Management Discussions & Analysis

ANNUAL OVERVIEW AND OUTLOOK

ECONOMIC OUTLOOK

The Reserve Bank of India on Friday lowered its FY27 GDP growth forecast to 6.6% from 6.9%, citing rising risks from the ongoing West Asia conflict, elevated energy prices, supply disruptions and weather-related uncertainties, while keeping the benchmark repo rate unchanged at 5.25%.

The central bank now expects GDP growth of 6.6% in the first quarter, 6.3% in the second quarter, 6.5% in the third quarter and 6.8% in the fourth quarter of FY27.

Announcing the Monetary Policy Committee's decision, RBI Governor Sanjay Malhotra said the Indian economy had so far remained resilient despite the conflict, supported by strong private consumption, fixed investment, manufacturing activity and services exports.

The six-member MPC voted to keep the policy repo rate unchanged and retained its neutral stance, saying it would continue to remain data-dependent and closely monitor supply-side pressures and inflation expectations.

Malhotra also flagged weather-related risks, including a subnormal southwest monsoon and El Nino conditions, as key monitorables for the outlook, even as it noted that adequate food stocks and reservoir levels provide some buffer against supply shocks.

The latest GDP projections highlight the increasingly difficult balancing act facing policymakers.

While slowing growth would typically argue for a supportive monetary policy stance, rising energy prices and supply-side pressures are increasing the risk of higher inflation.

Economists broadly expect the RBI to prioritise inflation management if crude prices remain elevated for an extended period.

HSBC expects inflation to average 5.6% in FY27 and sees at least two quarters where headline inflation could breach the RBI's upper tolerance band of 6%.

Apart from inflation and growth, economists are also concerned about the impact of higher oil prices on India's external accounts.

ICRA expects the current account deficit to widen to a four-year high of 1.7% of GDP under its baseline scenario, a sharp contrast to the surplus recorded during the pandemic period.

The rating agency also warned that government efforts to shield consumers from rising global energy prices may eventually become difficult to sustain, potentially forcing fuel-price adjustments that could feed into inflation.

Higher global uncertainty has already pushed government bond yields higher and increased concerns around fiscal slippage, adding another layer of risk to the economic outlook.

INDUSTRY OVERVIEW

The global capital markets are entering 2026 in a notably different posture after several years of pronounced volatility. Inflation shocks, rapid interest rate hikes, and geopolitical uncertainty defined the 2022–2024 period, forcing issuers and investors into defensive, short-term decision-making. Deal activity slowed, valuations reset, and access to capital became less predictable across markets.

By contrast, the environment taking shape for 2026 reflects a cautious but meaningful return to fundamentals. Capital allocation decisions are increasingly driven by profitability, cash flow durability, governance quality, and disclosure transparency rather than growth at any cost. This shift marks a broader recalibration in how risk is priced and how opportunity is evaluated across the capital market ecosystem.

Rather than signaling a full-cycle expansion or contraction, 2026 represents a transitional year. Activity is resuming across equity, debt, and private capital channels, but with greater scrutiny and selectivity. For corporate leaders, CFOs, and deal teams, understanding trends in finance and capital markets is essential as execution windows narrow and preparation becomes a competitive differentiator.

The Indian capital market is experiencing robust expansion, driven by rising retail investor participation, digital transformation of financial services, and strong domestic economic fundamentals. The market benefits from a growing middle class with increasing disposable income, enhanced regulatory frameworks supporting investor protection, and expanding financial literacy initiatives. Government reforms promoting ease of doing business and global bond index inclusions are further catalyzing market growth and foreign investment inflows.

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY:

Your Company has in place adequate internal financial controls with reference to the Financial Statements commensurate with the size, scale and complexity of its operations. Your Company has an Internal Audit team that is responsible for independently evaluating the adequacy and effectiveness of all internal control designs and implementation, risk management, systems and processes. Internal Audit team is manned by appropriately skilled, experienced and qualified personnel. The Internal Audit plan is also aligned with the business objectives of the Company which is reviewed and approved by the Audit Committee.

FINANCIAL PERFORMANCE WITH RESPECT TO OPERATIONAL PERFORMANCE

During the financial year under review, the Company earned revenue from operations of ₹ 227.93 lakh, along with other income of ₹ 2.04 lakh, taking the total income for the year to ₹ 229.97 lakh. While the Company's total expenses were greater than its total income, resulting in a net loss for the year, the revenue generated from operations played a meaningful role in meeting the day-to-day operational and financial requirements of the Company. This, in turn, helped reduce the Company's dependence on additional borrowings from the Directors and from banks/financial institutions to fund its working capital and other requirements.

The management remains focused on improving operational efficiency, expanding revenue streams and exercising tighter control over costs, with the objective of strengthening the Company's overall financial performance in the coming years. These efforts are also aimed at progressively reducing the Company's reliance on external sources of finance and building a more self-sustaining operational and financial structure going forward.

OPPORTUNITIES & THREATS

Opportunities

- **Infrastructure & Capex Push:** Continued government focus on infrastructure scaling (public capex outlay of ₹12.2 lakh crore) and the Semiconductor Mission 2.0 offer significant long-term growth for core sectors.
- **Expanding Domestic Liquidity:** The systemic rise of monthly Systematic Investment Plan (SIP) inflows provides deep, stabilizing domestic liquidity, mitigating potential pullbacks from foreign portfolio volatility.
- **Deepening Corporate Debt Market:** New regulatory frameworks, including market-making mechanisms and total return swaps on corporate bonds, are creating new avenues for long-term investments.
- **Emerging Sectors:** Investment avenues in renewable energy, Artificial Intelligence (AI), the electric vehicle (EV) ecosystem, and biopharma are expanding as India aligns with global supply-chain realignments.

Challenges

- **Regulatory Overhang in Derivatives:** Regulatory shifts—such as increased margin requirements, contract lot size increases, and hikes in Securities Transaction Tax (STT) on options and futures—have significantly compressed profit margins for active derivative traders.
- **Macroeconomic Headwinds:** Escalating geopolitical tensions and global energy shocks are driving up import bills, putting pressure on the Indian Rupee and ballooning the Balance of Payments deficit.
- **SME Market Normalization:** Following the speculative boom in SME listings, heightened regulatory scrutiny and cooling retail enthusiasm pose risks for small businesses relying on the markets for easy, quick capital.
- **Global VUCA Conditions:** Ongoing global market volatility, driven by shifting monetary policies abroad and changing multilateral trade relationships, demands that investors engage in disciplined stock selection rather than relying on broad market rallies.

Independent Auditors' Report Standalone Financial Statements for the year ended 31st March 2026

To the Members of GCM Capital Advisors Limited

Report on the Audit of the Standalone Ind AS Financial Statements

Opinion

We have audited the financial statements of **GCM Capital Advisors Limited** ('the Company'), which comprise the Balance Sheet as at 31st March 2026 and the Statement of Profit and Loss (including other comprehensive income), the Statement of Changes in Equity and Statement of Cash Flows for the Year ended, and Notes to the Financial Statements, including a summary of Material Accounting Policies and other Explanatory Information ('the financial statements').

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2026, and its loss, changes in Equity, and its Cash Flows for the year ended on that date.

Basis for opinion

We conducted our audit in accordance with the Standards on Auditing ("**SAs**") issued by Institute of Chartered Accountants of India ("**ICAI**"), specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by ICAI together with the ethical requirements that are relevant to our audit of the financial statements, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements for the year ended 31st March 2026. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion there on, and we do not provide a separate opinion on those matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

Key Audit Matters	How our audit addressed the key audit matter
Provisioning for Expected Credit Loss (ECL) in respect of financial assets of the Company	
The Company has recognized ECL provisions on its financial assets, including trade receivables, loans, and advances, as required under Ind AS 109 "Financial Instruments." The ECL provisioning involves significant management judgment and estimation uncertainty, particularly in assessing credit risk, determining significant increases in credit risk, and incorporating forward-looking macroeconomic information. Further, certain financial assets, especially advances given *inter alia* for acquisition of shares and securities, are pending settlement as on balance sheet date and the Company has recognised ECL provision in respect of the same. Given the complexity of the ECL models, the subjectivity involved in key assumptions such as Probability of Default, Loss Given Default, Exposure at Default, and the estimation uncertainty around recoverability of certain loans and advances or other balances of financial assets, we have identified this area as a key audit matter.	We assessed the Company's accounting policies related to ECL provisioning for compliance with Ind AS 109. We evaluated the design and implementation of the ECL models. We also tested the reasonableness of key assumptions made by the Company's management in the ECL calculation and other inputs used, wherever available. We also analyzed the key assumptions against assumptions made during last year and management's basis for such assumptions We performed independent re-computation of the ECL provision on a sample basis and assessed the completeness and accuracy of data used. We evaluated the adequacy and accuracy of disclosures made in the Financial Statements related to ECL provisioning.

Emphasis of Matter

We draw attention to the following matters in the accompanying financial statements:

1. In accordance with Object clause A. - 5, 6, 7 & 8 of its 'Memorandum of Association', the Company is engaged in Investments and trading of shares and securities and other financial activities and meets the criteria specified under

Section 45-IA of the Reserve Bank of India Act, 1934, requiring registration as a Non-Banking Financial Company (NBFC). However, the Company has not obtained such registration from the Reserve Bank of India.

2. Certain balances of trade receivables, trade payables, and loans and advances are subject to confirmation, reconciliation, and consequential adjustments, if any. In management's opinion, no material adjustments affecting the financial statements are expected on this account. (Note 41(b) to Financial Statements).
3. During current and past years, the Company had given various advances (recoverable in cash / kind) totaling to INR 641.70 Lakhs (gross value) – shown under 'Other financial assets (current)'. The management has explained us that these advances were given for the purpose of acquiring of shares / securities, however, such acquisition is pending as on balance sheet date. The management is in process of either settling these transactions by acquisition of shares / securities, or by squaring off the advances through repayment. We have solely relied on management's representation in this regard (Note 10.1 to financial results).
4. Based on our review, it is observed that interest income is not recognized on some of outstanding loans and advances given to various parties as interest income could not be crystallized from such parties. However, the management is of the opinion that it will be able to soon recover the principal amount from majority of these parties. The Company has considered ECL provision in respect of these parties as per the policy adopted considering them as credit-impaired financial assets. In the absence of any further details / documents, we have solely relied on management's representation with regard to the items of these loans and the ECL provision thereof.

Our opinion is not modified in respect of these matters.

Information Other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in Board's Report including Annexures to Board's Report, Shareholder's Information, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Financial Statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the Financial Statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

a) Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

b) Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.

c) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

d) Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

e) Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Annexure "B" to the Independent Auditors' Report

(Referred to in paragraph 2(g) under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of GCM Capital Advisors Limited)

Report on the Internal Financial Controls under Clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **GCM CAPITAL ADVISORS LIMITED** ("the Company") as of 31 March 2026 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgments, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls with reference to Standalone Ind AS financial statements

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to Standalone Ind AS financial statements

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the Company, have an internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating reasonably as at March 31, 2026, with certain areas requiring strengthening based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI. Certain areas for further strengthening have been observed and suggested to the Company. These includes, (i) enabling of audit log feature on the accounting software of the Company; (ii) critical monitoring of the position, repayment and settlement of loans and advances given etc. In some instances, certain controls are being exercised through informal procedures, and formalization and documenting of such controls would further strengthen the overall control environment, so as to commensurate with the size and nature of business operations of the Company.

2.4 Presentation of financial statements:

These financial statements of the Company are prepared and presented in accordance with Indian Accounting Standards ("Ind AS") notified under the Companies (Indian Accounting Standards) Rules, 2015, as amended and other relevant provision of the Act as amended from time to time and presentation requirements of Division II of Schedule III to the Companies Act, 2013, (Ind AS compliant Schedule III), as applicable to the financial statements.

Amounts in the financial statements are presented in Indian Rupees rounded off to zero decimal places as permitted by Schedule III to the Companies Act, 2013. Per share data are presented in Indian Rupee to two decimal places.

2.5 Revenue Recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured and there exists reasonable certainty of its recovery. Revenue is measured at the fair value of the consideration received or receivable as reduced for estimated customer credits and other similar allowances.

i. Interest income is recognised in the Statement of Profit and Loss and for all financial instruments except for those classified as held for trading or those measured or designated as at fair value through profit or loss (FVTPL) is measured using the effective interest method (EIR).

The calculation of the EIR includes all fees and points paid or received between parties to the contract that are incremental and directly attributable to the specific lending arrangement, transaction costs, and all other premiums or discounts. For financial assets at FVTPL transaction costs are recognised in profit or loss at initial recognition.

The interest income is calculated by applying the EIR to the gross carrying amount of non-credit impaired financial assets (i.e. at the amortised cost of the financial asset before adjusting for any expected credit loss allowance).

For credit-impaired financial assets the interest income is calculated and recognised only where the Company expects reasonable certainty with regard to the recovery of interest income.

ii. Dividend income is recognised when the Company's right to receive dividend is established by the reporting date and no significant uncertainty as to collectability exists.

iii. Fee and commission income and expense include fees other than those that are an integral part of EIR. The fees included in the Company statement of profit and loss include among other things fees charged for servicing a loan, non-utilisation fees relating to loan commitments when it is unlikely that these will result in a specific lending arrangement and loan advisory fees.

iv. Profit / loss on FNO Segment and Commodity transactions is accounted for as explained below:

Initial and additional margin paid over and above initial margin for entering into contracts for Equity Index / Stock Futures / Commodity Spot Trading/ Currency Futures and or Equity Index / Stock Options / Currency Options, which are released on final settlement / squaring-up of underlying contracts, are disclosed under "Other current assets". Mark-to-market margin-Equity Index / Stock Futures / Currency Futures representing the amounts paid in respect of mark to market margin is disclosed under "Other current assets".

"Equity Index / Stock Option / Currency Option Premium Account" represents premium paid or received for buying or selling the Options, respectively.

On final settlement or squaring up of contracts for Equity Index / Stock Futures / Currency Future, the realized profit or loss after adjusting the unrealized loss already accounted, if any, is recognized in the Statement of Profit and Loss. On settlement or squaring up of Equity Index / Stock Options / Currency Option, before expiry, the premium prevailing in "Equity Index / Stock Option / Currency Option Premium Account" on that date is recognized in the Statement of Profit and Loss.

As at the Balance Sheet date, the Mark to Market / Unrealized Profit / (Loss) on all outstanding arbitrage portfolio comprising of Securities and Equity / Currency Derivatives positions is determined on scrip basis with net unrealized losses on scrip basis being recognized in the Statement of Profit and Loss and the net unrealized gains on scrip basis are ignored.

v. Other operational revenue represents income earned from the activities incidental to the business and is recognised when the right to receive the income is established as per the terms of the contract.

2.6 Fair value measurement:

The Company measures certain financial instruments at fair value at each reporting date.

Fair value is the price that would be received to sell an asset or paid to settle a liability in an ordinary transaction between market participants at the measurement date. The fair value of an asset or a liability is measured using the assumption that market participants would use when pricing an asset or liability acting in their best economic interest. The Company uses valuation techniques, which are appropriate in circumstances and for which sufficient data is available considering the expected loss/ profit in case of financial assets or liabilities.

2.7 Property, Plant and Equipments

Freehold land is carried at historical cost. All other items of property, plant and equipment are stated at historical cost less depreciation less impairment loss, if any. Historical cost comprises of purchase price, including non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to statement of profit or loss during the reporting period in which they are incurred.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separated items (major components) of property, plant and equipment.

Depreciation methods, estimated useful lives and residual value:

Depreciation is provided on the written down value method over the estimated useful lives of the assets which in certain cases may be different than the rate prescribed in Schedule II to the Companies Act, 2013, in order to reflect the actual usages of the assets.

The asset's residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period. The asset's residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

Class of Assets	Useful life as prescribed in Schedule II of Companies Act, 2013 (in years)	Useful life as followed by the Company (in year)
Computers	3	3
Furniture & Fixtures	10	10
Office Equipments	5	5
Vehicles	8	8

The assets' residual values, useful lives and method of depreciation are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with carrying amount and are recognized as income or expense in the statement of profit and loss.

2.8 Impairment of tangible and intangible assets other than goodwill

As at the end of each accounting year, the Company reviews the carrying amounts of its PPE and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If such indication exists, the PPE, investment property and intangible assets are tested for impairment so as to determine the impairment loss, if any. Goodwill and the intangible assets with indefinite life are tested for impairment each year.

Impairment loss is recognised when the carrying amount of an asset exceeds its recoverable amount. Recoverable amount is determined in the case of an individual asset, at the higher of the net selling price and the value in use.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pretax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If recoverable amount of an asset (or cash generating unit) is estimated to be less than its carrying amount, such deficit is recognised immediately in the Statement of Profit and Loss as impairment loss and the carrying amount of the asset (or cash generating unit) is reduced to its recoverable amount. For this purpose, the impairment loss recognised in respect of a cash generating unit is allocated first to reduce the carrying amount of any goodwill allocated to such cash generating unit and then to reduce the carrying amount of the other assets of the cash generating unit on a pro-rata basis.

When an impairment loss subsequently reverses, the carrying amount of the asset (or cash generating unit), except for allocated goodwill, is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss is recognised for the asset (or cash generating unit) in prior years. A reversal of an impairment loss (other than impairment loss allocated to goodwill) is recognised immediately in the Statement of Profit and Loss.

2.9 Employee benefits:

i. Short term employee benefits:

   Employee benefits falling due wholly within twelve months of rendering the service are classified as short term employee benefits and are expensed in the period in which the employee renders the related service. Liabilities recognised in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service.

ii. Defined employment benefits:

The Company does not have employees crossing the thresholds for applicability of PF / ESIC or Gratuity laws and accordingly, Ind-AS 19 to that extent is not applicable on the Company. Therefore, the Company has not recognised / provided for any defined employee benefits in the financial statements as on date.

2.10 Financial instruments:

Financial assets and financial liabilities are recognised in the Company's balance sheet when the Company becomes a party to the contractual provisions of the instrument.

Recognised financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at FVTPL) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognised immediately in profit or loss.

A financial asset and a financial liability is offset and presented on net basis in the balance sheet when there is a current legally enforceable right to set-off the recognised amounts and it is intended to either settle on net basis or to realise the asset and settle the liability simultaneously.

2.11 Impairment of Financial Assets:

The Company recognises loss allowances for ECLs on the following financial instruments that are not measured at FVTPL:

- Loans and advances given;
- Debt investment securities;
- Trade and other receivable;
- Irrevocable loan commitments issued; and
- Other Financial Assets.

Measurement of ECL

At each reporting date, as an annual exercise, the Company recognizes a loss allowance for expected credit losses on the relevant financial assets.

ECL is measured in a manner that reflects:

An unbiased and probability-weighted amount, determined by evaluating a range of possible outcomes.

The time value of money (by discounting estimated future cash flows at the asset's original effective interest rate).

Reasonable and supportable information about past events, current conditions, and forecasts of future economic conditions.

Staging and Recognition

Stage 1 (Non-Credit Impaired):

For financial assets where credit risk has not increased significantly since initial recognition, the Company measures the loss allowance at an amount equal to 12-month ECL and recognizes interest income on the gross carrying amount.

Stage 2 (Significant Increase in Credit Risk):

If the credit risk has increased significantly since initial recognition, the loss allowance is calculated for lifetime ECL, and interest income continues to be recognized on the gross carrying amount.

Stage 3 (Credit Impaired):

If a financial asset is credit-impaired, the Company measures the loss allowance for lifetime ECL and calculates interest income on the net carrying amount (gross carrying amount less loss allowance).

Management of ECL Model & Monitoring

The ECL model and assumptions are periodically reviewed and updated to reflect current and forward-looking information. Any changes or management overlays to the model require approval from the Audit Committee.

The amount of ECL provision is shown as net-off against respective financial asset

Note: A loan is considered credit-impaired when a concession is granted to the borrower due to a deterioration in the borrower's financial condition, unless there is evidence that as a result of granting the concession the risk of not receiving the contractual cash flows has reduced significantly and there are no other indicators of impairment. For financial assets where concessions are contemplated but not granted the asset is deemed credit impaired when there is observable evidence of credit-impairment including meeting the definition of default. The definition of default (see below) includes unlikeliness to pay indicators and a back-stop if amounts are overdue for 90 days or more.

2.12 Write off:

Loans and debt securities are written off when the Company has no reasonable expectations of recovering the financial asset (either in its entirety or a portion of it). This is the case when the Company determines that the borrower does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. A write-off constitutes a de-recognition event. The Company may apply enforcement activities to financial assets written off. Recoveries resulting from the Company's enforcement activities will result in impairment gains.

2.13 Securities premium account:

Securities premium includes:

The difference between the face value of the equity shares and the consideration received in respect of shares issued is recognised as 'Securities Premium Reserve' under other equity.

The issue expenses of securities which qualify as equity instruments are written off against securities premium account.

2.14 Investments

Investments includes 'shares / securities' acquired by the Company with the intention to hold them and reap investment benefits. The Company recognises these financial assets at FVTOCI, which shall be re-classed to Statement of profit and loss upon actual disposal. For quoted investments, the Company uses the quoted rates as on cut-off dates for fair value measurements For un-quoted investments, the Company obtains fair valuation reports on necessary intervals for fair value measurements Investments in subsidiaries are value at amortised cost.

Investments that are readily realisable and are intended to be held for not more than one year from the date, on which such investments are made, are classified as current investments. All other investments are classified as non-current investments. FIFO method is used for valuation of investments or ascertainment of profit / loss on sale of investments

2.15 Accounting and reporting of information for Operating Segments:

Operating segments are those components of the business whose operating results are regularly reviewed by the chief operating decision making body in the Company to make decisions for performance assessment and resource allocation. The reporting of segment information is the same as provided to the management for the purpose of the performance assessment and resource allocation to the segments. Segment accounting policies are in line with the accounting policies of the Company. For the current year, the Company has only one reportable segment, i.e. "Investments & Finance'.

2.16 Taxation:

Current Tax:

Tax on income for the current period is determined on the basis of taxable income (or on the basis of book profits wherever minimum alternate tax is applicable) and tax credits computed in accordance with the provisions of the Income Tax Act, 1961 and based on the expected outcome of assessments/appeals.

Deferred Tax:

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the Company's financial statements and the corresponding tax bases used in computation of taxable profit and quantified using the tax rates and laws enacted or substantively enacted as on the Balance Sheet date.

Deferred tax assets are generally recognised for all taxable temporary differences to the extent that is probable that taxable profit will be available against which those deductible temporary differences can be utilized. The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets relating to unabsorbed depreciation/business losses/losses under the head "capital gains" are recognised and carried forward to the extent of available taxable temporary differences or where there is convincing other evidence that sufficient future taxable income will be available against which such deferred tax assets can be realized. Deferred tax assets in respect of unutilized tax credits which mainly relate to minimum alternate tax are recognised to the extent it is probable of such unutilized tax credits will get realized.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of reporting period, to recover or settle the carrying amount of its assets and liabilities.

Transaction or event which is recognised outside profit or loss, either in other comprehensive income or in equity, is recorded along with the tax as applicable.

2.17 Cash & Cash Equivalent

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

2.18 Borrowing Cost

Borrowing costs include interest expense calculated using the effective interest method, finance charges in respect of assets acquired on finance lease and exchange differences arising from foreign currency borrowings, to the extent they are regarded as an adjustment to interest costs.

Borrowing costs net of any investment income from the temporary investment of related borrowings, that are attributable to the acquisition, construction or production of a qualifying asset are capitalised as part of cost of such asset till such time the asset is ready for its intended use or sale. A qualifying asset is an asset that necessarily requires a substantial period of time to get ready for its intended use or sale. All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

2.19 Provisions, contingent liabilities and contingent assets:

Provisions are recognised only when:

i. an Company entity has a present obligation (legal or constructive) as a result of a past event; and

ii. it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and

iii. a reliable estimate can be made of the amount of the obligation

Provision is measured using the cash flows estimated to settle the present obligation and when the effect of time value of money is material, the carrying amount of the provision is the present value of those cash flows. Reimbursement expected in respect of expenditure required to settle a provision is recognised only when it is virtually certain that the reimbursement will be received.

Contingent liability is disclosed in case of:

i. a present obligation arising from past events, when it is not probable that an outflow of resources will be required to settle the obligation; and

ii. a present obligation arising from past events, when no reliable estimate is possible.

Where the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received under such contract, the present obligation under the contract is recognised and measured as a provision.

2.20 Statement of cash flows:

Statement of cash flows is prepared segregating the cash flows into operating, investing and financing activities. Cash flow from operating activities is reported using indirect method adjusting the net profit for the effects of:

i. changes during the period in operating receivables and payables transactions of a non-cash nature;

ii. non-cash items such as depreciation, provisions, deferred taxes, realized gains and losses; and

iii. all other items for which the cash effects are investing or financing cash flows.

Cash and cash equivalents (including bank balances) shown in the Statement of Cash Flows exclude items which are not available for general use as on the date of Balance Sheet.

2.21 Earnings per share:

The Company presents basic and diluted earnings per share data for its ordinary shares. Basic earnings per share is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the year. Diluted earnings per share is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding, adjusted for own shares held, for the effects of all dilutive potential ordinary shares.

2.22 Key source of estimation:

The preparation of financial statements in conformity with Ind AS requires that the management of the Company makes estimates and assumptions that affect the reported amounts of income and expenses of the period, the reported balances of assets and liabilities and the disclosures relating to contingent liabilities as of the date of the financial statements. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates include useful lives of property, plant and equipment & intangible assets, expected credit loss on loan books, future obligations in respect of retirement benefit plans, fair value measurement etc. Difference, if any, between the actual results and estimates is recognised in the period in which the results are known.

2.23 Inventories

Stock-in-trade represents 'Shares / Securities' held by the Company with the intention to trade. The Company values listed shares and securities at their fair value as on balance sheet date. Difference between opening and closing inventory is recognised in statement of profit and loss. The Company follows FIFO method for inventory valuation.

2.24 Related Parties

Parties are considered to be related if at any time during the reporting period one party has the ability to control the other party or exercise significant influence over the other party in making financial and/or operating decisions.

As required by AS-18 “Related Party Disclosure” only following related party relationships are covered:

i. Enterprises that directly, or indirectly through one or more intermediaries, control, or are controlled by, or are under common control with, the reporting enterprise (this includes holding Companies, subsidiaries and fellow subsidiaries);

2.25 Purchases

Purchase is recognized on passing of ownership in share based on broker’s purchase note.

2.26 Expenditure

Expenses are accounted for on accrual basis and provision is made for all known losses and liabilities.

2.27 Event after Balance Sheet date

Where events occurring after the balance sheet date provide evidence of conditions that existed at the end of the reporting period, the impact of such events is adjusted within the financial statements. Otherwise, events after the balance sheet date of material size or nature are only disclosed.

2.28 Recent Accounting Pronouncements
