At Vakrangee Limited, we are creating the world's largest retail distribution channel. Not only are we able to deliver over 1,000 services and ~60 million products through our assisted e-Commerce model, but we also have the ability to handle the logistics to both urban and rural locations with equal ease. By managing our inbound supply chains with great efficiency, we aim to provide a deeply gratifying "last-mile" experience to our targeted base of 200 million+customers across pan India.

No matter how remotely they live, our Vakrange Kendras enable our customers to access a wide array of goods and services, such as banking & insurance products, e-Governance services, getting an Aadhaar Card made, paying utility bills, and much more, within walking distance. Government subsidies can now be deposited directly into their bank accounts. With assisted e-commerce, our rural and urban customers can access the same choices available globally, at the same prices and terms as any urban customer is privileged to receive. Today, our Kendras have become indispensable modern-day convenience stores for many ordinary people, whose lives get transformed when a Vakrangee outlet opens nearby.

The deep portfolio of services that we offer also creates a strong impact on local communities. At Vakrangee, we recognise the importance of providing a consistent quality and experience, even to low-income or remote households. If we wish to progress to become a first world nation, integrating an entire population into a modern economy is a national priority. At Vakrangee, our ultimate goal is to see that every Indian has the opportunity to benefit from financial inclusion, financial literacy and enabling Government programmes. We are fast becoming the obvious choice for millions of people.

As we cater to India's unserved and underserved citizens in rural and "difficult to reach" areas in urban India, we recognise the need to expand our delivery routes to remote areas, while also considering the end-to-end supply chain network design and omnichannel distribution challenges. As we continue on our path of growth, we aim to ensure that people from each and every pin code have access to our network and superior service technology. This, in turn, makes us a valuable partner to a number of companies interested in selling and delivering their wares to the "last-mile". Our vision is to have more than 75,000 Vakrangee Kendras operational by 2020 across India, serving an addressable marketplace of more than a billion people.

ANNUAL REPORT 2015-16

NOTE ON FORWARD LOOKING STATEMENTS

In this Annual Review we have disclosed forward-looking information to enable investors to comprehend our prospects and take informed investment decisions. This review and other statements – written and oral - that we periodically make contain forward-looking statements that set out anticipated results based on the management's plans and assumptions. We have tried wherever possible to identify such statements by using words such as 'anticipate', 'estimate', 'expects', 'projects', 'intends', 'plans', 'believes', and words of similar substance in connection with any discussion of future performance.

We cannot guarantee that these forward-looking statements will be realized, although we believe we have been prudent in assumptions. The achievement of results is subject to risks, uncertainties and even inaccurate assumptions. Should known or unknown risks or uncertainties materialize, or should underlying assumptions prove inaccurate, actual results could vary materially from those anticipated, estimated or projected. Readers should bear this in mind. We undertake no obligation to publicly update any forward-looking statement, whether as a result of new information, future events or otherwise.

Our Vision

Vakrangee aims to be the most trusted consumer service point for urban and rural India, by making solutions even more simple & sustainable; offering products & services that are even more reliable & affordable; and imparting customer service that is even more friendly.

Our Mission

Vakrangee intends to become India's No.1 retailer by offering innovative ideas and proven modern technologies for facilitating universal financial & social inclusion.

Our Brand Promise

No matter how remote, excluded or poor they might be, we promise to give every under-served Indian their rightful access to basic modern banking, within walking distance from their homes. Along with this, we also promise to bring closer to them affordable and quality products & services that improve their essential living standards.

We will continue this endeavour until we have included the last financially excluded person in our country.

Our Presence

The Vakrangee Effect

Our vast network financially empowers a large section of the society that, till now, had been completely excluded from the mainstream activities of an emerging economy: namely consumption, savings and investment. This increased participation will in turn support further industrialisation, more agriculture and a wider market for goods and services. With the potential financial inclusion of a large section of society responsible for more than half of India's GDP, the Indian economy can be further enlarged and energised.

We call this "The Vakrangee Effect"

Our Brand Principles

Trust

The glue that binds all our stakeholders – government, banks, businesses and our franchisees

Perseverance

The attitude we have to accomplish the unprecedented feat of creating the world's largest retail network, even in the most remotest and inhospitable areas without electricity and connectivity.

Unyielding Rigor

The way we train our people and set high standards of quality in our systems and processes is the backbone of our success. We can take ordinary individuals and train them with skill-sets that help them yield remarkable results.

Entrepreneurial

An entrepreneurial spirit in our approach to business – both in our employees and our franchisees – our key business partners.

Prudent

Our basic approach to scalability, security, confidentiality, planning, risk management and value creation.

Our Key Business Verticals

OUR AIM IS TO HAVE A STRONG TECHNOLOGY INTENSIVE RETAIL DISTRIBUTION PLATFORM OF 75,000 LAST-MILE TOUCH POINTS DELIVERING BANKING, INSURANCE, E-GOVERNANCE, E-COMMERCE AND LOGISTICS SERVICES TO A POTENTIAL CUSTOMER BASE OF 200 MILLION ACROSS THE UNSERVED AND UNDER-SERVED RURAL AND URBAN INDIA.

VAKRANGEE KENDRAS

The Company is in the process of setting up and managing 75,000 Vakrangee Kendras Business Correspondent bank branches (50,000 rural and 25,000 urban Vakrangee Kendras), covering each pin code of India by 2020. Various BFSI are offered through these brick and mortar branches. We, thus, aim to have a strong technology intensive retail distribution platform of 75,000 last-mile touch points delivering Banking, Insurance, E-Governance, E-Commerce and Logistics services to a potential customer base of 200 million across the unserved and under-served rural and urban India. As on 31st March 2016, more than 20,000 Vakrangee Kendras were operational across India.

Vakrangee outlets are equipped with in-house application as well as bank prescribed IT/Non-IT hardware including Micro-ATM with authentication through UID as well as Card and V-SAT for real-time connectivity with respective Bank's back-end to run day-to-day banking operations. The outlets are integrated with core banking solution (CBS)

Key Vertical: VAKRANGEE KENDRA SEGMENT

1. Banking and Insurance

We have been enhancing the profitability of our Vakrangee Kendras by offering a host of banking and insurance services to the underserved population.

Banking Services

We provide real-time banking transactions at the grass-root level in 16 states through Vakrangee Kendras. Some of these are: creation of bank accounts; cash deposit/cash withdrawal/cash transfer; fixed deposits/recurring deposits and balance inquiry.

Direct Benefit Transfer

Through Direct Benefit Transfer scheme, all social security payments will be made through the banking network using Aadhaar-based platform as a unique identifier of beneficiaries. We facilitate delivery of social benefits and transfer of subsidies to the beneficiaries through direct credit to their bank accounts, thereby eliminating the middleman.

Pension Transactions

Through this initiative, we promote old age security to India's pension subscribers. Our services enable pension subscribers to access pension funds from their Aadhaar-linked bank accounts using our robust network of Vakrangee Kendra.

White Label ATMs

This helps us earn revenues from participating banks, from whom we will earn a fee for every transaction (financial and non-financial) conducted through these ATMs. We are making these ATMs biometricenabled to enable people to access and conduct ATM transactions using their fingerprints, in addition to bank cards.

Insurance

Through our corporate agency tie-ups with Life Insurance Corporation of India (LIC), TATA AIG General Insurance Company, Reliance General Insurance Company Limited, HDFC Standard Life Insurance Company Limited, Bajaj Allianz Life Insurance Company Limited, CIGNA TTK Health Insurance Company Limited and Religare Health Insurance Company Limited, we offer comprehensive life, non-life and health insurance plans at our Vakrangee Kendra outlets. We also offer Government Insurance Schemes, namely Atal Pension Yojna, Jeevan Jyoti Bima Yojna and Pradhan Mantri Suraksha Bima Yojna.

Our Service Offerings under Banking, ATM and Insurance

- Bank A/C Opening Savings, Current, Recurring
- Transactions Deposits, Withdrawals, Remittances
- Balance Enquiry, Statement of Accounts
- Direct Benefit Transfer
- Pension Disbursement
- Food Security related DBT
- Insurance Life, Non-Life & Health, premium payments
- Retail Loans, ODs and FDs
- Recovery of Loans

2. E-Commerce Services

In our endeavour to connect India's unserved and under-served citizens to its modern ecosystems, we entered into a strategic tie-up with the online shopping portal, Amazon India. By virtue of this tie-up, our Vakrangee Kendra outlets enable local citizens to gain access to products on Amazon's website through our assisted e-Commerce model. As on date, the service has been rolled out across 1,000 Vakrangee Kendra outlets which have become the hubs for physical ordering and collection points for a bouquet of 60 million Amazon products. Vakrangee Kendras empower the customers by offering them access to an array of products at the click of a button. The payment is through Cash on Delivery. The Kendras not only assist in ordering products on the e-tailer's website, but also help in making payment and in pickup and delivery of the products.

We are the service providers of a wide range of services in the telecommunications space, adding value to our E-Commerce customers in more ways than one. We offer pre-paid and post-paid cards, tariffs and plans, charge and calling cards, broadband connections and other value-added services offered by telecom providers.

Direct to Home (DTH)

We have partnered with leading DTH providers of home entertainment, enabling them to increase their subscriber base through Vakrangee Kendras.

OUR VAKRANGEE KENDRA
OUTLETS ENABLE CITIZENS TO
GAIN ACCESS TO AN ARRAY OF
PRODUCTS ON THE AMAZON
WEBSITE THROUGH OUR ASSISTED
E-COMMERCE MODEL.

Our service delivery includes end-to-end solutions in the DTH segment including recharge coupons, subscription cards, new set-top box connections, and various other customer services.

Mahindra & Mahindra

We entered into a partnership with Mahindra eMarket Limited, a subsidiary of Mahindra and Mahindra Limited, for promoting and booking automobile products through Vakrangee Kendras. Citizens, particularly in unserved and under-served areas can visit the nearest and book automobile products available on Mahindra eMarket by paying the booking amount.

Red Bus

We entered into an alliance with Red Bus offering bus ticketing services at Vakrangee Kendra through Vakrangee Franchisee portal.

Key Vertical: VAKRANGEE KENDRA SEGMENT

3. E- Governance Services

Under the CSC scheme of the Government, we offer an extensive spectrum of E-Governance Services at our Vakrangee Kendras. Our portfolio of E-Governance includes the below services:

- a. **Collection Services:** Payment of electricity, telephone and mobiles
- b. **Recruitment Application Processing:**Processing of applications for recruitment of workforce for Government-related services, such as for Police, Teacher and Anganwadi Workers, among others
- c. **Issuance of Certificates:** Online registration and issuance of birth, death, domicile, and land record certificates, among others
- d. **Grievance Management Services:** Enables citizens to issue formal grievance to the Government (directly/through local agencies)

Enrolments:

- UID Card, NREGA Job Card, Election Card
- Land Record Digitisation, Electoral Rolls
- Payment of Utility Bills, Taxes, Levies
- Railway Tickets, Certificates, Hall Tickets
- Exam Fee Payments, Online Form Filling

Key Vertical: VAKRANGEE KENDRA SEGMENT

4. Logistics

We have initiated a pilot project in logistics, through which we will enable last-mile delivery of packages in a timely, safe and efficient manner. We have incorporated Vakrangee Logistics Private Limited, a wholly-owned subsidiary of Vakrangee Limited, for the logistics business, and are leveraging the Vakrangee Kendra outlets for pick-up and distribution of parcels from the district level till the customer's doorstep. Our strategy is to ensure a logistics presence in over 19,000 postal codes by 2020.

ARAMEX

We entered into a tie-up with ARAMEX India Private Limited through our wholly-owned subsidiary Vakrangee Logistics Private Limited to offer courier booking and last-mile delivery services to customers. As part of the tie-up, Vakrangee Kendras will offer domestic and international courier booking for forward delivery and reverse pick-up services to ARAMEX and help extend its reach to "unserviceable postal codes".

WE ENABLE LAST-MILE DELIVERY OF PACKAGES TILL THE CUSTOMER'S DOORSTEP.

Delhivery

Through our wholly-owned subsidiary Vakrangee Logistics Private Limited, we entered into a tie-up with Delhivery Private Limited for offering last-mile delivery services. Under the agreement, Vakrangee Kendras will offer forward delivery and reverse pick-up services to Delhivery, enabling it reach pin codes which are difficult to service.

Key Vertical: LEGACY E-GOVERNANCE SEGMENT

5. E-Governance (SI)

With proven skills and robust domain expertise, we have valuable and consistent experience of 25 years in executing such projects by providing back-end support and systems integration (SI) beyond the Gram Panchayat level. We have an established and proven track record in delivering time-bound 'mission critical' Government projects, getting involved in the entire value chain – right from data digitisation to technology management. Our objective in providing services in this vertical is to improve the overall processes and public administration services under the e-Governance plan.

Aadhaar Card

We are India's largest enrolment agency empanelled with the Unique Identification Authority of India (UIDAI) under T3F4 category. We are engaged in pan-India enrolment of Aadhaar Cards, a 12-digit individual identification number issued by the Unique Identification Development Authority of India (UIDAI).

Print and Data Management Services and Election-related projects

We offer print management and data management services to Election Commission-related projects and to private corporates in India. Some of our major projects in this area include work for the Office of Chief Electoral Officer in various states of India. In addition to this, we also aggregate and update electoral data for Election Commission projects.

WE HAVE AN ESTABLISHED AND PROVEN TRACK RECORD IN DELIVERING TIME-BOUND 'MISSION CRITICAL' GOVERNMENT PROJECTS.

Public Distribution System

We provide digital services to the Government for distribution of subsidised food and non-food items to poor sections of the society in Haryana. Our aim behind this is to make the distribution system more transparent, efficient, effective and accountable.

Inspector General of Registration & Stamps (IGRS)

We simplify the registration process in this Department, identify its market value and appropriation, deliver time-bound services, ensure centralised record keeping and increase the overall efficiency.

Our Current Projects:

- UID Unique Identification Project
- SSA Sarva Shiksha Abhiyaan
- RSBY Rashtriya Swasthya Bima Yojana
- PMS / DMS Electoral Data

In Conversation with the Managing Director & CEO

VAKRANGEE LIMITED IS A TECHNOLOGY-DRIVEN COMPANY WHICH IS CREATING INDIA'S LARGEST NETWORK OF LAST-MILE RETAIL POINTS-OF-SALE. IT IS LEVERAGING ITS TECHNOLOGY EXPERTISE AND PAN INDIA PRESENCE TO CONSTRUCT AN ECOSYSTEM OF VAKRANGEE KENDRA **OUTLETS – A DISTRIBUTION PLATFORM** FOR DELIVERY OF MULTIPLE PRODUCTS AND SERVICES, ITS MANAGING DIRECTOR & CEO - MR. DINESH NANDWANA SHARED HIS VIEWS ON HIS HOLISTIC VISION TO CONNECT INDIA'S UNTAPPED AND UNSERVED AREAS IN RURAL AND URBAN INDIA TO THE NATION'S MODERN ECOSYSTEM.

Excerpts:

- Q Can you share with us your journey over the years and your holistic mission to connect India's rural and the untapped urban citizens with a modern ecosystem?
- With vast experience of over two decades, we are today India's largest e-Governance player functioning as a systems integrator and an endto-end service provider for several e-Governance projects. We have established a strong track record of successfully implementing time-bound Mission Mode Projects (MMPs) under the Government's National e-Governance Plan. We have leveraged our expertise in technology and vast on-ground network presence till the grass root level for having opened more than 20,000 Vakrangee Kendra outlets. We provide ancillary services to India's rural and urban areas aimed at bridging the financial inclusion gap between the developed urban India and the underdeveloped rural India. Moving ahead, our 2020 vision is to set up 75,000 such outlets across India by 2020. We will continue to enter new businesses in the areas of financial inclusion – by leveraging our technology platform, impeccable track record of implementation of national e-Governance plan and our vast delivery network. Through our robust framework of Vakrangee Kendras, we offer a one-stop solution for a wide range of products and services in banking, insurance, e-commerce, e-governance and logistics and successfully bring initiatives to scale. With this, we

completely transform the lives of the people living in the vicinity of a Vakrangee Kendra. We make life easy and convenient for them by offering a whole platter of services on the same platform. Through these outlets, we thus redefine social impact.

- How is your tie-up with Amazon India enabling you to increase the product portfolio?
- Our alliance with Amazon, the world's largest e-commerce platform, solves a strategic purpose for the Company. It has created new opportunities for competitive advantage, opened new markets and broadened our organisational capabilities. Post tie-up, our Vakrangee Kendra outlets act as the platform for "physical ordering" of merchandise from the Amazon website and also as "pick-up and collection points" for these parcels. Till date, 1,000 Vakrangee Kendras have been equipped with the e-tailing service. And we are working towards expanding this to all the existing outlets by March 2017. Currently, we are demonstrating good traction of the e-commerce offering at these Kendras. There are Kendras that are more than three months old that are now generating 15-20 orders a day, with an average ticket size of ₹ 600-800 per order. At mature outlets which are about a year old, the number of orders as well as the average ticket size are increasing. Going by the trend, we expect consumers ordering lower ticket items (such as daily groceries) in the beginning and gradually moving to higher ticket purchases, such as that of apparels and electronics.

What benefits is Amazon accruing from the tie-up with Vakrangee?

A The tie-up offers several key advantages to Amazon. One, our vast network and strong presence in the under-developed regions of India enables the e-Commerce player to increase its presence in India. This tie-up provides Amazon access to an untapped and unserved customer base in rural and "difficult to reach" urban areas. Two, Amazon is able to improve its last-mile connectivity through the tie-up, thereby playing a deeper role in its logistics chain. Amazon leverages these Vakrangee Kendra outlets for pick-up and distribution of parcels and for collecting payments of 'Cash on Delivery' orders, thereby significantly reducing its last-mile logistics cost, which comprises a major chunk of the overall logistic cost for e-Commerce companies.

Your target of setting up 75,000 Vakrangee Kendras by 2020 seems aggressive. Can you share your business strategy planned to achieve this target?

A The target of setting up 75,000 outlets by 2020 does not seem aggressive. Firstly, the vast platform of 260,000 SSAs across India identified by the Government provides ample room to grow. Besides, we have on board the requisite number of employees required to deliver on our growth plans. Each of our 1,000 Block Level Officers are given a target of setting up 12-15 Vakrangee Kendras per year. Going by this, our broader target of setting up 15,000 outlets per year is easily achievable.

How will increase in mobile or internet lead to disintermediation of your services?

The increase in internet penetration affects both banking and e-commerce services. However, we mainly cater to rural and urban slum pockets that are not well versed with the e-commerce market, but more comfortable with the physical outlet experience. Many of the service providers do not cater to deliveries in Vakrangee's catchment areas. To illustrate, even Amazon does not deliver to many slum pockets, owing to the difficulty in finding the right address.

We do not see the increase in internet penetration leading to any kind of disintermediation in our business. Our target consumers still prefer physical or brick-and mortar transactions – whether it is for banking or e-commerce. Such e-Commerce companies also prefer to trade through such stores in "difficult to reach" locations to ease their logistical bottlenecks. Even in banking, more than 50% of the transactions are conducted physically. Our focus is to keep diversifying and building a strong bouquet of services and products, to ensure that we are not dependent on any single service.

What is your key market differentiator? Do you foresee any competition in this business?

A Our key differentiator in the marketplace is the vast bouquet of products and services. Our competitors will find it extremely difficult to build the portfolio of offerings we have built over the years and the manner in which we have cemented our infrastructure, licenses and partnerships. By virtue of being the designated National BC (Business Correspondent) of 8 banks, we have a growth advantage over other competitors. Our vast portfolio of multiple products and services enables us to guard against competition.

Can you share with us your financial performance during the year under review.

A We delivered yet another excellent year. Our business units delivered solid organic growth and improved their profits. We recorded double digit growth in sales and EBITDA. Net Sales during the year stood at ₹ 3,19,637.67 Lakhs which shows a growth of 14.75%

Dinesh Nandwana Managing Director & CEO

and EBIDTA was recorded at ₹ 8,27,66.64 Lakhs, translating into a growth of 13.51%. The EBIDTA margin was recorded at 25.9%. We have continued our practice to consistently reward our shareholders. We also formulated a new dividend pay-out policy by fixing the dividend at 15-25% of our consolidated Profit After Tax every year, giving investors clear visibility on surplus cash. During FY2016, our total dividend ratio was 20.20%, amounting to a total payout of ₹ 6,614.95 Lakhs excluding Dividend Distribution Tax of ₹1,346.65 Lakhs.

What are the new developments on enhancing corporate governance at Vakrangee?

That is a good question. Good governance has always been the hallmark of our Company. At the core of our corporate governance practice is an active, capable and diligent Board which sets the tone for good corporate governance. Currently, six of the Board Members are independent, and we are looking to add more independent members on the Board. Our strict adherence to regulatory and supervisory norms is an example of how our culture, policies and relationships reflect corporate governance. We intend to appoint one of the big four auditors from the next financial year to look into financial and operational functioning and improve transparency. Our employees are also motivated and encouraged to put in their best performance.

Financial inclusion is not just about reaching high numbers of unbanked or underserved groups. It is equally about providing quality financial services and products and empowering the marginalised part of our society in taking advantage of burgeoning opportunities and fostering shared prosperity. At Vakrangee, we redefine social impact – globally, locally and individually. At the core of our business strategy is our capability to radically move the needle on social progress.

A large segment of India's population, especially in the rural segment, does not fall into the ambit of India's financial system and is termed as "unbanked". Financial inclusion broadly covers access by every individual to suitable, low cost, fair and safe financial products and services from the primary financial institutions. Apart from this, the Government has several schemes where a considerable amount of money allocated for the poor does not reach them due to pilferage. Direct transfers to beneficiaries through the bank account, rather than subsidising products and making cash payments, is a better way of getting the unserved and underserved citizens onto the banking platform.

- The Government has taken cognisance of the banking access problem in India and launched a comprehensive financial inclusion initiative – "Pradhan Mantri Jan Dhan Yojana".
- The initiative aims to ensure at least one bank account per household, followed by roll-out of various financial services such as bank overdraft, insurance and pension schemes.

We, at Vakrangee, are at the forefront to leverage this immense growth opportunity. We are set to become one of the leading players in the Government's implementation of financial inclusion in India. We have signed National "Business Correspondent" agreements with 8 banks and Common "Business Correspondent" with 31 banks under the financial

Positive Impact

01

CREATING SOCIAL IMPACT

Our Vakrangee Kendra franchisees generally employ around 2-3 resources at the Kendra, which implies the Kendras provide employment opportunities to around 60,000 people, leading to financial stability and growth of nearly 80,000 families indirectly.

02

DIGITAL INCLUSION

We are taking digital literacy to the bottom of the socio-economic pyramid by offering assisted E-Commerce services through its Kendras. This enables us to ensure last mile link and connect India's rural and urban citizens to modern E-Commerce sites.

03

ENVIRONMENTAL IMPACT

Vakrangee Kendras serve as a "one-stop solution" to these customers by offering them a bouquet of products and services on a platter – in their own vicinity. Since the citizens don't need to travel long distances for their basic needs, they end up saving on fuel, and thereby, reducing carbon emissions.

CREATING A TRANSFORMATIVE SOCIAL IMPACT FOR COLLABORATIVE GROWTH

inclusion initiative. Through our robust framework of Vakrangee Kendras, we provide all the basic banking services and products such as account opening, cash withdrawal, cash deposit, account balance enquiries and funds transfer, among others.

Creating Social Impact

Vakrangee serves as biggest equaliser by bridging the gap between the urban and rural population of India.

a. Social Inclusion through E-Governance:

- Social inclusion of the marginalised helps a resident in:
 - getting an identity
 - recognising her/his existence
 - helping the State reach out to the resident for delivery of various welfare programs
- Social inclusion enables in furthering the financial inclusion drive and in providing easy access to loans

b. Social Inclusion through Insurance (Social Protection):

This is for all the citizens in the unorganised sector and all those who are not members of any social security scheme.

c. Social Inclusion through Skill Development and Employment Opportunity

With its wide network of touch-points, Vakrangee has provided entrepreneurial opportunities to 20,677 franchisees. These franchisees generally employ around 2-3 resources at the Kendra, which implies the Kendras provide employment opportunities to around 60,000 people, leading to financial stability and growth of nearly 80,000 families indirectly. The Vakrangee Business Model also facilitates citizens to enhance their skills. For example, while utilising the services of Aadhaar, a certification needs to be procured which certifies the citizen to become an operator. While conducting banking services, the Business Correspondent enrols for a certification with the Indian Institute of Banking & Finance (IIBF), thereby enhancing his skill sets.

Digital Inclusion

Through the E-Commerce platform, we offer goods and services to the urban and rural population of India – at the same price, same time and of the same quality. Through this initiative, Vakrangee is taking digital literacy to the bottom of the socio-economic pyramid by offering assisted E-Commerce services through its Kendras. This enables us to ensure lastmile link and connect India's rural and urban citizens to modern E-Commerce sites.

Environmental Impact

For carrying out banking transactions such as cash deposit, cash withdrawal and fund transfer, paper slips and cheques need to be filled up and signed at the respective bank branches. As against this, the Vakrangee Kendras have advanced features of paperless and real-time banking. Customer transactions are authenticated on the basis of their Aadhaar Cards through the use of biometrics. The customer does not need to fill or sign paper slips, thereby saving on paper and ink.

Further, citizens in the rural areas have to travel long distances to a nearby town or city to fulfil their daily needs. To avail various e-governance services, they have to travel till the nearby Tehsil office; while to buy household items for their daily use, they need to travel till nearby markets. Apart from utilising time and money, these processes lead to utilisation of fuel, thereby polluting the environment. Vakrangee Kendras serve as a "one-stop solution" to these customers by offering them a bouquet of products and services on a platter – in their own vicinity. Since the citizens don't need to travel long distances for their basic needs, they end up saving on fuel, and thereby, reducing carbon emissions.

02

We are focussing on creating India's largest network of lastmile retail points-of-sale and building the world's largest technology-driven product delivery platform. Through our tie-up with the world's biggest e-tailer Amazon, Vakrangee Kendras have become "One Stop Shop Convenience stores" enabling urban and rural citizens to shop from a plethora of products available on the online store.

Our tie-up with the world's largest selling online platform Amazon has transformed us into an aggregator of "Aggregators". Through Vakrangee Kendra outlets, citizens gain access to over 60 million products under a single roof. The service has been rolled out across 1,000 Vakrangee Kendra outlets till date.

Post tie-up, Vakrangee Kendras have become hubs for physical ordering, payment collection as well as pick-up and collection points for a bouquet of 60 million products available on the Amazon platform. The concept of "assisted E-Commerce model" enables customers to access the Amazon website at a Vakrangee Kendra outlet. The franchisee hand holds customers in browsing the Amazon website and in placing the order. The parcels are delivered to and returned from the Kendra. Payment is through Cash on Delivery.

Capitalising on Assisted E-Commerce

The tie-up is part of Amazon's offline strategy in India, to become stronger in rural as well as untapped and "difficult to reach" urban areas and improve the last-mile connectivity. The tie-up offers several key advantages to Amazon. One, our vast network and

strong presence in the under-developed regions of India facilitates Amazon to increase its presence in India. It enables the e-commerce major to increase its reach and cater to the untapped hinterlands of India. The tie-up also provides Amazon access to an untapped and unserved customer base in rural and "difficult to reach" urban areas. Three, Amazon is able to improve its last-mile connectivity, thereby playing a deeper role in its logistics chain. Amazon leverages these Vakrangee Kendra outlets for pick-up and distribution of parcels and for payments, thereby significantly reducing its last-mile logistics cost.

Advantage Amazon

03

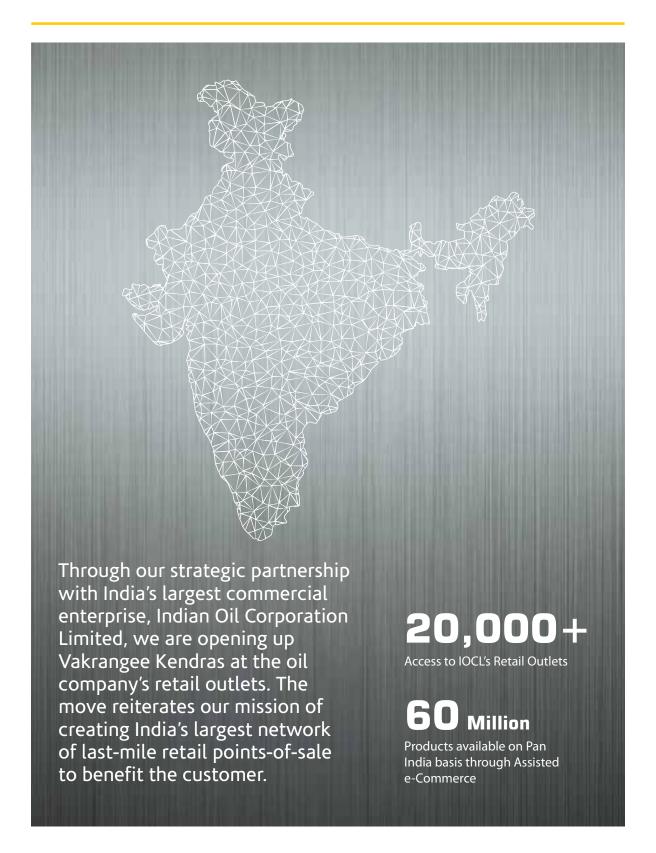

Imagine opening a bank account at a petrol pump or buying an insurance policy in flat three minutes. This is now possible through our strategic tie-up with Indian Oil Corporation Limited (IOCL), India's largest commercial enterprise. Our strategic alliance with IOCL gives us the license to open Vakrangee Kendra outlets gives us a clear competitive advantage in the marketplace. It provides us with a ready platform of more than 20,000 retail distribution outlets on a pan-India basis, enabling significant synergy with them.

Our Vakrangee Kendras have emerged as a strong and sustainable cash flow business. The tie-up has reduced our reliance on short-term project-based revenues and cash flows from e-Governance projects, as we continue to generate incremental stable revenues and cash flows over a longer period of time. The alliance

facilitates Vakrangee in increasing its touch-points at a much faster pace and achieving its target of setting up 75,000 such Kendras by 2020. On a broader note, it enables Vakrangee in meeting its core objectives of financial inclusion, digital inclusion, social inclusion, employment generation and skill development.

Once there is a Vakrangee outlet opened, the petrol pump outlet will turn into the world's largest e-malls. It will transform into a platform offering assisted online shopping to customers with over 60 million products and enjoy a bouquet of banking, insurance and e-Governance services offered. The alliance is a win-win proposition for IOCL too. Customers will gain access to a platter of non-fuel services available at the petrol retailing outlets.

04

Through strategic tie-ups with our partners, we aim to build an ecosystem of Vakrangee Kendra outlets that will fill the last-mile gap for retail firms in their objective of catering to India's rural and urban populace. Besides enhancing our bouquet of service offerings, the target of our strategic tie-ups is to enhance profitability of Vakrangee Kendra outlets by serving a platter of products and services to customers and fulfilling his needs.

We are a technology driven company focused on building last-mile retail touch points. Our objective is to deliver banking, insurance, e-governance, e-commerce and logistics services to a potential of 200 million customers across the under-served rural and urban India

Through our tie-ups we hope to better leverage our role in the financial inclusion marketplace. With our widespread network and robust technology expertise, we wish to be the strategic partner of companies desiring to tap India's true potential in the urban and rural landscape by distributing their services and products to them. Through our definitive approach of offering last-mile connectivity, our mission is to revamp the consumer landscape, place the customer at the centre and deliver a unique experience to him – one that meets his expectations.

Enhancing Profitability

During the year, we entered into several new tieups to expand our bouquet of consumer product offerings and services. Through these strategic alliances, we wish to provide the same products and services and products to the unserved and underserved areas in India. Our strategic tie-ups are aimed towards enhancing the profitability of Vakrangee Kendra outlets through the platter of services and products offered.

05

We are moving a step forward in providing logistics management services to our customers. We have initiated a pilot project in logistics, through which we enable last-mile delivery of packages – from the district level right till the customer's doorstep – in a timely, safe and efficient manner.

Logistics management is a critical component of our strategic business goals. As part of our supply chain and logistics management services, we have incorporated Vakrangee Logistics Private Limited, a wholly-owned subsidiary of Vakrangee Limited. Through the logistics initiative, we shall leverage our Vakrangee Kendra outlets for pick-up and distribution of parcels till the customer's doorstep and for payments.

While the operational responsibility of a logistics operator is to reach the district level, the operational responsibility of our logistics business is to pick up the parcel from district level and transport to customers till the doorstep.

While the existing players in the logistics business are capable of reaching an average of 5,000 to 6,000 postal codes across India, we have a clear advantage. We are working towards ensuring a targeted presence in more than 19,000 postal codes by 2020. Another advantage is that of elimination of last-mile logistics cost, which roughly works out to 7% to 8% of total cost. Reverse logistics cost works out even higher at 1.5-2 times of the cost of forward logistics.

Our Competitive Advantages

- Establishing last mile reach
- Enabling cash on delivery service across all postal codes
- Facilitating cash remittance system using internal wallet
- Providing delivery services
- Leveraging well-established last mile infrastructure
- Implementing an asset light model with low capex
- Expanding through the franchisee route

Our "Information Security Philosophy" is aimed at ensuring that the right data is used by a person in the right role and the right context. This is to ensure that internal and external customers and other stakeholders can trust us for their business. The success of our business depends on our ability to properly protect and make available the systems, applications and data.

The Vakrangee approach is to develop and maintain its security posture by protecting the sensitive data. To achieve this, we follow extensive security measures and industry best practices to provide an objective assessment of security domains and programs.

We follow strict security procedures in storage and disclosure of any information. With this, we ensure that internal and external clients, employees, Board members, other partners in organisation (voluntary or otherwise), contractors and agents shall feel confident about the privacy and security of their personal information.

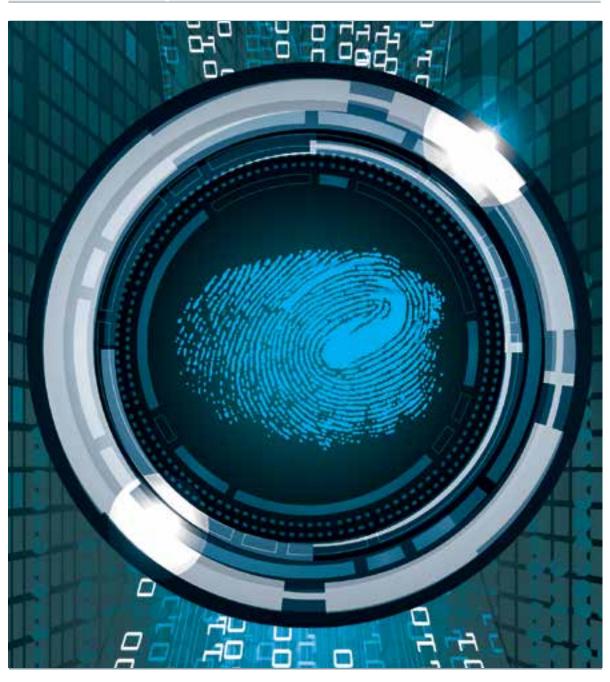

We handle data protection and privacy by categorising all the data based on its sensitivity (confidentiality), criticality (availability), identifiability (privacy) and compliancy. The categorisation is then used to determine the safeguards required. Our control framework is primarily based upon ISO 27001:2013.

MAINTAINING SECURITY POSTURE THROUGH SENSITIVE DATA PROTECTION

We are certified with ISO 9001:2008, ISO 27001:2013 and ISO 20000-1:2011 – the world's most widely recognised management standard. Our quality certifications allow us to better align and integrate multiple management standards. We continually monitor and manage quality across all our operations and outline ways to achieve as well as benchmark consistent performance and service.

I. ISO 27001:2013 Certification

Vakrangee is ISO 27001:2013 certified (Information Security Management System) since 2009. It has been independently verified and awarded the most rigorous, internationally recognised and the most prestigious information security standard available. We are committed to global standards for security best practices and for implementing and managing security controls that protect information assets. We have demonstrated our commitment to Information Security Management, continuous improvement in Information Security standards, and signalled further strengthening of credentials as a managed service provider. Protecting information is a top priority for Vakrangee and the ISO 27001:2013 certification ensures that safety of the data is integral for protection of the company, its customers and partners. We are serious about securing our valuable information assets by putting in place appropriate policies, procedures and controls to assess and treat risks to information security throughout the organisation.

How we implement Information Security:

- By thoroughly evaluating information security risks, including the impact of identified threats and vulnerabilities.
- By designing and implementing a comprehensive set of information security controls and other risk management measures to address security risks within its own cloud infrastructure as well as its corporate environment.
- By implementing an overarching program to ensure that the information security controls meet the information security needs for Vakrangee and its customers on an ongoing basis.

II. ISO 20000-1:2011 Certification

We are an ISO 20000-1:2011 (Service management system requirements) certified company since 2009, which ensures we meet international standards for IT service management systems. The ISO 20000-1:2011 certification confirms that our IT management practices and processes are tightly controlled and applied consistently. The certification provides validation of high-quality IT professional services to our customers.

III. ISO 9001:2008 Certification

We are an ISO 9001:2008 certified (Quality Management System) company since 1998. The ISO 9001:2008 certification supplements the best practices we already follow, including the Capability Maturity Model Integration Level 3 (CMMI Level3) framework and the Project Management Body of Knowledge (PMBoK). The certification of compliance with ISO 9001:2008 recognises that the policies, practices and procedures of our Company ensure consistent quality in the product and services provided to internal and external clients and its associates. The Certification enables us to consistently provide products and services that meet the customers' and applicable statutory and regulatory requirements.

08

Being a technology driven company, we are significantly low emitters of greenhouse gas (GHGs), compared to companies involved in heavy manufacturing or extractive operations. Vakrangee, therefore, aims to take advantage of the digitalisation and green technology trends that are driving transformational changes across the global economy. These trends can have a significant impact on energy consumption and greenhouse gas emissions.

We are applying these trends to our own business and helping our customers apply them to their life to reduce the overall carbon footprint. For example, in rural parts of the country, a citizen has to travel miles to avail simple banking facilities. However, by placing a physical 'Kendra' (Store) with electronic banking as a service, the citizen can take advantage of the core banking facility without travelling, hence reducing the carbon footprint.

India is currently in the midst of the digital revolution having the second largest user group on internet in the world. However, 60% of the population is still untapped making this a huge opportunity for the various industries to explore and take benefit of the same. Vakrangee's aim is to be the biggest equaliser by providing every citizen of the country same products and services irrespective of their location. Currently, this is a big challenge for the country as most of India is situated in rural pockets which are not easily accessible, due to which citizens are not able to avail basic goods and services. Vakrangee has a unique business model where various services from banking, insurance, e-Commerce, e-Governance and

logistics are given to a citizen through a "brick-and-mortar" store but through the digital medium.

Our Environmental Impact

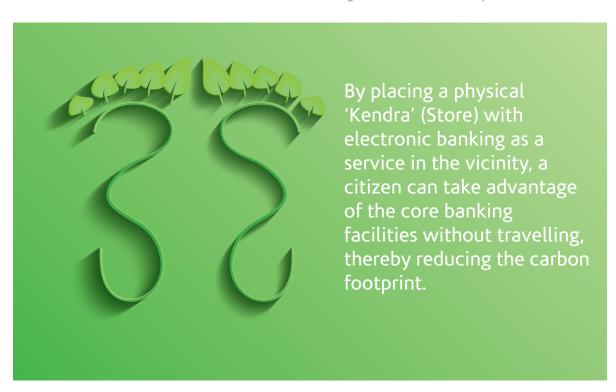

Being a technology driven company, we are significantly low emitters of greenhouse gas (GHGs) as compared to the companies involved in heavy manufacturing or extractive operations. We aim to take advantage of the digitalisation and green technology trends driving transformational changes across the global economy. These trends can have a significant impact on energy consumption and greenhouse gas emissions. We are applying these trends to our own business and helping our customers apply them to their own lives to reduce the overall carbon footprint. For example, in rural parts of India, a citizen has to travel several miles to avail simple banking facilities. However, by placing a physical 'Kendra' (Store) with electronic banking as a service in that vicinity, he can take advantage of the core banking facilities without travelling, thereby reducing the carbon footprint.

Apart from banking facilities, Vakrangee has crafted the services in a manner where the citizen would be required to travel the least. With the context of our business model, following are the ways in which we reduce the carbon emission.

Paperless Banking: The banking services provided at Vakrangee Kendras are paperless, thereby reducing the ink and paper wastage. Even the bank accounts are opened electronically (through e-KYC).

One-Stop Centre for Goods: With assisted e-Commerce being our flagship service at these stores, a customer gains access to 60 million goods under a single roof. He can avail the benefits of ordering the products from the Kendra, thereby reducing the carbon footprint.

Availability of E-Governance Services: Aadhaar enrolment and G2C services are also equipped at these Kendras. This makes it convenient for the citizen to avail the benefits, while conducting other necessary activities such as banking or shopping through assisted e-Commerce platform.

08 PROTECTING THE ENVIRONMENT

ENVIRONMENT MANAGEMENT:

OUR GOALS & ACHIEVEMENTS

Climate change and environmental sustainability present challenges and opportunities for Vakrangee and also our stakeholders. To address these, we are committed to incorporating leading environmental practices into our business strategy and operations and also fostering environmental awareness and responsibility among our employees, clients and suppliers.

GOAL	ACHIEVEMENT
 ENVIRONMENTAL RESPONSIBILITY POLICY Reduce our carbon emission per employee with at least 20% from the baseline and accordingly get a globally accepted certification of ISO 14001. 	 Employees are encouraged to use digital forms of documents and print them only if necessary. Vakrangee has a pan India presence, therefore, has adopted the concept of 'Train the Trainer'. Accordingly, the trainings for the Kendra is given at the local level reducing the travel of the resources from Head Office.
 MEASURE & MONITOR CARBON FOOTPRINT Track carbon dioxide emissions resulting from Vakrangee energy usage and business travel activities and implement a continual improvement program to reduce these emissions. Optimise energy usage in our office locations and data centers, including through efficient real estate operations, and consider renewable energy sources where feasible. 	 Vakrangee is in process of developing an application which would be linked to the ticketing mechanism of its employees. Vakrangee has conducted more than 400+ video conferencing amongst the business partners and its employees residing in the rural areas of the country. Frequent Energy Audits for our data centre equipment and devices. Vakrangee plans to implement green cloud for conserving the energy produced from its data centre.
 TECHNOLOGIES TO REDUCE CARBON FOOTPRINT Use collaboration technologies to reduce our need of business travel. Improve our energy efficiency by 30%, against 2015 baseline. 	Use collaboration technologies to reduce our need of business travel
 MEASURE WASTE AND WATER GENERATION Measure waste generation and water usage across our operations and conduct business in a manner that aims to prevent pollution and minimise the consumption of natural resources. 	 As per the admin policy, Vakrangee promotes the use of recycled bottles. Apart from this, Vakrangee promotes reuse and recycling of the electronic equipment. For example, in Aadhaar operations, we have purchased used equipment, thus re-using them for Aadhaar enrolment.

EXCERPTS FROM THE REPORT:

"The Company's access to finance initiatives includes the provision of core banking, insurance, and financial services to underserved populations in rural, semirural, and urban populations in India, a country where the penetration of banking services is low. Further, the Company's corporate governance practices are well aligned with shareholder interests."

CORPORATE GOVERNANCE ANALYSIS:

"Vakrangee falls into the highest scoring range for all the companies we assess relative to global peers, indicating that the company's corporate governance practices are generally well aligned with shareholder interests."

FINANCE ANALYSIS:

"Vakrangee's business lines and the geographic distribution of its revenues suggest moderate potential for growth through the expansion into underserved market segments. Our analysis finds robust initiatives in this area. The company therefore appears well positioned to capitalize on this opportunity. In the context of global industry peers, Vakrangee ranks above average."

At Vakrangee, we believe employees are our most valuable asset. We make an effort to develop the abilities and enhance productivity of our staff. We foster relationship with them at every level in the organisation and encourage them to express their views and share their ideas to bring about improvements in the organisation towards the achievement of the common goal described in our vision.

We, at Vakrangee, put our customers at the centre of everything we do. And it is our employees who help us achieve our goals. Trainings and skill enhancement is the primary activity of our Human Resource Development. The open door policy of Vakrangee helps us bridge the gap between the freshers and the senior management. This helps the junior teams to get first-hand experience from the leadership. Vakrangee's Employee Stock Option Plan is made available to the entire ecosystem helping the employees to build an asset.

Employees need the right environment to grow and achieve their career aspirations. Our organisation is youth oriented, with an average age of 27 years. It also provides the employees a platform where they can excel in all aspects of life. The policies framed are employee friendly with a special focus on work life balance.

Human Resource at Vakrangee

- Collaborative relationships
- Approachable and open communications
- Courteous, efficient and effective services
- Flexibility and fairness

Driving Innovation

Our goal is to create an environment and a workplace that drives innovation, high performance and employee satisfaction. Vakrangee is one of those limited organisations which offer Employee Stock Option plans to the entire hierarchy since inception. We continue to transform our HR-IT landscape by implementing 'HR Spine' application and also introducing modules to handle the human resource management. Our 'High Performance in HR' initiative aims to support the Company's business goals with our domain and functional knowledge. As yet another initiative, we organised a two-week programme 'People's Week', designed for employees to learn from one another, exchange ideas and cultivate a greater connection across cultures, genders and generations.

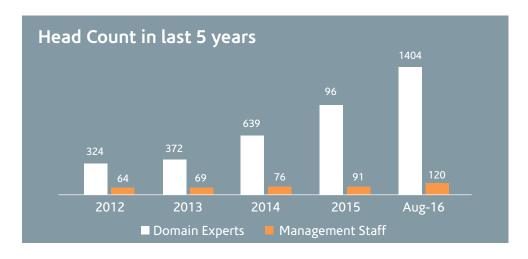

Getting the Right Talent

Our aim is to also get the right talent in the right place at the right time for a fast growing organisation. Vakrangee has varied business verticals and more than 20 Business Allied Partners. Due to multiple services offered through the Vakrangee Kendra, our key focus has been in recruiting and retaining the right talent which will contribute in designing programs in Vakrangee's prime motto of customer satisfaction. During 2015 and 2016, the hiring was focused on laterals (hires with professional experience of at least more than two years) to cater to the demanding business needs. We also increased our management staff by 30%.

We follow a 180-degree (now moving to 360-degree format) appraisal mechanism, in which the reporting manager appraises his team members. In FY2015, the average increment was 18.91% across all designations. We need leaders at every level who internalise what it will take to achieve our strategy, have the mindset to amplify the intelligence and capabilities of everyone around them and the ability to accelerate business transformation. In 2015, we mandated a three-day program for our top leaders that resulted in each leader creating an individual plan on how they will lead Vakrangee's transformation and achieve targets. We also launched a flagship program for first-level people leaders responsible for guiding 75% of our workforce.

Optimising the Learning Experience

Once we hire a new talent, we ensure that the on-boarding experience is engaging and inspiring. As a programme for new joinees, each employee experiences a training session with the leadership. The HR Head specifies on ethics and compliance and career opportunities within the organisation. The Product Head gives a first-hand experience of the products to the new joiners. We also promote the concept of "Train the Trainer" in order to comply with policies of ethics and compliance and the Vakrangee way of doing the business to maintain the standard outcome across India. For example, a customer visiting the franchisee gets the same experience in rural areas of Nandurbar (district in Maharashtra) as in the most urban areas of Mumbai.

10 BEING – OUR KEY MOTTO

In 2016, Vakrangee aims to develop professional development offerings (self-paced online programs that includes soft-skills training), which would be open to all employees. In addition to learning portfolios offered by product verticals, virtual self-paced programs support employees building impactful development plans that meet their career goals. Our programs are driven to enhance the skill-sets of the employees, thereby broadening their career aspirations.

Employee Benefits

In order to sustain and encourage the talent in the organisation and to enhance the performance potential of employees, we have introduced the Employee Stock Option Plans (ESOP) (over and above the CTC) for all employees across different levels. This helps the employees get a feeling of belongingness towards the organisation and also get associated with the Company's growth and development. The ESOP policy also acts as a tool for creation of wealth for resources serving the Company for a longer period of time.

Retaining the Employee

As per its retention strategy, Vakrangee performs a fundamental SWOT analysis of the situation. In case the conclusion is driven towards retaining the employee, the decision is taken in two aspects. The first is to address the financial increment, and two, to offer a change of job role in the current scenario. Thus, due to our varied business verticals, employees can change their work profile to something that is of their interest.

Women's Safety (Vishakha Committee)

Vakrangee has a separate Committee dedicated to the safety of women employees. The objective of this Committee is to ensure a "harassment free workplace", raising the morale of the female staff to work freely. The Committee comprises of 4 female staff and 3 male staff. Amongst these are the HR Head, a CEO and the Legal Head to ensure transparent and fair decision making. The Committee takes up matters in strict vigil and confidentiality and also does an independent investigation.

Promoting Inclusion, Well-being and Social Innovation

Being an Indian origin organisation, we are focused to align ourselves, as per the Government social initiatives. For example, the entire eco-system participated in 'Swacch Bharat Abhiyaan' by ensuring cleanliness of the surroundings of our office premises. Moving a step forward, we set up an initiative where different working groups were divided into teams, giving them the task of monitoring the surroundings on a monthly basis.

Aiming at Employee Health and Well-being

As an employee engagement program, the employees are benefited by the Medical Check-up, Group Mediclaim policies between ₹ 1 lakh to ₹ 5 lakh, with the spouse and children getting covered under the policy. Apart from this, there is an annual medical check-up conducted for each employee.

Respecting our Employees

- Mutual recognition and respect at all levels
- Freedom to express one's views and commitment to resolve any interpersonal conflict
- Promotion and development of two-way communication incorporating constructive feedback
- Appropriate dissemination of information
- Encouragement of self-development by recognising and utilising individual strengths

Roles and Responsibilities of HR

- 1. Regular review and development of human resource management practices.
- 2. Periodic review of the work priorities to determine skill requirements needed to meet our strategic plan.
- 3. Appointment and promotion of staff on merit and to ensure treatment of employees is fair and 3. equitable.
- 4. Rigorous induction programme conducted by HR department, frequently explaining governance and different functions prevailing in the organisation.
- 5. Conducting all ISO training as required for the various certification which are as under ISO 27001, ISO—9001, ISO 20000.
- 6. Retention policy in place for employees to retain top talents and ensure minimum attrition.
- 7. Counselling for career path development to respective employees.
- 8. Providing necessary guidelines and directions to review and improve the skills of employees.

Responsibilities of Employees

- Incorporating principles of the policy into their work practices and making them personally accountable for implementing the human resource values framework.
- 2. Utilising individual strengths to improve work practices.
- 3. Achievement of organisational goals through participation in development plans, policies and procedures.
- Adherence to all policies, procedures, agreed code of conduct and standards.
- 5. Assistance in prevention of discrimination and promotion of equal opportunities when interacting with other employees.

ECONOMIC OVERVIEW

India Economy Outlook

Amidst global worries, India still strongly emerged as the fastest growing economy in the world. As per the Central Statistics Organisation (CSO), the Indian economy registered a growth of 7.6% in FY2015-16, topping the World Bank's growth outlook for the year. Moving ahead, the nation is expected to be the fastest growing major economy in FY2016-17 growing at 7.5%, ahead of China, at a time when global growth is facing increasing downside risks, as per the World Economic Outlook released by the International Monetary Fund (IMF). (Source: World Economic Outlook January 2016)

With a sharp fall in oil prices in FY2016, India's Consumer Price Index (CPI) inflation has been in line with the target set by the Reserve Bank of India (RBI). In February 2016, CPI stood at 5.2%, below the 6% target inflation for FY2015-16 by RBI. Albeit the IMF sees India's inflation (based on consumer price index) is projected to be around 5.3% in 2016. This will be subject to upside risks such as an unfavourable monsoon and expected public sector wage increase, consequent to the recommendations of the 7th Pay Commission. India's foreign exchange reserves rose to US\$ 359.76 billion (as of March 31, 2016), up by US\$

16.75 billion from the level it stood at on March 31, 2015. India's GDP picked up pace, having jumped from 5.6% in FY2012-13 to 7.6% in FY2015-16. It is seen rising further on the expectation of a normal monsoon this year. A growth revival in rural towns due to better monsoon and new economic reforms will lift India's GDP further. INDUSTRY OVERVIEW

Strong Government Focus on Financial Inclusion in India

The Pradhan Mantri Jan Dhan Yojana (PMJDY) – a National Mission on Financial Inclusion was announced by India's Honourable Prime Minister in his Independence Day Speech in 2014. The key focus of this Mission is to cover all Indian households, and ensure at least "one bank account" per household. The key objective of PMJDY is to enable access to various financial services such as the availability of basic savings bank account; need based credit; remittance facility; and insurance and pension to the unserved and underserved sections of the society. A deep penetration in India's rural areas at affordable cost is possible only with effective use of technology.

The plan also envisages channelling all the Government benefits (from Centre / State / Local Body) to beneficiaries' bank accounts and also pushing the Direct Benefit Transfer (DBT) scheme of the Union Government. The technological issues such as poor connectivity and on-line transactions will be addressed. An effort is also being made to reach out to the youth of India to participate in this Mission Mode Programme.

One of the key objectives of the Narendra Modi Government is to achieve Financial Inclusion, and it has implemented several reforms in line with it. Financial Inclusion aims to extend financial services to the large under-served population of India to unlock its growth potential. The RBI has taken the lead to encourage banks and financial institutions to fix definite targets to achieve financial inclusion and improve the life of India's unserved population.

Benefits of financial inclusion to India's unserved banking population includes providing access to basic financial products and services; earning interest on savings, transfer and remittances; direct benefit transfers from the Government with zero pilferage; Government supported insurance for life and crop protection; and direct access to Government pension schemes. The Committee on Medium-term Path on Financial Inclusion (CMPFI) expects that by 2021, over 90% of India's underserved sections will become an active part of formal finance, thereby becoming the key driving force for the nation's economic progress.

Financial Inclusion – Progress and Initiatives

As on 30th March 2016, a total of 177.5 million Rupay cards were issued and 214.2 million bank accounts were opened under the PMJDY scheme. Of these, about 95 million accounts have already linked their Aadhaar Cards with their bank account. The Aadhaar Card seeding is seen offering seamless benefits of Government schemes such as LPG subsidy, pensions and scholarships under the Direct Benefit Transfer scheme.

To further solidify the financial inclusion penetration among India's rural masses, the Government launched some social security and insurance schemes in May 2015, such as the Pradhan Mantri Jeevan Jyoti Bima Yojana, Pradhan Mantri Suraksha Bima Yojana and Atal Pension Yojana. As on 16th December 2015, 92.6 million beneficiaries were enrolled under the Pradhan Mantri Suraksha Bima Yojana and 29.2 million beneficiaries were enrolled under the Pradhan Mantri Jeevan Jyoti Bima Yojana. Further, 1.3 million account holders were enrolled under the Atal Pension Yojana. (Source: RBI Trend 2014-15 Progress Report)

Union Budget 2016-17: Measures for Financial Inclusion

- The Government has expressed its plans to launch a digital literacy mission program for rural India, which will encompass around 60 million additional households over the next three years.
- Following a proposal for deduction of 5% of the income of Non-Banking Financial Company (NBFC) for taxation, with respect of provisions for bad and doubtful debt, NBFCs will have a higher inclination to provide credit, thus enabling higher financial inclusion.
- Allocation of ₹ 385 billion for the Mahatma Gandhi National Rural Employment Guarantee Act (MNREGA).

- Introduction of a Bill for Targeted Delivery of Financial and Other Subsidies, Benefits and Services will further extend the Aadhaar framework.
- There is widening of the use of Direct Benefit
 Transfer to include fertiliser subsidy on a pilot
 basis. The Government has also promised to give
 legal backing to the Aadhaar initiative, which will
 seamlessly benefit the Direct Benefit Transfer and
 many other initiatives taken by the Government
 recently. This will also help in reducing the amount
 of pilferages to a significant level.
- The Government has plans to open 1,500 Multi Skill Training Institutes under the Pradhan Mantri Kaushal Vikas Yojana (PMKVY). This will encourage the youth in India's rural areas by offering them training in several life skills.

Direct Benefit Transfer

Direct Benefit Transfer (DBT) is a major reform initiative launched by the Government of India on 1st January, 2013. The objective of this is to re-engineer the existing cumbersome delivery processes by using modern Information and Communication Technology (ICT). The programme aims to transfer benefits directly into the Bank /postal accounts, preferably Aadhaar seeded, of accurately targeted beneficiaries.

1,000_{Million}

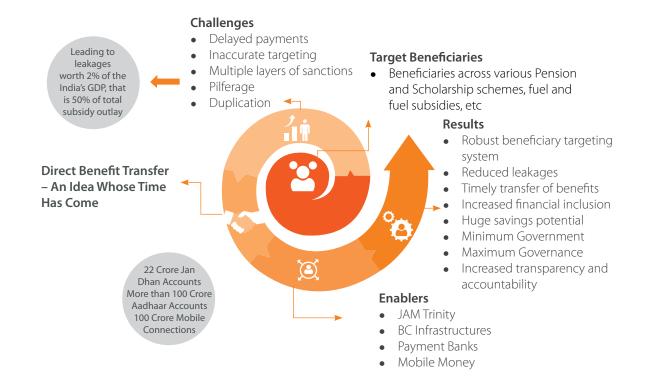

Number of DBT transactions during FY2015-16 (till January 2016)

The Central and the State government transfers and subsidies stand at about 4% of India's Gross Domestic Product (GDP). Currently, these transfers happen through multiple channels and often lead to delay in payment and its intangible value to the beneficiary. Schemes introduced in the past have often struggled to achieve their goals due to ill-targeting, leakages and ineffective service delivery. Such delays and other hurdles lead to a leakage gap of 2% in India's GDP every single year.

THE CENTRAL AND THE STATE GOVERNMENT TRANSFERS AND SUBSIDIES STAND AT ABOUT 4% OF INDIA'S GROSS DOMESTIC PRODUCT (GDP).

DBT aims at bringing in efficiency, effectiveness, transparency and accountability in the Government system and boosting the confidence in citizens in its governance. Thus, DBT entails leveraging of modern technology and IT tools to realise the dream of "MAXIMUM GOVERNANCE and MINIMUM GOVERNMENT".

How Direct Benefit Transfer Works

Management Discussion & Analysis

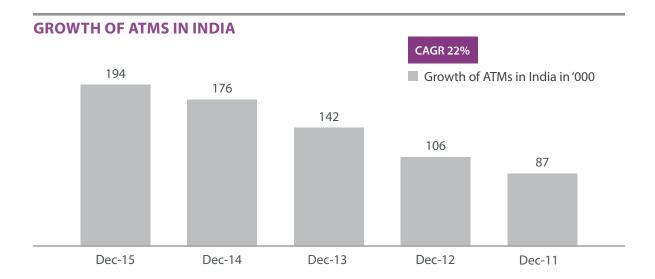

Over the past three years, DBT has shown promising results in pilot schemes being run in different parts of India. These include PAHAL (modified DBTL for LPG subsidy), Public Distribution System (PDS) in Puducherry, Chandigarh and the Mahatma Gandhi National Rural Employment Guarantee Act (MGNREGA) payments in Jharkhand and Bihar, among other states. The programme has already been universalised and over 29 crore beneficiaries are currently withdrawing their Government benefits every month using the Aadhaar biometric authentication

As on 30th April 2016, the DBT Mission is monitoring data from 15 Ministries/Departments on 66 government schemes operational in India. The number of DBT transactions during FY2015-16 (till January 2016) has crossed 100 crore. More than

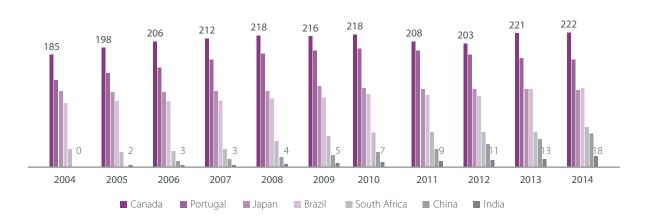

₹ 60,000 crore has already been transferred to about one-fourth of the total population in India.

Growth of ATMs in India

The Indian ATM industry has grown at a handsome pace over the last decade, growing at a CAGR of 22% to reach ~194,000 ATMs by December 2015. Despite strong growth, ATM penetration is still the lowest in India, with there being only 18 ATMs per lakh adult population, according to a survey of the World Bank. This is compared to 222 ATMs per lakh adults in Canada, 55 ATMs per lakh adults in China and 129 ATMs per lakh adults in Brazil. Canada has the largest ATM base per lakh, followed by Portugal at 178. Hence, there is immense opportunity for further growth in ATMs in India, which is expected to reach 350,000 ATMs by 2017.

BUSINESS OVERVIEW

Vakrangee Limited is India's largest e-Governance player functioning as a systems integrator and an end-to-end service provider for various e-Governance projects over two decades. It has a strong track record of successfully implementing various timebound Mission Mode Projects (MMPs) under the Government's National e-Governance Plan. Some of these projects are: Computerisation of Election Commission, Ministry of Corporate Affairs Project (MCA-21), Rashtriya Swasthya Bima Yojana (RSBY), Common Service Centre (CSC), Smart-card based Public Distribution System (PDS), Computerisation of Registration Department in Maharashtra, and Passport Services, among others. Currently, Vakrangee is the largest enrolment agency for Unique Identification Authority of India's (UIDAI) Aadhaar Cards Project. Over the years, Vakrangee has developed strong project execution capabilities, nationwide footprint with presence till grass root level, strong workforce capable of driving project implementation, and endto-end expertise in IT services.

Leveraging its domain strengths in technology with a strong nationwide presence till the grass root level, Vakrangee has evolved its business model over the last few years. It is undertaking several new projects in the field of financial inclusion. These include the opening of banking branches by acting as a national and common "Business Correspondent" to various banks, and offering of multiple other products & services through the same branch network. Being a technology driven company, we are now focusing on creating India's largest network of last-mile retail points-of-sale to potentially enable every Indian to seamlessly benefit from financial inclusion, Government programmes and from a wider access to basic goods and services. Through these projects, Vakrangee has embarked on its next phase of evolution and transformation – from being a project solutions provider to a platform provider, earning stable annuity income and achieving strong growth.

Management Discussion & Analysis

Our businesses are now divided into two verticals:

- 1. Legacy Standalone e-Governance projects, including systems integration projects as well as print and data management services.
- Vakrangee Kendra Outlet Business, which provides Banking, Insurance, e-Governance Services, e-Commerce Services and Logistic Services to people in the rural and urban markets.

With our vast experience and proven track record in National e-Governance Plan (NeGP), we successfully leveraged our technology platform and delivery network to venture into different lines of businesses. These are the businesses that are primarily aimed towards financial inclusion and transforming the lives of the common people. As on 31st March 2016, we continue to deliver these services through more than 20,000 Vakrangee Kendras. We have delivered the performance in line with our "Vision 2020" – that of implementing 75,000 Vakrangee Kendras by 2020 across India.

Financial Inclusion Project

As a part of the Financial Inclusion initiative of the Ministry of Finance, Government of India and the Reserve Bank of India, Vakrangee has been appointed as the Business Correspondent (BC) by various banks under the "Common BC" and "National BC" agreements on a pan-India basis in India. Vakrangee will set up and manage 75,000 BC Bank Branches (50,000 rural and 25,000 urban) across the country by 2020.

Business Outlook

We have developed a rich experience in providing e-services to the last mile, in line with the Company's ultimate goal of financial inclusion. We have evolved over the last two decades from being a sub-contractor to India's largest e-Governance service provider across the country. We continue to leverage our expertise in technology, along with strong on-ground presence till grass root level. With this, we have evolved as the last-mile retail outlet offering various products and services across Banking, Insurance, e-Governance, e-Commerce and Logistics verticals.

Our transformative journey has laid the foundation for long-term sustainable growth of the Company. Our recent strategic partnership with the Indian Oil Corporation (IOCL), India's largest commercial enterprise, has provided us with a ready platform of more than 25,000 retail distribution outlets on a pan-India basis, enabling significant synergy with them. Our Vakrangee Kendras have emerged as a strong and sustainable cash flow business. This has also reduced our reliance on short-term project-based revenues and cash flows from e-Governance projects, as we continue to generate incremental stable revenues and cash flows over a longer period of time.

Technology Absorption

Vakrangee has its own technology policy for its acquisition, absorption and adaptation on long-term as well as short-term basis. We have a continuous watch on technology space in the global world. We evaluate the latest technology and ensure early adaption of latest technology for our current as well as future requirements. We do in-house development for our captive use only and keep innovating existing technology with the help of our own R&D team, as required. Our in-house R&D team is closely involved in transfer of technology from the conceptual stage. We support prototype development and testing facilities and pilot studies for adaptation, absorption and upgradation of imported technologies, if there are any requirements, and also set up an information base for modern available technologies. We have a periodic training programme for our in-house development team for sharing technology updates.

We revised and updated the standards for our various products, components and services on a continuous basis. We compiled all the documents of all the research with regard to activities and developments carried out by them. There is a periodical review meeting of the R&D chief and the other management team to discuss technology absorption efforts.

Human Resources

At Vakrangee, we believe employees are our most valuable asset. We make an effort to develop the abilities and enhance productivity of our staff. We foster relationship with them at every level in the organization and encourage them to express their views and share their ideas to bring about improvements in the organization towards the achievement of the common goal described in our vision. Our goal is to create an environment and a workplace that drives innovation, high performance and employee satisfaction. We have also set up a separate Committee dedicated to the safety of women employees. Our key objective is to get the right talent in the right place at the right time. We also aim to promote inclusion, well-being and social innovation and aim towards the employee health and well-being.

Corruption and Instability

Vakrangee has been a strong player in the e-Governance sector for the last 2 decades and has been the preferred choice of Central as well as State Governments for the implementation of various projects. This is due to Vakrangee's timely delivery of projects and a clear track record free from any kind of unethical activities. To ensure this, Vakrangee has a Bribery and Anti-Corruption Policy in place, which is governed through a strict code of conduct. Also, Vakrangee bids for e-Governance projects only through e-tenders, a process which involves bidding through an online portal. This ensures an unbiased approach and transparency in the tender bidding project by the Government bodies.

Vakrangee goes through a standard bidding process which involves qualifying technical and financial terms and conditions defined by the Government body. Vakrangee has been involved in a number of projects covered under India's National e-Governance Plan (NeGP). Government bodies appoint a project management office for each project, which comprises of external consultants along with Government officials. Due to this, any change in political leadership does not affect the functioning of these projects. Vakrangee follows the scope of work and defined

Management Discussion & Analysis

timelines which are governed by Service-level agreements. Regular security and compliance audits are conducted by independent teams constituted by the project management office.

Energy Conservation

We promote energy conservation at work in the below manner:

- Reducing Energy Wastage: Use of hibernation feature of computers and laptops after working hours and during weekends.
- 2. **Saving Energy:** We turn off work PCs and laptops when away for long periods of time and shutting down at the end of the day. This is crucial in saving energy and lowering energy bills.
- 3. **Reduce Paper Wastage:** We encourage employees to print paper only if necessary. This reduces paper wastage and helps cut energy required to run the printer, which also reduces the energy cost and makes the printer last longer.
- 4. **Switch off equipment when not in use:** We switch off all printers, scanners, microwave, lights, air-conditioners, coffee vending machines at end of day, weekends or holidays. They continue to draw power, even if plugged in. Switching them off after working hours will conserve energy and reduce electricity bill.
- 5. **Use technology to hold virtual meetings:** We encourage employees to hold virtual meetings when physical presence of employee is not necessary. We use video conferencing tools such as Skype to hold virtual meetings, give presentations and make long distance phone calls without even going to client's office.
- 6. **Using Network Printer:** We use network printer to save energy.
- 7. **Review Energy Rating:** We review energy rating while buying any new equipment and devices.
- 8. **Energy Audit:** We do energy audit for our data centre, equipment and devices.
- Discourage excessive use of lighting or electricity: Employees cut down unnecessary usage of electricity by switching off extra lights at corridors, stairs, cafeteria, reception, meeting rooms and near workstation.
- 10. **Saving Energy:** We try to make use of daylight as much as possible.

Risks & Concerns

Our sales and profit growth could be adversely affected if our comparable sales from our Vakrangee Kendra and our roll out target of Vakrangee Kendras are less than what we expect. We are working in an environment wherein there is one BC Outlet, representing one Bank, in one SSA offering all the available banking services to the citizens. We have been able to add life, non-life and health insurance services by being a corporate agent of Life Insurance Corporation of India and other insurance partners. We also added E Governance, E Commerce and Logistics services to make our Vakrangee Kendras even more profitable.

Our future sales growth can be due to the following factors:

- 1. Increase in the usage per user per outlet
- 2. Increase in the number of users per outlet
- 3. Increase in the number of outlets
- 4. Increase in the number of services available

Currently, we are able to roll out new outlets much faster due to the Central Government's Pradhan Mantri Jan Dhan Yojana drive as well as individual bank's focus to establish the outlets on a war footing. Similarly, we have been able to add new E-Commerce, Insurance, E-Governance and Logistics services at our Vakrangee Kendra to make it more profitable. However, our ability to increase comparable sales depends on many factors, which, inter-alia, include our ability to introduce E Commerce, Insurance, E-Governance and Logistics services to customers through our Vakrangee Kendra network, and changes in government regulations, competition from Citizen Service Centres. As a result of these factors, it is possible that we will not achieve our targeted comparable sales or that the change in comparable sales could be negative. A number of these factors are beyond our control, and therefore, we cannot assure that we will be able to achieve or sustain comparable sales increases.

ANNEXURE TO THE DIRECTORS' REPORT

Annexure-3

A. Nomination and Remuneration and Compensation Policy

This Nomination and Remuneration Policy is being formulated in compliance with Section 178 of the Companies Act, 2013 read along with the applicable rules thereto and Clause 49 of the Listing Agreement, as amended from time to time. This policy on nomination and remuneration of Directors, Key Managerial Personnel and Senior Management has been formulated by the Nomination and Remuneration and Compensation Committee (NRC or the Committee) and has been approved by the Board of Directors.

Definitions:

"Remuneration" means any money or its equivalent given or passed to any person for services rendered by him and includes perquisites as defined under the Income-tax Act, 1961;

"Key Managerial Personnel" means:

- Managing Director, or Chief Executive Officer or Manager and in their absence, a Whole-time Director;
- ii) Chief Financial Officer;
- iii) Company Secretary; and
- iv) such other officer as may be prescribed.

"Senior Managerial Personnel" mean the personnel of the company who are members of its core management team excluding Board of Directors. Normally, this would comprise all members of management, of rank equivalent to General Manager and above, including all functional heads.

Objective:

The objective of the policy is to ensure that

- The level and composition of remuneration is reasonable and sufficient to attract, retain and motivate directors of the quality required to run the company successfully;
- Relationship of remuneration to performance is clear and meets appropriate performance benchmarks; and
- Remuneration to directors, key managerial personnel and senior management involves a balance between fixed and incentive pay reflecting short and long-term performance objectives appropriate to the working of the company and its goals.

Role of the Committee:

The role of the NRC will be the following:

- To formulate criteria for determining qualifications, positive attributes and independence of a Director.
- To formulate criteria for evaluation of Independent Directors and the Board.
- To identify persons who are qualified to become Directors and who may be appointed in Senior Management in accordance with the criteria laid down in this policy.
- To carry out evaluation of Director's performance.
- To recommend to the Board the appointment and removal of Directors and Senior Management.
- To recommend to the Board policy relating to remuneration for Directors, Key Managerial Personnel and Senior Management.
- To devise a policy on Board diversity, composition, size.
- Succession planning for replacing Key Executives and overseeing.
- To carry out any other function as is mandated by the Board from time to time and / or enforced by any statutory notification, amendment or modification, as may be applicable.
- To perform such other functions as may be necessary or appropriate for the performance of its duties.

APPOINTMENT AND REMOVAL OF DIRECTOR, KEY MANAGERIAL PERSONNEL AND SENIOR MANAGEMENT

- The Committee shall identify and ascertain the integrity, qualification, expertise and experience of the person for appointment as Director, KMP or at Senior Management level and recommend his / her appointment, as per Company's Policy.
- b) A person should possess adequate qualification, expertise and experience for the position he / she is considered for appointment. The Committee has authority to decide whether qualification, expertise and experience possessed by a person is sufficient / satisfactory for the position.

c) The Company shall not appoint or continue the employment of any person as Whole-time Director who has attained the age of seventy years. Provided that the term of the person holding this position may be extended beyond the age of seventy years with the approval of shareholders by passing a special resolution.

TERM/TENURE

- a) Managing Director/Whole-time Director: The Company shall appoint or re-appoint any person as its Executive Chairman, Managing Director or Executive Director for a term not exceeding five years at a time. No re-appointment shall be made earlier than one year before the expiry of term.
- Independent Director:
 An Independent Director shall hold office for a term up to five consecutive years on the Board of the Company and will be eligible for re-appointment on passing of a special resolution by the Company and disclosure of

such appointment in the Board's report

No Independent Director shall hold office for more than two consecutive terms of upto maximum of 5 years each, but such Independent Director shall be eligible for appointment after expiry of three years of ceasing to become an Independent Director.

Provided that an Independent Director shall not, during the said period of three years, be appointed in or be associated with the Company in any other capacity, either directly or indirectly.

At the time of appointment of Independent Director it should be ensured that number of Boards on which such Independent Director serves is restricted to seven listed companies as an Independent Director and three listed companies as an Independent Director in case such person is serving as a Whole-time Director of a listed company or such other number as may be prescribed under the Act.

EVALUATION The Committee shall carry out evaluation of performance of Director, KMP and Senior Management Personnel yearly or at such intervals as may be considered necessary.

REMOVAL The Committee may recommend with reasons recorded in writing, removal of a Director, KMP or Senior Management Personnel subject to the

provisions and compliance of the Companies Act, 2013, rules and regulations and the policy of the Company.

RETIREMENT The Director, KMP and Senior Management Personnel shall retire as per the applicable provisions of the Act and the prevailing policy of the Company. The Board will have the discretion to retain the Director, KMP, Senior Management Personnel in the same position/ remuneration or otherwise even after attaining the retirement age, for the benefit of the Company.

POLICY FOR REMUNERATION TO DIRECTORS/KMP/SENIOR MANAGEMENT PERSONNEL

- Remuneration to Managing Director / Whole-time Directors:
 - a) The Remuneration/ Commission etc. to be paid to Managing Director / Whole-time Directors, etc. shall be governed as per provisions of the Companies Act, 2013 and rules made there under or any other enactment for the time being in force and the approvals obtained from the Members of the Company.

Independent Auditor's Report

To the Members of Vakrangee Limited,

Report on the Standalone Financial Statements

 We have audited the accompanying standalone financial statements of Vakrangee Limited (the 'Company'), which comprise the Balance Sheet as at March 31, 2016, the Statement of Profit and Loss, the Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information, which we have signed under reference to this report.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 and Accounting Standard 30, Financial Instruments: Recognition and Measurement issued by the Institute of Chartered Accountants of India to the extent it does not contradict any other accounting standard referred to in Section 133 of the Act read with Rule 7 of Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

3. Our responsibility is to express an opinion on these standalone financial statements based on our audit. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder. We conducted our audit in accordance with the Standards

- on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.
- An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on whether the Company has in place an adequate internal financial controls system over financial reporting and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements
- We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements

Opinion

6. In our opinion, and to the best of our information and according to the explanations given to us, the accompanying standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2016, and its profit and its cash flows for the year ended on that date

Report on Other Legal and Regulatory Requirements

7. As required by 'the Companies (Auditor's Report) Order, 2016', issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act (hereinafter referred to as the "Order"), and on the basis of such checks of the books and records of the Company as we considered appropriate and according to the information and explanations given to us, we give in the Annexure A, a statement on the matters specified in paragraphs 3 and 4 of the Order

Independent Auditor's Report

8. As required by Section 143 (3) of the Act, we report that:

- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit
- (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
- (c) The Balance Sheet, the Statement of Profit and Loss, and the Cash Flow Statement dealt with by this Report are in agreement with the books of account;
- (d) In our opinion, the accompanying standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 and Accounting Standard 30, Financial Instruments: Recognition and Measurement issued by the Institute of Chartered Accountants of India to the extent it does not contradict any other accounting standard referred to in Section 133 of the Act read with Rule 7 of Companies (Accounts) Rules, 2014;
- (e) On the basis of the written representations received from the directors as on March 31, 2016 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2016 from being appointed as a director in terms of Section 164 (2) of the Act;
- (f) With respect to adequacy of the internal financial controls over financial reporting of the Company and

- the operating effectiveness of such controls, refer to our separate Report in Annexure B.
- (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us
 - (i) The Company has disclosed the impact of pending litigations on its financial position in its financial statements - Refer Note No. 21 to the financial statements:
 - (ii) The Company has long-term contracts other than derivative contracts as at March 31,2016 for which there were no material foreseeable losses;

Auditor's Responsibility

Our responsibility is to express an opinion on the Group's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India (ICAI) and the Standards on Auditing deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with the ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects

- Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial control system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included operating and understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exist, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risk of material misstatement of the financial statement, whether due to fraud or error.
- We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

- 6. A company's internal financial controls over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with the Generally Accepted Accounting Principles. A company's internal financial controls over financial reporting includes those policies and procedures that:
 - pertain to the maintenance of records that, in reasonable details, accurately and fairly reflect the transaction and dispositions of the assets of the company;
 - ii. Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with the generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
 - iii. Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or dispositions of the company's assets that could have a material effect on the financial statements

Annexure B to Independent Auditors' Report

Referred to in paragraph 8(f) of the Independent Auditors' Report of even date to the members of Vakrangee Limited on the standalone financial statements as of and for the year ended March 31, 2016.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future period are subject to the risk that the internal financial controls over financial reporting may become inadequate because of the changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

7. In our opinion, the company, in all material respect, an adequate internal financial control system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India

Note 1 - Significant Accounting Policies

Vakrangee Limited ("the Company") is a public company domiciled in India and incorporated in May 1990 under the provisions of the Companies Act, 1956. Its shares are listed on Bombay Stock Exchange and National Stock Exchange in India.

Vakrangee Limited along with its subsidiaries, Vakrangee e-Solutions Inc. (Philippines), Vakrangee Finserve Ltd. provides diverse solutions, activities in e-governance sector with special competencies in handling massive, multi-state, and e-governance enrollment projects and software and IT solutions, Data Digitization, etc.

A. Basis of Accounting

These financial statements have been prepared to comply with the Accounting Standards referred to in the Companies (Accounting Standards) Rules, 2006 notified by the Central Government in exercise of the power conferred under subsection (1) (a) of section 642 and the relevant provisions of the Companies Act, 1956 read with the Rule 7 of Companies (Accounts) Rules, 2014 in respect of section 133 of the Companies Act, 2013 (the "Act") and Accounting Standard—30 'Financial Instruments: Recognition and Measurement' issued by the Institute of Chartered Accountants of India to the extent it does not contradict any other accounting standard referred to in section 133 of the Act. The financial statements have been prepared on a going concern basis under the historical cost convention on accrual basis. The accounting policies have been consistently applied by the Company unless otherwise stated.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of products and services and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current – non current classification of assets and liabilities.

B. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires estimates and assumptions to be made that affect the reported amount of assets and liabilities on the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Differences between actual results and estimates are recognized in the period in which the results are known / materialised.

C. Recognition of Income & Expenditure

Revenue is recognized when it is earned and no significant uncertainty exists as to its realisation or collection. The Company recognizes revenue when the significant terms of the arrangement are enforceable, services have been delivered and the collectability is reasonably assured. The method of recognizing the revenues and costs depends on the nature of the services rendered.

The Company follows the accrual basis of accounting except in the following cases, where the same are recorded on cash basis on ascertainment of right and obligation.

- i. Insurance Claim
- ii. Dividend Income, if any.

D. Fixed Assets and Intangible Assets

Fixed assets are stated at cost, less accumulated depreciation and impairment losses, if any. Cost includes all expenditure necessary to bring the asset to its working condition for its intended use. Own manufactured assets are capitalized inclusive of all direct costs and attributable overheads. Capital work-in-progress comprises of advances paid to acquire fixed assets and the cost of fixed assets that are not yet ready for their intended use as at the balance sheet date. In the case of new undertaking, preoperative expenses are capitalized upon the commencement of commercial production.

Intangible assets are recorded at the consideration paid for their acquisition. Cost of an internally generated asset comprises all expenditure that can be directly attributed, or allocated on a reasonable and consistent basis, to creating,

as on March 31, 2016

producing and making the asset ready for its intended use.

The carrying amounts of the assets belonging to each cash generating unit (CGU) are reviewed at each balance sheet date to assess whether they are recorded in excess of their recoverable amounts and where carrying amounts exceed the recoverable amount of the assets belonging to CGU, assets are written down to their recoverable amount. Further, assets held for disposal are stated at the lower of the net book value or the estimated net realizable value.

E. Impairment of Fixed Assets

At the end of each year, the Company determines whether a provision should be made for impairment loss on fixed assets by considering the indication that an impairment loss may have occurred in accordance with Accounting Standard 28 on "Impairment of Assets". Where the recoverable amount of any fixed assets is lower than its carrying amount, a provision for impairment loss on fixed assets is made

F. Depreciation / Amortisation

i. With the applicability of Companies Act, 2013 with effect from April 1, 2014, depreciation / amortisation is provided on the Straight Line Method (SLM) unless otherwise mentioned, pro-rata to the period of use of assets and is based on management's estimate of useful lives of the fixed assets or the useful lives as specified in Part C of Schedule II to the Companies Act, 2013, and accordingly the deprecation rates have been taken as follows:

Description of Asset	Rate of Depreciation
Building	1.67%
Computers including Computer Peripherals & Software	33.33%
Office Equipments	20.00%
Furniture & Fixture	10.00%
Motor Car	12.50%
Plant & Machinery	6.67%
Project Assets*	25.00% - 33.33%
Leased Project Assets*	33.33%

^{*}The useful lives of these assets have been taken as per estimation of the management since their purchase and has been amortised accordingly, which resulted into acceleration of the depreciation at higher rate as compared to the depreciation rate given under the Schedule XIV of the Companies Act, 1956 (i.e. before the applicability of the Companies Act, 2013) and has continued with the earlier useful lives in the current year.

As per the provisions of Note 7 of Para C of Schedule II of the Companies Act, 2013, the carrying amount of the existing assets as on April 1, 2014:

- will be depreciated over the remaining useful life of the asset as per this Schedule
- in cases where the remaining useful life of an asset is nil, the residual value has been transferred to the retained earnings.

Depreciation on assets acquired/sold during the year is provided on prorata basis.

G. Investments

Investments that are intended to be held for more than a year, from the date of acquisition, are classified as long term investment and are carried at cost less any provision for permanent diminution in value. Investments other than long term investments being current investments are valued at cost or fair market value whichever is lower.

as on March 31, 2016

H. Valuation of inventories

Inventories are valued at lower of cost or net realizable value.

I. Lease

Lease arrangements where the risks and rewards incident to ownership of an asset substantially vest with the lessor, are recognized as operating leases. The lease agreements contain rent escalation clause. Lease rental expenses including escalations for operating leases are recognized in the Profit and Loss Account on a straight-line basis over the minimum lease term.

Assets leased by the Company in its capacity as lessee, where the Company has substantially all the risks and rewards of ownership are classified as finance lease. Such leases are capitalised at the inception of the lease at lower of the fair value or the present value of the minimum lease payments and a liability is recognized for an equivalent amount. Each lease rental paid is allocated between the liability and the interest cost so as to obtain a constant periodic rate of interest on the outstanding liability for each year.

J. Miscellaneous Expenditure

Preliminary expenses are amortised in the year in which they are incurred.

K. Foreign Currency Transactions

- i) The transactions in foreign currencies are stated at the rate of exchange prevailing on the date of transactions.
- ii) The difference on account of fluctuation in the rate of exchange prevailing on the date of transaction and the date of realization is charged to the Profit and Loss Account.
- iii) Differences on translations of Current Assets and Current Liabilities remaining unsettled at the year-end are recognized in the Profit and Loss Account.

L. Treatment of Contingent Liabilities

Contingent liabilities are disclosed by way of notes to accounts. Disputed demands in respect of income tax and other proceeding are disclosed as contingent liabilities. Payments in respect of such demands, if any are shown as advances.

M. Accounting for Taxation of Income

Current taxes

Income Tax is accrued in the same period the related revenue and expenses arise. A provision is made for income tax annually based on the tax liability computed after considering tax allowances and exemptions. Provisions are recorded when it is estimated that a liability due to disallowance or other matters is probable. MAT paid in accordance with the tax laws, which gives rise to future economic benefits in the form of tax credit against future tax liability, is recognized as an asset in the Balance sheet if there is convincing evidence that the group will pay normal tax after the tax holiday period and the resultant assets can be measured reliably. The Company offsets, on a year to year basis, the current tax assets and liabilities, where it is its legally enforceable right and where it intends to settle such assets and liabilities on a net basis

Deferred taxes

Deferred tax assets and liabilities are recognized for the future tax consequences attributable to timing differences that result between the profits offered for income taxes and the profits as per the financial statements. Deferred tax assets and liabilities are measured using the tax rates and the tax laws that have been enacted or substantially enacted at the balance sheet date. The effect of a change in tax rates on deferred tax and assets or liabilities are recognized in the period that includes the enactment date. Deferred tax Assets are recognized only to the extent there is virtual certainty that the assets can be realized in the future. Deferred Tax Assets are reviewed as at each Balance Sheet date.

as on March 31, 2016

N. Retirement benefits of the Employee:

The Company has both defined contribution and defined benefit plans of which some have assets in special funds or similar securities. The plans are financed by the Company and in case of some defined contribution plans, by the Company along with its employees.

Gratuity

In accordance with the Payment of Gratuity Act, 1972, the Company provides for a lump sum payment to eligible employees, at retirement or termination of employment based on the last drawn salary and years of employment with the company. The gratuity fund is managed by the Life Insurance Corporation of India (LIC). The Company's gratuity benefit scheme is a defined benefit plan. The company's obligation in respect of the gratuity plan is provided by for based on actuarial valuation carried out by an independent actuary using the projected unit credit method. The Company recognizes actuarial gains and losses immediately in the profit and loss account.

Provident fund, State Insurance, Labour Welfare Fund, Professional Tax

These are the defined contribution plans in which the Company pays pre-defined amounts to separate funds. The Company's contributions to these funds are reported as an expense during the period in which the employees perform services that the payment covers.

Compensated Absences

The employees of the Company are entitled to compensate absence. The employees can carry forward a portion of the unutilized accrued compensated absence and utilize it in future periods or receive cash compensation at retirement at retirement or termination of employment for the unutilized accrued compensated absence. The company follows the cash basis of accounting for recording the obligation of leave encashment. In other words, the company records an obligation for compensated absences in the period in which it has been encashed by the employees.

• Employee Stock Option Plan (ESOP)

In respect of employee's stock options, the excess of market price on the date of grant over the exercise price is recognised as deferred employee compensation expense amortised over vesting period.

(f) Detailed note on shares reserved to be issued under options and contracts (ESOPs or Loans) / commitment for the sale of shares (without payment being received in cash) divestments including the terms and conditions.

The Company has formulated Employees Stock Option Scheme, 2008 (ESOP Scheme) which was approved by the members of the Company at their meeting held on 23rd September, 2008, as modified on 10th January, 2011 & on 1st June, 2012. Further the Company has formulated the new "ESOP Scheme 2014" approved by the members of the Company through postal ballot on 23rd May, 2014.

Detail of all the Grants issued as on date & the prices at which the options (after effecting modification, if any) to be exercised are as follows:

Grant No. & Date of Grant	Option Gra	nted
	No. of options	Exercise
	(Equity shares	Price (₹)

Grant 7 on November 26, 2014	10,69,100	64.70
Grant 8 on March 11, 2016	9,67,200	113.08

The Company has made another change in the ESOP Scheme with respect to the vesting of the options (only those forming part of the fresh Grants issued after June 1, 2012) over the period as follows:

Period of Vesting from the date of grant	Percent to Vest	
	Grant 1 to 5	Grant 6 onwards
At the end of twelve months	33%	-
At the end of twenty four months	33%	25%
At the end of thirty six months	34%	25%
At the end of forty eight months	=	25%
At the end of sixty months	-	25%

Employees covered under Stock Option Plans are granted an option to purchase shares of the company at the respective exercise prices, subject to requirements of vesting conditions. These options generally vest over a period of four years from the date of grant for Grants 1 to 5 and six years from the date of grant for Grant 6 onwards. Upon vesting, the employees can acquire one equity share for every option.

The stock compensation cost is computed under the intrinsic value method and amortized on a straight line basis over the total vesting period of four years & six years accordingly. For the year ended March 31, 2016, the company has recorded stock compensation expense of ₹ (-) 134.34 Lakhs (net) (Previous year ₹ 9.12 Lakhs net). During the year, the Company has reversed the deferred employee compensation expenses amounting ₹ 519.07 Lakhs (Previous Year '402.71 Lakhs) towards 16,51,000 options (Previous year : 55,42,900 options) lapsed out of various Grants.

as on March 31, 2016

The Remuneration & Compensation committee of the Board evaluates the performance and other criteria of employees and approves the grant of options. These options vest with employees over a specified period subject to fulfillment of certain conditions. Upon vesting, employees are eligible to apply and secure allotment of Company's shares at a price determined on the date of grant of options.

The activity in the ESOP Scheme during the year ended March 2016 is set out as below:

Particulars	As at March 31, 2016	As at March 31, 2015
The ESOP Scheme		
Options outstanding, beginning of the period	34,46,260	79,20,060
Add : Granted	9,67,200	10,69,100
Less: Exercised	7,13,930	-
Less: Lapsed	16,51,000	55,42,900
Options outstanding, end of the period	20,48,530	34,46,260

The options once granted to an eligible employee gets lapsed with the resignation / termination of the employment with the Company. However, the unvested / unexercised portion of the ESOP entitlement to that employee remain part of the respective grant out of which it was issued & they can be granted to any other eligible employee as decided by the Remuneration & Compensation Committee.

Note: The Remuneration & Compensation Committee has been authorised to make amendments in the ESOP Scheme - 2008 and ESOP Scheme - 2014, with regard to the number of shares for every option granted & the price to be revised, to give effect of stock split & bonus issue announced by way of postal ballot during the year.

Note 38 - Segment Reporting

The Company's activities predominantly revolve around providing the e-governance related activites of Mission Mode Projects covered under "National e-Governance Plan" (NeGP). Considering the nature of Company's business and operations, there is only one reportable segment (business and / or geographical) in accordance with the requirements of the Accounting Standard 17 – "Segment Reporting" notified in the Companies (Accounting Standards) Rules 2006. However, on the basis of delivery modes, the Company's business operations has been classified into two business segments, viz. e-Governance Projects and Vakrangee Kendra.

Revenue and identifiable operating expenses in relation to these segments are categorised based on items that are individually identifiable to those segments. Certain expenses such as depreciation, which form a significant component of total expenses, are not specifically allocable to specific segments as the underlying assets are used interchangeably to utilise the resources optimally. The management believes that it is not practical to provide segment disclosures relating to those costs and expenses, and accordingly these expenses are separately disclosed as 'unallocated' and adjusted against the total income of the Company. Fixed assets or liabilities contracted have not been identified to any of the segments as the fixed assets and services are used interchangeably between segments. Accordingly, no disclosure relating to total segment assets and liabilities are made.

Independent Auditor's Report

To the Members of Vakrangee Limited,

Report on the Consolidated Financial Statements

1. We have audited the accompanying Consolidated financial statements of Vakrangee Limited, the parent (hereinafter referred to as 'the Holding Company') and its wholly owned subsidiaries (collectively referred to as 'the 'Group'), which comprising of the Consolidated Balance Sheet as at March 31, 2016, the Consolidated Statement of Profit and Loss, the Consolidated Cash Flow Statement for the year then ended, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements"), which we have signed under reference to this report.

Management's Responsibility for the Consolidated Financial Statements

The Holding Company's Board of Directors are responsible for the preparation of these consolidated financial statements in terms of the requirements of the Companies Act, 2013 (hereinafter referred to as "the Act") that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 and Accounting Standard 30, Financial Instruments: Recognition and Measurement issued by the Institute of Chartered Accountants of India to the extent it does not contradict any other accounting standard referred to in Section 133 of the Act read with Rule 7 of Companies (Accounts) Rules, 2014. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

Auditors' Responsibility

 Our responsibility is to express an opinion on these consolidated financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing

- standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.
- We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.
- An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on whether the Holding Company has an adequate internal financial controls system over financial reporting and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Board of Directors, as well as evaluating the overall presentation of the consolidated financial statements.
- We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Opinion

7. In our opinion and to the best of our information and according to the explanations given to us, the accompanying consolidated financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2016, and their consolidated profit and their consolidated cash flows for the year ended on that date.

Other Matters

8. We did not audit the financial statements / financial information of one subsidiary, whose financial statements reflect total assets of ₹ 6,702.03 lakhs as at March 31, 2016, total revenues of ₹ Nil and net cash flows amounting to ₹ Nil for the year ended on that date, as considered in the consolidated financial statements. These financial statements / financial information are unaudited and have

Independent Auditor's Report

been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of this subsidiary, and our report in terms of sub-sections (3) and (11) of Section 143 of the Act in so far as it relates to the aforesaid subsidiary, is based solely on such unaudited financial statements / financial information. In our opinion and according to the information and explanations given to us by the Management, this financial statements / financial information are not material to the Group.

 Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the financial statements / financial information certified by the Management.

Report on Other Legal and Regulatory Requirements

- As required by Section 143(3) of the Act, we report to the extent applicable, that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements:
 - (b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books;
 - (c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss, and the Consolidated Cash Flow Statement dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements;
 - (d) In our opinion, the accompanying consolidated financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 and Accounting Standard 30, Financial Instruments: Recognition and Measurement issued by the Institute of Chartered Accountants of India to the extent it does not contradict any other accounting standard referred to in Section 133 of the Act read with Rule 7 of Companies (Accounts) Rules, 2014;
 - (e) On the basis of the written representations received from the directors of the Holding Company as on March 31, 2016 taken on record by the Board of Directors of the Holding Company and its subsidiary company incorporated in India, none of the directors

- of the Group companies incorporated in India is disqualified as on March 31, 2016 from being appointed as a director in terms of Section 164(2) of the Act;
- (f) With respect to adequacy of the internal financial controls over financial reporting of the Group and the operating effectiveness of such controls, refer to our separate Report in Annexure A
- (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
- The consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group – Refer Note 29 to the consolidated financial statements;

Annexure A to Independent Auditors' Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Act

 In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended March 31, 2016, we have audited the internal financial controls over financial reporting of Vakrangee Limited (hereinafter referred as "the Holding Company") and its subsidiary companies, which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding company, its subsidiary companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation, and maintenance of adequate internal financial controls which were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Group's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India (ICAI) and the Standards on Auditing deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with the ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

- 4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial control system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included operating and understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exist, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risk of material misstatement of the financial statement, whether due to fraud or error.
- 5. We believe that the audit evidence we have obtained and the representation received from the management for the entities un-audited referred to in the Other matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

- 6. A company's internal financial controls over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with the Generally Accepted Accounting Principles. A company's internal financial controls over financial reporting includes those policies and procedures that:
 - pertain to the maintenance of records that, in reasonable details, accurate and fairly reflect the transaction and dispositions of the assets of the company;
 - ii. provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with the generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and

Annexure A to Independent Auditors' Report

iii. provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or dispositions of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future period are subject to the risk that the internal financial controls over financial reporting may become inadequate because of the changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the holding company, its subsidiary companies, which are companies incorporated in India, have, in all material respect, and adequate internal financial control system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential

components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India as it appears from our examination of the books and records of the Holding Company and the representation received from the management for the entities unaudited.

Other Matters

9. Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of internal financial controls over financial reporting, insofar as it relates to the un-audited one subsidiary company is based on the representation received from the management (also refer para 8 of the Independent Auditor's Report above). Our opinion is not qualified in respect of this matter.

(1) General Information

Vakrangee Limited ("the Company") is a public company domiciled in India and incorporated in May 1990 under the provisions of the Companies Act, 1956. Its shares are listed on Bombay Stock Exchange and National Stock Exchange in India.

Vakrangee Limited along with its subsidiaries, Vakrangee e-Solutions Inc. (Philippines), Vakrangee Finserve Ltd. provides diverse solutions, activities in e-governance sector with special competencies in handling massive, multi-state, and e-governance enrollment projects and software and IT solutions, Data Digitization, etc.

(2) Significant Accounting Policies

A. Basis of Consolidation:

- a. The consolidated financial statements relate to Vakrangee Limited ("the Company") and its subsidiary companies. The consolidated financial statements have been prepared on the following basis:
- i. The Consolidated financial results comprise of the results of Vakrangee Limited (hereinafter referred to as "the Company" and its subsidiaries, Vakrangee e-Solutions Inc., Philippines and Vakrangee Finserve Limited which are consolidated in accordance with Accounting Standard 21 on "Consolidated Financial Statements" issued by the Institute of Chartered Accountants of India (ICAI).
- ii. Investment in Associate Company has been accounted under the equity method as per Accounting Standard (AS) 23 "Accounting for Investments in Associates in Consolidated Financial Statements", whereby the investment is initially recorded at cost, identifying any goodwill/capital reserve arising at the time of acquisition. The carrying amount of the investment is adjusted thereafter for the post acquisition change in the Company's share of net assets of the Associate Company.
- iii. In case of foreign subsidiaries, being Non-Integral Foreign Operations, revenue items are consolidated at the average rate prevailing during the year. All asset and liabilities are converted at the rate prevailing at the end of the year. Any exchange difference arising on consolidation is recognized in the Foreign Currency Translation Reserve. In case of Integral Foreign Operations, the foreign currency transactions are accounted at the exchange rates prevailing on the date of the transaction or at an average rate that approximates the actual rate at the date of the transaction. Monetary items denominated in foreign currency are translated into the reporting currency at the exchange rates in effect at the balance sheet date and non-monetary items are translated at rates of exchange in effect when the assets were acquired or obligations incurred. The resultant exchange gain / loss have been included in Statement of Profit and Loss.
- iv. The Financial statements of the Company and its subsidiaries have been combined on a line-by-line basis by adding together the balances of like items of assets, liabilities, income and expenditure after fully eliminating the intra-group transactions resulting in the unrealized profit or loss.
- v. The consolidated financial statements have been prepared using uniform accounting policies for like transactions and other events in similar circumstances and are presented to the extent possible, in the same manner as the Company's separate financial statements.
- vi. The excess of cost to the company of its investments in the subsidiaries over its portion of equity of subsidiaries at the dates they become subsidiaries is recognized in the financial statements as Goodwill. When the cost to the parent of its investment in subsidiaries is less than the parent's portion of equity, the difference is recognized in the financial statements as Capital reserve.

as on March 31, 2016

b. The Subsidiary companies considered in the consolidated financial statements are:

Sr.	Name of the Company	Country of Incorporation	% voting power held as at
No.			March 31, 2016
1	Vakrangee Finserve Limited	India	100%
2	Vakrangee E-Solutions INC	Philippines	100%

B. Basis of Accounting

These consolidated financial statements have been prepared to comply with the Accounting Standards referred to in the Companies (Accounting Standards) Rules, 2006 notified by the Central Government in exercise of the power conferred under sub-section (1) (a) of section 642 and the relevant provisions of the Companies Act, 1956 read with the Rule 7 of Companies (Accounts) Rules, 2014 in respect of section 133 of the Companies Act, 2013 (the "Act") and Accounting Standard—30 'Financial Instruments: Recognition and Measurement' issued by the Institute of Chartered Accountants of India to the extent it does not contradict any other accounting standard referred to in section 133 of the Act. The financial statements have been prepared on a going concern basis under the historical cost convention on accrual basis. The accounting policies have been consistently applied by the Company unless otherwise stated.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of products and services and the time between the acquisition of assets for processing and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current – non current classification of assets and liabilities.

C. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires estimates and assumptions to be made that affect the reported amount of assets and liabilities on the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Differences between actual results and estimates are recognized in the period in which the results are known / materialised.

D. Recognition of Income & Expenditure

Revenue is recognized when it is earned and no significant uncertainty exists as to its realisation or collection. The Company recognizes revenue when the significant terms of the arrangement are enforceable, services have been delivered and the collectability is reasonably assured. The method of recognizing the revenues and costs depends on the nature of the services rendered.

The Company follow the accrual basis of accounting except in the following cases, where the same are recorded on cash basis on ascertainment of right and obligation:

- i. Insurance Claim, if any
- ii. Dividend Income

E. Fixed Assets and Intangible Assets

Fixed assets are stated at cost, less accumulated depreciation and impairment losses, if any. Cost includes all expenditure necessary to bring the asset to its working condition for its intended use. Own manufactured assets are capitalized inclusive of all direct costs and attributable overheads. Capital work-in-progress comprises of advances paid to acquire fixed assets and the cost of fixed assets that are not yet ready for their intended use as at the balance sheet date. In the case of new undertaking, preoperative expenses are capitalized upto the commencement of commercial production.

as on March 31, 2016

Intangible assets are recorded at the consideration paid for their acquisition. Cost of an internally generated asset comprises all expenditure that can be directly attributed, or allocated on a reasonable and consistent basis, to creating, producing and making the asset ready for its intended use.

The carrying amounts of the assets belonging to each cash generating unit (CGU) are reviewed at each balance sheet date to assess whether they are recorded in excess of their recoverable amounts and where carrying amounts exceed the recoverable amount of the assets CGU, assets are written down to their recoverable amount. Further, assets held for disposal are stated at the lower of the net book value or the estimated net realizable value.

F. Impairment of Fixed Assets

At the end of each year, the Company determines whether a provision should be made for impairment loss on fixed assets by considering the indication that an impairment loss may have occurred in accordance with Accounting Standard 28 on "Impairment of Assets". Where the recoverable amount of any fixed assets is lower than its carrying amount, a provision for impairment loss on fixed assets is made.

G. Depreciation / Amortisation

With the applicability of Companies Act, 2013 with effect from April 1, 2014, depreciation / amortisation is provided on the Straight Line Method (SLM) unless otherwise mentioned, pro-rata to the period of use of assets and is based on management's estimate of useful lives of the fixed assets or the useful lives as specified in Part C of Schedule II to the Companies Act, 2013, and accordingly the deprecation rates have been taken as follows:

Description of Asset	Rate of Depreciation
Building	1.67%
Computers including Computer Peripherals & Software	33.33%
Office Equipments	20.00%
Furniture & Fixture	10.00%
Motor Car	12.50%
Plant & Machinery	6.67%
Project Assets*	25.00% – 33.33%
Leased Project Assets*	33.33%

^{*}The useful lives of these assets have been taken as per estimation of the management since their purchase and has been amortised accordingly, which resulted into acceleration of the depreciation at higher rate as compared to the depreciation rate given under the Schedule XIV of the Companies Act, 1956 (i.e. before the applicability of the Companies Act, 2013) and has continued with the earlier useful lives in the current year.

As per the provisions of Note 7 of Para C of Schedule II of the Companies Act, 2013, the carrying amount of the existing assets as on April 1, 2014:

- will be depreciated over the remaining useful life of the asset as per this Schedule
- in cases where the remaining useful life of an asset is nil, the residual value has been transferred to the retained earnings.

Depreciation on assets acquired/sold during the year is provided on pro rata basis.

H. Investments

Investments that are intended to be held for more than a year, from the date of acquisition, are classified as long term investment and are carried at cost less any provision for permanent diminution in value. Investments other than long term investments being current investments are valued at cost or fair value whichever is lower.

as on March 31, 2016

I. Valuation of inventories

Inventories are valued at lower of cost or net realizable value.

J. Lease

Lease arrangements where the risks and rewards incident to ownership of an asset substantially vest with the lessor, are recognized as Operating leases. The lease agreements contain rent escalation clause. Lease rental expenses including escalations for operating leases are recognized in the Profit and Loss Account on a Straight-Line basis over the minimum lease term.

Assets leased by the Company in its capacity as lessee, where the company has substantially all the risks and rewards of ownership are classified as finance lease. Such leases are capitalized at the inception of the lease at lower of the fair value or the present value of the minimum lease payments and a liability is recognized fr an equivalent amount. Each lease rental paid is allocated between the liability and the interest cost so as to obtain a constant periodic rate of interest on the outstanding liability for each year.

K. Miscellaneous Expenditure

Preliminary expenditures are amortised in the year in which incurred.

L. Foreign Currency Transactions

- i. The transactions in foreign currencies are stated at the rate of exchange prevailing on the date of transactions.
- ii. The difference on account of fluctuations in the rate of exchange prevailing on the date of transaction and the date of realization is charged to the Profit and Loss Account.
- iii. Differences on transactions of Current Assets and Current Liabilities remaining unsettled at the year-end are recognized in the Profit and Loss Account.

M. Treatment of Contingent Liabilities

Contingent liabilities are disclosed by way of notes to accounts. Disputed demands in respect of income tax and other proceeding are disclosed as contingent liabilities. Payments in respect of such demands, if any are shown as advances.

N. Accounting for Taxation of Income

Current taxes

Income Tax is accrued in the same period the related revenue and expenses arise. A provision is made for income tax annually based on the tax liability computed after considering tax allowances and exemptions. Provisions are recorded when it is estimated that a liability due to disallowance or other matters is probable. MAT paid in accordance with the tax laws, which gives rise to future economic benefits in the form of tax credit against future tax liability, is recognised as an asset in the Balance sheet if there is convincing evidence that the group will pay normal tax after the tax holiday period and the resultant assets can be measured reliably. The Company offsets, on a year to year basis, the current tax assets and liabilities, where it is its legally enforceable right and where it intends to settle such assets and liabilities on a net basis.

Deferred taxes

Deferred tax assets and liabilities are recognized for the future tax consequences attributable to timing differences that result between the profits offered for income taxes and the profits as per the financial statements. Deferred tax assets and liabilities are measured using the tax rates and the tax laws that have been enacted or substantially enacted at the balance sheet date. The effect of a change in tax rates on deferred tax and assets or liabilities are recognized in the period that includes the enactment date. Deferred tax Assets are recognized only to the extent there is virtual certainty that the assets can be realized in the future. Deferred Tax Assets are reviewed as at each Balance Sheet date.

O. Retirement benefits of the Employee:

The Company has both defined contribution and defined benefit plans of which some have assets in special funds or similar securities. The Plans are financed by the Company and in case of some defined contribution plans, by the Company along with its employees.

Gratuity

In accordance with the Payment of Gratuity Act, 1972, the Company provides for a lump sum payment to eligible employees, at retirement or termination of employment based on the last drawn salary and years of employment with the company. The gratuity fund is managed by the Life Insurance Corporation of India (LIC). The Company's gratuity benefit scheme is a defined benefit plan. The company's obligation in respect of the gratuity plan is provided by for based on actuarial valuation carried out by an

as on March 31, 2016

independent actuary using the projected unit credit method. The Company recognizes actuarial gains and losses immediately in the profit and loss account.

Provident fund, State Insurance, Labour Welfare Fund, Professional Tax

These are the defined contribution plans in which the Company pays pre-defined amounts to separate funds. The Company's contributions to these funds are reported as an expense during the period in which the employees perform services that the payment covers.

Compensated Absences

The employees of the Company are entitled to compensate absence. The employees can carry forward a portion of the unutilized accrued compensated absence and utilize it in future periods or receive cash compensation at retirement or termination of employment for the unutilized accrued compensated absence. The company follows the cash basis of accounting for recording the obligation of leave encashment. In other words, the company records an obligation for compensated absences in the period in which it has been encashed by the employees.

Employee Stock Option Plan (ESOP)

In respect of Employee's Stock Option, the excess of market price on the date of grant over the exercise price is recognized as deferred employee compensation expense amortized over vesting period.

As per our report of even date attached.

Note

Note 30 - Segment Reporting

The Company's activities predominantly revolve around providing the e-governance related activites of Mission Mode Projects covered under "National e-Governance Plan" (NeGP). Considering the nature of Company's business and operations, there is only one reportable segment (business and / or geographical) in accordance with the requirements of the Accounting Standard 17 – "Segment Reporting" notified in the Companies (Accounting Standards) Rules 2006. However, on the basis of delivery modes, the Company's business operations has been classified into two business segments, viz. e-Governance Projects and Vakrangee Kendra.

Revenue and identifiable operating expenses in relation to these segments are categorised based on items that are individually identifiable to those segments. Certain expenses such as depreciation, which form a significant component of total expenses, are not specifically allocable to specific segments as the underlying assets are used interchangeably to utilise the resources optimally. The management believes that it is not practical to provide segment disclosures relating to those costs and expenses, and accordingly these expenses are separately disclosed as 'unallocated' and adjusted against the total income of the Company.

^{1.} The amount of liabilities, which may occur on levying of penalty and/or charges by clients for delays in execution of contracts within the time prescribed in the agreement, is unascertained.

as on March 31, 2016

Fixed assets or liabilities contracted have not been identified to any of the segments as the fixed assets and services are used interchangeably between segments. Accordingly, no disclosure relating to total segment assets and liabilities are made.
