At the macro level the factors like a steep increase in Cotton prices, impact of demonetisation on retail demand and a slump in the Denim industry impacted the performance of the Company. Further for FY 2016-17, the Company had higher Finance Cost & Depreciation charge since the Company has implemented the capacity expansion projects leading to higher term borrowings and increase in fixed assets. It may also be noted that the remuneration of Shri Vishad P Mafatlal also includes the encashment of leave ₹41.83 lakhs and gratuity payment ₹59.50 lakhs at the end of cessation of the employment with the Company.

It may be noted that though the aggregate managerial remuneration paid is in excess of the limits mentioned under the provisions of Section 197 of the Companies Act, 2013, but it does not exceed the limits mentioned under Schedule V to the Companies Act, 2013 (as amended by notification dated 12th September, 2016). Accordingly, as per the provisions of the Companies Act, 2013, no approval of central government is required.

It may be noted that Shri Aniruddha P. Deshmukh, Shri Priyavrata H. Mafatlal and Shri Vishad P. Mafatlal have not been paid any commission/bonus based on the profitability of the Company for the year 2016 -17

In accordance with the provisions of Schedule V and other applicable provisions of the Companies Act, 2013, the Nomination and Remuneration Committee of the Board and the Board of Directors at their respective meetings held on 3rd May, 2017 and 5th May, 2017, have approved the overall managerial remuneration paid to Shri Aniruddha P. 2. Year in Retrospect:

During the year under review, consumer spending remained subdued with continued global economic slowdown; the geopolitical risk environment across the globe and the challenging regulatory changes on the domestic front. Despite the favorable monsoon and 7th pay commission pay-outs which led to agriculture and rural growth, the slowdown in industrial and service sector and demonetisation kept the scope of growth for the textile sector limited. Profit margins for the organised textile sector remained depressed with higher raw material cost and intense competition in the segment.

Against this backdrop, the year was indeed very challenging for your company. The overall performance of the Company during FY 2016-17 was adversely impacted by several macro level factors. Total Revenue fell by 5% to ₹1,28,068.39 Lakhs, EBIDTA went down by 38% to ₹3,764.09 Lakhs leading to a Net Loss for the year of ₹214.53 Lakhs as against a Net Profit of ₹1,712.38 Lakhs for the previous year.

At the macro level the factors like a steep increase in Cotton prices, impact of demonetisation on retail demand and a slump in the Denim industry impacted the performance of the Company.

Further for FY 2016-17, the Company had higher Finance Cost & Depreciation charge since we have implemented the capacity expansion projects leading to higher term borrowings and increase in fixed assets. The full benefits of these projects shall accrue in subsequent years. Further operating margins were squeezed because of higher Cotton prices on one side and intense competition, weaker demand and curtailed selling prices on the other side.

After an arduous year, the Company expects to turn around on the back of initiatives taken for improvements in plant efficiency, new product developments and a widening of the marketing and distribution network. Towards this, during the year the Company invested net of ₹10,196.21 Lakhs in Fixed Assets to balance and upgrade the existing manufacturing equipment's and facilities.

During the year under review, your company has repaid long term borrowings amounting to ₹1,711.79 Lakhs as per scheduled timeline and raised ₹6,975.53 Lakhs to part finance capital expenditure plans being implemented. Your company expresses gratitude to all the term loan and working capital lenders for their continuing support and faith in the company.

During the year Credit Analysis & Research Limited (CARE) has upgraded the credit rating of the Company to CARE BBB from "CARE BBB-" for the long term facilities having tenure of more than one year and also upgraded its "CARE A3" rating to "CARE A3+" for the short term facilities having tenure of up to one year.

Pursuant to the disclosure requirements, it is pertinent to note here that there has been no change in nature of business during the year under review and no order has been passed by any Regulator or Court or Tribunal, which can impact the going concern status of the Company and its Operations in the future. A detailed analysis of the financial results is given in the Management Discussion and Analysis Report which forms part of this report.

3. Dividend:

Your Board of Directors are cognizant of the fact that during the year under review the operations of the Company have resulted in losses. However, in the opinion of the Board, this is an aberration as Company was impacted by macro level factors at the same time it commissioned capacity expansion projects leading to higher interest and depreciation cost. Your Directors believe that the capital expenditure which the Company has incurred on capacity expansion and for improving the product mix should yield result in the years to come. Keeping in mind the future outlook, it is proposed to pay dividend out of the accumulated profits of the Company for the previous financial years (₹6080.27 lakhs) remaining undistributed and not transferred to general reserves in absence of profit for the financial year ended 31st March, 2017. The Loss for the financial year ended 31st March, 2017 is ₹214.53 lakhs. Accordingly, the Board of Directors recommends a dividend for the year of ₹2/- per share (previous year ₹3/- per share) on 1,39,12,886 Equity Shares of face value of ₹10/- each, aggregating to ₹278.26 lakhs. (Previous year ₹417.39 lakhs)

Management discussion and Analysis

Overview of the Economy

During the year under review, global economic growth slowed down, political scene changed across the globe and geopolitical risks increased. However, recent indicators indicate improving global scenario backed by stabilizing growth in China, stronger activity in advanced economies and step up in emerging market led by improving prices.

In 2016-17, Indian economy slowed down amidst rising challenges in the global environment. Economic growth was well supported by pick up in agricultural and rural growth due to buoyant monsoon after two years of rain deficit and 7th pay commission pay-outs while industrial and service sector growth slowed down. In Q3FY17, the Government announced ban on ₹1000 and ₹500 notes (Read "Demonetisation"). The impact of demonetisation on the overall growth is still difficult to assess, however it impacted badly small and medium sized businesses. The year FY17 is expected to end with GDP growth estimated around 7.1% compared to 7.9% during FY16. However, key reforms like Aadhar Act, Bankruptcy Code, Goods and Services Tax (GST) and thrust towards digitization bode well for economic growth in the medium to long term. Besides this low inflation, well anchored fiscal and current account deficit should lead to low and stable interest rate regime.

Overview of Textile Sector

Growth in sector depends on consumer spending and there are multiple factors affecting consumer spending like actual and perceived economic condition, disposable income, employment and consumer credit availability. Though the impact of demonetisation on overall growth is still to be assessed, it has adversely impacted the Textile sector as a significant portion of the transactions at the consumer level are done in cash.

Index of Industrial Production (IIP) for textile has grown by 1.2% and for apparel has declined by 2.6% in April to January during year 2016-17 as compared to corresponding period last year. Wholesale Price Index (WPI) for textile has shown an increase of average 1.1% during the same period. Textile and apparel exports also reduced by 5% during April- December 2016 compared to last year due to weak global growth. Total cloth production in India declined to an estimated 53.5 billion square meters in FY17 from 64.6 billion square meters in FY16 due to lower demand. Further the sector margins were impacted due to higher yarn and cotton prices resulting from lower availability of cotton and quality related issues.

During FY17 to promote textile sector Ministry of Textile announced power loom sector scheme, amended technology upgradation fund scheme and garmenting promotion package. With rising population & favourable demographics, aspirant middle class and increasing global demand, textile sector is expected to grow to USD 226 billion by 2023 from USD 137 billion in 2016.

Overall Company Performance Review and Outlook

Your Company operates in Textile segment with separate strategic units for Textiles & Denim. The overall performance of the Company during FY 2016-17, especially in the second half of the year, was adversely impacted by several macro level factors.

As represented by the graph below, the Cotton prices shot-up by almost 48% from the level of around ₹16,000 per bale in mid-March 16 to around ₹23,700 per bale in July 16. Cotton prices remained highly fluctuated from July 16 to Oct 16 and thereafter with commencement of new season softened to the price levels of ₹18,300 per bales-. However, the Prices again picked the upward trend and reached to the levels of ₹20,900 during March 17. The average price for Cotton during FY 2016-17 was ₹19,850 bale as against ₹16,198 per bale during FY 2015-16. This resulted into sharp increase of 21.3% in cotton procurement prices for the Company during FY 2016-17. Consequent to Cotton prices, the Yarn & Grief fabric cost also went up. This led to Raw Material Cost rising to 29% of Revenue from Operations in FY 2016-17 from 22% in previous FY 2015-16 resulting in to lowering EBITDA margin to 3% for the year under review from 5% in the previous year.

The second half of FY 2016-17 witnessed significant slowdown in retail demand in India post Demonetisation impacting domestic trade business of the Company. Division Wise Review and Outlook

Textiles:

The Textile business, during the year under review witnessed significant growth led by volume growth in both production and sales growth and consequent improvement in the operating margins. While Production grew by 35%, Sales Volume grew by 22% during the year under review.

During the year under review, the printing capacity was enhanced by installing one digital printing and two rotary printing machines. At the same time both spinning & weaving facilities were downsized by closing the old manufacturing facilities at Navsari. Textile division achieved significant improvement in operating efficiency & productivity in both spinning & weaving.

Your Company is a leading player in the polyester cotton and 100% cotton white shirting business; cotton and viscose prints and high twist cotton voiles.

The Company operates in both the business to business (B2B) and the business to consumer (B2C)/retail segment. In B2B segment, Company caters to both the international & the domestic brands as well as to readymade garment exporters. There has been impressive growth of over 40% in the B2B segment mainly driven by international brands. The Company manufactures & exports voiles mainly to Middle East markets. Despite volatile political and economic conditions prevailing in these markets, the voiles business has shown a good growth. Domestic consumer sales grew by 7% as demand from trade was significantly affected by demonetisation.

School Uniform fabric business, where Company enjoys a leadership position, continued to grow significantly during the year. The Company also entered School Uniform garment segment and has created retail footprints by opening retail stores. During the year under review, the Company also made foray into ladies wear segment which has received highly encouraging response from the market.

The Company is also building strong B2C footprint with product portfolio consisting of the Suiting as well as Shirting fabric especially in the polyester cotton and polyester viscose segments, Ready to Stitch Combos and Apparels. The Company expects significant growth in B2C segment in times to come.

In the coming year, the Company shall work relentlessly on expanding its product portfolio by developing value added products in the whites and prints segment to expand its market shares in this segment.

Denim:

The year 2016-17 was highly challenging across the denim industry. The growth momentum witnessed during the first half of the year was halted in the second half of the year post demonetisation which impacted severely the demand from domestic trade. Further the operating margins got squeezed significantly on account of higher Cotton prices, excess capacity in denim industry and intense price competition. On the whole year 2016-17 was disappointing for Denim business.

During the year under review Denim division expanded the Weaving capacity. This will help to reduce the dependence on outsourced greig fabric and will further support in improvement of the operating margins. The other highlights of the year were decent growth in exports especially to Latin American markets. While sales to domestic trade business was muted, the sale to Brands witnessed good traction. We were also able to make the breakthrough with few of the leading international brands.

In coming year, emphasize is being given in improving plant efficiency, product quality and development of new products based on current fashion trends. Further lot of efforts are initiated to drive the growth of exports with focus on brands nomination business. All these initiatives coupled with improved demand situation especially in domestic market are expected to lead to much better year ahead for Denim business.

Outlook:

Your Company expects turn-around in its performance in coming year on account of several initiatives taken by the Company in improving plant efficiency, new product developments and focus on growing Brands nomination business. The macro level factors like Government's continued focus on textile automation and integrated textile parks, favourable demographics, rising disposable income levels and increasing global demand are conducive to the growth of Textile Industry. With the introduction of GST, the Company expects increased formalization of the textile sector leading to an increase in market share of the organised players which bodes well for your Company. Future growth will be driven by volume growth across business units. In the immediate future, your Company will focus on its core strengths product segments such cotton & viscose prints, polyester cotton & cotton white fabric, high twist cotton voiles, school uniform fabrics, ladies wear and value added Denim product portfolio. The B2C footprints which Company is creating shall also contribute to growth in medium term. ANNEXURE “A” TO THE INDEPENDENT AUDITOR’S REPORT ON THE FINANCIAL STATEMENTS OF MAFATLAL INDUSTRIES LIMITED

(Referred to in paragraph 1(g) under ‘Report on Other Legal and Regulatory Requirements’ section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of Mafatlal Industries Limited (“the Company”) as of March 31, 2017 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date which includes internal financial controls over financial reporting of the Company’s branches.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance

about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the branch auditors of branches located in India, in terms of their reports referred to in the Other Matter paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls,

material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us and based on the consideration of the reports of the branch auditors on internal financial controls system over financial reporting of the branches referred to in the Other Matter paragraph below, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2017, based on the internal control over financial reporting criteria established by the Company

considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matter

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting insofar as it relates to two branches located in India, is based on the corresponding reports of the branch auditors.

Our opinion is not modified in respect of this matter.

The financial statements have been prepared on accrual basis under the historical cost convention. The accounting policies adopted in the preparation of the financial statements are consistent with those followed in the previous year.

b. Use of estimates

The preparation and presentation of the financial statements in conformity with Indian GAAP requires the Management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenses during the year. The Management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Future results could differ due to these estimates and the differences between the actual results and the estimates are recognised in the periods in which the results are known / materialised.

c. Inventories

Items of inventory are valued at cost or net realizable value, whichever is lower after providing for obsolescence and other losses, where considered necessary. Cost is determined on the following basis:

Stores, spares, raw materials and trading goods - Weighted average cost

Process stock and finished goods - Material cost plus appropriate value of overheads

Others (land) - At cost on conversion to stock-in-trade plus cost of improvement

d. Depreciation on tangible fixed assets

Depreciation on tangible fixed assets has been provided on the straight-line method as per the useful life prescribed in Schedule II to the Companies Act, 2013 except in respect of Plant and Machinery, in whose case the life of the assets has been assessed based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers warranties and maintenance support.

Individual assets acquired for less than ₹ 5,000/- are entirely depreciated in the year of acquisition.

e. Revenue recognition

Revenue including other income is recognized when no significant uncertainty as to its determination or realization exists.

f. Export Benefits

Export Benefits available under prevalent schemes are accrued in the year when the right to receive credit as per the terms of the scheme is established in respect of exports made and are accounted to the extent there is no significant uncertainty about the measurability and ultimate realization / utilization of such benefits.

g. Fixed Assets (Tangible / Intangible)

Fixed assets are recorded at cost of acquisition or construction. They are stated at historical cost less accumulated depreciation, amortization and impairment loss, if any.

Capital Work-in-progress

Projects under which tangible fixed assets are not yet ready for their intended use are carried at cost, comprising direct cost, related incidental expenses and attributable interest.

h. Foreign currency transactions and translations

Transactions in foreign currency are recorded at the original rates of exchange in force at the time the transactions are effected. At the year-end, monetary items denominated in foreign currency and forward exchange contracts are reported using closing rates

Notes forming part of Financial Statements for the year ended 31st March, 2017

of exchange. Exchange differences arising thereon and on realization / payment of foreign exchange are accounted, in the relevant year, as income or expense.

In case of forward exchange contracts, or other financial instruments that are in substance forward exchange contracts, the premium or discount arising at the inception of the contracts is amortized as expense or income over the life of the contracts. Gains / losses on settlement of transactions arising on cancellation / renewal of forward exchange contracts are recognized as income or expense.

i. Investments

Long-term investments (excluding investment properties), are carried individually at cost less provision for diminution, other than temporary, in the value of such investments.

Current investments are carried individually, at the lower of cost and fair value. Cost of investments include acquisition charges such as brokerage, fees and duties.

Investment properties are carried individually at cost less accumulated depreciation and impairment, if any. Investment properties are capitalised and depreciated where applicable in accordance with the policy stated for fixed assets. Impairment of investment property is determined in accordance with the policy stated for Impairment of Assets.

j. Cash flow Statement

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

k. Earnings Per Share

Basic earnings per share is computed by dividing the profit / (loss) after tax (including the post tax effect of extraordinary items, if any) by the weighted average number of equity shares outstanding during the year.

Diluted earnings per share is computed by dividing the profit / (loss) after tax (including the post tax effect of extraordinary items, if any) as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares.

Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations. Potential dilutive equity shares are deemed to be converted as at the beginning of the period, unless they have been issued later. The dilutive potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value (i.e. average market value of the outstanding shares). Dilutive potential equity shares are determined independently for each period presented. The number of equity shares and potentially dilutive equity shares are adjusted for share splits / reverse share splits and bonus shares, as appropriate.

l. Employee benefits

- a. The Company contributes towards Employees State Insurance Scheme, Provident Fund, Family Pension Fund and Superannuation Fund which are defined contribution schemes.

Liability in respect thereof is determined on the basis of contribution as required to be made under the statutes / rules.

- b. Gratuity liability, a defined benefit scheme, and provision for compensated absences are accrued and provided for on the basis of actuarial valuations made at the year end.

m. Borrowing costs

Borrowing costs that are attributable to the acquisition, construction or production of qualifying assets are capitalized as part of the cost of such assets. A qualifying asset is one that necessarily takes a substantial period of time to get ready for its intended use. All other borrowing costs are charged to revenue.

n. Operating Lease

Lease arrangements where the risks and rewards incidental to the ownership of an asset substantially vest with the lessor are recognized as Operating Lease. Operating Lease receipts and payments are recognized as income or expense, as the case may be, in the Statement of Profit and Loss on a straight-line basis over the lease term.

Notes forming part of Financial Statements for the year ended 31st March, 2017

o. Taxes on income

Tax expenses comprise both current and deferred tax at the applicable enacted/ substantively enacted rates. Current tax represents the amount of Income tax payable / recoverable in respect of the taxable income / loss for the reporting period.

Deferred tax represents the effect of timing differences between taxable income and accounting income for the reporting period that originate in one period and are capable of reversal in one or more subsequent periods. Deferred Tax Assets and Liabilities are measured using the tax rates and tax laws that have been enacted or are substantively enacted by the balance sheet date. In the event of unabsorbed depreciation and carry forward of losses, deferred tax assets are recognized only to the extent that there is a virtual certainty supported by convincing evidence that sufficient future taxable income will be available to realize such assets. In other situations, deferred tax assets are recognized only to the extent that there is reasonable certainty that sufficient future taxable income will be available to realize these assets.

Current and deferred tax relating to items directly recognized in reserves are recognized in reserves and not in the Statement of Profit and Loss.

Minimum Alternate Tax (MAT) paid in a year is charged to the Statement of Profit and Loss as current tax. The company recognizes MAT credit available as an asset only to the extent that there is convincing evidence that the Company will pay normal income tax during the specified period, i.e. the period for which MAT credit is allowed to be carried forward. In the year in which the Company recognizes MAT credit as an asset in accordance with the Guidance Note on Accounting for Credit Available in respect of Minimum Alternate Tax under the Income Tax Act, 1961, the said asset is created by way of credit to the statement of profit and loss and shown as "MAT Credit Entitlement". The Company reviews the "MAT Credit Entitlement" asset at each reporting date and writes down the asset to the extent the Company does not have convincing evidence that it will pay normal tax during the specified period.

p. Research and development expenses

Revenue expenditure pertaining to research is charged to the Statement of Profit and Loss. Development costs of products are also charged to the Statement of Profit and Loss unless a product's technical feasibility has been established, in which case such expenditure is capitalised. The amount capitalised comprises expenditure that can be directly attributed or allocated on a reasonable and consistent basis to creating, producing and making the asset ready for its intended use. Fixed assets utilised for research and development are capitalised and depreciated in accordance with the policies stated for Fixed Assets.

q. Impairment of assets

Impairment loss is provided to the extent the carrying amount of assets exceed their recoverable amount. Recoverable amount is the higher of an asset's net selling price and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of the asset and from its disposal at the end of its useful life. Net selling price is the amount obtainable from sale of the asset in an arm's length transaction between knowledgeable willing parties, less the costs of disposal.

r. Provisions and contingencies

A provision is recognized when the Company has a present obligation as a result of a past event, for which it is probable that cash outflow will be required and a reliable estimate can be made of the amount of the obligation. A contingent liability is disclosed when the Company has a possible or present obligation where it is not probable that an outflow of resources will be required to settle it. Contingent assets are not recognised in the financial statements.

s. Service tax input credit

Service tax input credit is accounted for in the books in the period in which the underlying service received is accounted and when there is reasonable certainty in availing / utilizing the credits.

t. Operating Cycle

Based on the nature of products / activities of the Company and the normal time between acquisition of assets and their realization in cash or cash equivalents, the Company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

u. Government grants and subsidies

Grants and subsidies from the Government are recognized when there is reasonable assurance that the grant / subsidy will be received and all attaching conditions will be complied with.

The grant or subsidy that relates to interest expenses is recognized as income over the periods necessary to match them on a systematic basis to the interest costs, which it is intended to compensate. The grant or subsidy relating to the fixed assets is deducted in arriving at the carrying amount of the related fixed asset.

Pending the admission of the aforesaid Writ Petition, the Hon'ble High Court has recorded by its Orders dated 19th January 2017 and 27th January 2017 that the Collector is ready to recall its Order/ Demand and the subsequent attachment dated 29th November 2016 and give a fresh hearing to the Company and accordingly this Hon'ble Court set aside the Order/ Demand and subsequent attachment dated 29th November 2016. The Company continues to be in possession of the said reserved land. The Hon'ble High Court has allowed the Chamber Summons No. 90 of 2017 filed by the Company for impleading MCGM as a party to the Writ Petition and permitting the Company to carry out incidental and consequential amendments to the Writ Petition for bringing subsequent acts of the Collector and MCGM on record. Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended March 31, 2017, we have audited the internal financial controls over financial reporting of **MAFATLAL INDUSTRIES LIMITED** (hereinafter referred to as “the Holding Company”) and its subsidiary company, which is a company incorporated in India, which includes internal financial controls over financial reporting of the Company’s branches in India, as of that date.

Management’s Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding company and its subsidiary company, which is a company incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective Companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Holding Company and its subsidiary company which is a company incorporated in India, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing, prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over

financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the branch auditors and other auditors of the subsidiary company which is a company incorporated in India, in terms of their reports referred to in the Other Matter paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Holding Company and its subsidiary company which is a company incorporated in India.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion to the best of our information and according to the explanations given to us and based on the consideration of the reports of the branch auditors and other auditors referred to in the Other Matter paragraph below, the Holding Company and its subsidiary company which is a company incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matter

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting insofar as it relates to two branches and one subsidiary company, which is a company incorporated in India, is based solely on the corresponding reports of the branch auditors and of auditors of the company incorporated in India.

Our opinion is not modified in respect of the above matter.

The Management believes that the estimates used in preparation of the financial statements are prudent and reasonable. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

l. Earnings Per Share

Basic earnings per share is computed by dividing the profit / (loss) after tax (including the post tax effect of extraordinary items, if any) by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the profit / (loss) after tax (including the post tax effect of extraordinary items, if any) as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares.

Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations. Potential dilutive equity shares are deemed to be converted as at the beginning of the period, unless they have been issued at a later date. The dilutive potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value (i.e. average market value of the outstanding shares).

Dilutive potential equity shares are determined independently for each period presented. The number of equity shares and potentially dilutive equity shares are adjusted for share splits / reverse share splits and bonus shares, as appropriate.

m. Employee benefits

- a. The Company contributes towards Employees State Insurance Scheme, Provident Fund, Family Pension Fund and Superannuation Fund which are defined contribution schemes. Liability in respect thereof is determined on the basis of contribution as required to be made under the statutes / rules.
- b. Gratuity liability, a defined benefit scheme, and provision for compensated absences are accrued and provided for on the basis of actuarial valuations made at the year end.

n. Borrowing costs

Borrowing costs that are attributable to the acquisition, construction or production of qualifying assets are capitalized as part of the cost of such assets. A qualifying asset is one that necessarily takes a substantial period of time to get ready for its intended use. All other borrowing costs are charged to revenue.

Notes forming part of Consolidated Financial Statements for the year ended 31st March, 2017

o. Operating Lease

Lease arrangements where the risks and rewards incidental to the ownership of an asset substantially vest with the lessor are recognized as Operating Lease. Operating Lease receipts and payments are recognized as income or expense, as the case may be, in the Statement of Profit and Loss on a straight-line basis over the lease term.

p. Taxes on income

Tax expenses comprise both current and deferred tax at the applicable enacted / substantively enacted rates. Current tax represents the amount of Income tax payable / recoverable in respect of the taxable income / loss for the reporting period.

Deferred tax represents the effect of timing differences between taxable income and accounting income for the reporting period that originate in one period and are capable of reversal in one or more subsequent periods. Deferred Tax Assets and Liabilities are measured using the tax rates and tax laws that have been enacted or are substantively enacted by the balance sheet date. In the event of unabsorbed depreciation and carry forward of losses, deferred tax assets are recognized only to the extent that there is a virtual certainty supported by convincing evidence that sufficient future taxable income will be available to realize such assets. In other situations, deferred tax assets are recognized only to the extent that there is reasonable certainty that sufficient future taxable income will be available to realize these assets.

Current and deferred tax relating to items directly recognized in reserves are recognized in reserves and not in the Statement of Profit and Loss.

Minimum Alternate Tax (MAT) paid in a year is charged to the Statement of Profit and Loss as current tax. The Company recognizes MAT credit available as an asset only to the extent that there is convincing evidence that the Company will pay normal income tax during the specified period, i.e. the period for which MAT credit is allowed to be carried forward. In the year in which the Company recognizes MAT credit as an asset in accordance with the Guidance Note on Accounting for Credit Available in respect of Minimum Alternate Tax under the Income Tax Act, 1961, the said asset is created by way of credit to the statement of profit and loss and shown as "MAT Credit Entitlement". The Company reviews the "MAT Credit Entitlement" asset at each reporting date and writes down the asset to the extent the Company does not have convincing evidence that it will pay normal tax during the specified period.

q. Research and development expenses

Revenue expenditure pertaining to research is charged to the Statement of Profit and Loss. Development costs of products are also charged to the Statement of Profit and Loss unless a product's technical feasibility has been established, in which case such expenditure is capitalised. The amount capitalised comprises expenditure that can be directly attributed or allocated on a reasonable and consistent basis to creating, producing and making the asset ready for its intended use. Fixed assets utilised for research and development are capitalised and depreciated in accordance with the policies stated for Fixed Assets.

r. Impairment of assets

Pending the admission of the aforesaid Writ Petition, the Hon'ble High Court has recorded by its Orders dated 19th January 2017 and 27th January 2017 that the Collector is ready to recall its Order/ Demand and the subsequent attachment dated 29th November 2016 and give a fresh hearing to the Company and accordingly this Hon'ble Court set aside the Order/ Demand and subsequent attachment dated 29th November 2016. Accordingly, as recorded in Order dated 27th January 2017, the aforesaid demand notice and attachment order has been withdrawn by the Collector and the same has been recorded in the Property Card of C. S. No. 593. Pursuant to the notification dated 10th February 2004, the Company is required to hand over 50% of the land bearing C. S. No. 593 to Municipal Corporation of Greater Mumbai ("MCGM") which is under reservation ("the said land") and as per the said notification, the Company would be eligible to get non-cash compensation in lieu thereof. The Collector claims to have handed over possession of the said reserved land to MCGM during the pendency of proceedings. The Company had filed Notice of Motion No. 5 of 2017 in the Writ Petition No.2982 of 2016 for handing over possession of the said Land to the MCGM under direction of the Court and the claim of the Collector has been challenged by the Company before the Court. The Company continues to be in possession of the said reserved land. The Hon'ble High Court has allowed the Chamber Summons No. 90 of 2017 filed by the Company for impleading MCGM as a party to the Writ Petition and permitting the Company to carry out incidental and consequential amendments to the Writ Petition for bringing subsequent acts of the Collector and MCGM on record.
