INDUSTRY STRUCTURE & DEVELOPMENT

2017-18 was a landmark year as the much anticipated Goods and Services Tax (GST) came into effect in July 2017. GST brought in an uniform tax rate subsuming various central and state level taxes and duties (including VAT).

For the cigarette industry, GST implementation was the second tax increase in 2017-18 following the excise revision announced in the Union Budget in February. It continued the trend of year-on-year tax hikes. Cigarettes were placed in the highest tax slab and compensatory cess was also introduced. Subsequent price hikes affected overall legal industry volumes and provided further impetus to non-duty paid cigarettes.

Regulatory pressures encompassing 85% pictorial warning on front and back panels of packs, selling restrictions in Kerala and Tamil Nadu and ban on sale of loose sticks in Uttar Pradesh, Maharashtra, Uttarakhand, etc. continue to pose challenges for the industry. FCTC (Framework Convention on Tobacco Control) continues to promote stricter regulations without considering views of major stakeholders.

DIVIDEND

The Directors are pleased to recommend a dividend of ₹77.50 per equity share of ₹10 each on the paid up equity share capital of the Company, for consideration and approval of Members at the Annual General Meeting (AGM). It is proposed to carry forward an amount of ₹900 lakhs to General Reserve.

Pursuant to Regulation 43A of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, top five hundred listed entities, based on market capitalization, are required to formulate a Dividend Distribution Policy.

With the support of the Audit Committee, it carries out a review of the effectiveness of your Company's risk management process covering all material risks including strategic, financial, operational and also compliance levels.

Your Company has substantial operations all over the country and competes on basis of brand appeal and loyalty, product quality and taste, packaging, marketing and price. This competitive position is influenced by the economic, regulatory and political situations both on an all India basis as well as that prevailing at the state level, and actions of the competitors. The principal risks impacting your Company's business and steps undertaken to mitigate them are as under:

- i) **Regulatory restrictions** could have an impact on long term revenue growth of the Company

The Company operates under increasingly stringent regulatory regime (COTPA guidelines on packaging and labeling, advertising and promotion). This further gets complicated with adoption of differing regulatory regime in different states and/or lack of consensus on interpretation/application.

Such restrictive regulations which are subjected to interpretation could result in not only penalties being imposed/loss of reputation, but also impair the Company's ability to communicate with adult smokers and/or to meet consumer expectations through new/innovative brand launches or geographic expansion.

The Company addresses this risk by engaging in continuous social dialogue with stakeholders and regulatory community through industry bodies. At the same time, it works on developing strategies and capabilities to be able to launch competitive and consumer

REPORT OF THE BOARD OF DIRECTORS

acceptable brands within the changing regulatory environment.

- (ii) **Taxation changes** could have an impact on short-term revenue growth of the Company

The Company's business is subjected to substantial central and state level taxes whereby due to differential increase in excise duties in various segments; change in length of cigarette stick on which excise duty is payable could require the Company to take up product prices and in absence of such action, impact its business. The impact increases when due to change in economic situation, consumers disposal income reduces resulting in down-trading to cheaper cigarettes or alternative tobacco products.

Such risks are addressed by the Company through: (a) engagement with tax authorities both at centre as well as state level where appropriate; (b) regular management review to build a brand portfolio across segments as well as across geographies and focus on new brand creation; and (c) capability build-up through investments in distribution infrastructure to increase geographical spread.

- (iii) **Regional disruptions** could have an impact on short-term revenue growth of the Company as well as reputation

Regional disturbances through state level restriction on trade or through terrorism and political violence including bandhs, strikes, has the potential to disrupt the Company's business operations. Such disruptions result in potential

loss of assets and increased costs due to more complex supply chain arrangements and/or maintaining inefficient facilities.

The Company addresses this risk through developing secure multiple sourcing/delivery (supply chain) strategy and through Insurance cover and business continuity planning.

- (iv) **Counter party risk** could have a potential impact on Company's capital and profitability

The Company generates positive cash flows which are predominantly invested with financial institutions and mutual funds. Delay and/or default in settlement on maturity of such investments could result in liquidity and financial loss to Company.

Such risks are mitigated through investment based on principle of Safety; Liquidity & Returns (SLR) and with institutions having strong short-term and long-term ratings assigned by CRISIL.

- (v) **Data risks**

The loss or misuse of sensitive information, or its disclosure to outsiders, including competitors and trading partners, could potentially have a significant adverse impact on the Company's business operations and/or give rise to legal liability. For this purpose, the Company has put in place information technology policies and procedures which are reviewed regularly. SIGNIFICANT & MATERIAL ORDERS PASSED BY THE REGULATORS OR COURTS OR TRIBUNALS

There are no significant or material orders passed by the Regulators, Courts or Tribunals which impact the going concern status of the Company and its future operations. However, Members' attention is drawn to the following :

TAXATION

i. Income Tax

Financial Services Business

Your Company had diversified into Financial Services Business and Foods Business in the early nineties. Subsequently in the year 1998-99, your Company incurred a total loss of ₹38.67 crore in the financial services business of which ₹29.70 crore was claimed as loss under the head "Income from Business" and ₹8.97 crore was claimed as a capital loss under the provisions of the Income Tax Act.

The Income Tax Appellate Tribunal allowed the entire amount of ₹38.67 crore as a capital loss. It may be noted that the department had treated the entire loss as a "Speculation Loss".

Your Company has filed an appeal before the then Hon'ble High Court of Andhra Pradesh which has been admitted. The matter is yet to be heard.

Further in connection with its divestment from the Foods Business in the financial year 1999-00, your Company had incurred a total loss of ₹53.68 crore, of which ₹44.18 crore was claimed as a loss under the head "Income from Business" and ₹9.50 crore was claimed as a capital loss under the provisions

REPORT OF THE BOARD OF DIRECTORS

of the Income Tax Act. The Income Tax Department has disallowed the entire amount excepting ₹5.70 crore which was allowed as a capital loss. The Commissioner of Income Tax (Appeals) further allowed ₹11.24 crore out of the balance amount of ₹47.98 crore, on appeal before him and the same was upheld by the Income Tax Appellate Tribunal. Your Company has preferred an appeal against the above order before the then Hon'ble High Court of Andhra Pradesh.

Consequent to the above orders, the Income Tax Department had issued consequential orders under Section 154 of the Income Tax Act demanding ₹28.86 crore (revised) which was paid by your Company.

ii. Luxury Tax

The Hon'ble Supreme Court by its judgement dated 20th January, 2005 set aside levy of luxury tax on tobacco products by various states. The Court had also directed the Companies to pay back to the state any amount of luxury tax recovered from the customers after obtaining stay orders from the Court. The Department has alleged that your Company has failed to pay an amount of ₹34.86 crore being the luxury tax collected from customers by your Company after passing of the interim order dated 1st June, 1999, to the then undivided State Government of Andhra Pradesh which is in violation of the said judgement dated 20th January, 2005 and filed the contempt petition against the then Managing Director of your Company. The contempt charges were dismissed by the Hon'ble Supreme Court in March, 2010.

The State decided to continue with the legal proceedings for recovery of luxury

tax from your Company by substituting the Company's Managing Director with your Company as the Respondent. The Supreme Court appointed an independent Auditor to examine and verify the accounts of your Company for the period 1st April, 1999 to 20th January, 2005 and submit their report as to whether any sum was collected by your Company towards luxury tax during the operation of the Stay Order dated 1st April, 1999. The Auditor forwarded its report to the Supreme Court endorsing your Company's stand. The Supreme Court, after examining the report of the Auditor, disposed off the petition with an observation that no contempt lies against your Company. However, the State Government has been given an opportunity to issue a show cause notice to your Company for refund of the luxury tax collected after obtaining interim order from the Supreme Court. Show cause notice should be backed and supported by the evidence the department wishes to rely upon in support of its case and is subject to contest by the parties as per Law.

The Commercial Tax Department has issued a show cause notice and reply to the same has been filed by your Company. The matter was adjudicated on 11th March, 2017 and an Assessment Order, A.O.No.4208 RC No.LT/SEC/01/1/1001/1996-97 dated 13th February, 2017 was passed by the department confirming the demand. Against the same, a Writ Petition in WP No. 8240 of 2017 was filed by your Company in the High Court of Judicature at Hyderabad praying to issue a writ of certiorari quashing the above mentioned Assessment Order. The matter came up for admission on 9th March, 2017

before the Hon'ble High Court of Telangana & Andhra Pradesh. The Hon'ble High Court was pleased to admit the Writ but at the same time remanded the matter to be adjudicated by the Appellate Authority as factual information was also involved and directed the Petitioners to file the appeal within two weeks from the date of receipt of the Order. Your Company approached the Hon'ble Supreme Court and had withdrawn the SLP and filed an appeal with a delay of one day before the Appellate Authority. The said Appellate Authority had issued a show cause notice to your Company asking why the delay of one day in filing the appeal should be condoned and against which your Company has approached the Hon'ble High Court of Telangana & Andhra Pradesh for condonation of delay of one day. The matter is pending before the said High Court.

iii. Entry Tax

Several High Courts in the country including those of Andhra Pradesh, Kerala, Tamil Nadu and Assam have struck down the levy of entry tax on the ground that it is violative of Article 301 and not saved under Article 304(b) of the Constitution, as it is not compensatory in the manner required in terms of the Supreme Court judgement in the case of M/s. Jindal Stainless Limited. Thereafter, several states such as Uttar Pradesh, Bihar, West Bengal, Haryana and Assam have attempted to re-introduce entry tax by amending the original Acts, sparking a fresh round of legal challenges in the high courts. Most of the appeals filed by the various states and individual companies have been clubbed together.

The Hon'ble Supreme Court in the batch of cases headed by Jai Prakash

REPORT OF THE BOARD OF DIRECTORS

Associates Vs the State of MP has referred a number of vital questions on levy of entry tax, to the Constitutional Bench in terms of Article 145(3) of the Constitution.

The Hon'ble Supreme Court constituted a 9 Judges Bench and heard the matter and vide its Judgment dated 11th November, 2016 held that relevant State Entry Tax matters are not violative on compensatory grounds but if the Act is found to be discriminatory, then it is violative of Article 304(a) of the Constitution. Certain tests have been laid out in the aforesaid judgement, namely, discrimination and local area applicability to ascertain whether the respective state acts are unconstitutional or not and remanded the matter to be heard by the Regular Bench of the Supreme Court. Your Company believes, based on legal advice, that it has defensible grounds on merits and intends to file necessary petitions if required before the regular bench of the Supreme Court or the respective State High Courts and contest the matter on the grounds of discrimination and local area.

The Single Bench of Hon'ble High Court of Calcutta struck down the levy of entry tax imposed by the State Government of West Bengal in the case of Bharti Airtel and others and aggrieved by the same, the State Government has preferred an appeal before the Division Bench. On identical grounds, the Single Bench of Hon'ble High Court of Calcutta allowed the Writ Petition in favour of your Company with a direction to file implead petition and an early hearing petition before the division bench.

Your Company, as directed, has filed an implead petition and an early

hearing application which is pending before the Division Bench of High Court of Calcutta. Subsequently the State of West Bengal amended the Entry Tax Act to give retrospective effect of levy on locally manufactured goods in order to avoid discrimination of local and outside manufacturers. There was also an amendment to the State Finance Act and effect of the same being that all Entry Tax matters to be heard by the Tribunal. Hence your Company intends to file an application before the Tribunal to contest the West Bengal Entry tax matter.

Your Company has filed fresh petitions before the Allahabad and Ranchi High Courts to contest the entry tax matter pertaining to Uttar Pradesh and Jharkhand and also filed amendment petitions before the High Court of Patna and Guwahati to contest the matters pertaining to Bihar and Assam Entry Tax.

iv. Excise

a. Wrapping Materials

The Excise department claimed a sum of ₹3.62 crores on the ground that Gay Wrappers (printed paper used for wrapping cigarette packets) had been manufactured and consumed by your Company without payment of duty during the period April 1996 to March 2002. The Customs, Excise and Service Tax Appellate Tribunal (CESTAT), Bangalore had allowed your Company's appeal against the said demand and set aside the demand of the Excise Department. An appeal against the said Order was filed by the Excise Department and the Hon'ble Supreme Court was pleased to allow the appeal by way of remand to CESTAT to decide the matter afresh and pass an order on merits. The Hon'ble

CESTAT heard the matter and allowed the appeal in favour of your Company. Against the CESTAT's order, the department filed an appeal before the Supreme Court and when the matter came up for admission, the Hon'ble Supreme Court tagged your Company matter to be heard along with another identical matter pending before it.

b. Cigarette manufacture in North Eastern states

The Excise Department had demanded a sum of ₹31.20 crore along with interest of ₹12.69 crore from the Company's former contract manufacturers consequent upon the judgement of the Hon'ble Supreme Court upholding the withdrawal of exemptions granted in the North Eastern states. Thereafter, a total sum of ₹39.06 crore was paid to the Department. A Division Bench of the Gauhati High Court confirmed the judgement of the single judge and held that interest was also payable for the period 1st August, 2003 to 7th February, 2006 on the principal amount already repaid. Appeals have been filed in the Supreme Court against the said judgements of the Gauhati High Court which were admitted but no stay of the said judgements was granted.

c. Tobacco Refuse

Your Company has been receiving periodical show cause notices demanding recovery of duty on cut tobacco used in the manufacture of tobacco refuse together with interest and penalty thereon from January 2005 to October 2013, amounting to ₹15.92 crore. All the pending appeals before CESTAT in this matter until October 2013 were allowed in favour of your Company. Against the said

REPORT OF THE BOARD OF DIRECTORS

orders, the department preferred an appeal before the Hon'ble Supreme Court on which hearing is pending. Show cause notices for subsequent period have been received and same are pending before original authority.

d. Service Tax

Your Company has received show cause notices from the Excise Department seeking to deny CENVAT credit availed on service tax paid by various service providers on the ground that the same are not in relation to the manufacture of final products. Upon adjudication, credit on most of the services were allowed in favour of your Company, however some of them are contested by the department before CESTAT. Cross appeal has been filed by your Company before CESTAT. One of the appeals filed by your Company for the period April 2008 was heard and allowed by CESTAT by way of remand to the original authority to be decided in light of earlier judicial pronouncements.

Pursuant to the provisions of the Companies Act, 2013 and Regulation 19 of the Listing Regulations, criteria for performance evaluation of individual directors, Board as a whole as well as the Board Committees has been formulated.

Performance of the Directors was evaluated on broad criteria such as contribution and value addition to the Board and Committees thereof; contribution to the Company and management to achieve its plans, goals, corporate strategy and risk mitigation; level of preparedness; level of participation in the Board and Committee meetings etc. In addition to the above parameters, the performance of Executive Directors were also evaluated against their Key Responsibility Areas (KRAs). The Chairman's performance was evaluated by Independent Directors on above parameters after taking into account the views of Executive and Non-Executive Directors. Independent Directors were also assessed based on their performance vis-à-vis Code for Independent Directors under Schedule IV of the Companies Act, 2013. A structured format for evaluation of the Directors on the above parameters has been prepared for the purpose. Director being evaluated does not participate in the evaluation process.

The performance of Board Committees was evaluated by the Board on the basis of their achievement of charter and role of each Committee. The performance of Board as a whole was evaluated by the Independent Directors on the basis of its duties and responsibilities as per terms of reference. The evaluation also assesses the Board composition, need for induction/change in Directors, Board's role in contributing to the growth and progress of the Company, etc.

The overall outcome from the evaluation was that the Board and its individual Directors are performing effectively and that the Board is well supported to focus on strategy, governance and compliance.

ANNEXURE B TO THE INDEPENDENT AUDITORS' REPORT

Report on the Internal Financial Controls under Clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

We have audited the internal financial controls over financial reporting of VST Industries Limited ('the Company') as of 31 March 2018 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls.

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the 'Guidance Note') and the Standards on Auditing, deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate

internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that:

- 1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- 2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and

**ANNEXURE B TO THE INDEPENDENT AUDITORS' REPORT**

- 3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatement due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial

reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2018, based on the internal control over financial reporting criteria established by the Company considering the essential component of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

COMPANY INFORMATION

VST Industries Limited (the 'Company') is a public limited Company domiciled in India with its registered office located at 1-7-1063/1065, Azamabad, Hyderabad - 500020. The Company is listed on the Bombay Stock Exchange (BSE) and the National Stock Exchange (NSE). The Company is engaged inter-alia in manufacture and trading of Cigarettes, Tobacco and Tobacco products.

STATEMENT OF COMPLIANCE

These financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendments Rules, 2016.

The financial statements have also been prepared in accordance with the relevant presentation requirements of the Companies Act, 2013. The Company adopted Ind AS from 1st April, 2017. Up to the year ended 31st March, 2017, the Company prepared its financial statements in accordance with the requirements of previous Generally Accepted Accounting Principles (GAAP), which includes Standards notified under the Companies (Accounting Standards) Rules, 2006. These are the Company's first Ind AS financial statements. The date of transition to Ind AS is 1st April, 2016. Details of the exceptions and optional exemptions availed by the Company and principal adjustments along with related reconciliations are detailed in Note 35 (First-time Adoption).

The financial statements were authorised for issue by the Company's Board of Directors on 12th April, 2018.

BASIS OF PREPARATION OF FINANCIAL STATEMENTS

The financial statements have been prepared on accrual and going concern basis. The Accounting Policies are applied consistently to all the periods presented in the financial statements, including the preparation of the opening Ind AS Balance Sheet as at 1st April, 2016 being the date of transition to Ind AS. All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria as set out in the Division II of Schedule III to the Companies Act, 2013. Based on the nature of products and the time between acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current or non - current classification of assets and liabilities.

The Ministry of Corporate Affairs has notified the Companies (Indian Accounting Standards) Amendment Rules, 2018. Accordingly, Ind AS 115 - "Revenue from contracts with customers" shall apply for accounting period commencing on or after 1st April, 2018. Based on preliminary evaluation considering known and estimable information, the management believes that the standard will not have a significant impact on

the Company's financial statement in the period of its initial application.

BASIS OF MEASUREMENT

These financial statements are prepared in accordance with Indian Accounting Standards (Ind AS) under the historical cost convention on accrual basis, except for certain items that are measured at fair value, as explained in the accounting policies.

Fair Value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these financial statements is determined on such a basis, except leasing transactions that are within the scope of Ind AS 17 - Leases, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in Ind AS 2 - Inventories or value in use in Ind AS 36 - Impairment of Assets.

The preparation of financial statements in conformity with Ind AS requires management to make judgements, estimates and assumptions that affect the application of the accounting policies and the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the year. Actual results could differ from those estimates. The estimates and underlying assumptions are reviewed on an ongoing basis.

Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period; they are recognised in the period of the revision and future periods if the revision affects both current and future periods.

INVENTORIES

Inventories are valued at the lower of cost and net realisable value. Cost is computed on a weighted average basis. Cost includes all costs of purchases net of cenvat credit availed, conversion costs and other attributable expenses incurred in bringing the inventories to their present location and condition and includes, where applicable, appropriate overheads based on normal level of activity. The net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and estimated costs necessary to make the sale.

Obsolete, slow moving and defective inventories are identified from time to time and, where necessary, a provision is made for such inventories.

NOTES TO THE FINANCIAL STATEMENTS

An item of property, plant and equipment is de-recognised upon disposal or when no future economic benefits are expected to arise from the continued use of asset. Any gains or losses arising on retirement or disposal of property, plant and equipment is determined as difference between the sale proceeds and the carrying amount of the asset and is recognised in the Statement of Profit and Loss.

Property, plant and equipment which are not ready for intended use as on the date of Balance Sheet are disclosed as "Capital work-in-progress".

Motor Vehicles	- 4 years

Assets costing ₹5,000 or less - fully depreciated in the year of purchase.

The residual values, useful lives and method of depreciation of property, plant and equipment is reviewed at each financial

year end and adjusted prospectively, if appropriate.

Computer Software (including licence fee and cost of implementation/system integration services) is capitalised where ever it is expected to provide future enduring economic benefits. Cost of upgradation/enhancements is charged off as revenue expenditure unless they bring similar significant benefits.

The useful lives of intangible assets are assessed as either finite or indefinite. Finite-life intangible assets are amortised on a straight-line basis over the period of their expected useful lives. Estimated useful lives by major class of finite-life intangible assets are as follows:

Rights on Time Shares	- 20 years
Computer software	- 4 years

The amortisation period and the amortisation method for finite-life intangible assets is reviewed at each financial year end and adjusted prospectively, if appropriate.

Recoverable amount is higher of an asset's or cash generating unit's fair value less cost of disposal and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset or cash generating unit and from its disposal at the end of its useful life.

Assessment is also done at each Balance Sheet date as to whether there is any indication that an impairment loss recognised for an asset in prior accounting periods may no longer exist or may have decreased, basis the assessment a reversal of an impairment loss for an asset is recognised in the Statement of Profit and Loss.

DERIVATIVES AND HEDGE ACCOUNTING

Derivatives are initially recognised at fair value and are subsequently re-measured to their fair value at the end of each reporting period. The resulting gains/losses is recognised in the Statement of Profit and Loss immediately unless the derivative is designated as an effective hedging instrument, in which event the timing of recognition in profit or loss/inclusion in the initial cost of non-financial asset depends on the nature of the hedging

NOTES TO THE FINANCIAL STATEMENTS

relationship and the nature of the hedged item.

The Company complies with the principles of hedge accounting where derivative contracts are designated as hedge instruments. At the inception of the hedge relationship, the Company documents the relationship between the hedge instrument and the hedged item along with the risk management objectives and its strategy for undertaking hedge transaction, which can be a fair value hedge or a cash flow hedge.

(i) Fair value hedges

Changes in fair value of the designated portion of derivatives that qualify as fair value hedges are recognised in profit or loss immediately, together with any changes in the fair value of the hedged asset or liability that are attributable to the hedged risk. The change in the fair value of the designated portion of hedging instrument and the change in fair value of the hedged item attributable to the hedged risk are recognised in the Statement of Profit and Loss in the line item relating to the hedged item.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or when it no longer qualifies for hedge accounting. The fair value adjustment to the carrying amount of the hedged item arising from the hedged risk is amortised to profit or loss from that date.

(ii) Cash flow hedges

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognised in the other comprehensive income and accumulated as 'Cash Flow Hedging Reserve'. The gains/losses relating to the ineffective portion is recognised in the Statement of Profit and Loss. Amounts previously recognised and accumulated in other comprehensive income are reclassified to profit or loss when the hedged item affects the Statement of Profit and Loss. However, when the hedged item results in the recognition of a non-financial asset, such gains/losses are transferred from equity (but not as reclassification adjustment) and included in the initial measurement cost of the non-financial asset.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or when it no longer qualifies for hedge accounting. Any gains/losses recognised in other comprehensive income and accumulated in equity at that time remains in equity and is reclassified when the underlying transaction is ultimately recognised. When an underlying transaction is no longer expected to occur, the gains/losses accumulated in equity is recognised immediately in the Statement of Profit and Loss.

FOREIGN CURRENCIES

The financial statements are presented in INR, the functional currency of the Company. Items included in the financial statements of the Company are recorded using the currency of the primary economic environment in which the Company operates (the 'functional currency').

Foreign currency transactions are translated into the functional

currency using exchange rates on the date of the transaction. Foreign exchange gains and losses from settlement of these transactions and from translation of monetary assets and liabilities at the exchange rate prevailing on reporting date are recognised in the Statement of Profit and Loss.

FINANCIAL INSTRUMENTS

I. Financial Assets

Financial assets are recognised when the Company becomes a party to the contractual provisions of the instrument. On initial recognition, a financial asset is recognised at fair value, in case of financial assets which are recognised at fair value through profit and loss (FVTPL), its transaction cost are recognised in the Statement of Profit and Loss. In other cases, the transaction cost are attributed to the acquisition value of the financial asset. Financial assets are subsequently classified as measured at

- amortised cost
- fair value through profit and loss (FVTPL)
- fair value through other comprehensive income (FVOCI).

Financial assets are not reclassified subsequent to their recognition, except if and in the period the Company changes its business model for managing financial assets.

Trade Receivables and Loans

Trade receivables are initially recognised at fair value. Subsequently, these assets are held at amortised cost, using the effective interest rate (EIR) method net of any expected credit losses. The EIR is the rate that discounts estimated future cash income through the expected life of financial instrument.

Debt Instruments

Debt instruments are initially measured at amortised cost, or fair value through other comprehensive income (FVOCI) or fair value through profit or loss (FVTPL) till derecognition, on the basis of (i) the entity's business model for managing the financial assets and (ii) the contractual cash flow characteristics of the financial asset.

(a) Measured at amortised cost: Financial assets that are held within a business model whose objective is to hold financial assets in order to collect contractual cash flows that are solely payment of principal and interest, are subsequently measured at amortised cost using the effective interest rate (EIR) method less impairment, if any. The amortisation of EIR and loss arising from impairment, if any is recognised in the Statement of Profit and Loss.

(b) Measured at fair value through other comprehensive income: Financial assets that are held within a business model whose objective is achieved by both, selling financial assets and collecting contractual cash flows that are solely payments of principal and interest, are subsequently measured at fair value through other comprehensive income. Fair value movements are recognized in the other comprehensive income (OCI). Interest income measured using the EIR method and impairment losses, if any are recognised in the Statement of Profit and Loss. On derecognition, cumulative gain or loss previously recognised

NOTES TO THE FINANCIAL STATEMENTS

in OCI is reclassified from the equity to 'other income' in the Statement of Profit and Loss.

(c) Measured at fair value through profit or loss: A financial asset not classified as either amortised cost or FVOCI, is classified as FVTPL. Such financial assets are measured at fair value with all changes in fair value, including interest income and dividend income if any, recognised as 'other income' in the Statement of Profit and Loss.

Equity Instruments

All investments in equity instruments classified under financial assets are initially measured at fair value, the Company may, on initial recognition, irrevocably elect to measure the same either at FVOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis. Fair value changes on an equity instrument is recognised as other income in the Statement of Profit and Loss unless the Company has elected to measure such instrument at FVOCI. Fair value changes excluding dividends, on an equity instrument measured at FVOCI are recognised in OCI. Amounts recognised in OCI are not subsequently reclassified to the Statement of Profit and Loss. Dividend income on the investment in equity instruments are recognised as 'other income' in the Statement of Profit and Loss.

Derecognition

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the contractual rights to receive the cash flows from the asset.

Impairment of Financial Asset

Expected credit losses are recognized for all financial assets subsequent to initial recognition other than financial assets in FVTPL category.

For financial assets other than trade receivables, as per Ind AS 109, the Company recognises 12 month expected credit losses for all originated or acquired financial assets if at the reporting date the credit risk of the financial asset has not increased significantly since its initial recognition. The expected credit losses are measured as lifetime expected credit losses if the credit risk on financial asset increases significantly since its initial recognition. The Company's trade receivables do not contain significant financing component and loss allowance on trade receivables is measured at an amount equal to life time expected losses i.e. expected cash shortfall.

The impairment losses and reversals are recognised in Statement of Profit and Loss.

II. Financial Liabilities

Initial recognition and measurement

Financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial liabilities are initially measured at the amortised cost unless at initial recognition, they are classified as fair value through profit and loss. In case of trade payables, they are initially recognised

at fair value and subsequently, these liabilities are held at amortised cost, using the effective interest rate (EIR) method.

Subsequent measurement

Financial liabilities are subsequently measured at amortised cost using the EIR method. Financial liabilities carried at fair value through profit or loss are measured at fair value with all changes in fair value recognised in the Statement of Profit and Loss.

Derecognition

A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or expires.

Offsetting Financial Instrument

Financial assets and liabilities are offset and the net amount is included in the Balance Sheet where there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the assets and settle the liability simultaneously.

PROVISIONS AND CONTINGENT LIABILITIES

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the Balance Sheet date.

If the effect of the time value of money is material, provisions are discounted to reflect its present value using a current pre-tax rate that reflects the current market assessments of the time value of money and the risks specific to the obligation. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

REVENUE RECOGNITION

Revenue from sale of goods is recognised when all the significant risks and rewards of ownership in the goods are transferred to the buyer as per the terms of the contract and there is no continuing managerial involvement with the goods and the amount of revenue can be measured reliably. The Company retains no effective control of the goods transferred to a degree usually associated with ownership and no significant uncertainty exists regarding the amount of the consideration that will be derived from the sale of goods. Revenue is measured at fair value of the consideration received or receivable after deduction of any trade discounts, rebates and any taxes or duties collected on behalf of the government which are levied on sales such as

NOTES TO THE FINANCIAL STATEMENTS

goods and service tax, etc.

Income from export incentives such as duty drawback is recognised on accrual basis.

Interest income is recognized using the effective interest rate (EIR) method.

Dividend income on investments is recognised when the right to receive dividend is established.

EXPENDITURE

Expenses are accounted on accrual basis.

EMPLOYEE BENEFITS

Defined Contribution Plans

Contributions to defined contribution schemes such as employees' state insurance, labour welfare fund, superannuation scheme, employee pension scheme etc. are charged as an expense based on the amount of contribution required to be made as and when services are rendered by the employees. In respect of other employees, provident funds are deposited with the government administered fund and charged as an expense to the Statement of Profit and Loss.

Termination benefits, in the nature of voluntary retirement benefits or termination benefits arising from restructuring, are recognised in the Statement of Profit and Loss. The Company recognises termination benefits at the earlier of the following dates:

(a) when the Company can no longer withdraw the offer of those benefits; or

(b) when the Company recognises costs for a restructuring that is within the scope of Ind AS 37 and involves the payment of termination benefits.

Benefits falling due more than 12 months after the end of the reporting period are discounted to their present value.

INCOME TAXES

Income tax expense for the year comprises of current tax and deferred tax. It is recognised in the Statement of Profit and Loss except to the extent it relates to a business combination or to an item which is recognised directly in equity or in other comprehensive income.

Current tax is the expected tax payable/receivable on the taxable income/ loss for the year using applicable tax rates at the Balance Sheet date, and any adjustment to taxes in respect of previous years. Interest income/expenses and penalties, if any, related to income tax are included in current tax expense.

Deferred tax is recognised in respect of temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes.

A deferred tax liability is recognised based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted, or substantively enacted, by the end of the reporting period. Deferred tax assets are recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised. Deferred tax assets are reviewed at each reporting date and reduced to the extent that it is no longer probable the related tax benefit will be realised.

Current tax assets and current tax liabilities are offset when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle the asset and the liability on a net basis. Deferred tax assets and deferred tax liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities; and the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority.

EARNINGS PER SHARE

Basic earnings per share is computed by dividing the net profit for the period attributable to the equity shareholders of the Company by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

NOTES TO THE FINANCIAL STATEMENTS

DIVIDEND DISTRIBUTION

Dividend paid (including income tax thereon) is recognized in the period in which the interim dividends are approved by the Board of Directors or in respect of final dividend when approved by shareholders.

LEASES

Leases in which a substantial portion of the risks and rewards

of ownership are retained by the lessor are classified as operating leases. Payments and receipts under such leases are recognised to the Statement of Profit and Loss on a straight-line basis over the term of the lease unless the lease payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases, in which case the same are recognised as an expense in line with the contractual term.

32. FINANCIAL INSTRUMENTS AND RELATED DISCLOSURES

A CAPITAL MANAGEMENT

The Company's financial strategy aims to provide adequate capital to its business for growth on a going concern thereby creating sustainable stakeholder value. The Company funds its operations mainly through internal accruals.

B CATEGORIES OF FINANCIAL INSTRUMENTS - FAIR VALUE MEASUREMENT AND FAIR VALUE HIERARCHY

The fair values of the financial assets and liabilities are defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Methods and assumptions used to estimate the fair values are consistent with those used for the earlier periods.

Financial assets and liabilities are measured at fair value as at Balance Sheet date as under:

- The fair values of investment in government securities, quoted investment in equity shares is based on the current bid price of respective investment as at the Balance Sheet date.
- The fair values of investments in mutual fund units is based on the net asset value (NAV) as stated by the issuers of these mutual fund units in the published statements as at Balance Sheet date. NAV represents the price at which the issuer will issue further units of mutual fund and the price at which issuers will redeem such units from the investors.
- The fair values of the derivative financial instruments has been determined using valuation techniques with market observable inputs such as foreign exchange spot rates and forward rates at end of reporting period, yield curves, volatility, etc., as applicable.
- Cash and cash equivalents (except for investments in mutual funds), trade receivables, trade payables and other current financial assets and liabilities (except derivative financial instruments), have fair values that approximate to their carrying amounts due to their short-term nature.

Fair value of the financial instruments have been classified into various fair value hierarchies based on the following three levels:

Level 1 - Quoted prices for identical assets or liabilities in an active market.

Level 2 - Directly or indirectly observable market inputs, other than Level 1 inputs; and

Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

If one or more of the significant inputs is not based on observable market data, the fair value is determined using generally accepted pricing models based on a discounted cash flow analysis, with the most significant inputs being the discount rate that reflects the credit risk of counterparty.

The following table shows the carrying amounts and fair value of financial assets and liabilities, including their levels in the fair value hierarchy:

C. FINANCIAL RISK MANAGEMENT OBJECTIVES

The Company's risk management framework anchored in its policies and procedures and internal financial controls aims to ensure that the Company's business activities that are exposed to a variety of financial risks namely liquidity risk, market risks, credit risk and foreign currency risk are identified at an early stage and managed within acceptable and approved risk parameters in a disciplined and consistent manner and in compliance with applicable regulations.

Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. Cash flow from operating activities provides the funds to service the financial liabilities on a day-to-day basis. The Company's approach in managing liquidity is to ensure that it will have sufficient funds to meet its liabilities when due without incurring unacceptable losses. In doing this, management considers both normal and stressed conditions. The Company maintained a cautious liquidity strategy, with a positive cash balance throughout the year ended 31st March, 2018 and 31st March, 2017.

The Company's Current assets aggregate to ₹80485.09 Lakhs (2017 - ₹54788.31 Lakhs; 2016 - ₹60342.85 Lakhs) including Current investments, Cash and cash equivalents and Other bank balances of ₹3758.82 Lakhs (2017 - ₹1994.16 Lakhs; 2016 - ₹2123.40 Lakhs) against an aggregate Current liability of ₹46789.11 Lakhs (2017 - ₹24776.63 Lakhs; 2016 - ₹31718.82 Lakhs); Non-current liabilities amounting to ₹1415.15 Lakhs (2017 - ₹1091.05 Lakhs; 2016 - ₹927.56 Lakhs) on the reporting date. Further, the Company's total equity stood at ₹58209.07 Lakhs (2017 - ₹53897.11 Lakhs; 2016 - ₹51883.34 Lakhs). Accordingly, liquidity risk or the risk that the Company may not be able to settle its dues as they become due does not exist. This excludes the potential impact of extreme circumstances that cannot be reasonably predicted, such as natural disasters.

Market Risks

The Company does not trade in equity instruments; it continues to hold certain investments in equity for long term value accretion which are measured at fair value through Other Comprehensive Income. The value of investment in such equity instruments as at 31st March, 2018 is ₹202.61 Lakhs (2017 - ₹176.52 Lakhs; 2016 - ₹139.99 Lakhs).

The Company's investments are predominantly held in fixed deposits and debt schemes of mutual funds. The decision making is centralised and administered under a set of approved policies and procedures guided by the principles of safety, liquidity and returns. This ensures that investments are only made within acceptable risk parameters after due evaluation.

Fixed deposits are held with highly rated banks and companies and have a medium tenure and accordingly, are not subject to interest rate volatility. Investment in debt schemes of mutual funds are susceptible to market price risk that arise mainly from change in interest rate from time to time which may impact the return and value of such investments. However, given the relatively short tenure of underlying portfolio of such mutual fund schemes in which the Company has invested, such price risk is not significant.

As the Company is debt-free and its liabilities do not carry interest, the exposure to interest rate risk from the perspective of Financial Liabilities is negligible.

Credit Risk

Credit risk is the risk of financial loss to the Company if a customer or counter-party fails to meet its contractual obligations. The Company's customer base is large and diverse and credit is extended in business interest in accordance with well laid out guidelines issued centrally. Exceptions, if any, are approved by appropriate authority after due consideration of the customers credentials and financial capacity, trade practices and prevailing business and economic conditions. Our historic experience of collecting receivables is high and accordingly, the credit risk is low. Hence, trade receivables are considered to be a single class of financial assets.

The value of Trade Receivables as at 31st March, 2018 is ₹2733.09 Lakhs (2017 - ₹1204.13 Lakhs; 2016 - ₹1237.54 Lakhs).

Further, the Company maintains exposure in cash and cash equivalents, term deposits with banks, government securities, money market liquid mutual funds and derivative instruments with financial institution. The Company has set counter-parties limits based on multiple factors including financial position, credit rating, etc.

The Company's maximum exposure to credit risk as at 31st March, 2018, 2017 and 1st April, 2016 is the carrying value of each class of financial assets.

NOTES TO THE FINANCIAL STATEMENTS

VST Industries Limited

Foreign Currency Risks

The Company undertakes transactions denominated in foreign currency (mainly US Dollar, Euro and Pound Sterling) which are subject to the risk of exchange rate fluctuations. Financial assets and liabilities denominated in foreign currency, arising out of such transactions, are also subject to reinstatement risks

The Company has established risk management policies to hedge the volatility arising from exchange rate fluctuations in respect of firm commitments and highly probable forecast transactions, through foreign exchange forward contracts. The proportion of forecast transactions that are to be hedged is decided based on the size of the forecast transaction and market conditions. As the counterparty for such transactions are highly rated banks, the risk of their non-performance is considered to be insignificant.

The use of these foreign exchange forward contracts are intended to reduce the risk or cost to the Company and are not intended for trading or speculation purpose.

The information on such Derivative Instruments is as follows:

Forward exchange contracts designated under Hedge Accounting that were outstanding on respective reporting dates:

Foreign Currency Sensitivity

A 1% strengthening of the INR against key currencies to which the company is exposed (net of hedges) would have led to the profit before tax for the year ended 31st March, 2018 to be lower by ₹23.10 Lakhs (2017 - ₹6.99 Lakhs) and pre-tax total equity as at 31st March, 2018 would change by ₹23.10 Lakhs [2017 - ₹6.99 Lakhs; 2016 - ₹(15.26) Lakhs]. A 1% weakening of the INR against these currencies would have led to an equal but opposite effect.

33. EMPLOYEE BENEFIT PLANS

Employee Retirement Benefit Plans of the Company include Provident Fund, Retirement Allowances, Gratuity, Pension and Leave Encashment. These plans expose the Company to a number of actuarial risks such as investment risk, interest rate risk, longevity risk and inflation risk. The Company has developed policy guidelines within the applicable statutory framework, for allocation of assets to different classes with the objective of maintaining the right balance between risks and long-term returns. Further, investments are well diversified, such that the failure of any single investment would not have a material impact on the overall level of assets.

J Sensitivity Analysis

The Sensitivity Analysis below has been determined based on reasonably possible change of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant. These sensitivities show the hypothetical impact of a change in each of the listed assumptions in isolation. While each of these sensitivities holds all other assumptions constant, in practice such assumptions rarely change in isolation and the asset value changes may offset the impact to some extent. For presenting the sensitivities, the present value of the Defined Benefit Obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the Defined Benefit Obligation presented above. There was no change in the methods and assumptions used in the preparation of the Sensitivity Analysis from previous year.

<p>34. With implementation of Goods & Service tax (GST) with effect from 1st July, 2017, the Company's main product is now subjected to GST and Compensation Cess in addition to Central Excise (currently only National Calamity Contingent Fund). Due to such restructuring of indirect taxes, the figures for "Revenue from operations" (net of GST and Compensation Cess collected on behalf of government) and "Excise duty" for the year ended 31st March, 2018 are not comparable with the previous period.</p>		
<p>35. FIRST TIME ADOPTION OF Ind AS</p> <p>i The Company has adopted Indian Accounting Standards (Ind AS) with effect from 1st April, 2017, with a transition date of 1st April, 2016. These financial statements for the year ended 31st March, 2018 are the first financial statements, the Company has prepared under Ind AS. For all periods upto and including the year ended 31st March, 2017, the Company prepared its financial statements in accordance with the accounting standards notified under the section 133 of the Companies Act, 2013, read together with the Companies (Accounts) Rules, 2014 ('Previous GAAP').</p> <p>Ind AS 101 (First-time Adoption of Indian Accounting Standards) requires that all Ind AS standards and interpretations that are issued and effective for the first Ind AS financial statements be applied retrospectively and consistently for all financial years presented. Accordingly, the Company has prepared financial statements which comply with Ind AS for year ended 31st March, 2018, together with the comparative information as at and for the year ended 31st March, 2017 and the opening Ind AS Balance Sheet as at 1st April, 2016.</p> <p>ii Ind AS 101 permits first-time adopters certain exemptions from retrospective application of certain requirements under Ind AS. The Company has elected to apply the following exemptions/adjustments from retrospective application :</p> <p>(a) Property, plant and equipment and intangible assets were carried in the Balance Sheet prepared in accordance with previous GAAP as at 31st March, 2016. Under Ind AS, the Company has elected to regard such carrying values as deemed cost on the date of transition. Further, the Company had revalued certain freehold land and buildings based on professional valuation as at 31st March, 1989 and had a balance of ₹265 Lakhs in revaluation reserve on the date of transition. On transition, such revaluation reserve has been adjusted in retained earnings.</p> <p>(b) Classification and measurement of financial assets: The classification of financial assets to be measured at amortised cost or fair value through other comprehensive income (FVOCI) is made on the basis of the facts and circumstances that existed on the date of transition to Ind AS.</p> <p>(c) Under previous GAAP, non-current investments were stated at cost. Where applicable, provision was made to recognise a decline, other than temporary, in valuation of such investments. Under Ind AS, equity instruments have been classified as FVOCI through an irrevocable election on the date of transition.</p> <p>(d) Under previous GAAP, current investments like investments in mutual fund schemes were stated at lower of cost and fair value. Under Ind AS, these financial assets have been classified as Fair Value through Profit or Loss (FVTPL) on the date of transition and fair value changes after the date of transition has been recognised in profit or loss.</p> <p>(e) Under the previous GAAP, actuarial gains and losses related to the defined benefit schemes for gratuity and pension plans and liabilities towards employee leave encashment were recognised in profit or loss. Under Ind AS, the actuarial gains and losses form part of remeasurement of the net defined benefit liability/asset which is recognised in Other Comprehensive Income (OCI). Consequently, the tax effect of the same has also been recognised in OCI instead of profit or loss.</p> <p>(f) Under previous GAAP, dividend payable on equity shares (including tax thereon) was recognised as a liability in the period to which it relates. Under Ind AS, dividends (including the tax thereon) to shareholders are recognised when declared by the members in a general meeting.</p>
