### CHAIRMAN'S MESSAGE

#### STEADY IN DIFFICULTIES AND READY IN OPPORTUNITIES:

When a major storm blows the first objective would be to steadily hold one's own until its impact reduces and a more conducive environment emerges. Subsequent actions are to regroup all resources to tackle the changed situation with renewed energy and skills for creating new opportunities.

While demonetisation has transformed the economic framework to serve broader national objectives, the immediate effects have been different and diverse in many fields. In the short term it shrank the availability of cash and brought a certain hesitancy in business. Some segments like the realty sector that had its own format of transactions were affected more quickly and heavily.

#### INDUSTRIAL SCENARIO:

The larger perspective indicates the impact on the industrial scenario in which we are operating. India's economic growth is estimated to slow to 7.1 percent in the year 2016-17 ending on March 31 compared to 7.6 percent in 2015-16, the first indicator of the impact of the demonetisation drive. The estimates have been reduced in all the sectors, except for agriculture, which has improved due to the positive monsoon season.

Fortunately even though demonetisation had temporarily slowed down economic activities in the third quarter due to cash crunch it is expected to rebound the growth to 7.6-7.8% in 2017-18. The agricultural sector posted a huge jump in growth as it expanded by 4.9% during 2016-17 compared to dismal growth of 0.7% in the 2015-16.

#### IMPACT OF DEMONETISATION ON CONSTRUCTION & REALTY SECTOR:

The short-to-medium term effects of demonetisation due to reduced cash transactions will be offset by credit / debit cards and e-Wallets that should come to the rescue. Overall; the domestic consumption story remains intact, with no threat to the overall strength and growth of the Indian retail industry.

There will be minimal impact on large institutionalized players with a solid brand and governance framework. Sales largely driven by the salaried class or investors with limited cash involvement would not suffer. Smaller developers are understandably very concerned right now because many of them have depended on cash transactions. We are very likely to see a clean-up of non-serious players due to this 'surgical strike' on the parallel economy. The impact of RERA will further discipline the industry, which will be good for its health in the long term.

#### THE COMPANY-STANDING FIRM

Your Company has diversified its business mainly on trading of various items Chemicals, Plastics, Textiles etc. and Realty Business.

The revenue from operations of the company from the various segments was ` 35214 lacs for the year 2016-17 as against the turnover of ` 35920 lacs during the year 2015-16.

Your Company earned net profit of ` 1502.00 lacs during the year 2016-17 as against the profit of ` 1556.00 lacs during the year 2015-16.

Your Company's performance has been restricted during 2016-17 due to demonetisation and its negative impact on industrial growth and also in the Construction and Realty Sector, However management of the company is making sincere efforts for better performance in coming years through more innovative strategies and increased productivity.

#### THE COMPANY PILLARS

Behind this steady performance story are the efforts of the MetroGlobal team that pushed the limits to take the company forward and higher. I proudly acknowledge their valuable contribution to your company.

The tremendous support in all forms by the Board was the backbone of overcoming hurdles and making progress even in difficult circumstances. Other stakeholders also played an important role in the transformation. I thank them all for their encouragement and backing that make me optimistic and enthusiastic about the future of your company with the confidence to face any challenges with success.

### MANAGEMENT DISCUSSION AND ANALYSIS REPORT

#### A. OVERALL INDUSTRIAL VIEW:

#### **Indian Economy**

India's economic growth is estimated to slow to 7.1 percent in the year 2016-17 ending on March 31 compared to 7.6 percent in 2015-16, the first indicator of the impact of the demonetisation drive. The estimates have been reduced in all the sectors, except for agriculture, which has improved due to the positive monsoon season.

Demonetisation had temporarily slowed down economic activities in the third quarter due to cash crunch and expected rebound growth to 7.6-7.8% in 2017-18. The agricultural sector posted a huge jump in growth as it expanded by 4.9% during 2016-17 compared to dismal growth of 0.7% in the 2015-16.

#### **Construction Sector**

Increasing investments in residential construction and transport infrastructure will drive growth in India's construction industry over the forecast period 2016–2020, the average annual growth in real terms is expected to improve from 2.95% to 5.65% during the coming five years. The country's expanding population and urbanisation will continue to generate a need for infrastructure development. To improve trade competitiveness and cope with the population growth, the government is focusing more on infrastructure development, which is expected to result in regular investments in the maintenance and expansion of road infrastructure in the near future.

Residential construction was the largest market in the Indian construction industry. Construction activity in the residential market will be supported by rapid urbanisation, population growth, and positive developments in regional economic conditions. Government efforts to clear slum areas by 2022 and reduce the country's housing deficit will also help the market grow.

#### DYES AND INTERMEDIATES:

The Dyes and Intermediates industry in India is the largest consumer of its own products. With promising growth trends in the Dyes and Intermediates industry, this internal consumption is also set to rise. The Indian Dyes and Intermediates industry has a diversified manufacturing base that produces world-class products. There is a substantial presence of downstream industries in all segments. India already has a strong presence in the export market in the sub-segments of Dyes & Dyes Intermediates. India exports dyes to Germany, the UK, the US, Switzerland, Spain, Turkey, Singapore and Japan.

#### **B. OPPORTUNITIES & THREATS:**

#### **Dyes & Intermediates**

Indian Dyes and Intermediates industry has the potential to grow significantly provided some of the key growth imperatives are taken care of. Securing Feedstock, Right Product Mixs are currently the key imperatives for Dyes and Intermediates industry in India.

With a growing market and purchasing power, the domestic industry is likely to growth at over 10-13% in the coming years. Growing disposable incomes and increasing urbanization are fuelling the end consumption demand for paints, textiles, adhesives and construction, which, in turn, leads to substantial growth opportunity for Dyes and Intermediates companies.

#### Realty Infrastructure

There will be minimal impact on large institutionalized players with a solid brand and governance framework. Sales largely driven by the salaried class or investors with limited cash involvement would not suffer. Smaller developers are understandably very concerned right now because many of them have depended on cash transactions. We are very likely to see a clean-up of non-serious players due to this 'surgical strike' on the parallel economy. The impact of RERA will further discipline the industry, which will be good for its health in the long term.

Due to demonetisation Retailers could see some impact on their business in the short-to-medium term due to reduced cash transactions. The luxury segment is likely to be hit because of the historically high incidence of black money acceptance in this segment. However, credit / debit cards and e-Wallets should come to the rescue. Overall, the domestic consumption story remains intact, with no threat to the overall strength and growth of the Indian retail industry.

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that
  - (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
  - (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
  - (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

# Inherent Limitations of Internal Financial Controls Over Financial Reporting

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

# **Opinion**

8. In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

#### ANNEXURE "A" TO THE AUDITORS' REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

#### Management's Responsibility for Internal Financial Controls

The Respective Board of Directors of the Holding Company and its subsidiary company which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India".] These responsibilities include the design, implementation and maintenance of adequate internal

financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

#### Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

#### Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

#### Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

#### Opinion

In our opinion the Holding Company and its subsidiary company, which are companies incorporated in India, have in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
