Introduction to Travel Food Services Ltd. (TFS)

Message from Managing Director & CEO

VARUN KAPUR

Managing Director and CEO

Dear Stakeholders,

“FY26 has been a landmark year for TFS - our first full year as a listed company that has been marked by strong financial performance, with system-wide sales growing 25.4% YoY and adjusted consolidated PAT growing 21.5% YoY. We continued to demonstrate our operational resilience, delivering steady performance despite the near-term challenges seen in Q4FY26.

Crossing 550+ outlets, expanding to 20 airports, deepening our brand portfolio to 145 brands, and progressing on our EATS technology platform, reflect the breadth of our execution and the directions in which TFS is growing. Operations at Cochin and Delhi Airports are scaling up well, Navi Mumbai is seeing the opening of new concepts, and we remain excited about our upcoming units at Noida Airport ahead of its commercial launch.

The near-term environment carries its share of headwinds - the Middle East conflict, firming input costs, and temporary traffic disruptions have added some volatility. We are watching these developments carefully, navigating them with discipline, and responding with the operational execution that has defined our journey. Our conviction in India's long-term aviation growth story is unchanged. With a growing network, a strong brand portfolio, and new revenue streams taking shape, TFS enters this next phase from a position of strength.”

1. TFS system-wide numbers are based on TFS' system-wide presence covering TFS, its subsidiaries, associates and joint ventures; 2. LFL sales growth refers to growth in revenues generated in the equivalent period of the fiscal year for Travel QSR and Lounge outlets opened for at least 12 months. Revenues in respect of closed outlets (other than temporary closures) are excluded from the calculation. LFL sales growth is calculated as revenue from Travel QSR and Lounge services in a fiscal year minus revenue from Travel QSR and Lounge outlets opened for less than 12 months, divided by the revenue from Travel QSR and Lounge services from the previous period minus the Revenue from Travel QSR and Lounge outlets that were closed during the equivalent period in the previous fiscal year. LFL calculations exclude revenues from management and other services; 3. Net Contract Gains represent revenue in outlets of the Company and its Subsidiaries/JVs/Associates open for less than 12 months. Prior period revenues for closed outlets are excluded from LFL sales and classified as contract losses. Net Contract Gains are contract gains less contract losses; 4.
