Our Mission

Specialization Within 8 Selected Sectors

38 identified sub-sectors within **8 sectors**

Focus on **SME clusters** in India

~50% - Contribution of the 8 sectors to the overall SME lending market in India

Validated independently by CRIF, CRISIL and the company distribution and underwriting teams

Large lending opportunity

Lower impact of regulatory changes

Relatively less competition from banks

Secular consumption driven growth

Low geographical concentration

We Further Narrowed Down on 38 Sub-sectors and Clusters...

...to Create Customized Solutions for Customers...

Restaurants

Challenges Faced: Cash based collections reducing eligibility, a new restaurant takes time to reach positive cashflows

U GRO Approach

Assessment: A combination of Zomato ratings, seats, cuisine served, price points to arrive at eligibility

Cash Flows: If a franchise, then a 3-tranche disbursal – payment to franchisor, infra development, working capital. Payments to start post commencement of operations

Distribution: Tie up with food aggregators like Zomato, Swiggy and assess eligibility through transactional data

Pathology lab

Challenges Faced: Heavy investment in equipment, cash-based collections reducing eligibility

U GRO Approach

Assessment: Cash flow assessment through footfall, online booking, booking register, price list published online

Cash Flows: Leasing module used. Disbursal of funds to the manufacturer by U GRO. Pathology lab owner to pay only rental per month

Distribution: Tie up with leasing agencies and manufacturers of equipment

...With Tailored Products for Each Sub-Sector

Sector	Sub-sector	Target Segment	Key Insights	Key Propositions
Hospitality 	Boutique Hotels	Two/three star mid sized and budget hotels	- Boutique hotels want a convenient and hassle-free loan process - Business data available on digital marketplaces - Very open to completely digital process	- Pre-approved loan disbursement based on marketplace data e.g. trivago, MakeMyTrip etc. - Parameters for loan decision include online rating, # of rooms, average room rate etc.
	Restaurants and QSRs	Quick service restaurants and fine dining restaurants	- Restaurants with different formats have highly disparate sources of income - Broad range of margins across sub-types, affected in particular by owning a liquor license	Restaurant format-based eligibility approach - QSR standalone, QSR franchise and fine dining Scorecard approach with higher scores for owned property, liquor license, home delivery
Healthcare 	Dental Clinics	Existing dental clinics	- Loan eligibility in this sector is quite margin reliant - Dental clinics offering high end, very specialized services have higher margins	Procedure based lending approach - Liquid Income program available based on specialization of the dentist - Parameters for loan decision include doctor's qualifications, clinic vintage etc.
Food Processing & FMCG 	FMCG Traders	Kirana shops measuring a minimum of 200 sq. ft	- Outlook and repayment behavior have a strong correlation with shop size and business vintage - Volume is very dependent on speed at which they can rotate stock Business and sourcing stability are also of critical importance	- Loans offered based mainly on floor area and business/shop vintage - Further parameters monitored include supplier stability, quantity of stock maintained, inventory turnover etc.

Disrupting the Existing Model with an Approach to Serve the Entire Value Chain of ₹ 100,000 to ₹ 5,00,00,000 Loans to Small Businesses

Current distribution models

- Mostly **DSA sourced**, branch led model or a feet on street led model
- DSA shares a customer file with multiple NBFCs and has multiple rounds of follow-ups to access financing resulting in **low productivity**
- Customer relationship with the DSA/FOS resulting in **high level of customer churn**
- **Opex intensive model** with almost a linear relationship between opex and disbursals

Ticket Size: Up to ₹5 Cr

Turnover: Up to ₹20 Cr
Ticket Size: Up to ₹5 Cr

Turnover: Up to ₹5 Cr

Disrupting the conventional distribution channel

- “**Uberized distribution model**” – increased distribution network of DSAs, CAs, brokers with higher productivity
- Branch FOS to be “**relationship managers**”

Harnessing Ecosystem based lending

- Access MSMEs through their **business ecosystems** by partnering with **anchors, aggregators**
- Assessment of **partner transaction data**

Reaching Customers directly and digitally

- **Digital lending** on own platform supplemented by **pre-qualified leads**

Prospering the partnership approach

- Partnerships with NBFCs providing ME loans/fin-techs in Tier 2, Tier 3 cities
- **Leveraging the distribution network of partners** to create a low Opex lending model and be a complete liability solutions provider to them

Value Proposition for Channel Partners

- **Lower TAT** : In principal approval in **1 hour**
- **Higher productivity**: High conversion (**~60%**) post the in-principle approval
- **Analytics-driven** opportunity to **cross-sell/top-up** within their customer bases
- U GRO co-lends with larger banks, allowing partners to **originate larger ticket sizes**
- **Payment within 7 days** resulting in improved working capital management

Dedicated “Growth Team” to build industry partnerships

Independent vertical headed by the Chief Growth Officer

- Each sector to be led by a ‘sector head’

Develop partnerships in prioritized segments with key participants e.g. sector specific lenders, industry bodies

- E.g. Anchor led supply chain financing, partnerships with equipment suppliers

Partnership with a large food aggregator

- **Pre-approved program based on data analytics** for unsecured & secured loans to restaurants
- **Performance data of restaurants** partners with U GRO to be shared by the aggregator
 - Vintage, location, ratings/reviews, transactions
- Pay-outs to restaurants routed through an **escrow account** created for the program

Ability to go deep into the partner value chain

Ability to tap into the partners’ network of distributors, dealers, suppliers and then eventually the end customer through an ecosystem-based lending strategy

Symbiotic partnerships to cater to the MEL segment

Challenges faced by NBFCs:

- Given scale of NBFCs, their regional concentration and the target segment, **access to credit for such NBFCs is limited**

U GRO Solution:

- Create a **steady liability solution** for such NBFCs through multiple modes including **direct lending, on tap assignment, co-lending and debt syndication**
- **Joint under-writing** by U GRO and the partner NBFC

Advantage to U GRO

- Ability to create a **large, granular micro-enterprise book** without incurring significant opex
- **First loss credit enhancement** from the NBFC

The BFSI partnership channel is U GRO's strategy to cater to the micro-enterprise segment without incurring significant Opex costs

Our Innovation-Driven Digital Lending Platform

Customer Service

Chatbot based, integrated with popular message apps (proposed)

- **Completely Digital** Customer Servicing
- No reliance on human intervention
- Web-service based APIs for **instant query/request handling** over app/web or IVR call

- **Ecosystem Players**
- Aggregators
- Web Portals Listings
- Payment Gateways
- **Marketplaces**
- Industry Bodies/Associations
