Dividend related information

1. The Register of Members and Share Transfer Books of the Company will remain closed from Saturday, September 20, 2025 to Monday, September 29, 2025 (both days inclusive), for the purpose of dividend for the financial year ended March 31, 2025 and Annual General Meeting.
2. Dividend of Rs. 4.00 per equity share as recommended by the Board of Directors for the year ended March 31, 2025 is subject to the approval by the Members at the ensuing Annual General Meeting.
3. To prevent fraudulent transactions, Members are advised to exercise due diligence and notify the Company for any change in address or demise of any Member as soon as possible. Members are also advised not to leave their demat account(s) dormant for long. Periodic statement of holdings should be obtained from the concerned Depository Participant and holdings should be verified.
4. Securities and Exchange Board of India ("SEBI") has mandated the submission of Permanent Account Number ("PAN") by every participant in securities market. Members holding shares in electronic form are, therefore, requested to submit the PAN to their Depository Participants with whom they are maintaining their demat accounts. Members holding shares in physical form are requested to submit their PAN/ bank details to the Company / Registrar & Transfer Agent. Also SEBI has informed that securities of listed companies can be transferred only in dematerialised form. In view of the above and to avail various benefits of dematerialisation, Members are advised to dematerialise equity shares held by them in physical format at the earliest.
5. **TDS ON DIVIDEND:** Pursuant to the Income-tax Act, 1961, as amended by the Finance Act, 2020, dividend income will be taxable in the hands of Members with effect from 1st April, 2020 and therefore, the Company shall be required to deduct tax at source (TDS) from dividend paid to Members at the prescribed rates. For the prescribed rates for various categories, Members are requested to refer to the Finance Act, 2020 and amendments thereof.

Members are requested to update their Permanent Account Number ("PAN") with the Company and depositories (in case of shares held in demat mode).

For Resident Shareholders, tax shall be deducted at source under Section 194 of the Income-tax Act, 1961@ 10% on the amount of Dividend declared and paid by the Company w.e.f. the Financial Year ("FY") 2021-22 in case the PAN is provided by the shareholder. **If PAN is not submitted, TDS would be deducted @ 20% as per Section 206AA of the Income-Tax Act, 1961.** However, no TDS shall be deducted on the Dividend payable to a resident Individual if the total dividend to be received during FY 2025-26 does not exceed Rs.10,000. Separately, in cases where the shareholder provides Form 15G (applicable to any person other than a Company or a Firm)/Form15H (applicable to an Individual above the age of 60 years), no tax at source shall be deducted provided that the eligibility conditions are being met. Needless to say, PAN is mandatory. Members are requested to note that in case their PAN is not registered, the tax will be deducted at a higher rate of 20%.

In order to provide exemption from withholding of tax, the following organizations must provide a self-declaration as listed below:

- Insurance Companies: A declaration that they are beneficial owners of shares held.
- Mutual Funds: A declaration that they are governed by the provisions of Section 10(23D) of the Act along with copy of registration documents (self-attested).

Other categories may provide requisite documents in accordance with the Income-Tax Act, 1961.

For Non-resident Shareholders, taxes are required to be withheld in accordance with the provisions of section 195 of the Income Tax Act, 1961 at the applicable rates in force. As per the relevant provisions of section 195 of the said Act, the withholding tax shall be at the rate of 20% (plus applicable surcharge and cess) on the amount of Dividend payable to them. In case of Foreign Portfolio Investors / Foreign Institutional Investors, the withholding tax shall be as per the rates specified in Section 196C and 196D of the Act respectively plus applicable surcharge and cess on the amount of Dividend payable to them. However, as per Section 90 read with Section 195 of the Income-Tax Act, the non-resident shareholder has the option to be governed by the provisions of the Double Tax Avoidance Agreement ("DTAA") between India and the country of tax residence of the shareholder, if they are more beneficial to them. For this purpose, i.e. to avail the Tax Treaty benefits, the non-resident shareholder will have to provide the following:

- (a) Self-attested true copy of Tax Residency Certificate ("TRC") obtained from the tax authorities of the country of which the shareholder is resident for the Financial Year 2024-25;
- (b) Self declaration in Form 10F;
- (c) Self-attested true copy of the PAN Card if allotted by the Indian Income Tax authorities;
- (d) Self-declaration, certifying that the (i) Shareholder is and will continue to remain a tax resident of the country of its residence during the Financial Year 2025-26; (ii) Shareholder is eligible to claim the beneficial DTAA rate for the purposes of tax withholding on dividend declared by the Company; (iii) Shareholder has no reason to believe that its claim for the benefits of the DTAA is impaired in any manner; (iv) Shareholder does not have a taxable presence or a Permanent Establishment ("PE") in India during the Financial Year 2025-26. In any case, the amounts paid/payable to the Shareholder are not attributable or effectively connected to the PE or fixed base, if any, which may have got constituted otherwise; (v) Shareholder is the ultimate beneficial owner of its shareholding in the Company and dividend receivable from the Company; and (vi) Non-resident shareholder is satisfying the Principle Purpose Test as per the respective tax treaty effective 1st April, 2020 (if applicable).

Please note that the Company is not obligated to apply the beneficial DTAA rates at the time of tax deduction/ withholding on dividend amounts. Application of beneficial DTAA rate shall depend upon the completeness and satisfactory review by the Company, of the documents submitted by the Non-Resident shareholder. Members may submit the aforementioned documents to the Company on or before September 21, 2025 in order to enable the Company to determine and deduct appropriate tax. No communication on the tax determination/ deduction may be entertained post September 21, 2025.

It may be further be noted that in case the tax on said dividend is deducted at a higher rate in absence of receipt of the aforementioned details/documents from the Shareholders, there would still be an option available with the Shareholders to file the return of income and claim an appropriate refund, if eligible.

The Company may arrange to email the soft copy of TDS certificate to the Shareholders at the registered email ID in due course, post payment of the said Dividend.

MANAGEMENT DISCUSSION & ANALYSIS

MACRO-ECONOMIC OUTLOOK

The global economic outlook for FY25 is marked by moderate growth amid policy shifts and rising uncertainties. According to the IMF, global growth declined slightly, with downside risks intensifying due to escalating trade tensions and financial market adjustments. Inflation is projected to ease at a slower pace than previously expected, influenced by policy-driven disruptions and fluctuating commodity prices. While the United States continues to show resilience, other advanced economies face currency depreciation and weaker growth prospects. Emerging markets may experience volatility due to tightening global financial conditions and shifting trade policies. To navigate these challenges, policymakers are urged to promote international cooperation, address structural imbalances, and implement reforms that enhance productivity and labor force participation. The economic landscape remains uncertain, requiring businesses and governments to remain agile in their strategies.

India's economic outlook for FY25 remained strong and resilient, with projected GDP growth of 6.2% to 6.4%. The country is expected to maintain its position as the fastest-growing major economy through 2026, driven by domestic demand, infrastructure investments, and policy reforms. Inflation has eased to 4.6%, supported by government interventions and stable food prices. However, global trade uncertainties and tariff-related disruptions pose challenges, requiring India to focus on capital formation, employment generation, and structural reforms. Despite external pressures, manufacturing, services, and private consumption continue to show positive momentum, reinforcing India's economic stability.

AUTOMOTIVE INDUSTRY

The Indian automotive industry continued its growth trajectory in FY25, with passenger vehicle sales reaching a record 4.3 million units, marking a 2% increase over FY24. Utility vehicles (UVs) remained the primary driver, accounting for 65% of total sales, up from 60% in FY24. The two-wheeler segment saw a significant 9.1% growth, supported by rural demand and product innovations. The commercial vehicle (CV) segment faced a slight decline of 1.2% in FY25 compared to the previous year. However, the last quarter of FY25 showed a modest recovery with 1.5% growth. Apart from increase in Domestic sales, Automobile exports also surged by 19%, driven by strong demand for passenger vehicles, two-wheelers, and commercial vehicles in overseas markets.

India's electric vehicle (EV) market saw strong growth in FY25, with total EV sales surpassing 2 million units. Electric two-wheelers (E2Ws) led the segment, accounting for over 50% of total EV sales, followed by electric three-wheelers (E3Ws) at 36%. Passenger EV sales crossed 100,000 units, marking an 18% year-on-year increase. EV adoption in commercial vehicles also gained traction, particularly in urban logistics and public transport.

FUTURE OUTLOOK

The outlook for India's automotive industry in FY26 suggests continued growth, though at a moderate pace across various segments. The passenger vehicle (PV) industry is expected to reach five million units, marking a 2-4% growth, driven by utility vehicles (UVs), which continue to dominate sales. However, entry-level car demand remains weak, impacting overall PV growth.

The commercial vehicle (CV) sector may see flat to marginal growth, supported by urban logistics and infrastructure projects, but higher fuel costs and regulatory changes could pose challenges.

The two-wheeler (2W) segment is projected to return to pre-pandemic levels, with high single-digit growth, driven by lower EMLs, increased disposable income, and favourable monsoons.

For the EV market, growth remains positive, with electric two-wheelers (E2Ws) expected to grow by over 20%, reaching 1.4-1.5 million units. EV penetration in passenger vehicles is expected to remain moderate at 3-3.5%, constrained by high costs and limited charging infrastructure.

The ongoing tariff war is expected to moderate revenue growth for India's auto component industry, with projections adjusting to 6-8% in FY26, down from earlier estimates of 8-10%. The new tariffs imposed by the U.S. could add ₹9,000 crores in incremental costs across the supply chain, impacting Indian exporters and U.S. importers. Indian auto component exporters may face a revenue hit of Rs.2,700-4,500 crore, leading to operating margin declines of 50-100 basis points.

OPPORTUNITIES

India's automotive industry continues to present strong growth potential, with the country expected to solidify its position as the third-largest passenger vehicle market globally. The government's push for localization and production-linked incentives (PLI) are driving investments in electric vehicles (EVs), battery technology, and auto components. The rise of connected and autonomous vehicles, along with increased digitalization, is creating new business models and revenue streams. Additionally, export opportunities are expanding, with India emerging as a key manufacturing hub for global automakers. The two-wheeler segment is expected to benefit from rural recovery and favourable financing options, while utility vehicles (UVs) continue to dominate passenger vehicle sales.

FINANCIAL & OPERATIONAL PERFORMANCE

The net revenue from operations for the financial year ended March 31, 2025 is Rs. 85,519.91 Lakhs as against Rs. 72,625.19 Lakhs in the previous financial year. Profit before tax is Rs.1,713.13 Lakhs as compared to Rs.1,629.79 Lakhs in the previous financial year. Earnings before Interest, Depreciation and Taxes (EBIDTA) is Rs. 5,080.51 lakhs as compared to Rs. 4,081.92 lakhs during the preceding year. Going forward, the management is focused on further improvements in operations performance and cost control.

Imports would continue to be a challenge for the Company in view of volatility in foreign exchanges and also fluctuations in geo-political environment. On the other side, this would be an opportunity for us to push localisation in India and become self-sufficient to meet our demand. The Company has continued its efforts to improve the level of localisation of imported parts. Various activities were initiated along with active participation of suppliers to improve efficiency of operations. This has contributed greatly in reduction

of material cost and exposure to foreign exchange fluctuation.

INTERNAL CONTROLS AND THEIR ADEQUACY

In the opinion of the Management, the Company has adequate internal audit and control systems to ensure that all transactions are authorized, recorded and reported correctly. An independent internal audit function is an important element of the Company's internal control systems. This is supplemented with an extensive internal audit programme and periodic review by the management and the Audit Committee.

The Corporate Governance practices instituted by the Company are discussed in detail in the chapter on Corporate Governance which forms part of this Annual Report.

CHALLENGES

Despite the growth prospects, the industry faces several hurdles. Regulatory compliance remains a challenge, with stringent emission norms and safety mandates increasing production costs. Geopolitical tensions and tariff wars could disrupt auto component imports and exports, impacting supply chains. Consumer affordability concerns, especially in the entry-level car segment, may slow demand growth. Additionally, EV adoption faces hurdles due to high upfront costs, limited charging infrastructure, and battery supply constraints. The commercial vehicle (CV) sector is also navigating fuel price volatility and evolving freight policies, which could affect fleet expansion.

Overall, while India's automotive industry is on a strong growth trajectory, companies must adapt to evolving regulations, technological shifts, and global trade dynamics to sustain momentum.

Risks & Concerns for India's Automotive Industry in FY26

Regulatory & Compliance Challenges

Stricter emission norms and safety regulations continue to push up production costs, requiring manufacturers to invest in new technologies and compliance measures. The transition to BS-VI Phase 2 norms has increased vehicle prices, impacting affordability for entry-level buyers.

Supply Chain Disruptions

Global semiconductor shortages and battery material constraints remain key concerns, affecting EV production and delivery timelines. Additionally, tariff wars and geopolitical tensions could disrupt auto component imports, leading to higher costs for manufacturers.

Economic & Policy Uncertainty

Fluctuations in interest rates, taxation policies, and fuel prices may impact consumer purchasing power. Political shifts and trade restrictions could also influence investment decisions and export strategies.

EV Adoption Barriers

While EV growth is strong, high upfront costs, limited charging infrastructure, and battery supply issues continue to slow mass adoption. Government incentives play a crucial role, but policy inconsistencies could affect long-term EV expansion.

Cyber security & Digital Risks

With the rise of connected vehicles and digital ecosystems, the industry faces increasing cyber security threats. Protecting consumer data and vehicle software from cyber attacks is becoming a priority for automakers.

Despite these challenges, India's automotive industry remains resilient, with strong domestic demand and evolving technological advancements driving growth.

HUMAN RESOURCE MANAGEMENT

Human resources play a pivotal role in the automotive industry, which is characterized by rapid technological advancements and intense competition. Effective HR management is crucial for attracting, developing, and retaining a skilled workforce that can adapt to changing industry dynamics. Fostering a culture of continuous learning and innovation is essential for maintaining a competitive edge. Also need to address challenges such as skill gaps, diversity, and evolving labour laws, ensuring the workforce is aligned with the company's strategic objectives. The company maintains a strong focus on human resources by enhancing employee engagement, optimizing talent management, and driving organizational performance.

Cautionary Statement Certain statements in the Management Discussion and Analysis Report describing the Company's objectives, projections, estimates, expectations or predictions may be "forward looking statements" within the meaning of applicable securities laws and regulations. Independent Auditor's Report

To the Members of Jay Ushin Limited

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying Financial Statements of Jay Ushin Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2025, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and notes to the Financial Statements including a summary of material accounting policies and other explanatory information (hereinafter referred to as "the Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Financial Statements give the information required by the Companies Act, 2013, ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards ("Ind AS") prescribed under section 133 of the Act and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2025 and its profit and other comprehensive loss, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the Financial Statements in accordance with the Standards on Auditing ("SAs") specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the Financial Statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the Financial Statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Financial Statements of the current period. These matters were addressed in the context of our audit of the Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined that there are no key audit matters to communicate in our report.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors are responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility & Sustainability Report and Report on Corporate Governance and Shareholder's information, but does not include the Financial Statements and our auditor's report thereon.

Our opinion on the Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Financial Statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Management and Those Charged with Governance for the Financial Statements

The Company's Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Financial Statements that give a true and fair view of the financial position, financial performance including other comprehensive loss, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Ind AS specified under Section 133 of the Act.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, Management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Company's Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of

assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken based on these Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to Financial Statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of Section 143(11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143(3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive income, Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the relevant books of accounts.
 - d) In our opinion, the aforesaid Financial Statements comply with the Ind AS specified under Section 133 of the Act.
 - e) On the basis of the written representations received from the directors as on March 31, 2025 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2025, from being appointed as a director in terms of Section 164 (2) of the Act.
 - f) With respect to the adequacy of the internal financial controls with reference to the Financial Statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls with reference to the Financial Statements.
 - g) With respect to the Other Matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended in our opinion and to the best of our information and according to the explanation given to us, the remuneration paid/provided by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.

- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
- i. The Company has disclosed the impact of pending litigations as at March 31, 2025 on its financial position in its Financial Statements. Refer note 50 to the Financial Statements.
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There has been no delay in transferring amounts required to be transferred to the Investor Education and Protection Fund by the Company.
 - iv. (a) The Management has represented to us that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other persons or entities, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
 - (b) Management has represented to us that, to the best of its knowledge and belief no funds have been received by the Company from any person(s) or entities, including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
 - (c) Based on our audit procedure conducted that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that cause us to believe that the representation under sub-clause (i) and (ii) of Rule 11 (e), as provided under (a) & (b) above, contain any material misstatement.
 - (v) As states in note 57 to the Financial Statements:
 - (a) The final dividend proposed in the previous year, declared and paid by the Company during the year is in accordance with section 123, as applicable.
 - (b) In our opinion, according to the information and explanations given to us, the Company has not declared and paid any interim dividend during the year.
 - (c) The Board of Director of the Company have proposed final dividend for the year, which is subject to the approval of the members at the ensuing Annual General Meeting. The dividend declared is in accordance with Section 123 of the Act, as applicable.
 - (vi) Based on our examination, which included test checks, the Company has used accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all the transactions recorded in the software. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with and the audit trail has been preserved by the Company as per the statutory requirements for record retention.

ANNEXURE “B” TO THE INDEPENDENT AUDITOR’S REPORT

(Referred to in paragraph 2(f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report to the Members of Jay Ushin Limited of even date)

We have audited the internal financial controls with reference to the Financial Statements of Jay Ushin Limited (“the Company”) as on March 31, 2025 in conjunction with our audit of the Financial Statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s Management is responsible for establishing and maintaining internal financial controls with reference to Financial Statements based on the internal control over financial reporting criteria, established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the “ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls with reference to Financial Statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the ICAI and the Standards on Auditing prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to Financial Statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to Financial Statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to Financial Statements and their operating effectiveness. Our audit of internal financial controls with reference to Financial Statements included obtaining an understanding of internal financial controls with reference to Financial Statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls with reference to the Financial Statements.

Meaning of Internal Financial Controls with reference to the Financial Statements

A company’s internal financial control with reference to Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Financial Statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control with reference to Financial Statements includes those policies and procedures that (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of the Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Company’s assets that could have a material effect on the Financial Statements.

Inherent Limitations of Internal Financial Controls with reference to the Financial Statements

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to Financial Statements to future periods are subject to the risk that the internal financial control with reference to Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls with reference to Financial Statements and such internal financial controls with reference to Financial Statements were operating effectively as at March 31, 2025, based on the criteria for internal financial control with reference to Financial Statements established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Securities Premium Reserves

The Company can utilize the same for the purpose of buy back of shares or issue of bonus shares as decided by the management.

General Reserve

The general reserve is used from time to time to transfer profits from retained earnings for appropriation purposes. As the general reserve is created by a transfer from one component of equity to another and is not an item of other comprehensive income, items included in the general reserve will not reclassified subsequently to profit or loss.

Retained Earnings

Retained earnings are profits that the Company has earned till date, less any transferred to general reserve, dividends or other distribution paid to shareholders.

Other Comprehensive Income (OCI)

This represents the remeasurement of defined benefit obligation net of income tax, which is directly recognised in other comprehensive income.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

1. General Information

Jay Ushin Limited ("The Company") is a public limited company domiciled & incorporated in India and Listed on BSE Limited. The address of its registered office and principal place of business is GI 48, GT Karnal Road, Industrial Area, Delhi 110033. The principal activities of the Company are manufacturing, purchases and sale of components such as Lock and Key Sets, Switches, Heater Control Panels (HVAC) and Door Latches for automobiles.

The financial statements for the year ended March 31, 2025 were approved by the Board of Directors and authorised for issue on May 29, 2025.

2. Basis of preparation of Financial Statements**2.1 Statement of Compliance**

The financial statements have been prepared as a going concern in accordance with Indian Accounting Standards (Ind AS) notified under the Section 133 of the Companies Act, 2013 ("the Act") read with the Companies (Indian Accounting Standards) Rules, 2015 and other relevant provisions of the Act.

2.2 Basis of Measurement

The financial statements have been prepared on the historical cost convention on accrual basis except for certain financial instruments which are measured at fair value at the end of each reporting period, as explained in the accounting policies mentioned below. These financial statements are presented in Indian Rupee (INR), which is also the Company's functional currency.

All assets and liabilities have been classified as current or noncurrent according to the Company's operating cycle and other criteria set out in the Act and Ind AS. Based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents less than twelve month so, the Company has ascertained its operating cycle as twelve months for the purpose of current non-current classification of assets and liabilities.

The principal accounting policies are set out below.

2.3 Going concern

The board of directors have considered the financial position of the Company as at March 31, 2025 and the projected cash flows and financial performance of the Company for at least twelve months from the date of approval of these financial statements as well as planned cost and cash improvement actions, and believe that the plan for sustained profitability remains on course.

The board of directors have taken actions to ensure that appropriate long-term cash resources are in place at the date of signing the accounts to fund the Company's operations.

2.4 Operating Cycle

All assets and liabilities have been classified as current and non-current as per the Company's normal operating cycle and other criteria set out above which are in accordance with the Schedule III of the Act. Based on the nature of services and time between the acquisition of assets for providing of services and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current / non-current classification of assets and liabilities.

2.5 Use of Estimates

The preparation of the financial statements in conformity with IND AS requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Application of accounting policies that require critical accounting estimates involves complex and subjective judgments and the use of assumptions in these financial statements have been disclosed in Notes.

Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

3. Material Accounting Policies**3.1 Revenue from contract with customer**

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. The Company has generally concluded that it is the principal in its revenue arrangements because it typically controls the goods or services before transferring them to the customer.

Sale of goods

Revenue from sale of goods is recognised at the point in time when control of the asset is transferred to the customer, generally on delivery of the goods. The normal credit term is 30 to 60 days upon delivery. The Company also considers whether there are other promises in the contract that are separate performance obligations to which a portion of the transaction price needs to be allocated. In determining the transaction price for the sale of goods, the Company considers the effects of variable consideration

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

the existence of significant financing components, non-cash consideration, and consideration payable to the customer (if any).

i) Variable Consideration

If the consideration in a contract includes a variable amount, the Company estimates the amount of consideration to which it will be entitled in exchange for transferring the goods to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved. The contracts for the sale of goods provide price revision receivable from/payable to customers on account of change of commodity prices/ purchase price and these prices escalations and relaxations give rise to variable consideration. Contract revenue includes price revision received/receivable from customers and similarly, price revision for material purchased or payable to vendors has also been included in purchases.

ii) Significant financing component

Generally, the Company receives short-term advances from its customers. Using the practical expedient in Ind AS 115, the Company does not adjust the promised amount of consideration for the effects of a significant financing component if it expects, at contract inception, that the period between the transfer of the promised good or service to the customer and when the customer pays for that good or service will be one year or less.

Contract balances

Contract Assets

A contract asset is a right to consideration in exchange for goods or services transferred to the customers. If the Company performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognized for the earned consideration that is conditional.

Trade receivables

A Receivable is classified as a 'trade receivable' if it is in respect to the amount due from customers on account of goods sold or services rendered in the ordinary course of business. A receivable represents the Company's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policies of financial assets for further reference.

Contract liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company performs under the contract.

Other revenue streams:

i) Interest Income

Interest income is recognised on a time proportion basis taking into account the amount outstanding and the applicable interest rate. Interest income is included under the head "other income" in the statement of profit and loss.

ii) Lease income

Rental income arising from operating leases on property let out by the Company is accounted for on a straight line basis over the lease terms and is included in other income in statement of profit and loss.

iii) Rendering of services

Revenue from service related activities is recognised as and when services are rendered and on the basis of contractual terms with the parties and is included in revenue in the statement of profit and loss under the head other income.

3.2 Leases

The Company is a lessee

The Company's lease asset classes primarily consist of leasehold land and buildings. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset. At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable

Impairment of non-financial assets

Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data from binding sales transactions, conducted at arm's length, for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a DCF model. The cash flows are derived from the budget for the next five years and do not include restructuring activities that the Company is not yet committed to or significant future investments that will enhance the asset's performance of the CGU being tested. The recoverable amount is sensitive to the discount rate used for the DCF model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes. These estimates are also relevant to other intangibles. During the year the Company has done the impairment assessment of non-financial assets and have concluded that there is no impairment in value of non-financial assets as appearing in the financial statements.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are re-measured with a corresponding adjustment to the related right of use asset if the Company changes its assessment or whether it will exercise an extension or a termination option.

The Company as a lessor

Leases for which the Company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

When the Company is an intermediate lessor, it accounts for its interests in the head lease and the sublease separately. The sublease is classified as a finance or operating lease by reference to the right-of-use asset arising from the head lease.

For operating leases, rental income is recognized on a straight line basis over the term of the relevant lease.

3.3 Cash and Cash Equivalents

Cash and cash equivalent includes cash on hand, cash at banks and short term deposits with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of change in value. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

3.4 Foreign currencies

In preparing the financial statements of the Company, transactions in currencies other than the company's functional currency (foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Foreign exchange differences on foreign currency borrowings are presented in the Statement of

profit and loss, within finance costs. Exchange differences on monetary items are recognised in profit or loss in the period in which they arise.

3.5 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

3.6 Employee benefits

Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which the company pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. Payments to defined contribution plans are recognised as an expense when employees have rendered service entitling them to the contributions.

Defined benefit plans

For defined benefit plans, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. Re-measurement, comprising actuarial gains and losses and the return on plan assets (excluding net interest), is reflected immediately in the balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur. Re-measurement recognised in other comprehensive income is reflected immediately in retained earnings and is not reclassified to the Statement of profit and loss.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset. Defined benefit costs are categorised as follows:

- Service cost (including current service cost, past service cost, as well as gains and losses or curtailments and settlements);
- Net interest expense or income; and
- Re-measurement

The Company presents the first two components of defined benefit costs in the Statement of profit and loss in the line item Employee benefit expense.

Remeasurements of the net defined benefit liability (asset), to be recognised in other comprehensive income.

The retirement benefit obligation recognised in the balance sheet represents the actual deficit or surplus in the Company's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plan or reductions in future contributions to the plans.

Short-term employee benefits

Liabilities recognised in respect of wages and salaries and other short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service and are expensed as the related services are provided.

Other long-term employee benefits

Liabilities recognised in respect of other long-term employee benefits are measured at the present value of the estimated future cash outflows expected to be made by the Company in respect of services provided by employees up to the reporting date based on the actuarial valuation using the projected unit credit method carried out at the year-end. Re measurement gain or losses are recognised in the statement of profit and loss in the period in which they arise.

3.7 Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit before tax as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Current and deferred tax for the year

Current and deferred tax are recognised in the statement of profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

3.8 Property, plant and equipment

Property, plant and equipment (including furniture, fixtures, vehicles, etc.) held for use in the production or supply of goods or services, or for administrative purposes, are stated in the balance sheet at cost of acquisition less accumulated depreciation and accumulated impairment losses, if any. Cost of acquisition is inclusive of freight, duties & taxes (not recoverable) and other incidental expenses. Freehold land is not depreciated and measured at cost.

Properties in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Cost includes items directly attributable to the construction or acquisition of the item of property, plant and equipment, and, for qualifying assets, borrowing costs capitalised in accordance with the Company's accounting policy. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Capital work-in-progress comprises of the cost of fixed assets that are not yet ready for their intended use at the reporting date.

Depreciation is recognised on the cost of assets (other than freehold land and properties under construction) less their residual values over their useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Depreciation is calculated using the straight line method on pro-rata basis from date when the asset is put to use. Estimated useful life of the assets are as follows which is based on technical evaluation of the useful lives of the asset:

Particulars	Useful Life
Leasehold land	Over the lease period
Buildings	30 Years
Leasehold improvement	30 Years
Plant & Machinery and Dies	8 Years
Furniture & Fixtures	10 Years
Office Equipments	5 Years
Vehicles	8 Years
Temporary structure	3 Years
Computer	3 – 6 Years

Subsequent expenditure related to an item of PPE is capitalised only when it is probable that future economic benefits associated with the item will flow to the Company. When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in statement of profit and loss as incurred. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or retirement of the asset and the resultant gain or losses are recognized in the statement of profit and loss.

Items of stores and spares that meet the definition of PPE are capitalised at cost. Otherwise, such items are classified as inventories.

Freehold land is in the nature of perpetual lease is not amortised.

All assets purchased during the year costing Rs. 5,000 or less are depreciated at the rate of 100%.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or de-recognition of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the Statement of Profit and loss.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

3.9 Investment properties

Property that is held for long-term rental yields or for capital appreciation or both, is classified as Investment property. Investment property is measured initially at its cost, including related transaction costs and where applicable borrowing costs. Subsequent expenditure is capitalised to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred. When part of an investment property is replaced, the carrying amount of the replaced part is derecognised.

Investment properties (except freehold land) are depreciated using the straight-line method over their estimated useful lives over a period of thirty years. These estimated useful lives are in accordance with those prescribed under Schedule II to the Companies Act, 2013.

3.10 Intangible assets**Intangible assets acquired separately**

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses. An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from de-recognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, and are recognised in the Statement of profit and loss when the asset is derecognised.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

Useful lives of intangible assets

Intangible assets, comprising of software, expenditure on model fee, etc. incurred are amortised on a straight line method over a period of 3 & 6 years on utilisation basis. Technical Fee amortised over a period of 4 years.

3.11 Impairment of tangible and intangible assets

At the end of each reporting period, the Company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Recoverable amount is the higher of fair value less costs of disposal and value in use.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss. When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in statement of profit or loss.

3.12 Inventories

Inventories are stated at the lower of cost and net realisable value. Raw material, packing material, stores and spares are valued at lower of cost, determined on the first in first out basis (FIFO)/weight average or net realisable value. However, raw materials and other items held for use in the production of inventories are not written down below cost, if the finished products in which they will be incorporated are expected to be sold at or above cost.

Finished goods and work in progress are valued at lower of cost, determined on the first in first out basis (FIFO)/weight average and net realizable value.

Cost of inventories comprises all cost of purchases, cost of conversion and other costs incurred in bringing the inventory to their present location and condition.

3.13 Provisions and contingencies**Provision**

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

Warranties

The estimated liability for product warranties is recorded when products are sold. These estimates are established using historical information on the nature, frequency and average cost of warranty claims and management estimates regarding possible future incidence based on corrective actions on product failures. The timing of outflows will vary as and when warranty claim will arise- being typically two to five years. These assurance-type warranties are accounted for under Ind AS 37 Provisions, Contingent Liabilities and Contingent Assets.

Contingent liabilities

A disclosure for a contingent liability is made where it is more likely than not that a present obligation or possible obligation may result in or involve an outflow of resources. When no present or possible obligation exists and the possibility of an outflow of resources is remote, no disclosure is made.

Contingent assets

A contingent assets are disclosed where an inflow of economic benefit is probable. An entity shall not recognise the contingent assets unless the recovery is virtually certain.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

3.14 Financial instruments

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through statement of profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in statement of profit or loss.

3.15 Financial assets**Initial recognition and measurement**

Financial assets are classified, at initial recognition and subsequently measured at amortised cost, fair value through other comprehensive income (OCI), and fair value through profit or loss.

Subsequent measurement

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Classification of financial assets

Debt instruments that meet the following conditions are subsequently measured at amortised cost (except for debt instruments that are designated as at fair value through statement of profit or loss on initial recognition):

- the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Debt instruments that meet the following conditions are subsequently measured at fair value through other comprehensive income ("FVTOCI") (except for debt instruments that are designated as at fair value through statement of profit or loss on initial recognition):

- the asset is held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Interest income is recognised in statement of profit or loss for FVTOCI debt instruments. All other financial assets are subsequently measured at fair value.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Income is recognised on an effective interest basis for debt instruments other than those financial assets classified as at FVTPL. Interest income is recognised in statement of profit or loss and is included in the "Other income" line item.

Financial assets at fair value through statement of profit or loss (FVTPL)

Investments in equity instruments are classified as at FVTPL, unless the Company irrevocably elects on initial recognition to present subsequent changes in fair value in other comprehensive income for investments in equity instruments which are not held for trading.

Debt instruments that do not meet the amortised cost criteria or FVTOCI criteria are measured at FVTPL. In addition, debt instruments that meet the amortised cost criteria or the FVTOCI criteria but are designated as at FVTPL are measured at FVTPL.

A financial asset that meets the amortised cost criteria or debt instruments that meet the FVTOCI criteria may be designated as at FVTPL upon initial recognition if such designation eliminates or significantly reduces a measurement or recognition inconsistency that would arise from measuring assets or liabilities or recognising the gains and losses on them on different bases.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any gains or losses arising on re-measurement recognised in statement of profit or loss. The net gain or loss recognised in profit or loss incorporates any dividend or interest earned on the financial asset and is included in the 'Other income' line item. Dividend on financial assets at FVTPL is recognised when the company's right to receive the dividends is established, it is probable that the economic benefits associated with the dividend will flow to the entity, the dividend does not represent a recovery of part of cost of the investment and the amount of dividend can be measured reliably.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

Impairment of financial assets

The Company applies the expected credit loss model for recognising impairment loss on financial assets measured at amortised cost, debt instruments at FVTOCI, trade receivables, other contractual rights to receive cash or other financial asset, and financial guarantees not designated as at FVTPL.

Expected credit losses are the weighted average of credit losses with the respective risks of default occurring as the weights.

Particulars	Percentage of credit allowance (%)
Less than 6 Months	0%
6 Months - 1Year	5%
1 year - 2 year	10%
2 year - 3 year	25%
3 year - 5 year	50%
More than 5 year	100%

Note : The Company has used a practical expedient by computing the expected loss allowance for trade receivables based on historical credit loss experience and adjustments for forward looking information.

Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on net basis or to realise the assets and settle the liabilities simultaneously.

De-recognition of financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party.

3.16 Financial liabilities and equity instruments**Initial Recognition and Measurement**

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, financial guarantee contracts and derivative financial instruments.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Classification as debt or equity

Debt and equity instruments issued by Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities.

Financial liabilities

Financial liabilities that are not held-for-trading and are not designated as at FVTPL are measured at amortised cost at the end of subsequent accounting periods. The carrying amounts of financial liabilities that are subsequently measured at amortised cost are determined based on the effective interest method. Interest expense that is not capitalised as part of costs of an asset is included in the 'Finance costs' Line item.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability.

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at FVTPL.

De-recognition of financial liabilities

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

3.17 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- i. In the principal market for the asset or liability, or
- ii. In the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Company.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole;

- i. Level 1- Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- ii. Level 2- Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- iii. Level 3- Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

3.18 Statement of Cash flow

Cash flows are reported using the indirect method, whereby profit / (loss) after tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments.

3.19 Earnings per share

Basic earnings per share is computed by dividing the profit after tax by the weighted average number of equity shares outstanding during the year/period.

Diluted earnings per share is computed by dividing the profit after tax as adjusted for dividend, interest and other charges to expense or income relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares.

3.20 Royalty

The Company accounting the royalty in accordance with the relevant licence agreements on accrual basis.

3.21 Research and Development

Research costs are expensed as incurred. Development expenditures on an individual project are recognised as an intangible asset when the Company can demonstrate:

- The technical feasibility of completing the intangible asset so that the asset will be available for use or sale
- Its intention to complete and its ability and intention to use or sell the asset
- How the asset will generate future economic benefits
- The availability of resources to complete the asset
- The ability to measure reliably the expenditure during development

Cost incurred by the Company for Research and Development do not meet the recognition criteria and hence have been classified as research costs and are expensed of in the statement of profit and loss as and when these are incurred.

The amortisation methods, the usual useful lives and the residual values of intangible assets are checked annually.

3.22 Rounding of amounts

All amounts disclosed in the financial statements and the accompanying notes have been rounded off to the nearest lacs as per the requirement of Schedule III of the Companies Act 2013, unless otherwise stated.

3.23 Material Events

Material events occurring after balance sheet date and till the date of signing of financials are taken into cognizance.

3.24 Recent Pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. During the year ended March 31, 2025, MCA has notified Ind AS 117- Insurance Contracts and amendments to Ind AS 116-Leases, relating to sale and lease back transactions, applicable from April 1, 2024. The Company has assessed that there is no significant impact on its financial statements.

On May 9, 2025, MCA notified the amendments to Ind AS 21- Effects of changes in Foreign Exchange Rates. These amendments aim to provide clearer guidance on assessing currency exchangeability and estimating exchange rates when currencies are not readily exchangeable. The amendments are effective for annual periods beginning on or after April 1, 2025. The company is currently assessing the probable impact of these amendments on its financial statements.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

4. Significant accounting judgements, estimates and assumptions

In the application of the Company accounting policies, which are described in note 3, the management of the Company are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The following are the areas of estimation uncertainty and critical judgements that the management has made in the process of applying the Company's accounting policies and that have the most significant effect on the amounts recognised in the financial statements:-

Recoverability of intangible asset

Capitalisation of cost in intangible assets under development is based on management's judgement that technological and economic feasibility is confirmed and asset under development will generate economic benefits in future. Based on evaluations carried out, the Company's management has determined that there are no factors which indicate that these assets have suffered any impairment loss.

Determining the lease term of contracts with renewal and termination options – Company as lessee

The Company determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

The Company has several lease contracts that include extension and termination options. The Company applies judgement in evaluating whether it is reasonably certain whether or not to exercise the option to renew or terminate the lease.

Income Taxes

Judgment of the Management is required for the calculation of provision for income taxes and deferred tax assets and liabilities. The company reviews at each balance sheet date the carrying amount of deferred tax assets. The factors used in estimates may differ from actual outcome which could lead to significant adjustment to the amounts reported in the standalone financial statements.

Provision and contingent liability

On an ongoing basis, Company reviews pending cases, claims by third parties and other contingencies. For contingent losses that are considered probable, an estimated loss is recorded as an accrual in financial statements. Loss Contingencies that are considered possible are not provided for but disclosed as Contingent liabilities in the financial statements. Contingencies the likelihood of which is remote are not disclosed in the financial statements. Gain contingencies are not recognized until the contingency has been resolved and amounts are received or receivable.

Defined benefit plans

The cost of the defined benefit gratuity plan and other post-employment defined benefits are determined using actuarial valuations. An actuarial valuation involves various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

Further details about gratuity obligations are given in Note 3.6.

Useful lives of depreciable assets

Management reviews the useful lives of depreciable assets at each reporting. As at March 31, 2025 management assessed that the useful lives represent the expected utility of the assets to the Company. Further, there is no significant change in the useful lives as compared to previous year.

Risk exposure

The gratuity scheme is a salary defined benefit plan that provides for lump sum payment made on exit either by way of retirement, death, disability or voluntary withdrawal. The benefits are defined on the basis of final salary and the period of service and paid as lump sum at exit. The plan design means the risk commonly affecting the liabilities and the financial results are expected to be:

- (a) **Interest rate risk:** The defined benefit obligation calculated uses a discount rate based on government bonds, if bond yield fall, the defined benefit obligation will tend to increase.
- (b) **Salary inflation risk:** Higher than expected increases in salary will increase the defined benefit obligation.
- (c) **Demographic risk:** This is the risk of variability of results due to unsystematic nature of decrements that include mortality, withdrawal, disability and retirement. The effect of these decrements on the defined benefit obligation is not straight forward and depends upon the combination of salary increase, discount rate and vesting criteria.

55 FAIR VALUE MEASUREMENT

(i) Financial instruments by category and hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in financial statements. To provide an indication about the reliability of inputs used in determining fair values, the group has classified its financial instruments into three levels prescribed under the accounting standards.

Total Financial Liabilities		26,472.37	-	-	24,132.05	-	-

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments, tax free bonds and mutual funds that have quoted price. The fair value of all equity instruments which are traded in the stock exchanges is valued using the closing price as at the reporting period. The mutual funds are valued using the closing NAV.

Level 2: The fair value of financial instruments that are not traded in an active market (for market, traded bonds, over-the-counter derivatives) is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3 : If one or more of the significant inputs is not based on observable market data, the instrument is included in Level 3.

(ii) Valuation Techniques Used to Determine Fair Value

The Company maintains policies and procedures to value financial assets or financial liabilities using the best and most relevant data available. The fair values of the financial assets and liabilities are included at the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Specific valuation technique used to value financial instrument includes :

- the use of quoted market prices or dealer quotes for similar financial instruments.
- the fair value of financial assets and liabilities at amortised cost is determined using discounted cash flow analysis.

The following method and assumptions are used to estimate fair values:

The Carrying amounts of trade receivables, trade payables, capital creditors, cash and cash equivalents, short term deposits etc. are considered to be their fair value, due to their short term nature and long-term fixed-rate and variable-rate receivables / borrowings are evaluated by the Company based on parameters such as interest rates, specific country risk factors, credit risk and other risk characteristics. For borrowing fair value is determined by using the discounted cash flow (DCF) method using discount rate that reflects the issuer's borrowings rate. Risk of non-performance for the Company is considered to be insignificant in valuation.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

56 FINANCIAL RISK MANAGEMENT

The Company's activities expose it to market risk, liquidity risk and credit risk. In order to minimize any adverse effects on the financial performance of the Company, derivative financial instruments, such as foreign exchange forward contracts and foreign currency option contracts are entered into by the Company to hedge certain foreign currency exposure. Derivatives are used exclusively for hedging and not as trading or speculative instruments.

The Company's activities are expose to Market risk, Credit risk and Liquidity risk.

I. Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices comprise three types of risk: currency rate risk, interest rate risk and other price risks, such as equity price risk and commodity risk. Financial instruments affected by market risk include loans and borrowings, deposits, investments, and derivative financial instruments.

The sensitivity analyses in the following section relate to the position as at 31st March 2025 and 31st March 2024

(a) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. In order to optimize the Company's position with regard to interest income and interest expenses and to manage the interest rate risk, treasury performs a comprehensive corporate interest rate risk management by balancing the proportion of the fixed rate and floating rate financial instruments in its total portfolio .

Foreign currency sensitivity

5% increase or decrease in foreign exchange rates will have the following impact on profit before tax and other comprehensive income:

Particulars	March 31, 2025		March 31, 2024	
	5% increase	5% decrease	5% increase	5% decrease
USD	(2.06)	2.06	(0.42)	0.42
JPY	(0.48)	0.48	(0.41)	0.41
EURO	-	-	(0.00)	0.00

The assumed movement in exchange rate sensitivity analysis is based on the currently observable market environment.

II. Credit risk

Credit risk arises from the possibility that the counterparty will default on its contractual obligations resulting in financial loss to the Company. To manage this, the Company periodically assesses the financial reliability of customers, taking into account the financial conditions, current economic trends, and analysis of historical bad debts and ageing of accounts receivable.

The Company considers the probability of default upon initial recognition of assets and whether there has been a significant increase in credit risk on an ongoing basis through each reporting period. To assess whether there is significant increase in credit risk, it considers reasonable and supportive forward looking information such as:

- (i) Actual or expected significant adverse changes in business.
- (ii) Actual or expected significant changes in the operating results of the counterparty.
- (iii) Financial or economic conditions that are expected to cause a significant change to the counterparty's ability to meet its obligation.
- (iv) Significant increase in credit risk and other financial instruments of the same counterparty.
- (v) Significant changes in the value of collateral supporting the obligation or in the quality of third party guarantees or credit enhancements.

The Company's major exposure is from trade receivables, which are unsecured and derived from external customers. Credit risk on cash and cash equivalents is limited as we generally invest in deposits with banks and financial institutions with high credit ratings assigned by international and domestic credit rating agencies.

The Company uses a provision matrix to determine impairment loss on portfolio of its trade receivable. The provision matrix is based on its historically observed default data over the expected life of the trade receivable and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in forward-looking estimates are analysed. However there is no trade receivable which is require allowance for expected credit loss.

III. Liquidity Risk

Liquidity risk is defined as the risk that Company will not be able to settle or meet its obligation on time or at a reasonable price. The Company's objective is to at all times maintain optimum levels of liquidity to meet its cash and collateral requirements. The Company's treasury department is responsible for liquidity, funding as well as settlement management. In addition, processes and policies related to such risk are overseen by senior management. Management monitors the company's net liquidity position through rolling, forecast on the basis of expected cash flows.
