# Annexure

## Notes

1. The gross leasable area of the Investment Properties has been calculated based on the carpet areas. The Company has given the areas to make them comparable with other projects of other developers across the country, and these areas do not represent the basis of the transaction entered into with customers.
2. The areas of Development Properties are the carpet areas as per prevailing law / contractual arrangements.
3. All areas / configurations of projects are based on present estimates and are subject to change based on regulatory requirements and / or design / construction exigencies and / or management decisions.
4. Previous period figures have been re-grouped, re-arranged and re-classified wherever necessary to conform to current period's classification. The classification in this presentation may vary from classifications under Schedule III to the Companies Act or under Accounting Standards or the financial statements published in the Annual Report.
5. Considering the nature of the business carried on by the Company whereby revenues do not necessarily accrue evenly over the projects period, the revenues of the quarter and/or the year may not be strictly comparable with the results of the corresponding quarter and/or the year.
6. From Q1FY26, Gross Booking Value includes subvention amounts and stamp duty where applicable.
