*The Company has made the late payment of Annual Listing Fees to BSE for the financial year 2021-2022.*

Our Explanation to Secretarial Auditor's observation:

The COVID-19 pandemic has severely impacted all the industries throughout the country and the entire economy was facing severe financial hardship. The coronavirus pandemic on India has been largely disruptive in terms of economic activity as well as a loss of human lives. Almost all the sectors have been adversely affected as domestic demand and exports sharply plummeted and consequently, the entire economy is facing severe financial hardships. Our Company being an inseparable part of Indian economy is not an exception to it.

Post the first wave of COVID-19 pandemic, the Industries were reviving from the impact of COVID-19, however, the second wave of COVID-19 since March 2021, has been more severe than the First wave which was in March 2020, and has dented the revival process of the Industries including our company.

Our Company was trying hard to arrange the necessary funds for payment of outstanding listing fees of BSE. However, as there were no operations in the Company and further due to the Corona Virus Pandemic and consequent lockdown imposed by the government the financial position of the company was further affected. Our company faced financial hardships and liquidity crunch due to COVID-19 pandemic and therefore, was unable to pay the outstanding annual listing fees of BSE. However, the management of the company arranged the necessary funds and cleared the outstanding annual listing fees of BSE for the F.Y. 2021-22..

The company has also obtained a certificate from M/s Kundan Agrawal & Associates, Practising Company Secretary confirming that none of the Directors on the Board of the Company has been debarred or disqualified from being appointed or continuing as Directors of Companies by the Securities and Exchange Board of India/ Ministry of Corporate Affairs or any such Statutory Authority.

## MANAGEMENT DISCUSSION AND ANALYSIS REPORT

### INDUSTRY AND ECONOMY OVERVIEW

#### Global Economy

The global economy was seen recovering in 2021 after the high market volatility and deep recession in 2020. However, the ongoing Russia-Ukraine crisis led to extensive loss of lives, triggered the biggest refugee crisis in Europe, and severely set back the global recovery. After a strong rebound in 2021, the economic indicators suggest that global activity has slowed. 1 Global growth is projected to decline from 6.1% in 2021 to 3.6% in 2022 and 2023. At the end of 2021, inflation in several regions surged to multi-decadal highs. A key driver of inflation across the world has been the steep surge in energy, food, and commodity prices. Central banks across the world have started tightening their stances and others are expected to follow in response to domestic macroeconomic conditions, including rising inflationary pressures. 2 Brent crude oil prices averaged US\$ 70.89 per barrel in 2021. However, crude oil prices have remained above US\$ 100 per barrel following Russia's full-scale invasion of Ukraine. Sanctions on Russia and other independent corporate actions contributed to falling oil production in Russia and continue to create significant market uncertainties on further oil supply disruptions. These events occurred against a backdrop of low oil inventories and persistent upward oil price pressures. 2 Prices are expected to taper from their record levels and average to US\$ 97.24 per barrel in 2023. Growth across Advanced Economies (AEs) is expected to moderate to 3.3% in 2022 from 5.2% clocked in 2021. The US economic expansion has been facing headwinds from surging inflation and gradual withdrawal of fiscal and monetary policy support. The rebound that was underway in Europe has suffered a setback due to the Russia-Ukraine conflict with inflation at unpredictable levels. Emerging Markets and Developing Economies (EMDEs) are expected to grow at 3.8% as against 6.8% growth recorded in 2021. Developments in China continue to dominate the outlook for Asia, especially for emerging Asia. The risk of new COVID-19 variants in China has led to mobility restrictions and localised lockdowns, which has slowed private consumption. Emerging and Developing Europe, including Russia and Ukraine will see GDP contract significantly owing to higher energy prices and the disruption of trade.

#### Indian Economy

India's underlying economic fundamentals remain strong and despite the short-term turbulences caused by the emergence of newer COVID variants, supply-chain disruptions arising out of the Russia-Ukraine crisis, and rising inflation, the impact on the long-term outlook will be marginal. The results of growth-enhancing policies and schemes such as production-linked incentives and increased infrastructure spending will start kicking in from 2023, leading to a stronger multiplier effect on jobs and income, higher productivity, and efficiency—all leading to accelerated economic growth. As per the International Monetary Fund (IMF), India's Gross Domestic Product (GDP) has grown by 8.7% in FY 2021-22, and growth is expected at 8.2% in FY 2022-23. The ongoing vaccination drives, rebound in investment cycle with significant spending on infrastructure, emphasis on manufacturing and stronger digitization, and continued recovery in consumption, accentuated by gradual tapering of work-from-home along with rising rural incomes and affordability will drive significant growth in the Indian economy. However, supply-side bottlenecks persist with rising international crude oil prices and elevated commodity costs. On the monetary side, the RBI has raised the repo rate by 50 basis points to 4.90% from 4.40% earlier to tackle elevated inflation and trigger economic growth.

### RECENT DEVELOPMENTS

India is primarily a domestic demand-driven economy, with consumption and investments contributing 70% to the country's economic activity. ## ROAD AHEAD

Despite continuing geopolitical concerns, rising interest rates in the US and India and high prices of crude oil and few other commodities, economic activity in India is holding up better than anticipated. Electricity consumption, manufacturing PMI, exports, power supply and other high-frequency indicators indicate that the pace of economic activity has fully recovered from the COVID-19 pandemic shock. Economic growth is anticipated to be fueled by the effective implementation of PLI schemes, development of renewable energy sources while diversifying import dependence on crude oil and bolstering of the banking sector. Recent government initiatives to boost revenue will aid in containing the rise in the current account deficit and ensure that any potential fiscal slippage is adequately contained. Overall, the first ten days of July and June were better than the first two months of FY 2022–23, which is a cause for comfort and even cautious optimism in these testing times. According to a Boston Consulting Group (BCG) analysis, India is expected to be the third-largest consumer economy as its consumption may quadruple to US\$ 4 trillion by 2025 due to changes in consumer behaviour and spending patterns. By 2040, India is anticipated to overtake the US to become the second-largest economy in terms of purchasing power parity (PPP), according to a report by PricewaterhouseCoopers.

## OPPORTUNITIES AND THREATS

In a vast country like India, with diversified economic structure, multi agency approach is adopted in the financial sector. Both commercial banks and Non Banking Financial Companies have come into play in shaping the economy of the country. NBFCs have an undeniable role in the Indian economy. Almost every sector of the economy has utilized HP and leasing as its source capital from NBFCs. During the last decade, NBFCs have undergone wide volatility and change as an industry and have been witnessing considerable business upheaval over the last decade because of market dynamics, public sentiments and regulatory environment.

The focus of the government should be on competitive and cooperative federalism which presents a great potential to attract skills, investment and technology. The Government should focus on those agendas of structural reforms which are yet to be finished after the demonetisation drive of high-value currencies.

To again enter into Finance Business and take the license from the Reserve Bank of India to work as Non Banking Finance Company. The Growth of the Company might be affected till the time the license from the Reserve Bank of India to work as Non Banking Finance Company has not been obtained because at present the Company does not have any business.

## SWOT ANALYSIS

### Strengths

- Simplified sanction procedures, orientation towards customers, attractive rate of returns on deposits, flexibility and timeliness in meeting credit needs of specified sector are some of the strengths of this sector.
- Microfinance firms have also started disbursing emergency loans to help grassroots borrowers tide over the immediate crisis.
- NBFCs, are gearing up to lend afresh, with the credit guarantee programme announced by the government likely to boost their fund flow.
- Knowledge driven and relationship based business model
- Strong financial track record driven by fast growth and low Non Performing Asset.
- Strong relationship with Public, Private as well as Foreign Banks, institutions and investors.
- The RBI's targeted long-term repo operation for smaller firms (TLTRO 2.0) will get a better response now as the risk would be borne by the government fully or partially
- The special liquidity support to lower-rated NBFCs will mean banks don't have to take credit risk and NBFC papers are likely to be lapped up.
- To again enter into Finance Business and take the license from the Reserve Bank of India to work as Non Banking Finance Company.
- The Growth of the Company might be affected till the time the license from the Reserve Bank of India to work as Non Banking Finance Company has not been obtained because at present the Company does not have any business.

### Weakness

- A problem post-CRB is that the NBFCs are faced with a growing negative public perception. Investors apart, even banks began shying away from NBFCs. Even good NBFCs are suffering due to the negative perception and even fundamentally sound NBFCs are finding it difficult to raise funds at competitive rates. Currently, NBFCs are going through a painful identity crisis.
- NBFC spreads are also getting squeezed. The villain is the rising incidence of asset-liability mismatch. Most NBFC liabilities are short-term funds and these funds are largely locked up in assets with a maturity period of two years and more. They require steady deposit renewals and inflow of fresh deposits to tide over such crisis. Alas, post-CRB renewals have declined. In a bid to lure depositors, NBFCs are offering higher interest rates and this is inflating the cost of their funds. It is an unenviable Catch-22 situation.
- Recovery of receivables is another area that is keeping the NBFCs worried. Judicial process for recovery of advances is very slow. At times, cases are dismissed on flimsy technical grounds, and it takes years for the courts to decide recovery cases filed by NBFCs as the dice is heavily loaded against the lender.
- Adding to all these woes, banks and financial institutions have moved on to NBFCs' turf and are proving to be more muscular competitors. Host of banks, Indian and foreign, have started offering financial services such as car finance on more competitive terms. Financial institutions with their retail initiative are proving to be a real challenge for NBFCs. This incursion has already pushed small NBFCs out of their traditional areas.
- Lack of market capitalization leading to low share prices, which are not in line with intrinsic performance of the companies as 80 per cent of shares are held for investment and not trading is identified as a weakness.
- Structural weakness includes those factors like taking time to adjust to changes because of conservatism and dependence on retail resources.

### Opportunities

- The infrastructure segment and road transport segment have good growth opportunities. As NBFCs cater to basic infrastructure industry the opportunities for the sector are great. Infrastructural activities are poised to push commercial vehicle sales, growth in sales of smaller goods carriers such as Light Commercial Vehicles/three Wheelers in metro areas, increasing trend in conversion of cash sales to financed sales are opportunities for top companies.
- With the number of players having been substantially reduced consequent to the stricter entry point norms and imposition of prudential norms by RBI, the market is large enough to meet the needs of existing NBFCs and new entrants like banks and other financial institutions. Consolidation in the NBFC industry has reduced competitive pressure and this is an added opportunity to expand.

- Cashing in on the constraints faced by banks in penetrating the specialized vehicle finance segment which leads to the scope for branch expansion.
- NBFCs have diversified into various fee-based activities' which have synergy with lending activities. Non-fund business such as car rentals, ticketing, Insurance agency, and export import business are considered as thrust areas.
- New segments- self finance colleges, fast food restaurants, privatization of transport buses, two wheeler financing, financing at village level are other Ventures 220.
- IT related industries are another thrust area.
- The concept of NBFCs acting as retailers to the banks is gaining ground and RBI has been issuing directions to banks to extend lines of credit to strong NBFCs for on-lending to priority sector areas.

### **Threats**

The threat feared by government companies are in the other investment opportunities like investment in small savings in post offices, Government guaranteed bonds, Tax-free bonds of RBI by existing and forthcoming depositors. This too is threat only to 25 per cent of companies. As could be inferred, 85 per cent of top companies and same percentage of small companies have identified Competition from banks and financial institutions in commercial vehicle financing - hitherto the forte of NBFCs- is a threat as these competitors have low cost funds. Intensified competition leading to squeeze on spreads, declining margins, undercutting in rates by certain large players, reduction in lending rates, all have a bearing on profitability. Only 8 per cent of top companies and 23 per cent of small companies have considered, NPA as a threat.

Other threat includes Globalisation of Indian market brought several multinational financial service companies into the market resulting in more intense competition. Using weighted average scoring model it is observed that companies ranked their competitors as (1) Financial institutions, (2) Other NBFCs and (3) Banks, in that order. Government companies were least affected by 221 competition, while small companies considered other NBFCs as their chief competitors, top companies considered financial institutions as their threat.

**1. Fixed pay**

The remuneration and reward structure for employees comprises two broad components - annual remuneration and long-term rewards. The Committee would determine the remuneration of the Directors and formulate guidelines for remuneration payable to the employees.

These guidelines are as under:

**a) Annual remuneration**

Annual remuneration refers to the annual compensation payable to the employees of the Company. This comprises two parts - a fixed component, and a performance-linked variable component based on the extent of achievement of the individual's objectives and performance of the business unit. Employee is required to determine his/her key result areas for that particular defined role. The performance-linked variable pay will be directly linked to the performance on individual components of the performance and the overall performance of the business. An employee's variable pay would, therefore, be directly dependent on key performance measures that represent the best interests of shareholders.

The objective is to set the total remuneration at levels to attract, motivate, and retain high-caliber, and high potential personnel in a competitive global market. The total remuneration level is to be reset annually based on a comparison with the relevant peer group globally, established through independent compensation surveys, from time to time.

**b) Long-term rewards**

Long-term rewards may be granted to eligible key employees based on their contribution to the performance of the Company, relative position in the organization, and length of service under the supervision and approval of the Committee.

The grant, vesting and other scheme details would be formulated from time to time.

These long-term reward schemes are implemented to attract and retain key talent in the industry.

**2. Minimum remuneration to Managing Director/ Chief Executive officer**

If, in any financial year, the Company has no profits or its profits are inadequate, the Company shall pay remuneration to its Managing Director in accordance with the provisions of Schedule V of the Companies Act, 2013 and if it is not able to comply with such provisions, with the previous approval of the Central Government.

**C. Remuneration/ Setting Fees / Commission to Non-Executive / Independent Directors**

**1. Remuneration/ Setting Fees / Commission**

The remuneration payable to each Non-Executive Director is based on the remuneration structure as determined by the Board, and is revised from time to time, depending on individual contribution, the Company's performance, and the provisions of the Companies Act, 2013 and the rules made there under.

The remuneration to the Non-executive Directors (including Independent Directors) may be paid within the monetary limit approved by shareholders, subject to the limit not exceeding 1% of the profits of the Company computed as per the applicable provisions of the Companies Act, 2013.

**2. Stock options**

The Independent Directors shall not be entitled to any stock option of the Company.

**Policy review**

**Auditors' Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risk of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

**Annexure 'B' To the Independent Auditors' Report**

(Referred to in paragraph 2(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date to the Members of **B. P. CAPITAL LIMITED**)

**Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")****Opinion**

We have audited the internal financial controls with reference to financial statements of B. P. CAPITAL LIMITED ("the Company") as of March 31, 2022 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2022, based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

**Management's Responsibility for Internal Financial Controls**

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

**Auditors' Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to financial statements.

**Meaning of Internal Financial Controls with reference to Financial Statements**

A company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

**Inherent Limitations of Internal Financial Controls with reference to Financial Statements**

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

The Company, as a lessee, recognizes a right-of-use asset and a lease liability for its leasing arrangements, if the contract conveys the right to control the use of an identified asset.

The contract conveys the right to control the use of an identified asset, if it involves the use of an identified asset and the Company has substantially all of the economic benefits from use of the asset and has right to direct the use of the identified asset. The cost of the right-of-use asset shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date plus any initial direct costs incurred. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate.

For short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the lease term.

The Company does not have any fixed assets and accordingly there is no impairment.

**(b) Critical accounting estimates, assumptions and judgements**

In the process of applying the Company's accounting policies, management has made the following estimates, assumptions and judgements, which have significant effect on the amounts recognized in the financial statement. Uncertainty about these assumptions and estimates could result in outcome that require a material adjustment to assets or liabilities affected in future periods.

**i) Income taxes**

The Company's tax jurisdiction is India. Significant judgements are involved in estimating budgeted profits for the purpose of paying advance tax, determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions

**ii) Contingencies**

Management judgement is required for estimating the possible outflow of resources, if any, in respect of contingencies/claim/litigations against the Company as it is not possible to predict the outcome of pending matters with accuracy.

**iii) Allowance for uncollected accounts receivable and advances**

Trade receivables do not carry any interest and are stated at their normal value as reduced by appropriate allowances for estimated irrecoverable amounts. Impairment is made on the expected credit losses, which are the present value of the cash shortfall over the expected life of the financial assets.

**iv) Impairment of non-financial assets**

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the assets's recoverable amount. An assets's recoverable amount is the higher of an assets's or CGU's fair value less costs of disposal and its value in use. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

**v) Impairment of financial assets**

The impairment provisions for financial assets are based on assumptions about risk of default and expected loss rates. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

**vi) Fair value measurement of financial instruments.**

When the fair values of financial assets and financial liabilities recorded in the Balance Sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques, including the discounted cash flow model, which involve various judgements and assumptions.
