A message from Mr. Himanshu Sangal, Managing Director of the company

Dear Stakeholder

My heartiest greetings to you on my personal behalf and Sangal Papers Limited.

Once again, it is my pleasure to present before you the Annual Report of your Company for the F.Y-2021-22, focusing on the performance highlights of the year.

During the first and second wave of COVID 19 pandemic, where writing and printing paper demand contracted significantly due to close down of educational institution and other organization all over the country, the paper industry was backed by packaging paper demand in sector like pharma, FMCG, e-commerce retail etc. which played a major role in driving growth during that time for the paper industry.

Now, after vaccination drive in the country the covid case decline suddenly and the proactive measures in supply chain management in ensuring availability of trucks, loading/unloading crew, etc were put in place, which ensured the smoother flow of materials across the country.

With above supported factors, your company achieved growth of 46% (approx.) in sales revenue as compared to last FY 2020-2021 and 151% (approx.) increase in Profit after Tax (PAT) as compared to FY 2020-2021.

Company is planning to enhance the production by switching one of the machines from News print to Kraft paper.

As increase in the growth of organized retail sector and reopening of school, offices etc. supports in rising demand of paper and paper products. The company projecting to cross Rs. 225 crore revenue in ensuing Financial Year.

Sincerely,
Himanshu Sangal
Managing Director

Members may note that the Notice and Annual Report 2021-22 will also be available on the Company's website www.sangalpapers.com, websites of the Stock Exchanges i.e. BSE Limited at www.bseindia.com and on the website of NSDL <https://www.evoting.nsdl.com>.

19. In case a person has become a member of the Company after dispatch of the AGM Notice, but on or before the cut-off date for e-voting i.e. **Wednesday, September 21, 2022**, such person may obtain the User ID and Password from RTA by e-mail request on investor@masserv.com
20. With a view to helping us serve the members better, members who hold shares in identical names and in the same order of names in more than one folio are requested to write to the Company to consolidate their holdings in one folio.
21. In terms of Section 72 of the Companies Act, 2013 and the applicable provisions, the shareholders of the Company may nominate a person in whose name the shares held by him/them shall vest in

the event of his/their death. Shareholders desirous of availing this facility may submit the requisite nomination form.

22. In terms of SEBI Circular dated 09/12/2020, the depository shall send SMS/email alerts regarding the details of the upcoming AGM to the demat holders atleast 2 days prior to the date of commencement of e-voting. Hence members are requested to update the mobile no./email ID with their respective depository participants.
23. SEBI has made it mandatory for all Companies to use the bank account details furnished by the Depositories and the bank account details maintained by the RTA for payment of dividend to Members electronically. The Company has extended the facility of electronic credit of dividend directly to the respective bank accounts of the Member(s) through Electronic Clearing Service (ECS)/National Electronic Clearing Service (NECS)/ Real Time Gross Settlement (RTGS)/ Direct Credit/NEFT etc. In the absence of ECS facilities, the Company will print the bank account details if available, on the payment instrument for distribution of dividend.

In order to receive the dividend without loss of time, the Members holding shares in physical form are requested to submit particulars of their bank accounts along with the original cancelled cheque bearing the name of the Member to the RTA, MAS Services Limited/Company to update their bank account details and all the eligible shareholders holding shares in demat mode are requested to update with their respective DPs, their correct Bank Account Number, including 9 Digit MICR Code and 11 digit IFSC Code, e-mail ID and Mobile No(s).

Members holding shares in physical form may communicate these details to the RTA viz. MAS Services Limited having address at RTA i.e. MAS Services Limited, having address at T-34 2nd Floor, Okhla Industrial Area, Phase-II, New Delhi 110020, by quoting the reference folio number and attaching photocopy of the cheque leaf of their active bank account and a self-attested copy of their Permanent Account Number ('PAN') card.

This will facilitate the remittance of the dividend amount as directed by SEBI in the bank account electronically. Updation of e-mail IDs and Mobile No(s) will enable the Company in sending communication relating to credit of dividend, un-encashed dividend, etc.

The Company or RTA cannot act on any request received directly from the Members holding shares in demat form for any change of bank particulars. Such changes are to be intimated only to the DPs of the Members.

24. Pursuant to Finance Act, 2020, dividend income will be taxable at the hands of shareholders w.e.f. 1st April, 2020 and the Company is required to deduct tax at source from dividend paid to

members at prescribed rates. For the prescribed rates for various categories the members are requested to refer to the Finance Act, 2020 and amendments thereto. The members are requested to update their PAN with Registrar and Transfer Agents (in case of shares held in physical mode) and depository participants (in case shares held in demat mode). However, no tax shall be deducted on the dividend payable to a resident individual shareholder if the total dividend to be received during FY 21-22 does not exceed Rs.5,000/-.

A resident individual shareholder with PAN who is not liable to pay income tax submit a yearly declaration in Form 15G/15H, to avail the benefit of non-deduction of tax at Company's RTA at investor@masserv.com. Shareholders are requested to note that in case their PAN is not registered, the tax will be deducted at a higher rate of 20%.

25. The documents referred to in the proposed resolutions are available for inspection at its Registered Office of the Company during normal business hours on any working day except Saturdays, upto the date of meeting.
26. Instructions for e-voting and joining the AGM are as follows:

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Pursuant to the Regulation 34 of SEBI (Listing Obligations and Disclosure Requirements) Regulation, 2015. Your Directors have pleasure in presenting the management discussion and analysis report for the year ended on March 31st, 2022.

Sangal Papers Limited (hereinafter called “The Company”) incorporated in the year 1980 and having registered office in the state of Uttar Pradesh. The company is engaging in manufacturing of News Print paper and other various variety of color papers. We manufacture paper on customized requirement of the customers. The management discussed the various aspects and come out this summary:

A) INDUSTRY STRUCTURE AND DEVELOPMENT:

Paper is the cultural barometer of the nation. We need paper every day for widening the frontier of our knowledge or to transport or supply any goods or commodity. Pulp and paper constitute one of the most important segments for paper industry and is treated as a basic requirement. As per IPMA's (Indian Paper Mills Association) estimates, this industry contributes approximately provides employment to more than 5 lakh people and indirectly 1.5 million people. The Broad characteristics of the industry are that it is capital, raw material, energy and water intensive and highly fragmented (small units account for 60% of the industry size). Globally over 400 million tonnes of paper and paper products are consumed. The world's three largest paper producing countries are China, the United States, and Japan (these three countries account for approximately half of the world's total paper production), while India accounts for a small but growing share of the global market. The Indian Paper & Paperboard industry is one of the oldest organized manufacturing industries in India and the first paper mill was started in 1812 in Serampore, West Bengal. The Indian paper industry accounts for approximately 5% of the world's total production of paper.

During the financial year 2021-2022 the paper and paper product industry in India seen a significant rise in demand in domestic and export market due to strong growth in organized retail sector and reopen of schools and colleges after covid pandemic. The Sangal Papers Limited (“The Company”) has reported a growth of 46% (approx) in turnover, (total Income) and profit after tax (PAT) increased by 150% (*details based on 2021-2022 and 2020-2021 financials of the company) during the financial year. Paper pervades all sectors of our activity from book to bullets and from morning newspaper to nuclear technology. Indian paper industry is highly fragmented with varying sizes ranging from 10 tpd to 1500 tpd. In global context, India is one of the fastest growing markets for paper and paper consumption in the country is estimated to touch 30 million tons by 2026-27. Our company also engaged in manufacturing of news print paper and the newsprint sector in India is governed by the Newsprint Control Order (NCO), 2004. At present there are more than 120 mills registered under the Schedule of the NCO.

B) Opportunities and Threats:

The Company's products have been enjoying consistently good brand image and loyalty from the consumers for the past several years and the company is optimistic on increasing the sale of the paper product in India. Firstly, due to increase of organized retail sector and e-commerce in the country and secondly, with reopen of schools and colleges. After post pandemic era, paper industry witnessed a strong demand in packaging paper and writing or printing paper in India as well as globally. As per IPMA (Indian Paper Manufacturers Association) estimates a growth of 7 % on year on year basis annually.

Your company is manufacturing paper on demand of the Customer, our production and market size is negligible in paper industry. We are manufacturing News print and writing printing paper, the prices of News print paper decided by international market, large manufacturer and publishers of Newsprint (Buyer) on quarterly basis as per the availability of indigenous and imported news print paper in the market.

In the reference of pricing of writing printing paper and other various variety of paper, our company is very small company by size and value. We are following price decided by the customer and the market forces. We are only price takers and not setters. The price of paper is determined/decided by taking into various factors like quantity, quality etc.

Current year sale (total revenue from operations) of product involves domestic sale and abroad sale of our product during the year ending 31st March, 2022 of Rs. 15499.76 (Rupees in Lakh) increased with 46% approx. as compared to last fiscal. The company is also trying to utilise full capacity of production for better and economical use of the resources. Raw material use by the company is one of the best quality of its category with strong quality checks, the availability of raw material for production is depend on the availability in the market and as well as price consideration. The Company is also considering on the using of best technologies in the production for economical uses of the production capacity with minimal wastage.

Manufacturing of paper involves very high volume of water and electricity, which results in creating pollution to the environment which is one of the biggest threats to the paper industry. To overcome this challenge, industry requires to adopt latest technology machines and pollution reducing equipment's or filters to curb pollution which involves high cost and time as required to obtain environmental clearance from the government.

C) Segment:

As per Ind AS 108 required to information in business report about reporting segment and related disclosures about product and services, geographic areas and major customers. Based on the management approach as defined in IND AS 108, the Chief Operation Decision Maker (CODM) evaluated the company's performance and allocates resources based on an analysis of single segment and geographic segment. Accordingly, the information has been presented both along business segment and geographic segment.

Sangal Papers Limited engaged in single segment of business, paper manufacturing is our primary business activity.

In geographic segment, the company is selling its paper in India and exporting to Sri Lanka, Singapore, Nepal, Iran, United Arab Emirates and other various countries.

In the significant customers, our company is paper manufacturing and selling the paper to pan India and export to many countries.

As per IND AS and as the standalone balance sheet of the company for the financial year ended 31st March, 2022, the total income of the company (including other income) of Rs. 15564.48/- (Rs. in Lakh, approx.) (current year) and of Rs. 10638.39/- (Rs. in Lakh, approx.) (previous year) increased about 46% (approx.) and total expenses of the respected year of Rs. 15352.65/- (Rs. in Lakh, approx.) (current year) and of Rs. 10561.90/- (Rs. in Lakh, approx.) (previous year) expenses increased about 45% (approx.). Profit after Tax (PAT) of the company for the relevant period of Rs. 164.12/- (Rs. in Lakh, approx.) (current year) and of Rs. 65.30/- (Rs. in Lakh, approx.) (previous year), profit after tax increased about 151% (approx.). Despite of challenges due to Covid19 which affects (decline) the global demand significantly in last two years. Now, as the economic activity opens up in the post-pandemic era, the growth momentum is likely to get further acceleration in coming months ahead.

D) Outlook and other concerns:

This Section lists future based statement, it depend on the present and future Market and paper industry situations and also involvement of risk and uncertainties.

After outbreak of CoVID-19 pandemic situation in last two years which drastically decline demand of paper. But now, after vaccination to all citizens of India and decline in cases of Covid affected people, the economic situation becoming favourable and accelerated the manufacturing sector with rising demand of goods and services globally. The smooth availability of trucks, loading/unloading crew etc. were put in place which ensured the better flow of materials across the country. There has also been witnessed with strong demand of packaging paper due to increase in organized retail sector. Reopen of educational institutions and other organisations added demand of writing and printing paper too.

For Indian paper industry, biggest concern is the use of high volume of water and electricity consumption in manufacturing process which creates pollution in the environment. Due to which to reduce such pollution filters and upgradation in technology requires from time to time which involves heavy investment in CAPEX which is a continuous challenge to small scale paper manufactures in this price sensitive commodity (paper) market.

CARE Ratings or IPMA (Indian Paper Manufacturers Association) estimates a growth of 6 – 7 % on year on year basis and will reach 30 million tonnes by FY 2026-2027 largely driven by emphasis on education and literacy coupled with growth in organized retail, according to industry body IPMA.

The growth will be largely driven by printing & writing and packaging & paper board segment. The Indian paper industry can be broadly classified into three segments:

1. Printing & writing (P&W): Printing and writing segment caters to office stationary, textbooks, copier papers, notebooks etc. This segment forms ~31% of domestic paper industry. Governments thrust on education through steps like Right to Education, Sarva Shiksha Abhiyan, rise in service sector are key factors contributing to the growth of this segment.

2. Packaging & paper board: Packaging paper & board segment caters to tertiary and flexible packaging purposes in industries such as FMCG, food, pharma, textiles etc. This segment forms ~47% of the domestic paper industry. This is currently fastest growing segment owing to factors such as rising urbanization, increasing penetration of organized retail, higher growth in FMCG, pharmaceutical.

3. Newsprint: Newsprint serves the newspaper & magazines industry. This segment forms ~18% of Indian paper industry. This segment is under stress due to lower growth rates and import threat.

Our actual results could differ materially from those anticipated in these statements a result of certain factors. The company will try or make efforts to increase in the revenue and profit of the company in future. The company will also try to enter in new geographical area for capturing more market and increased in the percentage of participate in the national and international market. A large portion of the revenue is dependent on the top clients of the company and the loss of any one of major client could significantly impact of the business. We may be the subject of litigation which, if adversely determine could harm our business and operating result.

E) Internal Financial Control and their adequacy:

The Company identifies a risk based internal audit scope and assesses the inherent risk in the processes and activities of the department within the company and ensures that appropriate risk management limits, internal control mechanisms and mitigation strategies are in place. The Internal Auditors, via, their internal audit reports, make suggestion for better application of policies and rules relating to the deficiencies/non-compliance of various audit areas and give suggestions/recommendations and control

directives like periodic reconciliation, proper authorizations/approvals, processing controls, segregations of duties, maker-checker approach, etc. so as to mitigate the deficiencies and make the process, procedure, systems and functions more robust, accountable, reliable and compliant. The suggestions made by the Internal Auditors and the compliances thereof are placed before the Audit Committee. The Audit Committee of the company, the details of which have been provided in the Corporate Governance Report. The Committee reviews audit reports submitted by the Internal Auditors. Internal Financial Control's Suggestions for improvement are considered and the Committee follows up on the implementation of corrective actions. The Committee also meets the Statutory Auditors to ascertain, inter alia, their views on the adequacy of internal control systems in the company.

Basis for Opinion

We conducted our audit of the standalone Ind AS financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143 (10) of the act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the standalone Ind AS Financial Statements' section of our report. We are independent of the company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone Ind AS financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone Ind AS financial statements for the financial year ended **31 March 2022**. These matters were addressed in the context of our audit of the standalone IND AS financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. During the year under consideration, we have no key audit matters to report.

Information other than the Financial Statements and Auditor's Report thereon:

The company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report 2021-22, but does not include the standalone Ind AS financial statements and our auditor's report thereon.

Our opinion on the standalone Ind AS Financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the standalone Ind AS financial statements or our knowledge obtained in audit or otherwise appears to be materially misstated. If based on the work we have performed, we conclude that there is material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the standalone Ind AS Financial Statements

The company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these the standalone Ind AS financial statements that give a true and fair view of the Financial Position, Financial Performance including Cash Flows and the Statement of Changes in Equity of the Company in accordance with accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial control that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone Ind AS financial statement, management is responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. Those Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditor's Responsibilities for the Audit of the standalone Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an Auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these the standalone Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatements of the standalone Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(1) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of sub controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone Ind AS financial statements, including the disclosures, and whether the standalone Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and we communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone Ind AS financial statements for the financial year ended March 31, 2022 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the financial statements and we have fulfilled our other ethical responsibilities in accordance with these requirements.

ANNEXURE B TO THE AUDITORS' REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **SANGAL PAPERS LIMITED, MEERUT** ('the company') as of 31 March 2022 in conjunction with our audit of the standalone Ind As financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the standalone Ind AS financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of the Management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Background

Sangal Papers Limited is a Company domiciled in India, incorporated on 22 November 1980 with its registered office situated at Village Bhainsa, 22 km Mawana Road Meerut U.P, the Company has been incorporated under Indian Companies Act and its equity shares are listed on the Bombay Stock Exchange (BSE). "The financial statements are approved for issuance by the company's board of directors on 30th May 2022"

Note 1: Significant Accounting Policies

This note provides a list of the significant accounting policies adopted in the preparation of these standalone financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Basis of preparation

(i) Compliance with Ind AS

The financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] and as amended from time to time and other relevant provisions of the Act.

(ii) Historical Cost Convention

The financial statement have been prepared on a historical cost basis, except for the following:

- certain financial assets and liabilities are measured at fair value; and
- defined benefit plans and their liabilities are measured at fair value.

(b) Use of Estimates

The preparation of financial statements requires estimates and assumptions to be made that affect the reported amount of assets and liabilities as at the date of the financial statements and the reported amount of revenues and expenses during the reporting year. The difference between the actual results and estimates are recognised in the year in which the results are known/materialize.

All Assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the schedule III to the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalent, the Company has ascertained its operating cycle as 12 months for the purpose of current/non-current classification of assets and liabilities

(c) Segment Reporting

The Company is engaged in the business of Paper Manufacturing considering the nature of company's business and operations, there are no other reportable segments in accordance with Ind AS 108 'Operating segments' and hence, there are no additional disclosures required.

(d) Foreign Currency Transactions and Translations

Transactions in foreign currencies are initially recorded by the company's entities at their respective functional currency spot rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit and loss, respectively).

(e) Financial instruments - Initial recognition, subsequent measurement and impairment

A financial instrument is any contract that gives use to a financial asset of one entity and a financial liability or equity instrument of another entity.

Sangal Papers Limited

(Amounts in INR Lakhs, unless otherwise stated)

Financial Assets

Financial assets are measured at amortised cost or fair value through other comprehensive income or fair value through profit or loss depending on its business model for managing those financial assets and the assets contractual cash flow characteristics.

Subsequent measurements of financial assets are dependent on initial categorisation. For impairment purposes significant financial assets are tested on an individual basis, other financial assets are assessed collectively that share similar credit risk characteristics.

Derecognition of financial assets

A financial asset is derecognised only when the Company has transferred the rights to receive cash flows from the financial asset or retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the group has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

Financial Liabilities

At initial recognition, all financial liabilities other than fair valued through profit and loss are recognised initially at fair value less transaction costs that are attributable to the issue of financial liability. Transaction costs of financial liability carried at fair value through profit or loss is expensed in profit or loss.

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading. The Company has not designated any financial liabilities upon initial measurement recognition at fair value through profit or loss. Financial liabilities at fair value through profit or loss are at each reporting date at fair value with all the changes recognized in the Statement of Profit and Loss.

Financial liabilities measured at amortised cost

After initial recognition, interest bearing loans and borrowings are subsequently measured at amortised cost using the effective interest rate method ('EIR') except for those designated in an effective hedging relationship. The carrying value of borrowings that are designated as hedged items in fair value hedges that would otherwise be carried at amortised cost are adjusted to record changes in fair values attributable to the risks that are hedged in effective hedging relationship.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fee or costs that are an integral part of the EIR. The EIR amortisation is included in finance costs in the Statement of Profit and Loss.

After initial recognition, interest-bearing borrowings are subsequently measured at amortised cost using the effective interest method. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the year of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down.

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least twelve months after the reporting year.

De-recognition of financial liability

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other income or finance costs.

Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. Subsequent recoveries of amounts previously written off are credited to other income.

Sangal Papers Limited

(Amounts in INR Lakhs, unless otherwise stated)

(f) Trade and other payables

A payable is classified as 'trade payable' if it is in respect of the amount due on account of goods purchased or services received in the normal course of business. These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting year. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

(g) Cash Flow statements

Cash flows are reported using the Indirect Method, where by profit/(loss) before tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the company are segregate based on the available information.

(h) Cash and Cash Equivalents

Cash and cash equivalents comprise cash and cash on deposit with banks and corporations. The Company considers all highly liquid investments with a remaining maturity at the date of purchase of three months or less and that are readily convertible to known amounts of cash to be cash equivalents.

(i) Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds.

Par value of the equity share is recorded as share capital and the amount received in excess of the par value is classified as share premium.

(j) Revenue recognition

The Company derives revenues primarily from sale of paper products.

Sale of goods

For sale of goods, revenue is recognised when control of the goods has transferred at a point in time i.e. when the goods have been dispatched to the location of customer. Following dispatch, the customer has full discretion over the responsibility, manner of distribution, price to sell the goods and bears the risks of obsolescence and loss in relation to the goods. A receivable is recognised by the Company when the goods are dispatched to the customer as this represents the point in time at which the right to consideration becomes unconditional, as only the passage of time is required before payment is due. The Company considers the effects of variable consideration, non-cash consideration, and consideration payable to the customer (if any).

Interest income

Interest income from financial instrument is recognised using the effective interest rate (EIR) method. EIR is the rate which exactly discounts the estimated future cash receipts over the expected life of the financial instrument to the gross carrying amount of the financial asset. When calculating the EIR the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayments, extensions, call and similar options) but does not consider the expected credit losses.

Variable consideration

If the consideration in a contract includes a variable amount, estimates the amount of consideration to which it will be entitled in exchange for transferring the goods to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved. The Company recognizes changes in the estimated amount of variable consideration in the period in which the change occurs. Some contracts for the sale of goods provide customers with volume rebates and pricing incentives, which give rise to variable consideration.

Rebates are offset against amounts payable by the customer. To estimate the variable consideration for the expected future rebates, the Company applies the most likely amount method for contracts with a single-volume threshold. The selected method that best predicts the amount of variable consideration is primarily driven by the number of volume thresholds contained in the contract. The Company then applies the requirements on constraining estimates of variable consideration and recognises a refund liability for the expected future rebates.

Sangal Papers Limited

(Amounts in INR Lakhs, unless otherwise stated)

Contract balances

Trade receivables

A receivable represents the Company's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policy (n).

Contract liabilities (which the Company refer to as advance from customer)

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company performs under the contract.

The Company presents revenues net of indirect taxes in its Statement of Profit and Loss.

Cost to obtain a contract

The Company pays sales commission to its selling agents for each contract that they obtain for the Company. The Company has elected to apply the optional practical expedient for costs to obtain a contract which allows the Company to immediately expense sales commissions (included in 'commission on sales' under other expenses) because the amortization period of the asset that the Company otherwise would have used is one year or less.

Costs to fulfil a contract i.e. freight, insurance and other selling expenses are recognized as an expense in the period in which related revenue is recognised.

Financing components

The Company does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, the Company does not adjust any of the transaction prices for the time value of money.

(k) Provisions, contingent liabilities and assets

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation, and the amount has been reliably estimated. Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

Contingent assets are disclosed where an inflow of an economic benefit is probable.

(l) Earning Per Share

Basic and diluted earnings per share are calculated by dividing the net profit or loss for the year attributable to the equity shareholders by the weighted average number of equity shares outstanding during the year.

(m) Taxation

Provision for tax consists of current tax and deferred tax. Current tax provision is computed for current income based on the tax liability after considering allowances and exemptions. Deferred tax assets and liabilities are computed on the basis of timing differences at the Balance Sheet date between the carrying amount of assets and liabilities and their respective tax basis. Deferred tax assets are recognized based on management estimates of available future taxable income and assessing its certainty.

(i) Current Income Tax

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in India. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Sangal Papers Limited

(Amounts in INR Lakhs, unless otherwise stated)

(ii) Deferred Tax

Indian GAAP requires deferred tax accounting using the income statement approach, which focuses on differences between taxable profits and accounting profits for the period.

Ind AS 12, "Income Taxes" requires entities to account for deferred taxes using the balance sheet approach, which focuses on temporary differences between the carrying amount of an asset or liability in the balance sheet and its tax base. The application of Ind AS 12, has resulted in recognition of deferred tax on new temporary differences, which was not required under Indian GAAP, if applicable.

In addition, the various transitional adjustments lead to additional temporary differences. According to the accounting policies, the Company has to account for such differences. Tax impact on Deferred tax adjustments are recognized in reserves for opening balance sheet and statement of profit and loss in subsequent years.

(iii) GST paid on acquisition of assets or on incurring expenses

Expenses and assets are recognised net of the amount of GST paid, except:

- When the tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the tax paid is recognized as part of the cost of acquisition of the assets or as part of the expenses item, as applicable
- When receivables and payables are stated with the amount of tax included

The net amount of tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

(n) Trade Receivables

Trade Receivables are recognized initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment.

(o) Inventories

Raw materials and stores, work in progress, traded and finished goods are stated at the lower of cost and net realisable value. Cost of raw materials and traded goods comprises cost of purchases. Cost of work-in- progress and finished goods comprises direct materials, direct labour and an appropriate proportion of variable and fixed overhead expenditure, the latter being allocated on the basis of normal operating capacity. Cost of inventories also include all other costs incurred in bringing the inventories to their present location and condition. Costs are assigned to individual items of inventory on the basis of weighted average / first-in first-out basis. Costs of purchased inventory are determined after deducting rebates and discounts. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

(p) Property, plant and equipment

Freehold land is carried at historical cost. All other items of property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

The above cost of the assets includes the revaluation of assets carried out in the previous years' and the accumulated amount of revaluation forms part of the Other Equity in Shareholders' Funds with name of "Revaluation Reserve"

Useful life of assets are as follows:

Building	40-60 years
Plant & Machinery	25-40 years
Furniture, fixture & Office	
Equipment	5 years
Computer	3 years
Vehicle	8 years

Depreciation methods, estimated useful lives and residual value

Depreciation is calculated using the straight-line method to allocate their cost, net of their residual values, over their estimated useful lives or, in the case of certain leased furniture, fittings and equipment, the shorter lease term

Sangal Papers Limited

(Amounts in INR Lakhs, unless otherwise stated)

The useful lives have been determined as per those specified by Schedule II to the Companies Act; 2013. The residual values are not more than 5% of the original cost of the asset. The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss within other gains/(losses).

(q) Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are de-recognized in the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other gains/(losses).

Borrowings are classified as current liabilities unless the group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

(r) Borrowing costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation. Other borrowing costs are expensed in the period in which they are incurred.

(s) Employee benefits

(i) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

(ii) Post-employment obligations

The group operates the following post-employment schemes:

- (a) defined benefit plan viz. gratuity; and
- (b) defined contribution plans such as provident fund.

(a) Defined benefit plan

The liability or asset recognised in the balance sheet in respect of defined benefit pension and gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation denominated in INR is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation. The benefits which are denominated in currency other than INR, the cash flows are discounted using market yields determined by reference to high-quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms approximating to the terms of the related obligation.

Sangal Papers Limited

(Amounts in INR Lakhs, unless otherwise stated)

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet. Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

(b) Defined contribution plans

The group pays provident fund contributions to publicly administered provident funds as per local regulations. The group has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognised as employee benefit expense when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

(iii) Leave encashment

Entitlement of annual leave is recognised when they accrue to employees. Annual leave can either be availed or encashed subject to a restriction on the maximum number of accumulation of leaves.

(t) Impact of COVID 19

The company has evaluated the impact of Corona Virus (COVID-19) on the operations and future economic activity of the company and based on its review and current indicators and future economic prospectus, there is no significant impact on the business of the company on its operations.

(u) Rounding of amounts

All amounts disclosed in the financial statements and notes have been rounded off to the nearest lakhs as per the requirement of Schedule III, unless otherwise stated.

Note 2: CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

The company makes estimates and judgments that affect the reporting amounts of assets and liabilities within the next year. Estimates and judgments are continually evaluated and are based on historical experience and other factor, including expectations of future events that are believed to be reasonable under the circumstance.

The preparation of financial statements requires the use of accounting estimates which, by definition, will seldom equal the actual results. Management also needs to exercise judgement in applying the Company's accounting policies.

This note provides an overview of the areas that involved a higher degree of judgement or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgements is included in relevant notes together with information about the basis of calculation for each affected line item in the financial statements.

Estimation of current tax expense and payable – **Note 23**

Estimation of defined benefit obligation – **Note 33**

Recognition of deferred tax liabilities – **Note 17**

Estimates and judgements are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the group and that are believed to be reasonable under the circumstances.

Recent accounting developments

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 23, 2022, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2022, applicable from April 1st, 2022, as below:

Sangal Papers Limited

(Amounts in INR Lakhs, unless otherwise stated)

Ind AS 103 - Business Combination

The amendments specify that to qualify for recognition as part of applying the acquisition method, the identifiable assets acquired and liabilities assumed must meet the definitions of assets and liabilities in the Conceptual Framework for Financial Reporting under Indian Accounting Standards (Conceptual Framework) issued by the Institute of Chartered Accountants of India at the acquisition date. These changes do not significantly change the requirements of Ind AS 103. The Company does not expect the amendment to have any significant impact in its financial statements.

Ind AS 16 - Property, Plant and Equipment (PPE)

The amendments mainly prohibit an entity from deducting from the cost of property, plant & equipment amounts received from selling items produced while the company is preparing the asset for its intended use. Instead, an entity will recognise such sales proceeds and related cost in profit or loss.

The company does not expect the amendments to have any impact in its recognition of its property, plant & equipment in its financial statements.

Ind AS 37 - Provisions, Contingent Liabilities and Contingent Assets

The amendments specify that the 'Cost of fulfilling' a contract comprises the 'costs that relate directly to the contract'. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract (examples would be direct labour, materials) or an allocation of other costs that relate directly to fulfilling contracts. The amendment is essentially a clarification and the company does not expect the amendment to have any significant impact in its financial statements.

Ind AS 109 - Financial Instruments

The amendment clarifies which fees an entity includes when it applies the '10 percent' test of Ind AS 109 in assessing whether to derecognise a financial liability. The Company does not expect the amendment to have any significant impact in its financial statements.

Ind AS 106 - Exploration for and Evaluation of Mineral Resources

The amendments remove the illustration of the reimbursement of leasehold improvements by the lessor in order to resolve any potential confusion regarding the treatment of lease incentives that might arise because of how lease incentives were described in that illustration. The Company does not expect the amendment to have any significant impact in its financial statements.

33 Employee benefit obligations**a) Defined contribution plan**

Retirement benefit in the form of provident fund is a defined contribution scheme. The contributions to the provident fund are charged to the statement of profit and loss for the year when the contributions are due. The Company has no obligation, other than the contribution

The Company has recognised the following amounts in the Statement of Profit and Loss for the year: (Refer Note- 29)

Particulars	2021-22	2020-21
Contribution to provident and other fund	33.72	25.65
Total	33.72	25.65

b) Defined benefit plan

Gratuity is payable to eligible employees as per the Company's policy and The Payment of Gratuity Act, 1972. The present value of obligation is determined based on actuarial valuation using the Projected Unit Credit (PUC) method, which recognizes each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligations.

Provision for leave benefits is made by the Company on the basis of actuarial valuation using the Projected Unit Credit (PUC) method.

Liability with respect to the gratuity is determined based on an actuarial valuation done by an independent actuary at the year end and is charged to Statement of Profit and Loss.

Actuarial gains and losses comprise experience adjustments and the effects of changes in actuarial assumptions and are recognized immediately in the Other Comprehensive income as income or expense.

Other disclosures required under Indian Accounting Standards 19 "Employee benefits" are given below:

The principal assumptions used in determining gratuity obligation

	For the year ended 31 March 2022	For the year ended 31 March 2021
Discount rate	7.30%	6.90%
Salary escalation	2.50%	2.50%

Retirement age	58 Years	
Mortality table	100% of IALM (2012-14)	
Average withdrawal rate	Withdrawal Rate	Withdrawal Rate
a) Upto 30 Years	2.00%	2.00%
b) From 31 to 44 Years	2.00%	2.00%
c) Above 44 Years	2.00%	2.00%

The estimates of future salary considered in actuarial valuation take account of inflation, total amount of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

The Company regularly assesses these assumptions with the projected long-term plans and prevalent industry standards. The impact of sensitivity due to changes in the significant actuarial assumptions on the defined benefit obligation is given in the table below.

<u>Particulars</u>	<u>Change in assumptions</u>	For the year ended 31 March 2022	For the year ended 31 March 2021
Defined benefit obligation based on current assumptions		88.87	88.87
Discount rate	+0.50%	2.89	0.83
	-0.50%	(3.10)	(4.84)
Salary escalation	+0.50%	(2.88)	(4.66)
	-0.50%	2.71	0.69
Employee Turnover	+0%	-	-
	-0%	-	-

The sensitivity analysis above have been determined based on a method that extrapolates the impact on defined benefit obligation as a result of reasonable changes in key assumptions occurring at the end of the reporting period

The sensitivity analysis presented above may not be representative of the actual change in the projected benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

Furthermore, in presenting the above sensitivity analysis, the present value of the projected benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same method as applied in calculating the projected benefit obligation as recognised in the balance sheet.

There was no change in the methods and assumptions used in preparing the sensitivity analysis from prior years.

Risk analysis

The Company is exposed to a number of risks in the defined benefit plans. Most significant risks pertaining to defined benefit plans and management estimation of the impact of these risks are as follows

Inflation risk

Currently the Company has not funded the defined benefit plans. Therefore, the Company, will have to bear the entire increases in liability on account of inflation

Longevity risk/life expectancy

The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and at the end of the employment. An increase in the life expectancy of the plan participants will increase the plan liability.

Salary growth risk

The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. An increase in the salary of the plan participant will increase the plan liability

Financial Instruments-Fair value hierarchy

The company categorizes financial assets and financial liabilities measured at fair value into one of three level depending on the ability to observe inputs employed in their measurement which are described as follows:

- Level 1 Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2 Inputs are inputs that are observable, either directly or indirectly, other than quoted prices included within level 1 for the financial asset or financial liabilities.
- Level 3 Inputs are unobservable input for the assets or liability reflecting the significant modifications to observable related market data or Company's assumptions about pricing by market participants.

The board of director has overall responsibility for the establishment and oversight of the company's risk management framework. The company's risk management policies are established to identify and analyse the risks faced by the company to set appropriate measures and controls and to monitor risks and adherence to limits. Risks management policies and systems are reviewed regularly to reflect changes in market conditions and in the company's activities.

The company's exposure to the various types of risks associated to its activity and financial instruments is detailed below:

Credit risk

Credit risk is the risk that counterparty will not meet its obligation under a financial instrument or customer contract, leading to a financial loss. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration of risks. Credit risk is controlled by analyzing credit limits and creditworthiness of a customer on a continuous basis to whom the credit has been granted after obtaining necessary approvals for credit. Financial instrument that are subject to concentration of credit risk principally consist of trade receivables, cash and cash equivalents, bank deposits and other financial assets. None of the financial instrument of the Company result in material concentration of credit risk.

36 Market Risk

Market risk is the risk that the Company's assets and liabilities will be exposed to due to a change in market prices such as foreign exchange rates and interest rates that determine the valuation of these financial instruments. Financial instruments affected by market risk include receivables, payables, and loans and borrowings.

(a) Foreign currency risk exposure:

The Company operates internationally and is exposed to foreign exchange risk arising from foreign currency transactions, primarily with respect to the USD. Foreign exchange risk arises from future commercial transactions and recognised assets and liabilities denominated in a currency that is not the company's functional currency (INR). The risk is measured through a forecast of highly probable foreign currency cash flows. The objective of the hedges is to minimise the volatility of the INR cash flows of highly probable forecast transactions.
