Forward-looking Statements

In this Annual Report, we have disclosed forward-looking information to enable investors to comprehend our prospects and take investment decisions. This Report and other statements—written and oral—that we periodically make contain forward-looking statements that set out anticipated results based on the Management's plans and assumptions. We have tried wherever possible to identify such statements by using words such as 'anticipate', 'estimate', 'expects', 'projects', 'intends', 'plans', 'believes', and words of similar substance in connection with any discussion of future performance. We cannot guarantee that these forward-looking statements will be realised, although we believe we have been prudent in our assumptions. The achievements of results are subject to risks, uncertainties and even inaccurate assumptions. Should known or unknown risks or uncertainties materialise, or should underlying assumptions prove inaccurate, actual results could vary materially from those anticipated, estimated or projected. Readers should bear this in mind.

We undertake no obligation to publicly update any forward-looking statement, whether as a result of new information, future events or otherwise.

CHAIRMAN AND MANAGING DIRECTOR'S MESSAGE

Recovery ahead

Our employees are the lifeblood of our Company and a critical component of our future. As a people-centric organisation, we provide a transparent, equitable, and dynamic work environment that promotes teamwork, open communication, and job satisfaction.

Dear Stakeholders,

The Financial Year 2020-21 will go down in the history as one that changed the course of life for mankind. The outbreak of the Pandemic, once in century crisis, has compelled all of us, all over the world, to make unthinkable changes in the way we live and work.

Safety and health of the employees and their family members have been paramount objective of your company. We have been continually educating all the employees, their family members and all other stakeholders on the importance of self-discipline and adherence to the safety directions and guidelines issued by the Government. In addition, detail guidelines for employees to follow at home and on the shop-floor were also framed which are being strictly adhered to.

Your Company ensured that employees in the age group of 45 years & above have been vaccinated and all the efforts are in the direction of getting the other employees and their family members also vaccinated.

I am glad to inform you that your Company has become profitable after a span of seven years, despite the Pandemic. During the lockdown, in the first quarter, we completely overhauled our processing equipment and streamlined the manufacturing process. This has helped

us in ramping our Yarn production, producing good quality Polyester Filament Yarn and Polyester Staple Fibre and enhanced operational efficiencies. With demand picking up after the lockdown, we were able to market the products gainfully leading to a Cash Profit of ₹36.51 Crores for the Financial Year 2020-21.

Our plant operations were affected due to the COVID-19 pandemic, which had a negative impact on our revenue, but our earnings and profits improved during FY21. The revenue from operations declined by 4.02% to ₹2022.79 Crores in FY21 from ₹2107.51 Crores in FY20 due to the pandemic-induced restrictions, while our EBITDA for FY21 increased to ₹113.30 Crores from ₹0.66 Crores in FY20 and profit before tax was at ₹2.73 Crores in FY21, as against loss of ₹180 Crores for the previous year. The growth in profit were supported by our operational efficiencies, focused marketing efforts and better outreach to customers.

Caring for our people

Our employees are the lifeblood of our Company and a critical component of our future. As a people-centric organisation, we provide a transparent, equitable, and dynamic work environment that promotes teamwork, open communication, and job satisfaction. Furthermore, our robust performance management approach allows us to attract and retain the best talent.

However, the Financial Year 2020-21 was one of the toughest years due to the COVID-19 pandemic that adversely affected health, livelihood, business and economy. Keeping the safety and wellbeing of our people in perspectives, we conducted various awareness workshops and distributed pamphlets on preventive measures on COVID. We also have well-qualified doctors and nursing staff who provide medical assistance on health, hygiene and periodic medical check-ups to our employees, their families, and contract workers. Going forward, we will continue our efforts on safeguarding our people from the pandemic and I am confident that our highly skilled and enthusiastic workforce will drive our growth in the Financial Year 2021-22 and beyond.

Information on CSR initiative

The Company is not required to spend any amount on CSR as per applicable CSR provisions. However, the Company has made contribution towards promotion of healthcare including preventive health care, disaster management and PM-Cares Fund to provide relief to those affected by emergency or distress situation of COVID-19.

Information on environment

As an environmental conscious Company, the Company continues to innovate and use efficient technologies to bring down ecological impact for all of its products namely Polyester Staple Fibre, Polyester Filament Yarn, Draw Texturised Yarn and Polyester Chips.

Company has started the following initiatives:

- Installation of online Ambient Air Quality Monitoring System (AAQMS) with online connectivity with statutory authorities;
- Installation of Waste Heat Recovery Boilers;
- Implementation of Zero liquid discharge scheme towards fulfillment of green environment objectives;
- Initiated Rain water harvesting in additional area;
- Controlled usage and avoidance of wastage of all utilities;
- Switch to Grid power instead of Captive thermal power there by reducing the incremental environmental impacts.

Road ahead

We are all set to leverage the upcoming opportunities and face the challenges ahead with new vigour. We are fully geared up with customer-focused and value-driven approach to meet their expectation & requirement.

On behalf of the Board and our Indo Rama team, I thank all the stakeholders including Banks, Government Authorities, customers, vendors for their continued trust and support. We are confident of sustaining our progress going forward with your constant encouragement.

Warm wishes

Om Prakash Lohia

- d) self-attested scanned copy of any document (such as AADHAR Card, Driving License, Election Identity Card, Passport) in support of the address of the Member, as registered with the Company.

For the Members holding shares in demat form, please update your Electronic Bank Mandate through your Depository Participant/s.

8. In the event the Company is unable to pay the dividend to any Member directly in their bank accounts through Electronic Clearing Service or any other means, due to non-registration of the Electronic Bank Mandate, the Company shall dispatch the Bankers' cheques/Demand Draft to such Member, as soon as possible.
9. A resident individual shareholder with PAN and who is not liable to pay Income Tax can submit a yearly declaration in Form No. 15G/15H, to avail the benefit of non-deduction of tax at source by email to the RTA's email address at helpdeskdelhi@mcsregistrars.com or to the Company's email address at corp@indorama-ind.com. Further no tax shall be deducted on the dividend payable to a resident individual shareholder if the total amount of dividend to be received from the Company during the financial year does not exceed ₹ 5,000/-. Shareholders may note that in

case PAN is not updated with the Depository Participant/Registrar and Share Transfer Agent of the Company, the tax will be deducted at a higher rate of 20%.

10. Non-resident shareholders can avail beneficial tax rates under Double Tax Avoidance Agreement [DTAA], i.e., tax treaty between India and their country of residence.
11. Members holding shares in electronic form are hereby informed that bank particulars registered against their respective depository accounts will be used by the Company for payment of dividend as and when declared. The Company or its Registrar and Share Transfer Agent, M/s MCS Share Transfer Agent Limited, cannot act on any request received directly from the Members holding shares in electronic form for any change of bank particulars or bank mandates. Such changes are to be advised only to the respective Depository Participants of the Members. Members holding shares in physical form and desirous of either registering bank particulars or changing bank particulars already registered against their respective folios for payment of dividend(s) are requested to write to the Company.
12. Pursuant to the provisions of Section 124 of the Act, Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016 read with the relevant circulars and amendments thereto ("IEPF Rules"), the amount of dividend remaining unpaid or unclaimed for a period of seven years from the due date is required to be transferred to the Investor Education and Protection Fund (IEPF), constituted by the Central Government. The Company had, accordingly, transferred ₹ 7,22,560/- (Indian Rupees Seven Lakhs Twenty-Two Thousand and Five Hundred Sixty only) being the unpaid and unclaimed dividend amount pertaining to the Dividend for the financial year 2012-13 on August 10, 2020.
13. Pursuant to Section 124 of the Act and the Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016 ("IEPF Rules, 2016"), dividends for the financial year ended March 31, 2014 and thereafter, which remain unpaid or unclaimed for a period of seven years from the respective dates of transfer to the unpaid dividend account of the Company are due for transfer to the Investor Education & Protection Fund ("IEPF") on the dates given in the table below:

Financial Year	Date of Declaration of Dividend	Due date for transfer to IEPF
2013-14	August 1, 2014	August 31, 2021
2014-15	July 30, 2015	August 29, 2022
2015-16	September 30, 2016	October 29, 2023

In case valid claim is not received by that date, the Company will also proceed to transfer the respective shares to the Demat Account of the IEPF Authority ("IEPF Account") in terms of the IEPF Rules by following the prescribed procedure.

14. The Company has been sending reminders to those members having unpaid/unclaimed dividends before transfer of such dividend(s) to IEPF. Details of the unpaid/unclaimed dividend(s) are also uploaded as per the requirements, on the Company's website www.indoramaindia.com. Members who have so far not encashed the Dividend for the above years are advised to submit their claim to the Company's RTA at their Registered Address given below, immediately quoting their folio number/ DP ID & Client ID.

15. The MCA had notified the IEPF Rules, 2016 effective from September 7, 2016. Further, the MCA had notified the Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Amendment Rules, 2017 on February 28, 2017 ("IEPF Rules, 2017").
16. The Rules, contain provisions for transfer of all those shares in respect of which dividend has not been encashed or claimed by shareholders for seven consecutive years or more in the account of the IEPF Authority.
17. Pursuant to the provisions of IEPF Rules, all shares of the Company in respect of which dividend has not been paid or claimed for seven consecutive years shall be transferred by the Company to the designated Demat Account of the IEPF Authority ("IEPF Account") within a period of thirty days of such shares becoming due to be transferred to the IEPF Account.

Accordingly, the Company transferred 36,656 (Thirty Six Thousand Six Hundred Fifty Six) Equity Shares of the face value of ₹ 10/- each to the IEPF Account pertaining to the financial year 2012-13, on which the dividends remained unpaid or unclaimed for seven consecutive years with reference to the due date of August 3, 2020 after following the prescribed procedure. In this regard, the Company has individually informed the Members concerned and published notice in the newspapers as per the IEPF Rules. The details of such Members and shares transferred for the financial year 2012-13 are uploaded in the "Investors Relations" segment of the website of the Company viz.; www.indoramaindia.com.

18. Dividend and corresponding shares, as stated in Points 12 and 17 above, once transferred to IEPF Authority by the Company, may be claimed only from the IEPF Authority by following the procedure prescribed under the IEPF Rules.

Mr. Pawan Kumar Thakur, Company Secretary and Compliance Officer is the Nodal Officer of the Company for the purpose of verification of such claims.

19. As per the provisions of Section 72 of the Act, the facility for making nomination is available for the Members in respect of shares held by them. Members who have not yet registered their nomination are requested to register the same by submitting Form No. SH-13. The said form can be downloaded from the website of the Company, i.e., www.indoramaindia.com. Members are requested to submit the said details to their DP in case the shares are held by them in electronic form and to MCS Share Transfer Agent Private Limited in case the shares are held in physical form.

20. The Securities and Exchange Board of India (SEBI) has mandated the submission of Permanent Account Number (PAN) and Bank Account No. by every participant in securities market. Members holding shares in electronic form are, therefore, requested to submit PAN and Bank Account No. to their Depository Participants with whom they are maintaining their demat accounts. Members holding shares in physical form can submit their PAN and Bank Account details to the Registrar and Share Transfer Agent/ Secretarial Department of the Company.

21. In terms of the Listing Regulations, securities of listed companies can only be transferred in dematerialised form with effect from April 1, 2019. In view of the above, Members are advised to dematerialise shares, if held by them in physical form.

22. Members holding shares in physical form in identical order of names in more than one folio are requested to send to the Company or Registrar and Share Transfer Agent, the details of such folios together with the share certificates for consolidating their holdings in one folio. A consolidated share certificate will be returned to such members after making requisite changes thereon.

23. Non-resident Indian Members are requested to inform Company's Registrar and Share Transfer Agent, MCS Share Transfer Agent Private Limited ("RTA"), immediately of:

- Change in their residential status on return to India for permanent settlement;
- Particulars of their bank account maintained in India with complete name, branch, account type, account number and address of the bank with pin code number, if not furnished earlier.

24. To support the "Green Initiative", the Members who have not registered their e-mail addresses are requested to register the same with the Company's RTA/Depositories for receiving all communications including Annual Reports, Notices, Circulars, etc., from the Company electronically. Electronic copies of all the documents referred to in the accompanying Notice of the Thirty-fifth AGM of the Company and in the statement annexed to the said Notice shall be available for inspection in the "Investor

Relations" segment of the website of the Company at www.indoramaindia.com.

25. During the Thirty-fifth AGM, Members may access the scanned copy of Register of Directors and Key Managerial Personnel and their shareholding maintained under Section 170 of the Act and the Register of Contracts and Arrangements in which Directors are interested maintained under Section 189 of the Act, upon using the login method explained at Point 29) "Access to NSDL e-Voting system". After successful login Members will be able to view the documents for inspection by clicking on the link available against the EVEN of Indo Rama Synthetics (India) Limited.

26. To prevent fraudulent transactions, Members are advised to exercise due diligence and notify the Company of any change in address or demise of any Member as soon as possible. Members are advised not to leave their demat account(s) dormant for long. Periodic Statement of holdings should be obtained from the concerned Depository Participant and holdings should be verified from time to time.

27. Details as required in sub-regulation (3) of Regulation 36 of the SEBI Listing Regulations and Secretarial Standard on General Meeting (SS-2) of the Institute of Company Secretaries of India (ICSI) in respect of the Director seeking appointment/re-appointment at the Annual General Meeting, forms an integral part of the Notice. Requisite declarations have been received from the Director for seeking re-appointment.

28. At the 32nd AGM held on Saturday, July 28, 2018, the Members approved appointment of M/s Walker Chandio & Co LLP (FRN001076N/500013), Chartered Accountants, as Statutory Auditors of the Company, for an initial term of five consecutive years from the conclusion of that AGM till the conclusion of 37th Annual General Meeting, subject to ratification of their appointment by the members at every year. The requirement to place the matter relating to appointment of auditors for ratification by Members at every AGM has been done away by the Companies (Amendment) Act, 2017 with effect from May 7, 2018. Accordingly, no resolution is being proposed for ratification of appointment of Statutory Auditors at Thirty-fifth AGM.

29. INSTRUCTIONS FOR MEMBERS FOR REMOTE E-VOTING AND JOINING GENERAL MEETING THROUGH VC/OVAM ARE AS UNDER:-

B. Technology Absorption:**1. Polyester Staple Fibre (PSF) -**

- Quality improvement modification of spin finish application from felt type to spray type.
- Implementation of bubble absorber system on PSF draw lines

2. Draw Texturised Yarn (DTY) -

- Installation of Online tension Monitoring Systems and improved SOPs to produce premium quality of DTY Yarns
- Automatic blower management software installation on DTY machines
- New Entanglement tester for DTY Yarns
- Installation of air chillers and moisture separators for improvement of compressed air quality.

Form for disclosure of particulars with respect to technology absorption (Form-B).**Research & Development****1. Specific Areas in which R&D carried out by the Company:**

(Product Development & Process Improvement Areas)

Following products were developed :

- (i) 2 denier fiber;
- (ii) Fiber suitable for vortex spinning technology;
- (iii) Air textured yarn of specific denier for end use in battery filter fabric;
- (iv) Double yarn for end use in Pen Industry;
- (v) Production of premium yarns for sensitive end use.

2. Benefit derived as a result of above Product development and process improvement:

Enhanced product portfolio to cater wider range of customers and meeting various products requirement of existing customers.

3. Import Substitution:

Development of indigenous vendors to substitute import of:

- Controllers/ system for PTA Conveying;
- In-house facility for maintenance of electronic cards;
- PSF low-lift truck for PSF can handling;
- Drives and invertors.

4. Future Plan of Action (2021-2022):**Technology Up-gradation:**

- (i) Replace steam ejectors in Polymerisation plants by glycol ejectors for improved process reliability and reduced costs;

- (ii) POY quality improvement by quench modification;
- (iii) PSF draw line upgradation - Installation of VFD's on HVAC unit for energy saving;
- (iv) Recover process waste heat by implementing hot water VAM equipment

Management Discussion and Analysis

Industries' Structure and Development

Indian Textile Industry is second largest producer of Natural and Man-made Fibre (MMF) in the world. The Indian Textile Industry consumes 45% MMF and 55% Cotton and other Fibers whereas internationally, Textile Industry consumes 70% MMF and 30% Cotton Fibre.

India produces around 10.0 Million Tons of MMF and Natural Fibre. The growth of MMF has been stagnant for the past many years due to Anti-dumping Duty on Raw Materials, making MMF unviable for the producers to Compete internationally. In the Budget 2020-21, the Government removed the Anti-dumping Duty on PTA after which the capacity utilisation increased to 80-82% from earlier i.e 70-72%. Further, many producers have also announced expansion plans.

Outlook

Cotton being a Natural Fibre, the total production is more or less same from last four years and the capacity to increase is limited. Any increase in demand of Fiber can be met only from MMF. It is expected that India will need extra 23 Million Tons of MMF by 2026-27 to achieve the Indian Textile Trade of 300 US Billion Dollar from present 150 US Billion Dollar.

Opportunities and Threats

Realising the growth potential of MMF and also employment potential, the Government of India is planning to come out with a new Textile Policy giving impetus to the growth of the Textile Industry. Presently, the industry employs around 45 Million directly and around 60 Million indirectly. With the removal of Anti-dumping Duty on PTA, and also announcement of the new Textile Policy, we can expect the industry to grow at 5 to 6 % per annum in the next five years.

Your Company will be highly benefited by the growth potential and considering the opportunity have embarked upon an expansion plan with investment of about ₹ 600 Crores.

The basic raw materials required for production of MMF are PTA (Purified Terephthalic Acid) and MEG (Mono Ethylene Glycol) which are petrochemical based products. In India, the main producer is Reliance Industries Limited, who also has a very large capacity of down-stream industry to produce MMF. The other producers of MMF have to compete with Reliance Industries domestically after buying the raw materials from them. Also, there is a shortage of raw material (PTA & MEG) and the industry is dependent on imports from China and other countries.

Risks and Concerns

In today's VUCA environment, it is essential to have a robust risk management system for any business. Indo Rama has been building a tough risk management system that enables it to achieve its business objectives and deliver sustainable long-term growth. The Company has decentralised its risk management to facilitate risk mitigation at transactional levels.

Our key risks and their mitigation processes are:

Risks	Mitigation process
Cost Risk Cost of raw materials fluctuate as polyester making raw materials are crude oil price sensitive	- Procure major raw material, PTA, mostly from local source with minimum effect on price fluctuations and transit time. - Renegotiate with vendors and alternative sourcing of other raw materials has helped the Company to optimise the cost of raw materials - Links prices to published price index of various raw materials
Quality Risk A drop in the quality of products may impair Company's image	- robust quality measures in place with strong technology backup helping in maintaining the quality of output - quality certification ISO-9001:2008 - fully equipped quality-control laboratory with contemporary equipment and software ensures continuous supply of high-standard products

Risks	Mitigation process
Employee Risk Inability to attract and retain skilled workforce can have a negative impact on growth	- Follow a uniform and merit-based recruitment process, sustained by a structured and precise selection procedure to avoid discrimination - Conduct impartial assessment process and unbiased performance appraisal to help retain skilled workforce - Encourages people with rewards and recognitions - Strengthen employee engagement activities and develop a congenial work environment
Technological Risk Technological obsolescence may hurt operational performance	- Several technical collaborations with global technology leaders - Focus on re-engineering and improvisation to remain competitive. - Emphasises continuous investment in technology up-gradations - Monitor the entire process to ensure stability
Customer Risk Inability to reach demand pockets and not catering to evolving needs may have a detrimental effect	- Maintain a strong sales and marketing team to increase market penetration - Undertake various measures to increase customer satisfaction - Focus on maintaining long-term relations with customers to ensure repeat business - Analysis of market trends to derive demand for customers
Competition Risk Competition from other players might affect business	- Focus on widening customer base and catering to specific needs to gain customer trust - Addresses broader client base with an expanded value-added product portfolio
Forex Risk Volatility in global currencies can impact profit margins	- Maintain an equilibrium between exports receipts and import payments creating a natural hedge against currency fluctuations effect - Safeguard against currency volatility, forward contracts are taken on need- and assessment-based approach

Power Generation and Sourcing

The Company has captive power generation capacity of 71.08 MW. Its Captive co-generation Power Plant (CPP) has a coal-based thermal power of 40 MW capacity and 31.08 MW FO-based DG capacity.

In the Financial Year 2020-21, from middle of June, the Company has stopped power generation from its captive co-generation facility and started sourcing 100% of required power from state DISCOM. On power being sourced from DISCOM, the Company is eligible and availing, the sector specific and region-specific subsidies extended by the Government of Maharashtra.

While sourcing the power from state DISCOM, the DG power set is always kept in standby mode as back-up power, for meeting critical power requirement during any power failure from State DISCOM. Indo Rama continues to monitor its power usage, internally and externally, for opportunities to reduce cost of production.

Internal Controls Systems and their adequacy

Indo Rama has a robust Internal Control System in place designed to achieve efficacy of systems, processes and controls. Internal audit is carried out by an independent agency and internal enterprise risk management team. All the major areas and processes are covered in the review plan, drawn in consultation with the management. Standard operating procedure compliance and management-approved policies are reviewed and areas of improvement, if any, are identified. Internal audit process verifies whether all systems and processes are commensurate with the business size and structure. Adequate Internal Control Systems safeguard the assets of the company with timely identification and intervention to assuage risks. The internal audit report is discussed with the management and members of Audit Committee to keep a check on the existing systems and take corrective action to further enhance the control measures.

Statutory Compliance

Company Secretary and Compliance Officer makes a declaration at each Board Meeting regarding the compliance with the provisions of various statutes, after obtaining confirmation from all the units of the Company. He also ensures compliance accordance to SEBI regulations and Companies Act, 2013 and rules thereof and all other applicable statutes.

Human Resources and Industrial Relations

Indo Rama's success is the result of the expertise, excellence and experience of its people. The Company has incorporated a systematic performance management strategy to ensure its people remained engaged and Indo Rama retains the industry's best talent. Independent Auditor's Report

To the Members of Indo Rama Synthetics (India) Limited

Opinion

1. We have audited the accompanying standalone financial statements of Indo Rama Synthetics (India) Limited ('the Company'), which comprise the Balance Sheet as at 31 March 2021, the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information.
2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ('Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including Indian Accounting Standards ('Ind AS') specified under section 133 of the Act, read with rule 7 of the Companies (Accounts) Rules, 2014 (as amended), of the state of affairs of the Company as at 31 March 2021, and its profit (including other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

4. Emphasis of Matters

(a) Impact of COVID-19

We draw attention to Note 44 to the accompanying standalone financial statements, which describes management's assessment of uncertainties relating to the effects of the COVID-19 pandemic on the Company's operations. Our opinion is not modified in respect of this matter.

(b) Change in useful lives of certain assets

We draw attention to note 47 to the accompanying standalone financial statements which indicates that the management has re-assessed and revised the remaining useful lives of certain assets in the block of plant and equipment with effect from 1 April 2020 based on technical assessment performed by an independent expert. The effect of change in such accounting estimate has been recognised prospectively in the accompanying standalone financial statements in accordance with requirements of Ind AS 8, 'Accounting Policies, Changes in Accounting Estimates and Errors'. As a consequence, there is a reduction in depreciation expense recognised and for the year ended 31 March 2021 by ₹ 51.53 Crores as described in the aforesaid note. Our opinion is not modified in respect of this matter.

Key Audit Matters

5. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.
6. We have determined the matters described below to be the key audit matters to be communicated in our report.

Key audit matter	How the matter was addressed in the audit
Recognition of deferred tax assets (Refer note 8(b) and note 46 to the accompanying standalone financial statements) As detailed in note 8(b) and note 46 to the accompanying standalone financial statements, the Company has deferred tax assets (net) aggregating to ₹ 208.53 Crores as at 31 March 2021. During the current year, the Company has recognised deferred tax assets amounting to ₹ 98.52 Crores on the basis of improved operational and market performance achieved during the year. The Company's ability to recover the deferred tax assets is assessed by the management at the close of each financial year which depends on the forecasts of the future results and taxable profits that Company expects to earn within the period by which such brought forward losses can be adjusted against the taxable profits as governed by the Income-tax Act, 1961. The projected cash flows involve key assumptions such as future growth rate and market conditions including considering impact of COVID-19 pandemic. Any change in these assumptions could have a material impact on the carrying value of deferred tax assets. These assumptions and estimates are judgmental, subjective and depend on the future market and economic conditions, including industry focused trade policies, materialisation of the Company's expansion plans. We have identified the recoverability of deferred tax assets recognised on carried forward tax losses and unabsorbed depreciation as a key audit matter for the current year audit considering the materiality of the amounts, complexities and significant judgments involved, as described above.	Our audit procedures in relation to the recognition of deferred tax assets included, but were not limited to, the following: • Evaluated the design and tested the operating effectiveness of key controls implemented by the Company over recognition of deferred tax assets based on the assessment of Company's ability to generate sufficient taxable profits in foreseeable future allowing the use of deferred tax assets within the time prescribed by income tax laws. • Reconciled the future taxable profit projections to future business plans of the Company as approved by the Board of Directors. • Tested the assumptions used in the aforesaid future projections such as growth rates, expected saving, increased utilisation of plants, etc. considering our understanding of the business, actual historical results, other relevant existing conditions, external data and market conditions, including the impact of COVID-19 pandemic on such assumptions. • Tested the arithmetical accuracy of the calculations including those related to sensitivity analysis performed by the management. • Performed independent sensitivity analysis to test the impact of possible variations in key assumptions. • Reviewed the historical accuracy of the cash flow projections prepared by the management in prior periods. • Evaluated management's assessment of time period available for adjustment of such deferred tax assets as per provisions of the Income-tax Act, 1961 and appropriateness of the accounting treatment with respect to the recognition of deferred tax assets as per requirements of Ind AS 12, Income Taxes. • Evaluated the appropriateness for additional recognition of deferred tax asset during the year. Evaluated the appropriateness and adequacy of the disclosures made in the standalone financial statements in respect of deferred tax assets in accordance with applicable accounting standards.
Going concern basis of accounting (Refer note 1(iii)(b) and note 45 to the accompanying standalone financial statements) During the year ended 31 March 2021, the Company has earned profits before tax of ₹ 2.73 Crores and also as at 31 March 2021 the current liabilities exceed its current assets by ₹ 335.13 Crores. While the above indicates doubt about the Company's ability to continue as a going concern, however, as detailed in aforesaid note to the accompanying standalone financial statements, the Company has taken into consideration the following mitigating factors in its assessment of appropriateness of using the going concern basis of accounting: • The Company has option to arrange additional credit lines with the support of the promoter group company to the tune of USD 35 million by way of the Stand By Letter of Credit (SBLC) to meet any unforeseen exigencies; • Increased capacity utilisation of plants; • Expected additional benefit of GST refund on increased future sales within the state of Maharashtra; and • Improved margins due to reduction in raw material prices.	Our audit procedures included, but were not limited to, the following in relation to assessment of appropriateness of going concern basis of accounting: • Obtained an understanding of the management's process for identifying all events or conditions that could impact the Company's ability to continue as a going concern, and the process followed to assess the mitigating factors existing for such events or conditions. • Evaluated the design and tested the operating effectiveness of key controls around aforesaid identification of events or conditions and mitigating factors, and controls around cash flow projections prepared by the management. • Reconciled the cash flow projections to future business plans of the Company as approved by the Board of Directors. • In order to corroborate management's future business plans and to identify potential contradictory information we read the board minutes, supervisory board minutes and discussed the business plans with management and the Audit Committee.

Key audit matter	How the matter was addressed in the audit
Management has prepared future cash flow forecasts taking into cognizance the above developments and performed sensitivity analysis of the key assumptions such as future growth rate and market conditions including impact of COVID-19 pandemic, therein to assess whether the Company would be able operate as a going concern for a period of at least 12 months from the date of financial statements, and concluded that the going concern basis of accounting used for preparation of the accompanying standalone financial statements is appropriate with no material uncertainty over going concern. We have considered the assessment of management's evaluation of going concern basis of accounting as a key audit matter due to the pervasive impact thereof on the standalone financial statements and the significant judgements and assumptions that are inherently subjective and dependent on future events, involved in preparation of cash flow projections and the overall conclusion.	- Tested the appropriateness of the key assumptions, including the impact of COVID-19 pandemic on such assumptions that had the most material impact including the growth rates, increased utilization of plants and reduced raw material cost. In challenging these assumptions, we considered our understanding of the business, actual historical results, other relevant existing conditions, external data and market conditions. - Tested the arithmetical accuracy of the calculations including those related to sensitivity analysis performed by the management. - Performed independent sensitivity analysis to test the impact of variation in the key assumptions. - Reviewed the historical accuracy of the cash flow projections prepared by the management in prior periods. - Inspected the approved unutilized loan sanction letter and evidence of support given by the promoter group company in favour of the Company. - Evaluated the appropriateness and adequacy of the disclosures made in the standalone financial statements in respect of going concern
Provisions and contingent liabilities relating to litigations (Refer note 18 and note 32 to the accompanying standalone financial statements) As detailed in note 18 and note 32 to the standalone financial statements, the Company is exposed to a large number of litigations including matters pertaining to income tax and prior years' matters pertaining to excise, customs, sales tax, value added tax, service tax, etc., which could have a significant impact on the financial position of the Company, if the potential exposures were to materialize. Provision for such litigations amounts to ₹ 38.30 Crores as at 31 March 2021 based on its estimate of the likelihood of such liability devolving upon the Company. The amounts involved are material and the application of accounting principles as given under Ind AS 37, 'Provisions, Contingent Liabilities and Contingent Assets', in order to determine the amount to be recognised as a liability or to be disclosed as a contingent liability, in each case, is inherently subjective, and needs careful evaluation and judgement to be applied by the management. The key judgements involved are with respect to the potential exposure of each litigation and the likelihood and/or timing of cash outflows from the Company, and requires interpretation of laws and past legal rulings. Considering the significant judgments, materiality of the amounts involved, inherent high estimation uncertainty and reliance on legal and tax experts, this matter has been identified as a key audit matter for the current year audit.	Our audit procedures in relation to the assessment of litigations and provisions included, but were not limited to, the following: - Obtained an understanding of the management process for: - identification of legal and tax matters initiated against the Company, - assessment of accounting treatment for each such litigation identified under Ind AS 37 accounting principles, and - measurement of amounts involved. - Evaluated the design and tested the operating effectiveness of key controls around above process including for completeness and accuracy of the list of litigations outstanding against the Company. - Obtained understanding of the developments during the year in each existing litigation, and understanding of the new litigations initiated against the Company during the year by inquiry with the management, inspection of case related documents such as notices, orders, etc. and correspondence of the Company with their external counsels handling such matters on behalf of the Company. - Conducted a critical review of the assessment done by the management with the help of its legal and tax experts for the likelihood and potential impact of each litigation, examining the available supporting documents. Tested the independence, objectivity and competence of such experts involved. - Exercised our professional judgment to assess the management's assessment of the potential likelihood of liability devolving upon the Company with respect to each legal case. - Involved auditor's experts to assess the Company's interpretation and application of relevant tax laws to evaluate the appropriateness of key assumptions used and the reasonableness of estimates made in relation to uncertain tax positions, taking into account past precedents. - Reviewed significant movements in provision with supporting documents. - Tested the underlying calculations of amount of liability recognized and contingent liability disclosed in the standalone financial statements. - Evaluated the appropriateness and adequacy of disclosures made in the standalone financial statements with respect to provisions and contingent liability in accordance with applicable accounting standards.

Information other than the Financial Statements and Auditor's Report thereon

7. The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the financial statements and our auditor's report thereon. The Annual Report is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of standalone the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

8. The accompanying standalone financial statements have been approved by the Company's Board of Directors. The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, profit, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Ind AS specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.
9. In preparing the financial statements, management is responsible for assessing the Company's ability to continue

as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

10. Those Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

11. Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.
12. As part of an audit in accordance with Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
 - Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
 - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
 - Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability

to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

13. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
14. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
15. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

16. As required by section 197(16) of the Act, we report that the Company has paid remuneration to its directors for the year ended 31 March 2021 in excess of the limits laid down under section 197 of the Act by ₹ 0.69 Crores. The remuneration paid to the whole-time director is within the limits prescribed in Schedule V to the Act whereas the remuneration paid to the managing director is in excess of such limits, as further explained in note 41(d) to the accompanying standalone financial statements. Such remuneration has been paid subject to approvals of

the shareholders by way of ordinary resolution/special resolution, as applicable, in the ensuing Annual General Meeting in accordance with the requirements of Section 197 and Schedule V to the Act.

17. As required by the Companies (Auditor's Report) Order, 2016 ('the Order') issued by the Central Government of India in terms of section 143(11) of the Act, we give in the Annexure I a statement on the matters specified in paragraphs 3 and 4 of the Order.
18. Further to our comments in Annexure I, as required by section 143(3) of the Act, based on our audit we report, to the extent applicable, that:
 - a) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the accompanying standalone financial statements;
 - b) in our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - c) the standalone financial statements dealt with by this report are in agreement with the books of account;
 - d) in our opinion, the aforesaid standalone financial statements comply with Ind AS specified under section 133 of the Act;
 - e) the matter described in paragraph 4 under the Emphasis of Matter, in our opinion, may have an adverse effect on the functioning of the company.
 - f) on the basis of the written representations received from the directors and taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2021 from being appointed as a director in terms of section 164(2) of the Act;
 - g) we have also audited the internal financial controls with reference to financial statements of the Company as on 31 March 2021 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date and our report dated 19 May 2021 as per Annexure II expressed unmodified opinion;
 - h) with respect to the other matters to be included in the Auditor's Report in accordance with rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:

- i. the Company, as detailed in note 32 to the standalone financial statements, has disclosed the impact of pending litigations on its financial position as at 31 March 2021;
- ii. the Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses as at 31 March 2021;
- iii. there has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company during the year ended 31 March 2021;
- iv. the disclosure requirements relating to holdings as well as dealings in specified bank notes were applicable for the period from 8 November 2016 to 30 December 2016, which are not relevant to these standalone financial statements. Hence, reporting under this clause is not applicable.

Annexure I

to the Independent Auditor's Report of even date to the members of Indo Rama Synthetics (India) Limited, on the standalone financial statements for the year ended 31 March 2021 (Cont'd)

Based on the audit procedures performed for the purpose of reporting a true and fair view on the financial statements of the Company and taking into consideration the information and explanations given to us and the books of account and other records examined by us in the normal course of audit, and to the best of our knowledge and belief, we report that:

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets (property, plant and equipment)
- (b) The Company has a regular program of physical verification of its fixed assets under which fixed assets are verified in a phased manner over a period of three years, which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. In accordance with this program, certain fixed assets were verified during the year and no material discrepancies were noticed on such verification.
- (c) The title deeds of all the immovable properties (which are included under the head 'Property, plant and equipment') are held in the name of the Company.
- (ii) In our opinion, the management has conducted physical verification of inventory at reasonable intervals during the year, except for goods-in-transit and stocks lying with third parties. For stocks lying with third parties at the year-end, written confirmations have been obtained by the management. No material discrepancies were noticed on the aforesaid verification.
- (iii) The Company has not granted any loan, secured or unsecured to companies, firms, Limited Liability Partnerships (LLPs) or other parties covered in the register maintained under Section 189 of the Act. Accordingly, the provisions of clauses 3(iii)(a), 3(iii)(b) and 3(iii)(c) of the Order are not applicable.
- (iv) In our opinion, the Company has complied with the provisions of Section 186 in respect of investments. Further, in our opinion, the Company has not entered into any transaction covered under Section 185 and Section 186 of the Act in respect of loans, guarantees and security.
- (v) In our opinion, the Company has not accepted any deposits within the meaning of Sections 73 to 76 of the Act and the Companies (Acceptance of Deposits) Rules, 2014 (as amended). Accordingly, the provisions of clause 3(v) of the Order are not applicable.
- (vi) We have broadly reviewed the books of account maintained by the Company pursuant to the Rules made by the Central Government for the maintenance of cost records under sub-section (1) of Section 148 of the Act in respect of Company's products/services and are of the opinion that, prima facie, the prescribed accounts and records have been made and maintained. However, we have not made a detailed examination of the cost records with a view to determine whether they are accurate or complete.
- (vii) (a) Undisputed statutory dues including provident fund, employees' state insurance, income-tax, sales-tax, service tax, goods and service tax, duty of customs, duty of excise, value added tax, cess and other material statutory dues, as applicable, have generally been regularly deposited to the appropriate authorities, though there has been a slight delay in a few cases. Further, no undisputed amounts payable in respect thereof were outstanding at the year-end for a period of more than six months from the date they became payable.
- (b) The dues outstanding in respect of income-tax, sales-tax, service-tax, duty of customs, duty of excise and value added tax on account of any dispute, are as follows:

Annexure II

Independent Auditor's Report on the internal financial controls with reference to the standalone financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

1. In conjunction with our audit of the standalone financial statements of Indo Rama Synthetics (India) Limited ('the Company') as at and for the year ended 31 March 2021, we have audited the internal financial controls with reference to financial statements of the Company as at that date.

Responsibilities of Management and Those Charged with Governance for Internal Financial Controls

2. The Company's Board of Directors is responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal controls stated in the Guidance Note on Audit of Internal Financial Control over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company's business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility for the Audit of the Internal Financial Controls with Reference to Financial Statements

3. Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India ('ICAI') prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements, and the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ('the Guidance Note') issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements includes obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls with Reference to Financial Statements

6. A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with Reference to Financial Statements

7. Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such controls were operating effectively as at 31 March 2021, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

Notes

to the Standalone financial statements

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2021

1.(i) Corporate information

Indo Rama Synthetics (India) Limited (hereinafter referred to as 'the Company' or 'IRSL') is a Public Company domiciled in India, with its registered office situated at A-31, MIDC Industrial Area, Butibori, Nagpur. The Company has been incorporated under the provisions of Companies Act, 1956 and its equity shares are listed on the National Stock Exchange of India Limited and BSE Limited. The Company is a manufacturer of polyester filament yarn (PFY), polyester staple fibre (PSF), draw texturised yarn (DTY), specialty fiber and chips. The Company is also engaged in trading of spun yarn, and also engaged in power generation, which is used primarily for captive consumption.

(ii) Basis of preparation and presentation

These standalone financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 notified under Section 133 of Companies Act, 2013 (the 'Act') and other relevant provisions of the Act.

These standalone financial statements are presented in Indian Rupees (INR), which is also the Company's functional currency. All amounts have been rounded-off to the nearest Crores and two decimals thereof, unless otherwise indicated.

Transactions and balances with values below the rounding off norm adopted by the Company have been reflected as "0" in the relevant notes in these standalone financial statements.

The statement of cash flows have been prepared under indirect method.

The standalone financial statements have been prepared on the historical cost basis, except for the following assets and liabilities which have been measured at fair value:

- Certain financial assets and liabilities (including derivatives instruments) at fair value, if any.
- Defined benefit liabilities are measured at present value of defined benefit obligation.
- Property, plant and equipment and intangible assets have been carried at deemed cost on the date of transition using the optional exemption allowed under Ind AS 101.
- Certain financial assets and liabilities at amortised cost.

(iii) Significant accounting policies

a. Use of estimates and judgements

The preparation of standalone financial statements in conformity with Ind AS requires management to make judgments, estimates and assumptions that affect the application of accounting

policies and the reported amounts of assets, liabilities, income, expenses and other comprehensive income (OCI) that are reported and disclosed in the standalone financial statements and accompanying notes. Accounting estimates could change from period to period. Actual results may differ from these estimates.

These estimates and judgment are based on the management's best knowledge of current events, historical experience, actions that the Company may undertake in the future and on various other estimates and judgments that are believed to be reasonable under the circumstances. Accounting estimates could change from period to period. Accounting estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the standalone financial statements in the period in which changes are made. In particular, information about significant areas of estimation, uncertainty and critical judgements in applying accounting policies that have most significant effect of the amounts recognised in the financial statements is included in the following notes:

- Note 8(b) – recognition of deferred tax assets: availability of future taxable profit against which tax losses carried forward can be used
- Note 35 – measurement of defined benefit obligations: key actuarial assumptions
- Note 2 and 4 - estimation of useful lives of property, plant and equipment and intangible assets
- Note 32 – recognition and measurement of provisions and contingencies: key assumptions about the likelihood and magnitude of an outflow of resources.

b. Going concern

Going concern basis of accounting used for preparation of the accompanying standalone financial statements is appropriate with no material uncertainty.

c. Current/non-current classification

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of business and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current or non-current classification of assets and liabilities.

Notes

to the Standalone financial statements

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2021

Assets

An asset is classified as current when it satisfies any of the following criteria:

- 1) It is expected to be realised in, or is intended to be sold or consumed in, the Company's normal operating cycle;
- 2) It is held primarily for the purpose of being traded;
- 3) It is expected to be realised within twelve months after the reporting date; or
- 4) It is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date.

Current assets include the current portion of non-current financial assets. All other assets are classified as non-current.

Liabilities

A liability is classified as current when it satisfies any of the following criteria:

- 1) It is expected to be settled in the Company's normal operating cycle;
- 2) It is held primarily for the purpose of being traded;
- 3) It is due to be settled within twelve months after the reporting date; or
- 4) The Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting date.

Current liabilities include current portion of non-current financial liabilities. All other liabilities are classified as non-current.

d. Property, plant and equipment

Recognition and measurement

Under the previous GAAP, property, plant and equipment ('PPE') were carried in the balance sheet at their cost of purchase less accumulated depreciation and impairment losses (if any). Using the deemed cost exemption available as per Ind AS 101, the Company has elected to carry forward these net block of PPE under previous GAAP as on 31 March 2015 as book value of such assets under Ind AS at the transition date i.e. 1 April 2015.

Items of property, plant and equipment are measured at cost, which includes capitalised borrowing costs, less accumulated

depreciation and accumulated impairment losses, if any. Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use. The Company identifies and determines separate useful lives for each major component of the property, plant and equipment, if they have a useful life that is materially different from that of the asset as a whole.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the Statement of Profit and Loss when the asset is derecognised.

Property, plant and equipment under construction and cost of assets not ready for use at the year-end are disclosed as capital work-in-progress.

Foreign currency exchange differences are capitalised as per the policy stated in note 1(iii)(i) below.

Subsequent expenditure

Subsequent expenditure related to an item of property, plant and equipment is added to its book value only if it increases the future benefits from the existing asset beyond its previously assessed standard or period of performance. All other expenses on existing property, plant and equipment, including day-to-day repairs, maintenance expenditure and cost of replacing parts, are charged to the Statement of Profit and Loss for the year during which such expenses are incurred.

Depreciation

Depreciation on property, plant and equipment is provided on the straight-line method over their estimated useful lives, as determined by the management. Depreciation is charged on a pro-rata basis for assets purchased/sold during the year.

Based on technical assessment made by technical expert and management estimate, the Company have assessed the estimated useful lives of certain property, plant and equipment that are different from the useful life prescribed in Schedule II to the Companies Act, 2013. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

Notes

to the Standalone financial statements

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2021

The estimated useful lives of items of property, plant and equipment are as follows:

Particulars	Management estimate of useful life	Useful life as per Schedule II
Building (factory buildings/ non factory buildings) other than RCC frame structure	28 years	30 years
Building (factory buildings/ non factory buildings) RCC frame structure	58 years	60 years
Plant and equipment (continuous process plant)	45/20/18 years	25/3 years
Furniture and fixtures	15 years	10 years
Vehicles	10 years	8 years
Office equipment	20 years/6 years	5 years

Leasehold land is depreciated over the period of lease.

Leasehold improvements are amortised over the period of lease or their useful lives, whichever is shorter.

Assets costing less than ₹ 5,000 are fully depreciated over the period of one year from the date of purchase/ acquisition and such treatment did not have any material impact on standalone financial statements of the Company for the current year.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year-end and adjusted prospectively, (refer note 47).

e. Intangible assets

Recognition and measurement

Intangible assets include software, that are acquired by the Company, that are measured initially at cost. After initial recognition, an intangible asset is carried at its cost less any accumulated amortisation and any accumulated impairment loss, if any.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the Statement of Profit and Loss when the asset is derecognised.

Subsequent expenditure

Subsequent expenditure related to an item of intangible asset is added to its book value only if it increases the future benefits from the existing asset beyond its previously assessed standard or period of performance. All other expenses are charged to the Statement of Profit and Loss for the year during which such expenses are incurred.

Amortisation

Intangible assets include software that are amortised over the useful economic life of 3 years. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period.

f. Impairment

(i) Impairment of financial assets

The Company recognises loss allowance for expected credit losses on financial assets measured at amortised cost. At each reporting date, the Company assesses whether financial assets carried at amortised cost are credit impaired. A financial asset is 'credit impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit impaired includes the following observable data:

- significant financial difficulty of the issuer or the borrower;
- a breach of contract such as a default in payment within the due date;
- the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider;
- it is probable that the debtor will enter bankruptcy or other financial reorganisation;
- the disappearance of an active market for a security because of financial difficulties;
- the purchase or origination of a financial asset at a deep discount that reflects the incurred credit losses.

The Company measures loss allowances at an amount equal to lifetime expected credit losses. Loss allowances for trade receivables are always measured at an amount equal to lifetime expected credit losses. Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument.

In all cases, the maximum period considered when estimating expected credit losses is the maximum contractual period over which the Company is exposed to credit risk.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when

Notes to the Standalone financial statements

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2021

estimating expected credit losses, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward looking information. The Company considers a financial asset to be in default when the debtor is unlikely to pay its credit obligations to the Company in full, without recourse by the Company to actions such as realising security (if any) is held.

Measurement of expected credit losses

Expected credit losses are a probability weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the Company in accordance with the contract and the cash flows that the Company expects to receive).

Presentation of allowance for expected credit losses in the balance sheet

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

Write-off

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

(ii) Impairment of non-financial assets

The Company's non-financial assets, other than inventories and deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. For impairment testing, assets that do not generate independent cash inflows are grouped together into cash-generating units (CGUs). Each CGU represents the smallest group of assets that generates cash inflows that are largely independent of the cash inflows of other assets or CGUs.

The recoverable amount of a CGU (or an individual asset) is the higher of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the CGU (or the asset).

An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its estimated recoverable amount. Impairment losses are recognised in the Statement of Profit and Loss. Impairment loss recognised in respect of a CGU is allocated to reduce the carrying amounts of the assets of the CGU (or group of CGUs) on a pro rata basis.

In respect of assets for which impairment loss has been recognised in prior periods, the Company reviews at each reporting date whether there is any indication that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. Such a reversal is made only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

g. Right-of-use assets and lease liabilities

For all existing and new contract on or after 01 April 2019, the Company considers whether a contract is, or contains a lease. A lease is defined as 'a contract, or part of a contract, that conveys the right to use an asset (the underlying asset) for a period of time in exchange for consideration'.

Classification of leases

The Company enters into leasing arrangements for various assets. The assessment of the lease is based on several factors, including, but not limited to, transfer of ownership of leased asset at end of lease term, lessee's option to extend/purchase etc.

Transition

Effective 1 April 2019, the Company adopted Ind AS 116 "Leases", applied to all lease contracts existing on 1 April 2019 using the modified retrospective method along with the transition option to recognise Right-of-Use asset (ROU) at an amount equal to the Lease Liability.

Recognition and initial measurement

At lease commencement date, the Company recognises a right-of-use asset and a lease liability on the balance sheet. The right-of-use asset is measured at cost, which is made up of the initial measurement of the lease liability, any initial direct costs incurred by the Company, an estimate of any costs to dismantle and remove the asset at the end of the lease (if any), and any lease payments made in advance of the lease commencement date (net of any incentives received).

Subsequent measurement

The Company depreciates the right-of-use assets on a straight-line basis from the lease commencement date to the earlier of

Notes

to the Standalone financial statements

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2021

the end of the useful life of the right-of-use asset or the end of the lease term. The Company also assesses the right-of-use asset for impairment when such indicators exist.

At lease commencement date, the Company measures the lease liability at the present value of the lease payments unpaid at that date, discounted using the interest rate implicit in the lease if that rate is readily available or the Company's incremental borrowing rate. Lease payments included in the measurement of the lease liability are made up of fixed payments (including in substance fixed payments) and variable payments based on an index or rate. Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. It is re-measured to reflect any reassessment or modification, or if there are changes in in-substance fixed payments. When the lease liability is re-measured, the corresponding adjustment is reflected in the right-of-use asset.

The Company has elected to account for short-term leases and leases of low-value assets using the practical expedients. Instead of recognising a right-of-use asset and lease liability, the payments in relation to these are recognised as an expense in Statement of Profit and Loss on a straight-line basis over the lease term.

h. Inventories

Inventories are measured at the lower of cost and net realisable value.

Raw materials, traded finished goods, packing material and stores and spares: The cost of inventories is calculated on weighted average basis, and includes expenditure incurred in acquiring the inventories, production or conversion costs and other costs incurred in bringing them to their present location and condition. Raw materials, components and other supplies held for use in the production of finished products are not written down below cost except in cases where material prices have declined and it is estimated that the cost of the finished products will exceed their net realisable value.

Work-in-progress and manufactured finished goods: Cost includes raw material costs and an appropriate share of fixed production overheads based on normal operating capacity. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses. The net realisable value of work-in-progress is determined with reference to the selling prices of related finished products.

Waste: The valuation is done at net realisable value.

The comparison of cost and net realisable value is made on an item-by-item basis.

i. Foreign exchange transactions

Transactions in foreign currencies are initially recorded by the Company at its functional currency spot rates at the date the transaction first qualifies for recognition.

All monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary assets and liabilities if any that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction.

All exchange differences, except those relating to long-term monetary foreign currency items, are dealt with in the Statement of Profit and Loss. Exchange differences in respect of long-term monetary foreign currency items prior to 1 April 2016, are added to or deducted from the cost of asset and are depreciated over the balance life of the asset.

j. Employee benefits

i. Short-term employee benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid e.g., under short-term cash bonus, if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the amount of obligation can be estimated reliably.

ii. Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. The Company makes specified monthly contributions towards Government administered provident fund scheme. Obligations for contributions to defined contribution plans are recognised as an employee benefit expense in Statement of Profit and Loss in the periods during which the related services are rendered by employees.

Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in future payments is available.

Notes to the Standalone financial statements

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2021

iii. Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets. The calculation of defined benefit obligation is performed annually by a qualified actuary using the projected unit credit method.

The Company operates a defined benefit gratuity plan in India.

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses, are recognised in OCI. The Company determines the net interest expense (income) on the net defined benefit liability or the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then net defined benefit liability, taking into account any changes in the net defined benefit liability during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognised in Statement of Profit and Loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service ('past service cost' or 'past service gain') or the gain or loss on curtailment is recognised immediately in Statement of Profit and Loss. The Company recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs.

iv. Other long-term employee benefits

Entitlements to annual leave are recognised when they accrue to employees. Leave entitlements may be availed while in service or encashed at the time of retirement/termination of employment, subject to a restriction on the maximum number of accumulation. The Company determines the liability for such accumulated leave entitlements on the basis of actuarial valuation carried out by an independent actuary at the year end.

k. Revenue

i. Sale of goods

Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, service level credits, performance bonuses, price concessions and incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers.

Revenue is recognised upon transfer of control of promised products to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those products or services, the associated costs and possible return of goods can be estimated reliably, there is no continuing effective control over or managerial involvement with, the goods, and the amount of revenue can be measured reliably. Where the payment extends beyond normal credit period, interest is recovered separately.

ii. Interest income

Interest income is recognised on a time proportion basis taking into account the amount outstanding and the interest rate applicable.

l. Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in Statement of Profit and Loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down.

Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in Statement of Profit and Loss as other gains/(losses).

Borrowings are classified as current financial liabilities unless the Company has an unconditional right to defer settlement of the liability for at least twelve months after the reporting period. Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements, not to demand payment as a consequence of the breach.

m. Government grants

Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. Revenue grants are recognised over periods to which they relate.

Notes

to the Standalone financial statements

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2021

n. Financial instruments

i. Recognition and initial measurement

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability of another entity. Trade receivables are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument. A financial instrument is measured initially at fair value adjusted for transaction costs, except for those carried at fair value through profit or loss (FVTPL) which are measured initially at fair value.

ii. Classification and subsequent measurement

Financial assets

On initial recognition, a financial asset is classified as measured at amortised cost or at FVTPL. Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All financial assets not classified as measured at amortised cost as described above are measured at FVTPL.

For all other equity instruments, the Company decides to classify the same either as at fair value through other comprehensive income (FVOCI) or fair value through profit and loss (FVTPL). On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets: Business model assessment

The Company makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. These include

whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;

- how the performance of the portfolio is evaluated and reported to the Company's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how managers of the business are compensated – e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Company's continuing recognition of the assets.

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

Financial assets: Assessment whether contractual cash flows are solely payments of principal and interest

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:

- contingent events that would change the amount or timing of cash flows;

Notes to the Standalone financial statements

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2021

- terms that may adjust the contractual coupon rate, including variable interest rate features;
- prepayment and extension features; and
- terms that limit the Company's claim to cash flows from specified assets (e.g. non-recourse features).

A prepayment feature is consistent with the solely payments of principal and interest criterion if the prepayment amount substantially represents unpaid amounts of principal and interest on the principal amount outstanding. Additionally, for a financial asset acquired at a significant discount or premium to its contractual par amount, a feature that permits or requires prepayment at an amount that substantially represents the contractual par amount plus accrued (but unpaid) contractual interest is treated as consistent with this criterion if the fair value of the prepayment feature is insignificant at initial recognition. Financial assets at amortised cost are measured at amortised cost using the effective interest method. Interest income recognised in Statement of Profit and Loss.

Subsequent measurement and gains and losses

Financial assets at FVTPL	These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in Statement of Profit and Loss
Financial assets at amortised cost	These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in Statement of Profit and Loss. Any gain or loss on derecognition is recognised in Statement of Profit and Loss.

Financial liabilities

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held for trading. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in Statement of Profit and Loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest

expense and foreign exchange gains and losses are recognised in Statement of Profit and Loss. Any gain or loss on derecognition is also recognised in Statement of Profit and Loss.

iii. Derecognition

Financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset. If the Company enters into transactions whereby it transfers assets recognised on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

Financial liabilities

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled or expire. The Company also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in Statement of Profit and Loss.

iv. Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis to realise the assets and settle the liabilities simultaneously.

o. Measurement of fair values

In determining the fair value of its financial instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. All methods of assessing fair value result in general approximation of value, and such value may never actually be realised.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Notes

to the Standalone financial statements

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2021

- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable -inputs)

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

p. Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks, cheques on hand and cash on hand, which are not subject to risk of changes in value. Also, for the purpose of the statement of cash flows, cash and cash equivalents consist of cash at banks, cheques on hand and cash on hand.

q. Earnings per share

Basic earning per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

Potential ordinary shares shall be treated as dilutive when, and only when, their conversion to ordinary shares would decrease earnings per share or increase loss per share from continuing operations.

r. Provisions, contingent liabilities and contingent assets

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future obligation at pre-tax rate that reflects current market

assessments of the time value of money risks specific to liability. They are not discounted where they are assessed as current in nature. Provisions are not made for future operating losses.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or reliable estimate of the amount cannot be made. Therefore, in order to determine the amount to be recognised as a liability or to be disclosed as a contingent liability, in each case, is inherently subjective, and needs careful evaluation and judgement to be applied by the management. In case of provision for litigations, the judgements involved are with respect to the potential exposure of each litigation and the likelihood and/or timing of cash outflows from the Company, and requires interpretation of laws and past legal rulings.

s. Taxation

Income tax comprises current and deferred tax. It is recognised in Statement of Profit and Loss except to the extent that it relates to a business combination or to an item recognised directly in equity or in other comprehensive income.

i. Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

ii. Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits.

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against

Notes

to the Standalone financial statements

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2021

which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in case of a history of recent losses, the Company recognises a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realised.

The Company's ability to recover the deferred tax assets is assessed by the management at the close of each financial year which depends upon the forecasts of the future results and taxable profits that Company expects to earn within the period by which such brought forward losses may be adjusted against the taxable profits as governed by the Income-tax Act, 1961. Deferred tax assets – unrecognised or recognised, are reviewed at each reporting date and are recognised/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realised.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date. The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset deferred tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle deferred tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

t. Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The Company's Chairman and Managing Director assesses the financial performance and position of the Company, and makes strategic decision and has been identified as the chief operating decision maker. The Company's business activity is organised and managed separately according to the nature of the products, with each segment representing a strategic business unit that offers different products and serves different market. The Company's primary business segment is reflected based on principal business activities carried on by the Company. As per Indian Accounting Standard 108, Operating Segments, as notified under the Companies (Indian Accounting Standards) Rules, 2015, the Company operates in one reportable business segment i.e., manufacturing and trading of Polyester goods. The geographical information analyses the Company's revenue and trade receivables from such revenue in India and other countries. In presenting the geographical information, segment revenue and receivables has been based on the geographic location of customers. Refer note 37 for segment information presented.

u. Recent accounting pronouncements

MCA issued notifications dated 24 March 2021 to amend schedule III to the Companies Act 2013 to enhance the disclosures required to be made by the Company in its financial statements. These amendments are applicable to the Company for the financial year starting 1 April 2021.

* Minimum alternate tax credit entitlement carried in Income-tax and not recognised in books.

** Deferred tax assets have not been recognised in respect of above items, because it is not probable that future taxable profits will be available against which the Company can use the benefits therefrom.

Pursuant to Sec 115BAA of the Income-tax Act, 1961 (inserted by Taxation Laws (Amendment) Act, 2019 w.e.f. 1 April 2019), domestic companies have the option to pay corporate income tax at a concessional tax rate of 22% with effective tax rate of 25.17%. The said concessional tax regime is accompanied with immediate expiry of carry forward balance of minimum alternative tax credit and certain other concessional tax rate benefits enjoyed by the Company presently. During the previous year ended 31 March 2020, Company continued under the old tax regime. Based on further internal analysis made by the management, Company has filed its income tax return for financial year 2019-20 (AY 2020-21) under the new tax regime by opting concessional tax regime as per Section 115BAA of the Income-tax Act, 1961. Consequently, the relevant adjustment to the deferred tax asset has been made during the current year."

* Matter under dispute with Maharashtra State Electricity Distribution Company Limited and is pending for hearing with Bombay High Court

It is not practicable for the Company to estimate the timing of cash outflows, if any, in respect of the above pending resolution of respective proceedings.

Notes to the Standalone financial statements

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2021

(All amounts in ₹ crores, unless stated otherwise)

Notes:

1. Out of the above litigations, the Company has provided ₹ 38.30 Crores (31 March 2020 : ₹ 54.02 Crores) against various litigations and remaining contingent liabilities is ₹ 41.65 Crores (31 March 2020 : ₹ 34.24 Crores).
2. Hon'ble Supreme Court of India has pronounced a ruling dated 28 February 2019 in which it is held that 'allowance' paid to employees, will be included in the scope of 'basic wages' and thus, will be subject to provident fund contributions. Petitions have been filed with Hon'ble Supreme Court of India seeking additional clarification with respect to the application of this ruling. As this ruling has not prescribed any clarification w.r.t. to its application, the Company is in the process of evaluating its impact. Management believes that this will not result in any material liability on the Company.
3. Customs duty claims (including penalties) against the Company aggregating to ₹ 220.26 Crores (31 March 2020 : ₹ 220.26 Crores) have not been considered contingent as favourable orders have been received, in some of the cases, by the Company from the Custom Excise and Service Tax Appellate Tribunal. The Company believes that its position is strong in this regard. The matter is pending with the Hon'ble Supreme Court.

Pending resolution of the respective proceedings, it is not practicable for the Company to estimate the timings of cash outflows, if any, in respect of the above as it is determinable only on receipt of judgements/decisions pending with various forums/authorities.

4. The Company has reviewed all its pending litigations and proceedings and has adequately provided for where provisions are required and disclosed as contingent liabilities where applicable, in its standalone financial statements. The Company also believes that the above issues, when finally settled, are not likely to have any significant impact on the financial position of the Company. The Company does not expect any reimbursements in respect of the above contingent liabilities.

33. Capital commitments and other commitments

35. Employee benefits

a) Defined contribution plan

An amount of ₹ 4.07 Crores [31 March 2020 : ₹ 4.48 Crores] for the year has been recognised as an expense in respect of the Company's contributions towards Provident Fund, an amount of ₹ 0.09 Crores [31 March 2020 : ₹ 0.65 Crore] for the year has been recognised as an expense in respect of Company's contributions towards Employee State Insurance and an amount of ₹ 0.14 Crores [31 March 2020 : ₹ 0.16 Crore] for the year has been recognised as an expense in respect of the Company's contributions towards National Pension Scheme, which are deposited with the government authorities and have been included under employee benefit expenses in the Statement of Profit and Loss.

b) Defined benefit plan

1) Gratuity

The Company provides for gratuity for employees in India as per the Payment of Gratuity Act, 1972. Employees who are in continuous service for a period of 5 years are eligible for gratuity. The amount of gratuity payable on retirement/termination is the employees last drawn basic salary per month computed proportionately for 15 days salary multiplied for the number of years of service. Reconciliation of opening and closing balances of the present value of the defined benefit obligation:

(All amounts in ₹ crores, unless stated otherwise)

These assumptions were developed by management with the assistance of independent actuarial appraisers. Discount factors are determined close to each year end by reference to government bonds of relevant economic markets and that have terms to maturity approximating to the terms of the related obligation. Other assumptions are based on management's historical experience.

The above defined benefit plan exposes the Company to following risks:

Interest rate risk:

The defined benefit obligation calculated uses a discount rate based on government bonds. If bond yields fall, the defined benefit obligation will tend to increase.

Salary inflation risk:

Expected increases in salary will increase the defined benefit obligation.

Demographic risk:

This is the risk of variability of results due to unsystematic nature of decrements that include mortality, withdrawal, disability and retirement. The effect of these decrements on the defined benefit obligation is not straight forward and depends upon the combination of salary increase, discount rate and vesting criteria. It is important not to overstate withdrawals because in the financial analysis the retirement benefit of a short career employee typically costs less per year as compared to a long service employee

Funding

This is an unfunded benefit plan for qualifying employees.

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same methods (present value of defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the balance sheet. The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior period.

	As at 31 March 2021	As at 31 March 2020
(vi) Sensitivity analysis for gratuity liability		
The sensitivity of the overall plan obligations to changes in the weighted key assumptions are:

37. Segment information

Basis of segmentation:

The Company's primary business segment is reflected based on principal business activities carried on by the Company. Chairman and Managing Director has been identified as being the Chief Operating Decision Maker ('CODM') and evaluates the Company's performance and allocates resources based on analysis of the various performance indicators of the Company as a single unit. As per Indian Accounting Standard 108, Operating Segments, as notified under the Companies (Indian Accounting Standards) Rules 2015, the Company operates in one reportable business segment i.e., manufacturing and trading of polyester goods.

Geographical information:

The geographical information analyses the Company's revenue and trade receivables from such revenue in India and other countries. In presenting the geographical information, segment revenue and receivables has been based on the geographic location of customers.

38. Financial instruments - accounting classifications and fair value measurements

The fair values of the financial assets and financial liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sales.

The following methods and assumptions were used to estimate the fair values:

1. Fair value of cash and cash equivalents, bank balances other than cash and cash equivalents, trade and other short-term receivables, investments, loans and advances and other current liabilities approximated their carrying amounts largely due to the short-term maturities of these instruments.
2. The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique.

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments. The fair value of all equity instruments which are traded in the stock exchanges is valued using the closing price as at the reporting period.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in Level 2.

(All amounts in ₹ crores, unless stated otherwise)

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities, contingent consideration and indemnification asset included in level 3.

B. Measurement of fair values

Assets and liabilities are to be measured based on the following valuation techniques:

Market approach – Prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities.

Income approach – Converting the future amounts based on market expectations to its present value using the discounting methodology.

Cost approach – Replacement cost method.

Quoted market prices in active markets are available for investments in securities and, as such, these investments are classified within Level 1.

Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments which are traded in stock exchanges and valued using closing price at the reporting date.

The fair value of financial instruments that are not traded in an active market is determined using valuation techniques. The Company uses its judgement to select a variety of methods and make assumptions that are mainly based on the conditions existing at the end of each reporting period.

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

1. The management assessed that the fair values of cash and cash equivalents, bank balances other than cash and cash equivalents, non-current bank balances, trade receivables, other current financial assets, trade payables and other current financial liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.
2. The fair value of Company's fixed interest-bearing loans that approximate to their carrying amounts as it is based on discounting future cash flows using rates currently available for debts on similar terms, credit risk and remaining maturities.
3. All the other long-term borrowing facilities availed by the Company are variable rate facilities which are subject to changes in underlying interest rate indices. Further, the credit spread on these facilities are subject to change with changes in Company's creditworthiness. The management believes that the current rate of interest on these loans are in close approximation from market rates applicable to the Company. Therefore, the management estimates that the fair value of these borrowings are approximate to their respective carrying values.

The following table shows a reconciliation from the opening balances to the closing balances for level 3 fair values:

	As at 31 March 2021	As at 31 March 2020
Balance at the beginning of the year	1.00	-
Additions during the year	2.00	1.00
Balance at the end of the year	3.00	1.00

C. Financial risk management

The Company has exposure to the following risks arising from financial instruments:

- credit risk
- liquidity risk
- market risk

Notes

to the Standalone financial statements

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2021

(All amounts in ₹ crores, unless stated otherwise)

(i) Risk management framework

The Company's board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The board of directors has established the risk management committee, which is responsible for developing and monitoring the Company's risk management policies. The committee reports regularly to the board of directors on its activities.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities

The Company's risk committee oversees how management monitors compliance with the Company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The audit committee is assisted in its oversight role by internal audit. Internal audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the audit committee.

(ii) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the Company's receivables from customers.

The carrying amounts of financial assets represent the maximum credit risk exposure

Trade receivables

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk associated with the industry and country in which customers operate.

The risk management committee has established a credit policy under which each new customer is analysed individually for creditworthiness before the Company's standard payment and delivery terms and conditions are offered. The Company review includes external information, if they are available, financial statements, credit agency information, industry information and in some cases bank references. Credit limits are established for each customer and reviewed periodically. Any sales exceeding those limits require approval from the risk management committee.

The Company limits its exposure to credit risk from trade receivables by establishing a credit period for all customer categories. In case of delay beyond credit period, the interest is generally recovered at the rate of 12% to 18%. Most of the Company's customers have been transacting with the Company from past few years, and most of these customers' balances are not credit-impaired at the reporting date except in few cases reported. Identifying concentrations of credit risk requires judgement in the light of specific circumstances. The Company monitors ageing of its trade receivables regularly and based on the same takes corrective action. Trade receivables having ageing more than 180 days is monitored individually and loss allowance is created based on such assessment.

A summary of the Company's exposure to credit risk for trade receivables based on the ageing is as follows:

Ageing of receivables

	As at 31 March 2021		As at 31 March 2020	
	Gross carrying amount	Expected credit loss	"Gross carrying amount"	Expected credit loss
Less than 180 days	100.43	-	86.69	-
More than 180 days	62.58	57.80	60.13	55.36
	163.01	57.80	146.82	55.36

The movement in the allowance for impairment in respect of trade receivables and loans is as follows:

	As at 31 March 2021	As at 31 March 2020
Balance at the beginning of the year	55.36	55.54
Expected credit loss during the year [net of reversal]	2.44	(0.18)
Balance at the end of the year	57.80	55.36

(iii) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. The Company uses activity-based costing to cost its products, which assists it in monitoring cash flow requirements and optimising its cash return on investments.

The following are the remaining contractual maturities of financial liabilities at the reporting date. The amounts are gross and undiscounted:

	Not more than 1 year	Later than 1 year	Total
As at 31 March 2021			
Long-term borrowings*	73.65	232.85	306.50
Trade payables	854.00	-	854.00
Short-term borrowings*	71.18	-	71.18
Other financial liabilities	20.10	12.46	32.56
Total	1,018.93	245.31	1,264.24
	Not more than 1 year	Later than 1 year	Total
As at 31 March 2020			
Long-term borrowings*	72.00	306.50	378.50
Trade payables	551.67	-	551.67
Short-term borrowings*	92.87	-	92.87
Other financial liabilities	27.24	16.99	44.23
Total	743.78	323.49	1,067.27

* excluding contractual interest payable at prevalent/agreed rate of interest.

"The Company has secured bank loans that contains certain loan covenants. A future breach of covenant may require the Company to repay the loan earlier than indicated in the above table. Covenants are monitored on regular basis by the treasury department and regularly reported to management to ensure compliance with the agreement. As at 31 March 2021, the Company has not complied with certain financial covenants mentioned under the terms of borrowings for which waiver has already been requested from the lenders. However, based on the past experience and/or on the discussions with the banks and considering the facts of the case, the management believes that the default is minor and waiver will be granted in due course in respect of these financial covenants and no material financial obligation on part of the Company, is likely to arise in respect of the above matter and thus, no adjustments are required in these financial statements in this regard.

The interest payments on variable interest rate loans in the table above reflect spot interest rates at the reporting date and these amounts may change as market interest rates change. However, the Company doesn't expect significant different amount on account of change in market interest rate changes.

(iv) Market risk

Market risk is the risk that changes in market prices – such as foreign exchange rates, interest rates and commodity prices – will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return

Commodity price risk

Commodity price risk arises due to fluctuation in prices of crude oil. The Company has a risk management framework aimed at prudently managing the risk arising from the volatility in commodity prices and freight costs. The Company's commodity risk is managed centrally through well-established control processes. In accordance with the risk management policy, the Company enters into various transactions using derivatives to hedge its exposure, as and when required.

Currency risk

The Company is exposed to currency risk to the extent that there is a mismatch between the currencies in which sales, purchases and borrowings are denominated. The currencies in which these transactions are primarily denominated are US dollars, Japanese Yen and Euro. The Company uses forward exchange contracts to hedge its currency risk, most with a maturity of less than one year from the reporting date, as and when required.

Exposure to currency risk

The summary quantitative data about the Company's exposure to currency risk (based on notional amounts) as reported to the management is as follows

(i) Unhedged foreign currency risk exposure:

As at 31 March 2021

Sensitivity analysis

A reasonably possible strengthening (weakening) of the INR, USD, JPY and Euro against all other currencies at year end would have affected the measurement of financial instruments denominated in a foreign currency and affected equity and profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant and ignores any impact of forecast sales and purchases.

		As at 31 March 2021		As at 31 March 2020	
		Increase in profit	Decrease in profit	Increase in profit	Decrease in profit
Currency (changes in currency value by 5%)					
USD	5% movement	14.22	(14.22)	4.50	(4.50)
Euro	5% movement	0.01	(0.01)	2.12	(2.12)
JPY	5% movement	0.23	(0.23)	0.21	(0.21)

Exposure to interest rate risk

The following table demonstrates the sensitivity on the Company's profit before tax, to a reasonably possible change in interest rates on that portion of loans and borrowings affected, with all other variables held constant:

		As at 31 March 2021		As at 31 March 2020	
		Increase	Decrease	Increase	Decrease
Changes in interest cost by 5%					
On term loans		1.63	(1.63)	1.66	(1.66)
On short-term loans		0.53	(0.53)	0.17	(0.17)

D. Capital management

The Company's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. The primary objective of the Company's Capital Management is to maximise the shareholder's value. Management also monitors the return on capital. The board of directors seeks to maintain a balance between the higher returns that might be possible with higher levels of borrowing and the advantages and security afforded by a sound capital position.

39. Leases

Lease liabilities are presented in the statement of financial position as follows:

	As at 31 March 2021	As at 31 March 2020
Current	5.03	4.57
Non-current	12.46	16.99
	17.49	21.56

Adoption of Ind AS 116 'Leases'

Ind AS 116 'Leases' replaced Ind AS 17 'Leases' along with three interpretations (Appendix A 'operating leases-incentives', Appendix B 'evaluating the substance of transactions involving the legal form of a lease' and Appendix C 'determining whether an arrangement contains a lease')

The adoption of this new Standard had resulted in the Company recognising a right-of-use assets and related lease liability in connection with all former operating leases except for those identified as low-value or having a remaining lease term of less than 12 months from the date of initial application.

The new Standard had been applied using the modified retrospective method along with the transition option to recognise right-of-use assets at an amount equal to the Lease Liability.

The Company had elected not to include initial direct costs in the measurement of the right-of-use asset for operating leases in existence at the date of initial application of Ind AS 116, being 01 April 2019. At this date, the Company had also elected to measure the right-of-use assets at an amount equal to the lease liability adjusted for any prepaid or accrued lease payments that existed at the date of transition.

Instead of performing an impairment review on the right-of-use assets at the date of initial application, the Company had relied on its historic assessment as to whether leases were onerous immediately before the date of initial application of Ind AS 116.

On transition, for leases previously accounted for as operating leases with a remaining lease term of less than 12 months the Company had applied the optional exemptions to not recognise right-of-use assets but to account for the lease expense on a straightline basis over the remaining lease term.

On transition to Ind AS 116, the weighted average incremental borrowing rate applied to lease liabilities recognised under Ind AS 116 was 9.50%.

A. Reconciliation of total operating lease commitments at 31 March 2019 to the lease liabilities recognised at 01 April 2019 :

Particulars	Amount

B. The following are amounts recognised in profit or loss :

	31 March 2021	31 March 2020
Depreciation expense of right-of-use assets	5.34	5.30
Interest expense on lease liabilities	1.85	2.42
Rent expense*	7.01	4.06
Total	14.20	11.78

*Rent expense in term of short-term leases and low value leases

The Company has leases for office premises, residential properties and storage facilities. With the exception of short-term leases and low value leases, each lease is reflected on the balance sheet as a right-of-use asset and a lease liability. The Company classifies its right-of-use assets to its property, plant and equipment.

Each lease generally imposes a restriction that, unless there is a contractual right for the Company to sublet the asset to another party, the right-of-use asset can only be used by the Company. The Company is prohibited from selling or pledging the underlying leased assets as security.

The table below describes the nature of the Company's leasing activities by type of right-of-use asset recognised on balance sheet:

Right-of-use asset	No of right-of-use assets leased	Range of remaining term (in years)	Average remaining lease term	No of leases with extension options	No of leases with termination options
Buildings					
- 31 March 2021	3	3-7 years	3.20	2	-
- 31 March 2020	3	3-7 years	4.20	2	-

The maturity analysis of lease liabilities are disclosed in note 39.

Lease payments not recognised as a liability

The Company has elected not to recognise a lease liability for short-term leases (leases with an expected term of 12 months or less) or for leases of low value assets. Payments made under such leases are expensed on a straight-line basis. The Company does not have any liability to make variable lease payments for the right-to-use the underlying asset recognised in the financials.

The expense relating to payments not included in the measurement of the lease liability for short-term leases and leases of low value is ₹ 7.01 Crores (31 March 2020 : ₹ 4.06 Crores)

At 31 March 2021, the Company was committed to short term-leases and leases of low value, and the total commitment as at that date was ₹ 5.24 Crores (31 March 2020 : ₹ 0.70 Crore)

Total cash outflow for short term-leases and leases of low value for the year ended 31 March 2021 was ₹ 7.23 Crores (31 March 2020 : ₹ 3.84 Crores).

40. Particulars of investments made as required by clause (4) of Section 186 of the Companies Act, 2013 and as required by Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 has been given under the investment schedule. Refer note 5(a).

management will continue to monitor any material change arising due to the impact of this pandemic on financial and operational performance of the Company and take necessary measures to address the situation.

42. Exceptional item

The exceptional item for the year ended 31 March 2021 is towards significant write down in valuation of inventories below cost amounting to ₹ 11.63 Crores [31 March 2020 : Nil] which was on account of unprecedented decline in global crude oil prices as an outcome of COVID-19 Pandemic.

43. Corporate social responsibility

In accordance with the provisions of section 135 of the Companies Act 2013, the Board of Directors of the Company had constituted a Corporate Social Responsibility (CSR) committee. In terms with the provisions of the said Act, the Company is not required to spend any amount towards CSR activities during the current and previous year.

44. In March 2020, World Health Organisation (WHO) had declared the outbreak of Novel Corona virus "Covid-19" as a pandemic. Complying with the directives of Government, the plant and offices of the Company had been under lock-down impacting the operations for the year.

However, the recent second wave of COVID-19 has resulted in re-imposition of partial lockdowns/ restrictions in various states, which might continue to impact the Company's performance.

Given the uncertainty of quick turnaround to normalcy, post lifting of the lock down, the Company has carried out a comprehensive assessment of possible impact on its business operations, financial assets, contractual obligations and its overall liquidity position, based on the internal and external sources of information and application of reasonable estimates. The Company does not foresee any significant incremental risk to the recoverability of its assets or in its ability to meet its financial obligations over the foreseeable future, given early and required steps taken to contain, protect and mitigate the exposure. The

45. The Company has availability of additional credit lines with the support of the promoter Group Company to the tune of USD 35 million [31 March 2020 : USD 50 million] by way of the Stand By Letter of Credit (SBLC) to meet any unforeseen exigencies. Further, Company has utilised credit lines towards fund based and non fund based facilities with the support of the promoter Group Company amounting to ₹ 290.33 Crores [31 March 2020 : nil].

46. The Company's business comprises of manufacture and sale of polyester products. The management has reassessed the carrying value of deferred tax assets amounting to ₹ 110.01 Crores and additionally recognised ₹ 98.52 Crores on the basis of improved operational and market performance achieved during the year ended 31 March 2021. Management is confident about the achievement of its long-term business plans and availability of sufficient future taxable profits against which deferred tax amounting to ₹ 208.53 Crores is fully recoverable.

47. The management reassessed remaining useful life of certain assets in the block of plant and equipment with effect from 1 April 2020 on the basis of assessment made by external technical experts. Depending upon the operating conditions and usability of assets, the useful life of the said assets which was hitherto 18 years have been revised to 20 years in case of utilities and to 45 years for the processing plants. Due to this reassessment of remaining useful life, the depreciation for the year ended 31 March 2021 is lower by ₹ 51.53 Crores, whereas the profit for the corresponding period is higher by ₹ 47.48 Crores respectively.

48. Per transfer pricing legislation under section 92-92F of the Income-tax Act 1961, the Company is required to use certain specific methods in computing arm's length price of international transactions with associated enterprises and maintains adequate documentation in this respect. The legislations require that such information and documentation to be contemporaneous in nature. The

Company has appointed independent consultants for conducting the Transfer Pricing Study to determine whether the transactions with associated enterprises undertake during the financial year are on an "arm's length basis". The Company is in the process of conducting a transfer pricing study for the current financial year and expects such records to be in existence latest by the due date as required by law. However, in the opinion of the management the update would not have a material impact on these financial statements. Accordingly, these financial statements do not include any adjustments for the transfer pricing implications, if any.

Independent Auditor's Report

To the Members of Indo Rama Synthetics (India) Limited

Report on the Audit of the Consolidated Financial Statements

Opinion

1. We have audited the accompanying consolidated financial statements of Indo Rama Synthetics (India) Limited ('the Holding Company') and its subsidiary, Indorama Yarns Private Limited, (the Holding Company and its subsidiary together referred to as 'the Group'), which comprise the Consolidated Balance Sheet as at 31 March 2021, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Cash Flow Statement and the Consolidated Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information.
2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ('Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including Indian Accounting Standards ('Ind AS') specified under section 133 of the Act, of the consolidated state of affairs of the Group as at 31 March 2021, and their consolidated profit (including other comprehensive income), consolidated cash flows and the consolidated changes in equity for the year ended on that date.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical

responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

4. Emphasis of Matter

(a) Impact of COVID-19

We draw attention to note 45 to the accompanying consolidated financial statements, which describes management's assessment of uncertainties relating to the effects of the COVID-19 pandemic on the Group's operations. Our opinion is not modified in respect of this matter.

(b) Change in useful lives of certain assets

We draw attention to note 48 to the accompanying consolidated financial statements which indicates that the management has re-assessed and revised the remaining useful lives of certain assets in the block of plant and equipment with effect from 1 April 2020 based on technical assessment performed by an independent expert. The effect of change in such accounting estimate has been recognised prospectively in the accompanying consolidated financial statements in accordance with requirements of Ind AS 8, 'Accounting Policies, Changes in Accounting Estimates and Errors'. As a consequence, there is a reduction in depreciation expense recognised and for the year ended 31 March 2021 by ₹ 51.53 Crores as described in the aforesaid note. Our opinion is not modified in respect of this matter.

Key Audit Matters

5. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.
6. We have determined the matters described below to be the key audit matters to be communicated in our report.

Key audit matter	How the matter was addressed in the audit
Recognition of deferred tax assets (Refer note 8(b) and note 47 to the accompanying consolidated financial statements) As detailed in note 8(b) and note 47 to the accompanying consolidated financial statements, the holding Company has deferred tax assets (net) aggregating to ₹ 208.53 Crores as at 31 March 2021. During the current year, the holding Company has recognised deferred tax assets amounting to ₹ 98.52 Crores on the basis of improved operational and market performance achieved during the year. The holding Company's ability to recover the deferred tax assets is assessed by the management at the close of each financial year which depends on the forecasts of the future results and taxable profits that holding Company expects to earn within the period by which such brought forward losses can be adjusted against the taxable profits as governed by the Income-tax Act, 1961. The projected cash flows involve key assumptions such as future growth rate and market conditions including considering impact of COVID-19 pandemic. Any change in these assumptions could have a material impact on the carrying value of deferred tax assets. These assumptions and estimates are judgmental, subjective and depend on the future market and economic conditions, including industry focused trade policies, materialization of the holding Company's expansion plans. We have identified the recoverability of deferred tax assets recognised on carried forward tax losses and unabsorbed depreciation as a key audit matter for the current year audit considering the materiality of the amounts, complexities and significant judgments involved, as described above.	Our audit procedures in relation to the recognition of deferred tax assets included, but were not limited to, the following: • Evaluated the design and tested the operating effectiveness of key controls implemented by the holding Company over recognition of deferred tax assets based on the assessment of holding Company's ability to generate sufficient taxable profits in foreseeable future allowing the use of deferred tax assets within the time prescribed by income tax laws. • Reconciled the future taxable profit projections to future business plans of the holding Company as approved by the Board of Directors. • Tested the assumptions used in the aforesaid future projections such as growth rates, expected saving, increased utilization of plants, etc. considering our understanding of the business, actual historical results, other relevant existing conditions, external data and market conditions, including the impact of COVID-19 pandemic on such assumptions. • Tested the arithmetical accuracy of the calculations including those related to sensitivity analysis performed by the management. • Performed independent sensitivity analysis to test the impact of possible variations in key assumptions. • Reviewed the historical accuracy of the cash flow projections prepared by the management in prior periods. • Evaluated management's assessment of time period available for adjustment of such deferred tax assets as per provisions of the Income-tax Act, 1961 and appropriateness of the accounting treatment with respect to the recognition of deferred tax assets as per requirements of Ind AS 12, Income Taxes. • Evaluated the appropriateness for additional recognition of deferred tax asset during the year. Evaluated the appropriateness and adequacy of the disclosures made in the consolidated financial statements in respect of deferred tax assets in accordance with applicable accounting standards.
Going concern basis of accounting (Refer note 1(iv)(b) and note 46 to the accompanying consolidated financial statements) During the year ended 31 March 2021, the Group has earned profits before tax of ₹ 3.39 Crores and also as at 31 March 2021 the current liabilities exceed its current assets by ₹ 335.08 Crores. While the above indicates doubt about the Group's ability to continue as a going concern, however, as detailed in aforesaid note to the accompanying consolidated financial statements, the Group has taken into consideration the following mitigating factors in its assessment of appropriateness of using the going concern basis of accounting: • The holding Company has option to arrange additional credit lines with the support of the promoter group company to the tune of USD 35 million by way of the Stand By Letter of Credit (SBLC) to meet any unforeseen exigencies; • Increased capacity utilization of plants; • Expected additional benefit of GST refund on increased future sales within the state of Maharashtra; and • Improved margins due to reduction in raw material prices.	Our audit procedures included, but were not limited to, the following in relation to assessment of appropriateness of going concern basis of accounting: • Obtained an understanding of the management's process for identifying all events or conditions that could impact the Group's ability to continue as a going concern, and the process followed to assess the mitigating factors existing for such events or conditions. • Evaluated the design and tested the operating effectiveness of key controls around aforesaid identification of events or conditions and mitigating factors, and controls around cash flow projections prepared by the management. • Reconciled the cash flow projections to future business plans of the holding Company as approved by the Board of Directors. • In order to corroborate management's future business plans and to identify potential contradictory information we read the board minutes, supervisory board minutes and discussed the business plans with management and the Audit Committee. • Tested the appropriateness of the key assumptions, including the impact of COVID-19 pandemic on such assumptions that had the most material impact including the growth rates, increased utilization of plants and reduced raw material cost. In challenging these assumptions, we considered our understanding of the business, actual historical results, other relevant existing conditions, external data and market conditions.

Key audit matter	How the matter was addressed in the audit
Management has prepared future cash flow forecasts taking into cognizance the above developments and performed sensitivity analysis of the key assumptions such as future growth rate and market conditions including impact of COVID-19 pandemic, therein to assess whether the Group would be able to operate as a going concern for a period of at least 12 months from the date of financial statements, and concluded that the going concern basis of accounting used for preparation of the accompanying consolidated financial statements is appropriate with no material uncertainty over going concern. We have considered the assessment of management's evaluation of going concern basis of accounting as a key audit matter due to the pervasive impact thereof on the consolidated financial statements and the significant judgements and assumptions that are inherently subjective and dependent on future events, involved in preparation of cash flow projections and the overall conclusion.	- Tested the arithmetical accuracy of the calculations including those related to sensitivity analysis performed by the management. - Performed independent sensitivity analysis to test the impact of variation in the key assumptions. - Reviewed the historical accuracy of the cash flow projections prepared by the management in prior periods. - Inspected the approved unutilized loan sanction letter and evidence of support given by the promoter group company in favour of the holding Company. - Evaluated the appropriateness and adequacy of the disclosures made in the consolidated financial statements in respect of going concern.
Provisions and contingent liabilities relating to litigations (Refer note 18 and note 32 to the accompanying consolidated financial statements) As detailed in note 18 and note 32 to the consolidated financial statements, the holding Company is exposed to a large number of litigations including matters pertaining to income tax and prior years' matters pertaining to excise, customs, sales tax, value added tax, service tax, etc., which could have a significant impact on the financial position of the holding Company, if the potential exposures were to materialize. Provision for such litigations amounts to ₹ 38.30 Crores as at 31 March 2021 based on its estimate of the likelihood of such liability devolving upon the holding Company. The amounts involved are material and the application of accounting principles as given under Ind AS 37, 'Provisions, Contingent Liabilities and Contingent Assets', in order to determine the amount to be recognised as a liability or to be disclosed as a contingent liability, in each case, is inherently subjective, and needs careful evaluation and judgement to be applied by the management. The key judgements involved are with respect to the potential exposure of each litigation and the likelihood and/or timing of cash outflows from the holding Company, and requires interpretation of laws and past legal rulings. Considering the significant judgments, materiality of the amounts involved, inherent high estimation uncertainty and reliance on legal and tax experts, this matter has been identified as a key audit matter for the current year audit.	Our audit procedures in relation to the assessment of litigations and provisions included, but were not limited to, the following: - Obtained an understanding of the management process for: - identification of legal and tax matters initiated against the holding Company, - assessment of accounting treatment for each such litigation identified under Ind AS 37 accounting principles, and - measurement of amounts involved. - Evaluated the design and tested the operating effectiveness of key controls around above process including for completeness and accuracy of the list of litigations outstanding against the holding Company. - Obtained understanding of the developments during the year in each existing litigation, and understanding of the new litigations initiated against the holding Company during the year by inquiry with the management, inspection of case related documents such as notices, orders, etc. and correspondence of the holding Company with their external counsels handling such matters on behalf of the holding Company. - Conducted a critical review of the assessment done by the management with the help of its legal and tax experts for the likelihood and potential impact of each litigation, examining the available supporting documents. Tested the independence, objectivity and competence of such experts involved. - Exercised our professional judgment to assess the management's assessment of the potential likelihood of liability devolving upon the holding Company with respect to each legal case. - Involved auditor's experts to assess the holding Company's interpretation and application of relevant tax laws to evaluate the appropriateness of key assumptions used and the reasonableness of estimates made in relation to uncertain tax positions, taking into account past precedents. - Reviewed significant movements in provision with supporting documents. - Tested the underlying calculations of amount of liability recognized and contingent liability disclosed in the consolidated financial statements. - Evaluated the appropriateness and adequacy of disclosures made in the consolidated financial statements with respect to provisions and contingent liability in accordance with applicable accounting standards

Information other than the Consolidated Financial Statements and Auditor's Report thereon

7. The Holding Company's Board of Directors are responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the consolidated financial statements and our auditor's report thereon. The Annual Report is expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

8. The accompanying consolidated financial statements have been approved by the Holding Company's Board of Directors. The Holding Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated changes in equity and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Ind AS specified under section 133 of the Act. The respective Board of Directors/management of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation

of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

9. In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intend to liquidate the Group or to cease operations, or has no realistic alternative but to do so.
10. Those Board of Directors are also responsible for overseeing the financial reporting process of the companies included in the Group.

Auditor's Responsibilities for the Audit of the Financial Statements

11. Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.
12. As part of an audit in accordance with Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Holding Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls;

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern; and
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

13. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
14. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
15. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

16. As required by section 197(16) of the Act, we report that the holding Company has paid remuneration to its directors for the year ended 31 March 2021 in excess of the limits laid down under section 197 of the Act by ₹ 0.69

Crores. The remuneration paid to the whole-time director is within the limits prescribed in Schedule V to the Act whereas the remuneration paid to the managing director is in excess of such limits, as further explained in note 41(d) to the accompanying consolidated financial statements. Such remuneration has been paid subject to approvals of the shareholders by way of ordinary resolution/special resolution, as applicable, in the ensuing Annual General Meeting in accordance with the requirements of Section 197 and Schedule V to the Act. Further, we report that subsidiary Company covered under the Act have not paid or provided for any managerial remuneration during the year.

17. As required by Section 143 (3) of the Act, based on our audit on separate financial statements and other financial information of the subsidiary, we report, to the extent applicable, that:

- a) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the aforesaid consolidated financial statements;
- b) in our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books;
- c) the consolidated financial statements dealt with by this report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements;
- d) in our opinion, the aforesaid consolidated financial statements comply with Ind AS specified under section 133 of the Act;
- e) the matter described in paragraph 4 under the Emphasis of Matter, in our opinion, may have an adverse effect on the functioning of the Holding Company;
- f) on the basis of the written representations received from the directors of the Holding Company and subsidiary Company taken on record by the Board of Directors of the Holding Company and its subsidiary Company covered under this Act, none of the directors of the Group companies, are disqualified as on 31 March 2021 from being appointed as a director in terms of Section 164(2) of the Act.
- g) with respect to the adequacy of the internal financial controls with reference to financial statements of the Holding Company and its subsidiary Company covered under this Act, and the operating

effectiveness of such controls, refer to our separate report in 'Annexure I'; and

- h) with respect to the other matters to be included in the Auditor's Report in accordance with rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us and as also the other financial information of the subsidiary:
 - i. the consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group, as detailed in note 32 to the consolidated financial statements;
 - ii. the Holding Company and its subsidiary did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses as at 31 March 2021;
 - iii. there has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Holding Company and there were no amounts which were required to be transferred to the Investor

Education and Protection Fund by its subsidiary company covered under the Act, during the year ended 31 March 2021; and

- iv. the disclosure requirements relating to holdings as well as dealings in specified bank notes were applicable for the period from 8 November 2016 to 30 December 2016, which are not relevant to these consolidated financial statements. Hence, reporting under this clause is not applicable.

Annexure I

Independent Auditor's Report on the internal financial controls with reference to financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

1. In conjunction with our audit of the consolidated financial statements of Indo Rama Synthetics (India) Limited ('the Holding Company') and its subsidiary (the Holding Company and its subsidiary together referred to as 'the Group'), as at and for the year ended 31 March 2021, we have audited the internal financial controls with reference to financial statements of the Holding Company and its subsidiary company, which are companies covered under the Act, as at that date.

Responsibilities of Management and Those Charged with Governance for Internal Financial Controls

2. The respective Board of Directors of the Holding Company and its subsidiary company, which are companies covered under the Act, are responsible for establishing and maintaining internal financial controls based on the internal financial control with reference to the financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company's business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility for the Audit of the Internal Financial Controls with Reference to Financial Statements

3. Our responsibility is to express an opinion on the internal financial controls with reference to financial statements of the Holding Company and its subsidiary company, as aforesaid, based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India ('ICAI') prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements, and the Guidance

Note on Audit of Internal Financial Controls Over Financial Reporting ('the Guidance Note') issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements includes obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to financial statements of the Holding Company and its subsidiary company as aforesaid.

Meaning of Internal Financial Controls with Reference to Financial Statements

6. A Company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with

generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with Reference to Financial Statements

7. Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Holding Company and its subsidiary company, which are companies covered under the Act, have in all material respects, adequate internal financial controls with reference to financial statements and such controls were operating effectively as at 31 March 2021, based on the internal financial controls with reference to the financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

Notes

to the Consolidated financial statements

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2021

1.(i) Corporate information

Indo Rama Synthetics (India) Limited (hereinafter referred to as 'the Company' or 'the holding Company'), together with its subsidiary (collectively referred to as 'the Group') is a Public Company domiciled in India, with its registered office situated at A-31, MIDC Industrial Area, Butibori, Nagpur. The Company has been incorporated under the provisions of Companies Act, 1956 and its equity shares are listed on the National Stock Exchange of India Limited and BSE Limited. The Group is into the business of trading and manufacture of polyester filament yarn (PFY), polyester staple fibre (PSF), draw texturised yarn (DTY), specialty fiber and chips. The Group is also engaged in trading of spun yarn, and also engaged in power generation, which is used primarily for captive consumption.

Following are the details of the subsidiary consolidated in these financial statements:

Name of the entity	Country of incorporation	Principal activities	Interest (in %)	
			31 March 2020	31 March 2021
Indorama Yarns Private Limited	India	Trading of polyester	100%	100%

(ii) Basis of preparation and presentation

These consolidated financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 notified under Section 133 of Companies Act, 2013 (the 'Act') and other relevant provisions of the Act.

These consolidated financial statements are presented in Indian Rupees (INR), which is also the Group's functional currency. All amounts have been rounded-off to the nearest Crores and two decimals thereof, unless otherwise indicated.

Transactions and balances with values below the rounding off norm adopted by the Group have been reflected as "0" in the relevant notes in these consolidated financial statements.

The statement of cash flows has been prepared under indirect method.

The consolidated financial statements have been prepared on the historical cost basis, except for the following assets and liabilities which have been measured at fair value:

- Certain financial assets and liabilities (including derivatives instruments) at fair value, if any.

- Defined benefit liabilities are measured at present value of defined benefit obligation.
- Property, plant and equipment and intangible assets have been carried at deemed cost on the date of transition using the optional exemption allowed under Ind AS 101.
- Certain financial assets and liabilities at amortised cost.

(iii) Basis of consolidation

Subsidiary is the entity over which the holding Company has control. Control exists when the holding Company has power over the entity, is exposed, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns by using its power over the entity. The financial statements of subsidiary is included in the consolidated financial statements from the date on which control commences until the date on which control ceases.

The financial statements of the holding Company and the subsidiary Company are combined on a line-by-line basis by adding together the book values of like items of assets, liabilities, income and expenses, after fully eliminating intra-group balances and intra-group transactions in accordance with Indian Accounting Standard (Ind AS) 110 - "Consolidated Financial Statements".

As far as possible, the consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances and are presented in the same manner as the Company's separate financial statements.

Consolidated financial statements include consolidated balance sheet, consolidated statement of profit and loss, consolidated cash flow statement, consolidated statement of changes in equity and the summary of significant accounting policies and other explanatory information that form an integral part thereof.

Consolidated subsidiary is having consistent reporting date of 31 March 2021.

(iv) Significant accounting policies

a. Use of estimates and judgements

The preparation of consolidated financial statements in conformity with Ind AS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income, expenses and other comprehensive income (OCI) that are reported and disclosed in the consolidated financial statements and accompanying notes. Accounting estimates could change from period to period. Actual results may differ from these estimates.

Notes to the Consolidated financial statements

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2021

These estimates and judgment are based on the management's best knowledge of current events, historical experience, actions that the Group may undertake in the future and on various other estimates and judgments that are believed to be reasonable under the circumstances. Accounting estimates could change from period to period. Accounting estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the consolidated financial statements in the period in which changes are made. In particular, information about significant areas of estimation, uncertainty and critical judgements in applying accounting policies that have most significant effect of the amounts recognised in the consolidated financial statements is included in the following notes:

- Note 8(b) – recognition of deferred tax assets: availability of future taxable profit against which tax losses carried forward can be used
- Note 35 – measurement of defined benefit obligations: key actuarial assumptions
- Note 2 and 4 - estimation of useful lives of property, plant and equipment and intangible assets
- Note 32 – recognition and measurement of provisions and contingencies: key assumptions about the likelihood and magnitude of an outflow of resources.

b. Going concern

Going concern basis of accounting used for preparation of the accompanying consolidated financial statements is appropriate with no material uncertainty.

c. Current/non-current classification

All assets and liabilities have been classified as current or non-current as per the Group's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of business and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Group has ascertained its operating cycle as 12 months for the purpose of current or non-current classification of assets and liabilities.

Assets

An asset is classified as current when it satisfies any of the following criteria:

- 1) It is expected to be realised in, or is intended to be sold or consumed in, the Group's normal operating cycle;
- 2) It is held primarily for the purpose of being traded;

- 3) It is expected to be realised within twelve months after the reporting date; or
- 4) It is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date.

Current assets include the current portion of non-current financial assets. All other assets are classified as non-current.

Liabilities

A liability is classified as current when it satisfies any of the following criteria:

- 1) It is expected to be settled in the Group's normal operating cycle;
- 2) It is held primarily for the purpose of being traded;
- 3) It is due to be settled within twelve months after the reporting date; or
- 4) The Group does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting date.

Current liabilities include current portion of non-current financial liabilities. All other liabilities are classified as non-current.

d. Property, plant and equipment

Recognition and measurement

Under the previous GAAP, property, plant and equipment ('PPE') were carried in the balance sheet at their cost of purchase less accumulated depreciation and impairment losses (if any). Using the deemed cost exemption available as per Ind AS 101, the holding Company has elected to carry forward these net block of PPE under previous GAAP as on 31 March 2015 as book value of such assets under Ind AS at the transition date i.e. 1 April 2015.

Items of property, plant and equipment are measured at cost, which includes capitalised borrowing costs, less accumulated depreciation and accumulated impairment losses, if any. Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use. The Group identifies and determines separate useful lives for each major component of the property, plant and

Notes

to the Consolidated financial statements

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2021

equipment, if they have a useful life that is materially different from that of the asset as a whole.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the Statement of Profit and Loss when the asset is derecognised.

Property, plant and equipment under construction and cost of assets not ready for use at the year-end are disclosed as capital work-in-progress.

Foreign currency exchange differences are capitalised as per the policy stated in note 1(iv)(i) below.

Subsequent expenditure

Subsequent expenditure related to an item of property, plant and equipment is added to its book value only if it increases the future benefits from the existing asset beyond its previously assessed standard or period of performance. All other expenses on existing property, plant and equipment, including day-to-day repairs, maintenance expenditure and cost of replacing parts, are charged to the Statement of Profit and Loss for the year during which such expenses are incurred.

Depreciation

Depreciation on property, plant and equipment is provided on the straight-line method over their estimated useful lives, as determined by the management. Depreciation is charged on a pro-rata basis for assets purchased/sold during the year.

Based on technical assessment made by technical expert and management estimate, the Group have assessed the estimated useful lives of certain property, plant and equipment that are different from the useful life prescribed in Schedule II to the Companies Act, 2013. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

The estimated useful lives of items of property, plant and equipment are as follows

Particulars	Management estimate of useful life	Useful life as per Schedule II
Building (factory buildings/ non factory buildings) other than RCC frame structure	28 years	30 years

Particulars	Management estimate of useful life	Useful life as per Schedule II
Building (factory buildings/ non factory buildings) RCC frame structure	58 years	60 years
Plant and equipment (continuous process plant)	45/20/18 years	25/3 years
Furniture and fixtures	15 years	10 years
Vehicles	10 years	8 years
Office equipment	20 years/6 years	5 years

Leasehold land is depreciated over the period of lease.

Leasehold improvements are amortised over the period of lease or their useful lives, whichever is shorter.

Assets costing less than ₹ 5,000 are fully depreciated over the period of one year from the date of purchase/acquisition and such treatment did not have any material impact on consolidated financial statements of the Group for the current year.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year-end and adjusted prospectively, (refer note 48).

e. Intangible assets

Recognition and measurement

Intangible assets include software, that are acquired by the holding Company, that are measured initially at cost. After initial recognition, an intangible asset is carried at its cost less any accumulated amortisation and any accumulated impairment loss, if any.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the Statement of Profit and Loss when the asset is derecognised.

Subsequent expenditure

Subsequent expenditure related to an item of intangible asset is added to its book value only if it increases the future benefits from the existing asset beyond its previously assessed standard or period of performance. All other expenses are charged to the Statement of Profit and Loss for the year during which such expenses are incurred.

Amortisation

Intangible assets include software that are amortised over the useful economic life of 3 years. The amortisation period and the

Notes to the Consolidated financial statements

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2021

amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period.

f. Impairment

(i) Impairment of financial assets

The Group recognises loss allowance for expected credit losses on financial assets measured at amortised cost. At each reporting date, the Group assesses whether financial assets carried at amortised cost are credit impaired. A financial asset is 'credit impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit impaired includes the following observable data:

- significant financial difficulty of the issuer or the borrower;
- a breach of contract such as a default in payment within the due date;
- the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider;
- it is probable that the debtor will enter bankruptcy or other financial reorganisation;
- the disappearance of an active market for a security because of financial difficulties;
- the purchase or origination of a financial asset at a deep discount that reflects the incurred credit losses.

The Group measures loss allowances at an amount equal to lifetime expected credit losses. Loss allowances for trade receivables are always measured at an amount equal to lifetime expected credit losses. Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument.

In all cases, the maximum period considered when estimating expected credit losses is the maximum contractual period over which the Group is exposed to credit risk.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating expected credit losses, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Group's historical experience and informed credit assessment and including forward looking information. The

Group considers a financial asset to be in default when the debtor is unlikely to pay its credit obligations to the Group in full, without recourse by the Group to actions such as realising security (if any) is held.

Measurement of expected credit losses

Expected credit losses are a probability weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the Group in accordance with the contract and the cash flows that the Group expects to receive).

Presentation of allowance for expected credit losses in the balance sheet

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

Write-off

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Group determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Group's procedures for recovery of amounts due.

(ii) Impairment of non-financial assets

The Group's non-financial assets, other than inventories and deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. For impairment testing, assets that do not generate independent cash inflows are grouped together into cash-generating units (CGUs). Each CGU represents the smallest group of assets that generates cash inflows that are largely independent of the cash inflows of other assets or CGUs.

The recoverable amount of a CGU (or an individual asset) is the higher of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the CGU (or the asset).

An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its estimated recoverable amount. Impairment losses are recognised in the Statement of Profit and Loss. Impairment loss recognised in respect of a CGU is allocated to reduce the carrying amounts of the assets of the CGU (or group of CGUs) on a pro rata basis.

Notes

to the Consolidated financial statements

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2021

In respect of assets for which impairment loss has been recognised in prior periods, the Group reviews at each reporting date whether there is any indication that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. Such a reversal is made only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

g. Right-of-use assets and lease liabilities

For all existing and new contract on or after 01 April 2019, the Group considers whether a contract is, or contains a lease. A lease is defined as 'a contract, or part of a contract, that conveys the right to use an asset (the underlying asset) for a period of time in exchange for consideration'.

Classification of leases

The Group enters into leasing arrangements for various assets. The assessment of the lease is based on several factors, including, but not limited to, transfer of ownership of leased asset at end of lease term, lessee's option to extend/purchase etc.

Transition

Effective 1 April 2019, the Group adopted Ind AS 116 "Leases", applied to all lease contracts existing on 1 April 2019 using the modified retrospective method along with the transition option to recognise Right-of-Use asset (ROU) at an amount equal to the Lease Liability.

Recognition and initial measurement

At lease commencement date, the Group recognises a right-of-use asset and a lease liability on the balance sheet. The right-of-use asset is measured at cost, which is made up of the initial measurement of the lease liability, any initial direct costs incurred by the Group, an estimate of any costs to dismantle and remove the asset at the end of the lease (if any), and any lease payments made in advance of the lease commencement date (net of any incentives received).

Subsequent measurement

The Group depreciates the right-of-use assets on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The Group also assesses the right-of-use asset for impairment when such indicators exist.

At lease commencement date, the Group measures the lease liability at the present value of the lease payments unpaid at that date, discounted using the interest rate implicit in the

lease if that rate is readily available or the Group's incremental borrowing rate. Lease payments included in the measurement of the lease liability are made up of fixed payments (including in substance fixed payments) and variable payments based on an index or rate. Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. It is re-measured to reflect any reassessment or modification, or if there are changes in in-substance fixed payments. When the lease liability is re-measured, the corresponding adjustment is reflected in the right-of-use asset.

The Group has elected to account for short-term leases and leases of low-value assets using the practical expedients. Instead of recognising a right-of-use asset and lease liability, the payments in relation to these are recognised as an expense in Statement of Profit and Loss on a straight-line basis over the lease term.

h. Inventories

Inventories are measured at the lower of cost and net realisable value.

Raw materials, traded finished goods, packing material and stores and spares:

The cost of inventories is calculated on weighted average basis, and includes expenditure incurred in acquiring the inventories, production or conversion costs and other costs incurred in bringing them to their present location and condition. Raw materials, components and other supplies held for use in the production of finished products are not written down below cost except in cases where material prices have declined and it is estimated that the cost of the finished products will exceed their net realisable value.

Work-in-progress and manufactured finished goods: Cost includes raw material costs and an appropriate share of fixed production overheads based on normal operating capacity. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses. The net realisable value of work-in-progress is determined with reference to the selling prices of related finished products.

Waste: The valuation is done at net realisable value.

The comparison of cost and net realisable value is made on an item-by-item basis.

i. Foreign exchange transactions

Transactions in foreign currencies are initially recorded by the Group at its functional currency spot rates at the date the transaction first qualifies for recognition.

Notes

to the Consolidated financial statements

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2021

All monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary assets and liabilities if any that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction.

All exchange differences, except those relating to long-term monetary foreign currency items, are dealt with in the Statement of Profit and Loss. Exchange differences in respect of long-term monetary foreign currency items prior to 1 April 2016, are added to or deducted from the cost of asset and are depreciated over the balance life of the asset.

j. Employee benefits

i. Short-term employee benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid e.g., under short-term cash bonus, if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the amount of obligation can be estimated reliably.

ii. Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. The Group makes specified monthly contributions towards Government administered provident fund scheme. Obligations for contributions to defined contribution plans are recognised as an employee benefit expense in Statement of Profit and Loss in the periods during which the related services are rendered by employees.

Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in future payments is available.

iii. Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Group's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets. The calculation of defined benefit obligation is performed annually by a qualified actuary using the projected unit credit method.

The Group operates a defined benefit gratuity plan in India.

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses, are recognised in OCI. The Group determines the net interest expense (income) on the net defined benefit liability or the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then net defined benefit liability, taking into account any changes in the net defined benefit liability during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognised in Statement of Profit and Loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service ('past service cost' or 'past service gain') or the gain or loss on curtailment is recognised immediately in Statement of Profit and Loss. The Group recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs.

iv. Other long-term employee benefits

Entitlements to annual leave are recognised when they accrue to employees. Leave entitlements may be availed while in service or encashed at the time of retirement/termination of employment, subject to a restriction on the maximum number of accumulation. The Group determines the liability for such accumulated leave entitlements on the basis of actuarial valuation carried out by an independent actuary at the year end.

k. Revenue

i. Sale of goods

Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, service level credits, performance bonuses, price concessions and incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers.

Revenue is recognised upon transfer of control of promised products to customers in an amount that reflects the consideration which the Group expects to receive in exchange for those products or services, the associated costs and possible return of goods can be estimated reliably, there is no continuing effective control over or managerial involvement with, the goods, and the amount of revenue can be measured reliably. Where the payment extends beyond normal credit period, interest is recovered separately.

Notes

to the Consolidated financial statements

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2021

ii. Interest income

Interest income is recognised on a time proportion basis taking into account the amount outstanding and the interest rate applicable.

i. Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in Statement of Profit and Loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down.

Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in Statement of Profit and Loss as other gains/(losses).

Borrowings are classified as current financial liabilities unless the Group has an unconditional right to defer settlement of the liability for at least twelve months after the reporting period. Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements, not to demand payment as a consequence of the breach.

m. Government grants

Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. Revenue grants are recognised over periods to which they relate.

n. Financial instruments

i. Recognition and initial measurement

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability of another entity. Trade receivables are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Group becomes a party to the contractual provisions of the instrument. A financial instrument is measured initially at fair value adjusted for transaction costs,

except for those carried at fair value through profit or loss (FVTPL) which are measured initially at fair value.

ii. Classification and subsequent measurement

Financial assets

On initial recognition, a financial asset is classified as measured at amortised cost or at FVTPL. Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Group changes its business model for managing financial assets.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All financial assets not classified as measured at amortised cost as described above are measured at FVTPL.

For all other equity instruments, the Group decides to classify the same either as at fair value through other comprehensive income (FVOCI) or fair value through profit and loss (FVTPL). On initial recognition, the Group may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets: Business model assessment

The Group makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Group's management;

Notes to the Consolidated financial statements

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2021

- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how managers of the business are compensated – e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Group's continuing recognition of the assets.

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

Financial assets: Assessment whether contractual cash flows are solely payments of principal and interest

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Group considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Group considers:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable interest rate features;
- prepayment and extension features; and
- terms that limit the Group's claim to cash flows from specified assets (e.g. non-recourse features).

A prepayment feature is consistent with the solely payments of principal and interest criterion if the prepayment amount substantially represents unpaid amounts of principal and

interest on the principal amount outstanding. Additionally, for a financial asset acquired at a significant discount or premium to its contractual par amount, a feature that permits or requires prepayment at an amount that substantially represents the contractual par amount plus accrued (but unpaid) contractual interest is treated as consistent with this criterion if the fair value of the prepayment feature is insignificant at initial recognition. Financial assets at amortised cost are measured at amortised cost using the effective interest method. Interest income recognised in Statement of Profit and Loss.

Subsequent measurement and gains and losses

Financial assets at FVTPL	These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in Statement of Profit and Loss.
Financial assets at amortised cost	These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in Statement of Profit and Loss. Any gain or loss on derecognition is recognised in Statement of Profit and Loss.

Financial liabilities

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held for trading. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in Statement of Profit and Loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in Statement of Profit and Loss. Any gain or loss on derecognition is also recognised in Statement of Profit and Loss.

iii. Derecognition Financial assets

The Group derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset. If the Group enters into transactions whereby

Notes

to the Consolidated financial statements

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2021

it transfers assets recognised on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

Financial liabilities

The Group derecognises a financial liability when its contractual obligations are discharged or cancelled or expire. The Group also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in Statement of Profit and Loss.

iv. Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis to realise the assets and settle the liabilities simultaneously.

o. Measurement of fair values

In determining the fair value of its financial instruments, the Group uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. All methods of assessing fair value result in general approximation of value, and such value may never actually be realised.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable -inputs)

When measuring the fair value of an asset or a liability, the Group uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Group recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

p. Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks, cheques on hand and cash on hand, which are not subject to risk of changes in value. Also, for the purpose of the statement of cash flows, cash and cash equivalents consist of cash at banks, cheques on hand and cash on hand.

q. Earnings per share

Basic earning per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

Potential ordinary shares shall be treated as dilutive when, and only when, their conversion to ordinary shares would decrease earnings per share or increase loss per share from continuing operations.

r. Provisions, contingent liabilities and contingent assets

A provision is recognised if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future obligation at pre-tax rate that reflects current market assessments of the time value of money risks specific to liability. They are not discounted where they are assessed as current in nature. Provisions are not made for future operating losses.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or reliable estimate of the amount cannot be made. Therefore, in order to determine the amount to be recognised as a liability or to be disclosed as a contingent liability, in each case, is inherently subjective, and needs careful evaluation and judgement to be applied by the management.

Notes to the Consolidated financial statements

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2021

In case of provision for litigations, the judgements involved are with respect to the potential exposure of each litigation and the likelihood and/or timing of cash outflows from the Group, and requires interpretation of laws and past legal rulings.

s. Taxation

Income tax comprises current and deferred tax. It is recognised in Statement of Profit and Loss except to the extent that it relates to a business combination or to an item recognised directly in equity or in other comprehensive income.

i. Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

ii. Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits.

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in case of a history of recent losses, the Group recognises a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realised.

The Group's ability to recover the deferred tax assets is assessed by the management at the close of each financial year which depends upon the forecasts of the future results and taxable profits that Group expects to earn within the period by which such brought forward losses may be adjusted against the taxable profits as governed by the Income-tax Act, 1961. Deferred tax assets – unrecognised or recognised, are reviewed

at each reporting date and are recognised/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realised.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date. The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Group expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset deferred tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle deferred tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

t. Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The Group's Chairman and Managing Director assesses the financial performance and position of the Group, and makes strategic decision and has been identified as the chief operating decision maker. The Group's business activity is organised and managed separately according to the nature of the products, with each segment representing a strategic business unit that offers different products and serves different market. The Group's primary business segment is reflected based on principal business activities carried on by the Group. As per Indian Accounting Standard 108, Operating Segments, as notified under the Companies (Indian Accounting Standards) Rules, 2015, the Group operates in one reportable business segment i.e., manufacturing and trading of Polyester goods. The geographical information analyses the Group's revenue and trade receivables from such revenue in India and other countries. In presenting the geographical information, segment revenue and receivables has been based on the geographic location of customers. Refer note 37 for segment information presented.

u. Recent accounting pronouncements

MCA issued notifications dated 24 March 2021 to amend schedule III to the Companies Act 2013 to enhance the disclosures required to be made by the Group in its financial statements. These amendments are applicable to the Group for the financial year starting 1 April 2021.

* Minimum alternate tax credit entitlement carried in Income-tax and not recognised in books.

** Deferred tax assets have not been recognised in respect of above items, because it is not probable that future taxable profits will be available against which the holding Company can use the benefits therefrom.

Pursuant to Sec 115BAA of the Income-tax Act, 1961 (inserted by Taxation Laws (Amendment) Act, 2019 w.e.f. 1 April 2019), domestic companies have the option to pay corporate income tax at a concessional tax rate of 22% with effective tax rate of 25.17%. The said concessional tax regime is accompanied with immediate expiry of carry forward balance of minimum alternative tax credit and certain other concessional tax rate benefits enjoyed by the holding Company presently. During the previous year ended 31 March 2020, Group continued under the old tax regime. Based on further internal analysis made by the management, holding Company has filed its income tax return for financial year 2019-20 (AY 2020-21) under the new tax regime by opting concessional tax regime as per Section 115BAA of the Income-tax Act, 1961. Consequently, the relevant adjustment to the deferred tax asset has been made during the current year."

* Matter under dispute with Maharashtra State Electricity Distribution Company Limited and is pending for hearing with Bombay High Court.

It is not practicable for the holding Company to estimate the timing of cash outflows, if any, in respect of the above pending resolution of respective proceedings.

Notes:

- Out of the above litigations, the holding Company has provided ₹ 38.30 Crores (31 March 2020 : ₹ 54.02 Crores) against various litigations and remaining contingent liabilities is ₹ 41.65 Crores (31 March 2020 : ₹ 34.24 Crores).
- Hon'ble Supreme Court of India has pronounced a ruling dated 28 February 2019 in which it is held that 'allowance' paid to employees, will be included in the scope of 'basic wages' and thus, will be subject to provident fund contributions. Petitions have been filed with Hon'ble Supreme Court of India seeking additional clarification with respect to the application of this ruling. As this ruling has not prescribed any clarification w.r.t. to its application, the Group is in the process of evaluating its impact. Management believes that this will not result in any material liability on the Group.
- Customs duty claims (including penalties) against the holding Company aggregating to ₹ 220.26 Crores (31 March 2020 : ₹ 220.26 Crores) have not been considered contingent as favourable orders have been received, in some of the cases, by the holding Company from the Custom Excise and Service Tax Appellate Tribunal. The holding Company believes that its position is strong in this regard. The matter is pending with the Hon'ble Supreme Court..

Pending resolution of the respective proceedings, it is not practicable for the holding Company to estimate the timings of cash outflows, if any, in respect of the above as it is determinable only on receipt of judgements/decisions pending with various forums/authorities.

- The holding Company has reviewed all its pending litigations and proceedings and has adequately provided for where provisions are required and disclosed as contingent liabilities where applicable, in its consolidated financial statements. The holding Company also believes that the above issues, when finally settled, are not likely to have any significant impact on the financial position of the holding Company. The holding Company does not expect any reimbursements in respect of the above contingent liabilities

Retirement age	58 years	58 years
Mortality rate	Indian Assured Lives Mortality (2012-14) (modified) Ultimate	Indian Assured Lives Mortality (2012-14) (modified) Ultimate

These assumptions were developed by management with the assistance of independent actuarial appraisers. Discount factors are determined close to each year end by reference to government bonds of relevant economic markets and that have terms to maturity approximating to the terms of the related obligation. Other assumptions are based on management's historical experience.

The above defined benefit plan exposes the Company to following risks:

Interest rate risk:

The defined benefit obligation calculated uses a discount rate based on government bonds. If bond yields fall, the defined benefit obligation will tend to increase.

Salary inflation risk

Expected increases in salary will increase the defined benefit obligation.

Notes to the Consolidated financial statements

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2021

(All amounts in ₹ crores, unless stated otherwise)

Demographic risk:

This is the risk of variability of results due to unsystematic nature of decrements that include mortality, withdrawal, disability and retirement. The effect of these decrements on the defined benefit obligation is not straight forward and depends upon the combination of salary increase, discount rate and vesting criteria. It is important not to overstate withdrawals because in the financial analysis the retirement benefit of a short career employee typically costs less per year as compared to a long service employee

Funding

This is an unfunded benefit plan for qualifying employees.

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same methods (present value of defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the balance sheet.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior period.

	As at 31 March 2021	As at 31 March 2020
(vi) Sensitivity analysis for gratuity liability		
The sensitivity of the overall plan obligations to changes in the weighted key assumptions are:

37. Segment information

Basis of segmentation:

The Group's primary business segment is reflected based on principal business activities carried on by the Group. Chairman and Managing Director has been identified as being the Chief Operating Decision Maker ('CODM') and evaluates the Group's performance and allocates resources based on analysis of the various performance indicators of the Group as a single unit. As per Indian Accounting Standard 108, Operating Segments, as notified under the Companies (Indian Accounting Standards) Rules 2015, the Group operates in one reportable business segment i.e., manufacturing and trading of polyester goods.

Geographical information:

The geographical information analyses the Group's revenue and trade receivables from such revenue in India and other countries. In presenting the geographical information, segment revenue and receivables has been based on the geographic location of customers.

38. Financial instruments - accounting classifications and fair value measurements

The fair values of the financial assets and financial liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sales.

The following methods and assumptions were used to estimate the fair values:

1. Fair value of cash and cash equivalents, bank balances other than cash and cash equivalents, trade and other short-term receivables, investments, loans and advances and other current liabilities approximated their carrying amounts largely due to the short-term maturities of these instruments. .
2. The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique.

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments. The fair value of all equity instruments which are traded in the stock exchanges is valued using the closing price as at the reporting period.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in Level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities, contingent consideration and indemnification asset included in level 3.

A. Accounting classifications and fair values

B. Measurement of fair values

Assets and liabilities are to be measured based on the following valuation techniques:

Market approach – Prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities.

Income approach – Converting the future amounts based on market expectations to its present value using the discounting methodology.

Cost approach – Replacement cost method.

Quoted market prices in active markets are available for investments in securities and, as such, these investments are classified within Level 1.

Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments which are traded in stock exchanges and valued using closing price at the reporting date.

The fair value of financial instruments that are not traded in an active market is determined using valuation techniques. The Group uses its judgement to select a variety of methods and make assumptions that are mainly based on the conditions existing at the end of each reporting period.

Notes to the Consolidated financial statements

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2021

(All amounts in ₹ crores, unless stated otherwise)

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

1. The management assessed that the fair values of cash and cash equivalents, bank balances other than cash and cash equivalents, non-current bank balances, trade receivables, other current financial assets, trade payables and other current financial liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.
2. The fair value of Group's fixed interest-bearing loans that approximate to their carrying amounts as it is based on discounting future cash flows using rates currently available for debts on similar terms, credit risk and remaining maturities.
3. All the other long-term borrowing facilities availed by the Group are variable rate facilities which are subject to changes in underlying interest rate indices. Further, the credit spread on these facilities are subject to change with changes in Group's creditworthiness. The management believes that the current rate of interest on these loans are in close approximation from market rates applicable to the Group. Therefore, the management estimates that the fair value of these borrowings are approximate to their respective carrying values.

C. Financial risk management

The Group has exposure to the following risks arising from financial instruments:

- credit risk
- liquidity risk
- market risk

(i) Risk management framework

The Group's board of directors has overall responsibility for the establishment and oversight of the Group's risk management framework. The board of directors has established the risk management committee, which is responsible for developing and monitoring the Group's risk management policies. The committee reports regularly to the board of directors on its activities.

The Group's risk management policies are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities.

The Group's risk committee oversees how management monitors compliance with the Group's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Group. The audit committee is assisted in its oversight role by internal audit. Internal audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the audit committee.

(ii) Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the Group's receivables from customers.

The carrying amounts of financial assets represent the maximum credit risk exposure.

Trade receivables

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk associated with the industry and country in which customers operate.

The risk management committee has established a credit policy under which each new customer is analysed individually for creditworthiness before the Group's standard payment and delivery terms and conditions are offered. The Group review includes external information, if they are available, financial statements, credit agency information, industry information and

Notes

to the Consolidated financial statements

(All amounts in ₹ crores, unless stated otherwise)

in some cases bank references. Credit limits are established for each customer and reviewed periodically. Any sales exceeding those limits require approval from the risk management committee.

The Group limits its exposure to credit risk from trade receivables by establishing a credit period for all customer categories. In case of delay beyond credit period, the interest is generally recovered at the rate of 12% to 18%. Most of the Group's customers have been transacting with the Group from past few years, and most of these customers' balances are not credit-impaired at the reporting date except in few cases reported. Identifying concentrations of credit risk requires judgement in the light of specific circumstances. The Group monitors ageing of its trade receivables regularly and based on the same takes corrective action. Trade receivables having ageing more than 180 days is monitored individually and loss allowance is created based on such assessment.

A summary of the Group's exposure to credit risk for trade receivables based on the ageing is as follows:

Ageing of receivables

	As at 31 March 2021		As at 31 March 2020	
	Gross carrying amount	Expected credit loss	Gross carrying amount	Expected credit loss
Less than 180 days	100.43	-	86.69	-
More than 180 days	62.58	57.80	60.13	55.36
	163.01	57.80	146.82	55.36

The movement in the allowance for impairment in respect of trade receivables and loans is as follows:

Particulars	As at 31 March 2021	As at 31 March 2020
Balance at the beginning of the year	55.36	55.54
Expected credit loss during the year [net of reversal]	2.44	(0.18)
Balance at the end of the year	57.80	55.36

(iii) Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation. The Group uses activity-based costing to cost its products, which assists it in monitoring cash flow requirements and optimising its cash return on investments.

The following are the remaining contractual maturities of financial liabilities at the reporting date. The amounts are gross and undiscounted

* excluding contractual interest payable at prevalent/agreed rate of interest.

The holding Company has secured bank loans that contains certain loan covenants. A future breach of covenant may require the holding Company to repay the loan earlier than indicated in the above table. Covenants are monitored on regular basis by the treasury department and regularly reported to management to ensure compliance with the agreement. As at 31 March 2021, the holding Company has not complied with certain financial covenants mentioned under the terms of borrowings for which waiver has already been requested from the lenders. However, based on the past experience and/or on the discussions with the banks and considering the facts of the case, the management believes that the default is minor and waiver will be granted in due course in respect of these financial covenants and no material financial obligation on part of the holding Company, is likely to arise in respect of the above matter and thus, no adjustments are required in these financial statements in this regard.

The interest payments on variable interest rate loans in the table above reflect spot interest rates at the reporting date and these amounts may change as market interest rates change. However, the holding Company doesn't expect significant different amount on account of change in market interest rate changes.

(iv) Market risk

Market risk is the risk that changes in market prices – such as foreign exchange rates, interest rates and commodity prices – will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

Commodity price risk

Commodity price risk arises due to fluctuation in prices of crude oil. The Group has a risk management framework aimed at prudently managing the risk arising from the volatility in commodity prices and freight costs. The Group's commodity risk is managed centrally through well-established control processes. In accordance with the risk management policy, the Group enters into various transactions using derivatives to hedge its exposure, as and when required.

Currency risk

The Group is exposed to currency risk to the extent that there is a mismatch between the currencies in which sales, purchases and borrowings are denominated. The currencies in which these transactions are primarily denominated are US dollars, Japanese Yen and Euro. The Group uses forward exchange contracts to hedge its currency risk, most with a maturity of less than one year from the reporting date, as and when required.

Exposure to currency risk

The summary quantitative data about the Group's exposure to currency risk (based on notional amounts) as reported to the management is as follows.

(i) Unhedged foreign currency risk exposure:

Sensitivity analysis

A reasonably possible strengthening (weakening) of the INR, USD, JPY and Euro against all other currencies at year end would have affected the measurement of financial instruments denominated in a foreign currency and affected equity and profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant and ignores any impact of forecast sales and purchases.

		As at 31 March 2021		As at 31 March 2020	
		Increase in profit	Decrease in profit	Increase in profit	Decrease in profit
Currency (changes in currency value by 5%)					
USD	5% movement	15.02	(15.02)	4.50	(4.50)
Euro	5% movement	0.01	(0.01)	2.13	(2.13)
JPY	5% movement	0.23	(0.23)	0.21	(0.21)

Exposure to interest rate risk

The following table demonstrates the sensitivity on the Group's profit before tax, to a reasonably possible change in interest rates on that portion of loans and borrowings affected, with all other variables held constant:

D. Capital management

The Group's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. The primary objective of the Group's Capital Management is to maximise the shareholder's value. Management also monitors the return on capital. The board of directors seeks to maintain a balance between the higher returns that might be possible with higher levels of borrowing and the advantages and security afforded by a sound capital position.

39. Leases

Lease liabilities are presented in the statement of financial position as follows:

	As at 31 March 2021	As at 31 March 2020
Current	5.03	4.57
Non-current	12.46	16.99
	17.49	21.56

Adoption of Ind AS 116 'Leases'

Ind AS 116 'Leases' replaced Ind AS 17 'Leases' along with three interpretations (Appendix A 'operating leases-incentives', Appendix B 'evaluating the substance of transactions involving the legal form of a lease' and Appendix C 'determining whether an arrangement contains a lease')

The adoption of this new Standard had resulted in the holding Company recognising a right-of-use assets and related lease liability in connection with all former operating leases except for those identified as low-value or having a remaining lease term of less than 12 months from the date of initial application

The new Standard had been applied using the modified retrospective method along with the transition option to recognise right-of-use assets at an amount equal to the Lease Liability

The holding Company had elected not to include initial direct costs in the measurement of the right-of-use asset for operating leases in existence at the date of initial application of Ind AS 116, being 01 April 2019. At this date, the holding Company had also elected to measure the right-of-use assets at an amount equal to the lease liability adjusted for any prepaid or accrued lease payments that existed at the date of transition.

Instead of performing an impairment review on the right-of-use assets at the date of initial application, the holding Company had relied on its historic assessment as to whether leases were onerous immediately before the date of initial application of Ind AS 116

On transition, for leases previously accounted for as operating leases with a remaining lease term of less than 12 months the holding Company had applied the optional exemptions to not recognise right-of-use assets but to account for the lease expense on a straightline basis over the remaining lease term.

Notes

to the Consolidated financial statements

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2021

(All amounts in ₹ crores, unless stated otherwise)

On transition to Ind AS 116, the weighted average incremental borrowing rate applied to lease liabilities recognised under Ind AS 116 was 9.50%

A. A. Reconciliation of total operating lease commitments at 31 March 2019 to the lease liabilities recognised at 01 April 2019 :

Particulars	Amount
Operating lease commitments at 31 March 2019	36.53
Remeasurement	8.73
Lease liabilities at 1 April 2019	27.80

B. The following are amounts recognised in profit or loss :

	31 March 2021	31 March 2020
Depreciation expense of right-of-use assets	5.34	5.30
Interest expense on lease liabilities	1.85	2.42
Rent expense*	7.09	4.06
Total	14.28	11.78

*Rent expense in term of short-term leases and low value leases

The holding Company has leases for office premises, residential properties and storage facilities. With the exception of short-term leases and low value leases, each lease is reflected on the balance sheet as a right-of-use asset and a lease liability. The holding Company classifies its right-of-use assets to its property, plant and equipment.

Each lease generally imposes a restriction that, unless there is a contractual right for the holding Company to sublet the asset to another party, the right-of-use asset can only be used by the holding Company. The holding Company is prohibited from selling or pledging the underlying leased assets as security.

The table below describes the nature of the holding Company's leasing activities by type of right-of-use asset recognised on balance sheet:

Right-of-use asset	No of right-of-use assets leased	Range of remaining term (in years)	Average remaining lease term	No of leases with extension options	No of leases with termination options
Buildings					
- 31 March 2021	3	3-7 years	3.20	2	-
- 31 March 2020	3	3-7 years	4.20	2	-

The maturity analysis of lease liabilities are disclosed in note 38.

Lease payments not recognised as a liability

The holding Company has elected not to recognise a lease liability for short-term leases (leases with an expected term of 12 months or less) or for leases of low value assets. Payments made under such leases are expensed on a straight-line basis. The holding Company does not have any liability to make variable lease payments for the right-to-use the underlying asset recognised in the financials.

The expense relating to payments not included in the measurement of the lease liability for short-term leases and leases of low value is ₹ 7.09 Crores (31 March 2020 : ₹ 4.06 Crores).

At 31 March 2021, the holding Company was committed to short term-leases and leases of low value, and the total commitment as at that date was ₹ 5.24 Crores (31 March 2020 : ₹ 0.70 Crores).

Total cash outflow for short term-leases and leases of low value for the year ended 31 March 2021 was ₹ 7.23 Crores (31 March 2020 : ₹ 3.84 Crores).

Also, if the aforesaid approvals are not granted by the shareholders of the holding Company in the ensuing Annual General Meeting, such directors will comply with requirements of Section 197 (9) of the Companies Act, 2013.

42. Indorama Yarns Private Limited, a wholly owned subsidiary of the holding Company, incorporated on 16 August 2019. The holding Company had subscribed ₹ 10,000,000 towards its share capital during the previous year. During the current year, holding Company has further subscribed ₹ 20,000,000 towards its share capital.

43. Exceptional item

The exceptional item for the year ended 31 March 2021 is towards significant write down in valuation of inventories below cost amounting to ₹ 11.63 Crores [31 March 2020 : Nil] which was on account of unprecedented decline in global crude oil prices as an outcome of COVID-19 Pandemic.

44. Corporate social responsibility

In accordance with the provisions of section 135 of the Companies Act 2013, the Board of Directors of the holding Company had constituted a Corporate Social Responsibility (CSR) committee. In terms with the provisions of the said Act, the holding Company is not required to spend any amount towards CSR activities during the current and previous year.

45. In March 2020, World Health Organisation (WHO) had declared the outbreak of Novel Corona virus "COVID-19" as a pandemic. Complying with the directives of Government, the plant and offices of the holding Company had been under lock-down impacting the operations for the year.

However, the recent second wave of COVID-19 has resulted in re-imposition of partial lockdowns/restrictions

in various states, which might continue to impact the holding Company's performance.

Given the uncertainty of quick turnaround to normalcy, post lifting of the lock down, the holding Company has carried out a comprehensive assessment of possible impact on its business operations, financial assets, contractual obligations and its overall liquidity position, based on the internal and external sources of information and application of reasonable estimates. The holding Company does not foresee any significant incremental risk to the recoverability of its assets or in its ability to meet its financial obligations over the foreseeable future, given early and required steps taken to contain, protect and mitigate the exposure. The management will continue to monitor any material change arising due to the impact of this pandemic on financial and operational performance of the holding Company and take necessary measures to address the situation.

46. The holding Company has availability of additional credit lines with the support of the promoter Group Company to the tune of USD 35 million [31 March 2020 : USD 50 million] by way of the Stand By Letter of Credit (SBLC) to meet any unforeseen exigencies. market performance achieved during the year ended 31 March 2021. Management is confident about the achievement of its long-term business plans and availability of sufficient future taxable profits against which deferred tax amounting to ₹ 208.53 Crores is fully recoverable.

48. The management reassessed remaining useful life of certain assets in the block of plant and equipment with effect from 1 April 2020 on the basis of assessment made by external technical experts. Depending upon the operating conditions and usability of assets, the useful life of the said assets which was hitherto 18 years have been revised to 20 years in case of utilities and to 45 years for the processing plants. Due to this reassessment of remaining useful life, the depreciation for the year ended 31 March 2021 is lower by ₹ 51.53 Crores, whereas the profit for the corresponding period is higher by ₹ 47.48 Crores respectively.

49. Per transfer pricing legislation under section 92-92F of the Income-tax Act 1961, the Group is required to use certain specific methods in computing arm's length price of international transactions with associated enterprises and maintains adequate documentation in this respect. The legislations require that such information and documentation to be contemporaneous in nature. The Group has appointed independent consultants for conducting the Transfer Pricing Study to determine whether the transactions with associated enterprises undertake during the financial year are on an "arm's length basis". The Group is in the process of conducting a transfer pricing study for the current financial year and expects such records to be in existence latest by the due date as required by law. However, in the opinion of the management the update would not have a material impact on these financial statements. Accordingly, these financial statements do not include any adjustments for the transfer pricing implications, if any.
