### Management Comment

Commenting on the Company's Q4 & FY26 results, **Mr. Tarak Patel, Managing Director**, said, "The company delivered steady performance this year, achieving 10% revenue growth and 11% EBITDA growth despite a challenging global environment marked by geopolitical uncertainty, macroeconomic headwinds, and subdued demand in our international business, particularly in European. India continues to stand out, with 12% revenue growth, 22% EBITDA growth, and a 40% increase in profit after tax. In Europe, we have implemented decisive cost measures, including the closure of our UK facility and right-sizing operations in Germany, France, and Switzerland. We also commenced operations in our new Poland manufacturing facility, which will serve as a low-cost production hub for the region and enhance our long-term competitiveness. In Q4, strong operational execution was offset by margin pressure resulting from geopolitical tensions in West Asia and broader macroeconomic uncertainty"

He further added, "Order intake during the year improved by 20%, driven by non-traditional markets such as Defence, Oil & Gas and Nuclear, which further reinforces our diversification strategy. Opening backlog stands at ₹ 2,194 crores a 34% increase over previous year giving us strong revenue visibility for the coming year. However, global economic conditions and geopolitical risks continue to create a challenging environment.

As part of our ongoing global transformation, we have appointed Mr. Gregory Gelhaus as Group CEO and Mr. Ankit Nayyar as Deputy CFO. These appointments will accelerate the execution of our strategic vision and will be instrumental in shaping the organization's next phase of growth".

**Unaudited results for the quarter and year ended March 31, 2026, prepared under Ind AS, are available in the Investor Relations section of our website [www.gmmpfaudler.com](http://www.gmmpfaudler.com)**
