Commenting on the FY26 performance, Swapnil Shah, Managing Director, Senores Pharmaceuticals Limited said,

“We have delivered a robust performance across segments in FY26, driven by operational discipline, consistent execution, and strong momentum in key growth areas despite an uncertain operating environment.

In the Regulated Markets, our approved ANDA portfolio has more than doubled during the year, increasing from 26 ANDAs as of March 2025 to 51 ANDAs as of March 2026, reflecting the scale and pace of our execution. Out of these, 30 approved ANDAs are yet to be commercialized. Additionally, we have 27 more molecules, involving 65+ unique strengths, at different stages of development. This gives us a strong pipeline of products which are expected to be rolled out over the coming years.

We have expanded our manufacturing footprint and product portfolio through acquisition of Apnar Pharmaceuticals. The acquisition enhances scalability, deepens access to Regulated Markets, enables accelerated product launches, improves operating leverage, margins, and expands CDMO-CMO opportunities, positioning Senores for sustained growth. We have commenced product rollouts from the Apnar facility, with initial revenues starting in Q4FY26. While contributions are currently modest, we expect the facility to scale meaningfully and emerge as a key growth driver over the next 12–18 months.

In Q3FY26, we acquired Zoraya Pharmaceuticals as a step-down subsidiary to strengthen our U.S. marketing and distribution capabilities, enabling direct commercialization of strategic pharmaceutical products in the market.

In April 2026, we entered into a joint venture, Amerisyn, marking a key milestone for our U.S. operations and enabling entry into the high-entry-barrier U.S. government procurement market, including federal, veterans affairs, and military supply programs.

Our Emerging Markets business is on a steady trajectory as well. With the shift towards niche products, we are now at mid teens EBITDA Margin. Importantly, the Emerging Markets business is now cash flow positive.

All in all, we continue to outperform on our stated commitments despite an uncertain environment, reflecting the strength of our long-term strategy, diversified business verticals and disciplined execution. We remain confident in sustaining this momentum in the years ahead, led by robust product pipeline, expanded manufacturing capacities, and a strengthened R&D infrastructure.”
