INTERARCH BUILDING SOLUTIONS LIMITED

February 2026

This presentation and the accompanying slides (the “Presentation”), which have been prepared by Interarch Building Solutions Limited (the “Company”), have been prepared solely for information purposes and do not constitute any offer, recommendation or invitation to purchase or subscribe for any securities, and shall not form the basis or be relied on in connection with any contract or binding commitment whatsoever. No offering of securities of the Company will be made except by means of a statutory offering document containing detailed information about the Company.

This Presentation has been prepared by the Company based on information and data which the Company considers reliable, but the Company makes no representation or warranty, express or implied, whatsoever, and no reliance shall be placed on, the truth, accuracy, completeness, fairness and reasonableness of the contents of this Presentation. This Presentation may not be all inclusive and may not contain all of the information that you may consider material. Any liability in respect of the contents of, or any omission from, this Presentation is expressly excluded.

This presentation contains certain forward looking statements concerning the Company’s future business prospects and business profitability, which are subject to a number of risks and uncertainties and the actual results could materially differ from those in such forward looking statements. The risks and uncertainties relating to these statements include, but are not limited to, risks and uncertainties regarding fluctuations in earnings, our ability to manage growth, competition (both domestic and international), economic growth in India and abroad, ability to attract and retain highly skilled professionals, time and cost over runs on contracts, our ability to manage our international operations, government policies and actions regulations, interest and other fiscal costs generally prevailing in the economy. The Company does not undertake to make any announcement in case any of these forward looking statements become materially incorrect in future or update any forward looking statements made from time to time by or on behalf of the Company.

1	Performance Highlights – Q3 & 9MFY26	04
2	Company Overview	14
3	Key Strengths	18
4	Industry Overview	27
5	Historical Financials	34
6	Growth Strategies	38

Performance Highlights Q3 & 9MFY26

“Interarch delivered its best-ever quarterly revenue in Q3 FY26, crossing the INR 500 Cr. milestone for the first time. Revenues stood at INR 523 Cr., registering a 44% YoY growth. EBITDA and PAT grew by 43% and 32% YoY, respectively, reflecting strong execution capabilities and operating leverage.

During the quarter, we also achieved another key milestone with export order wins of ~INR 13 Cr., reinforcing exports as a strategic focus area for the Company. Our ability to sustain healthy growth, supported by a robust order book and a strong order pipeline, provides confidence in maintaining this momentum going forward.

On the capacity front, Phase II of the Andhra Pradesh facility is ramping up well. The construction of our Gujarat PEB facility and Andhra Pradesh Heavy Steel Structure facility is also progressing as per schedule, with both projects expected to be commercialized by Q2 FY27.

Simultaneously, we have undertaken multiple automation initiatives during the quarter across manufacturing, engineering, and site execution, aimed at improving throughput, enhancing quality and safety standards, and driving operational efficiencies.

We continue to invest in capacity expansion and capability building, strengthening our competitive position and contributing to the long-term evolution of the Pre-Engineered Buildings (PEB) industry in India. This growth is underpinned by strong customer relationships, a net cash-positive balance sheet, efficient working capital management, and healthy cash flows. We remain focused on timely execution, sustaining growth momentum, and are on track to achieve our stated guidance.”

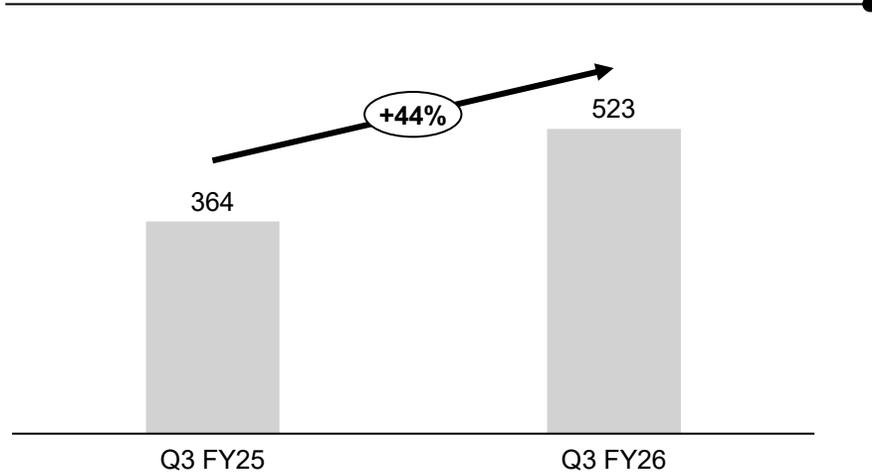

Arvind Nanda
Managing Director

Major Customers – End User Industry

Industrial Logistics Infrastructure

Orders Wins from Key Customers

JSW JFE Electrical Steel	ECR Buildtech
World Green Energy	DR Axion India (Craftsman)
Syrma Strategic Electronics	Horizon Industrial Parks
Takenaka India	Alotrion Warehousing
Safexpress	Indospace Industrial Park

Export Orders Received

Sr No.	Particulars	Location	Order Size	Floor Area
1	Flexible Packagaing Manufacturing Unit	Ghana	Rs. 6.5 Crs (~ USD 0.7 Mn)	~10,000 sq mtr
2	Pharmaceuticals Manufacturing Unit	Myanmar	Rs. 6.6 Crs (~ USD 0.7 Mn)	~ 11,000 sq mtr

Manufacturing Automation Initiatives across plants

- Automatic shot blasting across plants has improved throughput, safety, surface quality, and reduced material handling (MH/MT).
- Automatic box welding machines with auto flippers enhance capability for multi-storey and heavy steel structures.
- State-of-the-art fully automated machinery from **Ficpe and Cor Impex (Italy)** requiring **<50% manpower**, capable of processing **Box, Star, and I sections** with automatic cutting and 3-axis drilling.
- Addition of crawler lifters and German standing seam machines to significantly enhance roofing capacity

Design Automation Initiatives

- Proprietary **IBSL K-Series** automation enables **~50% faster** fabrication drawings by directly importing STAAD models into Tekla and auto-generating models, GAs, shop, and erection drawings.

Erection At site Initiatives

- **POD methodology:** Ground-level sub-assembly with crane lifting, reducing erection time by **~30%** and work at height by **~50%**, strengthening safety and productivity.

Digital Transformation

- **SAP S/4HANA** implementation nearing completion, enabling real-time analytics and improved operational efficiency.

Key Collaborations

Enhancing Export Presence Through Strategic Collaboration with Mold-Tek Technologies (MTTL)

Interarch Building Solutions Limited

Mold-Tek Technologies Limited (MTTL)

Collaboration will focus on global markets, with a strong emphasis on driving export orders

Key Rationale:

Interarch will handle manufacturing, logistics, while Mold-Tek Technologies will provide detailing for PEB and structural steel projects

Scope of Business:

Interarch and MTTL will jointly assess client requirements for building, pricing, and delivery under a two-year business plan, extendable by mutual consent

Consideration Details:

Interarch will pay MTTL a commission on export orders generated through MTTL's efforts, with rates adjustable by mutual agreement to facilitate order conversion

Agreement Terms:

Both companies will work exclusively with each other on projects introduced by MTTL, ensuring a dedicated partnership for these initiatives

Strategic Partnership with Jindal Steel for Urban Infrastructure (JSL)

Interarch Building Solutions Limited

Interarch is a leader in turnkey pre-engineered steel construction solutions (PEBs). The company caters to a broad spectrum of industrial and non-industrial construction needs.

Jindal Steel Limited

Jindal Steel and Power is an industrial powerhouse with a dominant presence in the steel, mining, and infrastructure sectors. The company continually enhances its capacity utilization and efficiency, driving towards a self-reliant India.

To Promote

Steel as preferred material for multi-story buildings, data centers, and heavy structures, redefining India's urban infrastructure.

Areas of Collaboration

1. Marketing Awareness Campaign
2. Technical Expertise & Training
3. Advocacy & Policy Support

Key rationale

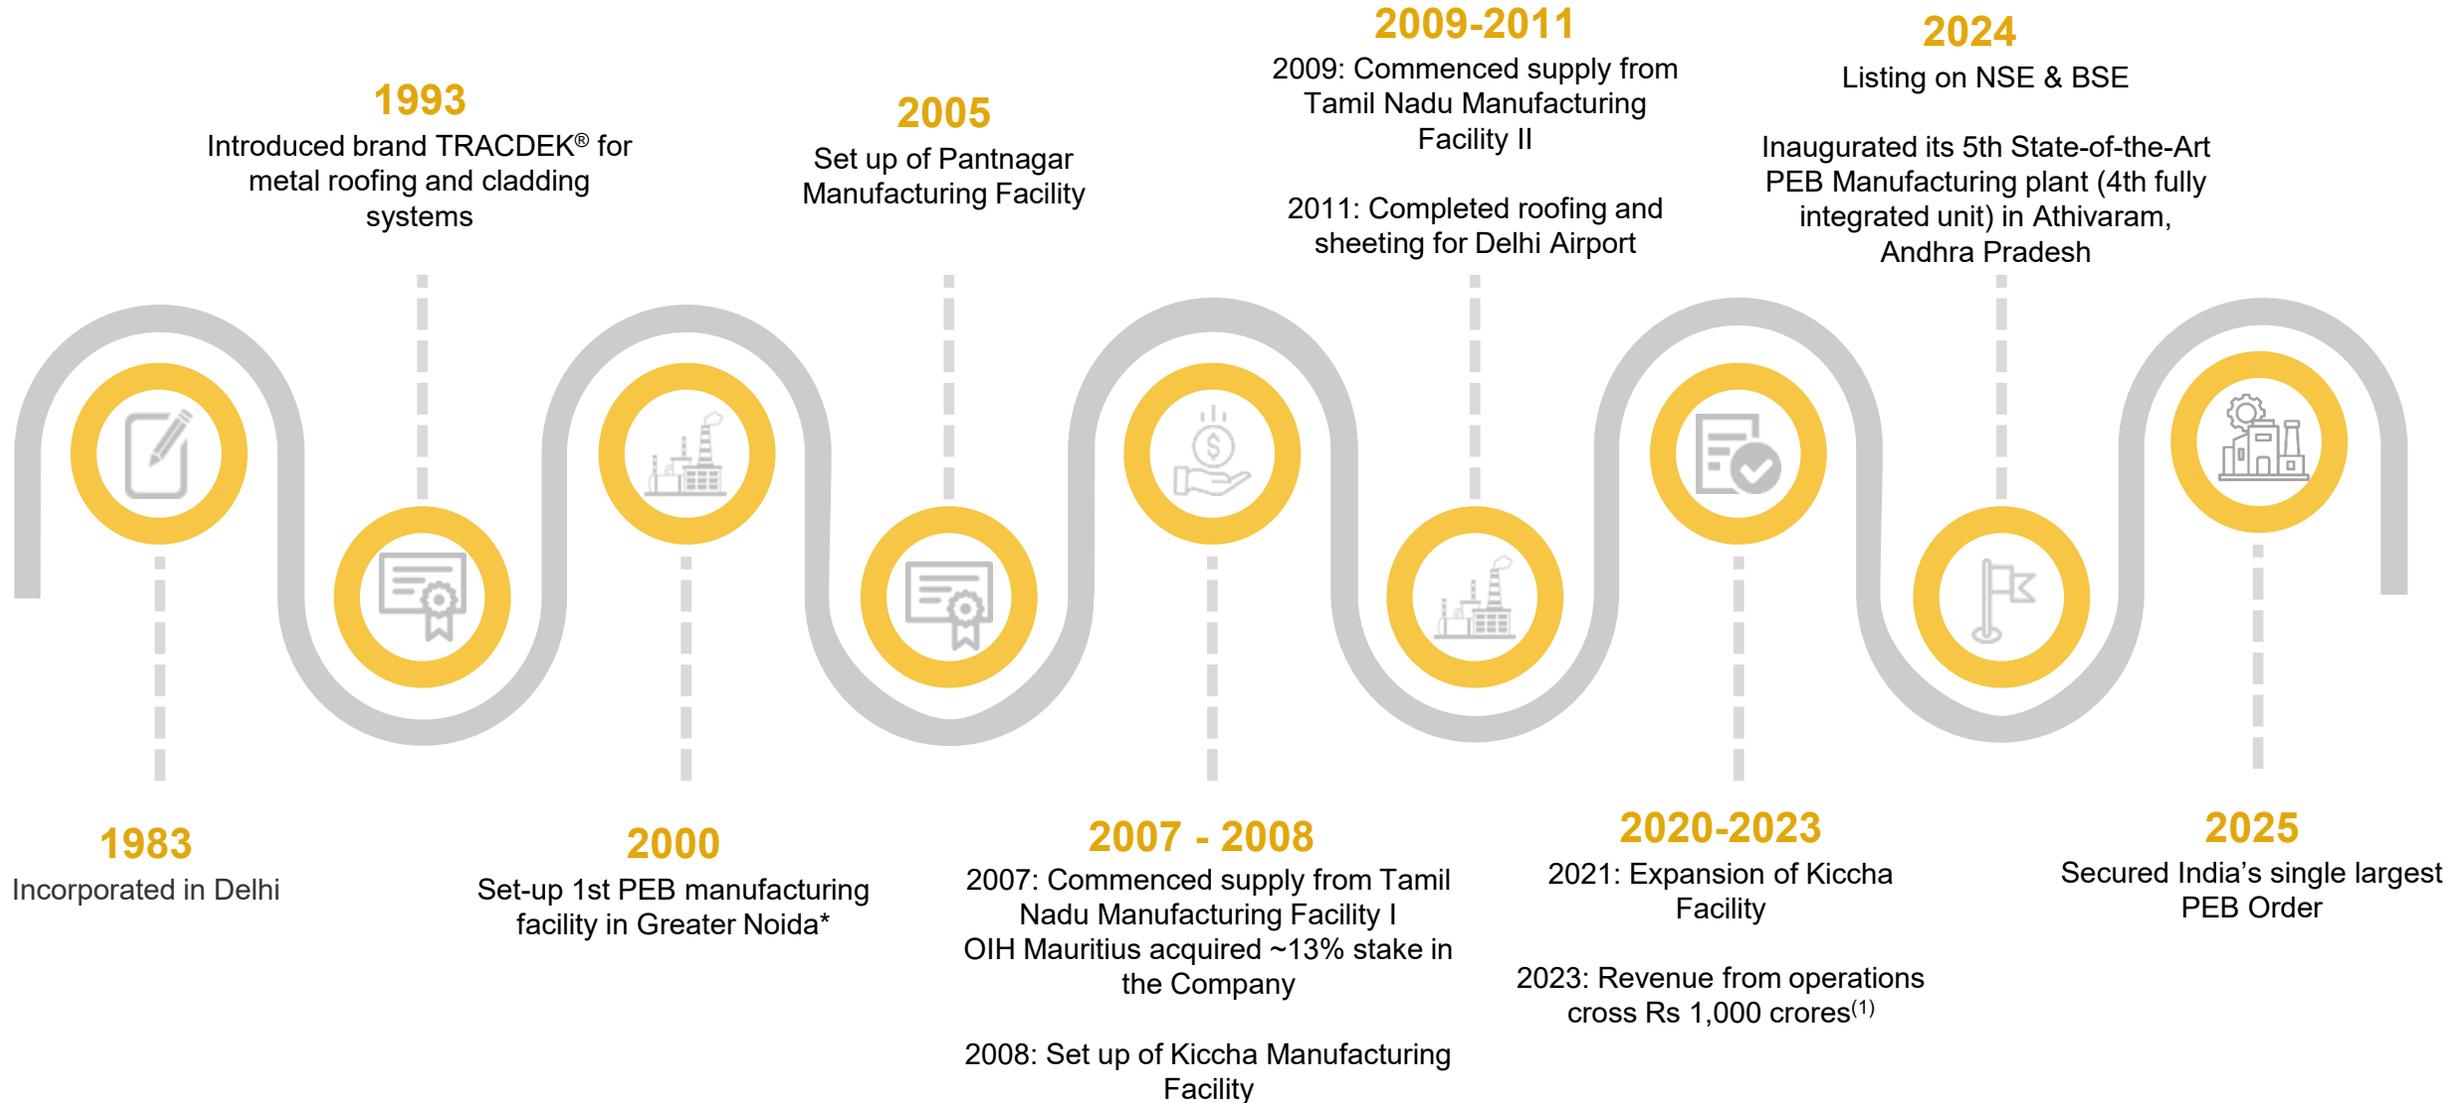

- **Steel** is the preferred material for modern urban construction due to its speed, strength, flexibility, and sustainability
- The partnership combines expertise in PEB construction with advanced steel production to meet growing demands
- This collaboration combines company's expertise in design, engineering, manufacturing and project management with JSL's advanced manufacturing facilities for heavy structures, creating high-performance steel solutions
- Together, they aim to drive innovation and promote sustainable, efficient urban development

To enter into multi story buildings & heavy building structure and offer a comprehensive solution to customers

Company Overview

Company Evolution

Note: * Subsequently closed; ⁽¹⁾ in FY23

One of the leading turnkey pre-engineered steel construction solutions providers in India with integrated facilities for design and engineering, manufacturing, on-site project management capabilities for the installation and erection of pre-engineered steel buildings ("PEB")

2nd

Largest aggregate installed capacity of 201,000 MTPA among integrated PEB players in India

2nd

Ranked among integrated PEB players in India in FY25

756

Completed execution of PEB Contracts from FY15 to FY25

5

Manufacturing facilities in Uttarakhand, Andhra Pradesh & Tamil Nadu and 1 planned facilities in Gujarat

Key Certifications Received

Certificate for Inspection Program for Manufacturer of Metal Building System issued by IAS used to supply the pre-engineered buildings in USA

1

ISO 45001 : 2018 – International Certificate for Occupational Health and Safety (OH&S) Management

2

ISO 14001 :2015 - International Certificate for Environmental Management Systems (EMS).

3

International Code Council – Certificate issued to supply LGFS products in the USA

4

Key Strengths

Key Strengths

Presence of over 40 years in the PEB industry and Building Products and has worked with industry leaders in project development & construction, providing support to critical industrial, commercial and infrastructure projects

Market Position and Established Brand Presence in The Growing Pre-engineered Steel Building Industry in India (1/2)

2nd

Largest aggregate installed capacity of 201,000 MTPA among integrated PEB players in India

2nd

Ranked among integrated PEB players in India

6.5%

Market share among integrated PEB players in India

756

Completed execution of PEB Contracts from FY15 to FY25

40+ Years

Presence in the PEB and Building Products Industry

Extensive track record

Domain experience

Established brand presence and market position

Integrated facilities for design and engineering, manufacture

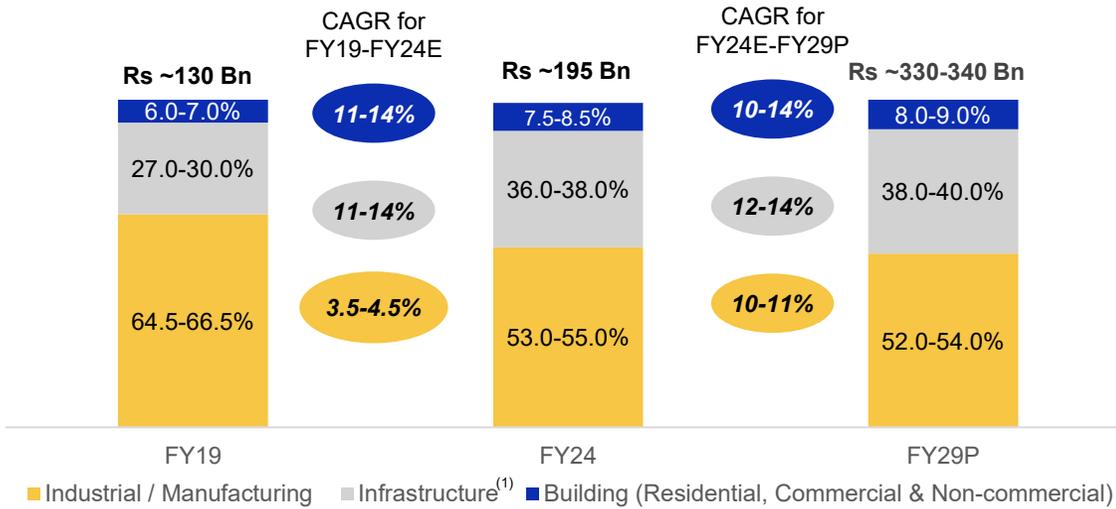

On-site project management capabilities

Market Position and Established Brand Presence in The Growing Pre-engineered Steel Building Industry in India (2/2)

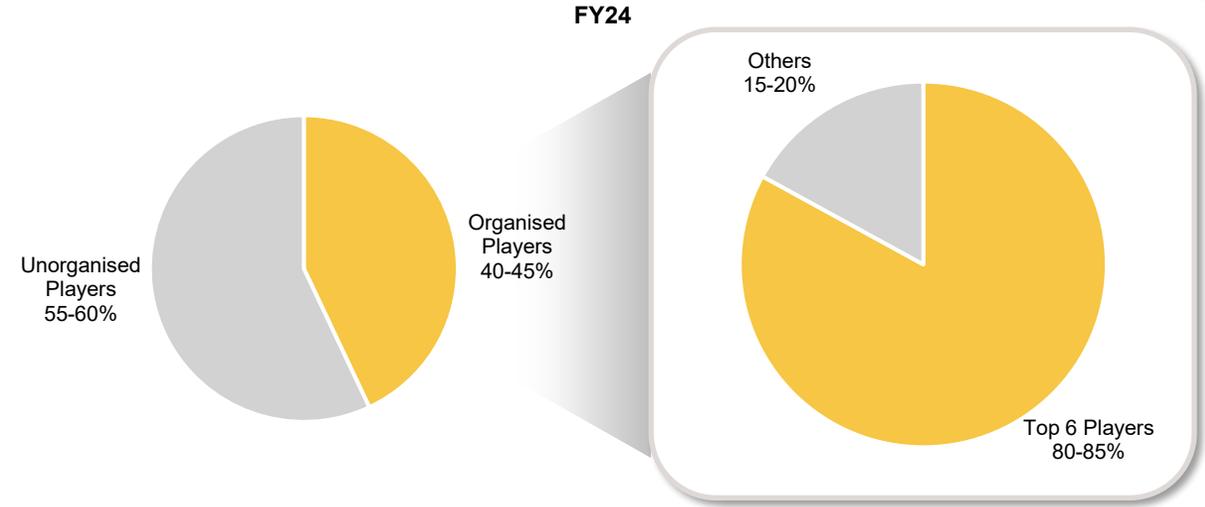

The PEB Market in India – Segments

Top six players in the industry have grown at a faster rate than rest of the players

Growing Shift towards the Organised Sector

Organised sector has an edge over the unorganised sector in terms of

Reliable Track Record

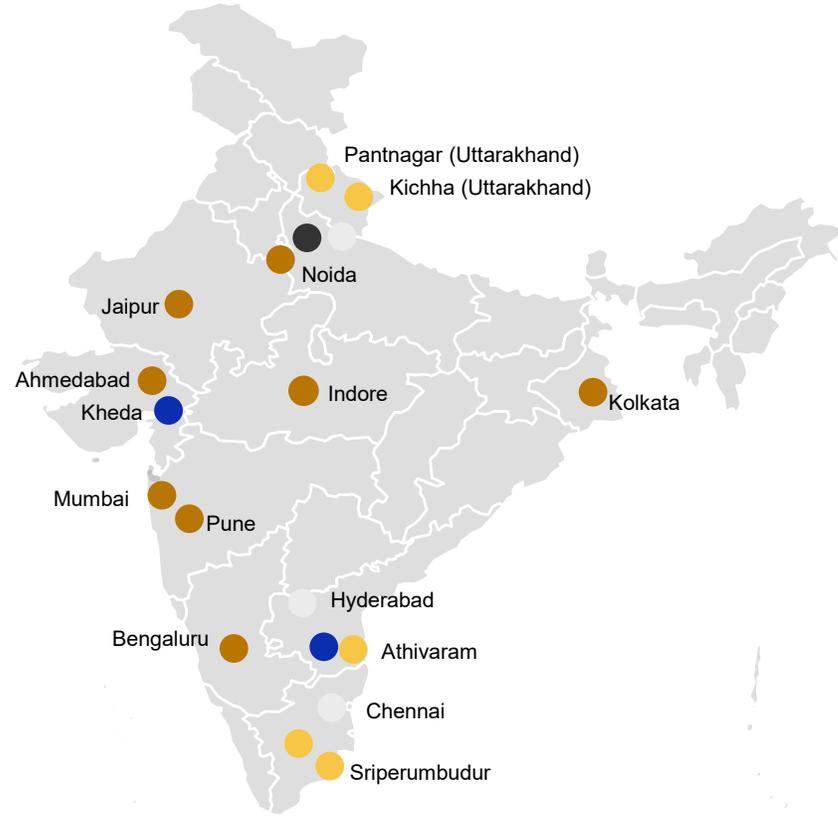

Maximised Supply Chain Capabilities

Quality Engineering Services and Products

Extensive track record & domain experience, established brand presence & market position, integrated facilities for design & engineering, manufacture, on-site project management expertise for installation and erection of PEBs position us to benefit from growth of the PEB industry

Significantly Integrated Manufacturing Operations, Backed by Strong In-house Design and Engineering, On-site Project Management and Sales & Marketing Capabilities

● Headquarters
 ● 5 Manufacturing Facilities
 ● 8 Marketing & Sales Offices
● 2 Planned Manufacturing Facilities
 ● 3 Design Centers

Manufacturing Facilities

Facility	Set up Year	Installed capacity (MTPA) ⁽¹⁾	Utilizable capacity (MTPA)
Pantnagar Manufacturing Facility	2005	31,000	~26,000
Kiccha Manufacturing Facility	2008	59,500	~50,000
Tamil Nadu Manufacturing Facility I	2007	10,000	~8,500
Tamil Nadu Manufacturing Facility II	2009	40,500	~34,000
Andhra Pradesh Phase 1	2024	20,000	~17,000
Andhra Pradesh Phase 2 + Kiccha Line (Comissioned)	2025	40,000	~32,000
Andhra Pradesh (Heavy Steel Structures)	Q2FY27	25,000	~20,000
Kheda, Gujarat Facility (PEB)	Q2FY27	40,000	~32,000
Total Existing Capacity⁽¹⁾		2,01,000	~1,67,500

Design & Engineering Centers

- ✓ Supported by dedicated design and engineering centers in Noida, Uttar Pradesh; Chennai, Tamil Nadu and Hyderabad, Telangana
- ✓ In-house design and engineering team of **155+ qualified structural design engineers and detailers**
- ✓ Computer aided design technologies including Staad Pro, MBS, FrameCad, Tekla, Auto Cad and ZWCAD

Project Management

- ✓ Dedicated team of **90+ project managers, augmented by a network of 65 empanelled and approved builders / erectors**
- ✓ Established dedicated safety & quality control teams to oversee each stage of the erection process

Vertically integrated manufacturing operations with presence across the product lifecycle of PEBs – estimation, designing, engineering & fabrication of PEBs, on-site project management of the installation and erection of PEBs

On-site project management capabilities, together with process-driven operations; lean corporate structure and coordination efforts between internal departments, suppliers and customers have contributed towards our demonstrated track record of executing PEB Contracts

Experienced & Qualified Promoters and Management Team

Promoters

ARVIND NANDA
Managing Director

- Responsible for overall business decision-making and financial oversight of operational Management
- Bachelor's degree in Commerce (Honours) from University of Delhi, New Delhi, India
- Admitted as an associate of the Institute of Chartered Accountants in England and Wales

GAUTAM SURI
Whole-time Director

- Responsible for critical technical business decisions
- Bachelor's degree in technology in mechanical engineering from Indian Institute of Technology Delhi, New Delhi India
- Nearly 30 years of experience in the pre-engineered steel buildings industry with the company

VIRAJ NANDA
Executive Director

- Bachelors' degree in tourism and hospitality management from William Angliss Institute, Melbourne, Australia
- Diploma in CAD from CADD Centre Training Services, New Delhi, India
- Associated with the Company since February 14, 2017

ISHAAN SURI
Non-Executive Director

- Bachelor's degree in science from the London School of Economics and Political Science, University of London, London, United Kingdom
- Associated with the Company since September 26, 2011

Key Managerial Personnel

MANISH KUMAR GARG
Chief Executive Officer

- Diploma in civil engineering from the Board of Technical Education, Delhi, India
- Senior executive leadership program from Harvard Business School, Boston, Massachusetts, United States
- Previously associated with Everest Industries Limited and Safal Building System Limited

PUSHPENDRA KUMAR BANSAL
Chief Financial Officer

- Bachelor's degree in commerce from Ajmer University, Rajasthan, India and has been admitted as a fellow of the ICAI
- Previously associated with Action Construction Equipment Limited, Omax Autos Limited, Jakson Limited and Microtek International Private Limited

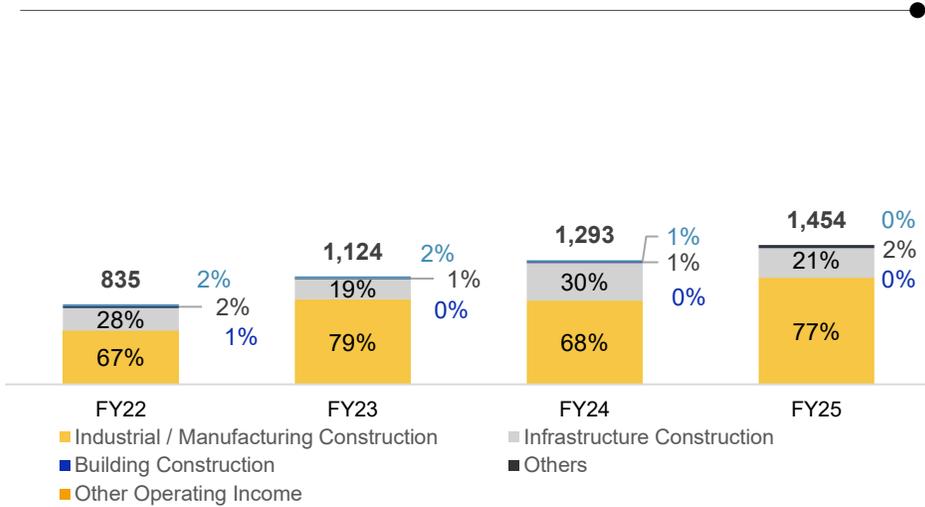

NIDHI GOEL
Company Secretary and Compliance Officer

- Appointed as the Company Secretary on April 24, 2006 and as the Compliance Officer on January 15, 2024
- Holds Bachelor's degree in Commerce (Honours) from the University of Delhi, New Delhi, India
- Admitted as an associate of the Institute of Company Secretaries of India

Industry Overview

Global Pre-engineered Steel Buildings Market – Overview

Global Pre-engineered Steel Buildings Market

USD Bn

Key Growth Drivers

The industrial and commercial sector, the mainstay of the global PEBs market, is expected to drive demand for pre-engineered steel buildings

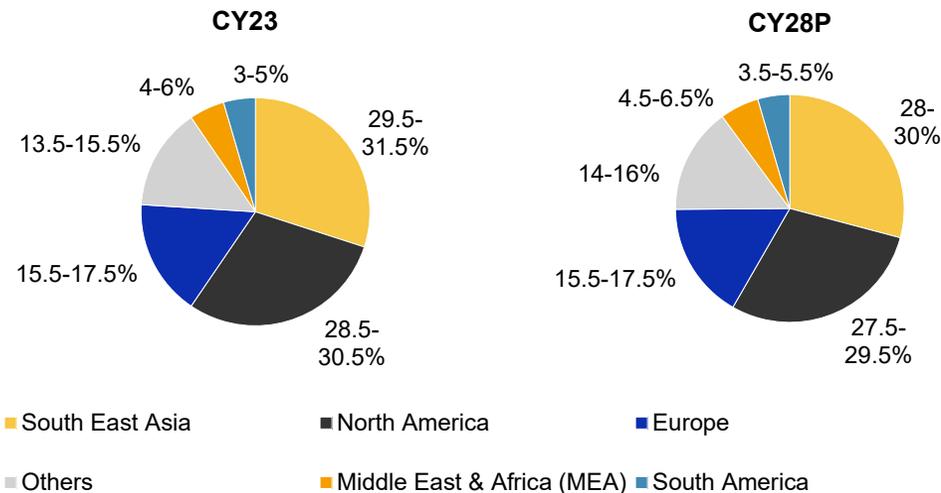

Increasing investments in public infrastructure, growing urbanisation and increasing awareness of benefits of pre-engineered construction vis-à-vis the traditional onsite model

Increasing awareness regarding modern off-site construction techniques as well as rising demand for green buildings globally

Key geographies in global pre-engineered steel building in CY23 and CY2028P

As of 2023, South-East Asia region had the largest share of pre-engineered steel building at 29.5-31.5%, followed by North America at 28.5-30.5%

Key Factors

Rapid industrialisation, urbanisation and the high adoption rate of advanced construction practices

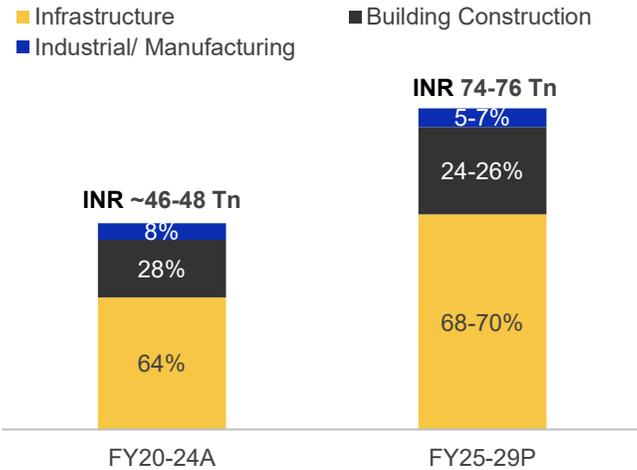

Tourism and e-commerce sectors are expected to boost demand for commercial and industrial structures such as warehouses, restaurants, hotels, etc.

Indian Construction Sector – Overview

Breakup of the Domestic Construction Sector

Growth Drivers

Increased Urbanisation

- ✓ Increased demand for affordable housing
- ✓ Better public infrastructure connectivity

Smart City Mission

- ✓ Smart Cities Mission to develop 100 smart cities across India

Growing Investments in Renewable Energy

- ✓ Surge in the construction of solar & wind power projects

Increased Spending on Warehousing

- ✓ Rapid growth of the e-commerce sector, leading to a surge in demand for efficient warehousing & cold storage facilities

Favourable Government Initiatives

- ✓ Various initiatives have led to an increase in capex investments

Major Government Initiatives

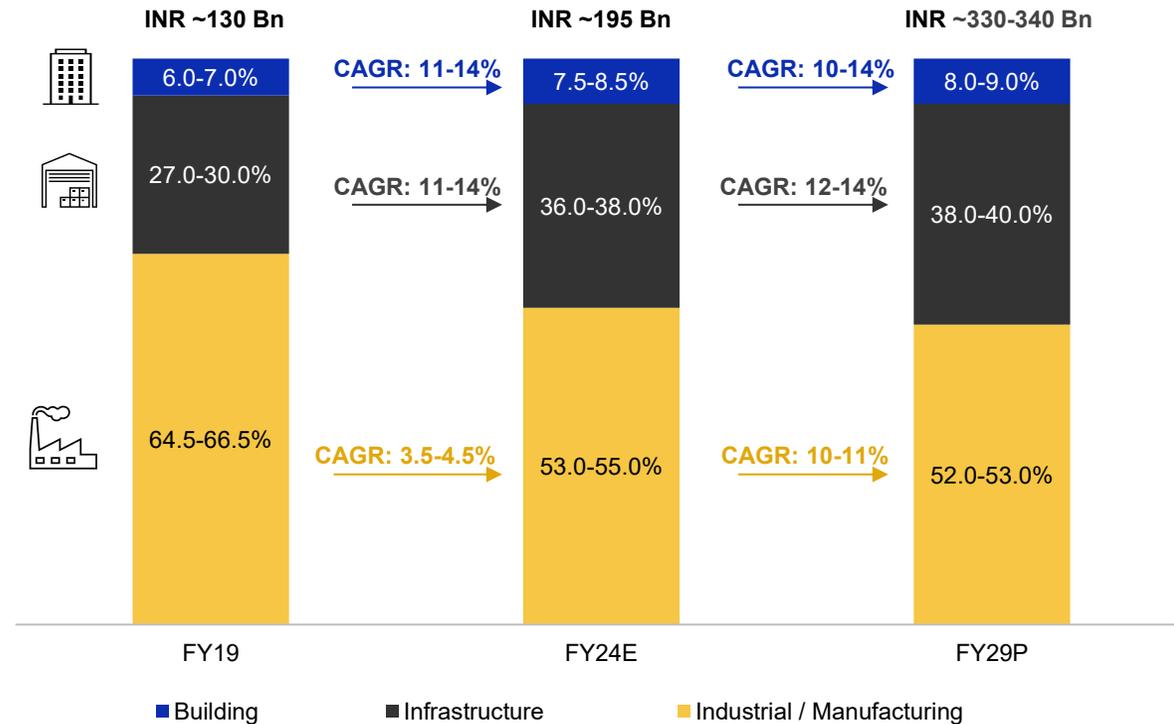

Initiative	Overview
PLI SCHEME	<ul style="list-style-type: none"> ✓ Boost domestic manufacturing, attract investments and enhance exports by offering incentives ✓ Financial limits of INR 1.97 Tn for implementation across 14 sectors ✓ The scheme will also provide a fillip to the Industrial sector
NATIONAL STEEL POLICY	<ul style="list-style-type: none"> ✓ Aims to increase per capita steel consumption to 160 kgs by 2030 ✓ Aims to boost steel consumption in infrastructure sector and is expected to positively impact PEBs
NIP	<ul style="list-style-type: none"> ✓ Projected infrastructure investment of around INR 111 Tn over FY20-25 ✓ 9,288 projects with a total investment of more than INR 108 Tn

Initiative	Overview
PRADHAN MANTRI AWAS YOJANA - URBAN (PMAY-U)	<ul style="list-style-type: none"> ✓ Housing for all initiative with fast-paced execution of ~0.95 Mn units in FY24
ATMANIRBHAR BHARAT ABHIYAN	<ul style="list-style-type: none"> ✓ Strong emphasis on infrastructure development, including roads, highways, bridges, airports and urban projects
URBAN INFRA PROJECTS	<ul style="list-style-type: none"> ✓ Strong growth due to urban infra such as AMRUT, Smart Cities Mission and the implementation of metro projects
SAGARMALA	<ul style="list-style-type: none"> ✓ 839 projects at an estimated cost of ~INR 5.8 Tn have been identified to promote port-led development
BHARATMALA PARIYOJANA	<ul style="list-style-type: none"> ✓ 34,800 km of National Highway Length planned for Phase 1, with 76% awarded for construction and INR 4.23 Tn spent till Dec 23

India's Pre-engineered Steel Buildings Market – Overview

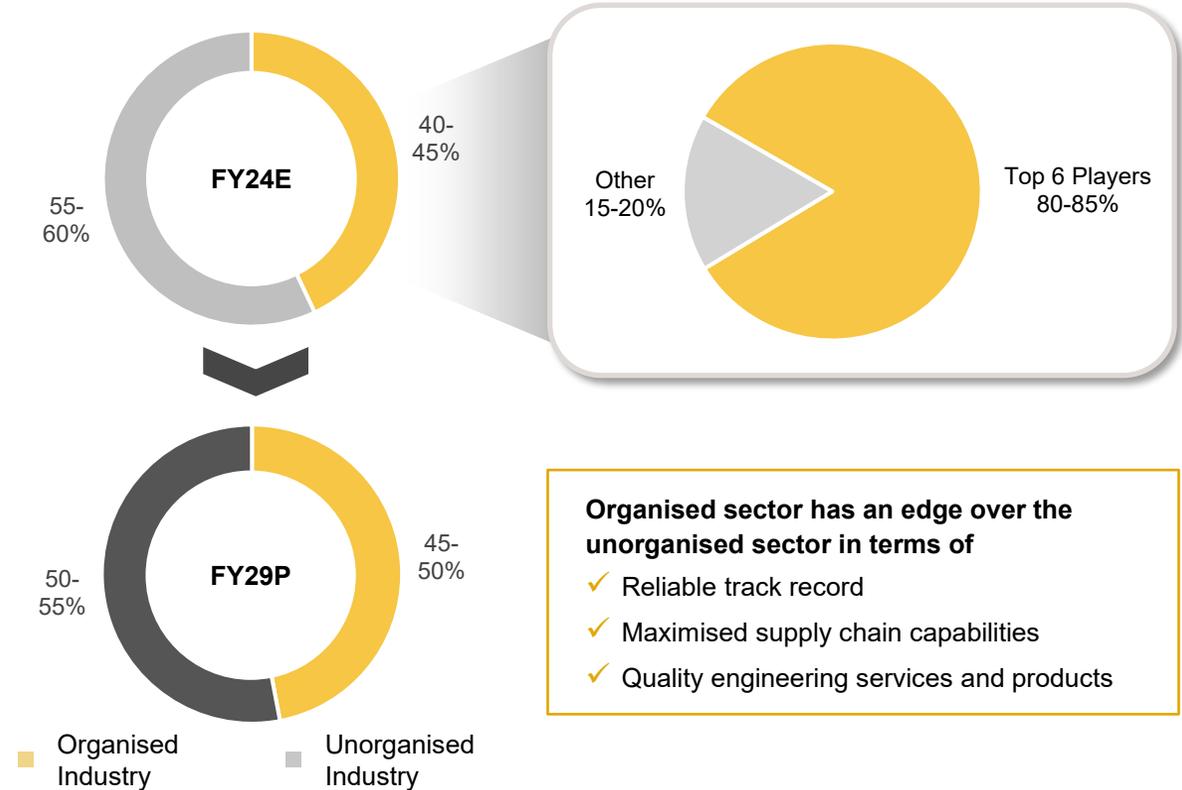

Pre-engineered Steel Building Industry in India

- ✓ The industrial sector's share in the PEB market is led by higher penetration in the automobile, cement and oil & gas markets amongst others
- ✓ Infrastructure segment is growing at a faster rate led by increased adoption of PEBs in warehouses, cold storage facilities and data centers, power plants, aircraft hangers and railway yards
- ✓ The growth in the building sector share will be led by growing adoption of pre-engineered steel buildings

Organised Sector Remains Superior to Unorganised Sector

Organised sector has an edge over the unorganised sector in terms of

- ✓ Reliable track record
- ✓ Maximised supply chain capabilities
- ✓ Quality engineering services and products

✓ **Large, organised players grow at faster clip than overall pre-engineered steel building industry**

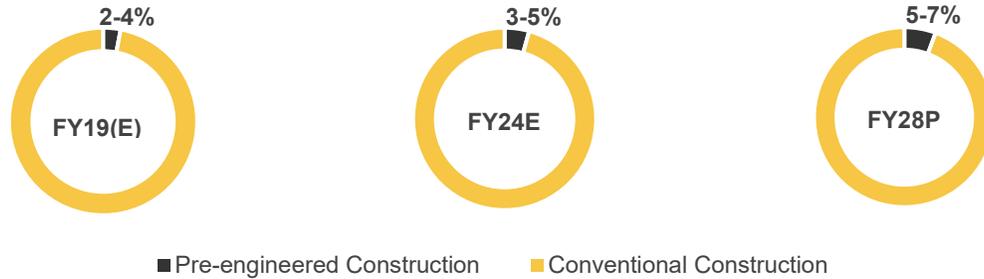

India's Pre-engineered Steel Buildings Market – Growth Drivers

Low share of pre-engineered construction in overall construction indicates high growth potential

Share of pre-engineered construction in overall construction

Low share of PEBs in India combined with the increasing awareness of benefits of pre-engineered buildings over RCC, provides a substantial growth potential

Shift from RCC to PEB due to growing awareness of pre-engineered structures

- ✓ Helps in expediting the project timelines and more sustainable due to less wastage
- ✓ Expected to serve as a catalyst for the growth of pre-engineered structures in the construction industry

INDUSTRIAL

- Inclusion of the PLI scheme in the capex investments
- Increasing popularity of green and sustainable buildings
- Construction investments in Industrial, Oil & Gas sectors

Increasing popularity of green and sustainable buildings

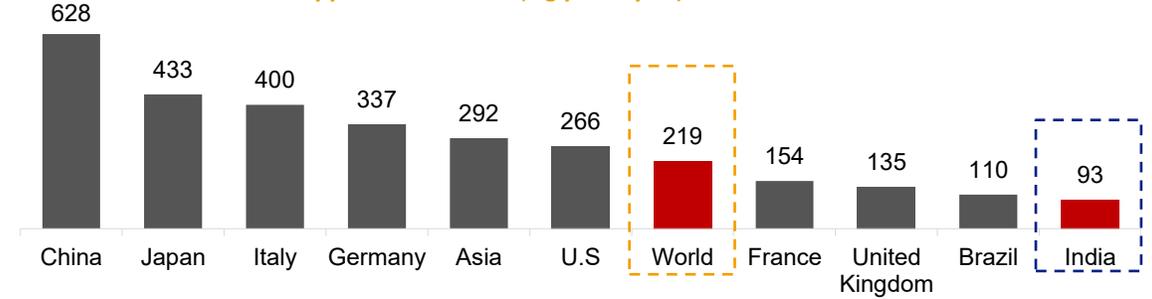

- ✓ PEBs support deconstruction and reconstruction, enabling the building components to be reused or recycled
- ✓ Growing shift of logistics players towards green logistics

INFRASTRUCTURE

- Growing demand from warehouses and cold storage
- Increase in the demand of data centres India
- Growing focus on renewable energy capacity additions

Low steel consumption in India

Apparent steel use (Kg per capita) for CY23

Domestically Manufactured Iron & Steel Products (DMI&SP) policy for promoting Made in India steel for Government procurement

Rise in government-led innovative construction projects

- ✓ Policy & regulatory factors will play a crucial role in shaping the demand, growth and adoption of prefabrication and pre-engineering in the construction sector

BUILDING

- Low share of pre-engineered construction in building construction (residential + commercial + non-commercial)
- Increasing awareness of PEBs in India
- Rise in government-led innovative construction projects

Pre-engineered Steel Buildings – Advantages and Cost Savings

Advantages of Pre-engineered Steel Buildings over Traditional Construction

TECHNICAL DIFFICULTIES AND SHORTAGE OF LABOUR IN TRADITIONAL CONSTRUCTION

- ✓ Majority of the construction is done in controlled factory environments, reducing the need for on-site labour
- ✓ Achieves economies of scale with improved manufacturing

MORE SUSTAINABLE

- ✓ Causes less disturbance to the construction site's surroundings
- ✓ Reduces the carbon footprint due to standardised processes and streamlined procedures

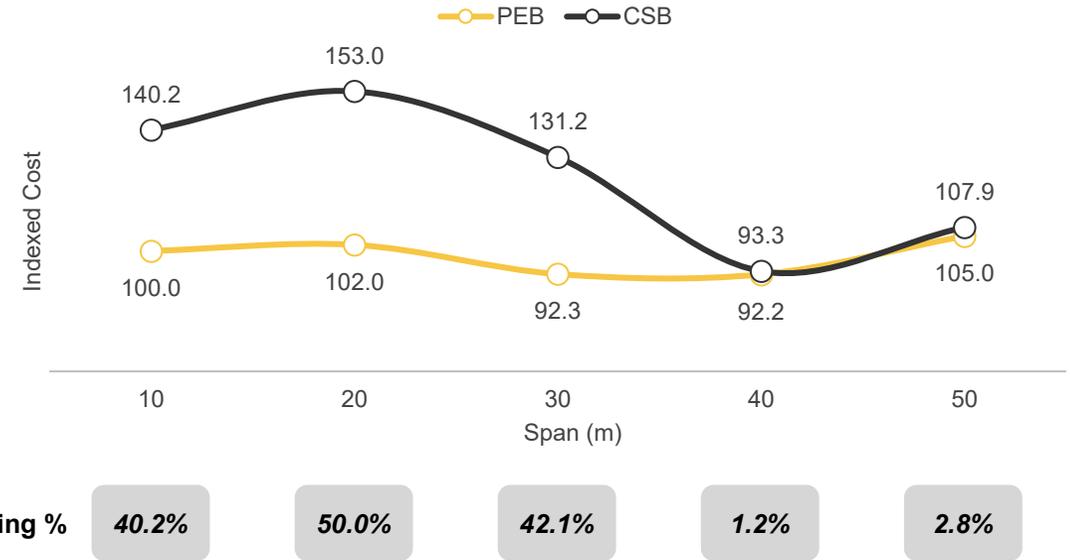

FASTER CONSTRUCTION TIMELINES & COST OPTIMISATION

- ✓ Allows simultaneous preparation of the foundation at the construction site
- ✓ Helps accelerate project timelines and allows cost optimisation

Cost Saving

- ✓ Cost-saving advantages of PEB increases as the span of the structure increases till an inflection point, after which cost savings diminish

- ✓ Significant inflection point at 50m span, where the cost-saving benefit of PEB diminishes considerably, offering only marginal savings of approximately 2.8% compared to conventional steel structures

Low share of pre-engineered buildings in India combined with the increasing of awareness of benefits & cost savings in pre-engineered buildings over RCC, provides a substantial growth potential of pre-engineered buildings in India

Comparison Between RCC and Pre-engineered Steel Construction

Parameter	Traditional RCC Construction	Pre-engineered Steel Construction
 MAJOR COMPONENT	✓ Concrete and reinforced steel bars	✓ Steel and metal accessories
 RAW MATERIALS USED	✓ Cement, steel, sand, bricks, etc	✓ Steel, anchors, channels, coils etc
 CONSTRUCTION LOCATION	✓ Completely on site	✓ Manufactured in controlled environments such as factories, only assembling of structures happens onsite.
 CONSTRUCTION TIME	✓ Takes more construction time than PEB construction	✓ 40%-50% lesser time than RCC as majority of components are manufactured in a controlled environment and only assembling of parts takes place on site
 MANPOWER	✓ Demands a substantial workforce since the entire construction process, including moulding and shaping concrete, occurs on-site	✓ Approximately 25% lesser than the conventional method as only assembling of the final structure happens on site
 APPLICATIONS	✓ Residential as well as industrial; even infrastructural	✓ Largely industrial and warehouse or shed requirements at infrastructure setup
 EFFECT ON ENVIRONMENT	✓ More adverse environmental impact owing to the generation of significant waste and landfill mass during on-site construction activities	✓ Owing to the streamlined nature of construction, it minimises its environmental footprint by minimising wastage, less air pollution
 MODIFICATIONS	✓ Challenges in modifications once the concrete has hardened, making alterations complex & costly	✓ Offers flexibility as modifications involve changing the assembly of prefabricated components, adjusting to make it more manageable & cost-effective
 COST EFFICIENCY	✓ highly labour-intensive work in an uncontrolled environment, which makes it more costly than PEB structures	✓ Comparatively lighter, requires less material, needs shorter construction time, less labour on-site, contributing to lower cost

Growth Strategies

Capitalize on industry tailwinds, including through proposed expansion and upgradation of our Manufacturing Facilities

- The industry growing at a 11.0-12.0% CAGR between FY24-29
- Government policies to create a technologically advanced & globally competitive steel industry
- Upgradation of Kichha Manufacturing Facility, Pantnagar Manufacturing Facility and Tamil Nadu Manufacturing Facilities
- Proposes to set-up planned Gujarat Manufacturing Facility

Expanding geographical footprint to cater to strategic markets in India and overseas

- Enhance manufacturing presence in South, Eastern India and Western India
- Expanding sales & marketing team, including to service customers in Maharashtra
- Expanding sales & marketing network to Central & West Asia, South East Asia & Africa
- Continue to evaluate strategic partnerships in India and Overseas

Expand customer base and increase sales to existing customers

- Strong existing customer relationships helping to generate Repeat Orders
- Continuous efforts to increase sales, marketing and business development teams
- Focus on customers engaged in electric vehicle manufacturing, renewable power & data centre
- Foray into multi-storey and heavy steel structures plant with groundbreaking of new plant at Athivaram, Andhra Pradesh.

Continue to invest in our technology infrastructure to enhance in-house design and engineering and manufacturing capabilities and thereby improve operational efficiencies

- Continue to invest in technology infrastructure
- Identify opportunities to implement manufacturing improvements & dedicate design & engineering resources
- Continues investment in design & engineering capabilities. As of October 2025, we have in-house design and engineering team of **155+ qualified structural design engineers and detailers**
