	Draw attention to relevant notes in the annual financial statements and management response to the qualification in the directors report:	1. Para of Independent Auditors' Report Under the head "Basis for Qualified Opinion- Para(1)" <i>As informed to us, Management is of the view that they do not anticipate execution of its ongoing project of Cold Rolling Mill (CRM) Plant. However, due and adequate provision / write off / impairment which should have been made in the books of accounts has not been made. Out of the total book value of Capital work in progress of Rs. 18,31,84,363/-, the management has charged back only expense of pre-operative expense, trial run expense and borrowing cost element for Rs. 5,72,84,008/- to the statement of profit and loss during the current year which was earlier capitalized. For the remaining balance of the book value of Capital work in progress, the company has not carried out any Techno-economic assessment during the year ended 31 March 2015 for the valuations of its ongoing Capital Project and hence identification of impairment loss and provision thereof, if any, has not been made. The same is not in accordance with notified Accounting Standard 28 on "Impairment of asset" which states that impairment loss is recognized when the carrying amount of the an asset exceeds its recoverable amount . The consequential impact of adjustment, if any, on the financial results due to non-provision / write off / impairment is currently not ascertainable and therefore we are unable to comment on its consequential financial impact, if any, on the financial results.</i> Reply: Since last many years the company does not have internal accruals from the operations and as a

result, management do not anticipate execution of its ongoing project of Cold Rolling Mill (CRM) Plant. Fund of ₹18,31,84,363/- is blocked in the said ongoing projects. Since the capital project is not anticipate to complete in future, we have charged back expense of pre-operative expense, trial run expense and borrowing cost elements for ₹5,72,84,008/- to the statement of profit and loss during the current year which was earlier capitalized and carried in Capital work In Progress of our ongoing projects. For the remaining balance carried as Capital Work in Progress, the company has not carried out any Techno-economic assessment during the year ended 31 March 2015 for the valuations of such Capital Projects and hence identification of impairment loss and provision thereof, if any, has not been made. Considering the emphasis of the matter, company agreed to appoint an approved valuer to access the impairment of the assets. We are expecting a report from the valuer and decision will be taken with regard to impairment, if any, on such assets.

Reply:

As per the scheme sanctioned by CDR (EG) consortium bankers were required to give working capital for the optimal utilization of production capacity. However, in the absence of non availability of funds from the lenders, the accruals were not in line with the sanctioned scheme and hence Company could not utilize optimally its production capacity. In view of this, Company was not able to make payments to banks/institutions and debenture holders as per the sanctioned scheme. However, before due date of repayment, Company had approached Hon'ble BIFR for declaring it as a Sick company under Section 3(1)(o) of the SICA and was declared so before the due date, i.e., June 2011. On account of sick company status, payments were not made as per CDR. Company has submitted the proposal for One Time Settlement (OTS) of debts to all the lenders and also revised the proposals based on discussions with high level committee meetings of the lenders. However, despite of the repeated attempts by the company or/and order of the Hon'ble BIFR, Lenders have declined revised proposal and most of the banks assigned the debts to various Asset Reconstruction Companies (ARCs). Your company is actively negotiating with these ARCs' for one time settlement of debts and expecting a settlement in the coming hears.

MANAGEMENT DISCUSSION AND ANALYSIS****INDUSTRY STRUCTURE AND DEVELOPMENTS**

India is expected to become the world's second largest producer of crude steel in 2015-16, moving up from the fourth position, as its capacity is projected to increase from 100 million tonne (MT) to about 112.5 MT in 2015-16. "All indicators suggest that India will soon move up to the second position both in production and consumption,"

With infrastructure development and automotive industry driving steel demand, production of steel is expected to hit 140 MT by the end of 2016, while consumption is expected to grow 6.8% to reach 104MT by 2017. After a period of 5 years, since the break out of the global financial crisis and with significant liquidity injection by several large economies, the macro data from the developed economies started showing trends of slow improvement from 2013 but this pace was very slow as compare to the anticipated projections, it was basically due to gut in the construction, capital goods and automobiles sector world across. Worldwide recession /political polarization etc had a savior impact on the Indian iron ore mining industry also which was already experiencing a difficult phase.

India is currently the 4th largest producer of crude steel in the world and is poised to become the 2nd largest producer of crude steel in the world by 2015-16. The Iron and Steel Industry in India contributes around 2 per cent of the Gross Domestic Product (GDP) and its weight in the Index of Industrial Production (IIP) is 6.2 per cent. India is also a leading producer of sponge iron a major supplement of fluctuating scrap market with a host of coal based units, located in the mineral-rich states of the country. Per capita consumption of steel in India is at just 59 kgs as against an average of 216 kgs of the world which shows the potential of the domestic market itself.

Performance of the company has been affected due to financial crunch, reduction in selling price, reduction in demand - domestically and globally, due to dumping of material by China in Global market which further shrunk the margins of the company. Due to paucity of working capital, company's working is declining. Company could make optimum use of power under Open Access. **RISKS AND CONCERNS**

- Competition risk
- Debtor risk
- Exchange Rate fluctuation risk
- Geographic Concentration risk

The Company is taking appropriate steps to guard against these identified risks.

INTERNAL CONTROL SYSTEM

The Company has adequate internal control procedures commensurate with its size and nature of its business. The objectives of these procedures are to ensure efficient use and protection of the Company's resources, accuracy in financial statements and due compliance of statutes and Company's policies and procedures.

FUTURE OUTLOOK

During the Financial Year 2014-15, a positive trend of financial stability was witnessed by the advanced economies; growth rate remain subdued in emerging and developing economies. The lower growth trajectory in China indirectly influences the commodity markets, including steel and its raw materials. The economic outlook in Europe is strengthening and the US economy shows strong signs of a better performance is moving forward.

Indian economy shows comparatively a positive trained in the years to come. With a stable government at the centre, significant policy changes the government focus on infrastructure development; more foreign direct investment and more transparency in governance were the major fetchers for significant increase in the overall business confidence in the country. At a global level, supply continues to be more than demand, as capacity additions continued, primarily in the emerging economies. The trend is led by China and India. However, dependence on imported coking coal, low production efficiency, inadequate infrastructure & technology and delays in regulatory clearances & approvals are major hindrance to growth of Indian steel industry.

The global steel sector remains under pressure the overhang of excess capacity continues to put pressure on the global steel sector, particularly in light of uneven economic growth and weak steel demand. Indian steel sector is witnessing role reversal as several rapid-growth markets have not performed up to expectations in creating demand.

Until recently, the Indian steel sector has been relatively insular, but it now seems to be increasingly affected by developments in global steel and raw material markets in its quest to play a growing role in the international arena, given the significant growth of its economy and increasing integration with global economies. The following global factors will influence the extent of domestic growth till 2025 and the shape and trajectory the steel industry will take in India over a mid- to long-term period:

A sizeable surplus of steel scrap in China by 2025. China currently plays a critical role in absorbing excess supply of scrap from other parts of the world. However, due to initiatives to accelerate its own scrap industry, China, which is currently a net importer of scrap, is expected to have a surplus of 72mt of scrap by 2025. This will decrease demand and push down the prices of other raw materials, such as coking coal and iron ore. While stand-alone Indian steelmakers, who do not have captive access to such inputs, will benefit from the availability of cheap raw material, the real effects of this are unlikely to be felt before the middle of the next decade and overall steel prices are likely to remain under pressure.

Prima facie, low iron prices are good for steelmakers but they may not be as beneficial in the Indian context. Indian steel producers enjoyed the advantage of low-priced domestic ore to earn healthy margins, in comparison with their global peers. Despite some current issues regarding availability of iron ore, it seems likely that India will have sufficient iron ore to meet its domestic requirement until 2025. Availability of iron ore at lower prices for global players will narrow the relative advantage of Indian players in the global market. Most of the domestic players were severely affected due to international pressure on one side & on other side they were experiencing the stiff competitions from the Chinas producers.

At Shah alloys Limited we are striving hard to remain in the race & work hard to survive through this turmoil phase; one how could successfully pass through thin phase, as the Darwin's theory interprets that it's a Natural phenomenon in every walks of life one who successfully passes through this natural selection process, progression in the conducive environment will be quite easy. With the changing political environment across the globes thing are now getting settled. Indian industry has also pass through this critical phase & now poised to accept the newer challenges. With the new Leadership & long term vision of our beloved Hon. Prime Minister Shri Narendra Modi; Indian Inductors are committed to be among world leaders & attend our top position.

INDEPENDENT AUDITOR'S REPORT

To the Members of
SHAH ALLOYS LIMITED
AHMEDABAD

Report on the Financial Statements

We have audited the accompanying financial statements of Shah Alloys Limited ('the Company'), which comprise the Balance sheet as at March 31, 2015, the Statement of Profit and Loss, the Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ('the Act') with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on whether the Company has in place an adequate internal financial controls system over financial reporting and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Basis for Qualified Opinion

1. As informed to us, Management is of the view that they do not anticipate execution of its ongoing project of Cold Rolling Mill (CRM) Plant. However, due and adequate provision / write off / impairment which should have been made in the books of accounts has not been made. Out of the total book value of Capital work in progress of ₹ 18,31,84,363/-, the management has charged back only expense of pre-operative expense, trial run expense and borrowing cost element for ₹ 5,72,84,008/- to the statement of profit and loss during the current year which was earlier capitalized. For the remaining balance of the book value of Capital work in progress, the company has not carried out any Techno-economic assessment during the year ended 31 March 2015 for the valuations of its ongoing Capital Project and hence identification of impairment loss and provision thereof, if any, has not been made. The same is not in accordance with notified Accounting Standard 28 on "Impairment of asset" which states that impairment loss is recognized when the carrying amount of the asset exceeds its recoverable amount. The consequential impact of adjustment, if any, on the financial results due to non-provision / write off / impairment is currently not ascertainable and therefore we are unable to comment on its consequential financial impact, if any, on the financial results.
2. The Company has not provided for foreign exchange loss in the financial statements on the Principal amount of 1,00,00,000 USD and on the Premium amount of 48,25,500 USD of the Foreign Currency Convertible Bonds (FCCB) which had become due for payment on September 22, 2011 and remain unpaid as at March 31, 2015, which constitutes a departure from the Accounting Standard - 11, "The Effects of Changes in Foreign Exchange Rates", which requires that each foreign currency monetary items should be reported using the closing rate as at the balance sheet date. Non provision of the foreign exchange loss on the aforesaid Foreign Currency Convertible Bonds (FCCB) and the Premium amount relates to the period from September 23, 2011 to March 31, 2015. The Company's record indicate that had management done the provision, the Exchange loss for the financial year 2014-15 would have been more by ₹ 3,69,30,321/-. Accordingly, loss for the current financial year 2014-15 has been under-stated by ₹ 3,69,30,321/- and reserves and surplus has been overstated by ₹ 20,41,51,583/-.

**Qualified Opinion**

In our opinion and to the best of our information and according to the explanations given to us, except for the effects of the matter described in the Basis for Qualified Opinion paragraph above, the aforesaid financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India:

- 1) In case of the Balance Sheet, of the state of affairs of the Company as at March 31, 2015,
- 2) In case of the Statement of profit and loss, of the loss for the year ended on that date
- 3) In case of the Cash flow Statement, of the cash flows for the year ended on that date.

Emphasis of Matters

We draw attention to the following matters in the Notes to the Financial Statements:

- 1) Note No 38A to the financial statements regarding the Company having accumulated losses and its net worth has been fully eroded. The Financial Statements indicates that the Company has incurred a net loss/net cash loss during the current and previous year(s) and, the Company's current liabilities exceeded its current assets as at the current and previous year balance sheet date. These conditions indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern. However, the financial statements of the Company have been prepared on a going concern basis for the reasons stated in the said Note 36 to the financial statements.
- 2) Note No 34 to the financial statements, regarding the transfer/assignment of secured loans with all their rights, title and interest in the financial documents by banks to the Asset Reconstruction companies.

Our opinion is not modified in respect of these matters.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2015 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the Annexure a statement on the matters specified in the paragraph 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143 (3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

 - (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - (i) The Company has disclosed the impact of pending litigations on its financial position in its financial statements – Refer Note 21 to the financial statements;

Further the company has stopped making provision for interest on such borrowing from the date of transfer due to non execution of agreement with Asset Reconstruction Companies (ARC) and hence due to non availability of agreement with Asset Reconstruction Companies (ARC) , the company has taken the CDR – 2 orders as base for classification of current / non-current liability and default of total borrowing.

- 35 The company had filed a reference with BIFR u/s 15(1) of the Sick Industrial Companies (Special Provision) Act, 1985. The Honorable BIFR vide its order number 13/2010 dated 31st August, 2010 has declared that the company has become sick industrial company u/s 3(1)(o) of SICA. [Sick Industrial Companies (Special Provision) Act, 1985].

- 38 The Company has long term investment in the shares of SAL Steel Limited total amount of ₹ 39,94,96,276/-. Based on the audited financial statement of SAL Steel Limited as at 31st March, 2015, the Company has accumulated losses and its net worth has been fully eroded. The Financial results of SAL Steel Limited also indicates that the Company has a net loss during the current and previous year and the Company's current liabilities exceeded its current assets as at the current and previous year balance sheet date. Also there is no movement in the prices of stock in share market. As per AS 13, all such circumstances indicate that there is decline, other than temporary, in the value of a long term investment. And as a result, we have provided investment at market rate of shares @ ₹ 1.75 per share total amount of ₹ 5,29,49,731/- and provided ₹ 34,65,46,545/- as diminution other than temporary in the value of investment in books of accounts.

- 38A** As at the year end the Company has accumulated losses and its net worth has been fully eroded. The Financial results indicate that the Company has net loss during the current and previous year and the Company's current liabilities exceed its current assets as at the current and previous year balance sheet date. These conditions indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a "going concern". However, the financial results of the Company have been prepared on a going concern basis based on that the Company is actively negotiating with the ARC / lenders for one time settlement (OTS) and expecting the waiver of interest with the banks. As a result, not only the Company's net worth will improve but also improve productivity on account of morale booster of the employees. Further, post OTS, Company will reduce the interest burden drastically and will be optimistic about vanishing of accumulated losses gradually.
- 39** Since last many years the company does not have internal accruals from the operations and as a result, management do not anticipate execution of its ongoing project of Cold Rolling Mill (CRM) Plant. Fund of ₹18,31,84,363/- is blocked in the said ongoing projects. Since the capital project is not anticipate to complete in future, we have charged back expense of pre-operative expense, trial run expense and borrowing cost elements for ₹ 5,72,84,008/- to the statement of profit and loss during the current year which was earlier capitalized and carried in Capital work In Progress of our ongoing projects. For the remaining balance carried as Capital work In Progress, the company has not carried out any Techno-economic assessment during the year ended 31st March 2015 for the valuations of such Capital Projects and hence identification of impairment loss and provision thereof, if any, has not been made. Considering the emphasis of the matter, company agreed to appoint an approved valuer to access the impairment of the assets. We are expecting a report from the valuer and decision will be taken with regard to impairment, if any, on such assets.
