Sector Outlook

- The Light commercial vehicle segment had a growth of 46% in Q2 FY'23 & 70% in H1 FY'23. This segment is witnessing healthy demand from e-commerce as well as from agriculture and its allied sectors along with replacement demand.
- The Small commercial vehicle segment had a growth of 17% in Q2 FY'23 & 51% in H1 FY'23. This segment is expected to grow in the coming quarters due to its nature of deployment in last mile connectivity, improvement in road infrastructure and increasing logistic services.
- The Heavy commercial vehicle segment had a growth of 53% in Q2 FY'23 & 87% in H1 FY'23. The recovery in macroeconomic environment and improved freight availability will aid growth in this segment during the year.

Chola's Position

- Increased demand for Light commercial vehicle will help us garner higher volumes, however we will be cautious since the rainfall has been uneven and there has been significant deficit of rainfall in some of the states and excess rainfall (flooding) in some parts.
- Uptick in demand for Small commercial vehicles will help us improve our disbursements combined with our vigilant approach to financing, based on vehicle viability and earning capacity. We are cautious in this segment due to significant increase in vehicle prices and lower EMI affordability (Operator viability).
- Our exposure in this segment is 7% at a portfolio level. We will continue to keep a close watch on this segment for further improvement in market conditions. We are trading cautiously in this segment due to uneven freight availability (capacity utilisation), freight charges and higher cost of operation.

Sector Outlook

- The Passenger vehicle (Car & MUV) segment had a growth of 38% in Q2 FY'23 & 39% in H1 FY'23. This segment is poised for an all time high sales this fiscal aided by improved consumer sentiments, festive demand and easing of semiconductor supply.

- Used vehicle business has contributed to 28% of our disbursement volumes and this segment is expected to grow even further.

Chola's Position

- Our focus continues to be on retail customers especially in smaller towns and rural areas. We will continue to focus this segment in line with market trends.
- The company intends to maintain its focus on two-wheeler financing with a clear eye for credit underwriting to maintain portfolio performance.
- We are one of the key financiers in this segment and will continue to maintain a cautious approach along with a razor-sharp focus on collections.

Sector Outlook

- The Construction Equipment segment had a growth of 8% in Q2 FY'23 & 30% in H1 FY'23. The volumes are expected to pickup in coming quarters supported by improvement in construction, mining activities and increased spend on infrastructure.
- The Tractor industry had a growth of 5% in Q2 FY'23 & 11% in H1 FY'23. Expectation of strong rabi harvest and improved cash flow on account of healthy crop procurement will aid growth in this segment.

Chola's Position

- Our exposure in this segment is around 6% at a portfolio level and our focus will be on building a quality book. We are cautious in this segment with a keen watch on viability and deployment.
- We will approach this segment with a close watch on portfolio considering various external factors like uneven rainfall, crop loss and irregular cash flows.
