AXIS SOLUTION LTD.

Corporate Presentation

September 2026

Disclaimer

This presentation and the accompanying slides (the “Presentation”), which have been prepared by Axis Solutions (the “Company”), have been prepared solely for information purposes only and does not constitute any offer or invitation, directly or indirectly, in any manner, or inducement to sell or issue, or any solicitation of any offer to purchase or subscribe for any securities of the Company in any jurisdiction and no part of it shall form the basis of or be relied upon in connection with any contract or commitment whatsoever. No offering of securities of the Company will be made except by means of a statutory offering document containing detailed information about the Company. This Presentation is not a prospectus, disclosure document, a statement in lieu of a prospectus, an offering circular, an advertisement or an offer document under the Companies Act, 2013, and the rules made thereunder, as amended, the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended, or any other applicable law in India. This Presentation should not be considered as a recommendation that any investor should subscribe for or purchase any securities of the Company or its subsidiary (collectively, the “Group”) and should not be used as a basis for any investment decision.

The information contained in this Presentation is only current as of its date and has not been independently verified. The Group will not update you in the event the information in the Presentation becomes stale. Moreover, both express or implied representation or warranty is made as to, and no reliance should be placed on, the truth, accuracy, fairness, reasonableness or completeness of the information presented or contained in this Presentation and nothing in this Presentation shall be relied upon as a promise or representation in this respect, whether as to the past or the future. None of the Group or any of its affiliates, advisers or representatives accept any liability whatsoever for any loss howsoever arising from any information presented or contained in this Presentation. Furthermore, no person is authorized to give any information or make any representation which is not contained in, or is inconsistent with, this Presentation. Any such extraneous or inconsistent information or representation, if given or made, should not be relied upon as having been authorized by or on behalf of the Group. This Presentation is being given solely for your information and for your use, and may not be copied, reproduced or redistributed to any other person in any manner. The distribution of this Presentation in certain jurisdictions may be restricted by law. Accordingly, any persons in possession of this Presentation should inform themselves about and observe any such restrictions.

This Presentation is not a complete description of the Company. Certain statements in the Presentation may contain statements regarding the Company’s market opportunity and business prospects that are individually and collectively forward-looking statements. All forward-looking statements are based on judgments derived from the information available to the Company at this time. Such forward-looking statements are subject to risks, uncertainties and assumptions that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement. Any opinion, estimate or projection herein constitutes a judgment as of the date of this Presentation, and there can be no assurance that future results or events will be consistent with any such opinion, estimate or projection. The Company assumes no obligation to update any forward-looking information contained in this Presentation. Any forward-looking statements and projections made by third parties included in this Presentation are not adopted by the Company and the Company is not responsible for such third-party statements and projections. Given these uncertainties and other factors, viewers of this Presentation are cautioned not to place undue reliance on these forward-looking statements. All information contained in this Presentation has been prepared solely by the Company based on information and data which the Company considers reliable. This Presentation may not be all inclusive and may not contain all of the information that you may consider material.

Dr. Bijal Sanghvi

Founder & Managing Director

“

At Axis Solution, we have built our journey over 27 years by combining deep engineering expertise with a strong focus on innovation and customer-centric solutions. From process instrumentation and automation, we have evolved into an integrated industrial technology platform with capabilities spanning R&D, product development, manufacturing, system integration and digital technologies.

Our focus is now firmly on building the next phase of growth through proprietary products, digital and IIoT platforms, import substitution, and emerging opportunities in hydrogen and new energy. With a strong technology base, an experienced team, global certifications and an expanding international footprint, we believe Axis is well positioned to participate in the structural transformation of industrial automation and infrastructure.

We remain committed to creating sustainable, technology-led value for our customers and stakeholders.

”

Business Overview

Axis Solution : Building a Technology-Led Industrial Solutions Platform

01

A technology-led engineering company delivering solutions across industrial engineering, water, automation and emerging technologies.

02

Combining R&D, product development, manufacturing and system integration to deliver end-to-end solutions.

03

Building the next phase of growth through proprietary products, import substitution, digital technologies, hydrogen and global expansion.

PARTNER-LED

Strong global distribution network

SOLUTION-LED

Integrated engineering solutions through technology partnerships

IP-LED

Building proprietary brands for long-term value creation

WHY THIS MATTERS

Diversified Revenue Streams

Distribution, partnerships and owned brands across multiple sectors.

Global Reach & Market Access

Strong presence across 18 countries.

Higher Margins Through Owned Brands

Proprietary brands drive better margins and stronger scalability.

Recurring Revenue Opportunities

AMC, services, upgrades and long-term customer relationships.

One Integrated Process Ecosystem, Delivering Solutions Across Multiple Industries

Every step from the process tap to the regulator's portal is an Axis-supplied product.

PROCESS FLOW

Sample Probe

- Taken from the live process
- **Product** : i-Brix

Heated Sample Line

- Keeps the sample usable during transit
- **Product** : Baspa (SWAS)

Sample Conditioning

- Cleans, cools, and dries the sample for analysis
- **Products** : Baspa, Typhoon

Analyser

- Reads the measured value
- **Products** : Amison (gas), w-Brix (water)

Analyser Shelter

- Houses and protects the equipment
- **Product** : Snowind (thermal)

Connectivity

- Transfers the reading to the control room
- **Product** : e-Brix

Data & Reporting

- SCADA integration
- Dashboards
- Regulatory filing
- **Products** : AxisCloud, SmartShelter, AquaVision

DIVERSE END-MARKETS

The same products and engineering capabilities serve five industries, diversifying revenue and reducing reliance on any single sector.

Steel

Natural Gas, CGD & ASU

Refinery & Petrochemical

MODRN

Water

WHY IT MATTERS

Most suppliers serve only one or two parts of the value chain, leaving customers to manage multiple vendors and integration risks. Axis delivers all seven solutions under one roof-**one partner, one contract, one warranty.**

This integrated model simplifies execution while allowing Axis to capture the integration value.

End-to-End Execution Capabilities Driving Quality and Customer Value

1,40,000 sq. ft.

Integrated manufacturing infrastructure
across **6 manufacturing facilities**.

End-to-end manufacturing under one roof

Commencement to completion Execution Model- ensuring high control over quality, timelines, and execution at any scale.

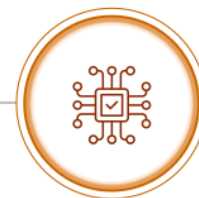

RFQ & Design Engineering

First customer-facing stage; assessing site and requirements before finalizing design.

Prototyping, Fabrication & Assembly

Building the system in-house.

Integration

Instruments, panels, and control systems brought together.

FAT (Factory Testing, Inspection & Calibration)

Validated before dispatch.

Commissioning, AMC, Repairs, Training, Spares & DRP support

Full post-delivery lifecycle, not just handover.

What Sets Us Apart

Dr. Bijal Sanghvi
Founder & Managing Director

Education :

- B.E. (Instrumentation & Control), L.D. College of Engineering, Gujarat University

Experience (31 years) :

- Managing Director, Axis Solutions Limited (1999–Present)
- Sr. Engineer, Fisher-Rosemount (1995–1999)

Awards :

- Doctor of Process Engineering (DPE-USA); CEO Excellence Award – ISA Mumbai

Expertise :

- Instrumentation & Control, Analytical Systems, Automation, New Technologies.

Mrs. Purvi B. Sanghvi
CEO & Executive Director

Education :

- B.E., L.D. College of Engineering, Gujarat University

Experience (27+ years) :

- Instrumentation Engineer, Syscon (1998–1999). Lecturer, SCET (2000). IBM Global Services – Lead Infrastructure Engineer (2005–2014). IBM India – Regional Manager (2015–2019). Whole-Time Director & CEO, Axis Solutions (2019–Present)

Recognition :

- Microsoft Certified Expert; Distinguished Women Achievers Award – IEC

Expertise :

- R&D, IT, HR, ESG, New Product Development (NPD)

Mr. Anand Shah
Executive Director

Education :

- B.E. (Instrumentation & Control); Diploma in Business Administration (Operations Management)

Experience (26 years) :

- VP – Operations, Axis Solutions Limited (2000–Present)

Awards :

- Professional Excellence Award – IEC

Expertise :

- Operations

DSIR-approved in-house R&D center (Department of Scientific & Industrial Research, Govt. of India) : Formal government of India recognition of structured, Scientific in-house R&D.

R&D Vision 2030 : To become India's most innovative industrial technology company, delivering AI/ML-integrated analytical systems, photonics-based sensing, hydrogen measurement and safety solutions, and intelligent connected industrial infrastructure.

Roadmap themes : Clean-energy enablement, regulatory compliance, operational safety, and data-driven industrial decision-making.

IIoT & Edge AI/ML focus areas : Edge gateways for analyzers, sampling, and HVAC; predictive analytics for drift and failure prevention; real-time ESG/emissions/energy dashboards; digital twins for analyzers and SmartShelter; and secure OT/IT with multi-cloud architecture.

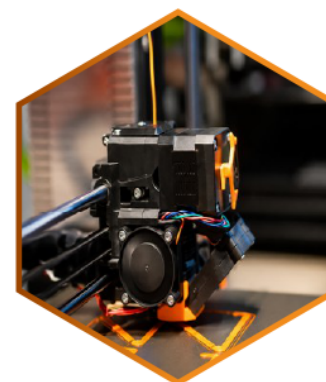

Continuous R&D Initiatives

10% of Annual Profit Committed to R&D

Developing Digital and IIoT Platforms for Next-Generation Industrial Applications & Import Substitution

Beyond the AXCELERATOR hardware family, Axis's DSIR-approved R&D centre has built its own suite of named digital and IIoT platform brands :

SmartShelter - Intelligent Analyzer Shelter

AI/ML-based cooling, digital pressurisation, wireless health monitoring, and integrated gas and fire safety, engineered for ATEX/IECEx hazardous environments.

AquaVision - Water Intelligence Platform

Combines UV-Vis/NIR and electrochemical sensor fusion with cloud analytics for real-time water quality monitoring and CPCB/CGWA compliance.

AxisCloud - Unified Industrial Intelligence

A centralized platform giving real-time visibility into emissions, water/groundwater, analyzer performance, HVAC diagnostics, and energy management.

HydroSafe - Hydrogen Measurement & Safety

An end-to-end platform covering purity, moisture, leak detection, ventilation control, and metal-hydride storage monitoring for green-hydrogen facilities.

Strong Customer Quality Profile with Majority A-Rated Customers.

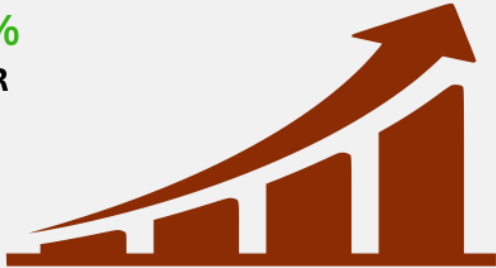

Structural Growth Drivers Supporting Long-Term Demand for Industrial Automation

India -Process Automation & Instrumentation Market

 **9.1%
CAGR**

US\$ 2400
million
2024

US\$ 4456
million
2030

India - Growth Drivers

-  Digital India push (~US\$20B budget) accelerating automation adoption
-  Chemicals sector growth (India, 6th largest producer globally)
-  Industry 4.0 and smart-factory adoption in manufacturing
-  West India clusters (Gujarat, Maharashtra) - Axis's core base
-  Steady demand from oil & gas, petrochemicals, power

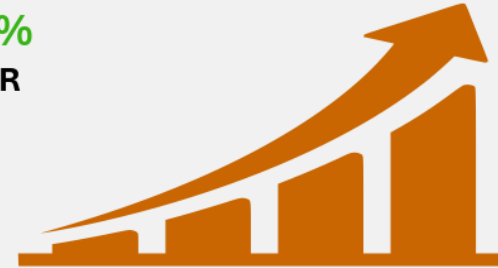

(Source: Grand View Research)

Global Process Automation & Instrumentation Market

 **5.9%
CAGR**

US\$ 80.0
billion
2025

US\$ 106.5
billion
2030

Global - Growth Drivers

-  IIoT and AI/ML integration into industrial systems
-  Rising regulatory compliance and safety standards
-  Cost and efficiency pressure amid rising labor costs
-  National manufacturing modernization programmes worldwide
-  Structural shift toward reduced manual intervention

(Source: Grand View Research)

Policy Tailwinds Are Expanding Axis' Addressable Markets

India's transition across energy, water, infrastructure and mobility is creating sustained demand for measurement, automation, monitoring and digital systems.

ENERGY TRANSITION & GREEN HYDROGEN

- **National Green Hydrogen Mission**

Hydrogen measurement, purity, safety, storage, integration and lifecycle services across the H₂ value chain.

- **Net Zero 2070 / Energy Transition**

CEMS, emissions & carbon measurement, energy monitoring, process optimization and sustainability digitalization.

WATER & ENVIRONMENT

- **Jal Jeevan Mission 2.0**

Water-quality analysis, flow/pressure instrumentation, SCADA, remote monitoring and IIoT.

- **AMRUT 2.0**

Online analysis, automation, SCADA and digital water management across urban water and wastewater projects.

- **Swachh Bharat 2.0 / MSW**

Gas analysis, CEMS, AQMS, process instrumentation and compliance for waste processing and waste-to-energy.

RAIL & MOBILITY

- **Kavach**

Railway safety expansion drives sensing, monitoring, control, electronics, integration and lifecycle opportunities.

- **i-ATS**

Digital train supervision creates demand for automation, SCADA, data acquisition and control-room systems.

- **Amrit Bharat Station Scheme**

Modern stations create opportunities in BMS/SCADA, energy management, environmental monitoring and safety.

- **PM Gati Shakti**

Multimodal infrastructure expands connected assets requiring monitoring, automation and integrated digital visibility.

MARITIME & SHIPBUILDING

- **Sagarmala / Maritime India**

Port modernization and maritime infrastructure drive marine instrumentation, environmental monitoring, automation and IIoT.

- **Shipbuilding Push / 100 Ships**

New-build and retrofit opportunities across gas analysis, emissions, safety, instrumentation and digital monitoring.

- **MARPOL / IMO Decarbonization**

Emission regulations create recurring measurement, compliance, retrofit and optimization demand.

DIGITAL INFRASTRUCTURE & SMART CITIES

- **Digital India / Data Centers**

Precision environmental monitoring, energy optimization, safety, BMS/SCADA and IIoT.

- **Smart Cities**

IoT-enabled environmental & water monitoring, energy management and command centers.

MULTIPLE POLICY-LED END MARKETS → BROADER APPLICATION FOOTPRINT FOR AXIS

Strategic Policy Is Driving Indigenous Technology Adoption

Defence, nuclear and industrial indigenization are creating opportunities for technology development, localization and higher-value engineered solutions.

NUCLEAR & NEXT-GEN ENERGY

- **Nuclear Energy Mission / SMRs**
High-reliability instrumentation, process measurement, safety, environmental monitoring and automation.
- **SHANTI Act 2025**
Greater private participation can broaden the ecosystem for indigenous instrumentation, automation and monitoring.

DEFENCE TECHNOLOGY

- **iDEX**
Co-development opportunities in sensors, instrumentation, electronics, automation and AI/oT.
- **ADITI**
Advanced strategic technology development creates opportunities to build proprietary technology and IP.
- **SRIJAN**
Import-substitution opportunities for defence components and systems across the engineering lifecycle.

MAKE IN INDIA / ATMANIRBHAR BHARAT

- **Make in India**
Import substitution and localization of analyzers, instrumentation, automation and engineered systems.
- **Atmanirbhar Bharat**
Indigenous product development and manufacturing across strategic sectors including defence, energy, rail, marine and nuclear.

HYDROCARBON VISION / OIL & GAS

Sustained demand for analyzers, hazardous-area systems, instrumentation, automation and lifecycle services.

KEY GROWTH DRIVERS

01

Proprietary Products, R&D & Import Substitution

In-house R&D of ongoing products, new product and platform launches, and increasing import substitution.

02

Digitalization, Hydrogen & New Energy

Expanding IIoT, AI/ML, hydrogen measurement, safety and storage capabilities.

03

International & New-Market Expansion

Leveraging in-house engineering and OEM capabilities to develop and scale application-specific products.

04

OEM- led Engineering Capabilities

R&D of ongoing products, new R&D product and platform launches.

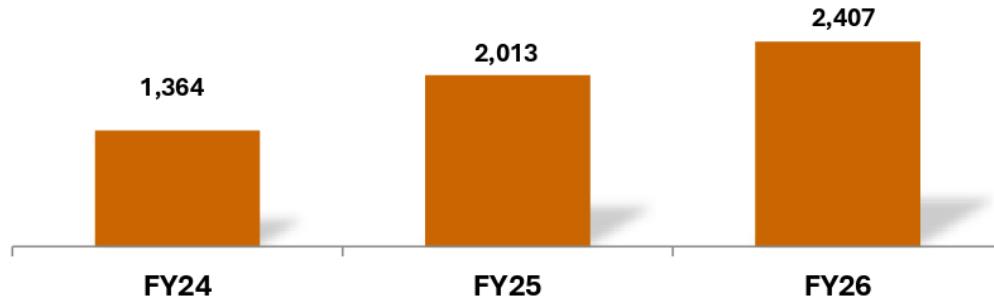

Financial Performance

Consistent Track Record of Profitable Growth

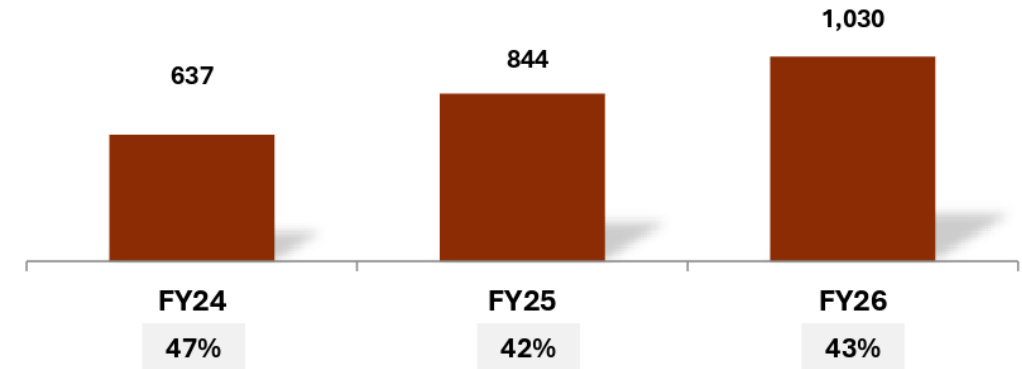

Revenue from operations (Rs Mn)

~ 33% Revenue CAGR from FY24-FY26

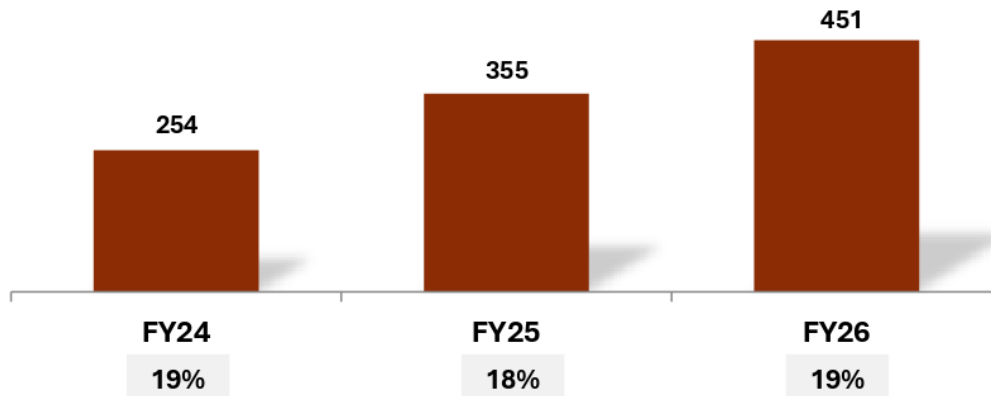

Gross Profits (Rs Mn) and Gross Margin (%)

~ 27% Gross Profit CAGR from FY24-FY26

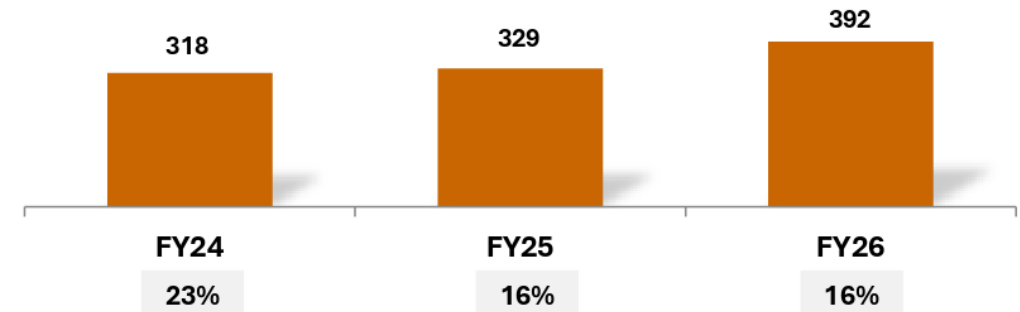

EBITDA (Rs Mn) and EBITDA Margin (%)

~ 33% EBITDA CAGR from FY24-FY26

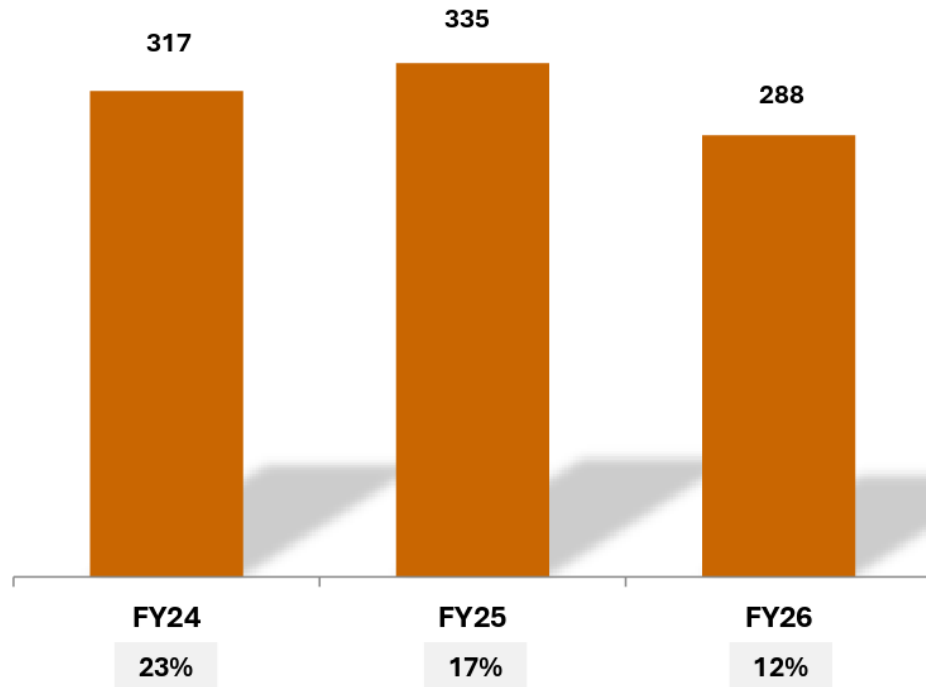

PBT (Rs Mn) and PBT Margin (%)

~ 7% PBT CAGR from FY24-FY26

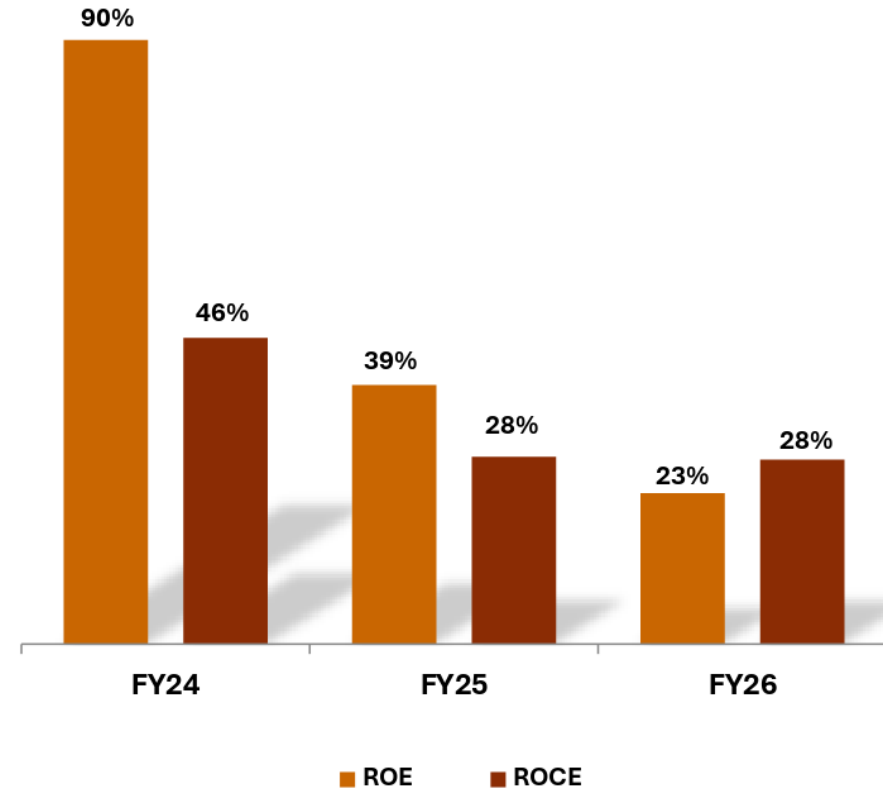

PAT (Rs Mn) and PAT Margin (%)

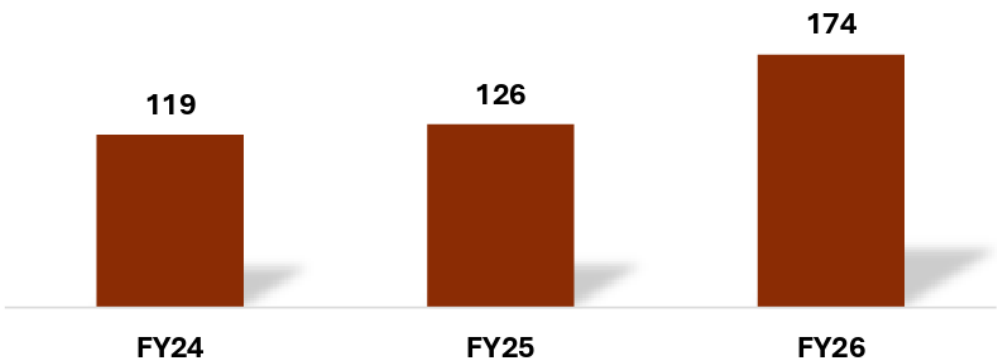

Note: Due to losses availability of the acquired company, no tax impact in FY24 and FY25

ROE and ROCE (%)

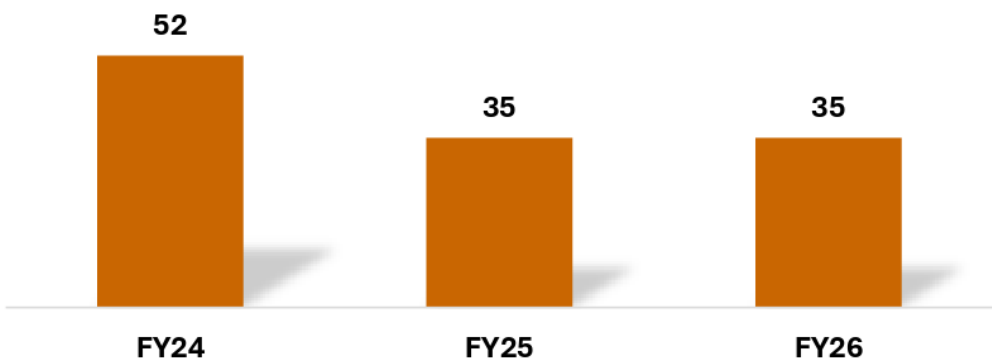

Notes: ROE = PAT / Average Shareholders' Equity; ROCE = EBIT / Capital Employed. FY23 ratios are N.A. due to unavailability of required opening-period data. FY24 ROE reflects the reverse-merger impact on the opening capital base; FY24 includes an extraordinary item of ₹9.88 crore. FY24-FY25 tax outgo was nil due to available tax losses.

Debtor Day

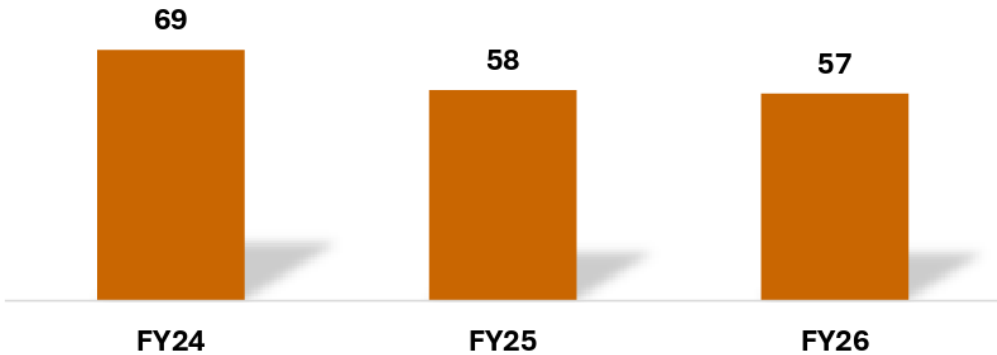

Creditor Days

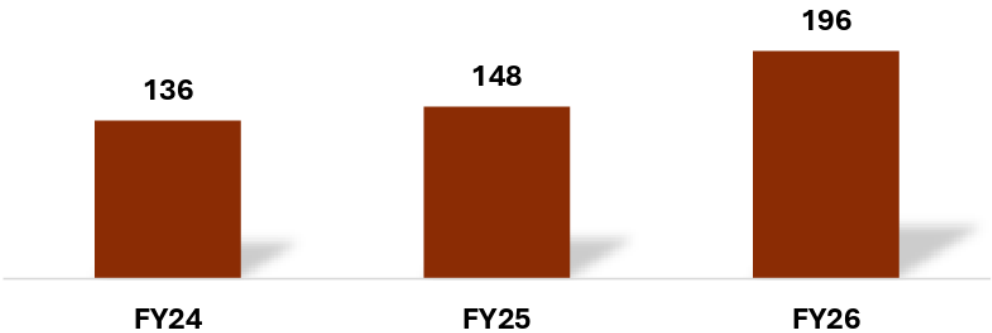

Note: Debtor days are elevated due to significant sales concentration in Q4, particularly March, which increases year-end receivables.

Inventory Days

Cash Conversion Cycle (Days)

DELIVERED PROJECTS

01

Qatar RLPP , Oil & Gas

₹400 M project delivering **16 analyzer shelters within 12 months**, showcasing large-scale execution capability.

02

NKG, Jal Nigam (UP)

₹ 4,000 M CAPEX for Instrumentation and Automation deployment for water infrastructure projects.

03

L&T, Chennai & Sarala, JJM (UP)

₹1148.4 M CAPEX (Sarala) & ₹110 M instrumentation & automation supply (L&T) including commissioning and 10-year O&M support.

04

Reliance Industries, Petrochemical Expansion

₹120 M project of analyzer shelters, HVAC & FAT systems for petrochemical expansion.

05

L&T, Baroda ,Panipat Refinery

₹180+ M project across RHCU, RR and DHDT units, delivering multiple measurement systems completed within **14 months**.

06

Mundra Petchem Project (Adani) , Chlor-Alkali Plant

Delivered low range Cl₂ measurement solution meeting **CPCB compliance requirements**.

CEO Excellence Award

CEO Excellence Award –
Best CEO of the Year awarded to
Dr. Bijal Sanghvi, Founder & MD

Founder's Award

Awarded to Dr. Bijal Sanghvi
Founder's Award as conferred by
IED Communication.

01

CEM India 2026

Axis Solutions Limited presented its emission monitoring solutions to industry leaders and sustainability champions. The expo focused on advancing cleaner, smarter industrial operations through innovative monitoring technology.

02

Elasia 2026

Axis Solutions Limited showcased its latest innovations in power, electrical, controls, and lighting solutions. The event brought together industry leaders for conversations shaping the future of these sectors.

03

Automation Expo 2026

Axis Solutions Limited engaged with industry professionals on automation and analytical solutions. Discussions centered on the future of industrial innovation and emerging automation technologies. **Hydrogen Solid Storage Technology Demo.** Dr. Bijal Sanghvi demonstrated ASL's patented Solid Hydrogen Storage Technology - protected by 13 granted patents across four countries - to Dr. Shrikant Patil, CEO, Maharashtra State Innovation Society, Government of Maharashtra. It covered converting hydrogen into solid-state storage and reconvert it for green power generation, showcasing Axis's hydrogen tech to government leadership
