Chairman's Message:

Dear Stakeholders,

I am pleased to present to you our company's performance during the year FY 2020-21, and I am proud to share with you this.

FY2021 was an eventful year for AHL. Despite the pandemic situation and uncertainties thereof, it was a remarkable year for us. India stepped into FY2021 with Covid-19 induced lockdown in place. Lockdown restrictions caused unprecedented job losses and impacted livelihoods of many. Demand remained muted and GDP contracted to 23.9% in Q1FY2021. But markets started gradually recovering led by phase wise unlocking, various policy measures announced by government RBI as well as a better than expected corporate earnings performance. From the lows seen during the end of FY2020, markets bounced back to erase its losses in November. Investors further gained confidence with the approval of vaccines against Covid.

We are going through the throes of the second wave of COVID-19 and things are looking grim. As I write to you in the second half of April 2021, there have been over 141 million cases across the world which have claimed more than three million lives. With India crossing 14.8 million cases, it is the second worst affected country: less than USA but higher than Brazil.

The Central and State Governments are taking emergency actions to navigate through this unprecedented second wave. A rapidly accelerated pace of vaccinations coupled with a strict enforcement of wearing masks and social distancing should bring this second wave in control — sooner rather than later.

I have always been proud of your Company's leadership and employees, and their ability to consistently deliver superlative achievements over the past decade.

In these incredibly difficult times, I am truly proud of how AHL team seamlessly worked together through incredibly long hours to navigate through this crisis. It helped in delivering reasonable results for FY2021 and creating a strong platform for the post COVID-19 world.

Amidst the second COVID-19 wave, it is difficult to predict what the first and second quarter of FY2022 will bring. However, notwithstanding my innate conservatism, I can say one thing with a fair degree of certainty - Your Company has the team, the commitment, the capability and the financial strength to overcome the second wave as well.

We believe in creating value by taking constant efforts towards building capabilities and developing our competitive edge over peers with the help of bringing in diversity and transparency in doing business and would continue to do so in order to become a stronger entity than we were yesterday.

Indeed, as I write, the team is actively working on this. Remember the song, "We Shall Overcome". That is the motto and leitmotif of your Company.

On behalf of the Board, I thank the entire team at Arnold Holdings Limited for showing their faith by giving constant support and encouragement. I also take the pleasure to thank the employees for their tireless efforts towards achieving our goals.

And will forever be. Stay safe. Vaccinate yourself and your family. Wear masks. Maintain social distancing.

Never forget that all grey clouds must pass.

With my very best,

Sd/-

However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

ECONOMIC OVERVIEW

Global Economy

The year 2020 has been like no other. The global lockdown during the first surge of the COVID- 19 pandemic sparked the strongest economic contraction in history. Most economies recovered sharply thereafter, but a second wave of COVID- 19 set the economy back again. Yet growth should return gradually in 2021 without prompting a rise in inflation or interest rates, despite much higher government debt. In 2020, the US economy contracted by ~3.4% over 2019. The Eurozone was impacted severely by the pandemic and reported a negative growth of 7.2% over 2019. Governments in the advanced economies provided extensive fiscal support to households and firms and central banks reinforced this with expanded asset purchase programmes, funding-for-lending facilities and, for some, interest rate cuts.

Outlook

According to International Monetary Fund (IMF), the global economy is projected to grow at 6% in 2021 and 4.4% in 2022. Going forward, the extent of global recovery is expected to be uneven. The severity of the health crisis in each country, the degree of interruptions to economic activities, exposure to cross-border spill overs and the efficiency of policy support to limit the damage will decide the rate of recovery.

Indian Economy

The Indian economy registered a GDP growth (YoY) of 0.4% in Q3 2020-21, after recording negative growth of 24.4% and 7.3% in the previous two quarters. The positive growth during the third quarter is indicative of slow resumption of economic activities, higher consumption and activity across sectors. In order to make India self-reliant and fight against the impact of COVID-19, the Prime Minister of India announced stimulus packages worth Rs. 20 lakh crores or 10% of India's GDP towards Atmanirbhar Bharat Abhiyan. The Government announced additional packages under the programme in September 2020 and November 2020. The Indian economy grew by 1.6% in the fourth quarter recording a minor pickup in growth amidst the COVID-19 second wave hitting the economy hard. For the full fiscal year, the economy shrunk by -7.3% as the COVID-19 pandemic ruined the economy.

Outlook

With the economic activity gaining momentum post COVID-19 lockdown and rollout of coronavirus vaccines, the Indian economy is likely to do better. However, the second wave of COVID-19 currently sweeping the country, rising input prices, stress in the Micro, Small and Medium-sized Enterprises sector, and a weak labour market are some of the headwinds facing India's economic revival. Monetary and fiscal support will remain crucial. IMF has projected growth rate of 12.5% for India in 2021.

Indian Financial Services Industry

The financial services sector in India is a diversified sector consisting of commercial banks, insurance companies, non-banking financial companies, housing finance companies, co-operatives, pension funds, mutual funds and other smaller financial entities. Financial inclusion drive by RBI has expanded the target market to semi-urban and rural areas. NBFCs especially those catering to the urban and rural poor namely NBFC-MFIs and Asset Finance Companies have a complimentary role in the financial inclusion agenda of the country. Financial services sector is poised to grow on the back of rising incomes, significant government attention and the increasing pace of digital adoption.

Growth drivers

Shift to financial asset class

Financial sector growth can be attributed to rise in equity markets and improvement in corporate earnings. By 2022, India's personal wealth is forecast to reach US\$ 5 trillion at a CAGR of 13%. It stood at US\$ 3 trillion in 2017. The government efforts to increase banking penetration through its Jan DhanYojna and the integration of PAN and Aadhar are expected to further increase the share of savings in financial assets.

Rise of technology

The ever-evolving high-tech world has left humans desiring for high-touch — the involvement of personal attention and service. High-touch refers to situations where trust between the customer and employed individual is necessary and with the growing impact of millennials — both customers and new-age banking employees — personal touch will be crucial factor in maintaining important relationships in the financial services sector alongside the evolving technologies.

Union Budget 2021-22 highlights

The budget was bold in its approach towards the financial services sector in terms of privatisation of PSBs and insurance companies and allowing greater FDI in insurance. Asset Reconstruction Company (ARC) set-up, commonly referred to as the Bad Bank, is a long-awaited reform to clean up NPAs in India. Its accomplishment will be based on the implementation and constraints on the ARC to sell the assets in the market. This should also reduce the amount of new capital required by PSBs from the Government. Development Finance Institution brings back infrastructure lending companies of the past with the hope that it would have broader and easier access to private capital. This could boost the infrastructure space and employment in the country.

INDUSTRY OVERVIEW

NBFC industry

Since the last decade, the NBFC sector has held critical importance in the Indian Financial Services sector. The main objective of NBFCs has been serving the underserved segment of the Indian economy such as MSME, microfinance and other retail segments. Over the past few years, NBFCs have undergone a significant transformation and today they form an important component of India's financial system. NBFCs are harnessing technology to reinvent traditional business models and offer loans in a faster, customised and more convenient way to the under banked population of India. NBFCs especially those catering to the urban and rural poor namely NBFC-MFIs and Asset Finance Companies have a complimentary role in the financial inclusion agenda of the country.

Key opportunities for NBFCs to boost revenues

- Increase the penetration in the MSME segment with new and dynamic operating models. Synergistic alliances with Fintech to tap niche markets.
- Get access to new customers and cheaper funding sources by developing a viable co-lending business model.
- Target individual buyers, merchants and suppliers to tap into the fast-growing e-commerce segment. Diversify assets by targeting new profitable segments and developing the capabilities required to serve the segments.
- Develop digital capabilities to boost sales productivity.
- Increase fee income through advisory services.
- Digital competencies and tools to improve sales productivity - Use of advanced analytics and machine learning to build propensity models for lead generation.
- Making real-time offers available to sales representatives by using customer data from multiple internal and external sources.
- Offer consumer convenience and consumer loans across the country.
- Assisting new to credit customers become micro-entrepreneurs and improve livelihood by undertaking cashflow based lending.

India Ratings (Ind-Ra) has maintained stable outlook on retail non-banking finance company (NBFC) and housing finance company sectors for 2021-22. Improved system liquidity and strong capital buffers will boost loan disbursements.

The rating agency expects non-bank lenders to grow by 9.5% year-on-year in 2021-22, whereas growth for housing finance companies would be around 10% year-on-year, higher than the expectations of 4-5% and 6.5%, respectively, for the fiscal year 2021. However, the second wave of COVID-19 has pulled back the recovery gains with consequent impact on asset quality.

The rural economy and the agriculture sector are likely to see strong growth pick-up, helped by factors such as a good monsoon, high reservoir levels, increase in crop sowing, etc. Moreover, the non-farm sector is expected

to be helped by increased government spending on infrastructure, road construction, etc. which are likely to aid growth. Refer chart below showing steady rise in rural income and expenses.

Even on a long-term basis, there is a structural case for the share of rural sales in overall auto sales to go up, given the under penetration, lack of requisite last-mile connectivity, rural road network expansion, etc. The above factors can help further accelerate, and provide a cyclical boost for vehicle financing NBFCs, which have a relatively higher share of their own business linked to the rural economy, and therefore stand to gain.

Outlook

NBFCs, including Housing Finance Companies (HFCs), have been progressively increasing their share in the total credit market. With liquidity conditions expected to improve in the long run, NBFCs are poised to grow further at a faster pace and cater to the financial needs of the country. The long-term prospects for highly rated and good quality NBFCs remain robust, and once things get back to normal, the segment will continue to catalyse India's economic growth.

ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE STANDALONE FINANCIAL STATEMENTS OF ARNOLD HOLDINGS LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of ARNOLD HOLDINGS LIMITED ("the Company") as of March 31, 2021 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing as specified under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that;

1. Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
2. Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
3. Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

(b) Fair value hierarchy

To provide an indication about the reliability of the inputs used in determining fair value of financial instruments measured at amortised cost for which fair value is being disclosed, the company has classified these into the three levels prescribed under Ind AS 113, 'Fair value measurement'.

Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. The fair value of financial assets and liabilities included in Level 3 is determined in accordance with generally accepted pricing models based on discounted cash flow analysis using prices from observable current market transactions and dealer quotes of similar instruments.
