Net profit ratio	0.18%	4.76%	-4.58%	4.57%	5.16%

Quarterly Standalone Financial Highlights contd..

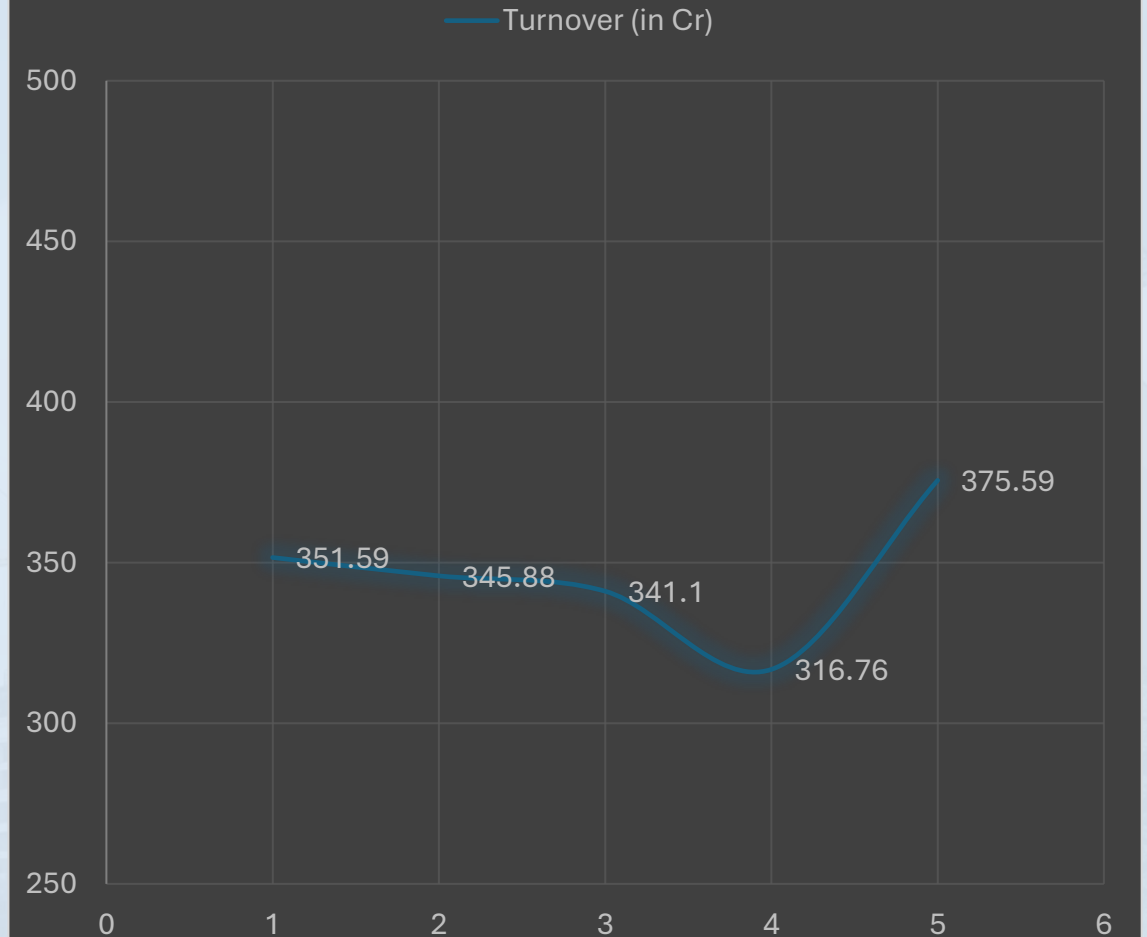

1. RPP is executing projects both by way of direct execution and also by sub contracting the entire work to a third party which will be monitored by our managing director **Mr. Arul Sundaram** and operations head **Mr. Kirubha**.
2. During the current quarter, the revenue from sub contract work had increased rapidly and revenue from self executed works had reduced Since they are in Initial Stage.
3. The reduction in revenue from self-executed projects is primarily due to most projects – including those with Bharat Heavy Electricals Limited – being in their early stages and therefore not yet contributing meaningful revenue. However, preliminary site establishment costs have already been incurred. At the same time, several ongoing projects are nearing completion, resulting in lower incremental revenue contribution during the period. Owing to these factors, the net profit for the current period has declined significantly.
4. Around ₹1,600 crores worth of projects are expected to begin generating revenue toward the end of Q4, with momentum continuing into Q1, supporting a strong start to the new financial period.
5. The Management had taken this on a serious note and are taking necessary actions to increase the volume of self executed projects and also to fasten the project commencement for revenue contribution. We expect the profit of next quarter will be better but significant revenue contribution is expected only from Q1 of next financial year.
