## CHAIRMAN'S MESSAGE

Distinguished Shareholders,

### India's Growth Story – Unique in Scale and Spirit

It is my great privilege and honour to welcome you all to your Company's 55<sup>th</sup> Annual General Meeting. In a rapidly shifting and unpredictable global environment, marked by geopolitical conflicts, shifting trade regimes, and economic turbulence, India has taken a firm and visionary stand to chart its own unique path with unique scale and spirit, prioritising the welfare of its farmers, MSMEs, homeless, and youth towards becoming a 'Viksit Bharat' by 2047.

Today, we are not only the fastest-growing major economy in the world, but are also steadily progressing towards becoming the third-largest economy globally and realising our collective aspiration of being a developed nation by 2047. India's growth story is not merely about numbers; it is about uplifting over a billion lives, respecting our cultural ethos, and balancing tradition with innovation. Our evolution is being watched closely by the world - not just for its velocity, but for its values.

### HUDCO aligned with the National Ethos: Driving Inclusive, Sustainable and Compassionate Growth

In sync with India's growth story, I am delighted to say that HUDCO proudly echoes this national spirit. Allow me to draw upon the timeless wisdom of the Bhagavad Gita, which continues to guide our mission at HUDCO. 'Nishkama Karma' reminds us to serve not for applause, but for impact, 'Svadharmā' grounds us in our purpose: financing housing and infrastructure for the underserved. As custodians of public trust, we move forward with 'dharma', '*buddhi*', and 'shanti' - building not just structures, but an inclusive and future-ready India. *Inclusivity, sustainability, and compassion towards the underserved form the bedrock of our strategy and operations.* As Mahatma Gandhi rightly reminded us, "The true test of development is whether it reaches the last person." These timeless words continue to inspire our work across geographies and sectors. Whether through financing critical urban infrastructure, enabling affordable housing, or supporting climate-resilient solutions - we are driven by a singular aim: to empower communities and transform lives.

**The year gone by has been one of focused execution and meaningful impact.** The year 2024-25 unfolded in a **challenging macroeconomic environment** with global economic uncertainties, affecting investor sentiment and capital flows. Despite these headwinds, HUDCO stayed resilient and maintained its focus on impact-driven infrastructure financing. We have delivered strong performance across key indicators - from robust all time high sanctions & disbursements to improved asset

quality, enhanced operational efficiency and getting permission to issue 54EC Capital Gain Bonds and Zero-Coupon Bonds. Our expanding footprint in infrastructure financing and our growing partnerships with state governments and urban local bodies are a testament to our evolving role as a catalyst for inclusive growth.

### Macroeconomic Overview

India continues to remain the fastest-growing major economy in the world with an estimated real GDP growth rate of 6.50% in the Financial Year 2024-25, despite several external headwinds amidst geopolitical and policy uncertainties. This is built on a foundation of undeniable strengths - world's youngest and largest democracy having huge demographic dividend, strong macroeconomic fundamentals, resilient financial institutions, robust infrastructure pipeline and government's continued push for ease of doing business, infrastructure expansion, and social sector reforms. Overall, the retail inflation rate remained moderate to steady during the year broadly in tandem with the global trend. The Reserve Bank of India (RBI) remained vigilant on the inflation front and gradually moderated its monetary policy stance based on the evolving inflation situation from 'withdrawal of accommodation' to 'neutral' thereafter to 'accommodative' with gradual reduction in the policy repo rate from 6.50% prevalent since February, 2023 to 6% in April, 2025 and finally to 5.50% in June, 2025, thereby signalling the onset of softer interest rate regime.

The growth momentum is likely to continue at a steady and confident pace with real GDP growth projection for Financial Year 2025-26 at 6.50% by the RBI and 6.40% by the IMF, reaffirming India's position as the world's fastest-growing major economy as against the global growth outlook of 3% in 2025. The buoyancy of the Indian economy across sectors has also reflected in stock markets scaling new highs backed by investors' confidence, and emerging technological advancements.

### Sectoral Environment and Government Policy Initiatives

India's urbanization trajectory has been steadily rising - from around 34%-36% today, towards the 50% mark by 2050. As the cities grow rapidly, so also the requirements of infrastructure services, with over 50% of the urban infrastructure required for 2050 still to be built. As per the recent World Bank report (2025), India would need an investment of \$2.4 trillion by 2050 to meet the urban infrastructure requirement of an estimated population of 951 million in cities.

The Government of India continues to focus on housing and urban development sectors with a slew of measures announced in the Union Budget 2025-26. The Government has launched several transformative initiatives to catalyze urban development, most notably the Rs. 1 lakh Crore Urban Challenge Fund (UCF). This initiative seeks to foster 'Cities as Growth Hubs' through innovative urban redevelopment, improved water and sanitation services, and greater private sector participation. An allocation of Rs. 10,000 Crore towards this has been proposed for Financial Year 2025-26. The UCF will finance up to 25% of eligible, bankable urban projects, thereby encouraging Urban Local Bodies (ULBs) to raise the balance through municipal bonds, bank loans, and Public-Private Partnerships (PPPs).

Building on the previous Budget proposals, urban sector reforms related to governance, municipal services, urban land, and planning will be incentivized. The Union Budget's continued thrust on infrastructure investment with focus on each Infrastructure-related Ministry to come up with a 3-year pipeline of PPP infra projects would accelerate the pace of infrastructure development in the country. The addition of new infrastructure sectors such as shipping, marine, hotels in tourism sector, etc. to the Harmonized Master List of Infrastructure (HML) would expand the investment opportunities in those sectors. The Jal Jeevan Mission (JJM) has been extended until 2028 with an enhanced total outlay to achieve 100% coverage. Top 50 tourist destination sites in the country will be developed in partnership with states through a challenge mode. Further, the Union Budget 2025-26 announcement of SWAMIH FUND-2 (Special Window for Affordable and Mid-Income Housing), as a blended finance facility with contribution from the Government, banks, and private investors of Rs. 15,000 Crore for completion of 1 Lakh housing units would help growth of housing sector.

In addition, the affordable housing sector would continue to be a focus area of the Govt. of India with the PM Awas Yojana-Urban 2.0 targeting the housing needs of 1 Crore urban poor and middle-class families through an investment of Rs. 10 Lakh Crore and central assistance of Rs. 2.30 Lakh Crore over the next five years. Additionally, two crore more houses will be constructed under PM Awas Yojana in rural areas. Further, rental housing for industrial workers will be facilitated through PPP mode with Viability Gap Finding (VGF) support.

Given the substantial financing requirements for the housing and urban development sectors, your Company can play an enabling role in financing infrastructure and housing projects on competitive terms, while also providing consultancy and capacity-building support to various stakeholders.

### Strategic Policy Initiatives for Growth Acceleration

Growth does not happen by chance - it is the result of deliberate, forward-looking internal policies that guide a Company's operations, risk management, and innovation. Continuing our efforts for revamping operations through a range of policy initiatives, several strategic initiatives were undertaken during the year for HUDCO's sustained growth acceleration with greater efficiency, transparency, and responsiveness to market needs. Some of the key initiatives include:

- **Registration as “NBFC – Infrastructure Finance Company” and receipt of much- awaited status of “Navratna”**– which will pave the way for new opportunities, enhancing capabilities in resource mobilization, business generation and profitability.
- **Amending Memorandum of Association (MoA)** to address the evolving needs of Infrastructure sector;
- **Goal setting, improved project monitoring, and prioritizing loan disbursements-** We have undertaken a comprehensive revamp of our project management framework, with a strong emphasis on goal setting and enhanced project monitoring. Key initiatives include the revision of guidelines and procedures aimed at reducing project Turnaround Time (TAT), and the introduction of new products and quarterly target-setting to drive accountability and performance. A major area of focus has been the timely conversion of last year’s sanctions into loan disbursements, with a strategic push to achieve significant disbursements within the first two quarters of the current year.
- **Review of Policies across all verticals and domains** - In our continued pursuit of excellence and alignment with industry best practices, a comprehensive review of our core processes and policies was undertaken. This included key areas such as borrowing and lending strategies, human resource policies, corporate social responsibility (CSR) initiatives, consultancy, capacity building and asset monetization frameworks.
- **Integrated IT systems** like e-Office and ERP, with an objective to enhance connectivity, business outreach and move towards paperless office.

- **Driving Cost Efficiency** - in our pursuit of financial efficiency, we adopted a prudent mix of borrowings from both domestic and international markets, balancing long-term and short-term instruments. Long-term borrowings were timed strategically to capitalize on favourable market conditions, while short-term funds addressed temporary liquidity needs. This approach significantly reduced our borrowing costs, strengthened financial stability, and enhanced our competitive edge in lending. Coupled with robust recovery strategies and vigilant credit monitoring that kept credit costs at nil, these efforts have resulted in overall cost optimization and greater value creation for our stakeholders.
- **Diversification of Resource base** - As we expand our asset base, diversifying our resource base is essential to meet rising borrowing needs. Multiple funding avenues are evaluated based on Asset-Liability Management (ALM) alignment and cost efficiency. This strategy not only mitigates market-specific risks but also enables us to raise resources at competitive rates, enhancing financial flexibility and supporting sustainable growth.
- **Talent Acquisition for a Future-Ready Workforce** with the recruitment of 66 professionals at induction and lateral level having diverse skill sets and multidisciplinary domain knowledge to cater to the needs of emerging business scenario. As part of employee development and engagement, your Company undertook regular training interventions.
- **Sectoral Expansion through expanding into new sectors** by financing energy-transition project, green financing, etc. Further, we have deepened our operational reach and engagement through a partnership-driven approach by strengthening collaborations with state governments, urban local bodies, and private players under PPP models. Your Company participated actively in central schemes such as PMAY, AMRUT 2.0, Jal Jeevan Mission and Smart Cities Mission, which is a direct contribution to the Vision of ‘Viksit Bharat.’
- **PPP Engagements & exploring opportunities in private lending space** – by engaging with knowledge partner and industry experts for framing robust, market-oriented policy framework.
- **Commitment to ESG and Sustainable Development** through Board approved Environmental, Social & Governance (ESG) Policy framework of the Company during the Financial Year 2024-25, which is in line with HUDCO’s Vision and Mission statements that recognize the importance of sustainable development and responsible corporate citizenship.
- **Enhancing investor confidence** has remained a key priority, driven by consistent efforts to improve transparency and engagement. We institutionalized quarterly earnings calls, engaged regularly with key domestic and international investors, and participated in investor conferences across various locations. These initiatives have strengthened investor trust, reflected in the sustained rise in our market capitalization.

These strategic policy initiatives have collectively enabled HUDCO to achieve remarkable operational and financial performance during the year, positioning the Company strongly for future growth and value creation.

### Charting the Future: Our Collective Commitment

As we move forward, we do so with humility for the responsibilities entrusted to us and with determination to play a pivotal role in India's developmental journey. Let us continue to work together- shareholders, employees, partners, and stakeholders- to shape a future that is inclusive, resilient, sustainable, and reflective of the true spirit of our great nation.

#### (i) Growth Outlook and Government's Vision:

- India stands at the cusp of a historic transformation. With the vision of Viksit Bharat @2047, we are moving purposefully toward becoming a developed nation and a \$30 trillion economy. Various Reports project the huge urban infrastructure investment requirement in the range of Rs. 200 trillion to Rs. 490 trillion by 2047. The Government of India's emphasis on infrastructure-led growth-reflected in a record capital expenditure of Rs. 11.11 Lakh Crore in Union Budget 2024-25 has created enormous opportunity and responsibility to sustain growth momentum.
- The Union Budget 2025-26 outlines transformative reforms across six key domains, including Urban Development. Recognizing investment in people, economy, and innovation as growth drivers, it boosts funding for schemes like PMAY 2.0 and Jal Jeevan Mission. Urban reforms in governance, municipal services, land, and planning will be incentivized. Notably, the proposed Urban Challenge Fund offers HUDCO fresh opportunities in financing, consultancy, and capacity building.
- HUDCO, as leading NBFC-IFC, is strategically aligned with this national vision. We have set an ambitious target to provide over Rs. 3 lakh Crore in infrastructure finance by 2030. This will be our core contribution to realizing the bold aspirations of New India. From affordable housing to clean energy, from urban mobility to rural water access, HUDCO is already powering India's future.

#### (ii) HUDCO's Envisaged Role in GoI Missions:

- **PMAY 2.0: Housing the Aspirations of Viksit Bharat:** Housing is the first and most fundamental building block of a developed nation and HUDCO has been at the epicentre of housing development in the country, especially reaching the 'Unreached' poor by providing affordable financing. Carrying the same spirit of PMAY 1.0, HUDCO is committed to supplement in a major way in the PMAY 2.0, aimed at delivering 1 Crore homes to the urban poor and middle class by 2029, through long-term affordable financing, acting as central nodal agency, consultancy, and capacity building activities. With an estimated Rs. 10 Lakh Crore investment plan and Rs. 2.30 Lakh Crore in central subsidies, this program underscores our commitment to inclusive urban growth.
- **Urban Mobility & Transit Modernization:** India is now the third-largest metro network globally, with over 1,000 km of operational metro lines across 23 cities. A dedicated outlay of Rs. 34,807 Crore in Financial Year 2025-26 for metro expansion, RRTS lines, and electric buses highlights the priority. HUDCO envisages to continue supporting these projects with low-cost, long-term financing, helping modernize our cities and cut urban emissions.
- **'Har Ghar Jal' by 2028 (Water for All):** HUDCO plans to continue supporting the Jal Jeevan Mission, which now has its highest-ever allocation of Rs. 67,000 Crore. Financing climate-resilient rural water infrastructure, ensuring every household has safe, reliable drinking water-fulfilling a basic right and driving public health forward, is also one of the envisaged goals of HUDCO.
- **Catalyzing India's Clean Energy Future:** With over Rs. 20,000 Crore being invested in solar parks, Rs. 600 Crore in green hydrogen, and significant allocations to EVs and solar pumps, HUDCO is well-positioned to be a key driver of India's green transition. We aim to finance critical 'green economy' projects to help meet India's targets of 500 GW renewable energy and carbon neutrality by 2070.
- **Urban Rejuvenation through UCF:** The Urban Challenge Fund (UCF) of Rs.1 Lakh Crore to implement the proposals for 'Cities as Growth Hubs', 'Creative Redevelopment of Cities' and 'Water and Sanitation' announced in the Union Budget 2025-26 with a Rs. 10,000 Crore outlay in Financial Year 2025-26 will be a fertile ground for HUDCO's expertise in technical advisory, capacity building, and innovative financing for urban transformation.
- **Strategic Expansion into Ports, Aviation & Logistics:** With the Government allocating Rs. 7,350 Crore for ports and waterways and Rs. 5,000 Crore for civil aviation, HUDCO is well-placed to support multimodal logistics and economic connectivity. We have already taken a major leap forward by signing an MoU with Vadhavan Port Project Ltd. for one of the country's largest port developments a Rs. 76,220 Crore greenfield mega port in Maharashtra, thereby demonstrating our readiness to lead high-impact public-private partnerships.

**(iii) Opportunities in Sunrise Sectors:**

- As promoting and implementing 'circular economy' principles within business practices is gaining ground, there is a greater need to mainstream circular economic principle into business model through holistic approach. HUDCO has been promoting construction of energy-efficient / environment-friendly buildings in the projects funded by it and it would explore providing consultancy/technical support along with financing circular economy projects.
- By consciously integrating the needs of the 'orange economy', characterised by creativity, culture, heritage and tourism into its project planning be it affordable housing for artists or heritage-sensitive urban design HUDCO would explore bridging India's civilizational legacy with its futuristic aspirations. While the 'orange economy' thrives on ideas and expression, it cannot exist without physical infrastructure the cultural spaces, community zones, heritage precincts, and urban amenities where creativity is nurtured and shared. This is where HUDCO plays a transformational role through its Consultancy Services.
- HUDCO also plans to focus on providing financial assistance to 'yellow economy' projects for sustainable development of desert regions of our country as a special category of its project financing norms. The projects could include: renewable energy (solar), water resource management, desert tourism and other infrastructure projects in desert areas.

**(iv) Silver Economy: Elderly Care**

- By 2050, over 19% of Indians will be aged 60+ (nearly 32 Crore people). As families are becoming nuclear, elderly care is now more dependent on formal systems. HUDCO is poised to play an enabling role, such as financing senior-friendly townships with healthcare and mobility access; supporting retrofitting of public infrastructure (e.g., barrier-free buildings); and collaborating with state urban bodies to create elderly wellness centers.

**(v) Business Development: Scaling New Heights**

- To support the evolving landscape, HUDCO would continue to actively explore new business avenues. In doing so, we are creating the physical and social foundations for a prosperous, safe, inclusive, compassionate, and sustainable Bharat. As our urbanization continues to grow requiring sustainable and habitable cities, I am committed to make HUDCO available for fulfilling the requirements in the housing and infrastructure space to realize the goal of 'Viksit Bharat by 2047'.

The Government of India's extensive infrastructure capital expenditure plan, encompassing numerous flagship programs, is central to this ambition. HUDCO, having secured NBFC-IFC status and setting an ambitious target to provide over Rs.3 Lakh Crore in infrastructure financing by 2030, is strategically positioned to be a primary catalyst in this infrastructure-led transformation. HUDCO's long-term affordable financing, innovative funding solutions, technical advisory, capacity building, and commitment to sustainable development will be instrumental in realizing India's future.

### **HUDCO's Key Contributions to National Development:**

HUDCO will be instrumental in the PMAY 2.0 initiative to build 1 Crore homes for urban poor and middle-class families over the next five years, effective September 1, 2024. In the coming years, HUDCO is poised to play a transformative role in expanding India's urban mobility by financing and supporting the development of advanced Mass Rapid Transit Systems (MRTS), including new metro corridors, Regional Rapid Transit Systems, and electric bus networks—ensuring sustainable, efficient, and inclusive urban transportation as Indian cities grow and modernize. The Government of India's commitment to urban transit is clearly demonstrated by the achievement of over 1,000 km of operational metro rail spanning 23 cities by 2025, making India the world's third-largest metro network. With a substantial allocation of Rs. 34,807 Crore in Financial Year 2025-26 for new metro corridors, RRTS lines, and electric bus integration, HUDCO is expected to extend long-term, low-cost financing and refinance support to state metro corporations and urban transport agencies, playing a crucial role in ensuring timely completion of these transformative projects across India.

HUDCO will be assisting to drive India's mission of 'Har Ghar Nal Se Jal' to provide rural tap water access by 2028, leveraging its position as an NBFC-IFC to deliver affordable financing and solutions for water infrastructure. With the Government of India allocating Rs. 67,000 Crore to the Jal Jeevan Mission in Financial Year 2025-26 the highest-ever annual outlay—HUDCO will play a pivotal role by supporting advanced, climate-resilient water supply projects and empowering local implementation, thereby securing safe, reliable drinking water for every rural household, advancing nationwide health and prosperity, and strengthening India's development trajectory.

With India investing over Rs. 20,000 Crore in solar parks and rooftop solar, Rs. 600 Crore in the National Green Hydrogen Mission (Financial Year 2025-26), Rs. 4,000 Crore in EV infrastructure, and Rs. 2,600 Crore in PM-KUSUM for agricultural solarization, HUDCO is positioned to accelerate India's green energy and carbon net zero targets. By providing long-term, affordable financing for solar, hydrogen, electric mobility, transmission upgrades, and decentralized renewable energy—including support for 500GW renewable power by 2030, 5MMTPA green hydrogen production, 72,000 EV charging stations, and widespread deployment of solar pumps—HUDCO will enable large-scale clean energy adoption and infrastructure modernization. This catalytic role will power sustainable growth, climate leadership, and inclusive prosperity as India advances toward a resilient, low-carbon future.

HUDCO continues its vital role in urban revitalization and cleanliness. The AMRUT program, with a Rs. 10,000 Crore allocation in Financial Year 2025-26, underscores commitment to urban water, sanitation, and infrastructure. The Smart Cities Mission is in its completion phase with over 99% of its Rs. 47,652 Crore central outlay released. HUDCO will support further lending and technical assistance in AMRUT and operational Smart City projects, and directly partner with state/city corporations for co-development. Furthermore, HUDCO will be critical for the new Urban Challenge Fund (UCF), launched in Financial Year 2025-26 with a Rs. 10,000 Crore allocation under MoHUA, by providing financing, technical advisory, capacity building, and innovative funding solutions. With the Government of India allocating Rs. 7,350 Crore for ports, shipping, and waterways, and Rs. 5,000 Crore for civil aviation infrastructure in Financial Year 2025-26, HUDCO's financial expertise will be vital in mobilizing long-term, affordable funding and offering technical support for these critical connectivity projects—strengthening India's logistics and transport networks, enhancing economic competitiveness, and playing a key role in the nation's rise as a global economic powerhouse.

HUDCO will be fundamentally shaping India's future as a key enabler of the Viksit Bharat vision, driving progress in clean energy, universal sanitation, public health, and carbon-zero growth. Its pivotal support for renewable energy, comprehensive sanitation, and resilient health infrastructure accelerates India's carbon-neutral journey, boosts quality of life, and delivers the foundations for a healthy, climate-smart, and globally competitive nation equipped for the challenges and opportunities of the 21<sup>st</sup> century.

## BUSINESS DEVELOPMENT

India's vision to become a developed nation by 2047 ('Viksit Bharat') calls for holistic development encompassing economic growth, social progress and sustainability. In this context, infrastructure plays a pivotal role and the Government of India has recognized the same and has significantly increased capital expenditure on infrastructure with a record allocation of Rs. 11.11 lakh Crore in the Union Budget for Financial Year 2024–25 representing a 5x increase over the last decade. It is estimated that infrastructure investments worth Rs. 150 lakh Crore will be required to achieve the target of a USD 7 trillion economy by 2030 with the significant investments coming from private sector.

In this evolving landscape, HUDCO's role is increasingly critical in supporting long-term infrastructure development. Backed by a stable & high-performing portfolio, HUDCO is now actively exploring new business avenues and product offerings to drive sustained growth. While the current lending portfolio is largely dominated by government-backed exposures, HUDCO's strong financial foundation demonstrated by an industry's one of the best Provisional Coverage Ratio (PCR) of 87% and a Capital to Risk-Weighted Asset Ratio (CRAR) of 57% as of Financial Year 2024 places it in an excellent position to expand into private and public-private sector infrastructure financing. A balanced portfolio mix and optimized risk-based pricing strategy may also improve overall Net Interest Margin (NIM).

Recognizing the strategic potential of this opportunity, the Board of Directors accorded in-principle approval on 7<sup>th</sup> February 2025 to explore infrastructure financing in the private and public-private partnership (PPP) projects focusing on Real Estate, Roads, Energy Transition, Seaports and Airports sectors. HUDCO has also initiated the development of key policy frameworks for loan processing including guidelines for entity and project appraisal, rating modules and project monitoring mechanisms.

In a major step forward, HUDCO signed a Memorandum of Understanding (MoU) with Vadhavan Port Project Limited (VPPL) for the development of an all-weather greenfield deep-draft major port at Vadhavan, in Palghar district of Maharashtra. The Vadhavan Port project, with an estimated cost of Rs. 76,220 Crore is one of the largest infrastructures planned in the country. Under the MoU, HUDCO is expected to provide financial assistance of up to Rs. 25,000 Crore which is approximately one-third of the total project cost. This partnership showcases HUDCO's readiness to play a leading role in large-scale infrastructure development. It also demonstrates the organization's capacity to leverage its financial strengths and policy-driven approach in catalyzing growth through public-private collaboration.

## MANAGEMENT DISCUSSIONS & ANALYSIS REPORT

### 1. INDUSTRY STRUCTURE AND DEVELOPMENTS

As per the Second Advance Estimates (SAE) released by the National Statistical Office (NSO), the Indian economy is estimated to achieve a GDP growth of 6.5 per cent in Financial Year 2025, marginally higher than the 6.4% growth estimated earlier. This growth was achieved despite several external headwinds amidst geopolitical and policy uncertainties. Overall, the retail inflation rate remained moderate to steady during the year broadly in tandem with the global trend. The Reserve Bank of India (RBI) remained vigilant on the inflation front and gradually moderated its monetary policy stance based on the evolving inflation situation from 'withdrawal of accommodation' to 'neutral' thereafter to 'accommodative' and finally to 'neutral' again in the June 2025 monetary policy statement. The RBI started its softer interest rate regime by gradually reducing the policy repo rate from 6.50% prevalent since February, 2023 to 6.25% in February, 2025, further to 6% in April, 2025 and finally to 5.50% in June, 2025. The series of rate cuts have had a total policy rate reduction of 100 basis points since February, 2025.

The Government of India has launched several transformative initiatives to catalyze urban development, most notably the Rs. 1 Lakh Crore Urban Challenge Fund (UCF). An allocation of Rs. 10,000 Crore towards this has been proposed for Financial Year 2025-26. This initiative seeks to foster 'Cities as Growth Hubs' through innovative urban redevelopment, improved water and sanitation services, and greater private sector participation. The UCF will finance up to 25% of eligible, bankable urban projects, thereby encouraging Urban Local Bodies (ULBs) to raise the balance through municipal bonds, bank loans, and Public-Private Partnerships (PPPs). In alignment with these national priorities, HUDCO is poised to play a pivotal role across the urban infrastructure value chain, offering comprehensive support to ULBs from project conceptualization to implementation. This includes the preparation of Detailed Project Reports (DPRs.), conducting financial viability assessments, and structuring blended finance packages—integrating HUDCO loans with additional financing instruments. Recognizing the unique challenges faced by smaller municipalities, HUDCO is placing special emphasis on Tier-2 and Tier-3 cities through dedicated handholding and technical assistance. To this end, a Technical Assistance (TA) Fund has been created to support project design, institutional development, and policy advisory services.

To further streamline project financing, HUDCO is in the process of operationalizing an 'Urban Invest Window'—a single-point interface to help ULBs navigate the financing landscape, particularly in accessing long-term co-funding under flagship government schemes such as PMAY-U, Atal Mission for Rejuvenation and Urban Transformation 2.0

*Kamarajar Manimandapam, Puducherry*

(AMRUT 2.0), Swachh Bharat Mission 2.0 (SBM 2.0), HUDCO is also promoting the adoption of geospatial tools to support asset mapping, infrastructure planning, and evidence-based governance. These efforts are in line with the Government's National Geospatial Mission, which aims to modernize / digitize land records and improve spatial data accuracy for better urban planning

Building on the previous Budget proposals, urban sector reforms related to governance, municipal services, urban land, and planning will be incentivized. The Union Budget's continued thrust on infrastructure investment with focus on each Infrastructure-related Ministry to come up with a 3-year pipeline of PPP infra projects would accelerate the pace of infrastructure development in the country. The addition of new infrastructure sectors such as Shipping, Marine, Hotels in Tourism sector, etc. to the Harmonized Master List of Infrastructure (HML) would expand the investment opportunities in those sectors. Jal Jeevan Mission has been extended until 2028 with an enhanced total outlay to achieve 100% coverage. Top 50 tourist destination sites in the country will be developed in partnership with states through a challenge mode.

Further, the Union Budget 2025-26 announcement of SWAMIH FUND-2 (Special Window for Affordable and Mid-Income Housing), as a blended finance facility with contribution from the Government, banks and private investors of Rs. 15,000 Crore for completion of 1 Lakh housing units would help growth of housing sector.

## 2. STRENGTHS AND WEAKNESSES

A series of developments since 2024 has established HUDCO on a solid footing. HUDCO was conferred 'Navratna' status in April, 2024. Thereafter, HUDCO was granted NBFC-IFC (Infrastructure Finance Company) status by RBI in August, 2024 in the new RBI regulatory framework.

**Leveraging Capital Market Instruments for Cost-Effective Financing** - In April, 2025, HUDCO has been permitted by the Government of India to mobilize resources through 54EC Capital Gain Bonds and Zero-Coupon Bonds, which intends to leverage strategically to mobilize low-cost funding. These instruments are expected to strengthen HUDCO's competitiveness by reducing the average cost of funds, thus enhancing its ability to finance infrastructure projects more effectively.

For resource mobilization, HUDCO has employed a judicious mix of domestic and international resources to keep its cost of borrowing in control. All these developments have significantly enhanced HUDCO's business potential throughout the housing and infrastructure domain as an important player. HUDCO has also established its presence in international markets through JPY-denominated Samurai bond issuances, marking a significant step towards diversifying its funding portfolio and accessing offshore capital markets. This initiative has not only broadened the investor base but also provided a hedge against domestic liquidity constraints.

**Expanding Lending Horizons and Risk Diversification** - In line with its strategy to diversify lending operations and mitigate concentration risk, HUDCO has opened a dedicated window for private sector projects, especially those in PPP mode or backed by dedicated and regulated cash flow mechanisms, such as Hybrid Annuity Model (HAM) projects. This approach enhances project bankability while ensuring sustainable revenue streams.

Furthermore, HUDCO remains committed to extending its outreach through last-mile financial connectivity to underserved and remote regions, ensuring equitable access to development finance across the country.

The Company has established a well-developed network of client base consisting of various state government agencies and its parastatals such as Development Authorities, Housing Boards, Urban Local Bodies, Water Supply, Sewerage Boards, Roads & Bridges Development Corporations, etc. with its PAN-India presence through its 21 regional offices and 11 development offices. Further, HUDCO has been entering into MoUs with various agencies to augment its client base and business. HUDCO has a human resource base of multidisciplinary professionals from various fields covering Finance, Law, Architecture, Civil Engineering, Urban and Regional Planning, Information Technology, Economics, Human Resources and Public Relations, Social Science, etc. The Human resource base has also been strengthened recently through recruitment of professionals at various levels. HUDCO has its own Training & Research Institute, the Human Settlement Management Institute (HSMI), for research activities as well as training & capacity building of in-house and outside professionals of the habitat sector.

Some of the key weaknesses being faced by the Company include: inadequate access to low-cost sources of funds; restrictions in exposure/credit concentration norms; and difficulties in getting State Government guarantee/budgetary support, which pose challenges for expansion of business. To mitigate the same, HUDCO has opened a dedicated window for private sector projects which will help to expand lending horizons and diversification of risks.

### 3. OPPORTUNITIES, THREATS, RISKS AND CONCERNS

In the recent past, HUDCO's image has got a significant boost owing to the factors like grant of 'Navratna' status, NBFC-IFC status and permission to float 54EC bonds. 'Navratna' status has already granted autonomy to HUDCO in various ways. The Company's status as a NBFC- IFC will allow HUDCO greater diversification, whereby it would be able to extend long-term financial assistance to viable infrastructure projects. The permission to float 54EC Bonds and Zero-Coupon Bonds would enable HUDCO to reduce its cost of borrowing and thus improve margin and profitability. The overall sectoral and macro environment also presents HUDCO with huge business opportunities given huge shortage of physical infrastructure and consequent fund requirements housing and infrastructure sectors. Thus, HUDCO has a great role to play in the Government's vision of 'Viksit Bharat.' However, there are many players in the market like banks and Financial Institutions (FIs) who offer competition to HUDCO. Banks have an edge over HUDCO in terms of cheap resource availability from CASA deposits which helps them offer very competitive interest rates to the borrowers and to maintain better margins.

### 4. SEGMENT-WISE OR PRODUCT-WISE PERFORMANCE

During the year under review, HUDCO operates only in one segment and has no other reportable segment, hence, segment wise performance, has not been given.

### 5. OUTLOOK

The global economic outlook is swaying with uncertainties. The recent trade tariff related measures emanating from USA have unleashed fresh headwinds triggering strong fluctuations in the stock market indices, posing fresh challenges to global growth and inflation. The government is vigilant and seized of the situation. The RBI has already given a monetary policy boost to the system by reducing the policy repo rate by a total 100 basis points – 25 basis points each time in February and April, 2025 and 50 basis points more in June, 2025 monetary policy statement. With the June, 2025 monetary policy statement, the Central Bank has switched to 'neutral' stance again and stated that future course of monetary policy would be determined on the basis of incoming data and evolving outlook. The combined effect of the series of policy rate reductions is likely to improve the investment climate and loan off-take.

**Capacity Building: Enabling a Future-Ready Ecosystem** - In recognition of the rapidly evolving landscape of infrastructure and housing, HUDCO has placed strong emphasis on capacity building - both internally and across the broader sector. HUDCO continues to invest in upskilling and reskilling its workforce to stay abreast of emerging trends, technologies, and regulatory frameworks. This ongoing learning framework is designed to equip HUDCO professionals to deliver high-impact, forward-looking solutions in a dynamic operating environment.

At the sectoral level, HUDCO contributes significantly through its training and research wing, the Human Settlement Management Institute (HSMI). HSMI conducts capacity building programs, knowledge dissemination workshops, and technical training for ULB officials, housing agencies, and sector professionals. These programs aim to enhance institutional capabilities in urban planning, housing finance, municipal governance, and infrastructure project management, thereby contributing to the professionalization of the sector and improved project outcomes.

This dual-pronged approach to capacity development reinforces HUDCO's role not just as a financier, but as a knowledge partner and thought leader in India's housing and infrastructure sectors.

With rapid urbanization and thrust on infrastructure-led economic growth in India entailing huge capital expenditure requirement, HUDCO is geared to finance the full spectrum of required infrastructure projects in the country including the affordable housing projects. Further, option to issue capital gain bonds would enhance HUDCO's lending capability. HUDCO's new status of NBFC-IFC (Infrastructure Finance Company) in the new RBI regulatory framework, would go a long way for a quantum jump in its business operations. HUDCO is fully geared up to extend financial assistance in terms of counter-part funding to states and urban local bodies as well as extending consultancy and capacity building support for housing and infrastructure projects. The top priorities include:

- enhance HUDCO's participation in flagship missions of the Government of India such as PMAY 2.0 (where 1 Crore houses are to be constructed in the next five years for urban poor and middle-class families with an estimated investment of Rs. 10 Lakh Crore), Atal Mission for Rejuvenation and Urban Transformation 2.0 (AMRUT 2.0), Swachh Bharat Mission 2.0 (SBM 2.0), Jal Jeevan Mission, Urban Challenge Fund (of Rs. 1 Lakh Crore for Water supply, sewage treatment and solid waste management projects and services for 100 large cities), etc. through its core verticals of Financing, Consultancy, and Training;

- funding Health/ Social Infrastructure Projects such as Health Centres, Government Hospitals, and Medical Colleges, as State Governments require significant funds to expand their healthcare infrastructure;
- prioritize funding Urban Metro Rail projects in major cities, as the Government is keen to expand the metro network and is seeking external participation for such projects;
- aligning with the country's net zero goals, HUDCO is poised to contribute to 'green economy' sectors such as green buildings, sustainable transport, water, waste management, land management, and renewable energy;
- enhanced funding for 'Blue Economy' sectors such as ports, shipyards, Sagarmala projects, and related infrastructure.

Notably, it executed a pioneering climate finance transaction certified under ICMA's Green Loan Principles, marking a significant step in sustainable financing. HUDCO encourages the adoption of energy-efficient technologies and green building practices in housing and infrastructure projects, supporting India's commitments under the Paris Agreement.</p> <p>Through HUDCO's Human Settlement Management Institute (HSMI), it conducts training, research, and policy advocacy on sustainable habitat development, resilience, and smart cities.</p> <p>The Company's commitment to social goals also reflected in its Corporate Social Responsibility (CSR) activities, which focus on environmental conservation, health, education, and livelihood enhancement. HUDCO, being an energy conscious organization, has taken various initiatives in the direction of energy conservation on a continuous basis.</p> <p>Towards commitment to governance goals, the Company has set high standards of corporate governance with 'Code of Business Conduct and Ethics'; Fair Practice Code; highest standards of IT security, cybersecurity, and data privacy; and fair, uniform and universal disclosure and dissemination.</p> <p>HUDCO integrates Environmental, Social, and Governance (ESG) principles into its operations by supporting climate-resilient infrastructure, affordable housing for vulnerable populations, and responsible urban planning that prioritizes sustainability and equity. The Company has put in place its ESG Policy with an aim to contribute its share to sustainable development and responsible corporate citizenship.</p> <p>However, ESG related challenges remain, particularly when it comes to integrating and reporting on Environmental, Social, and Governance (ESG) factors due to issues such as: data measurement and reporting with limited availability of robust mechanisms for tracking and measuring environmental metrics like GHG emissions, water usage, and waste generation, particularly for a financing Company; multiple audits and oversight by auditing and oversight bodies creating a complex compliance environment which may divert focus from proactive ESG integration; and absence of a single, comprehensive codified law specifically addressing all ESG-related matters in India, which can create ambiguities. Therefore, for more effective ESG compliance, there is a need for developing more standardized ESG metrics and reporting frameworks as well as giving greater autonomy for CPSEs in their ESG journey. By addressing these challenges, CPSEs can not only meet regulatory requirements but also enhance their reputation, attract conscious investors, improve operational efficiency, and contribute more effectively to India's sustainable development goals by 2030 as well as Net Zero goal by 2070.</p> |    |    |    |    |                                                                          |    |    |    |  |

| E-waste                        | In HUDCO, a process is being followed for the Disposal of IT hardware and related items. Upon identification, items deemed obsolete, unserviceable, or beyond repair (damaged) are firstly declared as unusable/unserviceable with the approval of the competent authority. Subsequently, bids or quotations are invited for disposal of said items—either through the Government e-Marketplace (GeM) or from the open market, depending on the Written Down Value (WDV) of the items. In cases where the disposal materials are non-recyclable (desktops/laptops/printers, etc.) or hazardous (damaged batteries, etc.), the process involves obtaining an e-Waste Disposal Certificate from hired e-waste vendor or recycler, in compliance with environmental and safety regulations. |
| Hazardous waste                | Not Applicable - Company being NBFC does not produce any hazardous waste.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| Other Waste                    | HUDCO has a guideline for disposal and weeding out of old files, records, documents and other scrap material like plastics, iron etc. In accordance with those guidelines, committee is constituted at different levels (depending on the amount/WDV of unusable/old assets to be sold off). Waste upto the extent of Rs. 50,000/- on each occasion is sold to any local buyer/vendor on limited quotation basis (normally not less than three) with the approval of the Competent Authority.                                                                                                                                                                                                                                                                                            |

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N)  
If yes, name of the external agency.

Yes, HUDCO has under taken reasonable assurance for BRSR Core parameters from M/s Mehta & Mehta

5. Has the Company implemented a mechanism for Zero Liquid Discharge? If yes, provide details of its coverage and implementation.

HUDCO is a NBFC-IFC, water discharge is very minimal, however HUDCO Corporate office have zero water discharge, as water is being supplied by India Habitat Centre, which have proper rain water harvesting system along with sewerage treatment plant (compact STP). The effluent is put to captive use to reduce the demand of fresh water for horticulture, cooling tower, cleaning etc.

**Criteria:** The criteria used by the company to prepare the Identified Sustainability Information is summarized in **ANNEXURE 1:**

### Intended use or purpose

- selecting or developing suitable criteria for preparing the Assured Sustainability Information and appropriately referring to or describing the criteria; and
- preparing the Assured Sustainability Information in accordance with the Applicable Criteria.

Those charged with governance are responsible for overseeing the reporting process for the Company's Assured Sustainability Information.

### Exclusions

Our assurance scope excludes the following, and therefore we do not express a conclusion on the same:

- Operations of the Company other than those mentioned in the "Scope of Assurance"
- Aspects of the BRSR and the data/information (qualitative or quantitative) other than the Identified Sustainability Information.

- Data and information outside the defined reporting period
- The statements that describe expression of opinion, belief, aspiration, expectation, aim, or future intentions provided by the Company.
- Any other information included in the Company's Annual Report that is not covered under our reasonable assurance on BRSR Core attributes conclusion on the select BRSR attributes.

### Inherent Limitations

The preparation of the BRSR information requires the management to establish or interpret the criteria, make determinations about the relevancy of the information to be included, and make estimates and assumptions that affect the reported information.

Measurement of certain amounts and BRSR metrics, some of which are estimates, is subject to substantial inherent measurement uncertainty, for example, GHG emissions, water footprint, and energy footprint. Obtaining sufficient appropriate evidence to support our opinion/conclusion does not reduce the uncertainty in the amount and metrics.

### Our Responsibility

Our responsibility is to express a reasonable assurance conclusion on the Identified Sustainability Information based on the procedures we have performed and evidence we have obtained.

We conducted our engagement in accordance with the Standard on Sustainability Assurance Engagements (SSAE) 3000, "Assurance Engagements on Sustainability Information," issued by the Sustainability Reporting Standards Board of the Institute of Chartered Accountants of India. This standard requires that we plan and perform our engagement to obtain reasonable assurance about whether the Identified Sustainability Information is prepared, in all material respects, in accordance with the Reporting Criteria. A reasonable assurance engagement involves assessing the risks of material misstatement of the Identified Sustainability Information, whether due to fraud or error and responding to the assessed risks as necessary in the circumstances.

The procedures we performed were based on our professional judgment and included inquiries, observation of processes performed, inspection of documents, evaluating the appropriateness of quantification methods and reporting policies, analytical procedures, and agreeing or reconciling with underlying records.

### Summary of the work we performed as the basis for our opinion/conclusion

We exercised professional judgement and maintained professional and skepticism throughout the engagement. We designed and performed our procedures to obtain evidence that is sufficient and appropriate to provide a basis for our reasonable assurance opinion.

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our reasonable assurance opinion.

### Reasonable Assurance Opinion

In our opinion, the Housing and Urban Development Corporation Limited's Identified Sustainability Information in the Business Responsibility and Sustainability Reporting for the period 1<sup>st</sup> April, 2024 to 31<sup>st</sup> March, 2025, subject to reasonable assurance, is prepared, in all material respects, in accordance with Regulation 34(2)(f) of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015.

The nature, timing, and extent of the procedures selected depended on our judgement, including an assessment of the risks of material misstatement of the information subject to reasonable assurance, whether due to fraud or error. We identified and assessed the risks of material misstatement through understanding the information subject to reasonable assurance and the engagement circumstances. We also obtained an understanding of the internal control relevant to the information subject to reasonable assurance in order to design procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of internal controls. In carrying out our engagement, we:

- Assessed the suitability of the criteria used by the entity in preparing the reasonable assurance information;
- Evaluated the appropriateness of reporting policies, quantification methods, and models used in the preparation of the information subject to reasonable assurance and the reasonableness of estimates made by the entity;
- Evaluated the overall presentation of the information subject to reasonable assurance;
- Made inquiries of relevant staff at the corporate office responsible for the preparation of the information subject to reasonable assurance;
- Applied analytical procedures, as appropriate.

Our opinion is formed on the basis of our assessment of the criteria, policies, methods, and models used by the entity, as well as our evaluation of the overall presentation and our reliance on external information where applicable.

Further, our opinion is limitedly assured for disclosure given in BRSR for Energy Footprint, Water footprint Greenhouse gas (GHG) footprint and Embracing circularity - details related to waste management (Principle 6, Question 1, 3,4, 7 & 9 of Essential Indicators). The Company has provided the relevant disclosures for HUDCO Head Office, HSML, it's 21 Regional offices. We have been informed that the data for 11 Development Offices is not taken into account being negligible considering the size and scale of the operations and continuity of these offices is under review.

Accordingly, we accept no liability to anyone other than the company. Our Deliverables should not be used for any other purpose or by any person other than the addresses of our Deliverables. ## INDEPENDENT AUDITOR'S REPORT

### TO THE MEMBERS OF HOUSING AND URBAN DEVELOPMENT CORPORATION LIMITED

#### Report on the Audit of the Standalone Financial Statements

This revised Independent Auditor's Reports is being issued in supersession of our earlier Independent Auditor's Reports dated 7<sup>th</sup> May, 2025. The Revised Report is being issued in view of the observation, pointed out by the C&AG of India on our earlier reports. Further, we confirm that there is no change in the opinion as expressed earlier and also none of the figures have undergone any change in the financial statements of the company as at 31<sup>st</sup> March, 2025.

#### 1. Opinion:

We have audited the accompanying Standalone Financial Statements of Housing and Urban Development Corporation Limited ("the Company"), which comprise the Balance Sheet as at 31<sup>st</sup> March, 2025, the Statement of Profit and Loss (including other Comprehensive Income), the statement of changes in equity and the Statement of Cash Flow for the year then ended, and Notes to the Standalone financial statements including a summary of Material Accounting Policies and other explanatory information (hereinafter referred to as "the Standalone Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31<sup>st</sup> March, 2025, its profit (including other comprehensive income), changes in equity and its cash flows for the year ended on that date.

#### 2. Basis for Opinion:

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Companies Act, 2013.

Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Standalone Financial Statements' section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the standalone financial statements.

#### 3. Emphasis of Matter:

We draw attention to the following matter in the Para 3 of Note 41 to the Standalone financial statements:

1. The company has recognized interest income on "No lien AGP Account" amounting to Rs. 29.46 Crore for the year ended 31<sup>st</sup> March 2025 [Rs. 29.01 Crores for the previous year ended 31<sup>st</sup> March, 2024].

4. Our opinion is not modified in respect of these matters.

## **5. INFORMATION OTHER THAN THE STANDALONE FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON:**

The Company's Board of Directors are responsible for the other information. The other information comprises the Directors' report, Corporate Governance report, Business responsibility report and Management Discussion and Analysis etc. included in the Company's Annual Report, but does not include the standalone financial statements and our auditor's report thereon. The Annual report for the year ending 31<sup>st</sup> March 2025 is expected to be made available to us after the date of this auditor's report.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the other information, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate actions, if required.

## **6. Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements:**

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other Comprehensive income, Changes in Equity, and Cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian accounting Standards (Ind ASs) specified under Section 133 of the Act.

This responsibility also includes,

- maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities;
- selection and application of appropriate accounting policies;
- making judgments and estimates that are reasonable and prudent and
- design, implementation and maintenance of adequate internal financial controls, that were operating effectively,

for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Standalone Financial Statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Board of Directors either intend to liquidate the company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

## **7. Auditor's Responsibilities for the Audit of the Standalone Financial Statements:**

Our objectives are to obtain reasonable assurance about whether the Standalone Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with

SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Financial Statements.

As Part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of Internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to Standalone Financial Statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Standalone Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure, and content of the Standalone Financial Statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatement in the Standalone Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) Planning the scope of our audit work and in evaluating the results of our work: and (ii) to evaluate the effect of any identified misstatements in the Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our Independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our Auditor's Report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

## ANNEXURE “C” TO THE INDEPENDENT AUDITOR’S REPORT ON THE AUDIT OF STANDALONE FINANCIAL STATEMENTS

(Annexure referred to in paragraph 8 (C) (f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report of even date to the members of Housing and Urban Development Corporation Limited on the Standalone Financial Statements for the year ended 31<sup>st</sup> March, 2025)

**Report on the adequacy of Internal Financial Controls over financial reporting of the Company and the operating effectiveness of such controls, under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)**

We have audited the internal financial controls with reference to the Standalone financial statements of **HOUSING AND URBAN DEVELOPMENT CORPORATION LIMITED** (“the Company”) as of March 31, 2025 in conjunction with our audit of the Standalone Financial Statements of the Company for the year ended on that date.

### 01. Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on “the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India”. These include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

### 02. Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143 (10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the Standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

### 03. Meaning of Internal Financial Controls over Financial Reporting

A Company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the standalone financial statements.

#### 04. Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

#### 05. Qualified Opinion

According to the information and explanations given to us and based on our audit, the following deficiencies have been identified during the course of our audit for the year ended on March 31, 2025:

1. Few deficiencies were noted in the design and operating effectiveness of controls over core Loan Management System (LMS), including manual interventions in key reports, which needs to be strengthened.
2. In respect of entity-level controls and financial closure processes, there is an opportunity to enhance the effectiveness of certain procedures, particularly those related to cut-off, and the supervision and monitoring of information flow between regional offices, outsourced agencies, and the corporate office. Strengthening these areas would support more robust and timely financial reporting.

In our opinion, considering the nature of business, size of operation and organizational structure of the entity, except for the effects/possible effects of the deficiencies described above on the achievement of the objectives of the control criteria, the Company has maintained, in all material respects, adequate internal financial controls over financial reporting and such internal financial controls over financial reporting were operating effectively as of March 31<sup>st</sup>, 2025, based the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the 'Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India'.

We have considered the deficiencies identified and reported above in determining the nature, timing, and extent of audit tests applied in our audit of the March 31<sup>st</sup>, 2025 standalone financial statements of the Company, and these deficiencies does not affect our opinion on the standalone financial statements of the Company.

| <b>4.7</b> | <b>Revenue recognition</b> <p><b>4.7.1 Interest income</b></p> <p>Interest income is recognized on time proportion basis taking into account the amount outstanding and rate applicable. For financial assets measured at amortized cost, interest income is recorded using the effective interest rate (EIR), i.e. the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the net carrying amount of the financial assets and includes any fees or incremental costs that are incrementally directly attributable to the instrument and are an integral part of the EIR in line with Ind AS 109.</p> <p>Fees/ charges on loan assets, other than those considered an adjustment to EIR, are accounted for on accrual basis. Prepayment charges (premium) is accounted for by the Company in the year of receipt. The company has recognized any fees that are incrementally directly attributable to the loans on the basis of straight line basis co-terminus with the term of loan.</p> <p>Interest income in Non-Performing Assets and /or Stage 3 in Financial Assets is recognized only on cash/ receipt basis.</p> <p><b>4.7.2 Dividends</b></p> <p>Dividend Income is recognized when the Company's right to receive the payment is established.</p> <p><b>4.7.3 Rental income</b></p> <p>Rental income arising from operating leases on investment properties is accounted for on a straight-line basis over the lease terms unless the payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.</p> <p><b>4.7.4 Other Revenue</b></p> <p>Income from services rendered is recognised based on the terms of agreements/arrangements with reference to the stage of completion of contract at the reporting date. The Company recognizes revenue from contracts with customers based on the principle laid down in Ind AS 115 - Revenue from contracts with customers. Revenue from contract with customers is recognized to the extent it is probable that the economic benefits will flow to the Company and the revenue and costs, if applicable, can be measured reliably. Revenue is measured at the transaction price agreed under the Contract. Transaction Price excludes amounts collected on behalf of third parties (e.g., taxes collected on behalf of government) and includes/adjusted for variable consideration like rebates, discounts, only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur when the uncertainty associated with the variable consideration is subsequently resolved. Fee based income are recognized when they become measurable and when it is probable to expect their ultimate collection.</p> <p><b>4.7.5 Interest income on Investments</b></p> <p>Interest income from investments is recognised when it is certain that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable.</p> |

| 4.10 | <p><b>Property, Plant and Equipment (PPE) and Intangible assets</b></p> <p><b>Recognition</b></p> <p>PPE are initially recognized at cost. Cost of acquisition consists of purchase price or construction cost which is the amount paid and the fair value of any other consideration issued, if any, to acquire the asset and any cost directly attributable in bringing the asset to the location and condition necessary for it to be ready for its intended use.</p> <p>Advances paid towards the acquisition of PPE outstanding at each balance sheet date are disclosed separately under other non-financial assets.</p> <p><b>Subsequent Measurement</b></p> <p>The Company has adopted the cost model of subsequent recognition to measure the Property, Plant and Equipment. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss account when the asset is de-recognized.</p> <p><b>Intangible assets</b></p> <p>Intangible assets are initially measured at cost and any cost directly attributable in bringing the asset to the condition necessary for it to be ready for its intended use. An intangible asset is recognized only when its cost can be measured reliably and it is probable that the expected future economic benefits that are attributable to it will flow to the Company.</p> <p>They are subsequently measured at cost less accumulated amortisation and accumulated impairment loss, if any.</p> |

| 4.13 | <p><b>Leases</b></p> <p><b>(a) Company as a lessee</b></p> <p>i) The Company assesses at contract inception whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. The Company recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of use asset is initially measured at cost, which comprises the initial amount of lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct cost incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.</p> <p>ii) The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-to-use asset or the end of the lease term. The estimated useful life of the right-to-use asset is determined on the same basis as those of property, plant and equipment. In addition, the right-to-use asset is periodically reduced by impairment losses, if any, and adjusted for certain re-measurements of the lease liability.</p> <p>iii) The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate.</p> <p>iv) The lease liability is measured at amortized cost using the effective interest method, it is re-measured when there is a change in future lease payments from a change in an index or rate. When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in the profit and loss if the carrying amount of the right-of-use asset has been reduced to zero.</p> <p>v) The Company presents right-of-use asset that do not meet the definition of Investment property in the "Right of use assets" separately on the face of the Balance sheet and lease liabilities in "other financial liabilities" in the Balance Sheet.</p> <p>vi) Short term Lease and Leases of low value assets: -The Company has elected not to recognize right-of-use asset and lease liabilities for short term leases that have lease term of 12 months or less and leases of low value assets. The Company recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.</p> <p><b>b) As a lessor</b></p> <p>When the Company acts as a lessor, it determines at lease inception whether each lease is a finance lease or an operating lease. To classify each lease, the Company makes an overall assessment of whether the lease transfers substantially all the risk and rewards incidental to the</p> |

All financial assets and financial liabilities are recognised initially at fair value adjusted by transaction costs that are attributable to the acquisition or issue of the financial asset or financial liability except in the case of financial assets or financial liability recorded at fair value through profit or loss where the transaction cost are charged to profit and loss.</p> <p><b>Subsequent measurement</b></p> <p><b>a) Non-derivative financial instruments</b></p> <p><b>i) Financial assets carried at amortised cost</b></p> <p>A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.</p> <p><b>ii) Financial assets at fair value through other comprehensive income</b></p> <p>A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Further, in cases where the Company has made an irrevocable election based on its business model, for its investments which are classified as equity instruments other than which are held for trading and contingent consideration recognized by an acquirer in a business combination to which Ind AS 103 applies are classified as at FVTPL, the subsequent changes in fair value are recognized in other comprehensive income.</p> <p><b>iii) Financial assets at fair value through profit or loss</b></p> <p>A financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss. **v) Financial liabilities**

Financial liabilities are subsequently carried at amortised cost using the effective interest method except for derivative financial liabilities which are carried at FVTPL with gains or losses recognized in the statement of profit and loss. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate the fair value due to the short maturity of these instruments.

**b) Derivative financial instruments**

The Company holds various derivatives to mitigate the risk of changes in exchange rates on foreign currency exposures as well as interest fluctuations including foreign exchange forward contracts, currency and interest rate swaps etc. The counterparty for these contracts is generally a bank.

**Hedge accounting**

Under hedge accounting, an entity can designate derivative contracts either as cash flow hedge or fair value hedge. The Company designates certain derivative contracts as cash flow hedges.

To qualify for hedge accounting, the hedging relationship must meet all of the following requirements:

- There is an economic relationship between the hedged item and the hedging instrument.
- The effect of credit risk does not dominate the value changes that result from that economic relationship
- The hedge ratio of the hedging relationship is the same as that resulting from the quantities of:
  - the hedged item that the company usually hedges; and
  - the hedging instrument that the company usually uses to hedge that quantity of hedged item
- The hedging relationship consists only of eligible hedging instruments and eligible hedged items
- At the inception of the hedging relationship there is formal designation and documentation of the hedging relationship and the entity's risk management objective and strategy for undertaking the hedge and its hedge effectiveness

**Cash flow hedge**

The hedging instruments which meets the qualifying criteria for hedge accounting are designated as cash flow hedge. The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognised in Other Comprehensive Income. The change in intrinsic value of hedging instruments is recognised in 'Effective Portion of Cash Flow Hedges'. The amounts recognized in such reserve are reclassified to the Statement of Profit or Loss when the hedged item affects profit or loss. Further, the change in fair value of the time value of a hedging instruments is recognised in 'Cost of Hedging Reserve'. The amounts recognised in such reserve are amortised to the Statement of Profit and Loss on a systematic basis. The gain or loss relating to ineffective portion is recognised immediately in Statement of Profit and Loss.

**Fair value hedge**

In line with the recognition of change in the fair value of the hedging instruments in the Statement of Profit & Loss, the change in the fair value of the hedged item attributable to the risk hedged is recognised in the Statement of Profit and Loss. Such changes are made to the carrying amount of the hedged item. Amortisation of said changes in carrying amount may begin as soon as an adjustment exists and shall begin no later than when the hedged item ceases to be adjusted for hedging gains and losses. The amortisation is based on a recalculated effective interest rate at the date that amortisation begins. If the hedged item is de-recognised, the unamortised fair value is recognised immediately in Statement of Profit and Loss.

Hedge accounting is discontinued when the hedging instrument expires, or terminated, or exercised, or when it no longer qualifies for hedge accounting.

**Financial assets or financial liabilities, at fair value through profit or loss**

This category has derivative financial assets or liabilities which are not designated as hedges. Any derivative that is not designated a hedge is categorized as a financial asset or financial liability, at fair value through profit or loss.

**4.17 Impairment****a) Financial Assets**

The Company recognises loss allowance for Expected Credit Loss (ECL) on a financial asset broadly in accordance with the principles laid down in Ind AS 109. The risk of default occurring on the financial asset is assessed as at the reporting date and the financial assets are classified into three categories based on the number of days of past due: -

Stage – 1 - 0-30 days

Includes loan assets that have not had a significant increase in credit risk since initial recognition or that has low credit risk at the reporting date.

Stage – 2 - 31-90 days

Includes loan assets that have had a significant increase in credit risk since initial recognition but that do not have objective evidence of impairment.

Stage – 3 - Above 90 days.

Includes loan assets that have objective evidence of impairment at the reporting date.

The Expected Credit Loss (ECL) is measured at 12-month ECL for Stage 1 loan assets and lifetime ECL for Stage 2 & Stage 3 loan assets. ECL is the product of the Probability of Default, Exposure at Default and Loss Given Default, defined as follows:

Probability of Default (PD) - The PD represents the likelihood of a borrower defaulting on its financial obligation, either over the next 12 months (12 months PD), or over the remaining lifetime (Lifetime PD) of the obligation.

Loss Given Default (LGD) – LGD represents the Company's expectation of the extent of loss on a defaulted exposure. LGD varies by type of counterparty, type, and preference of claim and availability of collateral or other credit support.

Exposure at Default (EAD) – EAD is based on the amount of outstanding exposure as on the assessment date on which ECL is computed.

The ECL is calculated based on the historical data with due weightage to the likely future events which may affect the cash flows. The Company recognises in statement of profit or loss, as an impairment gain or loss, the amount of Expected Credit Loss (or reversal) that is required to adjust the loss allowance at the reporting date.

Additional provision is made in order to establish a balance in the provision for loans that the Corporation's management considers prudent and adequate keeping in view the unforeseen events and happenings such as change in policy of Government and procedural delays in repayments from the agencies, outcome of pending cases under Insolvency and Bankruptcy code etc.

**Modification Loans**

The company allows concessions or modification of loan term as a response to the borrowers' financial difficulties rather than taking possession or to other wise enforce collection of security. The company considers a loan for borne when such concession or modification are provided as a result of the borrower present and expected financial difficulties and the company would not have agreed to them if the borrower had been financially healthy. Indicators of financial difficulties include defaults on covenants, or significant concerns raised by the Credit Risk Department. Forbearance may involve extending the payment arrangement and the agreement of new loan condition. Once the term is negotiated, any impairment is measured by taking into account the original and modified parameter. It is the company's policy to monitor forborne loans to help ensure that future payment continues to be likely to occur. De-recognition decisions and classifications between Stage 2 and Stage 3 are determined on a case-by-case basis. If these procedures identify a loss in relation to loan, it is disclosed and managed as an impaired Stage 3 or forborne asset until it is collected or written off. However, if the modification results into notional gain on account change in expected future value of cash flows, the same shall not be recognized.

|             | <p>When the loan has been renegotiated or modified but not de-recognized, the company also reassesses whether there has been a significant increase in credit risk.</p> <p><b>b) Non-financial assets</b></p> <p>Intangible assets and property, plant and equipment</p> <p>Intangible assets and property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the CGU to which the asset belongs.</p> <p>If such assets are considered to be impaired, the impairment to be recognized in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the Statement of Profit and Loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior years.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| <b>4.18</b> | <p><b>Government grants and subsidies</b></p> <p>Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognised as income in equal amounts over the expected useful life of the related asset.</p> <p>When the Company receives grants of non-monetary assets, the asset and the grant are recorded at fair value amounts and released to profit or loss over the expected useful life in a pattern of consumption of the benefit of the underlying asset i.e., by equal annual instalments. When loans or similar assistance are provided by governments or related institutions, with an interest rate below the current applicable market rate, the effect of this favourable interest is regarded as a government grant. The loan or assistance is initially recognised and measured at fair value and the government grant is measured as the difference between the initial carrying value of the loan and the proceeds received. The loan is subsequently measured as per the accounting policy applicable to financial liabilities.</p> <p>a) The Company acts as a channelizing agency for disbursement of grants/ subsidies under various schemes of the Government and Government Agencies. The Company receives the amount of such grants/subsidies and disburses them to eligible parties in accordance with the schemes of the relevant grants/subsidies. The undisbursed grants / subsidies as at the year-end are shown as a part of Financial Liabilities. Where grants/ subsidies disbursed exceed, the related amount received, such amount receivable from Government / Government Agencies is shown as a part of other Loans and Advances.</p> <p>b) Grants received from other than Govt. agencies or development partners, in respect of certain schemes for economically weaker sections / low-income groups are also dealt with in the manner described at (a) above. Interest earned on loans given under certain specified schemes is shown under "Financial Liabilities" and is utilized as per the terms of the agreement.</p> |

| <b>4.20</b> | <p><b>Taxes – Ind AS 12</b></p> <p>Tax expense comprises current and deferred tax.</p> <p><b>Current income tax</b></p> <p>Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income Tax Act, 1961. Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date. Current income tax relating to items recognized outside profit or loss is recognized outside profit or loss (either in other comprehensive income or in equity).</p> <p>In respect of disputed current tax demands, where the Company is in appeal, provision for tax is made when the matter is finally decided.</p> <p><b>Deferred tax</b></p> <p>Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.</p> <p>Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.</p> <p>The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized.</p> <p>Unrecognized deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.</p> <p>Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.</p> <p>Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity).</p> <p>Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.</p> |

| <b>5.1</b> | <p><b>Business model assessment</b></p> <ul style="list-style-type: none"> <li>• Classification and measurement of financial assets depends on the results of the SPPI and the business model test. The Company determines the business model at a level that reflects how Companies of financial assets are managed together to achieve a particular business objective. This assessment includes judgement reflecting all relevant evidence including how the performance of the assets is evaluated and their performance measured, the risks that affect the performance of the assets and how these are managed and how the managers of the assets are compensated. The Company monitors financial assets measured at amortised cost or fair value through other comprehensive income that are derecognised prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Monitoring is part of the Company's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and so a prospective change to the classification of those assets.</li> </ul> <p><b>Estimates and Assumptions</b></p> <ul style="list-style-type: none"> <li>• The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next Financial Year, are described below. | <b>5.2</b> | <b>Fair value of financial instruments</b> <p>The fair value of financial instruments is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e., an exit price) regardless of whether that price is directly observable or estimated using another valuation technique. When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be derived from active markets, they are determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this is not feasible, estimation is required in establishing fair values. Judgements and estimates include considerations of liquidity and model inputs related to items such as credit risk (both own and counterparty), correlation and volatility.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

| <b>5.4</b> | <b>Impairment of financial asset</b> <p>The measurement of impairment losses across all categories of financial assets requires judgement, in particular, the estimation of the amount and timing of future cash flows and collateral values when determining impairment losses and the assessment of a significant increase in credit risk. These estimates are driven by a number of factors, changes in which can result in different levels of allowances.</p> <p>The company's ECL calculations are outputs of complex models with a number of underlying assumptions regarding the choice of variable inputs and their interdependencies. Elements of the ECL models that are considered accounting judgements and estimates include:</p> <ul style="list-style-type: none"> <li>- The Company's grading model, which assigns PDs to the individual grades</li> <li>- The Company's criteria for assessing if there has been a significant increase in credit risk and so allowances for financial assets should be measured on a LTECL basis and the qualitative assessment</li> <li>- The segmentation of financial assets when their ECL is assessed on a collective basis - Development of ECL models, including the various formulas and the choice of inputs</li> <li>- Determination of associations between macroeconomic scenarios and, economic inputs, such as unemployment levels and collateral values, and the effect on PDs, EADs and LGDs.</li> <li>- Selection of forward-looking macroeconomic scenarios and their probability weightings, to derive the economic inputs into the ECL models</li> </ul> <p>It has been the Company's policy to regularly review its models in the context of actual loss experience and adjust when necessary.</p> |
| <b>5.5</b> | <b>Provisions and other contingent liabilities</b> <p>The Company operates in a regulatory and legal environment that, by nature, has a heightened element of litigation risk inherent to its operations. As a result, it is involved in various litigation, arbitration and regulatory investigations and proceedings in the ordinary course of the Company's business.</p> <p>Given the subjectivity and uncertainty of determining the probability and amount of losses, the Company takes into account a number of factors including legal advice, the stage of the matter and historical evidence from similar incidents. |            | The Company exercises judgement in determining whether the performance obligation is satisfied at a point in time or over a period of time. The Company considers indicators such as how customer benefits as services are rendered or who controls the asset as it is being created or existence of enforceable right to payment for performance to date and alternate use of such product or services, transfer of significant risks and rewards to the customer, etc.                                                                                                                                                                                                         |
| <b>5.7</b> | <b>Leases</b><br><p>Ind AS-116 requires lessees to determine the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The Company makes an assessment on the expected lease term on a lease-by-lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. The lease term in future periods is reassessed to ensure that the lease term reflects the current economic circumstances. Company also used judgement in determining the low value assets as given under the Ind AS-116.</p> |

### Note:

- The table above shows fair value of Derivative financial instruments recorded as Assets/Liabilities together with their Notional amounts. The Notional amounts indicate the value of transactions outstanding at the period end and are not indicative of market or credit risk.
- The fair value of the derivative financial instruments are those as informed by the counter parties (generally Banks).
- The Company holds Derivative financial instruments such as foreign exchange forward contracts, currency swaps or currency option contracts to mitigate the risk of changes in foreign exchange rates on foreign currency liabilities/forecasted cash flow denominated in foreign currencies. Derivatives are used exclusively for hedging and not as trading or speculative instruments. Such derivative contracts are not designated as hedges and are accounted for at Fair Value through Profit and Loss. The counter party for these contracts is generally a bank.
- The Company's risk management strategy and how it is applied to manage risk are explained in Note 37 & 38 of Notes to Accounts.

## NOTE 10: (Contd.)

### NOTE: 10(a)(3) Impairment assessment

The references below show where the Company's impairment assessment and measurement approach is set out in these notes. It should be read in conjunction with the Summary of significant accounting policies.

- The Company's definition and assessment of default and cure.
- How the Company defines, calculates and monitors the probability of default, exposure at default and loss given default.
- When the Company considers there has been a significant increase in credit risk of an exposure.
- The Company's policy of segmenting financial assets where ECL is assessed on a collective basis.
- The details of the ECL calculations for Stage 1, Stage 2 and Stage 3 assets.

### NOTE: 10(a)(4)(i) Definition of default

The Company considers a financial instrument as defaulted and considered it as Stage 3 (credit-impaired) for ECL calculations in all cases, when the borrower becomes 90 days past due on its contractual payments.

### NOTE: 10(a)(4)(ii) Probability of default

The estimation of Probability of Default (PD) shall be carried out in accordance with the following principles:

a. Through-the-Cycle PD (TTC-PD): TTC-PD shall be calculated using an incremental Non-Performing Asset (NPA) approach. In cases where there is limited default history for a specific portfolio, a credit rating-based default study shall be utilized to derive the TTC-PD.

b. Point-in-Time PD (PiT-PD): Through-the-Cycle Probability of Default (TTC-PD) shall be converted into Point-in-Time Probability of Default (PiT-PD) using a forward-looking model. This model shall incorporate portfolio-specific macroeconomic variables to ensure that the estimate reflects current and anticipated economic conditions relevant to the portfolio.

c. Stage-II Loans – Lifetime PD: For loans classified under Stage-II, Lifetime Probability of Default shall be estimated using survival analysis techniques over the remaining contractual tenure of the loans.

d. Stage-III Loans: Loans classified under Stage-III shall be assigned a Probability of Default of 100%.

### NOTE: 10(a)(4)(iii) Exposure at default

The exposure at default (EAD) represents the gross carrying amount of the financial instruments subject to the impairment calculation, addressing both the borrower's ability to increase its exposure while approaching default and potential early repayments too.

### NOTE: 10(a)(4)(iv) Loss given default

The Company segments its lending products into smaller, homogeneous portfolios to facilitate accurate estimation of credit risk parameters. For all portfolios except Government Loans Backed by Government Guarantee, the Loss Given Default (LGD) is estimated based on historical recovery experience, taking into account actual recoveries observed over time. In the case of Government Loans Backed by Government Guarantee, a bucket-level LGD approach is adopted. These buckets are defined using state-level fiscal deficit data, which serves as a proxy for the fiscal strength of each state and the corresponding credit risk associated with the guarantees provided.

### NOTE: 10(a)(4)(v) Significant increase in credit risk

The Company continuously monitors all assets subject to ECLs. In order to determine whether an instrument or a portfolio of instruments is subject to 12mECL or lifetime ECL, the Company assesses whether there has been a significant increase in credit risk since initial recognition. The Company considers an exposure to have significantly increased in credit risk when contractual payments are more than 30 days past due.

When estimating ECLs on a collective basis for a group of similar assets, the Company applies the same principles for assessing whether there has been a significant increase in credit risk since initial recognition.

### NOTE: 10(a)(4)(vi) Grouping financial assets measured on a collective basis

The Company calculates ECLs on collective basis for all Stage I and II Loans and on an individual basis for Stage III Loans

### 36.7. Key assumptions and range of inputs

#### (a) Net Asset Value (NAV) Method:

The Net Asset Value Method represents the value with reference to historical cost of assets owned by the company and the attached liabilities on the valuation date.

#### (b) Discounted Projected Cash Flow:

Discounted Projected Cash Flow valuation technique is used to calculate Impact on fair value of level 3 financial instruments measured at fair value using the following unobservable input such as Discount Rate, Recovery rates, Interest Rate and Revenue from operations to ascertain the change.

#### (c) To arrive at fair value of unquoted investments average of Net Asset Value (NAV) and Discounted Projected Cash flow as on 31<sup>st</sup> March, 2025 is taken.

The range of values indicates the highest and lowest level input used in the valuation technique and, as such, only reflects the characteristics of the instruments as opposed to the level of uncertainty to their valuation.

All changes in the fair market value would be reflected in the Statement of profit and loss based on the classification FVTPL.

The table summarises the valuation techniques together with the significant unobservable inputs used to calculate the fair value of the Company's Level 3 assets and liabilities.

### 36.8. Quantitative analysis of Significant Unobservable inputs

#### Interest rate volatility

Interest Rate volatility measures the expected future variability of a market price. It is generally quoted as a percentage; a higher number represents a more volatile instrument, for which larger swings in price (or interest rate) are expected. Volatility is a key input used to estimate the future prices for the underlying instrument (equity share). Interest rate volatility varies from time to time and therefore, it is not viable to make reliable and meaningful general statements about volatility levels.

#### Discount Rates

Discount rates are used for calculating the present value of future cash flows. In discounted cash flow models, discount rates are used as the direct reflection of the expected rate of return of the investments made by the company in the due course of the business. Hence, these rates reflect the net present value of an asset. They generally reflect the premium an investor expects to achieve over the benchmark interest rate to compensate for the higher risk driven by the uncertainty of the cash flows caused by the credit quality of the asset. They can be implied from market prices and are usually unobservable for illiquid or complex instruments.

#### Recovery Rates

Recovery rates reflect the estimated loss that the company will suffer given expected defaults (Non-performing Assets). The recovery rate is given as a percentage and reflects the opposite of loss severity (i.e., 100% recovery reflects 0% loss severity). In line with the operation of the Company, probability of non-performing assets to loss assets plays an important role to ascertain the recovery rates. Higher loss severity levels / lower recovery rates indicate lower expected cash flows upon the default of the instruments. Recovery rates for complex, less liquid instruments are usually unobservable and are estimated based on historical data.

#### Revenue from operations

Revenue is the value of all sales of goods and services recognized by a company in a period. Revenue (also referred to as Sales, Turnover, or Income) forms the beginning of a company's Income Statement and often considered the "Top Line" of a business. Growth in revenue from operation directly impacts the profitability of the company, as operation expenses are deducted from a company's revenue to arrive at its profit.

### 36.9. Sensitivity of Fair Value measurements to changes in unobservable market data

Sensitivity of fair value measurements to changes in unobservable market data cannot be ascertained due to potential off-sets from economic or accounting hedge relationships in place.

### 36.10. Carrying amount and Fair value of financial instruments

The following table indicates the carrying amounts and fair values of the Company's financial instruments, by class, that are not carried at fair value in the financial statements. This table does not include the fair values of non-financial assets and non-financial liabilities.

Trade Receivable, Other Receivables and Trade Payables and Other Payables are carried at Carrying amount which equals fair values, these are not carried at fair value in the financial statements.

### 36.11 Valuation Methodology of Financial Instruments not measured at Fair Value

Below are the methodologies and assumptions used to determine fair values for the above financial instruments which are not recorded and measured at fair value in the Company's financial statements. These fair values were calculated for disclosure purposes only. The below methodologies and assumptions relate only to the instruments in the above tables and, as such, may differ from the techniques and assumptions explained in Note 36.4.

#### Short-term Financial Assets and Liabilities

For financial assets and financial liabilities, that have a short-term maturity (less than twelve months), the carrying amounts, which are net of impairment, are a reasonable approximation of their fair value. Such instruments include: Trade receivables and trade payables without a specific maturity.

#### Loans and advances to customers

The carrying amount of fixed interest rate bearing loans and floating interest rate bearing loans are taken as fair values.

#### Financial asset at amortised cost

The fair values of financial assets at amortised cost are the carrying amount of the financial asset.

#### Debt Securities

Fair value of traded bonds is market price of the bonds as on the balance sheet date or close to balance sheet date. In case of Commercial Paper which is Current Liability i.e., short term maturity (less than or equal to twelve months), the face value of outstanding commercial paper is considered as fair value.

#### Borrowing other than debt securities

The carrying amount of fixed interest rate bearing borrowings and floating interest rate bearing borrowings are taken as fair values, since these are reasonable approximation of their fair value.

## NOTE 37: RISK MANAGEMENT

### 37.1. Introduction and risk management structure

The Company being an Infrastructure Finance Company is exposed to various types of risks like credit risk, operational risk, liquidity risk, market risk, foreign currency risk etc. The Company is fully committed to manage these risks in an effective and proactive manner, for which HUDCO has in place a Comprehensive Risk Management Policy and Risk Register cum Early Warning Signals aligned with its objectives covering both the internal and external environment.

The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. With a view to minimize the impact of various risks to which the company is exposed to, HUDCO has in place a Board level Committee i.e. 'Risk Management Committee' (RMC) which reviews various suggestions/recommendations/reports and action taken by the sub-committees namely :

- Credit & Operational Risk Management Sub-Committee (CORMSC); and
- Assets & Liabilities Management Committee (ALCO)

The Credit & Operational Risk Management Sub-Committee (CORMSC) oversees and ensures that the institution's credit policies are complied with and the laid down procedures are being consistently applied. The CORMSC also oversees and ensures the implementation of operational risk framework to explicitly manage each and every source of operational risk including Technology risk, Employee risk, Customer risk, Capital Assets risk and External risk.

Assets and Liabilities Management Committee (ALCO) reviews the liquidity and market risks and ensures management of mismatches through liquidity gap analysis, interest rate sensitivity analysis as per RBI guidelines. It is ensured that the ALM risks, if any, are managed within the permissible limits.

### 37.2. Credit Risk

For managing credit risk in the business at different levels including at appraisal, disbursement and post-disbursement, the Company has in place a strong and effective credit appraisal mechanism containing comprehensive appraisal techniques/ guidelines, and Comprehensive Risk Management Policy and Risk Register cum Early Warning Signals to identify and mitigate stress in the credit portfolio.

#### 37.2.1. Derivative Financial Instruments

Credit risk arising from derivative financial instruments is, at any time, limited to those with positive fair values, as recorded on the balance sheet.

With gross-settled derivatives, the Company is also exposed to a settlement risk, being the risk that the company honours its obligation, but the counterparty fails to deliver the counter value.

#### 37.2.2. Exposure to Credit Risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk was ₹ 1,24,340.71 Crore and ₹ 91,365.05 Crore as of 31<sup>st</sup> March, 2025 and 31<sup>st</sup> March, 2024 respectively, being the total of the carrying amount of balances with loans.

#### 37.2.3. Analysis of risk concentration

HUDCO takes into consideration NHB/RBI norms for risk categorisation and the norms adopted for extending loan under HUDCO Niwas. Higher LTV is permissible for lower loan amounts while LTV reduces with the higher loan amounts. [Refer Note:10(a)(1)]

### 37.4.2. Interest rate risk

The interest rate risk is being monitored with the help of interest rate sensitivity analysis under the Asset Liability Management System.

The following table demonstrates the sensitivity to a reasonably possible change in interest rates (all other variables being constant) of the Company's statement of profit and loss and equity.

The sensitivity of the statement of profit and loss is the effect of the assumed changes in interest rates on the profit or loss for a year, based on the floating rate non-trading financial assets and financial liabilities held at 31<sup>st</sup> March, 2025 and 31<sup>st</sup> March, 2024.

### 37.4.3. Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument, denominated in currency other than functional currency, will fluctuate because of changes in foreign exchange rates.

#### (i) Foreign currency risk monitoring and management

Foreign Currency risk arises from future commercial transactions and recognised assets and liabilities denominated in a currency that is not the company's functional currency i.e. INR. The company has overseas foreign currency borrowings and is exposed to foreign exchange risk primarily with respect to the USD and JPY. In order to mitigate the risks associated with foreign currency fluctuations, Company has a Foreign Currency Risk Management policy. It uses a combination of currency swaps and options to hedge its exposure to foreign currency risk. These derivative transactions are done for hedging purpose and not for trading or speculative purpose. The policy lays down the appropriate systems and controls to identify, measure and monitors, the currency risk for reporting to the Management.

(ii) **Foreign currency exposure**

The Company is exposed to foreign currency risk mainly on its borrowings denominated in foreign currency. The carrying amount of the Company's foreign currency denominated borrowings is as follows:

| Description | As at 31.03.2025 |            | As at 31.03.2024 |            |

(iii) **Foreign Currency Sensitivity Analysis:**

The following table presents the impact on total equity [Gain/(Loss)] for 1% change in foreign currency exchange rate against INR on unhedged portfolio of outstanding foreign currency borrowings:

**37.4.4. Equity Price Risk**

Equity Price Risk is the risk that the fair value of equities decreases as a result of changes in the level of equity indices and individual stocks. At increase in the value of the Company's Equities at 31<sup>st</sup> March, 2025 would have increased Equity by ₹ 28.17Crore. An equivalent decrease would have resulted in an equivalent but opposite impact and would cause a potential impairment, which would reduce profit before tax by approximately by ₹ 28.17Crore.

**37.4.5. Operational Risk**

Operational Risk Management Framework covers managing each and every source of Operational Risk as a distinct risk to the Company's safety and soundness. In order to mitigate the Operational Risk(s) of the organization, both internal as well as external, including Technology Risk, Cyber Security Risk, Employee Risk, Capital Asset Risk, Compliance Risks, Fraud Risk, Legal Risk, etc. the Company has established a strong reporting and monitoring mechanism.

To manage the operational risks effectively, the Company has implemented a Comprehensive Risk Management Policy and Risk Register cum Early Warning Signals, through which all operational risks are measured and categorised as high, moderate or low and necessary steps are taken to manage these risks.

**NOTE 38: HEDGE ACCOUNTING**

- Hedge effectiveness is determined at the inception of the hedge relationship, and through periodic prospective effectiveness assessments to ensure that an economic relationship exists between the hedged item and hedging instrument.

The Company has used hypothetical derivative method for effectiveness assessment. Under this method, the hedged risk is modelled as a derivative called the hypothetical derivative which has the same terms as the hedged item. The hypothetical derivative approach compares the change in fair value of the hedging instrument with the change in the fair value of the hypothetical derivative. Prospective hedge effectiveness testing has been performed using the sensitivity analysis approach. Under this approach, the impact of a uniform +/- 5% shock on the forward curve has been performed to assess the effectiveness of the hedge.

The currency swap and option contracts are denominated in the same currency as the highly probable future foreign currency principal and interest payments, therefore the hedge ratio is 1:1.

**3) (A) - Andrews Ganj Project**

- i. HUDCO had initiated execution of Andrews Ganj Project (AGP) on behalf of the then Ministry of Urban Development, (MoUD) in the year 1989-90.
- ii. As per minutes of the meeting held on 7<sup>th</sup> September, 1995, it has been agreed to pay interest @ 17% p.a. (simple) on the expenditure incurred on AGP along with 1.5% of project cost as administrative charges.
- iii. As per Perpetual Lease Deed dated 4<sup>th</sup> July, 1997, the Company is liable to make available "Net Resources" from the development and disposal of properties of the AGP to then MoUD and accordingly the Company was crediting interest on Net Resources generated on the project upto 3<sup>rd</sup> November, 2004. Subsequently, a separate "No Lien AGP Account" has been opened under the name of "HUDCO AGP Account", in which the surplus lying to the credit of the then MoUD was credited and interest accrued/ earned on "No Lien AGP Account" was also credited to that account.
- iv. HUDCO contends that as per minutes of the meeting held on 7<sup>th</sup> September, 1995 and in terms of Perpetual Lease Deed dated 4<sup>th</sup> July, 1997, the status of the Company is "Agent of MoUD". The contention of HUDCO is that it is working as an agent and as such total ownership rights and responsibilities of AGP are of MoHUA-GOI (erstwhile MoUD) and there is no financial liability of HUDCO in respect of AGP. This has been upheld by learned Shri GE Vahanvati, the then Solicitor General of India, vide his opinion dated 12<sup>th</sup> April, 2005. This opinion was re-confirmed by learned Shri GE Vahanvati as Attorney General of India vide his opinion dated 19<sup>th</sup> August, 2009. The opinion was also duly endorsed by the then Law Secretary and Law Minister of Government of India.
- v. Keeping this position in view and in accordance with HUDCO's Board decision in 459<sup>th</sup> meeting dated 24<sup>th</sup> August, 2009, HUDCO has been making payments / settling claims on Ministry's behalf and accounting them in "No Lien AGP Account" being separately maintained by HUDCO. As on 31<sup>st</sup> March, 2025, this account has a deficit in the form of debit balance of ₹ 626.51 Crore, recoverable from MoHUA (erstwhile MoUD). This represents amount paid by HUDCO on behalf of the Ministry for the capital and revenue expenditures on AGP project over and above the recoveries and the accumulated interest amounting to ₹ 350.28 Crore charged @ 10.75% p.a. (simple), on excess of expenditure over recoveries. The MoHUA (erstwhile MoUD) in a meeting held on 27<sup>th</sup> April, 2015 have also asserted that HUDCO shall continue to implement and manage the AGP in terms of Perpetual Lease Deed and all the pending issues shall be looked into for resolution by the Ministry. The MoHUA (erstwhile MoUD) in the said meeting has also decided that HUDCO as a Lessee will bear all the liabilities including the liabilities generated out of compliance of various court orders in cases related to the project. The company vide its letter dated 30<sup>th</sup> September, 2015, conveyed its reservation

**NOTES : 41 (Contd.)**

to accept the decision for bearing the liabilities of Andrews Ganj project as HUDCO is acting as an agent of MoHUA, Government of India, for AGP, in terms of perpetual lease deed conditions and other agreed terms.

- vi. The Ministry has been informed specifically of the above facts and figures on various occasions through correspondence as also in the meetings. A communication was received from Dy. L&DO vide letter dated 22<sup>nd</sup> March, 2016 wherein Dy. L&DO had conveyed that HUDCO may continue to implement Andrews Ganj project and manage "No Lien AGP Account" in line with the terms and conditions as stipulated in the Perpetual Lease Deed dated 4<sup>th</sup> July, 1997. The Ministry again informed in specific vide Dy L&DO letter dated 31<sup>st</sup> May, 2018 that HUDCO as a lessee is permitted to incur/book maintenance and legal expenditure in respect to Andrews Ganj Project from "No Lien AGP Account". Like earlier years, in-line with the minutes of meeting dated 7<sup>th</sup> September, 1995, the perpetual lease deed dated 4<sup>th</sup> July, 1997, income of ₹ 29.46 Crore on account of interest accrued on AGP Project has been credited to Statement of Profit and Loss for the period year ended 31<sup>st</sup> March, 2025.
- vii. As decided by HUDCO Board in its 596<sup>th</sup> meeting held on 14<sup>th</sup> June, 2018, Ministry of Housing and Urban Affairs has been requested vide letter dated 9<sup>th</sup> July, 2018 to consider taking over the Andrews Ganj project with assets and liabilities and pay the amount incurred / to be incurred by HUDCO, towards implementing the project. It has also been conveyed that "till the project is taken over by Ministry", HUDCO shall be continuing implementing the project as per existing arrangements and continue booking maintenance and legal expenses, interest @ 10.75% p.a. and administrative charges @1.5% in "No Lien AGP Account".
- viii. The company, in its aforesaid capacity as an agent of MoHUA (erstwhile MoUD), relating to AGP, is in possession of real estate properties (9 guest houses blocks and hotel site) which command much higher realizable market value sufficient to recover aforesaid amount of ₹ 626.51 Crore, as on 31<sup>st</sup> March, 2025.
- ix. MoHUA was requested vide letter dated 13<sup>th</sup> January, 2021 to make arrangement towards reimbursement of the amount recoverable endorsement for settling the same from the project proceeds as and when the same are realized, which is also in line with the Lease agreement and well settled and agreed.

In reply to the same, Ministry vide letter dated 10<sup>th</sup> March, 2021 had requested for certain additional information including the breakup details of principal amount and interest amount as contained in the "No Lien AGP Account" to process HUDCO's request.

Ministry vide letter dated 28<sup>th</sup> June, 2021 had stated that the "HUDCO's proposal is under examination in consultation with IFD, MoHUA. Till the proposal of HUDCO vide their letter dated 13<sup>th</sup> January, 2021 is approved, the existing arrangement may be continued as conveyed vide this office letter dated 22<sup>nd</sup> March, 2016 and 31<sup>st</sup> May, 2018".

In the review meeting held by JS (L&E), MoHUA on 19<sup>th</sup> March 2025 it was desired to lower the applicable Rate of Interest charged by HUDCO on outstanding balance of 'No lien AGP account'. Pursuant thereto, HUDCO vide letter dated 28<sup>th</sup> March 2025 to Ministry has suggested 8.75% rate of interest with prospective effect from 1<sup>st</sup> April 2025; the confirmation on the same by the Ministry is awaited.

HUDCO vide letter dated 13<sup>th</sup> March 2025 informed the Ministry about the Judgement and order dated 13<sup>th</sup> February 2025 of the Hon'ble Supreme Court, which has been noted by the Ministry vide its letter dated 24<sup>th</sup> April 2025.

Hence, in view of the facts and circumstances stated above, the Company does not expect any liability on this account and any expenditure related thereof. In case of any liability by virtue of any court order or otherwise, the same shall be in the account of 'No lien AGP Account', based on the facts and documents and the legal opinions obtained by HUDCO.

**(B) Litigation Status****i. Tomorrowland Technologies Exports Ltd.**

The Company had allotted a hotel site including car parking space to M/s Tomorrowland Technologies Exports Ltd. i.e., TTEL (formerly known as M/s. M S Shoes East Limited). Due to default in payment of instalments by TTEL, the Company cancelled the allotment of hotel site including car parking space and forfeited the amount paid by TTEL in terms of the allotment letter.

TTEL started litigation regarding hotel site and filed suit for declaration in lower courts that cancellation of allotment letter by HUDCO, be declared as null & void. The Sr. Civil Judge passed final order dated 3<sup>rd</sup> July, 2010 against HUDCO. HUDCO filed first appeal against the Order dated 3.07.2010 of Sr. Civil Judge before the Additional District Judge (ADJ) Delhi. The ADJ vide Order dated 18<sup>th</sup> July, 2014 dismissed the first appeal of HUDCO and passed the judgment in favour of TTEL. HUDCO filed Regular Second Appeal (RSA) before the Hon'ble High Court of Delhi which vide its judgement dated 3<sup>rd</sup> June, 2016 allowed the second appeal of HUDCO and upheld the cancellation of allotment by HUDCO w.r.t. Hotel Site & car Parking slots. TTEL challenged the High Court Order dated 3.06.2016 by filing SLP (C) No.: 34338 / 2016 before the Hon'ble Supreme Court of India. The Hon'ble Supreme Court vide its judgment and order dated 13.02.2025 has decided the said SLP and has directed

## NOTES : 41 (Contd.)

for refund of the forfeited amount of Rs.28,11,31,939/- to TTEL within three months from the date of the order, failing which, TTEL shall be entitled to interest @ 6% per annum till the date of payment.

The allotment of 9 blocks of guest houses, restaurants, kitchens, and shops, which were allotted to TTEL, was cancelled due to default in payment of instalment by TTEL and amount of first instalment paid by TTEL was forfeited as per terms of allotment letter. TTEL filed civil suit challenging the cancellation of allotment, for permanent injunction and possession, against HUDCO & Union of India. The Hon'ble High Court, vide Order dated 10<sup>th</sup> August, 2016, directed that HUDCO & Union of India should consider the proposal given by TTEL for refund of entire amount deposited by way of 1<sup>st</sup> instalment by it with HUDCO along with interest at such rate which may be deemed appropriate by Court.

In view of Hon'ble High Court of Delhi order dated 10<sup>th</sup> August, 2016, the Board in its 568<sup>th</sup> meeting held on 23<sup>rd</sup> August, 2016 resolved to approve the proposal to refund first instalment forfeited by HUDCO excluding earnest money & the interest for delayed payment paid thereof by TTEL for guest house blocks after adjusting the commercial losses caused to HUDCO and other expenses incurred by HUDCO since 1997-98 from the date of completion of project and subject to necessary approval / NOC of MoUD, Govt. of India.

The Hon'ble High Court passed a decree dated 13<sup>th</sup> January, 2017 for refund of the first instalment excluding the earnest money to TTEL along-with interest @ 6% p.a., w.e.f. 30<sup>th</sup> January, 1995 till date of payment and directed HUDCO to refund the interest paid by TTEL (₹0.99 Crore) on the delayed period of payment of 1<sup>st</sup> instalment (from 30<sup>th</sup> November, 1994 till 30<sup>th</sup> January, 1995). If the entire amount is not paid on or before 31<sup>st</sup> December, 2017, the rate of interest would then stand enhanced to 11% p.a. However, the decree was made in-executable till 30<sup>th</sup> June, 2017. Both HUDCO and TTEL challenged the said decree dated 13.01.2017.

TTEL filed Review Petition in the month of May, 2017, before Hon'ble High Court of Delhi for review of the Decree dated 13<sup>th</sup> January, 2017, praying inter-alia for refund of EMD, grant of interest @ 16.48% p.a. on quarterly rests. Subsequently, Review Petition filed by TTEL was disposed off by the High Court on 12<sup>th</sup> December, 2017. Thereafter, TTEL has filed Special Leave Petition (SLP No 10752/53 of 2018) in Hon'ble Supreme Court against the Decree dated 13<sup>th</sup> January, 2017 and Hon'ble High Court Order dated 12<sup>th</sup> December, 2017. The same have been disposed off by the Hon'ble Supreme Court of India vide its Order dated 10.12.2024 and referred them to Delhi High Court where they are listed as Regular First Appeal No. 1/2025 & 2/2025 of TTEL. The said two RFAs of TTEL are listed with the RFA No. 79/2018 of HUDCO and are currently pending.

The Company also filed application for recalling the Hon'ble High Court Order dated 13<sup>th</sup> January, 2017, in view of the Review Petition filed by TTEL and directions of Govt. of India. The matter was listed on 28<sup>th</sup> August, 2018, after hearing all parties, Hon'ble High Court dismissed the "Recall Application" of HUDCO. HUDCO filed SLP in Supreme Court challenging the High Court Order dated 28<sup>th</sup> August, 2018 and 13<sup>th</sup> January, 2017. Vide Order dated 18<sup>th</sup> September, 2018, the Hon'ble Supreme Court dismissed the SLP as withdrawn, with liberty to HUDCO to file all legal objections regarding the executability of the decree in the executing Court.

Further, TTEL also filed first Execution Petition in Delhi High Court and later on, the same was also withdrawn by TTEL on 23<sup>rd</sup> December, 2017. Thereafter, TTEL has filed Revised Execution Petition, making Govt. of India also a party and claiming rate of interest @ 11% p.a. as per the decree dated 13<sup>th</sup> January, 2017. The matter was listed on 3<sup>rd</sup> May, 2018, wherein the Hon'ble High Court first directed for attachment of HUDCO Property i.e. HUDCO Bhawan, IHC, Lodhi Road, New Delhi. However, after hearing the submission of HUDCO, vide the same order, Hon'ble High Court kept the attachment order of HUDCO Property in abeyance till the next date and also directed that HUDCO will not sell the property at Andrews Ganj, Delhi.

Further, the learned Justice V.N. Khare, former Chief Justice of India, has opined that, "HUDCO's consent to perform the terms of the Order dated 13<sup>th</sup> January, 2017 was conditional on UOI's support and in the event any liability is indeed ascribed to HUDCO, the same should then be recoverable from the UOI".

In view of the Supreme Court's Order dated 18<sup>th</sup> September, 2018, HUDCO filed objection in the Execution Petition, pending in Delhi High Court. The matter was listed on 29<sup>th</sup> October, 2018. After hearing the submission of HUDCO's Counsel, the Hon'ble Court dismissed the objections. HUDCO filed two appeals in Delhi High Court as under:

1. Regular first Appeal (RFA 79/2018) against the final order/ decree 13<sup>th</sup> January, 2017 and order dated 28<sup>th</sup> August, 2018 (Dismissal of Recall application by High Court). The said Regular First Appeal of HUDCO is currently pending.
2. Execution First Appeal (EFA No 19/2018) against the order dated 29<sup>th</sup> October, 2018, wherein objections of HUDCO in execution petition were dismissed. The matter was listed on 27<sup>th</sup> November, 2018. After hearing the

**NOTES : 41 (Contd.)**

matter, the Hon'ble Court stayed the execution proceeding pending in Delhi High Court till the next date. The matter was listed again on the application of the M/s TTEL for vacation of stay on 8<sup>th</sup> July, 2020 before Division Bench, Delhi High Court, after hearing the matter, the Hon'ble Court directed that Execution First Appeal (EFA) 19/2018) shall be adjourned sine die and will be listed after the final disposal of the Regular First appeal (RFA 79/2018). The parties are at liberty to move the application for revival of EFA after final disposal of RFA 79/2018. Till the further order, the stay on the Execution proceedings shall be continued. Both the cases are pending.

TTEL filed SLP in Supreme Court, against the High Court Order dated 27<sup>th</sup> November, 2018, wherein High Court stayed the execution proceedings. However, the same has been withdrawn by TTEL on 14<sup>th</sup> January, 2019.

**(ii) M/s. Ansal Properties and Industries Ltd. (APIL)**

The arbitrator had passed an award in favour of M/s. Ansal Properties and Industries Ltd. (APIL) amounting to ₹8.84 Crore along with interest @ 18% p.a. on 28<sup>th</sup> July, 2005 in respect of the property leased to APIL at AGP. The Arbitrator had also allowed the counter claim of HUDCO amounting to approximately ₹0.85 Crore along with interest @ 18% p.a. on account of maintenance charges w.e.f. 1<sup>st</sup> January, 2001 up-to 31<sup>st</sup> July, 2005. HUDCO challenged the award before the Hon'ble High Court of Delhi and, as per the directions of the court, deposited a sum of ₹7.99 Crore in the court out of "No Lien AGP Account".

APIL invoked arbitration for refund of ground rent paid by it from November, 1995 to October, 1999 and the arbitrator pronounced the award on 21<sup>st</sup> July, 2006 holding therein that APIL is not liable to pay the ground rent up to October, 1999 i.e. till the shopping arcade was constructed and became operational in October, 1999. The amount of ₹3.93 Crore deposited earlier by APIL has been directed to be adjusted towards the future ground rent payment dues w.e.f. November, 1999 along-with Interest @ 7% p.a. for delayed payment. HUDCO filed petition challenging the award before the Hon'ble High Court of Delhi. The Hon'ble High Court on 10<sup>th</sup> May, 2012 set aside the arbitration award dated 21<sup>st</sup> July, 2006. APIL filed an appeal against the above-mentioned order before Division Bench of Hon'ble High Court, Delhi. Division Bench vide its order dated 24<sup>th</sup> January, 2013, allowed APIL appeal and upheld the Arbitrators award. HUDCO filed SLP on 10<sup>th</sup> May, 2013 before Hon'ble Supreme Court against this order which is currently pending.

On the last day of hearing, i.e., 5<sup>th</sup> January, 2023, APIL's counsel informed the court that vide Order dated 16<sup>th</sup> November 2022, APIL was declared insolvent by NCLT and therefore, now the APIL is under Moratorium. Hence as per the law, all the proceedings pending against APIL are automatically stayed by virtue of law. Further, HUDCO filed its total claims due against APIL before the Resolution Professional appointed for the above purpose. The claim of HUDCO was not considered as the matter was related to specific property only.

Recently, application of the IL&FS under Section 7 of the IBC, 2016 was admitted by the NCLT, New Delhi against Ansal Properties & Infrastructure Ltd. (APIL) on 25.02.2025 and Sh. Navneet Kumar Gupta appointed as the IRP. As moratorium is also imposed, all the proceedings pending against APIL are now under moratorium. IRP issued a public notice on 28.02.2025 for filing of claim by the claimants of APIL on or before 11.03.2025. Accordingly, HUDCO has filed claim of Rs. 401.54 Crore (till 25<sup>th</sup> Feb 2025) on APIL in the stipulated timeline. The matter is pending.

- 4) HUDCO had allotted 6435 sq. mtr. of built-up space in 1993 at HUDCO Vishala, Bhikaji Cama Place, New Delhi to EPFO on Long Term Sub-lease basis. The sub-lease in favour of EPFO is yet to be executed and ₹0.35 Crore is recoverable from EPFO.

RBI in its reply letter dated 10<sup>th</sup> February, 2021 informed its inability to accede to HUDCO's request for exemption and accordingly suggested to submit a Board approved plan to fulfil the principal business criteria for HFC or to convert into a NBFC-ICC.

## NOTES : 41 (Contd.)

RBI was requested vide letter dated 8<sup>th</sup> March, 2021 to grant six months' time for transition to NBFC and to retain the status of HFC and to continue operations with the special dispensations/ relaxations given earlier with regard to credit concentration norms/ exposure norms permitted by NHB/ RBI.

In response to HUDCO's request, RBI vide letter dated 26<sup>th</sup> March, 2021 and 27<sup>th</sup> September, 2021 granted time till 31<sup>st</sup> December, 2021 to submit Board approved plan for conversion to NBFC. RBI further advised that the exemptions from concentration/exposure norms granted previously by NHB/RBI would continue to apply at present subject to the conditions specified while granting such exemptions.

The proposal for transition of HUDCO from its present status of HFC to NBFC – IFC was approved in principle by the HUDCO Board in its meeting held on 28<sup>th</sup> December, 2021. Thereafter, HUDCO obtained approval from Ministry of Housing and Urban Affairs for the conversion before submission of application form to RBI.

RBI was requested vide letter dated 28<sup>th</sup> December, 2021 to grant three months' time for submission of application to RBI and to retain the status of HFC. RBI vide letter dated 31<sup>st</sup> December, 2021 granted time till 31<sup>st</sup> March, 2022 for conversion from HFC to NBFC-IFC.

In reference thereof, RBI vide letter dated 22<sup>nd</sup> December, 2022 expressed its inability to accede to HUDCO's request for conversion of the Certificate of Registration (CoR) to an NBFC-IFC stating that HUDCO is not meeting the criterion specified for NBFC-IFC at Para 3 (xvi)(a) of the Master Direction-Non-Banking Financial Company Systemically Important Non-Deposit Taking Company and Deposit Taking Company (Reserve Bank) Directions, 2016.

After detailed deliberation and ensuring compliance with the RBI Master Directions for NBFCs, HUDCO resubmitted the application with necessary documents to RBI for conversion of certificate as NBFC-IFC on 22<sup>nd</sup> February, 2023. RBI vide letter dated 25<sup>th</sup> October, 2023 expressed its inability to consider HUDCO's request stating that HUDCO is not meeting the criterion specified for NBFC- IFC at Para 3 (xvi)(a) of the Master Direction-Non-Banking Financial Company Systemically Important Non-Deposit Taking Company and Deposit Taking Company (Reserve Bank) Directions, 2016 i.e. minimum criteria of 75% of its total assets deployed in infrastructure Loans.

Consequent to that, HUDCO's senior management team convened a meeting with RBI officials for consideration of the matter of registration of HUDCO as NBFC-IFC. During the meeting a comprehensive presentation was delivered to address RBI's concerns & queries. Additionally, a detailed roadmap outlining the attainment of infrastructure portfolio by March 2026 was shared with RBI to expedite the conversion process.

Based on the submissions made by the Company, RBI has decided to process our request for conversion of CoR on merit. In this regard, the Company has been advised to submit the application for conversion of CoR along with all latest documents, a statutory auditor certificate indicating position of infrastructure portfolio as on 31<sup>st</sup> March, 2024 and revised roadmap to achieve the Principal Business Criteria (PBC).

- (i) HUDCO shall continue to ensure that the extended exposures (beyond 50% and 100% respectively) are guaranteed by the State Government(s) and HUDCO will cease to extend further exposure to these states if FRBM limits are breached.
- (ii) HUDCO shall also be required to bring down its exposure to 50% in respect of individual exposure and 100% in respect of group exposure latest by 31<sup>st</sup> March, 2023, in accordance with the roadmap for graded reduction in exposure approved by Board of Directors.

| *SEBI (Issue and listing of Non convertible securities) Regulations, mandates Large Corporates to raise minimum 25% of their incremental borrowings (with original maturity of over 1 year) in a Financial Year through issue of debt securities. However, the sources / modes of borrowings are finalised based on cost effectiveness of each chosen source and prevailing market conditions. As Corporate Bond yields continued to remain elevated during the Financial Year, alternative sources / modes of borrowings were chosen to meet operational requirements. "HQLA" means liquid assets that can be readily sold or immediately converted into cash at little or no loss of value or used as collateral to obtain funds in a range of stress scenarios. "Unencumbered" means free of legal, regulatory, contractual or other restrictions on the ability of the NBFC to liquidate, sell, transfer or assign the asset. Assets to be included in the computation of HQLAs are those that the NBFC is holding on the first day of the stress period. Such assets shall be valued at an amount not greater than their current market value for the purpose of computing the LCR. Depending upon the nature of assets, they have been assigned different haircuts, which are to be applied while calculating the HQLA for the purpose of calculation of LCR.

Liquidity Coverage Ratio (LCR) is represented by the following ratio:

$$\frac{\text{Stock of High-Quality Liquid Assets (HQLAs)}}{\text{Total Net Cash Outflows over the next 30 calendar days}}$$

## NOTES : 41 (Contd.)

In order to determine Net Cash Outflows, the Company considers total expected cash outflow minus total expected cash inflows for the subsequent 30 calendar days by assigning a predefined stress percentage to the overall cash inflows and cash outflows. Total expected cash outflows (stressed outflows) are calculated by multiplying the outstanding balances of various categories or types of liabilities and off-balance sheet commitments by 115% (15% being the rate at which they are expected to run off further or be drawn down). Total expected cash inflows (stressed inflows) are calculated by multiplying the outstanding balances of various categories of contractual receivables by 75% (25% being the rate at which they are expected to under-flow). However, total cash inflows will be subjected to an aggregate cap of 75% of total expected cash outflows. In other words:

Total Net Cash Outflows over the next 30 days = Stressed Outflows – Lower of (Stressed Inflows or 75% of Stressed Outflows).

The Company computes the LCR and reports the same to the Asset Liability Management Committee (ALCO) every month for review and approval.

The Company was registered as a Housing Finance Company (HFC) until August 23, 2024, and complied with the requirements of the RBI Master Direction – Non-Banking Financial Company – Housing Finance Company (Reserve Bank) Directions, 2021, dated February 17, 2021. As per these Directions, all non-deposit taking HFCs with an asset size of ₹10,000 Crore and above, and all deposit-taking HFCs irrespective of asset size, are required to maintain a minimum Liquidity Coverage Ratio (LCR) of 70% from December 1, 2023.

Subsequently, the Company was granted a Certificate of Registration (CoR) as a Non-Banking Financial Company – Infrastructure Finance Company (NBFC-IFC) in August 2024. As an NBFC-IFC, the Company is now governed by the RBI Master Direction – Reserve Bank of India (Non-Banking Financial Company – Scale Based Regulation) Directions, 2023, dated October 19, 2023. Under paragraph 3.3 of these Directions, all non-deposit taking NBFCs with asset size of ₹10,000 Crore and above, and all deposit-taking NBFCs, are required to maintain a minimum LCR of 85% from December 1, 2023, and 100% from December 1, 2024.

In accordance with the applicable regulatory framework during each period, the Company has maintained the following LCR levels:

- 70% from December 1, 2023, to August 28, 2024, as an HFC;
- 85% from August 29, 2024, to November 30, 2024, as an NBFC-IFC; and
- 100% from December 1, 2024, onwards, as an NBFC-IFC.

The Company has invested in High Quality Liquid Assets (HQLAs) in line with the relevant regulatory requirements and, in the opinion of the management, maintains adequate liquidity buffers to meet foreseeable short-term obligations

The Company's Board of Directors are responsible for the other information. The other information comprises the Directors' report, Corporate Governance report, Business responsibility report and Management Discussion and Analysis etc. included in the Company's Annual Report, but does not include the consolidated financial statements and our auditor's report thereon. The Annual report for the year ending 31<sup>st</sup> March 2025 is expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the other information, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate actions, if required.

## 6. Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements:

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other consolidated Comprehensive income, consolidated Changes in Equity, and consolidated Cash flows of the Group including its associate in accordance with the accounting principles generally accepted in India, including the Indian accounting Standards (Ind ASs) specified under Section 133 of the Act.

The respective Board of Directors of the company and of its associate are responsible for

- a. maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and for preventing and detecting frauds and other irregularities;
- b. selection and application of appropriate accounting policies;
- c. making judgments and estimates that are reasonable and prudent and
- d. design, implementation and maintenance of adequate internal financial controls, that were operating effectively, for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the Consolidated Financial Statements by the Directors of the company as aforesaid.

In preparing the Consolidated Financial Statements, the respective Board of Directors of the company and of its associate are responsible for assessing the ability of the Company and its associate to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Board of Directors either intend to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the company and of its associate are also responsible for overseeing the financial reporting process of the group and its associate.

## 7. Auditor's Responsibilities for the Audit of the Consolidated Financial Statements:

Our objectives are to obtain reasonable assurance about whether the Consolidated Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated Financial Statements.

As Part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of Internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to Consolidated Financial Statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure, and content of the Consolidated Financial Statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and its associates to express an opinion on the Consolidated Financial statements.

We are responsible for the direction, supervision and performance of the audit of the Financial Statements of such entities included in the Consolidated Financial Statements of which we are the independent auditors. For the other entities included in the Consolidated Financial Statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatement in the Consolidated Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) Planning the scope of our audit work and in evaluating the results of our work: and (ii) to evaluate the effect of any identified misstatements in the Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our Independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Consolidated Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our Auditor's Report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

## ANNEXURE “A” TO THE INDEPENDENT AUDITOR’S REPORT ON THE AUDIT OF CONSOLIDATED FINANCIAL STATEMENTS

(Annexure referred to in paragraph 9(f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report of even date to the members of Housing and Urban Development Corporation Limited on the Consolidated Financial Statements for the year ended 31<sup>st</sup> March, 2025)

**Report on the adequacy of Internal Financial Controls over financial reporting of the Company and the operating effectiveness of such controls, under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)**

In conjunction with our audit of the Consolidated Financial Statements of Housing and Urban Development Corporation Limited (hereinafter referred to as “the Holding Company”) as of and for the year ended March 31, 2025, we have audited the internal financial controls with reference to Consolidated Financial Statements of the Holding Company and its associate company, which are companies incorporated in India as of that date.

### 01. Management’s Responsibility for Internal Financial Controls

The respective Board of Directors of the holding company and its associate company are responsible for establishing and maintaining internal financial controls based on “the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India”. These include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

### 02. Auditor’s Responsibility

Our responsibility is to express an opinion on the internal financial controls with reference to Consolidated Financial Statements of the Holding Company and its associate company, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143 (10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India.

Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and subject to the limitation regarding the unaudited financial statements/ financial information of the associate company furnished to us by the management is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

### Meaning of Internal Financial Controls over Financial Reporting

A Company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes

in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of consolidated financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the consolidated financial statements.

### **03. Inherent Limitations of Internal Financial Controls over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### **04. Qualified Opinion**

According to the information and explanations given to us and based on our audit, the following deficiencies have been identified during the course of our audit for the year ended on March 31, 2025:

1. Few deficiencies were noted in the design and operating effectiveness of controls over core Loan Management System (LMS), including manual interventions in key reports, which needs to be strengthened.
2. In respect of entity-level controls and financial closure processes, there is an opportunity to enhance the effectiveness of certain procedures, particularly those related to cut-off, and the supervision and monitoring of information flow between regional offices, outsourced agencies, and the corporate office. Strengthening these areas would support more robust and timely financial reporting.

In our opinion, considering the nature of business, size of operation and organizational structure of the entity, except for the effects/possible effects of the deficiencies described above on the achievement of the objectives of the control criteria, the Company has maintained, in all material respects, adequate internal financial controls over financial reporting and such internal financial controls over financial reporting were operating effectively as of March 31<sup>st</sup>, 2025, based the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

We have considered the deficiencies identified and reported above in determining the nature, timing, and extent of audit tests applied in our audit of the March 31<sup>st</sup>, 2024 consolidated financial statements of the Company, and these deficiencies does not affect our opinion on the consolidated financial statements of the Company.

However, in case of its associate company which is incorporated in India, where the financial statements/ financial information is unaudited and certified by the management, we are not in a position to offer our comments on the adequacy and operating effectiveness of internal financial control over financial reporting of the said associate.

### 2. Basis of Preparation

The consolidated financial statements have been prepared based on the Schedule III for Non-Banking Financial Companies as per Notification G.S. R. 1022 (E) issued by the Ministry of Corporates Affairs on 11-10- 2018.

#### 2.1 Basis of consolidation

The consolidated financial statements comprise the financial statements of the Company and its Associates as at 31<sup>st</sup> March 2025. Control is achieved when the company is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

#### 2.2 Principles of Consolidation

The consolidated financial Statements consist of Housing and Urban Development Corporation Limited ("The Company") and its Associate Company. The Consolidated Financial Statements are prepared on the following basis:

Investments in Associates where the Company holds more than 20% of equity are accounted for using equity method as per Indian Accounting Standard (Ind AS) 28 - "Investments in Associates and Joint Ventures".

The consolidated financial statements are prepared using uniform accounting policies and are presented to the extent possible in the same manner as the Company's separate financial statement except where adjustment for the differences are immaterial/ impractical.

#### 2.3 Equity Accounting

Investment in associate is an entity over which the investor has significant influence. Interest in associates are accounted for using the equity method of accounting after initially being recognised at cost.

## NOTES : (Contd.)

Under the equity method of accounting, the investments are initially recognised at cost and adjusted thereafter to recognise the Group's share of the post-acquisition profits or losses of the investee in Group's profit and loss, and the Group's share of other comprehensive income of the investee in Group's other comprehensive income.

On acquisition of the investment in an associate, any excess of the cost of the investment over the Group's share of the net fair value of the identifiable assets and liabilities of the investee is recognised as goodwill, which is included within the carrying amount of the investment. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of the investment, after reassessment, is recognised directly in equity as capital reserve in the period in which the investment is acquired.

In addition, when there has been a change recognised directly in the equity of the associate or joint venture, the Group recognises its share of any changes, when applicable, in the Consolidated Statement of Changes in Equity. Unrealised gains resulting from transactions between the Group and the associate or joint venture are eliminated to the extent of the Group's interest in the associate or joint venture. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred.

Dividends received or receivable from associates and joint ventures are recognised as a reduction in the carrying amount of the investment.

When the Group's share of losses of an associate exceeds the Group's interest in that associate or joint venture (which includes any long-term interests that, in substance, form part of the Group's net investment in the associate or joint venture), the Group discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate or joint venture. The Group resumes recognising its share of profits only after its share of the profits equals the share of losses not recognised.

The aggregate of the Group's share of profit or loss of an associate and a joint venture is shown on the face of the Consolidated Statement of Profit and Loss.

The financial statements of the associate are prepared for the same reporting period as the Group. When necessary, adjustments are made to bring the accounting policies in line with those of the Group. The carrying amounts of equity accounted investments are tested for impairment in accordance with the accounting policy on impairment of non-financial assets.

Upon loss of significant influence over the associate, the Group measures and recognises any retained investment at its fair value. Any difference between the carrying amount of investment in associate upon loss of significant influence or joint control and the fair value of the retained investment and proceeds from disposal is recognised in Consolidated Statement of Profit and Loss.

If the Group's ownership interest in a joint venture or an associate is reduced, but joint control or significant influence is retained, the Group reclassify to profit or loss the proportion of the gain or loss that had previously been recognised in other comprehensive income relating to that reduction in ownership interest if that gain or loss would be required to be reclassified to profit or loss on the disposal of the assets or liabilities.

| <p><b>5A.7</b></p> | <p><b>Revenue recognition</b></p> <p><b>5.7.1 Interest income</b></p> <p>Interest income is recognized on time proportion basis taking into account the amount outstanding and rate applicable. For financial assets measured at amortized cost, interest income is recorded using the effective interest rate (EIR), i.e. the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the net carrying amount of the financial assets and includes any fees or incremental costs that are incrementally directly attributable to the instrument and are an integral part of the EIR in line with Ind AS 109.</p> <p>Fees/ charges on loan assets, other than those considered an adjustment to EIR, are accounted for on accrual basis. Prepayment charges (premium) is accounted for by the Company in the year of receipt.</p> <p>Interest income in Non-Performing Assets and /or Stage 3 in Financial Assets is recognized only on cash/ receipt basis.</p> <p><b>5.7.2 Dividends</b></p> <p>Dividend Income is recognized when the Company's right to receive the payment is established.</p> <p><b>5.7.3 Rental income</b></p> <p>Rental income arising from operating leases on investment properties is accounted for on a straight-line basis over the lease terms unless the payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.</p> <p><b>5.7.4 Other Revenue</b></p> <p>Income from services rendered is recognised based on the terms of agreements/arrangements with reference to the stage of completion of contract at the reporting date. The Company recognizes revenue from contracts with customers based on the principle laid down in Ind AS 115 - Revenue from contracts with customers. Revenue from contract with customers is recognized to the extent it is probable that the economic benefits will flow to the Company and the revenue and costs, if applicable, can be measured reliably. Revenue is measured at the transaction price agreed under the Contract. Transaction Price excludes amounts collected on behalf of third parties (e.g., taxes collected on behalf of government) and includes/adjusted for variable consideration like rebates, discounts, only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur when the uncertainty associated with the variable consideration is subsequently resolved. Fee based income are recognized when they become measurable and when it is probable to expect their ultimate collection.</p> <p><b>5.7.5 Interest income on Investments</b></p> <p>Interest income from investments is recognised when it is certain that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable.</p> |
| <p><b>5A.8</b></p> | <p><b>Borrowing costs</b></p> <p>Borrowing costs directly attributable to the acquisition are capitalized as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. | <b>5A.10</b> | <p><b>Property, Plant and Equipment (PPE) and Intangible assets</b></p> <p><b>Recognition</b></p> <p>PPE are initially recognized at cost. Cost of acquisition consists of purchase price or construction cost which is the amount paid and the fair value of any other consideration issued, if any, to acquire the asset and any cost directly attributable in bringing the asset to the location and condition necessary for it to be ready for its intended use.</p> <p>Advances paid towards the acquisition of PPE outstanding at each balance sheet date are disclosed separately under other non-financial assets.</p> <p><b>Subsequent Measurement</b></p> <p>The Company has adopted the cost model of subsequent recognition to measure the Property, Plant and Equipment. Consequently, all Property, Plant and Equipment are carried at its cost less accumulated depreciation and accumulated impairment losses, if any. Subsequent expenditure is recognised as an increase in the carrying amount of the asset when it is probable that future economic benefits deriving from the cost incurred will flow to the enterprise and the cost of the item can be measured.</p> <p><b>De-recognition</b></p> <p>An item of Property, Plant and Equipment and any significant part initially recognized is de-recognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss account when the asset is derecognized.</p> <p><b>Intangible assets</b></p> <p>Intangible assets are initially measured at cost and any cost directly attributable in bringing the asset to the condition necessary for it to be ready for its intended use. An intangible asset is recognized only when its cost can be measured reliably and it is probable that the expected future economic benefits that are attributable to it will flow to the Company.</p> <p>They are subsequently measured at cost less accumulated amortisation and accumulated impairment loss, if any.</p> |

| 5A.13 | <p><b>Leases</b></p> <p><b>(a) Company as a lessee</b></p> <ul style="list-style-type: none"> <li>i) The Company assesses at contract inception whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. The Company recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of use asset is initially measured at cost, which comprises the initial amount of lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct cost incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.</li> <li>ii) The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-to-use asset or the end of the lease term. The estimated useful life of the right-to-use asset is determined on the same basis as those of property, plant and equipment. In addition, the right-to-use asset is periodically reduced by impairment losses, if any, and adjusted for certain re-measurements of the lease liability.</li> <li>iii) The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate.</li> <li>iv) The lease liability is measured at amortized cost using the effective interest method, it is re-measured when there is a change in future lease payments from a change in an index or rate. When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in the profit and loss if the carrying amount of the right-of-use asset has been reduced to zero.</li> <li>v) The Company presents right-of-use asset that do not meet the definition of Investment property in the "Right of use assets" separately on the face of the Balance sheet and lease liabilities in "other financial liabilities" in the Balance Sheet.</li> <li>vi) Short term Lease and Leases of low value assets:- The Company has elected not to recognize right-of-use asset and lease liabilities for short term leases that have lease term of 12 months or less and leases of low value assets. The Company recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.</li> </ul> <p><b>(b) As a lessor</b></p> <p>When the Company acts as a lessor, it determines at lease inception whether each lease is a finance lease or an operating lease. To classify each lease, the Company makes an overall assessment of whether the lease transfers substantially all the risk and rewards incidental to the ownership of the underlying asset. If this is the case, then the lease is a finance lease, if not then it is an operating lease. As part of the assessment, the Company considers certain indicators such as whether the lease is for the major part of the economic life of the asset.</p> <p>The Company recognizes lease payments received under operating lease as income on a straight-line basis over the term of relevant lease unless the payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases as part of "Rental Income".</p> |
| 5A.14 | <p><b>Financial instruments</b></p> <p>A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.</p> <p><b>Initial recognition and measurement</b></p> <p>The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and financial liabilities are recognised initially at fair value adjusted by transaction costs that are attributable to the acquisition or issue of the financial asset or financial liability except in the case of financial assets or financial liability recorded at fair value through profit or loss where the transaction cost are charged to profit and loss.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

**Subsequent measurement**
**a) Non-derivative financial instruments**
**i) Financial assets carried at amortised cost**

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

**ii) Financial assets at fair value through other comprehensive income**

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Further, in cases where the Company has made an irrevocable election based on its business model, for its investments which are classified as equity instruments other than which are held for trading and contingent consideration recognized by an acquirer in a business combination to which Ind AS 103 applies are classified as at FVTPL, the subsequent changes in fair value are recognized in other comprehensive income.

**iii) Financial assets at fair value through profit or loss**

A financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss. It includes all derivative financial instruments except for those designated and effective as hedging instruments, for which the hedge accounting requirements are being applied.

**iv) Equity investments**

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which Ind AS 103 applies are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the P&L.

**v) Financial liabilities**

Financial liabilities are subsequently carried at amortised cost using the effective interest method except for derivative financial liabilities which are carried at FVTPL with gains or losses recognized in the statement of profit and loss. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate the fair value due to the short maturity of these instruments.

**b) Derivative financial instruments**

The Company holds various derivatives to mitigate the risk of changes in exchange rates on foreign currency exposures as well as interest fluctuations including foreign exchange forward contracts, currency and interest rate swaps etc. The counterparty for these contracts is generally a bank.

### Hedge accounting

Under hedge accounting, an entity can designate derivative contracts either as cash flow hedge or fair value hedge. The Company designates certain derivative contracts as cash flow hedges.

To qualify for hedge accounting, the hedging relationship must meet all of the following requirements:

- There is an economic relationship between the hedged item and the hedging instrument.
- The effect of credit risk does not dominate the value changes that result from that economic relationship
- The hedge ratio of the hedging relationship is the same as that resulting from the quantities of:
  - the hedged item that the company usually hedges; and
  - the hedging instrument that the company usually uses to hedge that quantity of hedged item
- The hedging relationship consists only of eligible hedging instruments and eligible hedged items
- At the inception of the hedging relationship there is formal designation and documentation of the hedging relationship and the entity's risk management objective and strategy for undertaking the hedge and its hedge effectiveness

### Cash flow hedge

The hedging instruments which meets the qualifying criteria for hedge accounting are designated as cash flow hedge. The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognised in Other Comprehensive Income. The change in intrinsic value of hedging instruments is recognised in 'Effective Portion of Cash Flow Hedges'. The amounts recognized in such reserve are reclassified to the Statement of Profit or Loss when the hedged item affects profit or loss. Further, the change in fair value of the time value of a hedging instruments is recognised in 'Cost of Hedging Reserve'. The amounts recognised in such reserve are amortised to the Statement of Profit and Loss on a systematic basis. The gain or loss relating to ineffective portion is recognised immediately in Statement of Profit and Loss.

### Fair value hedge

In line with the recognition of change in the fair value of the hedging instruments in the Statement of Profit & Loss, the change in the fair value of the hedged item attributable to the risk hedged is recognised in the Statement of Profit and Loss. Such changes are made to the carrying amount of the hedged item. Amortisation of said changes in carrying amount may begin as soon as an adjustment exists and shall begin no later than when the hedged item ceases to be adjusted for hedging gains and losses. The amortisation is based on a recalculated effective interest rate at the date that amortisation begins. If the hedged item is de-recognised, the unamortised fair value is recognised immediately in Statement of Profit and Loss.

Hedge accounting is discontinued when the hedging instrument expires, or terminated, or exercised, or when it no longer qualifies for hedge accounting.

### Financial assets or financial liabilities, at fair value through profit or loss

This category has derivative financial assets or liabilities which are not designated as hedges. Any derivative that is not designated a hedge is categorized as a financial asset or financial liability, at fair value through profit or loss.

Derivatives not designated as hedges are recognized initially at fair value and attributable transaction costs are recognized in net profit in the Statement of Profit and Loss when incurred. Subsequent to initial recognition, these derivatives are measured at fair value through profit or loss and the resulting exchange gains or losses are included in Statement of Profit and Loss. Assets/liabilities in this category are presented as financial assets/ financial liabilities if they are either held for trading or are expected to be realized within 12 months after the balance sheet date.

### De-recognition of financial instruments

The Company de-recognises a financial asset when the contractual rights to the cash flows from the financial asset expire or when substantially all the risks and rewards are transferred or it transfers the financial asset and transfer qualifies for de-recognition under Ind AS 109.

A financial liability (or a part of a financial liability) is de-recognised from the Company's balance sheet when the obligation specified in the contract is discharged or cancelled or expires.

**Stage – 2 - 31-90 days**

Includes loan assets that have had a significant increase in credit risk since initial recognition but that do not have objective evidence of impairment.

**Stage – 3 - Above 90 days.**

Includes loan assets that have objective evidence of impairment at the reporting date.

The Expected Credit Loss (ECL) is measured at 12-month ECL for Stage 1 loan assets and lifetime ECL for Stage 2 & Stage 3 loan assets. ECL is the product of the Probability of Default, Exposure at Default and Loss Given Default, defined as follows:

**Probability of Default (PD)** - The PD represents the likelihood of a borrower defaulting on its financial obligation, either over the next 12 months (12 months PD), or over the remaining lifetime (Lifetime PD) of the obligation.

**Loss Given Default (LGD)** - LGD represents the Company's expectation of the extent of loss on a defaulted exposure. LGD varies by type of counterparty, type, and preference of claim and availability of collateral or other credit support.

**Exposure at Default (EAD)** - EAD is based on the amount of outstanding exposure as on the assessment date on which ECL is computed.

The ECL is calculated based on the historical data with due weightage to the likely future events which may affect the cash flows. The Company recognises in statement of profit or loss, as an impairment gain or loss, the amount of Expected Credit Loss (or reversal) that is required to adjust the loss allowance at the reporting date.

Additional provision is made in order to establish a balance in the provision for loans that the Corporation's management considers prudent and adequate keeping in view the unforeseen events and happenings such as change in policy of Government and procedural delays in repayments from the agencies, outcome of pending cases under Insolvency and Bankruptcy code etc.

**Modification Loans**

The company allows concessions or modification of loan term as a response to the borrowers' financial difficulties rather than taking possession or to other wise enforce collection of security. The company considers a loan for borne when such concession or modification are provided as a result of the borrower present and expected financial difficulties and the company would not have agreed to them if the borrower had been financially healthy. Indicators of financial difficulties include defaults on covenants, or significant concerns raised by the Credit Risk Department. Forbearance may involve extending the payment arrangement and the agreement of new loan condition. Once the term is negotiated, any impairment is measured by taking into account the original and modified parameter. It is the company's policy to monitor forbore loans to help ensure that future payment continues to be likely to occur. De-recognition decisions and classifications between Stage 2 and Stage 3 are determined on a case-by-case basis. If these procedures identify a loss in relation to loan, it is disclosed and managed as an impaired Stage 3 or forbore asset until it is collected or written off. However, if the modification results into notional gain on account change in expected future value of cash flows, the same shall not be recognized.

When the loan has been renegotiated or modified but not derecognized, the company also reassesses whether there has been a significant increase in credit risk.

**b) Non-financial assets**

**Intangible assets and property, plant and equipment**

Intangible assets and property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the CGU to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognized in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the Statement of Profit and Loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior years.

| <b>5A.18</b> | <p><b>Government grants and subsidies</b></p> <p>Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognised as income in equal amounts over the expected useful life of the related asset.</p> <p>When the Company receives grants of non-monetary assets, the asset and the grant are recorded at fair value amounts and released to profit or loss over the expected useful life in a pattern of consumption of the benefit of the underlying asset i.e., by equal annual instalments. When loans or similar assistance are provided by governments or related institutions, with an interest rate below the current applicable market rate, the effect of this favourable interest is regarded as a government grant. The loan or assistance is initially recognised and measured at fair value and the government grant is measured as the difference between the initial carrying value of the loan and the proceeds received. The loan is subsequently measured as per the accounting policy applicable to financial liabilities.</p> <p>a) The Company acts as a channelizing agency for disbursement of grants/ subsidies under various schemes of the Government and Government Agencies. The Company receives the amount of such grants/subsidies and disburses them to eligible parties in accordance with the schemes of the relevant grants/subsidies. | <b>5B.1</b> | <p><b>Business model assessment</b></p> <ul style="list-style-type: none"> <li>Classification and measurement of financial assets depends on the results of the SPPI and the business model test. The Company determines the business model at a level that reflects how Companies of financial assets are managed together to achieve a particular business objective. This assessment includes judgement reflecting all relevant evidence including how the performance of the assets is evaluated and their performance measured, the risks that affect the performance of the assets and how these are managed and how the managers of the assets are compensated. The Company monitors financial assets measured at amortised cost or fair value through other comprehensive income that are derecognised prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Monitoring is part of the Company's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and so a prospective change to the classification of those assets.</li> </ul> <p><b>Estimates and Assumptions</b></p> <ul style="list-style-type: none"> <li>The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next Financial Year, are described below. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the company. Such changes are reflected in the assumptions when they occur</li> </ul> |
| <b>5B.2</b> | <p><b>Fair value of financial instruments</b></p> <p>The fair value of financial instruments is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e., an exit price) regardless of whether that price is directly observable or estimated using another valuation technique. When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be derived from active markets, they are determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this is not feasible, estimation is required in establishing fair values. Judgements and estimates include considerations of liquidity and model inputs related to items such as credit risk (both own and counterparty), correlation and volatility.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

| <b>5B.4</b> | <p><b>Impairment of Financial Asset</b></p> <p>The measurement of impairment losses across all categories of financial assets requires judgement, in particular, the estimation of the amount and timing of future cash flows and collateral values when determining impairment losses and the assessment of a significant increase in credit risk. These estimates are driven by a number of factors, changes in which can result in different levels of allowances.</p> <p>The company's ECL calculations are outputs of complex models with a number of underlying assumptions regarding the choice of variable inputs and their interdependencies. Elements of the ECL models that are considered accounting judgements and estimates include:</p> <ul style="list-style-type: none"> <li>- The Company's grading model, which assigns PDs to the individual grades</li> <li>- The Company's criteria for assessing if there has been a significant increase in credit risk and so allowances for financial assets should be measured on a LTECL basis and the qualitative assessment</li> <li>- The segmentation of financial assets when their ECL is assessed on a collective basis - Development of ECL models, including the various formulas and the choice of inputs</li> <li>- Determination of associations between macroeconomic scenarios and, economic inputs, such as unemployment levels and collateral values, and the effect on PDs, EADs and LGDs</li> <li>- Selection of forward-looking macroeconomic scenarios and their probability weightings, to derive the economic inputs into the ECL models</li> </ul> <p>It has been the Company's policy to regularly review its models in the context of actual loss experience and adjust when necessary.</p> |

Note:

- The table above shows fair value of Derivative financial instruments recorded as Assets/Liabilities together with their Notional amounts. The Notional amounts indicate the value of transactions outstanding at the period end and are not indicative of market or credit risk.
- The fair value of the derivative financial instruments are those as informed by the counter parties (generally Banks).
- The Company holds Derivative financial instruments such as foreign exchange forward contracts, currency swaps or currency option contracts to mitigate the risk of changes in foreign exchange rates on foreign currency liabilities/forecasted cash flow denominated in foreign currencies. Derivatives are used exclusively for hedging and not as trading or speculative instruments. Such derivative contracts are not designated as hedges and are accounted for at Fair Value through Profit and Loss. The counter party for these contracts is generally a bank.
- The Company's risk management strategy and how it is applied to manage risk are explained in Note 37 & 38 of Notes to Accounts.

**NOTE: 10(a)(3) Impairment assessment**

The references below show where the Company's impairment assessment and measurement approach is set out in these notes. It should be read in conjunction with the Summary of significant accounting policies.

- The Company's definition and assessment of default and cure.
- How the Company defines, calculates and monitors the probability of default, exposure at default and loss given default.
- When the Company considers there has been a significant increase in credit risk of an exposure.
- The Company's policy of segmenting financial assets where ECL is assessed on a collective basis.
- The details of the ECL calculations for Stage 1, Stage 2 and Stage 3 assets.

**NOTE: 10(a)(4)(i) Definition of default**

The Company considers a financial instrument as defaulted and considered it as Stage 3 (credit-impaired) for ECL calculations in all cases, when the borrower becomes 90 days past due on its contractual payments.

**NOTE: 10(a)(4)(ii) Probability of default**

"The estimation of Probability of Default (PD) shall be carried out in accordance with the following principles:

- a. Through-the-Cycle PD (TTC-PD): TTC-PD shall be calculated using an incremental Non Performing Asset (NPA) approach. In cases where there is limited default history for a specific portfolio, a credit rating-based default study shall be utilized to derive the TTC-PD.

- b. Point-in-Time PD(PiT-PD): Through-the-Cycle Probability of Default (TTC-PD) shall be converted into Point-in-Time Probability of Default (PiT-PD) using a forward-looking model. This model shall incorporate portfolio-specific macroeconomic variables to ensure that the estimate reflects current and anticipated economic conditions relevant to the portfolio.
- c. Stage-II Loans – Lifetime PD: For loans classified under Stage-II, Lifetime Probability of Default shall be estimated using survival analysis techniques over the remaining contractual tenure of the loans.
- d. Stage-III Loans: Loans classified under Stage-III shall be assigned a Probability of Default of 100%.

**NOTE: 10(a)(4)(iii) Exposure at default**

The exposure at default (EAD) represents the gross carrying amount of the financial instruments subject to the impairment calculation, addressing both the borrower's ability to increase its exposure while approaching default and potential early repayments too.

**NOTE: 10(a)(4)(iv) Loss given default**

The Company segments its lending products into smaller, homogeneous portfolios to facilitate accurate estimation of credit risk parameters. For all portfolios except Government Loans Backed by Government Guarantee, the Loss Given Default (LGD) is estimated based on historical recovery experience, taking into account actual recoveries observed over time. In the case of Government Loans Backed by Government Guarantee, a bucket-level LGD approach is adopted. These buckets are defined using state-level fiscal deficit data, which serves as a proxy for the fiscal strength of each state and the corresponding credit risk associated with the guarantees provided.

**NOTE: 10(a)(4)(v) Significant increase in credit risk**

"The Company continuously monitors all assets subject to ECLs. In order to determine whether an instrument or a portfolio of instruments is subject to 12mECL or lifetime ECL, the Company assesses whether there has been a significant increase in credit risk since initial recognition. The Company considers an exposure to have significantly increased in credit risk when contractual payments are more than 30 days past due. When estimating ECLs on a collective basis for a group of similar assets, the Company applies the same principles for assessing whether there has been a significant increase in credit risk since initial recognition."

**NOTE: 10(a)(4)(vi) Grouping financial assets measured on a collective basis**

The Company calculates ECLs on collective basis for all Stage I and II Loans and on an individual basis for Stage III Loans.

### 36.7. Key assumptions and range of inputs

#### (a) Net Asset Value (NAV) Method:

The Net Asset Value Method represents the value with reference to historical cost of assets owned by the company and the attached liabilities on the valuation date.

#### (b) Discounted Projected Cash Flow:

Discounted Projected Cash Flow valuation technique is used to calculate Impact on fair value of level 3 financial instruments measured at fair value using the following unobservable input such as Discount Rate, Recovery rates, Interest Rate and Revenue from operations to ascertain the change.

- (c) To arrive at fair value of unquoted investments average of Net Asset Value (NAV) and Discounted Projected Cash flow as on 31<sup>st</sup> March, 2025 is taken.

The range of values indicates the highest and lowest level input used in the valuation technique and, as such, only reflects the characteristics of the instruments as opposed to the level of uncertainty to their valuation.

All changes in the fair market value would be reflected in the Statement of profit and loss based on the classification FVTPL.

The table summarises the valuation techniques together with the significant unobservable inputs used to calculate the fair value of the Company's Level 3 assets and liabilities.

### 36.8. Quantitative analysis of Significant Unobservable inputs

#### Interest rate volatility

Interest Rate volatility measures the expected future variability of a market price. It is generally quoted as a percentage; a higher number represents a more volatile instrument, for which larger swings in price (or interest rate) are expected. Volatility is a key input used to estimate the future prices for the underlying instrument (equity share). Interest rate volatility varies from time to time and therefore, it is not viable to make reliable and meaningful general statements about volatility levels.

#### Discount Rates

Discount rates are used for calculating the present value of future cash flows. In discounted cash flow models, discount rates are used as the direct reflection of the expected rate of return of the investments made by the company in the due course of the business. Hence, these rates reflect the net present value of an asset. They generally reflect the premium an investor expects to achieve over the benchmark interest rate to compensate for the higher risk driven by the uncertainty of the cash flows caused by the credit quality of the asset. They can be implied from market prices and are usually unobservable for illiquid or complex instruments.

#### Recovery Rates

Recovery rates reflect the estimated loss that the company will suffer given expected defaults (Non-performing Assets). The recovery rate is given as a percentage and reflects the opposite of loss severity (i.e., 100% recovery reflects 0% loss severity). In line with the operation of the Company, probability of non-performing assets to loss assets plays an important role to ascertain the recovery rates. Higher loss severity levels / lower recovery rates indicate lower expected cash flows upon the default of the instruments. Recovery rates for complex, less liquid instruments are usually unobservable and are estimated based on historical data.

#### Revenue from operations

Revenue is the value of all sales of goods and services recognized by a company in a period. Revenue (also referred to as Sales, Turnover, or Income) forms the beginning of a company's Income Statement and often considered the "Top Line" of a business. Growth in revenue from operation directly impacts the profitability of the company, as operation expenses are deducted from a company's revenue to arrive at its profit.

### 36.9. Sensitivity of fair value measurements to changes in unobservable market data

Sensitivity of fair value measurements to changes in unobservable market data cannot be ascertained due to potential off-sets from economic or accounting hedge relationships in place.

### 36.10. Carrying amount and Fair value of financial instruments

The following table indicates the carrying amounts and fair values of the Company's financial instruments, by class, that are not carried at fair value in the financial statements. This table does not include the fair values of non-financial assets and non-financial liabilities.

Trade Receivable, Other Receivables and Trade Payables and Other Payables are carried at Carrying amount which equals fair values, these are not carried at fair value in the financial statements.

### 36.11 Valuation Methodology of financial instruments not measured at fair value

Below are the methodologies and assumptions used to determine fair values for the above financial instruments which are not recorded and measured at fair value in the Company's financial statements. These fair values were calculated for disclosure purposes only. The below methodologies and assumptions relate only to the instruments in the above tables and, as such, may differ from the techniques and assumptions explained in Note 36.4.

#### Short-term financial assets and liabilities

For financial assets and financial liabilities, that have a short-term maturity (less than twelve months), the carrying amounts, which are net of impairment, are a reasonable approximation of their fair value. Such instruments include: Trade receivables and trade payables without a specific maturity.

#### Loans and advances to customers

The carrying amount of fixed interest rate bearing loans and floating interest rate bearing loans are taken as fair values.

#### Financial asset at amortised cost

The fair values of financial assets at amortised cost are the carrying amount of the financial asset.

#### Debt Securities

Fair value of traded bonds is market price of the bonds as on the balance sheet date or close to balance sheet date. In case of Commercial Paper which is Current Liability i.e., short term maturity (less than or equal to twelve months), the face value of outstanding commercial paper is considered as fair value.

#### Borrowing other than debt securities

The carrying amount of fixed interest rate bearing borrowings and floating interest rate bearing borrowings are taken as fair values, since these are reasonable approximation of their fair value.

## NOTE 37: RISK MANAGEMENT

### 37.1. Introduction and risk management structure

The Company being an Infrastructure Finance Company is exposed to various types of risks like credit risk, operational risk, liquidity risk, market risk, foreign currency risk etc. The Company is fully committed to manage these risks in an effective and proactive manner, for which HUDCO has in place a Comprehensive Risk Management Policy and Risk Register cum Early Warning Signals aligned with its objectives covering both the internal and external environment.

Credit risk arising from derivative financial instruments is, at any time, limited to those with positive fair values, as recorded on the balance sheet.

With gross-settled derivatives, the Company is also exposed to a settlement risk, being the risk that the company honours its obligation, but the counterparty fails to deliver the counter value

#### 37.2.2. Exposure to credit risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk was ₹ 1,24,340.71 Crore and ₹ 91,365.05 Crore as of 31<sup>st</sup> March 2025 and 31<sup>st</sup> March, 2024 respectively, being the total of the carrying amount of balances with loans.

#### 37.2.3. Analysis of risk concentration

HUDCO takes into consideration NHB/RBI norms for risk categorisation and the norms adopted for extending loan under HUDCO Niwas. Higher LTV is permissible for lower loan amounts while LTV reduces with the higher loan amounts. [Refer Note:10(a)(1)]

#### 37.4.2. Interest rate risk

The interest rate risk is being monitored with the help of interest rate sensitivity analysis under the Asset Liability Management System.

The following table demonstrates the sensitivity to a reasonably possible change in interest rates (all other variables being constant) of the Company's statement of profit and loss and equity.

The sensitivity of the statement of profit and loss is the effect of the assumed changes in interest rates on the profit or loss for a year, based on the floating rate non-trading financial assets and financial liabilities held at 31<sup>st</sup> March, 2025 and 31<sup>st</sup> March, 2024.

### 37.4.3. Currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument, denominated in currency other than functional currency, will fluctuate because of changes in foreign exchange rates.

#### (i) Foreign currency risk monitoring and management

Foreign Currency risk arises from future commercial transactions and recognised assets and liabilities denominated in a currency that is not the company's functional currency i.e. INR. The company has overseas foreign currency borrowings and is exposed to foreign exchange risk primarily with respect to the USD and JPY. In order to mitigate the risks associated with foreign currency fluctuations, Company has a Foreign Currency Risk Management policy. It uses a combination of currency swaps and options to hedge its exposure to foreign currency risk. These derivative transactions are done for hedging purpose and not for trading or speculative purpose. The policy lays down the appropriate systems and controls to identify, measure and monitors, the currency risk for reporting to the Management.

#### (ii) Foreign currency exposure

The Company is exposed to foreign currency risk mainly on its borrowings denominated in foreign currency. The carrying amount of the Company's foreign currency denominated borrowings is as follows:

| Description | As at 31.03.2025 |            | As at 31.03.2024 |            |

#### (iii) Foreign Currency Sensitivity Analysis:

The following table presents the impact on total equity [Gain/(Loss)] for 1% change in foreign currency exchange rate against INR on unhedged portfolio of outstanding foreign currency borrowings:

### 37.4.4. Equity price risk

Equity Price Risk is the risk that the fair value of equities decreases as a result of changes in the level of equity indices and individual stocks. At increase in the value of the Company's Equities at 31<sup>st</sup> March, 2025 would have increased Equity by ₹ 28.17Crore. An equivalent decrease would have resulted in an equivalent but opposite impact and would cause a potential impairment, which would reduce profit before tax by approximately by ₹ 28.17Crore

### 37.4.5. Operational Risk

Operational Risk Management Framework covers managing each and every source of Operational Risk as a distinct risk to the Company's safety and soundness. In order to mitigate the Operational Risk(s) of the organization, both internal as well as external, including Technology Risk, Cyber Security Risk, Employee Risk, Capital Asset Risk, Compliance Risks, Fraud Risk, Legal Risk, etc. the Company has established a strong reporting and monitoring mechanism.

To manage the operational risks effectively, the Company has implemented a Comprehensive Risk Management Policy and Risk Register cum Early Warning Signals, through which all operational risks are measured and categorised as high, moderate or low and necessary steps are taken to manage these risks.

## NOTE 38: HEDGE ACCOUNTING

- Hedge effectiveness is determined at the inception of the hedge relationship, and through periodic prospective effectiveness assessments to ensure that an economic relationship exists between the hedged item and hedging instrument.

The Company has used hypothetical derivative method for effectiveness assessment. Under this method, the hedged risk is modelled as a derivative called the hypothetical derivative which has the same terms as the hedged item. The hypothetical derivative approach compares the change in fair value of the hedging instrument with the change in the fair value of the hypothetical derivative. Prospective hedge effectiveness testing has been performed using the sensitivity analysis approach. Under this approach, the impact of a uniform +/- 5% shock on the forward curve has been performed to assess the effectiveness of the hedge.

The currency swap and option contracts are denominated in the same currency as the highly probable future foreign currency principal and interest payments, therefore the hedge ratio is 1:1.

#### 3) (A)- Andrews Ganj Project

- i. HUDCO had initiated execution of Andrews Ganj Project (AGP) on behalf of the then Ministry of Urban Development, (MoUD) in the year 1989-90.
- ii. As per minutes of the meeting held on 7<sup>th</sup> September, 1995, it has been agreed to pay interest @ 17% p.a. (simple) on the expenditure incurred on AGP along with 1.5% of project cost as administrative charges.
- iii. As per Perpetual Lease Deed dated 04<sup>th</sup> July, 1997, the Company is liable to make available "Net Resources" from the development and disposal of properties of the AGP to then MoUD and accordingly the Company was crediting interest on Net Resources generated on the project upto 03<sup>rd</sup> November, 2004. Subsequently, a separate "No Lien AGP Account" has been opened under the name of "HUDCO AGP Account", in which the surplus lying to the credit of the then MoUD was credited and interest accrued/ earned on "No Lien AGP Account" was also credited to that account.
- iv. HUDCO contends that as per minutes of the meeting held on 07<sup>th</sup> September, 1995 and in terms of Perpetual Lease Deed dated 04<sup>th</sup> July, 1997, the status of the Company is "Agent of MoUD". The contention of HUDCO is that it is working as an agent and as such total ownership rights and responsibilities of AGP are of MoHUA-GOI (erstwhile MoUD) and there is no financial liability of HUDCO in respect of AGP. This has been upheld by learned Shri GE Vahanvati, the then Solicitor General of India, vide his opinion dated 12<sup>th</sup> April, 2005. This opinion was re-confirmed by learned Shri GE Vahanvati as Attorney General of India vide his opinion dated 19<sup>th</sup> August, 2009. The opinion was also duly endorsed by the then Law Secretary and Law Minister of Government of India.
- v. Keeping this position in view and in accordance with HUDCO's Board decision in 459<sup>th</sup> meeting dated 24<sup>th</sup> August, 2009, HUDCO has been making payments / settling claims on Ministry's behalf and accounting them in "No Lien AGP Account" being separately maintained by HUDCO. As on 31<sup>st</sup> March, 2025, this account has a deficit in the form of debit balance of ₹ 626.51 Crore, recoverable from MoHUA (erstwhile MoUD). This represents amount paid by HUDCO on behalf of the Ministry for the capital and revenue expenditures on AGP project over and above the recoveries and the accumulated interest amounting to ₹ 350.28 Crore charged @ 10.75% p.a. (simple), on excess of expenditure over recoveries. The MoHUA (erstwhile MoUD) in a meeting held on 27<sup>th</sup> April, 2015 have also asserted that HUDCO shall continue to implement and manage the AGP in terms of Perpetual Lease Deed and all the pending issues shall be looked into for resolution by the Ministry. The MoHUA (erstwhile MoUD) in the said meeting has also decided that HUDCO as a Lessee will bear all the liabilities including the liabilities generated out of compliance of various court orders in cases related to the project. The company vide its letter dated 30<sup>th</sup> September, 2015, conveyed its reservation to accept the decision for bearing the liabilities of Andrews Ganj project as HUDCO is acting as an agent of MoHUA, Government of India, for AGP, in terms of perpetual lease deed conditions and other agreed terms.
- vi. The Ministry has been informed specifically of the above facts and figures on various occasions through correspondence as also in the meetings. A communication was received from Dy. L&DO vide letter dated 22<sup>nd</sup> March, 2016 wherein Dy. L&DO had conveyed that HUDCO may continue to implement Andrews Ganj project and manage "No Lien AGP Account" in line with the terms and conditions as stipulated in the Perpetual Lease Deed dated 04<sup>th</sup> July, 1997. The Ministry again informed in specific vide Dy L&DO letter dated 31<sup>st</sup> May, 2018 that HUDCO as a lessee is permitted to incur/book maintenance and legal expenditure in respect to Andrews Ganj Project from "No Lien AGP Account". Like earlier years, in-line with the minutes of meeting dated 07<sup>th</sup> September, 1995, the perpetual lease deed dated 04<sup>th</sup> July, 1997, income of ₹ 29.46 Crore on account of interest accrued on AGP Project has been credited to Statement of Profit and Loss for the period year ended 31<sup>st</sup> March, 2025.
- vii. As decided by HUDCO Board in its 596<sup>th</sup> meeting held on 14<sup>th</sup> June, 2018, Ministry of Housing and Urban Affairs has been requested vide letter dated 09<sup>th</sup> July, 2018 to consider taking over the Andrews Ganj project with assets and liabilities and pay the amount incurred / to be incurred by HUDCO, towards implementing the project. It has also been conveyed that "till the project is taken over by Ministry", HUDCO shall be continuing implementing the project as per existing arrangements and continue booking maintenance and legal expenses, interest @ 10.75% p.a. and administrative charges @1.5% in "No Lien AGP Account".
- viii. The company, in its aforesaid capacity as an agent of MoHUA (erstwhile MoUD), relating to AGP, is in possession of real estate properties (9 guest houses blocks and hotel site) which command much higher realizable market value sufficient to recover aforesaid amount of ₹ 626.51 Crore, as on 31<sup>st</sup> March, 2025.
- ix. MoHUA was requested vide letter dated 13<sup>th</sup> January, 2021 to make arrangement towards reimbursement of

the amount recoverable endorsement for settling the same from the project proceeds as and when the same are realized, which is also in line with the Lease agreement and well settled and agreed.

In reply to the same, Ministry vide letter dated 10<sup>th</sup> March, 2021 had requested for certain additional information including the breakup details of principal amount and interest amount as contained in the “No Lien AGP Account” to process HUDCO’s request.

Ministry vide letter dated 28<sup>th</sup> June, 2021 had stated that the “HUDCO’s proposal is under examination in consultation with IFD, MoHUA. Till the proposal of HUDCO vide their letter dated 13<sup>th</sup> January, 2021 is approved, the existing arrangement may be continued as conveyed vide this office letter dated 22<sup>nd</sup> March, 2016 and 31<sup>st</sup> May, 2018”.

In the review meeting held by JS (L&E), MoHUA on 19<sup>th</sup> March 2025 it was desired to lower the applicable Rate of Interest charged by HUDCO on outstanding balance of ‘No lien AGP account’. Pursuant thereto, HUDCO vide letter dated 28<sup>th</sup> March 2025 to Ministry has suggested 8.75% rate of interest with prospective effect from 1<sup>st</sup> April 2025; the confirmation on the same by the Ministry is awaited.

HUDCO vide letter dated 13<sup>th</sup> March 2025 informed the Ministry about the Judgement and order dated 13<sup>th</sup> February 2025 of the Hon’ble Supreme Court, which has been noted by the Ministry vide its letter dated 24<sup>th</sup> April 2025.

Hence, in view of the facts and circumstances stated above, the Company does not expect any liability on this account and any expenditure related thereof. In case of any liability by virtue of any court order or otherwise, the same shall be in the account of ‘No lien AGP Account’, based on the facts and documents and the legal opinions obtained by HUDCO.

## (b) Litigation Status

### 1. Tomorrowland Technologies Exports Ltd.

The Company had allotted a hotel site including car parking space to M/s Tomorrowland Technologies Exports Ltd. i.e., TTEL (formerly known as M/s. M S Shoes East Limited). Due to default in payment of instalments by TTEL, the Company cancelled the allotment of hotel site including car parking space and forfeited the amount paid by TTEL in terms of the allotment letter.

TTEL started litigation regarding hotel site and filed suit for declaration in lower courts that cancellation of allotment letter by HUDCO, be declared as null & void. The Sr. Civil Judge passed final order dated 03<sup>rd</sup> July, 2010 against HUDCO. HUDCO filed first appeal against the Order dated 03.07.2010 of Sr. Civil Judge before the Additional District Judge (ADJ) Delhi. The ADJ vide Order dated 18<sup>th</sup> July, 2014 dismissed the first appeal of HUDCO and passed the judgment in favour of TTEL. HUDCO filed Regular Second Appeal (RSA) before the Hon’ble High Court of Delhi which vide its judgement dated 03<sup>rd</sup> June, 2016 allowed the second appeal of HUDCO and upheld the cancellation of allotment by HUDCO w.r.t. Hotel Site & car Parking slots. TTEL challenged the High Court Order dated 03.06.2016 by filing SLP (C) No.: 34338 / 2016 before the Hon’ble Supreme Court of India. The Hon’ble Supreme Court vide its judgment and order dated 13.02.2025 has decided the said SLP and has directed for refund of the forfeited amount of Rs.28,11,31,939/- to TTEL within three months from the date of the order, failing which, TTEL shall be entitled to interest @ 6% per annum till the date of payment.

The allotment of 9 blocks of guest houses, restaurants, kitchens, and shops, which were allotted to TTEL, was cancelled due to default in payment of instalment by TTEL and amount of first instalment paid by TTEL was forfeited as per terms of allotment letter. TTEL filed civil suit challenging the cancellation of allotment, for permanent injunction and possession, against HUDCO & Union of India. The Hon’ble High Court, vide Order dated 10<sup>th</sup> August, 2016, directed that HUDCO & Union of India should consider the proposal given by TTEL for refund of entire amount deposited by way of 1<sup>st</sup> instalment by it with HUDCO along with interest at such rate which may be deemed appropriate by Court.

In view of Hon’ble High Court of Delhi order dated 10<sup>th</sup> August, 2016, the Board in its 568<sup>th</sup> meeting held on 23<sup>rd</sup> August, 2016 resolved to approve the proposal to refund first instalment forfeited by HUDCO excluding earnest money & the interest for delayed payment paid thereof by TTEL for guest house blocks after adjusting the commercial losses caused to HUDCO and other expenses incurred by HUDCO since 1997-98 from the date of completion of project and subject to necessary approval / NOC of MoUD, Govt. of India.

The Hon’ble High Court passed a decree dated 13<sup>th</sup> January, 2017 for refund of the first instalment excluding the earnest money to TTEL along-with interest @ 6% p.a., w.e.f. 30<sup>th</sup> January, 1995 till date of payment and directed HUDCO to refund the interest paid by TTEL (₹0.99 Crore) on the delayed period of payment of 1<sup>st</sup> instalment (from 30<sup>th</sup> November, 1994 till 30<sup>th</sup> January, 1995). If the entire amount is not paid on or before 31<sup>st</sup> December, 2017, the rate of interest would then stand enhanced to 11% p.a. However, the decree was made in-executable till 30<sup>th</sup> June, 2017. Both HUDCO and TTEL challenged the said decree dated 13.01.2017.

TTEL filed Review Petition in the month of May, 2017, before Hon’ble High Court of Delhi for review of the Decree

dated 13<sup>th</sup> January, 2017, praying inter-alia for refund of EMD, grant of interest @ 16.48% p.a. on quarterly rests. Subsequently, Review Petition filed by TTEL was disposed off by the High Court on 12<sup>th</sup> December, 2017. Thereafter, TTEL has filed Special Leave Petition (SLP No 10752/53 of 2018) in Hon'ble Supreme Court against the Decree dated 13<sup>th</sup> January, 2017 and Hon'ble High Court Order dated 12<sup>th</sup> December, 2017. The same have been disposed off by the Hon'ble Supreme Court of India vide its Order dated 10.12.2024 and referred them to Delhi High Court where they are listed as Regular First Appeal No. 1/2025 & 2/2025 of TTEL. The said two RFAs of TTEL are listed with the RFA No. 79/2018 of HUDCO and are currently pending.

The Company also filed application for recalling the Hon'ble High Court Order dated 13<sup>th</sup> January, 2017, in view of the Review Petition filed by TTEL and directions of Govt. of India. The matter was listed on 28<sup>th</sup> August, 2018, after hearing all parties, Hon'ble High Court dismissed the "Recall Application" of HUDCO. HUDCO filed SLP in Supreme Court challenging the High Court Order dated 28<sup>th</sup> August, 2018 and 13<sup>th</sup> January, 2017. Vide Order dated 18<sup>th</sup> September, 2018, the Hon'ble Supreme Court dismissed the SLP as withdrawn, with liberty to HUDCO to file all legal objections regarding the executability of the decree in the executing Court.

Further, TTEL also filed first Execution Petition in Delhi High Court and later on, the same was also withdrawn by TTEL on 23<sup>rd</sup> December, 2017. Thereafter, TTEL has filed Revised Execution Petition, making Govt. of India also a party and claiming rate of interest @ 11% p.a. as per the decree dated 13<sup>th</sup> January, 2017. The matter was listed on 3<sup>rd</sup> May, 2018, wherein the Hon'ble High Court first directed for attachment of HUDCO Property i.e. HUDCO Bhawan, IHC, Lodhi Road, New Delhi. However, after hearing the submission of HUDCO, vide the same order, Hon'ble High Court kept the attachment order of HUDCO Property in abeyance till the next date and also directed that HUDCO will not sell the property at Andrews Ganj, Delhi.

Further, the learned Justice V.N. Khare, former Chief Justice of India, has opined that, "HUDCO's consent to perform the terms of the Order dated 13<sup>th</sup> January, 2017 was conditional on UOI's support and in the event any liability is indeed ascribed to HUDCO, the same should then be recoverable from the UOI".

In view of the Supreme Court's Order dated 18<sup>th</sup> September, 2018, HUDCO filed objection in the Execution Petition, pending in Delhi High Court. The matter was listed on 29<sup>th</sup> October, 2018. After hearing the submission of HUDCO's Counsel, the Hon'ble Court dismissed the objections. HUDCO filed two appeals in Delhi High Court as under:

#### In case of Associate Company

As per Indian Accounting Standard - 19 "Employee Benefits", the disclosures of Employee Benefits are as follows:

##### (a) Defined Benefit Plans/Long Term Compensated Absences:

###### Description of Plan

The gratuity plan is governed by the Payment of Gratuity Act, 1972. Under the said Act, an employee who has completed five years of service is entitled to specific benefit. The Gratuity plan provides a lumpsum payment to employees at retirement, death, incapacitation, or termination of employment. The level of benefits provided depends on the member's length of service and salary at retirement age etc.

\*Gratuity Benefits and Leave Encashment Benefits are unfunded in nature. The liabilities are determined on accrual basis and not on the basis of actuarial principles since the same is not considered material.

(b) The Gratuity and Provident Fund expenses have been recognised under "Contribution to provident fund and other funds" and leave encashment under "Salaries & Wages".

- 14) The Govt. of India through its Notification dated 9<sup>th</sup> August, 2019 had made Reserve Bank of The Govt. of India through its Notification dated 9<sup>th</sup> August, 2019 had made Reserve Bank of India (RBI) as the regulator for HFCs and the supervision part continued to remain with NHB.

RBI has issued notification dated 22<sup>nd</sup> October, 2020, on regulatory framework for HFCs, by which the definition of HFCs has undergone a change. HFCs which are unable to fulfil the criteria shall be required to approach the RBI for conversion of their Certificate of Registration (CoR).

Since, HUDCO does not fulfil the criteria of HFC as per the new definition, RBI was requested vide letter dated 16<sup>th</sup> December, 2020 for special dispensation to HUDCO for granting exemption and treat HUDCO as HFC.

RBI in its reply letter dated 10<sup>th</sup> February, 2021 informed its inability to accede to HUDCO's request for exemption and accordingly suggested to submit a Board approved plan to fulfil the principal business criteria for HFC or to convert into a NBFC-ICC.

RBI was requested vide letter dated 8<sup>th</sup> March, 2021 to grant six months' time for transition to NBFC and to retain the status of HFC and to continue operations with the special dispensations/ relaxations given earlier with regard to credit concentration norms/ exposure norms permitted by NHB/ RBI.

In response to HUDCO's request, RBI vide letter dated 26<sup>th</sup> March, 2021 and 27<sup>th</sup> September, 2021 granted time till 31<sup>st</sup> December, 2021 to submit Board approved plan for conversion to NBFC. RBI further advised that the exemptions from concentration/exposure norms granted previously by NHB/RBI would continue to apply at present subject to the conditions specified while granting such exemptions.

The proposal for transition of HUDCO from its present status of HFC to NBFC – IFC was approved in principle by the HUDCO Board in its meeting held on 28<sup>th</sup> December, 2021. Thereafter, HUDCO obtained approval from Ministry of Housing and Urban Affairs for the conversion before submission of application form to RBI.

RBI was requested vide letter dated 28<sup>th</sup> December, 2021 to grant three months' time for submission of application to RBI and to retain the status of HFC. RBI vide letter dated 31<sup>st</sup> December, 2021 granted time till 31<sup>st</sup> March, 2022 for conversion from HFC to NBFC-IFC.

HUDCO had submitted application to RBI on 29<sup>th</sup> March, 2022 for conversion of Certificate of Registration (CoR) from NBFC- Housing Finance Company (HFC) to NBFC-Infrastructure Finance Company (IFC). In reference thereof, RBI vide letter dated 22<sup>nd</sup> December, 2022 expressed its inability to accede to HUDCO's request for conversion of the Certificate of Registration (CoR) to an NBFC-IFC stating that HUDCO is not meeting the criterion specified for NBFC-IFC at Para 3 (xvi)(a) of the Master Direction-Non-Banking Financial Company Systemically Important Non-Deposit Taking Company and Deposit Taking Company (Reserve Bank) Directions, 2016.

After detailed deliberation and ensuring compliance with the RBI Master Directions for NBFCs, HUDCO resubmitted the application with necessary documents to RBI for conversion of certificate as NBFC-IFC on 22<sup>nd</sup> February, 2023. RBI vide letter dated 25<sup>th</sup> October, 2023 expressed its inability to consider HUDCO's request stating that HUDCO is not meeting the criterion specified for NBFC- IFC at Para 3 (xvi)(a) of the Master Direction-Non-Banking Financial Company Systemically Important Non-Deposit Taking Company and Deposit Taking Company (Reserve Bank) Directions, 2016 i.e. minimum criteria of 75% of its total assets deployed in infrastructure Loans.

Consequent to that, HUDCO's senior management team convened a meeting with RBI officials for consideration of the matter of registration of HUDCO as NBFC-IFC. During the meeting a comprehensive presentation was delivered to address RBI's concerns & queries. Additionally, a detailed roadmap outlining the attainment of infrastructure portfolio by March 2026 was shared with RBI to expedite the conversion process.

Based on the submissions made by the Company, RBI has decided to process our request for conversion of CoR on merit. In this regard, the Company has been advised to submit the application for conversion of CoR along with all latest documents, a statutory auditor certificate indicating position of infrastructure portfolio as on 31<sup>st</sup> March, 2024 and revised roadmap to achieve the Principal Business Criteria (PBC).

As advised by RBI, the Company submitted the application form along with necessary documents including revised roadmap to RBI on 9<sup>th</sup> May, 2024 for registration of HUDCO as NBFC-IFC.

RBI had requested for various additional details/documents and clarifications. In response, HUDCO submitted all the desired details/documents/clarifications as and when required.

RBI issued Certificate of Registration (CoR) dated 23<sup>rd</sup> August, 2024 as an NBFC-IFC, pursuant to the company's application to RBI for conversion of Certificate of Registration (CoR) from NBFC- Housing Finance Company (HFC) to NBFC-Infrastructure Finance Company (IFC).

## 15) Exposure

HUDCO was functioning as HFC under NHB regulations and in accordance to the relaxations permitted by NHB till 28<sup>th</sup> August, 2024. However, from 29<sup>th</sup> August, 2024 HUDCO is registered as NBFC-IFC with RBI. Accordingly, HUDCO is complying with credit concentration norms in accordance to RBI regulations

NHB, from time to time, has given certain relaxations from credit concentration norms considering the role envisaged for HUDCO. However, vide its letter No. NHB(ND)/ DRS/ SUP/ 3911/2018 dated 2<sup>nd</sup> April, 2018, NHB capped the credit concentration (Exposure) limit for Government/Public agencies as follows:

- a. The individual exposure limit of HUDCO to Government/Public Agencies (inclusive of the exposure limit of upto 30% for infrastructure/ non-housing related activities) shall be capped at 50% of its NOF.
- b. The exposure limit of HUDCO for State Government (under group exposure) shall be capped at 150% of its NOF in respect of State of Telangana and 100% of NOF for all other States. HUDCO is required to take suitable steps to bring down the group exposure in respect of State of Telangana also to 100% within a maximum period of 3 years. The conditions relating to compliance by the concerned State with the FRBM limits shall continue to be ensured by HUDCO.
- c. The Board of Directors of HUDCO in its 594<sup>th</sup> meeting held on 19<sup>th</sup> April, 2018 considered above and directed that "NHB be again requested to expeditiously review its decision communicated vide its letter dated 2<sup>nd</sup> April, 2018 and permit HUDCO to continue on the already approved pattern of credit concentration norms communicated by NHB vide its letters from time to time".

NHB vide its letter no. NHB(ND)/DRS/SUP/7085/2018 dated 13<sup>th</sup> July, 2018 conveyed its decision to allow HUDCO to continue its disbursements as per the schedule in relation to the existing sanctions made upto 31<sup>st</sup> May, 2018. \*SEBI (Issue and listing of Non convertible securities) Regulations, mandates Large Corporates to raise minimum 25% of their incremental borrowings (with original maturity of over 1 year) in a Financial Year through issue of debt securities. As Corporate Bond yields continued to remain elevated during the Financial Year, alternative sources / modes of borrowings were chosen to meet operational requirements. **42) Disclosure on Liquidity Coverage Ratio****Qualitative Disclosure:**

HUDCO has implemented an integrated risk management approach through which it reviews and assesses significant risks on a regular basis to ensure that there is a robust system of risk controls and mitigation in place. HUDCO has a well-structured robust Risk Management Policy and Operating Manual in line with its objectives to address the various risks.

In compliance with the SEBI (LODR) Regulations, 2015, HUDCO has in place a Board level Committee under the nomenclature 'Risk Management Committee' (RMC) headed by a member of the Board of Directors, which reviews various decisions/recommendations of the two (2) sub-committees namely:

- Credit & Operational Risk Management Sub-Committee (CORMSC);
- Assets Liabilities Management Sub-Committee (ALCO);

The Risk Management Committee (RMC), which is a committee of the Board, that ensures risks are effectively managed and aligned. The ALCO is responsible for ensuring adherence to the liquidity risk tolerance/limits set out in the board approved Risk Management policy. The role of the ALCO with respect to liquidity risk includes, inter alia, decision on desired maturity profile for assets & liabilities, responsibilities and controls for managing liquidity risk, and overseeing the liquidity position of the company.

### Quantitative Disclosure

Liquidity Coverage Ratio (LCR) aims to promote resilience of NBFCs to potential liquidity disruptions by ensuring that they have sufficient unencumbered High Quality Liquid Asset (HQLA) to survive any acute liquidity stress scenario lasting for 30 days.

“HQLA” means liquid assets that can be readily sold or immediately converted into cash at little or no loss of value or used as collateral to obtain funds in a range of stress scenarios. “Unencumbered” means free of legal, regulatory, contractual or other restrictions on the ability of the NBFC to liquidate, sell, transfer or assign the asset. Assets to be included in the computation of HQLAs are those that the NBFC is holding on the first day of the stress period. Such assets shall be valued at an amount not greater than their current market value for the purpose of computing the LCR. Depending upon the nature of assets, they have been assigned different haircuts, which are to be applied while calculating the HQLA for the purpose of calculation of LCR.

Liquidity Coverage Ratio (LCR) is represented by the following ratio:

$$\frac{\text{Stock of High-Quality Liquid Assets (HQLAs)}}{\text{Total Net Cash Outflows over the next 30 calendar days}}$$

In order to determine Net Cash Outflows, the Company considers total expected cash outflow minus total expected cash inflows for the subsequent 30 calendar days by assigning a predefined stress percentage to the overall cash inflows and cash outflows. Total expected cash outflows (stressed outflows) are calculated by multiplying the outstanding balances of various categories or types of liabilities and off-balance sheet commitments by 115% (15% being the rate at which they are expected to run off further or be drawn down). Total expected cash inflows (stressed inflows) are calculated by multiplying the outstanding balances of various categories of contractual receivables by 75% (25% being the rate at which they are expected to under-flow). However, total cash inflows will be subjected to an aggregate cap of 75% of total expected cash outflows. In other words:

Total Net Cash Outflows over the next 30 days = Stressed Outflows – Lower of (Stressed Inflows or 75% of Stressed Outflows).

The Company computes the LCR and reports the same to the Asset Liability Management Committee (ALCO) every month for review and approval.

The cover design for the 55<sup>th</sup> Annual Report is a visual tribute to HUDCO's five and a half decades legacy of steadfast commitment to nation-building. Further, it encapsulates the corporation's extensive and diverse contribution to India's urban and rural transformation.

The numeral '55' is illustrated with a tapestry of symbolic elements—ranging from housing, transportation, and renewable energy to ports, dams and all basic infrastructure. These icons mirror HUDCO's wide-ranging impact in financing infrastructure development that fuels the aspirations of millions.

The rising arrow signifies sustained growth, strategic vision, and an unwavering trajectory of development. The minimal yet powerful two-tone colour palette blends the brand identity with subtle aesthetic, while the use of iconography ensures instant resonance with stakeholders across sectors.

At the heart of the design lies the idea that HUDCO's indelible footprints extend to the entire infrastructural spectrum and yet goes beyond merely financing infrastructure—it is about enabling communities, empowering individuals, and bridging the gap between today's needs and tomorrow's dreams. This cover is not just a celebration of the past 55 years—it's a window into the future that HUDCO will continue to shape.
