Annual General Meeting of the Company by Video Conference
on Thursday, the 23rd September, 2021 at 11.30 AM

DIRECTORS' REPORT

To

The Members

Your Directors hereby present the 62nd Annual Report of the Company along with the audited accounts for the year ended 31st March, 2021.

The Company has adopted Indian Accounting Standards (Ind AS), from the financial year 2017-18 as mandated by the Ministry of Corporate Affairs (MCA), in place of Indian GAAP, followed earlier. Financial statements for the current year, including figures of the previous year are based on IndAS and this adoption has no major impact for the Statement of Profit and Loss.

OPERATIONS

Revenue from operations for the financial year 2020-21 increased to ₹ 226.78 crores from ₹ 217.61 crores in the previous year.

National Lockdown, imposed to curb the spread of Covid-19 pandemic, towards the end of preceding financial year and continued restrictions impacted production and sales in first quarter of the FY 2020-21 to the extent of about 40%. Paper Division remained shut till 4th May 2020. Box Division resumed operations from 3rd April, 2020 as it was covered under Essential Services. After recommencing, initially both the units were operated with minimum possible

62nd Annual Report 2020-2021

employees, and subsequently scaling up gradually with necessary precautions and hygienic care and protection of the employees. The Company has adopted measures to curb the spread of infection in order to protect the health of its employees and ensure business continuity with minimal disruption. Operating levels improved and stabilized during the 2nd quarter and continued for rest of the year.

During the year raw material, fuel prices started moving up and the Company could recover the higher cost by improved realizations, which resulted in increase in top line.

Operation at the Paper Mill was lower @ 81% due to above factors happening in Q1 as against 86% of the Capacity during the preceding year,

At Printing & Packaging Division Conversion tonnage was about 5% lower, compared to preceding year.

Profit before interest, depreciation, tax (PBDIT) in FY 2020-21 was better on account of the above said factors at ₹3,817 lacs from ₹3,522 lacs in the preceding year. Finance costs were higher at ₹ 446 lacs from ₹ 411 lakhs as the utilization of working capital facility, from bank increased. After making a depreciation provision of ₹ 1,014 lacs (Previous year ₹977 lacs), profit before Exceptional income & tax was ₹ 2,357 lacs(Previous year ₹ 2,133 lacs). Exceptional income of ₹ 306 lakhs (previous year nil) on sale of part of an immovable property (held for sale), boosted the profit before tax to ₹2,663 lakhs (previous year ₹2,133 lakhs).

After making a provision for current tax of ₹ 483 lakhs (₹372 lacs) & considering net effect of deferred tax & MAT credit charged of ₹275 lacs (₹175 lacs in the previous year), net profit stood at ₹ 1,905 lacs. (Previous Year ₹1,595 lacs)

Considering the prevailing economic environment and the internal and external factors, the Company has assessed the carrying amount of property, plant & equipment, receivables, inventories, investments and other assets as at the Balance Sheet date, the current liquidity position including its cash flows, the business outlook and has concluded that no material adjustments are required in these financial results and the Balance Sheet as at 31-3-2021. The potential future impact of the global health pandemic may be different from that estimated as at the date of approval of these financial statements and the Company will continue to closely monitor any material changes to future economic conditions and assess the impact on its business

FINANCES

During the year, cash flow & liquidity remained comfortable.

Sources of funds	₹ in lacs	Deployment of funds	₹ in lacs
Cash flow from operating activities	3,801	Repayment of Term Loans	567

Installments of Term Loans and Interest on Term Loans and Working capital borrowings were paid within due dates.

DEPOSITS

The Company has neither accepted nor renewed any deposits within the meaning of Section 73 of the Companies Act, 2013 and rules framed there under, during the financial year.

CREDIT RATING

ICRA had extended the validity of the existing ratings upto 30-9-2020. Subsequently, ICRA downgraded the Long term rating (for Fund based limits) of [ICRA]A- to [ICRA]BBB+ stable and a short term rating (for Non Fund based limits) of [ICRA]A2+ to [ICRA]A2, to the Company's line of credit, stating that the proposed borrowing for the Expansion Project and assumed impact of Covid-19 would affect the revenue & earnings. Company has represented to consider the facts & performance and ICRA has agreed to review.

CURRENT PROSPECTS

Current year, the operating levels are better in April & May 2021. However, the demand had fallen due to Lockdowns imposed by the State Governments to combat the 2nd wave of Covid-19, which affected the user industries and consequently led to lower demand, resulting in lower production in June. Company had taken maintenance shutdown for about a week. However, overall performance for the 1st Quarter appears to be normal. Barring further lockdown/ disruption Company's operation in the subsequent quarters is expected to be normal and comparable to that of preceding year, though material costs and overheads are on the rise.

The market conditions for paper, though generally competitive, as the industry capacity has increased substantially over the years, is favourable for quality products in the segment in which the Company operates. Market for corrugated boxes continue to be extremely competitive, as industry shifts towards new paradigm in corrugation. Company is exploring opportunities in new areas, including e-commerce business.

An increase in paper making capacity through brown-field investment is under implementation.

CAPITAL EXPENDITURE PLANS

The Company's plan for expansion of the production capacity of paper mill by installing PM6 (Paper Machine No.6) at an estimated cost of about ₹ 190 crores, revised to ₹ 260 crores is under implementation. Revision is on account of introduction of some systems for process efficiency, automation to handle higher production, without much time loss and water conservation systems considered, as beneficial to the Project.

Production capacity is being increased from the present 200 MTPD (Metric Tonnes Per Day) to 460 MTPD.

Means of finance revised, with proposal to apply & avail additional Term loan of ₹ 40 crores. With this, Bank Term Loan of ₹ 110 crores, already sanctioned, total Term Loan portion will be ₹ 150 crores. Internal accruals of ₹ 80 crores is revised to ₹110 crores, in view of the earnings available during extended implementation period. Civil works delayed due to Covid-19 pandemic and Capex on machineries deferred initially are resumed and progressing satisfactorily. Project is scheduled to be commissioned by Q3 end or early Q4 and the Lending Bank has permitted the extending of date of commissioning upto March 2022, as per RBI circular. This investment in PM6 should further the good standing of Company's products.

Project cost and Means of Finance – update – ₹ in crores

Particulars	Original estimate	Revised estimate	Amount incurred As on 31-3-2021	Amount incurred As on 31-5-2021	Balance to be incurred

MANAGEMENT DISCUSSION AND ANALYSIS

i) Industry Structure & Developments :

The Indian Paper Industry has been historically segmented on a three dimensional matrix identified by size, grades manufactured and raw materials utilised. Government policies on indirect taxation rates applicable to output have relied on this segmentation. Generally, tariff rates have protected smaller units utilising “unconventional” raw material. Over the years, the growth of various segments, investment levels in specific segments, technological changes, industry fragmentation and intensity of competition have been significantly influenced by the Government’s tariff policy.

Over 600 players currently populate the domestic industry and the estimated output across all grades is about 19 million metric tonnes per annum (MTPA). Global paper consumption is about 400 MTs per annum and about 50% is recycled each year. The three broad segments of the market are Writing and Printing Grades (Cultural), Packaging Grades (Industrial) and Newsprint.

The “Industrial” Segment of the paper market broadly comprises of Corrugated Case Materials, (CCM) and Duplex Boards -white lined and coated or uncoated. Fragmentation is severe in this segment which constitutes about 50% of the total output of Paper & Board. This segment entirely relies upon “unconventional” raw material such as waste paper (imported and domestically sourced) and, to a limited extent, on agricultural residues. The average size of units in this segment is now about 15,000 MTPA and most units cater to local area demand from small semi-auto corrugated box factories and small printers. Although the other segments in the Indian paper industry are also fragmented by international standards, the degree of fragmentation is less severe.

Historically, the bulk of the output of “Cultural” grades - comprising of writing, printing, office stationery paper and speciality paper has been the preserve of the larger producers, who use forest based raw materials in integrated pulping facilities augmented by imported market pulp. This segment has been consistently taxed at higher rates due to its size and use of “conventional” forest based raw material. Investment in plant for these players has also been higher. With a relatively smaller number of players and high import tariff protection, prices of end products, generally perceived to be of higher quality, have been high. “Lower end cultural grades” manufactured by smaller players using unconventional raw materials in low investment, low-tech plants cater to consumers in the price sensitive sub-segment of this market. This sub segment has historically depended heavily on the tariff differential based on size and raw material for its viability. Some of the mid-sized players in the writing and printing segment are in the process of expansion and modernization and are installing wider/faster machines with full fledged de-inking plants to produce the higher quality that is increasingly preferred and for which consumers are willing to pay more. Several of the “large-integrated” forest based producers have also recently increased forest based pulping capacities. The cultural paper segment contributes about 40% of the annual paper and paperboard production with a current demand growth rate of about 6 to 7% per annum. The high investment levels required and limited “conventional” fiber resources are the major deterrents to growth in this segment for both existing players as well as new entrants.

The Indian Paper industry which accounts for about 4.5% of global production, in recent times has registered faster growth rates of about 7%. The domestic demand is expected to grow at about 6 to 7% p.a. Paper industry plays an important role in the socio-economic development of the country.

Despite several infrastructural impediments there is a strong growth in demand in several sub-segments of the Indian Paper Industry. There is perceptible shift in preference for higher quality products in both the Industrial and Cultural Segments and players with the right grade-quality mix are seeing opportunities for profitable growth. As per our

assessment, most of the dominant players in each industry segment are operating near to capacity and one can expect a round of capacity additions which will however be circumscribed by factors peculiar to individual units such as the ability to raise funds cost effectively, availability of raw material and low cost energy.

ii) Opportunities & threats:

The Indian Government's policy for the paper industry lacks perspective. It is necessary that the Government come up with a clear policy on pulpwood plantations that can benefit the paper industry in terms of introducing more virgin fiber into the fiber basket. In the face of fierce global competition, sustenance of industry with only agro-based raw materials and recycled fiber will be very difficult to achieve. The Government also needs to create a more conducive atmosphere for investment into this sector.

In the medium term, much of the growth in the packaging segment of the Industry is expected to be based on recycling of waste paper. This is already the trend in China. Indian paper companies in the packaging segment are also expected to fuel their near to medium term growth through waste paper imports from regions of surplus such as North America and Europe. Large Chinese producers have set up their own sourcing networks in these regions to supply their huge capacity additions; they possess relative buying strengths and constitute a cost threat to that extent. Over time, however, as domestic capacities stabilize and domestic collection improves, a larger proportion is expected to be sourced domestically with the fiber basket being upgraded by pulp imports. The strength of any firm in this industry is however expected to come from a presence throughout the supply chain from raw material to packaging production and delivery.

Whilst this is a capital-intensive industry, the current structure of depreciation tax shields, finance (interest) costs and relatively short-term repayment horizons places severe limitations on fresh investments.

This phenomenon has effectively increased the project cost on expansion and new green-field investments. At the same time, the continuous reduction of import tariffs keeps margins under pressure.

The absence of large-scale investments and green field projects in a rapidly growing economy with one of the lowest per capita paper consumption rates is testimony to this situation.

iii) Segment wise or product wise performance:

Segment wise revenue, results and capital employed are furnished for i) Paper & Paper products and ii) Power, in the notes on accounts.

iv) Outlook:

Growth rate of the Indian economy was negative at -7.3% due to Covid-19 impact as against 4.2% for 2019-20. Q4 had turned positive with 1.6% growth. Growth forecast for 2021-22 is 9.5% on the lower base figure of the previous year.

Demand for paper in FY 22 is expected to revive in the second half with reduced impact of Covid-19. Demand from education, packaging, corporate and print media sections declined owing to nation wide lockdown imposed to curb the spread of Covid-19 pandemic.

Innovative cost containment and cost cutting will be required by paper mills to not only maintain business volumes but to capture a larger portion of a slowly growing pie.

62nd Annual Report 2020-2021

v) Risks and Concerns:

New, large scale manufacturing capacities are being created in several down-stream industries such as electronic goods, white goods, cell phones and fast moving consumer goods. These industries that have been seeing a year-on-year growth of 8 to 10% are expected to also slow but not as much as the general slowdown in the economy and Covid-19 impact.

The Government has also prioritized policies aimed at promoting rapid up-gradation in supply chain systems for retail distribution and export of fruits and vegetables. The automotive components industry is also growing and demanding wooden packaging substitutes. The footwear and garments exports segments are growing but at a more moderate pace as export markets slow.

All these and other trends indicate that there will be a better than average growth in the demand for high-quality, world-class packaging material produced in state-of-the art facilities and delivered just-in-time.

Whilst one would ordinarily expect these trends to encourage strong players in the paper converting industries to either expand or paper producers to forward integrate and seize the opportunities for growth, this has not actually happened due to the uncertainty from the flip flop tariff policy decisions.

Historically, the policy of “reservation” of this industry for the small scale sector has resulted in extreme fragmentation with low productivity, small capacities and poor quality of output. The indirect tax structure and the industry structure of consuming industries highlighted earlier allows these capacities to continue to exist albeit marginally and this production base continues to supply the existing demand, its survival being circumscribed by the tax/tariff structure applicable to users of packaging material.

During February 2008, corrugated box manufacturing was taken off the list of products reserved for the small scale industries. This change should see consolidation of production in the corrugated box industry as well as a significant shift in the overall quality of boxes. These changes would elevate the quality requirements for corrugating case paper – both liners and fluting, placing significant pressure on paper manufacturers in terms of fresh investments in paper making processes to meet the emerging quality requirements. New, better capitalized and organized players are expected to enter the market. However, the current tariff structure in the entire value chain from raw material for the paper industry to the final consumer product as well as the vertical value chain split described earlier will shape the speed of evolution and growth of this segment.

vi) Internal Control Systems:

Your company has an adequate internal control system in place. The internal control system is proactive. The company has an audit committee which oversees the adequacies of the internal control systems and reports to the Board.

vii) Discussion on financial performance with respect to operational performance:

Revenue from operations for the financial year 2020-21 increased to ₹ 226.78 crores from ₹ 217.61 crores from in the previous year.

National Lockdown, imposed to curb the spread of Covid-19 pandemic, towards the end of preceding financial year and continued restrictions impacted production and sales in first quarter of the FY 2020-21 to the extent of about 40%. Paper Division remained shut till 4th May 2020. Box Division resumed operations from 3rd April, 2020 as it was covered under Essential Services. After recommencing, initially both the units were operated with minimum possible

employees, and subsequently scaling up gradually with necessary precautions and hygienic care and protection of the employees. The Company has adopted measures to curb the spread of infection in order to protect the health of its employees and ensure business continuity with minimal disruption. Operating levels improved and stabilized during the 2nd quarter and continued for rest of the year.

During the year raw material, fuel prices started moving up and the Company could recover the higher cost by improved realizations, which resulted in increase in top line.

Operation at the Paper Mill was lower @ 81% due to above factors happening in Q1 as against 86% of the Capacity during the preceding year,

At Printing & Packaging Division Conversion tonnage was about 5% lower, compared to preceding year.

Profit before interest, depreciation, tax (PBDIT) in FY 2020-21 was better on account of the above said factors at ₹3,817 lacs from ₹3,522 lacs in the preceding year. Finance costs were higher at ₹ 446 lacs from ₹ 411 lakhs as the utilization of working capital facility, from bank increased. After making a depreciation provision of ₹1,014 lacs (Previous year ₹977 lacs), profit before Exceptional income & tax was ₹ 2,357 lacs (Previous year ₹ 2,133 lacs). Exceptional income of ₹ 306 lakhs (previous year nil) on sale of part of an immovable property (held for sale), boosted the profit before tax to ₹ 2,663 lakhs (previous year ₹2,133 lakhs).

After making a provision for current tax of ₹ 483 lakhs (₹372 lacs) & considering net effect of deferred tax & MAT credit charged of ₹275 lacs (₹175 lacs in the previous year), net profit stood at ₹ 1,905 lacs. (Previous Year ₹1,595 lacs)

Key Financial Ratios

The Management had reviewed the changes in key financial ratios and have noted significant changes in all the ratios as given below :

	FY 2020-21	FY 2019-20	% change	Remarks
Revenues from operation Rs in lakhs	22,678	21,761	4%	Revenue increased in the Current year from 2 nd Quarter in line with rise in realisations to offset the cost of raw material and other inputs, after reduced activity in Q1 caused by Lockdown imposed by Govt to combat the spread of Covid-19
Operating Profit Margin (%) (PBDIT)	16.83%	16.18%	4%	Operating margins improved slightly on improved realisations and on recovery of the increased costs.
Net Profit Margin (%) (PAT)	8.40%	7.33%	15%	Net profit increased on improved operating profits
Interest Coverage ratio (PBIT/Interest) in times (excluding interest capitalised)	6.28	6.19	1%	due to increased earnings
Interest Coverage ratio (PBIT/Interest) in times (including interest capitalised)	5.28	6.19	-15%	due to gradual drawal of Project Term Loan
Return on Networth (PAT/ Equity)	12.34%	10.22%	21%	due to increased profit

62nd Annual Report 2020-2021

Debtors Turnover ratio (as a % of revenue)	20.53%	13.57%	51%	Debtors level increased due to economic conditions & price rise
Inventory Turnover ratio (as a % of revenue)	12.96%	14.81%	-12%	Inventory level decreased slightly
Current Ratio	1.39	2.01	-31%	mainly due to increase in short term borrowing;
Debt Equity ratio	0.42	0.17	147%	Due to increase in Term loans drawn for the Project.

viii) Material developments in Human Resources/Industrial Relations front:

The industrial relations climate in the Company during the year was cordial and harmonious. A 6 year Wage settlement agreement signed with workers' union at the Paper Mill will be in force upto 31-3-2022. In case of the Box unit, a 4 year Wage settlement agreement signed during the year with workers' union is in force upto 31-3-2024.

The focus of HR activities is on employee involvement in operations of the company for effective results.

Efforts are being directed at building a strong management team oriented to entrepreneurial thinking and innovation in problem solving.

As on 31st March 2021, the Company had on its rolls, 363 employees consisting of 227 workmen and 136 technical/ supervisory/ Administrative staff in different locations.

CONSERVATION OF ENERGY, TECHNOLOGY ABSORPTION, FOREIGN EXCHANGE EARNINGS AND OUTGO

Information as per Section 134 (3) (m) of the Companies Act, 2013 read with Rule 8 of Companies (Accounts) Rules 2014 and forming part of the Directors' Report for the year ended 31st March, 2021.

A) CONSERVATION OF ENERGY

Conservation of energy is an ongoing activity receiving major emphasis at all stages of manufacturing. Energy consumption is systematically monitored and conservation of energy is implemented in a phased manner.

1. Steps taken/ impact on conservation of energy:

- i) The Company generates steam for process requirements as well as power generation by Circulating Fluidised Bed Combustion (CFBC) Boiler, which is energy efficient.
- ii) The Company continues to phase out high energy consuming devices especially in the areas of stock refining vacuum systems and pumping systems to incorporate modern equipment.
- iii) Static inverter drives have been installed for boilers, ID/FD fans and for all the rewinders to reduce energy consumption(PM5)
- iv) Variable frequency drives have been installed on all the fan pumps of the new machine. This allows a continuous saving of energy at varying process conditions.
- v) Paper Machines line shaft drives modified to AC variable / DC drives, resulting in energy savings.
- vi) High Capacity Motors are provided with soft starters which contribute about 5% savings compared to conventional starters.
- vii) Installation of capacitor banks to optimize power factor and other energy saving devices.
- viii) Recycling of back water in new machine, to conserve fresh water
- ix) Construction of fuel shed, for storing fuel items in good condition, resulted in reduced wastage & energy savings
- x) Replaced old press section in Machine No.1 with higher nip load press part resulting in saving in steam consumption.
- xi) Installed water flow meter at relevant lines to monitor and control the water consumption resulting in saving of fresh water and pumping energy.
- xii) Boiler cooling water collected in a tank and fed to cooling tower which result in saving of fresh water and pumping energy.
- xiii) Micro Travel Showers introduced on all machines to conserve fresh water consumption and pumping energy.
- xiv) Factory Pump house motor provided with VFD with Auto pressure monitoring
- xv) Energy meter is installed in all HT feeders

- xvi) Filter for PM5 water reuse installed
- xvii) Installed VFD for cooling water pump
- xviii) All the cooling system water is connected to cooling tower thereby reducing the cooling tower water consumption.
- xix) Invested on LED light fittings in the new boiler area
- xxi) Installed Electronic water meter at various consumption points such as Cooling tower, DM Plant, PM 1 & 4
- xxii) Worn out pumps casing and impellers replaced to run the pump at optimum efficiency, thereby improving its efficiency.
- xxiii) Steam line insulations replaced periodically to prevent radiation losses.
- xxiv) Planning Energy Saving Equipment's in PM6 Machine.

IMPACT OF ABOVE MEASURES:

The above measures have resulted in reduced consumption of energy & consequent favourable impact on cost of production of goods.

2) Steps taken by the Company for utilizing alternate sources of energy

Company is using biomass fuel, as an alternate source of energy

3) Capital Investment on energy conservation equipments

Major investments were made in FY 2015-16 towards cogeneration facility as reported earlier

INDEPENDENT AUDITOR'S REPORT

To

The Members of

The South India Paper Mills Limited, Nanjangud

Report on the Audit of the Ind AS Financial Statements

Opinion

We have audited the Ind AS financial statements of **The South India Paper Mills Limited** ("the Company") which comprises the Ind AS Balance Sheet as at **31st March 2021**, the Ind AS Statement of Profit and Loss (including the statement of Other Comprehensive Income), the Ind AS Cash Flow Statement and the Ind AS Statement of Changes in Equity for the year then ended, and notes to the Ind AS financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March 2021, and its profits including other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Ind AS Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial results under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the Ind AS Financial Statements.

Key Audit Matters

Key Audit Matters are those matters that, in our professional judgement, were of most significance in our audit of the Ind AS Financial Statements of the current period. These matters were addressed in the context of our audit of the Ind AS Financial Statements as a whole, and informing our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined that there are no key audit matters to communicate in our report.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Annual Report, but does not include the Ind AS financial statements and our auditor's report thereon. The other information is expected to be made available to us after the date of the Auditor's report.

Our opinion on the Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

62nd Annual Report 2020-2021

In connection with our audit of the Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Ind AS financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management for the Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Ind AS financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Board of Directors.
- Conclude on the appropriateness of Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Ind AS financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of section 143(11) of the Act, we give in the "**Annexure A**" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that :
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - c) The Ind AS Balance Sheet, the Ind AS Statement of Profit and Loss including the Statement of Other Comprehensive Income, the Ind AS Cash Flow Statement and Ind AS Statement of Changes in Equity dealt with by this Report are in agreement with the books of account;
 - d) In our opinion, the aforesaid Ind AS financial statements comply with the Ind AS specified under Section 133 of the Act;
 - e) On the basis of the written representations received from the Directors as on 31st March, 2021 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2021 from being appointed as a Director in terms of Section 164 (2) of the Act;

62nd
Annual Report
2020-2021

- f) With respect to the adequacy of the internal financial controls over financial reporting of the Company with reference to these Ind AS financial statements and the operating effectiveness of such controls, refer to our separate Report in “**Annexure B**”;
- g) In our opinion, the managerial remuneration for the year ended 31st March, 2021 has been paid / provided by the Company to its directors in accordance with the provisions of section 197 read with Schedule V to the Act; and
- h) With respect to the other matters to be included in the Auditor’s Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us;
 - i) The Company has disclosed the impact of pending litigations on its financial position in its Ind AS financial statements.
 - ii) The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses; and
 - iii) There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.

Annexure B to the Independent Auditor's Report of even date on the financial statements of The South India Paper Mills Limited

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **The South India Paper Mills Limited** ("the Company") as at 31st March 2021 in conjunction with our audit of the Ind AS Financial Statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by

the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting With Reference to these Financial Statements

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and Directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting with reference to these Financial Statements

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

CORPORATE INFORMATION

The South India Paper Mills Ltd, a Public Limited Company, incorporated under the provisions of the Companies Act, 1956. The Equity Shares of the Company are listed on the Bombay Stock Exchange Limited. The registered office of the Company is located at Chikkayanachatra, Nanjangud, Karnataka – 571302. The Company Corporate Identity Number (“CIN”) is L85110KA1959PLC001352.

The Company is primarily engaged in the manufacture of Paper, Paperboards, Cartons and Power Generation.

NOTE 1 : SIGNIFICANT ACCOUNTING POLICIES

A.1 Basis of preparation

a) Statement of Compliance:

The financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as prescribed under Section 133 of the Companies Act, 2013 read with Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) (Amendment) Rules, 2016 and relevant provisions of the Companies Act, 2013 (“the Act”).

The financial statements were authorised for issue in accordance with a resolution of the Company’s Board of Directors on 24th June, 2021.

These financial statements have been prepared on the historical cost basis, except for certain items that are measured at fair values at the end of each reporting period, as explained in the accounting policies below. The financial statements are prepared on a ‘going concern’ basis under accrual method, except for the cash flow information.

b) Classification of Assets and Liabilities as Current and Non-Current:

The Company presents assets and liabilities in the balance sheet based on current/non-current classification. An asset is treated as current when it is :

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when :

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

c) Functional and Presentation Currency:

The financial statements are presented in Indian Rupees (₹) which is also the Company's functional currency and all amounts are rounded to the nearest two decimal of lakhs (₹00,000), except when otherwise indicated.

1.2 Property, plant and equipment (PPE)

PPE are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. The cost of PPE includes interest on borrowings attributable to acquisition of qualifying PPE up to the date the asset is ready for its intended use and other incidental expenses incurred up to that date. Any trade discounts and rebates are deducted in arriving at the purchase price. The cost is net of input tax credit availed. The Company identifies and determines the cost of each part of an item of PPE separately, if the part has a cost which is significant to the total cost of that item of PPE and has useful life that is materially different from that of the remaining item. Subsequent expenditure relating to PPE is capitalised only if such expenditure results in an increase in the future benefits from such asset beyond its previously assessed standard of performance. All other costs are recognised in the statement of profit and loss as and when incurred as repairs and maintenance.

Projects under which assets are not ready for their intended use and other capital work-in-progress are carried at cost, comprising direct cost, related incidental expenses and attributable interest (if any). Advances given towards acquisition of PPE outstanding at each balance sheet date are disclosed as Other Non-Current Assets.

Depreciation is provided on straight line method based on the following useful lives / residual values as prescribed in Part C of Schedule II of the Companies Act, 2013. Depreciation is charged on a proportionate basis for all assets purchased and sold during the year. Extra Shift Depreciation has been charged, where applicable.

Nature of Asset	Useful Life	Residual Value
Tangible Assets :		
Buildings	30 to 60 Years	Nil to 5%
Roads	5 to 10 Years	Nil to 5%
Plant & Machinery	8 to 30 Years	Nil to 5%
Office Equipment	5 Years	Nil
Furniture & Fixtures	10 Years	Nil
Vehicles	8 Years	5%
Computers – Servers & Networks	6 Years	Nil
– End user devices	3 Years	Nil

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (*calculated as the difference between the net disposal proceeds and the carrying amount of the asset*) is included in the income statement when the asset is derecognised.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

1.3 Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any.

62nd Annual Report 2020-21

Computer Software which is not an integral part of the related hardware is classified as an intangible asset. Intangible assets are amortised on a reducing balance method over the estimated useful economic life of 6 years, based on management's estimate of useful life.

The amortization period and the amortization method are reviewed at least at each financial year end. If the expected useful life of the asset is significantly different from previous estimates, the amortization period is changed accordingly. If there has been a significant change in the expected pattern of economic benefits from the asset, the amortization method is changed to reflect the changed pattern. Such changes are accounted for in accordance with Ind AS.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds/net realizable value and the carrying amount of the asset and are recognised in the statement of profit and loss when the asset is derecognised.

1.4 Impairment

(i) Financial assets -

The impairment provisions for financial assets are based on assumptions about risk of default and expected loss rates. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

(ii) Non-financial assets -

Consideration is given at each balance sheet date to determine whether there is any indication of impairment to a tangible / intangible asset. If any indication exists, an asset's recoverable amount is estimated. An asset is treated as impaired when the carrying amount of asset exceeds its recoverable value. The impairment loss is charged to statement of profit and loss in the year in which an asset is identified as impaired.

1.5 Revenue from contract with customer

The Company earns revenue from contract with customer primarily from sale of goods.

Revenue is recognised upon transfer of control of promised products to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those goods. The Company has generally concluded that it is the principal in its revenue arrangements, because it typically controls the goods or services before transferring them to the customer, it is the primary obligor in all the revenue arrangements as it has pricing latitude and is also exposed to inventory and credit risks.

Contract assets

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Company performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional. Revenues in excess of invoicing are classified as contract assets (Unbilled Revenue). The specific recognition criteria described below must also be met before revenue is recognised.

Sale of goods

Revenue from sale of goods is recognised at the point in time when control of the asset is transferred to the customer.

The revenue is collected immediately upon sale of goods or as per agreed credit terms which is within 30 to 50 days upon delivery. The Company considers whether there are other promises in the contract that are separate performance obligations to which a portion of the transaction price needs to be allocated.

Variable Consideration

Rights of return, volume discounts, or any other form of variable consideration is estimated using either the sum of probability weighted amounts in a range of possible consideration amounts (expected value), or the single most likely amount in a range of possible consideration amounts (most likely amount), depending on which method better predicts the amount of consideration realizable. Transaction price includes variable consideration only to the extent it is probable that a significant reversal of revenues recognized will not occur when the uncertainty associated with the variable consideration is resolved. Our estimates of variable consideration and determination of whether to include estimated amounts in the transaction price may involve judgment and are based largely on an assessment of our anticipated performance and all information that is reasonably available to us.

Finance income

For all financial instruments measured at amortised cost, interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset or to the amortised cost of a financial liability. When calculating EIR, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument but does not consider the expected credit losses. Interest income is included in “Other income” in the statement of profit and loss.

Dividend income

Revenue is recognised when the Company’s right to receive dividend is established, which is generally the shareholders’ approval date.

Export Incentives

Revenue from export incentives are accounted for on export of goods if the entitlements can be estimated with reasonable assurance and conditions precedent to claim are fulfilled.

Insurance claims

Insurance claims are accounted for on the basis of claims admitted / expected to be admitted and to the extent that there is no uncertainty in receiving the claims.

1.6 Inventories

Inventories are valued at the lower of cost and net realisable value after providing for obsolescence and other losses, where considered necessary. However, raw materials and other supplies held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost.

Costs incurred in bringing each product to its present location and condition are accounted for as follows :

- Raw materials, consumables & stores and fuel : Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on moving weighted average basis.
- Finished goods and Work-in-Progress : Cost includes cost of direct materials and labour and a proportion of manufacturing overheads based on the normal operating capacity, but excluding borrowing costs. Cost is determined on moving weighted average basis.

62nd Annual Report 2020-21

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale. The comparison of cost and net realisable value is made on an item-by-item basis.

The provision for slow moving and obsolete inventory is assessed by the management and is provided as considered necessary.

1.7 Cash and cash equivalents

Cash comprises cash on hand and demand deposits with banks. Cash equivalents include other short-term highly liquid investments with original maturities of three months or less. For the purpose of the Statement of cash flows, cash and cash equivalents consists of cash and short term deposits as defined above.

1.8 Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

1.9 Foreign currencies

The financial statements are presented in Indian Rupees ('INR'), which is the functional currency of the Company.

Transactions and balances -

Foreign exchange transactions are recorded at the rate prevailing on the date of the transaction. Exchange differences arising on foreign exchange transactions settled during the year are recognised in the statement of profit and loss of the year.

Monetary items denominated in foreign currencies as at the balance sheet date are translated at the exchange rates on that date; the resultant exchange differences are recognised in the statement of profit and loss as income or expense.

Non-monetary items are recorded at the rate prevailing on the date of the transaction. Non-monetary items that are measured at fair value in a foreign currency, are translated using the exchange rates at the date when the fair value is measured.

Premium / discount on forward exchange contracts if any are amortised over the period of the contracts if such contracts relate to monetary items as at the balance sheet date.

1.10 Retirement and other employee benefits

(i) Short-term employee benefits -

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related services are recognised in respect of employees' service up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current provisions in the balance sheet.

(ii) Compensated absences -

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related service are recognised as a liability, based on actuarial valuation made by an independent actuary, at the present value of the defined benefit obligation as at the balance sheet date less the fair value of the plan assets out of which the obligations are expected to be settled.

(iii) Post-employment benefits -

The Company operates the following post-employment benefit schemes :

- defined contribution plans such as provident fund and employee state insurance scheme ; and
- defined benefit plans such as gratuity.

Defined contribution plans :

The Company makes specified monthly contribution towards employee provident fund, superannuation fund and employees state insurance schemes to Government administered schemes which are the defined contribution schemes. The Company's contribution is recognised as an expense in the statement of profit and loss during the period in which the employee renders the related service.

Defined benefit plans :

The liability or asset recognised in the balance sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in the statement of profit or loss as past service cost.

1.11 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

1.12 Segment reporting

The Company identifies primary segments based on the dominant source, nature of risks and returns and the internal organization and management structure. The operating segments are the segments for which separate financial information is available and for which operating profit/loss amounts are evaluated regularly by the executive Management in deciding how to allocate resources and in assessing performance.

The accounting policies adopted for segment reporting are in line with the accounting policies of the Company. Segment revenue, segment expenses, segment assets and segment liabilities have been identified to segments on the basis of their relationship to the operating activities of the segment.

Inter-segment revenue is accounted on the basis of transactions which are primarily determined based on market/ fair value factors.

Revenue, expenses, assets and liabilities which relate to the Company as a whole and are not allocable to segments on reasonable basis have been included under "unallocated revenue / expenses / assets / liabilities".

62nd Annual Report 2020-21

1.13 Leases

Company as a Lessee -

The Company assesses whether a contract is or contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether :

- (i) the contract involves the use of an identified asset,
- (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease, and
- (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognises a right-of-use asset (“ROU”) and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short term leases) and leases of low value assets. For these short term and leases of low value assets, the Company recognises the lease payments as an operating expense on a straight-line basis over the term of the lease.

The right-of-use assets are initially recognised at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses, if any. Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset.

The lease liability is initially measured at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made.

A lease liability is remeasured upon the occurrence of certain events such as a change in the lease term or a change in an index or rate used to determine lease payments. The remeasurement normally also adjusts the leased assets.

Wherever the lease period is less than 12 months, lease payments are recognised as an expense on a straight-line basis over the lease term.

Company as a Lessor -

Leases in which the Company does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Rental income arising is accounted for on a straight-line basis over the lease terms. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

1.14 Taxes

Income tax expense comprises current tax expense and the net change in the deferred tax asset or liability during the year. Current and deferred tax are recognised in the statement of profit and loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity, respectively.

(i) Current income tax -

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities based on the taxable income for that period. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the balance sheet date.

(ii) Deferred tax -

The deferred tax charge or credit and the corresponding deferred tax liabilities or assets are recognised using the tax rates that have been enacted or substantively enacted by the balance sheet date. Deferred tax assets are recognised only to the extent there is reasonable certainty that the assets can be realised in future. Deferred tax assets are reviewed as at each balance sheet date and written down or written-up to reflect the amount that is reasonably/ virtually certain (as the case may be) to be realised.

In the situations where the Company is entitled to a tax holiday, no deferred tax (asset or liability) is recognised in respect of timing differences which reverse during the tax holiday period, to the extent the Company's gross total income is subject to the deduction during the tax holiday period. Deferred tax in respect of timing differences which reverse after the tax holiday period is recognised in the year in which the timing differences originate. However, the Company restricts recognition of deferred tax assets to the extent that it has become reasonably certain, that sufficient future taxable income will be available against which such deferred tax assets can be realised. For recognition of deferred taxes, the timing differences which originate first are considered to reverse first.

(iii) Minimum alternate tax (MAT)-

In accordance with the provisions of Section 115JAA of the Income Tax Act, 1961, the Company is allowed to avail credit equal to the excess of Minimum Alternative Tax ('MAT') over normal income tax for the assessment year for which MAT is paid. MAT credit so determined can be carried forward for and set-off for fifteen succeeding years for the year in which such credit becomes available. MAT credit can be set-off only in the year in which the Company is liable to pay tax as per the normal provisions of the Income Tax Act, 1961 and such tax is in excess of MAT for that year. The MAT credit asset is written down to the extent there is no longer convincing evidence to the effect that the Company will pay normal income tax during the specified period.

1.15 Financial instruments

Financial instruments are recognised when the Company becomes a party to the contract that gives rise to financial assets and financial liabilities.

Financial Assets

Initial recognition and measurement

All financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

62nd Annual Report 2020-21

Subsequent measurement

Financial assets at amortised cost

Financial assets are subsequently measured at amortised cost using the effective interest rate method if these financial assets are held within a business whose objective is to hold these assets to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through other comprehensive income

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Fair value movements are recognized in Other Comprehensive Income (OCI).

Financial assets at fair value through profit or loss

Financial assets are measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets at fair value through profit or loss are immediately recognised in statement of profit and loss.

Trade Receivables

Loss allowance for trade receivables with no significant financing component is measured at an amount equal to the lifetime Expected Credit Losses. Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument. Company applies simplified approach of Ind AS 109 “Financial Instruments” for determining lifetime Expected Credit Losses.

Derecognition

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. A financial liability (or a part of a financial liability) is derecognised when the obligation specified in the contract is discharged or cancelled or expires.

Financial liabilities

Initial recognition and measurement

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company’s financial liabilities include trade and other payables and borrowings.

Subsequent measurement

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term.

Loans and Borrowings

Financial liabilities are subsequently measured at amortised cost using the effective interest method. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

Reclassification of financial instruments

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. If the Company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Company does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

1.16 Fair value of financial instruments

In determining the fair value of its financial instruments, the Company uses following hierarchy and assumptions that are based on market conditions and risks existing at each reporting date.

Fair value hierarchy

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

Level 2 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Level 3 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by reassessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

62nd Annual Report 2020-21

1.17 Provisions, contingent liabilities and contingent assets

(i) Provisions -

Provision are recognised when the Company has a present obligation as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates.

(ii) Contingent liabilities -

A disclosure for contingent liabilities is made where there is a possible obligation or a present obligation that may probably not require an outflow of resources. When there is a possible or a present obligation where the likelihood of outflow of resources is remote, no provision or disclosure is made.

Show cause notices issued by various Government authorities are not considered as contingent liabilities. However, when the demands are raised against such show cause notices after considering the Company's views, these demands are either paid or treated as liabilities, if accepted by the company, and are treated as contingent liability, if disputed by the Company.

The Company does not recognise a contingent liability but discloses in the financial statements.

(iii) Contingent assets -

Contingent assets are neither recognised nor disclosed in the financial statements.

1.18 Earnings per share (EPS)

Basic EPS amounts are calculated by dividing the profit for the year attributable to equity holders of the Company by the weighted average number of Equity shares outstanding during the year.

Diluted EPS are calculated by dividing the profit attributable to equity holders of the Company by the weighted average number of Equity shares outstanding during the year plus the weighted average number of Equity shares that would be issued on conversion of all the dilutive potential Equity shares into Equity shares.

1.19 Cash dividend to equity shareholders of the Company

The Company recognises a liability to make cash distributions to equity holders of the Company when the distribution is authorised and the distribution is no longer at the discretion of the Company. Final dividends on shares are recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the Company's Board of Directors.

1.20 Government grants

Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant relates to revenue, it is recognised in the statement of profit and loss on a systematic basis over the periods to which they relate. Grants relating to assets, including non-monetary grants are presented in the balance sheet by deducting the grant in arriving at the carrying amount of the asset.

1.21 Recent Accounting Pronouncements

- (i) Ministry of Corporate Affairs has notified amendments to the existing Ind AS to be effective from 1 April, 2021 on 18 June, 2021. Key amendments to existing Ind AS are:

Ind AS 116 - Leases

Extension of time period for practical expedient in Ind AS 116 for accounting of rent concession due to COVID-19.

Ind AS 109 - Financial Instruments, Ind AS 107 - Financial Instruments: Disclosures,

Practical expedient for assessment of contractual cash flow test, which is one of the criteria for being eligible to measure a financial asset at amortized cost, for the changes in the financial assets that may arise as a result of Interest Rate Benchmark Reform and additional disclosure to be made on account of interest rate benchmark reform.

Ind AS 102 - Share Based payment

Definition of Equity Instrument in reference to the Conceptual framework of Financial Reporting

Ind AS 103 - Business Combination

Amendment to definition of assets and liabilities in accordance with the definition given in the framework for the Preparation and Presentation of Financial Statements in accordance with Ind AS for qualifying the recognition criteria as per acquisition method.

Ind AS 16 – Property, Plant & Equipment

Substituting the words “Recoverable amount is the higher of an asset’s fair value less costs to sell and its value in use” with “Recoverable amount is the higher of an asset’s fair value less costs of disposal and its value in use”.

- (ii) The Ministry of Corporate Affairs (“MCA”) issued notifications dated 24th March, 2021 to amend Schedule III to the Companies Act, 2013 to enhance the disclosures required to be made by the Company in its financial statements. The amendments revise Division I, II and III of Schedule III and are applicable from 1st April 2021.

The above amendments are extensive, and the company will evaluate the same to give effect to them as required by law.

NOTE 2 : KEY ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of the Company’s financial statements in conformity with Ind AS requires the management to make estimates, judgements and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities on the date of the financial statements and the reported amounts of revenues and expenses for the year. Actual results could differ from those estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the year in which the estimates are revised and future periods are affected.

62nd Annual Report 2020-21

Key source of estimation of uncertainty as at the date of financial statements, which may cause a material adjustment to the carrying amounts of assets and liabilities within the next financial year, is in respect of the following:

(i) Defined benefit plans (gratuity benefits) -

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

(ii) Useful life of property, plant and equipment and intangible assets :

The Company reviews the estimated useful lives of property, plant and equipment and intangible assets at the end of each reporting period. During the current year, the estimated useful lives in respect of certain plant and machineries has been reduced from 40 years to 30 years based on the managements estimate of remaining useful life.

(iii) Estimation of current tax expense and payable :

The Company's tax jurisdiction is India. Significant judgments are involved in determining the provision for income taxes and tax credits including the amount expected to be paid or refunded.

CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES

The Company has not early adopted any standards or amendments that have been issued but are not yet effective/notified. Amendments and interpretations applying for the first time during the year do not have an impact on the financial statements of the Company.

NOTE 37 : FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Company's financial liabilities comprises mainly of term loan borrowings, trade payables and other payables. The Company's financial assets comprises mainly of cash and cash equivalents, other balances with banks, trade receivables and other receivables.

Risk management policies and systems of the Company are reviewed regularly by the Board of Directors to reflect changes in market conditions and the company's activities. The Company has financial risk exposure in the form of

- A. Market Risk,**
- B. Credit Risk, and**
- C. Liquidity Risk.**

The present disclosure made by the Company summarises the exposure to these financial risks.

62nd Annual Report 2020-21

A. Market Risk:

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of fluctuation in market prices. These comprise three types i.e., Foreign Currency Exchange Rate Risk, Interest Rate Risk and Other Price Related Risks.

(i) Foreign Currency Exchange Rate Risk:

The Company imports pulp, waste paper and other stores & spares for which payables are denominated in foreign currency. The Company is exposed to foreign currency risk on these transactions. The Company evaluates the impact of foreign exchange rate fluctuations by closely monitoring exchange rate movements and where necessary occasionally enters into simple forward exchange contracts to hedge the foreign currency risk whose maturity is coterminous with the maturity period of the foreign currency liabilities. Thus, the Company is generally not exposed to any significant foreign currency risk.

(ii) Interest Rate Risk:

The Company's exposure to the risk of changes in market interest rates relates to bank borrowings comprising of term loans and working capital loans.

The exposure of the Company's borrowing to interest rate changes at the end of the reporting period are as follows:

	March 31, 2021	March 31, 2020
Variable Rate Borrowings		
Term Loans	6,993.54	3,161.08
Working capital loans	2,797.15	1,058.95
Total	9,790.69	4,220.03
Fixed Rate Borrowings	----	----
Closing average rate of interest per annum	9.75%	10.00%

Interest Rate Sensitivity analysis

The sensitivity analysis below has been determined based on the exposure to interest rates on Variable Rate Borrowings at the end of the reporting period. Impact on Profit before tax, using a 25 basis point +/- fluctuation in the interest rate would be as under:

	March 31, 2021	March 31, 2020
Interest rate increase by 0.25%	-24.48	-10.55
Interest rate decrease by 0.25%	+24.48	+10.55

(iii) Other price risk

Other price risk is the risk that the fair value of a financial instruments will fluctuate due to changes in market traded prices.

Commodity price risk:

The Company is exposed to the movement in price of key raw materials in domestic and international markets. The Company has in place policies to manage exposure to fluctuations in the prices of the key raw materials used in operations.

Others:

Company does not have any equity or other investments which are subjected to price related risks.

B. Credit Risk:

Credit risk is the risk of financial loss to the Company if a customer or counter-party fails to meet its contractual obligations.

(i) Trade Receivables

Company periodically assesses the financial reliability of customers, taking into account the financial condition, current economic trends, and analysis of historical bad debts and ageing of accounts receivable and thus set the individual risk limits are. The company does not hold any collateral on the unsecured trade receivables balance outstanding. The company has stop supply mechanism in place in case outstanding goes beyond agreed limits.

The Company also sells its products through appointed agents. The Company has established a credit policy under which every agent is analysed individually for creditworthiness. Each agent places security deposit based on the quotas allocated to him. Though the invoices are raised on the individual customer, the agent is responsible for the collection and in case of default by such customer, the dues from the customer are withheld / adjusted against the payables to the agent. Thus, the credit risk is mitigated.

(ii) Financial instruments and cash deposits

The Company's investment in fixed deposit with banks is fixed and hence, there is no risk on account of price movement arising to the Company. The Company considers factors such as track record, size of the institution, market reputation and service standards to select the banks with which balances and deposits are maintained. The Company does not maintain significant cash and deposit balances other than those required for its day to day operations.

C. Liquidity Risk:

Liquidity risk is the risk that the Company may not be able to meet its present and future cash and collateral obligations without incurring unacceptable losses. The Company manages the liquidity risk by projecting cash flows considering the level of liquid assets necessary to meet the obligations by matching the maturity profiles of financial assets and financial liabilities. The liquidity risk management involves matching the maturity profiles of financial assets and financial liabilities.

NOTE 38 : CAPITAL MANAGEMENT

The Company's policy is to maintain an adequate capital base so as to maintain creditor and market confidence and to sustain future development. Capital includes issued capital and all other equity reserves attributable to equity holders. The primary objective of the Company's capital management is to maximise the shareholder value.

The Company monitors capital using Gearing Ratio, which is as under:

	₹ in Lakhs	
	March 31, 2021	March 31, 2020
A. Borrowings (Term Loan)	6,993.54	3,161.08
