2.2x Revenue by FY30

OHT Strategy

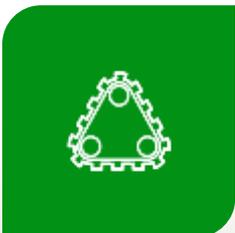

- **Agricultural Tires:** To sustain and further consolidate global leadership

- Established a strong portfolio in Tracks, Industrial and Construction tires

- The on-going capex of 35,000 MTPA along with De-bottlenecking efforts, the OHT tire capacity will increase to 425,000 MTPA enabling us to reach 8% global market share

- Reaching 10% global market remains a strategic goal, to be pursued through modular, carefully phased investments.

- Tracks: Expanding of dedicated manufacturing facility for Tracks; expected to commence production in H2-2026

~70% Revenue
Contribution by
FY30

Achieve
~8% global

Expand Carbon Black capacity

- To capitalize on synergies with tire operations and leverage energy and raw material integration, the Board of Directors has approved the expansion of Carbon Black plant

- Expansion to be completed by early 2026. Increased capacity to ensure Raw material availability, Energy circularity and support sustainability efforts.

- Capacity to increase from 200,000 MTPA to 360,000 MTPA along with a 24 MW cogeneration power plant taking our total co-gen power capacity to 64 MW at Bhuj

- Further strengthens market position as a high-quality reliable supplier of Carbon Black to Tire companies in Domestic and International markets

 - Commercial Vehicles Radial Tires
- Initial focus in on Indian Replacement Market for both the categories.

- CV Radial tires pilot will launch in Q4FY26 and will ramp up gradually
- PCR tires pilot will follow in Q3FY27 and will ramp up gradually

To enter New Tire verticals for India

~20% Revenue
Contribution by
FY30

Achieve ~5%

Competitive Advantages

SCALABLE INFRASTRUCTURE

Sufficient land and upstream equipment in place. Also possess the talent and systems required to scale the business

STRONGER BRAND EQUITY

Investments in brand building will now generate greater value across a wider revenue base

INTEGRATED CARBON BLACK PLANT

The Carbon Black plant generates power for tire facilities, reducing a major manufacturing cost and ensuring control over a key raw material

ROBUST PROFITABILITY OUTLOOK

Expect blended margins post full commercialization to be in the range of 23-25% allowing absolute EBITDA to grow significantly

On enhanced revenue backed by a superior product mix and operational strengths, do not anticipate a significant decline in ROCE as full potential is achieved.
