internal financial controls with reference to consolidated financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

INDEPENDENT AUDITOR'S REPORT (Contd.)

11. We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

12. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

13. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

OTHER MATTERS

14. The consolidated financial statements of the Company for the year ended March 31, 2024, were audited by another firm of chartered accountants under the Companies Act, 2013 who, vide their report dated May 27, 2024, expressed an unmodified opinion on those consolidated financial statements.

Our opinion on the consolidated financial statements insofar as it relates to the amounts and disclosures included in respect of this subsidiary and our report in terms of sub-section (3) of Section 143 of the Act including report on Other Information insofar as it relates to the aforesaid subsidiary, is based solely on report of the other auditor furnished to us by the Holding Company's management. In our opinion and according to the information and explanations given to us by the management, this financial statements is not material to the Group.

    Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and reports of the other auditors.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

17. As required by paragraph 3(xxi) of the Companies (Auditor's Report) Order, 2020 ("CARO 2020"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we report that there are no qualifications or adverse remarks included by the respective auditors in their CARO 2020 reports issued in respect of the standalone financial statements of the companies which are included in these Consolidated Financial Statements.

18. As required by Section 143(3) of the Act, we report, to the extent applicable, that:

    (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the

INDEPENDENT AUDITOR'S REPORT (Contd.)

purposes of our audit of the aforesaid consolidated financial statements.

(b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors, except for one subsidiary where the backup of books of account and other books and papers maintained in electronic mode has not been maintained on a daily basis on servers physically located in India during the year and the matters stated in paragraph 18(h)(vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 (as amended).

(c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss (including other comprehensive income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows dealt with by this Report are in agreement with the relevant books of account and records maintained for the purpose of preparation of the consolidated financial statements.

(d) In our opinion, the aforesaid consolidated financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act.

(e) On the basis of the written representations received from the directors of the Holding Company as on March 31, 2025 taken on record by the Board of Directors of the Holding Company and the reports of the statutory auditors of its subsidiaries incorporated in India, none of the directors of the Group companies, incorporated in India is disqualified as on March 31, 2025 from being appointed as a director in terms of Section 164(2) of the Act.

(f) With respect to the maintenance of accounts and other matters connected therewith, reference is made to our remarks in paragraph 18(b) above on reporting under Section 143(3)(b) and paragraph 18(h)(vi) below on reporting under Rule 11(g) of the Rules.

(g) With respect to the adequacy of internal financial controls with reference to consolidated financial statements of the Group and the operating effectiveness of such controls, refer to our separate report in Annexure A.

(h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

i. The consolidated financial statements disclose the impact, if any, of pending litigations on the consolidated financial position of the Group – Refer Note 40(b) to the consolidated financial statements.

ii. The Group was not required to recognise a provision as at March 31, 2025 under the applicable law or accounting standards, as it does not have any material foreseeable losses on long-term contract. The Group did not have any derivative contracts as at March 31, 2025.

iii. There has been no delay in transferring amounts required to be transferred to the Investor Education and Protection Fund by the Holding Company and its subsidiaries incorporated in India during the year.

iv. As stated in Note 19.2 to the consolidated financial statements, the Board of Directors of the Holding Company, its subsidiaries have proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The dividend declared is in accordance with section 123 of the Act to the extent it applies to declaration of dividend.

vi. Based on our examination, which included test checks and that performed by the respective auditors of the subsidiaries which are companies incorporated in India whose financial statements have been audited under the Act, other than in respect of one subsidiary as described below, have used the accounting software for maintaining their books of account which has a feature of recording audit trail (edit log) facility and that has operated throughout the year for all relevant transactions recorded in the software, except that: (a) the audit log at the application level is not maintained in case of modification by certain users with specific access; and (b) no audit trail has been enabled at the database level. During the course of performing our procedures except the aforesaid instances, we and the respective auditors of above referred subsidiaries, did not notice any instance of the audit trail feature being tampered with. Further, the audit trail, to the extent maintained in the prior year has been preserved by the Holding Company and above referred subsidiaries as per the statutory requirements for record retention.

INDEPENDENT AUDITOR'S REPORT (Contd.)

The following remark was included in the audit report dated May 15, 2025 containing an unmodified audit opinion on the respective financial statements of below mentioned subsidiary of the Holding Company, which is reproduced as under:

Name of the subsidiary	Remark
Greenfuel Energy Solutions Private Limited	Based on our examination, the Company has used accounting software for maintaining its books of account. However, at application level in the absence of adequate evidence of necessary controls and documentation regarding whether audit trail feature is enabled for all relevant transactions, we are unable to comment on the audit trail feature and at database level audit trail is not enabled of the aforesaid software. Accordingly, the question of our commenting on whether the audit trail had operated throughout the year or was tampered with, does not arise. Further, the audit trail, has not been preserved by the Company as per the statutory requirements for record retention.

19. Except for managerial remuneration paid by a subsidiary as disclosed Note 53 of the consolidated financial statements, the managerial remuneration paid/ provided for by the Group is in accordance with the requisite approvals as mandated by the provisions of Section 197 read with Schedule V to the Act. The aforementioned subsidiary is in the process of obtaining approval from its shareholder in ensuing general meeting.

ANNEXURE A TO INDEPENDENT AUDITOR'S REPORT

Referred to in paragraph 18(g) of the Independent Auditor's Report of even date to the members of Lumax Auto Technologies Limited on the consolidated financial statements as of and for the year ended March 31, 2025

REPORT ON THE INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO CONSOLIDATED FINANCIAL STATEMENTS UNDER CLAUSE (I) OF SUB-SECTION 3 OF SECTION 143 OF THE ACT

1. In conjunction with our audit of the Consolidated Financial Statements of the Company as of and for the year ended March 31, 2025, we have audited the internal financial controls with reference to financial statements of Lumax Auto Technologies Limited (hereinafter referred to as "the Holding Company") and its subsidiaries which are companies incorporated in India, as of that date. Reporting under clause (i) of sub section 3 of Section 143 of the Act in respect of the adequacy of the internal financial controls with reference to financial statements is not applicable to three subsidiaries incorporated in India namely Lumax FAE Technologies Private Limited, Lumax JOPP Allied Technologies Private Limited and Lumax Ituran Telematics Private Limited, pursuant to MCA notification GSR 583(E) dated 13 June 2017.

MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

2. The respective Board of Directors of the Holding Company, its subsidiaries, to whom reporting under clause (i) of sub section 3 of Section 143 of the Act in respect of the adequacy of the internal financial controls with reference to financial statements is applicable, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("the Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

AUDITOR'S RESPONSIBILITY

3. Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note issued by the ICAI and the Standards on Auditing specified under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained, and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below is sufficient and appropriate to provide a basis for our audit opinion on the Holding Company's internal financial controls system with reference to financial statements.

MEANING OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO FINANCIAL STATEMENTS

6. A company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A

ANNEXURE A TO INDEPENDENT AUDITOR'S REPORT

Referred to in paragraph 18(g) of the Independent Auditor's Report of even date to the members of Lumax Auto Technologies Limited on the consolidated financial statements as of and for the year ended March 31, 2025 (Contd.)

company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO FINANCIAL STATEMENTS

7. Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

8. In our opinion, the Holding Company and its subsidiaries, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

OTHER MATTER

9. Our aforesaid reports under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to financial statements insofar as it relates to nine subsidiaries, which are companies incorporated in India, is based on the corresponding reports of the auditors of such companies incorporated in India. Our opinion is not modified in respect of this matter.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

1. CORPORATE INFORMATION

The Consolidated financial statements comprise financial statements of Lumax Auto Technologies Limited ("the Holding Company") and subsidiaries (collectively, "the Group") for the year ended March 31, 2025. The Holding Company is a public limited company domiciled in India and is incorporated under the provisions of the Companies Act applicable in India. Its shares are listed on two recognized stock exchanges in India. The registered office of the Holding Company is located at 2nd Floor, Harbans Bhawan-II, Commercial Complex, Nangal Raya, New Delhi- 110046.

The Group is principally engaged in the manufacturing of automotive components.

Information on the Group's structure is provided in Note 38.

2A. MATERIAL ACCOUNTING POLICIES

2A.1. Basis of preparation

(i) Compliance with Ind AS

The consolidated financial statements comply in all material aspects with the Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act.

(ii) Historical cost convention

The consolidated financial statements have been prepared on a historical cost basis except for the following:

- Certain financial assets and liabilities are measured at fair value
- Defined benefit obligations- plan assets measured at fair value.
- Assets held for sale – measured at fair value less cost to sell

2A.2. New and amended standards adopted by the Group

The Ministry of Corporate Affairs vide notification dated September 09, 2024 and September 28, 2024 notified the Companies (Indian Accounting Standards) Second Amendment Rules, 2024 and Companies (Indian Accounting Standards) Third Amendment Rules, 2024, respectively, which amended/ notified certain accounting standards (as mentioned below), and are effective for annual reporting periods beginning on or after April 01, 2024:

- Insurance contracts - Ind AS 117; and
- Lease Liability in Sale and Leaseback – Amendments to Ind AS 116

These amendments did not have any material impact on the amounts recognized in prior periods and are not expected to significantly affect the current or future periods.

2A.3. Summary of material accounting policies

(a) Principles of consolidation

(i) Subsidiaries

Subsidiaries are all entities over which the Group has control. The Group controls an entity where the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

The acquisition method of accounting is used to account for business combinations by the Group.

The Group combines the financial statements of the parent and its subsidiaries line by line adding together like items of assets, liabilities, equity, income and expenses. Intercompany transactions, balances and unrealized gains on transactions between Group companies are eliminated. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Non-controlling interests in the results and equity of subsidiaries are shown separately in the consolidated statement of profit and loss, consolidated statement of changes in equity and balance sheet respectively.

(ii) Changes in ownership interests

The Group treats transactions with non-controlling interests that do not result in a loss of control as transactions with equity owners of the Group.

A change in ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interests to reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and any consideration paid or received is recognized within equity.

When the Group ceases to consolidate or equity account for an investment because of a loss of control or significant influence, any retained interest in the entity is remeasured to its fair value with the change in carrying amount recognized in profit or loss. This fair value becomes the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate or financial asset. In addition, any amounts previously recognized in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. This might mean that amounts previously recognized in other comprehensive income are reclassified to profit or loss.

(b) Business combinations

The acquisition method of accounting is used to account for all business combinations, regardless of whether equity instruments or other assets are acquired. The consideration transferred for the acquisition of a subsidiary comprises the

- fair values of the assets transferred
- liabilities incurred to the former owners of the acquired business
- equity interests, if any issued by the Group
- fair value of any asset or liability resulting from a contingent consideration arrangement.

Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are, with limited exceptions, measured initially at their fair values at the acquisition date. The Group recognizes any non-controlling interest in the acquired entity on an acquisition-by-acquisition basis either at fair value or at the non-controlling interest's proportionate share of the acquired entity's net identifiable assets.

Acquisition-related costs are expensed as incurred.

The excess of the:

- consideration transferred
- amount of any non-controlling interest in the acquired entity
- acquisition-date fair value of any previous equity interest in the acquired entity

over the fair value of the net identifiable assets acquired is recorded as goodwill. If those amounts are less than the fair value of the net identifiable assets of the business acquired, the difference is recognized in other comprehensive income and accumulated in equity as capital reserve provided there is clear evidence of the underlying reasons for classifying the business combination as a bargain purchase. In other cases, the bargain purchase gain is recognized directly in equity as capital reserve.

Where settlement of any part of cash consideration is deferred, the amounts payable in the future are discounted to their present value as at the date of exchange. The discount rate used is the entity's incremental borrowing rate, being the rate at which a similar borrowing could be obtained from an independent financier under comparable terms and conditions.

Contingent consideration is classified either as equity or a financial liability. Amounts classified as a financial liability are subsequently remeasured to fair value with changes in fair value recognized in profit or loss.

If the business combination is achieved in stages, the acquisition date carrying value of the acquirer's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date. Any gains or losses arising from such remeasurement are recognized in profit or loss or other comprehensive income, as appropriate.

(c) Property, plant and equipment (including CWIP)

Historical cost includes expenditure that is directly attributable to the acquisition of the items. Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repair and maintenance are charged to profit or loss during the reporting period in which they are incurred.

The asset's residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

The asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025 (Contd.)

included in profit or loss within other income/other expense, as appropriate.

Depreciation on property, plant and equipment

Depreciation is calculated using the straight-line method to allocate the cost of the assets, net of their residual values, over their estimated useful lives as follows:

Particulars	Useful lives estimated by the management (in years)
Factory Building	20 to 30
Other Building	30 to 60
Computers	3-5
Office equipment	5
Furniture and fixtures	5-10
Vehicles	5-8
Electrical installation	10
Plant and equipment	3-21 years
Plant and equipment (robots)	12
Moulds	9

The useful lives have been determined based on management evaluation which are higher than those specified by Schedule II to the Companies Act, 2013, in order to reflect the actual usage of the assets. The residual values are not more than 5% of the original cost of the asset.

Leasehold improvements are depreciated over the shorter of their useful life or the lease term, unless the entity expects to use the assets beyond the lease term.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at the end of each financial year and adjusted prospectively, if appropriate. In particular, the Group considers the impact of health, safety and environment legislation in its assessment of expected useful lives and estimated residual values.

(d) Intangible assets

Recognition and measurement

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization and impairment loss, if any. Internally generated intangible assets, excluding capitalized development costs, are not capitalized and expenditure is reflected in the statement of profit or loss in the year in which the expenditure is incurred.

The useful life of intangible assets are assessed as finite.

Amortization and useful lives

Intangible assets with finite lives are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible assets may be impaired. The amortization period and amortization method of the intangible asset with a useful finite life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the assets are considered to modify the amortization period or method, as appropriate, and are treated as changes in accounting estimates. The amortization expense on intangible assets with finite lives is recognized in the statement of profit or loss unless such expenditure forms part of carrying value of another assets.

An intangible asset is derecognized upon disposal (i.e., at the date the recipient obtains control) or when no future economic benefits are expected from its use or disposal. Any gain or loss arising upon de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

Amortization method and useful lives

The Group amortizes intangible assets with a finite life using the straight-line method over the following periods:

Intangible Assets	Estimated Useful Life (Years)
Computer Software	Over the estimated economic useful lives of 4 years
Technical Know-how	Over the period of Technical Assistance Agreement, i.e. 8 years

Customer relationships

Customer relationships acquired in business combination are initially recognized at fair value at the date of acquisition. Following initial recognition, customer relationships are carried at cost less accumulated amortization and accumulated impairment losses, if any. They are amortized on a straight-line basis over their estimated useful life of 15 years assessed by the management at the time of acquisition.

Non-Compete Fee

Non-Compete fee is recognized based on agreement with seller or competitor. It is amortized on a straightline basis over their estimated useful life of 5-10 years based on agreed terms as per contract.

Right to use technology

Right to use technology acquired in business combination are initially recognized at fair value at the date of acquisition. Following initial recognition, right to use technology is carried at cost less accumulated amortization and accumulated impairment losses, if any. It is amortized on a straight-line basis over its estimated useful life of 5 years assessed by the management at the time of acquisition.

Brand

Brand acquired in business combination are initially recognized at fair value at the date of acquisition. Following initial recognition, brand is carried at cost less accumulated amortization and accumulated impairment losses, if any. It is amortized on a straight-line basis over its estimated useful life of 5 years assessed by the management at the time of acquisition.

(e) Investment Properties

Investment property is measured initially at its cost, including related transaction costs and where applicable borrowing costs. Subsequent expenditure is capitalized to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the group and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred. When part of an investment property is replaced, the carrying amount of the replaced part is derecognized.

Investment properties, principally land and buildings, are held for long-term rental yields and are not occupied by the group.

Investment properties are depreciated using the straight-line method to allocate the cost of assets over their estimated useful lives. Investment properties generally have useful lives of 30 years. The useful lives have been determined based on technical evaluation performed by the management's expert.

(f) Leases

The Group leases solar power plants, equipments and buildings. Rental Contracts are typically made for fixed periods of two years to twelve years for buildings, fifteen years for solar power plants, ninety-nine years for leasehold land and seven years for equipments, but might have extension options as disclosed in Note 5 to the financial statements.

Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose any covenants other than the security interests in the leased assets that are held by the lessor. Leased assets might not be used as security for borrowing purposes.

The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for the leases in the Group, the lessee's incremental borrowing rate is used, being the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset if similar value to the right-of-use asset in a similar economic environment with similar terms, security and conditions.

To determine the incremental borrowing rate, the Group:

- Where possible, uses recent third-party financing received by the individual lessee as a starting point, adjusted to reflect changes in financing conditions since third party financing was received.
- Uses a build-up approach that starts with a risk-free interest rate adjusted for credit risk for leases held by the Group, which does not have recent third-party financing.
- Makes adjustments specific to the lease, for example, term, country, currency and security.

If a readily observable amortising loan rate is available to the individual lessee (through recent financing or market data) which has a similar payment profile to the lease, then the Group use that rate as a starting point to determine the incremental borrowing rate.

Right-of-use assets are generally depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. If the Group is reasonably certain to exercise a purchase option, the right-of-use asset is depreciated over the underlying asset's useful life.

Payments associated with short-term leases of equipment and all leases of low-value assets are recognized on a straight-line basis as an expense in profit or loss. Short-term leases are leases with a lease term of 12 months or less, without a purchase option.

As a lessee

Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025 (Contd.)

include the net present value of the following lease payments:

- fixed payments (including in-substance fixed payments), less any lease incentives receivable
- variable lease payments that are based on an index or a rate, initially measured using the index or rate as at the commencement date
- amounts expected to be payable by the Group under residual value guarantees
- the exercise price of a purchase option if the Group is reasonably certain to exercise that option
- lease payments to be made under an extension option if the reasonably certain to exercise the option, and
- payments of penalties for terminating the lease, if the lease term reflects the Group exercising that option.

Lease payments to be made reasonably certain extension options are also included in the measurement of the liability.

Lease payments are allocated between principal and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Variable lease payments that depend on sales are recognized in profit or loss in the period in which the condition that triggers those payments occurs.

Right-of-use assets are measured at cost comprising the following:

- the amount of the initial measurement of lease liability
- any lease payments made at or before the commencement date less any lease incentives received
- any initial direct costs
- restoration costs.

As a lessor

Lease income from operating leases where the Group is a lessor is recognized in income on a straight-line basis over the lease term. Initial direct costs incurred in obtaining an operating lease are added to the carrying amount of the underlying asset and recognized as expense over the lease term on the same basis as lease income. The respective leased assets are included in the balance sheet based on their nature.

(g) Inventories

Raw materials and stores, work in progress, traded and finished goods

Assigning costs to inventories:

The costs of individual items of inventory are determined on a weighted average. Volume rebates or discounts are taken into account when estimating the cost of inventory if it is probable that they have been earned and will take effect.

Raw materials and stores, work in progress and finished goods are stated at the lower of cost and net realizable value. Cost of raw materials and stock-in-trade comprises cost of purchases. Cost of work-in-progress and finished goods comprises direct materials, direct labour and an appropriate proportion of variable and fixed overhead expenditure, the latter being allocated on the basis of normal operating capacity. Cost of inventories also include all other costs incurred in bringing the inventories to their present location and condition. Cost includes the transfer from equity of any gains or losses on qualifying cash flow hedges relating to purchases of raw material but excludes borrowing costs. Costs of purchased inventory are determined after deducting rebates and discounts. Net realizable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

(h) Investment and other financial assets

(i) Classification

The group classifies its financial assets in the following measurement categories:

- Those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss
- those to be measured at amortized cost

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in equity instruments that are not held for trading, this will depend on whether the group has made an irrevocable election at the time of initial recognition to present subsequent changes in fair value in other comprehensive income.

(ii) Recognition and derecognition

Regular way purchases and sales of financial assets are recognized on trade-date, being the date on which the group commits to purchase or sell the financial asset. Financial assets are derecognized when the rights to receive cash flows from the financial assets have expired or have been transferred and the group has transferred substantially all the risks and rewards of ownership.

(iii) Measurement

At initial recognition, the group measures a financial asset (excluding trade receivables which do not contain a significant financing component) at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Debt instruments

Subsequent measurement of debt instruments depends on the group's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the group classifies its debt instruments:

- **Amortized cost:** Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortized cost. Interest income from these financial assets is included in Other Income using the effective interest rate method. Any gain or loss arising on derecognition is recognized directly in profit or loss and presented in other gains/(losses). Impairment losses are presented as separate line item in the statement of profit and loss.
- **Fair value through other comprehensive income (FVOCI):** Assets that are held for collection of contractual cash flows and for selling the financial asset's, where the asset's cash flows represent solely payments of principal and interest, are measured at FVOCI. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest income and foreign exchange gains and losses which are recognized in profit and loss. When the financial asset is derecognized, the cumulative gain or loss previously recognized in OCI is reclassified from equity to profit or loss and recognized in other gains/(losses). Interest income from these financial assets is included in other income using the effective interest rate method. Foreign exchange gains and losses are presented in other gains/(losses) and impairment expenses are presented as separate line item in statement of profit and loss.
- **Fair value through profit or loss:** Assets that do not meet the criteria for amortized cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt instrument that is subsequently measured at fair value through profit or loss is recognized in profit or loss and presented net within other gains/(losses) in the period in which it arises. Interest income from these financial assets is included in other income.

Equity Instruments

The group subsequently measures all equity investments at fair value. Where the group's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or loss following the derecognition of the investment. Dividends from such investments are recognized in profit or loss as other income when the group's right to receive payments is established.

Changes in the fair value of financial assets at fair value through profit or loss are recognized in other gain/ (losses) in the statement of profit and loss. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025 (Contd.)

(iv) Impairment of financial assets

The group assesses on a forward-looking basis the expected credit losses associated with its assets carried at amortized cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

(i) Revenue from operations

Revenue from contracts with customers is recognized when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services. The Group has generally concluded that it is the principal in its revenue arrangements, because it typically controls the goods before transferring them to the customer.

(i) Sale of products

Revenue from sale of products is recognized at the point in time when control of the asset is transferred to the customer, generally on delivery of the product. The normal credit term is 30 to 120 days upon delivery.

The group assesses on a forward-looking basis the expected credit losses associated with its assets carried at amortized cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk. Note 44 details how the group determines whether there has been a significant increase in credit risk.

The Holding Company operates several sales incentive programs wherein the customers are eligible for several benefits on achievement of underlying conditions as prescribed in the scheme program such as discounts. Revenue from contracts with customers is presented deducting cost of all these schemes.

(ii) Sale of service

Revenue from sale of service is recognized in accordance with the terms of contract when the services are rendered and the related costs are incurred.

Estimates of revenues, costs or extent of progress toward completion are revised if circumstances change. Any resulting increases or decreases in estimated revenues or costs are reflected in profit or loss in the period in which the circumstances that give rise to the revision become known by management.

(iii) Financing components

The Group does not have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, the Group does not adjust any of the transaction prices for a significant financing component or the time value of money.

(j) Trade receivables

Trade receivables are amounts due from customers for goods sold or services performed in the ordinary course of business and reflect the Group's unconditional right to consideration (that is, payment is due only on the passage of time).

Trade receivables are recognised initially at the transaction price as they do not contain significant financing components. The Group holds the trade receivables with the objective of collecting the contractual cash flows and therefore measures them subsequently at amortized cost using the effective interest method, less loss allowance.

For trade receivables and contract assets, the Group applies the simplified approach required by Ind AS 109, which requires expected lifetime losses to be recognized from initial recognition of the receivables.

Contract Liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Group transfers goods or services to the customer, a contract liability is recognized when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognized as revenue when the Group performs under the contract.

(k) Government Grants

Government grants are recognized where there is reasonable assurance that the grant will be received and all the attached conditions will be complied with. When the grant relates to an expense item, it is recognized as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognized as income in equal amounts over the expected useful life of the related asset.

When the Group receives grants of non-monetary assets, the asset and the grant are recorded at fair value amounts and released to consolidated statement of profit and loss over the expected useful life in a pattern of consumption of the benefit of the underlying asset i.e. by equal annual instalments. When loans or similar assistance are provided by governments or related institutions, with an interest rate below the current applicable market rate, the effect of this favorable interest is regarded as government grant. The loan or assistance is initially recognized and measured at fair value and the government grant is measured as the difference between the initial carrying value of the loan and the proceeds received. The loan is subsequently measured as per the accounting policy applicable to financial liabilities.

(l) Income tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the Group operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation and considers whether it is probable that a taxation authority will accept an uncertain tax treatment. The group measures its tax balances either based on the most likely amount or the expected value, depending on which method provides a better prediction of the resolution of the uncertainty.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, deferred tax liabilities are not recognized if they arise from the initial recognition of goodwill. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss) and does not give rise to equal taxable and deductible temporary differences. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled. Deferred tax assets are recognized for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilize those temporary differences and losses

Deferred tax assets and liabilities are offset where there is a legally enforceable right to offset current tax assets and liabilities and where the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Current and deferred tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity, respectively.

2B. OTHER ACCOUNTING POLICIES

(a) Employee benefits

(i) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognized in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

(ii) Other long-term employee benefit obligations

The Group also has liabilities for earned leave that are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. These obligations are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the appropriate market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025 (Contd.)

experience adjustments and changes in actuarial assumptions are recognized in profit or loss.

The obligations are presented as current liabilities in the balance sheet if the Group does not have an unconditional right, at the end of the reporting period, to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

(iii) Post-employment obligations

The group operates the following post-employment schemes:

- defined benefit plans such as gratuity
- defined contribution plans such as provident fund.

Gratuity obligations

The liability or asset recognized in the balance sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets.

The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation denominated in ₹ is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation. The estimated future payments which are denominated in a currency other than ₹, are discounted using market yields determined by reference to high-quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognized immediately in profit or loss as past service cost.

Defined contribution plans The group pays provident fund contributions to publicly administered provident funds as per local regulations. The group has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognized as employee benefit expense when they are due. Prepaid contributions are recognized as an asset to the extent that a cash refund or a reduction in the future payments is available.

(b) Provisions and contingent liability

Provisions

Provisions for legal claims and service warranties are recognized when the group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognized for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognized even if the likelihood of an outflow with respect to any one item included in the same class of obligations might be small.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognized as interest expense.

Contingent liability

Contingent liability is:

a) a possible obligation arising from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity; or

b) a present obligation that arises from past events but is not recognized because:

- it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or
- the amount of the obligation cannot be measured with sufficient reliability.

Provisions and contingent liabilities are reviewed at each Balance Sheet date.

(c) Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

(d) Earnings per share (EPS)

Basic EPS is calculated by dividing:

- the profit attributable to owners of the Group
- by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year and excluding treasury shares (see note 37).

The Group does not have any dilutive potential equity shares.

(e) Dividend

Provision is made for the amount of any dividend declared, being appropriately authorized and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

(f) Other income

(i) Interest Income

Interest income from financial assets at FVTPL is disclosed as interest income within other income. Interest income on financial assets at amortized cost and financial assets at FVOCI is recognized in profit or loss as part of other income. Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for financial assets that subsequently become credit impaired. For credit-impaired financial assets the effective interest rate is applied to the net carrying amount of the financial asset (after deduction of the loss allowance).

(ii) Rental Income

Leases in which the Group does not transfer substantially all the risks and rewards incidental to ownership of an asset is classified as operating leases. Rental income arising is accounted for on a straight-line basis over the lease terms.

(iii) Dividend Income

Dividend is recognized when the Group's right to receive the payment is established, which is generally when shareholders approve the dividend.

(iv) Government Grant

Government grants are recognized where there is reasonable assurance that the Group will comply with the conditions attaching to them and the grants will be received. Government grants are recognized in the statement of profit and loss on a systematic basis over the periods in which the Group recognizes as expense the related cost for which the grants are intended to compensate.

(v) Royalty Income

Income from royalty is recognized on an accrual basis in accordance with the substance of the relevant arrangements.

(g) Borrowings

Borrowings are initially recognized at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortized cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognized in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognized as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw-down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalized as a prepayment for liquidity services and amortized over the period of the facility to which it relates.

Borrowings are derecognized from the balance sheet when the obligation specified in the contract is extinguished, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025 (Contd.)

and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognized in profit or loss as other gains/(losses).

Where the terms of a financial liability are renegotiated and the entity issues equity instruments to a creditor to extinguish all or part of the liability (debt for equity swap), a gain or loss is recognized in profit or loss, which is measured as the difference between the carrying amount of the financial liability and the fair value of the equity instruments issued.

Borrowings are classified as current liabilities unless, at the end of the reporting period, the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

(h) Borrowing costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

Other borrowing costs are expensed in the period in which they are incurred.

(i) Trade and other payables

These amounts represent liabilities for goods and services provided to the Group prior to the end of the financial year which are unpaid. The amounts are unsecured and are usually paid within 30 days of recognition. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognized initially at their fair value and subsequently measured at amortized cost using the effective interest method.

(j) Foreign currency translation

Functional and presentational currency

Items included in the financial statements of the Group are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The financial statements are presented in Indian rupee (₹), which is Lumax Auto Technologies Limited's functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognized in profit or loss.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss. For example, translation differences on non-monetary assets and liabilities such as equity instruments held at fair value through profit or loss are recognized in profit or loss as part of the fair value gain or loss, and translation differences on non-monetary assets such as equity investments classified as at FVOCI are recognized in other comprehensive income.

(k) Off setting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Group or the counterparty.

(l) Segment Reporting

An operating segment is defined as a component of the entity that represents business activities from which it earns revenues and incurs expenses and for which

discrete financial information is available. The operating segments are based on the Group's internal reporting structure and the manner in which operating results are reviewed by the Chief Operating Decision Maker (CODM).

The Board of Directors of the Holding Company has been identified as the CODM by the Group. Refer Note 42 for Segment disclosure.

(m) Rounding of amounts

All amounts disclosed in the financial statements and notes have been rounded off to the nearest Lakhs as per the requirement of Schedule III, unless otherwise stated.

(n) Current versus non-current classification

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. The Group has identified twelve months as its operating cycle for determining current and non-current classification of assets and liabilities in the consolidated balance sheet.

(o) Standards notified, not yet effective

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. During the year ended March 31, 2025, MCA has not notified any new standards or amendments to the existing standards applicable to the Group.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025 (Contd.)

(All amounts are presented in ₹ Lakhs, unless otherwise stated)

iv) Leasing arrangements

The investment properties are leased to enterprises owned or significantly influenced by key managerial persons and/ or their relatives under operating leases with rentals payable monthly. Lease income from operating leases where the Company is a lessor is recognized in income on a straight-line basis over the lease term.

Lease payments for some contracts include CPI increases, but there are no other variable lease payments that depend on an index or rate. Since the investment properties are leased to related parties only, the credit risk on the same is minimal. Although the Company is exposed to changes in the residual value at the end of the current leases, the Company typically renews the operating leases with related parties and therefore will not immediately realize any reduction in residual value at the end of these leases.

Minimum lease payments receivable on leases of investment properties are as follows:

Impairment testing of goodwill

Goodwill recognized on acquisition of IAC International Automotive India Private Limited and Lumax Ancillary Limited having indefinite useful life have been tested for impairment as at the Balance Sheet date. The recoverable amount is determined based on value in use calculation. These calculations uses management assumptions and pre tax cash flow projections based on financed budgets approved by management covering a 5 years period. Cash flow projection beyond 5 years time period are extrapolated using the estimated growth rates which is consistent with forecasts included in industry reports specific to industry in which CGU operates. Management has determined following assumptions for impairment testing of Goodwill:

Assumption	Rates	Approach used in determining value
Weighted Average cost of capital	13.50%	It has been determined basis risk free rate of return adjusted for equity risk premium
Long Term Growth Rate	3.00%	Long term growth rate has been taken basis financial budgets and projections approved by management

Management has performed a sensitivity analysis with respect to changes in assumptions for assessment of value-in-use of Goodwill. Based on this analysis, management believes that change in any of above assumption would not cause any material possible change in carrying value of Goodwill over and above its recoverable amount.

Based on impairment assessment conducted by the management, there is no impairment required.

*The current year acquisition adjustment pertains to provisional goodwill allocated to Greenfuel Energy Solutions Private Limited cash generating unit amounting to ₹ 8,209.46 Lakhs and is tested for impairment as at balance sheet date in accordance with Ind AS 36 “Impairment of Assets”. Such investment is considered as a separate cash generating unit (CGU) for the purpose of impairment review. Management has assessed whether there is an indication that such investment may be impaired. For investment, where impairment indicators exists, management compares the carrying amount of such investment with its recoverable amount. Recoverable amount is value in use of the investment computed based upon discounted cash flow projections. As on the reporting date the recoverable amount, determined by independent valuer is more than the carrying amount and accordingly no adjustments to the carrying amount is required in the books of accounts. Key assumptions underlying the value in use calculation are those regarding expected revenues, a post-tax discount rate of 26.40% per annum. Sales growth projections considers managements’ expectation of market development, current industry trends and post-tax discount rate based on the relevant risks. 3% growth rate has been used in terminal year. The management believes that any reasonably possible change in the key assumptions would not cause the carrying amount to exceed the recoverable amount of the cash generating unit.

19.1 Nature and purpose of reserves

a) Securities premium

Securities premium is used to record the premium on issue of shares. The reserve can be utilized only for limited purposes such as issuance of bonus shares in accordance with the provisions of the Companies Act, 2013.

b) FVTOCI Reserve

The Group has elected to recognize changes in the fair value of certain investments in equity securities in other comprehensive income. These changes are accumulated within the FVTOCI Reserve within equity. The Group transfers amounts from this reserve to retained earnings when the relevant equity securities are derecognized.

c) General reserve

Under the erstwhile Companies Act 1956, general reserve was created through an annual transfer of net income at a specified percentage in accordance with applicable regulations. Consequent to introduction of Companies Act 2013, the requirement to mandatorily transfer a specified percentage of the net profit to general reserve has been withdrawn. However, the amount previously transferred to the general reserve can be utilized only in accordance with the specific requirements of Companies Act, 2013.

(All amounts are presented in ₹ Lakhs, unless otherwise stated)

d) Retained Earnings

Retained earnings are the profits/(loss) that the Group has earned/incurred till date, less any transfers to general reserve, dividends or other distributions paid to shareholders. Retained earnings include re-measurement loss / (gain) on defined benefit plans, net of taxes that will not be reclassified to Statement of Profit and Loss.

e) Capital reserve

Capital reserve are the reserve created for gain on bargain purchase related to business combinations.

(j) Acquisition of Lumax Ancillary Limited ("LAL") during the year ended March 31, 2024

The Holding Company was having 14.31% stake in "Lumax Ancillary Limited (LAL)" and the investments in LAL had been measured at fair value through other comprehensive income. During the previous year, the Holding Company has acquired controlling stake in LAL from the existing shareholders of LAL i.e. promoter group of the Company and other shareholder at a share valuation of ₹ 275.00 per share, which has been approved by the Board of Directors of the Group for acquiring 85.69% stake at an aggregate consideration of ₹ 4,948.13 Lakhs. Accordingly, LAL had become the wholly owned subsidiary of the Holding Company w.e.f. January 25, 2024.

Pursuant to this, the Holding Company has de-recognized its investment in LAL which had been measured at fair value through OCI and accordingly, the fair value gains accumulated as separate component of OCI till the date of transactions amounting to ₹ 525.73 Lakhs has been reclassified to retained earnings in the previous year.

Further, during the year, on May 27, 2024 the Board of Directors of the Holding Company has accorded its consent for proposed merger of LAL into the Holding Company with April 01, 2024 as appointed date.

Acquisition of LAL will help the Group in delivering industry leading solutions to its customers and enhance its kit value per vehicle as the automotive sector is moving towards higher value added and niche content in wiring harness and lamp assembly. Further, the Acquisition will help both the Companies to leverage their respective competitive strengths in order to drive their business forward in the coming years and work towards unlocking potential synergies across products, customers, technology and manufacturing excellence.

(I) Acquisition of Greenfuel Energy Solutions Private Limited ("Greenfuel") during the year ended March 31, 2025

During the current financial year, the Holding Company through its wholly owned subsidiary, "Lumax Resources Private Limited" has acquired the 60% equity stake and controlling interest in Greenfuel for its alternate fuels business for an aggregate consideration of ₹ 15,308.58 Lakhs. This acquisition is effective from November 26, 2024 pursuant to share purchase agreement. This transaction has been accounted for in accordance with the acquisition method specified in Ind AS 103 "Business Combination" and purchase consideration in excess of the provisional fair value of the net assets acquired has been recognized as provisional goodwill, subject to finalization.

Acquisition of Greenfuel will give the Group entry into the green and alternate fuels segment (across CNG, hydrogen and other applications), which is expected to witness strong and accelerated growth in the coming years. Greenfuel is a prominent supplier of (1) high-pressure fuel delivery and storage systems(including related components and sub-systems) primarily for CNG and hydrogen automobiles and (2) fire and smoke alarm, detection and suppression systems (including related componentsand subsystems) for the automotive industry. It is a supplier to key OEMs including Maruti Suzuki, TATA Motors and Volvo Eicher Commercial Vehicles among others. Greenfuel has established strong technology collaborations, which provide a competitive advantage in delivering industry leading solutions to customers.

Further, it will help in growing strengths to drive Greenfuel's business forward in the coming years and work towards unlocking potential synergies across products, customers, technology and manufacturing excellence. This will also give technological advantage to the Group and will help it to improve its presence in passenger vehicle segment which is showing a tremendous growth.

The Group elected to measure the non-controlling interest in the acquiree at fair value as on the date of acquisition.

(All amounts are presented in ₹ Lakhs, unless otherwise stated)

(i) a) The Holding Company received income tax order under Section 143(3) dated December 30, 2019 related to A.Y. 2018-19 on account of search and seizure operation for which Holding Company had received demand of ₹ 1,033.28 Lakhs including interest u/s 234ABC in respect of above matter for which the Holding Company had filed the appeal to income tax authorities. During the earlier year, Income Tax department has filed an appeal with ITAT(A) against the favourable order of CIT(A). During the previous financial year, the ITAT had passed the Order in the favour of the Holding Company and the department has not preferred appeal against the Order.

b) In respect of assessment year 2013-14 to 2015-16, 2017-18, 2018-19, 2020-21 and 2021-22, one of the subsidiary company (IAC International Automotive India Private Limited (formerly known as Lumax Integrated Ventures Private Limited)) has received assessment order under Section 143(3) of the Income tax Act, 1961 (the "Act"), demanding a total adjustment of ₹ 1,560.54 Lakhs (March 31, 2024: ₹ 1,560.54 Lakhs) of which tax impact is ₹ 560.70 Lakhs (March 31, 2024: ₹ 560.70 Lakhs) on account of transfer pricing and other disallowance matters under the Act. The Company has filed appeal with the respective appellate authority.

c) Another subsidiary, Lumax Cornaglia Auto Technologies Private Limited had received order under Section 143(1) of the Income Tax Act, 1961 for assessment year 2021-22 from the Income Tax department making addition of income of ₹ 92.95 Lakhs (Tax under dispute: ₹ 23.39 Lakhs) u/s 41(1) dated October 25, 2022. The Company filed an appeal with the Ld. Commissioner of Income Tax (Appeals) against the said demand challenging the additions made. The Ld. Commissioner of Income Tax (Appeals) vide order dated January 31, 2025 allowed the appeal of the assessee company and deleted the addition of ₹ 92.95 Lakhs.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025 (Contd.)

(All amounts are presented in ₹ Lakhs, unless otherwise stated)

On March 15, 2025, the Deputy Commissioner of Income tax passed an order giving effect to order passed by the Ld. CIT(A) stating that no refund was receivable by the Company for the AY 2023-24. However, it was observed by the Company that the refund for the AY 2023-24 was erroneously adjusted against the impugned demand for AY 2021-22. The Company has filed a rectification application u/s 154 of the Income Tax Act, 1961.

(ii) a) A show cause notice was issued by the GST department on May 28, 2024 on the basis of the audit conducted by the department for FY 2019-20 directing the Holding Company to pay the tax amount along with interest and penalty. The Holding Company submitted relevant reply and documents. The Deputy Commissioner of State Tax issued an Order in original dated July 19, 2024 confirming demand of ₹ 352.20 Lakhs (including interest and penalty) alleging availment of ineligible ITC and mismatch with GSTR 3B and 2A. The Holding Company has preferred an appeal before the Joint Commissioner of State Tax (Appeals) dated October 18, 2024 and ₹ 18.52 Lakhs have been deposited by Company under protest for the case.

b) The Holding Company received a notice under DRC01 dated April 27, 2024 under the CGST Act for FY 2018-19 on grounds of differences between the GSTR 2A and GSTR3B amounting to ₹ 34.41 Lakhs (including interest and penalty). The Holding Company has preferred an appeal against the aforesaid order with the First Appellate Authority dated July 23, 2024 and deposited ₹ 1.17 Lakhs under protest.

c) The Subsidiary Company, Lumax Cornaglia Auto Technologies Private Limited has received a Show Cause Notice in the previous year dated November 14, 2022 from Goods and Service Tax Department based on the allegations that ITC cannot be claimed upon the service of transportation of employees for the period August 2017 to February 2020. An order in original was issued dated March 23, 2023 by the Superintendent, Central Tax, confirming the demand of ₹ 16.80 Lakhs and penalty of ₹ 16.80 Lakhs (excluding interest). The Company has filed an appeal before the Additional Commissioner Appeals on June 15, 2023 against the disputed amount.

d) Lumax Cornaglia Auto Technologies Private Limited received a show cause notice dated November 14, 2022 from the Assistant Commissioner of Central GST on grounds that the Company has claimed ineligible ITC in respect of suppliers who have failed to deposit the GST to the government, resulting in an overall tax liability of ₹ 20.91 Lakhs. The Company submitted their reply to show cause notice before the adjudicating authority on July 25, 2023. An order in original was passed by the Superintendent, Central Tax dropping the proceedings under the said show cause notice on July 31, 2023. On April 25, 2024, the Assistant Comissioner of Central Tax has filed an appeal on behalf of the department before the Additional Joint Commissioner (Appeals) against the aforesaid order in original dated July 31, 2023.

(iii) In respect of financial year 2013-14, one of the subsidiary Company has received assessment order under Section 24(1) of the MVAT Act, 2002 (the "Act"), demanding additional tax of ₹ 22.33 Lakhs (March 31, 2024: ₹ 22.23 Lakhs) on account of incorrect consideration of TDS amount. The Subsidiary Company has filed appeal with the respective appellate authority.

(c) In regard to the bill discounting of invoices with bank by one of the Holding Company's vendor (Transporter), the bank had filed an application under Section 19 of the Recovery of Debts due to Banks and Financial Institution Act, 1993 before the Ld. DRT-II, Chandigarh for recovery of ₹ 999.76 Lakhs and interest thereon @ 13.75% p.a. from the Holding Company, vendor and other parties.

The Holding Company and other parties including vendor has received an order dated February 25, 2019 from Debts Recovery Tribunal- II, Chandigarh for demanding the above amount jointly and severally. The Holding Company has filed an appeal before Debt Recovery Appellate Tribunal (DRAT) dated March 13, 2020 against ₹ 782.24 Lakhs (decretal amount to which the Holding Company is a defendant party) along with interest 13.75% p.a. and deposited 50% of decretal amount in earlier years. Subsequent to the year end, the appeal was decided in favour of the Holding Company by DRAT vide its order dated April 08, 2025. Further, deposit was refunded to the Holding Company on May 07, 2025 along with interest accrued on such deposits.

(All amounts are presented in ₹ Lakhs, unless otherwise stated)

The transactions with related parties are made on terms equivalent to those that prevail in arm's length transactions. Outstanding balances at the year-end are unsecured and settlement occurs in cash. There have been no guarantees provided or received for any related party receivables or payables. For the year ended March 31, 2025, the Group has not recorded any impairment of receivables relating to amounts owed by related parties. This assessment is undertaken each financial year through examining the financial position of the related party and the market in which the related party operates.

42. The Group's business activity falls within a single business segment i.e. manufacturing and trading of automotive components, accordingly there are no additional disclosures to be furnished in accordance with the requirement of Ind AS 108 "Operating Segments" with respect to single reportable segment. Further, the operations of the Group is domiciled in India and there are no assets lying outside India. For revenue by location of customers refer note 28.5.

43. SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of the Group's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the grouping disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

I Judgements

In the process of applying the Group's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognized in the financial statements:

Revenue from operations

The Group applied the following judgments that significantly affect the determination of the amount and timing of revenue from operations:

Determining method to estimate variable consideration and assessing the constraint:- Certain contracts for the sale of products include a right of price revision on account of change of commodity prices/purchase price that give rise to variable consideration. In estimating the variable consideration, the Group is required to use either the expected value method or the most likely amount method based on which method better predicts the amount of consideration to which it will be entitled.

II Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Group based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

a) Property, plant and equipment

The useful lives and residual values of property, plant and equipment are determined by the management based on technical assessment by the management. The Group believes that the derived useful life best represents the period over which the Group expects to use these assets.

b) Taxes

Uncertainties exist with respect to the interpretation of complex tax regulations, changes in tax laws, and the amount and timing of future taxable income. Given the wide range of business relationships and the long-term nature and complexity of existing contractual agreements, differences arising between the actual results and the assumptions made, or future changes to such assumptions, could necessitate future adjustments to tax income and expense already recorded. The Group establishes provisions, based on reasonable estimates. The amount of such provisions is based on various factors, such as experience of previous tax audits and differing interpretations of tax regulations by the taxable entity and the responsible tax authority.

Such differences of interpretation may arise on a wide variety of issues depending on the conditions prevailing in the respective domicile of the companies.

c) Gratuity benefit

The cost of defined benefit plans (i.e. Gratuity benefit) is determined using actuarial valuations. An actuarial valuation involves making various assumptions which may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and future pension increases. Due to the complexity of the valuation, the underlying assumptions and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. In determining the appropriate discount rate, management considers the interest rates of long term government bonds with extrapolated

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025 (Contd.)

(All amounts are presented in ₹ Lakhs, unless otherwise stated)

maturity corresponding to the expected duration of the defined benefit obligation. The mortality rate is based on publicly available mortality tables for the specific countries. Future salary increases and pension increases are based on expected future inflation rates for the respective countries. Further details about the assumptions used, including a sensitivity analysis, are given in Note 39.

d) Fair value measurement of financial instrument

When the fair value of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow (DCF) model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

e) Impairment of financial assets

The impairment provisions of financial assets are based on assumptions about risk of default and expected loss rates. The Group uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on Group's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

f) Impairment of non-financial assets

Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use.

The fair value less costs of disposal calculation is based on available data from binding sales transactions, conducted at arm's length, for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a DCF model. The cash flows are derived from the budget for the next five years and do not include restructuring activities that the Group is not yet committed to or significant future investments that will enhance the asset's performance of the CGU being tested. The recoverable amount is sensitive to the discount rate used for the DCF model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes. These estimates are also relevant to other intangibles. During the year the Group has done the impairment assessment of non-financial assets and have concluded that there is no impairment in value of non-financial assets as appearing in the financial statements.

g) Revenue recognition - Estimating variable consideration for returns and volume rebates

The Group estimates variable considerations to be included in the transaction price for the sale of traded goods (in after-market) with volume rebates.

The Group's expected volume rebates are analysed on a per customer basis for contracts that are subject to a single volume threshold. Determining whether a customer will be likely entitled to rebate will depend on the customer's historical rebates entitlement and accumulated purchases to date. The Group applied a statistical model for estimating expected volume rebates for contracts with more than one volume threshold. The model uses the historical purchasing patterns and rebates entitlement of customers to determine the expected rebate percentages and the expected value of the variable consideration. Any significant changes in experience as compared to historical purchasing patterns and rebate entitlements of customers will impact the expected rebate percentages estimated by the Group.

44. CAPITAL MANAGEMENT

For the purpose of the Group's capital management, capital includes issued equity capital, all equity reserves attributable to the equity holders of the Group. The primary objective of the Group's capital management is to maximise the shareholders' value.

The Group manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants, if any. To maintain or adjust the capital structure, the Group reviews the fund management at regular intervals and take necessary actions to maintain the requisite capital structure. The Group monitors capital using gearing ratio, which is net debt divided by total capital plus net debt. The Group includes within net debt, interest bearing loans and borrowings, less cash and cash equivalents. No changes were made in the objectives, policies or processes for managing capital during the years ended March 31, 2025 and March 31, 2024.

46. FAIR VALUE HIERARCHY

All financial instruments for which fair value is recognized or disclosed are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole.

Level 1: Quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2: Valuation techniques for which the lowest level input that has a significant effect on the fair value measurement are observable, either directly or indirectly.

Level 3: Valuation techniques for which the lowest level input which has a significant effect on the fair value measurement is not based on observable market data.

The following table provides the fair value measurement hierarchy of the Group's assets and liabilities.

48. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's principal financial liabilities comprise of trade and other payables, borrowings, lease liabilities, security deposits and payables for property, plant and equipment. The main purpose of these financial liabilities is to finance the Group's operations. The Group's principal financial assets include trade and other receivables, cash, fixed deposits and security deposits that derive directly from its operations.

The Group is exposed to market risk, credit risk and liquidity risk. The Group's senior management oversees the management of these risks. The Group's senior management is supported by Finance department that advises on financial risks and the appropriate financial risk governance framework for the Group. The Finance department provides assurance to the Group's senior management that the Group's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Group's policies and risk objectives. It is the Group's policy that no trading in derivatives for speculative purposes may be undertaken. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below.

A. Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk. Financial instrument effected by market risk include loans and borrowings, deposits, FVTOCI instrument.

The sensitivity analyses in the following sections relate to the position as at March 31, 2025 and March 31, 2024.

The following assumptions have been made in calculating the sensitivity analysis:

The sensitivity of the relevant profit or loss item is the effect of the assumed changes in respective market risks. This is based on the financial assets and financial liabilities held at March 31, 2025 and March 31, 2024 including the effect of hedge accounting.

i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's interest bearing financial liabilities includes borrowings with fixed interest rates.

The Group's fixed rate borrowings are carried at amortised cost. They are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

Interest rate risk exposure

The Group's variable rate borrowing is subject to interest rate fluctuations. Below is the overall exposure of the borrowing:

	As at March 31, 2025	As at March 31, 2024
Variable rate borrowing	75,714.30	66,928.79
Fixed rate borrowing	1,124.21	1,099.85
Total borrowings	**76,838.51**	**68,028.64**

Sensitivity

Profit or loss and equity is sensitive to higher/ (lower) interest expense from borrowings as a result of changes in interest rates.

(All amounts are presented in ₹ Lakhs, unless otherwise stated)

	Decrease/ (Increase) in profit or loss for the year ended March 31, 2025	Decrease/ (Increase) in profit or loss for the year ended March 31, 2024
Interest sensitivity		
Increase by 1% (March 31, 2024: 1%)	757.14	669.29
Decrease by 1% (March 31, 2024: 1%)	(757.14)	(669.29)

ii) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Group's exposure to the risk of changes in foreign exchange rates relates primarily to the Group's operating activities (when revenue or expense is denominated in a foreign currency).

The Group transacts business in local currency as well as in foreign currency. The Group has foreign currency trade payables and receivables and is therefore, exposed to foreign exchange risk.

Foreign currency sensitivity

The following tables demonstrate the sensitivity to a reasonably possible change in foreign exchange rates, with all other variables held constant. The impact on the Group's profit before tax is due to changes in the fair value of monetary assets and liabilities including non-designated foreign currency derivatives and embedded derivatives.

Exposure gain/(loss)	As at March 31, 2025		As at March 31, 2024	
	Increase in foreign currecy rate by 5%	Decrease in foreign currecy rate by 5%	Increase in foreign currecy rate by 5%	Decrease in foreign currecy rate by 5%
Trade Payable	(91.40)	91.40	(104.36)	104.36
Trade Receivable	115.27	(115.27)	110.15	(110.15)
Bank Balance	-	-	3.19	(3.19)

iii) Equity Price Risk

The Group's listed and non-listed equity & preference securities are susceptible to market price risk arising from uncertainties about future values of the investment securities. The Group manages the price risk through diversification and by placing limits on individual and total instruments. Reports on the equity & preference portfolio are submitted to the Group's management on a regular basis. The Group's Board of Directors reviews and approves all equity & preference investment decisions.

At the reporting date, the exposure to listed equity securities at fair value was ₹ 13,594.51 Lakhs (March 31, 2024: ₹ 12,624.92 Lakhs). A decrease of 10% on the NSE market index could have an impact of approximately ₹ 1,359.45 Lakhs (March 31, 2024: ₹ 1,262.49 Lakhs) on the OCI or equity attributable to the Group. An increase of 10% in the value of the listed securities would also impact OCI and equity.

At the reporting date, the exposure to unlisted equity & preference securities at fair value was ₹ 2,727.35 Lakhs (March 31, 2024: ₹ 2,613.80 Lakhs). A decrease of 10% in fair value could have an impact of approximately ₹ 272.74 Lakhs (March 31, 2024: ₹ 261.38 Lakhs) on the OCI or equity attributable to the Group. An increase of 10% in the value would also impact OCI and equity.

B. Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Group is exposed to credit risk from its operating activities (primarily trade receivables) and from its investing activities, including deposits with banks and other financial instruments.

Trade receivables

Customer credit risk is managed by the Group subject to the Group's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on an extensive credit rating. Outstanding customer receivables are regularly monitored.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025 (Contd.)

(All amounts are presented in ₹ Lakhs, unless otherwise stated)

An impairment analysis is performed at each reporting date on an individual basis for major clients. In addition, a large number of minor receivables are grouped into homogenous groups and assessed for impairment collectively. The maximum exposure to credit risk at the reporting date is the carrying value of financial assets (trade receivable). The Group evaluates the concentration of risk with respect to trade receivables as low, as its customers are located and being operated in India.

Further, the Group's customer base majorly includes Original Equipment Manufacturers (OEMs), Large Corporates and Tier-1 vendors of OEMs and dealers. Based on the past trend of recoverability of outstanding trade receivables, the Group has not incurred material losses on account of bad debts. The Company is earning revenue of ₹ 147,336.30 Lakhs (March 31, 2024: ₹ 116,511.09 Lakhs) in the domestic market from two customers. The following table provides information about the exposure to credit risk and expected credit loss as at March 31, 2025 and March 31, 2024 for trade receivables under the simplified approach.

C. Liquidity risk

Liquidity risk is the risk that the Group may not be able to meet its present and future cash and collateral obligations without incurring unacceptable losses. The Group objective is to, at all times maintain optimum levels of liquidity to meet its cash and collateral requirements. The Group closely monitors its liquidity position and deploys a robust cash management system. It maintains adequate sources of financing including loans from banks at an optimised cost.

D. Commodity risk

The Group is affected by the price volatility of certain commodities. Its operating activities require the ongoing purchases of steel & plastic granules which are volatile products and are major component of end product. The prices in these purchase contracts are linked to the price of raw steel & plastic granules and demand supply matrix. However, at present, the Group do not hedge its raw material procurements, as the price of the final product of the Group also vary with the price of underlying commodity which mitigate the risk of price volatility.

49. Revenue from operations is measured by the Group at the transaction price i.e. amount of consideration received/ receivable in exchange of transferring goods or services to the customers. In determining the transaction price for the sale of goods, the Group considers the effect of price adjustments, to be claimed/ passed on to the customers, based on various cost parameters like raw material and other costs.

The Group is required to pass on the savings in variable cost from the billed sales price for which the final negotiations with the customer is ongoing and will be settled in near future. The total estimated liabilities outstanding as at March 31, 2025 is ₹ 1,420.64 Lakhs (March 31, 2024: ₹ 1,966.89 Lakhs), which management believes is sufficient to discharge liabilities.

NOTICE OF ANNUAL GENERAL MEETING (Contd.)

EXPLANATORY STATEMENT IN RESPECT OF SPECIAL BUSINESS

(PURSUANT TO SECTION 102 OF COMPANIES ACT, 2013)

Item No. 4

In terms of Regulation 24A of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ('SEBI Listing Regulations') read with the provisions of Section 204 and any other provisions, if any, of the Companies Act, 2013 ("the Act") and Rule 9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014, the Company is required to appoint Secretarial Auditors for a consecutive period of 5 years commencing from FY 2025-26 till Financial Year 2029-30, to conduct the Secretarial Audit of the Company.

For identification of Secretarial Auditor, the Management had considered the eligibility of Mr. Maneesh Gupta, Practicing Company Secretary, who is the Secretarial Auditor of the Company from FY 2019-20 till date. Mr. Maneesh Gupta, Peer Reviewed Practicing Company Secretary, is a Fellow Member of the Institute of Company Secretaries of India and is having more than 30 years of experience in the areas of Corporate Laws, Merger/ Demerger of Companies, Takeover, Secretarial Audit, Financial Engineering and Representations to Financial Institutions & Banks at NCLT, Loan syndication.

The Management evaluated the background, expertise and past performance of Mr. Maneesh Gupta, Practicing Company Secretary, as the Secretarial Auditors of the Company and apprised the Audit Committee members on the evaluation of the same.

The Audit Committee and the Board of Directors, at their respective meetings held on May 29, 2025, have considered the proposal. In compliance with the aforesaid provisions, on the recommendation of the Audit Committee, the Board of Directors recommends the appointment of Mr. Maneesh Gupta, Practicing Company Secretary (FCS No.: 4982; CP No.: 2945 & Peer Review Certificate No.: 2314/2022) as the Secretarial Auditors for a term of five (5) years from FY 2025-26 to FY 2029-30 for conducting secretarial audit of the Company.

Mr. Maneesh Gupta, Practicing Company Secretary (FCS 4982) has provided his consent to be appointed as Secretarial Auditor and has confirmed that, his appointment, if made, would be within the limits specified by the Institute of Companies Secretaries of India. He has also confirmed his eligibility and independence under Regulation 24A of Listing Regulations read with SEBI Circular No. SEBI/HO/CFD/CFD-PoD-2/CIR/P/2024/185 dated December 31, 2024 and other relevant applicable SEBI Circulars issued in this regard, the Companies Act, 2013, the Companies Secretaries Act, 1980, and Rules and Regulations made thereunder and have expressed their willingness to accept the appointment upon approval.

The proposed remuneration to be paid to Mr. Maneesh Gupta for secretarial audit services for the financial year ending March 31, 2026, is ₹ 1,25,000 (Rupees One Lakh Twenty-Five Thousand only) plus applicable taxes and out-of-pocket expenses. The fees for subsequent years of the term will be approved by the Board of Directors in consultation with the Audit Committee. Besides the secretarial audit services, the Company may also obtain certifications from Mr. Maneesh Gupta under various statutory regulations and certifications required by banks, statutory authorities, audit related services and other permissible non-secretarial audit services as required from time to time, for which they will be remunerated separately on mutually agreed terms, as approved by the Board of Directors in consultation with the Audit Committee. The proposed fee is based on knowledge, expertise, industry experience, time and efforts required to be put in by the Secretarial Auditor, which is in line with the industry benchmark.

None of the Directors, Key Managerial Personnel of the Company and their relatives are concerned or interested, financially or otherwise, in the agenda as set out at Item No. 4 of the Notice.

The Board of Directors recommends the resolution set forth in Item No. 4 for approval of the Members as an Ordinary Resolution.

Item No. 5

The Company is engaged in manufacturing of various automotive components including automotive lighting products. The Company is also engaged in the business of After-market sales activities. The Company also has joint ventures with third parties. The annual consolidated turnover of the Company for the year ended March 31, 2025 was ₹ 3,636.67 Crores.

As a part of its business activities, the Company has entered into/will enter into transactions/contracts/agreements/ arrangements with related parties in terms of Regulation 2(1)(zc)(i) of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations"). All transactions with such related parties of the Company are / will be at arm's length and in the ordinary course of business.

The Company has a well-defined governance process for the related party transactions undertaken by it. These transactions are independently reviewed by a firm of Chartered Accountants for arms' length consideration and compared with the benchmarks available for similar type of transactions and these analyses are presented to the Audit Committee on quarterly basis.

NOTICE OF ANNUAL GENERAL MEETING (Contd.)

Further, all related party transactions are undertaken after obtaining approval of the Audit Committee. Presently more than 2/3rd of the members of the Audit Committee of the Company comprises of independent directors and as required by Listing Regulations, the non-independent members of the Audit Committee do not participate in the discussions on the item with respect to approval of related party transactions. All related party transactions have been unanimously approved by the Audit Committee after satisfying itself that the related party transactions are at arms' length and in the ordinary course of business. The Audit Committee of the Company reviews on a quarterly basis, the details of all related party transactions entered into by the Company during the previous quarter, pursuant to its approvals.

Regulation 23 of the Listing Regulations provides that shareholders' approval should be obtained for the related party transactions which in a financial year, exceed the lower of (i) ₹ 1,000 Crore; and (ii) 10% of the annual consolidated turnover of the listed entity as per the last audited financial statements of the listed entity.

Lumax Industries Limited ("LIL") is 'Related Party' within the meaning of Section 2(76) of the Act and Regulation 23 of the Listing Regulations and the Company has entered into certain transactions for Sale of Finished Goods, Purchase of Finished Goods, Purchase of Raw Materials & Components, Sale of Raw Materials & Components, Availing of services, Rendering of services, Purchase of other (Consumable), Sale of Packing Materials, Sale-Others, Rent Paid, Rent Received, Purchase of Capital Goods, Sale of Capital Goods and Royalty Payment etc.

The members may also note that Lumax Ancillary Limited (LAL) is a wholly owned subsidiary of the Company and a Scheme for merger of LAL with the Company has already been filed with the Hon'ble National Company Law Tribunal and the appointed date for the said merger is April 01, 2024. It is expected that the said scheme will be approved by the Hon'ble NCLT by March 31, 2026 and in that event, no separate financials of LAL will be made for the financial year 2025-26, hence the transactions of LIL with LAL will also be considered as transactions with LATL for the financial year 2025-26. The Audit Committee of the Company in its meeting held on March 26, 2025 granted omnibus approval for the transactions up to an amount ₹ 415.62 Crores by the Company with LIL for the financial year 2025-26. The Audit Committee of the Company had also granted its approval for the transactions of ₹ 256.61 Crores by LAL with LIL in terms of the provisions of Regulation 23(2)(c) of the Listing Regulations. Consequent upon the merger of LAL with the Company, these transactions shall also be considered to be the transactions between the Company and LIL. Based on the recommendations of the Audit Committee, the Board of Directors in its meeting held on May 29, 2025 had also approved the said related party transactions for the consolidated amount of ₹ 675 Crores.

Accordingly, your approval is being sought for a consolidated amount of ₹ 675 Crores (rounded-off) i.e. ₹ 415.62 Crores with LIL and ₹ 256.61 Crores between LIL and LAL.

The particulars of transactions carried out with LIL during the Financial Year 2025-26 together with the projections until March 31, 2026 are tabulated as under:

NOTICE OF ANNUAL GENERAL MEETING (Contd.)

(Refer Note 11 of the Notice of 44th AGM)

COMMUNICATION ON TAX DEDUCTION AT SOURCE (TDS) ON DIVIDEND DISTRIBUTION

Members may note that the Income-tax Act, 1961, ("the IT Act") as amended by the Finance Act, 2020, mandates that Dividend paid or distributed by a company after April 1, 2020 shall be taxable in the hands of members. The Company shall therefore be required to deduct tax at source ("TDS") at the time of making the payment of dividend. In order to enable us to determine the appropriate TDS rate as applicable, members are requested to submit relevant documents, as specified in the below paragraphs, in accordance with the provisions of the IT Act.

For resident shareholders, taxes shall be deducted at source under Section 194 of the IT Act as follows:

- Members having valid Permanent Account Number ("PAN"): 10% or as notified by the Government of India if member has provided a valid PAN (Linked with Aadhar).
- Members not having PAN / valid PAN: 20% or as notified by the Government of India

However, no tax shall be deducted on the dividend payable to a resident individual if the total dividend paid by the Company during the financial year 2025-26 does not exceed ₹ 10,000 and also in cases where members provide Form 15G / Form 15H (Form 15H is applicable to individuals aged 60 years or more) subject to conditions specified in the IT Act. Resident shareholders may also submit any other document as prescribed under the IT Act to claim a lower / nil withholding tax. PAN is mandatory for members providing Form 15G / 15H or any other document as mentioned above.

For non-resident shareholders, taxes are required to be withheld in accordance with the provisions of Section 195 and other applicable sections of the IT Act, at the rates in force. The withholding tax shall be at the rate of 20% (plus applicable surcharge and cess) or as notified by the Government of India on the amount of dividend payable. However, as per Section 90 of the IT Act, non-resident shareholders have the option to be governed by the provisions of the Double Tax Avoidance Agreement ("DTAA"), read with Multilateral Instrument ("MLI") between India and the country of tax residence of the member, if they are more beneficial to them. For this purpose, i.e. to avail the benefits under the DTAA read with MLI, non-resident shareholders will have to provide the following:

- Copy of the PAN card allotted by the Indian income tax authorities duly attested by the member or details as prescribed under rule 37BC of Income-tax Rules, 1962
- Copy of Tax Residency Certificate (TRC) for FY 2025-26 obtained from the revenue authorities of the country of tax residence, duly attested by member
- Form 10F filed electronically for FY 2025-26 on the Indian Income Tax web portal
- Self-declaration by the member of having no permanent establishment in India for FY 2025-26 in accordance with the applicable tax treaty
- Self-declaration of beneficial ownership by the non-resident shareholder
- Any other documents as prescribed under the IT Act for lower withholding of taxes if applicable, duly attested by the member.

In case of Foreign Institutional Investors / Foreign Portfolio Investors, tax will be deducted under Section 196D of the IT Act @ 20% (plus applicable surcharge and cess) or the rate provided in relevant DTAA, read with MLI, whichever is more beneficial, subject to the submission of the above documents.
