Chairman Message

Dear Shareholders,

Greeting

The financial year 2014-15 has been quite promising but at the same time very challenging, due to continuous fall in the prices of Basmati Rice. Your Company recorded an increase in Basmati Rice exports by 21% in volume terms and modest 6% growth in revenues in the exports of Processed & Packaged food business. Largely, Company's focus on its brands viz., Kohinoor Platinum, Gold & Silver basmati rice helped it gaining significant market shares in the select export markets. In addition, introduction of range of whole new & innovative products in packaged food business contributed significantly to Portfolio of our Products, bringing us closer to our collective goal of making 'Kohinoor' as the most trusted & preferred Indian food brand globally. The other most significant achievement during the year has been successful first year of operation with our Joint Venture partner Al Dahra Kohinoor LLC (Abu Dhabi).

Your Company achieved a total turn-over of INR 11,571 Mn., out of which Rice Exports contributed INR 7,596 Mn. and Processed and Packaged Food exports at INR 768 Mn.. Our Domestic sales stood at INR 2,704 Mn.. This financial year on the back of the bumper crop, Basmati Prices have been lower by 30-40% over last financial year and your Company strived to achieve volume growth to compensate lower Prices.

As informed last year, your Company entered into & concluded a Joint Venture agreement with Al Dahra, Abu Dhabi that seeks to establish a rice processing mill with adequate storage capacity for rice in UAE. The JV aims at securing a steady supply of Rice into the Emirates in conformity with UAE food security program. The first year of operation has been extremely successful and encouraging and we hope to export significant quantity of Rice in the next financial year.

This year saw the introduction of innovative processed food products such as Rice Bran Oil, Dry Fruits and Quinoa and strengthening our existing range of Heat & Eat products, Indian Sweets and Frozen products. We will continue to Invest & Innovate and expand our product offering to add value to our Food business operations.

On the Rice front, the export demand of Indian Basmati Rice increased due to widening of international market and devaluation of Indian Rupee. Our Rice business, that includes Private Label as well, grew in almost all geographies where we are present e.g., Asia Pacific, US, Africa and Middle East.

With the objective of bringing authentic Indian flavours to the people all over the world, we want your Company Kohinoor Foods to become a leading name in the food business globally. In pursuit of our vision to make Kohinoor the most trusted & preferred food brand globally, we would continue to develop products, increase operational efficiency and follow our successful strategies.

I am grateful to the Board of Directors for their unwavering support and guidance. I also take this opportunity to express my gratitude to all our consumers, business partners, employees and stakeholders who have shown their trust in us and have extended their constant support.

With best wishes,

Sincerely

Sd/-

The year saw decline in Basmati rice exports from India both in value and volume terms mainly due to surplus supply and lower international demand especially from Iran, which is the biggest importer of Indian Basmati Rice. Also political instability in countries such as Iraq, Syria & Yemen contributed to the decline of Indian export of basmati rice. In addition, many importing countries of Basmati rice held back Indian Rice imported earlier and are now disposing that inventory instead of ordering new quantities. Also the Basmati Rice exporters had to bear high cost of Processing of Paddy and lower realization. Major highlights during the financial year being:

Export- Processed Food

This year the export of processed food products of Kohinoor recorded a modest growth with revenues of INR 769 million as against INR 732 million in the previous year. Subsidiaries/Joint Venture

UAE Operations

In the last financial year (2013-14) Kohinoor Foods Limited entered into a Joint Venture with Al Dahra (Abu Dhabi) that seeks to establish robust frame work for Rice & other agro products between India & UAE and to provide long-term sustainable food security to the people of UAE. Through this JV we will be able to gain enhanced marketing & trading access for our rice products across the Arabian Gulf & Middle East Region. Consequently your Company will disinvest from the earlier JV Company M/s Rich Rice Raisers Factory LLC (Dubai) pursuant to the agreement with Al-Dahra. As per the terms of this agreement a rice processing mill & storage facility is being created and the construction work is in progress.

As we aware that Rich Rice Raisers Factory LLC, (RRR) is a joint venture Company having KFL holding of 25% in equity. This Joint Venture Company was formed in the year 2000 to promote our products and also to trade in other commodities. However at the time of formation of Al Dahra Kohinoor in Abu Dhabi it was decided that RRR will discontinue its business and Al Dahra Kohinoor will look after the rice business in UAE.

The joint venture with Al-Dahra has been successful and in its first year of the operation, the export of Rice to our Joint Venture Company has been very encouraging and we hope to export significant quantity in the next financial year.

USA Operations

Kohinoor Foods USA Inc.

Kohinoor Foods USA Inc., a wholly owned subsidiary based in New Jersey, that caters to the US and the Canada market.

The Company has explored the possibilities to strengthen/restructure of its Wholly Owned Subsidiary based at New Jersey (USA) to reduce its operational cost and to increase the marketability of our KOHINOOR brand as well as other brands registered in USA, by virtue of resolution passed by the Board of Directors in their meeting held on 13th August, 2014. The Company has initiated certain changes/restructuring in our business model in USA to:

Reduce fixed cost

Reduce operational cost

Increase business volume in USA

To improve the financial position of WOS by reducing debt and interest burden.

On account of restructuring of the business model the focus of the Company was more on recovery of old dues, disposal of stock etc. The turnover of the Company this year has been \$ 11.35 million and loss of \$ 2.47 Million mostly on account of writing off of old unrecoverable dues and old stocks.

The highlight of the performance of USA operation are given below.

Through this subsidiary the Company has demonstrated its presence in both the Ethnic & the Mainstream segment of the business. It caters to over 3,000 ethnic stores across the US markets besides Kohinoor brand is widely available in the main stream supermarkets as well. To refocus and re-align the marketing and operational goals we have under-taken restructuring and re-organizing our business activities to serve our customers & stake holders in an efficient and productive way. On the back of these initiatives, we hope to increase the Top-line revenues and look for improved performance in future. The brand 'Kohinoor' is well known in US and under our new strategy we plan to increase the width and the depth of distribution across US & Canada markets to further improve the visibility & strengthen the brand.

Besides, Kohinoor Foods USA Inc. aims to keep a close eye on consumer's food preferences and buying behaviour and introduce new products to stay ahead in the competition. Ethnic food in United States has traditionally meant Mexican and Chinese. However, the Indian foods and related food products are now the hottest trend today. The modern day life and the rigors that tag along, leave most people with very little time for themselves. A need of healthy vegetarian food and growing awareness of the relationship between diet and health has driven consumer to look at food that has made the Indian convenience food most popular in USA markets. The trend has been steadily evolving over the past decade.

Our success can be measured by the fact we are available in coveted retail chains like Target, Kroger, Wal-mart, Wegmans, Big Lots and many more and also in Canadian supermarkets such as Metro, Loblaw's, Wal-mart in Canada

FOOD BUSINESS:

'Food Division' has grown substantially from year on year basis from 2011-12 to 2014-15; from a turn-over of INR 350 Mn to the tune of INR 769 Mn. The division has grown with diversification of product categories from single category of Ready to Eat products to multiple categories like Edible Oil, Dairy (Paneer & Ghee), Snacks & Savories, Dry Fruits and instant mixes.

During the year (2014-15) Kohinoor Processed & Packaged Food recorded a business of Rs. 769 Mn as against Rs. 732 Mn in the previous year. A modest growth on account of lower sales to USA and discontinuation of certain categories such as Biscuits, Instant Mixes & Pickles. However we added new product categories such as Rice Bran Oil & Healthy range of Quinoa based Products to expand our bouquet of product portfolio.

Bulk of Kohinoor's processed food business to the extent of 70% is contributed by the clients of Private Label; so in the event of any issue with the major client has direct bearing on our Revenues.

However we expect to notch up some good numbers in the next financial year through some exciting product launches, increased Distribution Network and acquire new customers in new markets.

Highlights (2014-15)

- Ready to Eat (ambient) segment of products achieved the sales of INR 615 Mn in financial year 2014-15 as compared to INR 553 Mn achieved in last financial year, a growth of 11%.

Industry Overview

Food Processing Industry

The Indian market offers a huge potential for the food processing industry - more so because of the fact that it promotes two main growing factors of our Indian Economy - Industry & Agriculture. During the last one decade, India moved from a position of scarcity to surplus in Food. Given the trade in production of food commodities, the Food Processing Industry in India is on an assured track of growth and profitability. It is expected to attract phenomenal investment in capital, human, technological and financial areas. A reason why the Food Processing Industry sector in India has been accorded high priority by the Government of India, with a number of fiscal relief and incentives, to encourage commercialization and value addition. As per a study conducted by McKinsey and Confederation of Indian Industry (CII), the turnover of the total food market is approximately Rs.250,000 Crores, out of which value-added food products comprise Rs.80,000 Crores.

Basmati Rice

Like any other commodity business, Basmati Rice is a category which is little complex and widely unorganized. With an industry estimated consumption of around 1.5 million tonnes of Basmati Rice in India, this is one category which has grown significantly over the years and slated to grow further in times to come. Though majorly unorganized, but year on year this category is experiencing good number of conversions from unbranded to branded packaged Basmati Rice in terms of consumptions in India. This is mainly due to introduction of branded and package basmati rice in many retail outlets. India's growing middle class has augmented the domestic demand of branded rice. Moreover, introduction of modern food retail formats has also propelled the packaged food market, facilitating the availability, visibility and accessibility of branded products. The domestic branded market in India is expected to grow in double digits as compared to single digit growth for unbranded rice. Eating rice is common habit in most of the Indian households and it is usually a part of one of the 3 meals cooked every day. Geographically, the consumption of Basmati is higher in the Northern & Western part of the country while culturally, its consumption is quite high in the Punjabi & Gujarati families. With the view of serving the best to their customers & employees, Basmati consumption is also higher in well recognized hotels & large institutions. The consumption of branded packaged Basmati Rice is also being driven by the modern retail that allows every consumer to select what they want.

Ambient - Ready Meals

Ready Meals, is a category which is gaining popularity globally though still at a growing stage; but the factors that has so far contributed to sales of Ready Meals have been increasing

consumer base of working people who have less time to spend on cooking, Eating out of home becoming a common phenomena on weekends, growth of Modern trade, the Convenience of making exotic vegetarian & non-vegetarian dishes in just a few minutes, etc. As this category grows, an Innovative value addition to products with Health & Nutrition is expected to become an important aspect of it.

Frozen Food - Ready Meals

Though Frozen Food as a category constitutes many products, majority of it being the frozen unprocessed non-vegetarian food, but within this segment vegetarian Frozen Ready Meals, snacks too is growing at significant rate. The factors that contribute to the growth of this category is very similar to that of Ambient Ready Meals like growing consumer base of working people who have less time to spend on cooking, Eating out of home becoming a common phenomena every week & on weekend, Growth of Modern trade, the Convenience of making exotic Vegetarian dishes in just a few minutes, etc.

Risks & Concerns

Macro-economic factors like recession, subdued demand and political uncertainty may affect the business of the Company and the industry at large as well. The Company is aware that uncertainties in business offer opportunities as well as downside risks and thus has identified and put in place mitigation tools for the same. Some key risk areas are:

Procurement risk: Adequate availability of key raw materials at the right prices is crucial for the Company. Being a generic natural product with low yield concentrated in a small region of the World, production of Basmati depends on the vagaries of nature. Therefore, any disruption in the supply due to a natural or other calamity or violent changes in the cost structure could adversely affect the Company's ability to reach its consumers with the right value proposition. However, we are ready with plans that might help us at such times. However, the Company's long term relationship with farmers built on trust ensures constant supply and thus over the years it has not faced any procurement problems. Also, adequacy of irrigation facilities in the Basmati producing regions mitigates these uncertainties.

High working capital requirement: Basmati rice requires to be aged for 9-12 months before selling, leading to huge working capital requirements. This results in low ROCE for the industry. Combating this risk, efficient working capital management system has been set in place by the Company and cash flow is monitored on daily basis.

Intense competition from unorganized sector: Another characteristic of this industry is the presence of unorganized

sector offering basmati in loose unbranded form which intensifies competition. The Company is moving towards branded products and has invested significantly in building strong brands which helps differentiate their product.

1. Significant Accounting Policies

(a) **Basis of Preparation of Financial Statements :**

The financial statements are prepared and presented under the historical cost convention, on the accrual basis of accounting and comply with the generally accepted Accounting Principles in India including Accounting Standards notified under the relevant provisions of the Companies Act, 2013 to the extent applicable, as adopted consistently by the company.

(b) **Use of Estimates and Judgments :**

The preparation of financial statements are in conformity with the Accounting Standards which requires Management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosures relating to the contingent liabilities as on the date of balance sheet and the reported amount of revenues and expenditures during the reporting period. The estimates and assumptions used in the Financial Statements are based upon Management's best evaluation of the relevant facts and circumstances as of the date of the Financial Statements. Examples of such estimates include useful life of fixed assets, creation of deferred tax asset, lease rentals and write off of deferred revenue expenditure. Actual results may differ from those estimates.

(c) **Revenue Recognition :**

The company follows the mercantile system of accounting and recognizes the income and expenditures on accrual basis except in case of significant uncertainties. Certain items of income such as insurance claim, market fees refund, overdue interest from customers etc have been considered to the extent the amount is accepted by the parties. The principles of the revenue recognition are given below:-

Sales are recognized as follows :

Domestic Sales - At the point of dispatches to customers.

Export Sales - At the time of issue of Bill of Lading.

Sales are recorded net of sales returns, price differences and sales tax.

Sale of license and duty draw back are recognized on realization basis.

(d) **Fixed Assets:**

Fixed assets are stated at cost less accumulated depreciation and impairment losses, if any. Cost comprises the purchase price and any directly attributable cost of bringing the asset to its working condition for its intended use. All costs, including financing cost till commencement of commercial production, net charges on foreign exchange contracts, if capitalization criteria are met.

Capital work in progress is stated at cost. Capital WIP includes the cost of fixed assets that are not yet ready for their intended use, as on the balance sheet date.

(e) **Depreciation:**

Depreciation is provided on written down value basis at rates provided in Schedule II to the Companies Act, 2013. The depreciation rates which are different from the principal rates specified in Schedule-II are as follows:-

Tarpaulin: 100% p.a.

Wooden & Plastic Crates: 100% p.a.

Depreciation on addition to fixed assets is provided on pro-rata basis from the date the assets are acquired/installed. Depreciation on sale/deduction from fixed assets is provided for upto the date of sale, deduction and discardment as the case may be.

(f) **Impairment of Assets:**

The carrying amounts of assets are reviewed at each balance sheet date if there is any indication of impairment based on internal / external factors. An impairment loss is recognized wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the assets net selling price and value in use. In assessing value in use the

estimated future cash flows are discounted to their present value at the weighted average cost of capital.

(g) Expenditure Incurred during Construction Period:

Expenditure directly relating to construction activity is capitalized, Indirect expenditure incurred during construction period is capitalized as part of the indirect construction cost to the extent to which the expenditure indirectly related to construction or is incidental thereto. Other indirect expenditure (including borrowing costs) incurred during the construction period which is not related to the construction activity nor is incidental thereto is charged to the Statement of Profit and Loss. Income earned during construction period is deducted from the total of the indirect expenditure.

All direct capital expenditure on expansion are capitalized. As regards indirect expenditure on expansion, only that portion is capitalized which represents the marginal increase in such expenditure involved as a result of capital expansion. Both direct and indirect expenditure are capitalized only if they increase the value of the asset beyond its original standard of performance.

(h) Leases:

(a) Finance Lease:

- (i) Assets taken on finance lease are capitalised at fair value or net present value of the minimum lease payments, whichever is less.
- (ii) Lease payments are apportioned between the finance charges and outstanding liability in respect of assets taken on lease.

(b) Operating Lease:

Leases, where the lessor effectively retains substantially all the risks and benefits of ownership of the leased term are classified as operating lease. Charges are recognized as an expense in the Statement of Profit and Loss on a straight line basis over the lease term.

(i) Government Grants:

Grants in the nature of capital contribution towards setting up of projects in backward area is adjusted from the cost of the related fixed assets. Grants related to revenue are deducted from the related expense.

(j) Income Taxes:

- (i) Tax expense comprises current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with Income Tax Act, 1961. Deferred income tax reflects the impact of current year timing differences between taxable income that originates in one period and are capable of reversal in one or more subsequent periods.
- (ii) Minimum Alternate Tax (MAT) paid in accordance with Income Tax Act, 1961 gives rise to future economic benefits in the form of adjustments of future income tax liability against such payments.
- (iii) Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. Deferred tax assets are recognized only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. Deferred tax assets are recognized on carry forward of unabsorbed depreciation and tax losses only if there is virtual certainty that such deferred tax assets can be realized against future taxable profits. Unrecognized deferred tax assets of earlier years are re-assessed and recognized to the extent that it has become reasonably certain that future taxable income will be available against which such deferred tax assets can be realized.

(k) Provisions, Contingent Liabilities and Contingent Assets :

Provisions

A provision is recognised when the company has a present obligation as a result of past event; it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

Contingent Liability

A contingent liability is disclosed where, as a result of past events, there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Defined Benefit Plan

Gratuity cost is a defined Benefit Plan. The present value of obligations under such defined benefit plan is determined based on actuarial valuation carried out by an independent actuary using the Projected Unit Credit Method, which recognises each period of service as giving rise to additional unit of employee benefit entitlement and measure each unit separately to build up the final obligation. The obligation is measured at the present value of estimated future cash flows. The discount rates used for determining the present value of obligation under defined benefit plans, is based on the market yields on Government securities as at the balance sheet date, years approximating to the terms of related obligations. Actuarial gains and losses are recognised immediately in the profit and loss statement. Gains or losses on the curtailment or settlement of any defined benefit plan are recognised when the settlement occurs.

Non-monetary items are carried in terms of historical cost denominated in foreign currency using the exchange rates at the date of transaction.

Forward contracts other than those entered into to hedge foreign currency risk on unexecuted firm commitment or of highly probable forecast transactions are treated as foreign currency transactions and accounted accordingly. Any profit or loss arising on cancellation of a forward contract is recognized as income or expense in the period in which they arise.

The weighted average numbers of equity shares outstanding during the year are adjusted for events of bonus issue; bonus element in a rights issue to existing shareholders; share split; and reverse share split (consolidation of shares).

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

Nature of Contingent Liabilities and other particulars are as given below:-

- i The Company has preferred an appeal before the Income Tax Appellate Tribunal, New Delhi against the impugned Income Tax Assessment Order in respect of Assessment Years 2002-03 to 2008-09 in which additional income tax of Rs. 63.32 Cr (Pr. Yr. 63.32 Cr) alongwith interest Rs. 31.55 Cr. (Pr. Yr.-Rs.31.55 Cr.) has been demanded. Subsequently, company has deposited Rs. 13.50 Cr. "Under Protest" against the aforesaid demand.

Subsequently, during the last year, Hon.'ble ITAT, New Delhi has passed its order on 21st July 2014 against the above appeal and has granted significant relief by deleting the addition of more than Rs. 110 Cr out of the total addition of Rs. 185 Cr. In view of the substantial material placed on the record, Hon'ble ITAT has remanded back certain issues to the Assessing Officer for fresh adjudication. As per the partial appeal order effect received from the Deptt., the tax demand and interest demand stand reduced to Rs.30.23 Cr and Rs.24.83 Cr. respectively.

Against the above ITAT order, appeal filed by the Income Tax Deptt. has been dismissed by Hon.'ble Delhi High Court whereas company's appeal filed before Hon.'ble Delhi High Court is pending to be heard.

The Company has preferred another appeal before the Income Tax Appellate Tribunal, New Delhi against the impugned Income Tax Assessment Order in respect of Assessment Years 2009-10 in which income tax of Rs. 17.90 Cr alongwith interest Rs. 10.54 Cr. has been demanded.

The Company has preferred another appeal before the Income Tax Appellate Tribunal, New Delhi against the impugned Income Tax Assessment Order in respect of Assessment Years 2010-11 in which income tax of Rs. 23.31 Cr alongwith interest Rs. 13.48 Cr. has been demanded.

The Company has also filed objections before the Dispute Resolution Panel, New Delhi against the draft assessment order passed by the Income Tax Deptt. in respect of Assessment Years 2011-12. The tax effect of the additions made are estimated at Rs. 26.89 Cr.

As per the advice received from legal experts and on the basis of merit of the case, there is a high probability that the aforesaid impugned orders will be set aside and the demand will be deleted. Accordingly, management is of the view that no provision in respect of the above demand is required to be made in the books of accounts.

- ii An appeal before the Sales Tax Commissioner - Appeals, New Delhi is lying pending in respect of Sales Tax demand on sale of REP Licences made in earlier years.
- iii An appeal is lying pending before the Dy. Excise & Taxation Commissioner-Appeal, Punjab against the Order received from Excise and Taxation Deptt., Punjab in respect of Year 2009-10 and 2010-11 demanding a sum of Rs. 4.50 Cr towards the cess imposed by the State Govt. on exports. The company has challenged the validity of imposition of cess on export in its appeal as the same is not permissible under article 286 of the Constitution of India. Further demand has been raised for Rs. 26.83 Lacs after completing the Sales Tax assessment for AY 2011-12 against which appeal has been filed.

- iv An appeal before the Customs, Excise & Service Tax Appellate Tribunal, New Delhi is lying pending against the order of Commissioner of Central Excise (Appeals), Delhi -III in respect of additional excise duty demanded by the Excise department in connection of dispute over classification of goods - food product produced at Bahalgarh Factory- as per the Central Tariff Act. As the matter is still pending before the Tribunal, no provision in the books of accounts have been made
- v An appeal before the Appellate Tribunal is lying pending against the order received from the office of Service Tax Commissionerate, New Delhi demanding the service tax & penalty Rs. 2.59 Cr in respect of certain services provided in earlier years. As per the advice received from the legal experts and on the basis of merit of the case, management is of the view that no provision in respect of the above demand is required to be made in the books of accounts. Subsequently, the company has deposited Rs.20 Lacs "Under Protest" as per the directions given in the stay order granted by Appellate Tribunal in this regard.
- vi The company has filed a suit for declaration, and mandatory injunction against the Reserve Bank of India and Punjab National Bank before the Hon'ble High Court, New Delhi for loss of Rs. 27.49 Cr. arising out of forex derivative transactions.
- vii The Board of Trustee of the port of Mumbai has filed a money suit for recovery of Rs. 9.64 Cr. towards alleged outstanding demurrage charges against which the company has filed its counter claim of Rs. 10.88 Cr. towards the financial losses, interest on the investment, refund of the license fees, refund of the demurrage charges, compensation and damages etc.
- viii The company has filed appeals before the Jt. Excise and Taxation Commissioner (Appeals), Haryana against the order passed by Haryana VAT Authority, Sonapat demanding the additional tax of Rs. 1.24 Cr. for the Assessment Year 2010-11. The Company has also filed another appeal before the Tribunal, Haryana State against the order passed by Jt.
