Dear Sir / Madam,

Sub: Investor Presentation

Pursuant to regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, we enclose herewith Investor Presentation.

The aforesaid presentation has been uploaded on the Company's website viz., www.grpweb.com

You are requested to take the above on record and oblige.

Thanking you,

Yours faithfully,
For GRP Ltd.

Abhijeet Sawant
Company Secretary

This presentation and the accompanying slides (the “Presentation”), which have been prepared by **GRP Limited** (the “Company”), have been prepared solely for information purposes and do not constitute any offer, recommendation or invitation to purchase or subscribe for any securities, and shall not form the basis or be relied on in connection with any contract or binding commitment what so ever. No offering of securities of the Company will be made except by means of a statutory offering document containing detailed information about the Company.

This Presentation has been prepared by the Company based on information and data which the Company considers reliable, but the Company makes no representation or warranty, express or implied, whatsoever, and no reliance shall be placed on, the truth, accuracy, completeness, fairness and reasonableness of the contents of this Presentation. This Presentation may not be all inclusive and may not contain all of the information that you may consider material. Any liability in respect of the contents of, or any omission from, this Presentation is expressly excluded

Certain matters discussed in this Presentation may contain statements regarding the Company’s market opportunity and business prospects that are individually and collectively forward-looking statements. Such forward-looking statements are not guarantees of future performance and are subject to known and unknown risks, uncertainties and assumptions that are difficult to predict. These risks and uncertainties include, but are not limited to, the performance of the Indian economy and of the economies of various international markets, the performance of the industry in India and world-wide, competition, the company’s ability to successfully implement its strategy, the Company’s future levels of growth and expansion, technological implementation, changes and advancements, changes in revenue, income or cash flows, the Company’s market preferences and its exposure to market risks, as well as other risks. The Company’s actual results, levels of activity, performance or achievements could differ materially and adversely from results expressed in or implied by this Presentation. The Company assumes no obligation to update any forward-looking information contained in this Presentation. Any forward-looking statements and projections made by third parties included in this Presentation are not adopted by the Company and the Company is not responsible for such third party statements and projections.

Performance Highlights

Performance Highlights for FY20*

(in Rs. Mn)

Revenue / Profitability

- Revenue has been slightly lower as compared to last year due to subdued demand by the tyre companies amid the ongoing auto slowdown and further accentuated due to the nation-wide lockdown imposed due to COVID-19 pandemic
- Profitability has been lower as compared to last year due to higher operating expenses coupled with lower utilization levels of plants

*Data on Consolidated Basis

Segment Wise Quarterly Performance Trend*

*Data On Standalone Basis

Segmental Financial Highlights*

Particulars (in Rs. Mn)*	Reclaim Rubber		Non-Reclaim Rubber	
	FY20	FY19	FY20	FY19
Revenue	3319.9	3,392.4	166.3	177.2
Raw Material	1657.0	1,651.4	63.0	67.9
Other Expenses	1491.6	1510.5	87.6	90.1
EBIDTA	171.3	230.6	15.7	19.1
EBIDTA Margin	5.2%	6.8%	9.5%	10.8%

- ✓ GRP's non-Reclaim rubber businesses are allied along the value chain and help the company diversify its offerings to various end customer segments reducing our overall dependence on the tyre sector
- ✓ Although Non-Reclaim business performance was subdued in FY20 due to global uncertainties in auto and allied sectors leading to lower demand and lower capacity utilization, several breakthroughs in application development will help improve performance in FY21

*Data on Standalone Basis.

COVID-19 Impact on the Business

01

Manufacturing Operations

Production was temporarily suspended at all our facilities as per Central and State Government directives of Lockdown to contain the spread of the virus. Presently, all our manufacturing facilities have commenced operations, although at lower utilization levels. The company is working closely to revert demand, focussed on availability & safety of workers at its facilities, reconfiguring its facilities for effective social distancing and is working towards resumption of operations to normalcy at the earliest

02

Financial position and profitability

Due to the suspension of operations our revenues & profitability has been impacted. In order to mitigate some of the impact, Company has taken various initiatives to manage its costs across the organization and to conserve cash. There may be some impact on receivable cycle from customers. However, the company foresees no major risk given its high quality of customers. The Company has postponed and/or deferred most of its capex while ensuring long term sustainability of the business.

03

Demand for the products

The lockdown resulted in most of the Company's customers in India also having to shut their operations. The resultant sales to these domestic customers is starting to resume and we hope to ramp up capacity utilization over the next months. The silver lining for the company has been its export customers. Significant plants of the Company's customers in overseas markets continued to operate even during the lockdown in India. This led to a quick resumption in sales in the international markets for such customers.

04

Liquidity Position

The Company is currently in a comfortable liquidity position to meet its financial and other commitments. Company will continue to monitor the liquidity situation and if required, take appropriate steps to augment it further.

COVID-19 Impact – Initiatives taken at GRP

At GRP, our focus in the days around the lockdown centred around:-

- ✓ Employee safety & well being
- ✓ Getting effective at work from home to continue serving our partners
- ✓ Ensuring our short term financial liquidity & long term survival

Safety is the priority at GRP

Steps taken by GRP due to COVID-19 Pandemic

Social distancing

Factory sanitization

Temperature checking at the entrance

Practising 3 metre distance at work

Hand sanitization

Factory sanitization

Huddle meetings in the factories

Commercial vehicle sanitization

Bikes sanitization

BEFORE RESUMING OPERATIONS

WORKPLACE AND FACTORIES
FUMIGATED AND SANITIZED

VIDEOS AND POSTERS CIRCULATED TO CREATE AWARENESS
ABOUT WORKPLACE PRECAUTIONS PROVISION CREATED TO
MAKE WORKERS STAY BACK IN FACTORY

ROBUST SOPs TO GUIDE HOW
TO RESUME OPERATIONS IN COMPLIANCE
WITH GOVERNMENT GUIDELINE

AREA MARKING AT
MACHINES TO MAINTAIN
SOCIAL DISTANCING WHILE
MACHINE OPERATIONS

SANITISATION OF
VEHICLES ENTERING IN THE
PLANT FOR SUPPLYING RM

CONTINUOUS DISINFECTANT
IN COMMON AREAS

THERMAL SCANNING OF
EMPLOYEES ENTERING INSIDE THE PLANT
& SANITISING THEM WITH THE SANITISERS

Health & well-being of the employees is GRP's priority

We have taken utmost precautions before resuming the operations at all our manufacturing facilities

Consolidated Profit & Loss Statement

Certified “Great Place to Work”

GRP is certified as a “Great Place to Work”

“It is humbling and extremely heartening to learn of the confidence that fellow colleagues have expressed in GRP's culture and work practices for us to qualify for this prestige”

-Mr. Harsh Gandhi
Joint Managing Director

Introduction

Tyre Graveyards are increasing across the Globe

7.6 Billion people
in the world

1.7 billion new
tyres produced a year

1.4 Billion
vehicles on the road

Over 1 billion waste
tyres generated per year

Creating huge

**TYRE
GRAVEYARDS...**

... HUGE OPPORTUNITY

...presenting a HUGE OPPORTUNITY

Huge tyre graveyards that can be seen from Space

GRP uses end-of-life tyres to recycle and manufacture

Reclaimed rubber, Engineering plastics, Die-cut products & Polymer Composite Products

GRP INDUSTRIAL POLYMERS

GRP CUSTOM DIE FORMS

GRP RECLAIM RUBBER

MARANGONI **GRP**

GRP POLYMER COMPOSITE

Recover, Recycle, Reuse' is GRP's raison d'être as well as mantra for creating a clean planet

- GRP is one of the leading producers of reclaim rubber
- It recycles end- of-life tyres, automotive inner tubes, automobile profiles and moulded rubber products to produce consistent quality reclaim rubber
- **The rubber produced emits 95% Lower greenhouse gas v/s virgin polymers**

...to Reduce, Reuse & Recycle

REDUCE

TYRE RETREADING

- Process to extend the life of Commercial Vehicle tyres beyond single use
- Environmental friendly process ensuring saving in valuable resources

POLYMER COMPOSITES

- Manufactured from 100% recycled rubber and plastics
- Product is environmental friendly, strong and durable as a substitute to wood & concrete

REUSE

CUSTOM DIE FORMS

- Custom die forms engineered from end of life truck and bus bias tyres used in application where low cost solutions are a necessity like door mats, impact resistance products and Agricultural equipment's

RECYCLE

RECLAIM RUBBER

- Produced from end of life tyres, automotive inner tubes, automobile profiles and moulded rubber products to produce consistent quality reclaim rubber

INDUSTRIAL POLYMERS

- Recovery and Reuse of polyamide from end-of-life tyres, a key competitive advantage is the continuous availability of in-house raw materials

Our Business

Believing in possibility of better tomorrow...

8 Manufacturing Units with **72,700 tons/year capacity**

Export presence in **60+ Countries**
across **300+ customers**

18% share in Indian Market & **50% of India's Export** in reclaimed rubber

~1.2 Mn End-of-Life tyres saved from reaching landfills **Every Year**

Supplies to **7 out of top 10** global tyre companies

IATF, ISO and BS OHSAS
REACH Certified for EU Zone

No. of Years of Experience : More than 20 years of experience as advisor in the fields of public equity investments, private equity, capital markets and Merger & Acquisition in India

Qualification : MBA from the Stern School of Business at New York University. Also a director in Citicorp Finance (India) Ltd.

Nayna Gandhi

Non-Executive Director

No. of Years of Experience : More than 39 years and also director in Grip Polymers Ltd., (wholly owned subsidiary of GRP Ltd.) since November, 1993

Qualification : Diploma holder in Home Science

...with Experienced Management Team

Ganesh Ghangurde

Chief Compliance Officer

- Chartered Accountant (ICAI) & Company Secretary (ICSI)
- Associated with GRP's senior Management Cadre for more than 25 years
- Experience covers Finance & Accounts, Legal & Statutory, Compliances, Projects, Rights & Public Issues, IT & SAP Implementations

Hemant Kaul

President Marketing & CEO of Marangoni GRP

- MBA, Leeds University Business School, UK
- At GRP since 2012 post spending 19 years in tyre sector in India & Europe with Apollo tyres and Birla tyres
- Handling MGPL business in India ; oversee Sales and Marketing & Business Development for Reclaim Rubber.

Rajen Doshi

President & COO

- MBA Georgia State, MS, IIT Mumbai
- Experienced in executing business transformations, M&A and Change Management across Manufacturing, Service and Technology companies.
- Worked across North America, Europe and Asia in B2B and B2C space for companies like GE, Honeywell, Coke, Citigroup, Legal & General (UK) and Mahindra (India).

Kush Giramkar

Business Head Industrial Polymers & Head Procurement

- MBA from Indo German Chamber of Commerce, Graduate mechanical engineer from Govt. College of Engineering, Pune
- More than 22 years of rich experience in the diverse fields of manufacturing sector such as Materials Management, Project Management, Operations, R & D and New Business Development.

Shilpa Mehta

Chief Financial Officer

- Chartered Accountant (ICAI)
- Overall 20+ years' experience and 15 years in senior management cadre
- Work experience includes Accounts & Finance, Company law, Direct & Indirect taxation, SAP implementation & operations, Audit

Sanjeeb Lahri

Head HR & Administration

- Post Graduate Diploma in Industrial Relations & Personnel Management from University of Burdwan,
- More than 20 years of professional experience in the diverse fields of Talent Acquisition, Staffing, Employee/Industrial Relations, Productivity & Analysis, Learning & Development.
- More than 19 years of experience with TATA Group (Domestic & International)

Awards & Accolades – Testimony to our raison d’etre

 Global Compact Network India 2017	EcoVadis CSR Rating 2017: BRONZE 2019: SILVER  SUPPLIER SUSTAINABILITY RATINGS	 CDP DISCLOSURE INSIGHT ACTION	 IATF 16949	Quality Circle Forum of India Award (2012) For 5S Competition from Vadodara Chapter for its Ankleshwar & Panoli Units 
 CAPEXIL (Sponsored by Ministry of Commerce & Industry, Govt. of India) For EXPORT Performance	 AIRIA 1945 For EXPORT Performance	Finalist, Parivartan Sustainability Leadership Award (2011)  India Carbon Outlook Tracking Actions Towards a Low Carbon Economy	Supply Chain Leader Award (2010) At Logistics 2.0 	Silver Certificate of Merit (2008) 

At GRP, we are committed to transitioning from a ‘recycled material company ’ to a ‘**Sustainable Raw Material Company**’. Therefore, embracing the certifications, partnerships required for achieving that status. PLUS embracing the UN’s Sustainability Development Goals.

CSR – Impact Positive Initiatives

- **Our CSR vision** – "to contribute towards social and economic development of the communities where we operate in. And while doing the same, we want to build a sustainable way of life for all sections of society".
- GRP believes in doing business the right way and ensuring that we reach out to underserved communities in the way we do business.
- GRP believes in focus beyond business interests and addressing the "quality of life" challenges that underprivileged communities face, and working towards making a meaningful difference to them

EDUCATION

- Balwadis/Mobile Vans for Elementary Education
- Toy-bank to strengthen development through play in rural areas
- Merit based scholarship to support University Education
- Strengthen/Support existing institutes engaged in providing primary, secondary & higher level Education

SUSTAINABLE LIVELIHOOD

- Supporting initiatives around Yoga, meditation, other self-help
- Awareness programs for clean living/housing facilities (5S, etc.)
- Awareness programs on hygiene, safe water
- Encouraging plantation of trees through self-help groups of women

HEALTHCARE

- Primary health care centres
- Mobile health care projects
- Preventive health through awareness programs

WOMEN EMPOWERMENT

- Gram Pari in rural areas
- Girl child education up to university level
- Introduction of Water wheel for women to roll it from a distance

- GRP has built a strong association with institutes like such as: Tata Institute of Social Science, Pravara Medical Trust, Ankleshwar Rotary Welfare Trust, K C Mahindra Education Trust, Nanhi Kali Foundation

Business Verticals

...Manufacturer of sustainable products through 5 Business Verticals

Reclaim Rubber - Industry Leading Technology

1ST Company in India to design, fabricate and install an entire plant & machinery for manufacture of reclaim rubber from complete indigenous components

Strong focus on innovation and R & D with DSIR approved lab, **1st** company in India to develop reclaims like EPDM & High Tensile

1st company in reclaim rubber sector in India to become SAP ERP enabled

ISO certified company following strict quality control norm ensuring right material supply to its customers

Recycles **1 out of every 10 truck tyres & 1 out of every 8 tubes** produced in India

Largest exporter of reclaim rubber from India to more than **60 countries** around the world. Caters to **7 out of Top 10** global tyre companies

VALUE PROPOSITION

ECONOMIC

- Cost-saving compared with virgin rubber
- Reduced Energy Consumption

ENVIRONMENTAL

- Alternative to hazardous landfills
- Substitutes natural rubber & crude based synthetic rubbers saving natural resources

PROCESSING

- Faster Mixing Cycle
- Improved extrusion rate
- Retention of good ageing properties
- Reduced splicing defects
- Controlled die swell

Reclaim Rubber – Cost Effective Alternative

PRODUCT OFFERING

NATURAL RUBBER RECLAIM

- Whole Tyre Reclaim
- Ultra High & High Tensile Reclaim
- Natural Tube Reclaim

SYNTHETIC RUBBER RECLAIM

- Butyl & Chlorobutyl Reclaim
- EPDM Reclaim

SPECIALITY RUBBER RECLAIM

- NBR Polycoat

APPLICATIONS

- Tyres
- Tubes
- Belts

- Waterproofing & Matting
- Adhesives

Tyre Industry - Largest Consumer of Rubber

Industrial Polymer – Valuable Engineering Plastic

Developed in-house process to recover nylon fiber from end of life tyres

Nylon fiber embedded with rubber is subjected to series of mechanical operations to separate rubber and nylon

Purified nylon fiber then converted to granules by Extrusion process

01

Separation of polyamide from scrap tyre results in “**Pure Rubber**” which in turn can be a useful raw material to make a **Better Quality Reclaim**

02

Recovered Polyamide is a useful raw material as an **Engineering Plastic**. It has a market which is well established and profitable

INDUSTRY LEADING TECHNOLOGY

1st Indian company to commercialize the concept of recovery and reuse of polyamide from end-of-life tyres

Invested substantially in the R&D to recover nylon (polyamide) a valuable engineering plastic out of the waste tyres

Has a state-of-the art compounding facility in Solapur which supplies a range of cost-effective and sustainable solutions

Patent pending products supported by well equipped testing laboratory

Industrial polymer is (GRP - IP) is an ISO 9001:2008 certified thermoplastic compounding business

TARGET MARKET & APPLICATIONS

AUTOMOTIVE

Fasteners, Clips, Bushes, Plugs, Cable Ties, Sleeves, Main fold

INDUSTRIAL

Washers, Spacers, Industrial Bobbins, Conveying Trays, Gears

CONSUMER GOODS

Furniture Components, Couplers, Domestic Gas Accessories

ELECTRICAL

Computer Peripherals, Fuse Box, Switch Housing

CONSTRUCTION

Window Door Components

Custom Die Forms – Diverse Product Portfolio

Converts end-of-life tyres to design products used for civil & agricultural applications

Custom Die Forms are meant to absorb vibrations in heavy equipment and for insulation against sound

GRP – C-DF has produces these products in collaboration with leading North America Companies

Ensures reuse of end-of-life tyres with minimal energy needs

PRODUCTS

- Link Mats
- Door Mats

- Industrial Mats
- Dock Bumpers

Retreading - Marangoni Joint Venture

Portfolio of Products = Ringread + Unitread + Classico

Entry into Retreading Markets of India with a Unique Technology,
RINGTREAD – The Spliceless Retread

Ringread Delivers: More mileage, Better grip, More reliable and eventually lower cost per KM (CPKM) savings to fleets

Marangoni S.P.A, World's Leading Tyre Retreading Company with a legacy of 70+ years

+

GRP Ltd, India's largest and world's leading rubber recycling company

=

The JV will aim to leverage the strengths of the two partners:

Marangoni as a retreading technology specialist

GRP's understanding of Indian Markets, Strong Supply Chain along with the reach to the End Customers

MARKET OPPORTUNITY

- Radial tyres at present account for 40-45% of Tyre Industry, expected to reach 75%+ by 2020
- Radialisation is estimated to double in the next 4-5 years, thus offering a big opportunity for tyre retreaders in the country
- India's retreading market is estimated at \$ 700 mn with a CAGR of 7-8% with organized sector accounting for 50 %

With Radialization there is a great opportunity for organized players in the retreading industry in CV segment as it reduces per/km cost

...Retreading across Segments

Industry Leading Range

Premium, Spice-less Retread

Premium, Flat Tread

This line features tread design suited for radial tyre application to deliver premium performance on Indian roads

Original Retread

This line features popular tried and tested patterns designed for customers who pay particular attention to the quality-price ratio.

BENEFIT TO RETREADERS

Less Time: Faster cycle time

No Waste: No material wastage

High Efficiency: More efficiency due to less handling and lower process time

Less Space: Less space required for same capacity due to efficient equipment & layout

ABOUT RINGTREAD

- Ringtread Concept: Tyres are circular in structure and rotate when they work, therefore the new tread must be perfectly circular in order to integrate harmoniously with the casings and recreate a perfect unit
- Ringtread
 - The only precured tread with the profile of original tyre
 - The ring has no joints and fits perfectly to the casing without tension or deformation
 - It guarantees reduced processing times and less waste, and performance levels are equivalent / exceeds those of a new tyre

BENEFIT TO FLEET HOLDERS

More Reliability: No risk of downtime due to the exclusive ring system

More Life: Less tread wear also on highly abrasive surfaces

More Grip: The best traction even in poor road condition

More Savings: Very low rolling resistance leading to reduced fuel consumption

Polymer Composite Products

Products Range

ABOUT Polymer Composite Products

- GRP is the exclusive manufacturer to a US based company for supply of composite products
- The composite products are manufactured from 100% recycled rubber and plastics
- The product is environmentally friendly, strong and durable
- The products are well suited for variety of application in sectors such as aviation, military, logistics, construction, oil & gas, marine and agriculture.

Usage of Reclaimed Rubber on a Growth Path

Reclaimed Rubber Demand (Kilo Tonnes)

- Growing awareness regarding COST - EFFECTIVE and ECO - FRIENDLY alternatives for virgin rubber
- Owing to its versatility, durability, reduced pollution and low processing costs, WTR is expected to witness growth
- APAC to drive growth due to huge domestic market, availability of cheap and skilled workforce and rapid industrial development
- Favourable regulations promoting sustainable and eco-friendly materials as substitutes for conventional virgin rubber is driving product demand

Global Reclaimed Rubber Demand

Global Reclaimed Rubber market is expected to reach USD 6.32 billion by 2025

With strategic shift towards increasing Reclaimed Rubber

To Reduce, Reuse and Recycle the use of fossil fuels and strategic shift towards Reclaimed Rubber. By 2050 companies envisages higher use of Recycled Rubber

By major tyre manufacturing companies

THE 4R STRATEGY

The tire industry uses 32 million tonnes of materials every year, only 25% of which is from renewable sources. To reduce the use of fossil fuels and secure supply, Michelin has made a firm commitment to the circular economy through its 4R strategy: Reduce, Reuse, Recycle and Renew.

Landfilled waste In kg per tonne of tires produced

By 2025 (vs. 2017) for Specific Products Segments Pirelli aims to:

- Double the share of Renewable Raw Materials
- Reduce the Fossil-Based Materials by -30%

- Waste recovered (on total waste) in 2017 vs 2009: 93% (+24% vs. 2009)
- Target 2020 : towards no waste to landfill with a recovery rate ≥95%

“ In the Rubber Group, the use of recycled materials is assuming an increasingly important role. Production waste generated in physical/chemical processes is used as reclaim and adhesive mixtures as recycled products. ”

In the year under review, the percentage of recycled products of the total raw materials used in tire production was 3%. Our goal is to increase this share to 10% by 2025.

Reclaimed rubber is also used at 2.5% to replace virgin rubber for compounds

Break-Up of Recycled Raw Materials by Type - FY17
