Management Commentary

Commenting on the performance Mr. Sanjay Sharma MD and Co-Founder said :

“FY26 was a year of gradual but consistent recovery for India’s MSME sector. While the operating environment remained choppy in the first half, we witnessed a progressive improvement in business activity, stronger cash flows, and a revival in credit demand from micro-enterprises as the year advanced.

Against this backdrop, we delivered healthy growth in our business. Assets Under Management increased by 27% year-on-year to Rs. 7,044 Crores, while disbursements grew by 20% to Rs. 5,169 Crores for the year ended March 31, 2026. This performance was driven by strengthened underwriting frameworks, and deeper integration of data and technology into credit assessment, portfolio monitoring and robust collection focus.

These improvements have also translated into tangible outcomes on portfolio quality. We witnessed a steady strengthening in collections, with Non-OD Collection Efficiency improving to 99.5% in March 2026, highest in the financial year. In parallel, we saw a visible improvement in key asset quality indicators, with GNPA improving quarter-on-quarter to 4.77% as of March 2026, and PAR X standing at 6.88%. This highlights the effectiveness of our disciplined credit approach, tighter underwriting standards, and enhanced on-ground execution capabilities.

FY26 also marked a significant milestone for us with the successful completion of our IPO in February 2026, through which we raised Rs. 710 Crores of primary. This capital infusion has further strengthened our balance sheet and positions us well to expand our reach within India’s large and underpenetrated micro-enterprise ecosystem.

The Company reported its fifth consecutive quarter of decline in credit costs in Q4. Return on Assets (RoA) improved to 4.6%, while Return on Equity (RoE) stood at 16.0% for the quarter, post capital infusion.

Overall, FY26 reinforces the resilience of our business model and our ability to grow responsibly while maintaining a strong focus on asset quality. With a well-diversified presence, improving portfolio quality coupled with a stronger balance sheet and enhanced team capacity built this year, we believe we are well positioned to deliver sustainable and responsible growth in FY27 and beyond.”

Efficiency Drivers – Mortgage Business

Longer tenor brings AUM stability and enhanced long term profitability

Between FY24 and FY26, Company has deployed 1,020 dedicated staff in “Primary ML Channel” in 180 branches

Calibrated expansion of ML business

(Rs. Crores)

Upsell team – 100 staff deployed in FY26 in 100 branches

The team would be responsible to upsell ML loans to eligible repeat customers from HL portfolio

As ML AUM per branch grows the effect on OER will reduce, improving profitability

Efficiency Drivers – Repeat Business

Repeat program ensures retention of good customers with low origination cost

Repeat loan use Machine Learning models to target quality customers

Tele calling drives repeat conversion without use of field sales

In Q4FY26, per month per Tele-caller productivity was Rs. 1.85 Crores.

Repeat enhances the lifetime customer value

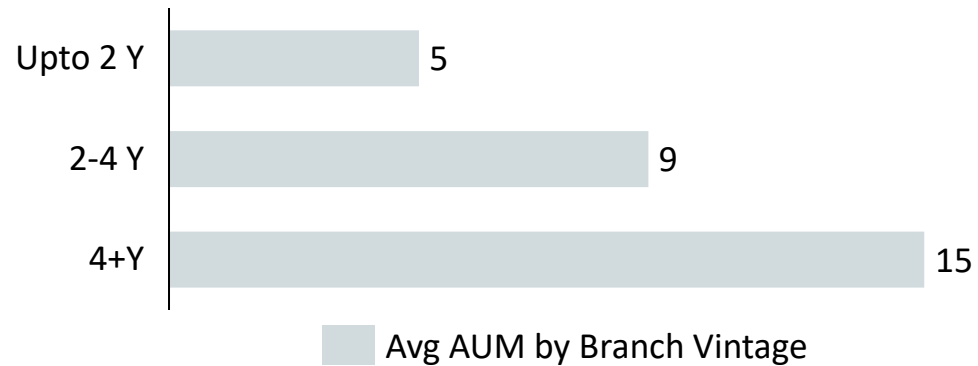

Avg Foreclosure rate for FY26 annualized 4.33%

Opportunity to Upsell Mortgage Loan to HL customers

Efficiency Drivers – Branch Network

AUM Growth is driven by deepening branch portfolios

(Rs. Crores)

AUM growth has limited dependency on branch expansion

Contribution to growth in AUM (Mar-25 to Mar-26)

- Existing Branch
- New Branch
- Repeat

Company has not opened new branches in FY26. However, 44 existing branches have been split
