**REG: INVESTOR PRESENTATION ON UN-AUDITED FINANCIAL RESULTS FOR THE
QUARTER ENDED SEPTEMBER 30, 2025**

Dear Sir/Ma'am,

Pursuant to Regulation 30 and other applicable provisions, if any, of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, Please find attached herewith detailed Investors Presentation on Un-audited Financial Results for the quarter ended September 30, 2025.

Kindly take the same on record.

Thanking you,

Yours Sincerely,

For JTL Industries Limited

Investor Presentation September 2025

Certain matters discussed in this Presentation may contain statements regarding the **Company's market** opportunity and business prospects that are individually and collectively Forward-looking statements. Such forward-looking statements are not guarantees of future performance and are subject to known and unknown risks, uncertainties and assumptions that are difficult to predict. These risks and uncertainties include, but are not limited to, the performance of the Indian economy and of the economies of various international markets, the performance of the industry in **India and worldwide**, competition, the company's ability to successfully implement its strategy, the **Company's future** levels of growth and expansion, technological implementation, changes and advancements, changes in revenue, income or cash flows, the Company's market preferences and its exposure to market risks, as well as other risks. The Company's actual results, levels of activity, performance or achievements could differ materially and adversely from results expressed in or implied by this Presentation. **JTL Industries** Limited (referred to as "JTL" or "The Company") assumes no obligation to update any forward-looking information contained in this Presentation. Any forward-looking statements and projections made by third parties included in this Presentation are not adopted by the Company and the Company is not responsible for such third-party statements and projections.

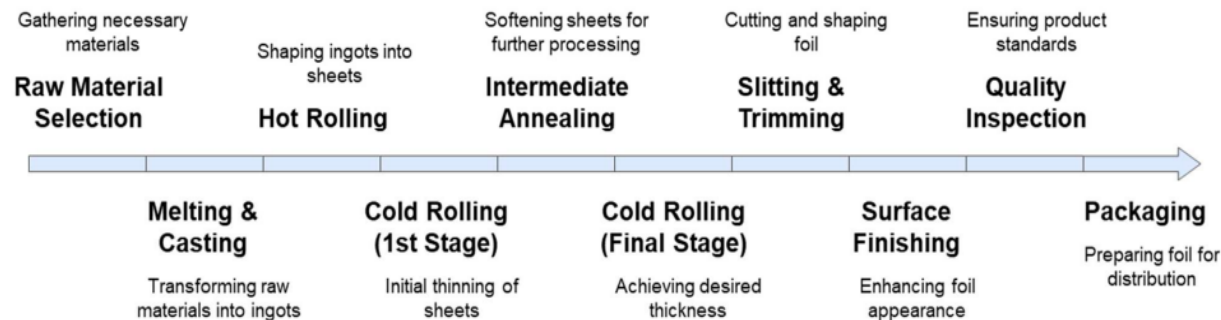

JTL enters a new metal – Brass Foils

- **Product Specification**
 - Ultra-thin **0.04mm brass foil** for high-precision applications
- **Target Applications**
 - EMI/RFI shielding, defence-grade ammunition components
 - Grounding & sensing, thermal control, gaskets & shims
 - Lightweight, corrosion-resistant, and ideal for **precision engineering**
- **Strategic Impact**
 - Positions JTL in a **niche, high-demand market** with **limited competition**
 - **Diversifies SKU mix** and drives growth in **high-margin segments**
 - Plans underway to begin supplying to the **defence sector** in the coming months

From the Managing Director's Desk

JTL Industries delivered a strong rebound in the second quarter of FY26, with profitability and operational metrics improving sharply over the previous quarter. The Company's **EBITDA increased 48% QoQ**, while **EBITDA per metric tonne surged 83% to ₹4,247**, reflecting enhanced product mix and cost efficiencies. **PAT grew 34% QoQ to ₹221 Mn**, underscoring a solid recovery in margins driven by higher value-added product contribution and continued demand strength across domestic and export markets.

The first half of FY26 reflected steady operational momentum for JTL Industries as we continued to build on the foundation laid in the previous quarters. Despite a softer pricing environment, the Company delivered a stable performance with sales volumes rising **3.5% YoY to 182,210 MT**, supported by both domestic and export markets. Total income for H1 stood at **₹9,809 Mn**, maintaining consistency with last year's level. During this period, we also advanced our strategic priorities — launching new product lines, optimizing raw material sourcing, and initiating capacity expansion to enhance future growth. While profitability was temporarily impacted by pricing pressures and expansion-linked costs, margins are expected to recover in the coming quarters as our value-added product portfolio scales up and efficiencies start reflecting.

The second quarter of FY26 demonstrated continued momentum for JTL Industries, supported by strong volume performance and strategic product diversification. Total income stood at **₹4,313 Mn in Q2 FY26**, with **EBITDA at ₹346 Mn (8.5%)** and **PAT at ₹222 Mn (5.1%)**. Sales volume for the quarter reached **81,593 MT**, led by a strong domestic contribution and steady exports. The first half of FY26 closed with cumulative sales of **182,210 MT**, marking a **3.5% YoY growth** and highlighting resilient demand despite a softer pricing environment.

We also achieved a key technological milestone by successfully producing our first batch of 0.04 mm ultra-thin brass foil, marking JTL's entry into the specialized defence and industrial foil segment through a strategic job-work partnership. In parallel, we announced a major capacity expansion—a new ERW pipe manufacturing line focused on API-grade, high-thickness pipes catering to the oil & gas, water transmission, and CGD sectors. This expansion strengthens JTL's positioning among the few Indian manufacturers capable of producing large-diameter, API-compliant ERW pipes.

With strong demand visibility, rising value-added contribution, and new capacities underway, JTL Industries remains well-positioned to deliver sustainable growth and margin improvement in H2 FY26, reinforcing its long-term strategy of innovation-driven and diversified growth.

Operational Performance – Q2 FY26

JTL Industries recorded a total sales volume of **81,593 MT** in Q2 FY26.

Value-added products contributed a significant share of **28%** to the total sales mix, driven by strong demand across key markets.

Key Financial Ratios

EPS post split on 15-11-2024

The key financial ratios for the FY26 are based on half yearly results and do not compare with the full year figures for the other years.

Capacity Expansion

MANGAON

Mangaon currently has a total installed capacity of **4,50,000 MTPA**, which includes **2,50,000 MTPA** with DFT (Direct Forming Technology) already in place.

This plant will also be the manufacturing unit for **3,00,000 MTPA** of ARW/API-grade ERW pipes to be commissioned in a year.

Additionally, **4,00,000 MPTA** of capacity to be added of GI COIL, enhancing our pre-galvanized product range which will be commissioned by Q3FY26.

JTL also adding **6,00,000 MTPA** of colour-coated coil capacity, enhancing our colour-coated product range by H1FY27.

MANDI

The plant delivers a total of **5,000** metric tons per month of HR coils from JTL Engineering (previously Nabha Steels) which will be **doubled** by end of FY26.

Plant-wise Capacity **Summary** (Post Capex)

Particulars	Tube Capacity (MT)	Comments
Derabassi, Punjab	1,00,000	Legacy Plant
Mandi, Gobindgarh, Punjab	2,00,000	Commissioned under JTL in 2020
Raipur, Chattisgarh	2,00,000	Merged with JTL in 2023
Mangaon, Maharashtra	17,50,000	Includes original plant commissioned in 2019, DFT line and upcoming colour-coated and API-grade products
TOTAL	22,50,000	

Particulars	Backward Integration Capacity (MT)	Comments
Chetan Industries (Merged)	1,50,000	Merged in FY23 (effective FY21)
Nabha Steel/JTL Engineering	2,00,000	Acquired in FY25 for captive sourcing
TOTAL	3,50,000	

JTL – A Leading Building Material Solutions Company

Infrastructure Capacity

- **Installed Capacity:**
~9,36,000 MTPA – Pipe Manufacturing
~3,00,000 MTPA – Backward Integration
- 5 state-of-the-art manufacturing facilities
- DFT implemented at Mangaon facility.

Industry Overview

India's steel pipes market continues to outpace broader steel demand, supported by sustained infrastructure investment, growth in oil & gas projects, and rising exports. The market is projected to grow at a **CAGR of 8.29% during 2024–2033**, reaching **27.76 million tons by 2033**. Globally, infrastructure accounts for over 50% of **ERW tube consumption**, with urbanization in emerging economies driving a 35% increase in ERW demand across high-rise buildings and transport networks. **In India**, government-led initiatives have led to a **40% rise in ERW tube usage for construction** and a **30% increase in pipeline installations**, positioning ERW pipes to outperform traditional long products in the coming years.

Growth of the Global ERW Tubes Market

India Steel Pipes Market Growth (2024-2033)

Source: Globalgrowthinsights, Imarcgroup

Growth Opportunities

The demand for structural steel tubes is driven by a substantial government commitment to bolster infrastructure in sectors such as construction, oil & gas, water supply, and agriculture.

Warehousing

According to JLL, the Indian warehousing sector is projected to experience significant growth, with demand expected to reach approximately **1.2 billion square feet by 2027** across Grade A, B, and C facilities.

Metro

India's metro rail network is set to become the world's second-largest in 3-4 years, surpassing the U.S. and China. Currently spanning **973 km across 23 cities**, the government has approved three new metro projects worth **₹31,000 crore** to boost urban transport. This will create a lucrative opportunity for ERW pipes, as metro networks have a high density of stations where these pipes can be used in plenty.

Airports

India's civil aviation industry is expected to grow significantly, requiring **4,000** more aircraft and **200** additional airports over the next 20 years. Currently, there are 157 airports, doubling in the last decade, with plans to add **50** more in the next 5 years to meet rising demand.

Jal Jeevan Mission

Government allotted **₹70,163 crore** for 2024-25, the initiative has already equipped over **77%** of rural households with water connections, up from **17%** at launch in 2019. The aim is to provide clean drinking water to over **180 million** rural households by 2024.

Affordable Housing

India's housing market is projected to grow from approximately \$450 billion today to between \$6,000–\$8,000 billion by 2050, driven by rapid urbanization and rising disposable incomes. Residential real estate is expected to maintain an annual growth rate of 10–12%, bolstered by schemes like the Pradhan Mantri Awas Yojana (PMAY).

Indian Railways

The Amrit Bharat Station Scheme is set to transform **1,300** railway stations across the country, backed by a substantial investment of approximately **₹24,470 crore**.

Precision. Speed. Scale. — JTL's DFT Revolution Begins

From Capability to Competitive Edge

DFT Implementation

- Current Mangaon capacity: **4,50,000 MTPA**
- DFT-enabled capacity: **3,00,000 MTPA**

Technological Edge

- **Roll-less forming**
 - Square: up to **350×350 mm**,
 - Rectangular: up to **400×300 mm**
- Material thickness up to **14 mm**
- **SKU expanded: 1,200 to 2,000+**

Operational Efficiency

- **33% downtime reduction**
- **25% drop in cost**
- **Fast setups, no roll swaps**

Stronger Value Proposition

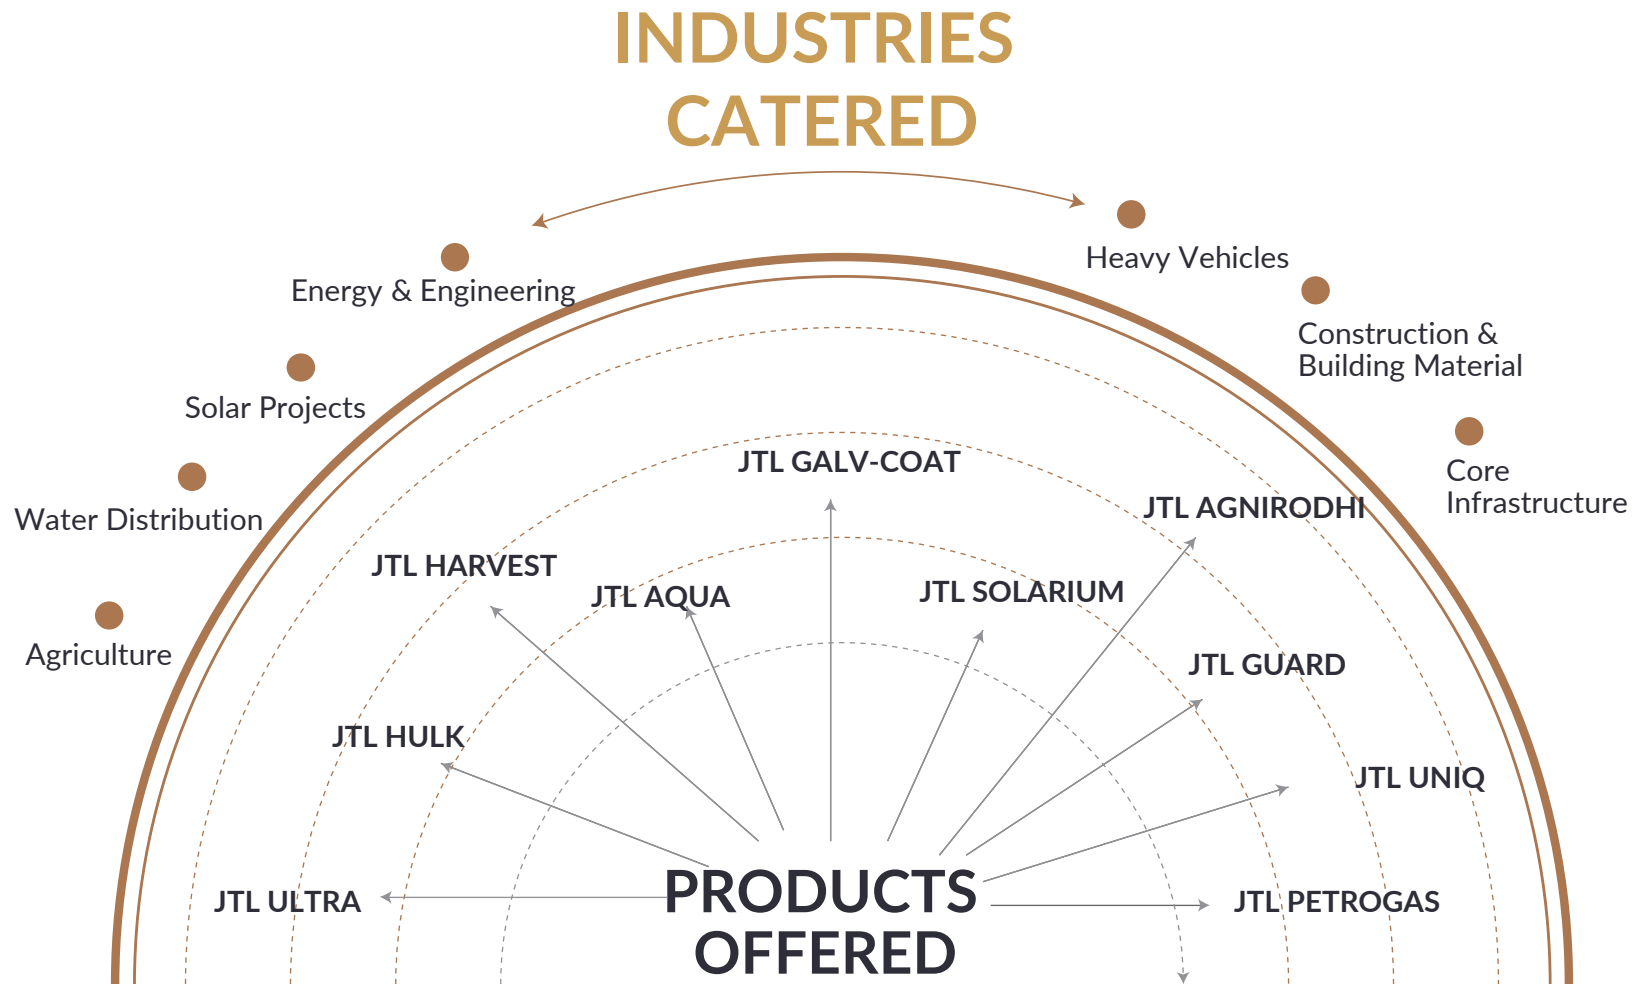

- **>50% of sales = Value-Added Products**
- Catering to wider domestic & global demand

Products Offered & Industries Catered To

Providing Industry Wide Solutions

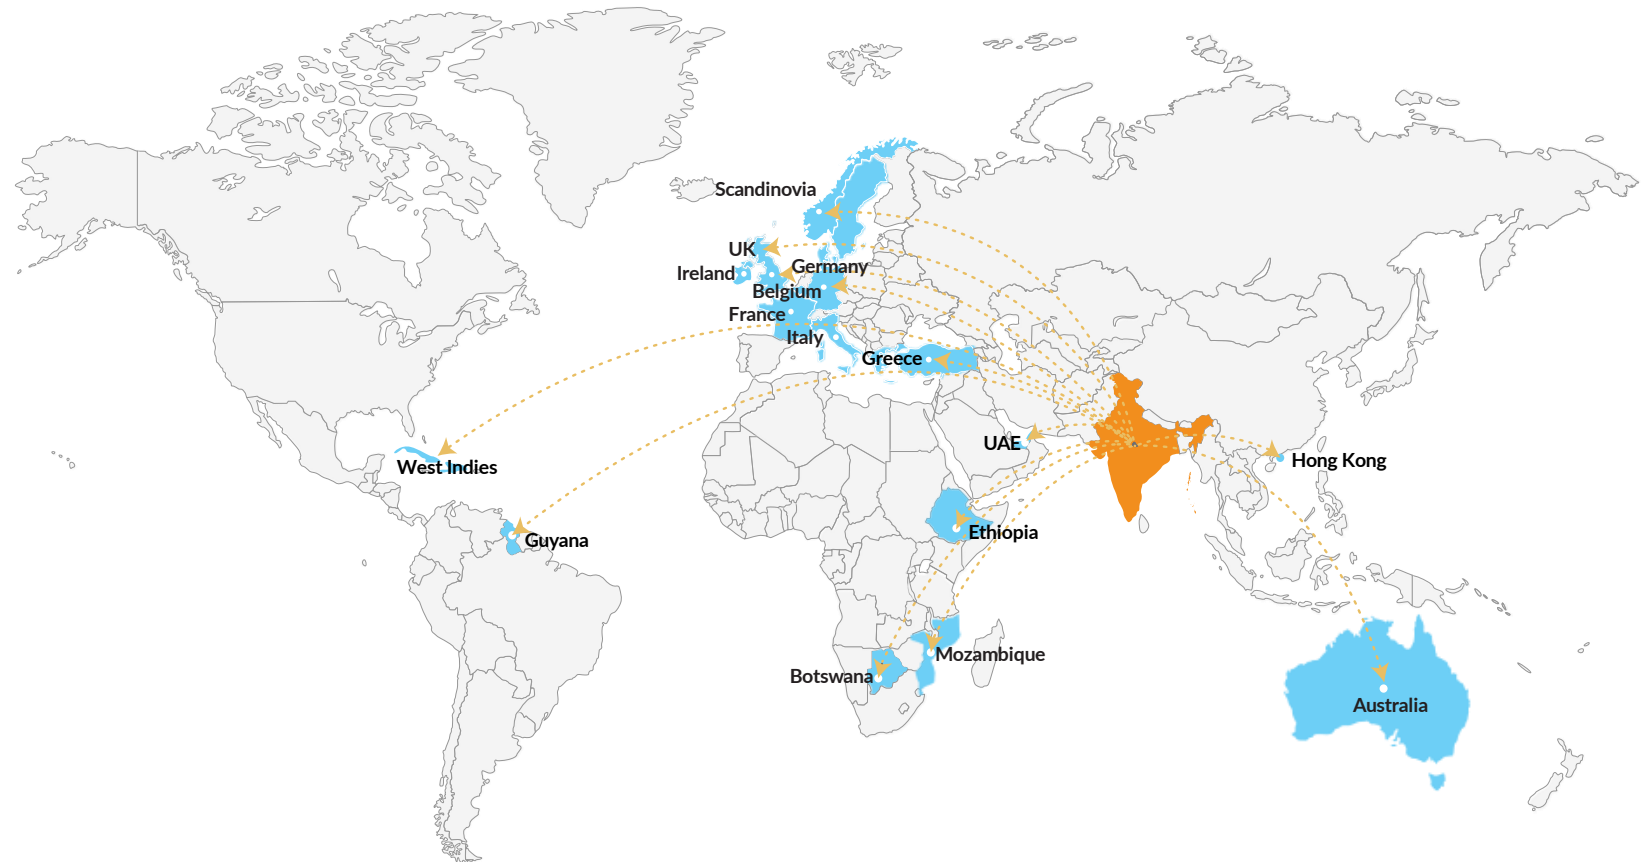

Diverse Geographical Presence

JTL has a pan-India presence and has a diverse geographic footprint, providing products to over **20 nations** in **5 continents**.

Exporting Countries

- Europe : Germany, Belgium, Greece, Ireland, UK, Scandinavia, France, Italy
- North America : West Indies
- Asia : Hong Kong, UAE
- Africa : Botswana, Ethiopia, Mozambique
- Guyana, Mozambique

Leadership

**Mr. Madan
Mohan Singla**
Managing Director

- 35+ Years of rich experience in Steel Industry
- In-depth knowledge of steel & pipe industry
- Recognized for his proficiency in business finance and strategy.

**Mr. Rakesh
Garg**
Executive Director

- 30+ years of rich experience in steel industry
- Specifically assigned to trade and commercial operations, liaising with various agencies and associates
- Wide experience in industrial projects, engineering and management affairs

**Mr. Dhruv
Singla**
Executive Director

- 10+ Years of experience in this industry
- Completed B.com from Punjab University, and persued masters in management from Kings college, London
- Played a key role in expansion plans at Mangaon along with handling exports

**Mr. Pranav
Singla**
Executive Director

- 5+ years of experience in the industry.
- Completed Bachelor in Economics and Accounting Honors from Cass Business School, London, topped by Masters in Project Management, Finance and Risk.
- Looking after the expansion plans in Maharashtra
- Managing sales and distribution in North India

**Mr. Sanjeev
Gupta**
Executive Director

- 25+ years of experience in prominent steel company namely Bhushan Power and Steel Limited
- Mr. Gupta has exposure of overseas operations while working with Aarti Strips Pvt Ltd in Nepal.
- He has been associated with JTL since 2019 and has expertise in cost and automations

**Mr. Jagdeep
Kumar Goel**
Non-Executive Director

- Former officer of the Indian Revenue Service (IRS), with over three decades of extensive experience in taxation, finance, and legal
- In addition to his civil service career, Mr. Goel is a qualified medical and legal professional.
- He is a registered as Advocate with the Bar Council of Gujarat

Leadership

**Mr. Rakesh
Mohan Garg,**
Independent Director

- 35+ years of experience in serving Indian Revenue Service (IRS).
- He retired as Principal Chief Commissioner of Income Tax, Delhi in the apex scale of Government of India. During his career spanning over 35 years, he handled various assignments at all levels in the Income Tax Department mainly at Delhi, Mumbai, Rajasthan and Punjab.
- He is an MBA from Punjab University, and he is a university gold-medallist at graduate level.

**Mr. Sukhdev Raj
Sharma**
Independent Director

- 40+ years of experience working as a seasoned banker
- Previously worked as an MD of PNB International Ltd. London (UK), a 100% subsidiary of PNB
- Currently working as Advisor to an Investment Banking Company

**Mr. Naveen Kumar
Laroia**
CFO

- Mr. Naveen Kumar Laroia is a Chartered Accountant and has 35+ Years experience across India, Nepal, and Egypt in manufacturing, financial services, and multinational corporate environments
- He has vast experience in finance, accounting, taxation (direct & indirect), corporate governance, and strategic planning.

Mrs. Raman Chadha
Independent Director

- Accomplished academic and seasoned professional with over 40 years of experience in the field of education, specializing in Physics
- Demonstrated consistent academic excellence, securing top ranks in B.Sc., M.Sc., and M.Phil. Programs
- Honored with numerous accolades throughout her distinguished career
- Renowned for her commitment to education, subject expertise, and dedicated mentorship

**Mr. Ashok
Goyal**
Independent Director

- 30+ years of experience in General Administration and has vast experience in Human resources, Education, Academics, and Strategic Planning.
- Mr. Goyal has done LL.b and Post-Graduation in Economics from Punjab University and has served as a member of Senate of University & Syndicate, Punjab University.
- He is also a director in other listed company viz. Primo Chemicals Limited and a co-opted member of Disciplinary Committee of the Bar Council of Punjab and Haryana.

**Mr. Amrender
Kumar Yadav**
CS

- Mr. Yadav is a commerce and Law graduate and is a Member of the Institute of Companies Secretaries of India.
- He is a qualified Company Secretary professional with 8 years of distinguished experience of listed, unlisted companies, in corporate secretarial and legal functions, litigation, secretarial compliances, corporate affairs and corporate governance, legal drafting, commercial,
- Contract Management and allied matters.
- He is adroit in dealing with merchant bankers, auditors, legal counsels, stock exchanges, depositories, RTA and share broking companies.

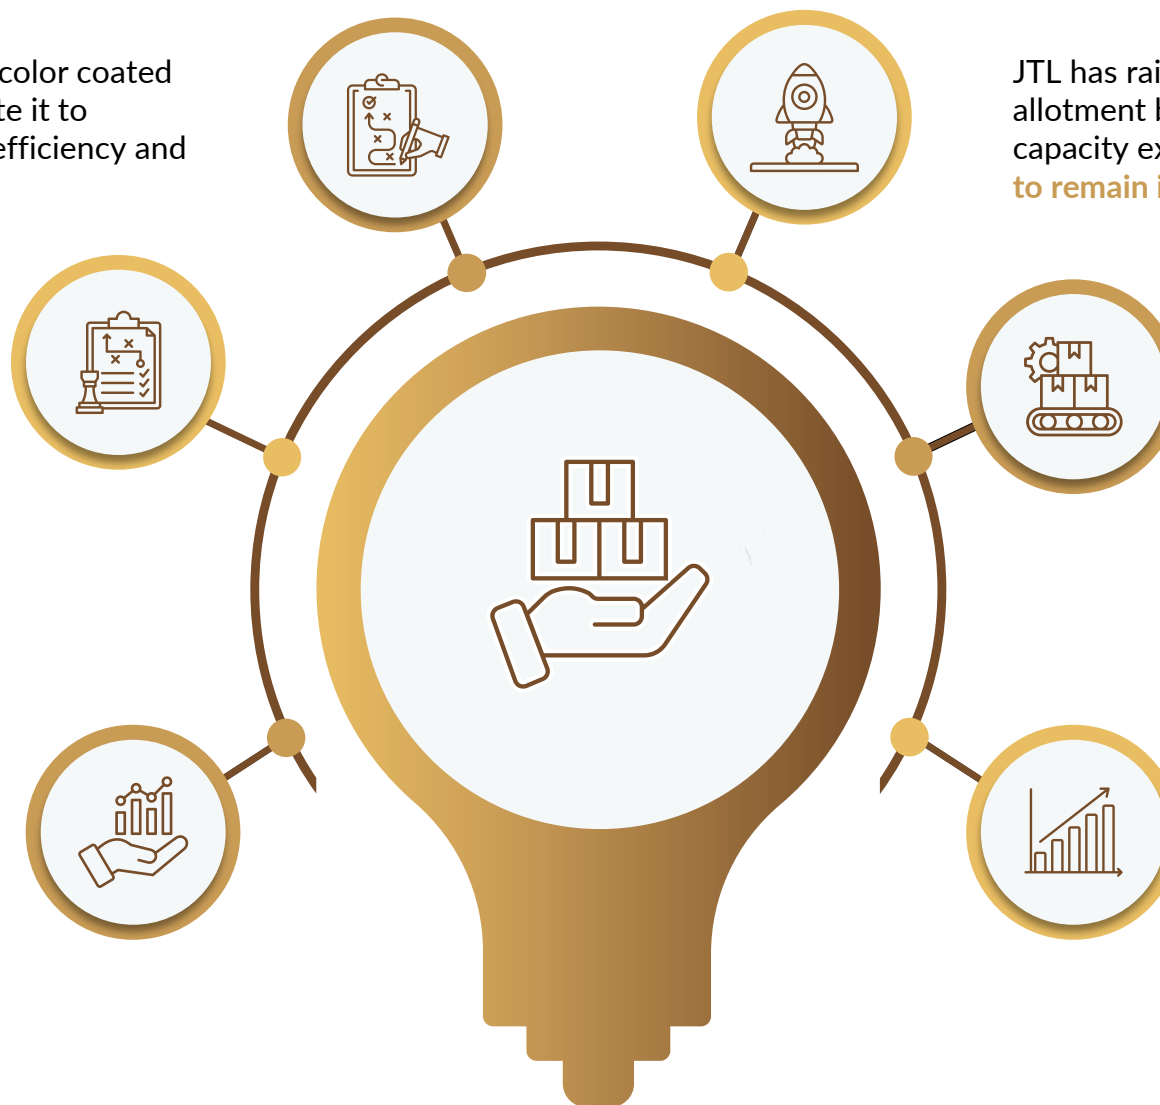

Management Guidance

JTL is planning to deploy DFT and color coated lines in its plants which will facilitate it to produce various **SKUs**, **increasing** efficiency and capacity utilization.

This year, JTL has set a goal to raise its proportion of value-added products to over **40%**, as a part of its **strategic plan** to enhance the business and margins generated out of its product offerings.

EBITDA per tonne for **FY25** is expected to grow owing to new products, increasing share of **VAP** and **better capacity** utilisation

JTL has raised Rs. **6,750 Mn.** via preferential allotment by promoters which will boost planned capacity expansion of the company and aid **JTL to remain in line** with their mission.

JTL aims to enhance its manufacturing capacity to **1 Million** MTPA by the end of **FY25**.

The company expects sales volume to grow by **~20-25%** from **FY 24 to FY25** led by greater contribution of value-added products in the sales mix.
