READY. SET. GROW.

Unlocking the Next Era of Growth

As India's leading and most profitable glass packaging company, we strategically strengthened our market position through capacity debottlenecking, a diversified product portfolio, and enhanced operational execution. Each improvement and investment was aligned with a singular objective: ensuring the Company's sustained and future-ready growth.

Our resilience and success stem from a business model deeply rooted in precision, innovation, and customer-centric thinking.

Amidst evolving demand patterns and shifting market dynamics, we stayed ahead by deepening our engagement in high-value segments and optimising every link in our value chain. The result was stronger profitability, leadership in glass packaging, enhanced operational agility, and greater ability to serve markets that are becoming more diverse and demanding.

We are solidifying our position in container glass, expanding our portfolio into new, high-margin and emerging categories such as personal care and high-end liquor with confidence. A key milestone in this journey is the upcoming 500 TPD plant in Madhya Pradesh, set to be operational by the end of FY 2026-27, catering to the fast-growing Northern India market. These strategic steps are enabling us to unlock the next era of growth, and become the most preferred packaging partner for some of the world's leading brands.

We champion responsible growth – efficient, inclusive, and future-ready. From leveraging recycled materials to pioneering new product designs, we are embedding sustainability into everything we do.

With strong capabilities, clear priorities, and an agile culture driving us forward, we are ready to explore new possibilities, set new benchmarks, and expand with purpose.

Chairman and Managing Director's Message

A Year of Strategic Progress

Dear Shareholders,

The year under review was a defining one for us, marked by our strongest-ever financial performance. This milestone was the result of operational discipline, responsible innovation, improved efficiency, and strategic investment, reinforcing our leadership as India's most profitable glass packaging products company.

Building on a Strong Foundation

FY 2024-25 was marked by cautious consumer spends, leading to overall sluggishness in consumption. Despite these headwinds, we maintained resilience by focusing on cost efficiency, operational discipline, and staying closely aligned with our customers' needs. This approach enabled us to identify and capture growth opportunities effectively. The result is a 6.5% Y-o-Y growth in total income, reaching ₹ 2,604 crore during the year under review. EBITDA surged 17% to ₹ 689 crore, with margins expanding by a robust 290 bps to an all-time high of 27.2%, marking our best-ever performance. Profit After Tax (PAT) also rose by 28% to ₹ 322 crore, strengthening strong financial momentum.

Backed by this strong performance, the Board approved a dividend of ₹ 7 per equity share, reaffirming our commitment to consistent shareholder returns.

Operational Excellence

During the year under review, we demonstrated strong operational excellence, strategic foresight, and product innovation to support our long-term growth. With container plants operating at over 95% capacity utilisation, we successfully executed our product portfolio expansion strategy, allowing us to cater to

evolving customer needs with greater speed and scale.

We undertook targeted debottlenecking across manufacturing facilities, augmenting capacities to meet rising customer demand and capitalise on India's growing consumption and packaging product needs.

Through continued innovation, we introduced lightweight designs that optimised raw material usage, improved freight efficiency, and reduced our carbon footprint enhancing both sustainability and customer value.

We also achieved balanced growth across our container and specialty glass segments, reflecting broad-based demand from FMCG, F&B, pharmaceuticals, and continued brand-led growth in premium beverages and personal care categories.

Trusted by Customers

Our strong customer relationships, built on trust, consistent product quality, and responsiveness to customer needs, continued to drive preference across domestic and international markets. With a customer-centric approach, we stayed attuned to evolving trends across our product segments, sustaining our competitive edge through tailored solutions.

In the container glass segment, we deepened our presence across the alcoholic and non-alcoholic beverage, FMCG, and pharmaceutical sectors in the domestic market, while expanding our export footprint. At the same time, we gained strong traction in premium segments such as cosmetics, perfumery, premium alcohol, and security closures, where design precision,

aesthetics, and sustainability plays a defining role.

Innovation remained central to our differentiation strategy. In FY 2024-25, our teams developed 422 new product designs, of which over 30% were successfully commercialised, underscoring our focus on design-led, market-ready innovations. These high-clarity, and customised solutions, developed for varied end-use categories, further strengthened our leadership in value-added glass packaging.

We are in the process of developing India's first domestically produced T-corks and stoppers in natural, synthetic, and micro-agglomerated variants. This strategic diversification is aimed at strengthening our position as an integrated packaging partner to our customers.

Sustainability and Shared Growth

We are committed to shaping a sustainable, future-ready organisation through setting clear ESG goals – targeting Net Zero emissions by 2050 and a significant reduction in our carbon footprint by 2030. Our environmental actions focus on decarbonisation, water stewardship, waste reduction, and advancing circularity.

During the year, we expanded our solar energy capacity to 19.56 MW, continuing our shift towards cleaner energy sources. We also strengthened Zero Liquid Discharge (ZLD) mechanisms across our manufacturing plants to ensure efficient water recovery and reuse.

A key area of progress has been our increased focus on cullet utilisation – recycling broken or waste glass into high-quality, reusable material. We currently recycle over 2 lakh tonnes of cullet annually and are targeting 50% cullet (internal+external) utilisation by 2027, a crucial step towards a circular economy. Furthering our sustainability commitments.

Environmental responsibility is embedded throughout our value chain and is supported by strong governance and adherence to recognised sustainability standards. During the year, our Bhongir plant earned the IGBC Platinum rating, and our R&D and lab facilities achieved NABL and ISO certifications.

Beyond environmental efforts, we continue to create long-term social impact through targeted interventions in education, healthcare, and skill development, improving the quality of life and fostering inclusive growth in the communities we serve. Our recently set up Bhongir Community Service Centre, a pioneering three-floor facility dedicated to holistic community development, is strategically located to serve the needs of Bhongir and its surrounding areas.

Our people power our progress. We foster a culture of ownership, innovation, and growth—where collaboration thrives. Through targeted development initiatives and smart technology adoption, we nurture talent, inspire leadership, and build a future-ready, motivated workforce committed to collective success.

Digital Transformation

Digital transformation remained a key enabler of efficiency and agility across our operations. Advanced planning systems and real-time dashboards enhanced supply chain visibility, improved forecasting accuracy, and enabled faster, data-driven decisions. At the plant level, the use of predictive analytics in production planning, material management, and digital maintenance tools streamlined operations, driving consistency and operational excellence.

We also extended digitisation to key touchpoints for our people and partners. From recruitment to performance management, the entire employee lifecycle is now

integrated on SAP, supporting greater transparency and productivity across HR processes.

Investing in the Future

As part of our long-term growth strategy, we announced a ₹ 700 crore investment in a state-of-the-art greenfield manufacturing facility in Madhya Pradesh. With a planned capacity of 500 TPD, this state-of-the-art plant will expand our total production capacity by around 25%. This expansion will enable us to meet future demand with greater speed and scale. It also aligns with India's broader growth trajectory, strengthens customer proximity, and reinforces our readiness to serve rising consumption needs.

Alongside domestic expansion, we also established a new subsidiary, Sun Reach Pack (FZE), in the United Arab Emirates to enhance international engagement and drive exports.

Together, these developments reflect our readiness to tap into emerging demand, both at home and abroad, with greater agility and scale.

Looking Ahead

We enter FY 2025-26 on the strength of meaningful progress and a sharp focus on growth. We aim to maintain our profitability trajectory by staying ahead of the curve through product leadership, cost competitiveness, and operational efficiency, creating long-term, sustainable value for all stakeholders.

I thank our shareholders for their continued trust, our bankers for their confidence, our employees for their commitment, our customers for their support, and our suppliers for their collaboration.

Regards,

Sandip Somany

About Us

A Legacy of Innovation and Expansion

Our journey in glass manufacturing began in 1981 with the acquisition of Associated Glass Industries Limited (AGI). Since then, we have grown into a leading provider of sustainable packaging solutions.

As market demands shifted, we strategically diversified our portfolio by entering the PET segment through the acquisition of Garden Polymers Private Limited (GPPL). In 2018, we commissioned a state-of-the-art facility under the AGI Clozures brand to manufacture counterfeit resistant security caps and closures.

Our comprehensive range of packaging products includes glass containers, specialty glass, PET bottles, and counterfeit resistant security caps and closures. Our growth has been anchored in a deep commitment to quality, innovation, and customer-centricity, while sustainability remains a core driver of our strategy. From leveraging glass as an infinitely recyclable material to advancing circular economy practices, we are actively working to reduce our environmental footprint.

AGI Glaspac

As India's most profitable glass packaging company, we are a market leader in B2B packaging, offering tailored and high-quality solutions across a wide range of industries, including alcohol, food and beverage, pharmaceuticals, FMCG, cosmetics, and perfumery. With three advanced manufacturing plants at Sanathnagar and Bhongir, we operate with a combined capacity of 2,000+ TPD, producing both container and specialty glass. All the plants reflect our deep commitment to design-led innovation, precision manufacturing and sustainability.

Building on this strong foundation, our IGBC Platinum-rated specialty glass plant in Bhongir, operational since 2023, focuses on producing premium packaging for high-value segments such as cosmetics, perfumery, spirits and candles.

To capitalise on the growing demand for glass products, we forayed into the B2C segment with brands such as Sand Dunes and GreenDrop, catering to diverse sectors such as hospitality, retail, e-commerce and general trade. With a strong emphasis on sustainability and distinctive packaging, we aim to expand the product range and strengthen our presence in this space over the next few years.

This diversification into B2C complements our established B2B business, allowing us to serve a broader customer base. Central to this capability is our state-of-the-art R&D centre and dedicated decoration unit, which work in close synergy to deliver differentiated packaging solutions aligned with fast-changing customer preferences and market trends.

To support these innovation efforts, we have made significant strides in modernising our manufacturing processes. Through the integration of automated production systems, we have enhanced consistency and

efficiency across our production. Our efforts in precision moulding enable the creation of complex, high-quality designs that meet the bespoke needs of our clients. On the quality front, we conduct rigorous durability and thermal shock testing to ensure that every product meets the highest standards of strength, compliance and safety.

Driving innovation forward, we collaborate with leading research institutions and industry partners. These partnerships allow us to co-develop advanced solutions and bring them to market faster. At the same time, we remain focused on

protecting the intellectual property behind our technologies, designs and processes to maintain a strong competitive edge.

With a deep commitment to flawless execution and customer-centricity, we continue to set benchmarks in the glass packaging industry. From concept to final production, every product we deliver is crafted to elevate brand visibility and drive value across all segments.

About Us

AGI Clozures

We believe protecting a brand is as critical as building it, and safeguarding consumers from counterfeit products is at the heart of that promise. In 2018, we launched the manufacturing of security caps and closures at our state-of-the-art, IGBC Platinum-rated plant in Telangana.

Designed with advanced holographic elements, tamper-evident seals, and unique identifiers, our multi-layered solutions ensure product authenticity and traceability across the supply chain. We also have the capability to integrate RFID/NFC tags, offering future-ready options for enhanced tracking and security. Building on these advancements in product integrity and security,

we enhanced our focus on product innovation, designing and testing new cap and sealing mechanisms that improve product preservation, user convenience, and performance on high-speed bottling lines. With agile development and rigorous quality control, we continue to deliver secure, efficient and visually distinct packaging solutions.

Today, as a leading provider of security closures to the alcoholic beverage industry, we harness cutting-edge technology and deep expertise to deliver innovative and secure packaging. By expanding into other user industries such as premium spirits, pharmaceuticals and cosmetics, we continue to optimise resources and accelerate growth within our business.

Digitalising Operations

Driving Efficiency, Quality and Growth

Digital transformation continues to be a core strategic lever driving our operational excellence, sustainability and innovation. During FY 2024-25, we made significant strides across the organisation by integrating advanced technologies and data-driven solutions that reshape how we manufacture, monitor, and deliver packaging products. Every initiative aligns with our long-term vision of building a secure, sustainable and scalable packaging ecosystem.

Our Digital Initiatives

Smart Manufacturing, Shop Floor Automation and AI-driven Operations

- » ML-enabled Python-based production planning tool now drives optimised scheduling, capacity, and material flow, eliminating legacy excel-based systems
- » AI/ML-enabled computer vision detects defects in bottles and artwork in real-time on the manufacturing line, ensuring higher quality control and production efficiency
- » IoT-enabled alerts and monitoring for injection moulding, and utilities and energy
- » Piece rate-based incentive automation for contract workers is now dynamically linked to mould type, operations and skillsets, enhancing productivity
- » Integrated BOM workflow management ensures traceability of every material change across design, costing, and procurement

Cyber Security

- » Centralised firewalls, AI/ML monitoring, patch management and endpoint protection have been deployed to strengthen the cyber security posture significantly
- » Remote Device Management (to protect/wipe the organisation's data) and ML-driven data loss prevention on mobile devices and endpoints, safeguarding sensitive information under a zero-trust model

Data-led Supply Chain and Real-time Business Intelligence

- » Material Requirement Planning (MRP) automation was piloted in FY 2024-25 and will drive AI-led procurement planning from FY 2025-26
- » Transport Management System for end-to-end shipment tracking (truck indent to freight pay)
- » Warehouse Management System for better FG tracking and inventory optimisation

- » Power BI dashboards integrated with Azure Synapse enable leadership to conduct paperless business reviews with real-time KPIs and analytics

Digital-first Vendor and Employee Interfaces

- » ASN/Invoice submissions and approvals are now entirely online, improving speed and transparency
- » Digitalised the entire employee lifecycle and integrated on SAP through end-to-end HR workflows, enabling seamless processes, improved efficiency, and a better employee experience
- » VR-based onboarding is being piloted to accelerate employee readiness and shopfloor integration

MANAGEMENT DISCUSSION AND ANALYSIS

Economic Review

Global Economy Overview

The global economy remained resilient in 2024 despite geopolitical disruptions. Global output grew by 3.3%, maintaining a steady pace that remained above recession thresholds, though still below pre-pandemic levels. Inflation showed signs of cooling, driven by sustained interest rate hikes and labour markets eased slightly, supporting stability. Real household incomes improved with nominal wage growth and falling inflation, even as weak consumer confidence dampened spending.

Global merchandise trade increased by 2.9% in 2024, outpacing GDP for the first time since 2017. Growth was uneven—the USA remained strong, the Eurozone struggled, India surged, and China slowed. Geopolitical tensions, including the Ukraine war and ongoing conflicts in the Middle East, disrupted trade routes and energy flows. Beginning in January 2025, tariff announcements added complexity to the global trade landscape.

Despite the trade rebound, disruption risks remained high amid resurfacing protectionist pressures. With inflation easing, central banks began shifting course, eyeing or initiating rate cuts to stabilise global conditions and sustain growth.

Outlook

Looking to late 2025 and 2026, trade policy is set to become a key driver of global economic trajectories. The WTO projects a 0.2% decline in global trade for 2025, reflecting rising trade barriers, policy uncertainties, and ongoing geopolitical tensions. Furthermore, the conflict between Israel and Gaza, alongside broader Middle East instability, adds further strain on global trade dynamics and energy markets. These trends could potentially raise stagflation risks, though countermeasures like tax cuts and deregulation could support investment and business confidence. Governments will need to balance industrial policy goals with strategic trade alignment to protect global competitiveness.

USA tariffs and regional slowdowns, particularly in

North America and Asia, are expected to weigh on forecasts. However, some developing economies may benefit from trade diversion as supply chains shift. Economic connector nations with strategic geography and trade agreements are likely to play a pivotal role in realigning trade flows.

Inflation is expected to moderate but remains exposed to recurring shocks from supply chains, geopolitics and commodity prices. Central banks are set to recalibrate policy but will proceed cautiously, given inflation risks tied to trade, wages, energy, and food. Global monetary policy will remain fragmented, with each central bank responding to local and global dynamics. Changes in USA tariffs are also expected to reshape global trade and trigger a reassessment of economic forecasts.

Indian Economy Overview

India has emerged as the fastest-growing major economy over the past decade, doubling its GDP from US\$2.1 trillion in 2015 to US\$4.3 trillion in 2025, outpacing all other major economies and solidifying its position as a global economic force.

The country's growth has been driven by structural reforms, rapid digitalisation, and a favourable demographic profile. Strategic investments in digital infrastructure, financial inclusion, and manufacturing have boosted productivity, while the services sector remains a key growth engine. Public infrastructure spending and a push for self reliance in critical sectors have further accelerated momentum.

India has overtaken Japan (US\$4.4 trillion GDP) and became the world's fourth-largest economy, reflecting strong macroeconomic fundamentals, prudent policies, a stable banking sector, and fiscal consolidation. Inflation has largely stayed within the RBI's target band and non-performing assets are at multi-year lows.

Despite global headwinds, India continues to demonstrate resilience, recording GDP growth of 6.5% in FY 2024-25. The domestic economy remained stable, supported by structural strength and sustained reforms.

Outlook

India's economic outlook remains strong, with projections indicating it could add US\$1 trillion to its GDP every 1.5 years, on track to become a US\$ 10 trillion economy by 2032. This growth is driven by consumption, investment, expanding trade ties and rising FDI inflows.

Manufacturing and infrastructure are gaining momentum through initiatives such as 'Make in India' and the 'National Infrastructure Pipeline', while the digital economy, powered by fin-tech and start-ups, is boosting productivity and inclusion. Improved ease of doing business and assertive economic diplomacy are

attracting foreign capital and integrating India into global value chains.

However, headwinds persist. Geopolitical tensions and oil price volatility could impact trade and fiscal stability, while domestic challenges include inflation, rural recovery and climate-related disruptions.

To sustain momentum, India must deepen structural reforms, enhancing governance, simplifying regulations, enabling labour flexibility and expanding global integration.

With continued policy discipline, India is well-positioned to become an advanced economy by 2047.

Packaging Industry Review

The global packaging market is poised for strong growth, with projections indicating a rise from US\$ 1.14 trillion in 2024 to US\$ 1.38 trillion by 2029 at a CAGR of 3.89%, driven by surging demand in Asia's (particularly in India and China) large food, and alcoholic and non-alcoholic beverage sectors. Additionally, the global shift towards paper and paperboard packaging is also gaining momentum.

India's packaging industry is poised to nearly double, rising from USD 84.37 billion in 2024 to USD 142.56 billion by 2029, driven by a strong CAGR of 11.06%. This growth is fuelled by rising demand from processed food, personal care, pharmaceutical, alcoholic and non-alcoholic beverage sectors, underpinned by increasing incomes, urbanisation, and evolving consumer lifestyles.

Sustainability is reshaping the industry. There is a growing shift to eco-friendly materials, as brands respond to consumer and regulatory demand greener alternatives. Meanwhile, advances in materials, coatings, and printing are enhancing packaging performance and shelf appeal, making packaging a key brand differentiator.

Glass Packaging Products

Industry Overview

The global glass packaging market is valued at US\$ 67.28 billion in 2024 and is projected to reach US\$ 93.69 billion by 2032, growing at a CAGR of 4.23%.

The Indian glass packaging market is expanding steadily and is valued at US\$ 6.76 billion in 2025 and is projected to reach US\$8.35 billion by 2030, growing

at a CAGR of 4.31%. Its rise reflects increasing industry and consumer confidence in glass as a reliable, sustainable and high-performance packaging solution.

Growth Drivers and Trends

Increased Demand from Growing Consumer Base

A rising population and a growing middle class are driving increased demand for packaged goods, particularly in the beverage, food, pharmaceutical, and personal care sectors, where glass packaging is preferred for its safety, sustainability and premium appeal.

Rising Income and Increasing Spending Power

Increasing incomes and disposable spending are fuelling demand for premium and branded products, especially in urban areas, where consumers are increasingly health-conscious and aspire to higher-quality packaging like glass.

Increasing Investments in End-use Industries

Significant capital investments in key sectors such as alcoholic, non-alcoholic beverages and pharmaceuticals are leading to greater demand for high-quality glass containers to meet production and quality standards.

Strong Alignment with Sustainability Goals

Growing environmental awareness and the global push to reduce single-use plastics are driving demand for recyclable and non-toxic materials like glass. This resonates with both businesses and consumers seeking eco-friendly packaging solutions.

Enhanced Brand Image and Premium Appeal

Glass packaging offers a premium look and feel, enhancing the perceived value of products, particularly in sectors like cosmetics, personal care, and high-end beverages. Its aesthetic qualities contribute to shelf differentiation.

Superior Product Preservation

Glass provides excellent barrier properties, protecting the contents from oxygen, moisture, and other contaminants. This is crucial for maintaining the quality, flavour, and shelf life of food, beverages and pharmaceuticals.

Inert and Safe Material

Glass is chemically inert, meaning it does not react with the product it contains. This makes it a safe and reliable packaging choice, especially important for sensitive products like pharmaceuticals and baby food.

Growing Preference for Recyclable Materials

As circular economy principles gain traction, the infinite recyclability of glass makes it an attractive option for businesses looking to reduce their environmental footprint and appeal to environmentally conscious consumers.

Stringent Regulatory Requirements

Certain industries, particularly pharmaceuticals, have strict regulations regarding packaging materials. Glass meets these stringent requirements due to its inertness and protective properties.

Versatility in Design and Functionality

Advancements in glass manufacturing allow for a wide range of shapes, sizes, and colours, thereby offering brands flexibility in creating unique and functional packaging that meets specific product needs and consumer preferences.

Consumer Perception of Quality and Taste

Many consumers associate glass packaging with higher quality and better taste, particularly for beverages. This perception can influence purchasing decisions and brand loyalty.

Security Caps and Closures

Industry Overview

The global plastic caps and closures market is estimated to reach US\$ 85 billion by 2026, at a CAGR of 5.5% from 2021 to 2026.

The Indian plastic caps and closures market is projected to grow from US\$ 1.8 billion in 2023 to US\$ 2.9 billion by 2032, at a CAGR of 5.12%.

Growth Drivers and Trends

Increasing Demand for Tamper-evident Packaging

Across sectors like food, beverages, healthcare, and especially premium alcoholic products and pharmaceuticals, there is a significant and growing need for closures that clearly indicate tampering and ensure product authenticity.

Growth in E-commerce and Supply Chain Security

The rise of online sales channels necessitates robust security measures to ensure product integrity throughout the often-complex e-commerce supply chain, boosting the demand for secure closures that aid in tracking and authentication.

Rising Concerns about Counterfeit Products

The increasing prevalence of counterfeit goods across various industries is a key driver in the adoption of security closures to protect brand integrity and consumer safety.

Premiumisation and Aesthetics

For high-end products, there is a demand for premium closure designs with features such as embossing and metallic finishes to create a unique visual and tactile experience.

Consumer Awareness and Demand for Authenticity

Consumers are becoming more aware of the risks of counterfeit products and are increasingly demanding assurances of product authenticity, influencing brand choices and packaging requirements.

Rising Alcoholic and Non-alcoholic Beverage Demand

Rising disposable incomes and urbanisation in Asia-Pacific, Africa and Latin America are driving increased demand for bottled beverages, thereby driving greater demand for plastic caps and closures.

PET Bottles and Products Industry

Industry Overview

The global PET packaging market is growing and is projected to reach US\$ 54.3 billion by 2028.

The Indian PET packaging market is projected to grow at a CAGR of 4.3% to reach US\$ 3.5 billion by 2032, with Asia-Pacific being the fastest-growing market, supported by rising consumption in countries like China and India.

Growth Drivers and Trends

Growing Emphasis on Recycled PET (rPET) and Sustainability

Increasing environmental concerns and the drive towards a circular economy are fuelling the demand as well as innovation in rPET.

Rising Demand across Key End-use Sectors

The fundamental increase in consumption within the food and beverage, personal care and pharmaceutical industries is a primary driver.

Cost-effectiveness and Lightweight Properties

PET's economic advantages and ease of handling due to its light weight make it an attractive option for manufacturers and consumers.

User Market Review

Alcohol

The growth of Indian alcohol market is being propelled by rising disposable incomes, urbanisation, innovation in product formats like RTDs (ready-to-drink). In addition to it, shifting social norms are driving demand, along with a growing preference for premium and crafted alcohol beverages.

Beer

The Indian beer market is poised to grow due to evolving social acceptance of beer and taste preferences, rising urbanisation and an increased demand for premium, flavoured beer varieties that are expanding the market footprint.

Wine

Glass bottles are the traditional and still preferred packaging for most wines. The inert nature of glass helps to preserve the delicate flavours and prevent oxidation.

FMCG

India's FMCG packaging market is set for significant growth, fuelled by rising disposable incomes, urbanisation, shifting consumer preferences and an expanding middle class.

Cosmetic and Perfume

India's beauty, cosmetics, and personal care market is projected to grow driven by rising disposable incomes, premiumisation and increasing beauty consciousness.

Sauce and Condiment

Many sauces (like pasta sauce, ketchup, mayonnaise), jams, preserves, and pickles are packaged in glass jars and bottles. Glass offers good barrier properties to maintain freshness, prevent spoilage and easily sterilisable.

Baby Food

Glass jars are a common choice for baby food due to their inertness and the perception of safety and purity. Parents often appreciate being able to see the product clearly through the glass.

Dairy Products

Some premium dairy products like yogurts, desserts, and certain types of milk or cream are increasingly being packaged in glass for a more upscale feel and perceived quality.

Pharmaceutical

India's pharmaceutical market is driven by strong domestic and global demand, supported by factors such as generic drug production, biosimilar development, increased investments in medical devices and government support through 'Pharma Vision 2047' to boost innovation and R&D.

AGI Greenpac

We are a sustainable packaging products company that manufactures and markets various packaging products through our three businesses: AGI Glaspac, AGI Clozures, and AGI Plastek.

Our Competitive Advantages

Industry-leading Sustainability Standards

- » Operations integrate decarbonisation and circular economy principles, staying ahead of regulatory and market trends
- » Initiatives ensure environmental responsibility throughout the supply chain, promoting sustainable practices with our partners
- » Operations prioritise the optimisation of resource use, energy, water and waste, demonstrating our commitment to minimising environmental impact
- » Designs incorporate biodegradable, compostable, and PCR materials, aligned with EPR goals and rPET adoption

Customisation and Brand Enhancement Capabilities

- » Dedicated decoration unit enables customised, high-end packaging for perfumery, cosmetics, and premium liquor
- » Advanced digital printing enhances product authenticity and brand trust
- » Tailored glass designs with custom moulds and premium finishes like embossing help create distinctive brand identities
- » Collaborative design services bring brand visions to life through impactful packaging solutions
- » Advanced technologies support intricate detailing, personalisation and rapid prototyping

Agile and Digitally-driven Operations

- » Real-time data and flexible systems enable agile response to market dynamics and customer needs
- » AI/ML-driven production scheduling and supply chain management improve efficiency and responsiveness
- » Digitised supply chains provide full visibility and proactive risk mitigation
- » Responsive digital operations help scale innovations, such as new product launches or design iterations, faster and more efficiently across the value chain

Differentiated Packaging Portfolio

- » Our product portfolio spans a wide range of sizes, from compact 1.5 ml pharma vials to large 5,000 ml bottles and jars, catering to diverse industry needs
- » We offer prominently Flint (clear), Amber and Green glass containers along with other colours like various shades of blue and green, with year-round supply enabled to meet varying customer demands
- » Our health-conscious packaging options include rPET bottles and sustainable materials, supporting the growing demand for eco-friendly solutions

Strong R&D and Product Innovation Pipeline

- » Our R&D roadmap proactively addresses future trends in sustainability, functionality, and premium aesthetics
- » Innovation is driven by deep understanding of customer needs and market demands, ensuring relevant and impactful product development
- » Continuous investment in R&D, debottlenecking processes and the development of high-quality glass containers
- » Collaborations with SMEs drive inclusive innovation across packaging formats
- » Our premium glass packaging solutions serve high-value segments, including personal care, food service and liquor
- » We increased the use of cullet (recycled glass) in production, customised to specific client sustainability requirements

Fuelling Growth through Strategic Capacity Investments

- » We have proposed the establishment of a new manufacturing facility in Madhya Pradesh with a capacity of 500 tonnes per day, which will boost our overall production capacity by 25% and strengthen our ability to serve the rapidly expanding Northern India market
- » Strategic initiatives to enhance efficiency and unlock additional capacity within our current plants, maximising output
- » Increasing capacity utilisation specifically to support the growing demand within the premium beverage market

Business Highlights

FY 2024-25 marked a pivotal year for us, driven by significant milestones across operations, innovation, and sustainability. Despite inflationary pressures impacting raw material, energy, and logistics costs, we demonstrated strong resilience through disciplined cost management, efficiency enhancements, and a continued focus on delivering innovative, sustainable packaging solutions. Our strategic emphasis on operational excellence resulted in a container glass capacity utilisation that consistently maintained around 95% during the year, even amidst scheduled furnace relining activities.

To further enhance efficiency through strategic technology integration, we implemented key digital solutions across our core functions. In manufacturing, our adoption of AI-powered in-line defect detection and IoT-enabled smart factory principles has significantly enhanced quality and efficiency. Furthermore, we optimised our supply chain through the deployment of an AI-enabled demand fulfilment dashboard and a digitised transport management system, ensuring enhanced responsiveness and streamlined logistics.

To strategically expand our market reach and cater to evolving client

needs, we intensified our focus on developing an innovative range of products.

Recognising the strategic importance of global presence, we established a new office in the United Arab Emirates to enhance our international engagement and promote exports through our newly incorporated subsidiary, Sun Reach Pack (FZE). Additionally, we continued our participation in key global exhibitions across the USA and Europe, strengthening relationships with existing clients and cultivating new business opportunities.

Driving Innovation through New Product Development in Glass Containers

Innovation drives our leadership in the glass packaging industry. In FY 2024-25, we significantly advanced our New Product Development (NPD) efforts, responding to evolving client needs and sustainability goals through differentiated, high-quality design.

Developed

422 new product designs were created by our design studio, covering diverse aesthetics, ergonomic shapes, and lightweight structures tailored for sectors such as F&B, pharma and cosmetics.

Commercialised

154 products were successfully commercialised, reflecting a high conversion rate and seamless design-to-market execution.

Impact

Our streamlined NPD pipeline enabled rapid innovation, improved responsiveness to client feedback, and strengthened our market presence. The new products not only enhanced portfolio depth but also supported our sustainability agenda through design-led efficiency and material optimisation.

Outlook

We will continue to invest in smart design tools, agile manufacturing technologies, and sustainable materials, ensuring our packaging solutions remain innovative, brand-enhancing and future-ready.

Sustainability through Lightweighting

Our ongoing lightweighting programme highlights our dedication to sustainability and cost efficiency. By optimising the design of high-volume SKUs in our glass container portfolio, we have significantly reduced material usage while maintaining product quality and performance. These reductions translate to lower raw material consumption, decreased energy usage in production, and reduced CO₂ emissions across the supply chain.

Impact

- » **Environmental:** Less glass per container lowers our carbon footprint and supports global climate goals
- » **Economic:** Reduced weight improves freight efficiency and lowers logistics
- » **Operational:** Cost-effectiveness across the value chain and deliver tangible benefits to customers

Awards

- » Bronze Winner at the 2024 International Green Apple Environment Awards at Kensington Palace, UK, for sustainable packaging
- » Best CSR Project award at the National CSR Impact Awards
- » Recognised as a 'Best Brand 2024' by ET Edge for pioneering industry standards
- » Named 'Fastest Decarbonising Packaging Products Company of the Year 2024' at the Suryacon Hyderabad, Telangana and Andhra Pradesh Annual Solar Awards
- » Received the Innovation Excellence Award at the Diageo Annual Suppliers Conference for advancing packaging innovations
- » Honoured with the 'Innovative Application of AI' award at the 7th Edition Technology Excellence Awards 2025 by Quantic Business Media Private Limited

Certifications

- » The Bhongir Speciality Glass Plant was awarded the IGBC Green Factory Building Platinum rating
- » Our R&D centre and chemical lab achieved NABL accreditation (ISO 17025) and certifications for ISO 9001, 14001, and 45001, underlining our quality and innovation leadership
- » Hyderabad and Bhongir plants received Gold and Silver awards at the CII EHS Excellence Awards 2023
- » We were recognised with the SEEM National Sustainability Award - Gold 2023 for our efforts in climate action, water stewardship, waste reduction and employee well-being
- » Received 'Great Place to Work®' certification for the 4th time in a row

Business Outlook

Our strategic compass is firmly pointed towards strengthening our position through focused and interconnected priorities. At the heart of our strategy is a commitment to operational excellence, which we will achieve by driving continuous efficiency improvements and accelerating digital transformation across our existing plants. This will better position us not only to meet the needs of our valued customers but also to deepen our engagement with them across domestic and global landscapes, fostering stronger and more rewarding partnerships.

To capitalise on increasing demand, we are optimising our existing production lines to unlock additional capacity.

At the same time, we recognise strong growth potential in premium segments. To address this, we will continue investing in Research & Development and expand our decoration capabilities to serve the evolving needs of perfumery, luxury alcohol, and cosmetics sectors.

As part of our ambitious growth trajectory, we are expanding our overall capacity by approximately 25% through a new state-of-the-art greenfield glass container manufacturing facility in Madhya Pradesh. This strategic move further reinforces our leadership in the dynamic Indian packaging market, positioning us for sustained growth and enhanced value creation.

New Plant in Madhya Pradesh to Strategically Expand Capacity

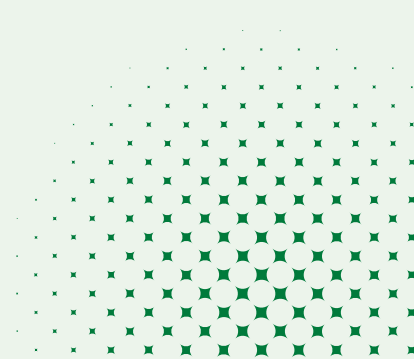

To expand our container glass capacity by ~25%, we are setting up a new greenfield manufacturing facility in Madhya Pradesh with a planned daily output of 500 tonnes. Strategically located, Madhya Pradesh offers robust infrastructure, proximity to raw materials and access to key national markets. This proposed ₹ 700 crore investment will meet the growing demand for premium glass packaging across key sectors such as alcoholic beverages, pharmaceuticals, and food. The facility will integrate advanced technologies and sustainable practices, will complement our existing plants in Telangana, and create over 1,000 direct and indirect jobs.

Business Highlights

We delivered a year of strong business momentum and operational excellence by intensifying our focus on innovation, sustainability, digitalisation, and disciplined cost management. To meet the growing demand for premium and specialty closures, particularly within the premiumising Indian liquor market, we strategically increased our production capabilities through facility upgrades, including IoT-enabled alerts and monitoring for injection moulding, utilities and energy.

Key advancements include progress toward developing India’s first domestically produced T-corks and stoppers. These offerings are being designed to provide distinctive aesthetics and flexible branding possibilities, aligned with the needs of the fast-growing premium liquor

segment. We also expanded our focus to the ophthalmic and ENT pharma sectors, where development is underway for specialised eye and ear drop bottles and caps.

We significantly strengthened our capabilities across key sectors. This included the establishment of the Eye Dropper Project—a new ISO 15378-certified, GMP-compliant facility dedicated to medicinal primary packaging to cater to the growing demand for premium closures in the alco-bev and cosmetics industries, further solidifying our presence in high-value segment.

Technological innovation remained a core differentiator. Our world-class anti-counterfeiting solutions, such as UTC laser marking and multicolour digital printing, guaranteed product

authenticity through secure, traceable codes. Operationally, we achieved a step-change by digitally upgrading 24 injection moulding machines for real-time monitoring, enhanced productivity, and consistent quality. Moreover, an advanced air leakage detection system was introduced, optimising air and LPG usage for greater resource efficiency.

Beyond resource management, we focused on sustainable materials through prioritising lightweight closure designs, the use of biodegradable materials, and increased adoption of recycled content. These comprehensive efforts, designed in line with Green Building Principles, have resulted in our plant achieving a prestigious Platinum rating, a testament to our minimal environmental footprint.

Business Outlook

Building on our commitment to unparalleled value, we are focused on driving premiumisation across our entire portfolio by introducing world-class designs and incorporating innovative security closures that ensure both aesthetic appeal and product integrity.

Strategically leveraging our core strengths in precision injection moulding and innovative closure

solutions, we will foray into new, untapped markets, broadening our customer base within premium sectors such as cosmetics, perfumery, home fragrances, and beverages. Underpinning this expansion is a dedicated strategy to strengthen our supply chain resilience through increased localisation, firmly supporting the Atma Nirbhar Bharat vision. To amplify our reach, we are

actively developing a stronger export pipeline via targeted international engagement and partnerships. Crucially, all our efforts will be integrated with the continuous development of innovative closures that meet the evolving needs and preferences of customers in both domestic and international markets.

Management Discussion and Analysis

Business Highlights

Last year marked a period of significant progress and real adaptability for us as we navigated a changing market with a clear strategic focus, allowing us to capitalise on emerging opportunities. This strategic direction led to a successful shift in our product range, significantly growing our presence in the premium beverage bottle segment.

While keeping environmental responsibility and sustainability as priorities, we are committed to innovating and manufacturing bottles for leading beverage companies, as well as introducing sustainable packaging solutions such as rPET jar for the food industry. We are focusing on increasing the supply of rPET bottles with higher recycled content to effectively meet the rising demand from environmentally

conscious customers across various sectors.

Integral to these strategic efforts was an accelerated digital transformation journey across key operational areas. This comprehensive digitalisation initiative, encompassing production,

supply chain management, maintenance, after-sales service, and human resources, is driving tangible improvements in forecasting accuracy, enhancing overall operational efficiency, and ultimately enabling us to deliver greater value to our customers.

Business Outlook

Our strategic focus in the coming years is to drive growth, supported by strong demand across key industries such as food, cosmetics, agriculture, and FMCG. This momentum will be further

boosted by the gradual adoption of rPET packaging solutions. Recognising the evolving PET market dynamics, including increased availability and cost benefits of rPET, our immediate

strategy is to expand strategically in high-growth segments through investments in automation and digital processes.

People-centricity

At AGI Greenpac, we place people at the heart of our success. We are building a workplace where collaboration thrives, and a shared 'One Company' mindset unites teams across functions and locations. Reflecting our strong people-first culture, we were certified as a Great Place to Work for the third consecutive year.

Over the past year, we have created an environment that supports the

professional aspirations and personal well-being of our employees. We undertook initiatives to promote health, safety, and inclusion across the organisation.

To prepare our people for future challenges, we have enhanced our learning ecosystem with targeted programmes—from technical training to leadership development—tailored to different career stages.

Talent acquisition remains a priority, with a focus on attracting high-potential individuals from leading institutions. These efforts, combined with our investment in capability building, are shaping a high-performing, future-ready workforce that drives sustained value for the business.

Business Risks

| Risk | Impact | Mitigation Measures |
|---|---|---|
| Low Inventory Movement | Inadequate sales strategy has culminated in excess inventory. | Our efficient inventory management system facilitates accurate SKU mapping for phased introduction and removal. We employ big data analytics to plan the replacement of SKUs at the right time. |
| Currency Risk | Fluctuations in foreign exchange rates affect our profitability. | To hedge our foreign exchange position and decrease our exposure to fluctuations as needed, we evaluate in derivative instruments after careful consideration. |
| Interest Rate and Commodity Price Volatility | Any increase in interest rates or commodity price declines could have a detrimental impact on business. | To maintain the affordability of raw materials, we carefully plan the quantities of our inventory. To maintain our competitive advantage, we closely monitor both short-term and long-term interest rates. |
| Lack of Innovation | Inability to remain competitive in the market due to a lack of knowledge about breakthroughs and innovative technology. | We remain on top of developing trends by performing extensive market research and soliciting feedback from institutional clients regularly. Our R&D team is constantly striving to employ new technologies and create innovative solutions that satisfy our clients' needs. |

| Risk | Impact | Mitigation Measures |
|--|--|---|
| Inadequate Distribution Channel | Ineffective marketing and distribution can hinder sales and business growth. | At the moment, we are creating a business-to-business (B2B) model. Our institutional clients benefit from our ongoing innovation and reinforcement since we can guarantee higher product quality and faster turnaround times. |
| Substitutional Risk | PET and glass containers can be interchanged, which may affect the viability of either of these business groups. | We are well-positioned to give our clients a one-stop shop, offering them the choice of PET or glass packaging, allowing us to focus on packaging while preserving revenue streams. We keep on evaluating latest developments to take any actions if needed. |
| Employee Skill Development | A team with insufficient experience and low personnel competencies could hinder progress. | We have a strong employee engagement framework and a good hiring process in place, which has led to a higher retention rate. Our objective is to increase organisational effectiveness by honing personnel skills through carefully thought-out training initiatives. |
| Unorganised Sector | Low-cost solutions from unorganised competitors have the potential to reduce our market share. | The threat posed by the unorganised sector is steadily decreasing as a result of industrial consolidation and the implementation of the GST. Our unique products also cater to a wide spectrum of selective consumers with a variety of aims. |
| Working Capital Management | Short-term liquidity requirements can influence both growth and profitability. | We have robust working capital management in place, which helps with inventory optimisation, shortening the accounts receivable cycle, and improving cash flow. |

Operation Risks

| Risk | Impact | Mitigation Measures |
|-------------------------------------|--|---|
| Availability of Raw Material | The inability to secure a constant supply of raw materials at a fair price may have a detrimental influence on operations. | To avoid being reliant on a small number of merchants, we have established ties with a variety of sources. We have tried many vendor engagement tactics and have always maintained a planned inventory. |
| Cost Control | Profitability might decline if costs cannot be managed. | We use a variety of cost-cutting strategies to get more control over production costs. Throughout the year under review, we used alternate materials, different fuels, and automation to cut costs. |
| Operational Limitations | Production might be harmed if operations are continuously disrupted. | We were able to mitigate this operational risk by continually reducing operating bottlenecks and improving automation across several units. |
| Quality-related Concerns | Lowering or altering product quality might hurt revenue and cause customer turnover. | We conduct several rounds of quality testing at various stages of the value-creation process to ensure a low rejection rate and high product quality. |

Management Discussion and Analysis

| Risk | Impact | Mitigation Measures |
|---|--|--|
| Health and Safety Risk | Any sort of mishap or loss of life can put an end to activities. | Workers in our factories receive EHS training to ensure their safety and strict adherence to employee health and safety regulations. |
| Loss of Key Managerial Personnel (KMP) | Any loss of KMP could have an adverse effect on the Company. | Our rewards, recognition, and pay system guarantees that key members of our management team are competitively compensated, keeping them motivated. |
| Loss of Suppliers | Any loss of suppliers could disrupt the Company's typical business environment. | All of our suppliers have strong, long-term relationships with us, and our vendors help us maintain these alliances. In addition, we maintain contact with a variety of vendors to avoid leaning too much on any one of them. |
| Product Failure and Lack of Differentiations | If we are unable to evoke a positive market reaction for our items, we may lose money. | We offer a diverse range of products to a variety of industries. Due to the breadth of our product offerings, the failure of a single item or line may have little impact on overall sales. We have a consumer-oriented R&D facility that is always developing new, relevant products. |

Strategic Risks

| Risk | Impact | Mitigation Measures |
|---|--|--|
| Geopolitical Risks | Geopolitical concerns may affect how effectively corporations perform. | We are able to prevent being overly reliant on any single product or market due to our broad product offerings across industries and market penetration. |
| Economic Unpredictability | A sluggish Indian economy could lead to a decrease in demand for our products. | The Indian economy has been one of the best performing ones among the developing economies and is expected to continue this growth over the foreseeable future. |
| Inability to Understand Customer Preferences | Our profit potential may suffer if we are unable to stay relevant and satisfy clients through design and product innovation. | To fulfil a diverse spectrum of customer needs, we are constantly expanding our product offerings by launching new product ranges and SKU categories in response to regular feedback from our institutional customers. We also conduct R&D, which helps with the continuous release of new products. |

| Risk | Impact | Mitigation Measures |
|---|--|--|
| Customer Concentration | Excessive reliance on a limited number of clients might reduce profitability. | We engage with a wide range of clients. However, due to the complexity of our product offering and our client-centric mindset, we value long-term relationships with our institutional clients. |
| Inability to Adhere to the Regulatory Requirements | Any changes to the legislation may have an influence on our actions. | As part of our dedication to remaining people-centric and accountable, we follow all applicable regulatory norms, ranging from those pertaining to our employees' well-being to those concerning environmental preservation. |
| Tariff Wars and Growing Protectionism | Any disruption in trade agreements between exporting partner countries may severely affect our operations. | To reduce the danger of tariff issues, we have formed amicable ties with our export partners and diversified our export portfolio. |

Internal Control

The internal control systems are commensurate with the size, scale, and complexity of the operations of the Company. These have been designed to provide reasonable assurance with regard to recording and providing reliable financial and operational information, complying with the applicable statutes, safeguarding assets from unauthorised use, executing transactions with proper authorisation, and ensuring compliance with corporate policies. We use SAP, a well-accepted Enterprise Resource Planning (ERP) system, to record data for accounting, consolidation, and management of information and connect to different locations for efficient exchange of information. The Audit Committee of the Board of Directors, comprising Independent Directors, review the effectiveness of the internal control system across the Company, including the annual plan, significant audit findings and recommendations, adequacy of internal controls, and compliance with accounting policies and regulations.

Internal Financial Control

We follow proper Internal financial control as policies and procedures for ensuring orderly and efficient conduct of business, including adherence to the Company's policies, safeguarding of its assets, prevention and detection of fraud and errors, accuracy and completeness of the accounting records, and timely preparation of reliable financial information. We also have documented Risk and Control Matrices (RACM) covering all activities, and all controls are tested for design and operating effectiveness as part of our Internal Financial Control Reporting framework. The financial controls are evaluated for both design and operating effectiveness by an external consulting firm of repute. In our view, the Internal Financial Controls are adequate and are in line with best practices applicable to organisations of a similar size, nature, and complexity.

Environment

Building a Greener Future, Responsibly

We are deeply committed to building a greener future through active adoption and investments in environmentally friendly technologies and practices, ensuring a responsible organisation for all stakeholders. Our focus on continuous improvement enables us to strategically reduce our carbon footprint across all operations through impactful innovation.

ESG Targets

We are setting bold ESG targets, including a long-term target of achieving Net Zero emissions by 2050. Our near-term focus is on significantly lowering our carbon footprint and scaling up renewable energy use by 2030.

Emission Reduction

Committed to reducing its environmental footprint through targeted GHG reduction measures, we have adopted various energy efficiency practices, including the installation of Variable Frequency Drive (VFD) panels and Electrostatic Precipitators with scrubber mechanisms to curb SOx and particulate emissions.

Our R&D efforts are focused on developing low-emission glass formulations that support cleaner production. To further accelerate progress, we have set internal targets to increase cullet utilisation (internal+ external) to 50% by 2027 in lowering our carbon intensity.

Complementing these efforts is our robust renewable energy programme, which significantly contributes to offsetting our carbon footprint.

Energy Efficiency

We are continuously enhancing energy efficiency through a series of integrated measures that optimise consumption across our operations. These include the use of VFD panels, high-efficiency compressors, upgraded intercoolers, and improved pressure systems, along with solar heating and line modifications to reduce energy losses.

We have also adopted IE3 and IE4 energy-efficient motors, star-rated equipment, and transitioned to electric forklifts to further reduce dependence on fossil fuels. Through these interventions, we are driving more sustainable production and advancing our long-term goal of low-impact, energy-optimised operations.

Driving Water Stewardship and Circularity

We are committed to responsible water management through a combination of conservation, reuse, and replenishment initiatives. We have implemented rainwater harvesting, zero liquid discharge (ZLD) systems, and reuse over 50% of water through sewage treatment plants (STPs) and reverse osmosis (RO) systems.

Innovations such as the dry optical cullet sorter and repurposing of RO reject water have significantly reduced our reliance on freshwater sources. We maintain rigorous water monitoring practices, detailed standard operating procedures

(SOPs), and a uniform discharge policy across all operational units.

To institutionalise accountability, we have introduced an Internal Water Price (IWP) and set a target to reduce freshwater and groundwater consumption by 10% by 2026. Additionally, we have initiated water replenishment efforts through the creation of ponds and artificial lakes, reinforcing our journey towards water positivity.

In addition, our plants follow a Zero Liquid Discharge (ZLD) system, ensuring responsible and effective wastewater treatment in line with our broader sustainability goals.

Waste Reduction

We have established a robust and sustainable waste management system that prioritises reuse, recycling, and regulatory compliance. We reuse 100% of production waste and recycle over ~2.0 lakh tonnes of cullet annually, reintegrating high-quality recycled glass into manufacturing. Waste from across plant locations is systematically aggregated, inventoried, and disposed of through authorised third-party vendors in line with State Pollution Control Board (SPCB) norms.

We also reuse by-products, such as waste from electrostatic precipitators (ESP), and conduct regular Environmental Committee reviews to ensure safe handling. Our Zero Waste to Landfill goal is backed by strong governance, and we are targeting 50% cullet utilisation (internal + external) by 2027, key steps towards circular economy.

Green Building Design

We place a strong emphasis on resource efficiency and waste minimisation, guiding all new projects with IGBC-certified green building principles. Our commitment to green infrastructure is exemplified by our specialty glass plant and security caps and closure facility in Telangana, both of which are IGBC Platinum-rated.

Across all our plants, natural daylighting eliminates the need for artificial lighting on the shop floor, while LED systems have replaced conventional lighting, further improving energy efficiency.

Sustainable Packaging and Materials

We are driving a significant shift towards environmentally responsible packaging.

Our initiatives include our B2C brands, which offers a sustainable alternative to single-use plastics. Beyond our direct-to-consumer offerings, we also manufacture and supply glass bottles for other brands, including hospitality chains.

Furthermore, we are reimagining closures with lightweight, biodegradable, and recyclable

materials and engage in rPET bottle production for leading customers, utilising 30-100% recycled content. Additionally, we have implemented returnable crates across our supply chain to eliminate single-use packaging waste.

Circular Economy and Product Design

Our NABL-accredited R&D Glass Lab is driving innovation in sustainable glass compositions and closed-loop manufacturing. We are enhancing cullet recovery by collecting and reprocessing rejected glass and breakages, both internally and from aggregators.

These materials are meticulously cleaned, re-sized, and processed using advanced optical and fine sorting machines ensuring high purity recycled input.

All new designs now integrate visible recycled content and are optimised for material efficiency, reduced carbon impact, and aesthetic appeal, delivering packaging that meets both performance and sustainability benchmarks.

Social – Corporate Social Responsibility

Empowering Communities, Sustaining Change

We believe meaningful change begins at the grassroots level, and our CSR initiatives are designed to foster holistic community well-being. Through strategic collaborations with NGOs and local institutions, we invest in key areas that empower communities and create sustainable impact.

Aligned with national priorities, our comprehensive approach delivers lasting value for all stakeholders through initiatives such as supporting rural livelihoods, promoting community health, enhancing skills for unemployed youths, improving local school infrastructure, ensuring road safety and encouraging sports for rural development.

FY 2024-25 Impact Highlights

The Bhongir Community Service Centre: Empowering the Community for a Sustainable Future

We set up the Bhongir Community Service Centre, a pioneering three-floor facility dedicated to holistic community development. Strategically located to serve the needs of Bhongir and its surrounding areas, the centre houses a comprehensive range of initiatives designed to empower individuals and foster sustainable growth.

Rationale and Vision

The establishment of the Bhongir Community Service Centre stems from a deep commitment to addressing key societal needs in the region. Our rationale is rooted in the belief that by providing access to essential services and opportunities, we can significantly improve the quality of life for residents and contribute to a more self-sufficient community.

The centre is designed to achieve these objectives, featuring:

- » **Skill Development Centre:**
Offering a diverse range of vocational courses and training programmes to enable local residents to secure employment and achieve self-sufficiency
- » **Industrial Training Wing:**
Providing hands-on experience and specialised training to build industry-relevant capabilities among youth, enhancing employability in local industries
- » **Healthcare Services:**
Delivering essential medical consultations, basic treatments and health awareness programmes to improve community health outcomes

A cornerstone of our commitment to sustainability is the installation of a solar rooftop system at the centre, reducing dependence on the grid, lowering energy costs and decreasing our carbon footprint.

Skill Development

Kaushal Vriddhi – Industrial Training

This robust programme has successfully trained a total of 110 students (ITI, Diploma, and B. Tech) across two batches. Each comprehensive batch, spanning six months, combined intensive classroom instruction with invaluable industrial hands-on training. A testament to the programme's effectiveness, 51 students secured placements in our plant upon successful completion of their training, demonstrating the direct impact on local employment.

Computer Literacy Programme

Driven by the goal of fostering employable skills among the local youth, the centre's Skill Development Centre in Bhongir launched this programme. Over the past year, 30+ students from surrounding villages were benefitted. This initiative equips participants with essential computer literacy, opening doors to diverse employment opportunities.

Promoting Vocational Skill Stitching and Tailoring

Under its broader skilling programme, the centre offers a dedicated four-month training in stitching and tailoring. This initiative specifically targets unemployed women from surrounding villages, providing them with valuable vocational skills that can lead to self-employment and economic independence, thereby empowering them to contribute to their households and communities.

Swastha Sampad: Community Health

Our Swastha Sampad Primary Health Care Facility at our Bhongir Community Centre remained a cornerstone of community well-being, providing essential and consistent healthcare access to 6,000+ beneficiaries throughout the year. Complementing this, we organised 65 medical camps in Bhongir and Hyderabad surrounding villages, with crucial preventive

care, eye check-ups and mobility aids. Further strengthening local healthcare infrastructure and emergency response capabilities, we also donated ambulances to both our CSR health centre and the Local Government Hospital in Bhongir, ensuring timely emergency response and improved healthcare access.

6,000+

Health centre beneficiaries

Rural Livelihood Development

Our long-running and highly successful rural livelihoods programme remains a cornerstone of our community development efforts. In FY 2024-25, this initiative continued to make a significant impact around our Telangana facilities. A key component involved a comprehensive fruit tree plantation drive that empowered around 600 farmers across 600 acres in the villages surrounding Bhongir. Through strong collaboration with NGOs, we provided holistic support, including high-quality saplings, essential tools and specialised training, directly enhancing rural incomes and promoting sustainable agricultural practices.

600

Farmers benefitted

Support to Local School Infrastructure

To enhance the learning environment and educational opportunities for local students, we invested in strengthening the infrastructure of two government high schools. These vital upgrades included improved sanitation, drinking water access, and classroom hygiene facilities, directly benefitting over 900 students. Complementing these infrastructure enhancements, we further promoted digital literacy by introducing computer education to students from surrounding villages, equipping them with essential skills to keep pace with evolving educational needs.

900+

School students benefitted

Road Safety and Infrastructure Enhancement

To bolster community safety and improve essential infrastructure, we constructed and renovated a 500-metre stretch of road in Hyderabad, which has demonstrably enhanced local connectivity and facilitated smoother transit.

Further underscoring our dedication to public safety, our commitment extended to the strategic installation of CCTV cameras in the Sanathnagar district. This measure has significantly augmented local surveillance capabilities, contributing to an overall boost in safety and security for the community.

Recognising the critical link between proper sanitation and public health, our CSR efforts have prioritised improved drainage coverage to elevate hygiene and safety standards for the community.

Water Supply Work Support - Hyderabad

To tackle the challenge of access to safe drinking water in identified slum areas, two borewells were arranged. This vital intervention has significantly improved access to a sufficient water supply for the daily consumption needs of residents within these communities, directly contributing to better public health and living conditions.

Sports and Rural Inclusivity

We continued our commitment to inclusive development by sponsoring a promising athlete's expedition to Mount Denali, North America, providing comprehensive support for their training and travel. Furthermore, we extended our contributions to vital sports initiatives specifically designed for athletes with disabilities, reinforcing our belief in equal opportunity and community empowerment through sport.

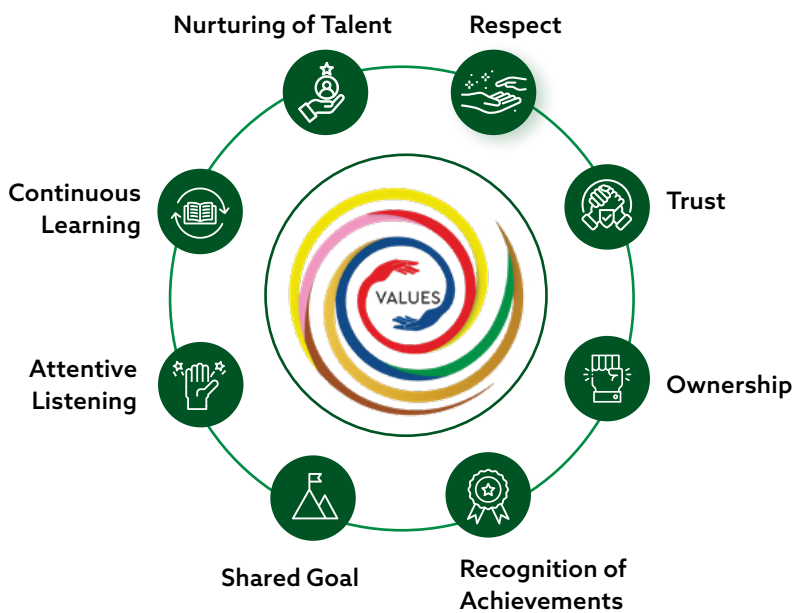

CSR Award

- » AGI Greenpac was honoured with the Best CSR Project award at the National CSR Impact Awards, recognising our commitment to corporate social responsibility

Social – People

Building a Unified, Future-ready Workforce

As we expand and diversify, nurturing a cohesive culture anchored in Accountability, Collaboration, and Talent (ACT) remains core to our identity. We believe our people are our greatest asset and are committed to fostering an environment that drives growth, supports well-being, and celebrates shared values and diverse contributions.

Fostering a Culture of Belonging, Purpose, and Growth

We believe that engaged, motivated, and continuously evolving employees are essential to delivering long-term business success. Our people strategy is anchored in meaningful engagement, transparent communication, and future-focused learning opportunities. Through structured feedback mechanisms, inclusive initiatives, and a progressive learning approach, we are committed to building a high-trust, high-performance workplace where every employee feels valued and empowered.

Strengthening Employee Engagement

We adopt a comprehensive and data-driven approach to measuring employee engagement, combining formal surveys with regular dialogue and real-time feedback. Annually, our white-collar and blue-collar workforce participates in the Great Place to Work survey, conducted by the Great Place to Work Institute, serving as a robust benchmark for gauging trust, pride, and camaraderie. Additionally, we conduct detailed Employee Feedback Surveys, facilitated by external consultants, to assess perceptions around team dynamics, business ethics, and innovation culture.

We cultivate a culture of transparency, trust, and mutual understanding through varied vital two-way communication forums. These include monthly business review meetings, HR Connect sessions, town halls, our 'Talk to Your CEO'

Recognised for the fourth consecutive year as a 'Great Place to Work'

initiative, and regular online surveys. These touchpoints are designed to ensure continuous dialogue, fostering an environment where every voice is heard and valued across the entire organisation.

Insights from these initiatives are systematically analysed. Based on these findings, specific engagement action points are developed and reviewed with the leadership team before implementation, ensuring accountability and continuous cultural improvement. Looking ahead, we have identified the integration of line managers into our engagement framework as a key opportunity. Empowering them as facilitators of team culture and direct communicators will further enhance cohesion, alignment, and ownership at the grassroots level.

Fostering Recognition

To nurture a deeper sense of purpose and community, we launched two high-impact initiatives in FY 2024-25. The AGI Annual Awards Function was introduced to celebrate excellence, foster motivation, and reinforce a performance-driven culture. Complementing this was the Employee Family Get-Together, an inclusive, informal initiative designed to build personal connections and strengthen the emotional bond employees share with the organisation.

Building Capabilities through Learning and Development

Identifying Skill Gaps and Future Needs

Our learning and development strategy is grounded in business relevance and future readiness. We identify training needs and skill gaps using a structured, multi-dimensional process involving annual performance appraisals, departmental skill matrix and an assessment of upcoming technological requirements.

This comprehensive understanding feeds into the creation of our Annual Training Calendar, which is jointly developed with functional leaders to ensure alignment with performance goals, efficiency improvements, and strategic transformation.

Structured Learning Pathways for Growth

We offer a range of structured programmes to support employee growth at every stage of the career lifecycle. Our Comprehensive Induction Programme ensures seamless onboarding for new hires, while our Leadership Development Workshops and a dedicated Strategic Leadership Development Programme, 'LEAD' are designed to build future-ready leaders.

To enhance functional excellence, we offer Technical Certifications and Specialised Skill Training.

We augment these with visits to all manufacturing facilities, offering direct insight into industry best practices and emphasising regulatory and standards-based certifications to ensure adherence to all pertinent government norms.

Measuring Learning Impact

We evaluate the impact of our training initiatives through a multi-level framework. This includes assessing learner feedback, measuring knowledge retention, observing behavioural shifts on the job, and creating business impact. This ensures that learning translates into measurable outcomes such as improved productivity, quality, and employee growth.

Driving Collaboration and Shared Learning

Cross-functional collaboration and knowledge sharing are key tenets of our learning ecosystem. We facilitate this through multi-departmental project teams on key business goals such as capacity enhancement and process optimisation. Regular inter-

departmental meetings and shared learning platforms support alignment and continuous improvement.

We promote external learning through employee participation in leading industry forums such as the Confederation of Indian Industry (CII), Federation of Indian Chambers of Commerce and Industry (FICCI), International Congress on Glass (ICG), Glass Futures, and the Society of Energy Engineers and Managers (SEEM). Through these engagements, our employees gain exposure to the latest industry trends, network with peers, contribute to policy discussions, and access cutting-edge research.

Future-ready Learning Formats

To prepare our workforce for the evolving needs of the glass manufacturing industry, we are in the process of introducing immersive and agile learning formats. These include Virtual Reality (VR) and Augmented Reality (AR) simulations for technical and safety training, micro learning modules for bite-sized, flexible upskilling, and gamification to drive engagement.

Our forward-looking training agenda also prioritises capabilities in digitisation, industrial automation, smart manufacturing, and sustainable practices. Additionally, we are investing in areas such as advanced robotics, cybersecurity, and design thinking to build innovation-driven competencies. These investments enable us to integrate innovative technologies into our operations, ensuring our workforce is equipped to leverage these advancements for enhanced efficiency, security, and novel solutions in manufacturing.

Key Business Developments during the year under review

- The Company had submitted a Resolution Plan ("the Plan") for the acquisition of 100% stake in Hindusthan National Glass & Industries Limited (Corporate Debtors), under the Insolvency and Bankruptcy Code 2016. A Letter of Intent (LOI) dated 28 October 2022 was issued to the Company declaring the Company as a successful resolution applicant under CIRP with due authorisation of the Committee of Creditors of the Corporate Debtor. The Company had given its acceptance of the LOI and issued underlying performance bank guarantees as per the requirement of the LOI. After issuance of aforesaid LOI and some other regulatory approvals, certain litigations were initiated by various parties in various forums including with the Hon'ble Supreme Court of India, pertaining to the Corporate Insolvency Resolution Process ("CIRP") of Hindusthan National Glass & Industries Ltd. ("HNGIL").

On 29 January 2025, the Hon'ble Supreme Court (three-judges' bench) pronounced its judgment in a batch of matters titled "Independent Sugar Corporation Limited v. Girish Sriram Juneja & Anr.", Civil Appeal No.(s) 6071/2023 and connected matters, which inter alia pertained to the acquisition of HNGIL by the Company under the IBC ("Judgment"). In the aforesaid Judgment, by way of majority opinion, the Hon'ble Supreme Court had held against the Company's resolution plan to acquire HNGIL that had earlier been approved by the Committee of Creditors of HNGIL. The aforesaid Judgment does not impact the existing operations and profitability of the Company. On 11 February 2025, the Company had filed a Review Petition before the Hon'ble Supreme Court against the findings of the Judgment. As on the date of approval of this Directors' Report, the said Review Petition is pending before the Hon'ble Supreme Court.

- The Board of Directors of the Company on 31 March 2025 has approved to set up a new Container Glass Plant (Greenfield Project) in Madhya Pradesh. The Project entails a capital expenditure inter-alia Land & Building, Plant & Machinery etc. of ₹ 700 crore. The proposed capacity addition with the new Plant is 500 TPD. The commencement of commercial production in the new plant is expected in next two years.

Change in the Nature of Business

There was no change in the nature of business of your Company during the year.

Subsidiaries, Joint Ventures and Associate Companies

During the year under review, the Company incorporated two wholly-owned subsidiaries: AGI Retail Private Limited (India) on 27 August 2024 and Sun Reach Pack (FZE) (Dubai, UAE) on 28 October 2024. Accordingly, as of 31 March 2025, the Company has 2 subsidiaries, including one foreign subsidiary. The Company had no Joint Venture or Associate Company during the year under review.

The Board of Directors reviewed the affairs of the subsidiaries. In accordance with Section 129(3) of the Companies Act, 2013 ("Act"), the consolidated financial statements of the Company and all its subsidiaries have been prepared, which form part of the Annual Report, (please refer to the consolidated financial statements section of this Annual Report). Further, a statement containing the salient features of the financial statements of the Company's subsidiaries in the prescribed format AOC-1 forms part of the consolidated financial statements and hence not repeated here for the sake of brevity. The statements provide the details of performance, financial positions of each of the subsidiaries. In accordance with Section 136 of the Act, the audited financial statements, including the consolidated financial statements and related information of the Company and audited accounts of each of its subsidiaries are available on Company's website www.agigreenpac.com. These documents will also be available for inspection in the investors' section of the Company's website.

The policy for determining material subsidiaries may be accessed on the Company's website at the link: [Material Subsidiary Policy](#)

Dividend

Your Directors have recommended a dividend of ₹ 7/- (i.e. 350%) per equity share (last year ₹ 6/- (i.e. 300%) per equity share on each equity share of face value ₹ 2/- for the financial year ended 31 March 2025, amounting to ₹ 45.29 crore subject to deduction of income tax at source, as applicable. The dividend payout is subject to approval of members at the ensuing Annual General Meeting of the Company.

The dividend will be paid to those shareholders whose names appear in the Register of Members/List of Beneficial Owners (as furnished by National Securities Depository Limited and Central Depository Services (India) Limited) as on 22 August 2025.

**Annexure B****Conservation of Energy, Research and Development, Technology Absorption, Foreign Exchange Earnings and Outgo****(A) Conservation of Energy****(i) The steps taken or impact on conservation of energy**

Energy conservation is one of the main focus areas of the Company. Close monitoring of power & fuel consumption is done to minimize/recycle the wastages and ensure optimum utilization of energy which leads to improvement in product efficiencies which have direct impact on energy consumption. Energy data is analysed on regular basis for consumption trends and appropriate corrective actions are taken accordingly. The Company keeps itself updated of the technological upgradation and innovations in manufacturing processes from the similar fields. Based on the inputs, most energy efficient equipment's are selected for the plants to ensure optimum use of energy.

As a part of energy conservation, the Company took following initiatives:

AGI Hyderabad Unit:

- » Installation of 4 no's Zero air loss auto drain valves for air compressors.
- » 900 KVAR Capacitor Bank installations to improve Power Factor.
- » Replaced compressed air header line to reduce the pressure drop in HP & LP airline.
- » Installed and commissioned 3200 cfm very high-pressure compressor and stopped small screw compressor resultant in energy saving.
- » Replaced two mould cooling blowers for 2 lines with energy efficient high-speed blowers that resulted in saving in power consumption.
- » Arranged transparent sheets at production floor to increase day lighting.
- » Replaced conventional 10 Nos streetlights with hybrid lights.
- » Installed motion sensors in all control rooms to avoid continuous glowing of lights.
- » Installed air boosters at LINE packing machine and pick and placer to avoid increasing pressure in compressor end.

- » Installation of 2.8 MWp roof top solar project commissioned during the year.
- » One Furnace rebuild completed during the year with new technology to reduce the thermal energy consumption.
- » Cooling tower revamped done to increase delta T and energy saving.

AGI Bhongir Unit:

- » Conversion of Ordinary ceiling (60W) into BLDC fans (37W).
- » Conversion of Conventional MV/MH Lights into LED Lights 400W to 150W.
- » Providing level sensors for water tanks to avoid pump running.
- » Reducing the set point of VHP compressor by installing Pneumatic Booster for Furnace Camera. Thus reducing the overall set point.
- » Installation of VFD Panel for operation of 3 x 55 KW cooling tower circulation pumps & 2 x18 KW cooling tower fans.
- » Globe valve with PID Control system to utilize excess air for HP Boosting from VHP Compressor as per the demand.
- » Compressed Air Leakage checking through the leakage detector and immediately arresting.
- » Installation of Zero air loss auto drain valves for air compressors internal and external coolers drains.
- » 300 KVAR Capacitor Bank installations to improve Power Factor.
- » Installation of air curtains to prevent loss of cool air at Decoration.
- » Modified compressed air header line to reduce the pressure drop in HP air line.
- » Replaced Cameron compressors-2 no's inter coolers with high efficiency Copper pin coolers to improve the thermal efficacy of compressors and reduced power consumption in compressors.
- » Replaced one mould cooling blower with energy efficient high-speed blowers that resulted in saving in power consumption.

Directors' Report

- » Modulation of compressors, identification and arresting leakage of compressed air system has resulted in reduction of compressed air power consumption.
- » Frequent furnace exhaust ducts cleaning & ESP internals cleaning with high pressure jet resulted in reduction of energy consumption in ESP.
- » Installed additional cooling zone in 2 lines and reduced lehr natural gas consumption.
- » Reduction of LPG/NG Consumption by installing the Ribbon burners for cross & main conveyor heating.
- » Installation of flow meters to all consumptions and connected to Scada for better monitoring and optimization.
- » Provided alarm system for mould heating oven gate open, to reduce the energy consumption.
- » Installed energy efficient blowers for 4 Lines.
- » Installed skylights on Ware houses sheds to use natural light in day time.
- » Standby fuel heating reduced from 80 deg C to 45 deg C.
- » Installed Energy efficient 9000CFM compressor & Modelling of compressors.
- » Zero loss condensate drain valves installed to avoid compressed air loss in compressors.
- » Replaced old compressed air 20" pipe line with new internally coated pipeline to reduce energy consumption.
- » Changed location of HP air dryer to reduce pressure drop.
- » Replaced conventional street lights with hybrid lights.
- » Installed motion sensors in all control rooms to avoid continuous glowing of lights.
- » Replaced compressor water pump with energy efficient water pump.
- » Replaced pneumatic vibrators with electrical vibrators at single liners to reduce the energy consumption.
- » Installed air boosters at packing machines and case packers to avoid the requirement of high pressure.
- » Modified vacuum air header in Furnace to reduce the reduced power consumption in vacuum pumps.
- » Replaced Cameron compressors with 2 existing compressors after & inter coolers with high efficiency Copper pin Coolers to improve the thermal efficacy of compressors and reduced power consumption in compressors.
- » Installed zero air loss auto drains for L.P & H.P centac-compressors coolers to reduce air losses from compressors resulted in compressors air power consumption reduction.
- » Reduced N.G / LPG consumption in lehr by modification of circulation cooling fans to reduce N.G consumption.
- » Installed lehr front hood in lehr and reduced gas consumption.
- » Cold End Lowerator conveyor motor stop, during no packing box movement, Job change activity to save energy.
- » Load end capacitor bank installed for Power Factor improvement to save energy.
- » Cooling tower fan RPM optimisation with VFD install according to temperature for energy saving.
- » Conventional light with LED light for energy saving.
- » Provide motion and Occupancy sensor in office area to save energy.

AGI Clozure Unit:

- » Arrest the compressed air leakage points and reduced the CO₂ Emissions potential by approx. 55 Ton per Annum.
- » 3.0% Reduction in Water Consumption (KL / 1Mn Pieces) when compared to previous year.
- » Digital up gradation of the energy management system to minutely monitor the Air & Power consumption and to optimise it.
- » Real-time data can help monitor the condition of equipment, enabling predictive maintenance and preventing costly breakdowns
- » Power monitoring systems implemented to alert facilities when they are approaching peak demand, allowing them to adjust operations to reduce the demand.

AGI Plastek unit:

- » Cooling Tower fan control through temperature controller to Save electricity units.
- » Reduce the frequency of pump manually as per the machine running.
- » Chiller line interlocking and run for the required machine.
- » Installation of VFD Panel for operation of DPW machine 2 x 45 KW
- » Installed Energy efficient 500 CFM LP compressors with VFD for Machines.

(ii) The steps taken by the Company for utilising alternate sources of energy

AGI Glass Hyderabad Unit:

- » Commenced 2.800 MWp Roof Top solar Project during the year.
- » Transparent sheets in all warehouse's sheds, production floor installed to get natural light in daytime.
- » Hybrid streetlights installed to use solar energy.

AGI Glass Bhongir unit:

- » 40 Solar streetlights have been installed in workers colony at Bhongir.

- » The Company is in the process of exploring possibilities to set up waste heat recovery power plant for approx 1.2 MW at its Bhongir unit.

- » Transparent sheets in all warehouse's sheds are installed to get natural light in daytime.

- » Hybrid streetlights are installed to use solar energy.

AGI Clozure unit:

- » The Solar Power generation to be upgraded and enhanced from 627KW to 1827KW by FY2025-26

AGI Plastek unit:

- » Installed 250KVA UPS for machine.
- » Using Solar power, wind power up to 90% of the power requirement.

(B) Technology Absorption**I. The efforts made towards technological absorption**

The Company has been making continuous efforts to adopt the latest technological developments and has taken following steps:

AGI Glass Hyderabad unit:

- Installed automatic fire detection and suppression system at substation and LPG yard PCC panels to detect and suppress major fire accident.
- All old BOCB circuit breaker panels replaced with CG VCB with latest protection relays to identify and trip the circuit and avoid fault travelling upwards.
- Installed 2 nos 500KVA UPS for both ESPs to avoid suit carryover during power failure.
- New AIS machine arranged for line NNPB Technology.
- One Robotic Auto swabbing machine provided new line.
- One Line servo feeder arranged in place of mechanical feeder.
- Stacker & ware transfer arranged for line.
- Four stirrer arranged in forehearth in lines.

AGI Glass Bhongir unit:

- Installed the magnetic separator for sand and raw materials to improve the Glass quality in specialty glass plant.
- Gob Optical Measurement system in line to measure the online temperature of GOB.
- Abnormal Height Inspection system installed in line to inspect bottle height.
- Colour Shade detection system in decoration quality lab.
- Extra cooling blowers added in the Working End & FH area to control the temperature more efficiently.
- On line PM module & down time report implemented.
- Cullet sorting plant processing capacity enhanced and installed cullet fines recovery optical sorter equipment's to reduce waste generation from cullet processing unit.
- Upgradation of one 1.25MVA transformer is done by 2.5MVA transformer and latest relay panel installed.
- Installed cold end cooling system in furnace to reduce cold end temperature 4 to 6 deg C.
- Installed automatic fire detection and suppression system load centre panels to avoid any major fire accident.

- Installed smoke detectors in all control rooms to avoid any fire accident.
- Upgraded protection circuit with CG numerical relays.
- Installed 500KVA UPS for ESPs to avoid suit carryover during power failure.
- Installed New NNPB machine in line.

AGI Clozures unit:

- We are in the process of establishing a state-of-the-art T-Cork manufacturing facility, dedicated to serving the premium segments of the Alco-beverage and Cosmetics industries. This upcoming facility will feature advanced European technology to ensure exceptional precision and quality in every stage of production.
- We are in the process of developing our Eye Dropper manufacturing facility, known as the 'Eye Dropper Project,' which will be dedicated to producing primary packaging materials for medicinal products. This state-of-the-art facility is being designed in adherence to Good Manufacturing Practice (GMP) principles and will comply with the stringent requirements of International Standard ISO 15378.
- Installed Vision Detection System for the top print defects identification.

II. The benefits derived like product improvement, cost reduction, product development or import substitution

AGI Glass Hyderabad unit:

- Improvement in operational efficiency.
- After arrangement of shear spray system, saving in oil and water consumption achieved.
- Quality and efficiency improved after arrangement of stirrers in forehearth
- After arrangement of servo feeder in line job change time reduced and glass saving achieved
- Line new AIS Machine installed, productivity & quality improved.
- Line ware-handling installed, Efficiency improved.

AGI Glass Bhongir unit:

- Lehr procured from Indian vendor.
- NNPB blower developed domestic vendor, as import substitution.

AGI Clozures unit:

- Improvement in Plant Overall Efficiency (OEE).

26. Overview of the entity's material responsible business conduct issues:

Please indicate material responsible business conduct and sustainability issues pertaining to environmental and social matters that present a risk or an opportunity to your business, rationale for identifying the same, approach to adapt or mitigate the risk along-with its financial implications, as per the following format.

| S. No. | Material issue identified | Indicate whether risk or opportunity (R/O) | Rationale for identifying the risk/opportunity | In case of risk, approach to adapt or mitigate | Financial implications of the risk or opportunity (Indicate positive or negative implications) |
|--------|-------------------------------------|--|--|--|---|
| 1. | GHG Emissions and Energy Management | Risk and opportunity | <p>The glass industry is part of the energy-intensive industry posing a major challenge to fulfil the CO₂ reduction targets of the Paris Climate Agreement. Effective GHG emission monitoring and energy management is essential to address the regulatory, technological, reputation and supply chain risks arising out of carbon emissions and further address client requirements on emissions.</p> <p>Few identified risks are:</p> <ul style="list-style-type: none"> » Compliance with energy savings and targets under PAT scheme in future. » Compliance with stringent carbon regulations can lead to higher operational costs due to the need for advanced emission control technologies and cleaner energy sources. » Risks of increase in business expenses due to the exploitation and non-use of fossil fuel subsidies » The risk related to non-conformance with the upcoming carbon pricing mechanism » ESG performance rating risk for a company's greenhouse gas emissions » Suppliers facing increased costs due to carbon pricing, which can be passed down to glass manufacturers. | <p>AGI Greenpac is continuously increasing the share of renewable resources by reducing the reliance on fossil fuels. We have installed solar power plants, and we have started replacing diesel forklifts with electrical forklifts. We have started using IE3, IE4 energy efficient motors in the plant along with star rated equipment to increase energy efficiency.</p> <p>We have installed electrostatic precipitator with scrubber mechanism to remove Sox and particulate matter. Additionally, we are investing in R&D to manufacture innovative glass that could result in less GHG emissions. By setting internal target to increase the cullet utilisation to 50% by 2027 (internal & external) we are aiming to reduce our share to GHG emissions.</p> | <p>Positive: Cost Optimisation</p> <p>Negative: Investment in energy-efficient technology. Reputational damage in the event of failing to meet greenhouse gas reduction commitments</p> |
| 2. | Water Management | Risk and opportunity | <p>Water scarcity poses a significant business continuity risk, as most of our activities require substantial water usage.</p> <p>The production of glass packaging involves significant use of water, especially in cooling processes, cleaning of raw materials, and forming operations. Water shortages can disrupt these processes, leading to production delays and increased costs. Moreover, contaminated water can affect the quality of the glass produced. Impurities in water used during manufacturing can lead to defects in the glass, such as bubbles or inconsistencies in the material.</p> <p>Meeting stringent effluent standards requires investment in advanced water treatment technologies, which can increase operational costs.</p> | <p>AGI Greenpac has implemented rainwater harvesting, zero liquid discharge policies, and reuse 50% of water through STPs and RO systems. Innovations like the dry optical cullet sorter and repurposing RO reject water have significantly reduced our freshwater consumption. We rigorously monitor water use, maintain detailed SOPs, and adopt a uniform discharge practice across all units. By setting internal targets and activating an Internal Water Price (IWP), we continuously strive to reduce water consumption and achieve water positivity. We have set the target to reduce freshwater and groundwater consumption by 10% by 2026 and have initiated water replenishment through the creation of ponds and artificial lakes.</p> | <p>Positive: Water conservation leads to cost optimisation</p> <p>Negative: Water shortages could disrupt our business operations and result in significant financial losses</p> |

| S. No. | Material issue identified | Indicate whether risk or opportunity (R/O) | Rationale for identifying the risk/opportunity | In case of risk, approach to adapt or mitigate | Financial implications of the risk or opportunity (Indicate positive or negative implications) |
|--------|---------------------------------|--|---|--|---|
| 3. | Waste Management | Risk and opportunity | Reusing waste glass and incorporating recycled cullet can promote resource efficiency, potentially lower production costs and enhancing the overall profitability of AGI's glass manufacturing processes. | AGI Greenpac has implemented a dedicated sustainable waste management system, reusing 100% of production waste and recycling over 2.0 lakh tonnes of cullet annually. We ensure high quality cullet through increased recycled glass utilization. We responsibly dispose of hazardous waste through authorized vendors and reuse waste from the ESP plant. Additionally, we aim for zero waste to landfill and have implemented comprehensive compliance measures, including regular reviews by Environmental committee, to enhance our waste management practices by increasing recyclable (internal & external) cullet utilisation to 50% by 2027. | Positive: Cost optimisation through reuse and recycling Negative: Regulatory fines, related health issues, and potential reputational damage |
| 4. | Diversity, equity and Inclusion | Risk and opportunity | Performance of the company can be enhanced by improving and increasing the employee diversity in terms of gender, age, ethnicity, etc. A diverse pool of employees can lead to enhanced problem-solving skills, improved efficiency. This could also help our Company with enhancing its reputational image by incorporating the culture of equity and inclusivity. | AGI Greenpac is dedicated to promoting diversity, equity, and inclusion through a comprehensive policy that includes baselining workforce diversity by gender and age. We strive to maintain a gender-balanced working community and prioritise creating an inclusive workplace environment. We aim to ensure equal employment opportunities with competitive compensation and benefits, fostering an inclusive environment for all employees. | Positive: Enhance innovation and drive financial growth Negative: Potential Reputational Damage |
| 5. | Human capital development | Risk and opportunity | Experienced and adept workforce members are a resource to the Company. The difficulty in retaining and attracting the skilled workforce can negatively impact the productivity, business goals, ultimately lowering the retention rates and increasing turnover costs. | AGI Greenpac conducts integrated talent management programmes to ensure holistic development. In addition to this, we also encourage personal development of employees and workers by providing them career path and succession planning programmes. We also reward our workforce with Star Performers Awards, Marriage Gift Vouchers, Happy Hours to keep employees motivated and prioritise their mental well-being. We provide a variety of trainings to our employees and workers including sustainability, health & safety, and skill upgradation. | Positive: Strategic human capital management can significantly improve employee productivity, therefore increasing profitability and overall financial performance Negative: Potential Reputational Damage |
| 6. | Occupational health and safety | Risk and opportunity | The implementation of occupational safety measures is essential for AGI Greenpac to prevent accidents and injuries, ensuring the well-being of all workers. Failure to prevent these accidents can lead to severe consequences, including loss of life, material damage, and reputational harm that could result in customer loss. | AGI Greenpac ensures Occupational Health and Safety through ISO 45001:2018 certification and various employee benefits such as EHS training, transitioning to battery-operated forklifts to reduce noise, and addressing unsafe conditions promptly. We are developing policy benefits and wellness programmes to prioritise employee well-being. Regular feedback surveys and plans to double safety training hours are in process as an approach to ensure safety of our workforce. | Positive: Ensures uninterrupted business activity Negative: Failure in the safety management system may lead to the person-hour loss and therefore impact the productivity of our operations |

| S. No. | Material issue identified | Indicate whether risk or opportunity (R/O) | Rationale for identifying the risk/opportunity | In case of risk, approach to adapt or mitigate | Financial implications of the risk or opportunity (Indicate positive or negative implications) |
|--------|--|--|--|--|---|
| 7. | Human rights | Risk and opportunity | Violations of human rights can expose our Company to regulatory and legal challenges, coupled with severe reputational damage. This can ultimately lead to a loss of profitability and customer base. | AGI Greenpac has implemented policies and procedures regarding human rights and a code of conduct, which are regularly updated through a human rights assessment. Additionally, we have established a focused committee to prioritise and address all human rights complaints. We also provide regular trainings on human rights issues to all our employees and workers to educate them on their basic rights. | Positive: Enhance innovation and uninterrupted business operations Negative: Potential to impact the brand image, inability to retain good talent and regulatory fines and notices, etc. |
| 8. | Business ethics, compliance, and integrity | Risk and Opportunity | Adherence to the highest standards of transparency and ethics are important to achieve corporate governance excellence and in turn gain confidence of our stakeholders. | AGI Greenpac fosters ethics, transparency, and accountability through a comprehensive Code of Conduct applicable to the entire workforce. Our Whistleblower Policy ensures a vigilant reporting mechanism for stakeholders. Our diverse Board of Directors ensures varied perspectives and monitors target setting for environmental sustainability. Annual performance evaluations are carried out, considering financial and non-financial metrics. | Positive: Compliance negates the possible violations that can lead to litigations, regulatory fines, or penalties Negative: Unethical behaviour, non-compliance and violation in any form may lead to reputational risk, loss of investor's trust and brand value |
| 9. | Responsible Supply Chain | Risk and Opportunity | Manufacturing of glass is heavily dependent on the raw materials like Soda Ash, Silica, and limestone. Sourcing these raw materials sustainably and responsibly can minimize the environmental damage from extraction, transportation and can also results in lowering the Scope 3 emissions of our Company. Additionally, stringent regulations regarding labour practices and environmental damage can help ensure compliance and avoiding fines and legal issues. Furthermore, lack of availability of raw materials due to climate uncertainties may lead to production delay and price volatility of such raw materials including funnel oil, gas, and soda ash may also lead to increased procurement costs. Delay in adaptation of advanced technologies to streamline the supply chain can also pose a major risk on the business and operation of AGI Greenpac. | AGI prioritises sustainable sourcing in its business activities and operations. The Company is developing a Company-wide policy on sustainable sourcing, which aims to ensure that all goods and services procured, manufactured, and delivered uphold the principles of labour practices, human rights, ethics, occupational health & safety, and environment as defined in AGI Greenpac's policies. All value chain partners are encouraged to follow the Company's Code of Conduct. The Company is committed to sourcing raw materials, products, and services while maintaining a balance between social, economic, and environmental impacts. The Company has developed mines and crushing plants near its manufacturing plants for input materials. These mines and plants provide livelihood opportunities to the local community, ensuring that the quality of the raw materials is maintained and lowering transport-related costs and carbon footprint. Bulk Soda Ash has been procured through Concur, which aids in reducing frequent vehicle movement and carbon footprint. | Positive: Promoting a responsible supply chain can enhance brand reputation and assist in avoiding fines and notices by ensuring statutory compliance Negative: Non-compliance with environmental regulations or ethical labour practices can lead to fines and penalties. Disruptions caused in value chain or sourcing of responsible materials can lead to production delays and increase in costs |

Governance, leadership and oversight

7. Statement by Director responsible for the business responsibility report, highlighting ESG-related challenges, targets, and achievements (listed entity has flexibility regarding the placement of this disclosure)

At AGI Greenpac, a leader in the packaging industry, we firmly believe that sustainability is not just a responsibility—but a strategic imperative. Our Environmental, Social, and Governance (ESG) commitments are central to our long-term growth and the value we create for our stakeholders. This belief is embedded in the fabric of our organization and drives the vision, direction, and priorities we set.

We reinforce our commitment by strengthening our ESG strategy and establishing a robust roadmap to guide future actions. Our approach moves beyond regulatory compliance — focusing instead on collaboration with stakeholders to pursue shared sustainability objectives.

Our ESG vision is structured around three core pillars:

**i. Environmental Progress & Achievements**

We continue to prioritize environmental responsibility by promoting resource efficiency and minimizing waste. Our Bhongir specialty glass facility, which earned the Platinum Green Building certification, is a testament of our commitment to sustainable operations. All AGI plants now follow a Zero Liquid Discharge system, ensuring responsible wastewater treatment.

We have implemented targeted initiatives to reduce greenhouse gas emissions, including the installation of Variable Frequency Drive (VFD) panels and adoption of energy-efficient equipment across all facilities. These are complemented by solar heating systems and rainwater harvesting, strengthening our alignment with both the UN Sustainable Development Goals and India's national sustainability agenda.

ii. Empowering People

AGI Greenpac is deeply committed to creating a safe, inclusive, and empowering workplace. We extend our efforts beyond compliance, offering human rights education and skill development programs to enhance employee growth. Our human capital strategy is designed to identify and nurture future leaders, enabling us to sustain long-term success while supporting community well-being.

iii. Transparency & Governance

We uphold transparency and accountability as core business values, ensuring that integrity guides every decision we make. In line with India's sustainable development goals, we operate with openness and responsibility. Last year, we also launched a state-of-the-art Research & Development (R&D) centre, equipped with advanced laboratories and testing facilities to support sustainable innovation and deliver value-added solutions to our customers.

This year serves as a strong foundation for our evolving ESG roadmap. We are actively identifying new opportunities to support economic progress, environmental protection, and societal well-being. With every step forward, AGI Greenpac remains dedicated to advancing a sustainable future—creating lasting value for our stakeholders and making a meaningful impact on the world around us.

8. Details of the highest authority responsible for implementation and oversight of the Business Responsibility policy(ies).

At the highest level, the Board of Directors of the Company, led by the Chairman and Managing Director, plays a crucial role as trustees to safeguard and enhance shareholder value by strategically supervising AGI.

As members, the Board ensures that the Company establishes clear goals aligned with shareholder value and growth, consistent with its Sustainability commitments.

The Risk Management Committee at AGI Greenpac, comprising of Directors and Officials, oversees matters related to sustainability. AGI has established a robust risk management process that helps us identify, treat, and mitigate the risks impacting the business internally and externally across our operations. AGI's top management, through the risk management framework, regularly monitors top risks and has helped us to stay ahead of the curve.

In addition to this, the Company undertakes and validates its risk appetite periodically and any new or emerging risks are integrated into the risk management structure, enabling effective decision-making. The CSR Committee of the Board reviews and oversees implementation of the sustainability activities of the Company on half-yearly basis. In addition, the Committee and the Board also review the progress of implementation of the Company's CSR Programmes, on half-yearly basis.

The Business Unit heads and Heads of Corporate Functions are accountable for implementing the Corporate and Sustainability Policies of the Company within their respective functions and ensuring communication of these policies to employees.

9. Does the entity have a specified Committee of the Board/Director responsible for decision-making on sustainability related issues? (Yes/No). If yes, provide details.

Yes, AGI Greenpac's Risk Management Committee is responsible for overseeing sustainability related matters. The committee comprises of Directors and Officials. The Company takes a proactive approach to managing risks through establishing a well-defined risk management process for identifying, addressing, and mitigating the potential risks impacting the business internally and externally across its operations. Through the risk management framework, AGI's top management regularly monitors key risks, ensuring us to maintain a proactive approach for addressing any future challenges. Additionally, we evaluate and review its risk tolerance regularly and integrate any new and emerging threats into our risk management structure, allowing for informed decision-making.

We are in the process of developing a Company-wide policy on sustainable sourcing, which aims to ensure that all goods and services procured, manufactured, and delivered uphold the principles of labour practices, human rights, ethics,

Business Responsibility and Sustainability Report

occupational health, safety, and environment as defined in our policies. Business partners of AGI Greenpac are encouraged to follow the Company's Code of Conduct. AGI is committed to sourcing significant raw materials, products, and services while maintaining a balance between social, economic, and environmental impacts. Two such examples of this in practice at AGI Greenpac are below:

1. We have developed mines and crushing plants near its manufacturing plants for input materials. These mines and plants provide livelihood opportunities to the local community, ensuring that the quality of the raw materials is maintained and lowering transport-related costs and carbon footprint.
2. Bulk Soda Ash has been procured through Concur, which aids in reducing frequent vehicle movement and carbon footprint

b. If yes, what percentage of inputs was sourced sustainably?

Through focused effort at AGI Greenpac today, 44.5% of the raw materials are sourced from sustainable suppliers.

3. Describe the processes in place to safely reclaim your products for reusing, recycling and disposing at the end of life, for (a) Plastics (including packaging) (b) E-waste (c) Hazardous waste and (d) other waste:

| | |
|--------------------------------|---|
| Plastics (including packaging) | The waste is segregated at source and further sent to authorised recyclers as per State Pollution Control Board guidelines. |
| E-waste | The waste is segregated at source and further sent to authorised recyclers as per State Pollution Control Board guidelines. |
| Hazardous waste | The waste is segregated at source and further sent to authorised recyclers as per State Pollution Control Board guidelines. |
| Other waste | - |

At AGI Greenpac, we work with certified third-party vendors stationed at each plant location to manage and dispose of both hazardous and non-hazardous waste. Our waste management process involves aggregating all waste generated at various plant locations in designated areas, typically scrap yards. This waste is then inventoried and disposed off in strict adherence to the guidelines set forth by the State Pollution Control Board (SPCB) or relevant regulatory authorities.

Rejected glass and culets from breakage are collected at AGI sites and from other waste aggregators for size reduction. This process includes through cleaning and washing of the culets. These culets are then re-used as an input material in the production process. AGI has also commissioned cullet and fine sorting machine at Bhongir plant to improve the quality of the cullet.

4. Whether Extended Producer Responsibility (EPR) is applicable to the entity's activities (Yes/No). If yes, whether the waste collection plan is in line with the Extended Producer Responsibility (EPR) plan submitted to Pollution Control Boards? If not, provide steps taken to address the same.

Yes, Extended Producer Responsibility (EPR) applies to AGI Greenpac. The company has filed nine PIBO applications, all of which have been approved, except for the application for the Selaqui unit, which is still pending approval from the Pollution Control Board (PCB).

PRINCIPLE 3: Businesses should respect and promote the well-being of all employees, including those in their value chains

AGI Greenpac is deeply committed to respecting and promoting the well-being of all employees, both within its organisation and throughout its value chains. The Company fosters an environment where all individuals, regardless of caste, creed, gender, race, religion, or disability, have equal access to opportunities based solely on merit. This commitment extends from recruitment practices to ongoing employment.

The Company prioritises the safety and well-being of its employees, ensuring a secure and hygienic work environment. Comprehensive training, including induction and periodic sessions, is provided to equip employees with the knowledge and skills to use protective equipment and identify and mitigate unsafe working conditions. Accident prevention is a core focus, supported by a robust health and safety policy. Continuous investment in employee skill development is a cornerstone of the Company's approach. Structured training, skill development programs are consistently implemented to enhance employee capabilities; along with various initiatives to promote employee well-being.

10. Health and safety management system:

a. Whether an occupational health and safety management system has been implemented by the entity? (Yes/No). If yes, the coverage such system?

Yes, AGI accords high priority to Health and Safety of the entity and all its stakeholders. We are ISO 45001:2018 (Occupational Health and Safety) certified. This standard enables organisation to provide safe and healthy workplaces by preventing work-related injury and ill health, as well as by proactively improving its Occupational Health and Safety performance. The system covers all employees, workers and interested party's health and safety at each certified location.

Employees working at the plants are trained on environment, health and safety best practices regularly and in accordance with the Company policy and local and statutory regulations.

b. What are the processes used to identify work-related hazards and assess risks on a routine and non-routine basis by the entity?

Health and Safety are core priorities at AGI Greenpac and are assessed on both routine and non-routine bases. As part of its Environment, Health, and Safety (EHS) management framework, AGI Greenpac integrates Health and Safety through a structured approach to identifying work-related hazards and risks. This includes the implementation of Hazard Identification and Risk Assessment (HIRA) across all operations.

To ensure workplace safety, the Company employs a range of effective measures, such as regular plant safety inspections, third-party safety audits, and mock emergency drills. Additionally, safety systems like On-Site Emergency Mock Drills, Work Permit Systems, and Lockout-Tagout procedures are implemented across all plants and offices. These processes are aligned with the ISO 45001 standard, enabling AGI Greenpac to accurately assess potential risks and determine the necessary preparedness for effective mitigation.

c. Whether you have processes for workers to report the work-related hazards and to remove themselves from such risks. (Y/N)

Yes, AGI Greenpac values the benefits of promptly reporting work-related hazards. This helps the Company identify problem areas quickly and reduce the avoidable risks for employees in the future in a timely manner.

All AGI Greenpac employees are well-trained at the commencement of job on the Company's safety protocols, procedures and policies, including the incident reporting mechanism.

AGI Greenpac provides formalised channels for Employees and workers to report any unsafe conditions or behaviour via suggestion boxes, internal safety groups, WhatsApp, Mail communication, etc. Employees can also raise their concerns at formal gathering e.g. Safety Committee Meetings or Daily Operational Review Meetings. All concerns and observations brought to AGI Greenpac's attention is recorded, tracked, and reviewed each month.

| Water intensity in terms of physical output | 0.44 | 0.45 |
| Water intensity (optional) – the relevant metric may be selected by the entity | - | - |

Note: Indicate if any independent assessment/evaluation/assurance have been carried out by an external agency? (Y/N) If yes, name of the external agency.

Yes, the Confederation of Indian Industry (CII) conducted third-party water audit at Bhongir plant.

4. Provide the following details related to water discharged:

| Parameter | FY 2024-25 | FY 2023-24 |
|--|--|------------|
| Water discharge by destination and level of treatment (in kilolitres) | The Company follows Zero Liquid Discharge (ZLD) mechanism across all its plants. | |
| (i) To Surface water | | |
| - No treatment | | |
| - With treatment – please specify level of Treatment | | |
| (ii) To Groundwater | | |
| - No treatment | | |
| - With treatment – please specify level of Treatment | | |
| (iii) To Seawater | | |
| - No treatment | | |
| - With treatment – please specify level of Treatment | | |
| (iv) Others | | |
| - No treatment | | |
| - With treatment – please specify level of Treatment | | |
| Total water discharged (in kilolitres) | | |

Note: Indicate if any independent assessment/evaluation/assurance have been carried out by an external agency? (Y/N) If yes, name of the external agency.

No, the Company has not carried out any third-party assurance for water discharge.

5. Has the entity implemented a mechanism for Zero Liquid Discharge? If yes, provide details of its coverage and implementation.

Yes. AGI Greenpac collects, treats, and recycles its effluent water using a Zero Liquid Discharge (ZLD) system installed within its plant. The treatment process involves collection of all the effluents in a common collection tank and treatment in the Effluent Treatment Plant (ETP) followed by ultra-filtration and Reverse Osmosis (R.O.) process. All the chemicals, minerals and metals are removed from the treated water, making it suitable for cooling towers and process operations like shear cooling, hot cullet cooling, and cullet washing. Additionally, the rejected R.O. water is further utilized in the batch preparation procedure for raw materials.

6. Please provide details of air emissions (other than GHG emissions) by the entity, in the following format:

| Parameter | Please specify unit | FY 2024-25 | FY 2023-24 |
|-------------------------------------|---------------------|------------|------------|
| NO _x | mg/Nm ³ | 200.36 | 134.67 |
| SO _x | mg/Nm ³ | 135.01 | 102.20 |
| Particulate Matter (PM) | mg/Nm ³ | 40.39 | 39.83 |
| Persistent organic pollutants (POP) | mg/Nm ³ | NA | NA |
| Volatile organic compounds (VOC) | mg/Nm ³ | NA | NA |
| Hazardous air pollutants (HAP) | mg/Nm ³ | NA | NA |
| Others – please specify | mg/Nm ³ | NA | NA |

Note: Indicate if any independent assessment/evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

Yes, Universal Enviro Tech conducted the third-party audit for Bhongir and Hyderabad plants.

7. Provide details of greenhouse gas emissions (Scope 1 and Scope 2 emissions) and its intensity, in the following format:

| Parameter | Unit | FY 2024-25 | FY 2023-24 |
|--|---|-------------|------------|
| Total Scope 1 emissions (Break-up of the GHG into CO ₂ , CH ₄ , N ₂ O, HFCs, FCs, SF ₆ , NF ₃ , if available) | Metric tonnes of CO ₂ equivalent | 2,98,651.43 | 3,10,531 |
| Total Scope 2 emissions (Break-up of the GHG into CO ₂ , CH ₄ , N ₂ O, HFCs, PFCs, SF ₆ , NF ₃ , if available) | Metric tonnes of CO ₂ equivalent | 1,60,620.25 | 1,55,760 |
| Total Scope 1 and Scope 2 emissions per million rupees of turnover | Metric tonnes of CO ₂ equivalent/million rupee of Turnover | 18.28 | 19.26 |
| Total Scope 1 and Scope 2 emission intensity per rupee of turnover adjusted for Purchasing Power Parity (PPP) (Total Scope 1 and Scope 2 GHG emissions/Revenue from operations adjusted for PPP) | | - | - |
| Total Scope 1 and Scope 2 emission intensity in terms of physical output | Metric tonnes of CO ₂ equivalent/MT | 0.74 | 0.78 |
| Total Scope 1 and Scope 2 emission intensity (optional) – the relevant metric may be selected by the entity | | - | - |

Note: Indicate if any independent assessment/evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

No, there has not been any independent assessment/evaluation/assurance carried out by an external agency; however, the Company plans to get assessment/evaluation/assurance in the forthcoming years.

8. Does the entity have any project related to reducing Green House Gas emission? If yes, then provide details.

Yes. AGI Greenpac has adopted various energy efficiency practices which have enabled the Company to reduce its GHG emissions significantly. AGI has committed to reduce its carbon footprint and increase use of renewable energy by 2030. As part of this commitment, AGI Greenpac operates with onsite renewable energy generation and in addition, it also obtains renewable electricity through open access.

Additionally, the Company has implemented various measures aimed at efficiently managing its energy usage and ultimately reducing greenhouse gas emissions. These measures include:

- » Installation of energy-efficient compressors.
- » Switched to sensor-based lighting systems in control rooms.
- » Natural Daylight Utilization by installing skylights in the NHWII shop.
- » Installed energy-efficient blowers on production lines.
- » Replaced CFL lights with energy-efficient LED lighting across office spaces.
- » Modified F-4 vacuum pump headers and reduced vacuum units to optimize energy usage.
- » Installed zero air loss auto-drain valves to prevent energy wastage from compressed air systems.
- » Cooling Tower Fan Optimization with VFDs and installed high efficiency after coolers.
- » Installed a low operator system for Furnace-V to improve energy efficiency through optimized material handling processes.

9. Provide details related to waste management by the entity, in the following format:

| Parameter | FY 2024-25 | FY 2023-24 |
|---|-----------------|-----------------|
| Plastic waste (A) | 250.95 | 291.99 |

Note: Indicate if any independent assessment/evaluation/assurance have been carried out by an external agency? (Y/N) If yes, name of the external agency.

No, there has not been any independent assessment/evaluation/assurance carried out by an external agency, however, the Company plans to get assessment/evaluation/assurance in the forthcoming years.

10. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.

AGI Greenpac practices a closed loop approach to waste and water. AGI has implemented an effective waste management system, facilitating proper waste segregation at its source and promotes recycling. We adhere to a 'zero waste to landfill' practice, ensuring most waste is sent to authorised recyclers. AGI's Speciality Glass unit in Bhongir is certified as 'Platinum rated Green Building' and the waste generation has significantly been reduced by installing cullet sorter and fine sorter machines. Additionally, as part of its wastewater management efforts, the Company has adopted a zero liquid discharge system to eliminate water discharge.

11. If the entity has operations/offices in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones, etc.) where environmental approvals/clearances are required, please specify details in the following format:

| S. No. | Location of operations/offices | Type of operations | Whether the conditions of environmental approval / clearance are being complied with? (Y/N). If no, the reasons thereof and corrective action taken, if any |
|---|--------------------------------|--------------------|---|
| Not Applicable as the Company does not have operations/offices in/around ecologically sensitive areas | | | |

12. Details of environmental impact assessments of projects undertaken by the entity based on applicable laws, in the current financial year:

| Name and brief details of project | EIA Notification No. | Date | Whether conducted by Independent external agency (Yes/No) | Whether conducted by independent external agency (Yes/No) | Relevant Weblink |
|-----------------------------------|----------------------|------|---|---|------------------|
| Not Applicable | | | | | |

13. Is the entity compliant with the applicable environmental law/regulations/guidelines in India, such as the Water (Prevention and Control of Pollution) Act, Air (Prevention and Control of Pollution) Act, and Environment protection act and rules thereunder (Y/N). If not, provide details of all such non-compliances, in the following format:

| S. No. | Specify the law/regulation/ guidelines which was not complied with | Provide details of the non-compliance | Any fines /penalties/action taken by regulatory agencies such as pollution control boards or by courts | Corrective action taken if any |
|----------------|--|---------------------------------------|--|--------------------------------|
| Not Applicable | | | | |

The Company has stringent internal controls for ensuring compliance to all guidelines and standards set by CPCB/SPCBs.

Leadership Indicators

1. Water withdrawal, consumption, and discharge in areas of water stress (in kilolitres):

For each facility/plant located in areas of water stress, provide the following:

(i) **Name of the area:** Hyderabad plant location falls under water stress area.

(ii) **Nature of operations:** Container Glass bottles

(iii) **Water withdrawal, consumption, and discharge in the following format:**

| Parameter | FY 2024-25 | FY 2023-24 |
|--|--|---------------|
| Water withdrawal by source (in kilolitres) | | |
| (i) Surface water | Nil | Nil |
| (ii) Groundwater | Nil | Nil |
| (iv) Third party water | 76,444 | 75,220 |
| (iv) Seawater/desalinated water | Nil | Nil |
| (v) Others | Nil | Nil |
| Total volume of water withdrawal (in kilolitres) | 76,444 | 75,220 |
| Total volume of water consumption (in kilolitres) | 76,444 | 75,220 |
| Water intensity per rupee of turnover (Water consumed/turnover) | - | - |
| Water intensity (optional) – the relevant metric may be selected by the entity | - | - |
| Water discharge by destination and level of treatment (in kilolitres) | | |
| (i) Into Surface water | The Company follows Zero Liquid Discharge (ZLD) mechanism across all its plants. | |
| - No treatment | | |
| - With treatment – please specify level of treatment | | |
| (ii) Into Groundwater | | |
| - No treatment | | |
| - With treatment – please specify level of treatment | | |
| (iii) Into Seawater | | |
| - No treatment | | |
| - With treatment – please specify level of treatment | | |
| (iv) Sent to third parties | | |
| - No treatment | | |
| - With treatment – please specify level of treatment | | |
| (v) Others | | |
| - No treatment | | |
| - With treatment – please specify level of treatment | | |
| Total water discharged (in kilolitres) | | |

We have identified Hyderabad plant as water stressed area based on the guidance provided on BRSR by SEBI, highlighting areas covered under critical and over exploited categories in the guidelines mentioned by Central Ground Water Board.

Note: Indicate if any independent assessment/evaluation/assurance have been carried out by an external agency? (Y/N) If yes, name of the external agency.

No

2. If the entity has undertaken any specific initiatives or used innovative technology or solutions to improve resource efficiency, or reduce impact due to emissions/effluent discharge/waste generated, please provide details of the same as well as outcome of such initiatives, as per the following format:

| Sr. No | Initiative undertaken | Details of the initiative (Web-link, if any, may be provided along with summary) | Outcome of the initiative |
|--------|---|--|--|
| 1. | Installed sensor-based lighting in control Rooms | AGI Greenpac has implemented sensor-based lighting systems in control rooms as part of its sustainability efforts. | This innovative solution enhances energy efficiency by ensuring lights operate only when needed, thereby reducing electricity consumption and lowering associated emissions. |
| 2. | Installed Energy efficient compressor | AGI Greenpac installed an energy-efficient compressor. | This measure enhances operational efficiency while contributing to the reduction of energy-related environmental impacts, achieving an overall annual energy savings |
| 3. | Installed energy efficient blowers | AGI Greenpac has installed energy-efficient blowers on the production lines. | This initiative supports the company's commitment to improving resource efficiency and minimizing its carbon footprint, resulting in an overall annual energy savings. |
| 4. | Installed skylights on NHWII Shop | AGI Greenpac installed skylights in the NHWII shop floor, covering the machine area. | This initiative leverages natural daylight to reduce reliance on artificial lighting, resulting in an annual energy saving and supporting sustainable energy use. |
| 5. | Replacement of CFL lights to LED lights in offices | AGI Greenpac replaced CFL lights with energy-efficient LED lighting across its office spaces to enhance energy efficiency. | This upgrade contributed to reduced electricity consumption and environmental impact leading to an annual energy savings. |
| 6. | Installation of Zero air loss auto drain valves | AGI Greenpac has installed zero air loss auto-drain valves to prevent energy wastage from compressed air systems. | This initiative saves overall electricity consumption. |
| 7. | VFD's installation for CT Fans | AGI Greenpac has installed Variable Frequency Drives (VFDs) for cooling tower fans to optimize power consumption | This initiative helps in reducing energy usage by optimizing power consumption. |
| 8. | PF improvement at load end Panel | AGI Greenpac has implemented power factor improvement measures at load end panels. | This initiative provides annual electrical energy also improved power factor reduces electrical system losses and optimizes electrical infrastructure performance. |
| 9. | Proposal for motion / Occupancy Sensor installation | AGI Greenpac has proposed installation of motion/occupancy sensors. | This helps to reduce unnecessary lighting usage. |
| 10. | Conventional lights replaced by LED lights | AGI Greenpac has replaced conventional lighting systems with energy-efficient LED lights across facilities. | This helps in saving overall electricity consumption. |

3. Does the entity have a business continuity and disaster management plan? Give details in 100 words/web link

Yes, AGI has an Emergency Preparedness Plan which is designed to address industrial emergencies such as fires, explosions, and hazardous chemical releases within the plant premises. The plan focuses on ensuring a quick and effective response to emergencies to mitigate potential risks to personnel, property, and the environment. The plan outlines the following objectives:

- » Standard Operating Procedures (SOP) for normal operations and emergency situations
- » Clearly defined roles and responsibilities for statutory officials during emergencies
- » Identification of likely emergencies, including major fires and other potential incidents
- » Prioritization of actions to protect personnel, minimises losses, and restore normalcy
- » Emergency communication system to facilitate coordination and information dissemination
- » First aid facilities and trained personnel for medical emergencies
- » Fire alarm system for early detection and warning
- » Communication flow for receiving and responding to emergency information

- » Measures for mock drill
- » Establishment of a First Aid Cum Rescue Team with a list of members
- » Identification of Trained Fire Fighters within the organisation
- » Maintenance of contact details for External Officials for effective coordination during emergencies
- » Compilation of addresses and telephone numbers of neighbouring companies for collaborative emergency response
- » Documentation of addresses and contact information for Security In-charges
- » List and addresses of Qualified Trained Persons in LPGLSHS/DG/Furnace operations
- » Inventory of Equipment and Facilities available at the Emergency Control Centre (ECC) for efficient emergency response
- » Plan for Rescue and Rehabilitation efforts to ensure the safety and well-being of personnel

The Emergency Preparedness Plan is comprehensive, aiming to ensure the safety and well-being of personnel, minimise potential damages, and facilitate a smooth recovery from emergencies

PRINCIPLE 7: Businesses, when engaging in influencing public and regulatory policy, should do so in a manner that is responsible and transparent

AGI Greenpac prioritises paramount importance in its engagement with government affairs and public policy advocacy. The Company has internal teams that coordinate these efforts. Strategic decisions regarding advocacy are deliberated upon by employees at the top management, and only authorised personnel partake in these processes. The Company may participate in discussions on policies that directly impact its business and its customers, encompassing areas such as privacy, intellectual property, and sustainability. Additionally, the Company ensures to facilitate an understanding among policymakers at all levels of government regarding its products, innovations, and business operations.

Essential Indicators

1. a. Number of affiliations with trade and industry chambers/associations

AGI Greenpac is affiliated to 5 trade and industry chambers/associations.

b. List the top 10 trade and industry chambers/associations (determined based on the total members of such body) the entity is a member of/affiliated to:

| S. No. | Name of the trade and industry chambers/associations | Reach of trade and industry chambers/ associations (State/National) |
|--------|--|---|
| 1 | All India Glass Manufacturer Federation (AIGMF) | National |
| 2 | Confederation of Indian Industry (CII) National | National |
| 3 | Indian Institute of Packaging (IIP) | National |
| 4 | Federation of Telangana Chamber of Commerce and Industry (FTCCI) | State |
| 5 | The Employers' Federation of Southern India (EFSI) | State |

2. Provide details of corrective action taken or underway on any issues related to anti-competitive conduct by the entity, based on adverse orders from regulatory authorities.

| Name of Authority | Brief of the case | Corrective action taken |
|-------------------|---|-------------------------|
| | Not applicable, as there were no adverse orders from regulatory authorities | |

PRINCIPLE 8: Businesses should promote inclusive growth and equitable development

The Company, as part of its commitment as a responsible corporate citizen, actively engages in social responsibility and community development activities. These initiatives, conducted internally with employee engagement and resource allocation, adhere to the Company's CSR policy. The focus remains on supporting disadvantaged segments of society, particularly those residing in areas surrounding the Company's plant locations.

Essential Indicators

1. Details of Social Impact Assessments (SIA) of projects undertaken by the entity based on applicable laws, in the current financial year.

| Name and brief details of project | SIA Notification No. | Date of notification | Whether conducted by independent external agency (Yes/No) | Results communicated in public domain. (Yes/No) | Relevant Web Link |
|---|----------------------|----------------------|---|---|-------------------|
| Not applicable as there were no projects undertaken that required an SIA in the current financial year. | | | | | |

2. Provide information on project(s) for which ongoing Rehabilitation and Resettlement (R&R) is being undertaken by your entity, in the following format:

| S. No. | Name of Project for which R&R is ongoing | State | District | No. of Project Affected Families (PAFs) | % of PAFs covered by R&R | Amounts paid to PAFs in the FY (In ₹) |
|--|--|-------|----------|---|--------------------------|---------------------------------------|
| Not applicable as there were no projects requiring an R&R. | | | | | | |

3. Describe the mechanisms to receive and redress grievances of the community.

AGI Greenpac acknowledges its significant impact on local communities and actively engages with stakeholders to understand and incorporate their perspectives into our business practices. Our Inclusive Growth and Equitable Development Policy underscores our commitment to aligning with local and national development priorities. This includes ensuring fair resettlement and rehabilitation for communities displaced by our operations.

We firmly believe in safeguarding the interests of all stakeholders, with a particular focus on supporting disadvantaged, vulnerable, and marginalized groups. Driven by a desire to contribute positively, especially around our manufacturing plants, we undertake need-based initiatives in collaboration with local stakeholders.

4. Percentage of input material (inputs to total inputs by value) sourced from suppliers:

| | FY 2024-25 | FY 2023-24 |
|---|------------|------------|
| Directly sourced from MSMEs/small producers | 21% | 27% |
| Directly from within India | 89% | 83% |

5. Job creation in smaller towns – Disclose wages paid to persons employed (including employees or workers employed on a permanent or non-permanent/on contract basis) in the following locations, as % of total wage cost.

| Location | FY 2024-25 | FY 2023-24 |
|--------------|------------|------------|
| Rural | 63.55 | 63.52% |
| Semi-urban | 1.38 | 1.44% |
| Urban | 3.87 | 3.91% |
| Metropolitan | 31.20 | 31.13% |

Leadership Indicators

1. Provide the following information on CSR projects undertaken by your entity in designated aspirational districts as identified by government bodies:

| S. No | Name of the Project | Location | Spent |
|--------------|---|------------|--------------------|
| 1. | Swasthta Sampad | Bhongir | 21,84,015 |
| 2. | Kaushal Vridhi | Bhongir | 86,68,775 |
| 3. | Swasthta Sampad | Hyderabad | 1,16,928 |
| 4. | Promoting Computer Literacy | Bhongir | 78,025 |
| 5. | Promoting Vocational Skill (Tailoring) | Bhongir | 52,798 |
| 6. | Contribution of Ambulance to Support Healthcare | Bhongir | 45,86,634 |
| 7. | Promotion of Sports | Bhongir | 3,00,000 |
| 8. | Promotion of Sports (Cerebral Palsey Sports Federation of India) | New Delhi | 3,00,000 |
| 9. | School Infrastructure Development | Bhongir | 20,00,000 |
| 10. | Plantation Project (Increasing Farmer's Income Through Fruit Tree Plantation) | Bhongir | 1,50,00,000 |
| 11. | Development of Skill Centre at Bhongir | Bhongir | 1,54,36,082 |
| 12. | Administrative Expenses | Bhongir | 4,16,385 |
| 13. | Road Safety Initiative-Installation/Repair of CCTV Camera | Bhongir | 84,300 |
| 14. | Promoting Sanitation-Renovation of Public Drain | Bhongir | 3,00,001 |
| 15. | Promoting Sanitation-Building & Repair of Toilets at Schools | Bhongir | 36,08,000 |
| 16. | Road Safety Initiative-Installation of CCTV Cameras | Sangareddy | 7,06,997 |
| 17. | Road Safety Initiative - Repair & Construction of Damaged Road | Hyderabad | 17,00,002 |
| 18. | Making Available of Safe Drinking Water | Hyderabad | 1,42,839 |
| 19. | Contribution to Healthcare Support for underprivileged (Rehabilitation and Prosthetic Orthotic) | Mumbai | 1,81,000 |
| 20. | Contribution to Lord Buddha Foundation | Noida | 3,00,000 |
| Total | | | 5,61,62,781 |

2. Do you have a preferential procurement policy where you give preference to purchase from suppliers comprising marginalised/vulnerable groups? (Yes/No):

AGI Greenpac believes in the principles of inclusivity and social responsibility and operates with a strong commitment to upholding the interests of all stakeholders, particularly those who are marginalised, vulnerable, or disadvantaged. While the Company does not currently have a separate preferential procurement policy, it ensures to provide equitable opportunities within its procurement practices.

3. Details of beneficiaries of CSR Projects:

| S. No | CSR Project | No. of person benefitted from CSR Projects | % of beneficiaries from vulnerable and marginalized groups |
|-------|--|--|--|
| 1. | Swasthya Sampada – Bhongir | 5,552 | 100% |
| 2. | Kaushal Vridhi – Bhongir | 110 | 100% |
| 3. | Swasthya Sampada – Hyderabad | 521 | 100% |
| 4. | Promoting Computer Literacy – Bhongir | 33 | 94% |
| 5. | Promoting Vocational Skill (Tailoring) – Bhongir | 17 | 53% |
| 6. | Contribution of Ambulance to Support Healthcare – Bhongir | 150 | 100% |
| 7. | Promotion of Sports – Mountaineering Athlete in Bhongir | 1 | 100% |
| 8. | Promotion of Sports (Cerebral Palsy Sports Federation of India) – New Delhi | 250 | 100% |
| 9. | School Infrastructure Development – Bhongir | 900 | 100% |
| 10. | Plantation Project (Increasing Farmer's Income Through Fruit Tree Plantation)- Bhongir | 597 | 70% |

PRINCIPLE 9: Businesses should engage with and provide value to their consumers in a responsible manner

AGI Greenpac is inherently consumer-centric, with its foundation rooted in the trust, and loyalty of our global consumer base. The Company is dedicated to deliver products that not only attract customers but also address their needs; the Company's offerings are tailored through a deep understanding of consumer requirements, facilitated by innovative technology and a blend of practical experience and contemporary insights. Through stringent compliance measures, responsible corporate governance, and the provision of exceptional products and services, the Company has gained recognition and trust from its clientele. It remains firm in its commitment to maintaining this esteemed reputation into the future. Furthermore, the Company views its customers not merely as purchasers, but as integral members of the marketplace team, whose collaboration is significant for the continued growth of the Company.

Essential Indicators

1. Describe the mechanisms in place to receive and respond to consumer complaints and feedback

Given the B2B model of AGI, emails serve as the primary mode of communication to receive customer complaints or feedback, if any. In addition to this, a 'Customer Concern Portal' is available on the Company's website and can be accessed here. AGI works closely with its customers to develop new products and designs tailored to their needs. By actively incorporating regular feedback from institutional customers, it consistently broadens its product offerings by adding new product ranges, providing a diverse spectrum of customer requirements.

2. Turnover of products and/ services as a percentage of turnover from all products/service that carry information about:

| Particulars | As a percentage of total turnover |
|---|-----------------------------------|
| Environmental and social parameters relevant to the product | NA |
| Safe and responsible usage | 100% |
| Recycling and/or safe disposal | 100% |

3. Number of consumer complaints in respect of the following:

| | FY 2024-25 | | | FY 2023-24 | | |
|--------------------------------|--------------------------|-----------------------------------|---------|--------------------------|-----------------------------------|---------|
| | Received during the year | Pending Resolution at end of year | Remarks | Received during the year | Pending Resolution at end of year | Remarks |
| Data privacy | Nil | Nil | Nil | Nil | Nil | Nil |
| Advertising | Nil | Nil | Nil | 4 | 3* | Nil |

Independent Auditor's Report

To the Members of AGI Greenpac Limited

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of AGI Greenpac Limited ("the Company"), which comprise the Balance Sheet as at 31st March 2025, and the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended, and notes to the standalone financial statements, including a summary of the material accounting policies and other explanatory information (herein after referred to as the "standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March 2025, its profit (including other comprehensive income), changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements for the year ended 31st March 2025. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

| Description of Key Audit Matter | How our audit addressed the key audit matters |
|---|---|
| Recognition of revenue (as described in Note 3.5 and 35 of the standalone financial statements) | |
| <p>The Company recognizes revenues when the control of goods and/ or services are transferred to the customer at an amount that reflects the net consideration, which the Company expects to receive for those goods and/or services from customers in accordance with the terms of the contracts. In determining the sales price, the Company considers the effects of applicable rebates, and discounts (variable consideration).</p> <p>The terms of sales arrangements, including the timing of transfer of control, based on the terms of relevant contract and nature of discount and rebates arrangements, create complexities that require judgment in determining sales revenues.</p> <p>Considering the above factors and the risk associated with revenue recognition, we have determined the same to be a key audit matter.</p> | <p>Our audit procedures included the following:</p> <ul style="list-style-type: none">• We read and evaluated the Company's revenue recognition policy and assessed its compliance in terms of Ind AS 115 'Revenue from contracts with customers'.• We assessed the design and tested the operating effectiveness of internal controls related to sales and applicable rebates/discounts.• We performed test for a sample of sales transactions by comparing the underlying sales invoices, sales orders and other related documents to assess that revenue is recognized on transfer of control to the customer in accordance with the terms of the contract.• We tested on a sample basis rebates and discount schemes as approved by the management to assess its accounting. For the samples selected, we also compared that the actual rebates and discounts recognized in respect of particular schemes do not exceed their approved amounts.• Selected sample of sales transactions made pre- and post-year end, agreed the period of revenue recognition to underlying documents and the terms of sale. |

| Description of Key Audit Matter | How our audit addressed the key audit matters |
|---------------------------------|--|
| | <ul style="list-style-type: none"> Performed analytical procedures on sales and sales return trend. We tested on a sample basis, that revenue has been recognized in the proper period with reference to the supporting documents including confirmations from customers. We read and assessed the relevant disclosures made in the Ind AS standalone financial statements. |

Information Other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Corporate Governance and Shareholder's Information, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. When we read Annual Report, if based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report the fact.

We have nothing to report in this regard.

Responsibility of Management and Those charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgements and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness

of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- » Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- » Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system with reference to

standalone financial statements in place and the operating effectiveness of such controls.

- » Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- » Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Company to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- » Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements for the financial year ended 31st March 2025 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books except for the matters stated in paragraph 2(h)(vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 (as amended) ("the Rules").
 - (c) The Standalone Balance Sheet, the Standalone Statement of Profit and Loss (including Other Comprehensive Income), the Standalone Statement of Changes in Equity and the Standalone Statement of Cash Flows dealt with by this Report are in agreement with the books of account;
 - (d) In our opinion, the aforesaid standalone financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015 (as amended);
 - (e) On the basis of the written representations received from the directors as on 31st March 2025 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March 2025 from being appointed as a director in terms of Section 164 (2) of the Act;
 - (f) With respect to the maintenance of accounts and other matters connected therewith, reference is made to our remarks in paragraph 2(h)(vi) below on reporting under Rule 11(g) of the rules.
 - (g) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
 - (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the

best of our information and according to the explanations given to us:

- i) The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements – Refer Note no. 51 to the standalone financial statements;
 - ii) The Company has made provision, as required under the applicable law or Indian Accounting Standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts; and
 - iii) There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company during the year ended 31st March, 2025.
 - iv) (i) The management has represented that to the best of its knowledge and belief, no funds (which are material either individually or in aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
 - (ii) The management has represented that to the best of its knowledge and belief, no funds (which are material either individually or in aggregate) have been received by the company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
 - (iii) Based on such audit procedures that we have considered reasonable and appropriate in the circumstances,
- nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) above as required by rule 11(e) of Companies (Audit and Auditors) Rules 2014, as amended, contains any material mis-statement.
- v) (i) The dividend declared and paid by the company during the year is in compliance with section 123 of the Companies Act, 2013. (Refer note no. 21)
 - (ii) The Board of Directors of the Company have proposed final dividend for the year FY 2024-25 which is subject to the approval of the members in the ensuing General meeting. The amount of dividend proposed is in accordance with section 123 of the Companies Act, 2013. (Refer note no. 67)
 - vi) Based on our examination which included test checks, the company has a widely used ERP as its accounting software for maintaining its books of accounts during the year ended 31st March 2025, which has a feature of recording audit trail (edit logs) facility and same has been operated throughout the year in the said application except (a) the audit trail has not been enabled at database level, (b) at application audit trail is not enabled for relevant financial tables and (c) privileged access to specific users to make direct changes to audit trail settings. Further, during the course of audit we did not come across any instance of audit trail feature being tempered with and the audit trail has been preserved by the Company as per the statutory requirements for record retention.
 - (i) In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid/ provided for by the Company to its directors during the year in accordance with the provisions of Section 197 read with Schedule V to the Act.

- (viii) As per the information and explanations and records provided, there were no transactions relating to previously unrecorded income that were surrendered or disclosed as income in the tax assessments under the Income Tax Act, 1961 (43 of 1961) during the year.
- (ix) (a) As per the information and explanations and records provided, in our opinion, the Company has not defaulted in the repayment of loans or other borrowings or in the payment of interest thereon to any lender during the year.
- (b) As per the information and explanations and records provided, the Company has not been declared wilful defaulter by any bank or financial institution or government or any government authority.
- (c) To the best of our knowledge and belief and information and records provided, in our opinion, term loans availed by the Company were, applied by the Company during the year for the purposes for which the loans were obtained.
- (d) On an overall examination of the standalone financial statements of the Company and information provided, funds raised on short-term basis have, prima facie, not been used during the year for long-term purposes by the Company.
- (e) On an overall examination of the standalone financial statements of the Company and based on the representations of the Company, we report that the Company has neither taken any funds from any entity or person during the year nor it has raised funds through issue of shares or borrowings on account of or to meet the obligations of its subsidiaries.
- (f) The Company has not raised loans during the year on the pledge of securities held in its subsidiaries.
- (x) (a) The Company has not raised moneys by way of initial public offer or further public offer (including debt instruments) during the year and hence reporting under clause (x)(a) of the Order is not applicable.

- (b) During the year the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully or partly or optionally) and hence reporting under clause (x)(b) of the Order is not applicable to the Company.
- (xi) (a) Based on the audit procedures performed and on the basis of information and explanations provided by the management, no fraud by the Company and no material fraud on the Company has been noticed or reported during the year.
- (b) To the best of our knowledge, no report under sub-section (12) of section 143 of the Companies Act has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and upto the date of this report.
- (c) We have taken into consideration the whistle blower complaints received by the Company during the year while determining the nature, timing and extent of audit procedures.
- (xii) In our opinion and according to the information and explanations given to us, the Company is not a Nidhi company and hence reporting under clause (xii) of the Order is not applicable.
- (xiii) According to the information and explanations and records made available by the management of the Company and audit procedures performed, the Company is in compliance with Section 177 and 188 of the Companies Act, where applicable, for all transactions with the related parties and the details of related party transactions have been disclosed in the standalone financial statements as required by the applicable Indian Accounting Standards.
- (xiv) (a) In our opinion the Company has an adequate internal audit system commensurate with the size and the nature of its business.
- (b) We have considered, the internal audit reports issued to the Company during the year and till date in determining the nature, timing and extent of our audit procedures.
- (xv) On the basis of records made available to us and according to information and explanations given to us, the Company has not entered into non-cash transactions with the directors or persons connected with its directors and hence provisions of section 192 of the Companies Act, 2013 are not applicable to the Company.
- (xvi) As per the information and representations provided, the Company is not required to be registered under section 45-IA of the Reserve Bank of India Act 1934 and hence reporting under clause (xvi)(a), (b) and (c) of the Order is not applicable. As per the explanations provided and based on the information, the Group does not have any Core Investment Company (CIC) as part of the group and accordingly reporting under clause (xvi)(d) of the Order is not applicable.
- (xvii) The Company has not incurred cash losses during the financial year covered by our audit and in the immediately preceding financial year.
- (xviii) There has been no resignation of the statutory auditors of the Company during the year.
- (xix) On the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities (as per the payment schedule/ re-scheduled), other information accompanying the standalone financial statements and our knowledge of the Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company and/ or certificate with respect to meeting financial obligations by the Company as and when they fall due. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.
- (xx) The Company has fully spent the required amount towards Corporate Social Responsibility (CSR) and there is no unspent CSR amount for the year requiring a transfer to a Fund specified in Schedule VII to the Companies Act or special account in compliance with the provision of sub-section (6) of section 135 of the said Act. Accordingly, reporting under clause (xx) of the Order is not applicable for the year. (Refer Note 56)
- (xxi) The reporting under Clause (xxi) of the Order is not applicable in respect of audit of Standalone Financial Statements. Accordingly, no comment in respect of the said clause has been included in this report.

Annexure "B" to the Independent Auditor's Report

(Referred to in paragraph 2(g) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to standalone financial statements over financial reporting of AGI Greenpac Limited ("the Company") as of 31st March 2025 in conjunction with our audit of the Ind AS standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on Company's internal financial controls with reference to standalone financial statements over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial

controls system with reference to standalone financial statements over financial reporting and their operating effectiveness. Our audit of internal financial controls with reference to standalone financial statements over financial reporting included obtaining an understanding of internal financial controls with reference to standalone financial statements over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to standalone financial statements over financial reporting.

Meaning of Internal Financial Controls with reference to Standalone Financial Statements Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the standalone financial statements.

Inherent Limitations of Internal Financial Controls with reference to Standalone Financial Statements Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur

and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2025, based on the internal control over financial reporting criteria established by the Company

considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Material accounting policies and other explanatory information to the Standalone financial statements

for the year ended 31 March 2025

1. Corporate information

AGI Greenpac Limited (the 'Company') is a public limited company incorporated in India. The registered office of the Company is located in Kolkata and the corporate office is in Gurugram. The Company is engaged into the business of manufacturing and selling of Container Glass bottles, PET bottles and Security Caps and Closures under Packaging Products segment. The Company's shares are listed on the National Stock Exchange of India Limited (NSE) and BSE Limited.

These financial statements were approved and authorized for issue in accordance with the resolution of the Company's Board of Directors on 14 May 2025.

2. Application of new and revised Indian Accounting Standards ("Ind AS")

All the Ind AS issued and notified by the Ministry of Corporate Affairs under the Companies (Indian Accounting Standards) Rules, 2015 (as amended) till the financial statements are authorized have been considered in preparing these financial statements.

2.1 Recent accounting pronouncements

Introduction of Ind AS 117

MCA notified Ind AS 117, a comprehensive standard that prescribe, recognition, measurement and disclosure requirements, to avoid diversities in practice for accounting insurance contracts and it applies to all companies i.e., to all "insurance contracts" regardless of the issuer. However, Ind AS 117 is not applicable to the entities which are insurance companies registered with IRDAI.

Additionally, amendments have been made to Ind AS 101, First-time Adoption of Indian Accounting Standards, Ind AS 103, Business Combinations, Ind AS 105, Non-current Assets Held for Sale and Discontinued Operations, Ind AS 107, Financial Instruments: Disclosures, Ind AS 109, Financial Instruments and Ind AS 115, Revenue from Contracts with Customers to align them with Ind AS 117. The amendments also introduce enhanced disclosure requirements, particularly in Ind AS 107, to provide clarity regarding financial instruments associated with insurance contracts.

Amendments to Ind AS 116

Lease liability in a sale and leaseback, the amendments require an entity to recognise lease liability including variable lease payments which are not linked to index or a rate in a way it does not result into gain on Right of use asset it retains.

The Company has reviewed the new pronouncements and based on its evaluation has determined that these

amendments do not have impact on the Company's Financial Statements.

3. Material accounting policies and other explanatory information

3.1 Statement of compliance with Indian Accounting Standards (Ind AS)

The financial statements of the Company have been prepared in accordance with Ind AS notified by the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016 (as amended) and presentation requirement of Division II of the Schedule III of the Companies Act 2013. Accordingly, the financial statements for the year ended 31 March 2025 are prepared complying applicable Ind AS.

3.2 Historical cost convention

These financial statements have been prepared on a historical cost convention except where certain financial assets and liabilities have been measured at fair value. (refer accounting policy of financial instruments)

3.3 Business combinations

Business combinations involving entities under common control are accounted for using the pooling of interest's method. The net assets of the transferor entity or business are accounted at their carrying amounts on the date of the acquisition subject to necessary adjustments required to harmonise accounting policies. Any excess or shortfall of the consideration paid over the share capital of transferor entity or business is recognised as capital reserve under equity.

3.4 Goodwill

Goodwill represents the future economic benefits arising from a business combination that are not individually identified and separately recognised. Goodwill is carried at cost less accumulated impairment losses.

3.5 Revenue recognition

Revenue from contracts with customers are recognized when the performance obligation towards customer have been made i.e. on transfer of control of promised goods or services to a customer at an amount that reflects the consideration to which the Company is expected to be entitled to in exchange for those goods or services.

Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. Revenue is recognized

Material accounting policies and other explanatory information to the Standalone financial statements for the year ended 31 March 2025

net of sales reductions such as discounts and sales incentives granted. This variable consideration is estimated based on the expected value of outflow.

Sale of products:

Revenue from the sale of products is recognized when the Company has transferred control of the goods to the buyer and the buyer obtains the benefits from the goods, the potential cash flows and the amount of revenue (the transaction price) can be measured reliably, and it is probable that the Company will collect the consideration to which it is entitled to in exchange for the goods.

Sales-related warranties associated with the goods are integral to sales price and cannot be purchased separately, hence they serve as an assurance that the products sold comply with agreed-upon specifications. Accordingly, the Company accounts for warranties in accordance with Ind AS 37 Provisions, Contingent Liabilities and Contingent Assets.

Rendering of services:

Revenue from services is recognized over time by measuring progress towards satisfaction of performance obligation for the services rendered.

Revenue in respect of rental services is recognised on an accrual basis, in accordance with the terms of the respective contract as and when the Company satisfies performance obligations by delivering the services as per contractual agreed terms.

Interest and dividends:

Interest income and expenses are reported on an accrual basis using the effective interest method. Dividends are recognised at the time the right to receive payment is established.

3.6 Leases

The Company's lease asset classes primarily consist of leases for Land and Buildings. The Company assesses whether a contract is or contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- (i) The contract involves the use of an identified asset
- (ii) The Company has substantially all of the economic benefits from use of the asset through the period of the lease and
- (iii) The Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognises a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short term leases) and leases of low value assets. For these short term and leases of low value assets, the Company recognises the lease payments as an operating expense on a straight line basis over the term of the lease.

The right-of-use assets are initially recognised at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses, if any. Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset.

The lease liability is initially measured at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates. The lease liability is subsequently re-measured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made.

A lease liability is re-measured upon the occurrence of certain events such as a change in the lease term or a change in an index or rate used to determine lease payments. The re-measurement normally also adjusts the leased assets.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

3.7 Foreign currency transactions and translations

Initial recognition

The Company's financial statements are presented in INR, which is also the Company's functional currency. Transactions in foreign currencies are recorded on initial recognition in the functional currency at the exchange rates prevailing on the date of the transaction.

Measurement at the balance sheet date

Foreign currency monetary items of the Company, outstanding at the balance sheet date are restated at the year-end rates. Non-monetary items which are carried at historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction. Non-monetary items

Material accounting policies and other explanatory information to the Standalone financial statements for the year ended 31 March 2025

measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined.

Treatment of exchange difference

Exchange differences that arise on settlement of monetary items or on reporting at each balance sheet date of the Company's monetary items at the closing rate are recognised as income or expenses in the period in which they arise.

3.8 Investment Property

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the Company, is classified as investment property. Investment property is measured initially at its cost, including related transaction costs and where applicable, borrowing costs. Subsequent expenditure is capitalised to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred. When part of an investment property is replaced, the carrying amount of the replaced part is derecognised. Additionally, when a property given on rent is vacated and the managements intention is to use the vacated portion for the purpose of its own business needs, Investment Properties are reclassified as Buildings. Investment properties are depreciated using the straight-line method over their estimated useful lives which is consistent with the useful lives followed for depreciating Property, Plant and Equipment.

3.9 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalised during the period of time that is necessary to complete and prepare the asset for its intended use or sale.

All other borrowing costs are expensed in the period in which they are incurred and reported in finance cost.

3.10 Government grants

The Company received refundable government loans at below market rate of interest which are accounted in accordance with the recognition and measurement principles of Ind AS 109, Financial Instruments. The benefit of below- market rate of interest is measured as the difference between the initial carrying value of loan determined in accordance with Ind AS 109 and the proceeds received. It is recognized as income when there is reasonable assurance that the

Company will comply with all necessary conditions attached to the loans. Income from such benefit is recognized on a systematic basis over the period of the loan during which the company recognizes interest expense corresponding to such loans.

The company is entitled to subsidies from government in respect of certain government schemes.

Subsidies are recognized as income on a systematic basis over the periods in which the related costs for which it is intended to be compensated are expensed.

3.11 Employee benefits

Employee benefits include provident fund, pension fund, gratuity and compensated absences.

Defined contribution plans

The Company's contribution to provident fund and pension fund is considered as defined contribution plan and is charged as an expense as they fall due based on the amount of contribution required to be made and when services are rendered by the employees. The Company has no legal or constructive obligation to pay contribution in addition to its fixed contribution. The interest rate payable to the members of the trust shall not be lower than the statutory rate of interest declared by the Central Government under Employees Provident Fund and Misc. Provisions Act, 1952 and short fall, if any, shall be made good by the company.

In respect of certain employee's contributions are made to a trust administrated by the Company/ employees.

Defined benefit plans

For defined benefit plans in the form of gratuity, the cost of providing benefits is determined using 'the Projected Unit Credit method', with actuarial valuations being carried out at each Balance Sheet date. Re-measurements, comprising of actuarial gains and losses are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through other comprehensive income in the period in which they occur. Re-measurements are not reclassified to the statement of profit and loss in subsequent periods. The retirement benefit obligation recognised in the Balance Sheet represents the present value of the defined benefit obligation as adjusted for unrecognised past service cost.

Short-term employee benefits

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognised during the year when the employees render the service. These benefits include performance incentive and

Material accounting policies and other explanatory information to the Standalone financial statements for the year ended 31 March 2025

compensated absences which are expected to occur within twelve months after the end of the period in which the employee renders the related service. The cost of such compensated absences is accounted as under:

- (a) In case of accumulated compensated absences, when employees render the services that increase their entitlement of future compensated absences; and
- (b) In case of non-accumulating compensated absences, when the absences occur.

Long-term employee benefits

Compensated absences which are allowed to be carried forward over a period in excess of 12 months after the end of the period in which the employee renders the related service are recognised as a liability at the present value of the defined benefit obligation as at the Balance Sheet date out of which the obligations are expected to be settled.

Taxation

Tax expense recognised in the statement of profit or loss comprises the sum of deferred tax and current tax not recognised in other comprehensive income or directly in equity.

Current tax

Current income tax assets and/or liabilities comprise those obligations to, or claims from, fiscal authorities relating to the current or prior reporting periods, that are unpaid at the reporting date. Current tax is payable on taxable profit, which differs from profit or loss in the financial statements. Calculation of current tax is based on tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period. Deferred income taxes are calculated using the liability method on temporary differences between the carrying amounts of assets and liabilities and their tax bases.

3.12 Deferred tax

Deferred tax assets are recognised to the extent that it is probable that the underlying tax loss or deductible temporary difference will be utilised against future taxable income. This is assessed based on the Company's forecast of future results, adjusted for significant non-taxable income and expenses and specific limits on the use of any unused tax loss or credit.

Deferred tax liabilities are generally recognised in full, although Ind AS 12, Income Taxes, specifies limited exemptions.

Changes in deferred tax assets or liabilities are recognised as a component of tax income or expense

in the statement of profit or loss, except where they relate to items that are recognised in other comprehensive income (such as the revaluation of land) or directly in equity, in which case the related deferred tax is also recognised in other comprehensive income or equity, respectively.

3.13 Operating cycle

Based on the nature of products/activities of the Company and the normal time between purchase of raw materials and their realisation in cash or cash equivalents, the Company has determined its operation cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

3.14 Operating expenses

Operating expenses are recognised in statement of profit or loss upon utilisation of the service or as incurred. Expenditure for warranties is recognised when the Company incurs an obligation, which is usually when the related goods are sold.

3.15 (a) Property, plant and equipment

Freehold land is carried at historical cost except for certain class of land which had been revalued in financial year 2009-10 and 2011-12. All other items of Property, plant and equipment are stated at cost less accumulated depreciation and impairment losses, if any.

Property, plant and equipment are stated at their original cost including freight, duties, taxes and other incidental expenses relating to acquisition and installation.

The carrying amount of assets, including those assets that are not yet available for use, are reviewed at each balance sheet date to determine whether there is any indication of impairment. If any such indication exists, recoverable amount of asset is determined. An impairment loss is recognised in the statement of profit and loss whenever the carrying amount of an asset exceeds its recoverable amount. An impairment loss is reversed only to the extent that the carrying amount of asset does not exceed the net book value that would have been determined if no impairment loss had been recognised.

When significant parts of property, plant and equipment are required to be replaced at intervals, the Company recognises the new part and is depreciated accordingly. Further, when major overhauling/ repair is performed, the cost associated with this is capitalised, if the recognition criteria are satisfied, and is

Material accounting policies and other explanatory information to the Standalone financial statements for the year ended 31 March 2025

then depreciated over the remaining useful life of asset or over the period of next overhauling due, whichever is earlier. All other repair and maintenance costs are recognised in the statement of profit and loss as and when incurred.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

(b) Intangible assets

Intangible Assets are recognised, if the future economic benefits attributable to the assets are expected to flow to the company and cost of the asset can be measured reliably. All other expenditure is expensed as incurred. The same are amortised over the expected duration of benefits. Such intangible assets are measured at cost less any accumulated amortisation and impairment losses, if any and are amortised over their respective individual estimated useful life on straight line method. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period and adjusted prospectively, if appropriate.

(c) Capital work-in-progress

Expenditure incurred during the period of construction, including all direct and indirect expenses, incidental and related to construction, is carried forward and on completion, the costs are allocated to the respective property, plant and equipment. Capital work-in-progress includes capital inventory.

3.16 Depreciation and amortisation

Depreciation is charged on a pro-rata basis on the straight line method at rates prescribed in Schedule II to the Companies Act, 2013 and is charged to the statement of profit and loss. Freehold land is not depreciated.

The estimated useful life of the items of property, plant and equipment are as follows:

| Asset class | Useful life |
|--------------------------------------|---------------|
| Property, plant and equipment | |
| Plant and machinery | 7.5-40 years* |
| Buildings | 10-70 years** |
| Furniture and fixtures | Upto 10 years |
| Office equipment | Upto 5 years |
| Computer | 3-6 years |
| Vehicles | 8 years*** |
| Intangible assets | |
| Technical know-how | 10 years |
| Software | 6 years |

* Furnaces, part of the glass plant of the Company, included in plant and machinery, are depreciated over a life of 6.5 years which is different from life prescribed in Schedule II of the Act, based on independent chartered engineer certificate.

** Temporary sheds, included in buildings, are depreciated over a smaller useful life than mentioned in the above table depending on the actual use of the asset.

*** Vehicles are being depreciated using written down value method as per life of 8 years mentioned in Schedule II of the Act, having residual value up to 10% at the end of the useful life of the asset.

3.17 Impairment of property, plant & equipment and intangible assets

Assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable and an impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is higher of an asset's fair value less costs of disposal and value in use. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or group of assets (cash generating units). If at the balance sheet date, there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of depreciated historical cost and the same is accordingly reversed in the statement of profit and loss.

3.18 Cash and cash equivalents

Cash and cash equivalents comprise cash in hand & at bank and demand deposits, together with other short-term, highly liquid investments maturing within 90 days from the date of acquisition. Cash and cash equivalent are readily convertible into known amounts of cash and are subject to an insignificant risk of changes in value.

3.19 Cash flow statement

Cash flows are reported using the indirect method, whereby profit/loss before tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

3.20 Inventories

Inventories are stated at the lower of cost and net realisable value. The cost of inventories comprises of all costs of purchase (net of tax credits where applicable), costs of conversion and other costs

Material accounting policies and other explanatory information to the Standalone financial statements for the year ended 31 March 2025

incurred in bringing the inventories to their present location and condition.

Costs of inventories are determined on weighted average basis. Net realisable value is the estimated selling price in the ordinary course of business less any applicable selling expenses.

3.21 Provisions and contingencies

A provision is recognised in the financial statements where there exists a present obligation as a result of a past event, the amount of which can be reliably estimated, and it is probable that an outflow of resources would be necessitated in order to settle the obligation. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost. Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimates. Contingent liabilities are not recognised but are disclosed in the notes unless the outflow of resources is considered to be remote. Contingent assets are neither recognised nor disclosed in the financial statements.

3.22 Equity, reserves and dividend payments

Equity shares are classified as equity. Incremental costs directly attributable to the issue of new shares/buyback of shares are shown in equity as a deduction, net of tax, from the proceeds.

Retained earnings include current and prior period retained profits. All transactions with owners of the Company are recorded separately within equity.

Dividend payable to equity shareholders are included in other current financial liabilities when the dividends have been approved in a general meeting prior to the reporting date.

3.23 Earnings per share

Basic earnings or loss per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, buyback, share split, and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings or loss per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the

period are adjusted for the effects of all dilutive potential equity shares.

3.24 Fair value measurement

The Company measures financial instruments such as investments in mutual funds, investment in certain equity shares etc. at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability at the measurement date.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- » Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- » Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- » Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

3.25 Financial instruments

I. Financial assets

a. Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset, which are not at fair value through profit and loss, are added to fair value on initial recognition. Transaction costs of financial assets carried at fair value through profit or loss are expensed in statement of profit and loss. However, trade receivables that do not contain a significant financing component are measured at transaction price.

b. Subsequent measurement

(i) Financial assets carried at amortised cost

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the

Material accounting policies and other explanatory information to the Standalone financial statements for the year ended 31 March 2025

contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(ii) *Financial assets at fair value through other comprehensive income (FVTOCI)*

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(iii) *Financial assets at fair value through profit or loss (FVTPL)*

A financial asset which is not classified in any of the above categories are subsequently fair valued through statement of profit and loss.

c. Impairment of financial assets

- (i) The Company assesses on a forward looking basis the expected credit losses (ECL) associated with its assets measured at amortised cost and assets measured at fair value through other comprehensive income. The impairment methodology applied depends on whether there has been a significant increase in credit risk. Note 45 details how the Company determines whether there has been a significant increase in credit risk.
- (ii) Investments in subsidiaries, associates and joint ventures are carried at cost/deemed cost applied on transition to Ind AS, less accumulated impairment losses, if any. Where an indication of impairment exists, the carrying amount of investment is assessed and an impairment provision is recognised, if required immediately to its recoverable amount, being the higher of value in use or fair value less costs to sell. On disposal of such investments, difference between the net disposal proceeds and carrying amount is recognised in the statement of profit and loss.

d. De-recognition of financial assets

A financial asset is derecognised when:

- The Company has transferred the right to receive cash flows from the financial assets or
- Retains the contractual rights to receive the cash flows of the financial assets, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity transfers the financial asset, it evaluates the extent to which it retains the risk and rewards of the ownership of the financial assets. If the entity transfers substantially all the risks and rewards of ownership of the financial asset, the entity shall derecognise the financial asset and recognise separately as assets or liabilities any rights and obligations created or retained in the transfer. If the entity retains substantially all the risks and rewards of ownership of the financial asset, the entity shall continue to recognise the financial asset.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of the ownership of the financial asset, the financial asset is derecognised if the Company has not retained control of the financial assets. Where the Company retains control of the financial assets, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

II. Financial liabilities

a. Initial recognition and subsequent measurement

All financial liabilities are recognized initially at fair value and in case of borrowings and payables, net of directly attributable cost.

Financial liabilities are subsequently carried at amortized cost using the effective interest method. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments. Changes in the amortised value of liability are recorded as finance cost.

III. Fair value of financial instruments

In determining the fair value of its financial instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis, available quoted market prices. All methods of assessing fair value result in general approximation of value, and such value may vary from actual realization on future date.

IV. Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

3.26 Derivative financial instruments

The Company enters into a variety of derivative financial instruments to manage its exposure to interest rate and foreign exchange rate risks, including foreign exchange forward contracts, interest rate swaps and cross currency swaps. Further details of derivative financial instruments are disclosed in note 45.

Derivatives are initially recognised at fair value at the date the derivative contracts are entered into and are subsequently re-measured to their fair value at the end of each reporting period. The resulting gain or loss is recognised in statement of profit and loss immediately unless the derivative is designated and effective as a hedging instrument, in which event the timing of the recognition in the statement of profit and loss depends on the nature of the hedging relationship and the nature of the hedged item.

3.27 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The Company has mainly two operating/reportable segments: Packaging Products segment and Investment Property segment. In identifying these operating segments, management generally follows the company's service lines representing its main products and services. Each of these operating segments is managed separately as each requires different technologies, marketing approaches and other resources.

All inter-segment transfers are carried out at arm's length prices based on prices charged to unrelated customers in standalone sales of identical goods or services.

For management purposes, the Company uses the same measurement policies as those used in its financial statements. In addition, unallocated assets which are not directly attributable to the business activities of any operating segment are not allocated to a segment.

3.28 Significant accounting judgements, estimates and assumptions

The preparation of the Company's financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

3.29 Non-Current Assets Held for Sale and Discontinued operations:

Non-current assets or disposal groups comprising of assets and liabilities are classified as 'held for sale' when all the following criteria are met:

- (i) Decision has been made to sell,
- (ii) The assets are available for immediate sale in its present condition,
- (iii) The assets are being actively marketed and
- (iv) Sale has been agreed or is expected to be concluded within 12 months of the balance sheet date.

Subsequently, such non-current assets and disposal groups classified as 'held for sale' are measured at the lower of its carrying value and fair value less costs to sell.

Non-current assets held for sale are not depreciated or amortised.

Discontinued operation is a component of the Company that has been disposed of or classified as held for sale.

3.30 Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

(i) Estimation of defined benefit obligation

The cost of the defined benefit plan and other post-employment benefits and the present value of such obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and attrition rate. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

Material accounting policies and other explanatory information to the Standalone financial statements for the year ended 31 March 2025

(ii) Estimation of current tax and deferred tax

Management judgment is required for the calculation of provision for income - taxes and deferred tax assets and liabilities. The Company reviews at each balance sheet date the carrying amount of deferred tax assets. The factors used in estimates may differ from actual outcome which could lead to adjustment to the amounts reported in the financial statements.

(iii) Useful lives of depreciable assets

Management reviews its estimate of the useful lives of depreciable assets at each reporting date, based on the expected utility of the assets. Uncertainties in these estimates relate to technological obsolescence that may change the utility of certain property, plant and equipment.

(iv) Impairment of trade receivables

Trade receivables do not carry any interest and are stated at their normal value as reduced by appropriate allowances for estimated irrecoverable amounts. Individual trade receivables are written off when management deems them not to be collectible. Impairment is recognised based on the expected credit losses, which are the present value of the cash shortfall over the expected life of the financial assets.

(v) Fair value measurement

Management uses valuation techniques to determine the fair value of financial instruments (where active market quotes are not available) and non-financial assets. This involves developing estimates and assumptions consistent with

how market participants would price the instrument. Management bases its assumptions on observable data as far as possible but this is not always available. In that case management uses the best information available. Estimated fair values may vary from the actual prices that would be achieved in an arm's length transaction at the reporting date (refer note 46).

(vi) Impairment of Goodwill

Goodwill is tested for impairment on an annual basis and whenever there is an indication that the recoverable amount of a cash generating unit is less than its carrying amount based on a number of factors including operating results, business plans, future cash flows and economic conditions. The recoverable amount of cash generating units is determined based on higher of value-in-use and fair value less cost to sell. The goodwill impairment test is performed at the level of the cash-generating unit or groups of cash-generating units which are benefitting from the synergies of the acquisition and which represents the lowest level at which goodwill is monitored for internal management purposes.

Market related information and estimates are used to determine the recoverable amount. Key assumptions on which management has based its determination of recoverable amount include estimated long term growth rates, weighted average cost of capital and estimated operating margins. Cash flow projections take into account past experience and represent management's best estimate about future developments.

Note 45 - Financial instruments and risk review

Capital management

The Company manages its capital to be able to continue as a going concern while maximising the returns to shareholders through optimisation of the debt and equity balance. The capital structure consists of debt which includes the borrowings as disclosed in note 22 and 28 and net cash and cash equivalents as disclosed in note 15 and equity attributable to equityholders of the Company, comprising issued share capital, reserves and retained earnings as disclosed in the Statement of changes in equity. For the purpose of calculating gearing ratio, debt is defined as non current and current borrowings (excluding derivatives). Equity includes all capital and reserves of the Company attributable to equity holders of the Company. The Company is not subject to externally imposed capital requirements. The Board reviews the capital structure and cost of capital on an annual basis but has not set specific targets for gearing ratios. The risks associated with each class of capital are also considered as part of the risk reviews presented to the Audit Committee and the Board of Directors.

Note 45 - Financial instruments and risk review (Contd.)**Financial risk management objective**

The Company is exposed to various risks in relation to financial instruments. The main types of risks are market risk, credit risk and liquidity risk. The Company is not engaged in speculative treasury activities but seeks to manage risk and optimise interest and commodity pricing through proven financial instruments.

The use of any derivative is approved by the management, which provide guidelines on the acceptable levels of interest rate risk, credit risk, foreign exchange risk and liquidity risk and the range of hedging requirement against these risks.

Credit risk:

Credit risk is the risk that a counter party will not meet its obligations under a financial instrument or customer contract, leading to financial loss. The Company is exposed to credit risk for receivables, cash and cash equivalents, short term investments, financial guarantee and derivative financial instruments.

Cash and cash equivalents and short term investments

The Company considers factors such as track record, size of institution, market reputation and service standard to select the banks with which deposits are maintained. Generally the balances are maintained with the institutions with which the Company has also availed borrowings. The Company does not maintain significant deposit balances other than those required for its day to day operations.

Trade receivables

The Company extends credits to customer in normal course of the business. The Company considers the factors such as credit track record in the market of each customer and past dealings for extension of credit to the customer. The Company monitors the payment track record of each customer and outstanding customer receivables are regularly monitored. The Company evaluates the concentration of risk with respect to trade receivables as low, as its customers are located at several jurisdiction and industries and operate in large independent markets. The Company also takes advances and security deposits from customers which mitigate the credit risk to an extent.

The average credit period taken on sales of goods is 30 to 90 days. Generally, no interest has been charged on the receivables. Allowances against doubtful debts are recognised against trade receivables based on estimated irrecoverable amounts determined by reference to past default experience of the counterparty and an analysis of the counterparty's current financial position.

Before accepting any new customer, the Company uses an internal credit system to assess the potential customer's credit quality and defines credit limits by customer. Limits attributed to customers are reviewed periodically. There are three customers who represent more than 10 per cent of total net revenue from operations during the year.

The Company does not hold any collateral or other credit enhancements over any of its trade receivables nor does it have a legal right of offset against any amounts owed by the Company to the counterparty.

Expected credit loss:

The Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and adjusted for forward-looking information. The expected credit loss allowance is based on the ageing of the days the receivables are due and the rates as given in the provision matrix. The provision matrix at the end of the reporting period is as follows:

| Ageing | Expected credit loss (%) |
|-------------------------|--------------------------|
| Not due for payment | 0 |
| Up to 6 months | 0 |
| From 6 months to 1 year | 0 |
| From 1 year to 3 years | 10 to 100 |
| More than 3 years | 100 |

Financial guarantee

The Company has not given any financial guarantee.

Liquidity risk:

Liquidity risk reflects the risk that the Company will have insufficient resources to meet its financial liabilities as they fall due.

The Company's objective is to maintain optimum levels of liquidity to meet its cash and collateral requirements. The Company relies on a mix of borrowings, capital infusion and excess operating cash flows to meet its needs for funds. The current committed lines of credit are sufficient to meet its short to medium term expansion needs. The Company monitors rolling forecasts of its liquidity requirements to ensure that it has sufficient cash to meet operational needs while maintaining sufficient headroom on its undrawn committed borrowing facilities so that it does not breach borrowing limits.

The table below provides undiscounted cash flows towards non-derivative financial liabilities into relevant maturity based on the remaining period at the balance sheet date to the contractual maturity date and, where applicable, their effective interest rates.

Market risk

The Company's activities expose it primarily to the financial risks of changes in foreign currency exchange rates and interest rates. The Company enters into a variety of derivative financial instruments to manage its exposure to foreign currency risk, including:

Forward foreign exchange contract to hedge the exchange rate risk arising on the export and imports of its products.

Forward foreign exchange derivative contract to hedge the exchange rate risk arising on translation of payment of foreign currency loan.

Forward foreign exchange interest rate swap contract to hedge the exchange rate risk arising on translation of payment on interest.

Currency risk

The Company undertakes various transactions denominated in foreign currencies, consequently, exposure to exchange rate fluctuations arise. Exchange rate exposures are managed within approved policy parameters utilising forward foreign exchange contracts.

The Company transacts business primarily in Indian Rupee, USD, EUR and GBP. The Company has obtained foreign currency loans and has foreign currency payables and receivables and is therefore, exposed to foreign exchange risk. Certain transactions of the Company act as a natural hedge as a portion of both assets and liabilities are denominated in similar foreign currencies. For the remaining exposure to foreign exchange risk, the Company adopted a policy of selective hedging based on risk perception of the management. Foreign exchange hedging contracts are carried at fair value.

The carrying amounts of the Company's foreign currency denominated monetary assets and monetary liabilities at the end of the reporting period are as follows:

(in lakh)

| Particulars | Currency | As at 31 March 2025 | As at 31 March 2024 |

Sensitivity analysis

The following table demonstrates the sensitivity of profit and equity in USD, EUR and GBP to the Indian Rupee with all other variables held constant. The impact on the Company's profit before tax and other comprehensive income due to changes in the fair value of monetary assets and liabilities is given below:

| (₹ in lakh) | | | |
|-------------|-------------------------------------|---|---|
| Currency | Change in currency exchange rate | Effect on profit before tax 31 March 2025 | Effect on profit before tax 31 March 2024 |
| USD | 5% | (436.04) | (713.47) |
| | -5% | 436.04 | 713.47 |
| EUR | 5% | (15.33) | (33.97) |
| | -5% | 15.33 | 33.97 |
| GBP | 5% | 23.48 | (2.32) |
| | -5% | (23.48) | 2.32 |

This is mainly attributable to the exposure outstanding on foreign currency receivables and payables in the Company at the end of each reporting period.

Interest rate risk

The Company's exposure to the risk of changes in market interest rates relates primarily to long term debts. Its objective in managing its interest rate risk is to ensure that it always maintain sufficient head room to cover interest payment from anticipated cash flows which is regularly reviewed by the board/nominated committee as well.

The following table demonstrates the sensitivity in the interest rate with all other variables held constant. The impact on the Company's profit before tax and other comprehensive income due to changes in the interest rates is given below:

| (₹ in lakh) | | | |

Note 48 - Employee benefits

A. Defined contribution plan

The Company operates defined contribution retirement benefit plans for all eligible employees. The assets of the plans are held separately from those of the Company's in funds under the control of trustees of Somany Provident Fund Institution (PF Trust). During the previous year, the PF Trust had surrendered the recognition granted to it. Accordingly, the entire corpus in respect of all the active and inactive employees had been transferred to the office of Regional Provident Fund Commissioner (RPFC) Kukatpally, Hyderabad. Where employees leave the plans prior to full vesting of the contributions, the contributions payable by the Company are reduced by the amount of forfeited contributions.

The Company's contribution to Provident Fund and Superannuation Fund aggregating to ₹ 828.16 lakh (net of amount capitalised and reimbursement received from government) (previous year ₹ 520.97 lakh) has been recognised in the Statement of Profit and Loss under the head Employee Benefits Expense.

B. Defined benefit plans

Gratuity

The Company operates a gratuity plan covering qualifying employees. The benefit payable is the greater of the amount calculated as per the Payment of Gratuity Act, 1972 or the Company Scheme applicable to the employee. The benefit vests upon completion of five years of continuous service and once vested it is payable to employees on retirement or on termination of employment. In case of death while in service, the gratuity is payable irrespective of vesting. The Company makes annual contribution to the group gratuity Scheme administered by the Birla Sun Life Insurance Company Limited.

VI. Sensitivity analysis

(₹ in lakh)

| Particulars | 31 March 2025 | | 31 March 2024 | |
|---|----------------------|-------------------------------|----------------------|-------------------------------|
| | Change in assumption | Effect on gratuity obligation | Change in assumption | Effect on gratuity obligation |
| Discount rate | 0.50% | (77.74) | 0.50% | (68.72) |
| | -0.50% | 85.10 | -0.50% | 75.28 |

| | -0.50% | (78.08) | -0.50% | (69.08) |

The above sensitivity analysis is based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (projected unit credit method) has been applied as when calculating the defined benefit obligation recognised within the balance sheet.

VII. Experience adjustments:

(₹ in lakh)

| Particulars | Year ended | | | | |
|--|------------|----------|----------|----------|----------|
| | 2024-25 | 2023-24 | 2022-23 | 2021-22 | 2020-21 |

| 2. Fair value of plan assets | 1,490.71 | 1,360.72 | 1,140.08 | 1,102.03 | 2,217.01 |
| 3. Surplus/(deficit) | (330.71) | (190.90) | (113.42) | (40.52) | (307.70) |
| 4. Experience adjustment on plan liabilities gain/(loss) | (68.65) | (90.18) | 149.15 | (8.71) | (165.57) |

The expected rate of return on plan assets is based on the average long term rate of return expected on investments of the fund during the estimated term of obligation.

The estimate of future salary increases, considered in actuarial valuation, takes into account inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

Note 61 - Diminution of Investments

The Company acquired 804,000 equity shares of Andhra Pradesh Gas Power Corporation Limited (APGPCL) during the fiscal years 1999-20 to 2003-04, at a total consideration of ₹ 1,073.63 lakh, representing a 1.1% stake in APGPCL. This investment entitled the company to purchase generated power at a concessional rate.

However, due to a rise in natural gas prices and the ageing of its plant, APGPCL ceased power generation. The Company assessed that there is no realizable value of APGPCL's investments as at March 31, 2024.

Based on the assessment, the company had fully provided its investments in APGPCL through Other Comprehensive Income to comply with Ind AS requirements.

Independent Auditor's Report

To the Members of AGI Greenpac Limited

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of AGI Greenpac Limited ("the Holding Company") and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group"), which comprise the Consolidated Balance Sheet as at 31 March 2025, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows for the year then ended, and notes to the consolidated financial statements, including a summary of the material accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at 31 March 2025, their consolidated profit including their other comprehensive income, consolidated changes in equity and its consolidated cash flows for the year then ended.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing ("SA"s) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in Other Matters section below, other than the unaudited financial statements/ financial information of a company as certified by the management and referred to in and financial information not available as referred to in the Other Matters section below, is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

| Description of Key Audit Matter | How our audit addressed the key audit matters |
|--|--|
| Recognition of revenue (as described in Note 34 of the consolidated financial statements) | |
| <p>The group recognizes revenues when the control of goods and/or services are transferred to the customer at an amount that reflects the net consideration, which the Group expects to receive for those goods and/or services from customers in accordance with the terms of the contracts. In determining the sales price, the Company considers the effects of applicable rebates, and discounts (variable consideration).</p> <p>The terms of sales arrangements, including the timing of transfer of control, based on the terms of relevant contract and nature of discount and rebates arrangements, create complexities that require judgment in determining sales revenues.</p> <p>Considering the above factors and the risk associated with revenue recognition, we have determined the same to be a key audit matter.</p> | <p>Our audit procedures included the following:</p> <ul style="list-style-type: none">» We read and evaluated the Group revenue recognition policy and assessed its compliance in terms of Ind AS 115 'Revenue from contracts with customers'.» We assessed the design and tested the operating effectiveness of internal controls related to sales and applicable rebates/discounts.» We performed test for a sample of sales transactions by comparing the underlying sales invoices, sales orders and other related documents to assess that revenue is recognized on transfer of control to the customer in accordance with the terms of the contract.» We tested on a sample basis rebates and discount schemes as approved by the management to assess its accounting. For the samples selected, we also compared that the actual rebates and discounts recognized in respect of particular schemes do not exceed their approved amounts. |

| Description of Key Audit Matter | How our audit addressed the key audit matters |
|---------------------------------|--|
| | <ul style="list-style-type: none"> » Selected sample of sales transactions made pre- and post-year end, agreed the period of revenue recognition to underlying documents and the terms of sale. » Performed analytical procedures on sales and sales return trend. » We tested on a sample basis, that revenue has been recognized in the proper period with reference to the supporting documents including confirmations from customers. » We read and assessed the relevant disclosures made in the consolidated IND AS financial statements. |

Information Other than the Consolidated Financial Statements and Auditor's Report Thereon

The holding Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. When we read Annual Report, if based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Responsibilities of Management's and Those Charged with Governance for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation and presentation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated statement of changes in equity and consolidated cash flows of the Group in accordance with Ind AS and other accounting principles generally accepted in India. The respective Board of Directors of the companies included in the Group are responsible for maintenance of the adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls,

that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group are also responsible for overseeing the financial reporting process of the Group.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- » Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion,

forgery, intentional omissions, misrepresentations, or the override of internal control.

- » Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Group and companies incorporated in India, has adequate internal financial controls system in place and the operating effectiveness of such controls.
- » Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- » Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- » Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- » Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audit carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other

matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements for the financial year ended 31st March 2025 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

Other Matters

1. The consolidated financial statement includes the audited financial statement of one subsidiary, whose financial statements reflect total assets of ₹ 10.00 Lakhs as at 31 March 2025, total revenue of ₹ Nil, total net profit / (loss) after tax of (₹ 2.27 Lakhs), total comprehensive income of (₹ 2.27 Lakhs) for year ended 31 March 2025 and net cash inflow of ₹ 10.00 Lakhs for the period from 01 April 2024 to 31 March 2025, as considered in the consolidated financial statements. These financial statements have been audited by other auditors whose report have been furnished to us by the management and our opinion on the consolidated financial statement, in so far as it relates to the amounts and disclosures included in respect of this subsidiary, is based solely on the report of the other auditors and the procedures performed by us are as stated in paragraph above.

Our opinion on the Statement is not modified in respect of above matter with respect to our reliance on the work done and the report of the other auditor.

2. These unaudited financial statements furnished to us by the holding company's management. Our opinion in so far and it relates to the amounts and disclosures included in respect of this subsidiary is based solely on the unaudited management certified financial statements.

Our opinion is not modified in respect of above matters.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("CARO 2020"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in the Annexure "A", a statement on the matter specified in paragraph 3(xxi) of CARO 2020
2. As required by Section 143(3) of the Act, we report, to the extent applicable, that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
 - b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the report of the other auditors except for the matters stated in paragraph 2(h)(vi) below on reporting under Rule 11(g) of the Companies (Audit & Auditors) Rules, 2014 ("Rules").
 - c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.
 - d) In our opinion, the aforesaid consolidated financial statements comply with the Ind AS specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015 (as amended);
 - e) On the basis of the written representations received from the directors of the Holding Company as on 31st March 2025 taken on record by the Board of Directors of the Holding Company and its subsidiaries incorporated in India and the reports of the statutory auditors of its subsidiary companies incorporated in India, none of the directors of the Group companies incorporated in India is disqualified as on 31st March 2025 from being appointed as a director in terms of Section 164 (2) of the Act.
 - f) With respect to the maintenance of accounts and other matters connected therewith, reference is made to our remarks in paragraph 2(h)(vi) below on reporting under Rule 11(g) of the rules.
 - g) With respect to the adequacy of the internal financial controls over financial reporting and the operating effectiveness of such controls, refer to our separate Report in "Annexure B" which is based on the auditor's reports of the Holding Company and its subsidiary companies incorporated in India. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the internal financial control over financial reporting of those companies, for reasons stated therein.
 - h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
 - (i) The consolidated financial statements disclose impact of pending litigations on the consolidated financial position of the Group – Refer Note No. 50 of the Consolidated Financial Statements.
 - (ii) Provision has been made in the consolidated financial statements, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long term contracts including derivative contracts.
 - (iii) There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Holding Company and its subsidiary companies incorporated in India during the year ended 31st March, 2025.
 - (iv) (a) The respective management of the Holding Company and its subsidiaries which are companies incorporated in India, whose financial statements have been audited under the Act, have represented to us that, to the best of its knowledge and belief, no funds (which are material either individually or in aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Holding Company or any of such subsidiaries or in any other person(s) or entities, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any

manner whatsoever by or on behalf of the Holding Company or any of such subsidiaries ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

- (b) The respective Management of the Holding Company and its subsidiaries which are companies incorporated in India, whose financial statements have been audited under the Act, have represented to us that, to the best of their knowledge and belief, no funds (which are material either individually or in aggregate) have been received by the Holding Company or any of such subsidiaries from any person or entity, including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Holding Company or any of such subsidiaries shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
- (c) Based on such audit procedures that have been considered reasonable and appropriate in the circumstances performed by us on the Holding Company and its subsidiaries which are companies incorporated in India whose financial statements have been audited under the Act, nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) above as required by Rule 11(e) of Companies (Audit & Auditors) Rules, 2014, as amended, contains any material mis-statement.
- v. (i) The dividend declared and paid during the year by the Holding Company is in compliance with Section 123 of the Companies Act 2013. (Refer note no. 21)
- (ii) The Board of Directors of the Company have proposed final dividend for the year FY 2024-25 which is subject to

the approval of the members in the ensuing General meeting. The amount of dividend proposed is in accordance with section 123 of the Companies Act, 2013. (Refer note no. 60).

The subsidiaries have neither declared nor paid any dividend during the year.

- vi. Based on our examination which included test checks, the Holding Company and its subsidiary has a widely used ERP as its accounting software for maintaining its books of accounts during the year ended 31st March 2025, which has a feature of recording audit trail (edit logs) facility and same has been operated throughout the year in the said application except (a) the audit trail has not been enabled at database level, (b) at application audit trail is not enabled for relevant financial tables and (c) privileged access to specific users to make direct changes to audit trail settings. Further, during the course of audit we and the respective auditors of such subsidiary did not come across any instance of audit trail feature being tempered with and the audit trail has been preserved by the Company as per the statutory requirements for record retention.
- i) With respect to the other matter to be included in the Auditors' report in accordance with the requirements of Section 197(16) of the Act, as amended:

In our opinion and according to the information and explanation given to us, the remuneration paid by the Holding company to its directors during the year and its subsidiaries which are incorporated in India is in accordance with the provisions of Section 197 of the Act.

Annexure "B" to the Independent Auditor's Report

(Referred to in paragraph 2(g) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended 31st March 2025, we have audited the internal financial controls with reference to the consolidated financial statements of AGI Greenpac Limited ("the Company" or "the Holding Company") and its subsidiary company which is incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company and its subsidiary company which is company incorporated in India responsible for establishing and maintaining internal financial controls with reference to consolidated financial statements based on the criteria established by the respective Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls with reference to the Holding company and its subsidiary company, which is company incorporated in India, based on our audit.

We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to consolidated financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to consolidated financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal

financial controls with reference to consolidated financial statements and their operating effectiveness. Our audit of internal financial controls with reference to consolidated financial statements included obtaining an understanding of internal financial controls with reference to consolidated financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of the internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to consolidated financial statements.

Meaning of Internal Financial Controls with reference to financial statements

A company's internal financial control with reference to consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to consolidated financial statements includes those policies and procedures that 1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; 2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of consolidated financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; 3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the consolidated financial statements.

Inherent Limitations of Internal Financial Controls with reference to financial statements

Because of the inherent limitations of internal financial controls with reference to consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to consolidated financial

statements to future periods are subject to the risk that the internal financial control with reference to consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Group and its Subsidiary company, which is incorporated in India have maintained, in all material respects, an adequate internal financial controls system with reference to these Consolidated Financial Statements and such internal financial controls with reference to consolidated financial statements were operating effectively as at 31st March 2025, based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

Our aforesaid reports under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to Consolidated Financial Statements of the Holding Company, in so far as it relates to one subsidiary, which is company incorporated in India, is based on the corresponding report of the auditors of such company.

Our opinion is not modified in respect of this matter.

Material accounting policies and other explanatory information to the Consolidated financial statements

for the year ended 31 March 2025

1. A) Corporate information

AGI Greenpac Limited (the 'Parent Company') is a public limited company incorporated in India. The registered office of the parent Company is located in Kolkata and the corporate office is in Gurugram. The Group is into the business of manufacturing, selling and trading of Container Glass bottles, PET bottles and Security Caps and Closures under Packaging Products segment. The equity shares of the parent Company is listed at National Stock Exchange of India Limited (NSE) and BSE Limited.

The consolidated financial statements include the consolidated balance sheet, consolidated statement of profit and loss, consolidated cash flow statement and consolidated statement of changes in equity of the Parent Company, its under mentioned subsidiaries (hereinafter referred as the 'Group')

| Subsidiary Companies | Date of shareholding/membership | Country of incorporation | % of shareholding |
|-----------------------------|---------------------------------|--------------------------|-------------------|
| AGI Retail Private Limited* | 27 th August 2024 | India | 100% |
| Sun Reach Pack (FZE)** | 28 th October 2024 | United Arab Emirates | 100% |

* incorporated on 27th August 2024

** incorporated on 28th October 2024

B) Statement of compliance with Indian Accounting Standards (Ind AS)

The consolidated financial statements of the Group have been prepared in accordance with Ind AS notified by the Companies (Indian Accounting Standards) Rules, 2015 (as amended). Accordingly, the Group's financial statements for the year ended 31 March 2025 are prepared complying in material aspects with applicable Ind AS.

The consolidated financial statement of the Group as at and for the year ended 31 March 2025 were approved and authorised by the Board of Directors on 14 May, 2025.

C) Application of new and revised Indian Accounting Standard ("Ind AS")

All the Ind AS issued and notified by the Ministry of Corporate Affairs under the Companies (Indian Accounting Standards) Rules, 2015 (as amended) till the financial statements are authorized have been considered in preparing these financial statements.

D) Recent accounting pronouncements

Introduction of Ind AS 117

MCA notified Ind AS 117, a comprehensive standard that prescribe, recognition, measurement and disclosure requirements, to avoid diversities in practice for accounting insurance contracts and it applies to all companies i.e., to all "insurance contracts" regardless of the issuer. However, Ind AS 117 is not applicable to the entities which are insurance companies registered with IRDAI.

Additionally, amendments have been made to Ind AS 101, First-time Adoption of Indian

Accounting Standards, Ind AS 103, Business Combinations, Ind AS 105, Non-current Assets Held for Sale and Discontinued Operations, Ind AS 107, Financial Instruments: Disclosures, Ind AS 109, Financial Instruments and Ind AS 115, Revenue from Contracts with Customers to align them with Ind AS 117. The amendments also introduce enhanced disclosure requirements, particularly in Ind AS 107, to provide clarity regarding financial instruments associated with insurance contracts.

Amendments to Ind AS 116

Lease liability in a sale and leaseback, the amendments require an entity to recognise lease liability including variable lease payments which are not linked to index or a rate in a way it does not result into gain on Right of use asset it retains.

The Group has reviewed the new pronouncements and based on its evaluation has determined that these amendments do not have impact on the Group's Financial Statements.

2. Summary of Material accounting policies

2.1 Basis of preparation of Consolidated Financial Statements

These financial statements are the Consolidated Financial Statements of the Group prepared in accordance with Indian Accounting Standards ('Ind AS') notified under section 133 of the Companies Act 2013, read together with the Companies (Indian Accounting Standards) Rules, 2015 (as amended).

These Consolidated Financial Statements have been prepared and presented under the historical cost convention, on the accrual basis of accounting except for certain financial assets and financial liabilities

Material accounting policies and other explanatory information to the Consolidated financial statements for the year ended 31 March 2025

that are measured at fair values at the end of each reporting period, as stated in the accounting policies set out below.

The Consolidated Financial Statements (CFS) comprises the Financial Statements of AGI Greenpac Limited ("the parent Company"), its Subsidiaries (hereinafter referred together as "the Group"). The CFS of the Group have been prepared in accordance with the Indian Accounting Standards on "Consolidated Financial Statements" (Ind AS 110), "Disclosure of Interest in Other Entities" (Ind AS 112) notified under Section 133 of the Companies Act 2013.

2.2 Principles of Consolidation

(i) Subsidiaries

Control is gained when the Parent Company:

- » Has power over the investee
- » Is exposed or has rights to variable return from its involvement with the investee, and
- » Has the ability to use its power over the investee to affect its returns.

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Parent Company has less than a majority of the voting or similar rights of an investee, the Parent Company considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- » The contractual arrangement with the other vote holders of the investee
- » Rights arising from other contractual arrangements
- » The Parent Company's voting rights and potential voting rights
- » The size of the Parent Company's holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders.

The Parent Company re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Parent Company obtains control over the subsidiary and ceases when the Parent Company loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Parent Company gains control until the date the Parent Company ceases to control the subsidiary.

(ii) Loss of Control

When the Group loses control over a subsidiary, it de-recognises the assets and liabilities of the subsidiary, and any related NCI and other components of equity. Any interest retained in the former subsidiary is measured at fair value at the date the control is lost. Any resulting gain or loss is recognised in the Statement of Profit and Loss.

Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the Group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that Group member's financial statements in preparing the consolidated financial statements to ensure conformity with the Group's accounting policies.

The financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the Parent Company, i.e., year ended on 31 March.

2.3 Consolidation procedure:

Subsidiaries

- a) Combine like items of assets, liabilities, equity, income, expenses and cash flows of the Parent with those of its subsidiaries. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognised in the consolidated financial statements at the acquisition date.
- b) Offset (eliminate) the carrying amount of the Parent's investment in each subsidiary and the Parent's portion of equity of each subsidiary. Business combinations policy explains how to account for any related goodwill.
- c) Eliminate in full intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the group (profits or losses resulting from intragroup transactions that are recognised in assets, such as inventory and fixed assets, are eliminated in full). Intragroup losses may indicate an impairment that requires recognition in the consolidated financial statements.
- d) Non-controlling interest represents that part of the total comprehensive income and net assets of subsidiaries attributable to interests which are not owned, directly or indirectly, by the Holding Company

Material accounting policies and other explanatory information to the Consolidated financial statements for the year ended 31 March 2025

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

3. Material accounting policies and other explanatory information

The material accounting policies to prepare consolidated financial statements are in uniformity with the standalone financial statements of the Company. Following are the additional policies specifically considered for preparation of consolidated financial statements:

3.1 Business combinations

Business combinations are accounted for using the acquisition method. At the acquisition date, identifiable assets acquired and liabilities assumed are measured at fair value. For this purpose, the liabilities assumed include contingent liabilities representing present obligation and they are measured at their acquisition date fair values irrespective of the fact that outflow of resources embodying economic benefits is not probable. The consideration transferred is measured at fair value at acquisition date and includes the fair value of any contingent consideration. However, deferred tax asset or liability and any liability or asset relating to employee benefit arrangements arising from a business combination are measured and recognized in accordance with the requirements of Ind AS 12, 'Income Taxes' and Ind AS 19, 'Employee Benefits', respectively. Where the consideration transferred exceeds the fair value of the net identifiable assets acquired and liabilities assumed, the excess is recorded as goodwill. Alternatively, in case of a bargain purchase wherein the consideration transferred is lower than the fair value of the net identifiable assets acquired and liabilities assumed, the difference is recorded as a gain in other comprehensive income and accumulated in equity as capital reserve. The costs of acquisition excluding those relating to issue of equity or debt securities are charged to the Statement of Profit and Loss in the period in which they are incurred.

A business combination involving entities or businesses under common control is a business combination in which all of the combining entities

or businesses are ultimately controlled by the same party or parties both before and after the business combination and the control is not transitory. The transactions between entities under common control are specifically covered by Ind AS 103. Such transactions are accounted for using the pooling-of-interest method. The assets and liabilities of the acquired entity are recognised at their carrying amounts of the parent entity's consolidated financial statements with the exception of certain income tax and deferred tax assets. No adjustments are made to reflect fair values, or recognise any new assets or liabilities. The only adjustments that are made are to harmonise accounting policies. The components of equity of the acquired companies are added to the same components within the Group's equity. The difference, if any, between the amounts recorded as share capital issued plus any additional consideration in the form of cash or other assets and the amount of share capital of the transferor is transferred to other equity and is presented separately from other capital reserves.

3.2 Foreign currency transactions and translations

Initial recognition

The Group's consolidated financial statements are presented in INR, which is also the Group's functional currency. Transactions in foreign currencies are recorded on initial recognition in the functional currency at the exchange rates prevailing on the date of the transaction.

Measurement at the balance sheet date

Foreign currency monetary items of the Group, outstanding at the balance sheet date are restated at the year-end rates. Non-monetary items which are carried at historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined.

Treatment of exchange difference

Exchange differences that arise on settlement of monetary items or on reporting at each balance sheet date of the Group's monetary items at the closing rate are recognised as income or expenses in the period in which they arise.

3.3 Taxation

Deferred tax

Deferred tax assets are recognised to the extent that it is probable that the underlying tax loss or deductible temporary difference will be utilised against future

Material accounting policies and other explanatory information to the Consolidated financial statements for the year ended 31 March 2025

taxable income. This is assessed based on the Parent Company's/its subsidiary's forecast of future opening results, adjusted for significant non-taxable income and expenses and specific limits on the use of any unused tax loss or credit.

Deferred tax liabilities are generally recognised in full, although Ind AS 12, Income Taxes, specifies limited exemptions.

Changes in deferred tax assets or liabilities are recognised as a component of tax income or expense in the statement of profit or loss, except where they relate to items that are recognised in other comprehensive income (such as the revaluation of land) or directly in equity, in which case the related deferred tax is also recognised in other comprehensive income or equity, respectively.

3.4 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to

the chief operating decision maker. The Group has two operating/reportable segments: Packaging Products segment and Investment Property segment. In identifying these operating segments, management generally follows the Group's service lines representing its main products and services.

Each of these operating segments is managed separately as each requires different technologies, marketing approaches and other resources. All inter-segment transfers are carried out at arm's length prices based on prices charged to unrelated customers in standalone sales of identical goods or services.

For management purposes, the Group uses the same measurement policies as those used in its financial statements. In addition, unallocated assets which are not directly attributable to the business activities of any operating segment are not allocated to a segment.

Note 44 - Financial instruments and risk review**Capital management**

The Group manages its capital to be able to continue as a going concern while maximising the returns to shareholders through optimisation of the debt and equity balance. The capital structure consists of debt which includes the borrowings as disclosed in note 22 and 28 and net cash and cash equivalents as disclosed in note 15 and equity attributable to equityholders of the Company, comprising issued share capital, reserves and retained earnings as disclosed in the Statement of changes in equity. For the purpose of calculating gearing ratio, debt is defined as non current and current borrowings (excluding derivatives). Equity includes all capital and reserves of the Company attributable to equity holders of the Company. The Company is not subject to externally imposed capital requirements. The Board reviews the capital structure and cost of capital on an annual basis but has not set specific targets for gearing ratios. The risks associated with each class of capital are also considered as part of the risk reviews presented to the Audit Committee and the Board of Directors.

Financial risk management objective

The Group is exposed to various risks in relation to financial instruments. The main types of risks are market risk, credit risk and liquidity risk. The Company is not engaged in speculative treasury activities but seeks to manage risk and optimise interest and commodity pricing through proven financial instruments.

The use of any derivative is approved by the management, which provide guidelines on the acceptable levels of interest rate risk, credit risk, foreign exchange risk and liquidity risk and the range of hedging requirement against these risks.

Credit risk:

Credit risk is the risk that a counter party will not meet its obligations under a financial instrument or customer contract, leading to financial loss. The Company is exposed to credit risk for receivables, cash and cash equivalents, short term investments, financial guarantee and derivative financial instruments.

Cash and cash equivalents and short term investments

The Group considers factors such as track record, size of institution, market reputation and service standard to select the banks with which deposits are maintained. Generally the balances are maintained with the institutions with which the Company has also availed borrowings. The Company does not maintain significant deposit balances other than those required for its day to day operations.

Note 44 - Financial instruments and risk review (Contd.)**Trade receivables**

The Group extends credits to customer in normal course of the business. The Company considers the factors such as credit track record in the market of each customer and past dealings for extension of credit to the customer. The Company monitors the payment track record of each customer and outstanding customer receivables are regularly monitored. The Company evaluates the concentration of risk with respect to trade receivables as low, as its customers are located at several jurisdiction and industries and operate in large independent markets. The Company also takes advances and security deposits from customers which mitigate the credit risk to an extent.

The average credit period taken on sales of goods is 30 to 90 days. Generally, no interest has been charged on the receivables. Allowances against doubtful debts are recognised against trade receivables based on estimated irrecoverable amounts determined by reference to past default experience of the counterparty and an analysis of the counterparty's current financial position.

Before accepting any new customer, the Company uses an internal credit system to assess the potential customer's credit quality and defines credit limits by customer. Limits attributed to customers are reviewed periodically. There are three customers who represent more than 10 per cent of total net revenue from operations during the year.

The Company does not hold any collateral or other credit enhancements over any of its trade receivables nor does it have a legal right of offset against any amounts owed by the Company to the counterparty.

Expected credit loss:

The Group has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and adjusted for forward-looking information. The expected credit loss allowance is based on the ageing of the days the receivables are due and the rates as given in the provision matrix. The provision matrix at the end of the reporting period is as follows:

| Ageing | Expected credit loss (%) |
|-------------------------|--------------------------|
| Not due for payment | 0 |
| Up to 6 months | 0 |
| From 6 months to 1 year | 0 |

Note 44 - Financial instruments and risk review (Contd.)**Financial guarantee**

The Group has not given any financial guarantee.

Liquidity risk:

Liquidity risk reflects the risk that the Company will have insufficient resources to meet its financial liabilities as they fall due.

The Group's objective is to maintain optimum levels of liquidity to meet its cash and collateral requirements. The Company relies on a mix of borrowings, capital infusion and excess operating cash flows to meet its needs for funds. The current committed lines of credit are sufficient to meet its short to medium term expansion needs. The Company monitors rolling forecasts of its liquidity requirements to ensure that it has sufficient cash to meet operational needs while maintaining sufficient headroom on its undrawn committed borrowing facilities so that it does not breach borrowing limits.

The table below provides undiscounted cash flows towards non-derivative financial liabilities into relevant maturity based on the remaining period at the balance sheet date to the contractual maturity date and, where applicable, their effective interest rates.

Market risk

The Group's activities expose it primarily to the financial risks of changes in foreign currency exchange rates and interest rates. The Company enters into a variety of derivative financial instruments to manage its exposure to foreign currency risk, including:

Forward foreign exchange contract to hedge the exchange rate risk arising on the export and imports of its products.

Forward foreign exchange derivative contract to hedge the exchange rate risk arising on translation of payment of foreign currency loan.

Forward foreign exchange interest rate swap contract to hedge the exchange rate risk arising on translation of payment on interest.

Currency risk

The Group undertakes various transactions denominated in foreign currencies, consequently, exposure to exchange rate fluctuations arise. Exchange rate exposures are managed within approved policy parameters utilising forward foreign exchange contracts.

The Group transacts business primarily in Indian Rupee, USD, EUR and GBP. The Company has obtained foreign currency loans and has foreign currency payables and receivables and is therefore, exposed to foreign exchange risk. Certain transactions of the Company act as a natural hedge as a portion of both assets and liabilities are denominated in similar foreign currencies. For the remaining exposure to foreign exchange risk, the Company adopted a policy of selective hedging based on risk perception of the management. Foreign exchange hedging contracts are carried at fair value.

Note 44 - Financial instruments and risk review (Contd.)

The carrying amounts of the Company's foreign currency denominated monetary assets and monetary liabilities at the end of the reporting period are as follows:

| (in lakh) | | |
|------------------|----------|------------------------|

Sensitivity analysis

The following table demonstrates the sensitivity of profit and equity in USD, EUR and GBP to the Indian Rupee with all other variables held constant. The impact on the Company's profit before tax and other comprehensive income due to changes in the fair value of monetary assets and liabilities is given below:

| (₹ in lakh) | | |
|-------------|-------------------------------------|---|
| Currency | Change in currency exchange rate | Effect on profit before tax 31 March 2025 |
| USD | 5% | (436.04) |
| | -5% | 436.04 |
| EUR | 5% | (15.33) |
| | -5% | 15.33 |
| GBP | 5% | 23.48 |
| | -5% | (23.48) |

This is mainly attributable to the exposure outstanding on foreign currency receivables and payables in the Company at the end of each reporting period.

Note 47 - Employee benefits

A. Defined contribution plan

The Company operates defined contribution retirement benefit plans for all eligible employees. The assets of the plans are held separately from those of the Company's in funds under the control of trustees of Somany Provident Fund Institution (PF Trust). During the previous year, the PF Trust had surrendered the recognition granted to it. Accordingly, the entire corpus in respect of all the active and inactive employees had been transferred to the office of Regional Provident Fund Commissioner (RPFC) Kukatpally, Hyderabad. Where employees leave the plans prior to full vesting of the contributions, the contributions payable by the Company are reduced by the amount of forfeited contributions.

The Company's contribution to Provident Fund and Superannuation Fund aggregating to ₹ 828.16 lakh (net of amount capitalised and reimbursement received from government) has been recognised in the Statement of Profit and Loss under the head Employee Benefits Expense.

B. Defined benefit plans

Gratuity

The Company operates a gratuity plan covering qualifying employees. The benefit payable is the greater of the amount calculated as per the Payment of Gratuity Act, 1972 or the Company Scheme applicable to the employee. The benefit vests upon completion of five years of continuous service and once vested it is payable to employees on retirement or on termination of employment. In case of death while in service, the gratuity is payable irrespective of vesting. The Company makes annual contribution to the group gratuity Scheme administered by the Birla Sun Life Insurance Company Limited.

| 6. Fair value of plan assets at the end of the year | 1,490.71 |

IV. The major categories of plan assets

The Company made annual contribution to the Birla Sun Life Insurance Company Limited ('BSL') of an amount advised by the BSL. The Company was informed by BSL that the planned assets are held in growth/fixed interest bonds.

V. Actuarial assumptions

| | |
|--|----------------|
| 1. Discount rate | 6.89% |
| 2. Expected rate of increase in compensation level | 6.50% |
| 3. Attrition rate | 1.00% |
| 4. Expected rate of return on plan assets | 6.89% |
| 5. Mortality table | IIAM 2012-2015 |
| 6. Superannuation age | 58 |

VI. Sensitivity analysis

(₹ in lakh)

| Particulars | 31 March 2025 | |
|--|----------------------|-------------------------------|
| | Change in assumption | Effect on gratuity obligation |
| Discount rate | 0.50% | (77.74) |
| | -0.50% | 85.10 |
| Expected rate of increase in compensation level | 0.50% | 84.71 |
| | -0.50% | (78.08) |

The above sensitivity analysis is based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (projected unit credit method) has been applied as when calculating the defined benefit obligation recognised within the balance sheet.

VII. Experience adjustments:

NOTES:

1. Explanatory Statement, setting out the material facts concerning the item of Special Business to be transacted at the Annual General Meeting ("AGM") pursuant to Section 102 of the Companies Act, 2013 ("Act"), is annexed hereto and forms part of the Notice.
2. Pursuant to the General Circular no. 09/2024 dated 19 September 2024 issued by the Ministry of Corporate Affairs ("MCA") and Circular No. SEBI/HO/CFD/CFD-PoD-2/P/CIR/2024/133 dated 3 October 2024 issued by SEBI, read with the earlier circulars issued by MCA and SEBI in this regard (hereinafter collectively referred to as "the Circulars"), companies are allowed to hold AGM due in the year 2025 through VC/OAVM, without the physical presence of members at a common venue. Hence, in compliance with the Circulars, the 65th AGM of the Company is being held through VC/OAVM on Friday, 29 August 2025, at 12:30 P.M. (IST) which does not require the physical presence of Members at a common venue. The deemed venue for the AGM shall be the Registered Office of the Company.
3. As the AGM will be held through VC/OAVM, in compliance with the Circulars, where physical presence of Members has been dispensed with, there is no requirement of appointment of proxies. Accordingly, the facility of appointment of proxies under Section 105 of the Act is not available for this AGM, hence Proxy Form, Attendance Slip and Route Map of AGM venue are not annexed to this notice. However, in pursuance of Sections 112 and 113 of the Act, representatives of the Members may be appointed for the purpose of voting through remote e-voting for participation and voting in the AGM through VC/OAVM.

4. Pursuant to Section 113 of the Act, Institutional/ Corporate Members are requested to send a duly certified copy of the Board Resolution authorizing their representative to attend and vote at the AGM, before e-voting/attending the AGM, to agiinvestors@agigreenpac.com.

5. Members attending the AGM through VC/OAVM shall be counted for the purpose of reckoning the quorum under Section 103 of the Act.

In case of voting by joint holders, voting by such joint holder who is higher in the order of the names as per the Register of Members of the Company, as of the cut-off date, will be counted for the purpose of this Meeting.

6. Members can join the AGM in the VC/OAVM mode 30 minutes before and after the scheduled time of the commencement of the Meeting by following the procedure mentioned in the Notice. The facility of participation at the AGM through VC/OAVM will be made available to at least 1000 members on first come first served basis. This will not include large shareholders (shareholders holding 2% or more shareholding), Promoters, Institutional Investors, Directors, Key Managerial Personnel, the Chairpersons of the Audit Committee, Nomination and Remuneration Committee and Stakeholders Relationship Committee, Auditors etc. who are allowed to attend the AGM without restriction on account of first come first served basis.

7. Pursuant to the provisions of Section 108 of the Act read with Rule 20 of the Companies (Management and Administration) Rules, 2014 (as amended), Regulation 44 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations") (as amended) and MCA Circulars, the Company is providing facility of remote e-voting to its Members in respect of the businesses to be transacted at the AGM. For this purpose, the Company has entered into an agreement with CDSL for facilitating voting through electronic means, as the authorized e-voting agency. The facility of casting votes by a member using remote e-voting as well as the e-voting system on the date of the AGM will be provided by Central Depository Services (India) Limited ("CDSL").

8. In conformity with the Circulars, Notice of the AGM along with the Annual Report for the FY 2024-25 is being sent only through electronic mode to those Members whose email addresses are registered with the Company/Depositories. Members may note that the Notice and Annual Report for the FY 2024-25 are also available on the Company's website www.agigreenpac.com, websites of National Stock Exchange of India Limited and BSE Limited i.e. www.nseindia.com and www.bseindia.com

respectively and on the website of CDSL i.e. www.evotingindia.com.

9. In order to strengthen the dispute resolution mechanism for all disputes between a listed company and/or registrars & share transfer agents and its shareholder(s)/investor(s), SEBI had issued a Standard Operating Procedure ('SOP') vide Circular dated 30 May 2022. As per this Circular, shareholder(s)/ investor(s) can opt for Stock Exchange Arbitration Mechanism for resolution of their disputes against the Company or its Registrar and Share Transfer Agent ("RTA"). Further, SEBI vide Circular dated 31 July 2023 (updated as on 20 December 2023, introduced the Online Dispute Resolution (ODR) Portal. Through this ODR portal, the aggrieved party can initiate the mechanism, after exercising the primary options to resolve its issue, directly with the Company and through the SEBI Complaint Redress System (SCORES) platform. The Company has complied with the above circulars and the same are available at the website of the Company: www.agigreenpac.com.

10. The Register of Members and the Share Transfer Books of the Company will remain closed from Saturday, 23 August 2025 to Friday, 29 August 2025 (both days inclusive). Dividend on Equity Shares, if declared at the meeting, will be paid to those shareholders whose names appear in the Company's Register of Members and List of Beneficial Owners as on close of business hours of Friday, 22 August 2025 i.e. Record date furnished by NSDL/CDSL. The dividend, if declared, shall be paid by Friday, 5 September 2025.

11. As mandated by SEBI, Dividend, if declared, at the AGM will be credited to the bank account of respective shareholders through National Electronic Clearing Service ("NECS")/Electronic Clearing Service ("ECS") where such facility is available. Members holding shares in electronic mode are therefore requested to furnish their bank particulars in which they wish to receive dividend, through their Depository Participants ("DPs"). Members holding shares in physical form and desirous of availing the NECS/ECS facility, are requested to update their bank particulars by sending it to the Company's RTA, M/s. Maheshwari Datamatics Private Limited, directly for instant credit of dividend and other cash entitlements.

Shareholders of the Company are informed that pursuant to the provisions of Section 124(5) of the Act, the amount of dividend which remains unpaid/unclaimed for a period of seven (7) consecutive years is required to be transferred to the 'Investor Education & Protection Fund' ("IEPF") constituted by the Central Government. Accordingly, unpaid/unclaimed dividend upto the financial year 2016-17 has been transferred to IEPF.

Notice

Shareholders who have not encashed their dividend warrant(s) for the financial years from 2017-18 to 2023-24 are requested to make claim with the Company immediately. Dividend declared by the Company for the financial year 2017-2018 which remains unpaid/unclaimed is due for transfer on or after 12 October 2025 to IEPF.
