We have all heard the story of the tortoise and the hare.

The slow, steady, experienced tortoise wins the race. Calcom is the wise tortoise in the consumer electronics space - that has weathered many ups and downs, and continues to run the race.

However, for us at calcom, this is a marathon and not a sprint. We have been in the business through many business and economic cycles.

Our perseverance, strong values and dynamic adaptability has shown its results. We continue to innovate, adapt and excel at what we do. In the hope for a better future together.

GET TO KNOW US

Calcom Vision is an Original Designer & Manufacturer ("ODM") for Electronics and Consumer Durables.

Founded in 1976 with a strong focus on R&D, Calcom has developed a range of products such as Calculators, Televisions, Hand-mixers, Vacuum Cleaners etc. over the course of time.

In 2009, Calcom diversified into Lighting and developed a range of Bulbs, Luminaires and Drivers. Now, Calcom is a fully integrated Lighting manufacturer with a State-of-the-Art factory located in Greater Noida, Delhi NCR.

Calcom is a strictly compliant company and we are certified with the following:

- **ISO 9001:2015**
- **ISO 14001:2015**
- **SA 8000:2014**

With a strong focus on quality, Calcom has become one of the leading LED lighting manufacturers catering to several domestic and multinational brands.

THE SET UP

A good infrastructure is the backbone of a good manufacturing setup. And calcom has always upgraded and added to its set up to change with the times. Calcom boasts of state of the art machinery, assembly lines and equipment that has consistently been upgraded to move with the times.

In any electronics company, it is important to be nimble. To stay ahead of the changing technology and adapt quickly and efficiently.

Over the years we have added an in-house SMT, Plastic Injection Moulding and a Wire-wound component manufacturing setup. This makes us a desired end-to-end manufacturer for some of the leading brands.

Our latest addition is an Automatic LED Bulb Assembly Plant, imported and installed to fulfill our need to expand our capacity.

The backward integration ensures high quality standards while the automation keeps our manufacturing costs competitive.

Atma Nirbhar in its true sense - We also develop many of our Dies & Moulds and fabricate our assembly lines in-house through our well equipped Tool Room.

OUR INFRASTRUCTURE INCLUDES

On Ground

Factory located @ Greater Noida, Delhi NCR.

Covered Area of 12,000 sq m expandable upto 25,000 sq m

500KW Power backup.

In-House Facilities

Tool Room for Plastic Injection Moulds and Dies

Well equipped Approbation Lab

Wire Wound Component manufacturing setup

6 Manual Insertion Lines

7 Final Product Assembly Lines

CIMDT - Training Institute to train and educate our workforce

State of The Art Machinery

4 SMT lines with automatic printers - 6 SMT Machines & 10/12 zone Reflow Conveyors

Auto Insertion Machine with Sequencer

2 Automatic LED Bulb Assembly Machines

4 Plastic Injection Molding Machines

6 Automatic Aging Machines

OUR TEAM

Our People Are Our Biggest Assets.

Their hard work and commitment towards the company makes us a stronger organisation. All departments are headed by Seasoned Professionals with an average of 20+ years of work experience in the Lighting/ Electronics Industry.

VISION, MISSION & BELIEF

**The deeper your roots,
the higher you can fly.**

With this motto, Calcom has held its beliefs and core principles close to its heart. This has helped the company see through very tough times and come out a winner.

OUR MISSION

Individual must be respected

We see humanity above all else. We strive to cater to individual needs so that we can work together for a collective future. Individual growth is paramount for the success of any venture.

Customer must be given the best possible service

Calcom has never compromised on its quality – of products and of services. Our goal is to provide the Best Value for Money to our customers in all areas of our business. To do this, we constantly upgrade our Products, Processes and Services. Customer satisfaction is what we have strived for and achieved over the years.

To pursue excellence and a superior performance

We work towards perfection and excellence. These are the principles that set Calcom apart from its competitors. Our employees, workers and management constantly work to improve upon our performance and operations. This makes Calcom a great place to work.

OUR PHILOSOPHY

“Committed to Excellence and Customer Satisfaction”

OUR VISION

PROFESSIONAL

We hold professionalism at the helm of our operations and interactions. We never cut corners or feed into bureaucratic systems. It has been a dream to create a professional company, and we can proudly say that we have created one.

PROGRESSIVE

The electronics industry is dynamic and we have to always be forward looking. We are adaptable and dynamic and have proven our capacity to be future looking.

COMMITTED TO STAKEHOLDER SATISFACTION

We believe in the power of collaboration. The best results come when everyone works together. We take our responsibility to every aspect of society very seriously - from our shareholders, to the society we operate in, to the environment, to our employees, and our business partners. We are always looking for solutions that benefit everyone - and continue to strive for a collective goal.

QUALITY AND VALUE TO CUSTOMER

To provide the best service, quality and value to our customers.

VALUE TO SHAREHOLDER

We are committed to serving our supporters and investors.

RESPECT TOWARDS BUSINESS PARTNERS

We value our vendors, suppliers and partners. And believe in the power of collaboration.

BEST PLACE TO WORK

To create a space with trust, honesty and mutual respect that focuses on personal as well as professional growth.

THE CALCOM CULTURE

A deep rooted culture is the backbone of Calcom. A seasoned company, Calcom has a culture of respect and responsibility. This has set Calcom apart from others in the industry. Our customers, employees and business partners and their loyalty is a testament to the success of this Culture.

WE FOCUS ON

TRANSPARENCY AND OPENNESS

Honest communication forms the basis of all our interactions.

RESPECT FOR THE ORGANISATION

We foster a healthy team spirit along with healthy competition that is the lifeline for our business.

RESPECT FOR THE INDIVIDUAL

We are invested in the growth and wellbeing of every individual.

SENSE OF RESPONSIBILITY, OWNERSHIP AND PRIDE

Each person associated with Calcom is a stakeholder and is invested in its growth and future.

CHAIRMAN'S MESSAGE

“

Those who can weather the storm will come out shining.

”

As Covid continues to reshape the world around us, we believe that the worst is behind Calcom. While last year saw unprecedented changes and took us by surprise, this year we have managed to handle the impact of the pandemic better. Despite the impact of Covid during the lockdowns, we have continued to increase our sales and have reported a growth of over 20% YoY.

We have become a leaner and more efficient organisation. We have employed better material planning mechanisms to mitigate uncertainties, digitised our communication and management systems, expanded our capacities, forged multiple new customer relations and introduced fresh ideas and management into the Company.

Covid led to a consolidation of businesses. Small, unorganised operators lost their market share to larger, known brands. This further increased the demand for Calcom's products as our esteemed customers saw a surge in their sales.

To meet the growing demand, we have installed new capacities. These new lines will be used to grow our existing LED lamps business and establish future business segments. Besides lighting, we are exploring new business segments that focus on energy efficient and future technologies such as SMART-IoT based products. These new future segments are being managed by Abhishek Malik, ED and the future of Calcom.

Our first foray will be in the SMART products and BLDC fans' market. As the world moves from traditional to modern and tangible to digital, Governments have provided favourable schemes and monetary impetus into these segments. With our expertise in design and development coupled with fresh, future-driven ideas it is encouraging to see Calcom step into the future under Abhishek's leadership.

Calcom is a seasoned company with deep rooted values. We ensure a healthy and balanced work environment where stability and growth go hand in hand. This is possible with the support of our most valuable asset - the people associated with Calcom.

I would like to thank the Board and the Board members for their wisdom, guidance, support and dedicated efforts. The board members present their deep condolence on the sudden demise of Mr. Bharat Bhushan Jain and are thankful for his vision and guidance during his tenure. The Board is pleased to share that Ms Parvathy Venkatesh, is appointed as a Non-Executive Independent Director of the Company, who brings her expertise and competence for the growth of the company.

I would also like to take this opportunity to show our deep appreciation to our employees who, individually and collectively, make us a better and stronger organisation. As for our customers, business partners and shareholders, we look forward to your steadfast support as we continue our path of sustainable growth and value creation. Thank you for believing in us and being our companion in this journey!

With Best Wishes,

MR. SUSHIL KUMAR MALIK
CHAIRMAN & MANAGING DIRECTOR

BUSINESS REVIEW

Business review

When Thomas Edison invented the light bulb, he did not foresee the pace of innovation that would take place in the world of lighting.

He sparked one of the biggest inventions of human existence, bringing an end to the dark ages. And we continue to burn that torch bright and spread light wherever needed.

Increasing access to Electricity across the country, affordability, and sustainability of the consumer lighting industry has resulted in a sharp increase in the demand for lighting products.

LED lighting is gaining popularity across different stratas of our society and more people are making the shift to LED lighting. It's affordable pricing offers a cost saving - to the end consumer.

Additionally, the consumer lighting industry is also witnessing a demand for value accretive products such as Panels, Battens and Downlighters. Rising disposable incomes and aspirations have resulted in a rapid growth of a demand for these product segments as well.

Riding the wave of these developments, Calcom has positioned itself as one of the leading players in this segment. We have large capacities for LED Bulb and Batten production, which are the major contributors to the residential and commercial lighting segment.

We have installed capacities of
3 million LED Lamps
& **1 million LED battens**
per month.

INDUSTRY OVERVIEW

The lighting industry

Key Highlights:

- Lighting Industry is estimated to be INR 28,000 Cr and expected to grow at a CAGR of 25%. The total market size of Bulbs is 1.35 Billion out of which 670 Million are LED and rest is the traditional bulbs which will get replaced by LED.
- Calcom entered the Lighting industry in 2009 and has been steadily growing its revenue and customer portfolio.
- Calcom has produced over 15 million LED Lamps and 10 million Drivers of different wattages and applications.
- In 2020, Calcom entered the mass volume LED Bulb business. In a short span of time, we have grown our monthly Bulb production from 100K lamps to 2 Million Lamps per month. A staggering growth of 1900%.
- We have also imported and commissioned an Automatic LED Bulb Assembly plant which has given us an additional capacity of 1 million lamps per month.

GOVERNMENT POLICIES

The political landscape of the country and the world impact all businesses. Trade relations, duties and taxes and compliances alter with a changing socio-political scenario.

At Calcom we are always abreast with the new developments. We like to stay ahead of the curve by planning for changes and contingencies. Our open and consistent communication with our clients, vendors and partners ensures that we work in a collaborative manner that is mutually beneficial for all, especially during trying times.

While our industry relies on imports of some raw materials, there is a push to become more self-sufficient and to make in India. These policies have helped our country and industry become less reliant on external forces while being able to cater to the growing demand for electronic products.

GOVERNMENT SCHEMES:

PRODUCTION LINKED INCENTIVE (PLI) SCHEME

The Govt. of India has announced a Production Linked Incentive (PLI) Scheme for the manufacturing of LED Drivers and bulbs.

Production Linked Incentive Scheme (PLI) offers a production linked incentive to boost domestic manufacturing and attract large investments. Under this scheme for white goods - Air Conditioners and LED Lights - will get a budgetary outlay of Rs 6,238 crore.¹

2. It is designed to create a complete component ecosystem in India and make India an integral part of the global supply chains.
3. The scheme is expected to attract global investments, generate large scale employment opportunities and enhance exports substantially.
4. "The PLI scheme for white goods shall extend an incentive of 4 per cent to 6 per cent on incremental sales of goods manufactured in India for a period of five years to companies engaged in manufacturing of Air Conditioners and LED Lights," an official statement said.²

This PLI Scheme will enable Calcom to expand its growth in it's primary segment of LED bulbs and drivers, both in the Domestic as well as the Export market.

GOVERNMENT SCHEMES: THE UNNAT JYOTI BY AFFORDABLE LEDS FOR ALL (UJALA)

One of the biggest drivers of change in our industry comes from the environment. There is a growing awareness and move to replace non renewable sources of energy with renewable, less polluting sources. To support this move, technology that is more energy efficient is also preferred.

All industries will be compelled to move towards a smaller carbon footprint, and to cater to a more energy conscious world. With this in mind, the government has launched the UJALA scheme. The Unnat Jyoti by Affordable LEDs for All (UJALA) was launched in 2015 with a target to replace 77 cr incandescent lamps with LED bulbs.³

The UJALA scheme also known as the LED-based Domestic Efficient Lighting Programme (DELP) aims to promote the efficient usage of energy for all i.e. its consumption, savings and lighting.

THE OBJECTIVE:

1. The prime objective of the scheme is to make manufacturing in India globally competitive by removing sectoral disabilities, creating economies of scale and ensuring efficiencies.

1- Economic Times

2- Ministry of Electronics and Information Technology

3- (<https://transformingindia.mygov.in/scheme/ujala/>)

**ONE OF THE LARGEST PROGRAM'S
IN THE WORLD, THIS SCHEME
HAS BEEN LAUNCHED TO**

1. Enable a shift from inefficient energy use to a more sustainable solution.
2. Encourage and promote residential lighting to make the shift.
3. Hefty subsidies are offered to every grid-connected customer with a metered connection. The Electricity Distribution Company will undertake this distribution of subsidised LED bulbs.
4. Aggregate demand. High initial costs means high costs to the end consumer. However, with this scheme - the government will facilitate demand to become aggregated at more affordable prices.
5. This will enable a higher demand and procurement of LED bulbs by residential users

Calcom's entry into lighting was well timed. With growing demands Calcom's LED bulb business has seen a big leap. This will also catapult Calcom into the league of big players in the lighting industry

PERFORMANCE REVIEW

The Last Year

Despite a Slow start to FY2020-21 due to Covid-19, Calcom increased its topline to INR 5768 Lacs. An increase of 20% over the last financial year.

- This has been possible due to the effort of our dedicated workforce and our esteemed customers.
- We have been able to tie up with many new brands and we hope to add more brands to our portfolio in the coming year.
- We have invested in Machinery and added new Assembly Lines •
- We have increased our Capacity of LED Bulb production to 3 million lamps per month and LED Battens to 1 Million per month
- We have commissioned our Automatic LED Bulb assembly plant giving us an added 1 million lamps capacity per month.

The Last 5 Years

The last 5 years have been the sunshine period for Calcom. The company has not only been revived but thrived amidst all the opportunities and challenges. In 2020, Calcom entered the mass volume segment of LED Bulbs. This catapulted Calcom into a superior league, where it started to cater to the masses, over and above the niche segments.

Calcom is now the approved manufacturer for Panasonic and other leading brands such as Bajaj, Osram, Ledvance, Great White, C&S, USHA, et. Al.

Our LED portfolio now includes a range of products

LED bulbs
(All wattages)

LED Battens
(Emergency battens
and Industrial battens)

LED Downlighters,
Panels, Floodlights
and Street-lights

LED drivers etc.

We have evolved our business from developing Niche products to Mass Volume products. This crucial pivot has proven to be a good strategy and led to increased sales. Further, some of the biggest names in the Lighting Industry have now become our esteemed clients.

THE FUTURE OF THE ELECTRONICS INDUSTRY

As Calcom explores new frontiers, it is also co-led by Abhishek Malik. He is the Executive Director who handles Strategy and Marketing along with Investor Relations for Calcom. An MBA and an entrepreneur, he joins forces with his father to expand, grow and carry Calcom into the future.

MR. ABHISHEK MALIK
EXECUTIVE DIRECTOR

The technological world is constantly evolving. Only companies that have a strong foundation and are quick to adapt can survive such rapid advancements in technology.

The last decade has seen a major technological shift across all industries. A spurt towards more efficient and cost effective solutions has changed the electronics industry's landscape. While this has resulted in the growth of many companies, many others have had to exit this space.

Calcom, I can proudly say, has not only survived, but thrived in this changing environment.

The problems we faced over 20 years ago, during our television days, have taught us invaluable lessons to stay ahead of changing times and rapid technological advancements. It has also given us the right set of tools to predict volatility and technological obsolescence and plan for the same.

As a strategy, going forward, we want to focus on Energy Efficient Electronics Manufacturing. The world is also moving towards SMART devices that have the potential to greatly reduce power consumption. Coupled with IoT based products, there are many opportunities to explore as more and more industries adopt this new technology.

Currently, Calcom is focussed on the LED Lighting Industry with more than 90% of our revenue coming from the LED Bulb Segment.

As a de-risking strategy, we would like to diversify our product range in the future to include other business verticals thereby reducing our exposure to any particular product segment.

Our strong focus on R&D, a desire to stay ahead of the curve, our belief in the collaborative nature of business and a strong adherence to our values makes us optimistic about the future of lighting and the world.

BUILDING A SMART FUTURE

Our strategy for FY22 is to focus on the future of Energy efficient electronics. In high demand, they are rapidly being adopted across the country. In order to be a part of this growing segment we are developing a host of products such as Smart Bulbs, Smart Plugs and other IoT based products. In addition, we are also diversifying our product portfolio by developing solutions for Brush Less Direct Current (BLDC) fans and drivers.

SMART/ IOT BASED PRODUCTS

Smart IoT Products

India's investment in IoT is projected to grow from USD 5 Billion in 2019 to USD 15 Billion in 2021.⁴ With initiatives like smart manufacturing, industry 4.0 and smart cities gaining traction, it is estimated that India will be one of the most vibrant IoT ecosystems in the world.⁵

IoT will have applications across several industries and this will give rise to new products and technologies in the consumer electronics industry.

Further the government's two flagship programs of 'Make In India' and 'Digital India' will not only give this industry a much needed boost, but will be made possible because of IoT.⁶

Calcom's foray into IoT has just begun. As part of our FY22 Vision, Calcom has entered into manufacturing IoT based Smart products. This is a futuristic project to cater to the growing demand of Mobile/ App based lighting electronics and home automation.

Our range of Smart products under development include

Smart Bulbs, Smart Plugs, Smart Poles and Home Automation products.

BLDC FANS: BRUSHLESS DIRECT CURRENT FANS

BLDC Fans + Drivers

BlDC fans consume lower electricity than the traditional induction fans. This reduces our reliance on non-renewables, reduces pollution and most importantly offers greater energy savings.. Estimated at INR 8,000 Crores, India is one of the largest markets for Fans in the world.⁷ Higher buying power, access to electricity and the booming real estate sector has aided the growth of the fan market.

To bring accelerated market transformation for super efficient appliances, The Bureau of Energy Efficiency has launched a program called 'SEEP'. The Super Efficient Equipment Programme will provide financial stimulus innovatively at critical

point/s of intervention to companies engaged in the manufacturing of energy efficient products. This will help control the upward pressure on prices of this segment.⁸

In view of the above, Calcom has decided to enter this growing segment. With our core competence being Electronics Designing and Development, we believe we will be able to develop a reliable and cost efficient solution towards a more energy efficient future.

We are actively seeking a Technical Collaboration/ Joint Venture to enter this segment.

We will commence this project by the end of 2021 and will proceed with this project in 2 phases.

- **Phase 1:** Develop the Driver in-house and outsource other parts.
- **Phase 2:** Develop Motor in-house.

CORPORATE SOCIAL RESPONSIBILITY

In order for any industry to survive, it needs the cooperation of all factions of society. As business owners and land owners, we are always mindful of our context, our environment and our responsibility towards them.

No industry can operate in isolation. Collective collaboration, a part of Calcom's vision and mission, is the need of the hour.

Calcom has always been socially responsible and has looked at ensuring sustainable growth for all its stakeholders.

Education, as per the Chairman, Mr. Sushil Malik, is the key to emancipate sections of society that require a philip to shine and succeed.

Coming from a humble background himself, Mr. Malik is a case in point for how education transformed his life, thereby impacting those of many around him. He is a proponent of education and training and has consistently been devoted to this cause.

Today, Calcom has its own Training Institute -- "**Calcom Institute of Management Development and Training**" (CIMDT). The institute provides vocational training to underprivileged Students (both Male & Female). Each student is provided with

a Certification, on completion and a Stipend for the duration of the course.

The Company also provides training under the "National Apprenticeship Promotion Scheme". This apprenticeship training consists of Basic Training and On-the-Job training including practical training at workplace in the industry.

With the pandemic - the institute has seen a low enrollment ratio. However, we are preparing to change with the times and ensure that this can be made accessible to more people who have a desire for education and training.

The details of Students/ Apprentices trained during last three years.

Item No. 6 & 7

Increase in the Borrowing limits of the Company and Creation of charge on the movable and immovable properties of the Company in respect of borrowings

The Company is focusing on manufacturing of new products and has plans to expand its existing product line, product mix and planning to enter into new markets in the coming years. These business expansions require substantial investments in working capital as well as investments for the manufacturing process, marketing and brand building activity etc. Keeping in view the Company's existing and future financial requirements to support its business operations, the Company needs additional funds and for this purpose, the Company is desirous of raising finance from various Banks and/or Financial Institutions and/or such other persons/ individuals as may be considered fit, which, together with the money already borrowed by the Company (apart from temporary loans obtained from the Company's bankers in the ordinary course of business) may exceed the limits approved by the shareholders earlier on September 30, 2019, i.e. INR 25 crores. For smooth operations of the company, it is considered necessary to enhance the borrowing limits from INR 25 crores to INR 50 crores. Hence it is proposed to increase the maximum borrowing limits upto INR 50 crores (Rupees Fifty Crores only).

In order to facilitate securing the borrowing made by the Company, it would be necessary to create charge/ mortgages/ hypothecation on movable or immovable properties of the Company from time to time which may exceed the existing limits approved by the shareholders earlier on September 30, 2019, i.e. INR 25 crores. Under Section 180(1) (a) of the Companies Act, 2013, a special resolution is required to be passed by the Company which provides for the power to sell, lease or otherwise dispose of the whole or substantially the whole of the undertaking of the Company for a sum equivalent to INR 50 Crore (Rupees Fifty Crores only)

The Board recommends the Special Resolutions as set out at Item no. 6 and 7 of the Notice for the approval of the Members

None of the Directors/Key Managerial Personnel of the Company/ their relative(s) is, in any way, concerned or interested, financially or otherwise in the proposed resolutions.

ANNEXURE - I

ANNEXURE TO DIRECTORS REPORT FOR THE YEAR ENDED MARCH 31, 2021

Particular required under the Companies (Accounts) Rules, 2014 of Companies Act, 2013.

A. Conservation Of Energy

Energy Conservation Measures Taken

1. Shifts timings are adjusted in a manner to maximize output during day time to save energy consumption, resulting in low power costs.
2. Centralized Air Cooler installed in whole production area to reduce the nos of Coolers and the electricity consumption.
3. Saving of energy has been done by replacing older inefficient machineries and parts like compressor etc.
4. Replaced old compressors with new technology compressor which consumes almost 50% less electricity compared to old compressors
5. Your Company is buying 5 Star rated Air Conditioners. Ideally, a five-star rated air conditioner should save about 20-22% of the power cost as compared to a three-star rated air conditioner.
6. All Light fixtures have been replaced with LED lights produced in-house to conserve power.
7. All electric exhaust fans have been replaced by air ventilators at ceilings which exhaust air without consuming power.
8. The Company continuously evaluates new technologies and techniques to make infrastructure more energy efficient.

B. Technology Absorption

(a) Research & Development

1. Specific area in which R&D is carried by the company

Design and development of Lighting Electronic Products helps in conserving energy not only for us but for all the users of our products. Your company is now focusing mostly on LED bulbs. It has designed bulbs which are more reliable and are able to withstand voltage fluctuations up to 440V and surges up to 4000V. Your company has designed bulbs for various wattages as per new BEE standards which became applicable from 1st January 2021. These bulbs are more energy efficient, as the lumen output per watt is increased by almost 15%.

2. Benefits derived as a result of the above R&D.

- Your company is now technically more capable of developing various kinds of Electronic items as per our customer requirement.
- Owing to the low field returns for these products, the Company has negotiated orders with more customers this year.

Expenditure on R&D	(Rs. In Lacs)
Current Year	20.44
Total	20.44

3. Future Plan of Action

There has been a shift in the company's strategy to focus on mass consumption products like Bulbs and Battens. Hence the most of the development activities will be in this arena to capture higher market share with both existing and new customers. Company is also trying to enhance the product portfolio with existing customers.

The company is also planning to work on IoT based products such as Smart Bulbs, Smart Plugs, Smart Poles and other Home Automation products. According to the report 'Smart Lighting Market in India 2019' the smart lighting industry in India was valued at INR 7.63 billion in 2018 and is expected to reach INR 80.56 billion by 2026, growing at a CAGR of 48.87% during the forecast period

(b). Technology Absorption, Adoption & Innovation

Company's products are manufactured by using in-house know how and no outside technology is being used for manufacturing activities. Therefore no technology absorption is required. The Company constantly strives for maintenance and improvement in quality of its products and entire Research & Development activities are directed to achieve the aforesaid goal.

Management Discussion And Analysis

Global Economic Overview

The contraction of activity in 2020 (GDP growth at -3.3%) was unprecedented in living memory in its speed and synchronised nature. The IMF estimates suggest that the contraction could have been three times as large if not for the extraordinary policy support. Going forward, the global economy is projected to grow at 6% in 2021, moderating to 4.4% in 2022. These projections will depend on the path of the health crisis, the effectiveness of policy actions to limit economic damage, the evolution of financial conditions and commodity prices and the adjustment capacity of the economy. Over the

medium-term, global growth is expected to moderate to 3.3%, reflecting projected damage to supply potential and forces that predate the pandemic, including aging-related slower labour force growth in advanced economies and some emerging market economies.

These estimates depend on future course of the health crisis, the effectiveness of policy actions to limit continuing economic damage, commodity prices, and the adjustment capacity of key economies.¹

Indian economy

Aligned to the decline in global GDP, India's economic progress was expected to contract. But the decline was lesser than the initial estimates owing to a smart V-shaped recovery as most consumption and industrial indicators were back in positive growth zone in the Q3FY21.

After a contraction in GDP for the first half of FY21 (a negative growth of 24.4% in Q1 and 7.3% in Q2), India recovered to post a positive GDP growth in Q3 at 0.4%, one of the few nations globally to emerge out of recession in such a short time period. As resurgence gained momentum, India's GDP growth for Q4 of 2020-21 stood at 1.6%.

The Reserve Bank of India (RBI), and the central and state governments provided critical support to the economy during the crisis.

To keep funding markets easy, the RBI maintained liquidity surplus through various monetary measures. The external sector exhibited resilience as current account turned surplus for the first time since 2004, on weaker domestic demand, falling oil prices and strength in India's services exports. FDI and equity FII flows were strong, driving India's forex reserves to an all-time high of

~US\$580 billion at the end of FY 2020-21, against ~US\$475 billion at the end of FY 2019-20.

(Source:Mordor Intelligence Report, Carbon Brief)

In keeping with the uptick in economic activity, GST collection was above the C 1 lakh crore mark in the second half of FY21, peaking at C 1.23 lakh crore in March 2021. The agriculture sector, which largely supports the rural economy, remained robust – it registered a growth of 3.0% in FY21(lower than 4.3% growth recorded in FY20).

In view of the economic momentum in Q4 FY21, leading opinion makers had estimated a sharp growth in India GDP for FY22. But the outbreak of the second wave of Covid-19 in India, these estimates have been revised downwards. Amidst the second wave, the Reserve Bank of India (RBI) announced a Covid package of C 50,000 crore for vaccine makers, medical equipment suppliers and hospitals.

The package also included giving funds to Covid positive patients to meet their medical expenses. This package also allowed individual and small borrowers to restructure their loans for up to two years.²

Indian Lighting Industry

The electrical industry has immense growth potential especially considering the increased penetration of electricity and home improvement drive. Historically, the industry has had a high incidence of unorganised suppliers. Over the years, there has been a gradual shift of demand from unorganised to organized sectors. Covid has in fact accelerated this process. It was seen that supplies in the unorganised space were disrupted severely due to Covid led challenges such as working capital shortage, unavailability of labour, gaps in supply chain and alike. Further, the imported supplies were adversely impacted, causing disruption for those who infiltrate the market with substandard imported items.

As per the Mordor Intelligence Report, the Indian LED lighting market is expected to witness a CAGR of 24.3% between 2021-2026. The Government has further enhanced the LED adoption across the country by rapid deployment of LEDs through initiatives such as the Unnat Jyoti by Affordable LEDs for All (UJALA) programme and Street Lighting National Programme (SLNP) that offer LED Lamps at a subsidised cost and LED installation projects for streetlights, respectively. Today, India is one of the largest LED lighting markets in the world after the deployment of the UJALA

programme. As per the National UJALA Board statistics of May 2021, over 367 million LEDs have been distributed across the nation. Besides, it has also led to an annual savings of -47,701 million kWh energy, approximately 9,550 MW of peak demand, translating into ` 19,081 crore cost reduction and estimated GHG emission reduction of 38.63 million tonnes CO2 annually. Under SLNP, about 1.14 crore LED streetlights were installed across India.

It led to an annual energy savings of 7.67 billion, peak demand of 1,280 MW and estimated GHG emission reduction of 5.29 million tonnes CO2 annually. Moreover, there has been an estimated annual monetary savings of ` 5,210 crore in the electricity bills of municipalities. Both the initiatives have led to a socio-economic transformation in India. Besides reducing emissions and promoting sustainable development, it has also revamped household and public lighting systems across the country. The switch from inefficient incandescent bulbs to LEDs is helping families reduce their electricity bills and enabling them to access better brightness in homes. It has enhanced disposable incomes, leading to an improvement in the quality of life and generating prosperity in local communities.³

Company Overview

The Company is engaged in manufacturing and selling complete Light Emitting Diode (LED) lighting and related electronic products for both domestic and industrial applications. The operations of the Company can be broadly classified as Electronics Manufacturing Services (EMS) wherein it undertakes manufacturing of any electronic component and supplies to other equipment manufacturers (OEMs) and Original Design & Manufacturing (ODM) wherein the Company carries end-to-end activity including designing for the lighting product.

The onset of the pandemic at the beginning of the year caused major disruptions to the supply chain and manufacturing activity. However, despite the initial hurdle, the Company's operations were back on track after the lockdown restrictions were slowly withdrawn in phases.

Towards the end of 2019, Calcom entered the LED Bulbs business and quickly gained momentum. We designed a product that was more reliable and was able to withstand voltages upto 440V and surges upto 4000V. Subsequently, we designed bulbs for various wattages as per new BEE standards which became applicable from 1st January 2021. These bulbs are more energy efficient, as the lumen output per watt is increased by almost 15%. **We started with 1.5 million Bulbs and increased our production to 8 million bulbs in 2020.** To meet the growing demand, we have imported an Automatic Bulb Assembly Machine to increase the production capacity and improve the quality.

The Company had tied up with PANASONIC LIFE SOLUTIONS INDIA PVT LTD, GREAT WHITE INTERNATIONAL, LEDVANCE and USHA INTERNATIONAL as our privileged customers. The company is also in discussion with other major brands and expects to conclude the business in the forthcoming year.

Internal Management Controls

The Company is focusing to increase efficiency and perform effectively in the dynamic business environment. We are undertaking Annual Review Workshop Programs with the extended management team to review past year's performance, do regular SWOT analysis and finalize the Key Focus Areas for the future. Regular trainings across departments in key managerial functions such as Problem Solving, Decision making etc are conducted to aid managers in their day-to-day work.

Some of the Key Decisions taken in the workshops are:

1. Formal "Monthly Performance Review (MPRs)" with Core Management – Review of past month performance and next month plan.
2. Defining Key Result Areas (KRAs) and measurable Key Performance Indicators (KPIs) for each function – Sales & Marketing, Purchase/Procurement, Production, Finance & Accounts, Quality, R&D and HR.
3. Holding Daily Cross Functional Review meetings for monitoring of sales, production and purchasing progress, to review and expedite resolution of operational issues.
4. Revamping of Production Floor Layout to achieve Increased Capacity, Improved process flow and optimized equipment usage.
5. Extending existing production lines to enhance capacity, and achieve seamless process flow and elimination of non-value add efforts & time.
6. Continuing with 5S and Kaizen Improvement Framework.
7. Continuing with the Governance model involving daily and monthly audits to track the progress & improvements made.
8. Identifying and taking Cross Functional Projects..

Due to COVID-19, the Company faced a workforce shortage as most of the workers migrated back to their hometowns and couldn't travel back due to transport restrictions. Even workers residing in the NCR region could not commute because of inter-state transport restrictions. To combat this, Fresh recruitments were undertaken for the manpower and the company provided fast-track training to these employees. This however resulted in higher costs.

Change in Accounting Policy

To represent the true and fair view of the Financial Statements, the Company adopted the revalued value of Land and Building. For revaluation, your Company had considered realizable value as per the valuation report obtained from an independent registered valuer.

S.No.	Property Name	Value before revaluation	Value after revaluation	Revaluation Impact (INR in Lacs)
1	Land	18.06	1757	1738.94
2	Building	108.67	1410	1301.33
	Total	126.73	3167	3040.27

Opportunities and Threats

Opportunities

- Having a stable government has led to a positive business environment which has been further fuelled from initiatives such as Make in India, Start-Up India, GST implementation, Skill India, Digital India. This has also increased the confidence of major world players and foreign investors are stepping up their investments in India. Government Policy has provided complete aid for the growth and liberalization of the consumer electronic manufacturing industry.
- The US-China trade war is likely to have a positive impact on the Indian economy. With higher duties being imposed on Chinese Imports, American companies would look towards India for sourcing their requirements.
- The demand for LED bulbs is increasing and there are not many organized manufacturers in the industry.

Threats

- Increased Raw material prices due to global shortages. Covid-19 has disrupted the global supply chain and its effects are being felt across the world. Sharp increase in Raw material prices lead to lower margins and ultimately the profitability is affected.
- There is huge price erosion in LED products due to rising metal and freight costs, the Company has to continue developing newer products and continuously look for cost reduction opportunities.
- Uncertainties and cash flow constraints because of COVID-19.

Product Wise Performance

The Company sold Lighting Products valued at approx. Rs. 5768.08 Lacs in the year 2020-21 as compared to Rs. 4736.23 Lacs in the year 2019-20. Although we had targeted sales of Rs 7200 Lacs, due to slow Economic growth coupled with lockdown restrictions the company fell short of achieving its targets.

Business Outlook

The company has decided to make a strategic shift to focus on Low Wattage Bulbs in the product mix. It will also continue to focus on:

Scaling Up

- Added Significant Bulb capacity and more in the pipeline..
- Conclude business with new customers.
- Enhanced Product portfolio with existing customers

Process Improvements

- Process Efficiency and Transparency
- Regular Monitoring of Inventory Levels, Collections, Payments

Seamless Coordination among functions

- Teamwork across departments
- Alignment with the Organization Goal

Customer Delight

- Competitive Prices
- Deliver quality products and services
- Timely delivery with minimal disruptions
- Quick Response times.

The industry scenario is looking positive and the Company is expecting a good growth in revenue and profitability in the coming year in spite of the Covid-19 pandemic.

Internal Control Systems And Their Adequacy

The Company has an appropriate system of internal control. Fixed Assets of the Company are inspected once a year & Stocks are counted cyclically on a perpetual basis. All the financial transactions are duly authorized as per the delegation of Authority.

An Audit Committee comprising 4 non-executive Independent Directors and one non-executive director is in place to further strengthen the internal controls. The Audit Committee meets regularly to review the Audit and Accounts reports.

For efficient audit and control and also for specialised functions the Company has appointed M/s Mazars Business Advisors Private Limited– a leading international audit, tax and advisory firm, as an Internal Auditor of the Company for FY 21-22.

Human Capital

Human resources form the most significant element responsible for an uninterrupted growth for the Company. The Company makes all efforts in attracting, retaining, and developing the best talent required for the business to grow. The employee skills are regularly updated with training and development programmes. The Company enjoys high Employee satisfaction and motivation levels leading to higher retention and low attrition rates.

The Company's human resource and industrial relation policies focus on working together with the employees for their personal and professional development and at the same time aligning their goals with that of the Company to create a win-win situation.

Company had also given an opportunity to employees to create value for themselves through Stock Options. Stock Options have been recognised as an effective instrument to attract talent and align the interest of employees with that of the Company, thereby providing an opportunity to the employees to share in the growth of the Company and to create long-term wealth in the hands of employees, thereby acting as a retention tool.

Risks And Mitigation

The Company has adopted a robust risk management policy, approved by the Board of Directors, to identify, evaluate and mitigate business risks and protect stakeholder interests. The Company's Risk Management framework focuses on timely identification of risks and initiates mitigation strategies to steadily tide through crisis. The key business risks identified by the Company and its mitigation plans are as under:

1. Covid-19 Pandemic:

- The 2nd wave of COVID-19 pandemic rapidly spread in the month of April. Due to the lockdown restrictions imposed across the country, there was once again a workforce shortage as many workers left for their home-towns fearing extended lockdowns. The company took proactive action to combat this problem by hiring fresh recruits on an on-going basis and provided them with training to continue production activities.
- Lockdown/restrictions impacted the Company operationally leading to Raw Material shortages and increased prices, Supply Chain constraints and Overall Slowdown in consumer demand due to country wide lockdowns. The company is monitoring the situation closely and maintaining stock of critical items.

2. Business Performance:

- Due to lockdown restrictions, the factory was virtually closed for 2 months. Due to this unprecedented situation, the company could not achieve its annual targets. However, the company put all efforts to make up for the lost sales and managed to achieve its highest turnover of INR 5750 Lacs in the last decade. Your company has also added new clients and this will reflect in the current year performance.

3. Working Capital Requirements:

The pandemic and resultant lockdown restrictions across the country led to a cash-flow crunch. To address this challenge, your company has taken several measures.

- Promoters have sold part of their equity via an OFS (to comply with SEBI guidelines of minimum public shareholding).
- We have also sought additional loans from our existing lenders Debt at a lower interest rate reducing the overall Interest cost for the company. With better liquidity position, the Company shall be able to plan its working capital at optimum level and shall maintain minimum stocks of volatile materials

2. Occupational Health & Safety Risks:

- The company is making all efforts to ensure a Safe working environment for its employees. Social Distancing, Mandatory masks, and regular sanitization of the premises is happening on a daily basis. In addition, your company is also ensuring that all eligible employees get vaccinated . Your company also undertakes regular training and safety audits to ensure an injury free environment for all the employees.

Responsibility also includes collecting, collating and validating data and designing, implementing and monitoring of Corporate Governance process suitable for ensuring compliance with the above mentioned Listing Regulations.

Our Responsibility

Pursuant to the Listing Regulations, it is our responsibility to provide a reasonable assurance whether the Company has complied with the conditions of Corporate Governance as stipulated in Listing Regulations for the year ended March 31, 2021.

We have examined the compliance of conditions of Corporate Governance by the Company for the period April 01, 2020 to March 31, 2021 as per the Listing Regulations. Our responsibility is limited to examining the procedures and implementation thereof, adopted by the Company for ensuring compliance with the conditions of the Corporate Governance for the period April 01, 2020 to March 31, 2021. It is neither an audit nor an expression of opinion on the financial statements of the Company.

Opinion

Based on our examination of the relevant records and according to the information and explanations furnished to us and the representations provided by the Management and after considering the relaxations granted by Ministry of Corporate Affairs and Securities and Exchange Board of India due to spread of the Covid-19 pandemic, we certify that the Company has complied with the conditions of Corporate Governance as stipulated in Regulation 17 to 27 and clauses (b) to (i) of Regulation 46(2) and para C and D of Schedule V to the Listing Regulations during the financial year ended March 31, 2021:

Ms. Yuvika Bader (Women Director) resigned w.e.f 30.03.2021 and to comply with the Compliance of the Companies Act 2013 and SEBI (LODR) Regulation 2015, the Company on May 28, 2021 had appointed Mrs. Parvathy Venkatesh (DIN: 00414603) as an Independent Director.

As per the Hon'ble BIFR Scheme, the ZCCBs 218,804 were converted into 72,93,467 (Seventy Two Lacs Ninety Three Thousand Four Hundred and Sixty Seven Only) Equity Shares in three tranches at a premium of INR 20/- per share.

As a result of conversion of ZCCBs into Equity Shares the Promoters shareholding breached the threshold limit of minimum public shareholding.

The Company also received notice from BSE in respect of compliance with MPS Requirement levying penalty, and the Company has made formal request for waiver of the same. On August 12, 2021 and August 13, 2021 the Promoters came up with 'Offer for Sale' (OFS) of 6,88,155 Equity Shares to comply with the MPS requirements as mandated under Rule 19A of Securities Contract (Regulation) Rules, 1957. The issue was oversubscribed and the Company was also able to fulfil the MPS Compliance.

We further state that such compliance is neither an assurance as to the future viability of the Company nor the efficiency or effectiveness with which the Management has conducted the affairs of the Company.

Restriction on use

The certificate is addressed and provided to the members of the Company solely for the purpose to enable the Company to comply with the requirement of the Listing Regulations, and it should not be used by any other person or for any other purpose.

Reconciliation of Share Capital Audit

As stipulated by the Regulation 55A of SEBI (Depositories and Participants) Regulations, 1996, a practicing Company Secretary carries out the Reconciliation of Share Capital Audit, on a quarterly basis, to reconcile the total admitted capital with National Securities Depository Limited (NSDL) and Central Depository Services (India) Limited (CDSL) with the total listed and paid-up capital. The audit report, inter alia, confirms that the total listed and paid up capital of the Company is in agreement with the aggregate of the total number of shares in dematerialised form and total number of shares in physical form.

For shareholders holding shares in dematerialised mode

Shareholders holding shares in dematerialised mode are requested to intimate all changes with respect to bank details, mandate, nomination, power of attorney, change of address, change of name etc. to their depository participant (DP). These changes will be reflected in the Company's records on the downloading of information from Depositories, which will help the Company provide better service to its shareholders.

Update for shareholders holding their equity shares in physical form

With the aim of curbing fraud and manipulation risk in physical transfer of securities, SEBI (Listing Obligations and Disclosure Requirements) (Fourth Amendment) Regulations, 2018, mandated the conversion of physical holding into electronic mode i.e. in demat form, for transferring shares to another person(s)/entity(s) after March 31, 2019. In view of the above and the following inherent benefits of holding shares in electronic form, the Company once again urge the shareholders holding shares in physical form to opt for dematerialisation:

1. Freedom from physical storage
2. Elimination of chances of theft, mutilation, defacement etc.
3. Easy to sell and realise sale proceeds and/or dividend in the bank account linked with the Depository.
4. Contribution to the 'Green Initiative'
5. To make any change in your particulars, you can make single request with your DP, which will be applicable to all companies in your demat account.
6. Demat account can be operated from anywhere in the world.

Share Transfer System

All share transfer and other communications regarding share certificates, change of address, etc. should be addressed to the Company's RTA. Stakeholders Relationship Committee and/or Company Secretary in terms of authority granted by the Board of directors are authorised to approve transfer of shares in the physical segment. Such transfers generally take place on fortnightly basis. All share transfers are completed within statutory time limit from the date of receipt, provided the documents meet the stipulated requirement of statutory provisions in all respects. The Company obtains from a Practicing Company Secretary, half yearly certificate of compliance with the share transfer formalities as required under Regulation 40(9) of the Listing Regulations and files a copy of the same with the Stock Exchanges.

In terms of requirements to amendments to Regulation 40 of Listing Regulations w.e.f. April 1, 2019, transfer of securities in physical form shall not be processed unless the securities are held in the dematerialised form with a depository.

Auditor's Report

INDEPENDENT AUDITOR'S REPORT

To the Members of Calcom Vision Limited

Report on the Audit of the Standalone IndAS Financial Statements

Opinion

We have audited the standalone IndAS financial statements of Calcom Vision Limited, which comprise the balance sheet as at 31st March 2021, and the statement of profit and loss, statement of changes in equity and statement of cash flows for the year then ended, and notes to the Ind AS financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone Ind AS financial statements give the information required by the Companies Act, 2013 in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2021, and its profit & total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Ind AS Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical

requirements that are relevant to our audit of the standalone Ind AS financial statements under the provisions of the Companies Act, 2013 and the Rules there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Assessment of COVID-19 Impact

The World Health Organization announced a global health emergency because of a new strain of coronavirus ("COVID-19") and classified its outbreak as a pandemic on March 11, 2020. On March 24, 2020, the Indian government announced a strict 21-day lockdown across the country to contain the spread of the virus, which was further extended till May 31, 2020. Further, the second wave of the pandemic also impacted the country in the months of April & May 2021 and consequent lockdown & restrictions imposed by state governments amid vaccination drive throughout the country. This pandemic and response are creating disruption in global supply chain and adversely impacting most of the industries which has resulted in global slowdown.

The management has made an assessment of the impact of COVID-19 on the Company's operations,

financial performance and position as at and for the year ended March 31, 2021 and has concluded that there is no impact which is required to be recognised in the financial statements.

The full extent and duration of the impact of COVID-19 is currently unknown even after vaccination and the provision made by the Company based on its estimates involves a significant amount of judgement including the duration and spread of the pandemic and any new information that may emerge concerning the severity of the virus, its spread and the actions to contain the virus or treat its impact, among others. Hence, we have ascertained the assessment of the impact of COVID-19 as a key audit matter.

How the Key Audit Matter was addressed in our audit

Our audit procedure in respect of this area include but are not limited to testing the design and operating effectiveness of key controls over recognition of revenue & provisioning of expenses, verification of management evaluation over appropriate going concern assumption.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that

were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone Ind AS financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Ind AS financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone Ind AS financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Ind AS financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone Ind AS financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the 'Annexure-A' a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
 4. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

 - d. In our opinion, the aforesaid standalone Ind AS financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
 - e. On the basis of the written representations received from the directors as on 31st March, 2021 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2021 from being appointed as a director in terms of Section 164(2) of the Act.
 - f. With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".
 - g. With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended: In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the company to its directors during the year is in accordance with the provisions of section 197 of the Act.
 - h. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

- a) The Company has disclosed the impact of pending litigations on its financial position in its financial statements – Refer Note 38 to the standalone Ind AS financial statements.
- b) The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
- c) There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

ANNEXURE-B TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE STANDALONE IND AS FINANCIAL STATEMENTS OF CALCOM VISION LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")t

We have audited the internal financial controls over financial reporting of Calcom Vision Limited ("the Company") as of March 31, 2021 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the standalone Ind AS financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2021.

Calcom Vision Limited**Ro:** C-41, Defence Colony, New Delhi-110024**Cin-**l92111dl1985plc021095**www.calcomindia.com****Balance Sheet As At 31st March, 2021**

1. Corporate information

Established in the year 1985, Calcom Vision Limited, an ISO 9001 certified company, having registered office in Delhi and Manufacturing unit at Surajpur Industrial Area, Greater Noida (Uttar Pradesh) India. The Company is engaged in the manufacturing and selling of Lighting and Electronics Products.

2. Basis of preparation

The financial statements are prepared on accrual basis under the historical cost convention as supplemented by financial instruments which are measured at fair values in accordance with the provisions of the Companies Act, 2013 including schedule III and Ind AS as prescribed under section 133 & rules thereunder.

3. Use of estimates

The preparation of financial statements in conformity with Ind AS requires management to make estimates and assumptions that affect the reported balances of assets and liabilities and the disclosure relating to contingent liabilities as at the date of financial statements and reported amount of income and expenses during the period. The estimates and assumptions used in the financial statements are based upon the Management's evaluation of the relevant facts and circumstances as on the date of financial statements. Management believes that the estimates used in the preparation of the financial statements are prudent and reasonable. Difference between the actual results and estimates are recognised in the year in which the results are known or materialized.

4. Global Health Pademic Covid-19

The Covid-19 pandemic has already resulted in economic slowdown throughout the world including India. The operations of the Company have also been significantly impacted including shutdown of its manufacturing plant and offices following a nationwide lockdown by the Government of India. The Company resumed operations of its plant during the first week of May 2020 as per directives from the State Government and Government of India.

The Company has evaluated the impact of this pandemic on its business operations and financial position while preparing these financial statements and has considered internal and external information for making this evaluation. The Company's assessment is based on its current estimates while assessing the provision towards employee benefits and assessing the realizability of inventories, trade receivables, other financial assets etc. The Company has also assessed the impact of this whole situation on its capital and financial resources, profitability, liquidity position, internal financial reporting and controls etc.

However, the impact assessment of Covid-19 is a continuing process given the uncertainties associated with its nature and duration, and the actual impact on these financial statements may differ from that estimated due to unforeseen circumstances. The Company will continue to closely monitor any material changes to future economic conditions.

5. Significant Accounting Policies

(i) Revenue Recognition

Revenue from the sale of goods and services are measured at the fair value of the consideration received or receivable, net of returns and allowances, trade discounts, rebates and incentives etc. Sales figure are recognized excluding Goods and Service Tax.

All Other income and expenditure items having a material bearing on the financial statements where certainty of ultimate collection/payment exist, are recognized on accrual basis.

(ii) Property, Plant & Equipment

Property, plant and equipment are stated at cost except where assets are revalued, net of accumulated depreciation and accumulated impairment losses, if any. Cost comprises of the purchase price (net of GST / duty credits wherever applicable) and all direct costs attributable to bringing the asset to its working condition for intended use and includes the borrowing costs for qualifying assets and the initial estimate of restoration cost if the recognition criteria is met. Wherever assets are revalued, Gross carrying amount is adjusted by the amount added on revaluation based on Govt. approved valuers' report and disclosed separately as required under the Companies Act, 2013. All other repair and maintenance costs are recognised in the statement of profit and loss as incurred. Software and licences which are integral part of the PPE are capitalised along with respective PPE.

An item of property, plant & equipment is de-recognised upon disposal or when no future economic benefits are expected from its use or disposal. The gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the Statement of Profit and Loss on the date of disposal or retirement.

Capital work-in-progress includes cost of property, plant and equipment under installation / under development as at the balance sheet date. Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under other non-current assets and the cost of Property, Plant and Equipment not available for use before such date are disclosed under 'Capital work-in-progress'.

(iii) Amortization and Depreciation

- (a) During the year, the company has provided depreciation on Straight Line Method, as determined on the basis of useful lives specified in Schedule II of the Companies, Act, 2013.
- (b) Depreciation on Plant & Machinery of AI/SMT Division has been provided on Double Shift Basis.
- (c) Property, plant and equipment (PPE) which are added/ disposed- of during the year, depreciation is provided on pro-rata basis from (up- to) the date on which the PPE is available for use (disposed-off).
- (d) Leasehold Land is amortized over the period of lease. The Right to use has been amortized over the period of Lease as per the Ind AS-116

(iv) Employee Benefits

Expenses and liabilities in respect of employee benefits are recorded in accordance with Ind-AS 19 – Employee Benefits.

(a) Defined contribution plan

Provident Fund & ESI Fund: Contribution to the provident fund & ESI Fund with the government at pre-determined rates is a defined contribution scheme and is charged to the statement of Profit and Loss. There are no other obligations other than contribution to PF & ESI Schemes.

(b) Defined benefit plan

Gratuity : The Company provides for gratuity, a defined benefit retirement plan ('the Gratuity Plan') covering eligible employees. The Gratuity Plan provides a lumpsum payment to vested employees at retirement, death, or termination of employment, of an amount based on the respective employee's salary and the tenure of employment with the Company. Provision for gratuity is made as per the provision of payment of gratuity act, as calculated by the independent actuary.

(c) Other Short-term employee benefits:

All employee benefits payable wholly within twelve months rendering services are classified as short term employee benefits. Benefits such as salaries, wages, short-term compensated absences, performance incentives etc. and the expected cost of bonus, ex-gratia are recognised during the period in which the employee renders related service. Liabilities in respect of encashment of accumulated leaves by the employees is estimated by the management and charged to Profit & Loss account.

(v) Provisions, Contingent Liabilities and Contingent Assets

Provisions involving substantial degree of estimation in measurement are recognized (other than employees benefits) when there is present obligation as a result of past events and it is possible that there will be an outflow of resources.

Contingent Liabilities are not recognized in the financial statements but are disclosed in the notes to accounts. Contingent Assets are neither recognized and nor disclosed in financial statements.

(vi) Share Based Payments

Share-based compensation benefits are provided to employees via the Company's Employee Stock Option Scheme. The fair value of options granted under the Employee Stock Option Scheme of the Company is recognised as an employee benefit expense with a corresponding increase in equity. The total expense is recognised over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied. At the end of each period, the entity revises its estimates of the number of options that are expected to vest based on service conditions. It recognises the impact of the revision to original estimates, if any, in profit or loss, with a corresponding adjustment to equity.

(vii) Foreign currency reinstatement and translation**(a) Functional and presentation currency**

These financial statements have been presented in Indian Rupees (INR), which is the Company's functional and presentation currency.

(b) Transactions and balances

Transactions in currencies other than the entity's functional currency (foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Nonmonetary items are measured in terms of historical cost in foreign currencies and are therefore not retranslated.

(c) Any income or loss on account of exchange fluctuation on settlement / year end, is recognised in the profit & loss account except in cases where they relate to acquisition of Property, Plant & Equipments in which case they are adjusted to the carrying cost of such asset as per guidelines and Ind AS-21 issued by Institute of Chartered Accountants of India.

(viii) Income Taxes

- (a) Provision for Income Tax is made at the amount expected to be paid to the Tax Authorities in accordance with the Income Tax Act, 1961 and Income Computation & Disclosure Standards using the tax rates as per the Tax Law that have been enacted or substantively enacted as on the date of the Balance Sheet.
- (b) Deferred tax assets and liabilities are recognised for the future tax consequences of temporary differences between the carrying values of assets and liabilities and their respective tax bases, and unutilised business loss and depreciation carry-forwards and tax credits. Deferred tax assets are recognised to the extent it is probable that future taxable income will be available against which the deductible temporary differences, unused tax losses, depreciation carry-forwards and unused tax credits could be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered. Deferred tax assets and liabilities are measured based on the tax rates that are expected to apply in the period when the asset is realised or the liability is settled, based on the tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date. Current and deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

(ix) Cash Flow Statement

Cash and cash equivalents includes cash on hand and at bank, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value and are held for the purpose of meeting short-term cash commitments. The cash flow statement has been prepared under the indirect method as set out in Indian Accounting Standard (IND AS) 7 statement of cash flows.

(x) Impairment of Assets

Property, Plant & Equipments are assessed annually on the balance sheet date having regards to the internal & external source of information so as to analyze whether any impairment of the asset has taken place. If the recoverable amount, represented by the higher of Net Selling Price or the Value in use, is lesser than carrying amount of Cash-generating unit, then the difference is recognized as Impairment Loss and is debited to Profit and Loss Account. Further Suitable reversals are made in the books of accounts as and when the impairment loss ceases to exist or shows a decrease.

(xi) Financial Instruments

Financial instruments are recognised on the balance sheet when the Company becomes a party to the contractual provisions of the instrument. Initially, a financial instrument is recognised at its fair value. Transaction costs directly attributable to the acquisition or issue of financial instruments are recognised in determining the carrying amount, if it is not classified as at fair value through profit or loss. Transaction costs of financial instruments carried at fair value through profit or loss are expensed in profit or loss. Subsequently, financial instruments are measured according to the category in which they are classified.

Classification of financial assets is based on the business model in which the instruments are held as well as the characteristics of their contractual cashflows. The business model is based on management's intentions and past pattern of transactions. The Company reclassifies financial assets when and only when its business model for managing those assets changes.

Financial liabilities are classified as subsequently measured at amortised cost unless they meet the specific criteria to be recognised at fair value through profit or loss. Other financial liabilities are measured at amortised cost using the effective interest method. Subsequent to initial recognition, these are measured at fair value with gains or losses being recognised in profit or loss.

(xii) Borrowing Cost

Borrowing cost that are directly attributable to acquisition or construction of qualifying assets has been capitalized as part of such asset as per Ind AS-23 on Borrowing Costs issued by the ICAI. All other borrowing cost are charged to revenue in the period when they are incurred.

(xiii) Earning Per Share

Earning Per Share is calculated by dividing the net profit for the year attributable to equity shareholders by the weighted average no. of equity shares outstanding during the year as per Ind AS-33 issued by the ICAI.

Diluted earnings per equity share is computed by dividing the net profit attributable to the equity holders of the company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares.

(xiv) Government grants/Assistance

Government grants/Assistance recognised where there is reasonable assurance that the same will be received and all eligibility criterias are met out. If the grants/assistance are related to subvention of a particular expense, it is deducted from that expense in the year of recognition of government grant / Assistance.

(xv) Inventories**Inventories**

- Raw Material
- Work in Process
- Finished Goods
- Goods in Transit

Basis of Valuation

- At cost or net realisable value which ever is lower.
- At cost or net realisable value whichever is lower
- At cost or net realisable value whichever is lower
- At cost

* Cost of inventories are derived by using FIFO method and it includes the costs incurred in bringing the items of inventories to there present location and condition.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.
