Prime Minister's visit to the United Arab Emirates (May 15, 2026)

📅 May 15, 2026

Prime Minister Shri Narendra Modi paid an official visit to the United Arab Emirates today. He was received at the airport by His Highness Sheikh Mohammed bin Zayed Al Nahyan, President of the UAE and accorded a ceremonial welcome.

5. The two Leaders welcomed the announcement of USD 5 billion in investment into India by UAE entities. This includes investment of USD 3 billion by the Emirates NBD in the RBL Bank of India, USD 1 billion by the Abu Dhabi Investment Authority (ADIA) with the National Infrastructure & Investment Fund of India (NIIF) in priority infrastructure projects in India, and USD 1 billion by the International Holding Company in Sammaan Capital of India. These investments underscore UAE's sustained and long-term commitment to India's growth story, while strengthening the bilateral strategic investment partnership.

- The transaction has been acknowledged within the official India–UAE bilateral engagement framework
- Signals long-term UAE commitment to India's financial sector and to Sammaan Capital's growth platform

UAE Seeks Deeper Ties With India Inc in Strategic Sectors

UAE seeks India partnerships to tap new markets in Africa and Asia

Dilisha Seth

Dubai: The next phase of India-UAE partnership would be driven by joint investments, logistics connectivity, and deeper private-sector collaboration, UAE Minister of Foreign Trade Thani bin Ahmed Al Zeyoudi said at a closed-door industry event.

He said that he expects more private sector-led investment deals between the two countries, adding that strategic sectors should be prioritised to deepen economic integration.

"One of my priorities over the coming months is to encourage more large projects driven by private sector partnerships between India and the UAE. We need to work together on strategic sectors that positively impact people in both countries... It's time for joint ventures, collaboration, and large scale investments led by businesses," Al Zeyoudi said at the India UAE Business Council UAE Chapter closed-door event.

His remarks came days after Prime Minister Narendra Modi's UAE visit, during which there were investment commitments worth nearly \$5 billion. These include \$3 billion investment by Emirates NBD to acquire a 60% stake in RBL Bank, a \$1 billion investment by Abu Dhabi Investment Authority (ADIA) in India's National Investment and Infrastructure Fund (NIIF), and a \$1 billion

Trade Push
UAE pushes for large India-UAE private sector partnership

Non-oil bilateral trade rose 17% to \$76 billion in FY26

Total bilateral trade crossed \$100 billion under CEPA

INDIA-UAE TARGET \$280 billion trade by 2032

commitment by International Holding Company (IHC) to acquire an equity stake in Sammaan Capital.

Al Zeyoudi said that India-UAE trade continues to maintain the growth momentum despite regional disruption, even as global trade has slowed down. Non-oil bilateral trade between India and the UAE touched \$76 billion in 2025-26, a growth of 17%.

"This shows the enormous potential and how closely aligned both nations are," he said. Total bilateral trade has exceeded \$100 billion under the comprehensive economic partnership agreement (CEPA), and the two sides are now targeting \$200 billion by 2032.

He added that UAE is looking to deepen its economic partnership beyond bilateral trade and jointly tap fast growing markets in Africa and Asia. He said the UAE is committed to expanding market access for Indian firms in Africa and be-

yond. "If the UAE and India join forces, we can do amazing work in Africa and surrounding regions. That was also one of the key purposes behind CEPA as well. It is about connectivity between both nations," he said. He underscored that the UAE is not just a market of 10-12 million people, but through its connectivity and agreements, it provides access to markets covering billions of people.

The remarks come as the UAE recalibrates supply-chain and investment strategies amid prolonged geopolitical instability in the region. Al Zeyoudi said that recent disruptions had reinforced the need to diversify sourcing networks and logistics to avoid overdependence on any one geography.

"One of the main lessons for us is that we will not depend on any country for more than 50% of any commodity," he said. "We will ensure diversified sourcing so that disruption in one part of the world does not disable our supply chains."

The UAE is also planning to expand investment in logistics and infrastructure, technology, pharmaceuticals, and strategic sectors that proved critical during disruption.

The UIBC-UC is the official joint chamber, established under the patronage of India's Ministry of External Affairs and the UAE's Ministry of Foreign Affairs and International Cooperation to promote innovative economic collaboration between the two sides. The event was also attended by Indian ambassador to the UAE Deepak Mittal, Consul General of India in Dubai and the Northern Emirates Satish Kumar Singh alongside a group of officials, business leaders and investors from both countries.
