CHAIRMAN'S STATEMENT

Dear Shareholders,

I am honoured and privileged at this opportunity to connect for the first time with you as Chairman through this 29th Annual Report of the Company.

“The great thing in this world is not so much where you stand, as in what direction you are moving.” – **Oliver Wendell Holmes**

I believe that today your Company is moving in the right direction as financial services open up in our country. The Indian Economy is on a recovery path. All the major research reports including the one by IMF pegs Indian Economy to grow at 7.3% to 7.8%. Your Company's fortune are tied to two main indicators of economy, Firstly, Inward remittances and secondly, travel and tourism.

For the first time in six years foreign exchange remittances into India fell to \$68.9 billion in 2015 from \$70.40 billion in 2014 largely due to a 2.2% drop in inflows from the GCC. The oil producing countries are facing real economic challenges with the drop in global crude prices. The inflows to India and other developing countries may fall further due to continuing weak oil prices. Inflows from GCC govern almost 65% of remittances that pass through your Company.

Your Company has done well in the cash to cash inward remittance space and has processed 17.34 Lakhs transactions with a gross value of Rs. 3,935 Crores. Your Company continues to grow this business by addition of sub agents. It has added approximately 1200 points of sale locations across the country focussing more on the growing markets of Uttar Pradesh and Bihar.

The pace at which Indians are travelling outside the country either for work or leisure is going up. By all estimates the industry continues to grow at 10–12% p.a. across both corporate and leisure travel. Your Company has grown very strongly in this business and has established itself as a reputed player in this market. It is now ranked amongst the top 10 AD-II players in the country. The Company achieved a total turnover of Rs. 2,062 Crores in this business and has added more than 300 clients.

The Fintech Opportunity

Over the last few years, the Government has been rolling out certain technology enabled initiatives which are now coming together to create a unique and transforming opportunity. An Indian resident is now identified through a common and biometric enabled identity proof called Aadhaar. More than 100 Crs.+ Indians have been enrolled in Aadhaar. This enables e-KYC, that is, paperless identification of a person. This also enables AEPS (Aadhaar Enabled Payment System), using which Indians can take cash out of their account at a nearby counter without the need of an ATM card or an ATM. These initiatives, along with BBPS (Bharat Bill Payment System), NACH (National Automated Clearing House), UPI (Unified Payment Interface) etc. will enable financial inclusion a reality by making reach of small ticket financial services a viable proposition.

Your Company's strength lies in a well established sub agent network of 6,000 counters and 37 licensed branches enabling a transaction flow of approx. 4,000 Crs. per annum and giving access to millions of customers. This network will now be in a position to offer a larger suite of financial services, which is becoming a real opportunity because of the emerging technology enabled eco-system. Your Company also has the benefit of strategic access to this new age infrastructure through a group Company which has the necessary technology and licenses in place.

I invite you all to join me in taking this exciting journey forward, and transforming Wall Street into a digital financial services play. I would like to thank all our customers, partners, employees and most importantly you, our shareholders for your continued support and trust in the Company.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

INDIAN ECONOMY: ON A GROWTH PATH

The Indian economy is on a recovery path, helped by a large terms of trade gain, positive policy actions and reduced external vulnerabilities. Since late 2014, a collapse of global oil prices has boosted economic activity in India and underpinned a further improvement in the current account and fiscal positions and engendered a sharp decline in inflation. A range of supply-side measures (including release of surplus grain buffer stocks) and an appropriate monetary stance have also contributed to the decline in inflation, from an average of about 9.5 percent during 2011–13 to 5.6 percent in December, 2015. Due to its further-reduced vulnerabilities and improved growth prospects, India has experienced large foreign direct investment inflows in 2015.

Nonetheless, persistently high household inflation expectations and large fiscal deficits remain key macroeconomic challenges, resulting in limited policy space to support growth through demand management measures.

Growth is projected at 7.3 percent for fiscal year FY 2015-16, picking up to 7.5 percent in FY 2016-17, supported by stronger domestic demand.

REMITTANCES TO INDIA : MUTED

The growth rate of remittances to developing countries is estimated to have fallen from 3.2 percent in 2014 to 0.4 percent in 2015. The slowdown in growth is largely due to economic weakness in the major remittance-sending countries. Weak oil prices and currencies in many remittance-source countries have depressed remittance flows in U.S. dollar terms.

Foreign exchange remittances into India fell to \$68.9 billion in 2015 from \$70.40 billion in 2014 largely due to a 2.2% drop in inflows from the GCC. It was the first such fall in six years.

The drop in remittances from the GCC is important because India receives more than half of such inflows from that region. Moreover, in the face of the steep drop in the oil price, incomes in GCC countries have so far been supported by drawing down assets. A further decline in the oil price or even the growing belief that the price will not rise over the long term, could encourage authorities to adjust to lower oil prices. The result would be reduced income for migrants in these countries and perhaps steps to restrict hiring of or even repatriate foreign workers that could substantially reduce remittance outflows.

In India, following the approval of new payments banks, the Digital India and Start-up India initiatives have the potential to improve the environment for new start-ups and disruptive technologies to reduce remittance costs. However, regulations governing overseas transactions, including AML/CFT requirements and foreign exchange controls, may impede extending these services to international remittance transactions.

The U.K.'s decision to leave the European Union represents a major economic shock to the U.K. and Europe. It will lower business and household confidence in the U.K. and Europe, while also potentially fanning the flames of referenda in other countries given the electoral cycle across the continent. Despite the importance of the shock to Europe, we expect its impact outside of the region to be relatively contained, as the U.S., China and India remain on reasonably solid footing.

The most immediate impact of Brexit has been felt in financial markets, with some currencies and government bond yields adjusting rapidly to increased uncertainty and the potential economic consequences. The British Pound has depreciated substantially against the USD, while the Euro has also fallen.

ANNEXURE B TO THE AUDITORS' REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Wall Street Finance Limited ("the Company") as of 31 March 2016 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or

ANNEXURE B TO THE AUDITORS' REPORT

timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

ANNEXURE A TO THE AUDITORS' REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended 31st March, 2016, we have audited the internal financial controls over financial reporting of Wall Street Finance Limited ("the Holding Company") and its subsidiary companies as of 31 March 2016.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the of the Holding company and its subsidiary companies, is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or

ANNEXURE A TO THE AUDITORS' REPORT

timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company and its subsidiary companies, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
