- 14) Any query relating to financial statements must be sent to the Company's Registered Office at least seven (7) days before the date of the meeting.
- 15) The Company has during the financial year 2018-19, transferred unclaimed dividend declared for the financial year 2010-11 and in respect of interim dividend paid for the financial year 2011-12 to the Investors Education and Protection Fund (IEPF).
- 16) Those members who have so far not encashed their dividend warrants in respect of the final dividend for the financial year 2011-12 onwards, may approach the Registrar and Transfer Agent (RTA) of the Company i.e., Karvy Fintech Private Limited [previously known as Karvy Computershare Private Limited] (Attention – Mr. Anil Dalvi), Karvy Selenium, Tower B, 7<sup>th</sup> Floor, Plot No. 31 & 32, Gachibowli, Financial District, Nanakramguda, Serilingampally, Hyderabad – 500032, Telephone – +91-40-67162222, E-mail ID - einward.ris@karvy.com, for making their claim without any further delay as the said unpaid dividends will be transferred to the IEPF pursuant to the provisions of the Act. Further, the Ministry of Corporate Affairs has notified new rules, namely "Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016" which have come into force from September 7, 2016. The said Rules, amongst other matters, contain provisions for transfer of all shares in respect of which dividend has not been paid or claimed for seven (7) consecutive years in the name of IEPF Suspense Account. The details of unpaid / unclaimed dividend and number of shares liable to be transferred are available on our website i.e. [www.cardindia.com](http://www.cardindia.com).
- 17) Members are requested to note that no claim shall lie against the Company in respect of any dividend amount which was unpaid / unclaimed for a period of seven (7) years and transferred to the IEPF. However, members may claim from the IEPF Authority, both unclaimed dividend amount and the shares transferred to IEPF Suspense Account as per the applicable provisions of the Act and rules made thereunder.
- 18) The dividend for the financial year ended March 31, 2012 which remains unclaimed for a period of seven (7) years, becomes due for transfer on 13<sup>th</sup> September, 2019 to the IEPF. Members who have not claimed their dividend for the above-mentioned years are requested to send their claim to the RTA, at the earliest.
- 19) This Notice of the 65<sup>th</sup> Annual General Meeting of the Company dated May 24, 2019 ("the Notice") along with the Annual Report 2018-19 is being sent by electronic mode to those members whose e-mail addresses are registered with the Company / Depositories. The same has also been uploaded on the website of the Company, i.e. [www.cardindia.com](http://www.cardindia.com). It is hereby clarified that the members shall still be entitled to receive physical copies through permitted mode by making a specific request for the same by writing to the Company or to the Registrar and Transfer Agent of the Company mentioning their DP ID & Client ID.
- 20) **To support the 'Green Initiative', members who have not registered their e-mail addresses are requested to register the same with the Registrar and Transfer Agent / Depositories.**
- 21) The Securities and Exchange Board of India ("SEBI") has mandated the submission of Permanent Account Number (PAN) by every participant in the securities market. Members holding shares in electronic form are, therefore, requested to submit the PAN to their DP with whom they are maintaining their demat accounts. Members holding shares in physical form can submit their PAN details to the Registrar and Transfer Agent.
- 22) All the material documents referred to in the Notice shall be open for inspection by the members at the Registered Office of the Company on all working days from 10:00 a.m. to 12:00 noon up to the date of the meeting.

## III. Other Information

- i) Reasons for loss or inadequate profits:

The Company earned a total income of Rs. 4,938.75 Lakhs for the year ended March 31, 2019 as against Rs. 6,578.44 Lakhs for the previous year ended March 31, 2018. The net loss incurred by the Company for the financial year 2018-19 is Rs. 1,967.36 Lakhs as against net loss of Rs. 1,781.14 Lakhs during the previous financial year.

The total income mentioned above includes other income of Rs. 311.52 Lakhs earned during the financial year 2018-19.

The loss incurred during the financial year was mainly on account of shifting of operations of the Company to its plant at Nalagarh, Himachal Pradesh resulting in lower production and lower sales.

- ii) Steps taken or proposed to be taken for improvement:

Since the above issues have resulted in inadequate profits for the Company, the Company proposes to take the following steps for improvement:

- a) Improvement of operations, in particular to:

- Improve sales and marketing efforts to increase sales volume;
- focus on reducing material cost and overheads;
- bring operational efficiency in line with industry benchmarks; and

- b) Special focus on improving operations at Nalagarh Plant.

- iii) Expected increase in productivity and profits in measurable terms:

After taking improvement steps as stated above, the Company shall be in a position to strengthen its capabilities, as well as address future opportunities in India and other markets of choice. The above measures undertaken are expected to yield positive results and improve the financial performance of the Company in the coming years.

Your Directors recommend Resolution at Item No. 08 as a special resolution for approval of the members.

**A. In case of members receiving email from Karvy:**

- i. Open your web browser during the voting period and navigate to "<https://evoting.karvy.com>".
- ii. Enter the login credentials (i.e. User ID and password mentioned in the email). Your Folio No. / DP ID – Client ID will be your User ID. However, if you are already registered with Karvy for e-voting, you can use your existing User ID and password for casting your vote.
- iii. After entering these details appropriately, click on "LOGIN".

You will now reach password change menu wherein they are required to mandatorily change your login password in the new password field. The new password has to be minimum eight characters consisting of at least one upper case (A-Z), one lower case (a-z), one numeric value (0-9) and a special character (like \*, #, @, etc.). The system will prompt you to change your password and update your contact details like mobile number, email ID, etc., on first login. You may also enter a secret question and answer of your choice to retrieve your password in case you forget it. It is strongly recommended that you do not share your password with any other person and that you take utmost care to keep your password confidential.

- iv. You need to login again with the new credentials.
- v. On successful login, the system will prompt you to select the E-Voting Event Number for The Indian Card Clothing Limited.
- vi. If you are holding shares in Demat form and had logged on to <https://evoting.karvy.com> and had cast your vote earlier for any other Company, then your existing login ID and password are to be used.
- vii. On the voting page, enter the number of shares (which represents the number of votes) as on the cut-off date i.e. Monday, July 22, 2019, under "FOR/AGAINST" or alternatively, you may partially enter any number in "FOR" and partially in "AGAINST" but the total number in "FOR/AGAINST" taken together should not exceed your total shareholding as on the cut-off date.
- viii. You may also choose the option "ABSTAIN" and the shares held will not be counted under either head.
- ix. Members holding multiple folios / demat accounts shall choose the voting process separately for each of the folios / demat accounts.
- x. Voting has to be done for each item of the Notice separately. In case you do not desire to cast your vote on any specific item it will be treated as abstained.
- xi. You may then cast your vote by selecting an appropriate option and click on "Submit". A confirmation box will be displayed. Click "OK" to confirm else "CANCEL" to modify. Once you confirm, you will not be allowed to modify your vote.
- xii. During the voting period, members can login any number of times till they have voted on the Resolution(s).

### 2) PERFORMANCE REVIEW:

During the year under review, the Company earned a total revenue of Rs. 4,938.75 Lakhs as against Rs. 6,578.44 Lakhs in the previous year. The loss incurred by the Company for the financial year 2018-19 has been Rs. 1,967.33 Lakhs against loss of Rs. 1,781.14 Lakhs for the financial year 2017-18.

#### Highlights:

Activities related to transfer, installation and commissioning of machinery to Nalagarh Plant completed during the year.

Although the Company successfully shifted its operations to its plant at Nalagarh, Himachal Pradesh, during the interim period of the transfer, the Company was not able to fulfil its entire delivery commitment to its customers.

During the year 2018-19, the Company amicably concluded a Memorandum of Settlement (MOS) on April 18, 2018 with its 83 unionised employees at its plant in Pimpri Pune for voluntary retirement and accordingly 83 employees voluntarily retired and their dues were paid as agreed in the MOS.

During the year, "No Objection" from Labour Commissioner, Mumbai was obtained confirming that there are no pending legal liabilities on the part of the Company towards its unionised employees.

The commercial building at Powai, Mumbai, was fully occupied during the financial year 2018-19.

With effect from September 1, 2018, the Registered office of the Company was shifted from Bombay-Poona Road, Penicillin Factory, Pimpri, Pune – 411018 to "Katariya Capital", A – 19, Vidyut Nagar Society, Lane No. 5, Koregaon Park, Pune – 411 001.

**3) SHARE CAPITAL:**

The paid-up share capital of the Company as on March 31, 2019, was Rs. 455.11 Lakh. During the year under review, the Company has not issued shares with differential voting rights nor has granted any stock option or sweat equity. As on March 31, 2019, none of the Directors of the Company hold instruments convertible into equity shares of the Company.

**4) STATE OF THE COMPANY'S AFFAIRS:**

During the financial year ended March 31, 2019, the Company has incurred loss mainly on account of shifting of its operations to its Nalagarh Plant. During the year, the Company completed all the activities related to the transfer of machinery, like construction of additional infrastructure, installation and commissioning of appropriate machinery and completion of trial production at the Nalagarh Plant.

Your directors are confident that the Nalagarh plant of the Company is now set to cater to all the manufacturing requirements of the Company and shall be able to operate with full efficiency in the financial year 2019-20. With all the manufacturing operations now entirely based at Nalagarh, we are optimistic that the performance of the card clothing division will improve with an improved cost structure and deployment of appropriate resources in key functional areas of the Company.

The detailed information about the Company's affairs is provided under the Management Discussion and Analysis Report in accordance with the requirements under Regulation 34(2)(e) of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 (hereinafter called and referred to as "the Listing Regulations"), which forms a part of this Report.

**5) DIRECTORS AND KEY MANAGERIAL PERSONNEL:****a) Meetings of the Board of Directors held during the year 2018-19:**

During the year under review, six (6) meetings of the Board of Directors took place, details of which have been provided in the Corporate Governance Report that forms part of this Annual Report. The intervening gap between the two (2) meetings did not exceed 120 days in accordance with the provisions of the Companies Act, 2013.

**b) Declaration by Independent Directors:**

The Company has received necessary declaration from all the Independent Directors under Section 149(7) of the Companies Act, 2013, that they meet the criteria of Independence as provided in sub-section (6) of Section 149 of the Companies Act, 2013 and Regulation 16(1)(b) of the Listing Regulations.

The Independent Directors are not liable to retire by rotation as per Section 152 of the Companies Act, 2013.

**c) Changes in the Board of Directors during the year 2018-19:**

During the year under review, following changes happened in the constitution of the Board of Directors of the Company.

**7) SUBSIDIARY COMPANIES AND THEIR PERFORMANCE / FINANCIAL POSITION:**

In accordance with Section 129(3) of the Companies Act, 2013 and Indian Accounting Standard (Ind-AS) 110, the Company has prepared the Consolidated Financial Statements of the Company and all its subsidiaries, which forms part of this Annual Report.

The Company does not have any material subsidiary whose net worth exceeds 10% of the consolidated net worth of the holding company in the immediately preceding accounting year or has generated 10% of the consolidated income of the Company and its subsidiaries during the previous financial year. However, the Company has prepared a policy for determining material subsidiaries which is uploaded on the Company's website and can be accessed vide weblink: <http://cardindia.com/wp-content/uploads/2018/01/ICC-Policy-on-Material-Subsidiaries.pdf>.

The Statement in Form AOC-I containing salient features of the financial statements of Company's Subsidiaries is attached to the financial statements of the Company.

The brief details about the performance and financial position of the subsidiaries of the Company are given below:

**a) ICC International Agencies Limited:**

ICC International Agencies Limited (ICCIAL) recorded a decrease of approx. 25% in its revenue from Rs. 349.85 Lakhs in the previous year to Rs. 262.01 Lakhs in the financial year 2018-19. Further, ICCIAL recorded loss after tax of Rs. 94.19 Lakhs in the current year against previous year's loss after tax of Rs. 59.31 Lakhs. The reduced revenue and the after-tax loss incurred was due to the difficult trading conditions in the textile industry within India leading to many customers postponing or cancelling capital equipment purchases. The global slowdown in the textile industry also contributed to reduced revenue.

**b) Garnett Wire Limited, U.K.:**

Garnett Wire Limited, a U.K. Company, in which your Company holds 60% of the issued share capital, recorded decrease of approx. 9% in its revenue from £1,146,372 (equivalent to Rs. 987.31 Lakh) to £1,039,928 (equivalent to Rs. 943.94 Lakhs). The profit after tax is £13,432 (equivalent to Rs. 12.19 Lakhs) as against previous year's profit of £24,376 (equivalent to Rs. 20.99 Lakh).

**c) Shivraj Sugar and Allied Products Private Limited:**

Shivraj Sugar and Allied Products Private Limited is yet to commence operations.

**8) AUDIT COMMITTEE:**

The Company has constituted an Audit Committee pursuant to the provisions of Section 177(8) of the Companies Act, 2013, read with Rules 6 and 7 of the Companies (Meetings of Board and its Powers) Rules, 2014 and Regulation 18 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 as amended from time to time.

The Audit Committee of the Company was reconstituted in the Board meeting held on April 4, 2019 pursuant to cessation of Mr. Hemraj Asher - an Independent Director of the Company with effect from April 1, 2019.

**ANNEXURE – D****INFORMATION IN RESPECT OF ENERGY CONSERVATION, TECHNOLOGY ABSORPTION AND FOREIGN EXCHANGE EARNINGS AND OUTGO**

Information as per Section 134(3)(m) of the Companies Act, 2013, read with Companies (Accounts) Rules, 2014 ("Rules") for the year ended March 31, 2019 is as follows:

**A) CONSERVATION OF ENERGY:****i) Steps taken or impact on conservation of energy:**

During the year under review, the Company was in the transition phase of shifting its operations to its Nalagarh Plant. This resulted in lower production which in turn resulted in lower power consumption. However, few steps were taken during the year 2018-19 towards conservation of energy which are given below:

Optimum utilization of air conditioning, dust extraction plant and compressed air.

Use of energy saving equipments like LED bulbs & tubes, timers etc.

More usage of machines in third shift facilitating in balancing of power demand and resulting in power rebate.

The lower consumption of power and steps taken towards the conservation of energy as mentioned above has resulted into overall savings of approx. Rs. 80.72 Lakhs in the power cost.

**ii) Steps taken by the Company for utilising alternate sources of energy:**

The Company continuously uses its best endeavor for identifying and utilizing alternate sources of energy. The Company has, therefore, initiated the process for utilizing solar energy as alternate source of energy. During the year, the Company also controlled its diesel consumption and water consumption.

**iii) Capital Investment on energy conservation equipment:**

No capital investment was made during the year on energy conservation equipments.

**B) TECHNOLOGY ABSORPTION:****i) The efforts made towards Technology Absorption:**

Your Company continues to take consistent efforts towards Technology Absorption. The major steps taken during the year 2018-19 on Technology Absorption are as follows:

New design of Cylinder wires were developed for latest generation of high production cards.

Developed and conducted field trial of stationery flat with improved surface finish and wire tip hardness.

Developed micro-alloy steel wires with special treatment for enhanced life and working performance.

Developed new processes for improvement of working life of metallic card clothing.

Developed new profiles of Interlocking wire range for Non- woven applications.

**ii) The benefits derived like product improvement, cost reduction, product development or import substitution:**

The new Cylinder wires for high production card will help in reducing the maintenance cost while improving the life of the wire.

Improvement in surface finish and wire tip hardness of stationery flats due to use of latest technology in processing would result in cooler working due to low friction at high production rate. This will also lower fibre rupture in card. Better tip hardness enables the stationery flat working for longer duration.

Special treatment processes were developed for refinement of microstructure of micro-alloy steel wire for achieving enhanced life of wire. Field trial of this wire showed improvement in working performance on high production cards.

## THE INDIAN CARD CLOTHING COMPANY LIMITED

New processes were introduced which showed improvement in wire tip shape. Improvement and a consistent tip shape would help in achieving consistency and life of card clothing. Presently the products are deployed in mills for field trial.

Range of Interlocking wires to cater Non- woven market were expanded. Complete wire range for Mobiltech sector, a major segment of Technical textiles was developed. Increased demand of Non-woven wires for markets in India, Turkey, Taiwan, Indonesia, Bangladesh, Vietnam & Egypt has been met.

Your Company plans to continue to carry out improvements in its manufacturing processes.

- iii) In case of imported technology (imported during the last three years reckoned from the beginning of the financial year):

No technology was imported during the year or any time during the last three financial years.

- iv) The expenditure incurred on Research and Development (R&D) during the financial year 2018-19: Rs. 49.98 Lakhs.

### C) FOREIGN EXCHANGE USED AND EARNED:

## MANAGEMENT DISCUSSION AND ANALYSIS REPORT

### **A) Industry Structure and Developments:**

Carding is a mechanical process that disentangles and cleans fibres to produce a continuous web or sliver suitable for subsequent processing in a spinning mill. This is achieved by passing the fibres between surfaces moving at different speeds covered with card clothing wires. It breaks up locks and unorganised clumps of fibre and then aligns the individual fibers to be parallel with each other.

Card Clothing is, therefore, a critical input required by the spinning mills for producing quality yarn, which is then used by the textile industry for woven or knit fabrics. The demand for card clothing in the re-clothing market is entirely dependent on the current installed capacity of carding machines, the production rate of the carding machines installed by spinning mills and the consumption of fibre. Card Clothing is initially supplied together with the new carding machines and subsequently in the secondary / replacement market once the carding machine is due for re-clothing.

The total spindleage has increased marginally from 49 million spindles in 2013 – 2014 to 53 million spindles in 2017 – 2018. This would increase the demand for card clothing in the domestic market.

Although globally, India has the highest area of cotton under cultivation, the trend has been on the decline from 12.86 million hectares in 2014 – 2015 to 10.5 million hectares in 2016 – 17. In addition, the yield per hectare has shown a reducing trend from 511 kg/hectare to present value of 476 kg/hectare resulting in a reduction of total production from 38.6 million bales to 34.3 million bales.

However, there has been no supply constraints in raw cotton since domestic consumption of around 31.6 million bales, although low in comparison to annual production of cotton, has been compensated by a steady decline in export of cotton yarn. Export of cotton yarn has shown substantial decline from 2013 - 2014 from 1,313 million kgs to 1,096 million kgs in 2017 – 2018, after withdrawal of export incentives which have created a decline in margins.

The installed base of carding machines in India [in 2018] is approximately 27,000 cards of which very slow speed cards and slow speed cards with a production rate of {kg/hour} aggregate to around 6,300. High production cards, which have a production rate of {kg/hour} are around 13,900 and super production cards with production rate upwards of {Kg/hour} are around 6,800. The carding industry is transitioning from slow and very slow speed cards to high and very high-speed cards in India, as it has no longer become economical to operate slow production cards due to increasing cost of manpower and power. The annual increase in the demand for card clothing is estimated at 2% which is mainly in the category of super production cards.

In the European market, Rieter and Trutzschler are the major manufacturers of carding machines. Rieter, which owns Graf, supplies all its carding machines with Graf card clothing. Trutzschler cards are equipped with Trutzschler card clothing and are favoured by spinning mills processing coarse and medium counts. There are other myriad manufacturers of carding machines in China, although the international demand for those carding machines is limited due to their inability to match the technology of European and Indian manufacturers. Chinese suppliers are targeting the card clothing market of slow and medium speed cards by offering very low prices compared to the other competitors.

As far as the re-clothing market is concerned, Graf and Trutzschler are generally preferred for the first couple of re-clothing cycles by the spinning mills on Rieter and Trutzschler cards respectively. Cards in the super production segment are imported by the spinning mills directly from Rieter based in Switzerland or Trutzschler from Germany.

The major Indian manufacturers of carding machines are Lakshmi Machine Works (LMW) and Trutzschler India. Between the two major Indian carding machine manufacturers, LMW is well established and has the advantage of being able to provide a “bale to yarn” solution for new spinning mills. LMW carding machines are clothed with Lakshmi Card Clothing (LCC) and Groz Bekeart. Trutzschler India equips its carding machines with card clothing manufactured by Trutzschler in India or Germany. The Company, LCC and Groz Bekeart share the market for re-clothing of high production card segment manufactured by LMW and Trutzschler India and for some imported super production cards. These three Card Clothing manufacturers have been able to hold their share in this area by virtue of providing prompt service, quicker delivery and acceptable quality at reasonable prices.

The year 2018-19 evidenced a decline in the demand for card clothing in domestic market mainly due to acute pressure on spinning industry as a result of low cotton production, low domestic consumption of cotton, decline in exports of cotton yarn and increasing cotton prices. All this, in turn, impacted pattern of purchase of card clothing products and accessories in domestic market (*source : Citi Textile Times – April, 2019*).

**B) SWOT Analysis:**Strengths

The Company through its institutional knowledge and vast experience has acquired a reputation of being able to provide solutions for many problems related to carding faced by spinning mills.

Strong sales and service support in all major spinning centers in India as well as a wide distribution network. The Company has also established its own sales and service office in Turkey.

The Company is perceived as a "value for money" brand in the market.

Strong brand recall due to its presence in the market for over 60 years.

The Company's premium re-clothing combination of Maxus Plus cylinder wire, Nextra 55 Tops and Aero doffer has demonstrated good results in the market and customers have accepted this combination for its consistent results and cost competitiveness.

Focus on Research & Development to continuously improve the processes and develop of new products.

Weaknesses

The Company does not have a close association with a leading carding machine manufacturer in and outside India.

Due to the transfer of its tops manufacturing business from its plant in Pune to Nalagarh, the Company was not unable to meet its entire delivery commitment.

Opportunities:

Improved competitiveness of the Indian textile spinning industry relative to the Chinese textile industry

The potential of unit volume growth in high production card market segments in which the Company has a lower share and in export markets.

Opportunities arising out of development of new products.

Expected growth in nonwoven and technical textile industry in India and overseas markets.

Promotional policies of the Government for the textile sector.

Threats

Competition from other card clothing manufacturers who have emerged as value for money provider placing pressure on margins.

**C) Operations****i) Product-wise Operational performance:**

The Product-wise performance of the Company is as given below:

Metallic:

Decrease in sales of the Metallic sector by approx. 7% in the financial year 2018-19 as compared to the previous financial year.

Non-woven:

Increase in sales of the non-woven sector by approx. 22% in the financial year 2018-19 as compared to the previous financial year.

Machines:

Decrease in sales of Machines sector by approx. 7% in the financial year 2018-19 as compared to the previous financial year.

Servicing:

Decrease in revenue from Servicing by approx. 1% in the financial year 2018-19 as compared to the previous financial year.

## ii) Measures taken for improving the operational efficiency:

The year 2018-19 was a challenging year following the closure of its manufacturing plant in Pimpri, Pune. Although, the Company successfully shifted its operations to its plant at Nalagarh, Himachal Pradesh, during the interim period of the transfer, the Company was not able to fulfil its entire delivery commitment to its customers.

At the financial year ended 31 March 2019, all the activities related to the transfer of machinery, like construction of additional infrastructure, installation and commissioning of appropriate machinery and completion of trial production at the Nalagarh Plant were completed.

The Board of Directors of the Company and the entire Management Team is confident that the Nalagarh plant of the Company is set to cater to all the manufacturing requirements of the Company and shall be able to operate with full efficiency in the financial year 2019-20.

## D) Outlook:

India's overall textile exports during FY 2017-18 stood at US\$ 39.2 billion and is expected to increase to US\$ 82.00 billion by 2021 from US\$ 31.65 billion in FY 2019. The Indian textiles industry, currently estimated at around US\$ 150 billion, is expected to reach US\$ 250 billion by 2019. The Indian government has come up with a number of export promotion policies for the textiles sector. It has also allowed 100 per cent Foreign Direct Investment in the Indian textiles sector under the automatic route.

Huge Investments made by the Government under scheme for Integrated Textile Parks, rising per capita income, favourable demographics and a shift in preference to branded products are expected to boost the demand for textile industry. During the year 2019, the growth in private consumption is expected to create strong domestic demand for textiles. (Source : IBEF)

Since the demand for the card clothing products is highly dependent on the consumption of cotton by the spinning mills, concerns raised by The Cotton Advisory Board (CAB) where it estimated that for the year 2019 the cotton yield in India is likely to decline to a three-year low do not bode well for the growth of yarn production and as a corollary, card clothing. This estimate is based on its assessment of crop damage following drought in its major growing states including Gujarat and Maharashtra, the two states jointly contributing half of India's cotton output. Lower cotton sowing area and fall in yields due to less rain are the main reasons for the fall in output. (Source : Cotton Statistics & News dated 8<sup>th</sup> January, 2019 published by Cotton Association of India). The Confederation of Indian Textile Industry (CITI) has estimated that the cotton crop for the year 2019 may go as low as 343 Lakh bales as against 364 Lakh bales for the year 2018. (Source : Citi Press Release dated April 15, 2019).

However, a comfortable stock from the earlier season is expected to alleviate the stress of output shortage due to uneven rainfall in the 2018-19 cotton season. Further, a stable demand for yarn will help minimise the impact on spinning mills' profitability.

During the financial year 2019-20, the Company will further continue to focus on its efforts related to improvements in plant efficiency and productivity and develop new products for latest generation of carding machines.

## E) Risks and Concerns:

Card Clothing manufacturing contributes around 90% of the total operating revenue of the Company. The demand for card clothing in the re-clothing market is entirely dependent on the current installed capacity of carding machines, their production rate and consumption of fibre. Any slowdown in demand in the textile spinning industry, particularly cotton, directly impacts the prospects of the Company.

The Spinning Mills in India have faced following challenges during the year 2018-19:

Surplus production over domestic consumption of cotton yarn.

Substantial decline in exports of cotton yarn after 2013-14 when export incentives were withdrawn including steep declines in exports to China.

Increase in price of raw cotton without a corresponding increase in yarn prices increased working capital requirements for the mills and decreased their margins.

Manufacturing cost of cotton textiles in India is comparatively higher than other countries like Bangladesh and Vietnam.

In addition to the above, Card Clothing industry in India, which is a major supplier to the spinning mills virtually depend upon a single source supplier for commodities like steel, cotton and rubber due to the criticality of raw material required for manufacturing card clothing. The card clothing manufacturers have very little control over such suppliers. Apart from the risk associated with the volatility in raw material prices the Company is also exposed to other general risks related to volatility in Foreign Exchange rates, change in taxation structures, changes in interest rates, natural / manmade disasters, and political risks.

While tapping the growth opportunities, the major risks and areas of concern for the card clothing industry are unstable spinning industry, increasing input costs, high price of power and its inadequate supply and lack of infrastructure among companies in small & very small-scale sector.

**F) Internal control systems and their adequacy:**

The Company has a costing system to help control costs and to take decisions on pricing. Pursuant to Notification No. G.S.R. 725(E) dated July 31, 2018 whereby the Companies (Accounts) Amendment Rules, 2018 were notified, the Company is maintaining the Cost Records under sub-section (1) of section 148 of the Companies Act, 2013. A certificate of M/s. Bhargave & Co., Cost Accountants has been obtained certifying that the Company has maintained the Cost Records as per the statutory requirements mentioned above.

A firm of auditors manned by technically and commercially qualified personnel carries out internal audit, of Nalagarh plant, which is followed up by discussion with each department, the Chief Executive Officer and in the Audit Committee. Wherever risks have been identified in processes or systems, these have been addressed by implementing a more robust process.

The Company has a proper and well-established accounting and auditing system covering all areas of operations. ERP has been strengthened and more rigorous processes have been instituted and the same is being monitored on continuous basis. The Company functions with Oracle R12 ERP system thereby enabling seamless operations. The Company has taken all the necessary steps in preparing its ERP System as well as other internal systems for its smooth functioning in the Goods and Service Tax (GST) era.

The Company's manufacturing facility has ISO 9001 certification, which is renewed from time to time.

The Company has laid down internal financial controls, which are adequate and were operating effectively and the Board of Directors has adopted necessary internal control policies and procedure for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, safeguarding its assets, prevention and detection of frauds and errors, the accuracy and completeness of the accounting records and timely preparation of reliable financial information.

**G) Financial performance and operational performance:**

**Standalone Financial Performance**

During the year under review, the Company earned a total revenue of Rs. 4,938.75 Lakhs as against Rs. 6,578.44 Lakhs in the Previous Year. The after-tax loss incurred by the Company for the financial year 2018-19, has been Rs. 1,967.33 Lakhs against the after-tax loss of Rs. 1,781.14 Lakhs for the financial year 2017-18.

**Consolidated Financial Performance**

During the year under review, the Company along with its subsidiaries achieved a total consolidated revenue of Rs. 6,077.54 Lakhs for the year ended March 31, 2019, as against Rs. 7,818.75 Lakhs for the previous year ended March 31, 2018. The consolidated loss after tax for the year under review has been Rs. 2,049.44 Lakhs as against consolidated loss after tax of Rs. 1,814.16 Lakhs for the previous year.

**H) Material developments in Human Resources / Industrial Relations:**

### I) Key financial ratios, significant changes therein and its explanation:

Particulars	2018-19	2017-18	Remarks
Debtors Turnover Ratio	84 days	73 days	The Sales have reduced by 27% while the reduction in debtors is 16% as compared to last year. This has resulted increase in number of days of receivables.
Inventory (FG) Turnover Ratio	24 days	26 days	Better utilisation of FG Inventory has helped in reduction in FG Inventory Turnover.
Interest Coverage Ratio	(6) times	(8) times	The reduction is due to reduction in losses by Rs. 407 Lakhs.
Current Ratio	1.65 times	1.76 times	Reduction in sales by 27% and increase in losses has deteriorated the current ratio by 0.11.
Debt Equity Ratio	0.20 times	0.14 times	Reduction in ratio is due to loss of Rs. 1,883 Lakhs.
Operating Profit Margin (%)	42.82%	50.05%	Increase in material cost by approx. 10% has mainly resulted in reduction in Operating Profit Margin.
Net Profit Margin (%)	-38.15%	-34.55%	Increase in material cost by approx. 10% has mainly resulted in reduction in Net Profit Margin.

### J) Return on net worth, significant changes therein and its explanation:

Return on net worth for the financial year 2017-18 was -21% as against -31% for the financial year under review. Reduced sales and increase in material cost has resulted in increase in negative return on networth.

## INDEPENDENT AUDITOR'S REPORT

### TO THE MEMBERS OF THE INDIAN CARD CLOTHING COMPANY LIMITED

#### Report on the Audit of the Standalone Indian Accounting Standards (Ind AS) Financial Statements

##### Opinion

We have audited the standalone Ind AS financial statements of The Indian Card Clothing Company Limited ("the Company"), which comprise the Balance Sheet as at 31 March 2019, and the Statement of Profit and Loss (including Other Comprehensive Income), Statement of Changes in Equity and Statement of Cash Flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the Standalone Ind AS Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the standalone state of affairs of the Company as at 31 March 2019, and its standalone loss (including Other Comprehensive Income), standalone changes in equity and its standalone cash flows for the year ended on that date.

##### Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Ind AS Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone Ind AS financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

##### Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone Ind AS financial statements of the current period. These matters were addressed in the context of our audit of the standalone Ind AS financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

##### 1. Valuation of Investments

###### Description of Key Audit Matter

The Company has total investments of Rs. 2868.38 Lakhs which constitutes about 28% of the total assets of the company. During the year fair valuation gain is Rs. 129.46 Lakhs accounted for under other income in statement of Profit and Loss. In terms of Ind AS 109 "Financial Instruments" Investments, which are financial assets, are required to be fair valued. Improper fair valuation of investments would have adverse effect on profit/ loss for the year or other comprehensive income for the year. Considering the quantum of investment and fair valuation gain we have considered the same as Key Audit Matter.

###### Description of Auditor's Response

We have performed the following audit procedures in relation to the audit of investments and its fair valuation:

- a. Verification of de-mat account and statement of account in respect of mutual funds for confirming existence of investments as on 31<sup>st</sup> March 2019.
- b. In respect of investments in bonds and mutual funds, which are fair valued through profit or loss, fair value for the same is verified from statement of NAV from mutual funds, market quotations and wherever the latest traded quotation not available, the fair value is obtained from CRISIL.
- c. Gain/loss is verified from the sale consideration and the fair value of investment as on the date of sale.

**2. Trade receivable****Description of Key Audit Matter**

Trade receivable as on 31<sup>st</sup> March 2019, are Rs.990.39 Lakhs and Impairment provision against the same is Rs. 95.39 Lakhs.

Management judgement is involved in identifying impairment in the value of receivable as well as formulating the policy for creating provisioning against impairment which has as adverse effect on the profit/loss of the Company.

**Description of Auditor's Response**

We have performed the following processes in relation to Management's Judgement in identification of impairment of value of Receivables and adequacy of impairment provisions:

- a. We have verified age-wise analysis of receivables.
- b. We have sought information and explanation from the management regarding status of receivable in respect of overdue receivable for the purpose of ensuring adequacy of provision.

We have also tested subsequent collection made from the overdue receivables.

**Other Information**

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the annual report, but does not include the standalone Ind AS financial statements and our auditor's report thereon, which we obtained prior to the date of this auditor's report.

Our opinion on the standalone Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone Ind AS financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

**Responsibilities of Management and Those Charged with Governance for the Standalone Ind AS Financial Statements**

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the standalone financial position, standalone financial performance, standalone changes in equity and standalone cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified in the Companies (Indian Accounting Standards) Rules, 2015 (as amended) under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

**Auditor's Responsibilities for the Audit of the Standalone Ind AS Financial Statements**

Our objectives are to obtain reasonable assurance about whether the standalone Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that

## THE INDIAN CARD CLOTHING COMPANY LIMITED

includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit.

### **We also:**

- Identify and assess the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone Ind AS financial statements, including the disclosures, and whether the standalone Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone Ind AS financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### **Report on Other Legal and Regulatory Requirements**

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the Annexure A; a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
  - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

- b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- c) The Balance Sheet, the Statement of Profit and Loss (including other comprehensive income), Statement of Changes in Equity and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
- d) In our opinion, the aforesaid standalone Ind AS financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- e) On the basis of the written representations received from the directors as on 31 March, 2019 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2019 from being appointed as a director in terms of Section 164 (2) of the Act.
- f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".
- g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
  - (i) The Company has disclosed the impact of pending litigations on its financial position in its financial statements – Refer Note 33 to the financial statements;
  - (ii) The Company did not have any long-term contracts including derivative contracts as at 31 March 2019
  - (iii) There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.
  - (iv) The reporting on disclosures relating to Specified Bank Notes is not applicable to the Company for the year ended 31<sup>st</sup> March 2019

# THE INDIAN CARD CLOTHING COMPANY LIMITED

## **Annexure B: To the Independent Auditors' Report of even date on the standalone Ind AS financial statements of The Indian Card Clothing Company Limited**

### **Report on the Internal Financial Controls**

#### **Under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

We have audited the internal financial controls over financial statements of **The Indian Card Clothing Company Limited** ("the Company") as of 31<sup>st</sup> March, 2019 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

#### **Management's Responsibility for Internal Financial Controls**

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

#### **Auditor's Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls over financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial statements and their operating effectiveness. Our audit of internal financial controls over financial statements included obtaining an understanding of internal financial controls over financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial statements.

#### **Meaning of Internal Financial Controls Over Financial Reporting**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that, (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

#### **Inherent Limitations of Internal Financial Controls Over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### Opinion

Though the Company has maintained, in all material respects, internal financial controls system over financial statements and such internal financial controls over financial statements were operating effectively as of 31<sup>st</sup> March 2019, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India, we are of the opinion that formal documentation to substantiate controls needs to be strengthened.

We have considered the opinion expressed above in determining the nature, timing and extent of audit test applied in our audit of Ind AS financial statements of the company and the same does not affect our opinion on the Ind AS financial statements of the Company.

# THE INDIAN CARD CLOTHING COMPANY LIMITED

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31<sup>ST</sup> MARCH 2019.

### The Company and Nature of its Operations

The Indian Card Clothing Company Limited having its corporate office in Pune, Maharashtra, India, carries out its business in the card clothing and real estate segments. The Company is a public limited company and is listed on the National Stock Exchange of India and the Bombay Stock Exchange Limited.

### Note 1: Significant Accounting Policies

This note provides a list of the significant accounting policies adopted in the preparation of these standalone financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

#### (a) Basis of Preparation

##### i. Compliance with Ind AS

The standalone financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act.

The financial statement of the company were Authorised by the Board of Directors on 24th May 2019.

##### ii. Historical Cost Conversion

The Financial Statements have been prepared on historical cost basis, except the following:

- Certain financial assets and liabilities are measured at fair value;
- Defined benefit plans - plan assets measured at fair value

##### iii. New and amended standards adopted by the Company

The company has applied the following standards and amendments for the first time for its annual reporting period commencing 1 April 2018:

- Ind AS 115, Revenue from contracts with customers.
- Amendment to Ind AS 20, Accounting for Government Grants and Disclosure of Government Assistance.
- Appendix B, Foreign Currency Transactions and Advance Consideration to Ind AS 21, The Effects of Changes in Foreign Exchange Rates.
- Amendment to Ind AS 12, Income Taxes.
- Amendment to Ind AS 40, Investment Property.
- Amendment to Ind AS 28, Investment in Associates and Joint Ventures and Ind AS 112, Disclosure of Interest in Other Entities.

This is disclosed in note 35.

##### iv. Current/non-current classification

All assets and liabilities have been classified as current or non-current as per the Company's operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current/non-current classification of assets and liabilities.

#### (b) Accounting estimates, assumptions & judgements

The preparation of the financial statements requires management to make estimates, assumptions and judgments that affect the reported balances of assets and liabilities and disclosures as at the date of the financial statements and the reported amounts of income and expense for the periods presented.

The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates considering different assumptions and conditions.

Estimates and underlying assumptions are reviewed on an ongoing basis. Impact on account of revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected.

The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying values of assets and liabilities within the next financial year are discussed below.

#### **Deferred Income Tax Assets and Liabilities**

Significant management judgment is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits. The amount of total deferred tax assets could change if estimates of projected future taxable income or if tax regulations undergo a change.

#### **Useful life of Property, Plant & Equipment (PPE)**

The Management reviews the estimated useful lives and residual value of PPE at the end of each reporting period.

The factors such as changes in the expected level of usage, number of shifts of production, technological developments and product life-cycle, could significantly impact the economic useful lives and the residual values of these assets. Consequently, the future depreciation charge could be revised and thereby could have an impact on the profit of the future years.

#### **Employee Benefit Obligations**

Employee benefit obligations are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, employee benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

#### **Litigations**

From time to time, the Company is subject to legal proceedings, the ultimate outcome of each being always subject to many uncertainties inherent in litigation. A provision for litigation is made when it is considered probable that a payment will be made and the amount of the loss can be reasonably estimated. Significant judgement is made when evaluating, among other factors, the probability of unfavourable outcome and the ability to make a reasonable estimate of the amount of potential loss. Litigation provisions are reviewed at each accounting period and revisions made for the changes in facts and circumstances.

### **(c) Segment Reporting**

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The board of directors of the Company are identified as the Chief operating decision maker. Refer note 38 for segment information presented.

### **(d) Foreign Currency**

The financial statements are presented in Indian rupee (INR), which is Indian Card Clothing Limited functional and presentation currency. On initial recognition, all foreign currency transactions are translated into the functional currency using the exchange rates prevailing on the date of the transaction. As at the reporting date, foreign currency monetary assets and liabilities are translated at the exchange rate prevailing on the Balance Sheet date and the exchange gains or losses are recognised in the Statement of Profit and Loss.

### **(e) Revenue Recognition**

#### **i) Sale of products & Services.**

Under Ind AS 115, revenue is recognized when a customer obtains control of the goods or services. Determining the timing of the transfer of control - at a point in time or over time - requires judgement. Revenue from the sale of goods is recognized when the performance obligation is satisfied by transfer of the promised goods to customer for a consideration which company expects to be entitled for these goods.

#### **ii) Interest income**

Interest income from a financial asset is recognized when it is probable that the economic benefits will flow to the company and the amount of income can be measured reliably. Interest income is accrued on a time

## THE INDIAN CARD CLOTHING COMPANY LIMITED

basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset's net carrying amount on initial recognition.

### iii) Dividends

Dividends are recognized in profit or loss only when the right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the company, and the amount of the dividend can be measured reliably.

### iv) Export Incentives

Export benefits in the form of Duty Draw Back are recognised on receipt basis in the statement of Profit and Loss. Revenue from export incentives in the form of Merchandise Export Incentive Scheme (MEIS) are accounted for on export of goods if the entitlements can be estimated with reasonable assurance and conditions precedent to claim are fulfilled.

### (f) Borrowing Costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a Qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation. Other borrowing costs are expensed in the period in which they are incurred.

### (g) Income Taxes

Current tax is provided on the basis of estimated tax liability, computed as per applicable provisions of the Income Tax Act, 1961.

Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Minimum Alternate Tax (MAT) paid in a year is charged to the statement of profit and loss as current tax. The company recognises MAT credit available as an asset only to the extent that there is convincing evidence that the company will pay normal income tax during the specified period, i.e., the period for which MAT credit is allowed to be carried forward. The company reviews the 'MAT credit entitlement' asset at each reporting date and writes down the asset to the extent the company does not have convincing evidence that it will pay normal tax during the specified period. Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements.

Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss). Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled. Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses. Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority.

Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously. Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

### (h) Leases

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

**i. Company as a lessee**

A lease is classified at the inception date as a finance lease or an operating lease. A lease that transfers substantially all the risks and rewards incidental to ownership to the company is classified as a finance lease. Finance leases are capitalised at the commencement of the lease at the inception date fair value of the leased asset or, if lower, at the present value of the minimum lease payments. Lease payments are apportioned between finance charges and reduction of the lease liability to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognised in finance costs in the statement of profit and loss.

A leased asset is depreciated over the useful life of the asset. However, if there is no reasonable certainty that the company will obtain ownership by the end of the lease term, the asset is depreciated over the shorter of the estimated useful life of the asset and the lease term.

Operating lease payments are recognised as an expense in the statement of profit and loss on a straight-line basis over the lease term unless the payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases or another systematic basis is available.

**ii. Company as a lessor**

Leases in which the company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognised on a straight-line basis over the term of the relevant lease unless the payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases or another systematic basis is available. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

Leases are classified as finance leases when substantially all of the risks and rewards of ownership transfer from the company to the lessee. Amounts due from lessees under finance leases are recorded as receivables at the company's net investment in the leases. Finance lease income is allocated to accounting periods to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease.

**(i) Cash & Cash Equivalent**

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

**(j) Trade Receivables**

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment. The Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables for calculation of expected credit losses on trade receivables

**(k) Inventories - Raw materials and stores, work in progress and finished goods**

Raw materials and stores, work in progress and finished goods are stated at the lower of cost and net realisable value. Cost of raw materials comprises cost of purchases. Cost of work-in-progress and finished goods comprises direct materials, direct labour and an appropriate proportion of variable and fixed overhead expenditure, the latter being allocated on the basis of normal operating capacity. Cost of inventories also include all other costs incurred in bringing the inventories to their present location and condition. Costs are assigned to individual items of inventory on the basis of weighted average basis. Costs of purchased inventory are determined after deducting rebates and discounts. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

**(l) Investments****Classification**

The Company classifies its investments in the following measurement categories:

# THE INDIAN CARD CLOTHING COMPANY LIMITED

- i. Those to be measured subsequently at fair value (either through other comprehensive income, or through profit or (loss), and those measured at amortised cost.
- ii. The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows. For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in equity instruments, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

## **Measurement**

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income.

For investments in debt instruments, this will depend on the business model in which the investment is held.

For investments in equity instruments, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

The Company subsequently measures all equity investments at fair value. Where the Company's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or loss. Dividends from such investments are recognised in profit or loss when the Company's right to receive payments is established.

The Company reclassifies debt investments when and only when its business model for managing those assets changes.

## **(m) Property, Plant & equipment's**

Freehold land is carried at historical cost. All other items of property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items. Cost may also include transfers from equity of any gains or losses on qualifying cash flow hedges of foreign currency purchases of property, plant and equipment's. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred. Depreciation on tangible assets is provided on the written down value (wdv) method over the useful lives of assets as prescribed in Schedule - II of the Companies Act, 2013. On transition to Ind AS, the Company has elected to continue with the carrying value of all of its property, plant and equipment recognised as at 1 April 2016 measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment.

## **(n) Trade and other payables**

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost.

## **(o) Borrowings**

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn.

## **(p) Provisions & Contingencies**

Provisions for legal claims and returns are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

A Contingent Liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or

a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements. A disclosure for a contingent liability is made where there is a possible obligation arising out of past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation arising out of a past event where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

Contingent asset is not recognised in the financial statements. A contingent asset is disclosed, where an inflow of economic benefits is probable. Provisions, contingent liabilities and contingent assets are reviewed at each balance sheet date.

**(q) Employee benefit obligations**

**Short-term employee benefits**

Employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits and are recognised in the period in which the employee renders the related service.

**Post-employment benefits**

**Defined contribution plans**

Contributions to superannuation fund, which are defined contribution schemes, are recognised as an employee benefit expense in the statement of profit and loss in the period in which the contribution is due.

**Defined benefit plans**

Gratuity - The employees' gratuity scheme is a defined benefit plan. The present value of the obligation under such defined benefit plans is determined based on actuarial valuation using the projected unit credit method, which recognises each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation. The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plans, is based on the market yields on government securities as at the reporting date, having maturity periods approximating to the terms of related obligations.

Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through other comprehensive income (OCI) in the period in which they occur. Remeasurements are not reclassified to the statement of profit and loss in subsequent periods.

In case of funded plans, the fair value of the plan's assets is reduced from the gross obligation under the defined benefit plans, to recognise the obligation on net basis.

When the benefits of the plan are changed or when a plan is curtailed, the resulting change in benefits that relates to past service or the gain or loss on curtailment is recognised immediately in the statement of profit and loss. Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The company recognises gains/ losses on settlement of a defined plan when the settlement occurs.

**Provident fund**

For employees, the Company contributes a part of the contributions to a trust. The rate at which the annual interest is payable to the beneficiaries by the trust is administered by the government. The Company has an obligation to make good the shortfall, if any, between the return from the investments of the trust and the notified interest rate.

The cost of providing benefits under above mentioned defined benefit plan is determined using the projected unit credit method with actuarial valuations being carried out at each balance sheet date, which recognizes each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.

## **Other long-term employee benefits**

The liabilities for earned leave & sick leave are not expected to be settled wholly within twelve months after the end of the reporting period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method as determined by actuarial valuation. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating the terms of the related obligation.

Remeasurements as a result of experience adjustments and change in actuarial assumptions are recognised in the statement of profit and loss.

The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

Termination benefits - Termination benefits are expensed at the earlier of when the company can no longer withdraw the offer of those benefits and when the company recognises costs for a restructuring. If benefits are not expected to be settled wholly within 12 months of the reporting date, then they are discounted.

## **(r) Cash dividend to equity holders**

The company recognises a liability to make cash distributions to equity holders when the distribution is authorised and the distribution is no longer at the discretion of the company. As per the corporate laws in India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

## **(s) Earnings per share (EPS)**

Basic EPS is calculated by dividing the profit for the year attributable to equity holders of the company by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year and excluding treasury shares.

Diluted EPS adjust the figures used in the determination of basic EPS to consider

- The after-income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- The weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

## **(t) Intangible assets**

Recognition and measurement

Intangible assets are recognised when the asset is identifiable, is within the control of the company, it is probable that the future economic benefits that are attributable to the asset will flow to the company and cost of the asset can be reliably Expenditure on research activities is recognised in the statement of profit and loss as incurred. Development expenditure is capitalised only if the expenditure can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable and the company intends to and has sufficient resources to complete development and to use or sell the asset. Intangible assets acquired by the company that have finite useful lives are measured at cost less accumulated amortisation and any accumulated impairment losses. Intangible assets with indefinite useful lives are not amortised, but are tested for impairment annually, either individually or at the cash-generating unit level.

### **Subsequent measurement**

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates.

### **Amortisation**

Amortisation is calculated over the cost of the asset, or other amount substituted for cost, less its residual value. Amortisation is recognised in statement of profit and loss on a straight-line basis over the estimated useful lives of intangible assets from the date that they are available for use, since this most closely reflects the expected pattern of consumption of the future economic benefits embodied in the asset.

The estimated useful lives for current and comparative periods are as follows:

- Asset Useful Life
- Software 5

**(u) Fair value measurement**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

In the principal market for the asset or liability, or

In the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset considers a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another.

The company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the company has determined classes of assets and liabilities based on the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

**Leave Obligations**

The leave obligations cover the Company's liability for sick and earned leave.

The amount of the provision of Rs. 94.79 lakhs is presented as current as well as non current. Though the Company does not have an unconditional right to defer settlement for any of these obligations, as based on past experience, the Company does not expect all employees to take the full amount of accrued leave or require payment within the next 12 months. The amounts that reflect leave that is not expected to be taken or paid within the next 12 months is shown under non current portion.

**Defined Contribution Plan**
**Superannuation**

The Company provides retirement benefits in the form of contribution to superannuation fund at the rate of 15% of annual salary.

**Defined Benefit Plan**
**a) Gratuity**

The Company provides for gratuity for employees in India as per the Payment of Gratuity Act, 1972. Employees who are in continuous service for a period of 5 years are eligible for gratuity. The amount of gratuity payable on retirement/termination is the employees last drawn basic salary per month computed proportionately for 15 days salary multiplied for the number of years of service. The gratuity plan is a funded plan and the Company makes contributions to recognised funds in India. The cost of providing benefit under above mentioned defined benefit plan is determined using the projected unit credit method with actuarial valuation being carried out balance sheet date. The Company does not fully fund the liability and maintains a target level of funding to be maintained over a period of time based on estimations of expected gratuity payments.

## THE INDIAN CARD CLOTHING COMPANY LIMITED

### b) Provident Fund

The Company has a Provident Fund Plan, which is a defined benefit plan, which is managed through the Provident Fund Trust of the Company. The contributions are made to the Trust and shortfall in interest obligation, if any is met by the Company. The cost of providing benefits under above mentioned defined benefit plan is determined using the projected unit credit method with actuarial valuations being carried out at the balance sheet date.

The amounts recognised in the balance sheet and the movement in the defined benefit obligations over the years are as follows:

The above sensitivity analysis are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the balance sheet.

**(i) Fair Value Hierarchy**

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

The following table provides the fair value measurement hierarchy of the Company's financial assets and liabilities that are measured at fair value or where fair value disclosure is required:

## (ii) Valuation process to determine fair value

The following methods and assumptions were used to estimate the fair values of financial instruments:

- i) The carrying amounts of cash and cash equivalents, trade receivables, trade payables, bank overdrafts and other current financial assets and liabilities are considered to be the same as their fair values, due to their short-term nature.
- ii) The fair values of the equity instruments, mutual fund units and bonds which are quoted, are derived from quoted market prices in active markets. In the case of the investment measured at fair value and falling under fair value hierarchy Level 3, cost has been considered as an appropriate estimate of fair value.

## Significant unobservable inputs used in Level 3 fair values:

Based on an offer received by the Company in respect of Equity instrument, there is no significant difference in the offer value and carrying value of equity instrument and therefore the carrying value is treated as fair value.

Security deposits received are fair valued by discounting using Effective interest rate at the time of inception/date of transition.

### (B) Liquidity Risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Due to the dynamic nature of the underlying businesses, treasury maintains flexibility in funding by maintaining availability under committed credit lines.

Management monitors rolling forecasts of the Company's liquidity position (comprising the undrawn borrowing facilities below) and cash and cash equivalents on the basis of expected cash flows. These limits vary by location to take into account the liquidity of the market in which the entity operates. In addition, the Company's liquidity management policy involves projecting cash flows in major currencies and considering the level of liquid assets necessary to meet these, monitoring balance sheet liquidity ratios against internal and external regulatory requirements and maintaining debt financing plans.

**(i) Financing Arrangements**

The Company had access to the following undrawn borrowing facilities at the end of the reporting period:

## (D) Cash Flow and Fair Value Interest Rate Risk

The Company's main interest rate risk arises from long-term borrowings with variable rates, which exposes the Company to cash flow interest rate risk.

The Company's fixed rate borrowings are carried at amortised cost. They are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates. However, the Company has no fixed rate borrowings.

## (i) Interest Rate Exposure

The exposure of the Company's borrowing to interest rate changes at the end of the reporting period are as follows:

Particulars	31 <sup>st</sup> March 2019	31 <sup>st</sup> March 2018
Variable rate borrowings	289.48	104.19

**INDEPENDENT AUDITOR'S REPORT****TO THE MEMBERS OF THE INDIAN CARD CLOTHING COMPANY LIMITED****Report on the Audit of the Consolidated Indian Accounting Standards (Ind AS) Financial Statements****Opinion**

We have audited the accompanying consolidated Ind AS financial statements of The Indian Card Clothing Company Limited (hereinafter referred to as the 'Holding Company') and its subsidiaries (Holding Company and its subsidiaries together referred to as "the Group"), which comprise the consolidated Balance Sheet as at 31 March 2019, and the consolidated statement of Profit and Loss (including Other Comprehensive Income), the consolidated Statement of Changes in Equity and the consolidated Cash Flows Statement for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the Consolidated Ind AS Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Company as at 31 March 2019, of consolidated loss (including Other Comprehensive Income), consolidated changes in equity and its consolidated cash flows for the year then ended.

**Basis for Opinion**

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Ind AS Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Consolidated Ind AS financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

**Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

**1. Valuation of Investments****Description of Key Audit Matter**

The Company has total investments of Rs. 2700.47 Lakhs which constitutes about 24% of the total assets of the group. During the year fair valuation gain is Rs. 129.46 Lakhs accounted for under other income in statement of Profit and Loss. In terms of Ind AS 109 "Financial Instruments" Investments, which are financial assets, are required to be fair valued. Improper fair valuation of investments would have adverse effect on profit/loss for the year or other comprehensive income for the year. Considering the quantum of investment and fair valuation gain we have considered the same as Key Audit Matter.

**Description of Auditor's Response**

We have performed the following audit procedures in relation to the audit of investments and its fair valuation:

- a. Verification of de-mat account and statement of account in respect of mutual funds for confirming existence of investments as on 31<sup>st</sup> March 2019.
- b. In respect of investments in bonds and mutual funds, which are fair valued through profit or loss, fair value for the same is verified from statement of NAV from mutual funds, market quotations and wherever the latest traded quotation not available, the fair value is obtained from CRISIL.
- c. Gain/loss is verified from the sale consideration and the fair value of investment as on the date of sale.

**2. Trade receivable****Description of Key Audit Matter**

Trade receivable as on 31<sup>st</sup> March 2019, are Rs. 1102.95 Lakhs and Impairment provision against the same is Rs. 100.93 Lakhs.

# THE INDIAN CARD CLOTHING COMPANY LIMITED

Management judgement is involved in identifying impairment in the value of receivable as well as formulating the policy for creating provisioning against impairment which has as adverse effect on the profit/loss of the Company.

## Description of Auditor's Response

We have performed the following processes in relation to Management's Judgement in identification of impairment of value of Receivables and adequacy of impairment provisions:

- a. We have verified age-wise analysis of receivables.
- b. We have sought information and explanation from the management regarding status of receivable in respect of overdue receivable for the purpose of ensuring adequacy of provision.

We have also tested subsequent collection made from the overdue receivables.

## Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the (information included in the annual report, but does not include the consolidated Ind AS financial statements and our auditor's report thereon.) which we obtained prior to the date of this auditor's report.

Our opinion on the consolidated Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated Ind AS financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

## Responsibilities of Management and Those Charged with Governance for the Consolidated Ind AS Financial Statements

The Holding Company's Board of Directors is responsible for the preparation and presentation of these consolidated Ind AS financial statements in term of the requirements of the Companies Act, 2013 that give a true and fair view of the consolidated financial position, consolidated financial performance, the consolidated statement of changes in equity and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated Ind AS financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated Ind AS financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group are responsible for overseeing the financial reporting process of the Group.

## Auditor's Responsibilities for the Audit of the Consolidated Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit.

**We also:**

Identify and assess the risks of material misstatement of the consolidated Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(If the Companies Act, 2013, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.

Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

Evaluate the overall presentation, structure and content of the consolidated Ind AS financial statements, including the disclosures, and whether the consolidated Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated Ind AS financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated Ind AS financial statements of which we are the independent auditors. For the other entities included in the consolidated Ind AS financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated Ind AS financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated Ind AS financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

**Other Matter/s**

We did not audit the financial statements/financial information of two subsidiaries, whose financial statements/financial information reflect total assets of Rs756.69 Lakhs as at 31 March 2019, total revenue of Rs. 943.94 Lakhs, and net cash flows amounting to Rs 12.81 Lakhs for the year ended on that date, as considered in the consolidated Ind AS financial statements. These financial statements/ financial information have been audited by other auditors whose reports have been furnished to us by the Management, and our opinion on the consolidated Ind AS financial statements insofar as it relates to the amounts and disclosures included in respect of these subsidiaries and our report in terms of sub-section (3) of Section 143 of the Act insofar as it relates to the aforesaid subsidiaries, is based solely on the reports of the other auditors.

Our opinion on the consolidated Ind AS financial statements and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the financial statements/ financial information certified by the Management

**Annexure A: To the Independent Auditors' Report of even date on the consolidated Ind AS financial statements of The Indian Card Clothing Company Limited****Report on the Internal Financial Controls****Under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

We have audited the internal financial controls over financial reporting of **The Indian Card Clothing Company Limited** (hereinafter referred to as "the Holding Company"), and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group") as of 31<sup>st</sup> March, 2019 in conjunction with our audit of the consolidated Ind AS financial statements of the Group for the year ended on that date.

**Management's Responsibility for Internal Financial Controls**

The Holding Company's Board of Directors is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Group considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Groups' policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

**Auditor's Responsibility**

Our responsibility is to express an opinion on the Group's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Group's internal financial controls system over financial reporting.

**Meaning of Internal Financial Controls Over Financial Reporting**

A Group's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Groups' internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the consolidated Ind AS financial statements.

**Inherent Limitations of Internal Financial Controls Over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

## THE INDIAN CARD CLOTHING COMPANY LIMITED

### Opinion

Though the Group has maintained, in all material respects, internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as of 31<sup>st</sup> March 2019, based on the internal control over financial reporting criteria established by the Group considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India, we are of the opinion that formal documentation to substantiate controls needs to be strengthened. However our above observation does not affect our opinion on the Ind AS consolidated financial statements of the Group.

### Other Matters

We did not audit the internal financial controls over financial reporting of 2 subsidiaries, out of which one is located outside India and is not company registered under The Companies Act, 2013.

# THE INDIAN CARD CLOTHING COMPANY LIMITED

## CONSOLIDATED NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31<sup>ST</sup> MARCH 2019

### The Group and nature of its operations

The Indian Card Clothing Company Limited having its registered and corporate office in Pune, Maharashtra, India carries business in card clothing and real estate segments. The Company is a public limited Company and is listed on the National Stock Exchange of India and the Bombay Stock Exchange Limited.

### Note 1: Significant Accounting Policies

This note provides a list of the significant accounting policies adopted in the preparation of these Consolidated financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

#### (a) Basis of Preparation

##### i. Compliance with Ind AS

The Consolidated financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act.

The financial statements up to year ended 31 March 2017 were prepared in accordance with the accounting standards notified under Companies (Accounting Standard) Rules, 2006 (as amended) and other relevant provisions of the Act.

These financial statements are the first financial statements of the Group under Ind AS. Refer Notes 38, 39 and 40 for an explanation of how the transition from previous GAAP to Ind AS has affected the group's financial position, financial performance and cash flows.

##### ii. Historical Cost Conversion

The Financial Statements have been prepared on historical cost basis, except the following:

- Certain financial assets and liabilities are measured at fair value;
- defined benefit plans – plan assets measured at fair value

##### iii. Amended standards adopted by the Group

The amendments to Ind AS 7 require disclosure of changes in liabilities arising from financing activities, see note 35.

##### iv. Current/non-current classification

All assets and liabilities have been classified as current or non-current as per the Group's operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Group has ascertained its operating cycle as 12 months for the purpose of current/non-current classification of assets and liabilities.

##### v. Principles of Consolidation

The consolidated financial statements comprise the financial statements of the company and its subsidiaries as at 31 March 2018.

Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee);
- Exposure, or rights, to variable returns from its involvement with the investee; and
- The ability to use its power over the investee to affect its returns.

Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the Group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that group member's financial statements in

preparing the consolidated financial statements to ensure conformity with the Group's accounting policies.

The financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the holding company, i.e., year ended on 31 March. The subsidiaries considered in the consolidated financial statements are summarized below:

Name of the Subsidiary	Country of Incorporation	31 <sup>st</sup> March 2018	31 <sup>st</sup> March 2017
Garnett Wire Limited, UK	England	60%	60%
ICC International Agencies Private Limited	India	100%	100%
Shivraj Sugar and Allied Products Private Limited	India	94%	94%

In preparing the consolidated financial statements, the Group has used the following key consolidation procedures:

- Combine like items of assets, liabilities, equity, income, expenses and cash flows of the holding company with those of its subsidiaries. For this purpose, income and expenses of the subsidiary are based on the amounts of assets and liabilities recognised in the consolidated financial statements at the acquisition date.
- Offset (eliminate) the carrying amount of the holding company's investment in each subsidiary and the holding company's portion of equity of each subsidiary. Business combinations policy explains accounting for any related goodwill.
- Eliminate in full intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the group. Profits or losses resulting from intragroup transactions that are recognised in assets, such as inventory and property, plant and equipment, are eliminated in full. However, intragroup losses may indicate an impairment that requires recognition in the consolidated financial statements. Ind AS 12 - Income Taxes applies to temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions.

Profit and loss and each component of other comprehensive income ('OCI') are attributed to the equity holders of the holding company of the group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it deconsolidates the subsidiary from the date it ceases control.

#### **vi) Business combination and goodwill**

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred measured at acquisition date fair value and the amount of any non-controlling interests in the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred. At the acquisition date, the identifiable assets acquired and the liabilities assumed (including contingent liabilities) are recognised/measured at their acquisition date fair values, except for certain cases.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in OCI and accumulated in equity as capital reserve.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

## (b) Accounting estimates, assumptions & judgements

The preparation of the financial statements requires management to make estimates, assumptions and judgments that affect the reported balances of assets and liabilities and disclosures as at the date of the financial statements and the reported amounts of income and expense for the periods presented.

The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates considering different assumptions and conditions.

Estimates and underlying assumptions are reviewed on an ongoing basis. Impact on account of revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected.

The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying values of assets and liabilities within the next financial year are discussed below.

### Deferred Income Tax Assets and Liabilities

Significant management judgment is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits. The amount of total deferred tax assets could change if estimates of projected future taxable income or if tax regulations undergo a change.

### Useful life of Property, Plant & Equipment (PPE)

The Management reviews the estimated useful lives and residual value of PPE at the end of each reporting period. The factors such as changes in the expected level of usage, number of shifts of production, technological developments and product life-cycle, could significantly impact the economic useful lives and the residual values of these assets. Consequently, the future depreciation charge could be revised and thereby could have an impact on the profit of the future years.

### Employee Benefit Obligations

Employee benefit obligations are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, employee benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

### Litigations

From time to time, the Group is subject to legal proceedings, the ultimate outcome of each being always subject to many uncertainties inherent in litigation. A provision for litigation is made when it is considered probable that a payment will be made and the amount of the loss can be reasonably estimated. Significant judgement is made when evaluating, among other factors, the probability of unfavourable outcome and the ability to make a reasonable estimate of the amount of potential loss. Litigation provisions are reviewed at each accounting period and revisions made for the changes in facts and circumstances.

## (c) Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The board of directors of the Group are identified as the Chief operating decision maker. Refer note 41 for segment information presented.

## (d) Foreign Currency

The financial statements are presented in Indian rupee (INR), which is The Indian Card Clothing Limited's functional and presentation currency. On initial recognition, all foreign currency transactions are translated into the functional currency using the exchange rates prevailing on the date of the transaction. As at the reporting date, foreign currency monetary assets and liabilities are translated at the exchange rate prevailing on the Balance Sheet date and the exchange gains or losses are recognised in the Statement of Profit and Loss.

## (e) Revenue Recognition

### 1. Sale of goods and rendering of services

Revenue is measured at the fair value of the consideration received or receivable. Amounts disclosed as revenue are inclusive of excise duty and net of returns, trade allowances, rebates, taxes and amounts

collected on behalf of third parties such as Goods and Services Tax. The Group recognizes revenue from sale of goods when the amount can be reliably measured, it is probable that future economic benefits will flow to the entity and when significant risks and rewards of ownership of goods have been transferred to the buyer. Revenue from services is recognised as the related services are performed. Commission income is recognized when it is due and there is no uncertainty about its realisation

## 2. Income from Lease Rentals

Income from leasing of buildings and related services is recognized at the rates prescribed over the tenure of the lease/service agreement.

## 3. Other Income -

**\*\* Dividends** - Dividend on investments is recognised when the Group's right to receive it is established.

**\*\* Interest Income** - Interest income from debt instruments is recognised using effective interest rate method (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of a financial liability.

**\*\* Export Benefits** - Export benefits in the form of Duty Draw Back are recognized on receipt basis and export benefits from Merchandise Exports Incentive Scheme (MEIS) claims are recognised in the statement of profit and loss on accrual basis.

## (f) Borrowing Costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation. Other borrowing costs are expensed in the period in which they are incurred.

## (g) Income Taxes

Current tax is provided on the basis of estimated tax liability, computed as per applicable provisions of the Income Tax Act, 1961.

Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Minimum Alternate Tax (MAT) paid in a year is charged to the statement of profit and loss as current tax. The Group recognises MAT credit available as an asset only to the extent that there is convincing evidence that the Group will pay normal income tax during the specified period, i.e., the period for which MAT credit is allowed to be carried forward. The Group reviews the 'MAT credit entitlement' asset at each reporting date and writes down the asset to the extent the Group does not have convincing evidence that it will pay normal tax during the specified period.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss). Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

## (h) Leases

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

### •• Group as a lessee

A lease is classified at the inception date as a finance lease or an operating lease. A lease that transfers substantially all the risks and rewards incidental to ownership to the Group is classified as a finance lease. Finance leases are capitalised at the commencement of the lease at the inception date fair value of the leased asset or, if lower, at the present value of the minimum lease payments. Lease payments are apportioned between finance charges and reduction of the lease liability to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognised in finance costs in the statement of profit and loss.

A leased asset is depreciated over the useful life of the asset. However, if there is no reasonable certainty that the Group will obtain ownership by the end of the lease term, the asset is depreciated over the shorter of the estimated useful life of the asset and the lease term.

Operating lease payments are recognised as an expense in the statement of profit and loss on a straight-line basis over the lease term unless the payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases or another systematic basis is available.

### •• Group as a lessor

Leases in which the Group does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognised on a straight-line basis over the term of the relevant lease unless the payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases or another systematic basis is available. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

Leases are classified as finance leases when substantially all of the risks and rewards of ownership transfer from the Group to the lessee. Amounts due from lessees under finance leases are recorded as receivables at the Group's net investment in the leases. Finance lease income is allocated to accounting periods to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease.

## (I) Cash & Cash Equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

## (j) Trade Receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment.

The Group applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables for calculation of expected credit losses on trade receivables

## (k) Inventories - Raw materials and stores, work in progress and finished goods

Raw materials and stores, work in progress and finished goods are stated at the lower of cost and net realisable value. Cost of raw materials comprises cost of purchases. Cost of work-in-progress and finished goods comprises direct materials, direct labour and an appropriate proportion of variable and fixed overhead expenditure, the latter being allocated on the basis of normal operating capacity. Cost of inventories also include all other costs incurred in bringing the inventories to their present location and condition. Costs are assigned to individual items of inventory on the basis of first-in first-out basis. Costs of purchased inventory are determined after deducting rebates and discounts. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

**(l) Investments****\*\* Classification**

The Group classifies its investments in the following measurement categories:

- Those to be measured subsequently at fair value (either through other comprehensive income, or through profit or (loss), and
- Those measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in equity instruments, this will depend on whether the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

**\*\* Measurement**

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income.

For investments in debt instruments, this will depend on the business model in which the investment is held.

For investments in equity instruments, this will depend on whether the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

The Group subsequently measures all equity investments at fair value. Where the Group's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or loss. Dividends from such investments are recognised in profit or loss when the Group's right to receive payments is established.

The Group reclassifies debt investments when and only when its business model for managing those assets changes.

**(m) Property, Plant & Equipments**

Freehold land is carried at historical cost. All other items of property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items. Cost may also include transfers from equity of any gains or losses on qualifying cash flow hedges of foreign currency purchases of property, plant and equipment.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Depreciation on tangible assets is provided on the written down value (WDV) method over the useful lives of assets except one subsidiary where depreciation is provided under Straight Line Method and whose asset value is not material.

On transition to Ind AS, the Group has elected to continue with the carrying value of all of its property, plant and equipment recognised as at 1 April 2016 measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment.

**(n) Trade and other payables**

These amounts represent liabilities for goods and services provided to the Group prior to the end of financial year which are unpaid. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost.

**(o) Borrowings**

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the

redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down.

## (p) Provisions & Contingencies

**Provisions** for legal claims and returns are recognised when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

**A Contingent Liability** is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Group does not recognize a contingent liability but discloses its existence in the financial statements.

**A Contingent Asset** is not recognised in the financial statements. A contingent asset is disclosed, where an inflow of economic benefits is probable. Provisions, contingent liabilities and contingent assets are reviewed at each balance sheet date.

## (q) Employee benefit obligations

### •• Short-term employee benefits

Employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits and are recognised in the period in which the employee renders the related service.

### •• Post-employment benefits

#### Defined contribution plans

Contributions to superannuation fund, which are defined contribution schemes, are recognised as an employee benefit expense in the statement of profit and loss in the period in which the contribution is due.

#### Defined benefit plans

##### Gratuity

The employees' gratuity scheme is a defined benefit plan. The present value of the obligation under such defined benefit plans is determined based on actuarial valuation using the projected unit credit method, which recognises each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation. The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plans, is based on the market yields on government securities as at the reporting date, having maturity periods approximating to the terms of related obligations.

Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through other comprehensive income (OCI) in the period in which they occur. Remeasurements are not reclassified to the statement of profit and loss in subsequent periods.

In case of funded plans, the fair value of the plan's assets is reduced from the gross obligation under the defined benefit plans, to recognise the obligation on net basis.

When the benefits of the plan are changed or when a plan is curtailed, the resulting change in benefits that relates to past service or the gain or loss on curtailment is recognised immediately in the statement of profit and loss. Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Group recognises gains/ losses on settlement of a defined plan when the settlement occurs.

#### Provident fund

For holding company's employees, the Group makes the contributions to a trust. The rate at which the annual interest is payable to the beneficiaries by the trust is administered by the government. The Group has an obligation to make good the shortfall, if any, between the return from the investments of the trust and the notified interest rate.

The cost of providing benefits under above mentioned defined benefit plan is determined using the projected unit credit method with actuarial valuations being carried out at balance sheet date, which recognizes each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.

## Other long-term employee benefits

The liabilities for earned leave are not expected to be settled wholly within twelve months after the end of the reporting period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method as determined by actuarial valuation. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating the terms of the related obligation. Remeasurements as a result of experience adjustments and change in actuarial assumptions are recognised in the statement of profit and loss.

The obligations are presented as current/ non current liabilities in the balance sheet of the group depending upon the groups expected settlement of such obligations based on past experience.

## (r) Cash dividend to equity holders

"The Group recognises a liability to make cash distributions to equity holders when the distribution is authorised and the distribution is no longer at the discretion of the Group. As per the corporate laws in India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity."

## (s) Earnings per share (EPS)

Basic EPS is calculated by dividing the profit for the year attributable to equity holders of the Group by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year and excluding treasury shares.

Diluted EPS adjust the figures used in the determination of basic EPS to consider

- The after-income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- The weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

## (t) Intangible assets

### •• Recognition and measurement

Intangible assets are recognised when the asset is identifiable, is within the control of the Group, it is probable that the future economic benefits that are attributable to the asset will flow to the Group and cost of the asset can be reliably measured.

Expenditure on research activities is recognised in the statement of profit and loss as incurred. Development expenditure is capitalised only if the expenditure can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable and the Group intends to and has sufficient resources to complete development and to use or sell the asset. Intangible assets acquired by the Group that have finite useful lives are measured at cost less accumulated amortisation and any accumulated impairment losses. Intangible assets with indefinite useful lives are not amortised, but are tested for impairment annually, either individually or at the cash-generating unit level.

### •• Subsequent measurement

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates.

### •• Amortisation

Amortisation is calculated over the cost of the asset, or other amount substituted for cost, less its residual value. Amortisation is recognised in statement of profit and loss on a straight-line basis over the estimated useful lives of intangible assets from the date that they are available for use, since this most closely reflects the expected pattern of consumption of the future economic benefits embodied in the asset.

The estimated useful lives for current and comparative periods are as follows:

Asset	Useful Life
Software	5 Years

## (u) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- (i) In the principal market for the asset or liability, or
- (ii) In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset considers a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another. The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period. For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities based on the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

## (v) Recent Accounting Pronouncements

Ind AS 115 – 'Revenue from Contracts with Customers': This standard establishes a single comprehensive model for accounting of revenue arising from contracts with customers. Ind AS 115 will supersede the current revenue recognition guidance under Ind AS 11 Construction Contracts and Ind AS 18 Revenue. The Group is currently assessing the impact of application of Ind AS 115 on Group's financial statements. Amendment to Ind

AS 12 – 'Income Taxes': The amendments clarify the requirement for recognising deferred tax assets on unrealised losses on debt instruments that are measured at fair value. The amendments also clarify certain other aspects of accounting for deferred tax assets. The changes will not have any material impact on the financial statements of the Group.

Amendment to Ind AS 21 – 'The Effect of Changes in Foreign Exchange Rates': This amendment clarifies translation of advance payments denominated in foreign currency into functional currency at the spot rate on the day of payment. The guidance aims to reduce diversity in practice. The changes will not have any material impact on the financial statements of the Group.

Amendment to Ind AS 28 - 'Investments in Associates and Joint Ventures': The amendment clarifies accounting options in consolidated financial statements of a venture capital or similar entity and investment entity. These amendments are not applicable to the Group's Consolidated financial statements.

Amendment to Ind AS 40 – 'Investment Property': The amendments clarify transfers of investment property to or from the portfolio in the case of a change of use. The changes will not have any material impact on the financial statements of the Group.

**Leave Obligations**

The leave obligations cover the Company's liability for sick and earned leave. The amount of the provision of Rs. 94.79 lakhs is presented as current as well as non current. Though the Company does not have an unconditional right to defer settlement for any of these obligations, as based on past experience, the Company does not expect all employees to take the full amount of accrued leave or require payment within the next 12 months. The amounts that reflect leave that is not expected to be taken or paid within the next 12 months is shown under non current portion.

**Defined Contribution Plan**
**Superannuation**

The Holding Company provides retirement benefits in the form of contribution to superannuation fund at the rate of 15% of annual salary.

**Defined Benefit Plan**
**a) Gratuity**

The Company provides for gratuity for employees in India as per the Payment of Gratuity Act, 1972. Employees who are in continuous service for a period of 5 years are eligible for gratuity. The amount of gratuity payable on retirement/termination is the employees last drawn basic salary per month computed proportionately for 15 days salary multiplied for the number of years of service. The gratuity plan is a funded plan and the Company makes contributions to recognised funds in India. The cost of providing benefit under above mentioned defined benefit plan is determined using the projected unit credit method with actuarial valuation being carried out balance sheet date. The Company does not fully fund the liability and maintains a target level of funding to be maintained over a period of time based on estimations of expected gratuity payments.

# THE INDIAN CARD CLOTHING COMPANY LIMITED

## b) Provident Fund

The Company has a Provident Fund Plan, which is a defined benefit plan, which is managed through the Provident Fund Trust of the Company. The contributions are made to the Trust and shortfall in interest obligation, if any is met by the Company. The cost of providing benefits under above mentioned defined benefit plan is determined using the projected unit credit method with actuarial valuations being carried out at the balance sheet date. In respect of subsidiaries, provident fund is defined contribution plan.

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the balance sheet.

**(i) Fair Value Hierarchy**

All assets and liabilities for which fair value is measured or disclosed in the financial statement of categorised within the fair value.

**Level 1 :** Hierarchy includes financial instruments measured using quoted prices.

**Level 2:** The fair value of derivatives is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity specific estimates. If all significant inputs required to fair value and instrument are observable, the instrument is included in level 2.

**Level 3 :** If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

## (ii) Valuation process to determine fair value

The following methods and assumptions were used to estimate the fair values of financial instruments:

- i) The carrying amounts of cash and cash equivalents, trade receivables, trade payables, bank overdrafts and other current financial assets and liabilities are considered to be the same as their fair values, due to their short-term nature.
- ii) The fair values of the equity investment which are quoted, are derived from quoted market prices in active markets. In the case of the investment measured at fair value and falling under fair value hierarchy Level 3, cost has been considered as an appropriate estimate of fair value.

### Significant unobservable inputs used in Level 3 fair values:

Based on an offer received by the Company in respect of equity instrument, there is no significant difference in the offer value and carrying value of equity instrument and therefore carrying value is treated as fair value. Security deposits received are fair valued by discounting using effective interest rate at the time of inception / date of transition.

### (B) Liquidity Risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Due to the dynamic nature of the underlying businesses, treasury maintains flexibility in funding by maintaining availability under committed credit lines. Management monitors rolling forecasts of the Company's liquidity position (comprising the undrawn borrowing facilities below) and cash and cash equivalents on the basis of expected cash flows. These limits vary by location to take into account the liquidity of the market in which the entity operates. In addition, the Company's liquidity management policy involves projecting cash flows in major currencies and considering the level of liquid assets necessary to meet these, monitoring balance sheet liquidity ratios against internal and external regulatory requirements and maintaining debt financing plans.

**(i) Financing Arrangements**

The Company had access to the following undrawn borrowing facilities at the end of the reporting period:

## (D) Cash Flow and Fair Value Interest Rate Risk

The Group's main interest rate risk arises from long-term borrowings with variable rates, which exposes the Company to cash flow interest rate risk. During 31 March 2019 and 31 March 2018, the Company's borrowings at variable rate were denominated in INR.

The Groups's fixed rate borrowings are carried at amortised cost. They are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

## (i) Interest Rate Exposure

The exposure of the Group's borrowing to interest rate changes at the end of the reporting period are as follows:

Particulars	31 <sup>st</sup> March 2019	31 <sup>st</sup> March 2018
Variable rate borrowings	289.48	104.19
Fixed rate borrowings	5.34	4.81
<b>Total borrowings</b>	<b>294.82</b>	<b>109.00</b>

As at the end of the reporting period, the Group had the following variable rate borrowings and interest rate swap contracts outstanding:

Particulars	31 <sup>st</sup> March 2019			31 <sup>st</sup> March 2018		
	Weighted average interest rate	Balance	% of total loans	Weighted average interest rate	Balance	% of total loans
Secured Term Loans from Banks and Others	10.83%	289.48	98.19%	9.90%	104.19	95.59%
<b>Net exposure to cash flow interest rate risk</b>		<b>289.48</b>			<b>104.19</b>	

## (ii) Sensitivity

Profit or loss is sensitive to higher/lower interest expense from borrowings as a result of changes in interest rates. Other components of equity change as a result of an increase/decrease in the fair value of the cash flow hedges related to borrowings.
