Safe-harbor statement

This presentation includes forward-looking information and statements including statements concerning the outlook for our businesses. These statements are based on current expectations, estimates and projections about the factors that may affect our future performance, including global economic conditions, and the economic conditions of the regions and industries that are major markets for ABB Ltd. These expectations, estimates and projections are generally identifiable by statements containing words such as “expects,” “believes,” “estimates,” “targets,” “plans,” “outlook” or similar expressions.

There are numerous risks and uncertainties, many of which are beyond our control, that could cause our actual results to differ materially from the forward-looking information and statements made in this presentation and which could affect our ability to achieve any or all of our stated targets. The important factors that could cause such differences include, among others:

- business risks associated with the with the volatile global economic environment and political conditions
- costs associated with compliance activities
- raw materials availability and prices
- market acceptance of new products and services
- changes in governmental regulations and currency exchange rates and
- such other factors as may be discussed from time to time in ABB Ltd’s filings with the U.S. Securities and Exchange Commission, including its Annual Reports on Form 20-F.

Although ABB Ltd believes that its expectations reflected in any such forward-looking statement are based upon reasonable assumptions, it can give no assurance that those expectations will be achieved.

Q3 2012: Improved portfolio and geographic balance

A steady result in an uncertain market

- Base orders¹ steady in a mixed economic environment
- China “moving sideways,” North America up double digits, southern Europe² slightly positive
- Op EBITDA margin³ steady vs Q2 2012, down vs strong Q3 2011
- Power Products op EBITDA margin steady for 4th consecutive quarter
- Project margin declines in Power Systems
- Solid divisional cash from operations, cash conversion at Group level improving vs Q2 2012
- Thomas & Betts contributed ~\$120 mill to operational EBITDA, ~\$90 mill cash from operations
- Maintained a sector-leading balance sheet
- Currency translation reduced reported revenues by ~\$570 mill, op EBITDA by ~\$100 mill
- Operational EPS (before amortization) flat in local currencies⁴

¹ Orders below \$15 million: 0% change in local currencies and excl. Thomas & Betts; ² Portugal, Italy, Greece and Spain; ³ See definitions in Appendix; ⁴ See Chart 21

Successes and challenges in Power Q3 2012

Quarterly successes

- Power Systems orders up ~25% excl. offshore wind comparison
- Continued sequential stability in Power Products op EBITDA margin
- Cost initiatives continue to generate significant savings
- Order growth in China, US, Middle East and Africa
- Power Systems tender backlog still growing
- Service growth maintained in line with strategic targets

Challenges and action plans

- Offshore wind project execution delays
- Address project underperformance in PS
- Addressing price pressure: Cost savings, order selectivity, in-country for-country
- Utility distribution demand linked to macro development
- Service: Leverage technology, software, industry know-how, large installed base

Power Systems

Actions to return to target margins in 2013

Pressure on project margins

- DoIWin1 offshore wind project
 - Platform sail-away postponed, permits not available
 - Platform substructure (“jacket”) sailed out and installed
 - Additional cost overruns of ~\$20 mill booked this quarter
 - Complex framework of regulatory, commercial responsibilities
- Specific project issues in Saudi Arabia, India

Actions under way

- Selective management and organizational realignment
- Intensified project execution and operational excellence focus
- Greater project selectivity and price quality improvement
- Cost base optimization

Q3 divisional overview: Automation

¹ percentage change in local currencies vs same period in 2011, ² Excluding Thomas & Betts

Successes and challenges in Automation Q3 2012

Quarterly successes

- Resilient demand (flat organic order growth) despite mixed market
- LP cost savings drove margin improvement vs Q2 2012
- Some price improvements in LP
- Thomas & Betts integration and synergies on target
- New products in LV switchgear, motors & drives, robots, control software

Challenges and action plans

- Uncertain market outlook: Continued focus on cost
- Constant monitoring of investments in growth to secure returns
- Continue to drive Thomas & Betts synergies
- Further optimize product/system mix (e.g., measurement products in PA)

Thomas & Betts update: A strong start

Integration on track

- Q3 stand-alone vs. year-earlier period
 - 4% revenue growth
 - Q3 operational EBITDA margin 19% vs 17%¹ in Q3 2011
 - Contributed ~\$620 mill in revenues, ~\$120 mill in op EBITDA and ~\$90 mill in cash from operations
- Integration on track
 - Integration costs in line with plan
 - Regional synergy plans being implemented
- Acquisition already accretive to EPS (excl. one-time charges)
- Special items
 - Q3 PPA amortization² of \$51 mill; \$116 mill for full year 2012; ~\$120 mill for full year 2013
 - No further material acquisition-related costs expected

¹ Estimated operational EBITDA margin based on ABB definition

Approximations

Chart 13

Cost savings update Q3 2012

Driving continuous and sustainable cost savings

Approx. share of savings by type

Percent

Approx. share of savings by business

Percent

- ~\$820 million year to date, set to exceed \$1 bn for full year 2012
- Increasing number of operational excellence and productivity programs
- Indirect sourcing initiatives paying off
- Sourcing from low-cost countries, product redesign remain large opportunities

Improved cash flow from divisions

Strengthening US dollar affected total cash flow

- Divisional cash flow up ~\$160 mill vs Q3 2011
- Group cash flow reflects lower cash from hedging corporate exposures on strengthening USD
- Continued focus to improve NWC management: Full-year guidance on NWC as % of revenues at higher end of 11-14% range

¹ Cash from operating activities

Outlook for remainder of 2012 and beginning of 2013

Short-term view

- Macro indicators in most markets remain mixed, limited visibility
- Short-cycle business growth is being challenged

Q3 provided reasons for cautious optimism

- Resilient demand in key markets, well-balanced portfolio
- Sustainability of op EBITDA margins in Power Products
- Price environment in power remains stable
- No slowing in pace of cost savings
- Service orders continued to grow faster than ABB total
- Strong balance sheet provides stability in turbulent markets

Management focus ahead

- Speed and flexibility on cost and growth in changing macro environment
- Drive Thomas & Betts synergies
- Further project improvements in Power Systems

ABB in a strong position to execute successfully in an uncertain world
