Coimbatore, 1st November, 2025: Salzer Electronics Limited (BSE: 517059, NSE: SALZERELEC), a capital goods engineering Company offering total and customised electrical solutions, announced its unaudited financial results for the Second quarter and half year ended 30th September 2025.

Management Comment:

Commenting on this, Mr. Rajesh Doraiswamy, Joint Managing Director, Salzer Electronics Ltd said:

“During the Second quarter of the financial year, we delivered a resilient performance, reporting consolidated revenues of ₹418.9 crore, a growth of 21.7% year-on-year, driven by robust traction across our core businesses and accelerated ramp-up of the smart meter segment. Our Smart Meter business achieved sales of ₹22 crore during Q2, taking the total to ₹24 crore in the first half — reflecting our strong execution capability and growing presence in the energy management space.

While the quarter witnessed margin moderation to 8.7%, largely due to higher input costs and initial scaling expenses in the new segment, we remain confident of an improvement in profitability as volumes grow and operating efficiencies strengthen in the coming quarters. The steady performance of our switchgear and wire & cable divisions, continues to be a strong backbone of our business.

During the quarter, we continued to focus on operational efficiency, working capital optimization, and expanding our product portfolio in line with the evolving industry landscape. With the government’s continued push on smart metering and infrastructure modernization, Salzer is well positioned to capture long-term growth opportunities through innovation, quality, and customer-centricity.

Press Release

Moreover, we are proud to have been granted a patent for our 'Disconnecting and Earthing Device for High Voltage Applications.' This innovation is a significant step forward in enhancing safety and efficiency for traction, locomotive, and other high-voltage systems. It reflects our continued commitment to engineering excellence and developing indigenous solutions that add real value to our customers and the power industry at large.

Looking ahead, we aim to sustain double-digit revenue growth for the full year with a focus on improving margins, scaling our smart metering operations, and strengthening our leadership position in the electrical and automation solutions space.

I thank the entire team at Salzer Electronics for their untiring efforts and all our stakeholders for their continued support and faith in our Company."
