PAT Margin	3.8%	3.0%	+77 bps	4.7%	4.1%	+57 bps

Commenting on the results, Mr. Munish Avasthi, Chairman & Managing Director said,

“The quarter reflected stable operating performance and continued improvement in profitability, supported by disciplined cost management and strong operational efficiency. High-capacity utilization and steady execution helped us navigate a mixed external environment. Domestic demand remained a key growth driver during the quarter, growing by 29% year on year. The momentum in domestic sales more than offset softness in exports, supporting overall revenue growth and improving the business mix.

Cotton prices have remained largely stable without major volatility, providing a measure of predictability. However, the conclusion of the duty exemption scheme in December has raised import costs.

The recently concluded trade agreements with the United States and the European Union mark a turning point for India’s textile industry. With tariff barriers reduced and preferential access secured, our industry will now get access to two of the world’s largest markets on far more competitive terms. As a trusted supplier of quality yarns for decades, our company is well positioned to capitalize on this renewed advantage.

At the beginning of this financial year, we announced a landmark greenfield capacity addition program with a planned investment of ~₹1,000 crores to significantly expand our spindle capacity. I am pleased to report steady progress on this initiative. We have successfully received all requisite approvals for land allotment, and the land payment has been made in full. In addition, advances for machinery procurement have been paid, and ground-breaking activities have commenced at the project site. This expansion marks a pivotal step in our growth journey, positioning us to meet rising demand for high-quality cotton yarn both domestically and internationally. The new capacity will not only strengthen our market leadership but also enhance operational efficiency.

Continued emphasis on efficiency and growth initiatives, positions us well to deliver consistent value in an evolving market environment.”
