MESSAGE FROM THE CHAIRMAN- EMERITUS

Dear Fellow Shareowners,

A good monsoon augers well for Indian Economy. The Goods and Services Taxes Act is ushering in a game changing reform for the Indian economy by its all-pervasive impact.

The acts of demonetisation of high-value currency, the large-scale mobilisation of Jan Dhan Yojana, efforts of making Aadhaar the base for effecting the Direct Benefit Transfer scheme, full implementation of the Real Estate (Regulation and Development) Act, 2016 etc. are expected to take India to a growth path.

We at Jai Corp are committed to frame our business plans, based on our core competencies that will add more value to our products and services and herald a new growth era. We always maintain that our performance and growth are intrinsically linked with the sustenance and development of the communities in which we operate. We believe that growth and responsibility go hand-in-hand. We have always given the highest priority to our programmes engaging various sections of the society.

We remain committed to safe and efficient operations and to conducting our business in an environmentally sound and socially responsible manner.

I thank all our shareholders who have consistently reinforced their faith and trust in the Company. I am confident that we will strive hard to build a stable future for all our stakeholders.

I thank our Board of Directors for their valuable insight, constant support and guidance at every stage. I also thank our stakeholders for their unstinted support.

With best wishes,
Sincerely,

Jai Kumar Jain

Chairman- Emeritus

MESSAGE FROM THE CHAIRMAN

Dear Fellow Shareowners,

2016-17 was a watershed year for India. The Central Government introduced initiatives on multiple fronts including new policies, new laws and systems and restructuring of existing government infrastructure, especially in relation to the business and investment of the country. These path-breaking reforms are expected to have a long-term favorable impact on the development of the country and create a positive economic, investment and business environment.

- In June, 2016, the Central Government radically liberalized the foreign direct investments ('FDI') regime by bringing most of the sectors under automatic approval route, except a small negative list.
- In May 2017, the Foreign Investment Promotion Board (FIPB) that used to process approval of large FDI investment proposals in the country was abolished. Instead, individual departments of the government have now been empowered to clear FDI proposals in consultation with the DIPP.
- In November 2016, the Benami Transactions (Prohibition) Amendment Act, 2016 came into effect. The Act, an amendment to a previous version from 1988, has added more teeth to the nearly three decades old Act.
- In November 2016, in a surprise move, the Government announced demonetisation of Rs. 1,000 and Rs. 500 notes, making these notes invalid in a major assault on black money, fake currency and corruption. The existing notes were replaced by a new series of Rs. 500 and Rs. 2000 notes.
- In July 2017, the Goods and Services Tax (GST) came into effect. The implementation of the GST subsumes in itself a host of indirect taxes and becomes one indirect tax for the whole nation, which is expected to transition India one unified common market. This is one of the biggest reforms concerning indirect taxation in the country, fundamentally changing the manner in which goods and services are taxed in the country. It is expected to create efficiencies in the movement of goods and services and their pricing while enabling a wider indirect tax collection base.
- In May 2017, The Real Estate (Regulation and Development) Act, 2016 came into full effect and is expected to protect home-buyers and increase their confidence while purchasing homes. This will help boost investments in the real estate industry.
- The Central Government is taking steps to make Aadhaar number an all-encompassing identity tool across the spectrum of transactions that a citizen undertakes in the social, governmental and economic domain.
- The year also saw the introduction of the Indian Accounting Standards (Ind AS) to the financial statements of the listed and certain other category of companies.

The single minded focus of the Government on introduction and execution of the plethora of reforms is going to positively change and create transparencies in the manner in which business is carried out in India and in the medium and long term.

Special Economic Zones (SEZs) in India are facing grave challenges. Some key tax benefits that were withdrawn have made SEZ a difficult business proposition. The Maharashtra SEZ Act vital for SEZs in the State has been pending enactment for a long time.

We have always believed in a judicious mix of traditional and new business. While new businesses, with their inherent risks, need a long lead-time to nurture and grow, traditional businesses can provide us with stability and predictable cash-flows. All our traditional businesses have in the past few years consolidated years.

Given the current stage of growth in the Indian economy, we expect the demand for the Company's products to rise in the coming years. As a Company, we have always believed in pursuing a responsible business strategy and delivering quality. This combined with hard work and dedication of our entire team has helped your Company maintain a profitable path even during uncertain times.

I am grateful to the Board of Directors for their unwavering support and guidance. I also take this opportunity to express my gratitude to all our stakeholders, who have reposed their trust in us and extended their constant support.

With best wishes,
Sincerely,

Anand Jain

BUILDING A STABLE FUTURE

- Last three years have seen a very focussed and sustained effort of policy reforms giving a major boost to 'Make in India' initiative
- GST - will pave the way for realization of the goal of One Nation - One Tax
- Slew of changes and initiatives is helping Indian industry to do things faster and without bureaucratic impediments
- Indian economy has been relatively stable
- And a hope, that the stability will result in policies that will lead to growth and progress
- India is expected to be more than US\$ 5 trillion (current market price) economy by 2020
- It is expected that manufacturing will contribute to 25% of India's GDP by 2025
- The Indian growth story is not entirely dependent on the global economy
- Strong internal demand and controlled inflation can propel domestic-growth
- Our long term goals are clear, but we are calibrating them for short term exigencies
- During 2016-17, we rationalised our traditional business with a view to build a stable future
- This gives us the confidence that the long-term outlook is favourable
- Hard work and perseverance are the twin *mantras* for growth
- We are optimistic and by building a stable future, to take the Company to greater heights

STATEMENT PURSUANT TO SECTION 102(1) OF THE COMPANIES ACT, 2013:**Item No. 6:****Roll-over of preference shares**

The Company had in November 2007 issued 1,50,00,000 1% non-cumulative, non-participating redeemable preference shares of face value ₹ 1/- each at a price of ₹ 1,000/- each i.e. at a nominal value of ₹ 1/- and a premium of ₹ 999/- per share. The said preference shares were allotted as fully paid-up on 26th November, 2007 for a tenure of 2 years from the date of allotment with an option to the Company/ the allottee to redeem the same after a period of 1 year. The rate of dividend payable to the preference shareholders is 1% on the face value of the shares. These preference shares were eligible for redemption at a premium of 6% p.a. over and above the issue price of ₹ 1,000/- per share on 25th November, 2009 being the original date of redemption. At the 24th Annual General Meeting held on 23rd September, 2009, approval of the equity shareholders was obtained to roll-over these preference shares for a term of 2 years from the date they were to be due for redemption and the preference shares were rolled-over for redemption on 25th November, 2011. 50,00,100 preference shares were redeemed on 25th November, 2011 and the remaining 99,99,900 preference shares were rolled-over for another term of 2 years for which approval of the equity shareholders was obtained at the 26th Annual General Meeting held on 23rd September, 2011. The Company redeemed another 16,50,000 preference shares on 23rd August, 2012 and the balance 83,49,900 shares were rolled over for another term of 2 years for which approval of the equity shareholders was obtained at the adjourned 28th Annual General Meeting held on 28th September, 2013. The Company redeemed 3,75,000 preference shares on 27th November, 2013 and 3,00,000 preference shares each on 27th May, 2014, 12th August, 2014 and 27th February, 2015 respectively, 2,10,000 preference shares on 27th May, 2015 and 27th August, 2015 respectively leaving a balance of 66,54,900 preference shares due for redemption on 25th November, 2015. At the 30th Annual General Meeting held on 23rd September, 2015, approval of the equity shareholders was obtained to roll-over the remaining 66,54,900 preference shares for a term of 2 years from the date they were to be due for redemption and accordingly the preference shares were rolled-over for redemption on 25th November, 2017. 2,10,000 preference shares were redeemed on 27th November, 2015, 1,50,000 preference shares were redeemed on 27th May, 2016, 1,95,000 preference shares were redeemed on 30th August, 2016, 2,70,000 preference shares were redeemed on 31st May, 2017, 5,70,000 preference shares were redeemed on 14th July, 2017 and 2,70,000 preference shares are to be redeemed on 10th August, 2017 leaving a balance of 49,89,900 preference shares due for redemption on 25th November, 2017. However, should the Company redeem any further preference shares between 10th August, 2017 and 25th November, 2017, the number of preference shares to be rolled-over will get reduced to that extent.

Considering the present economic and capital markets scenario, the Company requested the preference shareholders to roll-over these preference shares for a further period up to 2 years. The preference shareholders have agreed in writing to the roll-over the said 48,89,900 or such number of preference shares that will be outstanding on 26th November, 2017 for a further period up to 2 years with an option to the Company/ the preference shareholders to redeem these shares any time earlier.

The issue of these preference shares was approved by the equity shareholders at the Extra-ordinary General Meeting held on 17th November, 2007 and their roll-overs were, from time to time, approved at the 24th Annual General Meeting held on 23rd September, 2009, 26th Annual General Meeting held on 23rd September, 2011, adjourned 28th Annual General Meeting held on 28th September, 2013 and 30th Annual General Meeting held on 23rd September, 2015. The members' approval to the proposed further roll-over is now being sought as a matter of abundant caution.

The Special Resolution is proposed pursuant to the provisions of Section 55 of the Companies Act, 2013.

The Board of Directors commends the Special Resolution set out at Item No. 6 of the accompanying Notice for approval of the members.

Mr. Anand Jain, Mr. Virendra Jain and Mr. Gaurav Jain, Directors of the Company and constituents of the promoter group are concerned or interested in this resolution to the extent of the preference shares held by some of them, their relatives/ private trusts. Save as aforesaid, no other Director/ Key Managerial Personnel/ their relatives is in any way, considered concerned or interested, financially or otherwise in this resolution, except as a member of the Company.

Item No. 7:**Remuneration of Cost Auditor**

The Board of Directors has appointed Messrs ABK & Associates (Registration No. 000036 issued by the Institute of Cost Accountants of India) as the cost auditor of the Company for the financial year 2017-18. Pursuant to Section 148 of the Companies Act, 2013 read with Rule 3(B) of the Companies (Cost Records and Audit) Amendment Rules, 2014 ('the Rules') the Company is required to maintain cost records and get them audited in accordance with these Rules for the financial year 2017-18. Pursuant to Section 148(3) of the Act read with Rule 14 of the Companies (Audit and Auditors) Rules, 2014 members are required to ratify the remuneration payable to the cost auditor.

Based on the recommendation of the Audit Committee, the Board of Directors has approved remuneration of ₹ 3,20,000/- to Messrs ABK & Associates excluding the Goods and Services Tax and reimbursement of out-of-pocket expenses.

The Board of Directors accordingly commends the Ordinary Resolution set out at Item No. 7 of the accompanying Notice for approval of the members which is an enabling resolution.

No Director / Key Managerial Personnel/ their relatives is in any way, considered concerned or interested, financially or otherwise in this resolution, except as a member of the Company.

Overview of Financial Year (FY)

The Economic Survey that was tabled in the parliament on January 31, 2017 notes *"Against the backdrop of robust macro-economic stability, the year was marked by two major domestic policy developments, the passage of the Constitutional amendment, paving the way for implementing the transformational Goods and Services Tax (GST), and the action to demonetise the two highest denomination notes."* So far as outlook for 2017-18 is concerned the Economic Survey comments *"...we expect real GDP growth to be in the 6½ to 7½ percent range in FY2018. Even under this forecast, India would remain the fastest growing major economy in the world..."* According to the 'Second Advance estimates of national income at constant (2011-12) and current prices for the financial year 2016-17' released by the Central Statistics Office (CSO), Ministry of Statistics and Programme Implementation, Government of India on February 28, 2017 *"...The growth in GDP during 2016-17 is estimated at 7.1 per cent as compared to the growth rate of 7.9 per cent in 2015-16..."*

This is the first year when the Company's financial results were prepared under the Indian Accounting Standards (Ind AS). The financial results of the previous accounting year (2015-16) were re-stated as per Ind AS and may not be comparable with financials for year ended 2015-16 that were approved by the Directors and disclosed in the financial statement of previous year.

Business Review

Urban Integrated Infrastructure

Special Economic Zones (SEZs)-

Sector Overview:

As per Fact Sheet published by the Department of Commerce under the Ministry of Commerce and

Industry, as on 1st May, 2017, there were 345+ (7 Central Govt. + 11 State/Pvt. SEZs) notified SEZs in India of which 218 were operational at the end of March 2017. As of March 2017, SEZs in India employed over 17 lakh persons, had a total investment of ₹ 4,23,189 crore riding on them. Exports up to end of March 2017 were ₹ 5,23,637 crore.

However, the SEZ Industry in India is facing grave challenges for last few years. Govt. of India (GoI) has withdrawn key tax benefits (earlier available) which have made SEZ business unviable. These and other policy changes have put a question mark on future of SEZ in India. In addition to this, Maharashtra SEZ Act which provides State level fiscal benefits has been pending enactment since long. Govt of Maharashtra (GoM) had recognized the serious difficulties faced by SEZ in Maharashtra and had allowed SEZ to exit and move towards being developed into Integrated Industrial Area (IIA). Further directions from GoM are awaited.

Jai Corp is a stakeholder in entities developing SEZs in Maharashtra.

I- Navi Mumbai SEZ Private Limited (NMSEZ)

Performance Overview:

NMSEZ has commenced horizontal and vertical development of SEZ in a phased manner. NMSEZ is facing demand constraints due to worldwide recession and financial crisis in many European countries. The Maharashtra SEZ Act is awaiting enactment since quite some time. In the absence of fiscal incentives in the State, it is not very easy to attract the units in the SEZ. The amendments to certain Income-tax provisions are also making the SEZs less attractive. GoM has, in its Industrial Policy of 2013 subject to certain terms and conditions, allowed SEZ to exit and move towards being developed as IIA. NMSEZ is in discussion with its Joint Venture Partner CIDCO to continue developing SEZ and at same time keep option open to develop IIA depending upon demand from Industry and Services.

II- Mumbai SEZ Limited (MSEZ)

Performance Overview:

MSEZ has acquired land in Uran, Pen and Panvel areas in the state of Maharashtra. So far, consent award and sale deeds have been executed for around 4,600 acres. The subject land is not contiguous. The new Land Acquisition Act which has been notified in January, 2014 makes it difficult to buy land for contiguity. MSEZ is in discussion with GoM on way forward. MSEZ is also awaiting further amendment to Land Acquisition Act.

III- Rewas Ports Limited (RPL)

Performance Overview:

All statutory approvals have been obtained. RPL has signed the lease deed for 839 hectares (Ha) of inter tidal land. The Government land of about 167 hectares

has been transferred by the GoM to Maharashtra Maritime Board. RPL will sign the lease deed for the same at the time of financial closure. RPL has been in discussions with Indian Railways and GoM in order to firm up the rail and road connectivity of the port with the hinter land. Ministry of Railway have approved Rail Connectivity proposal as a JV between Rail Vikas Nigam Limited and RPL. RPL has been persistently working to resolve the issue related to right of way from Mumbai Port Trust, but progress is slow.

Real Estate

Sector Overview:

According to a study by India Brand Equity Foundation (IBEF), *"total foreign direct investment in the construction sector, from April 2000-March 2016 stood at US\$ 24.188 billion"*, while during the same period *"total cumulative inflows in the construction development sector accounted for 8.4 per cent of total inflows into the country"*. The IBEF study further shows that: *"The Indian real estate market is expected to touch US\$ 180 billion by 2020. The housing sector alone contributes 5-6 per cent to the country's Gross Domestic Product (GDP)."*

In the period FY 2008-2020, the market size of this sector is expected to increase at a Compound Annual Growth Rate (CAGR) of 11.2 per cent. Retail, hospitality and commercial real estate are also growing significantly, providing the much-needed infrastructure for India's growing needs."

Our Business:

Certain subsidiaries of Jai Corp have acquired land. The same may be consolidated for the purpose of development subject to the applicable legislations at that point of time. The Company is of the view that any presumed fall in the current valuation of land held by some of the subsidiary companies is a temporary phenomenon. These are long-term investments and in the course of time are expected to realise their fair value.

Performance Overview:

One of the wholly-owned subsidiaries of the Company, Swar Land Developers Limited, is developing an industrial estate near Mumbai. Construction of Phases-I and II are complete and it is in the process of disposing the space. It has reported a profit of ₹ 1.34 crore during 2016-17 as against a profit of ₹ 1.96 crore during 2015-16. The reduction of 31.63 percent can be attributed to sluggishness in the realty sector. Necessary application has been filed for registering Phase-III under The Real Estate (Regulation and Development) Act, 2016 with the Maharashtra Real Estate Regulatory Authority.

Oasis Holding FZC has had completed construction of labour accommodations in the United Arab Emirates and rented them during the current financial year.

Asset Management

Sector Overview:

During 2016, USD 4.9 Billion was invested in Real Estate sector. The sector was expected to witness a boost on the back of implementation of RERA and GST. The government's focus on bringing in good regulation

in the Real Estate sector was expected to be positive for Real Estate Private Equity. The general India growth story coupled with banks willingness to crack down on defaulting borrowers augured well for the real estate investment opportunities across the country. Further, with affordable segment receiving the infrastructure status, new avenues of funding is expected to open up for the sector. With the couple of listing of yield based products on stock exchange, the first REITs is likely to be listed in 2018 giving further fillip to the sentiments in the industry.

On ground, however, the real estate sector for now, continued to be in subdued state on account of piling unsold inventory (48 months in key markets), unaffordable pricing, poor employment opportunities and high level of debt in the developers' books. The launch of new properties has dropped by 22% during April to June period as compared to previous quarter. As a result, most of these investments in Real Estate sector was restricted to fully occupied Grade "A" commercial assets or structured investments with premium developers in the country. The developers were also pre-occupied with GST and RERA registration which slowed down PE/VC deals towards the end of June 2017.

Our Business:

Jai Corp is present in this industry through its wholly owned subsidiary - Urban Infrastructure Venture Capital Limited (UIVCL), a venture capital management company. UIVCL is the manager to Urban Infrastructure Opportunities Fund (UIOF), a scheme of Urban Infrastructure Venture Capital Fund (UIVCF), a SEBI registered fund. UIOF is a close ended India domiciled venture capital fund having raised a corpus of approximately ₹ 2,434 crore.

UIVCL, is also Indian advisor to Urban Infrastructure Capital Advisors (UICA), investment manager to India focused real estate fund Urban Infrastructure Real Estate Fund (UIREF), having a total capital commitment of \$ 250 million.

The investments of these Funds' are focused on large townships and mixed-use development projects in Tier-I and Tier-II cities of western and southern India. These Funds have invested in 26 special purpose vehicles spread across 12 cities of India

Performance Overview:

The tenure of UIOF originally got completed in June 2013. However, the Trustees based on the recommendation of UIVCL have extended the tenure for two further periods of one year each till June, 2015. Further the Trustees extended the tenure of the Fund with the consent of the majority of the Investors till 31st December, 2016 in order to facilitate the exit of the investments made by the Fund in the SPVs.

In December 2016, Trustees and UIVCL took steps to create a liquidity for the investors/ contributors of the Fund as despite the efforts made by the UIVCL and Trustees, the remaining portfolio could not be liquidated till 31st December, 2016 due to inordinate delays in approvals, subdued real estate market, inability of the partner to provide exits, and on-going litigation in some

of the portfolio investment, etc. Further, the Investment Manager and Trustee are of the considered view that an in specie distribution and/or distressed sale is neither feasible nor in the interest of the investors as an orderly liquidation of total portfolio may take 3-5 years. Keeping in mind the Interest of all the investors of the Fund, the Trustee and UIVCL have considered to provide liquidity option to the investors by which each investor will have an option to either have the whole of its beneficial interest in the Fund purchased by a qualified buyer at a price discovered by a bidding process or remain invested with the Fund till the remaining investment of the Fund are divested. The Trustee and UIVCL therefore appointed Consultants for identifying a qualified buyer for purchasing the units of the investors. Pursuant to the said process, the Fund has received a non-Binding offer and the due diligence as well as agreements are in process.

UIOF has refunded till date ₹ 1,251 crore to its contributors by way of repurchase of units and return of capital/profits. Post the exit of all the investments, the Fund will be wound-up.

In FY 2016-17 UIVCL earned an income of ₹ 21.06 crore as against an income of ₹ 17.86 crore during 2015-16 and profit after tax of ₹ 2.29 crore during 2016-17 as against a profit of ₹ 0.02 crore during 2015-16.

Steel Division

Sector Overview:

According to Annual Report 2016-17 of the Ministry of Steel, Government of India, the country is currently the world's 3rd largest producer of crude steel. India is the largest producer of direct reduced iron or sponge iron in the world. The country is also the 3rd largest consumer of finished steel in the world preceded by China and the USA. Capacity for domestic crude steel production expanded from 90.87 million tonnes per annum (mtpa) in 2011-12 to 121.97 mtpa in 2015-16, a CAGR growth of 9%. Crude steel production grew at 5% annually (CAGR) from 74.29 mtpa in 2011-12 to 89.79 mtpa in 2015-16. The steel sector contributes to over 2 per cent of the country's GDP and employs around 20 lakhs in steel/allied sectors.

Performance Overview:

Jai Corp manufactures cold rolled coils, galvanized coils and galvanized corrugated sheets at its Nanded unit in Maharashtra. During FY 2016-17, the Company did not produce any cold rolled coils (CR) due to lack of demand and achieved a production (including job work) of 32,624 MT of galvanized plain and galvanized corrugated steel sheets (GP/GC) sheets as compared to 15,175 in FY 2015-16 increase of about 115 per cent. The Division reported an improved turnover of ₹ 94.63 crore in FY 2016-17 as compared to ₹ 12.04 crore in FY 2015-16. The Division reported a profit of ₹ 8.20 crore in FY 2016-17 as compared to a profit of ₹ 1.49 crore in FY 2015-16.

Plastic Processing Division

Tape Woven Products

Sector Overview:

The usage of polyethylene (PE)/ polypropylene (PP) woven tape products like sacks, bags, *Flexible Intermediate Bulk Containers* (FIBCs), fabrics, geotextiles etc. has been growing in India. FIBC bags are constructed from woven PP fabric which may be single layered, with extra loose liner, or laminated. PP when treated with ultra violet acts as electrical insulator. While the domestic market growth is slow, nearly ninety percent of production of the converting industry is exported. According to a study, the global market for FIBCs is expected to reach about 780 million units by 2022 from 580 million units in 2017, a CAGR of 6.4 per cent. While another report has predicted India's geotextiles market to grow at a CAGR of around 12 percent during 2017-2026.

Performance Overview:

The Company's production decreased by about 7.08 per cent to 42,315 MT in FY 2016-17 as compared to 45,537 MT in FY 2015-16. The net turnover decreased by about 3.31 per cent to ₹ 474.46 crore in FY 2016-17 as compared to net turnover of ₹ 490.70 crore in FY 2015-16. The net profit increased by about 12.62 per cent to ₹ 80.77 crore in FY 2016-17 as compared to ₹ 71.72 crore in FY 2015-16 due to change in product mix and better utilization of resources.

The Company's exports also decreased by about 11.22 per cent to 9,845.29 MT in FY 2016-17 as compared to 11,090 MT in FY 2015-16. The FOB value of the exports decreased by about 21.84 per cent to ₹ 126.60 crore in FY 2016-17 from ₹ 161.98 crore in FY 2015-16 due to change in international scenario and our policy of concentrating on high value products.

Masterbatch

Sector Overview:

Masterbatch is a concentrated mix of pigments and/or additives encapsulated into a carrier polymer resin which is then shaped into a granular form. This provides the manufactures with a convenient way to add colors/pigments or performance-enhancing additives to natural polymers. In a report by TechSci Research the masterbatch market in India is projected to surpass US\$ 1.1 billion by 2020 and is expected to grow during 2016-2025 at a CAGR of over 11 per cent due to the increase in demand from the packaging and automotive industries.

Performance Overview:

Jai Corp's products have been well received in the masterbatch and antifibrillation masterbatch segments of the market. The Company produced 12,809 MT in FY 2016-17, as compared to 15,054 MT in FY 2015-16, decrease of about 15 per cent. The net turnover decreased by 24.45 per cent to ₹ 41.78 crore in FY 2016-17 from ₹ 55.30 crore in FY 2015-16. The net profit decreased by about 48.49 per cent to ₹ 3.24 crore in FY 2016-17 as compared to ₹ 6.30 crore in FY 2015-16.

The total quantity exported decreased by about 21 per cent to 1,688 MT in FY 2016-17 from 2,138 MT in FY 2015-16. The FOB value of exports decreased by about 34.50 per cent to ₹ 5.25 crore in FY 2016-17 from ₹ 8.02 crore in FY 2015-16.

Spinning Division

Sector Overview:

As per the Annual Report 2016-17 of the Ministry of Textiles, Government of India,

“The textile industry contributes to 10 per cent manufacturing production, 2 per cent of India’s GDP and to 13 per cent of the country’s export earnings. With over 45 million people employed directly, the textile industry is one of the largest sources of employment generation in the country.”

Performance Overview:

The Company produced 2,310 MT in FY 2016-17 as compared to 3,240 MT in FY 2015-16 a decrease of about 28.70 per cent. The net turnover of this Division decreased to ₹ 52.48 crore in FY 2016-17 from ₹ 67.35 crore in FY 2015-16 a decrease of about 22.08 per cent. The net profit decreased by about 44.87 per cent to ₹ 7.19 crore in 2016-17 to ₹ 12.86 crore in 2015-16.

Human Resource Development

Jai Corp’s most valuable assets are its human resource. With the support of its dedicated human resource it confronted the rapid changes in the business environment last year with the resolve and determination to ensure that the business of the Company continues to enhance value creation.

The Company’s talent pool as on 31st March, 2017 was 2,415 which include highly qualified professionals across all its business segments. The growth and sustained leadership of the Company is largely a function of its human resource. The Company has always aimed to create a workplace where every person can achieve his/her optimum potential. The Company has a performance rewarding culture, enabling it to create leaders out of its employees. The Company has also undertaken various training and development initiatives to hone the skill and expertise of its employees.

With diversified business interests, the Company empowers the inter-departmental and inter –unit movement to deserving individuals, ensuring better retention of talent and at the same time providing avenues to its employees.

Internal Control System

Jai Corp has a comprehensive system of internal controls to safeguard the Company’s assets against loss from unauthorized use and ensure proper authorization of financial transactions. The system ensures the integrity of the accounting, recording and reporting of all transactions. It monitors and controls against any unauthorized disposition of assets, thus safeguarding the Company’s assets.

Jai Corp ensures adherence to all internal control policies and procedures as well as compliance with all regulatory guidelines. This enhances the reliability of financial and operational information. The Company

has appointed a reputed firm, Messrs Mahajan & Aibara as the internal auditor. The Audit Committee of the Company periodically reviews, with the management, *inter alia* performance of the internal auditor and adequacy of the internal control systems.

The internal control systems are adequate and commensurate with the size of the Company and the nature of its business.

Risk Concerns and Risk Management

Jai Corp is exposed to the normal industry risk of factors of competition, economic cycle, raw material availability and uncertainties in the international and domestic markets and credit risk. The Company has a system-based approach to business risk management. It has a proper and adequate system of controls designated to assist in the identification and management of risks. The Company manages these risks by maintaining a conservative financial profile and by following prudent business and risk management policies:

- a) Clearly laid down roles and responsibilities of the various entities in relation to risk management. A range of responsibilities, from the strategic to the operational, is specified therein. These role definitions, *inter alia*, are aimed at ensuring formulation of appropriate risk management policies and procedures, their effective implementation, independent monitoring and reporting by internal audit.
- b) A combination of centrally issued policies and divisionally-evolved procedures to bring strength to the process of ensuring that business risks are effectively addressed.
- c) Appropriate structures are in place to pro-actively monitor and manage the inherent risks in businesses with proper risk profiling.
- d) A professional and independent firm has been appointed as internal auditor to carry out the risk focused audits across divisions, enabling identification of areas where risk management processes may need to be improved. The Audit Committee of the Board of Directors regularly reviews internal auditor’s findings and provides strategic guidance on internal controls.
- e) A comprehensive framework of strategic planning and performance management ensures realization of business objectives based on effective strategy implementation. The annual planning exercise requires all divisions to clearly identify their main risks and set out a mitigation plan with agreed time line and accountability.

Health, Safety and Environment

Jai Corp is committed to ensuring the health and safety of its employees, its plants and its surrounding communities at all its operations sites. It’s the constant endeavor of the Company to provide safe and hygienic working conditions for its employees. The Company also strives to maintain a pro-active check on environmental compliance in its operations. Some of the initiatives undertaken by the Company in this regard are as follows:

- a) Well defined work practices ensure work in a manner that promotes safety and health of its employees as well as that of the environment they operate in.

Change in applicable Accounting Standards:

Pursuant to Notification dated 16th February, 2015 by the Ministry of Corporate Affairs (Indian Accounting Standards (Ind AS) became applicable to certain classes of companies from 1st April, 2016 with a transition date of 1st April, 2015. Ind AS replaced the generally accepted accounting principles (Indian GAAP) prescribed under Section 133 of the Companies Act, 2013 read with Rule 7 of the Companies (Accounts) Rules, 2014.

Ind AS is applicable to the Company from 1st April, 2016. Consequently, figures for financial year ended 2015-16 have been restated as per Ind AS and may not be comparable with financials for year ended 2015-16 that were approved by the Directors and disclosed in the financial statement of previous year.

THE CHANGE IN THE NATURE OF BUSSINES, IF ANY:

There was no change in the nature of business of the Company during the year or subsequently.

STATE OF THE COMPANY'S AFFAIRS:

During the year under review, the gross turnover of the Company's Steel Division was ₹ 94.63 crore as compared to the previous year's gross turnover of ₹ 12.04 crore. The Division reported a profit of ₹ 8.20 crore during the year under review as against a profit of ₹ 1.49 crore of the previous year due to improvement in demand for the Company's products.

The Plastic Processing Division of the Company achieved a gross turnover of ₹ 562.96 crore as compared to previous year's gross turnover of ₹ 603.83 crore. The Division reported a profit of ₹ 84.01 crore during the year under review as against a profit of ₹ 60.06 crore of the previous year. The increase in the profit can be attributed to change in product mix.

The Spinning Division of the Company achieved a gross turnover of ₹ 52.48 crore as compared to the previous year's gross turnover of ₹ 94.25 crore. The Division reported a reduced profit of ₹ 7.19 crore during the year under review as against a profit of ₹ 19.76 crore of the previous year. The decrease in the turnover can be attributed to adverse market conditions.

During the year under review, the production of Plastic Processing Division excluding Master batch decreased from 45,537 MT during 2015-16 to 42,315 MT during 2016-17.

The production of Master batch decreased from 15,054 MT during 2015-16 to 12,809 MT during 2016-17 due to down turn in the market.

The production of the Spinning Division decreased from 3,240 MT during 2015-16 to 2,310 MT during 2016-17.

The production of GP/GC coils and sheets increased from 15,175 MT during 2015-16 to 32,624 MT during 2016-17. CR coils and sheets were not produced due to lack of demand.

During the year under review, 3,45,000 preference shares were redeemed at a premium in accordance with the terms of issue. After the redemption, 60,99,900 preference shares remained outstanding as on 31st March, 2017. During the current financial year (2017-18) 8,40,000 preference shares were redeemed. It is proposed to redeem another tranche of 2,70,000 preference shares on 10th August, 2017. After that redemption, 49,89,900 preference shares shall remain outstanding. The Company is making continuous endeavor to redeem the preference shares and it is possible that more preference shares will be redeemed after 10th August, 2017 till 25th November, 2017. At the 30th Annual General Meeting held on 23rd September, 2015, the equity shareholders had agreed to roll-over these preference shares for a further period up to two years from the date these shares become due for redemption i.e. up to 25th November, 2017, with option for early redemption. Your Directors have received approval of the preference shareholders to roll-over the preference shares that remain outstanding as at 25th November, 2017 for a further period of two years and will seek the approval of the equity shareholders at the ensuing 32nd Annual General Meeting.

AMOUNT PROPOSED TO BE CARRIED TO GENERAL RESERVE AND AMOUNT RECOMMENDED TO BE PAID BY WAY OF DIVIDEND:

Your Directors have decided not to transfer any amount to the General Reserve. Your Directors have recommended a dividend at the rate of 0.01 (1 per cent) per preference share be paid on the 49,89,900 non-cumulative non-participating redeemable preference shares of ₹ 1/- each for the financial year ended 31st March, 2017 after considering the redemption of the preference shares on 31st May, 2017, 14th July, 2017 and 10th August, 2017. Should any more redemption take place between 10th August, 2017 and the record date fixed for payment of dividend to the preference shareholders, i.e. 5th September, 2017 the quantum of preference will get reduced.

If approved at the ensuing 32nd Annual General Meeting, an amount not exceeding ₹ 49,899/- will be payable to those preference shareholders whose names appear on the Register of Members of the Company at close of business on 5th September, 2017.

Your Directors have also recommended a dividend of ₹ 0.50/- (50 per cent) per equity share on 4,81,67,010 equity shares of ₹ 1/- each for the financial year ended 31st March, 2017. This will amount to ₹ 2,40,83,505/- and, if approved at the ensuing 31st Annual General Meeting will be paid to Members whose names appear on the Register of Members of the Company at close of business on 5th September, 2017. In respect of shares held in dematerialized form, it will be paid to members whose names are furnished by National Securities Depository Limited and Central Depository Services (India) Limited as beneficial owners as on that date. The 'promoters' of your Company have voluntarily and irrevocably waived their entitlement to receive dividend on the equity shares for the financial year 2016-17. Hence your Directors have not recommended any dividend on 13,02,82,400 equity shares held by the 'promoter group'. No dividend was recommended on 44,600 shares forfeited and not re-issued.

- (c) proper and sufficient care has been taken for the maintenance of adequate accounting records in accordance with the provisions of the Companies Act, 2013 for safeguarding the assets of the Company and for preventing and detecting fraud and other irregularities.
- (d) the annual accounts for the financial year ended 31st March, 2017 have been prepared on a 'going concern' basis.
- (e) internal financial controls have been laid down to be followed by the Company. The internal financial controls are adequate and are operating effectively.
- (f) proper systems have been devised to ensure compliance with the provisions of all applicable laws and that such systems are adequate and operating effectively.

STATEMENT ON DECLARATION GIVEN BY INDEPENDENT DIRECTORS UNDER SUB-SECTION (6) OF SECTION 149:

The Independent Directors have given their respective declarations under Section 149(6) of the Companies Act, 2013.

COMPANY'S POLICY ON DIRECTORS' APPOINTMENT AND REMUNERATION INCLUDING CRITERIA FOR DETERMINING QUALIFICATIONS, POSITIVE ATTRIBUTES, INDEPENDENCE OF A DIRECTOR AND OTHER MATTERS PROVIDED UNDER SUB-SECTION (3) OF SECTION 178:

- (a) Qualifications of directors:
 - (i) A candidate for executive directorship should possess administrative skills and functional experience or knowledge of the division or department entrusted to such director. The

candidate should have strong attributes of a leader and inter-personal skills to deal with the Board, colleagues, peers and subordinates.

- (ii) A non-executive director and an independent director shall possess appropriate skills, experience and knowledge in one or more fields of finance, law, management, sales, marketing, administration, research, corporate governance, technical operations or other disciplines related to the Company's business.
- (b) Process of selection to the Board/ extending invitation to a potential candidate:

One of the roles of the Nomination and Remuneration Committee ("N&RC") is to periodically identify competency gaps in the Board, evaluate potential candidates as per the criteria stated above, ascertain their availability and make suitable recommendation to the Board.

In selecting a suitable candidate as an independent director the N&RC will also look into the data bank that is proposed to be set up pursuant to the provisions of Section 150 of the Companies Act, 2013 and the Rules made thereunder.

The N&RC shall also identify suitable candidates in the event of resignation, retirement or demise of an existing Board member. Based on the recommendation of the N&RC, the Board through its Chairman/ N&RC will then invite the prospective person to join the Board as a director.

In case the shareholders recommend any person as a director pursuant to the provisions of Section 151 of the Act and the Rules made thereunder, the N&RC shall consider that candidate and make suitable recommendation to the Board. The procedure pertaining to appointment of small shareholders' director laid down in Rule 7 of the Companies (Appointment and Qualification of Directors) Rules, 2014 will have to be adhered to.

- (c) Orientation and Induction:

A new director will be given a formal induction and orientation with respect to the Company's vision, core values, business operations, corporate governance norms, financials etc. The Board will carry out a continuous education of its members.

In respect of independent directors, as required under Regulation 25(7) of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ('Listing Regulations'), the Company will familiarize them about the organisation, their roles, rights, responsibilities in the Company, nature of the industry in which the Company operates, business model of the Company, etc..

(d) Remuneration to Directors:

The N&RC is, *inter alia*, required to oversee remuneration payable to directors.

The executive directors including managing directors are paid remuneration by way of salary, perquisites, contribution to provident fund, superannuation fund, gratuity, encashment of leave etc. as per the terms of agreement entered into with them and approved by the shareholders pursuant to the requirements of the Act.

Non-executive directors are paid a sitting fee for attending each Board and/or Committee meetings except for those committees where no sitting fee is payable to attend the meetings. Such fee shall be fixed by the Board of Directors on receiving recommendation in that respect from the N&RC. Shareholder's approval will be taken where the same is mandated by the provisions of the Act and/ or the Listing Regulations.

No commission is presently payable to the directors and the Company has presently not granted any stock option to its directors. The independent directors are not entitled to stock options as mandated by law.

(e) Re-imbursement of expenses of non-executive directors:

The Company recognizes that non-executive directors, particularly non-executive promoter directors, also play a vital role in the business of the Company. The non-executive promoter directors contribute their time, energy, and expertise in helping the Company garner business and run its operations successfully, thereby ultimately resulting in value addition to the Company.

It is fair that the expenses incurred by directors exclusively for the purposes of the Company be borne by the Company or be reimbursed to them. Payment may be made on their behalf either by the Company or be paid by them directly. Where the concerned director seeks to claim reimbursement, he/she is required to submit a claim along with relevant particulars in supporting of the expenses incurred.

SECRETARIAL AUDIT REPORT

FOR THE FINANCIAL YEAR ENDED 31ST MARCH, 2017

[Pursuant to Section 204(1) of the Companies Act, 2013 and Rule No.9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To,
The Members,
Jai Corp Limited
A-3, M.I.D.C. Indl. Area
Nanded 431603 Maharashtra

I have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by M/s. Jai Corp Limited (hereinafter called "the Company") – CIN L17120MH1985PLC036500. Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

Based on my verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, I hereby report that in my opinion, the Company has, during the period covering the financial year ended on 31st March, 2017 (hereinafter referred to as "audit period") complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

I have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on 31st March, 2017, according to the provisions of:

- (i) The Companies Act, 2013 (the Act) and the rules made thereunder; the applicable provisions of the Companies Act, 1956 and the rules made thereunder;
- (ii) The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made thereunder;
- (iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder;
- (iv) Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings; -- **Not applicable to the Company since it has no Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings**
- (v) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'):-
 - (a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;
 - (b) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 1992;
 - (c) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009; -- **Not applicable to the Company during the audit period.**
 - (d) The Securities and Exchange Board of India (Employee Stock Option Scheme and Employee Stock Purchase Scheme) Guidelines, 1999; -- **Not applicable to the Company since it has no Employee Stock Option Scheme / Employee Stock Purchase Scheme.**
 - (e) The Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008; -- **Not applicable to the Company since it has not issued any debt securities.**
 - (f) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client;
 - (g) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009; -- **Not applicable to the Company during the audit period** and
 - (h) The Securities and Exchange Board of India (Buyback of Securities) Regulations, 1998; -- **Not applicable to the Company since it has not bought back any securities during the audit period.**

- (i) The Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015

I have also examined compliance with the applicable clauses of the following:

- (i) Secretarial Standards issued by The Institute of Company Secretaries of India and notified by the Ministry of Corporate Affairs.
- (ii) The Listing Agreements entered into by the Company with BSE Limited (BSE) and National Stock Exchange of India Limited (NSE).

During the audit period the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc. as mentioned above.

I further report that, on an examination, on a test check basis, the relevant records and documents, and having regard to the compliance management system prevailing in the Company, the Company has complied with the following laws applicable specifically to the Company:

- ☐ The Explosives Act, 1884
- ☐ The Boilers Act, 1923

I further report that

The Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.

Adequate notice is given to all directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent at least seven days in advance, and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

Majority decision is carried through while the dissenting members' views are captured and recorded as part of the minutes.

I further report that there are adequate systems and processes in the Company commensurate with the size and operations of the Company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

I further report that during the audit period:

- (i) the Company has redeemed 3,45,000 1% non-cumulative non-participating redeemable Preference Shares of Re.1/- each aggregating to nominal value of ₹ 3,45,000/-.

INDEPENDENT AUDITOR'S REPORT

To the Members of
Jai Corp Limited

Report on the Standalone Ind AS Financial Statements

We have audited the accompanying Standalone Ind AS Financial Statements of **JAI CORP LIMITED** ("the Company"), which comprise the Balance Sheet as at 31st March, 2017, and the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Standalone Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Standalone Ind AS Financial Statements that give a true and fair view of state of affairs (financial position), profit (financial performance including other comprehensive income), cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under section 133 of the Act read with relevant rules issued thereunder.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Ind AS Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these Standalone Ind AS Financial Statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the rules made there under.

We conducted our audit of the Standalone Ind AS Financial Statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain

reasonable assurance about whether the Standalone Ind AS Financial Statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Standalone Ind AS Financial Statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Standalone Ind AS Financial Statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Standalone Ind AS Financial Statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the Standalone Ind AS Financial Statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Standalone Ind AS Financial Statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Ind AS Financial Statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2017, and its profit including total comprehensive income, its cash flows and the statement of changes in equity for the year ended on that date.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143 (3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - c) The Balance Sheet, the Statement of Profit and Loss (including other comprehensive income), the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account;
 - d) In our opinion, the aforesaid Ind AS financial statements comply with the Indian Accounting Standards prescribed under

section 133 of the Act read with relevant rules issued thereunder.

- e) On the basis of the written representations received from the directors as on 31st March, 2017 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2017 from being appointed as a director in terms of Section 164(2) of the Act;
- f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in “**Annexure A**”;
- g) With respect to the other matters to be included in the Auditor’s Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
- (a) The Company has disclosed the impact of pending litigations on its financial position in its Standalone Ind AS Financial Statements as referred to in Note no. 41 to the financial statements.
- (b) The Company does not have long term contracts including derivative contracts for which there were any material foreseeable losses
- (c) There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.

- (d) The Company has provided requisite disclosures in the Standalone Ind AS financial statements as regards to its holdings and dealings in Specified Bank Notes as defined in the Notification S.O. 3407 (E) dated 8th November, 2016 of the Ministry of Finance, during the period from 8th November, 2016 to 30th December, 2016. Based on audit procedure performed and representations provided to us by the management, we report that the disclosures are in accordance with the books of account maintained by the Company and as produced to us by the management.

2. As required by the Companies (Auditor’s Report) Order, 2016 (“the Order”) issued by the Central Government of India, in terms of sub-section (11) of Section 143 of the Act, we give in “**Annexure B**” hereto, a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

“ANNEXURE A” TO INDEPENDENT AUDITORS’ REPORT

(Referred to in paragraph 1 (f) under ‘Report on Other Legal and Regulatory Requirements’ of our report of even date to the members of Jai Corp Limited on the Standalone Ind AS financial statements for the year ended 31st March, 2017)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of **Jai Corp Limited (“the Company”)** as of 31st March, 2017 in conjunction with our audit of the Standalone Ind AS financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2017 based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017**Company Information**

Jai Corp Limited ('the Company') is a company limited by shares and is domiciled in India. The Company's registered office is at **A-3, M.I.D.C. Industrial Area, Nanded - 431 603**. These financial statements are the separate financial statements of the company. The company is primarily involved in manufacturing activities which produces Flexible intermediate bulk containers (FIBC Jumbo Bags), woven sacks and fabrics, manmade fiber yarns, Masterbatch and steel coils and sheets.

Basis of Preparation

The separate financial Statements have been prepared to comply in all material aspects with the Accounting Standards notified under Section 133 of Companies Act, 2013 as per Companies (Indian Accounting Standards (Ind AS)) Rules, 2015 and other relevant provisions of the Companies Act, 2013 and rules framed thereunder. Till the year ended 31st March 2016 the financial statement of the company have been prepared as Companies (Accounting Standards) Rules, 2006 as amended and other relevant provisions of the Companies Act, 2013 and rules framed thereunder. These are the first Ind AS Financial statements of the company. As per the principles of Ind AS 101, the transition date to Ind AS is 1st April 2015 and hence the comparatives for the previous year ended 31st March 2016 and balances as on 1st April 2015 have been restated as per the principles of Ind AS.

The Financial Statements have been prepared under the historical cost convention and on accrual basis, except for certain financial assets and liabilities (including derivative instruments) measured at fair value; assets held for sale – measured at fair value less cost to sell and defined benefit plan assets measured at fair value.

1 Significant accounting policies**a Investment in subsidiaries and associates**

Investments in subsidiaries and associates are accounted at cost in accordance with Ind AS 27 – Separate financial statements.

b Foreign currency translation

The functional currency of the company is Indian national rupee (INR) which is also the presentation currency. All other currencies are accounted for as foreign currency.

Transactions denominated in foreign currencies are initially recorded at the exchange rate prevailing at the date of transaction.

Foreign currency monetary items are reported using the closing exchange rates. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

Any income or expense on account of exchange difference either on settlement or on translation is recognised in the Statement of Profit and Loss.

c Revenue recognition

Revenue is measured at the fair value of consideration received or receivable. Revenue is recognised only when it can be reliably measured and it is probable that future economic benefits will flow to the company.

Revenue from operations includes sales of goods, services, scrap, commission, export incentives. Revenue includes excise duty wherever charged from the customer but excludes service tax and sales tax / value added taxes.

Revenue from sale of goods is recognised when significant risk and rewards of ownership of the goods have passed to the customer. Amounts disclosed as revenue are inclusive of excise duty and net of returns, value added taxes and amounts collected on behalf of third parties.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017

Interest income for all debt instruments is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses.

Dividend Income is recognised when right to receive the payment is established by the balance sheet date.

Commission and job-work income are recognised on an accrual basis in accordance with the terms of relevant agreement.

Export incentives other than advance license are recognised at the time of exports and the benefit in respect of advance license received by the Company against exports made by it are recognised as and when goods are imported against them.

d Income taxes

The income tax expense or credit for the year is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period.

Deferred income tax is provided in full, using the balance sheet approach, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

e Government grants

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the company will comply with all attached conditions.

Government grants relating to income are deferred and recognised in the profit or loss over the period necessary to match them with the costs that they are intended to compensate and presented within other income.

Government grants relating to the purchase of property, plant and equipment are included in non-current liabilities as deferred income and are credited to profit or loss on a straight-line basis over the expected lives of the related assets and presented within other income.

f Leases

As a lessee

Leases where the company is a lessee and has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the lease's inception at the fair value of the

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017

leased property or, if lower, the present value of the minimum lease payments. The corresponding rental obligations, net of finance charges, are included in borrowings or other financial liabilities as appropriate. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to the profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the company as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to profit or loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

As a lessor

Lease income from operating leases where the company is a lessor is recognised in income on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases. The respective leased assets are included in the balance sheet based on their nature.

g Impairment of non-financial assets

The carrying amounts of assets are reviewed at each balance sheet date if there is any indication of impairment based on internal/external factors. An asset is treated as impaired when the carrying amount exceeds its recoverable value. The recoverable amount is the greater of the asset's net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to the present value using a pre-tax discount rate that reflects current market assessment of the time value of money and risks specific to the assets. An impairment loss is charged to the Statement of Profit and Loss in the year in which an asset is identified as impaired. After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life. The impairment loss recognized in prior accounting periods is reversed if there has been a change in the estimate of recoverable amount.

h Valuation of inventories

In general, all inventories of finished goods, work-in-progress etc., are stated at lower of cost and net realisable value. Cost of inventories comprise of all cost of purchase, cost of conversion and other cost incurred in bringing the inventory to their present location and condition. Raw material and stores and spares are stated at lower of cost and net realisable value. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. The cost is determined on FIFO basis in respect of Packaging / Spinning Division and on average basis in respect of Steel Division. Scrap and trial run products are valued at estimated net realisable value. Inventories of finished goods and scrap include excise duty wherever applicable.

i Non – current assets held for sale

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable. They are measured at the lower of their carrying amount and fair value less costs to sell.

An impairment loss is recognised for any initial or subsequent write-down of the asset to fair value less costs to sell. A gain is recognised for any subsequent increases in fair value less costs to sell of an asset, but not in excess of any cumulative impairment loss previously recognised. A gain or loss not previously recognised by the date of the sale of the non-current asset is recognised at the date of de-recognition.

Non-current assets are not depreciated or amortised while they are classified as held for sale. Interest and other expenses attributable to the liabilities of a disposal company classified as held for sale continue to be recognised.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017

j Investments and financial assets

Classification

The company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

The company reclassifies debt investments when and only when its business model for managing those assets changes.

Measurement

At initial recognition, the company measures a financial asset at its fair value except investments in subsidiaries and associates plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Measurement of debt instruments

Subsequent measurement of debt instruments depends on the company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the company classifies its debt instruments:

- **Amortised cost:** Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortised cost, is recognised in profit or loss when the asset is derecognised or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method.
- **Fair value through other comprehensive income (FVOCI):** Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other gains/ (losses). Interest income from these financial assets is included in other income using the effective interest rate method.
- **Fair value through profit or loss:** Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss, is recognised in profit or loss and presented net in the statement of profit and loss within other gains/(losses) in the year in which it arises. Interest income from these financial assets is included in other income.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017**Measurement of equity instruments**

The company subsequently measures all equity investments at fair value except investments in subsidiaries and associates. Where the company's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or loss. Dividends from such investments are recognised in profit or loss as other income when the company's right to receive payments is established.

Changes in the fair value of financial assets measured at fair value through profit or loss are recognised as other gain/ (losses) in the statement of profit and loss. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

Impairment of financial assets

The company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade receivables, the company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

De-recognition of financial assets

A financial asset is derecognised only when

- The company has transferred the rights to receive cash flows from the financial asset or
- retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the company has not retained control of the financial asset. Where the company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

k Derivatives and embedded derivatives

The company enters into certain derivative contracts to hedge risks which are not designated as hedges. Such contracts are accounted for at fair value through profit or loss and are included in other gains / (losses).

Derivatives embedded in a host contract that is an asset within the scope of Ind AS 109 are not separated. Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Derivatives embedded in all other host contract are separated only if the economic characteristics and risks of the embedded derivative are not closely related to the economic characteristics and risks of the host and are measured at fair value through profit or loss. Embedded derivatives closely related to the host contracts are not separated.

l Property, plant and equipment

Property, plant and equipment are stated at cost of acquisition or construction, net of MODVAT / CENVAT, Value Added Tax, less accumulated depreciation and impairment loss, if any. Cost comprises of purchase price, borrowing cost if capitalisation criteria are met, and directly attributable cost of bringing the asset to its working conditions for the intended use.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017

Depreciation on property, plant and equipment

Depreciation on fixed assets is provided to the extent of depreciable amount on straight-line method over the useful life of asset as assessed by the management and the same is similar to the useful lives as prescribed in Part-C of Schedule II to the Companies Act, 2013 except acquisition of insurance spares and additions/extensions forming an integral part of existing plants, which are depreciated over residual useful life of the respective property, plant and equipment.

The property, plant and equipment acquired under finance leases is depreciated over the asset's useful life or over the shorter of the asset's useful life and the lease term if there is no reasonable certainty that the company will obtain ownership at the end of the lease term.

Property, plant and equipment where ownership vests with the Government/local authorities are amortised over the useful life of asset as prescribed in Part-C of Schedule II to the Companies Act, 2013.

m Intangible assets

Intangible assets are carried at cost less accumulated amortisation and accumulated impairment losses, if any. Cost includes expenditure that is directly attributable to the acquisition of the intangible assets.

Identifiable intangible assets are recognised when it is probable that future economic benefits attributed to the asset will flow to the Company and the cost of the asset can be reliably measured.

Computer softwares are capitalised at the amounts paid to acquire the respective license for use and are amortised over the period of useful lives or period of three years, whichever is less. The assets' useful lives are reviewed at each financial year end.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit and loss when the asset is derecognised.

n Investment properties

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any.

Depreciation on investment properties are provided using straight line method over the estimated useful lives as specified in Schedule II to the Companies Act, 2013. Residual values, useful lives and method of depreciation of investment properties are reviewed at each financial year end and are adjusted prospectively, if appropriate. The effects of any revision are included in the statement of profit and loss when the changes arises.

Though the Company measures investment properties using cost based measurement, the fair value of investment property is disclosed in the notes.

Investment properties are derecognised either when they have been disposed off or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in statement of profit and loss in the period of derecognition.

o Borrowings and other financial liabilities

Borrowings and other financial liabilities are initially recognised at fair value (net of transaction costs incurred). Difference between the fair value and the transaction proceeds on initial is recognised as an asset / liability based on the underlying reason for the difference.

Subsequently all financial liabilities are measured at amortised cost using the effective interest rate method

Preference shares which are redeemable on a specific date are classified as a financial liability. Dividends on preference shares are recognised in statement of profit and loss.

Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017

has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss. The gain / loss is recognised in other equity in case of transaction with shareholders.

p Borrowing costs

Borrowing costs that are attributable to the acquisition or construction of qualifying assets are capitalised as part of the cost of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for intended use. All other borrowing costs are charged to the statement of profit and loss as finance costs.

q Provisions, contingent liabilities and contingent assets

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event. It is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are discounted using equivalent period government securities interest rate. Unwinding of the discount is recognised in the statement of profit and loss as a finance cost. Provisions are reviewed at each balance sheet date and are adjusted to reflect the current best estimate.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made. Information on contingent liability is disclosed in the Notes to the Financial Statements. Contingent assets are not recognised. However, when the realisation of income is virtually certain, then the related asset is no longer a contingent asset, but it is recognised as an asset.

r Employee benefits

Short-term employee benefits are recognized as an expense at the undiscounted amount in the statement of Profit and Loss for the year in which the related service is rendered.

Post-employment and other long term employee benefits are recognized as an expense in the Statement of Profit and Loss for the year in which the employee has rendered services. The expense is recognized at the present value of the amount payable determined using actuarial valuation techniques.

Re-measurement gains and losses pertaining to defined benefit obligations arising from experience adjustments and changes in actuarial assumptions are recognised in other comprehensive income in the period in which they occur

Compensated absences are accounted similar to the short term employee benefits.

Retirement benefits in the form of Provident Fund and other Funds are defined contribution scheme and the contributions are charged to the Statement of Profit and Loss of the year when the contribution to the respective funds are due. There are no other obligations other than the contribution payable to the fund.

s Earnings per share

Basic earnings per share is computed using the net profit for the year attributable to the shareholders' and weighted average number of equity shares outstanding during the year.

Diluted earnings per share is computed using the net profit for the year attributable to the shareholder' and weighted average number of equity and potential equity shares outstanding during the year including share options, convertible preference shares and debentures, except where the result would be anti-dilutive. Potential equity shares that are converted during the year are included in the calculation of diluted earnings per share, from the beginning of the year or date of issuance of such potential equity shares, to the date of conversion.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017

t Dividends

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

u Contributed equity

Equity shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

v Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions and banks, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

w Current and non-current classification:

The Company presents assets and liabilities in statement of financial position based on current/non-current classification. The Company has presented non-current assets and current assets before equity, non-current liabilities and current liabilities in accordance with Schedule III, Division II of Companies Act, 2013 notified by MCA.

An asset is classified as current when it is:

- a) Expected to be realised or intended to be sold or consumed in normal operating cycle,
- b) Held primarily for the purpose of trading,
- c) Expected to be realised within twelve months after the reporting period, or
- d) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is classified as current when it is:

- a) Expected to be settled in normal operating cycle,
- b) Held primarily for the purpose of trading,
- c) Due to be settled within twelve months after the reporting period, or
- d) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents. Deferred tax assets and liabilities are classified as non-current assets and liabilities. The Company has identified twelve months as its normal operating cycle.

x Fair value measurement:

The Company measures financial instruments at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017

- a) In the principal market for the asset or liability, or
- b) In the absence of a principal market, in the most advantageous market for the asset or liability.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy.

y Off-setting financial Instrument:

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable rights to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable rights must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or counterparty.

z SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS:

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods. The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based on its assumptions and estimates on parameters available when the financial statements were prepared. However, existing circumstances and assumptions about future developments may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

i) Property, plant and equipment, Investment Properties and Intangible Assets:

Management reviews the estimated useful lives and residual values of the assets annually in order to determine the amount of depreciation to be recorded during any reporting period. The useful lives and residual values as per schedule II of the Companies Act, 2013 or are based on the Company's historical experience with similar assets and taking into account anticipated technological changes, whichever is more appropriate.

ii) Income Tax:

The Company reviews at each balance sheet date the carrying amount of deferred tax assets. The factors used in estimates may differ from actual outcome which could lead to an adjustment to the amounts reported in the standalone financial statements.

iii) Contingencies:

Management has estimated the possible outflow of resources at the end of each annual reporting financial year, if any, in respect of contingencies/claim/litigations against the Company as it is not possible to predict the outcome of pending matters with accuracy.

iv) Impairment of financial assets:

The impairment provisions for financial assets are based on assumptions about risk of default and expected cash loss. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017

v) Impairment of non-financial assets:

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or Cash Generating Units (CGU) fair value less costs of disposal and its value in use. It is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent to those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less cost of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples or other available fair value indicators.

vi) Defined benefits plans:

The Cost of the defined benefit plan and other post-employment benefits and the present value of such obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and attrition rate. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

vii) Recoverability of trade receivable:

Judgements are required in assessing the recoverability of overdue trade receivables and determining whether a provision against those receivables is required. Factors considered include the credit rating of the counterparty, the amount and timing of anticipated future payments and any possible actions that can be taken to mitigate the risk of non-payment.

viii) Provisions:

Provisions and liabilities are recognized in the period when it becomes probable that there will be a future outflow of funds resulting from past operations or events and the amount of cash outflow can be reliably estimated. The timing of recognition and quantification of the liability require the application of judgement to existing facts and circumstances, which can be subject to change. Since the cash outflows can take place many years in the future, the carrying amounts of provisions and liabilities are reviewed regularly and adjusted to take account of changing facts and circumstances.

ix) Fair value measurement of financial instruments :

When the fair value of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow (DCF) model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017**3.4. Estimation of fair value of investment properties:**

The best evidence of fair value is current price in an active market for similar properties. Where such information is not available, the Company considers information from a variety of sources including current prices in an active market for properties of different nature or recent prices of similar properties in less active markets, adjusted to reflect those differences.

The fair value measurement for all of the investment property has been categorised as a level 3 fair value based on the inputs to the valuation techniques used.

3.5 The carrying value (Gross Block less accumulated depreciation) as on 1st April, 2015 as per previous GAAP of the Investment Properties is considered as a deemed cost on the date of transition.

18.1 Board of Directors of the Company at its meeting held on 22nd December 2015, had approved disposal of the Indore Unit as a going concern. Pending execution of Sale Deed, the amount of Rs. 497.69 Lacs classified as assets held for sale.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017

18.2 Considering substantial delay in the project which is yet to start, the Promoters of Nirmal Infrastructure Pvt Ltd have proposed to purchase the entire stake of Jaicorp for a sum of approximately Rs. 374.00 Lacs including premium of Rs. 248.00 Lacs on a investment of Rs. 100.00 Lacs and interest of Rs. 26.00 Lacs being interest for the delayed period. Hence the same was classified as held for sale in earlier years.

Original Equity shares of Nirmal Infrastructure Private Ltd. have been kept in Escrow Account and proposed transaction for disposal of investment is being executed.

However during the year, the transaction in respect of proposed disposal has not been honoured by the promoters of the investee and hence the said investment is not classified as held for sale at the end of the reporting period. The same will be kept as a strategic investment and due to the change in classification the other comprehensive income for the year has reduced by Rs. 274.00 Lacs.

18.3 Considering substantial delay in the project which is yet to start, the Promoters of Earnest Towers Pvt. Ltd have proposed to purchase the entire stake of Jaicorp for a sum of approximately Rs. 856.77 Lacs . Hence the same was classified as held for sale.

18.4 Assets held for sale represents Plant and Machineries discarded in current year and earlier years and not in use and are carried at estimated net realisable value as determined by the management.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017**Fair value hierarchy**

The fair values of the financial assets and liabilities are included at the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the company has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments that have quoted price and financial instruments like Mutual Funds for which NAV is published by Mutual Fund Operator. The fair value of all equity instruments which are traded in the stock exchanges is valued using the closing price as at the reporting period and Mutual Fund are valued using the Closing NAV.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2. Instruments in the level 2 category for the company include forward exchange contract derivatives.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in this level. Instruments in level 3 category for the company include unquoted equity shares and FCCDs, unquoted units of mutual funds and unquoted units of venture capital funds

During the years mentioned above, there have been no transfers amongst the levels of hierarchy.

The carrying amounts of trade receivables, cash and cash equivalents, and other bank balances, current loans, other current financial assets, current borrowings, trade payables and other financial liabilities are considered to be approximately equal to the fair value.

The fair values disclosed above are based on discounted cash flows using a current borrowing rate. They are classified as level 3 fair values in the fair value hierarchy due to the use of unobservable inputs.

Valuation process

The Company evaluates the fair value of financial assets and financial liabilities on periodic basis using the best and most relevant data available. Also, the Company internally evaluates the valuation process and obtains independent price validation for certain instruments wherever necessary

Valuation techniques used to determine fair value and significant estimates and judgements made in:

Significant valuation techniques used to value financial instruments include:

- Investment in units, equity instruments and FCCDs are fair valued using the discounted cash flow method or market comparison method or cost approach as appropriate
- the fair value of forward foreign exchange contracts is determined using forward exchange rates at the balance sheet date

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017**Valuation inputs for fair values of items in level 3 and their relationships to fair value**

Fair valuation of Investments in units and unquoted equity shares and FCCD's are classified as level 3 in the fair value hierarchy because of the unobservable inputs / significant adjustments to observable inputs used to determine the fair value. These investments are mainly into the real estate sector. The valuation methodologies include discounted cash flow method, comparable market price method, as appropriate. The significant unobservable inputs / significantly adjusted observable inputs used in the valuation include prevailing discount rates, market value of land parcels, cost of projects, expected sales consideration etc. A change upto +/- 10% in these inputs will impact the profit before tax by Rs. (287.77) / 287.77 Lacs for the year ended 31st March, 2017 and Other comprehensive income before tax by Rs. (590.70) / 551.78 Lacs for the year ended 31st March, 2017. The profit for the year would be impacted as a result of gains / losses on investments classified as at fair value through profit or loss, i.e. units. Other comprehensive income would be impacted as a result of gain / losses on investments classified as at fair value through other comprehensive income, i.e. unquoted equity shares and FCCD's.

Credit risk arises from the possibility that counter party may not be able to settle their obligations as agreed. The company is exposed to credit risk from loans to group companies, bank balances, security deposits, investments measured at amortised cost, trade receivables and other current financial assets.

The Company periodically assesses the financial reliability of the counter party, taking into account the financial condition, current economic trends, and analysis of historical bad debts and ageing of accounts receivable. Individual limits are set accordingly. Investments at Amortised Cost are strategic investments in associated lines of business activity, the company closely monitors the performance of these Companies. Bank deposits are placed with reputed banks / financial institutions. Hence, there is no significant credit risk on such fixed deposits.

Loans and other deposits are mostly placed with group companies and government authorities hence the risk of credit loss is negligible. Loans to group companies are reassessed at every reporting dates. The loans are extended for genuine business activities.

Trade Receivable: The Company trades with recognized and credit worthy third parties. It is the Company's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. In addition, receivable balances are monitored on an on-going basis with the result that the Company's exposure to bad debts is not significant. Also the company does not enter into sales transaction with customers having credit loss history. There are no significant credit risks with related parties of the Company. The Company is exposed to credit risk in the event of non-payment by customers. Also credit risk in some of cases are mitigated by letter of credit/Advances from the customer.

The history of trade receivables shows a negligible allowance for bad and doubtful debts.

B Liquidity risk

Liquidity risk is defined as the risk that the Company will not be able to settle or meet its obligations on time or at a reasonable price. For the Company, liquidity risk arises from obligations on account of financial liabilities – borrowings, trade payables and other financial liabilities.

Liquidity risk management

The company manages its liquidity risk by regularly monitoring its rolling cash flow forecasts. The company's operations provide a natural liquidity of receivables against payments due to creditors. Receipts exceeding the amount of payables to creditors are invested in liquid assets like mutual funds. Borrowings are managed through credit facilities agreed with the Banks, internal accruals and realisation of liquid assets. In the event of cash shortfalls, the company approaches the lenders for a suitable term extension.

43 Employee benefits

As per Indian Accounting Standard-19 'Employee Benefits', the disclosure of Employee benefits as defined in the Accounting Standard are given below:

(a) Defined Benefit Plan :

The Company provides for gratuity for employees in India as per the Payment of Gratuity Act, 1972. Employees who are in continuous service for a period of 5 years are eligible for gratuity. The amount of gratuity payable on retirement/termination is the employees last drawn basic salary per month computed proportionately for 15 days salary multiplied for the number of years of service. The Employees' Gratuity Fund is managed by the Life Insurance Corporation of India. The present value of obligation is determined based on actuarial valuation using the Projected Unit Credit Method, which recognizes each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.

These plans typically expose the Company to actuarial risks such as: investment risk, interest risk, longevity risk and salary risk.

Investment risk: The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds.

Interest risk: A decrease in the bond interest rate will increase the plan liability; however, this will be partially offset by an increase in the return on the plan debt investments.

Longevity risk: The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

Salary risk: The present value of the defined plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017**Defined Contribution Plan:**

The Company also has certain defined contribution plans. Contributions are made to provident fund in India for employees at the rate of 12% of basic salary as per regulations. The contributions are made to registered provident fund administered by the government. The obligation of the group is limited to the amount contributed and it has no further contractual nor any constructive obligation. The expense recognised during the period towards defined contribution plan is 233.92 Lacs (31 March 2016 – 259.06 Lacs).

44 First time adoption of Ind AS**A First Ind AS Financial statements**

These are the company's first separate financial statements prepared in accordance with Ind AS.

The accounting policies set out in note 1 have been applied in preparing the financial statements for the year ended 31st March 2017, the comparative information presented in these financial statements for the year ended 31st March 2016 and in the preparation of an opening Ind AS balance sheet at 1st April 2015 (the date of transition). In preparing its opening Ind AS balance sheet, the company has adjusted the amounts reported previously in financial statements prepared in accordance with the accounting standards notified under Companies (Accounting Standards) Rules, 2006 (as amended) and other relevant provisions of the Act (previous GAAP or Indian GAAP).

An explanation of how the transition from previous GAAP to Ind AS has affected the company's financial position, financial performance and cash flows is as follows:

i Optional exemptions availed**Business combinations**

The company has availed the business combination exemption on first time adoption of Ind AS and accordingly the business combinations prior to date of transition have not been restated to the accounting prescribed under Ind AS 103 – Business combinations.

The company applies the requirements of Ind AS 103 – Business combinations to business combinations occurring after the date of transition to Ind AS

Deemed cost

Ind AS 101 permits a first-time adopter to elect to continue with the carrying value for all of its property, plant and equipment as recognised in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition after making necessary adjustments for de-commissioning liabilities. This exemption can also be used for intangible assets covered by Ind AS 38 Intangible Assets and investment property covered by Ind AS 40 Investment Properties.

Accordingly, the company has elected to measure all of its property, plant and equipment, intangible assets and investment property at their previous GAAP carrying value.

Investment in subsidiaries, associates and joint ventures

Ind AS 101 permits a first-time adopter to elect to continue with the carrying value for all of its investments in subsidiaries, associates and joint ventures as recognised in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition.

Accordingly, the company has elected to measure all of its investments in subsidiaries, associates and joint ventures at their previous GAAP carrying value.

ii Mandatory exceptions applied**Estimates**

An entity's estimates in accordance with Ind ASs at the date of transition to Ind AS shall be consistent with estimates made for the same date in accordance with previous GAAP (after adjustments to reflect any difference in accounting policies), unless there is objective evidence that those estimates were in error.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017

Ind AS estimates as at 1st April 2015 are consistent with the estimates as at the same date made in conformity with previous GAAP except where Ind AS required a different basis for estimates as compared to the previous GAAP.

De-recognition of financial assets and liabilities

Ind AS 101 requires a first-time adopter to apply the de-recognition provisions of Ind AS 109 prospectively for transactions occurring on or after the date of transition to Ind AS. However, Ind AS 101 allows a first-time adopter to apply the de-recognition requirements in Ind AS 109 retrospectively from a date of the entity's choosing, provided that the information needed to apply Ind AS 109 to financial assets and financial liabilities derecognised as a result of past transactions was obtained at the time of initially accounting for those transactions.

The company has applied the de-recognition provisions of Ind AS 109 prospectively from the date of transition to Ind AS.

Classification and measurement of financial assets

Ind AS 101 requires an entity to assess classification and measurement of financial assets (investment in debt instruments) on the basis of the facts and circumstances that exist at the date of transition to Ind AS.

Government loans

As per Ind AS 101, If a first-time adopter did not, under its previous GAAP, recognise and measure a government loan at a below-market rate of interest on a basis consistent with Ind AS requirements, it shall use its previous GAAP carrying amount of the loan at the date of transition to Ind ASs as the carrying amount of the loan in the opening Ind AS Balance Sheet. An entity shall apply Ind AS 109 to the measurement of such loans after the date of transition to Ind As.

The company has applied this exception to the interest free sales tax loan from the government authorities existing as at 1st April 2015.

44.4 Impact of Ind AS adoption on the statement of cash flows for the year ended 31st March 2016 -

Under Ind AS, working capital loans repayable on demand forming an integral part of the cash management process are included in cash and cash equivalents for the purpose of presentation of statement of cash flows. These loans were considered as part of borrowings under Previous GAAP and accordingly, movements in working capital loans were shown as part of financing activities in the statement of cash flows. Consequently with the change to Ind AS, cash and cash equivalents have reduced by Rs. 44.20 Lacs as at 31st March 2016 (1st April 2015 – Rs. 42.92 Lacs) and cash flows from financing activities for the year ended 31st March 2016 have also reduced by 1.28 Lacs to the effect of the movements in working capital loans.

All other adjustments on account of Ind AS are non - cash in nature and hence, there is no other material impact on the cash flows in the cash flow statement.

Explanation to reconciliation:

B.1 Financial Liabilities

The Preference shares are classified as a financial liability. The liability was initially recognised on fair value and considering these shares are issued to the promoters, the difference between the fair value and transaction price as deemed equity contribution by the promoters. Subsequently, the liability is measured at amortised cost using the effecting interest rate. The impact on this account has been recognised in the reserve on the transition date and the subsequent impact are recognised in the Statement of Profit and Loss and equity.

B.2 Fair valuation of financial assets

The Company has valued all financial assets at fair value. The impact of the fair value changes on the date of transition is recognised in the opening reserves and changes thereafter are recognised in Statement of Profit and Loss and other comprehensive income.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017**B.3 Interest free loans to subsidiary company**

Previous GAAP - Interest free loans were carried at the gross amount of loan.

Ind AS – Under Ind AS 109 – Financial instruments, loans (financial asset) are recognised at fair value on initial recognition. The difference between the fair value and transaction price is recognised as a deemed investment in the subsidiary company. Subsequently, the loan is measured at amortized cost using the effective interest rate method.

The impacts upto the date of transition have been recognised in reserves and subsequently in the statement of profit and loss.

B.4 Actuarial gains / losses

Gains/Losses through remeasurements of net defined benefit liabilities/assets are recognised in other comprehensive income.

B.5 Proposed dividends

Proposed dividends were recognised as an adjusting event occurring after the balance sheet date in previous GAAP, however as per Ind AS, dividends are non-adjusting events after the balance sheet date and hence recognised as and when approved by the shareholders.

B.6 Deferred taxes

The impact of transitional adjustments together with Ind AS mandate of using balance sheet approach (against profit and loss approach in the previous GAAP) for computation of deferred taxes has resulted in charge to Reserves, on the date of transition, with consequential impact to the Statement of Profit and Loss for the subsequent periods.

B.7 Other comprehensive income (OCI)

Items recognised in OCI mainly comprise of

- fair value changes in financial assets designated as fair value through OCI on the date of transition
- actuarial gains
- tax impacts on the above

B.8 Investment Property

Under the previous GAAP, certain investment properties were presented as part of property, plant and equipment. Under Ind AS, investment properties are required to be separately presented on the face of the balance sheet. There is no impact on the total equity or profit as a result of this adjustment.

B.9 Assets classified as held for sale

Previous GAAP - Certain fixed assets held for sale by the company were reclassified from Fixed assets to Other current assets at the lower of its carrying value or net realisable value. Any gain / loss was recognised in statement of profit and loss. Investments held for sale were continued to be recognised as Investments.

Ind AS - Non - Current assets meeting the held for sale criteria as per Ind AS 105 are measured at fair value less cost of disposal and disclosed separately on the face of the balance sheet. Any gain / loss is recognised in statement of profit and loss. Certain Investments for which the company has made the decision to dispose have been classified as assets held for sale. The measurement provisions as explained above for financial assets continue to apply to the investments held for sale.

B.10 Excise duty

Previous GAAP – Revenue from sale of goods was presented net of excise duty.

Ind AS – Revenue from sale of goods was presented inclusive of excise duty. The excise duty is presented on the face of the Statement of Profit and Loss as a part of expenses.

B.11 Retained Earnings

Retained earnings as at 1st April 2015 has been adjusted consequent to the above Ind AS transition adjustments.

INDEPENDENT AUDITOR'S REPORT

**To The Members of
Jai Corp Limited**

**Report on the Consolidated Ind AS Financial
Statements**

We have audited the accompanying consolidated Ind AS financial statements of **Jai Corp Limited** (hereinafter referred to as "the Holding Company") and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group") and its associates comprising of the Consolidated Balance Sheet as at 31st March, 2017, the Consolidated statement of Profit and Loss (including other comprehensive income), the Consolidated Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated Ind AS financial statements").

**Management's Responsibility for the Consolidated
Ind AS Financial Statements**

The Holding Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to preparation of these consolidated Ind AS financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and change in equity of the Group including its associates in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act with relevant rules issued thereunder.

The respective Board of Directors of the companies included in the Group and its associates are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and of its associates and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated Ind AS financial statements by the Directors of the Holding Company, as aforesaid.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated Ind AS financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are

required to be included in the audit report under the provisions of the Act and the rules made thereunder.

We conducted our audit of consolidated financial statements in accordance with the Standards on Auditing specified under Section 143 (10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the consolidated Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Board of Directors, as well as evaluating the overall presentation of the consolidated Ind AS financial statements.

We believe that the audit evidence obtained by us and by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated Ind AS financial statements.

Basis for Qualified Opinion

The consolidated Ind AS Financial Statements also include the Group's share of total comprehensive income (net loss plus other comprehensive income) of Rs.845.57 lacs for the year ended 31st March, 2017, in respect of one of the associates, whose financial statements have not been audited. The consolidated Ind AS financial statements of that associate are unaudited and have been approved by the Board of Directors of that associate and our opinion on the consolidated Ind AS financial statements, in so far as it relates to the amounts and disclosures included in respect of above associate, is based solely on these unaudited consolidated Ind AS financial statements. Consequently, effects on the Group's share of total comprehensive income, if any, pursuant to the audit of that associate, is not ascertainable at this stage.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, and based on the consideration of the reports of other auditors on separate financial statements and on the other financial information of the subsidiaries and associates, referred to in Other Matters paragraph

below, and *except for the effects of matter described in the Basis for Qualified Opinion paragraph above*, the aforesaid consolidated Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group and its associates as at 31st March 2017, and their consolidated profit including total comprehensive income, their consolidated cash flows and the consolidated statement of changes in equity for the year ended on that date.

Emphasis of Matter

We draw attention in respect of

1. Note No.16.2, 17.2 & 17.3 of the consolidated Ind AS financial statements regarding non receipts of balance confirmation for Inter-corporate Deposits, Interest receivables and certain advances given for purchase of land and development rights aggregating to Rs.13298.29 lacs.
2. ANNEXURE “A” TO THE INDEPENDENT AUDITOR’S REPORT

(Referred to in paragraph 1 (f) under ‘Report on Other Legal and Regulatory Requirements’ of our report of even date on consolidated Ind AS financial statements of Jai Corp Limited for the year ended 31st March 2017)

Report on the Internal Financial Controls over financial reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

In conjunction with our audit of the consolidated Ind AS financial statements of the Group and its associate as of and for the year ended 31st March, 2017, we have audited the internal financial controls over financial reporting of **Jai Corp Limited** (hereinafter referred to as “the Holding Company”) and its subsidiaries (the Holding Company and its subsidiaries referred to as “the Group”)

Management’s Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company and its subsidiaries, all incorporated in

India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Holding Company and its subsidiaries, considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (‘the Guidance Note’) issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial reporting issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under

section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence obtained by us and the audit evidence obtained by other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Holding Company and its subsidiaries, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note.

Other Matters

Our aforesaid reports under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting in so far as it relates to subsidiary companies, which are companies incorporated in India, is based on the corresponding reports of the auditors of such companies

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017**Company Information**

The consolidated financial statements comprise financial statements of Jai Corp Limited ("the company") and its subsidiaries for the year ended 31st March, 2017 ("the Group") and its associates. The Company is a limited Company domiciled and incorporated in India and its shares are publicly traded on the Bombay Stock Exchange (BSE), in India. The registered office of the Company is situated at A-3, M.I.D.C. Industrial Area, Nanded - 431 603.

Group is engaged in the manufacturing activities which produces Flexible intermediate bulk containers (FIBC Jumbo Bags), woven sacks and fabrics, manmade fiber yarns, Masterbatch and steel coils and sheets.

The consolidated financial statements for the year ended 31st March, 2017 were approved and adopted by board of directors in their meeting held on 30th May, 2017.

During the year the Board of Directors of the Subsidiary companies has approved scheme of merger of Urban Infrastructure Venture Capital Limited and UI Wealth Advisors Private Limited with each others at their respective meetings held on 21st December, 2016. This Scheme is subject to the approvals from the shareholders and other requisite statutory and regulatory approvals.

Basis of Preparation

The consolidated financial statements have been prepared in accordance with Indian Accounting Standards notified under the Companies (Indian Accounting Standards) Rules, 2015 (Ind AS).

For all periods up to year ended 31st March, 2016, the Group prepared its consolidated financial statements in accordance with accounting standards notified under the Section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 (Indian GAAP). These consolidated financial statements for the year ended 31st March, 2017 are the first consolidated financial statements, the Group has prepared in accordance with Ind AS.

The consolidated financial statements have been prepared on a historical cost basis, except for certain financial assets and liabilities, which are measured at fair value / amortised cost.

The consolidated financial statements are presented in Indian Rupees (₹) which is the Group's functional and presentation currency and all values are rounded to the nearest lacs and two decimals, except when otherwise indicated.

1 Significant accounting policies**a Principles of consolidation**

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries as at 31st March, 2017. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including the contractual arrangement with the other vote holders of the investee, rights arising from other contractual arrangements, the Group's voting rights and potential voting rights and the size of the Group's holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders.

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired during the year are included in the consolidated financial statements from the date the Group obtains control and assets, liabilities, income and expenses of a subsidiary disposed off during the year are included in the consolidated financial statement till the date the Group ceases to control the subsidiary.

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but has no control or joint control over those policies.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017

Consolidation procedure:

- a) Combine like items of assets, liabilities, equity, income, expenses and cash flows of the parent with those of its subsidiaries. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognised in the consolidated financial statements at the acquisition date.
- b) Offset (eliminate) the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary. The difference between the cost of investment in the subsidiaries and the Parent's share of net assets at the time of acquisition of control in the subsidiaries is recognised in the consolidated financial statement as goodwill. However, resultant gain (bargain purchase) is recognized in other comprehensive income on the acquisition date and accumulated to capital reserve in equity.
- c) Intra-Group balances and transactions, and any unrealized income and expenses arising from intra Group transactions, are eliminated in preparing the consolidated financial statements.
- d) In the case of foreign subsidiaries, being non-integral foreign operations, revenue items are consolidated at the average exchange rates prevailing during the year. All assets and liabilities are converted at rates prevailing at the end of the year. Components of equity are translated at closing rate. Any gain / (Loss) on exchange difference arising on consolidation is recognized in the Foreign Currency Translation Reserve (FCTR) through OCI.
- e) Consolidated statement of profit or loss and each component of OCI are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance.
- g) Interest in associates are consolidated using equity method as per Ind AS 28 – 'Investment in Associates and Joint Ventures'. The investment in associates is initially recognised at cost. Subsequently, under the equity method, post-acquisition attributable profit/losses and other comprehensive income are adjusted in the carrying value of investment to the extent of the Group's investment in the associates. Goodwill relating to the associate is included in the carrying amount of the investment and is not tested for impairment individually.
- h) Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If an entity of the group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that Group member's financial statements in preparing the consolidated financial statements to ensure conformity with the Group's accounting policies.
- i) Consolidated financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the parent company, i.e., year ended on 31st March. When the end of the reporting period of the parent is different from that of a subsidiary, if any, the subsidiary prepares, for consolidation purposes, additional financial information as of the same date as the consolidated financial statements of the parent to enable the parent to consolidate the financial information of the subsidiary, unless it is impracticable to do so.

b Business Combinations and goodwill:

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred measured at acquisition date fair value and the amount of any non-controlling interests in the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition related costs are expensed as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their acquisition date fair values, except certain assets and liabilities required to be measured as per the applicable standard. For this purpose, the liabilities assumed include contingent liabilities representing present obligation and they are measured at their acquisition fair values irrespective of the fact that outflow of resources embodying economic benefits is not probable.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in other comprehensive income and accumulated in equity as capital reserve. However, if there is no clear evidence of bargain purchase, the entity recognises the gain directly in equity as capital reserve, without routing the same through other comprehensive income.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units. A cash generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised in consolidated statement of profit or loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.

c Foreign currency reinstatement and translation:

Transactions in foreign currencies are initially recorded by the Group at rates prevailing at the date of the transaction. Subsequently monetary items are translated at closing exchange rates as on balance sheet date and the resulting exchange difference recognised in consolidated statement of profit and loss. Differences arising on settlement of monetary items are also recognised in consolidated statement of profit and loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the transaction. Non-monetary items carried at fair value that are denominated in foreign currencies are translated at the exchange rates prevailing at the date when the fair value was determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

Foreign exchange differences regarded as an adjustment to borrowing costs are presented in the consolidated statement of profit and loss, within finance costs. All other finance gains / losses are presented in the consolidated statement of profit and loss on a net basis.

d Revenue recognition

Revenue is measured at the fair value of consideration received or receivable. Revenue is recognised only when it can be reliably measured and it is probable that future economic benefits will flow to the Group.

Revenue from operations includes sales of goods, services, scrap, commission, export incentives. Revenue includes excise duty wherever charged from the customer but excludes service tax and sales tax / value added taxes.

Revenue from sale of goods is recognised when significant risk and rewards of ownership of the goods have passed to the customer. Amounts disclosed as revenue are inclusive of excise duty and net of returns, value added taxes and amounts collected on behalf of third parties.

Interest income for all debt instruments is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the group estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017

Dividend Income is recognised when right to receive the payment is established by the balance sheet date.

Commission and job-work income are recognised on an accrual basis in accordance with the terms of relevant agreement.

Export incentives other than advance license are recognised at the time of exports and the benefit in respect of advance license received by the Group against exports made by it are recognised as and when goods are imported against them.

e Income taxes

The income tax expense or credit for the year is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period.

Deferred income tax is provided in full, using the balance sheet approach, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax liabilities are not recognised for temporary differences between the carrying amount and tax bases of investments in subsidiaries, branches and associates and interest in joint arrangements where the group is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future. Deferred taxes are not recognised on these temporary differences if there is no probable tax outflow on their reversal. Deferred tax assets are not recognised for temporary differences between the carrying amount and tax bases of investments in subsidiaries, branches and associates and interest in joint arrangements where it is not probable that the differences will reverse in the foreseeable future and taxable profit will not be available against which the temporary difference can be utilised.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

f Government grants

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the Group will comply with all attached conditions.

Government grants relating to income are deferred and recognised in the profit or loss over the period necessary to match them with the costs that they are intended to compensate and presented within other income.

Government grants relating to the purchase of property, plant and equipment are included in non-current liabilities as deferred income and are credited to profit or loss on a straight-line basis over the expected lives of the related assets and presented within other income.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017**g Leases****As a lessee**

Leases where the group is a lessee and has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the lease's inception at the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding rental obligations, net of finance charges, are included in borrowings or other financial liabilities as appropriate. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to the profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the company as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to profit or loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

As a lessor

Lease income from operating leases where the group is a lessor is recognised in income on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases. The respective leased assets are included in the balance sheet based on their nature.

h Impairment of non-financial assets

Goodwill is not subject to amortisation and is tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. The carrying amounts of other assets are reviewed at each balance sheet date if there is any indication of impairment based on internal/external factors. An asset is treated as impaired when the carrying amount exceeds its recoverable value. The recoverable amount is the greater of the asset's fair value less cost of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to the present value using a pre-tax discount rate that reflects current market assessment of the time value of money and risks specific to the assets. An impairment loss is charged to the Statement of Profit and Loss in the year in which an asset is identified as impaired. After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life. The impairment loss recognized in prior accounting periods is reversed if there has been a change in the estimate of recoverable amount.

i Valuation of inventories

In general, all inventories of finished goods, work-in-progress etc., are stated at lower of cost and net realisable value. Cost of inventories comprise of all cost of purchase, cost of conversion and other cost incurred in bringing the inventory to their present location and condition. Finance cost generally are not part of the cost of inventories except Real Estate Division. Raw material and stores and spares are stated at lower of cost and net realisable value. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. The cost is determined on FIFO basis in respect of Packaging / Spinning Division and on average basis in respect of Steel Division. Scrap and trial run products are valued at estimated net realisable value. Inventories of finished goods and scrap includes excise duty wherever applicable.

j Non – current assets held for sale

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable. They are measured at the lower of their carrying amount and fair value less costs to sell.

An impairment loss is recognised for any initial or subsequent write-down of the asset to fair value less costs to sell. A gain is recognised for any subsequent increases in fair value less costs to sell of an asset, but not in excess of any cumulative impairment loss previously recognised. A gain or loss not previously recognised by the date of the sale of the non-current asset is recognised at the date of de-recognition.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017

Non-current assets are not depreciated or amortised while they are classified as held for sale. Interest and other expenses attributable to the liabilities of a disposal company classified as held for sale continue to be recognised.

k Investments and financial assets

Classification

The group classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the group has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

The group reclassifies debt investments when and only when its business model for managing those assets changes.

Measurement

At initial recognition, the group measures a financial asset (except investment in associates) at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Measurement of debt instruments

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the company classifies its debt instruments:

- **Amortised cost:** Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortised cost is recognised in profit or loss when the asset is derecognised or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method.
- **Fair value through other comprehensive income (FVOCI):** Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other gains/(losses). Interest income from these financial assets is included in other income using the effective interest rate method.
- **Fair value through profit or loss:** Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss is recognised in profit or loss and presented net in the statement of profit and loss within other gains/(losses) in the year in which it arises. Interest income from these financial assets is included in other income.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017**Measurement of equity instruments**

The group subsequently measures all equity investments (except investments in associates) at fair value. Where the group's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or loss. Dividends from such investments are recognised in profit or loss as other income when the company's right to receive payments is established.

Changes in the fair value of financial assets measured at fair value through profit or loss are recognised as gain/ (losses) in the statement of profit and loss. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

Impairment of financial assets

The group assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade receivables, the company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

De-recognition of financial assets

A financial asset is derecognised only when

- The group has transferred the rights to receive cash flows from the financial asset or
- retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Group evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Group has not retained control of the financial asset. Where the group retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

I Derivatives and embedded derivatives

The group enters into certain derivative contracts to hedge risks which are not designated as hedges. Such contracts are accounted for at fair value through profit or loss and are included in other gains / (losses).

Derivatives embedded in a host contract that is an asset within the scope of Ind AS 109 are not separated. Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Derivatives embedded in all other host contract are separated only if the economic characteristics and risks of the embedded derivative are not closely related to the economic characteristics and risks of the host and are measured at fair value through profit or loss. Embedded derivatives closely related to the host contracts are not separated.

m Property, plant and equipment

Property, plant and equipment are stated at cost of acquisition or construction, net of MODVAT / CENVAT, Value Added Tax, less accumulated depreciation and impairment loss, if any. Cost comprises of purchase price, borrowing cost if capitalisation criteria are met, and directly attributable cost of bringing the asset to its working conditions for the intended use.

Depreciation on property, plant and equipment

Depreciation on PPE is provided to the extent of depreciable amount on straight-line method over the useful life of asset as assessed by the management and the same is similar to the useful lives as prescribed in

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017

Part-C of Schedule II to the Companies Act, 2013 except acquisition of insurance spares and additions/ extensions forming an integral part of existing plants, which are depreciated over residual useful life of the respective plant, property and equipments.

The property, plant and equipment acquired under finance leases is depreciated over the asset's useful life or over the useful life and the lease term if there is no reasonable certainty that the group will obtain ownership at the end of the lease term.

PPE where ownership vests with the Government/local authorities are amortised over the useful life of asset as prescribed in Part-C of Schedule II to the Companies Act, 2013.

n Intangible assets

Intangible assets are carried at cost less accumulated amortisation and accumulated impairment losses, if any. Cost includes expenditure that is directly attributable to the acquisition of the intangible assets.

Identifiable intangible assets are recognised when it is probable that future economic benefits attributed to the asset will flow to the Group and the cost of the asset can be reliably measured.

Computer softwares are capitalised at the amounts paid to acquire the respective license for use and are amortised over the period of useful lives or period of three years, whichever is less. The assets' useful lives are reviewed at each financial year end.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit and loss when the asset is derecognised.

o Investment properties

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any.

Depreciation on investment properties are provided using straight line method over the estimated useful lives as specified in Schedule II to the Companies Act, 2013. Residual values, useful lives and method of depreciation of investment properties are reviewed at each financial year end and are adjusted prospectively, if appropriate. The effects of any revision are included in the statement of profit and loss when the changes arises.

Though the Group measures investment properties using cost based measurement, the fair value of investment property is disclosed in the notes.

Investment properties are derecognised either when they have been disposed off or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in statement of profit and loss in the period of derecognition.

p Borrowings and other financial liabilities

Borrowings and other financial liabilities are initially recognised at fair value (net of transaction costs incurred). Difference between the fair value and the transaction proceeds on initial is recognised as an asset / liability based on the underlying reason for the difference.

Subsequently all financial liabilities are measured at amortised cost using the effective interest rate method

Preference shares which are redeemable on a specific date are classified as a financial liability. Dividends on preference shares are recognised in statement of profit and loss.

Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss. The gain / loss is recognised in other equity in case of transaction with shareholders.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017**q Borrowing costs**

Borrowing costs that are attributable to the acquisition or construction of qualifying assets are capitalised as part of the cost of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for intended use. All other borrowing costs are charged to the statement of profit and loss as finance costs as per the effective interest rate method, wherever applicable.

r Provisions, contingent liabilities and contingent assets

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event. It is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are discounted using equivalent period government securities interest rate. Unwinding of the discount is recognised in the statement of profit and loss as a finance cost. Provisions are reviewed at each balance sheet date and are adjusted to reflect the current best estimate.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made. Information on contingent liability is disclosed in the Notes to the Financial Statements. Contingent assets are not recognised. However, when the realisation of income is virtually certain, then the related asset is no longer a contingent asset, but it is recognised as an asset.

s Employee benefits

Short-term employee benefits are recognized as an expense at the undiscounted amount in the statement of Profit and Loss for the year in which the related service is rendered.

Post-employment and other long term employee benefits are recognized as an expense in the Statement of Profit and Loss for the year in which the employee has rendered services. The expense is recognized at the present value of the amount payable determined using actuarial valuation techniques.

Re-measurement gains and losses pertaining to defined benefit obligations arising from experience adjustments and changes in actuarial assumptions are recognised in other comprehensive income in the period in which they occur

Compensated absences are accounted similar to the short term employee benefits.

Retirement benefits in the form of Provident Fund and other Funds are defined contribution scheme and the contributions are charged to the Statement of Profit and Loss of the year when the contribution to the respective funds are due. There are no other obligations other than the contribution payable to the fund.

t Earnings per share

Basic earnings per share is computed using the net profit for the year attributable to the shareholders' and weighted average number of equity shares outstanding during the year.

Diluted earnings per share is computed using the net profit for the year attributable to the shareholder' and weighted average number of equity and potential equity shares outstanding during the year including share options, convertible preference shares and debentures, except where the result would be anti-dilutive. Potential equity shares that are converted during the year are included in the calculation of diluted earnings per share, from the beginning of the year or date of issuance of such potential equity shares, to the date of conversion.

u Dividends

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

v Contributed equity

Equity shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017

w Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions and banks, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are disclosed as current borrowings in the balance sheet.

x Current and non-current classification:

The Group presents assets and liabilities in statement of financial position based on current/non-current classification. The Group has presented non-current assets and current assets before equity, non-current liabilities and current liabilities in accordance with Schedule III, Division II of Companies Act, 2013 notified by MCA.

An asset is classified as current when it is:

- a) Expected to be realised or intended to be sold or consumed in normal operating cycle,
- b) Held primarily for the purpose of trading,
- c) Expected to be realised within twelve months after the reporting period, or
- d) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is classified as current when it is:

- a) Expected to be settled in normal operating cycle,
- b) Held primarily for the purpose of trading,
- c) Due to be settled within twelve months after the reporting period, or
- d) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents. Deferred tax assets and liabilities are classified as non-current assets and liabilities. The Group has identified twelve months as its normal operating cycle.

y Fair value measurement:

The Group measures financial instruments at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- a) In the principal market for the asset or liability, or
- b) In the absence of a principal market, in the most advantageous market for the asset or liability.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017**z Off-setting financial Instrument:**

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable rights to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable rights must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Group or counterparty.

aa SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS:

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods. The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Group based on its assumptions and estimates on parameters available when the financial statements were prepared. However, existing circumstances and assumptions about future developments may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

i) Property, plant and equipment, Investment Properties and Intangible Assets:

Management reviews the estimated useful lives and residual values of the assets annually in order to determine the amount of depreciation to be recorded during any reporting period. The useful lives and residual values as per schedule II of the Companies Act, 2013 or are based on the Group's historical experience with similar assets and taking into account anticipated technological changes, whichever is more appropriate.

ii) Income Tax:

The Group reviews at each balance sheet date the carrying amount of deferred tax assets. The factors used in estimates may differ from actual outcome which could lead to an adjustment to the amounts reported in the standalone financial statements.

iii) Contingencies:

Management has estimated the possible outflow of resources at the end of each annual reporting financial year, if any, in respect of contingencies/claim/litigations against the Group as it is not possible to predict the outcome of pending matters with accuracy.

iv) Impairment of financial assets:

The impairment provisions for financial assets are based on assumptions about risk of default and expected cash loss. The Group uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on Group's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

v) Impairment of non-financial assets:

The Group assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or Cash Generating Units (CGU) fair value less costs of disposal and its value in use. It is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent to those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less cost of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples or other available fair value indicators.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017

vi) Defined benefits plans:

The Cost of the defined benefit plan and other post-employment benefits and the present value of such obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and attrition rate. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

vii) Recoverability of trade receivable:

Judgements are required in assessing the recoverability of overdue trade receivables and determining whether a provision against those receivables is required. Factors considered include the credit rating of the counterparty, the amount and timing of anticipated future payments and any possible actions that can be taken to mitigate the risk of non-payment.

viii) Provisions:

Provisions and liabilities are recognized in the period when it becomes probable that there will be a future outflow of funds resulting from past operations or events and the amount of cash outflow can be reliably estimated. The timing of recognition and quantification of the liability require the application of judgement to existing facts and circumstances, which can be subject to change. Since the cash outflows can take place many years in the future, the carrying amounts of provisions and liabilities are reviewed regularly and adjusted to take account of changing facts and circumstances.

ix) Fair value measurement of financial instruments :

When the fair value of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow (DCF) model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017**3.4. Estimation of fair value of investment properties:**

The best evidence of fair value is current price in an active market for similar properties. Where such information is not available, the Group considers information from a variety of sources including current prices in an active market for properties of different nature or recent prices of similar properties in less active markets, adjusted to reflect those differences.

The fair value measurement for all of the investment property has been categorised as a level 3 fair value based on the inputs to the valuation techniques used.

3.5 The carrying value (Gross Block less accumulated depreciation) as on 1st April, 2015 as per previous GAAP of the Investment Properties is considered as a deemed cost on the date of transition.

3.6 The Cost of one of the Land in respect of one of the subsidiary, represents payment and other related costs of leasehold land, to be utilised for the construction of labour accommodation. The leasehold land is situated in Dubai, UAE. The lease is for a period of 50 years and valid upto 18 June 2058. The management of the subsidiary company considers that the market value of the land will be atleast equal to its carrying value.

Total	878.77	976.59	378.90

19.1 Board of Directors of the Company at its meeting held on 22nd December 2015, has approved disposal of the Indore Unit as a going concern. Pending execution of Sale Deed, the amount of Rs. 497.69 Lacs classified as assets held for sale.

19.2 Considering substantial delay in the project which is yet to start, the Promoters of Nirmal Infrastructure Pvt Ltd have proposed to purchase the entire stake of Jaicorp for a sum of approximately Rs. 374 Lacs including premium of Rs. 248 Lacs on a investment of Rs. 100 Lacs and interest of Rs. 26 Lacs being interest for the delayed period. Hence the same was classified as held for sale in earlier years.

Original Equity shares of Nirmal Infrastructure Private Ltd. have been kept in Escrow Account and proposed transaction for disposal of investment is being executed.

However during the year, the transaction in respect of proposed disposal has not been honoured by the promoters of the investee and hence the said investment is not classified as held for sale at the end of the reporting period. The same will be kept as a strategic investment and due to the change in classification the other comprehensive income for the year has reduced by Rs. 274 lacs.

19.3 Considering substantial delay in the project which is yet to start, the Promoters of Earnest Towers Pvt. Ltd have proposed to purchase the entire stake of Company for a sum of approximately Rs. 856.77 Lacss . Hence the same was classified as held for sale.

19.4 Assets held for sale represents Plant and Machineries discarded in current year and earlier years and not in use and are carried at estimated net realisable value as determined by the management.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017

Fair value hierarchy

The fair values of the financial assets and liabilities are included at the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the group has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments that have quoted price and financial instruments like Mutual Funds for which NAV is published by Mutual Fund Operator. The fair value of all equity instruments which are traded in the stock exchanges is valued using the closing price as at the reporting period and Mutual Fund are valued using the Closing NAV.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2. Instruments in the level 2 category for the company include forward exchange contract derivatives.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in this level. Instruments in level 3 category for the company include unquoted equity shares and FCCDs, unquoted units of mutual funds and unquoted units of venture capital funds

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017

During the years mentioned above, there have been no transfers amongst the levels of hierarchy.

The carrying amounts of security deposits, inter-corporate deposits, trade receivables, cash and bank balances, current loans, other current financial assets, current borrowings, trade payables and other financial liabilities are considered to be approximately equal to the fair value.

The fair values of non-current borrowings are based on discounted cash flows using a current borrowing rate. They are classified as level 3 fair values in the fair value hierarchy due to the use of unobservable inputs.

Valuation processes

The Group evaluates the fair value of financial assets and financial liabilities on periodic basis using the best and most relevant data available. Also, the Group internally evaluates the valuation process and obtains independent price validation for certain instruments wherever necessary

Valuation techniques used to determine fair value and significant estimates and judgements made in:

Significant valuation techniques used to value financial instruments include:

- Investment in units, equity instruments and FCCDs are fair valued using the discounted cash flow method or market comparison method or cost approach as appropriate
- the fair value of forward foreign exchange contracts is determined using forward exchange rates at the balance sheet date

Valuation inputs for fair values of items in level 3 and their relationships to fair value

Fair valuation of Investments in units and unquoted equity shares and FCCD's are classified as level 3 in the fair value hierarchy because of the unobservable inputs / significant adjustments to observable inputs used to determine the fair value. These investments are mainly into the real estate sector. The valuation methodologies include discounted cash flow method, comparable market price method, as appropriate. The significant unobservable inputs / significantly adjusted observable inputs used in the valuation include prevailing discount rates, market value of land parcels, cost of projects, expected sales consideration etc. A change upto +/- 10% in these inputs will impact the profit before tax by Rs. (294.01) / 294.01 Lacs for the year ended 31st March, 2017 and Other comprehensive income before tax by Rs. (590.70) / 551.78 Lacs for the year ended 31st March, 2017. The profit for the year would be impacted as a result of gains / losses on investments classified as at fair value through profit or loss, i.e. units. Other comprehensive income would be impacted as a result of gain / losses on investments classified as at fair value through other comprehensive income, i.e. unquoted equity shares and FCCD's.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017

44 Financial risk management

The Group is exposed to credit risk, liquidity risk and Market risk.

A Credit risk

Credit risk arises from cash and bank balances, current and non-current loans, trade receivables and other financial assets carried at amortised cost.

Credit risk management

Credit risk arises from the possibility that counter party may not be able to settle their obligations as agreed. The Group is exposed to credit risk from loans to employees, inter-corporate deposits, bank balances, security deposits, investments measured at amortised cost, trade receivables and other current financial assets.

The Group periodically assesses the financial reliability of the counter party, taking into account the financial condition, current economic trends, and analysis of historical bad debts and ageing of accounts receivable. Individual limits are set accordingly. Investments at Amortised Cost are strategic investments in associated lines of business activity, the Group closely monitors the performance of these Companies. Bank deposits are placed with reputed banks / financial institutions. Hence, there is no significant credit risk on such fixed deposits.

Deposits are mostly placed with government authorities hence the risk of credit loss is negligible. Inter-corporate deposits given to related parties are reassessed at every reporting dates. The loans are extended for genuine business activities.

Credit risk arising from loans to employees are mitigated by structuring the repayment of loans from the salaries of the employees and retirement benefits. In respect of the loans and NCD's to others the company on a periodical basis checks and assess their creditworthiness

The Group trades with recognized and credit worthy third parties. It is the Group's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. In addition, trade receivable balances are monitored on an on-going basis with the result that the Group's exposure to bad debts is not significant. Also the Group does not enter into sales transaction with customers having credit loss history. There are no significant credit risks with related parties of the Group. The Group is exposed to credit risk in the event of non-payment by customers. Also credit risk in some of cases are mitigated by letter of credit/ advances from the customers and other risk mitigation strategies.

The history of trade receivables shows a negligible allowance for bad and doubtful debts.

B Liquidity risk

Liquidity risk is defined as the risk that the Group will not be able to settle or meet its obligations on time or at a reasonable price. For the Group, liquidity risk arises from obligations on account of financial liabilities – borrowings, trade payables and other financial liabilities.

Liquidity risk management

The Group manages its liquidity risk by regularly monitoring its rolling cash flow forecasts. The Group's operations provide a natural liquidity of receivables against payments due to creditors. Receipts exceeding the amount of payables to creditors are invested in liquid assets like mutual funds. Borrowings are managed through credit facilities agreed with the Banks, internal accruals and realisation of liquid assets. In the event of cash shortfalls, the Parent company approaches the lenders for a suitable term extension.

49.1 As per Indian Accounting Standard-19 'Employee Benefits', the disclosure of Employee benefits as defined in the Accounting Standard are given below:

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017

(a) Defined Benefit Plan :

The Group company provides for gratuity for employees in India as per the Payment of Gratuity Act, 1972. Employees who are in continuous service for a period of 5 years are eligible for gratuity. The amount of gratuity payable on retirement/termination is the employees last drawn basic salary per month computed proportionately for 15 days salary multiplied for the number of years of service. The Employees' Gratuity Fund of the Company is managed by the Life Insurance Corporation of India. The present value of obligation is determined based on actuarial valuation using the Projected Unit Credit Method, which recognizes each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.

e) Actuarial Risk

It is the risk that benefits will cost more than expected. This can arise due to one of the following reasons:

Interest Risk

The discount rate reflects the time value of money. An increase in discount rate leads to decrease in Defined Benefit Obligation of the plan benefits & vice versa. This assumption depends on the yields on the corporate/government bonds and hence the valuation of liability is exposed to fluctuations in the yields as at the valuation date.

Longevity Risk

The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

Salary Risk

The present value of the defined plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

Variability in withdrawal rates

If actual withdrawal rates are higher than assumed withdrawal rate than the Gratuity benefits will be paid earlier than expected. The impact of this will depend on whether the benefits are vested as at the resignation date.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017

55 First time adoption of Ind AS

A First Ind AS Financial statements

These are the Group's first separate consolidated financial statements prepared in accordance with Ind AS applicable as at 31st March 2017.

The accounting policies set out in note 1 have been applied in preparing the financial statements for the year ended 31st March 2017, the comparative information presented in these financial statements for the year ended 31st March 2016 and in the preparation of an opening Ind AS balance sheet at 1st April 2015 (the date of transition). In preparing its opening Ind AS balance sheet, the Group has adjusted the amounts reported previously in financial statements prepared in accordance with the accounting standards notified under Companies (Accounting Standards) Rules, 2006 (as amended) and other relevant provisions of the Act (previous GAAP or Indian GAAP).

An explanation of how the transition from previous GAAP to Ind AS has affected the Group's financial position, financial performance and cash flows is as follows:

i Optional exemptions availed

Business combinations

The Group has availed the business combination exemption on first time adoption of Ind AS and accordingly the business combinations prior to date of transition have not been restated to the accounting prescribed under Ind AS 103 – Business combinations.

The Group applies the requirements of Ind AS 103 – Business combinations to business combinations occurring after the date of transition to Ind AS

Deemed cost

Ind AS 101 permits a first-time adopter to elect to continue with the carrying value for all of its property, plant and equipment as recognised in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition after making necessary adjustments for de-commissioning liabilities. This exemption can also be used for intangible assets covered by Ind AS 38 Intangible Assets and investment property covered by Ind AS 40 Investment Properties.

Accordingly, the Group has elected to measure all of its property, plant and equipment, intangible assets and investment property at their previous GAAP carrying value.

Investment in associates and joint ventures

"Ind AS 101 permits a first-time adopter to elect to continue with the carrying value for all of its investments in associates and joint ventures as recognised in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition.

Accordingly, the Group has elected to measure all of its investments in associates and joint ventures at their previous GAAP carrying value."

ii Mandatory exceptions applied

Estimates

An entity's estimates in accordance with Ind ASs at the date of transition to Ind AS shall be consistent with estimates made for the same date in accordance with previous GAAP (after adjustments to reflect any difference in accounting policies), unless there is objective evidence that those estimates were in error.

Ind AS estimates as at 1st April 2015 are consistent with the estimates as at the same date made in conformity with previous GAAP except where Ind AS required a different basis for estimates as compared to the previous GAAP.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017**De-recognition of financial assets and liabilities**

Ind AS 101 requires a first-time adopter to apply the de-recognition provisions of Ind AS 109 prospectively for transactions occurring on or after the date of transition to Ind AS. However, Ind AS 101 allows a first-time adopter to apply the de-recognition requirements in Ind AS 109 retrospectively from a date of the entity's choosing, provided that the information needed to apply Ind AS 109 to financial assets and financial liabilities derecognised as a result of past transactions was obtained at the time of initially accounting for those transactions.

The Group has applied the de-recognition provisions of Ind AS 109 prospectively from the date of transition to Ind AS.

Classification and measurement of financial assets

Ind AS 101 requires an entity to assess classification and measurement of financial assets (investment in debt instruments) on the basis of the facts and circumstances that exist at the date of transition to Ind AS.

Government loans

As per Ind AS 101, If a first-time adopter did not, under its previous GAAP, recognise and measure a government loan at a below-market rate of interest on a basis consistent with Ind AS requirements, it shall use its previous GAAP carrying amount of the loan at the date of transition to Ind ASs as the carrying amount of the loan in the opening Ind AS Balance Sheet. An entity shall apply Ind AS 109 to the measurement of such loans after the date of transition to Ind AS.

The Group has applied this exception to the interest free sales tax loan from the government authorities existing as at 1st April 2015.

Impact of Ind AS adoption on the statement of cash flows for the year ended 31 March 2016 -

Under Ind AS, working capital loans repayable on demand forming an integral part of the cash management process are included in cash and cash equivalents for the purpose of presentation of statement of cash flows. These loans were considered as part of borrowings under Previous GAAP and accordingly, movements in working capital loans were shown as part of financing activities in the statement of cash flows. Consequently with the change to Ind AS, cash and cash equivalents have reduced by Rs. 44.20 Lacs as at 31 March 2016 (1 April 2015 – Rs. 42.92 Lacs) and cash flows from financing activities for the year ended 31 March 2016 have also reduced by 1.28 Lacs to the effect of the movements in working capital loans.

All other adjustments on account of Ind AS are non - cash in nature and hence, there is no other material impact on the cash flows in the cash flow statement.

Explanation to reconciliation:

B.1 Financial Liabilities

The Preference shares are classified as a financial liability. The liability initially recognised on fair value and considering these shares are issued to the promoters, the difference between the fair value and transaction price as deemed equity contribution by the promoters. Subsequently, the liability is measured at amortised cost using the effecting interest rate. The impact on this account has been recognised in the reserve on the transition date and the subsequent impact are recognised in the Statement of Profit and Loss and equity.

B.2 Fair valuation of financial assets

The Group has valued all financial assets at fair value. The impact of the fair value changes on the date of transition is recognised in the opening reserves and changes thereafter are recognised in Statement of Profit and Loss.

B.3 Impact of change in classification of financial instruments

Certain financial instruments issued by group companies and its associates have been classified as equity instruments under Ind AS.

B.4 Actuarial gains / losses

Gains/Losses through remeasurements of net defined benefit liabilities/assets are recognised in other comprehensive income.

B.5 Proposed dividends

Proposed dividends were recognised as an adjusting event occurring after the balance sheet date in previous GAAP, however as per Ind AS, dividends are non-adjusting events after the balance sheet date and hence recognised as and when approved by the shareholders.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2017**B.6 Deferred taxes**

The impact of transitional adjustments together with Ind AS mandate of using balance sheet approach (against profit and loss approach in the previous GAAP) for computation of deferred taxes has resulted in charge to Reserves, on the date of transition, with consequential impact to the Statement of Profit and Loss for the subsequent periods.

B.7 Other comprehensive income (OCI)**Items recognised in OCI mainly comprise of**

- fair value changes in financial assets designated as fair value through OCI on the date of transition
- actuarial gains
- profit on disposal of financial assets classified as FVOCI
- tax impacts on the above
- share of other comprehensive income of associates
- foreign currency translation reserve

B.8 Investment Property

Under the previous GAAP, certain investment properties were presented as part of property, plant and equipment and investments respectively. Under Ind AS, investment properties are required to be separately presented on the face of the balance sheet. There is no impact on the total equity or profit as a result of this adjustment.

B.9 Assets classified as held for sale

Previous GAAP - Certain fixed assets held for sale by the Group were reclassified from Fixed assets to Other current assets at the lower of its carrying value or net realisable value. Any gain / loss was recognised in statement of profit and loss. Investments held for sale were continued to be recognised as Investments.

Ind AS - Non - Current assets meeting the held for sale criteria as per Ind AS 105 are measured at fair value less cost of disposal and disclosed separately on the face of the balance sheet. Any gain / loss is recognised in statement of profit and loss. Certain Investments for which the Group has made the decision to dispose have been classified as assets held for sale. The measurement provisions as explained above for financial assets continue to apply to the investments held for sale.

B.10 Excise duty

Previous GAAP – Revenue from sale of goods was presented net of excise duty.

Ind AS – Revenue from sale of goods was presented inclusive of excise duty. The excise duty is presented on the face of the Statement of Profit and Loss as a part of expenses.

B.11 Retained Earnings

Retained earnings as at 1st April 2015 has been adjusted consequent to the above Ind AS transition adjustments.
