These initiatives continue to improve operational efficiency, customer experience, and scalability.

Management Commentary

Commenting on the performance, Mr. Nipun Gupta, Managing Director of Nukleus Office Solutions Limited, said:

“FY26 marked an important phase of growth and consolidation for Nukleus Office Solutions as we continued to scale our workspace portfolio and strengthen our presence across key commercial hubs. During the year, Total Income increased by 25.49% YoY to ₹3,619.41 Lakhs, while EBITDA grew by 38.12% YoY to ₹917.34 Lakhs, reflecting improved operating leverage and execution efficiencies. Profit After Tax for FY26 stood at ₹213.53 Lakhs.

Our performance during H2 FY26 remained encouraging, with Total Income rising by 30.12% YoY to ₹1,888.35 Lakhs and EBITDA increasing by 35.16% YoY to ₹507.87 Lakhs. This growth was primarily supported by healthy occupancy trends, increasing demand for managed office solutions, and expansion across flexible workspace formats.

During the year, Fixed assets grew by 160.71% YoY to ₹3,525.36 Lakhs, driven by continued investments in workspace infrastructure, technology platforms, and managed office expansion initiatives aimed at strengthening long-term operational capabilities.

India’s office real estate market continues to benefit from strong enterprise demand, GCC(Global Capability Centers) expansion, and the growing adoption of hybrid work models. In this environment, we believe our asset-light business model, diversified workspace offerings, and technology-led operational approach position us well to capture emerging opportunities in the sector.

As we move ahead, our focus remains on scaling enterprise-led managed office solutions, improving operational productivity, expanding into strategic micro-markets, and enhancing customer experience through technology integration. Nearly a year after listing on the BSE SME platform, we believe Nukleus is steadily strengthening its operational and financial foundation while remaining well-positioned to capitalize on long-term opportunities in the evolving flexible workspace industry.”
